## **OVERNIGHT RAMP CLOSURES AND DETOURS SCHEDULED AT OGDEN AVENUE INTERCHANGE ON CENTRAL TRI-STATE TOLLWAY (I-294)** *Ramp closures required for bridge and electrical work*

**DOWNERS GROVE, IL** – Temporary, overnight closures and detours are scheduled this week on the ramps connecting Ogden Avenue and the Tri-State Tollway (I-294) for bridge and electrical work as part of the Ogden Avenue Interchange Project.

The full ramp closures are necessary to remove protective shielding under the Ogden Avenue Bridge over I-294 and to complete electrical work in the area. In addition, an overnight, single lane closure will be scheduled on Ogden Avenue coinciding with the ramp closures.

Electronic message signs and construction signage will be put in place in advance to alert drivers to closures and detours. Closures are necessary to provide a safe work zone and are being scheduled during overnight hours to reduce the disruption to commuters. Up-to-date closure and detour information will be posted on the Tollway website and in the [Daily Construction Alert](#). All work is weather dependent.

Beginning at 8 p.m. on Wednesday, January 11, and continuing until 5 a.m. on Thursday, January 12, the ramp connecting eastbound Ogden Avenue to northbound I-294 and the ramp connecting northbound I-294 to westbound Ogden Avenue are scheduled to close and detours will be posted.

In addition, beginning at 9 p.m. on Thursday, January 12, and continuing until 5 a.m. on Friday, January 13, the ramp connecting westbound Ogden Avenue to southbound I-294 and the ramp connecting southbound I-294 to eastbound Ogden Avenue are scheduled to close and detours will be posted.

If work cannot be completed during these times, backup closures will be scheduled during the week of January 16.

The ramp detours include:

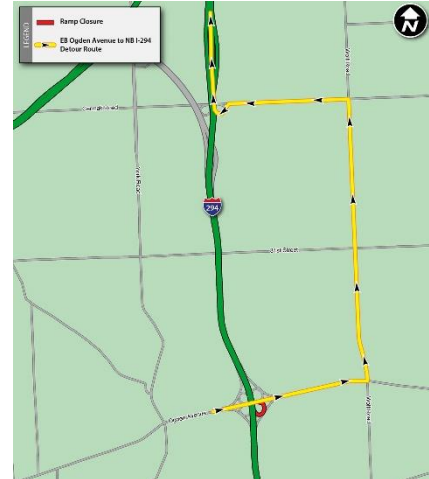

- For westbound Ogden Avenue to southbound I-294: Traffic will be routed to southbound Illinois Route 83 and northbound I-55 to access southbound I-294.
- For southbound I-294 to eastbound Ogden Avenue: Traffic will be routed to northbound Joliet Road and northbound U.S. Route 45 to access eastbound Ogden Avenue.
- For eastbound Ogden Avenue to northbound I-294: Traffic will be routed to northbound Wolf Road and westbound Cermak Road to access northbound I-294.
- For northbound I-294 to westbound Ogden Avenue: Traffic will be routed to eastbound Ogden Avenue, northbound Wolf Road, westbound 31<sup>st</sup> Street and southbound Illinois Route 83 to access westbound Ogden Avenue.

Construction in this area is being coordinated with the Illinois Department of Transportation, Village of Hinsdale, Village of Oak Brook, Village of Western Springs, Cook County Department of Transportation, DuPage County Division of Transportation, Forest Preserves of Cook County, Oak Brook Park District, as well as local fire and police departments.

Information about the Ogden Avenue Interchange Project including maps and construction updates is available on the Tollway's website at [www.illinoistollway.com](http://www.illinoistollway.com) in the Projects section.

The Illinois Tollway is investing \$8.9 million to reconfiguring the Ogden Avenue Interchange to improve mobility and traffic flow for local drivers and Tollway customers. Currently up to 40,000 vehicles use the interchange daily with up to 33,600 vehicles traveling on Ogden Avenue in the area

To accommodate the reconstruction and widening of the Central Tri-State Tollway, the Ogden Avenue Interchange will be reconfigured from a cloverleaf design to a partial cloverleaf design. The Illinois Tollway is combining ramps on the east side of I-294 to create one signalized access ramp from Ogden Avenue to northbound I-294 and the ramp connecting northbound I-294 to eastbound Ogden Avenue will be relocated with access control at the new traffic signal.

Improvements on Ogden Avenue will include repairs and median reconstruction on the existing bridge over I-294. In addition, on eastbound Ogden Avenue a new left turn lane will be constructed to provide

access to northbound I-294 and the merge lane will be extended to provide vehicles exiting the Tollway with additional distance to merge. The project also includes noisewall construction, drainage and lighting improvements and landscaping.

The \$4 billion Central Tri-State Tollway (I-294) Project is reconstructing and widening the roadway between Balmoral Avenue and 95<sup>th</sup> Street to provide congestion relief, update old infrastructure to meet current and future transportation demand and address regional needs. This work is part of the Tollway's 15-year, \$14 billion capital program, *Move Illinois: The Illinois Tollway Driving the Future*. More than 220,000 vehicles use the Central Tri-State Tollway daily.

### **Work Zone Safety**

Construction zone speed limits are in effect in all construction zones 24/7 and drivers should continue to watch for changing traffic patterns and use caution, especially when workers are present. On I-294, a 45 mph work zone speed limit is in effect throughout the construction season. On Ogden Avenue, a 35 mph work zone speed limit is in effect.

The Illinois Tollway reminds motorists that the "Move Over Law" requires motorists to change lanes or to slow down and proceed with caution when passing any vehicle on the side of the road with hazard lights activated. If you see flashing lights ahead, please move over or slow down.

Illinois State Police have zero tolerance for drivers speeding in work zones or failure to comply with the Move Over Law. The minimum penalty for speeding in a work zone is \$250 with up to a \$25,000 fine and a 14-year jail sentence for hitting a roadway worker. Penalties for failure to slow down or move over for a vehicle on the shoulder with flashing lights includes up to a \$10,000 fine, 2-year suspension of driving privileges and jail time, in extreme cases.

### **About Move Illinois**

The Illinois Tollway's 15-year, \$14 billion capital program, *Move Illinois: The Illinois Tollway Driving the Future*, is improving mobility, relieving congestion, reducing pollution, creating as many as 152,000 jobs and linking economies throughout the region. The first 12 years of *Move Illinois* is on schedule and within budget, delivering the rebuilt and widened Jane Addams Memorial Tollway (I-90) as a state-of-the-art 21<sup>st</sup> century corridor and completing a new interchange connecting the Tri-State Tollway (I-294) to I-57. Progress continues on projects addressing the remaining needs of the existing Tollway system, delivering the new I-490 Tollway and reconstruction of the Central Tri-State Tollway (I-294).

### **About the Illinois Tollway**

The Illinois Tollway is a user-fee system that receives no state or federal funds for maintenance and operations. The agency maintains and operates 294 miles of roadways in 12 counties in Northern Illinois, including the Reagan Memorial Tollway (I-88), the Veterans Memorial Tollway (I-355), the Jane Addams Memorial Tollway (I-90), the Tri-State Tollway (I-94/I-294/I-80) and the Illinois Route 390 Tollway.
