07/14/26	Illinois citizen	60606			X		X			Affordable	Oppose	Sorry but it's racist to ask my name. I oppose any increase, we should be able to do the necessary work with the funds available. According to the governor his hard work is saving us money so we can put that extra cash to work for us.
07/14/26	Abraham Hernandez jr	60478	X	X	X						Support	Need new roads
07/14/26	Debi Fulda	60565	X				X			Stop 🔘	Oppose	The tollway connection originally was designed to be temporary now you keep barking it up!!! No
07/14/26	Rebecca	60617	X				X	X			Oppose	There is absolutely no reason to raise the toll price, there are far too many opportunities to increase revenue that don't involve causing more financial instability for those who have no other choice but to depend on these roads. These tolls do more damage than improve and it's asinine to continue to raise the price when the roads leading towards these tolls are more pothole than road and have rarely is ever been cleared of the debris from prior accidents or garbage from those have not cared to dispose of correctly.
07/14/26	Juan Munoz	60527	X		X		X				Support	Improve tollway infrastructure
07/14/26	Joe Healy	60526	X		X	X					Support	The increase will pay for much needed infrastructure
07/14/26	Jason Rich	60014			X	X		X			Neutral	Tolls bring in valuable funding to support regional infrastructure, but I feel like Illinois is trapped in a cycle of expand the roadways, see traffic increase, expand the roadways, see traffic increase, and so on. This is creating an induced demand system that serves no one particularly well. We need to invest in modernizing the Metra lines, and possibly even some business credits for remote work to remove local vehicles from the tollways. This will better enable the flow of goods through the area, reduce wear and tear on the roads while situating the area as a hub for getting goods to southern Wisconsin, northern Indiana, and western Michigan. Positioning the area for the future isn't about expanding the roads or modernizing how we collect tolls, but about ensuring that local traffic has high quality mass transit infrastructure allowing business traffic to not find itself stuck in bumper to bumper stop and go traffic.
07/14/26	Jason James	60177	X	X	X						Support	
07/14/26	Patrick Walsh	60123				X	X		X		Oppose	The state has over a Billion dollars in overpaid taxes, remove the Tollways as promised.
07/14/26	Edward Paganelli	46307	X		X	X					Support	I would pay more now to save more later while saving myself more time out of my day rather than sitting in traffic keeping a couple more quarters to my name.
07/14/26	Therese Talarico	60192	X	X			X				Oppose	This is too large of an increase. People cant afford gas, groceries and now you want to add higher tolls to try to get to their jobs. You need to install additional toll booths in areas that are not paying their fair share. Many areas have so few toll booths where others using the Jane Adams have them every little bit. Charge a toll to get into or out of the airport. Add tolls on I 90 into the city. You dont need them along the way, just add one to each exit. That would produce a huge increase in revenue. Charge trucks much higher tolls to use the expressways. They are destroying the roads because of their weight and size. The drive in all 4 lanes speeding causing accidents. Their trucks are too large to jump lanes the way they do. The same people cant keep paying for everything. Road costs need to spread to everyone.
07/14/26	Christine Hagenauer	60446					X		X	No tolls	Oppose	The taxes and tolls of Illinois are ridiculous! The tolls will go up as the inflation rises, but workers pay doesn't go up as much as the tolls and taxes. So why do you think raising tolls and taxes would be great for the people and the state of Illinois.
07/14/26	Dave W	60560			X	X	X				Oppose	Here we go again. Tax us to death. I cannot wait to leave this god forsaken state
07/14/26		60193			X		X			Lower toll cost	Oppose	
07/14/26	Jeremy Strong	60652	X		X	X					Support	
07/14/26	william kolenda	60563			X		X			Roads are always under construction.Nothing seems to change.Do not raise the toll rates	Oppose	Please do not raise the toll rates.They already cost too much already

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/14/26	James R Huck	60441	X				X			Reduce your costs by shrinking your overhead and use our toll money more efficiently.	Oppose	I am strongly against this proposed increase. Your current annual toll revenue far exceeds your expenses. In 2024 IL Toll collected $1.28 Billion more than needed for Expenses and Maintenance. We pay enough in Federal and State fuel and road taxes. You also are proposing a CPI increases so you don't have to ask the public about future biannual increases. Absolutely not! No future increases without representation and public input. The Toll Authority was supposed to be abolished 50 years ago. Now you have just become another big taxing bureaucracy. Enough is enough! Vote NO on this increase!!!
07/14/26	Philip Pulley	61736	X			X	X				Oppose	The state raised taxes for road construction by 50% recently, yet construction/repair spending barely went up. Now you want more money? Spend the money you have already taken from us.
07/14/26	Janusz Majzner	60190	X		X	X					Support	Transportatiison is like the bloodstream in the human body. It must be a priority.
07/14/26	Alan	60402			X	X	X				Oppose	You are not to be trusted with astronomically more money when you are the same incompetent morons who closed the Salt Creek bike trail for 4 years for NO good reason. Eat it, you cock suckers. And I only use your stupid roads like twice a year.
07/14/26	Frank DiGiovanni	60411	X	X	X						Support	
07/14/26	Trent Fisher	60502	X		X		X				Oppose	An additional 45 cents per toll plus annual increases tied to CPI for passenger vehicles is absurd. No improvements are made, all we get is continuous construction, no relief, no shorter commutes - we are saddled with the worst commutes/congestion in the entire country according to multiple independent studies. When I get paid for sitting in traffic, wasting my work day (or private time), then I'd consider an increase in toll fees. Give us SOMETHING. An actual high toll lane that isn't jammed; an HOV lane, anything that doesn't make something that should be a 50 minute drive 90+ minutes.
07/14/26	Peter Fosco	60631	X	X	X						Support	
07/14/26	Joseph Wallander	60139	X		X	X					Oppose	The constant raising of taxes in this state is causing an exodus of businesses, families, and individuals. Let's not give people one more reason to avoid this state
07/14/26	Bruce Mather	60174	X		X	X					Oppose	I do not support letting the governor take funds from the tollway maintenance account to support public transport in the city of Chicago and then raise fees on the tollway to replace those funds. How does the governor have access to those funds without public approval?
07/14/26	Rob S.	60119	X		X		X				Oppose	Toll costs are already outweighing the benefits in some cases of taking toll roads. It appears costs keep rising in IL as comparative to our neighboring states and this is just one more increase. Please clearly outline the benefits for the consumers who use the roads.
07/14/26	Roger Dominguez	60490	X	X					X		Support	I support the tollway proposal program 100%
07/14/26	Daniel Torson	60403	X		X	X					Oppose	The increase is too big.
07/14/26	Timothy O'Brien	60447				X	X		X		Oppose	It's funny that other states can keep roads up without charging tolls. I am retired and can't afford a rate hike.
07/14/26	Mark Pavlis	60416	X	X	X						Support	IL Tollway projects provide thousands of hours of employment for skilled trained Laborers. These jobs also accumulate valuable wages and secure insurance and retirement benefits for hard working families here in Illinois.
07/14/26	Conor	60123	X				X	X			Oppose	I cannot support what amounts to in some cases a 100% rate increase as a start during a cost of living crisis without adequate and affordable public transit options, which the Chicago suburbs and rural areas lack. My commute is 25 minutes by car, or 2 hours by bus with no late night return option.
07/14/26	James Joiner	60655	X		X					Safety	Support	
07/14/26	Luis Yañez	60126	X	X			X				Oppose	The state of Illinois has been doing these repairs on highways for the last two decades. 294, 290, 55, 355 all traffic jams and nothing has been solved with the increases these past two decades, and now this proposal? What do you call What you've been doing for the past twenty years? Every year its the same places with little resolve. You're bleeding the state dry and the governor has depleted the money of every household with no concern or restraint because it doesn't affect his pockets. Im against anything that costs the residents of this state more money or increase in taxes. You're trying to milk a dry cow.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/14/26	Judith DIAZ-MURPHY	60646	X	X			X				Support	
07/14/26	Tom Moder	60013			X	X	X				Oppose	Why do you send an email notice of hearings on increase proposals the DAY OF the hearing? Do you really want to hear from the public or not? I am opposed to a 50% increase in the cost of my most used tolled route!
07/14/26	Katy S	60118	X			X	X				Oppose	With gas prices skyrocketing and car insurance doubling, it's hard enough to afford to go to work in the first place. I'm not one of the lucky work from home people and I'm already spending way too much on transportation as it is. If tolls go up, I'll be forced to use side streets and endure a longer commute.
07/14/26	David Lewis	60629	X	X					X		Support	
07/14/26	Yolanda Casillas	60617			X	X	X				Oppose	If the toll increases I will choose alternative routes for transportation. Drivers should not have to pay exuberant prices. Find another way to raise the funds.
07/14/26	Mugford	60062	X			X	X				Oppose	$25 billion was collected in 2025. The overall budget was $1.7 billion. No more increases are needed to maintain the tollway which is already in good shape. More transparency is needed so the public knows what tollway projects are a priority.
07/14/26	Brian Konkoleski	60629	X	X			X				Support	
07/14/26	Ronald Marks	60099	X		X		X				Oppose	Tolls are too high already.They suppose I'd stop collecting money years ago when they first came up with the toll road
07/14/26	Guillermo Rodriguez	60617	X	X	X						Support	
07/14/26	Dan Fester	60185	X		X		X				Neutral	
07/14/26	Andrea Hinich	60018	X		X		X				Oppose	You have enough money. Quit wasting it ripping up the same roads year after year. I am tired of driving by the worksites and there is either no one working or one or two guys doing work while the rest stand around and watch. This construction causes significant traffic and travel delays. It is extremely annoying and limiting where I will and will not go to avoid it.
07/14/26	PHILLIS HOLIDAY	60615	X	X	X						Support	
07/14/26		49684	X		X		X				Oppose	I am a former Illinois resident and public school teacher. I can’t keep going to the public whenever I want money. I have to raise funds and work for it. Might I suggest having a couple of golf outings to raise funds for your vague proposed improvements?
07/14/26	Eric	60130				X	X			Making the tolls go away, they were to have been gone in 1973.	Oppose	I thought the tolls were supposed to be temporary and the roads would be 'free ways' in 1973. Temporary? Maybe in a timeline of 1 million years, 60 years would seem temporary, but we don't live that long. How about making these tolls go away as originally promised? How about decreasing costs to commuters and commercial transportation instead of building in rate hikes?
07/14/26	Brendan Hosty	60453	X		X		X				Support	
07/14/26	Kia Sutton	60201	X		X				X		Support	
07/14/26	Charlotte Vicente-Brandon	60510	X			X	X				Oppose	We have so many reputable physicians leaving Illinois. We have so many friends and acquaintances leaving Illinois. The policies have become adversary to many of us hard-working citizens. Please prioritize FISCAL RESPONSIBILITY and family-friendly laws before moving on to unnecessary projects that only benefits a few -- the government employees and businesses tied to these projects.
07/14/26	James Laurino	60609	X				X		X		Support	We are always in need of all of these services. Due to the volume of ware and use of our roads and infrastructure.
07/14/26	Jermaine King	60643	X		X				X		Neutral	
07/14/26	Candelario Garcia	60402	X		X		X				Support	More work opportunities the better

07/14/26	Scott	60450			X		X			No increase. People have a hard time already paying so much.	Oppose	Bad idea to increase. Should reduce it. People will try to bypass the tollway to save money. That would be worse.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/14/26	Billy Borowski	61341	X	X		X					Support	
07/14/26	Kyle Mishler	60194	X	X	X						Support	
07/14/26	Troy Hensley	61571			X	X	X				Oppose	Average expence to go form about 7 cents per mile to 11 cents per mile... that's a 57% increase and THEN you want to tie future increases to inflation. For a company pushing 2 Billion in revenues and and strong finincals this feels like an absoute money grab and yet another burden on the people you supposedly serve.
07/14/26	Jim Connolly	60464	X		X		X				Support	It makes a world of difference traveling to and from work as well as different appointments.
07/14/26	Antonio Castrejon	60641	X		X			X			Support	
07/14/26	Christopher Prazak	60564	X		X	X					Support	
07/14/26	Daniel Easterday	60015-4613	X				X			Less construction	Oppose	Illinois already raised the tolls in order to fund mass transit for the city of chicago, which is outside of the scope of what the illinois tollway authority is supposed to be doing. I am vehemently opposed to any further rate increases. 284 has been under construction for what seems like a decade and it doesn't look anywhere close to being finished. No more rate increases until current projects are finished, and then we need to find a way to discontinue what was supposed to be a temporary project.
07/14/26	Denae	60142	X			X	X				Oppose	Ever since I was born my parents were told the tolls were going to be eliminated after pay off and now it is lifelong. Where is this money going otherwise? I understand the hard work put into the systems but there has to be something corrupt about this. Everyday people are stretched thin as it is!!!!!
07/14/26	Jairo Gomez	60120	X			X	X				Neutral	
07/14/26	Kevin Garretson	60450	X			X	X				Oppose	Cut the waste...multiple people standing around on job sites watching one or two workers doing the work. Better biding process.
07/14/26	Paul Gehrmann	60542		X	X		X				Support	
07/14/26	Vadim A	53092	X		X		X				Oppose	Yet another ripoff.
07/14/26	Patrick Hosty	60453	X		X		X				Support	
07/14/26	Alec Rodriguez	60060			X	X	X				Oppose	I oppose increasing toll charges. I pay almost $900 a year in tolls.
07/14/26	Brian Berrettini	60098	X						X	All choices listed are designed to show the need for increased funding? Perhaps you should add a response like, The current roads and driver services are adequate as they are if maintained properly.	Oppose	I have lived in Illinois long enough to achieve senior status. Having traveled through 42 states over a 40 year period for work related travel. Each. If not every state traveled has had far better road conditions than Illinois has ever had. So this raise a simple question for all Illinois drivers. Why do other states road conditions always "appear" to be better constructed and or better maintained than Illinois roads? Add the fact Illinois is at or very near the top at property and orther taxes compared to most others. Illinois has become a state where more residents may want to leave than those considering moving to Illinois. The only reason Im still an Illinois resident is because of 3 married kids and 9 grandchildren, or I would have left long ago.
07/14/26	Ismael Ocasio	60085			X	X	X				Support	Let s do this! LIUNA!!!
07/14/26	Maureen O'Neill	60012					X	X		Why do I have to choose three - I only care about the cost, and it's too much.	Oppose	No - just no - we already have the highest property taxes in the country, and our tollways already charge ridiculous amounts - in addition to hikes in water, electric, Metra, etc., this state is fee-ing us to death. Keep your stupid project - and stop trying to couch this as a thing that's great for families - we all know that Chicago traffic is bad - you're just doing a cash grab like every other utility or service company. Enough already!
07/14/26	Raul Perez	60087	X		X		X				Support	Illinois needs to maintain and improve toll ways to accommodate the influx of new drivers
07/14/26	Jennifer Craven	53029			X		X		X		Oppose	This only reinforces to me that we should ALWAYS go to Michigan through the UP instead of going through Chicago. Few hours longer drive, well worth it!
07/14/26	William Steven Schneider	60124			X	X	X				Neutral	why aren't the cost per toll shown at each collection point? the transponders don't tell you nor does the toll both. why is it such a secret??
07/14/26	Paul Fosco	60527	X		X		X				Support	
07/14/26	K. Mcdonald	60451	X		X		X				Oppose	Manage the money you receive better first before asking for more.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/14/26	Steven Shadab	60124	X		X	X					Support	Transportation infrastructure is the lifeblood of the economy in NE Illinois and the Illinois Tollway's system is a very important aspect. I am in support of the Tollway's Capital Program. I appreciate the fact that the Tollway is completely toll funded and that the agency does not receive any tax revenue. As a result, tolls being a user based fee structure, do not impact motorists that don't use the system and the user fee system gives motorist a choice.
07/14/26	Omar Acevedo	60103	X		X				X		Neutral	
07/14/26	Eliseo Nuci	60652	X	X		X					Neutral	
07/14/26		60102	X		X		X				Oppose	Bullshit increase. The construction is never ending, we shouldn't have to pay to be stuck in traffic, let alone increase it. Everything is expensive, think about the PEOPLE, not your wallets.
07/14/26	Jamal Townsend	60140	X		X	X					Support	
07/14/26	Susan Richmond	60102					X	X		you cannot control traffic...so why is this even an option	Oppose	First, it seems as if the majority of the regular traffic jams occur on no-tollway expressways (Kenney, Ryan, Eisenhower, Edens, I 80, for ex.) - how will increasing prices for road improvements on the tollways help on these roads? The only tollway that's (always been) a mess is the Tri-state (and it seems like it is always under construction) - it will never be fixable. Next, if you increase tolls for trucks, the companies will only pass those costs on to consumers...so it will be a double whammy for consumers - paying for toll increases and the higher cost of products that are shipped on trucks
07/14/26	John Pattison	60491	X				X		X		Neutral	
07/14/26	Thomas Leiser	60655	X	X	X						Support	
07/14/26		61010			X	X	X				Oppose	You gotta be kidding me right?! As Illinoisans we are sick and tired of being "fee'd", "taxed", and "tolled" to death. Why not cut out waste, corruption, and greed? That would certainly help (for starters) vs. bleeding your "customers" over and over again. This is a joke... and why I moved out of Cook County.
07/14/26	Terri Dunleavy	60453			X	X	X				Neutral	I am All for more work !!????
07/14/26	David Miller	60120	X	X	X						Support	Fully support the Tollway's Driving Connections program to continue to build and improve the Tollway system by providing a safe, reliable and accessible road way system.
07/14/26	Trinidad Padilla	60085	X		X				X		Support	
07/14/26	Daniel Terdic	60432	X	X				X			Support	
07/14/26	Michelle Lawson	60653		X	X	X					Support	Will love to work on one of these projects
07/14/26	Drew Middleton	60435	X		X	X					Support	
07/14/26	James tonne	60101	X		X		X				Oppose	No more tolls to pay for non-tollway issues, period.
07/14/26	Alberto Alfaro	61072	X	X		X					Support	
07/14/26	Sherrie Oppelt	60914	X	X					X		Support	
07/14/26	DG	60084	X			X	X				Oppose	Wasteful spending is where this has brought us
07/14/26		60010	X		X		X				Oppose	I feel the current toll rates are excessive given the fact they were supposed to eliminated in 1973. They are permanent now and should be locked. Pegging to inflation and having an initial increase disenfranchises millions of people and doesn't force the tollway administration to cut costs. Negotiating better contracts and cost savings should be the goal, not increased toll revenue. Congestion pricing for semi trucks is one way to help increase revenue and lower traffic during rush hours. Raising prices will lead to less users and you'll have to keep chasing increase to cover lost revenue.
07/14/26	Judith Tortorich	60563			X	X	X				Oppose	More money in politicians pockets! What happened to all the lottery money that was supposed to help with this and schools? Oh wait, we have to take care of illegals and not our own Americans, veterans, seniors, homeless, lower income families!!
07/14/26		60451	X		X		X				Oppose	Roads are either in terrible shape or always under construction and yet you still keep collecting tolls and asking for more money. Tollway users are not getting any results for the money being spent. The money is not being spent appropriately, contractors taking advantage of government contracts or they are not doing high quality work , or all of the above. DO BETTER!!!!

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/14/26	Christine Cliff	760563	X		X		X				Oppose	The initial increase and subsequent is steep and can stress a family's already strapped budget. I know maintenance and improvements take money, but it would behoove IDOT to consider exploring other funding opportunities rather than putting the sole funding burden on hard working Illinoisans. Thank you for taking my comments under strong consideration.
07/14/26	S. F. Jones	61108	X		X		X				Oppose	No new taxes period. This governor has taxed us to death
07/14/26	Shannon L	60505	X	X					X		Support	45 cents is a completely reasonable price increase to ensure we can not only maintain our roads but add onto them as traffic changes. People "spend" (read: waste) their money on things like online gambling, Vbucks, Geek Bars, booze; they can drop less than a dollar on essential social services that will literally benefit them too.
07/14/26	Leah	60148	X		X		X				Oppose	
07/14/26	Mary	60188	X				X		X		Oppose	Tolls are expensive enough
07/14/26	Kristine Pierre	60630	X				X			The responses to this question is frustrating to me as in many cases there is no other option for travel other than surface streets.	Oppose	I very much oppose the proposed toll increases. When I look at the proposed rates for individuals it is close to a 75% increase. That's just wrong. I also believe that at a bare minimum all future increases should be subject to review not just made automatically.
07/14/26	Jim	60563	X		X		X				Oppose	When the original toll road was built in 1959, it was supposed to be "free" after the original bonds were paid off. Instead the tolls have kept going up and the system has built a dynasty around this vital artery. Illinoians pay the highest motor fuel tax in the nation and we have some of the worse maintained roads in the country. The cost of driving in Illinois keeps going up and is one of the many reasons people like me are leaving for "greener pastures"
07/14/26	James Vass	60020					X		X	No new taxes!	Oppose	We are taxed enough!!! The registration increase a few years ago, was supposed to be for these future improvements. NO MORE TAXES!!
07/14/26	Rajesh Garg	60564	X		X		X				Oppose	Instead of increasing the toll rates, please reduce wastage, mismanagement and corruption.
07/14/26	Karen Regan	60482			X		X			Less tolls!	Oppose	This is ridiculous! It costs me $80 a month for my husband to get to work and this is going to almost double that! Find another way to maintain the roads without hurting the people trying to get to work. We will take the extra half hour and house the tollway at all
07/14/26	Jennifer N.	60136			X		X			Safety	Oppose	Unfortunately, I have to take this every day for work. The cost adds up over time. I appreciate that the tollways are maintained, but I would hope they already earn enough money for upkeep. They are always busy.
07/14/26	OG	60016			X		X			NO MORE HIKES!!!!!	Oppose	NO MORE PRICE HIKES
07/14/26	Tom Konieczny	60156	X	X			X				Support	I’m in support of these projects! I’m a Local 150 Operating Engineer and work like this keeps us busy!
07/14/26	Mark	60020					X		X	Costs and accountability. Why do you limit us to those options above? The roads should already be maintained beause you have 10's of thousands of drivers each day shelling out money.	Oppose	I can appreciate not raising tolls for 10 years, but then you want to hit us with $.045? That'll increase my toll charge more than $200 in a year. That doesn't sound like much, but it is. Especially when we look at all the other taxes and fees we have to pay. I also don't like automatic hikes. That's dangerous. It needs to be voted on each year. People need to be accountable for it each year. Automatic means no accountability going forward. Why do we need an increase any way? Does not the tollway take in huge amounts of money already? What about balance? What do the current tolls go to? Do they not pay for the roads already? This combined with gas taxes? This is unaffordable.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/14/26	Kathleen Karnoscak	60110	X				X			Not being constantly burdened with construction	Oppose	In a time where prices for everything are already high, this is just another burden on families, businesses, and citizens overall. Prices of goods and services will increase as a result of higher cost of delivery of goods and service people getting to their destinations. This will trickle down to the consumer who is already struggling to make ends meet. This state needs to look at cutting spending instead of raising tolls and taxes. They may not increase property taxes, but they find ways with incremental gas tax increase or grocery and sales tax. How about finding the money by cutting some spending somewhere instead? How about giving the citizens of our state a break instead of piling on more expenses?
07/14/26	wade siefert	61571					X	X		tolls just doubled no increase !!!!!!!!!	Oppose	no increase in tolls they just doubled. use that money learn how to balance a budget and stop breaking budget of the remaining people in Il.
07/14/26	Patrick Ricketson	60110	X				X			Waste of money	Oppose	What nonsense. I already pay enough taxes. Here is a solution for this lousy idea and for the Illinois representatives. Get rid of government pensions, raise the retirement age to 65 or 67 for all government employees, get rid of property taxes, and install term limits across ALL elected officials. Let that pig governor know that I am sick of paying his taxes. This entire stupid proposal is an example of a government that invents a purpose for itself. It is time for a 50% layoff across all government positions.
07/14/26	David Thomas	60031	X		X			X			Oppose	The current revenue generated, considering the number of vehicles traveling, should be better managed rather than taking even more money from drivers on a daily basis! Work and spend within your means! We're supposed to!
07/14/26	Joanna L todd	61238	X		X		X				Oppose	Taxing people is not the answer. What happened to all the lottery and marijuana proceeds? Those moneys were to be used for roads. Marijuana should never have been made legal. Lottery should not be legal either. You just enable people to have gambling, alcoholism, and drug issues. Now we have not only unsafe roads because of alcohol but unsafe due to drugs. Government never does anything to help anyone but themselves, to make themselves personally richer and make people who are impoverished more impoverished. Government should be small. Government spends way too much money, especially in Illinois. And once again, this is to help Chicago with nothing being done downstate.
07/14/26	Debra D Hawkins	60617	X				X	X			Oppose	I feel that increasing the tolls by these exuberant amounts will be a burden on the citizens of Illinois. With inflation and the high cost of food, rent, utilities, etc. Adding these high tolls will only stress people's incomes to the limits when they are already trying to make ends meet!
07/14/26	Daniel Armin	60540	X			X	X				Oppose	Traffic is bad on it now with all the projects which I do not see any improvement in my drive times. I currently avoid it now due to the cost so guess I will just not drive on it at all. You are making lots of money now as it is- live within your means as I have to in a fixed income as a retiree.
07/14/26	David P Halperin	60061	X				X			Safety	Neutral	While Illinois may not be the highest in toll charges Illinois is one of the most expensive states to live in. With high property taxes, income taxes, gasoline costs, home costs, insurance costs and all living costs, people are being stretched to their limits in Illinois. Illinois is a State where more people are leaving than coming to live because of our high costs. I believe this commission needs to reevaluate the .45 increase on cars and the huge increase on trucks and other vehicles. Any huge increase will be passed down to us consumers and we are the people that use the tollway system. I understand the upkeep of the entire tollway system is expensive but putting hefty increases on the backs of Illinois residents is just not fair. I suggest you lengthen the period of construction and improvements and cut the increases in half.
07/14/26	Troy J Bednar	61016	X			X	X				Oppose	The Tollway has enough money to pay for the roads without raising tolls.
07/14/26	Amanda	60103	X				X			No toll increase	Oppose	
07/14/26	Spike	46319	X		X		X				Oppose	No, I cannot be more opposed to this.
07/14/26	Brad	60439	X				X			Allow sustainable commercial use to keep businesses in IL	Oppose	This is completely unacceptable. The state is pushing residents and businesses to leave for surrounding states. It's not sustainable to tax your constituents endlessly without large improvements to their daily lives. The current taxation within the state are not acceptable

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/14/26	Janet Auclair	60561			X		X			Less construction	Oppose	Demanding such a high increase at this time is inappropriate Many people can barely afford grocery bills and maintaining a home
07/14/26	Jerrod	53158	X			X	X				Oppose	The tolls were supposed to be temporary when they began. The tollway has been paid for several times over in the time tolls have been collected. Illinois needs to stop punishing drivers and tax payers for the government's inability to use funds wisely.
07/14/26	Navin Viswakarma	60526	X	X			X				Oppose	I respectfully oppose this proposal in its current form. While I understand the importance of maintaining and improving our roads and transportation infrastructure, Illinois residents are already facing significant financial pressures. Many working families, including mine, are struggling with rising living costs, job uncertainty, high property taxes, college expenses, healthcare costs, and inflation. I often work 10–12 hours a day, including weekends, to support my family and pay for my daughter's college education. Any additional increase in tolls or I-Pass costs would place an even greater burden on middle-class families. Before implementing a $26.5 billion long-term program, I encourage the Tollway to provide clear details regarding how the funds will be used, what oversight measures will be in place, and how cost efficiencies will be ensured. Taxpayers deserve transparency and accountability for such a large investment. I support necessary road improvements, but I believe additional financial burdens on Illinois residents should be minimized, especially during a period of economic uncertainty for many families. Please consider alternative funding mechanisms and stronger cost-control measures before moving forward with this proposal.
07/14/26	Robert Sieger	60451	X					X		Tolls were not meant to last forever!	Oppose	Tolls were not meant to last forever, yet all they have done is go up! Stop ripping off the driver, maybe reduce some overhead and you can actually do the work with all of the taxes you already collect!
07/14/26	Steve	60532				X	X			Oasis with food options	Oppose	Citizens of Illinois have been robbed blind by JB Pritzker and now the tollway wants a piece. Elimination of fraud waste and abuse should be researched first
07/14/26	Bernard Stefanski	60525	X			X				Too many speeders. Road is becoming increasingly dangerous	Oppose	A high speed rail line should be installed as opposed to more lanes. Too much traffic, more pollution and congestion, more contribution to global warming. We need more and improved rail systems, like used in Europe.
07/14/26	FRANK TRICHAK	60438-3416	X	X		X					Oppose	Here we go again in this country. Let's stick it to the consumer with a 100% increase and a only 30% increase to commercial vehicles when the trucking companies get to write off the toll expenses on their taxes while the travaling public eats the whole bill.
07/14/26	Margaret	60089			X		X			Stop the increases	Oppose	Illinois is not affordable
07/14/26	Jennifer Peters	60418	X			X	X				Oppose	Costs for goods and services will go up, along with the cost of my daily commute increasing, yet our income stays the same. Illinois is already receiving enough toll money, as tolls were originally sold as being temporary to pay for the construction of the road, so to me it seems like that was mismanaged or was sold as a lie to begin with. My vote is no, I strongly oppose.
07/14/26	Justin Guimond	60554	X		X		X				Oppose	“Toll free by ‘73” Fund it with the increases in gas tax we’ve seen, or the marijuana excise tax, or the $5B in gambling money that the state brings in every year.
07/14/26	Joseph Sewielski	60062	X		X		X				Oppose	This is insane our gas tax goes up all most every year, tall goes up I would like to know where the money go. The construction takes up time up to to 10 years most of the people die standing in traffic for 10+ years. I truly thing we have scammers and crooks in charge of the money. We have Pritzker that hide his billions of shore to avoid taxis and he's in charge. People in IL are blind, we have one party system and they Dum down and tax the citizens to poverty.
07/14/26	Jennifer	60016	X		X		X				Oppose	The cost of living is far too high. We need a breather from constant price hikes across the board.
07/14/26	Dennis Demma	61019	X			X	X				Oppose	Our tollway's are so much better now with J.B. Future road needs are needed but I think it's getting a little too far out there with new projects. A toll increase is needed to fund these, but a little too much! And I do understand the funding, I am a retired 150 operator.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/14/26	Marion Lewandowski	60638	X				X		X		Neutral	Why raise tolls when driver services are NOT Available . None of the rest stops on I88 from Rockford to Chicago are open in either direction.. Tried on a few trips. Once encountered a sign stated to go to Rochelle to a gas station.. Open the buildings! Then you can raise the tolls
07/14/26	Christian Jacobson	61107			X		X		X		Oppose	We already pay too much. This increase is unneeded.
07/14/26	SANDRA M NICK	60051	X			X	X				Oppose	We have lost 218 businesses in illinois in 2023 alone, due to high taxes. At the rate we're going, I'm guessing 2026 will probably triple that along with several thousand residents moving out of state to better states that know how to control their budget. These new taxes will be distributed among a lot less people.And then you'll have more people moving out of Illinois. Let's try to get a solvent state before we do ridiculous things.
07/14/26	Anthony Ciangi	60148				X	X		X		Oppose	Another slush fund
07/14/26	Brandon	60013	X				X			stop taxing everything to death!	Oppose	You keep taking but the roadways get worse. What we really need is more roundabouts since most people have enough trouble with four way stops.
07/14/26		60418	X				X		X		Oppose	With the amount of vehicles that are on the tollroad on a daily basis, there should be an excess of money. It's time to figure out where the money's going.
07/14/26	Suzanne Mical	60560	X			X	X				Oppose	The proposed increase seems extreme, coupled with the fact that increases are planned every other year thereafter. Consumers/drivers are already facing high gas prices. A more reasonable increase should be considered. Thank you.
07/14/26	Teri Mullady	60901	X				X		X		Oppose	Why should we continue to pay higher tolls when the tollway system was originated the tolls were supposed to eventually go away not to continue to raise every other year! Majority of the rest areas / gas, food areas are gone! Nothing like other States! Illinois Sucks
07/14/26	Frank Russo	60402			X	X	X				Oppose	I am officially opposed to any rate increases, but since we, the people, have no say in anything you do regarding the tollways (meaning can't vote for the decision makers), it really makes no difference, as you are just giving us lip service to make us think that we count. You're going to do whatever you want in any case. Since you are taking years to complete construction projects already, totally inconveniencing tollway users, it just seems like you are simply mollifying the construction unions and that's it. Also, I really doubt that if the inflation rate drops in a few years, when you are proposing to adjust rates, that you will actually lower the tolls if inflation drops.
07/14/26	Dawn Krones	60194	X			X	X				Oppose	Illinois residents cannot afford to keep funding never-ending tax increases. The fact that you incorporate an increase every two years without any vote shows that it is another money grab. We just can't afford this anymore. We pay the gas tax and our roads are absolutely horrible. There is no reason this is the case.
07/14/26	Doug	60005	X			X	X				Oppose	I drive 8 miles on the express way, and have to pay 2 tolls each way. Absolutely ridiculous.
07/14/26	Rosa Soto	60089-3325	X				X			decrease in constant construction	Oppose	Illinois just transferred roadway monies to Chicago for transportation and roadway maintenance. Take some money back. The tollway was supposed to be paid off already. No need to increase the tolls at all/ As it is we drivers don not get what we pay for. The upkeep is poor. Prices aren't posted so that increases can go unnoticed too. and not convenient if one only has cash
07/14/26	Nicholas Mann	61329	X			X	X				Oppose	This state doesn’t need anymore money from us, responsibility spend what is already given instead of wasting it.
07/14/26	Chris Wasowicz	60056	X				X			Not getting nickeled and dimed by this god damned state government.	Oppose	Stop nickel-and-diming the residents for, at best, mediocre services, you financially incompetent, nepotistic dickheads. :)
07/14/26	Patel	60540	X		X				X		Neutral	
07/14/26	Ralph Orland	60189	X			X	X				Oppose	Although I do feel that tolls need to be increased to help with maintenance and optimization, I feel they should be done gradually with a phase in of 20 cents per toll for 2 years and then add 20 cents for 2 years after that and not this drastic jump that you are imposing - I also do like the idea of indexed for inflation over time as long as it is made transparent like SSI is administered

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/14/26	David G.	60441	X				X			I've had enough	Oppose	I've had enough! Tolls were meant to be temporary. 1973! Being taxed to breathe the air outside is next. How about eliminating the fraud. WE ARE TAXED ON MONEY THAT HAS BEEN TAXED ALREADY! ENOUGH!
07/14/26	Dawn	60543	X		X		X				Oppose	This is not the right time to do a increase. People are struggling with higher costs of living.
07/14/26	Kesley	60435				X	X			Quicker routes	Oppose	Raising it will not help create better roads
07/14/26		60077	X		X		X				Neutral	A 20-cent-increase is fair and reasonable not 45 cents
07/14/26		60563	X				X			more cost effective and longer-life of repaired and renewed roads	Oppose	An increase of this scale, AND additional increases every two years is not warranted and is unfair to specific road users. Focus this department's efforts on better construction practices, longer-term materials and implementation of more cost effective and longer lasting construction techniques.
07/14/26	Richard Lange	60526	X			X	X				Oppose	First of all tolls have increased since 2012 and it is our understanding that moneys for the tollway are headed to the city of Chicago for the CTA. Both Pritzker and Johnson have said so. So this is all a scam at our expense.
07/14/26	Daniel	60098	X		X		X				Oppose	Most of people are broke and struggling to afford living.
07/14/26	Jessica Fuller	61078	X		X					reparations or reimbursement for toll payers	Oppose	Toll roads should be completely REMOVED. We have been pillaged since the 70s and are actually OWED by whoever keeps stealing from us NO.MORE.TOLLS.IN.ILLINOIS.
07/14/26		60563				X	X		X		Oppose	I appreciate the work of those who make sure our roads are safe and looking for ways to improve this. With that being said, the cost of living in Illinois is unaffordable for younger families. This is a larger issue for our state; however, any rate increases of this magnitude I would have to oppose.
07/14/26		60007	X			X	X				Oppose	I believe the expression is "blood from a stone." We pay enough already. Thank you.
07/14/26	Jim Trepanier	49801	X				X			Requiring 3 stacks the deck in favor of your proposed increase.	Oppose	That is a substantial increase. I haven't noticed any shortcomings on the toll roads I have been travelling. If it goes up that much, I will be taking alternate routes.
07/14/26	Lynette Rosen	60126	X			X	X				Oppose	The tollway system was developed to pay for building the roads. The roads are built! This disproportionately impacts commuters and our own IL residents that rely on the toll roads. I do not believe that the tolls should be increased on any schedule. If increases have to be made, they should be small- 10 cents? This is a huge increase in budget that doesn't seem necessary to me. Thank you for listening.
07/14/26	Ed Kilkus	60487			X		X			reasonable tolls	Oppose	Congrats Illinois on having the most toll roads, among the highest tolls and some of the worst kept roads in the country. At least we know the tolls won't be coming down soon.
07/14/26	Bob Slinke	60120	X				X			Affordability again	Oppose	These roads were supposed to be free after 73, if there is a proposal anything other than it becoming free, then it is a horrible idea and a tax upon the IL people. Shame on you.
07/14/26	Lisa	60618	X			X	X				Oppose	You keep screwing the everyday person while corporations and churches dreamt paying their fair share.
07/14/26	Lawrence Tuider	60404	X		X		X				Oppose	I don't like a open ended project, allowing politicians to manipulate and make decisions.
07/14/26	John Rivera	60107	X			X	X				Oppose	Cut pointless government spending instead of passing the costs onto us AGAIN
07/14/26	ADEYEMI O FALETI	60680	X			X			X		Support	Although I support the toll increase, I do not support the, "every other year increase". Rather, the increase should be based on NEED after through investigation and appeal to both state and Federal funding.
07/14/26	Todd	60110	X		X		X				Oppose	
07/14/26	Tybob McKringleberry	60607	X		X		X				Oppose	Fuck you guys how about take some of our money away from supporting illegal immigrants, efforts to take away our guns, and lining your own pockets, and put it toward fixing your awful roads. I'm covering my shit from now on.
07/14/26	Aneel Kanuri	40513	X				X		X		Oppose	Current tolls are sufficient to meet the requirements. If more money is needed, cut the salary of top executives.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/14/26	Tara Johnson	61920					X		X	That driving doesn't cost an arm and a leg	Oppose	This state needs to stop wasting money. There are more drivers on the tollways than ever before, there should be more than enough money to increase the size of, repair and maintain the toll roads. And that is all that money should be used for.
07/14/26	Gloria Vancleave	61065-8988	X				X			As a73 yr.old lifelong resident of Il.and low income. I would like to be able to visit family more often and not have to pay tolls.	Oppose	Seniors on low income can't afford anymore ,can't afford Now!! Please Seniors on low income should be able to ride free,2times a week .
07/14/26	Bruce Tams	61107	X				X			Semitruck rule enforcement	Oppose	I have to commute from Rockford to Chicago by car and the tolls are already a high expense for me. Especially since there is no Metra in Rockford, and I oppose of any increase. The toll fare were supposed to go away in 1973, so the fact it's still a fee is robbery already to me and many OVERLY TAXES PEOPLE OF ILLINOIS
07/14/26	Kevin STROM	53406	X			X	X				Oppose	Our wages haven't gone up in proportion to the increases being proposed. Spending other people's money is always easy isn't it. Mange the costs by efficiency improvements and waste not increases. Crooks!
07/14/26	Ramesh Patel	60148					X		X	conveniences	Oppose	Too many times tolls have been increase and THIS IS THE WORST HIGHEST INCREASE. The toll way authorities are not managing the funds other than wasting to make unneccessary construction like built brand new cash payment booths with new cameras and made it obsolete within 17 months to pay everything on line. They should have given thoughts before wasting public money in these types of construction. What the person incharge loose other than damaging the public money === that was the most stupid decesion and who knows what will come out of this new proposal
07/14/26	James Regan	60657	X				X	X			Oppose	NO MORE TOLL INCREASES! This drives up the costs of goods and services.
07/14/26		60563	X			X	X				Oppose	
07/14/26	Margaret OBrien	60142		X			X		X		Oppose	It is already way too expensive to drive on the toll.How can a family afford this along with paying other bills and food. We are being forced to accept this even though you have set up meetings around the state. I can see the hardest hit truck drivers will find alternative routes or just avoid the state.
07/14/26	Mathew Schwartz	60914			X		X			No toll increases is most important to me.	Oppose	Good God Illinois!! How much is enough for you to keep taking and taking. How about slashing your payroll!!
07/14/26	Brian Phad	60441	X	X						I wish it was less traffic, but they always seem to be crowded	Oppose	your toll increase will cost working families hundreds to thousands of dollars depending on daily commute , it is out of line
07/14/26	Kristen Marquardt	60517			X	X	X				Oppose	I strongly oppose the toll hike. IL politicians have driven more than enough of its people out of the state with their constant rate hikes. The prices in this state are ridiculously higher than many appealing states with good weather. What's the incentive for people to live here at this point.
07/14/26	Brian Macey	60465	X			X	X				Oppose	There should not be an increase. I would prefer to go back to the original promise of once they are paid for there would be no tolls at all. The current toll more than covers maintenance of existing roads.
07/14/26	Ashish Patel	60585	X		X	X					Support

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/14/26	Felicia Castiglione	60120				X	X		X		Oppose	When the tollway was implemented in 1953, it was supposed to be a temporary means to help build more highways. 70 years later, it hasn't gone anywhere and has only GROWN. More highways have become toll roads, and the average Illinoisan can now barely step outside without being taxed for it. Implementing this increase will only put an additional squeeze onto citizens when people are already struggling with high cost of living. The state brings in nearly $5 MILLION A DAY from toll revenue, meanwhile Illinoisans are having to choose between their light and grocery bills. A 30% hike is RIDICULOUS in this economy. This is not the great idea you're framing it to be; it is just absolute, unfiltered greed. Shame on you.
07/14/26	John D	60007	X		X		X				Oppose	
07/14/26	Arianna Duarte	61073	X				X	X			Oppose	Inflation is our of control and we don't need more increases when we pay a lot on tolls. Maybe try to find cuts somewhere to help the rolls
07/14/26		60142			X		X			This was already approved, why are you spending money on a PR campaign??	Oppose	
07/14/26	Marianne	60516	X		X		X				Oppose	The state of Illinois does nothing but increase everyone's taxes & now another increase to tolls? What do they do with all the money that they've already taken from the Illinoisians? The tax us to death in this state or maybe thats the plan. Until death due us part. Our Governor & Congress do nothing to help the people of this state. They just take & take from us & just get richer themselves. We need someone to fight For the people, not beat up the people!! Stop stealing from the poor to give to the rich!!
07/14/26	A	60173	X	X	X						Oppose	Using the tolls are already expensive as is and then roads that never used to be toll roads are turning into toll roads. Stop taking money from residents of Illinois before everyone decides to stop using toll roads all together
07/14/26	Dwight Jenkins	53719	X		X				X		Support	If you build it, they will come. If you don't build it, they will still come. You better get busy building it !
07/14/26	Kalina Tulley	60302			X		X			Lower toll fees	Oppose	The toll charge was supposed to be temporary and yet we are still paying it. People are stretched thin paying for food and housing and cannot afford more toll increases especially future toll increases that go into effect without an approval process.
07/14/26		60605	X		X		X				Neutral	I understand the need for a raise in price since it has been 12 years, but I'm not sure how you came up with the increase price. And now all of a sudden it's gonna go up more every two years. It's gonna get pricey fast.
07/14/26	William J Metyk	60192					X		X	Golden highways are unaffordable. Even as an investment in my grandkid's kids.	Oppose	Golden highways are unaffordable. Even as an investment in my grandkids' kids. Worry about now too.
07/14/26	Holly Herline	54473	X		X					Adequate payment options and services	Neutral	I'm not against tolls—I understand they're necessary to maintain the roads. My frustration is with the Illinois Tollway payment system. The website and app are incredibly difficult to use. I rarely receive a bill in the mail before late fees have already been added, and the app often doesn't provide timely enough information to pay before penalties are incurred. To make matters worse, if you have two vehicles—one with an I-PASS transponder and another using Pay By Plate—you can't easily manage both. Once your account is set up with a transponder, there's no straightforward way to access or manage the Pay By Plate vehicle under the same account. Before raising toll prices, I'd much rather see improvements to the billing system, app, and customer experience
07/14/26	Patrice Riggio	60467	X		X		X				Oppose	
07/14/26	William	60615	X		X		X				Oppose	We have one of the lowest toll rates in the country. Everything is getting expensive and having inflation based toll rates will make driving on the tolls more expensive.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/14/26	Steven Haselhorst	60139	X			X	X				Oppose	We have been paying Tolls way too long for a bunch of traffic and poor managed construction. Your proposed increases will not be put to good use and will not help us just increase the burden on our already hurting wallets. Do not charge more, be wiser with all the money you currently receive!!
07/14/26	Roxanne	60142	X	X			X				Oppose	When tolls started, they were supposed to be temporary, they were supposed to fix our roads. Now that the state has our money, they won't be giving it back. And, our roads are terrible. Furthermore, they take it for one reason and spend it on another without transparency - because it goes into legislator's pockets! When lawmakers start to feel the pinch in everything in everyday life, when they have to pay their own health care and pay into social security, when they don't get the outrageous pensions, they will understand the hardships that the working class feel. The working class doesn't get to vote their own 15% yearly raises. STOP taking from us! What will you do when we have nothing more to give and are living in boxes on lower Wacker? Take from the RICH and leave the low and middle class ALONE! You want to build something - YOU find a way to pay for it! How about putting a cap on the billion-dollar profits of the airlines, drug and insurance companies? How about take it from them instead of giving huge bonuses to the CEO's?!!! No one in the United States should have to choose between food and medicine or have to worry about affording a home or a car to get to their job. No one should have to work more than one job to support a family. Government is running this country right into the ground and taking its hard-working citizens with it! What happened to FOR the people BY the people??? You should all be fired! SHAME ON YOU!!!!! Greedy, greedy, greedy - where does it end?????
07/14/26	Laura Cappelli	60130	X		X		X				Oppose	We already pay way too much for tolls and state taxes. Despite all the money taken from our paychecks, the roads have little to no improvement and there is constantly construction happening. I'm 30 years old and there has been construction/potholes on the roads since I was born.
07/14/26	Lois Skibicki	60630	X				X			The tolls should not be increased by such a drastic increase. I could understand a nickel or dime max	Oppose	You do realize that the tollway was built on tolls. The fact you make such a great amount of money is fine but 45 cents more for two years is ridiculous How about 5 cents per year? Less painful and it's still a lot. Quit being greedy all those toll collectors are gone use the money that came from them and layoff the management that they had. No No No !!!!
07/14/26	Jenny Xue	60565	X		X	X					Oppose	It has taken several years to fix the roads, but traffic is becoming worse and worse.
07/14/26	James Spencer	60046	X	X			X				Oppose	We are Senior Citizens who cannot afford toll pay increase. Consideration of senior rate freeze should be considered.
07/14/26		60089	X				X			A system that works	Oppose	In one of the most highly taxed states this is an example of endless spending with zero benefits. The Illinois Tollway system is one of the longest running scams in the nation. States with no tolls and less taxes have smoother, better and more efficient interstates and byways! Unreal! The select elites will no doubt get rich off this. Once again unfortunately
07/14/26	Joseph Long	60093	X		X		X				Oppose	Hard to get behind more construction on top of the years of construction the public has already endured. Totally burned out.
07/14/26	daren mclaughlin	60423	X				X			Safety from other drivers	Oppose	I oppose the measure I do not think during these economic troubles the country is experiencing now is the proper time to ask for a toll increase I also wonder will consideration be given to those over 65 or the people with special needs or how about tax exempt organizations and non profits Should our veterans also be asked to give more at this time So many Illinois residents are already struggling with day to day cost of living increases this would only create more financial stress Projects like these should only be suggested during stable economic conditions when more resources are available to your residents No doubt all of our infrastructure needs attention and resources will need to be created to improve them and I think fixing what is already broken should be the priority before something tragic happens Thank you for your willingness to hear everyone's ideas concerning this matter

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/14/26	Donna Chelini	60410			X	X	X				Oppose	No more taxes
07/14/26	Justin	61738			X		X			No tolls	Oppose	While I don't mind seeing Chicagoans pay more to drive their own roads, this is a terrible time to start increasing prices. People can barely afford to eat.
07/14/26	Zach	60563	X			X	X				Oppose	
07/14/26	Sarah Bult	60475	X			X	X				Oppose	Illinois gets taxed more than enough and increases are making people with fixed and limited incomes struggle more and more. With increasing populations exiting the state, an increase in tolls is not what we need.
07/14/26	Nicholas Villani	60007	X		X		X				Oppose	I drive roughly 20,000 miles a year and pay nearly $700 a year to the Illinois Toll Road. A $0.45 increase will nearly double my IPass rate of $0.55 per toll. I love Illinois and the ammenties we have in this state. However, this increase is too much on top of inflation, property taxes, etc. Please reconsider for the average person trying to get by and make a living.
07/14/26	Sam	60030	X		X		X				Oppose	No thanks!
07/14/26	RANJEET RAI	60026		X		X	X				Oppose	THIS is another terrible Illinois decision to continue LINING the COFFERS to pay for Pensions !! this will cost me an additional $250 per year to get back and forth to work. Most of the resurfacing I see being done is on perfectly good road surface and it is very upsetting!! Just fix the potholes and Make roadways that last longer like they do in every other state, Canada and Europe!! WHY DO OUR ROADS ONLY LAST FOR 5-10 YEARS BEFORE NEEDING REPLACEMENT - ITS A RACKET !!
07/14/26	Dean Endre	60025	X		X		X				Oppose	I absolutely oppose ANY proposed rate increase! There are no longer Toll Collectors-where did their salariy allotment go? And bring back District 15 ISP to 294-where did that allotment go? Request assistance from the Cook County Sheriffs Police, who didn't charge the Tollway for being present to slow down the maniac drivers on every Chicagoland tollway and expressway! Get a new Tollway Director who knows how to budget money and STOP the patronage hiring! Thank you for your review.
07/14/26	Daniel Alvarado	60137		X			X			These Roads should be in the hands of the State. Not a toll road entity. The people of Illinois are already taxed to the hilt. Do not need more taxes or more money from the taxpayers because the Stare and local government dont know how to budget. And they keep spending Taxpayer money on Illegal Aliens and people that dont want to look for s job or 2 jobs to make ends meet. Enough is enough.	Oppose	Tell your governor and mayor to stop the foolish spending. You cant expect the general public to foot the frivolous spending that makes you think that NOW you need a Raise in tolls...just because your government is now telling you that they have no money to give you. They created this funnel, now you go after them. Not taxpayers.
07/14/26	Ian m COMPANIONI	60101	X				X			Less tolls	Oppose

