INTRODUCTORY SECTION

A Letter from the Chairman
April 10, 2021

Despite a worldwide pandemic, the Illinois Tollway continued to provide safe, efficient travel and high-level service to our customers in 2020. These achievements were accomplished alongside the development of critical programs to deliver relief and equity to customers as we all navigated this incredibly challenging year.

The Tollway's commitment to investing in roadway infrastructure not only supports the region's economy and the mobility of Illinois residents, but also the businesses and workers of our region through the delivery of projects that put people to work.

Our investments have and will continue to create as many as 120,000 jobs and link economies across the Midwest as we continue with our delivery of the *Move Illinois* capital program.

In 2021, we will continue with construction of the new I-490 Tollway, which will provide a ring road around O'Hare International Airport and connect with the Jane Addams Memorial Tollway (I-90), the Illinois Route 390 Tollway and the Central Tri-State Tollway (I-294). We also continue reconstructing the Central Tri-State Tollway (I-294) with the goal of adding capacity and improving access to better connect businesses and residents in the 22-mile corridor from 95th Street to Balmoral Avenue.

In addition, this year we will continue our work to complete the I-294/I-57 Interchange Project as we look to partner with local communities to further expand access, improve mobility and drive economic growth across the region.

The Illinois Tollway takes seriously its responsibility to spend our customers' toll dollars wisely. Operating more like a business than a government agency, the Tollway relies on toll revenue to fund operations, so the agency has adopted a customer-driven approach and is committed to understanding and serving customers' needs and expectations.

In 2021, we will continue to support critical investments in our tolling operations' technology and staff that will help the agency run more efficiently and effectively. These investments will allow us to meet the demands of our customers and to improve efficiency and accountability.

The Tollway also recognizes that it has no greater responsibility than safety. That's why we are investing in infrastructure, technology and services that promote safer travel. We continue testing new barrier and wrong-way driving technology with the goal of delivering a safer system, and we're continually working to engineer safety directly into our roadways to better protect our customers. We also continue to fund the operations of Illinois State Police District 15, which patrols the Illinois Tollway system and enforces laws to protect roadway workers as well as drivers on our roadways.

The Illinois Tollway is an integral part of the state and national transportation network and plays a vital role in state and local economies as well as our quality of life. We are committed to being good stewards of our infrastructure by making investments that make Illinois a more attractive place for people to live, work and visit.

To achieve its commitments to customers and communities, the Illinois Tollway is dedicated to strong fiscal management of its day-to-day operations and thoughtful, well-managed implementation of the largest capital program in the agency's history. We look forward to accomplishing great things in 2021.

Willard S. Evans, Jr.
Chairman and Chief Executive Officer, Illinois Tollway

October 15, 2021

Board of Directors
Illinois State Toll Highway Authority
2700 Ogden Avenue
Downers Grove, Il. 60515

Directors:

The Annual Comprehensive Financial Report (ACFR) of The Illinois State Toll Highway Authority (the Tollway), for the year ended December 31, 2020, is hereby submitted. Responsibility for both the accuracy of the data and the completeness and fairness of the presentation, including all disclosures, rests with the Tollway. To the best of our knowledge and belief, the enclosed data are accurate in all material respects and are reported in a manner designed to present fairly the financial position and results of operations of the Tollway. All disclosures necessary to enable the reader to gain an understanding of the Tollway's financial activities have been included.

The Illinois Tollway is a user-financed administrative agency of the State of Illinois. The Illinois State Toll Highway Authority was created by the Toll Highway Act ("Act") to provide for the construction, operation, regulation and maintenance of a system of toll highways within the State of Illinois. The Tollway currently operates 294 miles of tollroads in Northern Illinois.

As discussed more fully in the Management Discussion and Analysis section of this report, the Tollway posted favorable operating results for 2020.

We believe that this report provides a full understanding of the Tollway's 2020 financial and operational activities and describes how the Tollway is prepared to meet its financial and operational responsibilities in the years to come.

Respectfully submitted,

Jose R. Alvarez (Oct 22, 2021 11:46 CDT)

THE ILLINOIS STATE TOLL HIGHWAY AUTHORITY
A Component Unit of the State of Illinois

Annual Comprehensive Financial Report
Overview of Organization, Background, and Functions
For the Year Ended December 31, 2020

Profile of the agency

The Illinois State Toll Highway Authority (the Tollway) is a user-financed administrative agency of the State of Illinois. The Illinois State Toll Highway Authority was created by the Toll Highway Act (“Act”) to provide for the construction, operation, regulation and maintenance of a system of toll highways within the State of Illinois (Tollway system). Under the Act, the Tollway assumed all of the obligations, powers, duties, functions, and assets of its predecessor agency, The Illinois State Toll Highway Commission. The Tollway is empowered to enter into contracts to: acquire, own, use, lease, operate and dispose of personal and real property, including rights-of-way, franchises and easements; establish and amend resolutions, by-laws, rules, regulations and to fix and revise toll rates; acquire, construct, relocate, operate, regulate and maintain the Tollway system; exercise the power of eminent domain; and contract for services and supplies for the various customer service areas on the Tollway system. The Tollway system currently consists of 294 miles of toll roads.

The Tollway is governed by an 11-member Board of Directors that includes the Governor of Illinois, ex-officio, and the Secretary of the Illinois Department of Transportation, ex-officio. Nine directors are appointed by the Governor, with the advice and consent of the Illinois Senate, from the State at large with the goal of maximizing representation from the areas served by the Tollway system. No more than five directors may be from the same political party.

The Tollway appoints an Executive Director without approval from the state legislature and employs other personnel to administer the Tollway system and implement the policies of the Board of Directors. The Tollway’s organizational structure consists of 15 departments, as outlined in the organization chart presented in this document.

Local economy

The Tollway is an important component of the transportation network in Northern Illinois, with roads running through 12 counties. The Tollway serves both commuter and commercial traffic, with approximately 88% of traffic consisting of passenger vehicles. A large number of Fortune 500 companies are in close proximity to the Tollway, therefore the traffic is impacted by the local economy and unemployment rates.

Long term financial planning and major initiatives

The Tollway has adopted a 15-year, \$12.2 billion capital program, which was subsequently increased to \$14.3 billion, called “*Move Illinois: The Illinois Tollway Driving the Future*” which began in 2012 and extends through 2026. The following is a sample of some of the projects included in this program:

- Reconstruct the central Tri-State Tollway (I-294) from 95th Street to Balmoral Avenue.
- Construct the Elgin O’Hare Western Access Project near and around O’Hare International Airport.
- Preserve the Ronald Reagan (I-88) and Veterans Memorial (I-355) Tollways.
- Rebuild and widen the Jane Addams Memorial Tollway (I-90) from the Tri-State Tollway (I-294) to the I-39 Interchange in Rockford.
- Construct a new interchange at the Tri-State Tollway (I-294) and I-57.

THE ILLINOIS STATE TOLL HIGHWAY AUTHORITY
A Component Unit of the State of Illinois

Annual Comprehensive Financial Report
Overview of Organization, Background, and Functions
For the Year Ended December 31, 2020

- Interchanges and planning studies.
- Facilities improvements and roadway maintenance.

This program is being funded by a passenger vehicle toll increase that went into effect in 2012, a commercial vehicle toll increase being phased in over 2015-2017, an annual Consumer Price Index adjustment to be applied to commercial vehicles beginning in 2018, and the issuance of approximately \$4.7 billion of revenue bonds. As of December 31, 2020, \$3.6 billion of revenue bonds had been issued to fund the capital program.

The Tollway's capital program also includes environmental initiatives, such as wetland and endangered species mitigation, fuel consumption reduction and "green" construction materials and practices, and integration of new intelligent transportation systems.

Services Provided

The Tollway offers a number of convenience and safety services to its customers.

Oases

Five oases serve the Tollway system. The Tollway has entered into leases with two private companies to operate restaurants, stores, and fuel stations at these sites. These facilities contain fuel stations, car washes, food and retail services, restroom facilities, I-PASS Customer Service Centers, and other traveler-related conveniences; the oases are open 24-hours a day, 365 days a year.

Tollway Maintenance

Providing Tollway customers with a safe and well-maintained highway is a task assigned to the Maintenance and Traffic Division of the Department of Engineering. Personnel assigned to the 12 maintenance sites, spaced at approximately 25-30 mile intervals along the road, (plus 4 satellite salt domes) keep the Tollway in safe, convenient, and comfortable driving condition. In winter, maintenance personnel clear the roadway of snow and ice. Year-round they respond to incidents that can disrupt traffic flow.

The Tollway has continued to deploy Intelligent Transportation System (ITS), CCTV cameras, traffic sensors and dynamic message signs to enable the Traffic Operations Center to proactively manage traffic and incidents throughout the Tollway system. Traffic sensors provide full system coverage. These efforts continue to demonstrate improved incident detection, confirmation, resource deployment, and clearance, resulting in minimal lane blockage and reduced secondary crashes.

THE ILLINOIS STATE TOLL HIGHWAY AUTHORITY
A Component Unit of the State of Illinois

Annual Comprehensive Financial Report
Overview of Organization, Background, and Functions
For the Year Ended December 31, 2020

Telecommunications System

The Tollway owns and maintains a microwave and fiber optic voice, data, and video communications network. This communications system supports mobile radios, telephones, alarms, CCTV, and computer data transmissions for toll plaza operations, roadway maintenance, Illinois State Police District 15, public safety, emergency vehicles, and security.

Illinois State Police

Illinois State Police District 15 is a unique State Police district in that the community which it serves is a mobile one: travelers from across the country and local commuters, traversing the 294 miles of the Tollway system. Troopers assigned to District 15 cover 12 different counties and five geographic State Police districts. District 15 has a long history of achieving the highest standards possible in its service to citizens and commuters. The district remains vigilant in ensuring that its areas of responsibility are safe and secure.

Patron Emergency Services

Formal agreements are maintained with public and private service providers along each toll road to provide towing and road service, if needed, and public safety, fire and ambulance response. In addition, the Tollway also supports the *999 Cellular Motorist Assistance Program in the Chicago Metropolitan area.

Since 1997, the Tollway has operated the Highway Emergency Lane Patrol (H.E.L.P.) program as a service to motorists and to further enhance safety and facilitate traffic flow. Specially equipped trucks operated by trained Maintenance and Traffic Division personnel patrol the entire Tollway system during peak traffic periods to assist motorists who may be disabled, stranded or otherwise in need. State Farm is the exclusive sponsor of the H.E.L.P. program. For the calendar year 2020, H.E.L.P. trucks assisted 17,400 Tollway customers, driving 780,000 miles and dispensing 1,432 gallons of fuel.

THE ILLINOIS STATE TOLL HIGHWAY AUTHORITY
A Component Unit of the State of Illinois

Annual Comprehensive Financial Report
Overview of Organization, Background, and Functions
For the Year Ended December 31, 2020

Financial Information

Management of the Tollway is responsible for establishing and maintaining an internal control structure designed to ensure that Tollway assets are protected from loss, theft, or misuse and to ensure adequate accounting data are compiled to allow for the preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (GAAP). An effective internal control structure should provide reasonable, but not absolute, assurance that these objectives are met. The concept of reasonable assurance recognizes that: (1) the cost of a control should not exceed the benefits likely to be derived; and (2) the valuation of costs and benefits requires estimates and judgments by management.

Accounting Systems

The Tollway's accounting systems are organized and operated on an "enterprise fund" basis. The accounting practices of the Tollway are more fully described in the summary of significant accounting policies included in the notes to its financial statements in the Financial Section of this report.

Management's Discussion and Analysis

The Financial Section includes a discussion and analysis of the Tollway's financial performance that provides readers with a narrative overview of its financial activities and the changes in its financial position for the years ended December 31, 2020 and 2019.

Notes to Financial Statements

The notes provided in the Financial Section of this report should be considered an integral and essential part of adequate disclosures and fair presentation of this financial report. The notes include a summary of significant accounting policies of the Tollway and other necessary disclosures of pertinent matters relating to its financial position. The notes provide additional informative disclosures not reflected on the face of the financial statements.

Budgetary Controls

The Tollway is required by its Trust Indenture to prepare a tentative budget for the ensuing fiscal year on or before October 31 of each fiscal year and to adopt the annual budget for such fiscal year on or before January 31 of such fiscal year. The adopted budget is used for control of operating and capital expenses and for financial planning and is prepared in accordance with provisions of the Trust Indenture, not on the basis of accounting principles generally accepted in the United States of America. The budget is approved by the Tollway Board of Directors but does not require the approval of the State legislature.

THE ILLINOIS STATE TOLL HIGHWAY AUTHORITY
A Component Unit of the State of Illinois

Annual Comprehensive Financial Report
Overview of Organization, Background, and Functions
For the Year Ended December 31, 2020

Basis of Accounting and Measurement

The Tollway employs accounting principles generally accepted in the United States of America similar to those used by private business enterprises with the accrual basis of accounting as its foundation. Under the accrual basis of accounting, revenues are recognized in the periods in which they are earned, and expenses are recognized in the periods in which they are incurred. The Tollway provides supplementary information on a "Trust Indenture Basis"- in conformance with the Trust Indenture, but not in conformity with accounting principles generally accepted in the United States of America.

Operating Revenue and Expense

Due to the COVID-19 pandemic, total operating revenue decreased approximately 15.1% (by \$223.6 million) in 2020 to \$1.3 billion. Toll revenue decreased 16.8% from the prior year due to a decrease in vehicle traffic due to stay at home orders necessitated by the pandemic. Toll evasion recovery revenue increased to \$93.2 million from \$81.6 million in 2019.

THE ILLINOIS STATE TOLL HIGHWAY AUTHORITY
A Component Unit of the State of Illinois

Annual Comprehensive Financial Report
Overview of Organization, Background, and Functions
For the Year Ended December 31, 2020

Total operating expenses, excluding depreciation, decreased by approximately 3.4% in 2020. See Management’s Discussion and Analysis contained within these statements for further information.

Awards and Acknowledgements

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the Tollway for the fiscal year ended December 31, 2019. This was the 24th consecutive year that the Tollway has received this award. In order to receive this certificate, the Tollway had to publish an easily readable and efficiently organized ACFR that satisfied both accounting principles generally accepted in the United States of America and applicable program requirements.

The Tollway also received the GFOA’s Distinguished Budget Presentation Award for its 2020 annual budget book. To qualify for the Distinguished Budget Presentation Award, the annual budget book had to be judged proficient as a policy document, a financial plan, an operations guide, and a communications device.

The preparation of this report would not have been possible without the skill, effort, and dedication of the Finance Department. We wish to extend our appreciation to all Tollway departments for their assistance in providing the data necessary to prepare this report.

Annual Comprehensive Financial Report
For the Year Ended December 31, 2020

Independent Audit

The Trust Indenture requires an annual audit of the Tollway's books and accounts for each fiscal year. The audit is to be conducted by independent certified public accountants and commence by April 30 of each year.

In addition to an independent financial audit, the Tollway is subject to an annual compliance examination as performed by Special Assistant Auditors selected by the Office of the Auditor General of the State of Illinois.

Financial Report
For the Fiscal Year Ended

December 31, 2019

Christopher P. Morrell

Executive Director/CEO

A certificate of achievement is valid for a period of one year. The Tollway believes that its current ACFR will continue to meet the Certificate of Achievement Program's requirements; this 2020 ACFR will be submitted to the GFOA to determine its eligibility for another certificate.

Acknowledgments

Appreciation is extended to the General Accounting staff and other Tollway staff for their assistance and contributions to the preparation of this financial report.

