

THE ILLINOIS STATE TOLL HIGHWAY AUTHORITY

Tollway Headquarters

2700 Ogden Avenue

Downers Grove, Illinois 60515

Governor JB Pritzker

Secretary Gia Biagi

Director James Connolly

Director Jacqueline Gomez

Director Manish Mehta

Director Melissa Neddermeyer

Director Scott Paddock

Director James Sweeney

Director Mark Wright

Pursuant to the requirements of the Authority's By-Laws, Notice is hereby given of the Regular Board Meeting of the Authority to be held on **Thursday, October 15, 2026, at 9:30 a.m.** The meeting will be held in the Boardroom of Tollway Headquarters in Downers Grove, Illinois.

Arnaldo Rivera, Chairman

This meeting will be accessible to individuals with disabilities in compliance with Executive Order #5, and pertinent state and federal laws, upon notification of anticipated attendance. Persons with disabilities planning to attend and needing accommodations should contact the Americans with Disabilities Act Coordinator of The Illinois State Toll Highway Authority at (630) 241-6800, Ext. 1010 in advance of the meeting at 2700 Ogden Avenue, Downers Grove, IL, to inform of their anticipated attendance. Information can also be found on our website at <https://www.illinoistollway.com/about/board-information/>.

There will be live feed Webcasting of the Board Meeting while in session. A video file will be available five business days after the meeting at www.illinoistollway.com.

ILLINOIS STATE TOLL HIGHWAY AUTHORITY

Order Against DoIT Master Contract

Contract #: 26-1417**Vendor:** CDW Government LLC; Lincolnshire, IL**Description:** WorkForce Software Timeclocks with Maintenance and Support

Scope: This contract provides a source for the purchase of 41 WorkForce software timeclocks (WFS 7100) for the SAP SuccessFactors project. The existing Kronos timeclocks will be replaced as part of this project. The Tollway is implementing the SAP SuccessFactors solution which will replace the existing MAR system (Human Resources, Payroll, Benefits, and Time Reporting) to an enterprise HR solution. The existing Kronos timeclocks work with the current Kronos time-reporting system which will not be compatible with the new SAP solution. Three years of maintenance and support will be included with the purchase of these 41 timeclocks.

Amount: \$264,629.17

Company Information

CDW Government is a limited liability company founded in 1998 with approximately 13,900 employees nationwide. They provide hardware and software products, maintenance, and support as well as integrated information technology solutions such as mobility, security, data center optimization, cloud computing, virtualization, and collaboration for government, education, and healthcare customers. CDW Government LLC is a subsidiary of the publicly traded CDW Corporation which is headquartered in Vernon Hills, Illinois.

Order Against DoIT Master Contract

Contract #: 26-1464**Vendor:** CDW Government LLC; Lincolnshire, IL**Description:** NetApp Storage Systems, Support, and Services

Scope: This contract provides a source for the purchase of replacement of NetApp data storage equipment for the Tollway. The Tollway's core tolling applications rely on NetApp storage infrastructure to host and protect mission-critical systems and operational data. This storage environment supports toll transaction processing, customer accounts, violation processing, reporting, integrations, backup, disaster recovery, and other business-critical services required for toll collection operations. This procurement will ensure continued availability, performance, scalability, and vendor support for core toll collection systems.

Contract Award -- Tollway Emergency

Contract #: RR-26-2068

Vendor: Lorig Construction Company; Des Plaines, IL

Subcontractors: Geneva Construction Company, LLC; Industrial Fence, Inc. (D/MBE, VOSB);
Maintenance Coatings Co. (D/WBE, SB); Wiss, Janney, Elstner Associates, Inc.

Description: Emergency Bridge Repair Services

Scope: This contract provides for partial steel girder replacement, structural monitoring, shoring of structural components, pavement marking installation, temporary pavement, temporary barrier wall installation and maintenance of traffic. The underside of the Canadian National (CN) Railway bridge over the Reagan Memorial Tollway (I-88) sustained an unforeseen vehicular impact that damaged a primary structural member. The impact caused severe damage to the bridge, resulting in lane closures along I-88 and a shutdown of CN Railway traffic.

Amount: \$3,000,000.00

Company Information:

Lorig Construction Company is incorporated with 29 years in business and approximately 300 employees. Lorig is a family-owned business providing bridge and structural concrete construction, road construction, earth retention systems, pile driving, and sound wall construction.