07/14/26	Anurag	60173	X		X		X				Oppose	We are already paying through our noses on income tax and property tax. This additional increase is not warranted and is ridiculous

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/14/26	Zbigniew Stojanowicz	60067	X		X		X				Oppose	Toll roads are already too expensive and not maintained like they should be for what we are paying for them. If there will be another increase I just wont use toll roads.
07/14/26	Larry Oppriecht	60506	X		X		X				Oppose	I've read available information on the proposal. Its primary shortcoming appears to be the lack of development, promotion, and integration with mass transit systems akin to what is being done in many European and some Asian countries. The proposal also appears to include duplicative costs and actually unneeded "improvements." The per toll cost increase is also going to be an unwarranted burden on all drivers, but especially on the lower income population that already is hard pressed to survive. This proposal also comes at a time when national actions and policies are forecast to have a substantial impact on the cost of petrol products. (I also noticed that there is no mention of adding charging stations for EVs or anticipation of new technologies such as hydrogen powered vehicles.) Overall, planning seems to be too narrow and retrograde rather than forward thinking.
07/14/26		61114				X	X		X		Oppose	One round trip from Winnebago county to Dupage county is already costing me $9. This huge increase would make the route inaccessible for my budget.
07/14/26	Terrence McElroy	46375	X			X	X				Oppose	
07/14/26	Patrick McDonough	60646-5518			X	X	X				Oppose	If these increases go through, I will only use the tollway system when absolutely necessary. This is nothing but a money grab.
07/14/26	Patrick Gannon	60115	X	X	X						Support	The Tollway has improved the infrastructure in the Chicago land area at a much better rate then IDOT. Please keep up the good work. If the system was left up to IDOT it would be in bad shape.
07/14/26	Francis G	60606				X	X			Tolls=Theft	Oppose	Stop ruining this state with greed and mismanagement
07/14/26	Richard L	60085	X		X		X				Oppose	Can the Governor take tollway funds away and give it to the CTA and Metra like he did with the Illinois gasoline tax in the future?
07/14/26	Ron Kopec	33907	X		X	X					Oppose	the toll road has been collecting tolls ever since I can remember. Why isn't there a surplus of money to be available instead of increasing the toll amounts? I just visited Illinois from Florida during the 4th of July weekend, and the traffic is still ridiculous, the congestion is dangerous, and nobody was around repairing the roads. The amount of trucks on the toll road has more than tripled since I left in 2008, but the toll road isn't any better than I when I left to accommodate that growth, not including the general public. Again, why don't you have the funds already in place? The amount of vehicles daily that use the toll road should be more than enough to suffice. Bad budgeting?
07/14/26	Danielle	60504			X		X			Do away with it completely	Oppose	This was suppose to go away a long time ago! Liars do away with these shenanigans
07/14/26	Concerned citizen	60431			X		X			Avoiding tolls	Oppose	This is a terrible idea that will harm many of the strapped illinois residents that have to use the tollway. Im sure you will pass it anyways because you dont care.
07/14/26	William Harter	60510	X			X	X				Oppose	Rate increase is much too high.
07/14/26		60103					X	X		Toll free road	Oppose	No tolls unless new roads.
07/14/26	Carolyn	60060			X	X				Less interruptions to regular traffic flow like construction	Oppose	I was alive when rolls were introduced in IL for the first time. Supposedly they were collected for the upkeep of the tollways however, politicians used the money for other things then came back to the public to fund the recent reconstruction. Until we get honest politicians managing the states funds, I am against raising tolls. When we do this there is a wide ripple Effect. Prices of goods and services go up as a result of operating costs)ie cost of tolls). People who drive to work and need tollway access have less money to spend on their personal bills and their families. Additionally getting to the airport costs more, taxis and Uber/Lyfft costs more, and public transportation does not easily accessible in many areas outside Chicago city limits. Have you considered asking other countries or states how they fund projects like these? Have you asked the same group how long the projects take and how the vet who they hire to complete the projects? The lack of integrity in IL politics needs to be addressed before you seek more money from your constituents.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/14/26	Louis baker	46304			X	X	X				Oppose	Toll is already too much! Especially when the roads are not maintained hardly at all,toll booths are damaged,and no one and the booths when ez passes are not working correctly. I've sat 20 mins waiting for traffic to get thru the booth plent of times
07/14/26	CJ	60014	X	X			X				Oppose	Isn't the gas tax revenue used for the same thing? Sounds like double taxation to me
07/14/26		60543	X			X	X				Oppose	There shouldn't be toll roads to begin with, we shouldn't have to pay even more to use roads on top of everything else. We are already paying, there should not be an increase to tolls across the roads. All Illinois wants to do is increase costs for consumers.
07/14/26	Tom Snyder	60491	X				X		X		Oppose	Maybe Pritzker should double this like the gasoline tax
07/14/26	Bob stafford	35242	X				X		X		Oppose	I'm sorry to oppose this but Illinois has taxed residents of Illinois to the point that they can't afford to live there. Use the gas taxes you keep imposing to maintain the roads that is what gas taxes is for to support and maintain the roads. But from what I hear it's being used to keep the mass transit afloat in Chicago enough is enough.
07/14/26	D Wisel	60091	X			X	X				Oppose	All levels of government keep saying they're working on affordability. A forty five cent increases per toll is a big impact to people who use the tollway. There must be a more affordable solution.
07/14/26	Mary Riggs	60098	X				X		X		Oppose	The 45 cent increase is too much. Too many people are struggling to pay bills and cover the increased cost of gas. I also don't believe that the money will be used for infrastructure repairs. Pritzker likes to use the money for his other adgendas (example is the marijuana tax money!). An increase of maybe 5-10 cents is more accptable if you are going to raise tolls. Yet ANOTHER reason to get out of the state of Illinois!!
07/14/26	Nancy D	60613	X	X			X				Oppose	Too much of an increase for those of us on fixed incomes and those of us that rely on daily toll usage for business!
07/14/26	Regina Gallo	60707	X		X		X				Oppose	I support better roads but if this is going to happen it should not be at the rate increase from tolls. We all pay enough for our systems and we know that you will continue to increase our tolls as time goes on so perhaps a fixed amount & please leave us be. Enough is enough.
07/14/26	Dr. Aaron Janis	60491				X	X			LOWER NOT RAISE THE PRICE OF THE TOLLS	Oppose	Tolls are too high as they currently are. Force your contractors to work more efficiently and for a lower price. Get the actual workers to work more efficiently than they are...you see them just standing around.
07/14/26	Stephen C Blaylock	60118					X		X	I don't want money going out of the system to pay for public roads.	Oppose	There's no increase necessary the fund is flush. I don't want to see any money going to anything but the tollway system. People flee Illinois for a reason. This is just another one.
07/14/26	Michael Andrew	60193	X			X	X				Oppose	
07/14/26	Jonathan Dumois	61109	X		X		X				Oppose	As the operations manager for a small trucking company, the proposed rate hikes would be devastating for our business. While larger trucking companies can easily pass on increased toll costs to brokers (and ultimately the customer), smaller trucking companies like ours do not have that luxury. While we support well maintained roads, a hike like this is not the answer, especially with already high vehicle taxes that's supposed to pay for road maintenance (though I understand the tollway doesn't get much of this revenue, if any) being siphoned off to keep Chicagoland transit flat.
07/14/26		60559			X		X			Less construction	Oppose	Supposed to be free at this point yet everyone keeps trying to raise the price of everything. Not a good time to do this...we are already collecting enough and profiting. Tied of putting $$ into the politicians and unions pockets.
07/14/26	concerned resident	60411	X				X			safe crime free roads	Oppose	The governor has legalized gambling and lottery and Marijuana and now wants more taxes? Take it out of those monies. Or how about taking money away from Illinois employees that have multiple pensions or check into link card abuses and ridiculous property taxes that are among one of the highest in the nation. I know that will never happen.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/14/26	Craig Webster	53146	X			X				Reasonable rates	Oppose	.45 cent per car and 30% increase for commercial is too high in year one. I support a ten cent and ten percent increase in year one and then an adjustment based on the index referenced, but not to exceed 2% per year and reviewed every five years (Incase you could drop it down after five years).
07/14/26	Joseph Korziuk	60706	X			X	X				Oppose	Tollway already enough, there is enough collected presently to maintain system with pensions in place
07/14/26	stefani	60515	X		X		X				Oppose	The fact that I-294 is always under construction and millions of vehicles pass by and pay tolls - and yet, nothing really is making progress, I don't support the increase of price if the conditions stay the same.
07/14/26	Jack Flowers	60532	X				X		X		Oppose	I agree an increase is needed to support the long programs required to properly maintain the system. Future increase should not be based on any index because of not knowing what may happen in the future. If an increase is required then imitate an increase of what is needed at that.time. With an indexed increases I believe the commission sometime may have an excessive balance and then would spend needlizy or have the money taken to fund some other government agency. Why can't the citizens have an opportunity to vote on any increase, let them be the judge if a project is needed and can the residents afford any increase based on affordability.
07/14/26	Jackie Guadarrama	60164	X	X			X				Oppose	
07/14/26	Chris	60106	X				X		X		Oppose	The toll roads were initially built on the premise that eventually they would become a part of our free Illinois roads. But instead, the tolls have continued and even increased. We don't need any more tolls, taxes or increases on anything at this point.
07/14/26	Mary Zalapi	60563	X				X			Safety	Oppose	IL Gas tax has a surplus that has not been used on the roads as promised. Use this money up before rate increases. Especially ones that do not require votes for a yearly raise. That is taxation without representation . Tax payers need tea to throw in the private pools of those who voted and signed for these measures
07/14/26	james gondela	60068	X				X		X		Oppose	45 cent increase per toll plus the cost of living increase seem to be unreasonable. Produce a chart showing the before and after price of tolls per toll payment location, why are tolls on 390 section so numerous/costly for the length of that route? What is being done to bring costs down? With automatic tolls and the reduction in required manpower, there had to be a reduction in costs over those years. How were those savings spent or invested?
07/14/26	Not Sure	60654			X	X	X				Oppose	Absolutely NOT! You dont get to steal anymore money from us!
07/14/26		60655			X		X		X		Oppose	
07/14/26	Claudia Hernandez	60560	X		X		X				Oppose	45 cent increase per toll is outrageous
07/14/26		60540	X		X		X				Oppose	We already have the highest taxes in the country and now you want more money? Figure it out yourself
07/14/26	Amy	60506	X				X			none	Oppose	Illinois is CONSTANTLY creating new taxes. We are already taxed to absolute death, and already are one of the more expensive states to live in. We do not need an increased expense in any other area, including this one. I do not need a state of the art system to travel on. I just need a road in decent condition and to keep as much of my hard-earned money as possible so I can afford to stay alive. If I did not need to stay at my current job for a few more years for retirement, I would be out of Illinois like many others I know. People and businesses are leaving by the droves already due to taxes and the constantly expanding expenses. STOP ADDING EXTRA EXPENSES TO THE PUBLIC, ILLINOIS!
07/14/26	Peter Norton	60142	X		X		X				Oppose	The state makes enough money from the lottery system. Plus seniors which I am can't afford a new toll increase.
07/14/26	Crystal Becker	60046	X		X		X				Oppose	The tollway has been under constant construction since we moved here in 1987. It is ridiculous that it is always being worked on. We do our best to avoid the tollway due to cost and traffic due to construction.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/14/26	JOHN W BAKER	53546	X		X		X				Oppose	I live in Wisconsin on a lower social security income, I will have to visit Chicago and Rockford less , I can barely even buy gas now already.. this cuts me off from those i love who live there.
07/14/26	Michael Racey	60561	X		X		X				Oppose	Spend the tax dollars we already give on roads and infrastructure instead of illegal aliens and criminals
07/14/26		60608			X		X	X			Oppose	
07/14/26	Judith Gallagher	60516	X				X			Unsafe vehicles that wouldn't pass inspection	Oppose	Illinois tolls and taxes are out of control. Wisconsin, Indiana, Iowa, Minnesota all have better roads and lower taxes and fees to use the roads. How about you salt the road less? Or use sand like Colorado? That would make the road last longer
07/14/26	Matt O Malley	60076-2819	X		X		X				Oppose	Illinois is constantly working on the highways, with really no end result except more money for tolls. Also , I like to what happened to all the money they collected over the years when they never touched a road for repairs. I think the real reason for a hike is to bail out schools and mass transit , in my opinion should have been built in the middle of these highways, mass transit. This state can't balance a budget , but can take more money from you with no results.
07/14/26	William Hector	60142	X				X		X		Oppose	We already are paying some of the highest tolls in our country.
07/14/26	Kelly Keating	60440	X		X		X				Oppose	I understand the 0.45 toll increase but I disagree with allowing toll increases every other year based on inflation. If you want to do a poll increase, it should be evaluated and voted on at that time. If our inflation goes up, that means the cost of living is a higher strain on us. We don't need more burden on us automatically without us Illinoians voting on or deciding if another toll increase is necessary.
07/14/26	Walter Rudy	60609			X		X			That's one of the reasons they're raising tolls.....to keep people off the roads!	Oppose	Of course tolls are going up. Illinois has been run by democrats for decades and raising tolls (tax on drivers) is what they do best. We have the highest property tax rate and gasoline tax in the country. Democrats raising taxes....what else is new!
07/14/26	Carol Davis	60188			X		X			Affordability	Oppose	This Submit a Public Comment is a SCAM, but I expect nothing less from IL bureaucracy! We have to "Choose 3" which means you'll use ONE of the choices to justify MORE SPENDING. Typical IL government– treat your citizens like morons. Residents of Illinois are suffering "death by a thousand cuts", thanks to Illinois legislators and bureaucrats. We can't take any more! That's why thousands are fleeing this state every year. We can't afford to live here anymore. NO MORE TAXES, NO MORE FEES, NO TOLL INCREASES.
07/14/26	Rachel choi	60565			X		X		X		Oppose	
07/14/26	Common Bridge Troll	60625	X				X			Not giving me $300 in late fees after attempting to pay tolls by plate on multiple instances	Oppose	You are the worst
07/14/26	Robert Felt	53716	X			X	X				Oppose	
07/14/26	Ramki	60502	X				X			Saving money by not paying toll. IL State should maintain the roads from it's budget.	Oppose	Tolls should be abolished. The state should pay for this, as in our neighboring states. Neighboring states with smaller populations and smaller budgets are keeping roads safer and in pristine condition. IL has more potholes than our neighboring states. The sickening thing is that even the tollway has potholes. My car tires and rims are bent due to these, and the reimbursement process is laborious and often denied. This is a complete scam. The whole tollway should be abolished, and the toll department should be closed.
07/14/26		60565	X		X		X				Oppose	
07/14/26	Dale Tauke	60045	X				X			Cost	Oppose	The proposed toll increases are substantial and very ill- timed at this point in light of the financial pressure families are under. The institution of an automatic increase based on inflation is also a terrible idea. As a public body the toll authority should be required to justify every increase it gets. Governmental bodies and school districts do not get such automatic increases. Neither should the toll authority

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/14/26	Kent Aldridge	60074					X		X	Economy for trucking goods and keeping prices low.	Oppose	This is a horrible idea. I won't be voting for Pritzker if this proposal goes through. It will make everything more expensive! The cost of food will go even higher since trucking will cost more.
07/14/26	N Akers	60046	X	X	X						Oppose	I am particularly concerned that this proposal comes at a time when the State has redirected existing transportation revenues to other priorities. Before asking tollway users to pay higher tolls, the Illinois Tollway and state leaders should demonstrate that current transportation revenues are being used efficiently and transparently. Motorists deserve a full accounting of how existing funds are being spent and why additional revenue is necessary.
07/14/26		60137	X		X	X					Oppose	
07/14/26	Randy N	60505			X	X	X				Oppose	Stop spending and raising prices on everything. People of Illinois have had to tighten there belt and live within there means. It's past time the government does the same.
07/14/26	Tracey zegiel	60555	X		X		X				Oppose	I think you should budget better what's already coming in. Give Illinois residents a break
07/14/26	Julie Kidd	60193	X			X	X				Oppose	I am against expanding the tollway. Current tolls are already expensive. The current tolls are sufficient for maintaining existing tollways.
07/14/26	DAVID D Dimmich	47906	X				X			Proper maintenance is primary.	Neutral	N.A.
07/14/26	Jay Packwood	60901			X	X	X				Oppose	It is supposed to be paid and done by now. This is highway robbery
07/14/26	Thomas Lally	46311	X		X		X				Oppose	
07/14/26	Don Swanson	60451-1953	X			X			X		Support	In the winter I know I can depend on the tollway roads being safe and well plowed.
07/14/26	Leslie Murphy	60451	X		X		X				Oppose	We don't need more fees in our state already. Use the extra money the politicians are getting to fix our roads. Thanks
07/14/26	Keith	60517			X		X			people driving with expired license plates	Oppose	This state is messed up!! Don't put the problems on the residents that our elected officials created!! Spend our tax dollars wisely!! I pay enough living in Illinois.
07/14/26	Ray Muehlhauser	60561			X	X	X				Oppose	The state of Illinois is a corrupt dysfunctional state led by governor Pritzger who has more money than god, but still can't balance the budget, and still keeps gauging the tax payer's to pay for all of his B.S.agenda. Remember, we weren't supposed to have any tolls anymore 7 years ago when they increased the tolls and that was supposed to pay for everything. I waste my time to fill out this survey, but things will not change and this is just smoke and mirrors and a big money grab, and in another 5 years the state will come back for more due to their great disfunction and inconvenience to all of us. What a shame!
07/14/26	Josh Ruggles	60503	X		X		X				Oppose	Illinois needs to stop charging its residents more. Tolls are already expensive, taxes are absurd. Use that money instead of charging us more.
07/14/26	Mahesh Patel	60133	X				X			minimize construction delays	Oppose	I travel regularly on Elgin-O'Hare expressway, I travelled on it before and after toll was introduced. Now the traffic is probably one fourth since toll was introduced, Most of the people using it are working class people working at O'Hare airport or factories and warehouses surrounding. This is another tax on working class people.
07/14/26	Rebecca Dill	46311	X		X		X				Oppose	
07/14/26	Robert Akers	60046	X	X	X						Oppose	As a resident of Lake County, I recognize that the Tollway performs routine maintenance and bridge work. However, our community has not experienced the same level of transformative investment that other parts of northeastern Illinois have received. Many of the Tollway's largest capital projects have been concentrated around O'Hare, central Cook County, DuPage County, and the western suburbs. Before asking Lake County residents to pay even higher tolls, I believe the Tollway should clearly explain how this increase will directly benefit the motorists who use and fund the system in our area.
07/14/26	Bill	60915			X		X			No rate increase please.	Oppose	In our house we must fund our own projects, not raise rates. The country is suffering greatly with tariff prices, gas, economy. Please do not burden Illinois with more on our backs. Maybe save till later when the country has recovered.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/14/26	Ulana Leskiw	60532	X				X			Transparency of toll rates. Rates should be posted, not a secret that you have to look for on line	Oppose	It is a scam not to post toll rates where they are clearly visible on the road. TOLL RATES SHOULD BE CLEARLY POSTED EVERYWHERE SO EVERYONE CAN SEE WHAT THEY ARE PAYING FOR.
07/14/26		60538		X		X	X				Oppose	No to increased rates. The current economic headwinds (high gas prices, high property taxes, etc) make it more difficult for Illinois families who travel via expressways. Raising tolls is another burden on citizens who are already strapped to make ends meet. Other funding sources should be considered. Could expressways use solar-powered lights to generate electricity and income, helping ease the cost burden? Or how about charging premium tolls to out-of-state travelers and commercial trucks at all borders to keep costs down for local citizens? The tollway should be self-sufficient at some point.
07/14/26	David Greene	60193	X		X		X				Oppose	The tollways were supposed to have been funded only through fuel taxes and tolls were going to be abolished. That never happened. At the very least the Tollway should be put on a strict budget and not be given huge sums of money that forces the tollway to find ways to spend it. Think small, think fewer roads. You should only spend on maintenance, not expansion.
07/14/26	Patrick	60462			X		X		X		Oppose	democratic run states are the worst. Keep raising rates and taxes on everything. No wonder this state is a failure
07/14/26	Tammy Akers-Roman	60156					X		X	Less Tolls	Oppose	Tolls were supposed to have been phased out decades ago.
07/14/26	Christy Smith	60440	X			X	X				Oppose	You need to budget the money. Just like everyone else, if you don't have the money in the budget, you don't make the purchase, etc. If you don't have the money to work on the project, then you have to wait until you do. If I remember correctly, we were told a long time ago that a lot of these tolls would be temporary and here we are years later and paying an arm and a leg just to get anywhere.
07/14/26	Laura Selby	60640	X				X		X		Oppose	I strongly oppose the proposed toll increases and fail to see how raising toll rates even higher will reduce traffic or enable drivers to spend more time with their families (lol!). Just admit it's a money grab and call it a day!
07/14/26	Yun Zhuang	60490	X		X		X				Oppose	
07/14/26	SAP	60451	X				X			cost	Oppose	Sounds like a typical Illinois money grab!
07/14/26	James McNally	60142	X		X	X					Support	
07/14/26	David Phillips	60501	X	X		X					Oppose	For the past 5 years, both my community and the surrounding communities have lived through the nightmare of construction on 294 between 95th and I-290 and now we are being threatened with a toll increase that, based on information available, appears that is nothing more than a money grab by your organization. 3 years ago your organization constructed an entrance ramp from IL 171 to northbound I-294 and installed the IPass tolling only to keep this ramp closed to traffic, with no indication of when (or even if) this will ever open. Instead of trying to recoup money already spent, you chose to let infrastructure remain idle - and failing to try to make it more inviting for someone to actually use 294 - you instead are asking users to pay even more money with no end in sight for completion of anything. Get the construction completed so that individuals can see some actual improvement - and then come asking for money. Right now there is doubt that asking for more money with no improvements will give any other impression other than to show it is money grab for no other reason than to pad the pockets of the toll agency.
07/14/26	Dennis Antolec	60487	X				X			More State Police patrolling the highways	Neutral	
07/14/26	john dub	60142		X			X		X		Oppose	The toll money that is being collected should be used for capital improvements. Not going to Chicago for mass transit

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/14/26	Laura J Budde	60510-2443	X		X	X					Oppose	Illinois' original plan for its tollways was temporary — not permanent. In 1953, the state created the Illinois State Toll Highway Commission to build highways using toll revenue, with the expectation that once the construction bonds were paid off, the tolls would be removed and the roads would become free freeways. Now a fee increase? Just a little crazy isn't it.
07/14/26	Bobby Snell	53590	X			X	X				Oppose	If Illinois highways truly rely on only toll revenues for the source of their funding, why do only the highways around Chicago have tolls? For example, why doesn't I39 have tolls down to Springfield? Are you trying protect the lawmakers from increased tolls? BTW, traveling from the IL border with WI down to Joliet, is more than 50% increase in tolls. That is outrageous.
07/14/26	Jackson Phan	60446	X		X		X				Neutral	I understand that the tolls need to be raise to match the rate of inflation. In saying that I would like bottlenecks to be improved. The eastbound I-88 ramp to the southbound I-355 bottleneck need an extra lane. The northbound I-55 ramp to the northbound I-355 ramp should be two lanes the whole way. The ramps goes from 2 lanes to 1 lane and that causes not only a back up on north bound I-55 but also a backup on northbound Joliet Rd. I would like the increase in toll rates to fix these bottlenecks.
07/14/26	Chris Sahs	60190	X		X		X				Oppose	Stop making the citizens of Illinois pay extra for projects that are not part of the State Budget. Learn to budget better by prioritizing needs over wants. Additional monies collected from citizens seldom go to original project. Instead, funds are borrowed to cover other non-budgeted projects. We all have to live with a budget, within our means. The State doesn't give us extra funds because we are short....lead by example...don't make us pay for your poor financial decisions
07/14/26	Nicole Menuck	48320	X			X				Automatic readers that work!	Neutral	Having automated toll pass readers that work would be a big step toward saving time. I can't count how many times I have been stuck in a toll line with myself or someone stuck at the reader.
07/14/26		60559		X					X	Try to avoid whenever possible made me select others which are not true. Rest stops are all over the highways. Plenty of exits for the locations needed. There is nothing really special about the tollways at all it's just another tax for the people of this state and those who visit.	Oppose	Weren't these toll roads only supposed to be temporary and not permanent. This is a corrupt state run by thieves.
07/14/26	Rodrigo Garcia	60523	X				X			Price increase fairness.	Oppose	To raise the tolls 45 Cents is a 100% increase in some tolls and more than 50% in others. and to have those amounts adjust for inflation every two years is way to much. I'm not opposed to a raise as it is at times necessary but, what would be fair, they only need to be adjusted at the most yearly according to inflation but no more. People don't necessarily get raises every year but inflation hits no matter what. How is this going to make more people want to use the tollways, if nothing else they will look for alternative routes to avoid the extra cost of driving through them. And for those of us that use them on a consistent basis makes me feel as a terrible way to treat a loyal customer.
07/14/26	Amy Zhang	60523			X	X	X				Oppose	Toll is too expensive
07/14/26	BV	45458			X	X	X				Oppose	

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/14/26	Paul Lippold	60017	X				X			I don't like the proposal It will greatly increase the cost of travel	Oppose	It's already expensive to use the Tollway system The proposed toll increase is way to much Paul Lippold
07/14/26	David Cochrane	60625	X		X		X				Oppose	The tolls are already too expensive on the Skyway between 94 and Chicago. Often times, it's only 15 minutes faster than taking 94 the whole way, which isn't worth the cost. If it goes up in price, we're unlikely to ever take it again.
07/14/26	Kunal Bhaumik	60056	X			X	X				Oppose	State spending has shown little regard for the taxpayer. Projects run late, are over-budget, and have bloated payrolls. Plus, proposing an automatic increase every two years may violate IL state law, as a toll is a tax, and any increase in tax must pass through the legislature, with officeholders having to take a vote.
07/14/26	Mark Bidlake	60585	X				X			Safety - patrol the roads and ticket the zig-zagging racers !	Oppose	You have made no meaningful case for the increase. The very brief description even included money to finish projects already started; is this to cover cost over-runs? This amount comes to almost ninety million dollars per mile (not lane-mile, I realize, but still). This is also so totally tone-deaf, coming at this time. This will just turn off more people to Illinois, where taxes and fees are already ridiculously high. Are you trying to drive people toward the GOP, or what?
07/14/26	Anne Liu	60561				X	X	X			Oppose	
07/14/26	Judd Guldberg	60031	X		X	X					Oppose	We already pay too much to drive on these roads, which are overcrowded and in horrible shape. The initial intent of the tolls were to pay for the roads and then they would be removed. That has NEVER happened. When tolls went up to 0.95 on the north side, I thought that was ridiculous. It cost a fortune to drive in this state, with high taxes on gas, etc. I OPPOSE THIS INCREASE. With all of the taxes we pay in this state, I'm sure you can find a way to fund these projects.
07/14/26		60525				X	X			Less road construction	Oppose	
07/14/26	Harold	60466	X		X		X				Oppose	The tollway was supposed to be a short term expense. With the additional expense Illinois is forcing people to work in surrounding states. We're already paying Way too much in taxes. This is yet another reason to leave Illinois
07/14/26	Veronica	60455			X	X	X				Oppose	It's too expensive already
07/14/26	Sean K Patrick	60045	X		X		X				Oppose	The State's current financial condition and cost of funds with our current poor bond rating makes this a bad idea at this time. Focus on first getting our financial house in order, or hand over your position to someone who can fully appreciate the current financial distress. Push back on the Union's pressure for more high priced construction work.
07/14/26	Jennifer	60135			X		X			Cost	Oppose	The tolls were never supposed to be a permanent thing. I do not trust this state do the right thing with all this extra money. How about giving the drivers some relief by lowering the tolls. This state is ridiculous!!!
07/14/26	J Rodriques	53204	X					X		Pricing. More access points. Less traffic. Driver services.	Neutral	I don't support the increase.
07/14/26		61107					X	X		Quicker drive times but still a lot of congestion going into Chicago	Oppose	Tolls were to be suspended years ago! The casinos, lotteries, real estate taxes can goes toward it since tax payers were never alleviated of any taxes
07/14/26	Denise Arkus	60439			X		X			Less tolls	Oppose	The cost the tolls on 355 are already outrageous. An increase of .45 cents is ridiculous.
07/14/26	Melissa Ohlson	60060	X				X		X		Oppose	no more money taken from us
07/14/26	Mike Nutley	60513	X				X			Not paying more	Oppose	It is ridiculous that we are still paying through the nose for this system It has been a cash cow for the state for many years Like most things in this state keep pounding the average person and them you people will all get raises and your pensions Screw everyone else as usual

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/14/26	Alicia Teran	61115	X				X			Lights	Oppose	
07/14/26	Ted Malek	60586	X		X		X				Oppose	I drive 44 miles each way to work on I55 and I355 for over 20 years now The traffic has always been awful and there has always been construction which has not helped traffic at all I pay enough in tolls to have to sit in constant traffic and am opposed to any raise in toll fees as there has not been any improvement in the roadways Illinois raises taxes and fees in every way possible and we are still in debt and spending money foolishly I say no to any type of toll increase We pay enough already
07/14/26	Lucas	61101	X		X		X				Oppose	We should not have to pay high taxes in our state and then also have to pay to drive on the roads. I do not support the tollway system.
07/14/26	Marcey Trusiak	60187	X				X			safe bridges	Oppose	You need to stop. At a time when inflation is out of control, this capital project is irresponsible. Our travel times are typical for metropolitan areas. We do not need additional lanes or widening. Keep the roads safe - no pot holes/bridges stable, and give the citizens of Illinois a break.
07/14/26	Lorie K	60431					X		X	Lower tolls	Oppose	We already pay enough in tolls. The cost of everything has gone up. Now is not the time to increase tolls when people are struggling to make ends meet. Work with the budget you have.
07/14/26		60103			X	X	X				Oppose	This is an extra tax on working middle class Illinoisans. I pass through 6 tolls each weekday (3 each on my way to and from work). I am already paying $2.50 per day in tolls. With this increase, I will be paying $5.20 (more than double what I am paying now). Illinoisans are already dealing with unprecedented property tax increases, rising gas and food costs, rising utility costs. We CANNOT afford this additional tax!!!
07/14/26	PATRICIA ANN WEIDNER	60118				X	X			Safety, especially at certain interchanges such as I290/I90	Oppose	If there is an increase, as proposed, I will use the tollway even less. My trust that conditions will improve if this proposal is approved, is low. I am sorry I cannot attend the meeting on 7/14/26 due to a scheduling conflict - another meeting.
07/14/26	Nick	53711	X			X	X				Neutral	Why do commercial interests always end up paying less than individuals? Why is the increase for commercial traffic less than the increase for individuals? Shouldn't commercial interests be subject to the same increases as individuals? Sounds like more corporate welfare paid for on the backs of hardworking taxpayers.
07/14/26	Glen	60103			X	X	X				Oppose	Someone is out of their minds constantly raising toll prices and taxes. Let alone the construction traffic we experience every day. If this new bill happens, I may be forced to abandon the state sooner than I thought. My pay cannot keep up with all these increases. Paying tolls every mile on the 390 is ludicrous in itself! Who comes up with these proposals? We are not all wealthy!
07/14/26	Heidi Waxweiler	60432			X		X			Cost to drive	Oppose	Illinois is ridiculous trying to pass off their wants onto families who cannot even put food on the table right now.
07/14/26	Craig Pickenpaugh	60099			X	X	X				Neutral	Will this bucket be available for politicians or others to pull from for other than road upkeep? If so, i do not support.

07/14/26	Sam Cannici	60160	X		X		X				Oppose	I'm Opposed to a 60% increase in IPass passenger vehicle tolls. When the hell are you going to pay off those bonds and turn the tollway into a freeway?
07/14/26	Ronald C. Sparks	85541	X			X	X				Oppose	Just more of the Illinois mismanagement and ripoff. These are the reasons we left Illinois. Used to love the state but now hate it. Need to get rid of the two big liars - Pritzker and Johnson. Most all of my acquaintances feel the same.
07/14/26	Jo Ann Gresham	60652	X		X		X				Oppose	its unreasonable to expect all these increases to be be paid by local citizens when most benefit of these roads is made by businesses. The roads are mostly damaged by big trucks. The increase is on the backs of the average person who bears the brunt of all other increases with no increase to our personal income, when is it going to stop, its has become not affordable to live in Illinois.
07/14/26	Cynthia A Russotto	60510	X		X		X				Oppose	tollway rates have already gone up recently and IL needs to better budget their money instead of raising everything. stop giving pay increases and paying for Illegal immigrant services

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/14/26	Danita Anderson	60402					X	X	X		Oppose	Illinois voters voted for the money to be used for the tollway, apparently that still is not happening.
07/14/26	Young adult	60605	X						X	Keep promise to eliminate tolls after they paid of it's construction but instead want to raise prices	Oppose	I-pass and the tollway are crooks and liars, I strongly oppose the proposed rate increases and further argue the lies and backstabbing done
07/14/26	Donald Faems	60005	X	X			X				Oppose	
07/14/26	Carmen Ruiz	60634			X	X	X				Oppose	
07/14/26	Olivia Forst	60618	X		X		X				Oppose	I believe the toll in Illinois is too high as it is. To attach it to a CPI is ridiculous. Taxpayers income is not connected to a CPI. To increase is totally tone deaf to the citizens at this time. We are stretched beyond belief. This state is increasingly harder to live in. The property taxes, taxes on tv platforms, higher gas taxes, higher utility taxes, and every other tax to live and eat are out of control. look into the budget and cut expenses at the state level.
07/14/26	Theresa Kukis	60633-2111				X	X		X		Oppose	I can see a 10 cent increase but 45 cents is crazy! I think the toll rates are way too high already.
07/14/26	A.J. Parker	61068	X				X			Winter road cleaning	Oppose	It is getting to the point that it is too expensive to do business in the area. The toll cost is killing businesses ability to operate and not over price products to pass the expense along to consumers. They cannot absorb those additional cost without putting their profitability ast risk. Commercial rates are out of control.
07/14/26		60516	X			X	X				Oppose	
07/14/26	Manfac12	60126				X	X	X			Oppose	The Tolls when originally proposed in the Eisenhower/Kennedy Era was to be only tempoerary to pay for the 294 Roadsystem . You have failed in your administrative responsibility , poor management . Finally we pay a very generous gas tax which has been used to maintain A-L-L roads ; why can't you be responsible and not erogant ; cannot say you are a deserving branch of Illinois Government .
07/14/26	James McPhee	60417	X		X		X				Neutral	With all of the technology that you have with your iPads system, why can't you prorate vehicles based on the amount of miles per year that you record us driving, based on our license plate and your database
07/14/26	Eric Swanson	60477					X		X	We shouldn't have to pay tolls for driving on a highway.	Oppose	This is bullshit.
07/14/26	Jeff Pope	60007	X			X	X				Oppose	With all of the other taxes and increased in Illinois I oppose any increase in tolls.
07/14/26	Ed Breyer	60525				X	X			Elimination or reduction of tolls	Oppose	Let's face it the Tollway is a total scam that lines the pockets of tollway officials, contractors and politicians. When the IL tollway was proposed, tey promised the tolls would stop after the initial construction costs were paid. Total lie and the waste and fraud continues. It's time to starve the beast.
07/14/26	erika benda	60457			X	X		X			Oppose	We need better public transportation not wider roads or more roads which just increases single occupant autos. The increased toll just seems like a Ponzi scheme. Construction is never completed and traffic never flows freely. Spend money on light rail not concrete tollways.
07/14/26	Tracy LaneConway	60624	X		X		X				Oppose	
07/14/26	Michael Losoff	60201	X				X	X			Oppose	As is so much in our culture, tolls as they are currently structured are a regressive tax. That is, those who can least afford it are hit the hardest, in terms of percentage of income. I don't know how to solve this problem, but I do know that if there was a desire to solve it, the talent and experience of those involved in Tollway planning could most certainly find a way. Sadly, I'm afraid, there is likely no real interest in fairness, or simply cowardice in facing down the monied interests. Thus, like so much else, the Tollway system operates such that those with the greatest resources are entirely subsidized by those with the least. It is, frankly, disgusting.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/14/26	Alexander Alonso	60638					X	X		Do you ensure our vehicles if anything happens to them on your toll roads?	Oppose	I will be avoiding toll roads as much as possible , the state makes billions on this and you want more money 🤔 let think about that many of us will stop using it much less .
07/14/26	Wally Fiebiger	60192			X	X	X				Oppose	The IL. Governor makes Illinois less affordable with all the Tax and Fee increases, and now the IL. Tollway! Stop being greedy. Besides, the Tolls were supposed to disappear back in 1973.
07/14/26	Karen Komarnicki	60641-5045	X				X			Visible road markers	Oppose	I drive on the Edens weekly, and I spend more time avoiding enormous potholes and large spots of completely missing payment and the road improves that are going on are a joke with the mismatched pavement and lanes that are a danger zone. Please fix all the current projects before even thinking of spending money on projects that aren't needed.
07/14/26	Melisa Smith	60538	X			X	X				Oppose	This is just ridiculous to be going up that much considering how many people use the toll way and you let go of tollbooth workers so I'm not too sure why we need to keep increasing it. And the rational increasing is horrible. Sounds more like a Chicago issue than a suburb issue.
07/14/26	Larenia Long	60803	X			X	X				Oppose	Raising the prices will not slow the rate of traffic as we've seen overall so far. People will just add that as another expense to the already never ending scheme of law makers finding a way to squeeze a dollar from the hardworking citizens of these towns. So no, I do not support the proposal for a rate increase!
07/14/26	Bruce	60102	X				X	X			Oppose	The graph shows there is an excessively large gap between projected revenue and projected expenses. That should be adjusted to a more revenue neutral model. It's time to do the right thing for residents, travelers, and commercial transportation.
07/14/26	Ken Gentry	60076	X			X				It is between where I am and where I am going	Oppose	It is insane to double down on car infrastructure when climate change is already making our lives miserable. Our children and grandchildren will hate us and wonder why we didn't do things differently.
07/14/26	Greg Wie	60163				X	X			Decrease in paid Tolls!!!!	Oppose	Tolls are too much as it is , we pay why too many taxes as it is!!!!! No TOLL INCREASE!!!!!
07/14/26	Sylvia	60107	X		X		X				Oppose	Take the money out of the corrupt politicians pockets. Stop the fraud in this state.
07/14/26	Devon warren	60509			X	X	X				Oppose	This is a smack in the face to every person that lives in Illinois. We already have almost the highest taxes in the country, and you all are Neal and Domino's for every little cent we have.
07/14/26	Lisa L Upchurch	60146	X		X		X				Oppose	We cant afford this in the current financial climate. Impacts will be felt by all- truckers, delivery, commuters. We already pay high property taxes. Get your heads out of your rear and either dont go forward or find another revenue source like gaming or marijuana.
07/14/26	Joel Grace	60030	X		X		X				Oppose	Stop funding illegal immigration and do your job with infrastructure. Other states have far better roads with far less money. This state leadership is a scam and joke.
07/14/26	Bill M	60193	X				X			Nothing else matters to me but you made me select a third option so here it is	Oppose	You scumbags are out of your minds. You collect tolls and you tax gas and you collect an income tax. Tax on top of tax on top of tax until nobody knows what is collected to pay for what . This is a formula for tyranny. You are completely unchecked and unhinged. You will take and you will take and you will allow fraud, waste and abuse. Do what everyone else does when they run out of money, fire employees whose responsibilities can be absorbed by others.
07/14/26		60565		X	X		X				Oppose	Toll prices are high enough then add gas prices and the cost to go to work increases a lot. I cannot afford the increase based on my salary.
07/14/26	Frank Mendralla	60073			X		X			Open road tolling	Oppose	We are over taxed now and do NOT want to have the rates raised every 2 years automatically.
07/14/26	Heather Lareau	60133	X				X		X		Oppose	This system was supposed to be shut down after it was built. There were never supposed to be increases, instead it had increased steadily over the years to the point where I avoid taking roads that are more convenient. I feel like this is just another way the state rips off its own citizens. Illinois already has some of the highest tax rates compared to other states. Stop stealing money out of hardworking citizens' pockets.
07/14/26	Drew	60177	X			X			X		Oppose	All you do is charge us tolls and we never see any improvement. You make so much money on tolls and fines already. Start being sensible and drop him much you charge. Toll free in 73 my ass...

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/14/26	Thor P Jondahl	22901-6400	X				X		X		Neutral	Any chance that toll fees will be reduced or not changed for SENIORS!
07/14/26	Rick scholl	53051				X	X			Nothing	Oppose	Tollway fine as is
07/14/26		60018	X		X		X				Oppose	
07/14/26	Wes	60188	X	X			X				Oppose	With the amount of cars I see on the road every day, I don't understand how the tolls are NOT able to make money. Someone is spending this money inappropriately. We really need an auditor.
07/14/26	John P Verdream	60046-5228	X		X		X				Oppose	Illinois needs to start managing its budget the same way a home owner needs to. Adding automatic every other year rate increases is not being fiscally responsible. It is an avenue for for increased future spending on projects not yet planned for. Property tax is already very high, there's a new grocery tax, and fuel tax gets automatic increases. Shouldn't fuel tax be going to the roads? This is not sustainable and driving people and businesses out of Illinois. Take a look at what's happening to New York - It's right there for us to learn from and avoid their perils. Let's keep Illinois great and inviting for people and businesses - not just server farms that no one wants.
07/14/26	Lisa Morgensai	60035	X				X			Freeing up bottlenecks at the tolls— get overhead tolling and get rid of booths!	Oppose	Please DO NOT increase tolls! Use the huge tolls already collected for the improvements!
07/14/26	Heather Bouton	61019	X			X	X				Oppose	Tollways were supposed to be paid for long ago, with tolls being temporary. I'll be voting Pritzker out and anyone else supporting this. We already pay too much in tolls.
07/14/26	Pat Hale	61115	X	X			X				Oppose	We are retired. Added toll costs really cut into expenses!
07/14/26	Jason L reynolds	46410	X		X		X				Oppose	the toll particularly on I-80 is supposed to be torn down, that was part of the plan from previous Governors. The tolls are already expensive and there is hardly any people working toll booths. Where is the money going to?
07/14/26	Joseph D Conroy	60119	X			X	X				Oppose	The cost of living is so high already, this increase will make it about impossible to afford traveling on the tollways of Illinois. I hope this comes with our opportunity to vote as I will vote no.
07/14/26	Olga Florea	60630			X		X			Use the right micture of concrete to do the job correct	Oppose	I don't approve this project. Millions of toll users use that huge money budget to do the work. You don't need to expand a project when what you have is not maintained correctly. Use class 4 concrete mix that uses interground limestone Portland cement. That should replace about 18 to 22 percent with Class F fly ash or slag in some mixes,which keeps the water cenentitious ratio around .41 max. Target a minimum 28 day compressive strength around 5500 psi, and uses chemical admixtures as needed, with air content around 6 percent Focus on durability rather than one fix recipe otherwise known patch work creating craters. Use the millions of users money to work smarter not harder. Quality work needed so you don't have to redo the work over and over again in same spot creating traffic and pute people at risk with all these nonsensical construction work. Not at all happy with current situation definitely opposed of this proposal. It's a no from me
07/14/26	Lisa Stringer	60630	X			X	X				Oppose	The proposed rate increase is exorbitant. When working people only get a 2% to 4% raise. My husband commutes daily from Chicago to Huntley. There is no option other than driving. Your proposed rate increase will severely impact us and many others that commute daily for their jobs. We already pay some of the highest gas taxes and property taxes in the country. Please vote against this increase.
07/14/26	John Yang	60532	X		X		X				Oppose	
07/14/26	Christopher G. Dahm	60097	X			X	X				Oppose	
07/14/26	Drasko Sasic	60173	X		X				X		Oppose	Toll increase is already every year January 1st!!! Shame on Illinois Tollway, other States have a free roadways!!

