Contract #: 25-1103

Vendor: Energy Absorption Systems, LLC; Addison, TX

Description: Trailer-Mounted Crash Attenuators

Scope: This contract provides a source for the purchase of 15 trailer-mounted crash attenuators. These are all replacements for equipment that will meet or exceed the Tollway’s established replacement criteria at the time of decommissioning. The attenuators are towed behind stake-body trucks and act as a mobile crash cushion to protect drivers. When struck by a vehicle, the attenuators compress to dissipate energy and reduce damage to the equipment and the driver’s vehicle.

Amount: \$507,788.10

Company Information

Energy Absorption Systems is a limited liability company with approximately 643 employees. They were originally founded 56 years ago, and they became a subsidiary of Valtir, LLC in 2010. Energy Absorption Systems provides efficient energy-absorbing materials and technology as well as a variety of impact attenuators, crash cushions, truck-mounted attenuators, high-performance delineators, Safe-Hit® delineators, and other highway safety products.

Description: Construction Corridor Manager and Corridor Program Manager (CCM/CPM)

Location: Elgin O'Hare Western Access (EOWA) Corridor (Illinois Route 390/I-490)

Scope: This professional engineering service contract supplement is for additional construction corridor management and construction management services for the I-490 project. Additional staffing hours are required to provide the necessary inspection, documentation and closeout for managing construction of the new Union Pacific Railroad (UPRR) bridge and railroad tracks and the I-490 bridge that both cross the Canadian Pacific Railway (CPR) Bensenville Intermodal Yard south of O'Hare Airport. All construction activities must be approved by Union Pacific Railroad (UPRR), and coordination with Canadian Pacific Kansas City Southern (CPKC) is mandated for operations within the Bensenville Yard. Additional staffing is necessary due to the increased effort and extended timelines for securing approvals from the Railroads, coordinating construction sequencing with utility relocation work and for mitigation of unexpected underground obstructions discovered within the railroad embankment during construction. The amount represents a not to exceed value based on scope and services as agreed upon.

Award Amount: \$5,072,000.00