Company

Information:

Morton Salt is incorporated with 17 years in business (although the company's history stretches back to 1848). The company employs approximately 1,500 employees. They produce table and specialty salts, water softening products, and ice melters. Morton also supplies salt to a wide range of industries, such as food and pharmaceuticals.

Compass Minerals America is incorporated with 38 years in business (although the company's history stretches back to 1844). The company employs approximately 906 employees. They provide essential minerals, including salt for winter roadway safety and other consumer, industrial, and agricultural uses as well as specialty plant nutrition minerals that improve the quality and yield of crops. They produce salt using three major production methods: mechanical evaporation, solar evaporation and harvesting, and rock salt mining from underground mines.

	<i>B</i> Neology, Inc.; Carlsbad, CA	\$3,000,000.00
	<i>C</i> TransCore LLP; Nashville, TN	\$3,000,000.00
	<i>D</i> STAR Systems America, LLC; Dallas, TX	\$3,000,000.00

Description: Electronic Toll Collection Equipment and Services

Scope: This contract provides a reliable source for acquiring I-PASS transponders (primarily sticker tags), related next-generation roadside equipment, and associated technical services needed to support electronic toll collection operations. The next-generation roadside equipment encompasses transponder/sticker tag readers, antennas, and other associated technology. This multi-vendor award allows the Tollway to test new equipment that may be used for future roadside technology improvements. This contract also includes services for project work essential to upgrading and maintaining roadside technology, such as the recent upgrades enabling the use of sticker tags.
(Scope continued on page 3.)

Amount: \$15,000,000.00

Company Information: Please see company information on page 3.

* The contract being used is the E-ZPass Group's competitively bid Request for Proposal which allows multiple vendor awards to maximize competition and drive cost efficiencies. The four awarded vendors successfully completed certification testing and executed contracts with the sponsoring agency, the North Carolina Turnpike Authority. Leveraging this multi-vendor structure enables the Tollway to evaluate emerging technologies, maintain competitive pricing, and select the most advantageous combination of product capability, service quality, and overall value.

Committee / Board Meeting

October 2026

Business Systems

Item Number: **6.3/1 / 6.6/1**

Activity Type: **Approval/Resolution**

Contract Award – Cooperative Purchase

Scope (continued): The technology procured through this contract is essential to ensure the Tollway's continued interoperability and compliance with the E-ZPass Group. I-PASS electronic toll collection remains the Tollway's most cost-effective method for toll collection and improving customer service. As of mid-2026, more than 4.1 million of the Tollway's 10.4 million I-PASS transponders have transitioned to the new sticker tags as part of the agency's multi-year replacement initiative, which will continue through 2030. New customer demand for I-PASS transponders is met through both retail partners and the Tollway's fulfillment services provider, which handles orders placed by phone, mail, and the Tollway's website and mobile app. Because the I-PASS program is ongoing, the business need requires an uninterrupted supply of transponders. Without this contract, the Tollway's ability to procure I-PASS transponders would be at risk, jeopardizing toll revenue collection.

The E-ZPass program is the largest, most successful interoperable toll collection program in the world. As a member of the E-ZPass Group, the Tollway is required to procure and utilize standardized interoperable transponder and reader technology approved by the consortium. This ensures that Tollway customers can seamlessly use their I-PASS transponders across all E-ZPass member and nationally interoperable toll roads and enables accurate, reliable toll transaction processing.

Company

Information:

Kapsch TrafficCom USA is incorporated with 39 years in business and approximately 465 employees. They are an international supplier of technology, solutions, and services for the intelligent transportation systems market offering end-to-end solutions from a single source.

Neology is incorporated with 40 years in business and approximately 467 employees. They provide fully integrated all electronic tolling/open road tolling, automatic license plate recognition, electronic vehicle registration, automatic vehicle identification, and vehicle importation control solutions worldwide.

TransCore is a limited liability partnership with 92 years in business and approximately 2,500 employees worldwide. TransCore provides technology-based engineering solutions, systems, and services for the transportation industry.

STAR Systems America is a limited liability corporation with seven years in business and approximately 28 employees. They are a subsidiary of STAR Systems International. Their products include, but are not limited to, the multi-protocol Titan RFID reader, Avior antenna, and a variety of transponders and antennas targeted at vehicle identification applications.