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/14/26	Jeff Brandon	60193		X				X		The only reason I take the tollway is convenience. If I could avoid it I would.	Oppose	Raising the rates will just give me more incentive not use the tollway. Sick of construction all the time.
07/14/26	Edward Hughes	53533	X				X			You libatards just need to move to Canada	Oppose	If Illinois didn't have a stupid fat commie pos governor and totally stupid, I mean "F"ing stupid mayor of Chicago. And if all the fraud and waist was cleaned up. You wouldn't need a tax hike on the roads.
07/14/26	Ariana	60482	X				X			No potholes !!!!!!! The population is big we are always going to have traffic stop trying to charge more when their should not even be a toll way fee in the first place	Oppose	NO DO NOT RAISE THE TOLL WAYS PEOPLE ARE POOR AS IT IS AND THE STATE OF IL NEVER HELPS THE PEOPLE THAT NEED IT MOST I DO NOT NEED IT GOING MORE UP WHY DOES THE STATE OF IL ALWAYS TRY TO FIND WAYS FOR US TO PAY MORE BUT DO NOTHING AT ALL AND IM TALKING ABOUT THE THINGS THAT ACTUALLY MATTER NOT THE IRREVERENT STUFFF NOBODY ASKED FOR LISTEN TO THE PEOPLE DO NOT CHARGE MORE
07/14/26	Deborah Williams	60016	X		X		X				Oppose	As if our groceries and every other thing we buy that comes by truck aren't expensive enough. Pritzker does not care about the citizens of Illinois. He might as well go house to house and turn us upside down and shack us until every penny we have falls out and is his. Maybe if he didn't take a salary, like our President. That money could go towards all the debit he has gotten us into. The rest of his crone's shouldn't get raises while the rest of us try to make ends meet. Also if he didn't try to scam the property tax people by removing toilets, our taxes wouldn't be out of this world. Illinois has become a disgrace to the rest of the country. Next we will have to give your property to the illegals that the taxpayer supports.
07/14/26	Redd	60614				X	X			Getting to and from work.	Oppose	It's already ridiculous that we have to pay to drive on the road and now ANOTHER increase is absurd. I don't know if you are aware but some people are having a hard time financially and every penny they can save helps. Figure out another way to come up with the funds..we didn't ask for these "improvements".
07/14/26	tom watson	61065			X		X			Its way too expensive!!	Oppose	No more new taxes!! You can’t continue to take a “bigger piece of the pie”. Soon there will be no pie left!! I can’t afford to live in this state anymore!
07/14/26	Kristie Lokken-Davis	60142			X		X			Safer o and off ramps(ex53/90 is awful all directions)	Oppose	When you say this will increase every two years with inflation, how can we prepare and predict our budgets for that? It seems a little too ambiguous. And what if the economy is not doing well, but inflation is still in place, will you still increase them?
07/14/26	Mallon	60120	X			X	X				Oppose	Are you all mad? .45 per toll? That is insane.
07/14/26	Edeltraud V Reed	60074			X	X	X				Oppose	Illinois taxes are higher than most states and this will only add to the tax burden. With inflation, gas taxes, sales taxes, property taxes,income taxes and tollway fees most middle class families are struggling to make ends meet. No wonder there is a exodus of people leaving Illinois for other states. This is so unfair.
07/14/26	Jorge gonzalez	60107					X		X	Affordability	Oppose	Illinois tollways are already expensive, make due with what you have and stop proposing hikes
07/14/26	Justin Bjankini	6014			X	X	X				Oppose	The tollway charges were suppose to be temporary during original build. Now our great Governor wants to continually increase toll charges and tax our gas. Can’t wait to leave this state.
07/14/26	Olga Florea	60630			X		X			Use the correct concrete mixture	Oppose	I oppose the project. Use the right concrete mix to make the work durable to avoid patching and working on repeat location and projects uselessly in the near future . Quality qualities work is the most important. Use the millions of paying users money to expand. I oppose this project and using more tollway money from users to do this. Furthermore the tolls were originally when build was build on lies not only dud the fees not stop you want to increase the dollar amount there already. It's a no from me
07/14/26	Rick Beaudoin	60051	X	X		X					Support	

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/14/26	Danuta	60016	X		X					Soundproof wall in Bay Colony	Oppose	Built the soundproof walls to protect us from noise. I welcome heavy traffic because it means I can open the window and not having crazy noise , fumes , transported animal odor, engine breaking and roaring motorcycle noise in my condo. DONT treat us as a second category citizens. Look at the walls Chicago built on I-90 and Harlem , Cumberland. What you built in Bay Colony , Des Plaines is not even a joke. It's a project of 5 years old child. Pathetic!!!!
07/14/26	Mr. Funk	60490	X					X		It's one of the few options	Oppose	While infrastructure is necessary, raising toll rates in tough economic times basically tells drivers, taxpayers and residents "suck it up buttercup" because the government machine doesn't really care about its constituents. Why not go to the big for profit companies and technology conglomerates and ask them to fund the rates? Raising rates will force drivers to look for other routes and wear out those roads faster. Or, is that the plan: continue to squeeze out and control the general public? Build high speed rail services, instead.
07/14/26	Kenneth Tomczyk Jr	60120	X		X		X				Oppose	I disagree with more raising of any tax in IL. State needs to budget more sensibly, and the roads now are in poor shape. Keep asking for funding to improve but don't see the improvements just more revenue generating projects. Tolls literally just went up.
07/14/26	Jackie	60156	X		X		X				Oppose	Still going to be unfinished construction and terrible traffic times regardless so might as well keep the tolls the same. Saying that things will get better with an increase is a joke
07/14/26	Sergio loera	60046	X		X				X		Oppose	Going north 94 theirs no need for increase the express way its in good shape . The increase should be south of illinois
07/14/26	Pamela Shervino	60477	X				X			Accurate and Frequent Signage	Neutral	$.45 is too much of an increase. Reduce the increase or provide justification for the large increase.
07/14/26	Arsalan Ali	60107	X		X		X				Oppose	Stop increasing tolls and figure out cuts in different areas to fund improvements. Illinois leadership is corrupt and incompetent who can't figure out how to cut spending and reduce budget. Stop driving people out with more tax increases. Do your job better or resign.
07/14/26	Dominik	60056	X				X			Affordable tolls with no potholes on the streets	Oppose	Every toll increase make the roads in Illinois WORST then the previous increase, bunch of thieves and crooks are stealing our money we do not need that kind of improvement the changes nothing, I oppose this toll increase!!
07/14/26	Rufus Childs	60629	X		X			X			Support	As a member of IUOE Local 150, I support the Illinois Tollway's Driving Connections Capital Program. These investments help maintain and improve the roads and bridges that millions of people rely on every day while creating opportunities for skilled construction workers.
07/14/26	Grace Winnick	60171	X				X			Safety from semi trucks driving too fast.	Oppose	The poor working class is already paying too much for food, gas and tax breaks for the rich. Enough already!!!'
07/14/26	Diane Knight	60506			X	X	X				Oppose	It has already cost much more than it was intended to cost. I've decided to drive less and use tollway less because it is expensive and ALWAYS UNDER CONSTRUCTION!
07/14/26	Rick Padal	61012					X	X		no increases	Oppose	This becoming unaffordable and I am not able to take the toll road like i used to. The state of IL is draining my income as it is with high property taxes as it is.
07/14/26		60672	X		X		X				Oppose	
07/14/26	KL	60142			X		X			Safe	Neutral	I don't think it helps your case to have the public meetings, and yet you DID NOT allow for any question and answer portions. How are folks to fully understand and support if they are not allowed to ask questions?
07/14/26	Daniel Sojka	60070		X		X	X				Oppose	This is ridiculous. Pritzker and the general assembly just passed a hike this to fund Chicago. I am already spending an equivalent of few subscriptions just to get to work. With this hike, I would pay north of a $100 a month. Stop digging into my pocket already.
07/14/26	Dan DuVall	60517			X		X			Cost of tolls	Oppose	Stop increasing the cost of Tolls
07/14/26	Deb Foshager	60123	X				X			Lower tolls	Oppose	Please, do not burden us with more taxes. There is already a surplus of funds that you have access to. I am 100% opposed to this toll increase.
07/14/26	DJ	60135			X		X			Not paying your stupid tolls.	Oppose	This state can't figure out how to spend money properly and you want us to pay more for tolls? You do a terrible job when fixing roads now.
07/14/26	Lauren M	60461			X	X	X				Oppose	No!!! The tollway's current affordability is crucial to so many Chicagoans including myself for commuting to and from work. The cost of living and gas is already so expensive, we don't need additional costs just to get to and from work

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/14/26	Alfonso R Guajardo	60455-1008	X	X		X					Support	As a tollway user and construction worker ! I support any improvements that is needed to better the quality of travel !
07/14/26	Rob	60435	X				X			Affordability	Oppose	You guys are such greedy scumbags. There's no way you don't already collect enough toll money for maintenance projects. Quit letting funds disappear and actually use the money you're collecting.
07/14/26	Francesca Little	60148-1762	X				X			Common sense.	Oppose	The residents of IL are among the highest taxed in the US already. This is not the right time to increase costs. Many families do not have addition funds. If our representatives really desired to represent the people, this would not even have been presented.
07/14/26	Marianne Alt	60477		X	X	X					Oppose	I travel 294 5 days a week to go to work. The road is constantly under construction. I pay enough in tolls and certainly don't want any increases.
07/14/26	Mike Bender	53538	X			X		X			Support	
07/14/26	Frank Owen	60126	X		X		X				Oppose	The proposed increases are unfair to passenger vehicles. The proposed percentage increase for passenger vehicles is DOUBLE what is being proposed for commercial vehicles. (Commercial is slated for a 30% increase, while the typical 75 cent passenger toll will go up to 1.20.. a 60% increase.) Commercial vehicles will now bear a smaller proportion of the toll revenue than previously. The fairest thing to do would be to apply the SAME percentage increase to both commercial and passenger vehicles. Commercial vehicles are getting a break. Why is that? In my opinion, if anything, their increase should be MORE, due to the excessive damage and congestion that their overuse of the toll roads cause.
07/14/26	Lynda McMillin	60525	X		X		X				Oppose	I don't feel the tolls should go up. We already pay enough. The tollway makes millions a year and we shouldn't have to pay more.
07/14/26	Robert Goesel	60542	X		X		X				Oppose	This state is already stealing from us in so many ways! The toll roads are all under construction, busy, and expensive. You want to raise the price and make things worse. What a joke. This is the reason I avoid toll roads unless it's impossible. This is just greed and corruption!
07/14/26	William Long	60137	X	X	X						Neutral	It is of great importance that the current toll roads be maintained and further built to keep the area prosperous and growing. I would perfer it built with union labor so I trust the bridges and overpasses and basic road structures and grade
07/14/26	Me	60502			X		X			Lower the white collars pay and boom, more money	Oppose	Tolls were supposed to be temporary to begin with. If you want to raise them for people who don't have an iPass. I'm okay with it but if you got an iPass or even if the iPass doesn't register and you got an iPass you need to keep the rates the same or lower them.
07/14/26	Duane Truman	52807	X				X	X			Oppose	Illinois is already one of the most tax oppressed states in the country. This just adds to the reasons to avoid the state.
07/14/26	Karen Kugelman	60014	X	X			X				Oppose	These tolls were suppose to end years ago. But higher up needed bigger salaries. Cut executive salaries to fund your projects.
07/14/26	Jonathan	60060	X			X	X				Oppose	In 15 years, Illinois will be asking for more money. Finish the current roadway construction projects first (like I-94 and other areas) before asking for more money!
07/14/26	George Sperekas	60140		X		X	X				Support	I support maintaining safe, well-kept roads while ensuring toll revenues are spent responsibly and transparently. Investments should deliver measurable improvements for drivers and provide good value for every dollar collected.
07/14/26	Luke Pascale	60586			X		X			Affordability a second time	Oppose	Ridiculous. It costs me thousands a year to travel to and from work already. You want to increase that. And you wonder why the state is bleeding people.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/14/26	Samantha	60074	X		X		X				Oppose	IL tax payers already pay a lot of money to travel to and from work, or into our beautiful city. Our interest rates, rent, and property taxes are all very high. People traveling into the city don't have access to public transportation to do that as is (outside the Metra which isn't always an option). We pay enough just to go into our city, a lot of people even have to pay the tolls just to get to work. Increasing the price of tolls, while charging us a lot for a plate sticker and city sticker every year is unfair to the people of IL. We won't even receive benefits from this project for over a decade. The citizens of IL pay enough to simply live here. The constant construction on the highway makes it unbearable enough to travel to our city. Please don't increase the prices of the tolls as well.
07/14/26		60542			X	X	X				Oppose	This is a terrible proposal. The state of IL NEVER provides any reductions in taxes or anscillary costs to the residents. This is yet another reason to strongly consider moving to another state.
07/14/26	Jorge	60426			X	X	X				Oppose	
07/14/26	Nick Suchorabski	60459	X	X	X						Support	I support the driving connections program because it creates jobs, supports apprenticeship opportunities for young men and women and helps maintain the infrastructure that keeps Illinois moving.
07/14/26	Kristie	60142	X		X		X				Neutral	I oppose the fact that individual people will pay much more than commercial vehicles. The cost of living in Illinois is already astronomical. Please don't target and charge the individual more than commercial vehicles.
07/14/26	Cory	60615	X	X	X						Support	
07/14/26	Peter Misiolek	60098	X				X			Enforce speed limits. If your going 80 you are still going to slow	Oppose	Illinois has the highest gas tax, high taxes on everything else. Higher tolls is just adding another tax to people who are tired of it. Manage money correctly. Don't redo a road then tear it up a year later. To much money is wasted in this state. The tollway board is another example of to much government.
07/14/26	Claribel	60505	X		X		X				Oppose	
07/14/26	Sheng Wang	60521-5067	X		X		X				Oppose	the toll is already really high. comparing to other states IL has the most toll roads. On the contrary toll fee shall be decreased due to the current high living cost that applies to regular people.
07/14/26	Karen Popovic	60074			X	X				Quickest route	Oppose	I use the tollway to get to my federal government job. They don’t pay us much and Illinois continues to take rake take. This is so hard for those who live paycheck to paycheck.
07/14/26	Michael Cisco	60631	X	X		X					Support	As a skilled trades worker, I support the Driving Connections Capital Program because it creates opportunities for construction workers while improving critical public infrastructure.
07/14/26	Lora Johnson	60430	X				X		X		Oppose	Understand no increase since 2012, however whose at fault there? (Prior Planning Prevents…) The substantial increase will affect many to absorb in simply TRYING to work
07/14/26	S jaskowiak	60490	X		X		X				Oppose	No increase Use the money you have been collecting all these years.
07/14/26	Robert Leonard	60093	X				X			NO GRABBING $40 EVERY TIME BALANCE GETS LOW!	Oppose	In Israel, toll roads take THE TOLL ONLY from drivers, NOT a huge overage. This is deducted from the driver's bank account.
07/14/26	Shauna McNally	60142	X	X		X					Support	
07/14/26	Juan C. Castaneda	60133	X	X				X			Support	I spent a lot time on the road. I don't mind paying extra if we're getting well maintained roads.
07/14/26	Joseph watson	60643	X			X		X			Support	I support the increase for continued safe roads and reliable transportation for union jobs and its families.
07/14/26	Dan A	60015		X	X		X				Oppose	I’m afraid this project will too much for motorists. How do I know the money is being used in this project? I’m very concerned about how the funds will be handled as the state of Illinois and its leaders have either corrupted or mismanaged project funds in the past. I think this project will not only hurt motorists in their pockets, but will make very little to no difference in the end.
07/14/26	Dick Hurts	60185	X	X	X						Oppose	Bunch of bull how about cutting some tollway jobs maybe that would work
07/14/26	Jessica Irons	61111	X	X	X						Neutral	
07/14/26	Susan Shotliff	53545					X		X	I oppose this increase.	Oppose	Cost of living is through the roof. Salaries are not keeping up. We can not afford any increase.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/14/26	James Mraz	54519					X		X	Reasonable cost	Oppose	Both of us are originally from Illinois, and we visit family frequently. We are 100% opposed to this ridiculous price increase.
07/14/26	Keana Yoshikawa	60565	X	X			X				Oppose	
07/14/26	Michael Brkljacic	60617	X	X		X					Support	As a member of IUOE Local 150, I support the Illinois Tollway's Driving Connections Capital Program. These investments help maintain and improve the roads and bridges that millions of people rely on every day while creating opportunities for skilled construction workers.
07/14/26	Todd Werner	60152	X		X		X				Oppose	
07/14/26	Doug Gaines	62269			X		X			Faster routs and drive times.	Oppose	I strongly oppose the proposed toll rate increase and the automatic inflation-based adjustments under the "Driving Connections" $26.5 billion capital program. Passenger toll rates have not risen since the 2012 increase tied to the Move Illinois program. This new proposal—adding approximately 45 cents per toll for I-PASS users and 90 cents for cash/non-I-PASS—represents the largest passenger toll hike in Illinois history. Frequent commuters could face hundreds of dollars in additional annual costs. From 2029 onward, automatic biennial adjustments tied to the Consumer Price Index (capped at 4% per year) would occur without future board votes or required public hearings for each change. Under the Toll Highway Act (605 ILCS 10/), the Illinois State Toll Highway Authority has authority to set and revise toll rates to cover construction, maintenance, operations, and obligations (Sections 10, 19). However, the Act requires a public hearing in the affected county with proper notice before any rate increase is adopted, followed by at least 30 days' public notice before the change takes effect. While the Authority is currently holding hearings, embedding automatic future escalators bypasses the ongoing accountability and public input process the statute contemplates for rate changes. The Tollway is a user-fee system with no tax dollars involved, and tolls are generally upheld as constitutional user fees rather than taxes. There are no recent court rulings finding constitutional violations in similar rate adjustments. That said, the system was originally intended to become toll-free once bonds were retired more than 50 years ago, yet it has continued collecting over $27 billion in tolls since then. Recent years have produced record revenues and net surpluses exceeding operational and maintenance needs. These facts raise serious questions about whether such a steep, permanent increase—and especially the automatic indexing mechanism—is truly necessary or the least burdensome option for Illinois drivers and the economy. I urge the Board to reject or substantially reduce this proposal, exhaust cost efficiencies and existing revenues first, and preserve meaningful public oversight for any future rate changes rather than locking in automatic hikes.
07/14/26	Patricia Bulsok	60612	X				X			Rest areas (basic not extravagant); road side assistant onus for car owner	Oppose	Public trans needs more money; we do not need to up toll costs
07/14/26	S Korth	61049	X				X			Toll free.	Oppose	I have driven I88 from I39 to where it links to I80 and I74 since it was built. I cannot remember when there wasn't some portion under construction. The same for I39 to Bloomington which runs right by my house. What are you doing with the tolls you are getting? If I were a trucker, I would be looking to avoid Illinois all together. Government programs are always obscure, but this one is particularly questionable. I drive I88 alot. I don't have to. Raise the tolls and I go another way. More money for no benefit.
07/14/26	Joan Czarnecki	60010				X	X			Choice to use or not by putting a toll only in the left name and let us drive free if we sit in traffic	Oppose	It is very difficult to make it in Illinois, we need some breaks not spending more. We need to slow things down and let the residents recover from all the tax hikes. I will not use the toll of this goes into effect. It will take me longer but I can't afford this. We do not have alternatives to the toll either like other states, let's start that, or have the left lane a toll and people to choose to pay if they go to the toll lane and let us use the road for free if we are in the right lane!
07/14/26	Gerardo Mares	60623	X	X				X			Support	

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/14/26		61104			X				X	Why is all the construction always taking place in the Chicago area while the rest of the tollway area gets screwed over?	Oppose	The cost for the tollway was supposed to end years ago but this crooked ass state just keeps it going and funnels the money into Chicago or into the tollway authorities pockets!!
07/14/26	Russell Marek	60015	X				X	X			Oppose	I am old enough remember being told tolls were temporary. They would go away after 4-5 years. That was 45 years ago. Other states don't have tolls and have better roads than Illinois.
07/14/26	Jean M Hincks	60445	X			X	X				Neutral	A VERY SMALL INCREASE ONLY!!
07/14/26	Bob Smith	60526			X	X	X				Oppose	
07/14/26	Matthew Mitroff	60195	X		X	X					Oppose	Non stop construction. I haven't had an easy ride in years. Give us money back for construction taking so long.
07/14/26	Michael Williams	60419	X		X		X				Oppose	
07/14/26	Kole	53405			X			X	X		Neutral	Start ticketingall the semi trucks that are not paying and hiding their license plates
07/14/26	Marsha Freeman	60046					X	X	X		Oppose	Between the price of gas and the amount of tolls that I pay on a weekly basis to travel to and from work it has become so costly, that many days I add drive time to my daily commute by not taking the tollway to save money. What we do not need anytime soon is more construction. I don't remember a time since the late 70's where there hasn't been some kind of major construction. Without construction traffic would move at a much faster pace. ENOUGH IS ENOUGH ALREADY.
07/14/26	Michelle	60409	X				X		X		Oppose	I don't believe all the toll money collected has gone back into the tollroad. Where is this existing money going??
07/14/26	Ronald	60188					X		X	Get rid of UNIONS!!!	Oppose	Just another way for Pritzker and the other Socialists in Illinois to steal more of the hard working people of Illinois' money under the guise of making "improvements"!!!! Vote RED and get rid of these Shysters!!!!
07/14/26	Patty Miyar	60178	X				X			Lights on 88 west of 47	Oppose	It is absolutely ridiculous that you need to increase the fares. The last increase was so outrageous that I still can't believe to this day how much we pay to use a road. We are all do stressed with the cost of everything and trying to make ends meet. This is the worst idea at the worst time..
07/14/26	Margie Szymanskyj	60014					X	X		Safety. Have you been on I90 lately? It's anarchy. Nobody follows the laws.	Oppose	OMG are you cracked? Stop raising toll fees. It's already ridiculously high. Geezus. Stop filling the pockets of executives off the backs of the rest of society.
07/14/26	Lori Martinez	61008-1511	X				X		X		Oppose	Illinois has way too many high tolls and taxes on EVERYTHING~Give families a break. I support a DECREASE in tolls in Illinois
07/14/26	Will Herrmann	60189	X		X		X				Oppose	More construction just means more backed up traffic. If will never end
07/14/26	Carl	60439	X	X			X				Oppose	Tolls were to be eliminated once the project was paid off years ago.There has been increased fees over the years. With the high fuel taxes we pay there is no way having an increase. Other states don't have tolls State have been using the money for police and equipment for years. With all these taxes time for the state to tighten the belt and control spending like we have to.
07/14/26	Jan Peterman	60551	X			X	X				Oppose	I think senior citizens should get a substantial discount on the tolls. Senior citizens are on fixed incomes and don't get cost of living raises to keep up with the economy
07/14/26	Daniel Sleezer	60532				X	X			Less needless construction caused by a 'use it or lose it' budget mentality.	Oppose	Ridiculous, the increase was for the CTA bailout and now you're creating this 'plan' to obfuscate the steering of 'build out $' to the CTA. Why wasn't there a CTA fare increase??? 07/14/26	Adam Bodzioch	60137	X					X		Less mowing of grass to save money!	Neutral	Another thing would be we need better options to suburban transit. Restore grass land to prairies so you don't have to spend money on mow grass.
07/14/26	Dave Madsen	60453	X		X		X				Oppose	I remember when it was promised that the tollway would be free. This promise has not only been broken, but now you propose to make it worse. Tolls are already too expensive.
07/14/26	Steve Lill	46383	X			X	X				Oppose	Tolls are already too high, given the fact that the toll roads never improve. Travel times are very inconsistent, and there is ALWAYS construction going on that somehow never improves the toll roads. There are other roads top use and given the cost of using the toll roads I will do my best to avoid them whenever possible beginning in 2027.
07/14/26	Pam	60491	X			X	X				Oppose	
07/14/26	Edward Krupnik	60005	X			X	X				Oppose	raise on tolls that I dont drive. where I travelkeep same. I will pay more on trips I dont usually take. why should commuters traveling same route have to pay for more. let infrequent travelers pay the price.
07/14/26	Steven Schroers	46322	X		X	X					Support	If it's been since 2012, I feel that there is a need for an increase to keep pace with costs of maintaining infrastructure. I'm for the increase.
07/14/26	Caitlin	60071	X		X		X				Oppose	There does not need to be a price increase. The tolls should cease to exist
07/14/26	Ed Branch	61071		X		X				Vvffghhuff	Oppose	If they go up I will find alternative routes even if they are longer to avoid tolls.
07/14/26	Cat	60194			X		X			Not having to worry about a 0.45 cent increase to every toll	Oppose	A 0.45 cent increase is absolutely diabolical. You will be doubling the amount of money people spend on tolls during their daily commute. That is crazy. You don't need that much money. It's incredibly greedy and unethical. Shameful proposal.
07/14/26	Brian toth	60137	X			X	X				Oppose	Tolls, were proposed, and approved as a temporary measure. Once roads paid for, free. What promise will Illinois break next? How much was spent supporting illegal immigrate? How much continues to be spent on illegals? Where the hell do our ever increasing gasoline taxes go? I suppose, the next time I use a toll road, it mat be to exit Illinois for good.
07/14/26	Paul	60618			X		X		X		Support	Not .42 cents but half that amount.
07/14/26	Allie Sokachitch	60441	X	X						because i have no other choice- not maintained at all but i had to choose 3	Oppose	why are you trying to increase tolls when these roads dont ever even get fixed??? what are you using the money you are already getting on? i absolutely oppose this increase for passenger vehicles. commercial vehicles, i'm sure, can afford it. don't screw regular people over the same way the gas prices, grocery prices, and the general cost of living has. dont be that guy.
07/14/26		60446			X	X	X				Oppose	The tollway was supposed to be a short lived fee to improve roads. Not only does this increase rates that have not increased since 2012 it opens the door to increase them by inflation in future years without a new proposal. This seems like a means to generate additional revenue for projects that never seem to finish. Propose an increase that is temporary to cover this project not a permanent increase.
07/14/26	Dawn Elizabeth Hilliard	60164			X	X	X				Oppose	Tolls were supposed to end a year before I was born in 1973, yet never went away, only went up. In a state that is overtaxed in every possible way, how are increased tolls based on inflation supposed to attract new residents, businesses, and interstate travel? Illinois residents are lucky to even get a cost of living raise of any kind. Now you want to make getting to work cost more or take longer if you can to afford the tolls. It's bad for Illinois citizens, bad for business, and bad for tourism and interstate travel.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/14/26	Bob Felde	60007			X		X			Stop crazy drivers, more police presence and tickets for speeding and reckless driving.	Oppose	I will do all I can to avoid tolls after this increase. Illinois is becoming too expensive. Can't wait to move out.
07/14/26	Ricardo Dominguez	60546			X		X			Removal of traffic cameras. These make roads less safe especially in communities with populations of people of color.	Oppose	Please don't increase another tax. Please just use the current budget and spend better. In this day and age it's so easy to leave the state and move elsewhere and still have a great paying job. If I keep getting taxed to death, I'm going to move my family to Indiana or Wisconsin.
07/14/26		60189	X		X		X				Oppose	Tolls are already too expensive.
07/14/26	Karl Garrett	60423	X			X	X				Oppose	Hell no
07/14/26	David	60630	X				X		X		Oppose	Tolls are too high already, give Illinoisians a break already.
07/14/26	Daniel Zagorski	60441			X		X			Less construction! It's out of control.	Oppose	I am writing to oppose the proposed toll rate increases under the Driving Connections capital program. A 45-cent per-toll increase for passenger vehicles and a 30% increase for commercial vehicles, starting January 1, 2027, represents a significant and disproportionate burden on daily commuters and small businesses that rely on the tollway system, especially as many households are already managing elevated costs for housing, groceries, and insurance. Commercial carriers will likely pass their 30% increase directly to consumers through higher shipping and delivery costs, compounding the effect statewide. I'm also concerned about the automatic inflation-indexed adjustments proposed every two years starting in 2029. This removes regular public accountability from future rate increases and allows costs to rise indefinitely without the same level of scrutiny this current proposal is receiving. Before approving any increase, I request that the Tollway: 1) Provide a detailed, itemized breakdown of how funds will be spent across the 15-year Driving Connections program 2) Demonstrate that existing toll revenue and administrative costs have been fully optimized before asking drivers for more 3) Consider a smaller initial increase with mandatory public review before any future inflation-based adjustments take effect Thank you for considering my comment as part of the public record.
07/14/26	Sam Boye	60053	X		X	X					Support	The tollway system has been very effective for the state of illinois. I am on the tollway system 5-6 times a week. The ability to cross the region effectively with a high predictability has been very beneficial to me, my work and my family activities.
07/14/26	Tina Meiners	60194	X				X			Quit gouging Illinois residents with increases	Oppose	Quit gouging Illinois residents with toll increases for unnecessary projects. Use the millions you are already getting and all the money you saved by getting rid of your toll collectors for your next round of improvements.
07/14/26	Guillermo Huitrado	60106	X		X		X				Oppose	Already pay enough taxes
07/14/26	Craig Stevens	60061	X			X	X				Oppose	Toll increases proposed are too high. There's been little accountability for the funds collected since the tollway was built. This is essentially an additional usage fee on top of the myriad taxes Illinois already charges its residents. Please stop fleecing the taxpayers. This is nothing more than another tariff on the citizens of Illinois. Maybe a .25 increase per toll but .45 is tollway robbery!!!

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/14/26	Chris McSherry	60020	X		X		X				Oppose	I oppose an increase in tolls. When the freeway system was initially built, tolls were supposed to be phased out (in 1973) once it was paid for. That never happened and it instead became a cash cow. The promise of a “freeway” was broken and it became a tollway. So unfair. Economic development is a totally different area within our state government than the tollway system and is best left for regional and municipal governments to fund. The two should not be intertwined when it comes to funding. Please do not allow this egregious cash grab to happen.
07/14/26	Angelo Manzoeillo	60515	X				X			Road sustainability	Oppose	Funny! Decades ago the tollway authority said, "Tolls will go away as soon as construction is complete..." The only thing that happened is tolls increased and so has your kingdom building. So why T F should I believe anything you say now?
07/14/26	Bianca	46321			X	X	X				Oppose	The toll from Indiana to Illinois is already costing over $13 one way. Increasing the toll cost is unsustainable and abusive. There is no reason for a toll to cost over $13 one way. If I travel to IL (out of Indiana) using the toll both ways, I spend over $26 per day during a 5 day work week. I strongly oppose to increased toll rates.
07/14/26	Nick Kiousis	60527	X		X		X				Oppose	294 should have converted to a freeway after the bonds were paid off. Tolls are too expensive now!
07/14/26	Amity Cutaia	60047	X		X		X				Oppose	Tolls were originally proposed to be temporary and have now never gone away! Keep the toll prices where they are now please.
07/14/26	Redacted	60177			X	X	X				Oppose	Obviously, there is no justification to take more of our money. There is no evidence to suggest financial acumen or monetary discipline. Show road improvements without increasing the budget or raising tolls on all of us. Honestly, the contempt the IL government has for its citizens is despicable.
07/14/26	Charles Brown	60431	X	X			X				Oppose	
07/14/26	Janet Kaminski	60467	X			X	X				Oppose	I can't believe the Illinois Tollway is suggesting such a steep rate increase and that the Governor is supporting it. You all must think the residents of Illinois are millionaires/billionaires. With the current rates, I can pay about $10 for a trip up north and that doesn't include gas. I feel sorry for those who need to take the Tollways every day to work etc. All this state does is increase rates on everything, never any cuts or more efficient ways of doing things. I encourage all young people to avoid making their future in Illinois because all taxes/rates etc. especially real estate taxes are off the charts and they will never get ahead. We have the highest or almost the highest in the nation of so many items that I'm not sure how a young family can survive in this state. I guess that is why credit card debt is so high. I do not support an increase, especially with an inflation clause, not now or anytime soon. Let's get this state under control with spending first. Some people are barely affording food these days.
07/14/26	Matthew Garner	60515			X		X			Low cost	Oppose	No new tolls/ taxes. Tollways have not decreased traffic, drive on 294, 355, or 88 during rush hour and you'll notice there is still a ton of traffic
07/14/26	B. ogren	60618				X	X			pay increases	Oppose	stop raising tolls and have the governor and all politicians take pay cuts for mismanagement of tax pay funds
07/14/26	James Boven	60126-5247	X			X	X				Neutral	The Tollway Authority says it hasn't raised tolls since 2012. That's part of the problem. Rather a 45 cent increase now, why haven't you raised it a smaller amount every three or four years. This looks like what you are going to do moving forward. It's the same problem with City of Chicago property taxes...no increase this year; no increase this year; OK--now a 15% increase. Maybe don't increase 45 cents right now, but only 10 or 20 cents...and then 4 or 5 cents every couple of years. It will take longer to accumulate all the money for all the projects you want to complete...but drivers might be more receptive. Thanks for listening.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/14/26	Geoffrey Graham	60062	X				X			Not driving in perpetual construction zones.	Oppose	Continual construction hell, like the 10+ years on the Tri-State, is not worth it. One more lane is not going to fix traffic. We don't need any more new construction or expansion projects. There are already plenty of roads -- building more will just encourage even more urban sprawl, making traffic even worse, and making it even more difficult to pay for routine maintenance and upkeep. Public resources should be spent on maintaining what has already been built, and supporting alternate modes of transport, so people don't have to drive everywhere they need to go if they don't want to.
07/14/26	Michael Pinsky	60062	X		X		X				Oppose	Toll rates are high enough. Become more efficient to reduce need for additional available capital
07/14/26	Kara	60142	X		X		X				Neutral	As long as the tolls go to the maintenance of roads and NOT to other transportation services like CTA. Transparency in fund spending and audits should be made public.
07/14/26	Ron	60657			X		X			Cheaper	Oppose	They are already too high. Look at ways to be more efficient!
07/14/26	Matt Corso	60148	X		X	X					Oppose	Fix the corruption and use that money to fix the roads.
07/14/26	Debby Killion	60004	X				X			safety	Oppose	
07/14/26	Aaron	60010	X				X			Good stewardship of funds!	Oppose	We already live in the most taxed state in the nation! Enough already! You have plenty of money to build/ maintain our roads! No increase!!!
07/14/26	Trent Stevenson	53209	X			X	X				Oppose	I oppose not the increase itself, but the amount. In this current economy, this is THE WORST time to seek any toll increase above 25 cents or 15%. A balance must be made to not drive users to local roads, which will counter the desired goals. Infra improvements are a given. But I feel anything at this time that does not address top priorities (such as repairing or replacing the oldest or most urgent roads/bridges) or addressing immediate bottleneck areas (such as the eastbound Edens Spur at the Edens) should be delayed.
07/14/26	Petr Folwarczny	60073	X		X	X					Oppose	I am strongly opposed to any further tax increases and additional fees! Illinois is already known for having some of the highest taxes in the country, and somehow that's still not enough? How about the politicians in Springfield, Chicago, and elsewhere start thinking about ordinary working people instead of lining their own pockets? You constantly talk about "supporting the middle class," but in reality you're making life in Illinois more difficult and more expensive every year.
07/14/26	Andrea Gertonson	60805			X	X	X				Oppose	Cannot afford to pay an increase will find an alternate route to work if tolls increase that much.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/14/26	Jasmine	60148	X			X	X				Oppose	Hello! I would like to oppose the increase. I understand raising prices to keep up with inflation, and I understand the need to repair the roads. However, a truly incredible amount of vehicles already pay tolls 7 days a week and 24 hours a day. Drivers are already struggling to keep up with inflation as it is; remember that while vendors increase to keep up with inflation, employers rarely provide pay raises to keep up with inflation. Many members of the workforce end up making less and less money each year, and many have no practical choice but to pay for the use of the Tollway every workday. As for commercial, those drivers bring us the food we eat, the soap we wash with, and the packages we order. I think we should show them the value we see in them, and the gratitude that they deserve in exchange for the services they bring to Illinois' many communities. I suggest reallocating the money that is already there. Investments were mentioned as a reason behind the Driving Connections program, and it was stated that some already existed. I suggest capitalizing on these investments and moving them to safer or higher-yield places. If the Tollway gives these time, they will grow and make up for the inflation. If the amount of tolls already paid and the investment returns cannot repair the roads, then I would suggest looking elsewhere for funding. I am sure the State of Illinois sees the value of the Tollway, and perhaps even private deals could be made. I question what exactly all of those tolls are being spent on. It's true that some of the roads are in need of repair, but they are in that condition due to long-term neglect and poor quality roadwork in the first place. During times of construction, I see an incredible amount of time being wasted. I notice inefficient processes and roadwork employees spending time relaxing on the side of the road or sitting in their personal cars (at all different times of the day). I also see uneven, mismatched results. I suggest looking for better construction and roadwork companies, or being more strict with the State's roadwork departments both in budget and in operations. Work done right the first time will last longer and require less repair. If prices must be raised somewhere, then I suggest raising rates for out-of-state travellers and non-I-PASS holders. Out-of-state travellers have more flexibility and route options than daily commuters, and non-I-PASS holders always have the option to save themselves money by purchasing an I-PASS, so the raise is less inevitably detrimental. There are already many drivers belonging to both groups, so the revenue increase should still be sufficient. To conclude, I would like to oppose the raising of passenger and commercial toll rates in order to support the Driving Connections program.
07/14/26	Jim Georgi	60134	X				X	X			Neutral	My only comment is PLEASE make sure there is accountability for the funds. There should be a budget and record of how much money is being collected every year and how those funds are spent. These should be OPEN PUBLIC RECORDS. Few people trust government anymore. Please make these records accessible on your webpage for all to see. Thank you.
07/14/26	Mauricio	60641	X		X		X				Oppose	
07/14/26	Jjake	60106	X		X	X					Support	Unbelievable. Houses, rents raised, food fuel raised, bills, water, all living costs goes 100% last 15-20. I do same amount of $ as 2001,2002 etc. Wow. 30%. How come and why. What is going to change after that. Ooohhh, office people must have raises bcoz economy and inflation. Good job, idea, time of service. Impossible! Why?
07/14/26	Alvaro	60188	X				X		X		Oppose	With respect. Aint no way in HELL I will continue using the tollway if you jack up the price. The tollway has been under construction since before the pyramids of giza were built. Your construction crew has done a horrific and unprofessional job fixing the potholes. Example. Frontage on ramp has potholes not fixed yet. Also your Ipass service sucks ass!! No way in hell am I paying. If you assholes actually did your job. Then yah maybe. But you all suck at your job.
07/14/26	Kayla	60640	X			X	X				Oppose	
07/14/26	Judy Wentz	60064	X				X		X		Oppose	when i moved here 50 years ago the tollway was under construction. It was said that when that was done there would be no more tolls. Now we have higher olls and they want to make them higher again. Why is it in Wisconsin there is no tolls for the same interstate?????

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/14/26	Alan Huguenin Ramsey	53704				X	X			Just affordability	Oppose	I appreciate the Illinois Tollway's commitment to maintaining and improving the transportation system, but I oppose funding the Driving Connections program through additional toll increases. Illinois drivers have already absorbed significant toll increases over the years, and many families and small businesses continue to face rising costs for housing, groceries, fuel, and other necessities. Further increasing tolls would place an additional financial burden on the very people who rely on the Tollway every day for work and commerce. Before asking motorists to pay more, the Tollway should demonstrate that existing revenues are being used as efficiently as possible, prioritize projects with the greatest safety and mobility benefits, and pursue cost-saving measures wherever feasible. Large capital investments should be balanced with affordability and accountability. I encourage the Tollway Board to reconsider any proposed toll increases and seek alternative funding strategies that maintain the system while minimizing the financial impact on Illinois drivers.
07/14/26	Josh	49120			X	X	X				Oppose	Higher tolls? More road work? Are you fucking kidding me? Where does it end?
07/14/26	Daren Klepk	60181	X				X			Removal of the tolls entirely.	Oppose	I would love to see an audit of the tollways budget. Every toll road in America was collecting tolls until they were paid for but somehow once that was done you all said well we have to keep collecting just to maintain them. You're telling me it's more expensive to maintain the roads than it is to build a whole road system? Also you're gonna increase the tolls on top of pritzker increasing the tolls? Sounds like this increase you're asking for is to cover pritzker's tax and to have a little more for whatever you all see fit.
07/14/26	KJ	60153	X				X	X			Oppose	When traveling on I-90 or the tri-state...I try to fathom the many millions of dollars your tolls generate monthly at the already increased levels since the renovation of I- 90. A toll is a tax. Taxation without representation caused tea to be thrown into Boston Harbor. Show us an honest independent audit of your books, and that's where you begin. Not, oh we're doubling the price of tolls. 2ndly anything you do to "streamline traffic " without building more highways or god forbid, Bullet trains (AND AT SUCH A COST) will involve Flock type cameras and AI data centers letting only certain people drive at certain times; with tickets issued (or worse) when they disobey. This is surveillance and government restriction of our rights to move about at our own will and poorly disguised as "convenience to drivers". Drop this insanity, please. This country has sunk to new lows.
07/14/26	Eileen Podgor	60018	X		X		X				Oppose	You have spent millions (billions) and traffic is stiil horrible, roads are under construction for years, mismanaged, get your act together before spending our toll money
07/14/26	John	60115	X		X		X				Oppose	The original tollway premise was that it would be a temporary program and should have been ended in 1973. Since then, the tolls have not only continued, but increased. My other concern is that the legislation is worded, there is no guarantee that the funds generated by this and future increases would be applied to the roadways. It's entirely possible that these funds could be used for expense completely unrelated to our roads. Frankly, I do not trust our government keep their word.
07/14/26	Dan DUFNER	58223	X			X	X				Neutral	I strongly suggest working with our government officials to have 1/2 of this paid by tax dollars. These roads serve more than the drivers..it generates wealth around where the roads are. Do not penalize only the drivers.
07/14/26	Gladys	60608	X	X			X				Support	
07/14/26	Robert W. Rook	60655-1019	X		X		X				Oppose	The Illinois Tollroad System was initially started to fully pay for the entire system itself, then reduce the toll rates appropriately; or even have $0.00 toll charges. I have actively driving Ill Toll Roads since 1976 & have paid tolls extremely to that point. I am now driving 294 N which was to be under construction 5 years. It has now been 7 years & 294 is nowhere near ready; probably 2-3 more years construction left. The Ill Tollroad Commission was supposed to have free tolls, once it was paid off. I truly believe the Ill. Tollroad Commission has a lot of balls asking for an increase in tolls, since their basic format was to pay it off & let us drive for free. I vote NO on tollroad increases!

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/14/26	Jessica Bzdyl	60516	X		X	X					Oppose	
07/14/26	James T. Hawes	60076	X				X			Safety	Oppose	45 cents per toll and 30 percent increases for I-PASS commercial vehicles: OUTRAGEOUS. Cancel the program NOW. Time to develop some prudence.
07/15/26	Michael J Ryan	60655	X				X		X		Support	As a member of IUOE Local 150 i support the illinois tollway's driving connections capital program.These investments help maintain and improve the roads and bridges that millions of people rely on every day while creating opportunities for skilled construction workers
07/15/26	Donald Gotfryd	60510	X				X			Law Enforcement of to keep driving safely	Oppose	Gas taxes highest in country & tolls. Increase license plate fees on EVs as they weigh more than gas powered cars an wear roads down more than gas powered cars, since they don't pay for gas. They benefit from using roads that a paid with "gas" tax, but use now gas.
07/15/26	Daily tollway user	60506			X	X	X				Oppose	I-88 Tollway traffic is the worst it's ever been, & too expensive already. Just Stop
07/15/26	Stephanie Chamerlik	60586	X		X		X				Oppose	The state of Illinois has consistently raised tolls on Chicago roadways for years with little impact on the maintenance of those roads. This is just the usual song and dance to get more money that will ultimately be mismanaged. The roads will still be full of pot holes and traffic will be a nightmare. The state of IL has mismanaged funds for at least 50 years and has never solved the state pension issue. As my dad used to say "there's no sense throwing good money after bad". I oppose the toll rate increase. It is absolutely ridiculous. Chicagoland residents pays tolls for the entirety of southern Illinois to be toll free.
07/15/26	Roby	60126	X			X	X				Oppose	There is absolutely no legitimate reason for raising tolls. All you scumbags want to do is bankroll the corrupt unions and politicians that run this state at the taxpayers expense. That's why the law enabling you to raise tolls was passed. We see it every day, the roads are fine, you tear them up for no reason other than to pay people to stand around and do nothing and create horrendous traffic jams for months on end while no actual work is being completed. The 294 and 390 projects are perfect examples, moving at the speed of government, not the speed of business. No wonder businesses and residents are fleeing to other states, and the Bears are moving to Indiana.
07/15/26	Bill citizen	61008	X				X			All the above question!	Oppose	1. Where is the money your collecting no going 2 why is the money for gambling and legalized Marijuana being used. Why are we paying to travel in this state when other states they don't, Wisconsin has no tolls and their roads are well taken care of. 4. Would like to see where the money collected now is being spent and proper documents to proof it 5. If approved, have 50% of the workers non union and paid 25% less. 6. When the bids come in, let the public see those bids and then see which one was approved and by who. 7. Calculate the extra cost for people to drive from the farthest area in a 75 mile radius to central Chicago. Then project the amount of money to be collected in a 365 day year. 8. Give a detailed list of where all the money collected will be spent. 10. Give quarterly summaries of the project advancement, the amount of money spent and collected. 11. Will Ipass users still he discounted? FROM: CONCERNED TAX PAYERS. Our government just raised taxes, hard to make a living in Illinois, when the kings tax us. 07/15/26	Sam DiMaio	46385	X		X		X				Oppose	Invest the money in a high speed rail system instead. I've lived it the Chicago area for 43 years. The roads are always under construction and have very heavy traffic. Time to ease traffic congestion with better rail options.
07/15/26	Devin	60504				X	X			Less salt on the roads.	Oppose	Speed limit needs to be 85 mph on tollways

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/15/26	JOHN AHRENS	60126			X	X	X				Oppose	I am totally against any kind of toll increases. It is my understanding that when the tollway was first built it was never intended to be a continuing toll road. The initial tolls were charged to pay for the initial construction. So your continuing tolls are robbing the people living in the Chicagoland area! Furthermore, Gov. Pritzker has reallocated billions of dollars of State highway funds through legislative diversions. Please hold Gov. Pritzker accountable for this mismanagement of highway funds.
07/15/26	Rick Stephen	60634	X		X		X				Oppose	Rolls were supposed to be eliminated but instead of phasing out, tolls have continually increased. All you're able to do is to drain people's pockets by constantly increasing the tolls. Shame on you Illinois!
07/15/26	Stephen Carlson	60089			X		X			Lower costs	Oppose	Everything I am reading seems to be mostly maintenance. This should be covered by current tolls not an increase.
07/15/26	Carl Cichanski	60193	X				X			Safety. (more patrols)	Oppose	EVERY year the rate goes up for commercial vehicles. EVERY year it becomes harder for businesses to provide living wages. Every year, it becomes harder to move goods and services. Every year goods and services become harder to afford for everyone. And still, the rate for passenger vehicles needs to rise? It will become more and more difficult to live in Illinois, much less run a business.
07/15/26	David Carvelli	60554-9433	X			X	X				Oppose	At a time when gas prices are very high and the cost of living is unaffordable by many this will have a VERY negative impact on those who commute.
07/15/26	David Garcia	60431		X			X			The roads will never be perfect. There will never be less traffic.	Oppose	Everything is getting too expensive. Now you want to increase the tolls to hurt our pockets. Do want you can with the money you already have.
07/15/26	Gina Early	60527	X		X		X				Oppose	I already try to avoid using tollways due to cost
07/15/26	Lynn keane	60410					X		X	Tolls discount	Oppose	We are seniors everything goes up but our income soon we will be upside down. Seniors over 70 maybe should get a discount. I have no problem paying to help the roads but within reason.
07/15/26	Donald MacCrindle	60014	X		X		X				Oppose	Is this a JOKE? We are already one of the most overtaxed states in the U.S. Perhaps if you stopped funding illegal immigrants and Chinese manufacturing you could find the funds needed without raising taxes. Why is the answer to everything in this state to raise taxes? If you cannot find the money, don't do it. That is how life works.
07/15/26	David Lichterman	60014	X				X			No tolls	Oppose	I do not support the increase as it places an increased burden on certain parts of the state. The North Shore has free expressways so why can't the rest of the state benefit. Illinois has high taxes and we don't need anymore. Let's cut out waste.
07/15/26	Keegan Kociss	60448	X		X	X					Neutral	I'm not opposed to an increase in the tollway. However, I believe the increases should be switched. To me, it would make more sense for truck drivers to pay the higher cost as they are most likely being reimbursed for the costs. Meanwhile, regular drivers are paying out of pocket. Again, not opposed to an increase, just the rates of the increases.
07/15/26	Michael Cizmar	60605			X	X	X				Oppose	
07/15/26		60449			X	X	X				Oppose	NO rate hikes!!! Everything is already too expensive. Stop making it harder for Illinois folks to get to work and try to live
07/15/26	Andy C	60093		X				X		No other choice for commuting	Oppose	
07/15/26	Darwin Haines	49127	X			X	X				Oppose	Strongly oppose. It already costs about $13 per trip to get into Chicago...one way (yes, some of that is Indiana but the comment still applies). Tolls have gone up and road quality has gone down. Construction is perpetual but yet quality does not improve. It is not about budget and investment, but rather management and efficiency. Fix that first and prove that further investment will be properly stewarded.
07/15/26	John	60560					X	X		Affordability affordability affordability	Oppose	Works fine as is. Every day costs are high enough these days, just maintain what you already have. No need to upgrade and change. If rates increase like this I will likely not use the tollway and just use surface roads. A slight increase in time is worth it to me.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/15/26	Tarsha Mack	60640	X		X		X				Neutral	I don't understand why we are being asked when the decision has already been made been made. At this point it is for informational purposes only. Please a the very least use better quality materials that don't require replacing every few years. It is very disappointing to see the same roads needing repair so frequently. And it is unfair to the consumer who has to pay for this.
07/15/26	Marc Propheter	60134	X	X		X					Support	As a local 150 operator for the past 50 years, the tool way has been used to create employment for myself and others . I totally support the plan
07/15/26	Joseph Rowe	60643	X		X		X				Support	The projects included in Driving Connections will help modernize aging infrastructure and improve the transportation system that so many Illinois residents, businesses and out of state travelers that bring revenue to our state depend upon.
07/15/26	Ashley B	60516					X		X	No tolls	Oppose	I'm already paying over 18 bucks a month that is too much. I will actively avoid tollways if you guys increase the cost. I'll will do anything in my power to not give you guys money. You already have so much and I have never seen anything good come out of it. Construction take decades and when it's done, the road is filled with pot holes.
07/15/26	Barbara Lanman	60565	X		X		X				Oppose	Illinois taxes its citizens at an outrageous level. Illinois needs to get creative or ask Indiana how they continue to reduce their taxes. 45 cent tax increase per toll is outrageous. Learn to budget!!!
07/15/26	Rick	60189			X	X	X				Oppose	The toll road was to be temporary. The increase is ridiculous. The tolls had paid for the roads 10 fold already. There should be enough money to cover the changes you want to make without impact the drivers. What benefits does the toll road offer when it constantly has traffic jams. I think the state needs to pay for these changes. With everything increasing, this would be another added cost that I will not take on. If this moves forward I will start taking the side streets. The toll road doesn't really save me much time anyway. Hike up the cost and I'm done with it!!!
07/15/26	Jim Flynn	60803	X	X	X						Support	
07/15/26	Joseph Banevicius	60517	X		X		X				Oppose	This is absolutely unacceptable. I already pay 60$ in tolls every 2 weeks. With terrible traffic and road conditions. I don't trust the Illinois transportation department will even receive this money or even use it properly when received. I also thought tolls were going away not being increased by 40%
07/15/26	Bruce Sypniewski	60613	X				X			Stop taxing us to death!	Oppose	As a senior citizen, I live on a fixed income. I can't afford anymore tax hikes. Illinois is already one of the states with the highest taxes. These taxes are a death by a thousand cuts.
07/15/26	John Conte	60175	X				X		X		Oppose	
07/15/26	C Hill	60504	X				X			Fixed toll rates	Oppose	I adamantly oppose an increase in tolls to fund this project. What has happened to all the tolls that we have paid for decades? Tolls increased in the last 2 years without asking for input from the community, 👎 NO INCREASE
07/15/26	Bob Hroma	60516	X				X	X			Oppose	The existing toll fees are too high. I think its ridiculous and a scam for what you want to charge people. How do most other states not have toll roads and Illinois has some of the most expensive toll roads in the country. I will be avoiding them in the future. Shame on Illinois politicians and this agency.