FINANCIAL SECTION

INDEPENDENT AUDITORS' REPORT

Honorable Frank J. Mautino
Auditor General, State of Illinois

and

Board of Directors
The Illinois State Toll Highway Authority

Report on the Financial Statements

As Special Assistant Auditors for the Auditor General, we have audited the accompanying financial statements of the business-type activities of the Illinois State Toll Highway Authority (the Tollway), a component unit of the State of Illinois, as of and for the year ended December 31, 2020, and the related notes to the financial statements, which collectively comprise the Tollway's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Honorable Frank J. Mautino
Auditor General, State of Illinois
and
Board of Directors
Illinois State Toll Highway Authority

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the business-type activities of the Illinois State Toll Highway Authority as of December 31, 2020, and the respective changes in financial position and cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

Further, as discussed in Note 22 to the financial statements, as of December 31, 2020, the Tollway's beginning net position was restated to correct an error in the allocation of the OPEB liability. Our opinion is not modified with respect to that matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that Management's Discussion and Analysis on pages 7-14 and the required supplementary information in Schedules 1 through 3 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary and Other Information

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise the Tollway's basic financial statements. The accompanying supplementary information in Schedules 4 and 5 and the notes to the trust indenture basis schedules are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The accompanying supplementary information in Schedules 4 and 5 and the notes to the trust indenture basis schedules is the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the accompanying supplementary information in Schedules 4 and 5 and the notes to the trust indenture basis schedules is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Honorable Frank J. Mautino
Auditor General, State of Illinois
and
Board of Directors
Illinois State Toll Highway Authority

The introductory section and statistical section have not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on them.

Management's Discussion and Analysis
For the Year Ended December 31, 2020

This section offers readers a discussion and analysis of the financial performance of the Illinois State Toll Highway Authority (the Tollway), provides an overview of its financial activities, and identifies changes in the Tollway's financial position as of and for the year ended December 31, 2020. Readers should use this section of this report in conjunction with the Tollway's basic financial statements.

Financial Highlights

- In August 2011, the Tollway's Board of Directors approved a \$12.2 billion capital program, called "*Move Illinois: the Illinois Tollway Driving the Future*" ("*Move Illinois*"), which defined a program of infrastructure investments to be made by the Tollway in 2012 through 2026.
- In April 2017, the Tollway's Board of Directors approved a modification of the "*Move Illinois*" capital program, increasing the funding by \$2.1 billion, to \$14.3 billion, to provide for enhancements to the central portion of the Tri-State Tollway (Central Tri-State).
- To help fund the capital outlays approved for "*Move Illinois*", the Tollway Board set new toll rates for passenger vehicles using the Tollway system and these higher rates were effective January 1, 2012. The Tollway also affirmed a previously approved increase in commercial vehicle toll rates which was phased in over 2015 - 2017, with a Consumer Price Index adjustment applied beginning January 1, 2018 and annually each January 1st thereafter.
- During 2020, construction and professional engineering services contracts with a combined value of \$1.5 billion were awarded under this program, bringing total "*Move Illinois*" contract awards to date to \$7.8 billion.
- Including \$500 million in revenue bonds issued in December 2020, a total of \$3.6 billion of revenue bonds have been issued in 2013-2020 to fund the capital program.
- In 2020, the Tollway implemented a series of tolling reforms under the name Tolling 2020 to provide : (i) an amnesty offer of significantly reduced fines for outstanding violations in notices dated before March 9, 2020, to the extent paid by December 31, 2020 (such deadline extended on December 17, 2020 to June 30, 2021); (ii) relief from fines incurred during March 9 – June 25, 2020, the first 3 1/2 months of the COVID-19 pandemic; and (iii) an invoicing program effective June 25, 2020, significantly reducing initial costs associated with unpaid tolls to the extent such unpaid tolls are paid within 90 days.
- The Tollway's 2020 traffic and operating revenue were adversely impacted by the COVID-19 pandemic. Toll transactions in 2020 declined 21.2% from 2019. The Tollway's 2020 operating revenue totaled \$1.3 billion, a decrease of \$223.6 million from the previous year. Operating expenses increased \$5.6 million (to \$875.3 million) primarily due to increased depreciation expense. Net operating income for 2020 was \$385.6 million, a decrease of \$229.1 million from 2019.
- Amounts on deposit on behalf of I-PASS account holders increased by 2.8% at year-end to \$199.2 million; approximately 89.1% of toll transactions are paid via I-PASS.

Basic Financial Statements

The Tollway accounts for its operations and financial transactions in a manner similar to that used by private business enterprises: the accrual basis of accounting. In these statements, revenue is recognized in the period in which it is earned, and an expense is recognized in the period in which it is incurred, regardless of the timing of its related cash flow.

THE ILLINOIS STATE TOLL HIGHWAY AUTHORITY

A Component Unit of the State of Illinois

Management's Discussion and Analysis
For the Year Ended December 31, 2020

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the Tollway's basic financial statements. For each fiscal year, the Tollway's basic financial statements are comprised of the following:

- Statement of net position
- Statement of revenues, expenses and changes in net position
- Statement of cash flows
- Notes to the financial statements

The statement of net position presents information on all of the Tollway's assets, deferred outflows of resources, liabilities, and deferred inflows of resources, with the difference between these items reported as net position. Increases or decreases in net position, over time, may serve as a useful indicator of whether the financial position of the Tollway is improving or deteriorating.

The statement of revenues, expenses and changes in net position presents revenue and expense information and the change in the Tollway's net position during the measurement period as a result of these transactions.

The statement of cash flows presents sources and uses of cash for the fiscal year, displayed in the following categories: cash flows from operating activities, cash flows from capital and related financing activities, and cash flows from investing activities.

The notes provide additional information that is essential to a full understanding of the data provided in the basic financial statements. They are an integral part of the basic financial statements.

2020 Results Compared to 2019

Operating Revenue

The Tollway's 2020 operating revenues, totaling \$1.3 billion, declined \$223.6 million, or 15.1%, from the previous year. This decrease was mainly attributable to reduced toll revenue resulting from the COVID-19 pandemic's adverse impact on traffic volume. In 2020, toll revenue totaled \$1.1 billion versus \$1.4 billion in 2019, a decline of \$231.7 million, or 16.8%. Revenue from toll evasion recovery increased to \$93.2 million (from \$81.6 million), due in part to an increased rate of unpaid tolls caused by (in response to risks posed by the pandemic) the suspension of cash payment options, an amnesty offer which incentivized payment of unpaid tolls and related fines, and impacts of a new invoicing program implemented effective June 25, 2020.

Concession revenue decreased in 2020 to \$1.4 million (18.8%) due to reduced traffic which resulted in less revenue at the over the road oases which generate concession revenue to the Tollway.

Operating Expenses

Operating expenses, excluding depreciation, decreased in 2020, to \$380.7 million (3.4%) from \$394.1 million in 2019. This was largely due to a reduction in customer service costs and credit card fees due to the reduced traffic on the roadway because of the COVID-19 pandemic. Reduced group insurance costs, operational supplies, and utilities also contributed to this decrease.

Depreciation and amortization expense increased in 2020 by 4.0% to \$494.6 million, from \$475.6 million in 2019. The resulting net operating income for the year, \$385.6 million, decreased by \$229.1 million, or 37.3%, from the previous year.

Nonoperating Revenues (Expenses)

Nonoperating revenue decreased by \$22.9 million (32.7%), due to decreased investment returns as the result of decreased funds on deposit and lower investment rates. This year the Tollway once again earned interest rebates from the U.S. Department of the Treasury relating to bonds which were issued as Build America Bonds. The 2020 rebates totaled \$13.6 million, substantially the same as 2019.

Nonoperating expenses decreased by \$1.5 million (0.5%), due to decreased interest and amortization of financing costs offset by an increase in expense under intergovernmental agreements.

The net nonoperating expenses increased this year by 8.9% from \$240.1 million in 2019 to \$261.5 million for 2020, due to the variances noted above.

Changes in Net Position

Net operating income decreased in 2020 by \$229.1 million (37%) to \$385.6 million. After deducting this year's net nonoperating expenses of \$261.5 million, the Tollway posted an increase in net position for the year of \$124.2 million compared to \$374.6 million increase in net position for 2019. After this year's result, the Tollway's net position totaled \$3.1 billion. Beginning net position was restated see note 22.

Total Net Position	\$ 3,069,596,314	\$ 3,451,111,822

Statement of Net Position

The Tollway's capital assets of \$10.2 billion, consisting of land, buildings, infrastructure, and equipment, constitutes 79.8% of total assets and deferred outflows of resources. The largest liabilities are revenue bonds totaling \$7.3 billion, (inclusive of unamortized premiums/discounts), net pension liability of \$891.9 million and net other postemployment benefits (OPEB) liability of \$580.0 million, which together constitute 90.8% of total liabilities and deferred inflows of resources. The restricted net position balance, totaling \$474.3 million, consists of resources subject to external restrictions or legislation as to their use. The remaining portion, unrestricted net position, represents the resources available to be used at the Tollway's discretion.

The Tollway's assets increased by 5.6% to \$12.4 billion, from \$11.7 billion at December 31, 2019. This increase was mainly due to an increase in capital assets.

THE ILLINOIS STATE TOLL HIGHWAY AUTHORITY
A Component Unit of the State of Illinois

Management's Discussion and Analysis
For the Year Ended December 31, 2020

Total liabilities increased by 11.8% to \$9.6 billion, from \$8.5 billion at December 31, 2019. This increase was mainly due to additional bonds outstanding during 2020 of \$468 million, in addition to increased interest payable and unearned revenue, as well as an increase in the Net OPEB liability as of December 31, 2020.

Capital Assets and Debt Administration

Capital Assets

Capital assets continue to represent the largest category of Tollway assets, totaling \$10.2 billion at year-end (\$9.5 billion at 12/31/2019) comprising 79.8% of total Tollway assets and deferred outflows of resources. As the Tollway continues the "Move Illinois" capital program to expand and rebuild the Tollway system, land and infrastructure assets continue to increase. See the accompanying Notes to the Financial Statements – Notes 1(h) and 6 – for further information about capital assets.

THE ILLINOIS STATE TOLL HIGHWAY AUTHORITY

A Component Unit of the State of Illinois

Management's Discussion and Analysis
For the Year Ended December 31, 2020

Long-Term Debt

At year-end 2020, as compared to year-end 2019, total revenue bonds payable, inclusive of original issue premium and net of current revenue bonds payable, increased by \$461.0 million to \$7.2 billion. This increase resulted from the addition of \$644.9, inclusive of original issue premium, for the 2020 Series A bond issuance to finance a portion of the "Move Illinois" capital program, less \$129.3 million of bond principal payments and less \$47.4 million of original issue premium amortizations.

All Tollway bonds outstanding as of December 31, 2020 were issued under the Amended and Restated Trust Indenture effective March 31, 1999, amending and restating a Trust Indenture dated December 1, 1985 (as amended, restated, and supplemented, the Trust Indenture) from the Tollway to The Bank of New York Mellon Trust Company, N.A., as successor Trustee (the Trustee). The Trustee serves as a fiduciary for bondholders. The amount of additional senior bonds that the Tollway may issue at any time is limited by the Trust Indenture requirement that the projected Net Revenues are sufficient to meet the estimated Net Revenue Requirement for each full fiscal year through five years after the date the project being financed is estimated to be placed in service, after giving effect to the debt service attributable to such additional senior bonds. The Net Revenue Requirement is the amount necessary to cure deficiencies, if any, in the debt service and debt reserve accounts established under the Trust Indenture, plus the greater of (i) the sum of Aggregate Debt Service on Senior Bonds, the Junior Bond Revenue Requirement, and the Renewal and Replacement Deposit for such period, and (ii) 1.3 times the Aggregate Debt Service on Senior Bonds for such period (all capitalized terms as defined in the Trust Indenture). Under the terms of the Trust Indenture the revenue bond debt service coverage ratio for 2020 was 2.09.

The following table lists, as of December 31, 2020, the Tollway's bond series and the current and noncurrent principal amounts outstanding. Amounts presented in this table do not include any unamortized original issue premiums associated with the bonds.

Factors Impacting Future Operations

During 2020, the Tollway progressed on the \$14.3 billion “*Move Illinois*” capital program. Land acquisition, design and construction work continued for the Elgin-O’Hare Western Access Project and for the widening of the Central Tri-State Tollway. The Tollway forecasts approximately 60% of the “*Move Illinois*” Program’s total costs are expected to be funded by toll revenue.

Contacting the Tollway’s Financial Management

This financial report is designed to provide our customers, bondholders, employees and other stakeholders with an overview of the Tollway’s finances and to demonstrate the Tollway’s accountability for the funds it receives and deploys. Questions concerning this report or requests for additional financial information should be directed to the Controller, The Illinois State Toll Highway Authority, 2700 Ogden Avenue, Downers Grove, Illinois 60515.

THE ILLINOIS STATE TOLL HIGHWAY AUTHORITY

A Component Unit of the State of Illinois

Notes to the Financial Statements

For the Year Ended December 31, 2020

(1) Summary of Significant Accounting Policies

The accounting policies and financial reporting practices of The Illinois State Toll Highway Authority (the Tollway) conform to accounting principles generally accepted in the United States of America (GAAP), as promulgated by the Governmental Accounting Standards Board (GASB).

(a) Financial Reporting Entity

The Tollway, a component unit of the State of Illinois, was created by an Act of the General Assembly of the State of Illinois – the Toll Highway Act, 605 ILCS 10/1 *et seq.*, as amended (the Act) – for the purpose of constructing, operating, regulating, and maintaining a toll highway or a system of toll highways and, in connection with the financing of such projects, is authorized to issue revenue bonds which shall be retired from revenues derived from the operation of the Tollway. Under the provisions of the Act, no bond issue of the Tollway, or any interest thereon, is an obligation of the State of Illinois. In addition, the Tollway is empowered to issue refunding bonds for the purpose of refunding any revenue bonds issued under the provisions of the Act.

The enabling legislation empowers the Tollway's Board of Directors with duties and responsibilities which include, but are not limited to, the ability to approve and modify the Tollway's budget, the ability to approve and modify toll rates and fees charged for use of the Tollway system, the ability to employ and discharge employees as necessary in the judgment of the Tollway, and the ability to acquire, own, use, hire, lease, operate, and dispose of personal property, real property, and any interest therein.

Component units are separate legal entities for which the primary government is legally accountable. The Tollway is a component unit of the State of Illinois for financial reporting purposes because exclusion would cause the State's financial statements to be incomplete. The governing body of the Tollway is an 11 member Board of Directors of which nine members are appointed by the Governor of Illinois with the advice and consent of the Illinois Senate. The Governor and the Secretary of the Illinois Department of Transportation are also ex-officio members of the Tollway's Board of Directors. Information from these financial statements is included in the State's annual comprehensive financial report. The Tollway itself does not have any component units.

(b) Basis of Accounting

The Tollway accounts for its operations and financing in a manner similar to a private business enterprise; the intent is that costs of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges.

Accordingly, the Tollway is accounted for as a proprietary fund (enterprise fund) using the economic resources measurement focus and the accrual basis of accounting. Under this measurement focus, all assets and all liabilities associated with the Tollway's operations are included in the statement of net position. Revenue is recognized in the period in which it is earned, and expenses are recognized in the period in which incurred.

THE ILLINOIS STATE TOLL HIGHWAY AUTHORITY

A Component Unit of the State of Illinois

Notes to the Financial Statements

For the Year Ended December 31, 2020

Nonexchange transactions, in which the Tollway receives value without directly giving equal value in return, include fines for toll evasion.

(c) Cash and Cash Equivalents

With the exception of \$58.3 million in locally held funds and cash on hand at December 31, 2020, all cash and cash equivalents are held for the Tollway either by the Illinois State Treasurer (the Treasurer) as custodian, or by the Trustee under the Tollway's Trust Indenture.

For purposes of the statement of net position and the statement of cash flows, the Tollway considers repurchase agreements, money market funds, and the Illinois Funds local government investment pool (LGIP), as cash equivalents.

(d) Investments

The Tollway reports investments at fair value or amortized cost in its statement of net position with the corresponding changes in fair value being recognized as an increase or decrease to nonoperating revenue in the statement of revenues, expenses and changes in net position. All investments are held for the Tollway either by the Treasurer as custodian or by the Trustee under the Tollway's Trust Indenture.

The primary objective in the investment of Tollway funds is preservation of principal. Additional objectives are managing liquidity to meet the financial obligations of the Tollway and investment return.

