**FOR IMMEDIATE RELEASE**  
**December 10, 2024**

**\*\*UPDATED\*\***

## **LANES SCHEDULED TO REOPEN FOR WINTER TRAVEL CONFIGURATION ON YORK ROAD IN ELK GROVE VILLAGE**

*Lane closures will resume in spring for York Road Improvement Project, part of the I-490/IL 390 Interchange Project*

**DOWNERS GROVE, IL** – Beginning the week of December 16, York Road between Devon Avenue and Supreme Drive in Elk Grove Village is scheduled to reopen to two lanes in each direction providing for travel during the winter.

The road has been reduced to one lane in each direction since September to accommodate roadway reconstruction and drainage improvements as part of the Illinois Tollway York Road Improvement Project in partnership with DuPage County.

Traffic is scheduled to remain in this configuration until spring 2025 when traffic will be reduced again to one lane in each direction between Devon Avenue and Supreme Drive to continue construction on the project. Work in 2025 will include the reconstruction of the northbound lanes of York Road.

Construction signage will be put in place in the spring to alert drivers to new traffic patterns. Lane closures and traffic shifts on York Road are necessary to provide a safe work zone and accommodate traffic during construction. Up-to-date closure information will be posted on the Tollway website in the [Daily Construction Alert](#). All work is weather dependent.

Construction in this area is being coordinated with DuPage County, Elk Grove Village, Village of Bensenville, and the City of Chicago, as well as local fire and police departments.

Construction updates, project information, maps and detour information for work that is part of the York Road Reconstruction Project are available as part of the I-490/IL 390 Interchange Project page in the Projects section on the Tollway's website at [www.illinoistollway.com](http://www.illinoistollway.com).

The Illinois Tollway is reconstructing a portion of York Road within the new I-490/IL 390 Interchange area and including additional work in collaboration with the DuPage County Division of Transportation.

In 2025, work will include the continued reconstruction of York Road between Devon Avenue and Supreme Drive, as well as between Gateway Road and Foster Avenue. This work is scheduled to be completed by the end of the year. Reconstruction of York Road between Foster Avenue and Supreme Drive is scheduled to be complete in 2027.

The York Road Reconstruction Project is being delivered in partnership with the DuPage County Division of Transportation, the Village of Bensenville and Elk Grove Village. In addition to the Illinois Tollway's work to restore the portion of York Road within the I-490/IL 390 Interchange area, DuPage County is funding reconstruction of York Road to the north and south of the

-more-

interchange. This project will also include the construction of a multi-use path along the west side of York Road.

### **Work Zone Safety**

Construction zone speed limits are in effect in all construction zones 24/7 and drivers should continue to watch for changing traffic patterns and use caution, especially when workers are present.

The Illinois Tollway reminds motorists that the “Move Over Law” requires motorists to change lanes or to slow down and proceed with caution when passing any vehicle on the side of the road with hazard lights activated. If you see flashing lights ahead, please move over or slow down.

Illinois State Police have zero tolerance for drivers speeding in work zones or failure to comply with the Move Over Law. The minimum penalty for speeding in a work zone is \$250 with up to a \$25,000 fine and a 14-year jail sentence for hitting a roadway worker. Penalties for failure to slow down or move over for a vehicle on the shoulder with flashing lights includes up to a \$10,000 fine, 2-year suspension of driving privileges and jail time, in extreme cases.

### **About Move Illinois**

The Illinois Tollway’s 16-year, \$15 billion capital program, *Move Illinois: The Illinois Tollway Driving the Future*, is improving mobility, relieving congestion, reducing pollution, creating as many as 165,220 jobs and linking economies throughout the region. The first 12 years of *Move Illinois* are on schedule and within budget, delivering the new Illinois Route 390 Tollway and a rebuilt and widened Jane Addams Memorial Tollway (I-90) with its new SmartRoad corridor, as well as opening a new interchange connecting the Tri-State Tollway (I-294) to I-57. Progress continues on projects addressing the remaining needs of the existing Tollway system, delivering the new I-490 Tollway Project and reconstruction of the Central Tri-State Tollway (I-294).

### **About the Illinois Tollway**

The Illinois Tollway is a user-fee system that receives no state or federal funds for maintenance and operations. The agency maintains and operates 294 miles of roadways in 12 counties in Northern Illinois, including the Reagan Memorial Tollway (I-88), the Veterans Memorial Tollway (I-355), the Jane Addams Memorial Tollway (I-90), the Tri-State Tollway (I-94/I-294/I-80) and the Illinois Route 390 Tollway.