07/15/26	Scott Conant	60586	X				X			Maintained roads	Oppose	I don't trust that the additional funds will be managed properly. Too many over-budget projects currently that are not finished on time. I am not in favor of any increase as the current system of allocating funds is broken.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/15/26	Tim Larsen	60031	X			X	X				Oppose	Hidden is that the tollway users are bailing out the CTA, RTA and Metra by moving funds to them. If it was the opposite it never would have happened. It seems like every project they could think of is included to justify the raise. Also hidden is the raise in tolls tied to inflation. The raise for truckers tolls will be absorbed by all consumers with higher prices. Typical Illinois solutions, just raise taxes with no attempt to cut expenses.
07/15/26	Ellen Cai	60565			X	X	X				Oppose	
07/15/26	Nancy Alex	60184	X				X			I clicked on well maintained road and affordability	Oppose	The Toll Road was supposed to be free after the original bonds were paid. That never happened. Lots of info is provided about increases but not about the budget. I want to see what salaries/benefits/construction budgets are and how much they will increase and how much is currently in budget for repairs or construction. A rate increase every two years is outrageous and 15 years of traffic blockage due to construction is repugnant. The increase for trucks will just put more trucking companies out of business or back onto the local roads.
07/15/26	Susan Howell	60441			X		X		X		Oppose	I would like to see where the money actually goes. How much money does the Illinois State Police get a year and others. You bring in approximately 5/6 million a day. The extra money that is now coming in is going to the city of Chicago and you have to make up for it plus all the new toll ramps going in that never had them before. You been watching all the traffic come and go for years and want that revenue. I knew something was going to happen to Elburn and sure enough a toll ramp came in. Now you want to go further especially with all the increase in truck traffic with the Love gas stations coming in. The two Rock Fall exits, Dixon exit, Rochelle, Rockford etc. Also, increasing the tolls with the inflation just like the gas. I like taking the tollway when visiting my family but remember the old days of getting around without one. I will go back to the old ways and take it when its necessary. These forums are not going to change one thing. You already have everything in line to get it done whether I like it or not.
07/15/26	Wanda	60634			X		X			How this happens is insane when are hurting?	Oppose	Keep hurting the working class.
07/15/26	Pat	46368		X	X				X		Oppose	Please don't increase the prices. Everything else in life increased and just getting from work to home needs to stay the same.
07/15/26	Michael Distasio	60641		X	X	X					Oppose	I understand tolls help pay for maintaining roads and providing services. However, automatic increases violate the tollways boards responsibility to inform constituents when tolls will increase. Instituting a system based on inflation denies citizens their right and voice to a fair toll system. If we are to maintain faith in our democracy, even the local toll increase plays a roll in giving voters a say in our societies outcome. Thank you
07/15/26	Mason	60119	X			X	X				Oppose	Traveling is already expensive. You would be adding more costs to travel while everything else is rising in price. The vehicles that damage the road like delivery vehicles should take on the extra cost. It feels like every time I'm on the tollway my card is being charged to refill my account. It's unbelievable that you would pass the additional cost onto the average driver. I strongly oppose the toll increase.
07/15/26	Anthony Zalduendo	60523				X	X			Increased safety	Oppose	Absolutely no further increases on tolls! That is a ridiculous proposal. First, address the wasteful spending and then you will find excess funds by which to pay for road improvements!! No more taxpayer bailouts!!
07/15/26	CALEB MURRAY	60540				X	X			No increases	Oppose	No more increases. These roads weren't supposed to have a permanent toll and Illinois taxes us enough that other revenue should be reallocated to pay for additional needs.
07/15/26	Preston Yelvington Jr	60021	X						X	MUCH, MUCH LOWER TOLLS!	Oppose	I BELIEVE IT IS UNNECESSARY AND A MONEY GRAB FOR THE CORPORATE KUNTS AT THE TOP!!
07/15/26		60441			X	X	X				Oppose	I already dont like taking the Tollway because of the cost and now its going up. Definitely won't be using the Tollway if that's the case.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/15/26	Linda Clarke	60177	X			X	X				Oppose	While I support the idea of better highways and options I do not support the middleclass paying for it in toll increases. We have occurred enough cost increases in the last 2 yrs. We can not afford more fees to pay for state expenses.
07/15/26	John Kennedy	60515	X		X	X					Support	
07/15/26	Tim Hemstreet	60451			X		X			LESS CONSTRUCTION!!!!!!!!!!	Oppose	Stop the construction!!! Finish what was started then give it a rest for at least 5 years!!! Been sitting in 294 construction for f'ing years!!! And here's a thought, when you have major interchanges having more than 1 lane is necessary!!!!! Do you know how much traffic has to pass through 1 lane! Also, if you are doing bridge work on 355, have crews out doing the work!! Lemont bridge has been rerouted since April and not one worker on the bridge yet!!! Give us drivers a break!!!
07/15/26	Bruce	61084			X		X			Less hassle	Oppose	The tolls are already too expensive so I do not support any increase in tolls. Why should I have to pay for Chicago's problems when I rarely use their roads. Because of the current high toll costs, I try to avoid using the tollway whenever possible.
07/15/26	Deb Stromberg	40601				X	X			Traffic that is not backed up for miles.	Oppose	Please stop the “commute tax.” In the end the consumer is again affected. The commercial vehicle rate hike increase will be passed along through higher groceries, goods, and services. This proposal will cause added financial strain for daily commuters, and discourage people to come to Illinois to work, as well as visit/tourism. It should be written into this project to provide non-toll options for traveling.
07/15/26	Heidi Defendi	61063	X		X		X				Oppose	I strongly oppose the proposed toll increase. Illinois residents are already burdened with high taxes, fees, and an ever-increasing cost of living. At some point, the answer cannot continue to be asking taxpayers and drivers to pay more. The state needs to prioritize responsible spending and better management of existing revenue before imposing another increase on hardworking Illinois residents.
07/15/26	Geno Savegnago	60188	X		X	X					Support	
07/15/26	Jerry Leibfritz	60540	X		X	X					Oppose	
07/15/26	Briana	60119	X		X		X				Oppose	
07/15/26	Chris	60137	X		X					Require long-life pavement to be the standard for major reconstruction and publicly report expected service life, lifecycle cost and maintenance history by corridor before asking drivers to fund another capital program.	Oppose	I oppose the increase as currently proposed. I would reconsider if the Tollway demonstrates measurable congestion relief, makes long-life pavement the standard for major reconstruction, fairly allocates increases among vehicle types, limits new borrowing, and provides transparent, independent reporting of project costs, debt and results.
07/15/26	Tammy	60537	X			X	X				Oppose	Illinois just keeps taking more and more money from its residents, it's ridiculous! We can't afford to pay for ourselves anymore yet we also have to support all the illegal immigrants. Can't wait till I can move out of this state!
07/15/26	Debra	34238	X		X		X				Oppose	.45 per passenger vehicle is too big a jump at one time. .30 is more acceptable. Inflation is hurting Americans too much already. Food prices are ridiculous now too! Thank you.
07/15/26	Craig Sukowski	60046	X			X	X				Oppose	I think it's ridiculous. The toll system was supposed to be a temporary thing. Isn't the fuel tax supposed to pay for our roads? This is going to increase the already heavy burden on the citizens of Illinois.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/15/26	Julie Clack	60430	X	X			X				Oppose	The tolls are already super high. We pay taxes to fix our roads and in Illinois our taxes are already crazy. Taxing us again essentially on the roads we drive on after already paying for our roads is honestly just crap. If the money for infrastructure was used properly from our taxes then toll roads would not be necessary. Tax the people from out of state and make it so those who actually live here and pay for the roads don't have to pay even more. Also tax the trucks more since most of the bad wear and tear and accidents are truck related. You don't maintain the toll roads well enough to demand more money from the Illinois taxpayers.
07/15/26	Loyd Vaughn	60416	X			X	X				Support	
07/15/26	Nancy Ann Webster	75410	X			X	X				Oppose	This is the reason I left Illinois! The tollways were supposed to be paid off a long time ago! Just because you put all of the money that was being paid over the last 60+ years ago into Chicago and no where else! Your Governor is a clear case of getting fat and rich! Illinois is chasing people out of the state because of all the high taxes and tolls. I'm so glad I left 39 years ago! One of the worst states in the Country! Wake up and pay attention and get out and vote. Total disappointment!
07/15/26	Andrew Kidd	60025	X		X		X				Oppose	I do not agree with aligning toll increases to inflation. This would mean tolls would increase unpredictable over time based on average prices, not the true costs for maintaining and improving roads. Toll adjustments should be made in line with the expected costs of completing projects, not based on averages of non-project related costs. I recommend keeping the toll increase as is for the next 5 years and then re-assessing again at that time to determine if tolls need to be further increased or potentially decreased.
07/15/26	Samuel Adams	60156	X			X	X				Oppose	We have the worst roads in the nation. You already collect total annual revenue of $1.79 billion in tolls and you need to raise tolls even more? This money obviously isn't getting reinvested into the roads. This state is corrupt to the core and this is just another prime example.
07/15/26	phil savaglio	60453-1548	X		X		X				Oppose	The price to to high and for how it's been under construction is a joke. And you guy what to add more decades. If there was a vote it would be no
07/15/26	Garbossa	60068				X	X		X		Oppose	Tollways were supposed to be free after original construction loans were paid off. Didn't happen. This new proposal has ongoing construction for over 15 years. Traffic is already horrific and lane closures make it unbearable.
07/15/26	Jeff	61041	X			X	X				Oppose	In effect this is another tax increase on the residents of Illinois who have had state tax increases, fee increases, local tax increases due to the state taking a greater share of the state income tax than was historically done. Illinois needs to control costs or the future is bleak for our state.
07/15/26	James Jordan	60601	X		X		X				Oppose	Higher tolls aren't the solution. Keep roads affordable. No more toll hikes. Families are already stretched thin. Fix spending, not tolls.
07/15/26	Dominic Palandri	60101	X				X			That trucks are paying their fair share	Oppose	You are bleeding us dry. You have less payroll with open tolling. Where is the money going? Is it going to the Democratic choices and not what is fair? More of us will be leaving this state due to taxes (and yes the tollway is a tax).
07/15/26	Elaine Owcarz	60142					X	X	X		Oppose	We were told that when the tollway was paid for by tolls that they would end! People cannot take anymore added expenses especially when going to work. Cut expenses at the top leave the poor working people alone!

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/15/26	Christopher Kraj	60062	X		X		X				Oppose	1) The Illinois Tollway Authority is a duplicative function of the Illinois Dept. of Transportation which leads to more unnecessary/duplicative costs. The two departments should be merged into one; 2) The collection of any tolls is duplicative of the fuel and motor vehicle taxes paid by citizens and therefore adds expense to a collection mechanism that already exists; 3) The roads have recently become more congested, especially with trucks that use all lanes of traffic. There are little if any alternative routes for trucks, thus the selling point of better/quicker roads doesn't hold true. 4) Many of the interchange and off ramp improvements needed are due to the Tollway's own poor designs. One example are the narrow collection lanes that are of an ancient design and purposely put in place to slow traffic. The citizens were forced to pay for such construction and now are forced to pay again to remove due to the short-sighted nature of the designs? 5. Not sure how we can trust any institution that has a history of grift and insider deals to be the financial stewards of citizen's funds. Many other states manage to build well constructed and maintained highways, yet Illinois, particularly in the far north portion of Illinois, is unable to do the same without adding expensive tolls. Why are we also paying the highest rate of motor vehicle taxes in the country if we cannot build and maintain our roads?
07/15/26	Chad Monehan	60538-2033				X	X			Less tolls	Oppose	No. Why pay more just like everything else to do stuff with family. Can't even go to the city without making sure there's toll money every 3 miles. Ridiculous. Illinois is so bad with money. Can't wait to leave.
07/15/26	Karen Busch	60103	X		X	X					Support	
07/15/26	Amelia Korbitz	60462				X	X		X		Oppose	I consider it quite literally "highway robbery".
07/15/26	Kris Ambrose	60031	X	X	X						Oppose	Everytime I turn around, Pritzger increasing taxes. The cost of tolls is already insane
07/15/26	Debora J	60107	X				X			drivers that follow speed limits	Oppose	I am a senior citizen, born and raised in Chicago and it's suburbs. I have had to learn to live with what I have and I believe the tollway needs to do the same. Raising prices on working families in this economy will be devastating.
07/15/26	Donald H Muir, Sr	60185	X		X				X		Support	
07/15/26	Douglas Panozzo	60516	X		X		X				Oppose	While I understand that modest increases might be needed to maintain and improve the roads, the amount proposed is outrageous. $.45 increase. NO WAY!!!! I will definitely reduce my use of the tollway.
07/15/26	Nico perez	60634	X				X			its a highway. you cant do anything about the traffic except have less of a driving population.....	Oppose	its a scam. you are funneling money from this program. 26.5 billion..... yea, nothing will improve except 26 billion vanishing and an increase on the tolls..... you probably get government funding as well.... scammers.
07/15/26		46280	X		X			X			Support	The Illinois Tollway provides a vital, reliable connection throughout Northern Illinois. I support the proposal to support the continued investment in the transportation infrastructure to connect communities and support the regional economy.
07/15/26	Jamie Gutierrez	60526		X	X	X					Oppose	
07/15/26	Steve Arave	60640	X		X	X					Support	
07/15/26	Patricia Swaggerty	60656	X				X		X		Oppose	We're being taxed to death. When these roads were built we were told the tolls would end when the debt was paid off. The increase is wrong in the present economic situation.
07/15/26	LaDonna Paulk	60192	X		X		X				Oppose	Based on my travels throughout the United States, Illinois tolls are already expensive and in locations where citizens must pay to travel to work and other common places! Taxes are already significantly higher in Illinois, causing homeowners to relocate to other states with lower homeowner taxes. Increasing the cost of tolls will put more on these households, causing tax payers to leave. This creates a state of non-tax payers, increasing poverty and other violence related issues. Please reconsider this decision. A 30% increase is extreme and could cause devastating long term effects on our roads and economy!

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/15/26	Kimberly K Jones	60120	X		X		X				Oppose	I'm 65 years old. This rate increase, in some instances, doubles what I pay now. This is unacceptable. It is too much. It is also very concerning that there will be future increases based on the cost of living. It would be a help to seniors if there was a reduced fee for those on a fixed income. The state of Illinois should adhere to better financial fidelity in handling our taxes and public tollways. It is extraordinarily expensive to live in this state. I do not support this huge increase. I hope this submission will be genuinely considered by those making decisions. Thank you for the opportunity to speak to this proposal.
07/15/26	Megan	46032	X		X		X				Neutral	
07/15/26	Shawn VachaShawn Vacha	60451	X			X	X				Oppose	Toll Roads were never meant to be permanent!!! The increasing tolls will be a burden to everyone in Illinois chaise the toll roads! Ask the governor for the money from road tax and gas tax that has continued to increase every year! I say NO to your proposal!!!
07/15/26	Mark Neary	52246	X		X	X					Support	I have always thought the toll roads are pretty good. I recognize that costs continue to rise and feel the increase is appropriate.
07/15/26	Jason	60441			X	X	X				Oppose	Toll rate is too high already
07/15/26	A. Jafari	60660	X		X	X					Support	
07/15/26	Debra Allen	54304	X		X			X			Support	A Minimum Toll should be a dollar for citizens and personal vehicles, second toll two dollars and three dollars for the tolls that are 2.50. I'm over 70 and I try not to take the toll roads anymore because most people drive 15-20 miles over the speed limit. The other problem is your state is always under construction , no matter what. I moved from Michigan to Wisconsin in 1981 and I think almost every time I've gone through there's been construction. So now I go around through the UP and drive over the bridge and it's a much prettier less stressful way to go to see Family. If the roads are good, then the people don't mind paying to drive on them. But they are tired of all the construction to drive-through. And maybe you should think about putting a Fast train train through your state. You'll have to think about that I'm sure. Thank you much for your time.
07/15/26	Martha and Mike Savage	60189	X			X				More fiscally responsible management of existing tollway income!	Oppose	More fiscally responsible management of existing tollway income!
07/15/26	Gayle Garcia	60631	X		X					roadside assistance	Support	feel that the increase is needed to keep the integrity of the existing infrastructure and to also find more ways to improve roadway transportation, with additional exits/entrances as the collar counties become more populated.
07/15/26	Meredith Cole	46290	X			X	X				Support	
07/15/26	Cary Lewandowski	60525	X			X	X				Oppose	Rather than increase tolls for Illinois taxpayers, stop spending/wasting tax dollars on illegal immigrants and use that money to fix our roads. Use some common sense. Pritzker is terrible for Illinois, vote him out of office.
07/15/26	Caryn S	60452	X			X	X				Oppose	We pay enough already. All the construction is doing is making traffic worse, not better. They've been doing construction in the same stretch of 294 that I travel on for over a decade! This is not helpful, causes ridiculous backups every day of the week, including weekends, and there's no end in sight.
07/15/26	Isabel Millard	60163	X				X		X		Oppose	The rate increase proposed to fund all of these wonderful improvements is too excessive, especially at this time when families are struggling with cost of living expenses. For those who work and have to drive a distance to support themselves, these increases are too costly and insensitive to the residents of Illinois.
07/15/26	Glenn	60142				X	X			Affordable	Neutral	This proposal is ridiculous. When the tool started it was only suppose to be for 10yrs! That was what? 50yrs ago?? Can't afford groceries and now you're proposing we all stay home?

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/15/26	Chris	60545	X				X		X		Oppose	Raising the tolls will negatively affect many Illinois's who are already struggling to afford every day things. We shouldn't have to be strained trying to get to work to make money for our family's. The proposed rates would add an extra 500 a year to expenses for me and my family. As both my wife and I have to use the tollway to commute to work.
07/15/26	Brett Dodson	60174	X		X	X					Support	Infrastructure projects create family-supporting careers while delivering long-term benefits for the public. I support the Driving Connections Capital Program because it invests in both workers and the future of Illinois.
07/15/26	Margret Danecker	60067	X			X				More Lanes	Support	I support the Driving Connections Program because it creates jobs, supports apprenticeship opportunities, and helps maintain the infrastructure that keeps Illinois moving.
07/15/26	Victor Giampietro	60047	X				X		X		Oppose	The way that the current Illinois governor wastes tax dollars, I'm not sure the money from increased tolls will be spent wisely.
07/15/26	Michael	60491	X			X	X				Oppose	Stop with the tolls and taxes increases. People already can't survive in this economy.
07/15/26	William Schwarz	60047	X				X			Already too expensive.	Oppose	The tolls were to be 'TEMPORARY". Instead, there are more Tolls, and they have increased in price beyond reason. Now more increases are proposed. Too much overreaching government control of everything is why Illinois is in last place for everything good. I will avoid using the Tollways completely if another increase happens.
07/15/26	Kevin Pratt	60126	X		X		X				Oppose	Stop taxing the residents of this state. 294 has been u see construction for years now and now you want to charge more? Take your tax hike and shove it.
07/15/26		60008					X		X	No tolls	Oppose	Weren't tolls supposed to be temporary
07/15/26	Ryan Srail	60532	X				X			Free use to the roads we already get taxed for	Oppose	We pay enough already quit with the rate hike it's enough
07/15/26	Liju Thomas	60008	X				X			Illinois to stop taking and taking from their residents. You have enough money to give millions to illegal immigrants but nothing for Us citizens.	Oppose	You already tac more than any state where is all the money going. Where is all the money that was raised with Marijuana dispensaries. No one knows. Use that money stop asking us to pay for it. I like how the first question makes you pick well maintained roads as the answer
07/15/26	Gregory P. Danz	60135			X				X	Forced to use it to get some places in Illinois	Oppose	1. It was supposed to be paid for years ago. 2. You show low figures for everything, but all the increases are 50% or more. 3. If, say I use it to go to work for only about four miles is that $.11 a mile. Let's get real and don't need the increase as you have never told anyone how much you collect or how many cars/trucks actually travel on it.
07/15/26	John Smith	60077	X		X		X				Oppose	We all know, without a shadow of a doubt, that you will do NONE of what you propose in this project and will instead squander the money on whatever pet project our KING of a governor wants. Instead, you will pass this and then ask for more and more more down the road. Absolutely none of this will help. Your organization is run by incompetent and corrupt fools who would gladly tax and fee the people of Illinois to death if you could.
07/15/26	Kelly L Whitlock	60005	X				X			Fee free travel	Oppose	These tolls were supposed to be temporary and now you want to raise them, AGAIN? This is absolutely a joke. No wonder people are moving out of Illinois.
07/15/26	Chris Schallmo	60035	X		X		X				Oppose	The overall cost of living and driving in Northern Illinois has become unbearable. Registration Fees, Gas Taxes, and now tolls are increasing without end. And the roads are always under construction! Never enough time to do them right.
07/15/26	Lynda Rundio	60123	X		X		X				Oppose	While I do appreciate well maintained roads, I cannot afford yo spend a fortune just getting across town to my kids school. A smaller increase in tolls would be easier to support.
07/15/26	J Schrem	60142			X		X			Make trucks use right lanes ONLY	Oppose	Your executives make way too much money! Lower the salaries of executives and prevent corruption!
07/15/26	Chris	60431	X		X		X				Oppose	People in IL are stretched as it is, this is terrible for everyone and only a fraction actually goes to IL projects. Find ways to increase revenue without increasing taxes!

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/15/26	Carl Johnson	53511					X		X	Should be a freeway	Oppose	You want to raise tolls on a road that was supposed to be free after the tolls paid for the cost to build it. Funny how most states have freeways after doing the same thing. If you put as much time into managing your budget as you do figuring out ways to screw the people with new taxes. Just maybe you can have freeways.
07/15/26	Nathan H.	49103	X			X	X				Oppose	While I'm in favor of well maintained roads and improved efficiency before expanded capacity, I'm concerned of current costs of fuel already impacting transported goods. While improved transportation routes may decrease response times for goods and services, increased transport costs may add to the already growing strain of many people living paycheck to paycheck. What would be the potential change in usage or customers resulting from a change of pricing? Perhaps that question has already been exhausted and the benefits outweigh the potential costs, but I think it would be worth researching if it hasn't.
07/15/26	Hussam Dandashli	60103			X	X	X				Oppose	I suggest you manage your budget better, like the rest of us have to do.
07/15/26		60061	X			X	X				Oppose	This proposal is a joke. The tollway system was originally designed to be a temporary measure, and now has become another way to squeeze Illinois residents. Stop this madness and start operating within your budget.
07/15/26	Stacy L	60046		X			X			Wish there was no toll	Oppose	First, when toll was first placed it was for temporary. Now instead of removing it you are proposing to increase toll fee?? Current fee is high enough! I reject 100%
07/15/26	Debbie Leoni	60134	X		X		X				Oppose	There's no need to increase tolls when you can hire contractors that are less expensive and get it done quickly. Most of the time I see workers standing around wasting time.
07/15/26	Brian Wells	60506	X				X			Emergency Assistance	Oppose	My answer is NO to the program and NO to increased tolls. The tollway was supposed to become free starting in1973. Illinois is sitting on billions of dollars raised by tolls, but have much of that unused money to the RTA.
07/15/26	Adam R Goldin	60056	X		X		X				Oppose	Tolls were supposed to end in 1973. But the state found a way to keep stealing from the people. When I need to budget, I need to see where I can save to spend elsewhere. The state just passes the cost on to the people. Well, figure it out without us. Make a balanced budget. Stop spending more than the revenue that comes in. And get rid of the tolls as promised!
07/15/26	Jane	60057	X				X		X		Support	When we hear the phrase, increase, prices, always makes the consumer, to be somewhat less understanding but we as costumers, like to have the best in everything, especially in this country, and our country does gives us the best in everything, Jane.
07/15/26	Lynette Pauls	60443	X		X					Less construction	Oppose	There has been construction on the tollways for a long time with an enormous amount of traffic, but no relief for those who pay the tolls.
07/15/26		61008	X			X	X				Oppose	People are hurting financially. Raising prices would mean less money towards groceries and other living expenses. Illinois needs to learn to operate within a budget. Start by cutting out the top salaries and government bloat.
07/15/26	Deb Marshall	49417			X		X			No toll booths!	Neutral	Nothing worse than getting stuck behind someone who doesn't have an updated responder or gets in the wrong lane and we are backed up!! The skyway needs a drive thru system with no stopping!!!
07/15/26		60060	X		X		X				Oppose	
07/15/26	Andrew J Baum	60431	X		X		X				Oppose	We are already the highest taxed state in the USA. Tolls were originally supposed to be used to pay for the tollways and excess money going to schools. I understand there needs to be upkeep, but that should be done with minimal tolls. Tolls already generate hundreds of millions of dollars per year. That money should be invested and used to fix roads, not another increase that rapes hard working citizens. I dont even know why I'm typing this as I'm sure a decision has already been made by JB Pritzker and his cronies.
07/15/26	Gregory Raymond Gamalski	53189	X		X		X				Oppose	Raising each toll by..45 is a little steep of an increase! How about.25? At least make it something people would be willing to pay.
07/15/26	Brian D Grimes	60525				X	X			I avoid our toll system as much as possible	Oppose	
07/15/26	Joe	60103	X				X			0	Oppose	Illinois makes 4 million dollars plus a day from tolls collected. In what insane world do we live in where that is not enough.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/15/26	Nick S	60477				X		X		Because otherwise it takes twice as long to get to work	Oppose	Why are commercial users paying less than non? That doesn't make sense. Also, how about no price hikes as most of the system was built under the promise that the roads would revert to freeways instead of tollways, as originally proposed to get them approved in 1953. "Toll free in '73" indeed. We had enough corruption in this state, we need at least some honest governance. Work for the people, not against us.
07/15/26	Joe	60103	X				X			0	Oppose	This is why people want to leave Illinois. Also who's stealing the money how the amount of money already collected is not enough is ridiculous
07/15/26	Tim Higgins	60631			X		X		X		Oppose	
07/15/26	LILIAN DEL BOCCIO	60448	X		X		X				Oppose	Many states do not have the toll/road expenses that Illinois has. They seem to manage and have beautifully, maintained roads. Illinois appears to not manage its budgets well. This state has gotten out of hand with tolls and other taxes. It is becoming increasingly difficult to afford living in this state.
07/15/26	Debra Sylvester	60491				X	X		X		Oppose	
07/15/26	Ricardo	60176				X	X			No increase	Oppose	People already barely making ends meet. Not the time
07/15/26	Alfred Wiliams	60426	X		X		X				Oppose	First, Thank you for allowing drivers to submit a comment. To my knowledge once the pandemic was over the toll system saved millions of dollars by replacing its physical employment with automated systems. Where has that money gone to? There should already be funds for what ever the project is.... Traffic has gotten worse since 2020 we pay our money and still stuck in stand still traffic.
07/15/26	James V	60521	X		X		X				Oppose	The original idea, sold to the public by Gov. Bill Stratton in 1953, was that tolls would pay off the construction bonds, then the roads would become free, maintained by the gas tax like everything else. The slogan was literally "Toll Free in '73," since the original construction bonds were supposed to be paid off by 1973. In typical Illinois fashion, the toll roads became a self-sustaining piece of the patronage/political machine, not just a financing tool. Now you want to pass the the largest passenger toll hike in its history? How is this possible?? 2024 was the highest-revenue year ever for the tollway authority, at $1.44 billion. Sorry, taxpayers have paid enough. Figure it out with the billions you already made. This state is already outrageously over taxed and underfunded due to waste, graft and corruption. NO THANK YOU.
07/15/26	Phillip Dlouhy	60015	X			X	X				Oppose	I remember when the toll roads were being constructed and were to be toll free after 2-3 decades, That was a great idea but not followed through by the legislature. Now such a large increase is way too much.....and it should not be tied to the rate of inflation.
07/15/26	Sean	60441	X		X		X				Oppose	The tolls are already expensive as it is it's costs me 1,000's of dollars each year to commute to work. As I understand that the tolls are necessary to maintain the roads and for future development there should be a cap on how much these may increase in the coming years. There is so many ways to increase the funding for the roads in other ways it should not fall into the hands of the drivers that utilize these toll roads until there is a cap on how much these may increase tollway can continue increasing the price to drive on them. I believe the heavier increases should fall into the hands of the commercial businesses that over populate our roadways and have a heavier footprint on our roads which lead to more roadway damage. The increases should fall into the hands of the businesses that make millions of dollars hauling across these roadways.
07/15/26	Viktor Duboyski	60060	X				X			Other	Oppose	
07/15/26	Nick S	60477				X		X		Otherwise it's double the time to get to wirk	Oppose	Tollways were only ever approved as a way to recover construction costs. It's time to honor that commitment. Also why would commercial entities pay less in the first place? They do substantially more damage to the road systems and should therefore pay substantially more per toll
07/15/26	howard durkee	60555				X	X			AFFORDABILITY!!!!!!!!!	Oppose	

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/15/26	JASON SCHWARZ	60108	X		X	X					Oppose	The IL tollway is already a burden on the thousands of people who commute. Why are we paying high property taxes and now are faced with increased tolls?
07/15/26	Neal Giuffre	60516	X				X			Construction projects completed on time	Oppose	Why are other counties forced to bail out Cook County with a state-wide toll increase for mismanagement of funding the RTA/CTA?
07/15/26	Jose Villarreal	60448				X	X			Lower rates for personal vehicles and increase commercial rates only.	Oppose	Lower rates for personal vehicles and increase commercial rates only.
07/15/26	John	60108	X		X		X				Oppose	Even states like California do not have tolls on most of their roads in Metro areas. But in Chicagoland, almost every major highway apart from 290 has a toll and it's getting too much and out of hand. With two people in a family driving for work and using these roads, this can be over a thousand dollars over a year! We already pay so much in taxes across sales, income and property taxes. I love Illinois, but costs have to be contained and we need to make Illinois more affordable if we want people to stay here.
07/15/26	Mike Stachowiak	Y			X	X	X				Oppose	Illinois is already one of the highest state tax jurisdictions in this country and we have to pay extra to use the expressways (expressways are misleading). Illinois continues to have some of the worst traffic gridlock in the country in the metro Chicago areas. What exactly has the toll work accomplished in the last 20 years to alleviate it? 290 is still a disaster, 294 North to O'Hare will never be finished. 355 started falling apart a few years after opening. The tollway authority has already proven to be irresponsible with an open checkbook and I'm not in favor of providing more. We need more transparency around costs, deadlines and holding these "leaders" accountable
07/15/26	Monica Sowers	60187	X		X		X				Oppose	I am tired of the ever-increasing tolls. The fees are exorbitant; the roads are a mess. I remember when tolls first started here and were a temporary solution - what a joke! Now, they are one more source of revenue to be used irresponsibly.
07/15/26	Connie greiber	53012	X		X		X				Oppose	Tolls are already high enough and taxes in Illinois are high in everything. I used to live in Illinois for 25 years and moved because increases on taxes and stuff like this is out of control. I drive through Illinois so this is concerning to me.
07/15/26	Mark Bailey	46240	X			X				Safe roads	Support	I support an increase that will be used to maintain the roads.
07/15/26	Rebecca	60188	X			X	X				Oppose	I use the tollway regularlly. I am a single parent and i would like to say that travel time and cost of tolls takes a toll on your pocket book. I leave an hour early and take the expressway. if i take just regular streets it takes longer time. I have to drop off my children earlier and then i am away from them longer periods of time. I understand that we the individuals who use the great tollway systems have to help maintain it but there has to be away from the prices going up. It hurts single parents who are just making it. It makes me at times to just want to give up and not work and live off the system but that is not who i am. Please think of different ways to help pay for the repairs of the expressways. thank you

07/15/26	thomas paine	61061	X				X			affordability and affordability	Neutral	does it matter what i think about this? i know you are going to do it anyhow.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/15/26	GR Nowicki	60181	X				X			If its a toll road, cost	Neutral	First, sarcastically, great job on sending out an announcement email with a schedule of public hearings that are already half finished. Nice tactic. I am not opposed to a.small increase to maintain the roads. But the continued increases over the few years is balcony. Worker salaries are 10 years behind inflation. Every nickel increase in costs has to come from somewhere and the average Joe just doesn't have that money. I know I dont. Basically I think the toll roads in Illinois are pretty reliable and well maintained. I have to use them to get to any of my family's houses so that is often. But I cant afford this stuff. Pick a middle price increase and leave it there for a minimum of 5 years.
07/15/26	Taylor Kyle	60004	X				X			That tolls are beneficial to IL residents.	Oppose	Tolls, that were supposed to be temporary, have now existed in Illinois for years beyond their intended timeline and are seemingly permanent. These increases are harmful to Illinois residents and commuters and the distributor of the collected tolls is poorly stewarding this income during a time where the pockets of families all around the country are being spread beyond capacity.
07/15/26	Matt Thompson	49117	X		X		X				Oppose	
07/15/26	Enrique Ramirez	60610			X	X	X				Oppose	Please inform us the percentage of increase rather than saying it will be approx 45 cents per toll.
07/15/26	Jonathon Hart	60565	X			X				Only two apply	Neutral	
07/15/26	Wendy Howerter	62629	X		X		X				Neutral	Are we guaranteed these funds will go to proposed roads?
07/15/26	Dolores K Starkovich	60510	X	X			X				Oppose	I don't think the money will actually go to improve our roads. Tolls are high now and the roads are not maintained well.
07/15/26	Nicole Sullivan	62563	X		X	X					Support	The increased toll prices will generate revenue help fund expansion of the Tollway's infrastructure to provide a quality travel experience. When I take the Tollway, I expect to have a better driving experience with less traffic congestion and a faster trip than on other roads. I also expect a well-maintained, high quality driving surface and the extra revenue helps fund regular maintenance operations.
07/15/26	Donald J Reily	60083	X				X			Any toll increase should be adjusted to the increase in cost of living.	Oppose	The proposed toll increase is nearly double the current tolls. That is excessive. Long ago the tolls were supposed to end. But they only increase. Potential increases every other year gives you the authority to continue excessive toll fees. Illinois is corrupt. Illinois should bear some or most of the burden for maintaining the IL Toll road. How about IL stop the long standing corruption, fraud, and abuse of taxpayers. That will fund the proposed improvements.
07/15/26	Gary Brewster Jr.	60447	X		X		X				Oppose	The Mafia run state of hell is at it again. Actually balance a budget, you have plenty of revenue. It's always stolen and wasted on nonsense. Stop raising our taxes and stealing our money. Enough is enough. Mafia boss JB needs to go to prison for treason and theft. No new tolls, abolish the tollway theft authority at once. Organized crime at its finest
07/15/26	Wendy Willett	61021	X				X	X			Oppose	The toll way is constantly being resurfaced when not needed, there are so many other roads in illinois in horrible condition. Since the tollway must utilize all funding annually increases seems to be over the top. $1.80 to get in/off in Dixon and DeKalb is insane and has been for over a decade, neither of these exits should even be charges as well outside suburban collar counties and since are the .75¢ on normal exists in suburbs seems more appropriate.
07/15/26	Bridgett Brzezinski	53207	X		X		X				Oppose	Stop increasing the rates. This is getting ridiculous. I am from Chicago and moved to Milwaukee 8 years ago. I can't go "home" to Chicago for a weekend without getting the email, "Your IPASS has replenished" but yet, the highways are still the same. Where does all the money go? I'd like to see improvements with funding from elsewhere. I've traveled the entire country by car yet it's only in our little belt that there's these tolls. Take after other areas and find other funding.
07/15/26	Jay Patel	60018	X		X		X				Oppose	People Are already paying high toll In Illinois. Please No more hike in toll for next 6 years. Thank you 🙏

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/15/26	Bill Horwath	60532	X			X	X				Neutral	Perhaps now is the time for sate and federal funds to be added to the toll collection proceeds. The tollway helps the state and local economies as well as helps with interstate commerce, communication and cooperation. Federal and State funds should be part of the funding.
07/15/26	Debra Fonte	60169			X	X	X				Oppose	
07/15/26	Rachel Scheid	50173	X				X		X		Neutral	I understand having to increase the rates but the conditions of the highways is terrible!
07/15/26	Sean Haneberg	60477	X		X		X				Oppose	Tolls were pitched as temporary. Remove the tolls, allow freedom of movement across state lines. Illegals in Illinois are driving up insurance costs, harming Illinois residents.
07/15/26	Larry White	61054				X	X	X			Oppose	The gas tax is enough to fund our roads. No toll roads should be needed.
07/15/26	Victoria Roe	60525-2217	X		X		X				Oppose	I am totally DONE with all the construction on the tollways. We frequently take the tollway (294) on our way to Michigan. It is a total nightmare! Way too many trucks no matter what time of day you travel. These toll increases would hurt the economy. We already pay too much money in sales tax, gasoline tax and property taxes in Illinois. The dems will surely lose the next election if this passes.
07/15/26	Don trump	60459	X		X		X				Oppose	Get our stolen money from illegal immigrants back and use that to fix the roads. Lying, stealing, cheating, dishonest, corrupt pieces of garbage. Souless thieves.
07/15/26	Kevin Blahnik	60510	X			X	X				Oppose	This is unacceptable. The Illinois Tollway system designed in the late 1950's to be paid in full by 1973 continues to be a burden on Illinois citizens struggling with one of this great nation's highest taxed population. The last increase nearly doubled the cost to travel the Chicago area and continued to increase our burden. This new proposal is absurd. Not only is a 60% increase ridiculous, but the attempt to continue the corruption of hidden automatic taxation increases beginning in 2029 is insane! When will someone in this state stand up and say enough is enough? We cannot tax our way into prosperity. I am willing to fund a small rate hike for a capital campaign, however all capital campaigns I have ever participated in have an end date at which point I am no longer required to contribute to. This proposal is not only continuing in perpetuity, but insanely is allowed to increase annually! Absolutely not! For 25 years I have enjoyed living here and diligently paid the rising taxes, but will eventually add our family to the list of people fleeing the excessive tax burdens of this great state if the status quo's continue to increase the burden on my budget. Respectfully Kevin Blahnik.
07/15/26	James Postweiler	60068	X		X	X					Oppose	Tolls, orginally intended to be temporary have not only elevated in cost, but have become funding sources for other state defecits which is entirely wrong. Now there is a new project with new tolls but no trust. This will undoubtably be a profit center for other shortfalls. We will vote against it given the chance.
07/15/26	Joe Shitt	60452	X		X		X				Oppose	Stop stealing from tax payers. Mob run state. Organized crime ring. Liberal lowlifes. Stop stealing
07/15/26		53211	X		X	X					Oppose	I oppose this rate increase because it harms citizens who need to use the roadways to make a living.
07/15/26	Brian Erne	46032			X		X			Less construction	Oppose	I cannot believe this state is once again raising fees/taxes/tolls. The State of Illinois proves time and time again that it is the most financially incompetent of all 50 states. Either that or by default you'd be the largest perpetrator of fraud and waste. How is it that this state is continuously on the verge of bankruptcy, and does so with one of the highest overall tax burdens in the country put upon its residents? Until this state gets its spending and budget issues handled, how could anybody support yet another increase of another fee? You can create all the 'rationale' you'd like but it clearly hasn't worked out in my lifetime. I am glad that our temporary travels to Illinois will soon no longer be part of our lives. Until then if it isn't clear, our household vehemently opposes the massive toll increases you're proposing.
07/15/26	Gary Wohler	60047	X		X		X				Support	
07/15/26	Patricia McCloskey	60410	X				X		X		Oppose	I-80 and parts of I-55 are horrible. We pay enough and should have better roads as it is.
07/15/26	JoAnne Quinn	60026	X		X		X				Oppose	Find another way to fund upgrades. The original tolls were promised to be temporary tolls. Its expensive enough as is. I have reduced my use of the tollways wherever possible due to the cost.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/15/26	Brian	60585	X		X		X				Oppose	There is no mention of how these funds will truly be secured and used for bettering our roads. The funds that have been collected up until now have been robbed by the governor and used to cover other large shortfalls in other funding. This is not acceptable and the funds collected from tolls should be used to fund road repairs/maintenance not other shortfalls in other programs unrelated to our roadways. Definitely do NOT support this increase.
07/15/26	Scott K.	60657				X	X	X			Oppose	I know you probably don't put much weight into what many of us think, but decisions like this are only going to accelerate people leaving Illinois — myself included. The cost of living here is already becoming unaffordable, and the focus should be on finding ways to reduce expenses, not continuing to raise them. 2028 is my target date to leave this state, but this will only aid to expedite that. Thank you.
07/15/26	Natalie L	60516-1833	X		X		X				Oppose	We are already taxed to the teeth here in Illinois. People can't afford groceries or gas or even a house. Please just make better use of the money you have coming in now . So much of it is being wasted.
07/15/26	Greg Gryzik	60103				X	X			Quick pot hole repair	Oppose	A close to a 50% increase in a time of rising prices due to a clueless president is unacceptable. The toll way is in great condition as is. Many of these proposed "improvements " are unnecessary and typical tax and spend mentally to justify people's jobs. The toll way is in great financial condition and does not need to burden taxpayers and more importantly truck drivers with such a large increase that will cost everyone in the cost of products being delivered. Scale back the increases to a reasonable amount for what is truly needed and not wanted.
07/15/26	Tim Montague	60441					X	X		Tollway Fiscal Mismanagement	Oppose	THIS IS INSANE. Illinoisans already pay almost the highest taxes on EVERYTHING already, and you want to charge us more for the same thing we already have?!?! I OPPOSE ANY INCREASE IN TOLLS.
07/15/26	Vivian Bet	60031	X				X		X		Oppose	I am writing to formally voice my strong opposition to the proposed toll rate increase. As a daily commuter who relies on this route to get to work, this increase represents a significant and unfair financial burden. With the cost of living increasing dramatically, an increase in my daily commute is simply unsustainable. For many residents in our community, this toll road is not a luxury- it is the only viable route to safely get us to work/school. Raising these rates once again disproportionately harms working class families and commuters who have no alternative public transit options. I urge you to reject this rate hike and instead look for alternative budget solutions that do not place the financial burden directly on the backs of hardworking residents. Thank you
07/15/26		60025	X			X	X				Oppose	The proposed increase in tolls is excessive. Over 50% increase is egregious.
07/15/26	Mia Stein-Kodzik	53089					X	X	X		Oppose	The tollway was only supposed to last for 2 years...HA!! You receive plenty of monies already and they're not always used for road improvement. NO MORE INCREASES!!
07/15/26	Gina	60068				X	X			Traffic enforcement	Oppose	Stop draining us of every dollar you can get your hands on! Our governor is a billionaire who has no idea what's it like to work for a living to feed our families. Let him pay for the improvements and while you're at put some state troopers on the road to enforce the dangerous driving.stop stealing from the tax payers!
07/15/26	Susan Hennig	60156					X	X		Less construction	Oppose	State unable to manage anything! Will still have bad roads as all repairs never last very long. Another reason to get money to put in everyone's pocket.
07/15/26		60026		X	X		X				Oppose	I will no longer use the toll system if the rates increase!
07/15/26		60115		X			X		X		Support	
07/15/26	Denise Glascott	60068	X			X	X				Oppose	That is an alarming increase!!! .45 cents each toll? Thats ridiculous. I pay 2 tolls 1 way to get to work as a teacher (who doesn't make much money). Thats $9 MORE on top of what I already pay.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/15/26	Patricia Carrigan	60148	X		X					No more construction that holds up everybody for years. You already tax us to the bazillion allow us to be able to travel where we wanna go stop raising rates, taxes, and everything else and get responsible people and companies to be able to create roads that are sustainable.	Oppose	Stop making it impossible to get from .8 to point B in the state of Illinois especially on two 94 90, 55,80 and 88. Pritzker sucks as a governor and our roads need to be sustainable and quit messing around with companies that only fill the pockets of politicians. This is bullshit.
07/15/26	Don L	60516	X		X		X				Support	NO. NO. NO. NO !
07/15/26	Wil	60187	X				X		X		Oppose	People are already pinching every penny harder than ever and you want to make it more expensive to commute? To hell with that.
07/15/26		60137	X	X		X					Support	Tollway roads are excellent roads!
07/15/26		60134	X		X	X					Support	To keep the roads in the best condition, there must be a cost. Compare the Tollway roads to IDOT roads and the Tollway roads are far superior. Tolls are paid by the users of the roads, unlike gas taxes that are paid by everyone regardless of what roads they use.
07/15/26	Cindy	49408			X	X	X				Oppose	When coming to Illinois we will find alternate roads where we are not paying tolls. It may take a little longer but we end up stuck in traffic on the tollway anyways. My sister comes from Wisconsin to Michigan and never pays a toll by going non tollway roads. It only takes her an additional 10 minutes. We will do the same. Glad we moved out of Illinois! Best move ever!
07/15/26	Carol Ng	60062-3941	X				X			Where it goes - potentially shorter drive times	Oppose	It's already too expensive and is not doing anything to lessen traffic. People take it when it's the fastest route. It's ALWAYS under construction and usually a nightmare to drive. It's $15 to go on the Skyway!! Ridiculous! It's time to recognize it's a required urban thoroughfare - not a tollway across the state.
07/15/26	Robert Hennessy	60540	X			X	X				Oppose	With the increase in license plate fees(triple from $48 to $151), Gas tax increase, (doubled and increase EVERY YEAR) There is No NEED to increase tolls. The funds are there. Just STOP STEALING the money to pay for METRA, Raises or diverting to general fund.
07/15/26	Tim Baker	60502	X		X		X				Oppose	The Illinois State Toll Highway Authority has a long and well documented history of corruption, political patronage, and operational infficiencies. Use the funds you already have more wisely.
07/15/26	Micah Sage	60148			X	X	X				Oppose	Life is getting less affordable by the minute. Increasing tolls by 45-cents each is another example. Please do NOT increase tolls.
07/15/26	Dawn Sperry Gribben	61006					X		X	Thiefs	Oppose	The tollway was a temporary fix and should have been paid off. Where did the over pay laments go??? Funding the government. Other states don't do this. Highway Robbery literally.

07/15/26	Jeff Young	60012	X			X		X			Support	The changes that have been made to the system over the last several years have had a profound positive impact on so many things personally for me and for the region. Having traveling other tolling systems in the US and overseas, it is excellent to see what the Illinois Tollway has done for innovation based on the mileage rate collected. We are truly getting our monies worth. Keep innovating and making our system reliable and safe for all. Thank you.
07/15/26	Laura Engel	60187	X				X			When will the ramp be completed from 294 to 88 West? this is a cluser F****!	Oppose	Why would Il approve a road tax increase that hurts low income families in these dire times of inflation!