Investments in the Illinois Funds LGIP, sponsored by the Treasurer in accordance with Illinois state law that is rated AAAM by Standard & Poor's rating agency, are reported at amortized cost which is equal to the value of the pool shares. Other funds held for the Tollway by the Treasurer are invested in U.S. Treasury and agency issues which are valued at fair value or par. Repurchase agreements held for the Tollway by the Treasurer are recorded at face value which approximates fair value. State statute requires that all investments comply with the Illinois Public Funds Investment Act.

The Trust Indenture authorizes the Tollway to invest in U.S. Treasury and agency issues, money market funds comprised of U.S. Treasury and agency issues, repurchase agreements thereon, time deposits, and certificates of deposit. All funds held by the Tollway's Trustee were held in compliance with these restrictions for the year ended December 31, 2020.

(e) Accounts Receivable

The Tollway's accounts receivable consist of various toll charges and amounts due from individuals and commercial, governmental, and other entities. A provision for doubtful accounts has been recorded for the estimated amount of uncollectible accounts.

(f) Prepaid Expenses and Inventory

Certain payments made to vendors reflect costs applicable to future accounting periods and are recorded as prepaid expenses. The Tollway's inventory items consist mostly of consumable supplies that are quickly turned over and therefore the payments for such are directly expensed.

THE ILLINOIS STATE TOLL HIGHWAY AUTHORITY

A Component Unit of the State of Illinois

Notes to the Financial Statements

For the Year Ended December 31, 2020

(g) Noncurrent Cash and Investments

Cash and investments that are externally restricted for reserve funds or for the purchase or construction of capital or other noncurrent assets are classified as noncurrent assets in the statement of net position.

(h) Capital Assets

Capital assets include the historical cost of land and improvements, easements, roadway and transportation structures (infrastructure), buildings and related improvements, machinery, equipment and software with a cost exceeding \$5,000. (Projects whose individual components are less than \$5,000 but in their entirety are greater than \$5,000 may be capitalized at the discretion of the Tollway). Most expenses for the maintenance and repairs to the roadway and transportation structures, buildings, and related improvements are charged to operations when incurred. All expenses for land, buildings, infrastructure, and construction in progress that increase the value or productive capacities of assets are capitalized. Capital assets are depreciated using the straight-line method of depreciation over the asset's useful life, as follows:

Buildings	20 Years
Infrastructure	5 to 40 Years
Machinery, equipment and software	3 to 20 Years

(i) Leases

The Tollway makes a distinction between: 1) capital leases that effectively transfer from the lessor to the lessee substantially all the risks and benefits incidental to ownership of the leased assets, and 2) operating leases under which the lessor effectively retains all such risks and benefits. The Tollway was not a party to any capital leases during the year.

Operating leases are accounted for as an operating revenue or expense, depending on whether the Tollway is the lessor or lessee.

(j) Long-Term Accounts Receivable

In the course of business, the Tollway may enter into contracts with various parties that call for payments to the Tollway to be made at a date more than one year in the future. These receivables are classified as long-term. See Note 7 for a description of these receivables.

(k) Debt Refunding

In accordance with GASB Statement No. 65, *Items Previously Reported as Assets and Liabilities*, the difference between the reacquisition price and the net carrying amount of the old debt is reported as a deferred outflow or inflow of resources and recognized as a component of interest expense systematically over the remaining life of the old debt or the life of the new debt, whichever is shorter.

(l) Unearned Revenue

The Tollway recognizes revenue when earned. Amounts received in advance of the periods in which related services are rendered are recorded as an unearned revenue liability in the statement of net position. See Note 9.

THE ILLINOIS STATE TOLL HIGHWAY AUTHORITY

A Component Unit of the State of Illinois

Notes to the Financial Statements

For the Year Ended December 31, 2020

(m) Pensions

Substantially all of the Tollway's employees participate in the State Employees' Retirement System (SERS), a single-employer, public employee defined benefit pension plan of the State of Illinois, as more fully described in Note 11.

In accordance with GASB Statement No. 68, *Accounting and Financial Reporting for Pensions - an amendment of GASB Statement No. 27*, and GASB Statement No. 71, *Pension Transition for Contributions Made Subsequent to the Measurement Date - an amendment of GASB Statement No. 68*, the net pension liability, deferred outflows of resources, deferred inflows of resources, and pension expense have been recognized in the Tollway's financial statements.

The net pension liability is calculated as the difference between the actuarially calculated value of the projected benefit payments attributed to past periods of service and the plan's fiduciary net position. The pension expense is comprised of the service cost or actuarial present value of projected benefit payments attributed to the valuation year, interest on the total pension liability, plan administrative expenses, current year benefit changes, and other changes in plan fiduciary net position less employee contributions and projected earnings on plan investments.

Additionally, the pension expense includes the annual recognition of deferred outflows and inflows of resources related to pension assets and liabilities.

For purposes of measuring the net pension liability, deferred outflows of resources, deferred inflows of resources, expense and expenditures associated with the Tollway's contribution requirements, information about the fiduciary net position of the plan and additions to/deductions from the plan's fiduciary net position have been determined on the same basis as they are reported within the separately issued plan financial statements. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the terms of the plan. Investments are reported at fair value.

(n) Adoption of New Accounting Pronouncements

There were no new accounting pronouncements that the Tollway was required to adopt in the year ended December 31, 2020.

(o) Net Position

The statement of net position presents the Tollway's assets, deferred outflows of resources, liabilities, and deferred inflows of resources, with the difference reported in three categories:

Net investment in capital assets consists of capital assets, net of accumulated depreciation, and reduced by outstanding balances for revenue bonds and other debt that is attributable to the acquisition, construction, or improvement of those assets.

Restricted Net Position results when constraints placed on net position use are either externally imposed by creditors, grantors, contributors, and the like, or imposed by law through constitutional provisions or enabling legislation.

Unrestricted Net Position consists of net positions that do not meet the criteria of the two preceding categories.

At December 31, 2020, restrictions on net position consisted of:

THE ILLINOIS STATE TOLL HIGHWAY AUTHORITY

A Component Unit of the State of Illinois

Notes to the Financial Statements

For the Year Ended December 31, 2020

Restricted for Supplemental Pension Obligation reflects monies set aside for a retirement plan established in 1990 and suspended in 1994.

Restricted under the Trust Indenture reflects restrictions imposed by the Tollway's Trust Indenture.

(p) Toll Revenue and Evasion Recovery

Toll revenue is recognized when the transaction occurs. Effective June 25, 2020, the Tollway implemented an invoicing process for unpaid tolls. This process provides for invoice(s) for missed tolls, including any administrative fees. The fee amount, reduced by an estimated allowance for doubtful accounts, is recorded as evasion recovery revenue when the invoice is issued. The fines attributed to toll evasion recovery are recorded as revenue when received in cash. Toll revenue that remains unpaid through the invoicing process become subject to fines. Fines are recorded as revenue upon receipt of cash by the Tollway.

(q) Classification of Operating Revenues and Expenses

The Tollway's operating revenues and expenses consist of revenues earned and expenses incurred relating to the operation and maintenance of its Tollway system, including the Tollway's allocated share of SERS' pension expense pursuant to GASB Statements No. 68 and 71 and the Tollway's allocated share of the State of Illinois' postemployment benefits liability. All other revenues and expenses are reported as nonoperating revenues and expenses or as special items.

Toll evasion recovery revenue is shown net of bad debt expense; concession revenue only includes oasis revenue.

The majority of the Tollway's expenses are exchange transactions, which GASB defines as operating expenses for financial statement presentation purposes. Nonoperating expenses include transfers under intergovernmental agreements and capital financing costs.

Employee benefits and retirement costs have been allocated to functional expense categories within these statements on the basis of gross payroll for each category of functional expense.

(r) Risk Management

The Tollway has self-insured risk retention programs with stop-loss limits for current employee group health and self-insured reserves for workers' compensation claims and has provided accruals for estimated losses arising from such claims. See Note 13.

(s) Use of Estimates in Preparing Financial Statements

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, deferred outflows of resources, liabilities, deferred inflows of resources, and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

THE ILLINOIS STATE TOLL HIGHWAY AUTHORITY

A Component Unit of the State of Illinois

Notes to the Financial Statements

For the Year Ended December 31, 2020

(2) Cash and Investments

(a) Custodial Credit Risk – Deposits

Custodial credit risk is the risk that an institution holding the Tollway’s deposits may fail and expose the Tollway to a loss if the Tollway’s deposits cannot be returned upon maturity or demand. State law (30 ILCS 230/2C) requires that all deposits of public funds be covered by the Federal Deposit Insurance Corporation (FDIC) insurance or eligible collateral. The Tollway has no policy that would further limit the requirements under state law. As of December 31, 2020, the Tollway’s deposits were covered by FDIC insurance or eligible collateral.

(b) Schedule of Investments

As of December 31, 2020, the carrying value of the Tollway’s investments (with associated maturities) is as follows:

Investment Type	Investment Maturities (in years)		
	Fair Value or Amortized Cost	Less Than 1	1 - 5
Money market funds*	\$ 1,609,386,084	\$ 1,609,386,084	\$ -
U.S. Treasury - SLGS	95,000,000	95,000,000	-
Federal Home Loan Bank	49,996,900	49,996,900	-
Illinois Funds LGIP*	213,136,907	213,136,907	-
	<u>\$ 1,967,519,891</u>	<u>\$ 1,967,519,891</u>	<u>\$ -</u>

* Weighted average maturity is less than one year.

For purposes of the statement of net position, money market funds, and Illinois Funds LGIP are classified as cash equivalents.

The Tollway categorizes its fair value measurements within the fair value hierarchy established by U.S. GAAP. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets; Level 2 inputs are significant other observable inputs; and Level 3 inputs are significant unobservable inputs. The Tollway has no Level 2 or Level 3 inputs.

The Tollway has the following recurring fair value measurements as of December 31, 2020:

Investment Type	Total	Level 1
Federal Home Loan Bank	\$ 49,996,900	\$ 49,996,900
	<u>\$ 49,996,900</u>	<u>\$ 49,996,900</u>

Money market funds, U.S. Treasury - SLGS, and Illinois Funds LGIP are measured at amortized cost.

THE ILLINOIS STATE TOLL HIGHWAY AUTHORITY

A Component Unit of the State of Illinois

Notes to the Financial Statements

For the Year Ended December 31, 2020

(c) Interest Rate Risk

Interest rate risk is the risk that the fair value of investments will decrease as a result of an increase in interest rates. As a means of limiting its exposure to fair value losses from rising interest rates, and as a means of managing liquidity, the Tollway's investment policy requires that the majority of Tollway funds, excluding bond proceeds, be invested in instruments with maturities of less than one year. No investment is to exceed a 10-year maturity.

(d) Credit and Concentration Risks

Credit risk is the risk that the Tollway will not recover its investments due to the inability of the issuer to fulfill its obligation. The Tollway's investment policy limits investment of Tollway funds to: securities guaranteed by the United States government; obligations of agencies and instrumentalities of the United States; interest-bearing savings accounts, certificates of deposit, or bank time deposits with institutions which meet specified capitalization requirements; money market mutual funds registered under the Investment Company Act of 1940; the Illinois Funds LGIP; and repurchase agreements of government securities as defined in the Government Securities Act of 1986. To minimize concentration risk, the Tollway's investment policy further requires that the investment portfolio be diversified, as necessary to reduce the risk of loss in terms of specific maturity, specific issuer, or specific class of securities. Final maturities are limited to ten years; the majority of the Tollway's funds, excluding bond proceeds, are to be invested in maturities of less than one year. The Tollway was in compliance with these policies during 2020.

For the year ended December 31, 2020, the Tollway's investments in debt securities were rated by Moody's and Standard & Poor's as follows:

Investment Type	2020 (Moody's/S&P)	
	Fair Value or Amortized Cost	Rating
Money market funds	\$ 1,609,386,084	Aaa-mf/AAAm
U.S. Treasury bills	95,000,000	Aaa/AA+u
Federal Home Loan Bank	49,996,900	Aaa/AA+
Illinois Funds LGIP	213,136,907	N/R/AAAm

(3) Accounts Receivable

The Tollway's accounts receivable consist of various toll charges and other amounts due from individuals, commercial, governmental, and other entities. A provision for doubtful accounts has been recorded for estimated uncollectible amounts. As of December 31, 2020, the Tollway's accounts receivable balance consists of the following:

E-Z Pass Agency Group	27,878,197	-	27,878,197
Illinois Department of Transportation	101,697,014	-	101,697,014
Total intergovernmental receivables	<u>154,472,648</u>	<u>-</u>	<u>154,472,648</u>
 Total receivables	 \$ <u>413,232,156</u>	 \$ <u>(198,141,949)</u>	 \$ <u>215,090,207</u>

(4) Prepaid Expenses

In the normal course of business, the Tollway pays for goods and services that will be consumed beyond the current year. These are established as prepaid expenses. As of December 31, 2020, the Tollway had \$8.8 million in prepaid expenses. These are categorized as both current and noncurrent.

(5) Leases Receivable

During 2002, the Tollway, as lessor, entered into two 25-year lease agreements for the oasis system (a retail lease and a fuel lease). Under the terms of each lease, the lessee became financially responsible for rebuilding and remains responsible for renovating the oases structures. At the end of each lease, ownership of the improvements reverts to the Tollway. In the retail lease, the lessee is responsible for the payment of all expenses associated with administration and operation of the facilities including the securing of tenants. In the fuel lease, the lessee is responsible for the operation of the service station and car wash facilities.

The fuel lease agreement set up a three-step environmental program for the oases: (1) was remediation by the Tollway of the pre-existing contamination and establishing a baseline for contamination; (2) was remediation of contamination caused by the lessee(s) during the lease period; and (3) was a post-lease testing regimen and remediation to the base line by the lessee(s). This agreement ensured that the oasis system was in compliance with environmental laws when the property was leased, and that lessee(s) would be in compliance during the term of the lease. The Tollway was solely financially responsible for the remediation program for all environmental releases prior to the lease commencement date. Additionally, the Tollway conducted post-remediation testing to establish the baseline. The Tollway completed the remediation program, and has received "No Further Remediation (NFR)" letters from the Illinois Environmental Protection Agency for all locations. Any environmental releases during the lease are solely the responsibility of the lessee(s). Furthermore, any remediation necessary after the lease to bring the site back to pre-lease conditions are the responsibility of the lessee(s). Finally, the lease

THE ILLINOIS STATE TOLL HIGHWAY AUTHORITY

A Component Unit of the State of Illinois

Notes to the Financial Statements

For the Year Ended December 31, 2020

requires that the fuel tanks and related equipment be removed at the end of the lease and all costs associated with the removal will be the responsibility of the lessee(s).

The future minimum lease payments receivable under these agreements as of December 31, 2020 are as follows:

Year Ending December 31	Retail Lease	Fuel Lease	Total Leases
2021	\$ 607,143	\$ 689,582	\$ 1,296,725
2022	607,143	689,582	1,296,725
2023	607,143	689,582	1,296,725
2024	607,143	689,582	1,296,725
2025	607,143	689,582	1,296,725
Thereafter	809,521	919,443	1,728,964
	<u>\$ 3,845,236</u>	<u>\$ 4,367,353</u>	<u>\$ 8,212,589</u>

The future minimum leases receivable do not include contingent rents that may be owed under these leases should the lessees generate revenues in excess of specific target amounts.

The future minimum lease amounts above will be treated as revenue in the year they are earned.

In connection with the Central Tri-State widening and reconstruction, several of the oasis sites have been closed or are scheduled for demolition. The minimum lease commitments schedule above reflects the closures that have occurred.

