

The Illinois Tollway is hosting a free Construction Manager's Training seminar to review the roles and responsibilities as detailed in the Construction Manger's Manual. This seminar will also highlight the role of the Tollway Maintenance Department and the General Engineering Consultant. Additional discussion topics will include: traffic barrier warrants and installation of proprietary and non-proprietary guardrail, guardrail terminals and energy attenuators. This training is intended for construction Mangers and field personnel who inspect and oversee Tollway contracts.

March 22, 2013
9:00 a.m. to 4:00 p.m.
Illinois Tollway, 2700 Ogden Avenue, Downers Grove, IL