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/15/26	GEDIMINAS VYSNIAUSKAS	60174	X		X		X				Oppose	Illinois tolls have become completely unacceptable. Prices were already high, and now they're increasing again, even though the toll system has collected more than enough money over the years to maintain existing roads and build new ones. I moved here in 2003, and the highways around Chicago have been under construction nonstop ever since. At this point, it doesn't look like real infrastructure improvement — it looks more like a never ending project designed to keep money flowing rather than fixing anything. The constant rate hikes simply don't match the results drivers are getting.
07/15/26	Mary	60543	X		X				X		Support	All for better traffic, roads and creating jobs
07/15/26	Lisa Meyer	60510			X		X			No city driving	Oppose	The state of Illinois already over taxes people on everything. People will not be using the tollway as much because of how much it already costs to use. Commercial vehicles pay upwards of $100 or more a day just to work and use the tollway. You will continue to tax and price increase hard working people right out of business. The money that is raked in now should be more than sufficient for tollway repairs and adding ramps. There is work that has been ongoing for decades, never seems to finish. Always traffic jams because of construction. People can't afford to live or work in this state because everything is so expensive. Why don't a lot of other states charge to use their own roads?? Illinois officials can't manage money at all so the people always have to pick up the tab. Money is wasted in this state and the tollway was supposed to be a temporary thing just like the lottery. Where does all this money go????? Now you want more? NO
07/15/26	HARVIND K SINGH	60062	X			X			X		Support	Opening / Introduction Good Morning. My name is Harvind Singh, and I am here today representing ACEC Illinois, the American Council of Engineering Companies of Illinois. ACEC Illinois represents more than 220 engineering firms across the state. Our member firms help plan, design and deliver the roads, bridges, interchanges, drainage systems and transportation infrastructure Illinois residents and businesses rely on every day. I am also here as CEO/President with SINGH & Associates a Women Owned Minority Business, where our team works on transportation design project across the state. Support for Driving Connections ACEC Illinois supports the Illinois Tollway's proposed Driving Connections capital program. Driving Connections is a 15-year, $26.5 billion investment in the Tollway system serving northeastern Illinois and the broader regional economy. The program focuses on: Strengthening the existing Tollway system Reducing congestion Improving safety Expanding regional access Supporting economic growth Integrating new technology into the Tollway system Personal / Quality-of-Life Message While I work in the engineering industry, I want to speak for a moment not as an engineer, but as an Illinois resident who uses the Tollway system. Like many, I have had more than a few days where the commute felt longer than the event I was driving to. Infrastructure investment is not abstract. It affects people's lives every day. A better transportation system means: Parents get home sooner Students and workers travel more safely Commutes become more reliable Businesses can move goods and services more efficiently Safety and Reliability Driving Connections is also about safety and reliability and integrating new technologies. Stronger bridges, better pavement, safer interchanges, improved drainage and smarter traffic management all help protect the traveling public. These investments also prepare the Tollway system for future demand. As engineers, we know it is far better to invest before problems become emergencies. It takes money to be innovative and ahead of the curve Long-term capital planning helps: Reduce disruption Avoid higher future costs Improve reliability Keep this critical system moving safely Economic Growth Tollway investments have already produced measurable economic results. Following the Jane Addams Memorial Tollway improvements, the I-90 study area saw: An additional $650 million increase in assessed value 6.4 million square feet of new development More than 3.3 million square feet of industrial development More than 350,000 square feet of office development Over 40 retail developments More than 1,250 multifamily units since 2018 That is what modern infrastructure can unlock: Stronger commercial corridors Greater private investment

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/15/26		60187			X	X	X				Oppose	I'm sure enough waste can be cut before subjecting the traveling public to yet another tax in Illinois.
07/15/26	John Leatherman	61114	X				X			Low cost	Oppose	
07/15/26	Marilyn Butler	60153	X				X		X		Oppose	Why not gradually increase from $0.10 a year to reach the $0.45
07/15/26	Jim	60435			X		X			Less construction	Oppose	The tolls were supposed to be "temporary". Now they are another way of taxation. We don't need more construction. How about 10yrs without construction for once?
07/15/26	Mark Hyde	60554				X	X		X		Neutral	Requesting that seniors and veterans get a good discount. The same generation of seniors in Illinois expected to see, but never did, regarding the agreement of the abolishment of tolls. Back in the year that we, as tax -payers paid off the bonds in agreement that the roads would solely would be under the jurisdiction of the highway tax system. This is what we agreed to.
07/15/26	Jim	53545	X				X			Not having to pay to drive on a public road	Oppose	Where is all the toll money going now? Tolls should be managed by a non for profit organization
07/15/26	William E Kruse	28792	X				X		X		Support	Thanks from Hendersonville,NC
07/15/26		60005	X		X	X					Oppose	
07/15/26	Lisa Karlesky	60631	X			X	X				Oppose	Something has got to give! We are taxed to death in this state. Raising tolls does not help. Sadly, we are seriously considering leaving the state of Illinois. We definitely won't be able to retire here. Initially, tolls were supposed to go away once the roads were paid for. That never happened!!
07/15/26	kris p olson	60411	X			X	X				Oppose	
07/15/26	Grace Gurak	60193	X	X			X				Oppose	Illinois already has the most expensive tolls in the Midwest. Wisconsin has great highways with NO tolls
07/15/26	Mariella Solis	60193					X		X	No increase in tollway	Oppose	We are getting nickel and dimed everywhere! This is NOT NEEDED!!!
07/15/26	Richard W Janes	60118	X		X		X				Oppose	I believe the proposed rate increase is too high. The increase should be half the amount requested.
07/15/26	Brino	60415		X		X		X			Oppose	Supposed to be free but corrupt politicians turned it again as toll roads
07/15/26	David Firszt	60504					X		X	I don't want to choose 3. It skews the survey to the benefit of the state.	Oppose	Absolutely not! It will drive up the cost of all goods for both Illinois and all other states. Higher tolls means higher cost of goods. Just how stupid is this state's government!
07/15/26	Alexandra	60634	X		X		X				Oppose	It costs a lot already to ride to and from necessary locations without us seeing where this toll money goes
07/15/26	Jane Doe	60423	X				X			The toll roads have NEVER gone away ... I'll take less trips	Oppose	Tolls roads have been in place FOREVER. Use to go to the city/shopping ... but it's a scam, the roads aren't maintained but the tolls have been in place as long as I've been born! Where has ALL THE MONEY GONE?! And how are there NOT RESERVES?!
07/15/26	Guenter	60641	X				X		X		Oppose	Unless you can guarantee that corporations at least offer pay raises that meet inflation, I can't keep affording to cover costs. The poor budgeting in the government's office is not my problem and I shouldn't keep getting nickel and dimed...
07/15/26	Thomas	60177	X				X			QUIT WASTING MONEY	Oppose	I STRONGLY OPPOSE A RATE INCREASE. HAD THE STATE MAINTAINED THE ROADS PROPERLY, WITHOUT NUMEROUS COST OVER-RUNS AND DELAYS, WE SHOULDN'T BE FACING MORE MONEY COMING OUT OF OUR POCKETS. I, AS A TAXPAYING CITIZEN, AND REGISTETED VOTER, I DEMAND YOU STOP WITH ANY ADDITIONAL RATE INCREASES. YOU'VE ALREADY INCREASED THE STATE GAS TAX, SEVERAL TIMES, WHICH BRINGS IN BILLIONS OF DOLLARS ANNUALLY (YES, I PAY ATTENTION!) WHAT HAVE YOU DONE WITH THAT MONEY? I BARELY SEEN ANY IMPROVEMENTS AT ALL. JUST YEARS LONG ROAD CONSTRUCTION THAT NEVER SEEMS TO END. I AM SICK AND TIRED OF HAVING MY HARD EARNED MONEY BEING TAKEN AWAY YEAR AFTER YEAR. NO MORE RATE INCREASES! SINCERELY, A VERY DISGRUNTLED CITIZEN
07/15/26	Amy Langer	60031	X		X		X				Oppose	I feel the state needs to look at allocation of monies for infrastructure to ensure no waste in collected revenue of our ridiculously high property taxes. This is a big jump in iPass usage costs.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/15/26	George	60540	X		X	X					Oppose	Stop stealing money and optimize spending.
07/15/26		60026	X		X		X				Oppose	Toll free in 73! Does anyone remember that quote?
07/15/26	Michael P	60050	X				X			No tolls	Oppose	I thought this toll program was supposed to be over years ago. It seems Illinois uses the money collected for everything and still has money issues for the state. The toll system is a joke.
07/15/26	Larry Laube	60007					X	X		Increased revenue from 2012 - 2025: 922 Million --- 1.65 Billion and your asking for another toll increase because " Illinois has the lowest tolls in the nation? " Pritzker has no CLUE!	Oppose	
07/15/26	Kerry Clark	60115	X			X	X				Oppose	Please don’t raise the rates right now. Too many people are struggling
07/15/26	heather	60067	X		X		X				Neutral	
07/15/26	Diana Forbes	60542	X	X	X						Support	I STRONGLY support this program
07/15/26		60192			X	X	X				Oppose	We don't need more of our hard earned money going to the government. You already make over a billion dollars on tolls and fees per year, maybe you can budget properly for once and figure things out without coming for more taxpayer money.
07/15/26	Melissa Cackler	60014	X		X		X				Oppose	Stop increasing everything. Taxes, cost of living everything keeps going up. This is why everyone is leaving Illinois.
07/15/26	Shannon Burton	60102	X	X	X						Support	
07/15/26	Brian Mason	61301	X	X		X					Support	I support this 100%!!! We have some of the busiest highways in the country and they need to be maintained to improve drive times and safety.
07/15/26	Chris Wendt	61008	X		X	X					Neutral	
07/15/26	Dave McDonald	60451-2163			X	X	X				Oppose	Stop taxing IL residents ! Tax non residents!
07/15/26	Jeffrey Witthoft	60016	X		X	X					Support	Illinois needs less traffic and better road maintenance.
07/15/26	Susan Lange	60545	X		X		X				Oppose	You're joking right? With the amount of taxes we pay in this state, this should not even be necessary. The expressways are a nightmare and 294 has been under construction since I got my driver's license 40 years ago! Every single time I drive on 80, it's under some type of construction. The bridge over 80/55 was supposedly a death trap in 2020 during the Covid fiasco yet I've heard nothing about it since everyone stopped obeying the Covid crap. I avoid the toll roads because of the expense, traffic and nonstop construction that just seems to never accomplish anything. This state is a money hog and just keeps bleeding its citizens dry with NOTHING to show for it. 10000% oppose another toll or tax hike. That money is somewhere. Learn to budget better.
07/15/26	Toni	60164				X	X			Not paying so many tolls	Oppose	I pay enough a week in tolls. I don’t want to pay even more. With gas and tolls it cost me $250 a month or more to just get to work every day.
07/15/26		60103	X	X		X					Neutral	
07/15/26	Craig Wine	60559	X		X		X				Oppose	I'm a part-time Uber rideshare driver that paid the State of Illinois Tollway Dept. over $875 in tolls for 2025 and your asking for another $262 increase in 2027?
07/15/26	Jane Radermacher	60192	X	X			X				Support	
07/15/26	Jason	60506			X	X	X				Oppose	We pay enough as it is and the roads are no better. You have mismanaged and over paid for years and now you've come begging for a handout. Find a new way to pay for the necessary repairs. Drivers pay for their own roads and are also taxed for the CTA. And now we have to share roads with bikes and e bikes.
07/15/26	Jim	60050		X	X		X				Neutral	In these times it’s hard to justify with this horrible economy 1 don’t use it that much but feel for the people who use it daily piss poor timing

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/15/26	Harsh Patel	60108	X	X			X				Oppose	More Connections so City people can Commute faster on Highways and Driver safer everyday and Most importantly be able to afford Tolls. Illinois tollways has the best system when it comes to affordability
07/15/26	Mark Boerner	29835	X			X	X				Oppose	Raising the passenger car tolls by $.45 more decrease traffic on the toll road which would nullify any proposed increases that you might have. A little softer increase might be a better proposal even though it might take a little more time to collect what you need.
07/15/26	Wanona Wellspring Ceisel	62089					X		X	Far left lane for faster traffic and NO semi's	Oppose	Life is hard and increasingly a necessary road toll makes it that much harder. 30% is way too much. I would support a 10% increase over three years; just like the 3% cost of living increase with social security that isn't really col at all. My benefits are not as beneficial!
07/15/26	Lisa Reda	60305	X				X			nothing else	Oppose	Ridiculous.
07/15/26	Michael Paine	60005	X	X		X					Support	
07/15/26	Cary Boudas	60173	X			X	X				Oppose	I realize the Tollway needs money to operate. But I would like to see ways the commission could be more efficient with the money they already are getting. 45 cent increase is too high
07/15/26	Wendy Gruber	60403-0742			X		X			Affordability	Oppose	This is in no way an affordable increase. We pay so much already and traffic NEVER gets better. Maybe find a way to better use the money you already take from Illinois drivers.
07/15/26	giulio orlando	60108	X	X	X						Support	
07/15/26	Barbara A Bost	60169	X		X	X					Neutral	45 cent increase is a LOT! Can't it be done a smaller amount gradually?
07/15/26	John Zaba	60194	X		X		X				Oppose	
07/15/26	John Zinga	60169	X			X	X				Oppose	I must oppose this. The tollways original design and charges were to support the building of it and maintenance. The money is not going all to the tollway. If I'm wrong .. prove it. Lastly , Illinois will increase prices across every item purchased due to trucking costs. I believe this is a poor attempt to make more money for a poorly run administration that has not been putting Illinois residents first. This is just another way for the governor to allow news to report they due to our President prices are still rising. Simply put , there is enough money made from tolls to keep the infrastructure in tact. Stop using my money to fund NON Tollway initiatives.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/15/26	Javed A Sattar	60712	X				X			Illinois residents are already burdened by some of the highest taxes in the nation, and Cook County's property taxes place an especially heavy strain on homeowners and working families. The solution to our fiscal challenges is not endless tax hikes, higher tolls, and more fees that punish hardworking people who are already struggling with rising costs. Instead of asking taxpayers to carry an even greater burden, state and local leaders must focus on eliminating corruption, strengthening accountability, improving transparency, and delivering good governance. Taxpayers	Oppose	NO more direct or indirect tax hike for cook (Crook) county residence.
07/15/26	Charles Hoffmann	60490					X		X	No construction	Oppose	Gas taxes are high enough in IL. We don't need this to. Whatever happened to sunsetting the tollways anyway? That was the original plan when tollways were first introduced in IL. I'm sick of driving through constant construction work on 294. Your just creating worse traffic problems.
07/15/26	John L. Martoccio	60041	X		X		X				Oppose	You sent out the notices about a Lake County meeting 2 days after the meeting ! Nice going Illinois. This is why we are moving to Florida.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/15/26	Zachary Knudsen	60586			X	X				None of these choices apply, but I am being forced to select 3 anyway. This is incredibly scummy to force me to choose only positive options to make my voice heard. I chose travel time and traffic, but neither of those apply. I find that side road traffic often flows better and travels faster than the tollways.	Oppose	The stated goal for the new toll increase is to pay for the new roads. The truth is that the roads will already be paid for by taxpayers who will then be taxed again to use what rightfully belongs to them. I do not support this.
07/15/26	Sean Hammer	61088					X	X		REDUCTION IN TOLL PRICES	Oppose	DO NOT RAISE THE RATES! WHAT YOU CHARGE IS ALREADY RIDICULOUS AND WAY MORE THAN OTHER STATES PAY! WE'RE DONE PAYING TOLLS FOR YOU TO USE THE MONEY NOT ON OUR ROADS!
07/15/26	David Wilson	60510	X						X	Rough connections between flat roadway and bridge and same on the opposite end of the bridge. All bridges are slightly arced in the middle. I drive a pickup truck towing a 40 foot fifth wheel trailer. I cringe when approaching any bridge from flat road to the low point of the arc over the arc to the low point where it meets the flat road again. Both ends dips at that meeting point and rattles my teeth they’re so severe.	Support	Spend my money to fix the transitions between road to bridge and back bridge to road. Thanks Dave
07/15/26	Valerie Wunderlich	60441	X		X		X				Oppose	stop raising the tolls
07/15/26	LM	60623		X			X		X		Oppose	
07/15/26	Gregory Louis Ohlendorf	61310	X	X			X				Neutral	Thank you.
07/15/26	Stefan cruz	60612	X	X				X			Support	As a Local 150 member I know the importance of maintaining safe roads and improving mobility.
07/15/26	David	60083	X		X		X				Oppose	Shouldn't you be looking into ending tolls since the roads have already been paid off instead of increasing tolls and looking for more business opportunities which has nothing to do with the roads?

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/15/26	Janna Williamson	60185	X			X	X				Oppose	Illinois is notorious for wasting tax payer money. Please find a different way to fund roads projects.
07/15/26	Gail L Robison	53073-3912	X				X		X		Oppose	I think the rate you are proposing is excessive. if this goes into effect I will consider alternative routes for travel!!!
07/15/26	Everie	60804	X		X		X				Oppose	We should not have to be paying more for the roads everything is so expensive as it is already this would just be more weight on the publics shoulders. So just keep things as they are.
07/15/26	Gina Gabriel	60453	X		X		X				Oppose	The tolls were only supposed to be temporary. However, they have stayed AND continue to increase while roads aren't always maintained. I oppose this raise because I am not convinced the raise will be used properly.
07/15/26	Nicole Kennedy	60448	X		X		X				Oppose	I355 was never meant to remain a tollway and yet, here we are still paying tolls to travel on it. My typical commute route costs $2.85, but the proposed increase would bring that cost to $4.55 which is completely unreasonable. With cost of living increases, on top of inflation rates, and employers not keeping up with wage increases to offset those costs - the public cannot afford to continue covering the gap...that includes tollway increases.
07/15/26	Elton D Eenigenburg	60491	X		X	X					Neutral	I don't want to see Tollway revenue siphoned off to fund the RTA, CTA, Pace, etc....it needs to be spent to maintain the Tollway. Any other use of the tolls is deceiving and a dis-service to those who pay them.
07/15/26		60656	X		X		X				Oppose	Do NOT raise the toll prices. Tolls are far too expensive. If the rates are increased, I will take side streets. THEY SHOULD BE FREE!
07/15/26	Henry Murphy	60016-2553	X				X		X		Oppose	The rates are already to high!
07/15/26	Denise VanFleet	53511	X				X	X			Oppose	A Forty-five cent per toll increase for personal cars is very high for individuals to manage especially in current times with food prices and gasoline prices being exceptionally high. Additionally, it puzzles me why commercial vehicles have a lower projected toll increase when personal incomes are considerably less than commercial profits. Please reconsider and reduce the personal car toll increase.
07/15/26	Erin M Worthington	60031	X				X			Be respectful of those living along the tollway	Oppose	I live along the tollway in Gurnee. No quiet pavement. No sound wall. The tollway has gotten wider and louder. Why does Gurnee get nothing? How convenient that we get notified of our public hearing 2 days after it occurred.
07/15/26	Baker	60515	X		X	X					Oppose	Please do not increase tolls. We as the users of the IL tollway system never even get to enjoy what we are "paying" for. You increase tolls and tear the highways up creating MORE traffic and unpredictable travel times. There is MORE trash and debris on the road than ever. We already pay too much and get NOTHING for it. Fix what you have started and prove that you deserve more money, not just take it
07/15/26	Jessica	60002	X		X		X				Oppose	There is construction every summer on the toll roads that cause heavy traffic, just to fix and "maintain" roads, but then winter comes and the traffic is bad because of the snow and salt trucks that damage the roads you just fixed, so that they have to have construction blocking traffic again spring into summer... it is a never ending vicious cycle. Illinois residents rely on these roadways heavily for commuting and we will be the ones paying >80% of the tollway increases - regardless of it not being funded federally or locally - it is the PEOPLE OF ILLINOIS paying the price. I spend $80/month to take the tollways to work in my OWN state - that is unacceptable. There should be a discount for low income families, or Illinois residents that use the tollway regularly like myself. And others you are from out of state or do not use it regularly pay more. I oppose the toll increase for local Illinois residents.
07/15/26	Piotr Kondratowicz	60707					X		X	Lower price on tollways	Oppose	Stop corruption and don't waist money on road workers who is just seating in trucks on side of roads instead working , just sleeping on job side, there's gonna be big savings, check if they work at all during work hours
07/15/26	John Krstevski	46307	X		X	X					Neutral	

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/15/26	Ronald Hein	60510	X			X	X				Oppose	Considering the past issues with the tollway authority concerning cost overruns, design mistakes and alleged corruption I cannot support a rate increase of almost double the current rate. Until steps are taken to ensure these types of problems won't occur again a more reasonable rate increase is the only one which should be considered.
07/15/26	Maria	60445				X	X			Good flow	Oppose	It costs me a fortune to commute. Between gas and tolls and time spent in car. I cannot pay more for the privilege to drive a north/south highway that is not in downtown or on the west edge of suburbia. Tolls were suppose to TEMPORARY. I understand they help with continued maintenance and widening but I'm not getting increases at the same rate as the government wants to keep taxing me thru things like tolls.
07/15/26	Curtis Burdick	60039	X				X			KOWER TOLLS!	Oppose	The tollway system was sold to public based on being paid for and tolls elongated after 25 years. Illinois income tax is supposed to also pay for maintenance of roads! You cannot constantly increase taxes on the middle class and the poor to pay for something we are already paying taxes for ! Where is all the gasoline taxes going? This is reprehensible and people are fed up with constant increases in taxes when they are desperately trying to pay for food and shelter !!!
07/15/26	John McGraw	60062	X				X			o speed limit, ticket drivers obstructing traffic by not travel at the rate of speed around them!.	Oppose	increase is excessive and tying it to CPI is worse, rate increase should be tied to 25% of the annual Social Security rate raise
07/15/26	Nick	46404			X	X	X				Oppose	
07/15/26	Michael Kirkley	61108	X		X		X				Oppose	I did a calculation, and it increased my cost to O'Hare by 64%. How is that fair and allowed? This is too much all at once, and it doesn't appear that previous monies have been properly used. We have fewer tool booths and fewer employees, yet the cost continues to increase. The increase is a ridiculous amount when there are also allowable increases in the future 5 years.
07/15/26	Alphonso M Gwin Jr	60502	X		X				X		Oppose	I though that the Illinois Lottery increases and lottery one were to fund these proposals? You constantly keep coming back for more and you're going to force exodus of residents due to taxation! STOP THE TAXING AND LIVE UP TO YOUR COMMITMENTS.
07/15/26	Peter Amling	60660		X				X	X		Oppose	I am not in favor of any widening projects.
07/15/26	Steve Dolgin	60148			X		X			Reduction in tolls. Really only 2 you frauds	Oppose	You frauds my family strongly oppose the financial burden you want to cripple Illinois families and commerce with.
07/15/26	Francisco Miyares, Sr.	61114	X		X		X				Oppose	I am very concerned about this very steep increase of our tolls and especially where the money is going / if this money is going to be used to also help offset this failed governor's project costs to help "his people" (i.e., illegal voter fraud base)!
07/15/26	Pranav	60482	X				X	X			Oppose	45 cent increase a lot at once
07/15/26	Edwin	60631					X		X	I strongly oppose raising toll rates.	Oppose	As someone who works in the Chicago area, I strongly oppose raising toll rates. Higher tolls place an additional financial burden on working families who rely on these highways every day to get to work. If tolls continue to increase, I'll have to avoid using the tollway whenever possible. Please consider the impact on the working class.
07/15/26	Kimberly A Tupper	60517				X	X			safety	Oppose	Every increase has included ridiculous salary increases for senior management who are overpaid already. No to this increase as there is no way you can fix the ridiculous drive times during rush hour. Start adding toll booths to the entrance ramps in Naperville and you will more than make up enough money for any future projects.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/15/26	Dave Boerschel	53511	X			X	X				Oppose	These are federal highways - where is the Federal Road funding that should ALSO be inputs to this need? We need details on that. I agree that there should be some level of increase but these are WAY too high one time increases and absolutely not to be tied to any inflation metric on a 2 year basis. Seeking approval for any rate increases must be preserved versus instituting an automatic process.
07/15/26	Catherine Frankowski	60707	X		X		X				Oppose	I do not like this increase at all. I will avoid driving on the tollway. This is not right.
07/15/26	Joseph Dalke	60188	X				X		X		Oppose	The toll money is suppose to go exclusively to the toll roads, NOT FUNDING RAPID. I have no problem with a small increase if necessary to maintain and rebuild roads, but the proposed amount is excessive for the average person.
07/15/26	Nicole Murphy	60133	X		X	X					Oppose	The tollway system was supposed to be temporary and yet the rates continue to increase and taxes are added to gas to support roads and infrastructure and yet we are not getting what was promised and the toll roads still exist. Levels of management and administration should be addressed before a greater burden is placed on taxpayers and drivers. It is absurd that congestion and road conditions get worse every year and yet we are paying more and more and more.
07/15/26	Kim Bozzetti	60462	X			X	X				Oppose	Enough is enough! People are tired of being taxed to death
07/15/26	Ryan Ryan McLaughlin	60103	X			X	X				Oppose	This is just another TAX imposed by the government that will not be spent correctly and will just keep increasing. Find another way to fund the project.
07/15/26	Steven McCombs	60177	X	X	X						Support	
07/15/26	Dave Del Boccio	60102	X			X	X				Oppose	Please have Illinois find a way to stop increasing taxes and tolls on everything, EVERYWHERE. Spend less and cut waste and corruption.
07/15/26	Ben Sanecki	60124			X	X				More Highways	Oppose	Listen, some of the roads are in bad shape I get that, but 355 and 390 are in perfectly fine shape and nobody drives on 390 because it doesn't go anywhere. We need 390 to keep going west and we need another loop farther out than 355, like western kane or dekalb county. If you're not traveling in the direction of a spoke getting around this area is absolutely terrible and it increases traffic on the spokes. We need a new highway not just reworks.
07/15/26		60093	X				X		X		Oppose	The Illinois Safe Roads Amendment, approved by nearly 80% of voters in November 2016, amended the state constitution to prohibit lawmakers from diverting transportation-related tax revenues—such as gas taxes, vehicle registration fees, and tolls—into non-transportation uses. It requires these funds to be spent only on road maintenance, bridges, mass transit, and related infrastructure projects. Given that, I find it obscene that the Illinois Tollway thinks it deserves to punish its riders with more severe tolls to pay for road maintenance at the same time that it has cut roadside help and rest stops to new lows over the past decades. It was also very difficult to figure out what a SmartRoad is or why I would want the Illinois Tollway to spend more money on a SmartRoad.
07/15/26	Michele S Stachowski	61103		X			X		X		Oppose	I do not live in the Chicago Area and yet I will be forced to pay for improvements on the roadways in the Chicago Area. I do not drive to Chicago ever and I resent the idea I have to pay for those drivers and If I do ever go into the area I have to pay for the privilege (really, what is so special about Chicago). Other states either have no tollways or manage without large toll costs, manage the budget better or make those that use the roads that need improvement (Chicago area) pay more.
07/15/26	Lisa	61068				X	X			Faster than 2 lane roads	Oppose	This is another example of this state using fees and taxes to drive people out. Illinois residents are CONSTANTLY hit with ridiculous fees - it's no wonder that people are leaving this corrupt, bankrupt state in droves! And Pritzker wants to run for President?? And run the country like he runs Illinois?? Insane

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/15/26	Zachary Winkler	60156			X		X			No tolls, im forced to click another.. but id just do this and affordability.	Oppose	This is insane... Use the lottery money, use the Marijuana tax stop taking MORE MONEY Tax the fucking rich not us
07/15/26	Dave Del Boccio	60102	X			X	X				Oppose	Please have the state of Illinois stop raising taxes and tolls. Cut waste and corruption because we know both exist.
07/15/26	Linda Tomaras	60439	X		X		X				Oppose	Illinois is so overly taxed and overpriced already! The tollways are already very expensive and an increase will put a strain on our family's budget- we have 4 drivers who use the tollways everyday. This state needs to find a better way to spend its money. Maybe if so much money wasn't spent on non-citizens and on lazy people collecting on every free government assistant program to which most should not be receiving, maybe the state's budget could pay for its improvements without constant new taxes and price increases!
07/15/26	Seymour Rifkind	60015	X		X		X				Oppose	
07/15/26	Karen Jewula	60543	X			X	X				Oppose	For years the tollway system has been riddled with corruption, the fees collected have been thrust into slush funds and diverted into other special interest payments unassociated with the fees collected. More fees aren't the answer. Using fees appropriately is.
07/15/26	Queen Robinson Bishop	60560			X		X			Lower Tollway Fees	Oppose	We already pay enough!! A Senior discount should apply for all seniors. I have a brother who will not visit me because of the tollway fees!
07/15/26	Mark J Paolella	60451	X				X			Please do not increase tolls on the working poor	Oppose	My daughters have to take the tollway to work. This increase of tolls will crush them. Increased Illinois Fuel tax + increased tolls, Illinois seams to prey on the working poor!
07/15/26	Russ schneider	60133	X				X	X			Oppose	I would look VERY hard at the internal spending of the toll authority, instead of taking money out of the pockets of more Illinois residents. We already have gas taxes that go up every year with inflation, why tolls too? I already drive the highest toll per mile road (route 390) every day. It wasn't a toll road when I moved to the area. Now you want another $500-600 from me per year? No. Stop this. Also, I love how most of the public hearings are during the day, so people who are busy at work (and likely pay the most in tolls) can't come and voice their opinion.
07/15/26	Nicholas Calzaretta	60487	X		X	X					Support	I have been a local 150 Operator for 28 years and live in Orland Hills. I use these tollways everyday and understand how important these investments are for my community and our entire state.
07/15/26	Malia Hintz	61073		X		X				Avoiding stop and go traffic to expedite travel	Oppose	The tolls are already outrageous, and I don't for a minute believe the increase will go towards improvement. Illinois needs to learn to balance the budget and improve infrastructure with our already obscene taxes.
07/15/26	ST	53212	X				X		X		Oppose	I strongly oppose the plan. I see little in the way of description of what exactly the substantial increases will be paying for, other than broad categories of conceptual "improvements," while the current state is working well, well maintained, and highly valued. The rate hike now feels very exploitative, not to mention the adoption of a plan to raise rates biennially, when users have come to expect long-term predictable and stable costs associated with the use of the tollway.
07/15/26	David Servatius	60554	X			X	X				Oppose	I strongly oppose the proposed increase in Illinois toll rates. Before asking drivers to pay more, the Illinois Tollway should demonstrate meaningful progress and accountability on the numerous projects that have been under construction for years. Many motorists continue to experience delays, lane closures, and congestion with little visible improvement in return for the tolls they already pay. Raising rates while major projects remain unfinished sends the wrong message to taxpayers and commuters. The focus should be on completing current projects efficiently and transparently before imposing additional financial burdens on Illinois drivers.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/15/26	Peter Zito	60540	X		X		X				Oppose	The tollway collects more than enough to get projects done. Quit working on the same roads every year just to spend whatever quota needs to be met as far as spending. The tollway was supposed to be gone decades ago, it's bad enough we have the highest taxes per capita in the country. Gas and diesel are way too high due to continued tax increases, property taxes are outrageous and now you want to stick us with higher tolls that increase every couple years. The great state of Illinois is becoming too expensive to live in as it is and this will just be another burden on us to pay for projects that are probably already green lighted to start. Quit taxing us and find another way to balance the budget.
07/15/26	Ak	60441			X	X	X				Oppose	I want the tolls i drive to be used for the area of roads I drive. Not to be used for improving areas i do not drive on a daily commute basis. Do better with fiscal planning and spending
07/15/26	Tim	60172	X			X	X				Oppose	We are not your purse to continue funding illegals and now losing the bears but funding the Chicago fire stadium. Stop spending money we don't have for people that don't live here.
07/15/26	T Hooley	60118	X		X		X				Support	
07/15/26	Bradley Sass	60142	X		X		X				Neutral	
07/15/26	Paul	85209		X			X		X		Oppose	I remember when the tollway system was first proposed. We were told that once the system had collected 4 times the cost, tolls would end. Typical government cash grab from residents
07/15/26	Paul Munda	60192	X		X	X					Support	
07/15/26	L L	60445			X	X	X				Oppose	With All the constant construction year after year after year, there has never been any improvements with traffic flow, it has only made it worse for traveling. This is why the airports today are more crowded because most people today do not have the patience to drive the tollways going to and from their destinations, The increase costs will only make it more unbearable for most. If you were to put in double decker express roads like some states use for all the Trucks and Semi's maybe? So Yes I OPPOSE!!
07/15/26	Peter	60561		X			X		X		Oppose	Like this state doesn't collect enough from us. Look at WI, better roads "NO TOLLS" and worst winters. You guys fixing same roads over and over agian...like it's a sesonal job security. I will vote...HELL NO
07/15/26	Steve	60154	X		X		X				Oppose	When the tollway collects enough money to pay for the roads it'll be a free highway. Lies
07/15/26	Reda	60514			X	X	X				Oppose	NO for tall increase
07/15/26	Austin	61101	X				X		X		Oppose	The revenue generated by tolls way exceeds the reinvestment put in to the infrastructure. Illinois has the highest taxes and the tolls are a money grab
07/15/26	Linda Dickerson	60172	X			X	X				Oppose	These roads, when first proposed and decided on where to have become free roads years and years ago. Yet here we are again looking at another increase and not just a one-time increase but an increase that can just keep going without any due diligence and proof of necessity at the whim of whomever decides to do so. Just where had all the money collected gone? Certainly isn't in premier roads. Time to learn how to live within your budget like the rest of us do. I strongly oppose this open ended cash grab.
07/15/26	David Schuman	60140		X	X		X				Oppose	Do not raise toll rates please
07/15/26	Dustin	61008			X	X	X				Oppose	I drive through 6 tolls a day and thinking about aborting my job this winter to find a new one if it goes up, it would cost me 250 a month to commute to work
07/15/26	John	60465	X			X	X				Oppose	The taxes in this state are ridiculous!! When do you tax us for the air we breathe.
07/15/26	Dennis	60560	X			X	X				Oppose	Tolls have totally gotten out of hand. Eliminate waste in the tollway system- funny how when it first started the tolls were supposed to go away, now it's turned into a money maker for someone.
07/15/26	Carl Nordgren	60706			X	X	X				Oppose	
07/15/26	Mark Chamberlain	61108	X		X	X					Oppose	I travel all over the country for work, Illinois tolls are one of the highest and our IPass does not reciprocate with other states, and in this day and age that's ridiculous.

07/15/26	Bill	61102	X				X		X		Oppose	Tolls cost way too much

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/15/26	Dustin Hess	61244-9742	X		X	X					Oppose	Our tollways are in ok shape, but I'm not in favor of any increased funding at this time due to the complete lack of policing. Why is it ok for people to lane split at 90mph, or drive with no plates, or take the shoulder when it seems convenient. I avoid the chicago tollways not because of the cost, but because I fear for my life when I take them. Enforce the laws on the books, then come back for more budget.
07/15/26	Lacy	61101	X				X		X		Oppose	
07/15/26	Charles	61101	X				X		X		Oppose	
07/15/26	Ellie	61101	X				X		X		Oppose	
07/15/26		60195	X		X	X					Oppose	
07/15/26	John Jameson	60148	X			X	X				Oppose	We shouldn't be initiating new projects that require extra funding like this until the Illinois laws are fixed. There is already a law in place preventing roads funds from being diverted to unrelated projects but the government found a loophole to do just that. Fix the laws, then initiate this work. This project WILL NOT have the necessary funding as long as the government can steal from roads funds.
07/15/26	Matt	60014	X		X		X				Oppose	Illinois needs to cut programs instead of raising prices. We need to trust people to take care of their needs and not rely on bigger government.
07/15/26	Jose Herrera	60435	X				X			Toll booths need to be wider for trucks.	Oppose	Toll rates have increased since 2012. I do not support paying more for less quality of roads. The Toll Road Authority needs to reduce overhead- big paying jobs, raises. They need to spend the money on fixing roads and not on pay increase.
07/15/26	Daria Riley	60181	X		X		X				Oppose	I do not support this potential toll increases. this is huge. Illinois should figure out a state budgetary plan that actually works in order for them to pay for the road construction. Illinois residents already are paying extraodinary taxes which keep increasing year after year and this potential increase makes me want to go far away from illinois
07/15/26	Gerald Lukomski	60004	X		X		X				Oppose	PLEASE USE EXISTING TOLL FUNDS & THE HIGH GASOLINE TAXES TO BUDGET FOR THESE IMPROVEMENTS OVER TIME. YOUR PROP0SED INCREASES ARE WAY TOO HIGH. THIS WAS SUPPOSE TO BE A FREE HIGHWAY BY NOW!
07/15/26	Dan Valosek	54235	X				X			Bottlenecks south of O'Hare	Oppose	Just another tax called a fee. I left Illinois because of taxes and can only laugh at this whole idea. The bonds were to be paid off decades ago and the roads made into freeways supported by the gas tax. Illinois has one of the highest gas taxes in the country and we still can't maintain the roads. In fact the gas tax was just increased. The last toll I will ever pay is when I exited out of Illinois.
07/15/26	Jones	60062	X			X	X				Oppose	Illinoisans already pay some of the highest gas taxes in the entire country and rank in the top 5 for toll road fees. I personally drive the tollway every day and pay to get on and pay to get off in both directions. An unprecedented rate increase of this magnitude will further burden consumers, many of whom are already living paycheck to paycheck, and likely force people to take alternate routes, thus increasing congestion on secondary roads. I am strongly opposed to any further increases.
07/15/26	Jeanette Chavarria Torres	60131	X		X	X					Support	
07/15/26	Mark Aurelius	60542	X		X		X				Oppose	You people are nuts - how can you justify hammering the people who use the tollways? Where does our already high tax money, lottery money, weed money and all the other hikes we had to pay go for? This is ridiculous!!! Stop hammering the people.....you bringing back the soda tax too??? Where is all our money? I want an independent audit of all spending and release a pdf to all Il residents so they can see where their money goes...it sure isn't on roads, infrastructure, schools, traffic, new business, conferences, crime and affordability.....
07/15/26	Eliza	60120	X			X	X				Oppose	NO! I'm already avoiding toll roads to not pay the fees now.
07/15/26	Hector Alvarez	61101	X		X				X		Oppose	We can't afford to pay more we already paid enough.\n.
07/15/26	david l kruk	60638-3127				X	X			fewer tolls	Oppose	if the politicians kept their hands out of the pot, you wouldn't have to raise the tolls

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/15/26	Michael Smith	60417	X				X			Fees continue that should have been eliminated.	Oppose	When the Illinois Tollway was first created in 1953, the original intent was to build the roads using toll revenue, then eliminate tolls once the debt was paid off.
07/15/26	Daniel Miller	33026	X				X			Long lasting with reduced operational and maintenance delays.	Support	Design it and build it pursuing FHWA's 100 year pavement foundation objective.
07/15/26	DAVID BEAN	60435-8554	X		X	X					Neutral	Where does the money go received from the state lottery? Will all the toll increases be dedicated strictly to the highway in which they are collected? Illinois has a history of dipping into funds and reallocating them . We can't even keep city school budget in control. This is what concerns me about increasing tolls
07/15/26	Sue Dorrans	60068			X		X		X		Oppose	
07/15/26	Mridu Garg	60521	X	X			X				Oppose	I am opposed to the proposed toll rate increase due to a lack of visibility and accountability for tollway work to proceed in a timely manner. Every year there is construction with most of the time lanes being closed and traffic pattern being impacted and very little ongoing work. The road conditions are bad and time to travel to destination is terrible. I am already paying a lot of money to use the tollway and would like for accountability for ongoing projects and why it takes so long. By the time any improvement is finished roads are being prepared elsewhere for another project with no overall improvement in travel times for years to come.
07/15/26	Douglas Kosar	60143	X		X		X				Oppose	Gee, thanks for emailing the notice of public hearings AFTER those hearings already started.
07/15/26	Joseph E	60060				X		X	X		Support	Chicago in particular has many alternative modes of travel, and pricing is an effective way to reduce unnecessary trips that contribute to traffic for everyone else.
07/15/26	Daily Tollway User	60565				X	X			Not raising the cost by $.45 per toll, DUH	Oppose	You are beyond greedy for proposing such a large hike in toll charges. Weren't the tolls supposed to be temporary to begin with? Disgusting and selfish. How dare you try to frame this as some sort of benefit to the community with jobs and more time spent at home with less time on the road. What a load of bullshit. People want to commute to and from work to make money, not piss it away. This will cost daily tollway users hundreds of dollars per year each. Fuck you.
07/15/26	Jim Foster	61021	X	X			X				Oppose	It's ridiculous how much it costs to drive across Illinois. I'm surprised how many trucks use the tollways. I suspect you will lose a lot of them with this new increase. I will be doing my absolute best to avoid toll roads in the future, starting now. Our pockets are not bottomless. It's pretty amazing how other states manage to have nice roads without charging tolls. Please get your act together, Illinois! You're driving people away!
07/15/26	Merlyn Robinson	60652-2422			X		X	X			Oppose	I think the increase is a bit much. Increase but not 45% and 30%. Why so much and every two years . Ridiculous!!!!!
07/15/26	Sonja Curtis	60643		X	X		X				Oppose	The toll is high already.
07/15/26	thomas batka	60462	X				X			smooth roads without construction delays	Oppose	idot is a poorly run agency which does not bneed more money but to be better run. illinois roads are worst in the country as i travel often. the road contractors are your only concern. poor planning and zero accountability for the work being done. i294 is a nightmare
07/15/26		60625	X		X		X				Oppose	
07/15/26	Robert S SeGasso	60655			X		X			No major increase, but start indexing for inflation January 1, 2027. Rome wasn't built in a day!	Oppose	Only index for inflation beginning January 1, 2027!
07/15/26	David	60618			X		X	X			Oppose	This will make it significantly harder for me to visit my aged parents and grandparents in the suburbs. Put through a graduated income tax rather than a regressive toll increase.
07/15/26	Scott	60062		X				X	X		Oppose	Stop raising the tolls! You continuously re-pave 294. This system was supposed to be FREE in '73 - the construction was paid for, quit ripping up the work you already completed
07/15/26	Julie kowal	60439	X		X		X				Oppose	That is a huge rain increase people cannot afford. You can go with a smaller increase.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/15/26	Joe Holohan	60606	X			X	X				Oppose	Enough is enough Toll hikes to fund a gold plated bureaucracy and perpetual sweethartedccontracts to construction companies,unions,political donors all on tha banks and pockets of REAL WORKING PEOPLE
07/15/26	Linda Donahue	60532	X				X		X		Oppose	As a soon-to-be 75-yr.-old safe and careful licensed driver since I turned 16, I am totally opposed to this increase. 07/15/26	Tim	60515	X	X	X						Oppose	Toll rates are already too high. Please stop increasing them for unnecessary expenditures.
07/15/26	Leslie Morgan	61115	X		X	X					Support	
07/15/26	James Krawczyk	60073	X		X		X				Oppose	I'm sorry but this is another reason why I'll be leaving this state. ....Overall taxes are TOO HIGH.
07/15/26	Noe contreras	60164			X	X	X				Oppose	
07/15/26	JEFFREY MESSACAR	60185			X	X	X				Oppose	The state already pulls in enough money from these "temporary" tolls. We all know that once you start making these toll roads, it NEVER ends. Just another case of an Illinois government agency that can't run a fiscal budget. I would like to know how the roads cost drivers an average of about $800/year. What? The toll money has to be a ridiculously high total.
07/15/26	Israel Marquez	60514	X				X			Never ending and inefficient construction process	Oppose	The Illinois Tollway generates a revenue surplus every year (since 1973). The currently proposed increase is unnecessary. If anything, a decrease should be proposed. Stop funding construction companies and stop fleecing Illinois residents (and non-residents using the Tollway).
07/15/26		60544	X		X		X				Oppose	Why raise the cost at a time that cost of living has increased! Ipass users previously got a discount due to the cash lanes. Now you all removed it, and found a way to increase the tolls. Crazy work!
07/15/26	Timothy Waters	60401	X		X				X		Oppose	I oppose the proposed raising of the toll rates
07/15/26		61021	X		X		X				Oppose	stop pull funding from motor fuel sales taxes from road construction projects to Regional Transportation Authority, Chicago Transit Agency, Metra commuter rail and Pace Suburban Bus.
07/15/26	Jacob Gragg	61008	X				X			Less money spent	Oppose	We need less money spent in this state.
07/15/26	Robert Jester	52159			X	X	X				Oppose	Why don't you build a highway over Chicago with no on/off ramps to truly have a highway that serves no Chicago travelers. I believe I would appreciate Chicago a little more.
07/15/26	Donna Campobasso	60004	X		X		X				Oppose	Too many taxes in Illinois. This cost increase will hurt middle income and seniors on retirement. Just not fair.
07/15/26	Kim Fraser	61822	X			X	X				Oppose	Don’t increase fees on autopilot. You are people of character and this is unbecoming. It looks like there is plenty of funds to maintain the roads.
07/15/26	Janet	60133	X			X	X				Oppose	This is ridiculous!
07/15/26	Scott Buening	60174	X		X					Low cost	Oppose	While I appreciate the tollway system maintenance and accessibility, I am opposed to toll increases. These tolls are excessive, arbitrary and will cause traffic to divert onto local roads, especially truck traffic. I myself as a regular driver of it, have avoided using the Elgin O'Hare (I-390) ever since it was sold to the Tollway from IDOT because it has the highest price per mile of any road in the system. This after IDOT paid for the entire road west of I-290, we are paying for that section of roadway AGAIN with these tolls. The tollways were supposed to be paid off decades ago and them brought into the State maintenance system paid for by general taxes. This was codified specifically in State Statutes. The additional issuance if bonds has extended this original intent by refinancing and adding funds to the bond costs for new and expanded roads. This was not the intent by Statute. There is in equity also by some roads being "free" and others tolled, where residents near I-55, I-290 or I-94 (Edens) get a free ride while other have to pay more for their drives. Tollway drivers pay for the toll roads but also subsidize all other roads by their road and income taxes. This is not a fair arrangement and the interstates should either all be tolled or (preferably) not tolled at all. I am opposed to any toll increase.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/15/26	Sheila Reed	60491	X					X		Important to keep communicating the cost benefits & support of mass transit.	Support	Make alternate mass transit access options more visible in road signage and on electronic mappings systems. Foster cooperative planning & design.
07/15/26	Jerry Rezabek	60563	X		X		X				Oppose	With everything else costing me more I will no longer be able to afford taking the toll roads.
07/15/26	Marina R	60030	X			X		X			Oppose	The tolls we pay do not seem to benefit maintaining the roads we have, much less new infrastructure. The same sections along I-94 are redone constantly with no improvement so whatever construction contractors we are working with seem to be doing a poor job. Remove the cash polling booths that are always closed and expand them to more open road tolling lanes to remove additional traffic choke points.
07/15/26		53585				X	X	X			Oppose	This seems expensive. What have you been spending all the toll money that you've already received in previous years on?
07/15/26	Matt	60004			X	X	X				Neutral	Thanks for having a forum for comments. My comment actually comes from older Chicagoland residence. Having been in the financial services industry for many years, I wish to share comments from several of my older clients. They remember when the Toll System was first proposed..."yes, we'll just have tolls until we pay for the project and then they (toll booths) will disappear!" ...Ad infinitum...
07/15/26	Carlos Cervantes	60804	X	X	X						Oppose	
07/15/26	Mary Ann	60124	X			X	X				Oppose	When the tollway was first built the politicians justified charging users a toll as to build the system and that it would be 'paid off' by 1973. Well obviously that didn't happen. The road is always under construction somewhere along the route and the tolls keep increasing. I truly believe that the tollway board is a patronage job based on approving increases. In this economy users are being held hostage to the boards whims. Increase the tolls, bail out the cistern that is Chicago. Increase the tolls, add to the cost of all goods that are moved along the system. Increase tolls, the board makes more money. At some point users are going to run out of money.
07/15/26	MICHAEL ludwig	60477	X		X		X				Oppose	I've been driving on the toll road daily for about 20 years 6 tolls a day. I already pay enough for tolls. This hike will lose money for the state. Myself and I'm sure thousands of others will take non toll roads to get to work. I hope this does not go through.
07/15/26	Mark Brinskelle	60191	X				X		X		Neutral	I always thought tollway were to paid after a couple of years.
07/15/26	Bill	60193	X				X			Lower cost	Oppose	If we are going to mess with tolls... Let's make them fair. 390 on a per mile basis is so far out of whack compared to the rest of the system. A mile here should be the same as a mile there.
07/15/26	Collette Gillies	61107			X		X			Less expensive tolls	Oppose	The State of Illinois must think we the people have as much money as the politicians! Our plate sticker cost is outrageous and what we currently pay for tolls highway robbery. Chicago is on life support and some how the peoples pockets are full? There is nothing I want less than to give money to a state where having beggars on every corner is ok. Has anyone looked at the garbage those folks leave behind? Who's paying for that? There's no extra money! What era do you think we are in? People can't afford groceries- I oppose vehemently
07/15/26	j	60148			X	X				thanks for sending the email after the fucking public hearing was already in progress. fuck off	Oppose	
07/15/26	RICARDO RODRIGUEZ	60707	X		X				X		Oppose	At current prices, the roads are dirty and the traffic jams are unbearable.
07/15/26	Mark	60190	X		X		X				Oppose	Manage the budget better
07/15/26	ann k lynch	61528	X		X					speed enforcement	Support	I-pass is very good. Works everytime. Be sure to notify users when tolls do increase so Ipass doesn't run out of $. Need to charge electric cars more for tollway usage since they pay NOTHING for fuel. Budget for enforcement coverage. People SPEED all the time.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/15/26	Amit Christian	61614	X		X		X				Oppose	As a frequent traveler to Chicago and O'Hare Airport, I oppose the proposed toll increase. Rising fuel costs and the increasing cost of living have already placed significant pressure on family budgets. Please do not add another financial burden to residents who are already struggling with higher everyday expenses.
07/15/26	Graeme K Bayless	60013	X			X	X				Oppose	We are already one of the most heavily taxed states in the United States. Our absurd property tax rates, combined with our high state/local taxes, our heavy use of tollway road charges, high corporate taxes, and STILL having a solid flat tax rate for state income tax, asking drivers to pony up even more for infrastructure upgrades is absurd. Slash the bureaucracy and end corruption, there is plenty of money in the system if it can just find its way to the actual needs instead of being wasted.
07/15/26	Andrew	60441			X	X	X				Oppose	We can't afford it. We're being taxed to death! And I'm someone who thinks the uber rich should be taxed out of existence.

07/15/26		60103			X	X	X				Oppose	Hello, I do remember when you built I-294 many years ago and the promise that as soon as it's paid off, all toll booths will be removed. Yeah, how did that work out? Filling in potholes in mismanaged budgets is not in the best interest of the actual users of your tollway systems. How about managing projects more tightly, vetting construction crews so that they are the best and most efficient at their respective roles? How about doing better work, using better methods that last longer? I do not believe that a toll increase will help manage money more effectively.
07/15/26	Steven	60007	X		X		X				Oppose	This State makes enough money as it is and charges already too much for toll ways. It's always increasing and we are the ones paying for it. How about, you elected officials take pay cuts and pay for the upgrades that way! We are tired of this state and its crooked left wing politicians taking advantage of the hard working people of this state. Ask yourselves, why people are leaving the state of Illinois!? Consider dipping into your own pockets to take care of things rather than us residents. How much do you higher ups make annually? That's right! A disgusting amount that's 20x more than what the average Illinois family brings home.
07/15/26	Gail	54552	X		X		X				Oppose	Tolls are high enough now
07/15/26	Levette Moore	60411			X	X	X				Oppose	IT DON'T MAKE NO KIND OF SENSE HOW YOU ALL ARE ROBBING US. IT SHOULDN'T EVEN CAUSE TO RIDE THE TOLL. But now that it do yall going to continue to rob us. Glad I don't have to ride it .
07/15/26	m	30519	X		X	X					Oppose	We are already tax to death, stop the madness!
07/15/26	Matt	60618		X		X	X				Oppose	
07/15/26	Stephen Stanczyk	60525	X		X		X				Oppose	Quit taxing you fucks
07/15/26	Dean	60137	X				X			Wise use of toll funds. Don't give our toll money to the RTA or other government entities. Use funds collected ONLY for tollway repairs. 07/15/26	Varun	60504			X	X	X				Oppose	Unless a specific plan is provided that will significantly reduce drive time, for both personal and commercial drivers, it's just making it more difficult for everyone to function and live with the price increases in this state
07/15/26	Michelle Richardson	61571	X		X		X				Oppose	The toll rates have gone up significantly over the years and I don't see improvements that trend the same direction as the rates.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/15/26	Doug M	60046	X		X	X					Oppose	It's not so much the increased cost of a system originally supposed to be no-cost, when conceived. Proposing a 15-year long improvement project is counter-productive, given the traffic delays/length of similar projects, and because that proposed long construction term that will do precisely the opposite, while ongoing.
07/15/26	Stephen Stanczyk	60525	X		X		X				Oppose	
07/15/26	Jaime ayala	60631			X		X		X		Oppose	We don't need another expense..enough is enough!
07/15/26	Chris	60504	X		X		X				Oppose	There's absolutely no reason to increase the tolls when the roads never seem to progress already and the money seems to be getting misused constantly
07/15/26	Mark Muehlhausen	60193	X			X				Roads designed for safety	Support	This was written during the Tollway briefing hearing in Schaumburg. I have been a user since the system was 1st built. It has been helpful since that time. It got my family to work and many other events. And my father-in-law helped build it in both the Teamsters and IUOE Local 150. I am generally supportive of the expansion program and accept the need for a toll increase. I have a concern with the idea that I-90 & I-290 intersection only gets a study until 2042. That intersection, only a few yards from the hearing where this was written, is dangerously backed up every day. I know it is aggravated now by IDOT work, but it is still a problem without that. So I want to note that a study is not enough to keep people safe and moving for the next 15 years. That intersection does not have the capacity to handle current traffic and traffic will increase with the widening of central I-355. We need an active plan for that upgrade. This project does not include funding for acquisitions and construction and these costs will be significant, even by Tollway standards. If we don't start acquiring access now, there will be even more obstacles. Please change your plans and timing to keep safety and traffic flow at the level we need and have come to expect.
07/15/26	Marc Grens	60126					X	X		Nothing really, roads are fine	Oppose	Inflation has crushed Illinois citizens since 2020 and now it's getting worse. We need to cut the government spending and give it back to hardworking blue collar people that barely can pay their bills
07/15/26	David S	60517	X		X		X				Oppose	
07/15/26	Hanna Bierman	60143			X	X	X				Oppose	Do not raise tolls
07/15/26	Linda Pilarczyk	60401	X		X		X				Oppose	The tolls were supposed to be temporary but when the government got all there costs back did the consumer really think the tolls would stop? You can have all the hearings you want, you are going to do what you planned anyway. Raising the tolls by .45 is really high you make millions off of these roads. I oppose the rate hike especially the proposed amount
07/15/26	Adam Rutkowski	60634	X				X			Lower cost of tollways	Oppose	
07/15/26	diane arnold	60139	X		X		X				Oppose	
07/15/26	Tihomir Georgiev	60089	X			X	X				Oppose	State of Wisconsin has a better roads. And they don't have toll pay roads?
07/15/26	Roger Gaw	60805	X				X		X		Neutral	I realize increases are necessary to keep up with cost increases but this one is just too much. Hopefully this isn't due to money being taken to support the CTA as that is just wrong.
07/15/26	Barbara Graue	60516	X				X		X		Oppose	No to increases that are automatically applied per inflation. There would be absolutely no accountability then.
07/15/26	Roberto	60639	X	X			X				Oppose	This is why Illinois's is turning into a shit hole. I will just start using plate covers when getting near the tolls
07/15/26	Marcia Larson	60067			X		X			too much truck traffic driving over the speed limit	Oppose	Previous toll increases were promoted as temporary yet have continued to increase over the years. This is unacceptable to seniors and low income drivers. Please NO toll increases!
07/15/26	Andrew Duke	60067	X	X						No more payments to use the roads!	Oppose	In the years of the 60's, tolls were 30 cents each. Once the new toll road was paid off, the state of Illinois was suppose to take over any new future expenses. But politicians, never hold true to their words. So, I have to wonder who's friends are getting the new jobs and who is getting paid millions on the side with all the new money that is being collected. Yes, new Illinois guaranteed corruption on a large scale. What should happen is no more tolls being charged and the state funding all new improvements.
07/15/26	Bryan Warrick	60187	X	X			X				Support	

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/15/26	Mary Culligan	60610	X		X		X				Oppose	I do NOT consent to any more toll increases
07/15/26	Milton Patch	60586				X	X			Easy connection	Oppose	This is an unnecessary burden on automobile drivers whose vehicles due less damage to the roads than trucks. Any increase should be assessed to trucks. Their load capacity destroys more roads than vehicles.
07/15/26	ERIC FITZ	60409			X		X			LOWER TOLLS!!!!	Oppose	Tolls are already too high!!!!
07/15/26	Dominique Neely	60616	X				X			We shouldn't be paying tolls at all on roads that are owned by the people and paid for by taxes	Oppose	First the city needs to take back the ownership rights to our tools, if we need to pay them or if we choose to utilize those roads to get from a to b we should not be paying a foreign country for our own efforts. The French don't pay America for French roads, why is America paying the French for American roads. Especially since they do no efforts to maintain them or to expedite any efforts that are attempting to maintain them. The Illinois tollway system costs too much for the average consumer and is making it difficult for people to even utilize. It's smarter to make them lower cost so that more people utilizes them and then you make up, make back any operational costs that were striven for to begin with. Please leave your greed out of our country and out of our state. Thank you
07/15/26	Tom Traficanti	60134	X	X		X					Support	
07/15/26	Brad Sayers	60647	X		X	X					Support	
07/15/26	Daniel Mormino	60115	X			X	X				Oppose	“Toll free by 73” now here we are in 2026 raising the tolls yet again. This entire system is a leach on Illinoian tax payers. State of Illinois should manage its money better instead of continuing to raise costs like this and taxes every time they need more money. Arizona is a good model of how to do the “freeway”
07/15/26	Richard E Howard	60408	X				X		X		Neutral	
07/15/26	Dave J Santiago	60609	X		X	X					Neutral	
07/15/26	John T Laliotes	60471	X	X			X				Support	
07/15/26	Marcos Balderrama	60655	X		X				X		Support	
07/15/26	John Doe	60540	X				X			- see below	Oppose	Why is it that the rest of the roads, outside of Chicagoland, are successfully maintained by the the State of Illinois' IDOT organization? Why do Illinois taxpayers need to fund the Tollway Authority -- a duplicative organization with duplicative programs. I recommend that the Illinois Tollway Authority be abolished and that IDOT take over responsibilities for the roadways managed by the Tollway -- current and future.
07/15/26	Gregory L Donald	60621	X				X		X		Support	
07/15/26	Mousa A Aly	60176	X	X	X						Support	As a proud LIUNA member, You have my full support. Projects like this create good paying union jobs, strengthen our economy, and improve infrastructure across Illinois.
07/15/26	Alejandro Hernandez	60402	X		X				X		Support	
07/15/26	Juan Hernandez	60083	X	X	X						Support	
07/15/26	James Connolly Jr	60439	X		X	X					Support	
07/15/26	Theresa	60525	X				X			Prices. That’s all. I just had to chose 3	Oppose	These toll prices have gotten out of hand. Illinois Tollway collects billions of dollars each year- and the tollway roads are ALWAYS under construction. I have been paying thousands of dollars to use roads that aren’t even finished- constantly! The traffic because of the poorly managed roads is awful. Illinois has one of the largest single-authority tollway systems in the country. And it’s poorly run, over priced, and takes advantage of people who need to use it. I think the whole surge should be abolished and am strongly strongly oppose any hike in fares at all. Do better.
07/15/26	Jermaine Horst Sr	60409	X				X		X		Support	I am in support of the toll increase.
07/15/26	Vince Tonelli	60404		X	X		X				Oppose	Where the red flag for me comes in, is it would be tied to inflation. Does that mean if inflation goes down the rates go down. Of course it will it because it is not beneficial to give anyone a break when things are better
07/15/26	Bre Connolly	60647	X		X		X				Support	While I do not support a significant increase in toll prices, I do think highway work should go to skilled, union laborers. Overall I support the proposed Driving Connections program.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/15/26	Lucio Rodriguez Jr	60638	X		X		X				Support	We need our skilled union members working on these projects so that it gets done right and on budget
07/15/26	George Jafilan	60459			X	X	X				Oppose	I oppose increasing tolls because of the current financial situation many families are facing. With the rising cost of groceries, housing, utilities, and other everyday expenses, higher tolls would place an additional burden on commuters who rely on these roads to get to work and support their families. This is not the right time to increase costs for working people.
07/15/26	Bulmaro Rodriguez Jr	60423	X	X		X					Support	I'm in support of the increasing of the proposed increase.
07/15/26	Frank P Scanlon	60462	X		X		X				Support	I regularly use the Illinois Tollway. It is an excellent road and needs to be kept well maintained and continued investment as everything grows. It is a vital part of major infrastructure which I support 100%.
07/15/26	Judith Duvall	60555	X		X		X				Support	None of these funds should be diverted to other budgets — only for toll road improvements!
07/15/26	Marie Kingsbury	60464	X			X	X				Support	Good Jobs - safety for users of the expressway - and safe travels for all
07/15/26	William J Draino	60416	X	X			X				Support	
07/15/26	Andrew Dietz	60431	X	X	X						Support	
07/15/26	Glen A. Strobach	35747	X			X	X				Oppose	Out of control. the original Illinois tollway system was approved in the 1950s, politicians famously promised drivers that the roads would be "Toll-free in '73". Lawmakers guaranteed that tolls would end as soon as the construction bonds were paid off, after which the routes would become standard, tax-funded freeways.However, this promise fell apart as the state continuously issued new bonds to fund expansions and maintain the massive roadway authority.The key moments behind this broken promise include:The Original Promise: In 1953, the Illinois General Assembly created the Illinois State Toll Highway Commission. Governor Bill Stratton and other supporters persuaded the public to accept the fares by promising they were temporary, estimating all debt would be retired by 1973.The Shift in 1968: Realizing the immense political power, economic clout, and jobs associated with the Tollway, state legislators made the commission permanent in 1968, effectively scrapping the toll-free promise long before the original 1950s bonds were even retired.Ongoing Expansion: The original bonds were ultimately paid off in the 1980s. Rather than removing the toll plazas, the Illinois State Toll Highway Authority continued to issue billions. I left the state to Serve our Country in tge Army, I still come back every so often now that I am retired. Costs a small fortune just to get home. At least cinsider some Veteran benefit on tolls,
07/15/26	Jason A Heath	60431	X		X	X					Support	
07/15/26	Sharon Holman	60137			X	X				Nothing	Oppose	No! Tired of all these raises when funds should be allocated for future improvements already. Where's all our money? People cannot afford this anymore. I don't travel for shopping/luncheons ect.that require tolls. So I'm not visiting those merchants and that costs them lost income.
07/15/26	Tommy Crivellone	60608	X		X		X				Support	
07/15/26		53045	X		X	X					Oppose	Proposal reads like a fluffy paper with dreams and feel good ideas without specifics. List specically how goals will be accomplished? Repairing all tollways? more accurate drive times? trucks only lanes? road widening? How do you improve economic development when other factors are decided before building next to a highway
07/15/26	Terry	60172	X		X		X				Oppose	This increase is obscene.
07/15/26	Raymond Reinhardt	60076	X			X	X				Oppose	Don't raise the prices in the tollways
07/15/26	Jill Cork	46220	X		X		X				Oppose	I would like to know where all the toll money is going now. Plus,I believe there is federal funding. I know Chicago is broke...this is just another tax that would not be used responsibly.
07/15/26	Todd Janus	50309	X				X			Increase and we will stop using the Tollway	Support	I hope you increase the tolls and SAVE ME MONEY. We will STOP traveling on I88 to Chicago and use I80 and I55
07/15/26	Christine	61061					X	X		Get to the city.	Oppose	Stop raising rates. The state needs to manage the tax payer money better .