Notes to the Financial Statements

For the Year Ended December 31, 2020

(a) Build America Bonds

The American Recovery and Reinvestment Act of 2009 authorized the Tollway to issue taxable bonds known as “Build America Bonds” to finance capital expenditures for which it could issue tax-exempt bonds and to elect to receive a subsidy payment from the federal government equal to 35% of the amount of each interest payment on such taxable bonds. The receipt of such subsidy payments by the Tollway is subject to certain requirements, including the filing of a form with the Internal Revenue Service prior to each interest payment date. The subsidy payments are not full faith and credit obligations of the United States of America. As a result of the impact of sequestration, the federal government reduced the amount of the subsidy payments by: 8.7% for subsidies received between March 2013 and September 2013; 7.2% for subsidies received between October 2013 and September 2014; 7.3% for subsidies received between October 2014 and September 2015; 6.8% for subsidies received between October 2015 and September 2016; 6.9% for subsidies received between October 2016 and September 2017; 6.6% for subsidies received between October 2017 and September 2018; 6.2% for subsidies received between October 2018 and September 2019; 5.9% for subsidies received between October 2019 and September 2020; and 5.7% for subsidies received between October 2020 and September 2021 (see Note 21 – Subsequent Events). The Series 2009A Bonds and Series 2009B Bonds are taxable Build America Bonds; all other Tollway bonds are tax-exempt bonds.

(b) Series 2009A Bonds

On May 21, 2009, the Tollway issued \$500,000,000 of Toll Highway Senior Priority Revenue Bonds, Taxable 2009 Series A (Build America Bonds – Direct Payment). The Tollway made an irrevocable election to designate the bonds as Build America Bonds pursuant to the provisions of Section 54AA(g) of the Internal Revenue Code of 1986. The Tollway covenanted to apply Build America Bonds subsidy payments to the payment of debt service. This issuance was the fifth bond sale utilized to finance capital projects in the Congestion-Relief Program. The bonds also financed a deposit to the debt reserve account and costs of issuance. The bonds were sold as two term bonds, \$100,000,000 maturing on January 1, 2024 and \$400,000,000 maturing on January 1, 2034. The term bond maturing January 1, 2024, then-outstanding in an amount of \$78,060,000, was refunded and redeemed, at a redemption price of 100% of the principal amount plus accrued interest, in connection with the issuance of the Tollway’s Series 2018A Bonds on January 10, 2019. The bonds maturing January 1, 2034 bear an interest rate of 6.184%, were sold at a price of 100% of the par amount of the bonds, and are subject to optional redemption at a redemption price equal to the greater of: (i) 100% of the principal amount of the bonds to be redeemed; and (ii) the sum of the present value of the remaining scheduled payments of principal and interest to the maturity date of the bonds to be redeemed, discounted to the date on which the bonds are to be redeemed on a semi-annual basis at the yield to maturity as of such redemption date of the U.S. Treasury security with a constant maturity most nearly equal to the period from the redemption date to the maturity date of the bonds to be redeemed, plus 30 basis points, plus, in each case, accrued interest. The bonds have not been insured or otherwise credit enhanced by the Tollway.

(c) Series 2009B Bonds

On December 8, 2009, the Tollway issued \$280,000,000 of Toll Highway Senior Priority Revenue Bonds, Taxable 2009 Series B (Build America Bonds – Direct Payment). The Tollway made an irrevocable election to designate the bonds as Build America Bonds pursuant to the provisions of Section 54AA(g) of the Internal Revenue Code of 1986. The Tollway covenanted

THE ILLINOIS STATE TOLL HIGHWAY AUTHORITY

A Component Unit of the State of Illinois

Notes to the Financial Statements

For the Year Ended December 31, 2020

to apply Build America Bonds subsidy payments to the payment of debt service. This issuance was the sixth bond sale utilized to finance capital projects in the Congestion-Relief Program. The bonds also financed a deposit to the debt reserve account and costs of issuance. In connection with the issuance of the bonds, the Tollway deposited \$12,000,000 funds on hand into the debt service account to pay the bond interest due on June 1, 2010 and a portion of the bond interest due on December 1, 2010. The bonds mature on December 1, 2034. The bonds bear an interest rate of 5.851% and were sold at a price of 100% of the par amount of the bonds. The bonds are subject to optional redemption at a redemption price equal to the greater of: (i) 100% of the principal amount of the bonds to be redeemed; and (ii) the sum of the present value of the remaining scheduled payments of principal and interest to the maturity date of the bonds to be redeemed, discounted to the date on which the bonds are to be redeemed on a semi-annual basis at the yield to maturity as of such redemption date of the U.S. Treasury security with a constant maturity most nearly equal to the period from the redemption date to the maturity date of the bonds to be redeemed, plus 25 basis points, plus, in each case, accrued interest. The bonds have not been insured or otherwise credit enhanced by the Tollway.

(d) Series 2013A Bonds

On May 16, 2013, the Tollway issued \$500,000,000 of Toll Highway Senior Revenue Bonds, 2013 Series A. This issuance was the first bond sale utilized to finance capital projects in the "Move Illinois" Program. The bonds also financed a deposit to the debt reserve account and costs of issuance. The bonds were sold as serial bonds maturing on January 1 of each of the years 2027 through 2035 and a term bond maturing January 1, 2038. All bonds were sold bearing a 5.0% interest rate. The bonds were sold at yields which produced an original issue premium of \$63,601,290. The bonds are subject to optional redemption on or after January 1, 2023, at a redemption price of 100% of the principal amount plus accrued interest. The term bond maturing January 1, 2038 is subject to sinking fund redemption prior to maturity. The bonds have not been insured or otherwise credit enhanced by the Tollway.

(e) Series 2014A Bonds

On February 26, 2014, the Tollway issued \$378,720,000 of Toll Highway Senior Revenue Bonds, 2014 Series A (Refunding). The bonds advance refunded \$436,545,000 of Toll Highway Senior Priority Revenue Bonds, 2005 Series A. The bonds also financed costs of issuance. The bonds were sold as serial bonds maturing on December 1 of each of the years 2019 through 2022. The bonds were sold bearing interest rates ranging from 4.5% - 5.0%. The bonds were sold at yields which produced an original issue premium of \$66,772,076. The bonds are not subject to optional redemption. The bonds have not been insured or otherwise credit enhanced by the Tollway.

The purpose of the refunding was to reduce debt service. The aggregate difference in debt service between the refunding debt, if outstanding through final maturity, and the refunded debt, had it remained outstanding through final maturity, net of Tollway funds on hand that were applied to the refunding transaction, was \$55.7 million. The present value of such savings was estimated at \$44.1 million at the time of the transaction's closing.

(f) Series 2014B Bonds

On June 4, 2014, the Tollway issued \$500,000,000 of Toll Highway Senior Revenue Bonds, 2014 Series B. This issuance was the second bond sale utilized to finance capital projects in the "Move Illinois" Program. The bonds also financed a deposit to the debt reserve account and costs of issuance. The bonds were sold as serial bonds maturing on January 1 of each of the years 2026 through 2039. All bonds were sold bearing a 5.0% interest rate. The bonds were

THE ILLINOIS STATE TOLL HIGHWAY AUTHORITY

A Component Unit of the State of Illinois

Notes to the Financial Statements

For the Year Ended December 31, 2020

sold at yields which produced an original issue premium of \$48,929,739. The bonds are subject to optional redemption on or after January 1, 2024, at a redemption price of 100% of the principal amount plus accrued interest. The bonds have not been insured or otherwise credit enhanced by the Tollway.

(g) Series 2014C Bonds

On December 4, 2014, the Tollway issued \$400,000,000 of Toll Highway Senior Revenue Bonds, 2014 Series C. This issuance was the third bond sale utilized to finance capital projects in the "Move Illinois" Program. The bonds also financed a deposit to the debt reserve account and costs of issuance. The bonds were sold as serial bonds maturing on January 1 of each of the years 2027 through 2039. All bonds were sold bearing a 5.0% interest rate. The bonds were sold at yields which produced an original issue premium of \$53,737,539. The bonds are subject to optional redemption on or after January 1, 2025, at a redemption price of 100% of the principal amount plus accrued interest. The bonds have not been insured or otherwise credit enhanced by the Tollway.

(h) Series 2014D Bonds

On December 18, 2014, the Tollway issued \$264,555,000 of Toll Highway Senior Revenue Bonds, 2014 Series D (Refunding). The bonds advance refunded \$291,660,000 of Toll Highway Senior Priority Revenue Bonds, 2006 Series A-1. The bonds also financed costs of issuance. The bonds were sold as serial bonds maturing on January 1 of each of the years 2018 through 2025. All bonds were sold bearing a 5.0% interest rate. The bonds were sold at yields which produced an original issue premium of \$49,884,988. The bonds are not subject to optional redemption. The bonds have not been insured or otherwise credit enhanced by the Tollway.

The purpose of the refunding was to reduce debt service. The aggregate difference in debt service between the refunding debt, if outstanding through final maturity, and the refunded debt, had it remained outstanding through final maturity, net of Tollway funds on hand that were applied to the refunding transaction, was \$38.4 million. The present value of such savings was estimated at \$33.0 million at the time of the transaction's closing.

(i) Series 2015A Bonds

On July 30, 2015, the Tollway issued \$400,000,000 of Toll Highway Senior Revenue Bonds, 2015 Series A. This issuance was the fourth bond sale utilized to finance capital projects in the "Move Illinois" Program. The bonds also financed a deposit to the debt reserve account and costs of issuance. The bonds were sold as serial bonds maturing on January 1 of each of the years 2027 through 2037 and a term bond maturing January 1, 2040. All bonds were sold bearing a 5.0% interest rate. The bonds were sold at yields which produced an original issue premium of \$39,445,649. The bonds are subject to optional redemption on or after July 1, 2025 at a redemption price of 100% of the principal amount plus accrued interest. The term bond maturing January 1, 2040 is subject to sinking fund redemption prior to maturity. The bonds have not been insured or otherwise credit enhanced by the Tollway.

(j) Series 2015B Bonds

On December 17, 2015, the Tollway issued \$400,000,000 of Toll Highway Senior Revenue Bonds, 2015 Series B. This issuance was the fifth bond sale utilized to finance capital projects in the "Move Illinois" Program. The bonds also financed a deposit to the debt reserve account and costs of issuance. The bonds were sold as serial bonds maturing on January 1 of each of the years 2027 through 2037 and a term bond maturing January 1, 2040. All bonds were sold

THE ILLINOIS STATE TOLL HIGHWAY AUTHORITY

A Component Unit of the State of Illinois

Notes to the Financial Statements

For the Year Ended December 31, 2020

bearing a 5.0% interest rate. The bonds were sold at yields which produced an original issue premium of \$47,418,612. The bonds are subject to optional redemption on or after January 1, 2026 at a redemption price of 100% of the principal amount plus accrued interest. The term bond maturing January 1, 2040 is subject to sinking fund redemption prior to maturity. The bonds have not been insured or otherwise credit enhanced by the Tollway.

(k) Series 2016A Bonds

On January 14, 2016, the Tollway issued \$333,060,000 of Toll Highway Senior Revenue Bonds, 2016 Series A (Refunding). The bonds advance refunded \$350,000,000 of Toll Highway Senior Priority Revenue Bonds, 2008 Series B. The bonds also financed costs of issuance. The bonds were sold as serial bonds maturing on December 1, 2031 bearing interest rates of 4.00% and 5.00% and December 1, 2032 bearing an interest rate of 5.00%. The bonds were sold at yields which produced an original issue premium of \$49,635,106. The bonds are subject to optional redemption on or after January 1, 2026, at a redemption price of 100% of the principal amount plus accrued interest. The bonds have not been insured or otherwise credit enhanced by the Tollway.

The purpose of the refunding was to reduce debt service. The aggregate difference in debt service between the refunding debt, if outstanding through final maturity, and the refunded debt, had it remained outstanding through final maturity, net of Tollway funds on hand that were applied to the refunding transaction, was \$70.0 million. The present value of such savings was estimated at \$50.9 million at the time of the transaction's closing.

(l) Series 2016B Bonds

On June 16, 2016, the Tollway issued \$300,000,000 of Toll Highway Senior Revenue Bonds, 2016 Series B. This issuance was the sixth bond sale utilized to finance capital projects in the "Move Illinois" Program. The bonds also financed a deposit to the debt reserve account and costs of issuance. The bonds were sold as serial bonds maturing on January 1 of each of the years 2027 through 2038 and a term bond maturing January 1, 2041. All bonds were sold bearing a 5.0% interest rate. The bonds were sold at yields which produced an original issue premium of \$59,573,902. The bonds are subject to optional redemption on or after July 1, 2026, at a redemption price of 100% of the principal amount plus accrued interest. The term bond maturing January 1, 2041 is subject to sinking fund redemption prior to maturity. The bonds have not been insured or otherwise credit enhanced by the Tollway.

(m) Series 2017A Bonds

On December 6, 2017, the Tollway issued \$300,000,000 of Toll Highway Senior Revenue Bonds, 2017 Series A. This issuance was the seventh bond sale utilized to finance capital projects in the "Move Illinois" Program. The bonds also financed a deposit to the debt reserve account and costs of issuance. The bonds were sold as serial bonds maturing on January 1 of each of the years 2028 through 2039 and a term bond maturing January 1, 2042. All bonds were sold bearing a 5.0% interest rate. The bonds were sold at yields which produced an original issue premium of \$50,071,706. The bonds are subject to optional redemption on or after January 1, 2028, at a redemption price of 100% of the principal amount plus accrued interest. The term bond maturing January 1, 2042 is subject to sinking fund redemption prior to maturity. The bonds have not been insured or otherwise credit enhanced by the Tollway.

THE ILLINOIS STATE TOLL HIGHWAY AUTHORITY

A Component Unit of the State of Illinois

Notes to the Financial Statements

For the Year Ended December 31, 2020

(n) Series 2018A Bonds

On January 10, 2019, the Tollway issued \$515,250,000 of Toll Highway Senior Revenue Bonds, 2018 Series A (Refunding). The bonds refunded \$262,500,000 of Toll Highway Variable Rate Senior Priority Revenue Bonds, 2007 Series A-2, \$189,600,000 of Toll Highway Variable Rate Senior Refunding Revenue Bonds, 2008 Series A-1a, and \$78,060,000 2009 Series A Bonds scheduled to mature on January 1, 2024. The bonds also financed costs of issuance and costs of terminating two variable-to-fixed interest rate exchange agreements (swaps) associated with the refunded bonds. The bonds were sold as serial bonds maturing on January 1 of each of the years 2020 through 2031 and were sold bearing an interest rate of 5.00%. The bonds were sold at yields which produced an original issue premium of \$79,372,651. The bonds are subject to optional redemption on or after January 1, 2029, at a redemption price of 100% of the principal amount plus accrued interest. The bonds have not been insured or otherwise credit enhanced by the Tollway.

(o) Series 2019A Bonds

On July 11, 2019, the Tollway issued \$300,000,000 of Toll Highway Senior Revenue Bonds, 2019 Series A. This issuance was the eighth bond sale utilized to finance capital projects in the "Move Illinois" Program. The bonds also financed a deposit to the debt reserve account and costs of issuance. The bonds were sold as serial bonds maturing on January 1 of each of the years 2036 through 2041 and two term bonds maturing January 1, 2044. Bonds were sold bearing interest rates ranging from 3.0% to 5.0%. The bonds were sold at yields which produced an original issue premium of \$47,215,820. The bonds are subject to optional redemption on or after July 1, 2029, at a redemption price of 100% of the principal amount plus accrued interest. The term bonds maturing January 1, 2044 are each subject to sinking fund redemption prior to maturity. The bonds have not been insured or otherwise credit enhanced by the Tollway.

(p) Series 2019B Bonds

On November 14, 2019, the Tollway issued \$225,245,000 of Toll Highway Senior Revenue Bonds, 2019 Series B (Refunding). The bonds refunded \$276,560,000 of Toll Highway Senior Refunding Revenue Bonds, 2010 Series A-1. The bonds also financed costs of issuance. The bonds were sold as serial bonds maturing on January 1 of each of the years 2025 through 2031 and were sold bearing an interest rate of 5.00%. The bonds were sold at yields which produced an original issue premium of \$51,916,736. The bonds are subject to optional redemption on or after January 1, 2030, at a redemption price of 100% of the principal amount plus accrued interest. The bonds have not been insured or otherwise credit enhanced by the Tollway.

The purpose of the refunding was to reduce debt service. The aggregate difference in debt service between the refunding debt, if outstanding through final maturity, and the refunded debt, had it remained outstanding through final maturity, net of Tollway funds on hand that were applied to the refunding transaction, was \$69.2 million. The present value of such savings was estimated at \$62.2 million at the time of the transaction's closing.

