

# Guardrail-Installer Training

The Tollway is initiating a free training seminar on the installation of proprietary and non-proprietary guard-rails, guardrail terminals and energy attenuators. This training is intended for personnel who install these devices, providing proper installation practice on specific units utilized on the Illinois Tollway system.

Manufacturers of various units will be conducting training sessions on two dates for selected Tollway staff and Contractor's personnel.

## TRAINING DATES:

### April 3, 2013

#### Session 1: Non-Proprietary Tollway Standard Installations

9:00 a.m. to 3:00 p.m.

#### Presenter:

- Tollway General Engineering Consultant (GEC)

### April 4, 2013

#### Session 2: Proprietary Tollway Standard Installations

9:00 a.m. to 3:00 p.m.

#### Presenters:

- Tollway GEC
- David Reese, *Road Systems, Inc.*
- Don Gripne, *Trinity Industries, Inc.*

## LOCATION:

Training will take place at the Tollway maintenance yard on Finley Road in Downers Grove. Lunch will not be provided.

Please RSVP by March 26 to Rob Buerer at [rob@markingspecialists.net](mailto:rob@markingspecialists.net).

#### Directions:

**From I-355** - Exit Butterfield Road East, turn Right on Finley Road (first stoplight), head south to maintenance yard entrance.

**From Ogden Avenue** - Take Finley Road north, entrance is located on the left just past the overpass.