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/15/26	Thomas Cera	46403	X			X	X				Oppose	I generally support proposed toll increases when they are related to meaningful projects that will lead to smoother roads, appropriate expansion and safety. It appears that Toll Road leadership took a reasonable repair and expansion proposal and added numerous additional and generally unnecessary projects to legitimize the toll increase. If the repair and expansion projects are trimmed to a reasonable level, a minimal increase or no increase would be feasible.
07/15/26	Robert Polley	60033			X	X	X				Oppose	You already tax us to death on literally everything. Now you can't stop and just want more. This is ridiculous. When will it stop? Enough is enough already. NO TOLL INCREASE. MAKE ILLINOIS AFFORDABLE AGAIN.
07/15/26	Eric Bakey	61008	X	X			X				Neutral	
07/15/26	Jeff Dennison	60540	X	X				X			Neutral	I don't love paying tolls, but I do find that the Tollway provides a far better driving experience than IDOT roads. They are better lit, better maintained and safer than non-toll alternatives.
07/15/26	Camden Usakowski	60459	X		X		X				Oppose	The tollway is the only option I have to drive to work in a reasonable amount of time. The proposed rate increases would almost double what I currently spend in tolls. I am taxed through other means to maintain roads and services. I think it's outrageous to be asking for toll increases when the average American is struggling to make ends meet. I fear that increasing rates would encourage people to stop using the tollway all together resulting in a loss of funding. There are sections of the tollway that have been under construction for decades and I don't understand why. It seems to me that the budget could be better used if we were actually able to fully complete the ongoing construction. I understand repairs need to be made but I don't think any road should take more than 2 or 3 years of continuous work to complete.
07/15/26	Bartosz Wojewnik	60047	X		X		X				Oppose	This money should come from state taxes which are already much higher then the rest of the nation.
07/15/26	Sean Vallely	60642	X		X		X				Oppose	Too high of a price hike. Try maybe only 10 -15 cents
07/15/26	Mike Dunlap	60654			X	X	X				Oppose	Please don't raise the prices
07/15/26	Charlie Gries	60005	X	X			X				Oppose	You already have a surplus of tollway money that the governor moves to use for other purposes. Keep that money and don’t raise the rates because people will not be able to afford driving on the expressways. We already pay high taxes on gas and high tolls we don’t need to pay more.
07/15/26	Michael Saunders	60805	X		X					Better fiscal responsibility!	Oppose	No more tax increases! We pay enough.
07/15/26	michael Murer	60181	X				X			I repeat...affordability	Oppose	The roads have more traffic than ever. More traffic equals more revenue. Yes it increases the wear n tear on roads too. However, just like household finances I have to budget and make adjustments along with saving for the furture including repairs on my home, car, etc. I can't ask for an increas in income just becaus i have no money in the bank. How can i justify you asking for an increase if you cant manage what comes in already.
07/15/26	Dave	60148	X		X		X				Oppose	I feel we pay to much now for the crud roads we drive now ! Raise the tolls and I will avoid the toll roads at all costs!
07/15/26	Joseph Bandyk	60564	X				X		X		Oppose	For those of us who are senior citizens, and on a fixed income, perpetual increase becomes very problematic. Our pensions aren’t adjusted according to changes in the economy.
07/15/26	Lisa Buxton	60475	X		X		X				Oppose	The tollway is very expensive right now. Manage the money we already pay to fund the improvements.
07/15/26	Paul Dytrych	60423	X		X		X				Oppose	Tolls are outrageously high and set to increase. Why not use the gigantic gasoline tax fund that is NOT being used to improve roads and infrastructure.
07/15/26	Aretha Bright	60478	X		X		X				Oppose	I think a 25 cent increase is more reasonable. I strongly oppose the every two year inflation increase. It’s bad enough our gas taxes increase yearly. Enough is enough on all the increases in this state.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/15/26	Jennifer	60446			X	X	X				Oppose	Tolls were a temporary solution that has gone on for years and roads are still not up to standards...why? Nickel and diming the taxpayers is too much. Charge those that "ruin" the roads ..corporations with the heavy semis. Pricing people out of the state helps nothing and no budget ...but when nothing is left from a paycheck to really live, then serious living locations need to be considered
07/15/26	Julie	61920	X		X		X				Oppose	Until fraud and embezzlement can be taken out of the equation, an increase is only hurting the consumer and not helping/repairing the roads. The funds now aren't repairing the roads. People can't afford to drive now with the price of gas. Add increase in tolls and people won't visit the area. Poor idea!
07/15/26		60657	X				X			That the gates actually function properly! It has gone down hill for at least the last 7yrs.	Oppose	It's $8.20 at one toll to cross into Indiana. Already too much. Use to be $2.00 when I moved here. Also why am I receiving an email today when the public hearings started yesterday?! My area was today.
07/15/26	Meg Hults	60452	X		X		X				Oppose	I find it disgusting that you are raising the rates! The raises/bonus/salaries you pay your executive team could fund this project 10x over. Quit trying to rip the hard working tax payers off!
07/15/26	Jackie	60140				X	X			Less endless construction	Oppose	We pay so much in taxes and fees as is. I wish I never moved to this state.
07/15/26	Mary Goecke	60647	X		X		X				Oppose	We pay enough already.
07/15/26	Laura W.	61241	X			X	X				Oppose	I am writing to express my strong, unequivocal opposition to the Illinois Tollway's proposed 30% increase on commercial toll fees scheduled for 2027, as well as the plan for automatic, biannual inflation-based increases starting in 2029. Businesses across Illinois are already operating on razor-thin margins. Layering on massive, compounding toll increases will severely harm our state's economy, our supply chain, and everyday residents. I urge the Board to reject this proposal based on the following critical impacts: The Detrimental Impacts on Illinois Businesses and Residents The Trucking Industry is at a Breaking Point: The logistics and trucking industries are the backbone of the Illinois economy, yet they are already struggling under the weight of historically high fuel costs, driver shortages, and rising equipment expenses. Forcing an immediate 30% spike on commercial vehicles is unsustainable for independent owner-operators and fleets alike. Compounding Year-After-Year Cost Hikes: The assertion that these hikes follow a long period of stagnation ignores commercial reality. The Tollway has already implemented consecutive commercial rate adjustments year after year, including hikes that took effect in 2024, 2025, and 2026. Treating commercial traffic as a bottomless funding source for a $26.5 billion capital program ignores the severe financial fatigue businesses are experiencing right now. Stifling Illinois Business Competitiveness: Illinois already faces intense challenges regarding the cost of doing business, driving some companies to relocate to neighboring states. By significantly raising the cost of moving goods within and through Illinois, the Tollway is actively disincentivizing companies from keeping their operations, warehouses, and distribution centers in this state. A Hidden Tax on Every Resident: Toll increases on commercial trucks do not exist in a vacuum. When it becomes more expensive to transport goods, groceries, and building materials, those costs are passed directly down the supply chain to the consumer. This toll hike acts as a regressive tax on everyday Illinoisans already dealing with inflation. Unfair Regional Burden Shifting: While infrastructure maintenance is necessary, the Illinois Tollway system heavily concentrates its upgrades within the 12-county Chicagoland region. However, the commercial trucks paying these exorbitant fees carry freight that impacts the entire state's economy. If the Chicagoland area requires massive road overhauls and expansions, the funding solutions should be generated locally within Chicago and the surrounding metropolitan area—not extracted from the statewide logistics network. Conclusion The Tollway recently reported its highest net revenue on record in 2025. Before demanding that struggling businesses hand over 30% more of their hard-earned revenue—and

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/15/26	Laura Henneberry	60089			X	X	X				Oppose	Governor Pritzker does an overall good job in Illinois. But this misses the mark entirely. Making tolls , in come cases, 50% more is ridiculous. Where is all the gas tax going? We're highest in the nation on that. This toll increase is ludicrous. It's adding $ to every person's monthly budget particularly those of us who use the roads on a daily basis and incur 2 or 3 tolls on the one way trip. Stop this increase.
07/15/26	Jaye bullaro	60010	X				X			Well lit	Oppose	Illinois does NOT need more taxes - let’s manage the budget better Are we trying to be the highest taxed state in the union
07/15/26	Andrew Klamka	60074	X			X	X				Neutral	#1) I believe that the proposed increase of 45 cents per toll is too high, especially given the economy. A increase of no more than 25 cents would be considered acceptable. #2) The commercial toll rate is ridiculously too high. And those costs will be passed on to consumers & the general public. Combined with item #1, that is simply too much of a financial burden. #3) will the rate be decreased if the inflation is negative, as occurred in 2009? And what is basis for the inflation adjustment? For transparency and fairness, the adjustment should be based on the same calculations or formulas that are used for calculating Social Security increases. Thank you for asking for my comments; I hope they will be considered.
07/15/26	Jerome H Jagla Jr	60047	X		X		X				Oppose	My wife & I have pretty much stopped using the tollways because of cost. I would rather double my travel time than pay your ransom tolls. This increase will probably end our use of the tollways completely!
07/15/26	Jon Podell	60189				X	X			This is just another tax for the state budget which is bankrupt!	Oppose	Take the money from the property taxes, this is a scam and the price will increase every 2 years. I can only guess how much will be stolen and given to the politicians - not necessary !!
07/15/26		60140	X		X		X				Oppose	
07/15/26	Cheryl Kaminski	60062	X		X		X				Oppose	45 cents is a steep increase! I would be in favor of a smaller increase.
07/15/26	Jerry	60156	X		X		X				Oppose	Who can afford any more increases?
07/15/26	Tarak sarkar	60169	X	X			X				Oppose	Fix the problem of the road fast Then increases tolls prices
07/15/26	Jeff Hamiel	60152	X	X	X						Support	Let’s get to it
07/15/26	Rick Meyers	60056			X		X			Being able to afford to live in this tax burdened state.	Oppose	The amount of fees and taxes we pay to live here is insane. Try doing an audit of where all the current money is going. I guarantee you will find government bloat. I can no longer afford to live in Illinois and as soon as I can retire, I will be moving to a better state. STOP TAXING HARD WORKING RESIDENTS!!!
07/15/26	James Raymond	62794	X		X		X				Oppose	The roads you are repaired a few years ago on 294 are cracking and have potholes. You do not need more money to waste. Have these construction companies use quality materials with a 10-year guarantee. The roads in ancient Rome are better than what is built today.
07/15/26	Scott Ligeski	60564	X		X		X				Oppose	Work with the money you have now which is considerable to maintain what you have. I am not interested in paying a bonus to your Upper Level Management through this proposed fee increase. Not acceptable. Figure out how to make due with what you have now such that the roads are maintained and tolls are affordable. I could care less there has been no increase since 2012 and in 2026 there is still no reason to increase your tolls.
07/15/26	Donald Bruce Kaul	34974	X				X		X		Oppose	No toll increased!
07/15/26		60004	X				X			Cheaper tolls	Oppose	Enough please
07/15/26	Jan	62801	X				X			Don’t feel the automatic prices should be in this proposal	Neutral	
07/15/26		60560	X				X			Not having a construction project going all year long for every year	Oppose	We are already paying high enough tolls and I'm still not sure what we get out of it now. Our tollways are always under construction and most of the time you won't even see any workers out there working. Our tollway system is a joke and who really knows where all of this money is really going.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/15/26	Susan Meehan	60124			X	X	X				Oppose	The cost of travel is already high because of fuel costs. I believe tax dollars should be used rather than increasing toll costs, especially as someone who is taxed for services I don't use like public education.
07/15/26	Danielle Bruskin	60103	X		X		X				Oppose	The Biden administration gave us a boatload of money to fix infrastructure; why do we need to raise tolls?? It will make everything more expensive due to increased trucking costs.
07/15/26	Margaret Peacock	60631	X			X	X				Oppose	I have recently retired however I previously took the tollway to work every day. I paid 4 tolls daily amounting to between $3.00 and $3.40 daily. With the proposed increase, I would have to pay roughly $5 daily. This is on top a gas tax of $0.664 per gallon (the second highest in the country). This is a substantial amount just to get to work each day. The governor says that other states have higher tolls. If we want to be in line with other states, why don't we lower our gas taxes? It is also cowardly to bake in automatic increases to tolls and other taxes automatically. You need to tell taxpayers every time you are going to raise their costs and explain why. What will the extra tolls go for? Are the proposed projects guaranteed to get the money or is this another government shell game. How about having some consideration for the people of the state who are just trying to get by and travel to work, relatives, medical appointments, etc. Just living in Illinois is financial challenge and keeps getting worse.
07/15/26	Debbie Bowen	60563	X		X		X				Oppose	Way too much of an increase all at once and would suggest finding other options for funding/investment - state and federal funding. There is already too much waste in Illinois on other unnecessary priorities, i.e. libraries and stadiums on the south side of Chicago. Special interest groups v. what serves the larger population of Illinois.
07/15/26		60056					X	X		Paying no tolls	Oppose	You created the Illinois toll system in 1953 for road expansions and promised Illinois taxpayers they would be "toll free" by 1973. People why this state and politicians can never be trusted. Seriously, I'm not sure why we have politicians, nothing ever seems to make common sense, and nobody knows what a budget is for. If Illinois does not have the money, you have two choices, don't do it or get the money from other Illinois programs.
07/15/26	Cathy	60448	X	X			X				Oppose	Realizing that there has not been an increase for 16 years .45 cents per toll seems like alot to those who use the tollway regularly. I see adding an increase every 2 years is on the slate.
07/15/26	ravi arora	60076	X			X	X				Oppose	
07/15/26	RM	53403		X			X			Governor Jay-B-Back ribs is a piece of shit. More taxes! So glad I moved out of the worst state in the country!!!	Oppose	Illinois has no creativity. Just tax the residents for everything. You suck!!!
07/15/26	Jamie Mullins	60031	X				X			Construction projects that are finished in a timely manner.	Oppose	Tolls are already high enough.
07/15/26		60139			X	X	X				Oppose	
07/15/26	E.Brown	60439	X				X			No increase	Oppose	Mismanaged funds in Illinois will not solve problems. The roads are a mess, holes, guardrails down, dilapidated signs. Tolls? More money? Please get organized and use our money wisely.
07/15/26	DON UPDYKE	60067-0000	X			X	X				Oppose	Doubling of tolls is an absurd proposal, after sales tax increases and the outrageous property tax increase.
07/15/26	Rick Brenner	60048-2604	X				X			less congestion	Oppose	1. You told us over and over and OVER that once paid for, the tollway would be come freeway. Over and Over and Over! What happened to that promise?? 2. You sent the email regarding public hearings AFTER four of the meetings had already taken place - including Lake County. Nicely done. If you had a real job, this would get you fired. 3. Because tollway expenses are funded through tolls, this allows you to waste other taxpayer funds.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/15/26		60526		X	X		X				Oppose	It is not fair to keep increasing the tolls for the same commuters. If additional funds are needed, then it would only be fair to add tolls to other highways such as 290 / 55 /90/94. The burden should be placed on everyone that has to commute and not just people taking 88 / 355 /294. Some of us go through 4 to 6 tolls each day commuting to work. Asking for more money from the same people is NOT THE SOLUTION! Do better!
07/15/26	Jessica	60555		X	X		X				Oppose	Raising the cost of the toll will not resolve the issue of traffic. People will continue to take the tolls because it is more than likely the fastest route home. This initiative of raising the cost of the toll will only provide more cost to the commuters rather than save time & cost.
07/15/26	DEBRA BAIZE	60169	X	X					X		Oppose	
07/15/26	Jim Graber	53147				X	X			Nothing	Oppose	I lived in Illinois for 60+ years and now live just North. You promised to end tolls many years ago but never did! Late would be better than never. Don't increase tolls; eliminate them.
07/15/26	Joel Perrino	60561	X		X		X				Oppose	Tolls were supposed to be "temporary". We pay enough taxes to pay for the roads. Stop collecting tolls!
07/15/26	Dennis Czurylo	60463			X	X				an end to endless, time delaying road construction that takes too long to complete. 294 is the best example.	Oppose	I am not against a smaller increase but I am totally against an automatic increase for the CPI which takes the Board off the hook for having to vote on increases and be accountable!
07/15/26	Mickey Jindra	60515	X		X		X				Oppose	Why are you get charged more money for tolls you guys been taking this money all this time and then you still haven't fixed anything All the roads are all messed up especially 290 and 55 like seriously quit taking our money You're not even fixing the roads that should have been fixed already
07/15/26	Andrew James Capp	60031	X				X			Tolls arena scam	Oppose	Literally no one alive supports this.
07/15/26	Jennifer	60436	X			X	X				Oppose	We pay enough in taxes to this state already. Use those tax dollars to fund roads. Stop nickeling and diming the residents.
07/15/26	Victoria Schroeder	60046	X		X		X				Oppose	Do we even need tolls? Where is all the toll money collected going? Why can’t we eliminate the tolls for IL drivers ?
07/15/26		46307	X		X		X				Oppose	Another way to rob the working man.
07/15/26	Steven Seers	60101			X	X	X				Oppose	What happened to the tolls are only temporary to pay for the road when the tollway first started? Stop pinching working families even more. No to raising tolls.
07/15/26	Drew	60103			X		X			No more tolls	Oppose	Quit taxing John Q Public. Another cost increase on regular working people? Get a grip on reality.
07/15/26	Craig Wellick	60175	X			X	X				Support	
07/15/26	Theresa Kern	60612	X	X		X					Support	We desperately need a better highway system in Illinois. We are like a "foster child" here. Other parts of the U.S. and other countries have drastically surpassed Illinois in bigger, better and more beautiful roads and highways.
07/15/26	Vince Donovan	53222	X		X		X				Oppose	I am from Wisconsin and travel through Illinois often but if they raise the rate of the tolls, I will go around another state just to avoid any toll increase expense! Just don’t do it! A majority of my family and friends are of the same opinion. If you raise the toll rate, you will lose thousands of travelers from coming through Illinois. Besides when that Illinois toll first came out, it was supposed to be temporary. Most of the toll revenue goes to China anyway to help pay down your debt to them. People aren’t stupid.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/15/26	Sarah R	46311	X		X		X				Oppose	Gas prices and car insurance are high enough without adding this cost. The cost of living is already out of hand in both Illinois and the surrounding Chicagoland area, which also affects those living in Indiana. Illinois has long struggled with debt, and squeezing more out of citizens and neighbors will not help. Taxes already cover a great deal and are sky-high enough without adding this extra cost. Paying to drive on roads already seems backward, and now hiking up the price—when the I-PASS was originally supposed to be a very temporary fix—seems especially strange. Citizens are still paying a real price for something that remained in place once it became clear what a cash cow the I-PASS was. Citizens do not need government officials who either spend money frivolously or drive people and states further into debt. This will not solve the problem. Do not pass this bill!
07/15/26	Jessica	60459	X		X		X				Oppose	The Illinois tollway is an absolute joke. If we are paying to use these roads they should be well maintained (which they are not, have not been, and most likely will not be), have less traffic which is not the case, and we were told that tolls would be temporary. Now we are seeing a proposed increase. Well I promise you that my family & I (4 seperate ipass accounts) will forgo our accounts and not use the tollways at all. I promise many others will also follow suit
07/15/26	Madison	60140	X				X	X			Oppose	I oppose the proposed toll increase because it places an additional financial burden on Illinois residents who rely on toll roads to commute to work every day. Before raising tolls, I would like to see greater transparency about how existing toll revenue is being spent and what cost-saving measures have been explored.
07/15/26	Max Vokral	60515		X	X		X				Oppose	The collection of tolls was always supposed to be a temporary measure to pay off construction bonds from the 1950s. These were paid off in the 70s and the tolls should have been removed. I understand the need to find revenue for projects and upkeep of the roads, but this should be sourced elsewhere such as increased taxes on wealthy people with sufficent means. Increasing the toll rates disproportionately impacts people with lesser means.
07/15/26	Katie	60660	X	X			X				Oppose	Cost of living is out of control. Taxes are out of control. Illinois residents already pay an exorbitant amount of money for state and city upkeep that I am against an increase.
07/15/26	John S	60466	X				X		X		Oppose	We pay too much as it is. In 25 years of driving, I have never seen the Illinois Tollroads clear of construction. Roads are poorly maintained, projects are not completed in a timely manner, making millions in extra costs and fees. I will not utilize the tollway if prices are raised that dramatically.
07/15/26	jeremy Rendon	60137			X	X	X				Oppose	All you greedy bastards do is take take take. I pay so much in taxes and you want to take more from me? Stop stealing so much and just use the millions you people already continually take from us to do whatever bullshit this is
07/15/26	Luis B	60126			X	X	X				Oppose	The following is my personal opinion: The Illinois Tollway System, their leaders, and executives, have missed deadlines time and time again. They have not honored their completion commitments; thereby prolonging traffic and congestion in the areas they have developed. Their offer to alleviate traffic and allude to our Illinois families' well-being is a bad joke and they know it. Governor Pritzker, whom I have learned to respect, should fine them heavily for every day they do not fulfill their deadlines. The state of Illinois should intervene to reign in this money-hungry entity and regulate them heavily. Now they want to add insult to injury to charge us more to use their monopolized ways and services? I strongly oppose this "Driving Connections" proposal and every sound, common-sense Illinoisan should, too.
07/15/26	James Ribikawskis	69453	X				X		X		Neutral	I have lived in Illinois and used the tollway my entire life. It also seem that you never build the roads to last. 294 is the road of perpetual repairs. Even the current work go to the 290 extension off of 294 has a big, not slight, dip in it that should be unacceptable.
07/15/26	Michele Guldberg	46545	X					X	X		Neutral	I think this is a very good program to invest in however, I just wish it wouldn't be investing quite so soon. Let us get out from some of the cost that we are under now. Every time we turn around there is a new increase on something. This year I've had about four increases of major proportions.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/15/26	Jason	46307			X	X	X				Oppose	You should generate revenue from the trucks that don't stay out of the 2 left lanes.
07/15/26	Marcin Krok	60004	X		X	X					Support	Looking forward to seeing the upcoming Driving Connections capital program implemented and benefitting the region.
07/15/26	Maddie Schneider	60046	X		X	X					Support	
07/15/26	Matthew Dutton	61523	X				X			Get maintenance and affordability right and we can talk about a third priority	Oppose	Neighboring states have much better state roads than Illinois toll roads. Illinois should not have a private toll road system. Our state needs to learn from others and manage our resources wisely. We pay very high state taxes already. That should be enough to cover infrastructure. We shouldn't need another "private tax" on certain roads. Even if you stay around, you don't need more money until you prove you manage the roads you have. Increased volume should generate plenty of money to fix what you have. Prove yourself before you take more from us.
07/15/26	Sean Mitchell	60631	X	X	X						Support	
07/15/26	Julio	61441	X	X					X		Neutral	How about making one I pass across the board. All 50 states. Would be nice I go see my brother in Florida so I also have a Florida pass , it's a pain in the A.. thanks have a wonderful day
07/15/26	Scott Hovious	60174			X		X			Safety	Oppose	The tollway and highway system needs to be better monitored for all of the crazy drivers out there now that love to weave in and out of lanes doing 85+mph, and it's getting worse. An adjustment every 2 years based on inflation? Honestly....this State would tax to flush your own toilet if it could.... You want commerce in IL, stop taxing us to death and get rid of Pritzger.
07/15/26	Timothy Grasso	60133	X			X	X				Oppose	Where else does the revenue from the tollway system go? The roads are always under construction due to inferior products being used. There must be misuse of funds in the sysyem.
07/15/26	Anne Nacyk	60515			X		X			affordability, affordability, affordability	Oppose	We CANNOT afford higher tolls!! Stop funneling toll money away from the highways. Vehemently opposed to this rate hike, along with the rest of the state of IL.
07/15/26	AJ Jimenez	60626-5283	X					X	X		Neutral	
07/15/26	Sonia	60053	X				X		X		Oppose	To expensive
07/15/26	Robert J Hannapel	60803	X				X		X		Oppose	IL needs to be more efficient with their tax money on all of us.
07/15/26	Zac Fowler	61012	X		X	X					Support	I travel the tollway a lot and as you near chicago traffic patterns can cause delays
07/15/26	Alan	60172			X		X			Being able to afford to keep living... retired people can't keep up	Oppose	Just what we need .... Another tax
07/15/26	Kelly	60156	X		X				X		Oppose	Let's give the money to the roads instead of giving to people on state aid for years and illegals.
07/15/26	Lorrie Butler	60620	X				X			NO RAISES	Oppose	How dare you all raise prices during this economy where everything is already overly expensive. I DO NOT AGREE WITH RAISING TOLL RATES!!!
07/15/26	Nick Vasilakis	60634	X	X	X						Support	I support driving connections capital program
07/15/26	Bob Davies	60441			X		X			Honesty	Oppose	None of these increases would be necessary if fraud was not a major component. Burned throughout history. Leaving Illinois due to continued mismanagement.
07/15/26	Catherine Bonini	60467			X	X	X				Oppose	You are killing us with the amount of tolls. Those of us that commute for work this will destroy us. We already pay so much for tolls and gas. It is time to start cutting the budget not increasing it. You are killing the working man/woman. So disgusted and disappointed in the whole governing body of this state. NO TO AN INCREASE
07/15/26	Jerzy Samolis	60089	X		X		X				Oppose	No more money, no more increases, no more bloated, miss managed peograms. Stop spending money on useless projects elsewhere and stop the abuse of our funds. Not one more penny we already pay the highest taxes in the country, you drive away business, and we get nothing. NO MORE TAX, TOLL, GAS INCREASES!!!!
07/15/26	Dave A Gillingham	61032	X			X	X				Oppose	

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/15/26	J K C	No! No! No! How about more facts instead of sales pitches? How about a year without construction?	X			X				Cost	Oppose	No no no!!
07/15/26	Paul Babicz	60164	X			X	X				Neutral	Don't you tax us enough? And where does the money go? Into the politicians pockets. All this taxing has to STOP.
07/15/26	Jeff Johnson	60565	X				X			.	Oppose	BOOO! On the rate increase .
07/15/26	Catherine Tojaga	60137	X		X	X					Oppose	
07/15/26	Leonard Britz	54455	X			X	X				Oppose	I think commercial should have a higher increase than personal. The frequency and wear-and-tear are much higher by commercial than personal. I am in favor of an increase, just not the proposed balance.
07/15/26	Bruce	60085	X				X		X		Neutral	When the tollway was built in the beginning my father was told that after the tollway had been paid off that the tolls would go away. Now in recent times our governor had added a tax on the users driving on the tollway to bail out the RTA, CTA, Metra, ETC but nothing said about the people riding those items to pay more after a number of years of not having to pay a dime more and now the tollway wants to charge us more for riding the tollway but not saying how much. Us users of the tollway are being taken advantage of in more ways then one or anyone else in the state. How fair is this?
07/15/26	Staci Everaert	60517	X			X	X				Oppose	I use the tollway to commute for my work. If the proposed rate increase of $.45 per toll goes into effect, I will Not be able to afford to use the tollway for my commute. I will have to look for a new job and this will negatively impact my family.
07/15/26	Stephanie Humphrey	60827	X		X		X				Support	
07/15/26	Joshua Powell	60118				X	X			Speed of travel	Oppose	The tollway was supposed to be a temporary venture to pay off bonds. I can accept tolls being collected for maintenance of the system and for major improvements like adding lanes, but such major improvements should be few and far between. The continued bloat of the system to add even more infrastructure and entrances/exists in places that don't warrant them will only snowball more and more as the years go on. More entrances/exits, more maintenance, more tolls. The system should be striving for sustainability. I oppose toll increases, cancel future projects and plans if need be.
07/15/26	Nancy	60439	X			X	X				Oppose	The tolls are already outrageous
07/15/26	Michael Nowicki	60538	X				X		X		Oppose	This is so ridiculous. I'm fed up with Illinois. what are you doing with the millions and millions you're already getting?
07/15/26	Mohammad Abdeljalil	60525			X	X	X				Oppose	I am firmly opposed to the proposed 2027 rate increases and any effort to tie future rates to inflation, as Illinoisans were promised over 50 years ago that these tolls would be a temporary measure. Instead of continually asking drivers to pay more for an inadequate highway system, the Tollway needs to better manage the billions in record revenue it already collects.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/15/26	Michael Patrykus	60561	X			X	X				Oppose	I still remember when the tolls were supposed to be "temporary"... instead, the opposite has happened. The tollways I traveled were seemingly under construction continuously. I had to travel from Darien to Antioch frequently until a year ago using I294, which was loaded with construction zones for at least ten years straight. Now I have to go to south end of Orland Park frequently, using I355, because LaGrange Road is so congested. When are we going to be able to traverse these roads WITHOUT construction?
07/15/26	Mary	60504			X		X			I avoid most toll roads as much as I can.	Oppose	I guess they want to tax people right out of Illinois. And the government wonders why so many people are leaving the state!!
07/15/26	shane	60445	X		X		X				Oppose	stop ripping people off, its criminal how much we pay for tolls
07/15/26	Don Meyers	60477					X		X	Cheaper tolls	Oppose	I thought tolls were in originally in place to pay the road off?. Seems like we never stop spending. Are these toll going to be removed when the work is done?
07/15/26	bob novotny	60026				X	X			other than those two i have no problem	Oppose	t he tolls have been getting too costly. I m taking secondary roads and avoiding the cost of tolls. Maybe the tollway board should consider reducing amin fee and the heavy salaries and perks.
07/15/26	Judy Haley	60046	X	X	X						Neutral	Where has all the money from the taxes on the sale of marijuana/canibas gone?
07/15/26	Sarah Rose	60152	X	X		X					Support	
07/15/26	Camila	60804	X				X		X		Oppose	I feel that the rate of increase is too high and will most likely force people to use backroads rather than the toll way.

07/15/26	Ryan Wheatley	60134	X		X		X				Oppose	
07/15/26	Tim Bowers	60540	X		X		X				Oppose	We were told that the roads would be free once bonds for construction was completed. 50 years later you are still collecting billions, and now want to increase fees?? Sorry but NO.
07/15/26	Steven Childers	60491	X		X	X					Support	
07/15/26	Karen Prigge	60014	X			X	X				Oppose	The original tollway was supposed to be temporary. It never went away and the cost to use it just keeps going up! I live on a fixed income and can no longer afford it. I will do my best to avoid it.
07/15/26	Maha Elizabeth	60565					X	X		Less taxes	Oppose	Enough on raising prices on hard working Illinoisans.
07/15/26	Union Boss	60610	X				X			No traffic delays, i.e. traffic jams	Oppose	I think you can do more with less, don't hire so many engineers and firms- hire better harder working engineers and firms. Clean it up.
07/15/26	Joe Haltman	60056	X			X	X				Oppose	I understand need, but doubling tolls and indexing to inflation is too much. No toll should be indexed to inflation. Future Increases should be voted upon. I feel significant toll increase should be avoided and a more modest increase with no automatic indexing to inflation is more reasonable.
07/15/26	Iuliu	60053	X		X		X				Oppose	
07/15/26	Gail	60178			X	X	X				Oppose	Tollways originally were supposed to stop tolls after paid for. Now you want to raise tolls again. Ridiculous, already too much.
07/15/26	Debbie Lincoln	60091	X		X		X				Oppose	First of all, I received an email notice of the public hearings today, 7/15/26. I live in the northern burbs and would have liked to have attended the Cook County North hearing in Schaumburg. That hearing was yesterday 7/14/26. Why are the notices sent out late? Second, can the Illinois Tollway demonstrate that it has maximized operational efficiencies, reduced unnecessary spending, and fully justify why existing revenues are insufficient? We need transparency and accountability. I am a single mother and rely on the tollway quite a bit. The tollway is a public service, and affordability should be a priority because we often have little choice but to use it. If the Tollway canNOT clearly demonstrate that all other cost-saving measures have been implemented and exhausted and that we, the general public, are able to see measurable improvements, raising tolls should not even be considered.
07/15/26	Mohammad Abdeljalil	60525			X	X	X				Oppose	I am firmly opposed to the proposed 2027 rate increases and any effort to tie future rates to inflation, as Illinoisans were promised over 50 years ago that these tolls would be a temporary measure. Instead of continually asking drivers to pay more for an inadequate highway system, the Tollway needs to better manage the billions in record revenue it already collects.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/15/26		60445	X				X		X		Oppose	
07/15/26	Elizabeth Johnson	60151	X		X		X				Oppose	Most businesses are cutting their costs and a huge factor with that is when they are shipping their product(s). A lot of trucking companies are telling their truckers/employees to utilize the roads that are not toll roads hence creating more traffic on non-toll roads and creating roads that constantly need work as more and more big semi's are on them. We need local infrastructure to accomodate this. Also, wasn't certain toll roads only supposed to be temporary? It seems like they are now part of the norm and they are not going away. What are we doing with the money that we are bringing in currently? Maybe take a look at the roads in Minnesota that do not require a lot of maintenance due to better road quality (not the cheapest bidder using the cheapest road material)
07/15/26		60610	X				X			Safety	Oppose	
07/15/26	Rosemary Crowley	60712		X	X			X			Oppose	These comments pertain to the Chicago Skyway only. The Chicago Skywayrates are already too high. I'm opposed to raiding them.
07/15/26	Imran Yousuf Mohammed	60564	X		X		X				Oppose	A 45-cent increase in I-PASS tolls places an additional financial burden on commuters and families who rely on these roads every day. With the continued rise in the cost of living and inflation, many households are already struggling to manage their daily expenses. I respectfully request that you reconsider or reduce the proposed toll increase. Keeping tolls affordable would provide much-needed relief to working families while ensuring that essential transportation remains accessible for everyone. Thank you for taking public concerns into consideration.
07/15/26		60439	X		X		X				Oppose	Tolls were supposed to end in 1973. Wisconsin has no tolls and roads are great. Illinois needs to figure this out. You can hide this as it costs money to maintain roads but charge a nominal small fee if you are going to charge not $1.50. This now is an increase to fund pensions and that will come to light I'm sure soon .
07/15/26	Antonio Anaya	60452	X		X		X				Oppose	We pay enough taxes in Illinois already!!! Roads cannot be this expensive
07/15/26	Jennifer Navarro	60641	X		X		X				Oppose	Over the years prices of tolls have increased, including the sky way and there still continues to be traffic / bad road conditions. There is always going to be nonstop traffic in Chicago, especially when the money will go to "fixing up the roads" during construction. Illinois doesn't care about making our lives easier by these changes, this is just another excuse to raise fees. Nothing is going to change, but our pockets will. Greedy decision. There should not be a price increase, if anything it should be a decrease.
07/15/26	Jeff Makosh	60115	X		X		X				Oppose	Understand that rate hike might be necessary, however a lower increase is more acceptable. I do not understand with current traffic what the authority is doing with the current collections.
07/15/26		60061				X	X	X			Oppose	
07/15/26	Mark D	60068			X		X			Lower toll prices	Oppose	I've pretty much had it with Illinois and the wasted money. And now this? No way, tell the governor to stop giving Illinois money to illegal immigrants and get rid of being a sanctuary state and use the money for other things, like this!!!! Illinois just keeps bleeding the residents dry. We need an outside entity to try and fix this state!!!! Enough!!!!!!
07/15/26		60641	X				X			Only 2 items that matter. Other expense items can be cut to manage the budget.	Oppose	Strongly opposed to an increase in the toll.
07/15/26	Krystal	46307	X		X		X				Oppose	Tolls are already expensive, there isn't much work that is needed/have been done to the current road. Oppose the increase

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/15/26	Scott Friedericks	60189			X	X	X				Oppose	How much more could we possibly be taxed in this state. From property taxes to tolls recently increasing now they want another tax hike? How about we look into IDOT with one guy working and 4 holding a shovel watching. Take the savings there to help build more toll cameras or open lane ipass lanes? Ridiculous that we are spending money constantly redoing toll plazas. Just leave them constructed. 45 cents per toll raises the prices for everything that travels on the roads. The trickle down effect will kill this state.
07/15/26	Lindsay Mertes	61072	X			X	X				Oppose	Increasing tolls on people that have daily commutes that need the tollway is not helpful.
07/15/26	Robert Maltes	60010	X		X		X				Oppose	It's called the laffer curve, you charge too high of tolls and we will drive a different way to commute. Plain and simple. Try it and your revenue will drop and we will be in even more economic trouble.
07/15/26	Beth Freese Dammers	60514	X		X		X				Oppose	This is ridiculous. How can you propose increasing tolls by $.45. Thats a 60% increase on a $.75 toll. I hear you that there have no been changes since 2012. That's not my problem. You can not increase this much all at once, especially in this economy. Moving to an annual toll rate increase that matches cost of living is a better move.
07/15/26	Stacy Verdick	60506	X			X	X				Oppose	This is crazy!!!
07/15/26	Spencer Anderson	60137			X		X			Less tolls	Oppose	To Whom It May Concern, I am writing to express my strong opposition to the proposed toll increases and, more importantly, the plan to automatically adjust toll rates based on the Consumer Price Index every other year. This approach amounts to a rate increase on top of a rate increase. Rather than requiring public accountability for future toll hikes, it creates a system where tolls will continue to rise indefinitely with little oversight. A roadway that was built to serve the public should not become a luxury that fewer and fewer people can afford to use. Like many Illinois residents, I understand that roads require maintenance and improvements. However, after decades of collecting toll revenue, I have to ask: where has all of that money gone? I'm sure some of it has funded important infrastructure projects, but it's difficult to justify continual increases without greater transparency and accountability. Taxpayers and commuters deserve a clear explanation of how these funds have been managed over the past 30 to 40 years before being asked to pay even more. My concern is that Illinois is heading down the same path as Ontario's Highway 407 in Canada. What was intended to provide a faster, more efficient travel option has become so expensive that many drivers avoid it altogether unless absolutely necessary. The toll road no longer serves the public as intended—it has become a financial burden. Illinois should not follow that model. Tollways are a vital part of our transportation network and should remain accessible to the people who rely on them every day. Automatic, recurring increases tied to inflation, without meaningful public review, set a troubling precedent that will only make these roads less affordable over time. I respectfully urge you to reject this proposal and instead focus on greater transparency, responsible financial stewardship, and long-term solutions that do not place an ever-increasing burden on Illinois drivers. Thank you for your time and consideration. Spencer Anderson
07/15/26	Fiona Hamilton	60513	X			X	X				Oppose	An increase in tolld will result in me not using the toll roads
07/15/26	Rob	61111	X			X	X				Support	