(q) Series 2019C Bonds

On December 23, 2019, the Tollway issued \$697,870,000 of Toll Highway Senior Revenue Bonds, 2019 Series C (Refunding). The bonds refunded \$350,000,000 of Toll Highway Variable Rate Senior Priority Revenue Bonds, 2007 Series A-1, \$87,500,000 of Toll Highway Variable Rate Senior Priority Revenue Bonds, 2007 Series A-2d, \$189,600,000 of Toll Highway Variable Rate Senior Refunding Revenue Bonds, 2008 Series A-1b, and \$94,825,000 of Toll Highway Variable Rate Senior Refunding Revenue Bonds, 2008 Series A-2. The bonds also financed

THE ILLINOIS STATE TOLL HIGHWAY AUTHORITY

A Component Unit of the State of Illinois

Notes to the Financial Statements

For the Year Ended December 31, 2020

costs of issuance and costs of terminating five variable-to-fixed interest rate exchange agreements (swaps) associated with the refunded bonds. The bonds were sold as serial bonds maturing on January 1 of each of the years 2022 through 2031 and were sold bearing an interest rate of 5.00%. The bonds were sold at yields which produced an original issue premium of \$166,652,297. The bonds are subject to optional redemption on or after January 1, 2030, at a redemption price of 100% of the principal amount plus accrued interest. The purpose of the refunding was to reduce risks related to variable interest rates and third-party agreements. The bonds have not been insured or otherwise credit enhanced by the Tollway.

(r) Series 2020A Bonds

On December 17, 2020, the Tollway issued \$500,000,000 of Toll Highway Senior Revenue Bonds, 2020 Series A. This issuance was the ninth bond sale utilized to finance capital projects in the “*Move Illinois*” Program. The bonds also financed a deposit to the debt reserve account and costs of issuance. The bonds were sold as serial bonds maturing on January 1 of each of the years 2036 through 2041 and a term bond maturing January 1, 2045. Bonds were sold bearing an interest rate of 5.0%. The bonds were sold at yields which produced an original issue premium of \$144,942,984. The bonds are subject to optional redemption on or after January 1, 2031, at a redemption price of 100% of the principal amount plus accrued interest. The term bond maturing January 1, 2045 is subject to sinking fund redemption prior to maturity. The bonds have not been insured or otherwise credit enhanced by the Tollway.

(s) Defeased Bonds

As of December 31, 2020, there were no defeased Tollway revenue bonds outstanding.

(u) Capitalized Interest

In 2018, the Tollway implemented GASB Statement No. 89 – *Accounting for Interest Cost Incurred Before the End of a Construction Period* which requires that all interest costs be recognized as an expense in the current period. Prior to implementation, a portion of interest expense attributable to construction was required to be capitalized. GASB Statement No. 89 changed this requirement prospectively. As of December 31, 2020, the Tollway continues to amortize previously capitalized interest with an unamortized balance of \$119.4 million.

(v) Trust Indenture Agreement

All Tollway bonds outstanding as of December 31, 2020, were issued under the Amended and Restated Trust Indenture effective as of March 31, 1999, amending and restating a Trust Indenture dated as of December 1, 1985 (as amended, restated, and supplemented, the “Trust

THE ILLINOIS STATE TOLL HIGHWAY AUTHORITY

A Component Unit of the State of Illinois

Notes to the Financial Statements

For the Year Ended December 31, 2020

Indenture”) from the Tollway to The Bank Of New York Mellon Trust Company, N.A., as successor Trustee (the “Trustee”). The Trustee serves as fiduciary for bondholders. The Trust Indenture establishes the conditions under which the Tollway may issue bonds and the security to be pledged to bondholders. The Trust Indenture establishes two funds: (i) a construction fund to account for the spending of Tollway bond proceeds; and (ii) a revenue fund to account for the deposit of Tollway revenues. The construction fund is divided into different accounts for each project under the Trust Indenture. The revenue fund is divided into six different accounts (some of which are further divided into sub-accounts) which establish an order of funding priority through which Tollway revenues flow. Revenues first fund the maintenance and operation account, which is the only account in the revenue fund in which bondholders do not have a security interest. Remaining revenues fund the other accounts of the revenue fund in the following order of priority: the debt service account, the debt reserve account, the renewal and replacement account, the improvement account, and the system reserve account. (The Trust Indenture also allows for the creation of junior lien bond accounts; to date the Tollway has never issued junior lien bonds.) All accounts of the construction fund and the debt service account and debt reserve account of the revenue fund are held by the Trustee. The Trustee-held funds classified as net position restricted under the Trust Indenture is included in Note 10.

(w) Arbitrage Rebate

In the 1980s, Congress determined that arbitrage rebate rules were needed to curb issuance of investment motivated tax-exempt bonds. These rules were designed to create additional safeguards against issuers obtaining an arbitrage benefit by issuing bonds either prematurely or in excess of actual need in order to benefit from an expected spread between tax-exempt borrowing cost and return on investment of bond proceeds. As a result, under certain conditions gain from arbitrage must be rebated to the United States Government. The Tollway determined that, as of December 31, 2020, no arbitrage rebate liability had accrued.

(9) Unearned Revenue

The Tollway's communications network includes a fiber optic system. Excess capacity on the fiber optic lines is leased to other organizations in order to offset the cost of the system. Since 2000, when the system was initially upgraded, the Tollway has entered into fiber optic system lease agreements with terms of twenty years. The Tollway has collected a cumulative total of \$55,619,310 in upfront payments; the related revenue will be earned over the lease terms.

The total unearned revenue balance for the fiber optic system was \$56,031,900 at December 31, 2020, and the amount earned was \$31,993,832 through December 31, 2020.

The Tollway also invoices annual fiber optic maintenance fees. At December 31, 2020, some of these fees had been paid in advance. These have also been recorded as unearned revenue.

On October 1, 2013, the Tollway entered into a 3-year agreement with Travelers Marketing, LLC, for sponsorship of the Tollway's Highway Emergency Lane Patrol (H.E.L.P.) trucks by its advertising sponsor/partner, State Farm Insurance. In exchange for a cumulative sponsorship fee of \$4,958,250, Travelers has the exclusive right to place State Farm Insurance branding on Tollway H.E.L.P. trucks and H.E.L.P. truck operator uniforms. On October 1, 2016, this contract was extended for an additional 3 years and on October 1, 2019, a three-month extension was executed. An additional 3-year agreement was executed in January 2020. The unearned portion of the sponsorship fee paid by Travelers in 2020 has been recorded as unearned revenue.

(11) State Employees' Retirement System

Plan Description

Substantially all of the Tollway's full-time employees, as well as the State Police assigned to the Tollway who are not eligible for any other state-sponsored retirement plan, participate in the Illinois State Employees' Retirement System (SERS), which is a component unit of the State of Illinois reporting entity. SERS is a single-employer defined benefit public employee retirement system in which state employees participate, except those covered by the State Universities, Teachers, General Assembly and Judges' Retirement Systems. SERS is governed by a 13 member Board of Trustees, consisting of the Illinois Comptroller, six trustees appointed by the Governor with the advice and consent of the Illinois Senate, four trustees elected by SERS members, and two trustees appointed by SERS retirees. SERS issues a separate annual comprehensive financial report (ACFR). The financial position and results of operations for SERS for fiscal year 2020 are also included in the state's ACFR for the year ended June 30, 2020.

As of June 30, 2020, the breakdown of employees participating or benefitting from SERS, as a whole, is as follows:

Active employees	62,621
Retirees and beneficiaries currently receiving benefits	75,355
Inactive employees entitled to but not yet receiving benefits	3,774

A summary of SERS' benefit provisions, changes in benefit provisions, employee eligibility requirements including eligibility for vesting, and the authority under which benefit provisions are established are included as an integral part of the SERS' ACFR. Also included therein is a discussion of employer and employee obligations to contribute and the authority under which those obligations are established.

To obtain a copy of SERS' ACFR, write, call, or email:

Notes to the Financial Statements

For the Year Ended December 31, 2020

Benefit Provisions

SERS provides retirement benefits based on the member's final average compensation and the number of years of credited service that have been established. The retirement benefit formula available to general State employees is 1.67% for each year of covered service and 2.2% for each year of noncovered service. (Covered service is defined as service time where the employee contributed to Social Security as well as SERS). Alternative formula employees have a formula of 2.5% for covered service and 3.0% for noncovered service. The maximum retirement annuity payable is 75% of final average compensation as calculated under the regular formula. The maximum retirement annuity payable is 80% of final average compensation as calculated under the alternative formula.

The minimum monthly retirement annuity payable is \$15 for each year of covered employment and \$25 for each year of noncovered employment.

This Space is Intentionally Left Blank

THE ILLINOIS STATE TOLL HIGHWAY AUTHORITY

A Component Unit of the State of Illinois

Notes to the Financial Statements

For the Year Ended December 31, 2020

Participants in SERS under the regular formula Tier 1 and Tier 2 receive the following levels of benefits based on their respective age and years of service credits:

Regular Formula Tier 1	Regular Formula Tier 2
<p>A member must have a minimum of eight years of service credit and may retire at:</p> <ul style="list-style-type: none"> • Age 60, with eight years of service credit. • Any age, when the member's age (years and whole months) plus years of service credit (years and whole months) equal 85 years (1,020 months) (Rule of 85) with eight years of credited service. • Between ages 55-60 with 25-30 years of service credit (reduced 1/2 of 1% for each month under age 60). <p>The retirement benefit is based on final average compensation and credited service. Final average compensation is the 48 highest consecutive months of service within the last 120 months of service.</p> <p>Under the Rule of 85, a member is eligible for the first 3% increase on January 1 following the first full year of retirement, even if the member is not age 60. If the member retires at age 60 or older, he/she will receive a 3% pension increase every year on January 1, following the first full year of retirement.</p> <p>If the member retires before age 60 with a reduced retirement benefit, he/she will receive a 3% pension increase every January 1 after the member turns age 60 and has been retired at least one full year. These pension increases are not limited by the 75% maximum.</p>	<p>A member must have a minimum of 10 years of credited service and may retire at:</p> <ul style="list-style-type: none"> • Age 67, with 10 years of credited service. • Between ages 62-67 with 10 years of credited service (reduced 1/2 of 1% for each month under age 67). <p>The retirement benefit is based on final average compensation and credited service. For regular formula employees, final average compensation is the average of the 96 highest consecutive months of service within the last 120 months of service. The retirement benefit is calculated on a maximum salary of \$106,800. This amount increases annually by 3% or one-half of the Consumer Price Index, whichever is less.</p> <p>If the member retires at age 67 or older, he/she will receive a pension increase of 3% or one-half of the Consumer Price Index for the preceding calendar year, whichever is less, every year on January 1, following the first full year of retirement. The salary limits for calendar year 2020 is \$115,929.</p> <p>If the member retires before age 67 with a reduced retirement benefit, he/she will receive a pension increase of 3% or 1/2 of the Consumer Price Index for the preceding calendar year, whichever is less, every January 1 after the member turns age 67 and has been retired at least one full year. These pension increases are not limited by the 75% maximum.</p>

THE ILLINOIS STATE TOLL HIGHWAY AUTHORITY

A Component Unit of the State of Illinois

Notes to the Financial Statements

For the Year Ended December 31, 2020

Additionally, SERS provides an alternative retirement formula for State employees in high-risk jobs, such as State policemen, fire fighters, and security employees. Employees qualifying for benefits under the alternative formula may retire at an earlier age depending on membership in Tier 1 or Tier 2. The retirement formula is 2.5% for each year of covered service and 3.0% for each year of noncovered service.

SERS also provides occupational and nonoccupational (including temporary) disability benefits. To be eligible for nonoccupational (including temporary) disability benefits, an employee must have at least eighteen months of credited service. The nonoccupational (including temporary) disability benefit is equal to 50% of the average rate of compensation of the employee on the date of removal from the payroll. Occupational disability benefits are provided when the member becomes disabled as a direct result of injuries or diseases arising out of and in the course of State employment. The monthly benefit is equal to 75% of the average rate of compensation on the date of removal from the payroll. This benefit amount is reduced by workers' compensation or payments under the Occupational Diseases Act.

Occupational and nonoccupational death benefits are also available through SERS. Certain nonoccupational death benefits vest after eighteen months of credited service. Occupational death benefits are provided from the date of employment.

Contributions

Contribution requirements of active employees and the State are established in accordance with Chapter 40, section 5/14-133 of the Illinois Compiled Statutes (ILCS). Member contributions are based on fixed percentages of covered payroll ranging between 4% and 12.50%. Employee contributions are fully refundable, without interest, upon withdrawal from State employment. Tier 1 members contribute based on total annual compensation. Tier 2 members contribute based on an annual compensation rate not to exceed \$115,929 for 2020 with limitations for future years increased by the lesser of 3% or one-half of the annual percentage increase in the Consumer Price Index.

The State is required to make payment for the required departmental employer contributions, all allowances, annuities, any benefits granted under Chapter 40, Article 5/14 of the ILCS and all administrative expenses of SERS to the extent specified in the ILCS. State law provides that the employer contribution rate be determined based upon the results of each annual actuarial valuation.

For fiscal year 2020, the required employer contributions were computed in accordance with the State's funding plan. This funding legislation provides for a systematic 50-year funding plan with an ultimate goal to achieve 90% funding of the plan's liabilities. In addition, the funding plan provided for a 15-year phase-in period to allow the State to adapt to the increased financial commitment. Since the 15-year phase-in period ended June 30, 2010, the State's contribution will remain at a level percentage of payroll, recomputed annually, for the next 35 years until the 90% funded level is achieved. For state fiscal year 2020, the employer contribution rate was 54.290%. For state fiscal year 2021, the employer contribution rate is 54.831%. The Tollway's contribution amount for calendar year 2020 was \$61,919,610.

The Tollway has made all required contributions through December 31, 2020.

THE ILLINOIS STATE TOLL HIGHWAY AUTHORITY

A Component Unit of the State of Illinois

Notes to the Financial Statements

For the Year Ended December 31, 2020

Pension Liability, Deferred Outflows of Resources, Deferred Inflows of Resources, and Expense Related to Pensions

GASB Statement No. 68, as amended by GASB Statement No. 71, requires an allocation of net pension liability and pension expense and to recognize proportionate shares for the primary government and component units, including the Tollway.

At December 31, 2020, the Tollway reported a liability of \$891,871,048 for its allocated share of the State's net pension liability for SERS on the statement of net position. The net pension liability was measured as of June 30, 2020 (current year measurement date), and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The Tollway's portion of the net pension liability was based on the Tollway's proportion of employer contributions relative to all employer contributions made to the plan during the year ended June 30, 2020. As of the current year measurement date of June 30, 2020, the Tollway's proportion was 2.5578%, which was an increase of 0.0010% from its proportion of 2.5568% measured as of the prior year measurement date of June 30, 2019.

Change in the net pension liability allocated to the Tollway for the year ended December 31, 2020, is as follows:

	Balance				Balance		Amounts due
	January 1	Additions	Deletions		December 31		within one year
Net Pension Liability	\$ 853,819,076	\$ 96,850,032	\$ (58,798,060)		\$ 891,871,048	\$	-

For the year ended December 31, 2020, the Tollway recognized pension expense of \$75.1 million. This expense is higher than the statutory actual contributions made by the Tollway, due to the implementation of GASB Statement No. 68.

At December 31, 2020, the Tollway reported deferred outflows and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Difference between expected and actual experience	\$ 2,279,573	\$ 3,500,323
Changes in assumptions	18,813,910	5,260,245
Net difference between projected and actual investment earnings on pension plan investments	4,953,869	-
Changes in proportion and differences between Tollway contributions and proportionate share of contributions	2,081,189	24,293,495
Tollway contributions subsequent to the measurement date	31,613,391	-
	<u>\$ 59,741,932</u>	<u>\$ 33,054,063</u>

The \$31.6 million reported as deferred outflow of resources related to pensions resulting from Tollway contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ending December 31, 2021.

THE ILLINOIS STATE TOLL HIGHWAY AUTHORITY

A Component Unit of the State of Illinois

Notes to the Financial Statements

For the Year Ended December 31, 2020

Other amounts reported as deferred outflows and deferred inflows of resources related to pensions will be recognized as pension expense as follows:

<u>Year Ending</u>		<u>Amount</u>
12/31/2021	\$	(10,590,221)
12/31/2022		(1,937,061)
12/31/2023		3,185,516
12/31/2024		4,416,242
Total	\$	<u><u>(4,925,524)</u></u>

Actuarial Methods and Assumptions

The total pension liability was determined by an actuarial valuation as of June 30, 2020, using the following actuarial assumptions, applied to all periods included in the measurement:

Mortality: Pub-2010 General and Public Safety Healthy Retiree mortality tables, sex distinct, with rates projected to 2018 generational mortality improvement factors were updated to projection scale MP-2018.

Inflation: 2.25%

Investment Rate of Return: 6.75%, net of pension plan investment expense, including inflation.

Salary increases: Salary increase rates based on age related productivity and merit rates plus inflation.

Post-retirement benefit increases of 3.00%, compounded, for Tier 1 and the lesser of 3.00% or one-half of the annual increase in the Consumer Price Index for Tier 2.

Retirement Age: Experience-based table of rates specific to the type of eligibility condition. Table was last updated for the June 30, 2019, valuation pursuant to an experience study of the period July 1, 2015 to June 30, 2018.

THE ILLINOIS STATE TOLL HIGHWAY AUTHORITY

A Component Unit of the State of Illinois

Notes to the Financial Statements

For the Year Ended December 31, 2020

The long-term expected real rate of return on pension plan investments was determined based on the simulated average 20-year annualized geometric return for each major asset class. These returns are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage. For each major asset class that is included in the pension plan's target asset allocation, calculated as of the measurement date of June 30, 2020, the 20-year simulated real rates of return are summarized in the following table:

	Asset Allocation	
	Target Allocation	20 Year Simulated Rate of Return
U.S. Equity	23.0%	5.5%
Developed Foreign Equity	13.0%	5.9%
Emerging Market Equity	8.0%	7.8%
Private Equity	7.0%	7.5%
Intermediate Investment Grade Bonds	14.0%	1.1%
Long-Term Government Bonds	4.0%	1.1%
TIPS	4.0%	1.0%
High Yield and Bank Loans	5.0%	3.7%
Opportunistic Debt	8.0%	4.7%
Emerging Market Debt	2.0%	2.7%
Real Estate	10.0%	3.2%
Infrastructure	2.0%	3.9%
Total	100.0%	

Discount Rate

A discount rate of 6.35% was used to measure the total pension liability as of June 30, 2020. This single blended discount rate was based on the expected rate of return on pension plan investments of 6.75% and a municipal bond rate of 2.45%. The projection of cash flows used to determine this single discount rate assumed that plan member contributions will be made at the current contribution rate and that contributions will be made at rates equal to the difference between the statutory contributions and the member rate. Based on these assumptions, the pension plan's fiduciary net position and future contributions were sufficient to finance the benefit payments through the year 2075 at June 30, 2020. As a result, the long-term expected rate of return on pension plan investments was applied to projected benefit payments through the year 2075, and the municipal bond rate was applied to all benefit payments after that date.

THE ILLINOIS STATE TOLL HIGHWAY AUTHORITY

A Component Unit of the State of Illinois

Notes to the Financial Statements

For the Year Ended December 31, 2020

Sensitivity of the Net Pension Liability to Changes in the Discount Rate

The net pension liability for the plan was calculated using a single discount rate of 6.35%, as well as what the net pension liability would be if it were calculated using a discount rate that is 1-percentage point lower or 1-percentage point higher than the current rate as shown below as of June 30, 2020:

	June 30, 2020		
	1% decrease	Current	1% increase
	(5.35%)	Discount Rate	(7.35%)
	(6.35%)	(6.35%)	(7.35%)
Tollway's net pension liability	\$1,078,107,773	\$891,871,048	\$738,792,954

Payables to the Pension Plan

At December 31, 2020, the Tollway had no payable to SERS for outstanding contributions to the pension plans.

(12) Other Post-Employment Benefits (OPEB)

Plan description

The State Employees Group Insurance Act of 1971 ("Act"), as amended, authorizes the Illinois State Employees Group Insurance Program ("SEGIP") to provide health, dental, vision, and life insurance benefits for certain active employees and retirees and their dependents. SEGIP includes substantially all employees of State agencies as well as retired employees of The Illinois Toll Highway Authority, Illinois Comprehensive Health Insurance Plan ("ICHIP"), and the State's nine university component units. (Tollway retirees participate in SEGIP, but its active employees are covered under the Tollway's own self-insured health plan and do not participate in SEGIP.) Members receiving monthly benefits from the General Assembly Retirement System ("GARS"), Judges Retirement System ("JRS"), State Employees' Retirement System of Illinois ("SERS"), Teachers' Retirement System ("TRS"), and State Universities Retirement System of Illinois ("SURS") are eligible for these other post-employment benefits ("OPEB"). Additionally, certain members covered under TRS for pension purposes are eligible for retiree healthcare benefits under the Teachers' Retirement Insurance Program ("TRIP"). Other TRS members eligible for coverage under SEGIP include: certified teachers employed by certain State agencies, executives employed by the Board of Education, regional superintendents, regional assistant superintendents, TRS employees and members with certain reciprocal service.

The Department of Central Management Services administers these benefits for annuitants with the assistance of the public retirement systems sponsored by the State (GARS, JRS, SERS, TRS and SURS). The State recognizes SEGIP OPEB benefits as a single-employer defined benefit plan. The plan does not issue a stand-alone financial report.

Benefits provided

The health, dental, and vision benefits provided to and contribution amounts required from annuitants are the result of collective bargaining between the State and the various unions representing the State's and the university component units' employees in accordance with limitations established in the Act. Therefore, the benefits provided and contribution amounts are subject to periodic change. Coverage through SEGIP becomes secondary to Medicare after

THE ILLINOIS STATE TOLL HIGHWAY AUTHORITY

A Component Unit of the State of Illinois

Notes to the Financial Statements

For the Year Ended December 31, 2020

Medicare eligibility has been reached. Members must enroll in Medicare Parts A and B to receive the subsidized SEGIP premium available to Medicare eligible participants. The Act requires the State to provide life insurance benefits for annuitants equal to their annual salary as of the last day of employment until age 60, at which time, the benefit amount becomes \$5,000.

Funding policy and annual other postemployment benefit cost

OPEB offered through SEGIP are financed through a combination of retiree premiums, State contributions and Federal government subsidies from the Medicare Part D program. Contributions are deposited in the Health Insurance Reserve Fund, which covers both active State employees and retirement members. Annuitants may be required to contribute towards health and vision benefits with the amount based on factors such as date of retirement, years of credited service with the State, whether the annuitant is covered by Medicare, and whether the annuitant has chosen a managed health care plan. Annuitants who retired prior to January 1, 1998, and who are vested in the State Employee's Retirement System do not contribute toward health and vision benefits. For annuitants who retired on or after January 1, 1998, the annuitant's contribution amount is reduced 5% for each year of credited service with the State allowing those annuitants with 20 or more years of credited service to not have to contribute towards health and vision benefits. All annuitants are required to pay for dental benefits regardless of retirement date. The Director of Central Management Services shall, on an annual basis, determine the amount the State shall contribute toward the basic program of group health benefits. State contributions are made primarily from the General Revenue Fund on a pay-as-you-go basis. No assets are accumulated or dedicated to funding the retiree health insurance benefit and a separate trust has not been established for the funding of OPEB.

Total OPEB liability, deferred outflows of resources, deferred inflows of resources and expense related to OPEB.

GASB Statement No. 75 requires an allocation of net OPEB liability and OPEB expense and to recognize proportionate shares for the primary government and component units, including the Tollway.

At December 31, 2020, the Tollway recorded a liability of \$580,018,281 for its allocated share of the State's net OPEB liability on the statement of net position. The total OPEB liability, as reported at December 31, 2020, was measured as of June 30, 2020, with an actuarial valuation as of June 30, 2019. The Tollway's portion of the net OPEB liability was based on the Tollway's proportion of employer contributions relative to all employer contributions made to the plan during the year ended June 30, 2020. As of the current year measurement date of June 30, 2020, the Tollway's proportion was 1.3706%.

For the year ended December 31, 2020, the Tollway recognized OPEB expense of \$9.3 million.

THE ILLINOIS STATE TOLL HIGHWAY AUTHORITY

A Component Unit of the State of Illinois

Notes to the Financial Statements

For the Year Ended December 31, 2020

At December 31, 2020, the Tollway reported deferred outflows and deferred inflows of resources, as of the measurement date of June 30, 2020, from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Difference between expected and actual experience	\$ 3,282,352	\$ 6,245,721
Changes in assumptions	15,850,643	58,248,141
Changes in proportion	-	22,996,633
Tollway contributions subsequent to the measurement date	24,417,291	-
	<u>\$ 43,550,286</u>	<u>\$ 87,490,495</u>

The amounts reported as deferred outflows of resources related to OPEB resulting from Tollway contributions subsequent to the measurement date will be recognized as a reduction to the OPEB liability in the year ended December 31, 2021. Other amounts reported as deferred outflows and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

<u>Year Ending</u>	<u>Amount</u>
12/31/2021	\$ 26,824,077
12/31/2022	20,186,767
12/31/2023	10,212,603
12/31/2024	9,848,508
12/31/2025	1,285,545
	<u>\$ 68,357,500</u>

Actuarial methods and assumptions

The total OPEB liability was determined by an actuarial valuation using the following actuarial assumptions, applied to all periods included in the measurement unless otherwise specified. The actuarial valuation for the SEGIP was based on GARS, JRS, SERS, TRS, and SURS active, inactive, and retiree data as of June 30, 2019, for eligible SEGIP employees, and SEGIP retiree data as of June 30, 2019.

THE ILLINOIS STATE TOLL HIGHWAY AUTHORITY
A Component Unit of the State of Illinois
Notes to the Financial Statements
For the Year Ended December 31, 2020

Valuation Date	June 30, 2019
Measurement Date	June 30, 2020
Actuarial Cost Method	Entry Age Normal, used to measure the Total OPEB liability
Discount Rate	2.45%
Inflation Rate	2.25%
Projected Salary Increases	2.75% - 7.17%
Healthcare Cost Trend Rates	Actual trend used for fiscal year 2020. For fiscal years on and after 2021, trend starts at 8.25% for non-Medicare cost and post-Medicare costs, and gradually decreases to an ultimate trend of 4.25%. There is no additional trend rate adjustment due to the repeal of the Excise Tax.
Retirees' Share of Benefit-Related Costs	Healthcare premium rates for members depend on the date of retirement and the years of service earned at retirement. Members who retire before January 1, 1998, are eligible for single coverage at no cost to the member. Members who retire after January 1, 1998, are eligible for single coverage provided they pay a portion of the premium equal to 5% for each year of service under 20 years. Eligible dependents receive coverage provided they pay 100% of the required dependent premium. Premiums for plan years 2019 and 2020 are based on actual premiums. Premiums after 2020 were projected based on the same healthcare cost trend rates applied to per capita claim costs.

The demographic assumptions and economic assumptions used in the OPEB valuation are consistent with those used in the June 30, 2020, pension valuations for GARS, JRS, SERS, TRS, and SURS as follows:

General Employees and retirees	Proposed Mortality Table	Male Set Back Years	Female Set Back Years	Male Scaling Factor	Female Scaling Factor
Pre-retirement	Pub-2010 General Employee, sex distinct	2	1	89%	95%
Post-retirement	Pub-2020 General Healthy Retiree sex distinct	0	(1)	111%	111%

Discount Rate

Retirees contribute a percentage of the premium rate based on service at retirement. The State contributes additional amounts to cover claims and expenses in excess of retiree contributions. Because plan benefits are financed on a pay-as-you-go basis, the single discount rate is based on a tax-exempt municipal bond rate index of 20-year general obligation bonds with an average AA credit rating as of the measurement date. A single discount rate of 3.13% at June 30, 2019, and 2.45% at June 30, 2020, was used to measure the total OPEB liability.

THE ILLINOIS STATE TOLL HIGHWAY AUTHORITY

A Component Unit of the State of Illinois

Notes to the Financial Statements

For the Year Ended December 31, 2020

Sensitivity of total OPEB liability to changes in the single discount rate

The following presents the plan's total OPEB liability, calculated using a Single Discount Rate of 2.45%, as well as what the plan's total OPEB liability would be if it were calculated using a Single Discount rate that is one percentage point higher (3.45%) or lower (1.45%) than the current rate:

June 30, 2020		
Current Single Discount		
1% Decrease	Rate Assumption	1% Increase
1.45%	2.45%	3.45%
\$ 682,710,801	\$ 580,018,281	\$ 498,082,841

Sensitivity of the total OPEB liability to changes in the healthcare cost trend rate

The following presents the plans total OPEB liability, calculated using the healthcare cost trend rates as well as what the plan's total OPEB liability would be if it were calculated using a healthcare cost trend rate that is one percentage point higher or lower, than the current healthcare cost trend rates. The key trend rates are 8.25% in 2021 decreasing to an ultimate trend rate of 4.25% in 2037.

June 30, 2020		
Healthcare Cost		
1% Decrease^(a)	Trend Rates Assumption	1% Increase^(b)
\$ 485,561,273	\$ 580,018,281	\$ 703,876,793

(a) One percentage point decrease in healthcare trend rates are 7.25% in 2021 decreasing to an ultimate trend rate of 3.25% in 2037.

(b) One percentage point increase in healthcare trend rates are 9.25% in 2021, decreasing to an ultimate trend rate of 5.25% in 2027.

THE ILLINOIS STATE TOLL HIGHWAY AUTHORITY

A Component Unit of the State of Illinois

Notes to the Financial Statements

For the Year Ended December 31, 2020

(13) Risk Management

The Tollway has a self-insured risk program for workers' compensation claims, and is liable to pay all approved claims. Claims liabilities are reported when it is probable that a loss has occurred and the amount of the loss can be reasonably estimated. Claims liabilities include non-incremental claims adjustment expenses. The estimated liabilities for workers' compensation claims of \$16,910,865 and incurred but not reported employee health claims of \$1,052,957 as of December 31, 2020, are included in the accompanying financial statements.

<u>Balance at January 1</u>	<u>Additions</u>	<u>Deletions</u>	<u>Balance at December 31</u>	<u>Current Portion</u>
\$ 15,490,929	\$ 5,855,949	\$ (4,436,013)	\$ 16,910,865	\$ 5,900,000

Changes in health insurance claims payable for the year ended December 31, 2020, are as follows:

<u>Balance at January 1</u>	<u>Additions</u>	<u>Deletions</u>	<u>Balance at December 31</u>	<u>Current Portion</u>
\$ 724,776	\$ 14,139,203	\$ (13,811,022)	\$ 1,052,957	\$ 1,052,957

Additionally, the Tollway purchases commercial insurance policies for general liability insurance and vehicle liability insurance which have a level of retention of \$500,000 per occurrence for general liability and \$250,000 per occurrence for vehicle insurance. Property insurance coverage for damages to capital assets other than vehicles includes retention of \$1,000,000 per occurrence.

The Tollway has not had significant reductions in insurance coverage during the current or prior year nor did settlements exceed insurance coverage in any of the last three years.

THE ILLINOIS STATE TOLL HIGHWAY AUTHORITY

A Component Unit of the State of Illinois

Notes to the Financial Statements

For the Year Ended December 31, 2020

(14) Compensated Absences

The accrued compensated absences liability reported in the statement of net position represents the vacation for all years, and 50% of unused sick time for the period beginning January 1, 1984, and ending December 31, 1997, accrued by the employees, and is payable upon termination or death of the employee. The payment provided shall not be allowed if the purpose of the separation from employment and any subsequent re-employment is for the purpose of obtaining such payment. The Tollway's liability for unused annual vacation leave and sick leave as defined above is recorded in the accompanying financial statements at the employee's pay rate.