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/15/26		60641			X		X			Finishing projects faster than the agreed union contracts.	Oppose	Raising tolls in the state of Illinois that already has the highest gas tax, property taxes in the country, bottled water tax, grocery bag tax and other taxes that keep being raised every year. Illinois has no increase of people moving here. It is the ppposite, people moving out of Illinois. People will stop using the toll road and just take the streets and just add more time to their drive time. Some people have more time than money unfortunately. Trucking companies will relocate to Wisconsine and Indiana to save on taxes and business cost and Illinois loses all that revenue. Cars and trucks will just congest main roads and infuriate local townships and they will start point their fingers at the tollway and demand help with the problem. The last scenario will be people will just not pay the tolls. Some people already drive an unregistered vehicle with no insurance, and some drive with license. Trying to collect unpaid tolls is an act of futility, because people cannot give what they don't already have.
07/15/26	Kevin	60657			X	X	X				Oppose	
07/15/26	June Montgomery	60544				X	X			No toll costs	Oppose	This is a farce - the governor can't find money elsewhere so tax and and tax us some more. He's a joke and this is a joke.
07/15/26	Tracey Messina	60451	X		X		X				Oppose	The tollway was supposed to be temporary. The tollway roads are completely filthy and the roads are NOT being taken care of. We should not pay any tolls anymore. We can not afford it. Think of the tax payers instead of the politicians.
07/15/26	George Givney	60423		X			X	X			Oppose	We already avoid using the tollway because it simply does not save time or money -- there is either construction or a traffic jam. I am old enough to remember that the tolls were only suppose to be temporary -- that didn't work our, did it?
07/15/26	Patrick	60120			X	X	X				Oppose	Over the past several years Illinois residence have experienced significant increases in the cost of living housing, groceries, insurance, fuel, utilities, and vehicle maintenance have all become more expensive. From any working families, like mine, tolls are not a luxury, they are a necessary daily expense for commuting to work, taking children to school, and attending medical appointments. A toll increase would place an additional financial burden on Me along with thousands of other Illinois residence who are already facing rising costs, and we are left without any way to avoid these additional expenses. I am pinching pennies at home so it may not feel like this increase will hurt, but it will. It will hurt badly.
07/15/26	Tamara Clarke	98579	X		X		X				Oppose	I have drove across country many times and the amount Illinois charges is already ridiculous. There are many states you can drive I90 with zero toll charges!I now try to avoid Illinois and instead drive around it instead of through it. A price increase is unthinkable especially in Trump's poor economy where people are having trouble affording gas to run their vehicles.
07/15/26	Sweta Ghayal	60067	X		X		X				Oppose	Out of all the states we pay too much! No tolls in southern states, and neighboring states and yet they are able to maintain!
07/15/26	Christine Karns	60133	X		X		X				Oppose	Normally I'm all for improvements to roads and less traffic. But life is already unaffordable and tolls are so high to begin with. If this happens, I simply will not use toll roads anymore and opt for more affordable modes of transportation.
07/15/26	Jada Bryant	53224		X			X			not having to pay for using a road that my tax dollars built.	Oppose	stop raising the price of things when minimum wage has not changed
07/15/26	Dean Coppin	60532	X		X		X				Oppose	
07/15/26	penny	61008		X			X		X		Oppose	I THINK THE TOLLS ARE HIGH ENOUGH ... THERE IS ALWAYS AN EXCUSE TO RAISE RATES.
07/15/26	Danelle Bernas	60462	X				X		X		Oppose	It absurd how much we pay already and the condition of our roads. Stop taxing and find way to decrease costs and encourage business in the state.
07/15/26	Beverly Maloney	60451	X	X			X				Oppose	We don't need any more In the toll increase
07/15/26	shirley checco	60423	X		X		X				Oppose	I will avoid the toll roads if I can. I need to feed my family.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/15/26	Warren M Thompson	60031	X		X		X				Oppose	A proposed increase may be warranted due to inflation, but the amount seems excessive relative to the proposal. This is just another money grab by an agency that proposed that the tollway would be paid off at its inception. You may need an increase but there is not any truth or detail in the proposal. Government waste and fraud at its finest, Dont worry you will do whatever you want anyway,
07/15/26	Ted	60074	X		X		X				Oppose	Another tax increse on ordinary people driving to work in orderr to fund mismanaged budget
07/15/26		60126			X		X		X		Oppose	It's a crime that not only does Illinois have some of the highest state taxes in the nation, the people are also charged to use some of its roads. The tollways were supposed to go away decades ago. Instead, they continue to raise the rates and, build NEW tollways. It's an embarrassment. No wonder more people continue to leave this state.
07/15/26	Steve Korpal	61053	X	X		X					Oppose	Start weighing EVERY semi truck and use that money from fines to fix and expand . Do not put that burden on illinoisans.
07/15/26	Megan Novak	48312			X			X	X		Oppose	Please don't increase the toll, thank you.
07/15/26	Mera G	60402		X	X		X				Oppose	Abolish tolls altogether. And if you refuse, reduce the pay of any top position people as to not put more financial burden on the already burdened public. We are not here to act like your piggy bank. I dont care about the temporary jobs this initiative may create. Its not worth it.
07/15/26	Michael Weis	60101	X		X		X				Oppose	What a load of crap. Just another way to nickle and dime me. Cant wait to leave this trash state.
07/15/26	Nadine Jakubowski	60487			X		X			Less construction at the same time	Oppose	The tollway always constructs when other construction is going on and it always takes way too long and makes traffic unbearable!!
07/15/26	Kathleen Spalo	60525				X	X			Construction to be timely	Oppose	I realize that tolls have to be paid. However, it is luicrsto think charging what Illinois have to pay is just sad and shows a lack of planning..
07/15/26	Pines Zack	60126	X		X	X					Oppose	You have to be kidding me that you are trying to get more taxes from us. Manage budgets better like many other states are doing and stop raising taxes as a fix for a broken system.
07/15/26	Kyle	61342	X				X			Low to free tolls	Oppose	Forced to choose three so there's an excuse to raise the rates. Tolls should be suspended
07/15/26	Mary	60193				X	X			Again, affordability. None of these other points matter if you can't afford to even be on the tollway.	Oppose	This is not the time to be increasing rates when people can hardly afford to pay for gas. More people including myself will entirely avoid tollways resulting in decreased revenue from tollways for this proposed project. This should be open to public vote, not just comments. Additionally, automatic inflation-linked increases every two years starting in 2029 is just out of the question. I am entirely opposed to this and would like to see another proposal that is much less tone deaf to the current economic climate.
07/15/26	Karin Anderson	60103	X		X		X				Oppose	Now is not the time to consider this increase. With families struggling to pay for gas and put food on the table, an additional expense which could impact their monthly expenses is unjustified.
07/15/26	Ed Nowak	60487	X				X	X			Support	What are we doing about toll evaders
07/15/26	ROY	60621	X		X		X				Support	
07/15/26	John Falkenberg Jr	60450			X	X				NO MORE TOLLS	Oppose	STOP INCREASING TOLLS. ELIMINATE TOLLS!!!
07/15/26	Michael Ardagna	60051	X				X			Proper use of my ridiculously high taxes and not spending wastefully. That should provide you plenty of money without raising tolls.	Oppose	The taxes here are ridiculous to begin with and you want to take more money from commercial drivers, which raises the costs of everything. Why don't you take a shot at managing waste and fraud better in this state and that will allow you to do what needs to be done without raising tolls and ultimately prices on everyone.
07/15/26	Janice N	60148	X				X		X		Oppose	
07/15/26	Bill Goggin	60103	X		X	X					Oppose	You greedy bastards don't need more money. You need to stop wasting the billions you and the rest of our state government already misappropriate on fraud, abuse and every other kind of bullshit that doesn't serve the taxpayers. Keep your hands out of our pockets and learn to live within your (already exorbitant) means like the rest of us.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/15/26	John Steger commercial vehicles already paved sixty three cents, a gallon, illinois fuel tax	53086			X		X			You people raise the rates every year and it never gets any better. The congestion is always there.I've been running that road for fifty years and it stays the same too expensive to drive on pretty soon	Oppose	Commercial vehicles already pay $0.63, a gallon fuel. Tax in Illinois. And now you want to keep raising rates, it's pretty soon, it doesn't even pay to come to that state anymore. Why does everything cost double compared to other states in a country and nothing gets better. It gets worse in that state. I think you need some new leaders from the top-down. Because it's disgusting.
07/15/26	Fanny farkle	666666			X		X			Bike paths	Oppose	Yuck
07/15/26	Aretha cooper	60527	X	X			X				Oppose	The toll are already expensive, everything is going up except people’s pay . And I have to go through 8 tolls daily for work and if I go outside of work its ridiculous, it’s just to much.
07/15/26	David Fagan	60137	X			X	X				Oppose	If the tollway needed money why does it have over 1.5 BILLION sitting in the bank!
07/15/26	MARGERY NEWMAN	61036	X				X			Less. road and lane closures	Support	
07/15/26	Mitchell	61604	X				X		X		Oppose	This is just another tax on Illinois residents. Just like the gas tax legislature has put in an automatic increase so residents don’t have a say and legislators don’t have to vote to increase. Typical Illinois politics
07/15/26	Tim	60467	X		X		X				Oppose	You should already have more than enough money for the project
07/15/26	Andrew	60453	X		X		X				Oppose	Toll rates should not be allowed to increase with inflation index without a state referendum. Costs can run away quickly and put undue strain on working people unfairly.
07/15/26	Smith	60438	X		X		X				Oppose	No,no, no, no, no,we are taxed to death, gas prices are too high, food is too high, rents are too high. Stop the madness! Stop all the corruption and expecting us to pay for it. If we are voting, I'm voting to get rid of all the corrupt politicians in Illinois starting with the governor on down!
07/15/26	Cindy casey	60963	X		X		X				Oppose	Tollway was not supposed to be a forever thing. It’s a scam and the money isn’t used for the good of the road travelers. I am adamantly opposed to raising tolls. At least until the money shows up making our roads safer and less dangerous
07/15/26	David Koder	60712				X	X			Up yours you people are idiots 45% increase. Get bent.	Oppose	Way too big of a hike out of the box, stupid people appointed or bribing their way into management. Sure we all have to pay but the size of the increase is unacceptable. You need to do better than proposing that large of an increase something more reasonable 10%-15% and Pre several years down the road, it’ll take you 15 years to get the work done anyway only to start over again.
07/15/26	Karen Belair	60134			X	X				“TOLL FREE IN ‘73” Promises made, promises not kept.	Oppose	“TOLL FREE IN ‘73” When the original 187 miles of the Illinois toll road system were built in the 1950s under then-Governor Bill Stratton, the state championed a campaign slogan known as "Toll free in '73".The original promise made to residents was that the toll collection would only temporarily fund the construction of the highways, and that the roads would become completely free once the bonds were paid off in 1973.
07/15/26	Kent	60139	X		X		X				Oppose	That’s enough. too much money for resident to drive in Illinois.
07/15/26	Usa Klein	60443	X	X			X				Neutral	Understand the proposal is needed to improve the transporting system to be better. Affordability should be factored in especially senior. We are at final stage with fixed income. It’s our time to enjoy life that we are blessed with. To drive through interstate helps us enjoy life more. Senior should receive some discount as we in the past may have supported the tollway system in many way. To increase fees on fixed income citizen who has served and paid our dues seems to be handling down penalty to travel for us senior. Thank you.
07/15/26	Collin Framburg	60642	X	X	X						Oppose	This is gay theft

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/15/26	Virginia Takaki	60018-4419			X		X			Less toll booths	Oppose	Tolls were just increased. The original toll concept was once the road construction was paid for the toll booths would be removed. This has never happened. Instead more toll booths are being constructed and toll rates are going up every year. The toll booths have become a cash cow and now they will never be removed
07/15/26		60515	X		X		X				Support	
07/15/26		60515	X		X	X					Support	
07/15/26	J	60107	X		X		X				Oppose	
07/15/26		60515	X		X	X					Support	
07/15/26		60645	X		X		X				Oppose	
07/15/26	Tim theriault	60523			X		X		X		Oppose	Tired of constant increases - another reason i am leaving il.
07/15/26	David Florent	60098	X			X	X				Oppose	I am writing to express my opposition to the proposed Illinois Tollway rate increase as part of the Driving Connections capital program. As someone who relies on the Illinois Tollway every workday, I pass through three tolls each day and already spend approximately $100 per month just to commute to work. For many of us, using the Tollway is not a luxury or a choice—it is a necessity. Another increase, especially one that would also be tied to regular Consumer Price Index adjustments, places an ongoing financial burden on commuters who have little or no alternative routes. While I recognize the importance of maintaining and improving our transportation infrastructure, I believe the Tollway should first demonstrate that existing revenues are being used as efficiently as possible before asking drivers to pay more. Illinois motorists have experienced repeated increases in the cost of living, including higher prices for groceries, housing, insurance, fuel, and other everyday expenses. Adding another recurring expense to the daily commute is difficult for working families to absorb. I am also concerned that indexing tolls to inflation every other year would effectively create automatic toll increases with limited public oversight. Major changes to toll rates should continue to be reviewed individually, with clear justification, public input, and accountability for how previous toll revenues have been spent. I encourage the Tollway Board to explore alternatives, including prioritizing projects, identifying operational efficiencies, pursuing additional state or federal funding opportunities, and ensuring that every available dollar is being invested wisely before increasing costs for the people who depend on the system every day. I appreciate the opportunity to provide comments and respectfully urge the Board to reject or significantly reconsider the proposed toll increase. Thank you for your consideration.
07/15/26		60559	X	X	X						Support	
07/15/26		60048	X				X			Toll free in 73.	Oppose	Remember Toll Free in ‘73? Our state income taxes are enough.
07/15/26	Richard John	60142				X	X			NO TOLL INCREASES, you crooks have enough money	Oppose	You’ve been collecting tolls for years! You don’t pay any interest on the funds in my account. The crooks in Springfield just raised the fees, and you are in their back pocket. So NO you don’t need another toll increase. The toll roads were paid off year’s ago. WHERE HAS ALL THAT MONEY DISAPPEARED TO. NO NO TOLL INCREASE!
07/15/26	George Siragusa	60411	X				X			No new or increased tolls	Oppose	Tolls were supposed to go away when the original cost to build was met!! That was a long time ago. No no no on toll increases!!!!!!!!
07/15/26		60707				X	X			No increased toll	Oppose	
07/15/26	Wendy Hintz	60661			X	X	X				Oppose	The tolls are already too expensive. One way to Michigan is now nearly $15 from downtown via the skyward. If the price goes higher, I would likely no longer take the skyway.
07/15/26		37207	X		X		X				Oppose	Thank you for reminding me yet again why I left your terrible state with nothing but corrupt idiots in charge
07/15/26	Joe Schaffer	60133			X		X		X		Oppose	Wisconsin doesn’t have as many tolls as ILLINOIS and their roads are fine. We don’t need another race prices at this time.
07/15/26	Fred	60452				X	X		X		Oppose	You just keep increasing the tolls almost yearly. There wasn’t even supposed to be an tolls years ago after they were paid for, but you can’t expect anything else from Illinois
07/15/26		60139	X		X	X					Support	

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/15/26	Jacqueline Hoss	60542	X			X	X				Oppose	The state of Illinois has got to stop finding more ways of raising costs on anything and everything they can think of!! I am a senior citizen and was born and raised in Illinois. These continuous price increases are very hard on senior citizens that are trying to get by on limited incomes! I do NOT SUPPORT this increase!!!
07/15/26	Peter Moler	60564	X			X	X				Oppose	When the Tollways were built back in the sixties we were told that when they were paid for with tolls, the tolls would be removed. That didn't happen. Now you're asking for another increase and I'm sure the 45 cents will be more than that by the time all of this happens. How about eliminating the waste and graft that exists in Illinois, a state that has the highest overall taxes next to New York and California! Stop digging into our pockets and fix the money managment problems!
07/15/26	Gene Hultman	55971	X	X			X				Support	Make the roads safer
07/15/26	C Rivera	60164		X		X	X				Oppose	Toll are to. Expensive right now traffic is insane you guys fix something this year next year is all distracting again
07/15/26	VK	60504	X				X			More police presence to manage aggressive/road-rage drivers.	Oppose	The case for higher tolls falls apart if the state already generates about $1.44 billion in net annual toll revenue and still cannot demonstrate responsible budgeting or efficient spending. Even if the road and bridge improvement plan costs $24 billion or more, that figure does not prove drivers should automatically be asked to cover the entire gap through higher tolls; it only shows the project is expensive. Illinois drivers are already paying a heavy transportation tax burden through one of the highest gas taxes in the nation, along with high license and plate renewal fees, all of which are supposed to help support road upkeep and improvements. And the claim that “better roads will reduce congestion” is too simplistic on its own, because adding or widening roads often just induces more driving over time rather than permanently solving traffic. Additionally, every time I have encountered a slowdown it was because of an accident--NOT traffic volume. The real question is whether the state has a spending problem, a prioritization problem, or a revenue problem, and before asking commuters for more money, officials should prove they have exhausted waste, delayed lower-priority projects, restructured financing, and used existing transportation revenue as efficiently as possible. A massive price tag is not proof that a toll hike is necessary, and if the system is already pulling in record revenue from multiple sources, the burden should be on the state to explain why current funds and smarter budgeting are not enough.
07/15/26	Vishal Singh	60103				X	X			No construction that takes 15 years only to delay everyday traffic and add “smart” technologies that are irrelevant in 15 years once the project is done.	Oppose	This reconstruction focuses heavily on rebuilding areas that do not need to be rebuilt such as Aurora and Elgin at the risk and blockading traffic for 15 years AND increasing public tolls PLUS increasing tolls in the future every 2 years. This is a tax on the public even as we pay some of the highest income taxes in the United States. These projects should be state funded from the get go in order to keep the funding limited to necessary funds only and not over budgeted smart roads that will only serve to slap safe drivers with more tax. Our highways west of Chicago are already safe enough and areas like the 90 are already wide enough that the outer lanes are unused. Adding several themes with limited amounts of FULLY DEVELOPED plans means tax payers would be funding an open ended project with the only oversight being made after funding. Everytime Illinois develops a plan for infrastructure it’s a waste of tax payers money. Chicago and just outside of Chicago need more renovations than the major highways that already have no problems. Just because a casino is built in aurora does not mean a new high way should be added or modified. Small projects do not require complete rebuilding of entire highways. I’m against taxing the public more money for something that is not needed. And i speak for many that keep wondering why Illinois sits in budget deficits while undertaking MASSIVE projects that are unneeded.
07/15/26		60010			X		X			Abolish tolls	Oppose	You have been poor stewards of any money provided to you; and raping the citizens of more cash is not useful. Your agency should've been abolished years ago, but as with everything in Illinois you are all corrupt and useless.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/15/26	Andy	60098	X					X		Those two are my priorities	Oppose	We don't need more roads, we don't need more lanes. Every time you do that, development follows and the congestion returns. Time to break this cycle by investing in public transportation, not tollways. You should be getting just enough to maintain the existing roads at a suitable level. No more.
07/15/26	John Imlah	60015	X				X			More State Police	Neutral	Who ever is inchargeof the Toll way has NO idea about of people of Illinois. It is very hard to swallow a45cent increase and only a30 cents. I don't favor an increase. But Government will do what ever is best for then instead of the people.
07/15/26	Tom Jenkins	60467			X		X			More police to catch the 90% of people who drive recklessly	Oppose	If you need money, don't raise the tolls. Instead, stop paying for health care for people who are in the country illegally.
07/15/26	Lester murdock	60076	X	X			X				Oppose	On price increase please
07/15/26	Carrie	60002	X		X	X					Oppose	
07/15/26	Bill Banker	60152	X				X		X		Oppose	Attending the McHenry co. Public hearing would have been my preferred route to voice my opinion, but we have received this e mail a day late. Not surprised at all, Illinois Tollway is not that efficient. As many have said in the past, this road system was to be payed for years ago, with no tolls. Now you want more toll increases. I say, no increase, and run with in your means! This is typical Illinois! Tax and spend, Tax and spend. NO Increase.
07/15/26	Juan Campos	60630	X		X		X				Oppose	The rise in toll is ridiculous and we already pay enough in tolls.As it is
07/15/26	Mary Pina	61089	X		X		X				Oppose	This state must stop taking money out of its citizen pocket every chance it gets and instead start budgeting for necessities only.
07/15/26	Richard Holm	60185	X			X				Faster travel times usually.	Oppose	About time to find state, federal or an alternative support method for this road system that was supposed to become toll free decades ago. Stop throwing 100 % of a forever burden on the citizens of Illinois. I, personally, will counter a toll rate increase by reducing my use of the toll system by the same percentage.
07/15/26	Jim Wagner	60462			X		X			More police taking radar. Everyone drives well over 80.	Oppose	Get the money by stop paying for illegal immigrants.
07/15/26	Scott Pales	60046			X	X	X				Oppose	A few facts the story doesn't put out how much money is generated by the tollway system. Now the one that was supposed to be paid for in 1970 will this in fact lower the gas tax then to pay for the roads and I love how Governor Pritzker's new MO every time you raise tax you put an automatic perpetuity to increase it either every six months every year every two years here regardless if we need the money or not such a joke of a governor such a joke of a state do they ever think about cutting spending? Have they ever done this once in this administration? I know he's raised taxes $9 billion or whatever it is since he took office every year the budget has gone up bye-bye Illinois.
07/15/26	Steve	60176	X	X	X						Support	In favor. good Trades jobs.
07/15/26	JOHN C. DOUGLAS	60053	X				X		X		Oppose	Goveners spending again. How much can we take?
07/15/26	William Spalo	60525	X		X		X				Oppose	I am almost 73 years old, and I cannot believe how much tolls have increased in the last 25 years. I will try, my hardest, to avoid taking toll roads if any increase goes into effect.
07/15/26	Garry Kowalewski	60102	X		X		X				Oppose	Tolls should be vanquished, they were a temporary tax on us.
07/15/26	Ovidiu Botan	60585		X	X		X				Oppose	This is disgusting. How much more do you want to take from the middle class people? You always want more and more and no relief for the little guy.
07/15/26	Tim Schmidgall	60120			X		X			Less congestion	Oppose	I think its disgraceful that you want to raise tolls. As I understand it the tolls were supposed to be temporary in the first place. You guys must have a definition of the word "temporary" that I am unaware of. Also I note many states nearby have no tolls. Why aren't you efficient like them? At a time where eveyone is paying more for just about everything, from gas to groceries, you want to bleed even more money from people. For once I'd like to see a year without ANY construction, so there would be no delays in travel, no wasting of gas, no polluting the environment.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/15/26	Zack	60440			X	X	X				Oppose	This is ridiculous! Tolls were supposed to be gone 15+ years ago and here we are, facing another increase. Inflation is already high enough and millions are struggling and we are already the highest taxed state. We cannot let this go through.
07/15/26	A. Mejdrich	60441	X		X		X				Oppose	Illinois is already one of the most expensive both with tolls & taxes People just can't keep affording the costs to live in Illinois
07/15/26	Toney A	60451			X		X			No more tollways until the others are paid for.	Oppose	There are too many toll roads being built in the Chicago, illinois region. Several toll ways were just built recently. When are the tolls going to end for the roads built prior. We the drivers know that Illinois are taking in millions of dollars. Where is all this money going? We are going to have a request foe a town hall meeting with Illinois Senators.
07/15/26	Kirsten Lynn	60108	X		X		X				Oppose	We have enough fees and taxes on everything. When there have been successful completion of highway projects, I haven't really noticed much of a change or difference. Also, with the amount of tolls on my specific commute this would greatly increase costs for me. Many other states have way more affordable tolls and there roads manage to appear decently maintained. Increases every other year for the next 20 years is absolutely ridiculous.
07/15/26	Aditya	60181	X		X		X				Oppose	Cannot afford expensive toll roads
07/15/26	Robert Haas	60074				X	X			Safe driving environment	Oppose	
07/15/26		60516	X		X		X				Oppose	
07/15/26	Stacey Sherwood	60152					X		X	Eliminate tolls as the original proposal was 10 years only	Oppose	HELL NO!! We pay enough taxes in this State! You are taxing EVERYONE to leave this State!! You wonder why no one wants to work. By making getting to work even more expensive, you leave very little incentive to work. Vote Red!!!!!!
07/15/26	David Collura	53151	X				X			Safety	Support	You have the ability to detect speeding between tolls. It is time to do something about people going 90+ MPH and putting others in danger. If nothing else, fine the daylights out of speeders and this will fund the toll rode by itself or pay off the state debt.
07/15/26	Maryann Buettner	61046			X		X			No tolls	Oppose	
07/15/26	michael marcheski	60118	X				X			No tolls	Oppose	This will increase inflation. Trucks carrying goods for businesses will charge more for their products. We will not only pay higher tolls, but pay higher prices for products and services. Businesses will just pass the cost on to all Illinois citizens. Not all states have tolls. How does Wisconsin do it? Cut back on payroll, admin, and Union businesses to stop pensions and over paid contractors. Eliminate State employees that manage the toll system. $113,000,000 in salaries to manage the monies from collecting tolls is ridiculous. Another reason to leave the state. Your want more money, put tolls on the Kennedy and Eisenhower expressways through Chicago.
07/15/26	Alfonzo Gambino	60126	X		X		X				Oppose	Toll roads were supposed to be temporary! They keep increasing and our toll roads suck! Why do they blacktop over cement? To keep paying every year to repair! Cement last for approximately 20 years versus black top! Such a scam!!!
07/15/26	Abhishek Parab	47906				X	X		X		Oppose	
07/15/26	Lisa Smith	60189			X	X	X				Oppose	I oppose the proposed Illinois Tollway rate increase. I use the tollway daily to care for my elderly mother. Illinois drivers are already facing higher costs for groceries, housing, insurance, and fuel. Another toll increase would place an additional financial burden on families and commuters who rely on the tollway every day to get to work, school, and medical appointments. Before increasing tolls, I encourage the Illinois Tollway to demonstrate that current revenues are being used as efficiently as possible, identify opportunities to reduce unnecessary spending, and provide greater transparency about how additional funds would be used. Any future increases should be considered only after all reasonable cost-saving measures have been explored and after meaningful public input has been taken into account. Please reject or delay this proposal until a stronger case has been made that a toll increase is truly necessary and that all alternatives have been been fully evaluated.
07/15/26	Nick Szalinski	60441-3931	X		X		X				Oppose	

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/15/26	michael marcheski	60118	X				X			simplier roads	Oppose	Those overhead lane arrows of open and closed lanes is a perfect example of wasting money. I can't even figure out how they help anything??
07/15/26	Jon Welker	60047	X		X	X					Support	Keep improving.....when the traffic moves smoothly it makes for a more pleasurable experience. If we can move along at a reasonable speed with out roadway hazards... then the cost is well worth it!!
07/15/26	Amy Franco	60046	X				X		X		Oppose	This is absolutely insane! You want us, the Illinois drivers to pay for such improvements when we are already struggling! Why don't you tax the rich and leave us hard working people alone.
07/15/26		60467	X					X	X		Support	
07/15/26	Andrew Scherf	60124	X				X		X		Oppose	The cost of everything is going up except my wages. Something has to change.
07/15/26	GeorgeEllis	60177	X				X			I don't care about any of the above	Oppose	Why do so many other states not need toll roads. Just because it's only funded by tolls means that you can't provide non-toll roads because you throw away the money. I will never use a toll road unless it is absolutely the only way. I will make sure that the tolls you receive are minimal. And it is a joke that you all up the tolls automatically because you just want to do it without fanfare so nobody realizes it. How stupid do you think we are?
07/15/26	Dion Stover	60123	X		X		X				Oppose	We are taxed to death in this state and now you want more money? This is getting out of hand. The greed in this country is at an all time high. We can barely afford food on the table.
07/15/26	Pattie	60110	X			X	X				Oppose	ARE YOU KIDDING? I pay more to get to work now than I used to pay for the round trip! The cost went up 112.5% and you want to increase it again? Are you purposely trying to drive people out of Illinois? Stop people from visiting? Let me guess, you wonder why people say Illinois is crooked. This is highway robbery! What happened to the tolls going away when the roads were paid for? Gas isn't costly enough for Illinois residents, groceries... Enough! You are costing residents out of their home state!
07/15/26	Brad Doyle	60543	X				X		X		Neutral	I support it if yhere is an assurance that the revenue generated will only be used for the toll day system and not just Chicago needs or stolen revenue by the state for other projects.
07/15/26	Terry Peglow	60124	X				X	X			Oppose	This astronomical rate hike is absolutely ridiculous! And then it's going to go up every year after?! Thstscthefttur definition of "highest robbery"! The tollway should get rid of workers that are just standing around doing nothing! And tighten their purse strings, as do many Illinois residents have been doing!
07/15/26	Joella Daniels	60410	X	X			X				Oppose	I'm a retired senior who has a fixed income and rarely use the tollways. When I have to go to a doctor appointment or a few necessary trips I shouldn't have to pay such high toll fees.
07/15/26	Antonio Lara	60164-2235			X		X		X		Oppose	Just ridiculous, the toll roads were supposed to pay off in ten years after first opened and now we are almost 50 years in and the prices not only stayed, they are increasing, just do whatever the F you want!
07/15/26	Tom DeJarld	61614	X		X		X				Oppose	I am against the proposal for a new fee for this type of service. We pay enough taxes, and if the general assembly would quit robbing from the motor fuel tax fund, we would not have to pay for these type of improvements in increase of tolls.
07/15/26	SCOTT ACKER	37743	X		X		X				Oppose	Have JB Prisker give some of his billions to fund these.
07/15/26		60477			X	X		X			Oppose	We are already taxed enough in Illinois. Added tolls, fees, and other costs are driving out businesses and residents. How about reducing government spending instead to cover the costs and eliminate spending on illegal aliens.
07/15/26	Danny	60189			X	X	X				Oppose	20 cents is more feasible.
07/15/26	Todd Woodson	60031	X			X	X				Oppose	It's time to move the system to the state government and use taxes to fund the roads. Our highways serve a vital piece in the lives of the community, but the inflation pressure of toll increases strain the people and companies they serve. I continue to see so much commercial trucks on our non-toll roads as they try to limit their time on the toll roads, and this will only increase as the toll fares go higher.
07/15/26	Paul Bertrand	60134	X		X		X				Oppose	An increase in cost will result in alternate routes needing to be chosen, affordability becomes more important than time of travel for me.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/15/26	Charlene Stubbs	60013	X				X		X		Oppose	I thought these tolls were supposed to be temporary and all you do is keep increasing them. It's a sign of poor budget management if you cant figure out how to maintain roads with the exorbitant taxes that we pay. We always wind up paying for your poor management.
07/15/26	Mary Johnston	60123			X	X	X				Oppose	You say the following ;Helps alleviate traffic - allowing people to spend less time on the road and more time with their families Stop-and-go traffic leads to higher fuel consumption and increased brake and engine wear, increasing costs over time." When was the last time you drove anywhere in the morning or evening? I am consistently , daily, sitting in traffic on the tollway. From 630 am to 8 am, 90 is a parking lot. How about the exit from 90E to 294N? Takes 30 minutes to exit! Going west on 90 at 330 is the same. Slow motion! What exactly am I paying for? And the governor is adding additional toll to help Chicago, right? With the gas taxes and tolls it is costing us too much! Maybe bring back the Blagojevich extra tolls for trucks during peak times. The trucks slow down traffic. I have to limit my budget, you guys do the same!
07/15/26	Dino	60070	X				X			no more money	Oppose	no more money to spend
07/15/26	Paco Garcia	60101	X		X		X				Oppose	
07/15/26	Susan Craig	60084	X		X		X				Oppose	I oppose, I do NOT want tolls increased
07/15/26	Tom Norris	60477					X	X	X		Oppose	
07/15/26	Marilyn Davis	60053	X				X		X		Oppose	I often use I-294, which seems to always be under construction somewhere and therefore making it not an ideal choice. The tolls are already quite high, and with gas prices and other expenses now, I don't feel it's right to increase the tolls so dramatically. Also, the toll booth when exiting to O'Hare from 294-North has had reduced lanes for a long time -- another bottleneck that is taking too long to resolve. In summary, the tolls are very high now and with construction constantly impeding traffic flow, it seems to me that better project management is needed more than additional funds in the budget. Thank you.
07/15/26	Diane Laspisa	60174	X				X			quick response to debris, potholes, broken down vehicles and accidents	Oppose	Illinois residents were told by the state that the toll(s) were ONLY to be for the building of the road(s) and the tolls would END when the road(s) was paid for. The state of Illinois lied to its residents, then stated that the monies received by tolls was needed for other programs without explanation or details of where the money was going. Furthermore, we were told that maintenance of the roads would come from normal state taxes. Infrastructure, road and bridge maintenance, etc. as stated here, should NOT come from toll income. If the road(s) is paid for the toll(s) should cease immediately and the state of Illinois should be true to the contract of agreement between it and its residents. IF Illinois residents were informed that the tolls would be ongoing after the roads were funded, and also for other programs, they would NOT have agreed by vote. The state has deceived its citizens, mismanaged taxes and programs, and now proposes to place undue hardship upon its residents.
07/15/26	Kim Benza	60172	X		X		X				Oppose	The Illinois tollway was supposed to be toll-free as soon as it was paid off. There's never any more talk about that. There's only talk about increasing rates and indexing so that future rates can constantly be increased. No, I do not support this bill. We already pay a lot in gasoline tax for our Illinois roads. The tax for teachers does not belong in the gasoline tax. That money should be used for roads only.
07/15/26	John Fennell	60134			X	X	X				Oppose	The Tollway should identify the projects that are most needed and budget accordingly without raising the toll prices. Then prioritize which projects are completed even if that means delaying the start of other projects due to lack of funds. It is absurd that the people of Illinois are being subjected to increased fees in every aspect of life.
07/15/26	Mark Sugihara	60067	X		X		X				Oppose	Ridiculously high increase rate. Provide more incremental increases at smaller rates
07/15/26	Brian Plumb	61257	X				X		X		Oppose	There is no way that a toll increase is warranted. thoroughfare. The tools and let the state handle the repair and maintenance like they do for all state maintained thoroughfares.
07/15/26	D Miller	60453			X		X			Less construction	Oppose	No more tolls period. This was supposed to be temporary from the beginning. Get rid of corruption and then the roads will be paid for.
07/15/26	Carmelo Reyes	60453	X		X					Pricing	Oppose	Fees are already high for consumers. No rate increase should be supported.
07/15/26	Benjamin Leaich	61008	X		X		X				Oppose	For God's sake, stop raising tolls and taxes, and stop spending so much.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/15/26	Chris Paulin	60073					X		X	Keeping the price low	Oppose	Big factor everything is increasing in price with property taxes, cost of living, groceries, and gas. Now we are expected to pay more per ipass scan. American families have had to find alternative ways to make more of less I expect Illinois to do the same. If our solution is to raise prices and not take other factors into consideration where we can save to support initiatives like this im sorry but im opposed
07/15/26	Laura Sychowski	60510			X	X	X				Oppose	It's too big of an increase.
07/15/26	Joy	60445				X	X			Cheaper tolls, underground trains	Oppose	I oppose this strategic plan. Out of state vehicles alone bring in over $200 million yearly. The automated tolling resulted in less jobs in Illinois. It would be great to see no construction on the tollway. Construction has been consistent from as far back as I can recall driving on the tollway in 1999 until now. Invest in using better materials for the roads to decrease need for construction. Save the people of Illinois some money. Invest in wireless charging roads, Piezoelectric Roads, solar roadways. Stop taking from Illinois and start giving to Illinois. I strongly oppose this strategic plan to take more money from the hard working people of Illinois. Enough is enough.
07/15/26	Frank	60002	X				X			I would like to see the administration Tollway budget and how it's spent before I vote on this ridiculous expansion money grabber for the government even though you say state of Illinois is not involved ha.	Oppose	Where is all the money going with the toll rates as it stands now. This is ridiculous the money we have now paying on tolls to maintain the roads that's what you said on that's what we voted on that's what we believe in and now it's not enough. Sounds like cost expenses are out of control based on Revenue sounds like a government run operation in Illinois so typical of our government to drain our pockets for their gain. I am not happy about that.
07/15/26		60108	X				X			Affordability x2	Oppose	
07/15/26	Elaine Catuara	60532	X		X		X				Oppose	Living in Illinois is to the point that it doesn't make sense to live here. Between the taxes increasing every year, and now tolls increasing again, I get the feeling the governor only want illegals living here. That is all I see he is working for. As soon as we can manage we will be moving out of Illinois unless something changes.
07/15/26	Barbara Richter	60451	X			X	X				Oppose	
07/15/26	Susie c Wadsworth	60538	X		X					Toll costs	Oppose	The I-355 Context: When the 17.7-mile North-South Tollway (I-355) was authorized by the legislature in 1984 and construction began in October 1986, it was designed as a tolled facility from the start. By the time the road opened on December 24, 1989, the concept of a "temporary toll" had long been abandoned by the state. If gasoline taxes are used for the infrastructure of the roads and bridges, then where are all the funds going if we need to increase toll rates for the same services.When combining state, local, and federal taxes, drivers in Illinois pay roughly $0.85 per gallon in taxes at the pump. We are ranked second to California in the highest gasoline taxes. Where is all the money going?
07/15/26	Kevin Chambers	60638			X		X		X		Oppose	It is absolutely ridiculous that tolls keep going up. There are no more attendants in the lanes, which means less employees, but somehow, tolls keep rising. The tollway system was meant as a temporary tax, which has now morphed into a cash cow for the state that the taxpayers must be burdened with. I thought Pritzker was for the working people. It is clear that he is for them because they pay whatever he says.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/15/26	Robert Samborski	60053	X				X			Getting road work finished and not taking forever to do it!!!	Oppose	Without drumming up the tollway's original promise to Illinois travelers (slogan of "Free by '73") I would like to point out some of the reasons I am totally against increasing the price of tolls. I personally travel on Interstate 294 regularly for work. The dollars I spend on tolls amount quite a bit. What the heck are you using all the money that we contribute with our tolls? Vast areas of 294 have been under construction for several years with patches here and there finally completed, but the overall picture is very bleak. Massive delays in traffic - even on weekends - whereas I used to like using the tollway for the lesser amount of stress (less traffic than the freeways), but that has not been the case for years now. Trying to get to O'hare off of 294 is a nightmare - construction at the toll to enter 190 to the airport has brought traffic to a near standstill - it's terrible and nothing seems to change. There are construction vehicles that seem to just sit there day after day - and nobody is manning them or completing any construction. Why don't you use the millions of dollars you already are receiving via our tolls and get the darn construction fixed so people can enjoy using the road, instead of gouging Illinois drivers for even more money - which is probably going to line the pockets of the executives of the Tollway's Bureaucracy? Don't ask us for more money - use what you already receive to make all the delays go away. It's sick what you are doing.
07/15/26	Trevor Hutmacher	61036	X		X		X				Oppose	Not only do i oppose an increase, the entire ipass scheme should be dismantled. The entire infrastructure to run it is a complete waste of tax dollars. It was supposed to be a temporary thing in the first place. Additionally, the cameras and information storage bring up constitutionality problems. Please scrap the entire ipass program. its weird how wisconsin can do things better without one. (sarc)
07/15/26	Xiaohua Zhuang	60564	X		X	X					Neutral	If toll will be increased, please consider make the roads free for certain time periods of the day or weeks, so people can have options to arrange their schedules accordingly.
07/15/26	Christina Somerville	60467-7597					X		X	Police patrolled	Oppose	This is an outrageous request. It’s almost as if you are trying to out price yourself to force motorists who cannot afford the fares onto other toll free routes with increasing traffic and commute times on those arteries. Heck, maybe you’ll even get more driving customers frustrated with the overflow on their normal commute. As with the discovery of waste in government and other organizations, I urge you to dig deeper into your own organization instead of opting for the “easy route” of throwing money at the problem. I am aware that you not receiving government money. Remember that when tollroads were first introduced, it was NOT TO BE A PERMANENT COST. And the future toll price increases? It’s out of control. This impacts families as a byproduct of increased cost of products transported across the roadways. We cannot afford this trajectory. Nice try on the “benefit”’of a better family life at home because you get home quicker. Really? That is so NOT TRUE. Manage your money better. That’s what we have to do. Figure it out.
07/15/26	Alex Schwartz	60126	X		X	X					Support	I am supportive of the infrastructure that the Tollway maintains. Tolls are needed to pay for it. Please consider affects on surrounding communities, including the need for bicyclists/pedestrians to cross over the Tollway.
07/15/26	Brian Weigel	60642	X		X		X				Oppose	Perfect timing for the smart people in charge of this committee! When affordability is a significant issue for many Americans and Illinoisians, proposing an increase in tolls which is a regressive tax against low income individuals is a horrifically bad idea. Get your heads out of the sand and realize what everyday Americans and Illinoisians are facing. Find another method to repair the roads that doesn't create further disadvantages for low income households in illinois
07/15/26	J. Johnson	60626			X	X	X				Oppose	The cost of everything is skyrocketing and wages are not increasing. If tolls increase I will be using the tollway a lot less moving forward, and will find alternatives.
07/15/26	Robert/Mark/Ingrid Templeton	60133	X			X	X				Oppose	We oppose the increase. When does it end ? Thet said they would tear out the toll booths in the 70's !

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/15/26	Mark Schneider	60084	X		X		X				Oppose	The amount of money the tollway is planning on wasting to build smart roads and technology seems like thievery. Many aspects of this multi billion dollar program are unneeded and wasteful. 500 million for a "CORE" initiative? what a useless waste of money. The tollway is extraordinarily out of touch with this proposal. Try to find a few ways to not waste too much money on useless programs that people do not need or want. Spending multiple billions of dollars on "smart" roads is very wasteful. The road needs to be flat, clean and open. Nothing else.
07/15/26	Jason	60445			X		X			People being held accountable for recklace driving.	Oppose	WTF?! Stop stealing our money. Get fiscally responsible, stop wasting money and stop fraud. Get creative. Lower toll rates and Make the speed limit 75. Put up cameras, anyway caught doing 15 over gets a $50 ticket, 20 over $100, 25 over $200 and so on. People can save by driving careful. How can you not see that regular hard working people are leaving. This is insanity.
07/15/26	SHASHIKANT Patel	60107	X		X		X				Oppose	Should be senior citizen special discount please
07/15/26	Anna	60561	X			X	X				Oppose	Stop taking our money for shitty roads!
07/15/26	Lori Reiss	60137	X		X		X				Oppose	I have avoided using the toll roads as much as possible. They are costly to use & according to my map navigation system, they aren't saving me much in the way of time.
07/15/26	Sheila	60067	X				X		X		Oppose	
07/15/26	R.Goodlow	60429	X				X			All of this tollway construction is too dangerous	Oppose	Residents of Illinois can't afford anymore increases of anything (fees, taxes, etc.)
07/15/26	Dennis A, Schafrik	60016	X			X	X				Oppose	Another toll increase only leads to wastfullness. The previous increase was huge and it wasn't all that long ago. Right after the increase, they rebuilt all of the oaseses and now they tore down half of them. When the tollway was first built, the tolls were only suppose to be temporary. This dosen't look very temporary to me.
07/15/26	Tracy Lackey	60031	X			X			X		Neutral	The increase seems high, especially in certain areas. Raising 45 cents on every pass through on 390 is ridiculous, there are 4 i go under in 10 miles. The tollway does a decent job, but there is no need r o have a high increase, and then another yearly increase from there on out.
07/15/26	Julie	60140	X			X	X				Oppose	Too expensive! I already avoid the tollways as much as possible because of the high cost now. If even higher-will just stop using all together
07/15/26	David Hammond	60077	X		X		X				Oppose	Absolutely no toll hikes and especially no ongoing rate hikes. The taxes and fees we pay are already too costly and a better option would be to audit the entire system, remove redundancies and waste, and eliminate the tolls which were promised to go away. The system would also benefit by replacing all asphalt with concrete for durability and sustainability thus eliminating all of the continuous on-going recurring and expensive resurfacing
07/15/26	Jason	60187				X	X			Your biasing answers with a forced 3 choices and options given.	Oppose	Increases funds from gas tax lock box should only be used and not increase rates . Forcing a choose three with the options given results in a biased poll.
07/15/26	Arlene Leodler	60401	X			X	X				Oppose	The proposed increase is way too much! Cut back on the number on your board and their salary.
07/15/26	Richard Mason	60453					X		X	Cost effective	Oppose	I strongly oppose this proposal. It is yet another tax and given the other increases it is tone-deaf to ask for such a large and unnecessary increase. I also object to the biased responses for factors and how one-sided they are and are leading to support this egregious money grab.
07/15/26	Robert Lawyer	60102				X	X		X		Oppose	We are tired of being taxed more and more. We do not want increases. Manage the funds better. When's the last time we audited internal waste within the tollway?

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/15/26	Tom Radovich	60451	X				X			Cost	Oppose	Why are the tolls on I-355 south of I-55 to its end at RT 6, SO HIGH AS COMPARED TO ALL OTHER TOLLS / even to submit this form is a joke, you want to steer me into an area that leads me to answer 3 factors as a diversion. I came to this site to voice my opinion, I feel the tolls are wrong and extremely high already in my area I have mentioned, and NO I don't agree with the increases . I feel we need a out the tollway board to Oversight this proposal
07/15/26	Jose E. Giraldo	60133			X		X			That the state remove all tollways	Oppose	Tollways where supposed to be a temporary solution years ago, but the system realized they could add another tax to us and we would forget. Remove all tollways.
07/15/26	Juana Ramirez	60504	X				X			Keeping tolls affordable without increasing rates.	Oppose	I oppose any increase in tolls. The Illinois Tollway should focus on improving efficiency and using existing revenue before asking drivers to pay more.
07/15/26	MARYJO F SCHALEY	60542	X		X					no traffic lights	Oppose	I am against raising the cost to use the tollway as it will force more people to use freeways. This will not save either fuel or gas. It will increase the wear and tear costs on the free roads. We need to lower tollway cost to encourage their use. Divert traffic away from densely populated roadways.
07/15/26	tim schlie	60805			X		X			Safety - More Police presence to curb speeding	Oppose	Work within your budget and if it can't be done, then too bad. NO MORE TAXES.
07/15/26	Christine	60543	X			X				Fix the pot holes. You have cost me money & time because hitting a pot hole.	Oppose	IL is one of the most corrupt states and most expensive places to live. Please stop making it so hard for the residents of IL to afford this state. It's outrageous. And there are still pot holes. You have blown my tires more than twice. Help us, stop hurting us. Thank you
07/15/26	Marcia	60516	X				X	X			Oppose	
07/15/26	Ken Ciombor	60124					X		X	Because of tolls I avoid those roads	Oppose	The Illinois Tollway authority says they are fully funded for projects and maintenance. This is a cash grab for the governor
07/15/26	robert wojnicki	60655	X	X	X						Support	As a frequent traveler of the tollways, I'm always looking for improvements
07/15/26	Maxine	60076			X		X		X		Oppose	
07/15/26	Susan VandeMerkt	60139	X				X		X		Oppose	Toll ways were instituted initially as a temporary fix to build infrastructure and have now become a never ending "tax" on Illinois drivers. Tolls are already too expensive and the roads are not maintained, many are in poor condition and thus are in constant state of repair which adds to traffic congestion. Illinois is one of only a few states with toll roads. Find a better way to fund your projects than charging already financially stressed tax payers higher fees to use the roads.
07/15/26	private	60172	X			X	X				Oppose	already expensive
07/15/26	John Draut	60532	X		X		X				Oppose	The cost is too high right now abusing it even higher will force me to use alternative routes the cost benefit is a joke
07/15/26	Alan Guzman	60431	X		X	X					Oppose	

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/15/26	Ion F Lungu	60067		X		X		X			Oppose	To Whom It May Concern, I am submitting this public comment as an owner-operator in the commercial trucking industry, operating regularly on Illinois Tollway corridors. I respectfully oppose the proposed toll rate increase and urge the Illinois Tollway to reconsider this decision without first providing full transparency and accountability regarding the use of existing toll revenues. As an owner-operator, I am already subject to multiple layers of taxation and fees specifically designated for highway infrastructure. These include federal and state fuel taxes, the International Fuel Tax Agreement (IFTA), the Federal Heavy Vehicle Use Tax (HVUT), and various state registration fees — all of which are expressly intended to fund road construction and maintenance. Imposing an additional toll rate increase on top of these existing obligations constitutes, in practical terms, double taxation on the commercial trucking industry. The commercial trucking industry is the backbone of Illinois commerce. Semi-trucks operate continuously across all lanes of Illinois Tollway corridors, generating enormous revenue for the state. Despite this, road conditions on many Illinois toll corridors remain inadequate — with poor pavement quality, insufficient maintenance, and deteriorating surfaces that increase operating costs and safety risks for professional drivers and the motoring public alike. Before any rate increase is approved, I respectfully request that the Illinois Tollway provide the following: 1. A full public accounting of how current toll revenues have been allocated and spent. 2. A clear explanation of why existing revenue streams — including IFTA distributions and federal highway funds — are insufficient to fund the Driving Connections capital program. 3. A specific breakdown of how the proposed rate increase will directly improve pavement quality and road conditions on corridors with the heaviest commercial traffic. 4. An assessment of the economic impact this increase will have on owner-operators and small trucking businesses that operate on thin margins. The trucking industry does not oppose investment in infrastructure — we depend on it. However, we deserve assurance that our contributions are being used effectively and that any new financial burden is truly necessary and justified. I urge the Illinois Tollway to pursue alternative funding mechanisms, maximize the use of existing federal infrastructure allocations, and engage more meaningfully with the commercial trucking community before proceeding with this rate increase. Thank you for the opportunity to submit this comment for the official public record.
07/15/26	Karen Passarella	60025				X	X			there aren't three - only the two I selected	Oppose	Right now the price justifies the time savings but if the tolls would increase in price by as much as you are proposing and then every two years becomes less justifyible.
07/15/26	Pete Gorsky	60441				X	X			Not being fleeced every few miles	Oppose	Affordability it's already an issue. And the tollways were never intended to be a source of revenue. Adding a few construction jobs which are temporary and then adding more temporary jobs with resurfacing? No thank you.
07/15/26	Jeanette Schneider	60914	X		X		X				Oppose	I think the increases you are proposing are way too much for the average person. With the cost of everything, this will deter people from using the tollways.
07/15/26	Stanley Leonard	60067-7227	X			X	X				Oppose	What is wrong with this state and its roads. How about learning how European highways are constructed? This is nothing but a big slush fund. There was talk at one time of removing the tollway system. What happened to that? Like any contractor I hire that can't preform proper work, I make them repair their bad work for free! Stop giving kick backs and bonuses for bad poorly installed work! How about the tollway look into reducing it staff and payroll first? Have you ever stood in your lines to get help? I have. How about a reduce rate for senior citizens?
07/15/26	Jorge Lopez	60657		X			X		X		Neutral	
07/15/26	CATHY PETERSONJENNINGS	48381	X			X	X				Oppose	Trucks & other large vehicles do the most damage to roads, NOT passenger vehicles. Please assess necessary increases to the trucks & commercial vehicles. They have tax advantages for these charges so impact will be minimal to their operating expenses. Thank you!
07/15/26	Dave Wilson	61115	X			X	X				Oppose	the tollway already has plenty of money
07/15/26	Linda	60638	X		X		X				Oppose	Quit giving money for illegals and liberal nonsense and use our tax dollars wisely for those of us who earned it! GET PRITZKER OUT!!!!!! VOTE RED!!!!!