Changes in accrued compensated absences for the year ended December 31, 2020, are as follows:

	<u>Balance at January 1</u>	<u>Accrued</u>	<u>Used</u>	<u>Balance at December 31</u>	<u>Due within one year</u>
2020 \$	9,154,599	\$ 7,928,167	\$ 5,025,516	\$ 12,057,250	\$ 5,100,000

This Space is Intentionally Left Blank

Notes to the Financial Statements

For the Year Ended December 31, 2020

(15) Pledges of Future Revenues

All revenue bonds issued under the Tollway's Trust Indenture are secured by a pledge of and lien on Tollway revenues and certain other funds (excluding amounts reserved for the payment of maintenance and operating expenses) as provided in the Trust Indenture.

<u>Bond issue</u>	<u>Purpose</u>	<u>December 31, 2020</u>	
		<u>Pledged future revenues</u>	<u>Term of commitment</u>
2009 Series A Senior Priority Revenue (Build America Bonds - Direct Payment)	Fund Congestion-Relief Program	\$ 721,285,700	2034
2009 Series B Senior Priority Revenue (Build America Bonds - Direct Payment)	Fund Congestion-Relief Program	509,359,200	2034
2013 Series A Senior Revenue	Fund "Move Illinois" Program	870,499,750	2038
2014 Series A (Refunding) Senior Revenue	Refund 2005A Bonds	213,600,000	2022
2014 Series B Senior Revenue	Fund "Move Illinois" Program	893,625,000	2039
2014 Series C Senior Revenue	Fund "Move Illinois" Program	711,400,000	2039
2014 Series D (Refunding) Senior Revenue	Refund 2006A Bonds	254,633,375	2025
2015 Series A Senior Revenue	Fund "Move Illinois" Program	747,482,500	2040
2015 Series B Senior Revenue	Fund "Move Illinois" Program	747,482,500	2040
2016 Series A (Refunding) Senior Revenue	Refund 2008B Bonds	519,026,250	2032
2016 Series B Senior Revenue	Fund "Move Illinois" Program	565,700,000	2041
2017 Series A Senior Revenue	Fund "Move Illinois" Program	575,935,000	2042
2018 Series A (Refunding) Senior Revenue	Refund portions of 2007A, 2008A, 2009A Bonds	674,382,125	2031
2019 Series A Senior Revenue	Fund "Move Illinois" Program	601,840,000	2031
2019 Series B (Refunding) Senior Revenue	Refund 2010A-1 Bonds	308,200,875	2044
2019 Series C (Refunding) Senior Revenue	Refund 2007A, 2008A Bonds	968,120,750	2031
2020 Series A Senior Revenue	Fund "Move Illinois" Program	1,042,977,222	2045
		<u>\$ 10,925,550,248</u>	

Proceeds from the bonds identified above provided financing or refinancing for the construction and/or improvement of the various corridors within the Tollway's toll highway system. Future projected principal and interest payments on the bonds are expected to require approximately 35% of future pledged net revenue (incorporating previously approved, as of December 31, 2020, commercial vehicle annual toll rate increases based on the consumer price index, such increases projected at 2.0% annually). The total principal and interest remaining to be paid on the bonds is \$10.9 billion. Principal and interest paid in calendar year 2020 was \$416.9 million, and total pledged net revenue in calendar year 2020 was \$933.8 million.

THE ILLINOIS STATE TOLL HIGHWAY AUTHORITY

A Component Unit of the State of Illinois

Notes to the Financial Statements

For the Year Ended December 31, 2020

(16) Commitments

At December 31, 2020, the remaining obligations against current contracts open for capital programs for construction relief program and “*Move Illinois*” totaled \$2.3 billion. The Tollway plans to fund remaining payments under these contracts through revenues, accumulated cash, and bond issue proceeds.

(17) Pending Litigation

There are pending claims and lawsuits against the Tollway, which, among other things, seek damages arising out of alleged personal injury, unpaid health insurance contributions, wrongful discharge and other employment-related matters. Generally, the Tollway’s exposure is limited to the self-insured retention of \$500,000 per general liability incident. Also pending are various workers’ compensation claims and numerous Administrative Review actions in which individual parties are challenging the results of toll violation enforcement proceedings.

Management, after taking into consideration legal counsel’s evaluation of such actions, is of the opinion that the outcome of these matters will have no material effect on the financial position of the Tollway.

(18) Contingent Liabilities

A contingent liability is defined as a liability that is not sufficiently predictable to permit recording in the accounts but in which there is a reasonable possibility of an outcome which might affect financial position or results of operations. It is the opinion of management that the Tollway has no liabilities meeting this definition as of December 31, 2020.

(19) New Governmental Accounting Standards

The Governmental Accounting Standards Board (GASB) has issued the following statements:

GASB Statement No. 87 – *Leases* – This statement changes the accounting treatment for operating leases. This statement is effective for fiscal years beginning after June 15, 2021. Management has not yet determined the impact of this pronouncement on the Tollway’s financial statements.

GASB Statement No. 90 – *Majority Equity Interests – an amendment of GASB Statements No. 14 and No. 61* - This statement improves the reporting of a government’s majority interest in a legally separate organization. It is effective for years beginning after December 15, 2019. This statement did not impact the Tollway’s financial statements.

GASB Statement No. 91 – *Conduit Debt Obligations* – The requirements of this statement will improve financial reporting by eliminating the existing option for issuers to report conduit debt obligations as their own liabilities, thereby ending significant diversity in practice. The clarified definition will resolve stakeholders’ uncertainty as to whether a given financing is, in fact, a conduit debt obligation. Requiring issuers to recognize liabilities associated with additional commitments extended by issuers and to recognize assets and deferred inflows of resources related to certain arrangements associated with conduit debt obligations also will eliminate diversity, thereby improving comparability in reporting by issuers. Revised disclosure requirements will provide financial statement users with better information regarding the commitments issuers extend and the likelihood that they will fulfill those commitments. That information will inform users of the potential impact of such commitments on the financial resources of issuers and help users assess issuers’ roles in conduit debt obligations. This statement is effective for reporting periods beginning after December 15, 2021. This statement did not impact the Tollway’s financial statements.

THE ILLINOIS STATE TOLL HIGHWAY AUTHORITY

A Component Unit of the State of Illinois

Notes to the Financial Statements

For the Year Ended December 31, 2020

GASB Statement No. 93 – *Replacement of Interbank Offered Rates* – This statement addresses accounting and financial reporting implications that result from the replacement of interbank offered rate (IBOR). This statement is effective for years beginning after June 30, 2021. This statement will not impact the Tollway’s financial statements.

GASB Statement No. 94 – *Public-Private Partnerships and Availability Payment Arrangements* – The objective of this statement is to improve financial reporting by addressing issues related to public-private and public-public partnership arrangements, in which a government contracts with an operator to provide public services. This statement is effective for fiscal years beginning after June 15, 2022. Management has not yet determined the impact of this pronouncement on the Tollway’s financial statements.

GASB Statement No. 95 – *Postponement of the Effective Dates of Certain Authoritative Guidance* – This statement postponed the effective dates of previously issued GASB pronouncements due to the COVID-19 pandemic. The revised effective dates are reflected for the pronouncements listed in this footnote.

Statement No. 96 – *Subscription-Based Information Technology Arrangements (SBITAs)*– This statement provides guidelines for the financial reporting for SBITA liabilities, capitalization and note disclosures. Management has not yet determined the impact of this pronouncement on the Tollway’s financial statements.

Statement No. 97 – *Certain Component Unit Criteria and Financial Reporting for IRC Code 457 Deferred Compensation Plans – An Amendment of GASB Statements No. 14 and 84* -The purpose of this statement is to enhance financial reporting related to Section 457 plans. This statement is effective generally for reporting periods beginning after June 15, 2021. Management has not yet determined the impact of this pronouncement on the Tollway’s financial statements.

(20) Related Parties

The Tollway has entered into various intergovernmental agreements with the State of Illinois, through the Illinois Department of Transportation (IDOT). Intergovernmental receivables of approximately \$101.7 million are recorded at December 31, 2020, representing construction projects performed by the Tollway that pertain to the infrastructure owned by IDOT. Accrued liabilities totaling approximately \$37.4 million are recorded for amounts owed to IDOT for construction projects IDOT has performed for infrastructure assets owned by the Tollway.

(21) Subsequent Events

On January 1, 2021, a toll rate increase took effect for commercial vehicles, reflecting an increase in the Consumer Price Index (CPI) for All Urban Consumers. This increase was implemented pursuant to the Tollway Board of Directors’ approval in 2008 and confirmation in 2011 of annual CPI-based commercial vehicle toll rate increases beginning January 1, 2018 and each year thereafter.

On February 25, 2021, the Tollway Board authorized the issuance of up to \$600,000,000 of senior-lien fixed rate revenue bonds for purposes of funding a portion of Move Illinois capital program expenditures.

On April 22, 2021, the Tollway Board of Directors approved changes to the Tollway’s economic assistance program, IPASS Assist. Under this enhanced I-PASS Assist program qualifying participants will no longer be required to place a deposit on their transponder account, and deposits

THE ILLINOIS STATE TOLL HIGHWAY AUTHORITY

A Component Unit of the State of Illinois

Notes to the Financial Statements

For the Year Ended December 31, 2020

on existing IPASS Assist accounts will be transferred to the prepaid toll balance. In addition, the minimum amount required for prepaid tolls will be reduced to \$4 (from \$10). Furthermore, going forward under the enhanced IPASS Assist program, under certain conditions missed tolls may not be subject to invoicing fees. Eligibility to participate will include an income-based requirement.

The traffic on the Illinois Tollway has begun to recover from the adverse effects of the COVID-19 pandemic. As of 8/31/2021, the Tollway's traffic is at approximately 92% of its pre-pandemic level.

The Tollway has been notified by the U.S. Treasury of a 5.7% reduction in U.S. Treasury subsidies of Build America Bond interest payments for the federal fiscal year ending September 30, 2021. This reduction is expected to reduce the subsidies earned by the Tollway for: the Series 2009B interest payment due June 1, 2021; and the Series 2009A interest payment due July 1, 2021. The total amount of such reductions is expected to be \$410,160.

(22) Restatement of Net Position

During Calendar Year 2020, two error corrections resulted in restatements to beginning net position, as follows:

	Reporting Unit Affected by the Restatement to Beginning Balances
	Business-Type Activities
12/31/2019, as previously reported	\$ 3,451,111,822
Error Correction (A)	(509,815,049)
Error Correction (B)	4,122,999
Sub-Total	<u>(505,692,050)</u>
12/31/2019, as restated	<u>\$ 2,945,419,772</u>

- (A) This error correction was due to an understatement in the Tollway's OPEB liability and errors in related OPEB accounts. This error occurred due to the Tollway and the State of Illinois, Department of Central Management Services (CMS) not separately stating OPEB balances for Tollway employees who only partake in the State Employees Group Insurance Program (SEGIP) upon their retirement from the Tollway from other employees accounted for within SEGIP's cost-sharing proportionate share allocation of OPEB balances.
- (B) This error correction was due to the Tollway improperly classifying contributions to SEGIP subsequent to SEGIP's measurement date as expenses rather than deferred outflows of resources prior to December 31, 2019.

THE ILLINOIS STATE TOLL HIGHWAY AUTHORITY

A Component Unit of the State of Illinois
Notes to the Trust Indenture Basis Schedules
December 31, 2020

(1) Summary of Significant Accounting Policies

The Trust Indenture requires the Tollway to provide separate funds for construction (Construction Fund) and for operations (Revenue Fund), which funds are not annually appropriated by the Illinois General Assembly. The Trust Indenture permits the Tollway to create additional accounts for the purpose of more precise accounting. The Illinois State Treasurer holds monies for the Tollway as ex-officio custodian and has recorded these monies in a custodial account. Part of this account is part of the Maintenance and Operation Account within the Revenue Fund.

Prior to fiscal year 2005, the Tollway issued separate annual financial statements, prepared on the basis of accounting described below, in order to demonstrate compliance with the requirements of the Trust Indenture (Trust Indenture Annual Statements). Beginning in 2005, the Tollway has included schedules, prepared on the basis of accounting described below, in the supplementary information section of this report. The Tollway believes that these schedules, along with the GAAP basis financial statements contained in this report, are sufficient to demonstrate compliance with the annual financial reporting requirements of the Trust Indenture. As a result, separate Trust Indenture Annual Statements are no longer prepared. Certain items in the presentation of the Trust Indenture information contained herein vary from the presentation previously used in the Trust Indenture Annual Statements. In addition, the schedules contained in this section of the report present only the Revenue Fund and the Construction Fund. Previously, the Trust Indenture Annual Statements included "Infrastructure and Long-term Debt Accounts," which was optional reporting allowed under the Trust Indenture.

Basis of Accounting

Under the provisions of the Trust Indenture, the basis of accounting followed for the Construction Fund and the Revenue Fund within the schedule of changes in fund balance by Fund, differs in certain respects from accounting principles generally accepted in the United States of America.

The major differences are as follows:

1. Capital construction and asset acquisitions are charged against fund balance as incurred. In addition, there is no provision for depreciation.
2. Monies received from sale of assets are recorded as revenue when the cash is received.
3. Monies received for long-term fiber optic leases are recorded as revenue when received.
4. Principal retirements on revenue bonds are expensed when paid. The results of defeasement are accounted for as revenue or expense at the time of the transaction.
5. Bond proceeds (including premiums) are recorded as income in the year received. Amounts received from refunding issuances, if any, are recorded net of transfers to the escrow agent.
6. Unrealized gains and losses on Debt Reserve invested funds are netted against interest and other financing costs.
7. Capital lease obligations are not recorded. Payments under capital leases are expensed in the period payments are made.

THE ILLINOIS STATE TOLL HIGHWAY AUTHORITY

A Component Unit of the State of Illinois
Notes to the Trust Indenture Basis Schedules
December 31, 2020

8. Interest related to construction in progress is not capitalized.
9. Recoveries of expenses are classified as decreases in operating expenses for Trust Indenture reporting and as miscellaneous operating revenue for GAAP.
10. In Trust Indenture reporting, transponder purchases and other miscellaneous expenses are reflected in the Renewal and Replacement fund as capital expense. For GAAP the expenses are reflected as an operating expense.
11. Construction expenses incurred under intergovernmental agreements are decreased by payments received under these intergovernmental agreements.
12. Prepaid expenses are recorded only if refundable for Trust Indenture reporting.
13. The provisions of GASB Statement No. 68 regarding net pension liability and deferred outflows and inflows of resources are not reflected in the Trust Indenture reporting. Pension expense reflects the statutory contributions required under Chapter 40, section 5/14 of the Illinois Compiled Statutes.
14. The provisions of GASB Statement No. 75 regarding net OPEB liability and deferred outflows and inflows of resources are not reflected in the Trust Indenture reporting.

Therefore, the accompanying Schedules of Changes in Fund Balance by Fund, which are prepared in accordance with the aforementioned accounting principles, are not intended to, and do not, present the financial position or the results of operations in accordance with accounting principles generally accepted in the United States of America.

A description of the individual accounts within the Revenue Fund and Construction Fund, as well as the required distribution of revenues collected, is as follows:

The Revenue Fund

All revenues received by the Tollway other than investment income shall be delivered by the Tollway to the Treasurer, for deposit in the Revenue Fund. On or before the 20th day of each month the Treasurer shall, at the direction of the Tollway, transfer or apply the balance as of such date of transfer in the Revenue Fund not previously transferred or applied in the following order of priority:

- A. To the Operating Sub-Account, operating expenses set forth in the annual budget for the fiscal year in an amount equal to one-twelfth of the total approved budget, less all other amounts previously transferred by the Treasurer for deposit to the credit of the Operating Sub-Account during that fiscal year, less the balance, if any, which was on deposit to the credit of the Operating Sub-Account on December 31 of the preceding fiscal year.
- B. To the Operating Reserve Sub-Account, the amount specified by the Tollway, but not to exceed 30% of the amount annually budgeted for operating expenses.

THE ILLINOIS STATE TOLL HIGHWAY AUTHORITY

A Component Unit of the State of Illinois
Notes to the Trust Indenture Basis Schedules
December 31, 2020

- C. To the Interest Sub-Account, an amount equal to interest due on unpaid bonds, plus one-sixth of the difference between the interest payable on bond and interest due within the next six months.
- D. To the Principal Sub-Account, an amount equal to any principal due plus one-twelfth of any principal of such outstanding senior bonds payable on the next principal payment date.
- E. To the Redemption Sub-Account, an amount for each bond equal to one-twelfth of any sinking fund installment of outstanding bonds payable within the next twelve months.
- F. To the Provider Payment Sub-Account, amounts as provided in any supplemental indenture for paying costs of credit enhancement or qualified hedge agreements for bonds or for making reimbursements to providers of credit enhancement or qualified hedge agreements for bonds.
- G. To the Debt Service Reserve Account, an amount sufficient to cause the balance in it to equal the debt reserve requirement and to make reimbursement to providers of reserve account credit facilities.
- H. To the Junior Bond Debt Service or Junior Bond Debt Reserve Account, any amounts required by applicable supplemental indentures.
- I. To the Renewal and Replacement Account, one-twelfth the portion of the renewal and replacement amount set forth in the annual budget for the fiscal year.
- J. The balance of such amounts in the Revenue Funds are to be applied as follows:
 - 1) To the credit of the Improvement Account for allocation to a project as determined by the Tollway in its sole discretion, until the balance in the Account is equal to the improvement requirement or a lesser amount as the Tollway may from time to time determine.
 - 2) To the credit of the System Reserve Account, the entire amount remaining in the Revenue Fund after depositing or allocating all amounts required to be deposited to the credit of the above Accounts and Sub-Accounts.

Maintenance and Operation Account

The Maintenance and Operation Account consists of the Operating Sub-Account and the Operating Reserve Sub-Account. Moneys in the Operating Sub-Account are applied to operating expenses at the direction of the Tollway.

THE ILLINOIS STATE TOLL HIGHWAY AUTHORITY

A Component Unit of the State of Illinois
Notes to the Trust Indenture Basis Schedules
December 31, 2020

Revenues are transferred to the Operating Sub-Account to cover the expenses set forth in the annual budget for the current fiscal year. One-twelfth of the operating expenses outlined in the annual budget are transferred to this account once a month. Revenue is recorded on an accrual basis and as such may not be available for allocation until the cash is collected.

The Operating Reserve Sub-Account receives or retains an amount not to exceed 30% of the amount budgeted for operating expenses in the annual budget for the current fiscal year. Monies in the Operating Reserve Sub-Account are held as a reserve for the payment of operating expenses and are to be withdrawn if moneys are not available to the credit of the Operating Sub-Account to pay operating expenses.

If the Tollway determines that the amount in the Operating Reserve Sub-Account exceeds that amount necessary, the excess will be withdrawn from such Sub-Account and applied as revenues. By resolution, the Board voted to maintain a \$27.4 million fund balance in this account.

Debt Service Account

The Debt Service Account consists of the Interest Sub-Account, the Principal Sub-Account, the Redemption Sub-Account, and the Provider Payment Sub-Account, to be held by the Trustee.

Revenues are required to be deposited to cover the interest and principal amounts due and unpaid for bonds, credit enhancement or qualified hedge agreements. Revenues must also be deposited to the credit of the Debt Reserve Account in an amount sufficient to cause the balance in it to equal the debt reserve requirement.

The Debt Reserve Account receives funds to provide an amount sufficient to cause the balance in it to equal the debt reserve requirement and to make any required reimbursement to providers of reserve account credit facilities.

Renewal and Replacement Account

Revenues must be credited to the Renewal and Replacement Account in an amount set forth in the annual budget for the renewal and replacement deposit. An amount set forth in the budget shall be determined based on recommendations of the Consulting Engineer. Additional funds can be transferred to this account by the Tollway, based on the capital plan expenditures.

Improvement Account

At the direction of the Tollway, the balance of amounts in the Revenue Fund are applied to the Improvement Account, for allocations to projects, determined by the Tollway, until the balance in the Account is equal to the improvement requirement.

THE ILLINOIS STATE TOLL HIGHWAY AUTHORITY

A Component Unit of the State of Illinois
Notes to the Trust Indenture Basis Schedules
December 31, 2020

System Reserve Account

At the direction of the Tollway, the balance in the Revenue Fund is deposited to the credit of the System Reserve Account to provide for deficiencies in any other account or sub-account. If all accounts have sufficient funds, System Reserve Account funds can be used to pay off debt, fund construction projects, make improvements, or pay for any other lawful Tollway purpose. There were no balances or activity in the System Reserve Account during 2020.

The Construction Fund

The Construction Fund is held as a separate segregated fund. The Construction Fund receives funds from the sale of bonds (other than refunding bonds) and investment of proceeds. The Treasurer establishes and maintains within the Construction Fund a separate, segregated account for each Project, the costs of which are to be paid in whole or in part out of the Construction Fund.

(2) Miscellaneous

The following items are reported as Bond Interest and Other Financing Costs:

Components of Bond Interest and Other Financing Costs - 2020

	<u>Debt Service</u>	<u>Debt Reserve</u>	<u>Total</u>
Bond interest expense	\$ 308,556,685	\$ -	\$ 308,556,685
Other financing costs	59,903	206,897	266,800
	<u>\$ 308,616,588</u>	<u>\$ 206,897</u>	<u>\$ 308,823,485</u>

Other Information:

- (1)** Construction and Other Capital Expenses for Renewal and Replacement and Improvement include accrued expenses.
- (2)** Bond interest expense includes accrued interest payable at December 31, 2020.
- (3)** In November 2008, the Tollway purchased a \$100 million surety bond. This policy is being amortized over the life of the bonds (24.1 years). The amortization is shown in the debt reserve column above.
- (4)** Cash and investment balances held by the Trustee at December 31, 2020, are \$181.4 million in the Debt Service accounts, and \$425.2 million in the Debt Reserve account.
- (5)** Insurance and Employee Benefits includes expense for retirement, worker's compensation, the employer portion of FICA, and medical insurance.

THE ILLINOIS STATE TOLL HIGHWAY AUTHORITY
A Component Unit of the State of Illinois
Notes to the Trust Indenture Basis Schedules
December 31, 2020

(3) Restatement of Fund Balance

The fund balance as of January 1, 2020, has been restated to correct the amount due to the Illinois State Employees Group Insurance Program for retiree health insurance. It was determined that the Tollway's required payments had been inaccurately calculated through December 31, 2020. As the result of these errors, it was necessary for the Tollway to restate its beginning fund balance for the portion that pertained to years prior to 2020.

Statistical Section (Unaudited)
For the Year Ended December 31, 2020

This part of the Tollway's annual comprehensive financial report presents detailed information to amplify the information in the Tollway's financial statements, note disclosures, and required supplementary information.

Financial Trends - These schedules contain trend information to assist the reader in understanding how the Tollway's financial performance and well-being have changed over time.

Net Position by Type	70
Changes in Net Position	71
Operating Revenues by Source	72
Toll Revenue by Toll Plaza	73-76
Renewal and Replacement Account	77

Revenue Capacity – These schedules contain information to help the reader assess the Tollway's most significant revenue source (tolls).

Historical Toll Rates by Vehicle Class	78
Toll Revenue Versus Traffic	79
Toll Revenue by Class of Vehicles	80
Annual Toll Revenues	81
Annual Toll Transactions	82

Debt Capacity – These schedules present information to help the reader assess the affordability of the Tollway's current levels of outstanding debt and its ability to issue additional debt in the future.

Summary of Operating Revenues, Maintenance and Operating Expenses, Net Operating Revenues and Debt Service Coverage - Trust Indenture Basis	83
Operating Revenues, Maintenance and Operating Expenses and Net Operating Revenues	84

Demographic and Economic Information – This schedule offers demographic indicators to help the reader understand the environment within which the Tollway's operations take place.

Population and Commuting Statistics	85-88
-------------------------------------	-------

Operating Information – These schedules contain service and other data to help the reader understand how the information in the Tollway's report relates to the services it provides.

Average Number of Employees by Function	89
Location Map – Illinois Tollway	90
Service Efforts and Accomplishments	91-92

Sources: Unless otherwise noted, the information in these schedules is derived from the Tollway's annual comprehensive financial reports for the relevant years.

⁽¹⁾ Rate Tier 1 vehicles making payment via I-PASS or E-Zpass are tolled at the discounted rate, and the non-discounted rate applies to other forms of payment.

⁽²⁾ Commercial vehicles (Rate Tiers 2-4) are tolled at a discounted rate during the overnight period of 10 p.m. – 6 a.m. whether paying by I-PASS or other payment forms (the "Overnight Discount Rate"). On IL-390 commercial vehicles paying with I-Pass or E-ZPass are tolled at a discount rate and the non-discounted rate applies to other forms of payment.

⁽³⁾ The toll rates listed above are toll rates for 11 of 28 of the mainline plazas on the Tollway System. Toll rates at the other mainline plazas are lower or higher by various amounts. A complete listing of toll rates at each Tollway System plaza may be found on the Authority's website (<https://www.illinoistollway.com/tolling-information>).

Toll Revenue by Class of

Vehicles (Unaudited)

For the Years Ended December 31, 2020 and 2019

Class of Vehicle	2020		2019	
	Average Daily		Average Daily	
	Transactions*	Revenue**	Transactions*	Revenue**
1. Auto, motorcycle, taxi, station wagon, ambulance, single-unit truck or tractor: 2 axles, 4 tires	1,879,631	\$ 522,789,269	2,467,970	\$ 726,062,718
2. Single-unit truck or tractor, buses: 2 axles, 6 tires	41,647	31,023,154	47,308	36,631,431
3. Trucks and buses with 3 & 4 axles	54,460	65,378,812	54,670	68,251,926
4. Trucks with 5 or more axles, other vehicles and toll adjustments	234,261	529,828,659	233,399	549,804,679
TOTAL	2,209,999	\$ 1,149,019,894	2,803,347	\$ 1,380,750,754

* The "Average Daily Transactions" represents the average daily number of vehicles passing through the toll plazas.

** Toll revenue does not include tolls collected through the Evasion Recovery Program of approximately \$93.2 and \$81.6 million, respectively. These are reported as Toll Evasion Recovery revenue.

THE ILLINOIS STATE TOLL HIGHWAY AUTHORITY

A Component Unit of the State of Illinois

Annual Toll Revenues

Passenger and Commercial Vehicles (Unaudited)

For years 2011 to 2020

(Dollars in thousands)

Year:	<u>Passenger</u>	<u>Commercial</u>	<u>Total</u>	<u>Percentage passenger</u>
2011	\$ 354,186	\$ 298,488	\$ 652,674	54.27%
2012	615,957	306,433	922,390	66.78%
2013	622,349	320,803	943,152	65.99%
2014	630,556	338,416	968,972	65.07%
2015	662,720	483,909	1,146,629	57.80%
2016	686,846	529,452	1,216,298	56.47%
2017	724,905	584,285	1,309,190	55.37%
2018	719,165	621,886	1,341,051	53.63%
2019	726,063	654,688	1,380,751	52.58%
2020	522,789	626,231	1,149,020	45.49%

The changed rate structure implemented in 2012 and 2015-2017 contributed to the increase and decrease, respectively, in the percentage of revenues from passenger vehicles.

The impact of the 2020 COVID-19 pandemic was greater on passenger vehicle traffic than commercial vehicle traffic.

THE ILLINOIS STATE TOLL HIGHWAY AUTHORITY

A Component Unit of the State of Illinois

Annual Toll Transactions

Passenger and Commercial Vehicles (Unaudited)

For years 2011 to 2020

(Transactions in thousands)

THE ILLINOIS STATE TOLL HIGHWAY AUTHORITY
 A Component Unit of the State of Illinois
 Location Map (Unaudited)
 December 31, 2020

Note: Six patron service areas, each referred to in the map above as an “Oasis Location,” serve the Tollway System. Five of the six are each comprised of: (i) a patron service building, known as an oasis pavilion, that houses washroom facilities, restaurants and other traveler-related convenience services; and (ii) motor fuel facilities consisting of a fuel station and associated retail convenience store. The other patron service area, located on I-294 slightly south of I-90, is comprised of only the fuel station and associated retail convenience store. References to “oasis” or “oases” in this document may refer solely to the five locations that include an oasis pavilion.

THE ILLINOIS STATE TOLL HIGHWAY AUTHORITY

A Component Unit of the State of Illinois

Service Efforts and Accomplishments

For the Year Ended December 31, 2020 (Unaudited)

(1) Tollway Mission

The Illinois State Toll Highway Authority is dedicated to providing and promoting a safe and efficient system of toll supported highways while ensuring the highest possible level of customer service.

(2) Strategic Priorities

With the above Mission Statement in mind, the Tollway is guided by four strategic priorities that are consistent with those outlined by the Governor's Office of Management and Budget:

- Increase employment and attract, retain and grow businesses
- Improve infrastructure and customer safety
- Support basic functions of government
- Promote environmental responsibility and culture

(3) Summary of Tollway Operations

The Tollway maintains and operates 294 miles of interstate tollways in 12 counties in Northern Illinois, including the Reagan Memorial Tollway (I-88), the Veterans Memorial Tollway (I-355), the Jane Addams Memorial Tollway (I-90), the Tri-State Tollway (I-94/I-294/I80), and Illinois Route 390.

The Tollway is a user fee system. No state or federal tax dollars are used to support the maintenance and operation of the Tollway system. The Tollway depends on toll revenues and proceeds from the issuance of revenue bonds for the expansion, reconstruction, and improvement of the Tollway system. The Tollway's budget is a balanced budget in which revenues provide sufficient resources for operating and maintenance expenses, debt service and required deposits to the Renewal and Replacement and Improvement Accounts as required by the Trust Indenture.

(4) Key Performance Measures

The following metrics were reported for the year ending December 31, 2020:

- | | |
|---|------------|
| 1. The percentage of vehicles using I-PASS: | 89.1% |
| 2. Travel Time Congestion Measure for the A.M. rush hour: | 0.88 |
| 3. The average personal injury accident clearance time: | 42 minutes |

The following metrics were reported for the year ending December 31, 2019:

- | | |
|---|------------|
| 1. The percentage of vehicles using I-PASS: | 90.7% |
| 2. Travel Time Congestion Measure for the A.M. rush hour: | 1.00 |
| 3. The average personal injury accident clearance time: | 35 minutes |

THE ILLINOIS STATE TOLL HIGHWAY AUTHORITY
A Component Unit of the State of Illinois
Service Efforts and Accomplishments
For the Year Ended December 31, 2020

Legislation enabled Illinois State Toll Highway Commission to issue bonds	1953
Construction began on tollways	September 1956
Jane Addams Tollway opened	August 1958
Tri State Tollway opened	August 1958
Ronald Reagan Tollway opened	November 1958
Ronald Reagan West Extension opened	November 1974
Veterans Memorial Tollway opened	December 1989
Veterans Memorial South Extension Tollway opened	November 2007
Tri-State Tollway (I-294)/I-57 Interchange opened	October 2014
Illinois Route 390 opened.....	July 2016

Length of Illinois Tollways:

Jane Addams Memorial Tollway (I-90)	76 miles
Tri State Tollway (I-94/I-294/I-80).....	82 miles
Reagan Memorial Tollway (I-88).....	96 miles
Veterans Memorial Tollway (I-355).....	30 miles
Illinois Route 390.....	10 miles

Tollway Oases:

Jane Addams Memorial Tollway (I-90)	Tri-State Tollway (I-94/I-294/I-80)	Reagan Memorial Tollway (I-88)
<u>Belvidere</u>	<u>Chicago Southland Lincoln</u>	<u>DeKalb</u>
	Hinsdale	
	Lake Forest	

Each oasis includes fuel stations and concessions. During 2018, the O'Hare oasis pavilion on I-294 was closed for demolition that was completed in 2019, but the fuel stations remain.

Number of Employees:

Engineering and maintenance of roadway and structures	670
Services and toll collection	351
Traffic control, safety, patrol and radio communication (includes District 15 State Police).....	176
Administrative	234

Note: The Tollway does not receive any tax revenue from the State of Illinois