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/15/26	Karen Rosenthal	60053	X				X		X		Oppose	We will just have to allow time to take alternate roads to avoid the tollway
07/15/26	Matt	60142	X		X		X				Oppose	No raise in tolls
07/15/26	jared	60025	X		X		X				Oppose	this is criminal. the tollways were never meant to be a permanent revenue stream for the city. we deal with permanent traffic in this city, on every route, in perpetuity. this all but guarantees that to continue, causing delays and havoc until the next program like this gets announced in 10 years time. Enough is enough. Do better.
07/15/26	Alice	60634	X				X		X		Oppose	Illinois is unbelievably expensive now. Prices, taxes, fees, etc keep rising and the average Joe's income does not. I'm a senior citizen. My social security check is barely enough now. I have little savings. My mom is still living but I'd move somewhere cheaper if I could. It's unbelievable how so many in power fail to think of the little guys
07/15/26	Tinika	60565				X	X		X		Oppose	I am 100% opposed to the proposed toll rate increase. An additional 45 cents per toll for passenger vehicles, a 30% increase for commercial vehicles, and automatic increases tied to the Consumer Price Index would place an unfair and ongoing financial burden on Illinois residents and businesses. Drivers are already dealing with rising costs across the board. The Capital Program should not be funded primarily by placing even more pressure on the people who depend on the Tollway every day. I strongly urge the Board to explore alternative funding options and reject this rate increase.
07/15/26	Sneha Saraf	60503	X				X		X		Neutral	Not a fan of the increased toll costs, but I don't really have an issue with it as long as it's for a good cause.
07/15/26	Cara Blevins	60541	X		X		X				Oppose	The amount of money that the tollway system takes in daily should be more than enough to maintain the roads and plan for future developments. I find it amazing how other states manage their roads with NO tolls. The corruption and mismanagement of funds is criminal! Illinois does a great job of making people relocate out of this state!
07/15/26	Laura gudmundsen	60440	X		X		X				Oppose	Stop making us give you most of our paychecks. We can't afford to live here anymore
07/15/26	Robert Kaiser	60137-7094			X		X			Construction Projects that respect budgets & deadlines	Oppose	Tollway funds have previously been diverted elsewhere, and future tolls should not go anywhere else but to improving the tollways. The costs on drivers are already too high. Increase the rate for trucks (only) who damage the roads much quicker and have companies to pay the cost.
07/15/26		60714		X			X			Free	Oppose	
07/15/26	Paula Lymqn	60304	X				X		X		Oppose	I oppose the rate increase, i would like transparentcy .i feel the amount of tolls collected per day should be able to pay for inprovementd and repairs. You no longer have toll booth attendents which saves money and all the fines & fees that are charged . I have paid over thousand dollars and the year is not over for basic transportation to get from place to place!
07/15/26	Tawana Campbell	60418	X		X		X				Oppose	
07/15/26	Robert Modine	60552	X			X	X				Oppose	We do not use the tollway often, however it does provide the best method for us to get places when needed. I oppose this increase. We are senior citizens on fixed incomes and increases like this are hard for us. When the toll roads were built many years ago, there was a plan in place to eliminate the tolls by a certain date. Apparently, that plan was scrapped very quickly. We have seen nothing but increases to these tolls over the years and this latest one is causing us to reconsider using the tollway system at all unless absolutely necessary. Please reconsider this increase.
07/15/26	David Bemis	60554	X				X		X		Oppose	Typical Illinois grift: we're going to stick you with a big increase, but the real trick is we're going to raise your tolls every year til hell freezes over. Automatic toll increases is a BIG NO WAY. And I scoured your website looking for what this wonderful new project is going to look like - and I CAN'T FIND ANY SOLID INFORMATION ANYWHERE. Typical Illinois grift.
07/15/26	Robert Delafeld	61284	X		X		X				Oppose	Were the tolls not originally meant to fund the toll roads, not maintain them? Spend money from somewhere else to fund it, like instead of funding illegal immigrants. Get rid of tolls, or just make out of towner's pay tolls. Quit taxing the hell out of us.
07/15/26	Rob Deming	60613	X	X	X						Support	

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/15/26	James Kizer	60083	X				X			Less tolls	Oppose	To drive in , illinois is getting unaffordable for the working class. Super high gas taxes every year.Taxing the car that I drive tax go up every year. You say we have good maintain roads, but there's potholes. All over the highway, 294 in the winter. You wait until the snow is almost stopped falling. Too many accidents because of no plowing.\nLike I said , you're making driving illinois unaffordable for the working class who paid for everything , it's time to give us a break
07/15/26	Nancy Teschke	60451			X		X		X		Oppose	Overpriced already

07/15/26	David Brown	60441	X		X	X					Oppose	The price of diesel is sky high and you want to bump up the tolls on trucks by 30%. This is typical Illinois bullshit!
07/15/26	Leslie Morrow	49107	X		X					Safer commute from Michigan to Illinois	Oppose	The toll is already too expensive as it is.
07/15/26	Russell Palmerton	54405	X				X		X		Neutral	I'm an occasional user, but if the toll gets too much more expensive I will be considering a different route if I have no need to go into the city.
07/15/26	Cynthia Lasco	61032	X		X		X				Oppose	Tolls were supposed to be discontinued a long time ago Instead the price just keeps going up on the tolls and the roads are still not very good. Instead of expanding the budget every year, spend less on pet projects, and things that don't help the hard working people of IL. Taxes on everything keep going up and it is hurting all of us.
07/15/26	Dariusz Pietrzykowski	60123	X				X	X			Oppose	The proposed increase alleges that this is ease congestion. The problem with congestion is not on the tollway. Congestion is with other highways that are not tollways that back-up and I don't belive "any" increase is warranted as the tolls should be to maintain existing roadways and not a constant rehabilitation development project that is never ending. Those projects will cause more congestion than its worth. The cost currently is high enough that you have surpluses. Therefore, I respectfully urge the Board to reject the proposed toll increase for passenger vehicles and commercial traffic. The Illinois Tollway's own financial reports show that current toll revenues already generate far more money than is needed for day-to-day maintenance and operations. According to the Tollway's 2024 financial information: • Total projected revenue was approximately $1.64 billion. • Maintenance and operations expenses were approximately $451 million. • Net revenue remaining after maintenance and operations exceeded $1.19 billion. • Even after debt service payments of approximately $529 million, the Tollway still retained more than $660 million for capital projects and reserve accounts. Similarly, the Tollway's audited 2023 financial statements reported: • More than $1.6 billion in operating revenue. • Approximately $416 million in maintenance and operating expenses. • Net operating revenue of approximately $1.19 billion. These figures demonstrate that maintenance and operating costs represent only about one-quarter of annual Tollway revenue. The remaining funds are directed toward debt service, expansion projects, reconstruction programs, and other capital initiatives. While infrastructure investment is important, it is difficult to justify additional toll increases when the Tollway already collects nearly four times its annual maintenance and operating costs in revenue. Many Illinois residents were originally promised that toll roads would eventually become self-sustaining and that tolls would not become a perpetual source of increasing revenue. Yet motorists continue to face higher costs despite the Tollway generating substantial annual surpluses above operating needs. Before imposing additional financial burdens on commuters, families, and businesses, the Board should: Demonstrate why existing revenues are insufficient. Explain why current capital plans cannot be prioritized within existing revenue streams. Provide a transparent accounting showing how every additional dollar from the proposed increase would be spent. Explore cost reductions and project prioritization before increasing tolls on Illinois drivers. Illinois motorists have already funded the Tollway system through decades of toll payments. Given the Tollway's strong revenue position and significant margin above maintenance costs, I respectfully request that the

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/15/26	Harold Heather	60135	X			X	X				Oppose	The purposed toll increases will certainly provide congestion relief on the toll way system, however those who will no longer be utilizing the toll roads will be causing additional congestion on the secondary roads they will be using to go to where they need to go. I appreciate the ongoing improvements, but the charges you are looking to impose will be making me look for alternate routes, which means that I will be spending more time in traffic causing additional pollution and other than making the traffic on the toll roads less congested, it will miss an objective or two that you have stated. Your budget is vague and I haven't been able to find any information where the budget is balanced against any actual incomes or expenses. It is hard to determine what the realities are with the finances for the Toll Way Authority. So much for transparency. Your new capital program sounds good until you list the costs, do you really need to raise tolls by 45 cents per toll? Raising tolls by 50 to 100% is not being responsible to the citizens who pay both road taxes and tolls. I think you can and should do better.
07/15/26	DICK	60445		X	X		X				Oppose	2 tolls to work and 2 tolls back home. That would be $1,200 a year roughly! THATS F RIDICULOUS!
07/15/26	Christina Perez	60106	X				X			No pot holes	Oppose	I think the increase is too high per toll
07/15/26	Jim Kazmierczak	60433						X	X	None of things are experienced on our current toll roads	Oppose	This is bullshit. Stop stealing our money. I'll have to quit my job in education that I love to find a job closer to home because you morons can't stick a budget.
07/15/26	Frank Ramirez	53511	X	X	X						Support	
07/15/26	Charles Cafaro	61528	X				X			NO MORE TOLL INCREASES	Oppose	STOP YOUR TAX INCREASES AND CONTROL YOUR SPENDING
07/15/26		60647	X			X	X				Support	
07/15/26	Thomas Mucklin	53406	X		X					Reasonable tolls, especially for us Wisconsinites!	Support	It's about time to increase tolls to better serve your clients in ALL aspects of the operation! It's been too long coming!
07/15/26	Mark	60140			X		X			What happened with toll-free in '73?	Oppose	The overall taxes should be considered in transportation, such as this. Why can other metropolitan areas do it with far less costs? These tolls are ridiculous. This is why people are leaving Illinois.
07/15/26	Virginia	60478	X				X	X			Oppose	We have been paying for the roads for a long time, and some of the roads are terrible, you fixing the same ones over, over again while the neighborhood roads are terrible, their is enough money that should have been fixing all the broken bridges in my lifetime, two much greed, just keep on taking from consumers, saying it's helping us! The toll road was only supposed to be for period of time!! Some of overpass roads go in to one another, where as drivers have a hard time trying to see where they are going? No wonder it's a lot of accidents between trucks, cars, and construction.
07/15/26	Jean Rutschke	61614				X	X	X			Oppose	Too expensive
07/15/26	Greg Buresh	60090			X		X			Nothing else	Oppose	You lost the Bears and we're paying for it?
07/15/26		60134	X		X		X				Oppose	Make the billionaires of the state fund the money necessary for these projects, after all, they have the money (and could afford it). Don't they? Please do not raise tolls, rates, taxes, or anything else for us less fortunate people. I'm looking forward to the email that notifies us all that you're decreasing tolls, rates, and taxes because you've been so fiscally responsible that there's an amazing surplus to give back to the people.
07/15/26	Kathleen Miller	60013			X		X			I avoid highways to save money	Oppose	Are you people nuts? High property tax, high income tax, high sales tax, high gas tax and now you want to raise tolls too? Remember when tolls were put in just to cover the cost of building the road you were driving on and then they would be removed?? 07/15/26	Chad B.	60090-6749			X		X		X		Oppose	The state does not have a revenue issue - it's a spending issue. Stop taxing us to death! I would move if I could.
07/15/26	Rea Rondinelli	60172	X			X	X				Oppose	When the toll roads first came into fruition the tolls were supposed to end after the roads were paid for. Obviously, that never happened. For some reason we are not able to maintain our roads as well as Germany and many other countries. They seem to build roads that last well beyond ours. Figure out what we are doing wrong and make our roads last longer without constant repairs.
07/15/26	Sharon Hrycyk	60193	X				X		X		Oppose	This tollway was supposed to be paid for years ago. The tolls were supposed to be stopped. Our roads are terrible!! Once you leave Illinois, you can see the difference on other states on there roads.
07/15/26	Bill Denton	60188		X	X		X				Oppose	How is it that many other states get by without tolls? This has just become a cash cow for the state !
07/15/26	Shelbie Detzler	60126	X	X	X						Oppose	Stop swindling our $$
07/15/26	Steve	60185			X	X	X				Oppose	Fuck your toll increases every they are high enough
07/15/26	Johnny	60046	X				X		X		Oppose	This is simply absurd! The road ways are constantly under repair because of the need to satisfy the UNION contracts. They use substandard materials, absolutely ooze inefficiency and cost a TON of money. How about all of the Illinoisians that have endured significant costs caused by substandard road conditions? Ever pay US back for repairs or damage to our cars? NOPE. This state literally continues to STEAL taxpayers money, add tax increases to everything, and FAIL its citizens. SHAME ON ALL OF YOU!
07/15/26	Rev. Francis S. Tebbe, O.F.M.	60464	X		X		X				Oppose	Roads are terrible and all the money we pay goes into big fat political big mouths!
07/15/26	Dan	60453	X				X		X		Oppose	Toll way was suppose to be temporary. Shouldnt have to pay to be on a road when we already pay taxes. Unreal people.
07/15/26	Linda Sarlo	60034			X	X	X				Oppose	Can't afford an increase.
07/15/26	Yuliya M.	60641	X				X		X		Oppose	Thank you for the work that Illinois Tollway does to maintain and improve our road system. I understand that infrastructure is expensive and that roads require ongoing investment. However, I do not support the proposed toll increase. My family uses the Tollway several times every week to get to work. This is not a luxury for us—it is a necessity. Like many Illinois residents, we are already dealing with higher costs for groceries, housing, insurance, utilities, and many other everyday expenses. Another increase in transportation costs will place an additional burden on working families. Before asking drivers to pay more, I encourage Illinois Tollway and state leaders to explore other funding options, including greater support from existing public revenues or other budget priorities. Many residents already pay significant state and local taxes and hope those resources can play a larger role in maintaining critical infrastructure. I also believe it is important for residents to see clear, measurable improvements in road conditions before being asked to pay substantially higher tolls. If additional funding is truly necessary, I would prefer a more gradual approach to any future increases. Please consider the financial impact on everyday commuters when making your final decision. Thank you for considering my comments.
07/15/26	Robert A.	60174	X			X	X				Oppose	The toll was supposed to pay for the construction of the road and then go away. Yet here we are. We are not giving the state anymore money. Audit yourself and balance your budget. Then we can talk about new money and projects. It's a hard NO.
07/15/26	Charles	53144			X	X	X				Oppose	If you increase the toll next year with the option of increasing in future years, it will make me either take non-toll roads or take the train. I live in Wisconsin and use the tollway frequently so making it more expensive year after year will definitely make me reconsider my transportation options.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/15/26	Richard maternowski	60133	X		X		X				Oppose	Way to costly keep the toll money on the road and infrastructure repairs that is already generated we don't need rot hike the tolls to me other regions - that's BS 😡
07/15/26	David Keeney	60453					X	X		No need to expand this monster further.	Oppose	The current expansion not yet done, you're already looking to soak the tax and toll payers for more? Enough is enough, shut down this ever-expanding bureaucracy! "Toll Free by '33!" Better to keep a promise late than never.
07/15/26	Angie Swank	48840			X		X			affordability	Oppose	Taxes are so high, gas is so high, and now you want to raise tolls? It's outrageous
07/15/26	Chris Schweder	60050			X		X			Affordability	Oppose	You guys really think Illinois needs another tax hike? People are allay traced to death in this state, the roads still suck for years, so obviously our "toll money" isn't going to the roads. It's no wonder why people are leaving Illinois in flocks.
07/15/26	Debra Fitzpatrick	60914	X		X		X				Oppose	This is another BS tax because none of you democrats can manage our money. Reckless, stupid spending on illegals and sticking it to the actual workers and taxpayers of IL.
07/15/26	Rick Trump	60487	X		X		X				Oppose	A $.45 increase for each toll is ridiculous. What happened to "no tolls by '73"?
07/15/26	Charles	60151	X		X		X				Oppose	We already pay the most taxes than any other state. How about we figure out where that money is going and use that to help fund the projects.
07/15/26	Maribel Celletti	61109	X		X		X				Oppose	Enough is Enough!!!!!!!!!!!!!!!
07/15/26	Justin Woodward	46807			X		X			Not being tracked	Oppose	Another grab for our money from a failed state.
07/15/26	Bridget Blackwood	60411	X				X			Better oversight over the companies hired to repair roads.	Oppose	I've noticed over about 50 years of traveling on Illinois tollways that there never a time when some large section of them are under construction. It seems to me that that maybe the tollway authority should have paid better attention to the quality of the construction that has been done so that it would require less construction in the future. And unless and until the tollway authority can demonstrate fiscal prudence with taxpayer money by making sure contractors are building the highest quality, longest lasting roads possible I will strongly oppose any proposal to increase tolls.
07/15/26	Brian G	60558	X			X	X				Oppose	If the tollway budget is balanced or overfunded, why raise the rates now. Gas is already near an all time high.
07/15/26	Christopher Jackson	60586-1685	X				X			None	Oppose	There is no need for this! You want to steal more that's the truth. I avoid toll roads every chance I get now. Pull this crap and I will never pay a toll again.
07/15/26	Tim Rapalee	61254	X			X	X				Oppose	Illinois is already a very high tax state, and this is just another way to burden the citizens. Illinois needs to become more efficient with the income it already takes in. No state employees are ever held responsible for their terrible fiscal performance, they should not be rewarded with more money to waste.
07/15/26	Travis Wolter	48638	X			X	X				Oppose	Exactly how many $M did you collect from travelers in the last 24 hours? Where exactly did all that money get spent? You've doubled rates several times in recent years. Surely some projects have been paid off and you should actually be lowering rates.
07/15/26	Joe Tucker	60559	X				X			less construction in the same places over and over.	Oppose	just another tax we will never get back. where is the money we pay in now?
07/15/26	Travis Wolter	48638			X	X	X				Oppose	You want to hear from tollway users? Really? Every single one of us not in tollway management wants toll rates to go down.
07/15/26	katie hodak	60561			X		X			Most direct route	Oppose	This is insane- I have understood that the toll road already had a surplus
07/15/26	Amanda Riordan	60610	X		X	X					Support	
07/15/26	rick roeschel	60152	X				X			fuck you	Oppose	its bullshit for a toll increase roads fucking suck fuck you assholes and fuck JB fatass
07/15/26	Edward H Trendle	60455	X				X		X		Oppose	Since the beginning of the initial Toll Way construction the state stated th toll was only temporary. also why wasn't the toll way constructed as it is now. seems to me the board that runs the tollway is only making sure they have a pay check at the peoples expense.
07/15/26	Lee Dunn	60423	X				X			I only have 2 needs	Oppose	This is a huge rate increase for those of us who drive a long way daily. I do not believe it will improve congestion, and I don't see any accountability for the funds already received. Furthermore, after covid you have not had toll both staff to pay. That alone should have provided a lot of funds. Please do NOT increase the toll rates. The governor has already done it and it is so terribly expensive to live in Illinois without having to pay just to drive on the roads.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/15/26	Dennis DiValerio	60102	X		X		X				Oppose	With all the taxes levied on people living in this highly taxed state you would think there is enough money to maintain and improve roads instead of maintaining illegals who pay no taxes. I say BS to your budget and your proposals to make travel prohibitively expensive with tolls and gas taxes. Illinois sucks.
07/15/26	Scott Sisney	60613	X		X		X				Oppose	8 miles of Smartroads is an absolute waste of money the benefit will NOT recoup the expense. The funds don't address critical needs to reduce traffic such as widening roads in key areas that experience long wait times aka commuter traffic in and around the city. How about you showcase current traffic times and future afterwards?
07/15/26	Michael Napoli	60031					X	X		reduce toll costs	Oppose	this state needs to reduce spending - costs . I am against increase taxes and toll increases. SSA does not keep up with the taxes - fees and insurance premiums.
07/15/26	Alan Harbut	61073	X	X			X				Oppose	Don't like the automatic increases every two years built into the program.
07/15/26	Paul Rawle	60506	X				X			Lowering the cost of tolls, this was supposed to be eliminated 30 years ago.People can't afford this , and I'll have to take alternative route to work	Oppose	The tolls were supposed to be eliminated 30 years ago.We're already paying for this in our taxes will not be able to afford to take the tolls , no more
07/15/26		52302	X			X	X				Oppose	
07/15/26	GREGORY	60641			X	X	X				Oppose	Too expensive
07/15/26	G. Sewell	60406	X		X		X				Oppose	We pay so much money's for everything in Illinois. When will we stop price gouging? Why do we have to pay to drive on the road? Our property tax, state tax, sales tax & federal tax should cover these types of expensive. People run this state into the ground with poor budgeting , no financial qualification, nefarious dealings, then increases are passed off to residents of the state. People can barely afford to live here anymore. Please note the Lottery didn't help our schools and the casinos do nothing for the communities they're built in. No resolution to budget shortfalls, but to raise prices. Let's do better Illinois, the people deserve better! I suggest a 5 cent increase as a reasonable increase over that amount is just greed.
07/15/26	Jeff	60423			X	X	X				Oppose	
07/15/26		60451	X				X			Nothing else	Oppose	An increase of 45 cents per toll is more than most people can afford
07/15/26	Dominic Venice	60560			X			X		Incentives for carpooling. And Wildlife crossings.	Neutral	Most of the project plans that you have listed sound like general maintenance of a highway. You have been collecting tolls for decades and you want to raise prices to pay for what seems like projects that should be completed with the funds you have already collected.... Additionally, where are the projects to increase incentives for carpooling? How are you connecting to train lines and bus stops? I encourage you to think about pushing to reduce the number of cars on the road by incentivising drivers to carpool or something like that. Lastly, where is your focus on the surrounding environment? Why do you not consider or prioritize wildlife crossings? Could you build something that filters road water runoff before it hits the streams and lakes around the roads? There is tire pieces and chemicals that melt ice in that water. It's bad for the surrounding environment. I encourage you to prioritize other things that just rebuilding bridges and paving roads. Thanks!
07/15/26	Kevin Busby	60014	X		X		X				Oppose	The cost is far too high for what we are getting. Why do we have to have another cost increase in order to live daily life. Find better deals, reduce the toll increase, and make the implementation have a quicker turnaround. Please stop padding the pockets of greedy or "well connected" construction companies and get better prices more similar to what the private market would get.
07/15/26	Melina Cehajic	63060	X				X		X		Oppose	They are already very expensive and there is way to many

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/15/26	Michael Knasiak	60146		X			X			No Tolls	Oppose	There's nothing to say. This is just the most corrupt state in the whole damn country. Just another way for you to squeeze more money out of the people. I think I'll pass. I won't use the tollway anymore.
07/15/26	Dagmar Esposito	60490	X	X			X				Oppose	The toll was first started to pay for the roads and was suppose to stop, once the roads were paid for. I have heard of other states doing exactly that, they stopped the toll after they paid for the road work. But NOOOOO IL just keeps raising the toll and putting MORE burden on the people living in IL. Higher taxes, higher tolls, higher water bills etc - you are bleeding us DRY! Damn right I am opposing, waste less money and stay within your means, you make enough money!!
07/15/26	Chris	60532	X		X		X				Oppose	With cost of living continuing to increase, a proposed toll increase feels both tone-deaf and ill-timed. Furthermore, there are many documented funding sources for the Tollway that seem to send money to nowhere. Priorities for fund use need to be publicly reevaluated before any increase in tolls is even considered, let alone proposed.
07/15/26	Anandhi	60089	X			X			X		Oppose	
07/15/26	Michele	60517					X	X		Less construction	Oppose	The price of tolls is already ridiculous. This toll increase would make me seriously consider leaving Illinois, and definitely staying off the toll roads.
07/15/26	DMac	60565	X	X		X					Support	
07/15/26	Sum Ting Wong	60046			X		X			NO MORE TOLLS	Oppose	Tolls were never supposed to be permanent. You greedy politicians need to stop fleecing the residents. Otherwise we are outta here.
07/15/26	Wil Kern	60612	X		X		X				Oppose	I am personally ok with a toll increase, however I am against pinning increases to the consumer price index. I believe that one of the great things about the tollway is that we can still have a great system that's still quite affordable. Increases every other year will make the tollway unaffordable for a lot of people, throwing more people onto the non-toll roads and making traffic significantly worse. Illinois Tollway strikes a very delicate balance and I think toll increases need to be carefully thought over and done on an individual basis instead of pinning it to an index.
07/15/26	Sean	60187	X			X		X			Oppose	I would prefer this amount of money to be spent on public transportation instead. Investment in more trains and train tracks and train frequency, especially. But also more buses.
07/15/26	Robert R Brigando	54495	X		X		X				Oppose	I left Illinois because of the continually increasing cost of living, poor management throughout state and local government, and the high cost of owning a vehicle. Taxpayers pay significant amounts in taxes and fees, yet the roads remain in poor condition. It often feels as though the system is more focused on spending money than delivering results. One example is the way road construction is managed. Highways are frequently reduced to a single lane for stretches of 20 to 60 miles, yet there are long sections where no work is being done. These extended construction zones create unnecessary congestion and delays. Much of the gridlock appears to be the result of inefficient planning rather than the actual work itself. I believe the state already collects ample tax revenue. Rather than continually increasing costs for residents, there should be greater accountability and more effective management to ensure taxpayers receive the quality infrastructure and public services they are paying for.
07/15/26	Carl Boutilier	60189	X				X			gokkmbb	Oppose	Lying Illinois politicians. The whole premise at the beginning was that this was temporary. Not only a lie, but very expensive, and going way up. Now, to make things better we will have to suffer with construction for 15 years? I want to keep my money but will have to move out of this forsaken state to accomplish that. You all should be ashamed.
07/15/26	Calli	61081	X				X			NA	Oppose	Taxed Enough
07/15/26	Alex Lefter	60044				X	X			Reduced travel time	Oppose	There are already a lot of funds allocated every year for toll road maintenance, a lot of it also from federal funds. There is no need to do road resurfacing that often. I see this proposal as am attempt for the Illinois government to reduce the budget deficit. The generations to come want lower taxes and fees, otherwise they will all live in other states, not in Illinois.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/15/26	Joseph Nowosieski	60140	X			X	X				Oppose	I am 76 years old so I remember the promises that were made that the original toll roads would be made free. Over the years we have routinely heard of corruption and poor handling of money. To make things worse the Tollway Authority has spent millions in work at the entrance to I294 tollway from southbound I290, and the merge of I90 exit to Route 53 at Woodfield and after all of those expenses they never got it right, We need to stop giving folks who lack competence more monet to waste.
07/15/26	Chelsea Lynn	60013	X			X		X			Neutral	NO NEW LANES!!!! Please STOP adding infrastructure that we will have to pay to maintain in the future! The ballooning costs of maintaining all of this are further exploded by continuing to build more and more that adds more and more future maintenance costs. It's a giant Ponzi scheme that's going to bankrupt us all. Maintain what we've got, decommission what's not being used, and find ways to more more people in less space.
07/15/26	Mary	61252				X	X			Bla bla bla	Oppose	Once again help Chicago and screw the rest of the state. I don't drive to Chicago any more. It's become too unsafe!
07/15/26	Erica Wise	60440	X		X		X				Oppose	
07/15/26	Rusit Hallam	60192	X				X			Fewer tolls, bureaucracy, reduced fraud, waste and abuse. Implement a plan to tighten financials before proposing another "tax" increase on residents.	Oppose	Rather than taking the easy route and raising the cost for Illinoisans, what efforts are being made to reduce your costs to help support your initiative? I-pass must be pulling in an unbelievable amount of money, every single day for decades now. Where has that money gone? Please work on resolving your own finances before making everyone else pay for your financial woes. I am firmly in opposition to this proposal.
07/15/26	Cindy	60429	X				X		X		Oppose	The tolls were only suooose to be for a couple years now 25 years later we're still paying them. And the increase is to benefit transit in the city and it it wrong for the tollway to pay for that or is as drivers. They need to look at cutting back and helping the people of Illinois not breaking them for their own benefit
07/15/26	Phillip	60142	X				X			No more tolls!	Oppose	Toll free by '73. What happened to that? Tolls are for the roads. License plate fees increased to $151 a year for the roads. Surplus of money for the roads that is not being used. Interest on said money is not being allocated for the roads and stolen and placed elsewhere. Other states do not have toll roads and their roads are equal or better than Illinois. I use the tollway less and less due to toll increases and new out of control taxes in this state. This state is becoming more and more unaffordable to live in. Stop the waste, fraud and abuse and figure it out. Do not raise the cost of the tolls. Eliminate them!!
07/15/26		60154		X	X		X				Oppose	Stop increasing tolls, there will be less travel as affordability is becoming out of reach everyday in this country. Government is taking money and not producing anything with it but making the corrupt richer. This is ridiculous!
07/15/26	Heangkuong	60193	X			X	X				Oppose	everything is expensive especially GAS, and you are making thing more expensive with this action. It is not the right time to increase.
07/15/26	Brian Solan	60026	X		X	X					Oppose	The last 40 years, I have seen increased tolls and poor roads. For way too long, the hazard of backups on 294 southbound entering 190 to ohare as construction moves at a snails pace is not an inconvenience but a serious hazard! Any tollway construction will only benefit the donor construction companies. Traffic will not improve but I'm sure tollway bureaucrats pockets will. DOGE yourselves.
07/15/26	Andreas Spiro	60646					X		X	No tolls	Oppose	

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/15/26	Kyle bartl	60511	X				X			Less connections to buses, trains, and airports	Oppose	There's no need to increase the tolls price even more. Stop giving the money to the city of Chicago. it. In fact, the tolls were only supposed to last until paying off the road was complete for building it. Unfortunately, because of Pritzker's policies, the money has been mismanaged. I honestly think there should be an audit in this state to find out where all the money is going.
07/15/26	Paul perez	60041			X	X	X				Oppose	We already pay enough for tolls! I pay you to sit in traffic because of nonstop road construction!
07/15/26	Deon Stoecker	61270	X				X		X		Oppose	I can't believe we would increase tolls when we are in an affordability crisis Dems could easily get voted out of office.
07/15/26	Brian Brown	53143			X	X	X				Oppose	I think the cost of driving in Illinois is already too expensive. An increase in tolls will just make it less likely for me to travel to Illinois for recreation and business.
07/15/26	Mike Stephenson	60102			X	X	X				Oppose	I don't think it's fair that car/suv towing a boat with on axle is being charge the same toll as a semi trailer? We don't have the same length or the weight the larger trucks have. I don't mind the extra charge based on axle like it used to be. There should be a lower rate between a car and a truck.
07/15/26	Alex P	60439	X		X					Investment is new road technologies so tollways aren't constantly under construction	Oppose	I would have been neutral to open to a moderate increase in tolls since we recently had a state discusssion and proposals on raising the tolls for the first time since 2012 which made sense to me given such a moratorium but there's been no noticeable imrpvements to the Illinois tollway system the full rollout of open road tollong. Which www many years before the price hikes stopped so I strongly reject this increase. Not any increase but this amount is absurd. And due to the massively increased cost of living it's crazy how many people sinply won't use the tollway at present prices and all major routes to my area in lemont are terrible aside from 355. I strongly prefer tollways over freeways however I do not understand the increased use of state troopers on tollways over freeways. It is illogical for the balance to be in that bias. But trgsrdless strongly opposed to this particular increase very much open to an increase but far more marginal an increase for passenger vehicles and commercial vehicles are the primary source of traffic Illinois and Chicago metro areas are unavoidable for commercial vehicles. They cause the most damage to roads. To life and property and account for most of traffic. They should be targeted for higher increases though not much more than 30% increase since that will do the opposite of the programs stated goal. Yiu cannot get economic benefits by forcing truckers to avoid the state if they can which doesn't only keep the revenue flat it lowers it and helps no one. There should be a lot more enforcement of 18wheelers speed and weight violations they are the cause of the real danger on the highway and must cover the costs they create just by being on the road.
07/15/26	BJ Zerth	60438-1534	X				X			State Gas Tax was to fund roads & our outrageous license & title fees!	Oppose	To the Members of the Illinois Tollway Board of Directors, I am writing to express my absolute condemnation of the proposed "Driving Connections" capital plan rate hikes. Forcing a staggering 45-cent increase per toll booth for I-PASS users and a massive 30% increase for commercial vehicles is a blatant financial assault on working-class Illinois residents and local businesses.It is completely unacceptable that the Tollway is aggressively pursuing these record-shattering increases on the immediate heels of recording its highest net operating revenue in history. Demanding more funds from families who are already navigating grueling cost-of-living constraints is financially tone-deaf and fundamentally unconscionable.Most egregious of all is the proposal to strip away future public oversight by implementing automatic, inflation-linked increases every two years starting in 2029. Forcing citizens to accept an indefinite, compounding toll hike through a single board vote is a shocking evasion of public accountability and transparency.I urge this board to immediately reject this predatory proposal. At a bare minimum, you must strip the automatic biennial increases from the table and mandate individual public board votes for any future adjustments.
07/15/26	Minerva Santiago	60630-3141	X	X			X				Oppose	we already pay enough in Illinois for everything to have more to pay for.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/15/26	Amanda Cristelli	46327	X				X			You all need to keep the tollway clean.	Oppose	It already costs enough to drive on the tollway. I think it's a rip off. You all make enough money already.
07/15/26	Linda Bomya	61761			X	X	X				Oppose	We already have the one of the highest gas taxes in the nation and now you want to add another 45 cents on top of the almost $1 per toll that now exists for roads that were supposed to be paid for years ago when this toll system started. This is literally highway robbery.
07/15/26	Tim Seiwert	60068	X	X	X						Support	
07/16/26	Jerry Wells	61109	X				X			Lower Tolls	Oppose	
07/16/26	JBohn	53511	X		X					Alternate routes	Oppose	I disagree since there is plenty of money being made off excessively high penalty fees and by the time you get notice in the mail, the grace period is over.
07/16/26	Geoff	60555	X			X	X				Oppose	There appears to be sufficient funds to maintain well designed roads. If we used more durable materials, the roads should last longer. I'm not 100% against increases, but the fund balance seems plentiful already.
07/16/26	Steve K	60714	X		X		X				Oppose	Absolutely not! Toll way is already sitting on a stockpile of cash. Roads are still terrible. Stop fleecing the public! Wisconsin has no tolls and their roads are much better. We shouldn't have to pay an arm and a leg just to get to our destination. Shame on you for your greed!!
07/16/26	Nancy Anderson-Persel	60010	X		X		X				Oppose	When the toll system was first implemented, it was supposed to be temporary. Let's go back to the original plan!
07/16/26	Michael H.	61114				X	X			economy, cost of transporting goods. predictable drive times are fine as long as it doesn't increase cost btw	Oppose	I can't state this STRONG ENOUGH there is ZERO reason for a rate increase. Frankly the tollway shouldn't even be a thing. its creation was supposed to be temporary and to be taken down after they raised enough money to build the highways. That was a promise from our officals. THAT has long been a pipedream. now they want more money? that's ridiculous. Frankly, i think they should pay the politicians a little less, cut all the waste, better allocate the money we have, and there would be more than enough money for more projects. Wisconsin has a freeway and has BETTER roads for years. Perhaps we should ask them what their secret is. Let's use the money that is available already, and buy better materials instead of contracting with companies that make weak and short lasting materials. People are really hurting in the real world. Road projects are the last thing we should be talking about in this economy tbh. Most make a median average of 30k to 40k a year. Experts are saying you need to make more than 100k (or more) just to be comfortable in the USA. This tax along with the inflation is REALLY hurting people and asking for any more is too much. Costs need to come down first, then and only then maybe we can revisit the issue..if ANYTHING toll rates should come down and eventually be eliminated tbh... it would lower costs for trucking/moving goods, and maybe even trickle down to us all eventually. thank you for taking the time to review this.
07/16/26	Sonia	60634	X		X		X				Oppose	The increase does not reflect to the non existent increase of our pay.
07/16/26	Wendy R Tikk	60033	X				X			More police to monitor road rage	Oppose	Illinois already get enough money from is on taxes. And the money we are paying for taxes is enough because what we are paying things could be better than what they are. So if we pay more nothing will change.
07/16/26		53213			X		X		X		Oppose	Out of state residents should not pay for Illinois's toll roads. Out of state residence have no vote or voice in the government and should not pay Illinois's taxes and tolls. Refund the toll money for out of state users.
07/16/26	Tom Lawrence	60178	X	X	X						Support	
07/16/26	Denise Marino	60437				X	X			Faster	Oppose	I find it awful, convenient how they do inflation updates for things that don't matter.We're already paying taxes on road and got out of pay to ride on the road.And we're not getting raises, make it, make sense
07/16/26	Elke R Narkiewicz	61462	X				X		X		Oppose	I am not happy that the toll road repairs do not extend to other parts of the state.
07/16/26	diane l avgerenos	60707			X		X			faster	Oppose	you just raised rates and now 7times inflation rates

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/16/26	J Ross	60031	X			X	X				Oppose	The toll was initially supposed to be temporary. Now it's permanent. I oppose an additional toll increase. I also oppose 15 additional years of construction, which increases traffic congestion and delays. The last I-294 construction project took years to complete, caused dangerous traffic rerouting patterns, caused congestion and hours-long traffic delays. Your videos claim to alleviate these things yet your 15 year plan means we will experience all of the things you say you're trying to resolve. No thank you!
07/16/26	Pat Heineman-Vernon	60626	X		X		X				Oppose	Until Congress acts to stop Trump's war in Iran and get gas prices lowered raising another fee for those of us who use our cars on the tollway is inexcusable.
07/16/26	Dino Grana	60515	X			X	X				Oppose	The tollways were once touted to be a cost for 20 years and then tolls would be taken away. That hasn't happened. Now you want to increase tolls by 30%. What hard working American gets that type of increase to their pay? Then you want to tie to inflation which is what you intentionally causing to get even more money? All "improvements" thus far haven't reduced travel times. This is only another avenue to increase taxes in a state that is losing people because of the taxes already being paid.
07/16/26	Gaetano	60046			X		X			Lower tolls and better use of existing taxes	Oppose	
07/16/26	JUNE JACOBS	61061	X				X			The misuse of funds.	Oppose	Considering the tollway program was set up to be a temporary program and has never gone away shows the absolute idiocracy of this state period maybe if our leadership didn't steal all the money for their own personal gains. We'd actually have good roads. I live in northern Illinois, and as long as I've been alive. Tolls have been being paid yet. Our roads are not taken care of so at wherever. The millions of dollars are going that are being sent in for a temporary tollway program. The roads do not meet the standards that they should I have made several trips into Wisconsin.In this last year , and you could almost close your eyes and know when you've left the atrocious state of illinois. Maybe doing an audit to understand who's actually stealing the money or whose pockets are being padded in the State of Illinois would be most beneficial, however, the criminals and leadership have gotten away with it for so many years, apparently they've figured out how to hide the funneling of money. I am understanding that if there's a need and it's for the better good of everyone , the people should help continue a forward process , but at what point does the state stop stealing the food off the tables of the people of illinois.
07/16/26	Steve	60551	X	X			X				Oppose	Learn to live within your means like the rest of us, remember when the toll road first started the tolls would end when the construction was paid for STOP out pacing inflation!
07/16/26	Jim Pawlowicz	46311					X		X	Safety, Police	Oppose	Utilizing 294 daily with a 100 mile round trip for over 26 years, feel I should be deemed credible in my comments. The toll road is a death trap with no patrol. And a very recent hit & run at 55 mph just cements that opinion. Took state police 2.5 hours to get to me, and although apologetic, communicated they were the only officer patrolling from O'Hare Airport to the Indiana border. The toll road is the Wild Wild West. On the road at 5 a.m., irresponsible drivers, the majority by the way, are traveling in excess of over 100 mph easily. And they are not courteous, cutting in between vehicles, riding backsides, demonstrating extremely dangerous driving. And I'm supposed to be happy in paying even more money for roads that are not supervised? That's pathetic. I do not support at all. And also, every year there seems to be something different going on with the toll road, making the consumer feel it's more of an exercise in lining the pockets of construction workers vs. actually necessary.
07/16/26	Patrick Sise	60463			X	X	X				Oppose	The tollway is a cash grab for construction companies. Poorly managed projects with inflated costs should not be the normal course of business. Maintain the existing infrastructure and stop finding reasons to charge citizens more so the labor unions and construction companies can reap huge profits.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/16/26	Henry Becker	60118-1737			X		X			I wish you fat slobs would stop stealing all the money the Tolls where to be paid off 55 years ago but you thieves in office just keep nraising the toll we have the fucking worst roads in the country	Oppose	toy fat slobs have stole enough money time to give some back mr FATBOY
07/16/26	Troy Schmitz	61065			X	X	X				Oppose	This is another TAX, making this state difficult to do business in. Focus on reducing waste and corruption first before increasing taxes.
07/16/26	Elvira Brooks	61516	X				X	X			Oppose	The roads do not seem to be maintained well, no matter what. People are stretched to their limits and find ways around this. Where are our taxes for the roads going? I am opposed to the rate hike. Our incomes do not reflect a rate hike.
07/16/26	Emily Columbia	60014	X		X		X				Neutral	
07/16/26	Vernon Albritton Jr	60478	X				X		X		Oppose	The State of Illinois already recently passed legislation that increased tolls. Now the Tollway Authority wants to increase tolls again, making cost of living a continuing issue for tollway users.
07/16/26	bret clark	60067	X		X		X				Oppose	No on the union kick back deal for the CTA. Plus, your chickens. Voting in the automatic increase. Operate like a real business. Reduce corruption and waste before you reach into my pocket again. I can't wait until I'm able to leave this state.
07/16/26	Seth Finlayson	60067	X			X	X				Oppose	
07/16/26	Ifeoma Ozodiegwu	60543	X		X		X				Oppose	Illinois is already a high tax burden state and increases disproportionately affect low income people who are more likely to leave further from their jobs. The state needs to identify fairer ways to fund road improvements.
07/16/26	Matt H.	60462					X	X	X		Oppose	Costs in Illinois for residents are already increasing. Tying toll increase to inflationary indicators is prosperous. May residents already cannot keep pace with inflation as costs rise and wages stagnate. Current proposals indicating commercial traffic shouldering the burden mask the underlaying impact on the residential user and adds another increase on residents. Please consider a tier approach to focus increase to commercial traffic while adding value and sparing residents of further negative financial impacts.
07/16/26	Andrea thayer	60510	X				X		X		Oppose	The government lied when they put the toll booths in. They were supposed to be for a few years only to help the school system. Please stop the lie and come to the truth to help us. It’s too expensive. Please do not allow increases
07/16/26	Jeremy Bauer	60140	X		X		X				Support	
07/16/26	Tyler Bailey	60145	X		X	X					Neutral	
07/16/26	Gene Bergery	60110	X		X	X					Oppose	When the tollway makes money wasn’t the toll so posed to be removed, where does the federal money go for tollway?
07/16/26	Tom Parisi	60007	X			X	X				Oppose	This rate hike is over the top, and every other year increases with no end date in sight is wrong
07/16/26	Andy Grigus	60451	X		X		X				Oppose	Tolls are already too high. Keep raising the taxes and watch the people leave Illinois
07/16/26	Lawrence Ferenzi	60404			X	X	X				Oppose	No more increases, especially the gimmick of raising rates automatically without input from taxpayers and users. The toll roads were supposed to be for a fixed amount of time. 60 years later we're still paying and paying more and more. Get rid of the patronage army and put toll roads back into the general highway system.
07/16/26	Catherine Hobbie	60016	X			X	X				Oppose	I live in Des Plaines. I pass through two tolls per day on my way to Libertyville and back. I oppose raising passenger tolls by about 45 cents and authorizing automatic inflation increases without future board votes. I urge the board to reject automatic toll hikes and instead pursue a more transparent, accountable plan that protects drivers from open-ended increases.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/16/26	Joel C Goldberg	60060-6035			X	X	X				Oppose	
07/16/26	Wayne Price	60101			X		X		X		Oppose	I am appalled at the boldness of this proposal. You promised that the toll roads would become freeways in 20 years after the construction was completed and more than 40 years later the tolls are still there. Now you plan an enormous toll hike to fund an enormous multi-billion dollar infrastructure project. What have you been doing with all the toll revenue over those years? Did you save nothing for the future? I oppose your plan in its entirety and urge all to vote against its passage.
07/16/26	Ryan Bonifazi	60656	X		X		X				Support	Infrastructure projects create family-supporting careers while delivering long-term benefits for the public. I support the Driving Connections Capital Program because it invests in both workers and the future of Illinois.
07/16/26	Joe Banko	60415	X			X	X				Oppose	The rate is already to high I have to take the tollway to and from work. With this increase it will be more of a burden on my family financially and many others that do the same. The roads now are not well maintained now with the money that is brought in currently so. So how will this be any different.
07/16/26		60515			X	X	X				Oppose	This is just another example of the state of IL refusing to be fiscally responsible. There are no fees or taxes that you will not raise to the detriment of IL residents. Why do you think people are leaving this state. You just cannot be this stupid but here again you prove that you are!
07/16/26	Tony Suveg	60540	X			X		X			Oppose	It's time to eliminate all the toll lanes where people don't have iPass pull over and slow traffic. Make all lanes iPads and when someone with no sensor drives through you send them an iPads in thier ticket and say if they sign up to use it thier offense is removed. They then have a unit that is usable in all states and traffic flows more efficiently. The system already knows who made the offense and AI can auto send the paperwork. Let's work smarter not harder. Don't raise the tolls just clean up the corruption!
07/16/26	JUSTIN M STOJKOVIC	60559	X				X		X		Neutral	I want a guarantee that these funds wont be redirected in any way shape or form.
07/16/26	Stefanie Bea	60026	X				X			Access points to work, home, airport, church	Oppose	I live in west Glenview and am an educator who passes through 4 tolls per day on my way to work. I oppose raising passenger tolls by the suggested amounts and oppose the automatic inflation increases without future board votes. I urge the board to reject these high increases & automatic toll hikes and instead pursue a more transparent plan that protects drivers from high and open-ended increases.
07/16/26	Diane Baltazor	61019			X		X		X		Oppose	I am strongly against a toll hike. We are retired and do not need more money taken from our social security checks. I vote no!!
07/16/26	LINDA JEFFREY	60487				X	X			cheaper tollway prices	Oppose	It's completely insane to raise the tolls that are already insane. You raised our property taxes, gas taxes now tollway? Pritzker needs to GO. How are Illinois residents supposed to financely survive? We're not all politicians that seem to make way more than "their" salary.
07/16/26	K miller	60491	X		X		X				Oppose	Pay too much already. Other states don't charge why is Illinois always asking for more money. Stop the corruption and use what you have wisely!
07/16/26	Mark Puchalski	60193			X		X			Lower cost	Oppose	I will have to seek alternative non-tollway routes if tolls increase. I'll willing to put up with extra travel time vs paying high tolls.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/16/26	Jennifer Krapfl	60084	X				X			Affordable living	Oppose	After reviewing the proposed Driving Connections 15 year, $26.5 billion capital program, I do not support this initiative. While infrastructure improvements are important, the funding strategy places an excessive burden on Illinois residents and businesses at a time when the state is already struggling with out migration and economic instability. Illinois continues to face one of the highest overall tax burdens in the country, and repeated increases including toll hikes...contribute to a pattern that discourages business investment and accelerates the departure of employers and working families. According to multiple economic analyses, Illinois has experienced significant net population loss over the past several years, with high taxes and rising costs frequently cited as contributing factors. The proposed toll increases beginning in 2027 — approximately 45 cents per toll for I PASS passenger vehicles and a 30% increase for commercial vehicles represent yet another cost layered onto residents who are already paying more for property taxes, income taxes, and everyday living expenses. Commercial vehicle increases will ultimately be passed on to consumers, further raising the cost of goods and transportation. A long term capital program of this scale should be funded through responsible state budgeting and prioritization, not through additional toll increases that disproportionately impact everyday commuters and small businesses. If the Governor's office believes this project is essential, the administration should identify internal funding sources rather than shifting the financial burden onto Illinoisans who are already stretched thin. As proposed, this is a no win strategy for residents, businesses, and the long term economic health of Illinois. Thank you for the opportunity to provide feedback.
07/16/26	Dylan Carney	60510	X	X	X						Support	I am happy and beyond satisfied with the success and progress of the tollways program and projects.
07/16/26	Thomas Weiler	60515	X		X		X				Oppose	I pass through 12 tolls per week on my way to visit our daughter in Geneva, Il. I oppose raising passenger tolls by 45 cents and authorizing automatic inflation increases without future board votes. 07/16/26	Nina Kang	60137	X				X		X		Oppose	Illinois already has high taxes. We don't need to increase tolls.
07/16/26	Todd	60462			X	X	X				Oppose	There is no need to raise the price of tolls. There are billions collected from gasoline taxes and tolls already. Improvements will lead to never ending construction delays. ie: I-294 has had construction going on forever and traffic has not improved! I-80 has had construction for quite a while with no end in sight. The frequency of going to the taxpayer well has to stop. People are getting taxed out of our state!
07/16/26		60618	X		X		X				Support	
07/16/26	Debra M.	60585	X		X		X				Oppose	
07/16/26	Syed Nasir Ghani	60137	X			X	X				Oppose	Already cost of tolls is so high,increasing it again is outrageous
07/16/26		60067			X	X	X				Oppose	In the words of Homer Simpson- I'm opposed to the whole thing. Damn opposed!
07/16/26	Jay	60462	X		X	X					Oppose	Are you guys stoopit? You dont maintain the roads as it is. Traffic is crap. Illinois is closely approaching the degeneracy of Commiefornia and New York...just keep raising prices and see what happens when all your tax base leaves and your left with net negative tax mooches that never worked a day in their lives. Democrats really know how to drive a good city and state into the ground.
07/16/26	Alpesh K Amin	60016	X		X		X				Oppose	State of the Illinois has highest Tolls compared with lots of traffic all over when compared to all midwest states and increase is unncessary.
07/16/26	William Collins	61450		X	X		X				Oppose	I'm tired of Illinois taxing everything & making it impossible for working citizens to survive. The taxes and raising toll fees have to stop.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/16/26	Valerie Matkaitis	60655	X			X	X				Oppose	I do volunteer work near OHare airport for our military every week down 294 and need to pass 6 tolls to and from. Additionally, I now avoid the fastest routes to places I go the rest of the week to avoid the tolls, including the one at the end point where I get off Rt. 80 at the Rockford exit at 355 and then get off 355 at the first exit, yet are charged like I had traveled more than the mile I am on the road. Tolls are already expensive, 294 and other roads are always under construction and often hazardous and have frequent backups. A more reasonable increase and a vote for any future increases would be a better choice. I understand the cost of maintenance, but only for the road, not other public transportation. If you cannot utilize public transportation drivers should not be penalized. Some states charge by the distance you go, which I feel is a more logical way to charge. Click in when you enter the tollway system and pay when you get off at exits. Those who use it most pay the most. Thank you for your consideration.
07/16/26	Teri	60439	X		X		X				Oppose	ILLINOIS government is nuts. With all the taxes collected our roads should be perfect! There should be NO tolls. You are a bunch of crooks!!
07/16/26	Cassandra Vahl	60451	X				X			No increase to tolls	Oppose	No increase to tolls
07/16/26	Bruce Burke	60120-3120	X				X	X			Oppose	The amount of money already poured into the tollway system is scandalous. Make due with the funds you have and stop these backdoor tax hikes.
07/16/26	Glenn Michaels	60542				X	X			construction not last forever I294	Oppose	The high gas taxes in Il should cover this work. The Illinois Tollway system was established in 1953 by the Illinois State Toll Highway Commission to build commuter expressways in the Chicago suburbs, with an initial promise to become "toll-free by '73". The 187-mile system opened in 1958, featuring the Northwest (now Jane Addams Memorial I-90), Tri-State (I-94/I-294), and East-West (Reagan Memorial I-88) tollways.The original funding was generated through a $459 million bond, but the promise to remove the tolls was subsequently broken, and tolls remain active to continuously fund expansions and maintenance
07/16/26	Tony Gilmer	61704	X		X		X				Oppose	Don't we already have some of the highest taxes & toll rates in the country? I thought the tolls were supposed to be eventually abolished, after their "initial" campaign decades ago. What ever happened to the stimulus money from the previous regimes, which was supposed to fix the roads? Illinois roadways are some of the worst around. Ridiculous that we have to continue to pay more and the roads are never in much better condition than before. I VOTE NO!
07/16/26	Lou Santelli	60656	X				X			No more tolls. They were supposed to be eliminated once the tollway was complete.	Oppose	The Illinois Tollway and State of Illinois don’t have an income problem. They have a reckless spending problem.
07/16/26		60178	X			X				Clear channelization	Oppose	
07/16/26	Scott	60089	X		X					No more tolls.	Oppose	No more tolls These tollways were supposed to have been free long ago. The state gas tax funds should be used to fix our horrible roads and not these tolls.This is rampant corruption. All this money spent on our roads and they are designed and built intentionally to fail so the companies that repair them can profit off the Illinois taxpayer. SAY YES TO NO MORE TOLLS.
07/16/26	Richard Mohar	46311					X	X		I do not care about anything other than affordability. Do not include “connections to buses, trains, and airports” in the survey data collection	Oppose	Illinois is one of the worst and most corrupt states in the union. If you stopped spending money on social programs (money laundering) you would be able to afford the road upgrades without increasing tolls. I moved to Indiana to get away from you assholes.
07/16/26	Scott Mesker	60517			X	X				New road construction	Neutral	
07/16/26	Kevin Catino	60630	X			X	X				Oppose	CTA/metra took the current funds. They should see the increase
07/16/26	Cynthia Allen Schenk	60152	X	X			X				Oppose	We cannot afford more taxes in Illinois especailly those focused are harming working people and students. This States has NOT cut waste and outlandish spending. Do that first.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/16/26	John J Haubenreiser	60005	X				X			Adequate monitoring of speeds and safety precautions	Oppose	Please explain to the Illinois public what the Tollway Administration is doing to reduce costs associated with administration of this public service body?
07/16/26	Theresa K Faust	49047	X				X			Accountability. Where is all this money you collect going now? Roads are ALWAYS under construction so you need to use better materials, make trucking companies abide by weight limits, hire workers who just don't stand by and watch, support police who can catch offenders, etc.	Oppose	I understand prices are going up on everything, but a toll increase every other year is insane. You need to hire better workers, use better materials, and stop closing down lanes for over 10 miles at one time to get the work done. You are not efficient enough. You need to worker smarter, not harder.
07/16/26	Roberto Perez	60431	X		X		X				Support	
07/16/26	Preston Lewis	60616	X		X		X				Oppose	The tolls are already expensive and the increase will have an adverse effect on nearby communities and the overall competitiveness of the region.
07/16/26	Marc Golab	60107	X				X			the fact that you people are abjectly worthless	Oppose	I do not like unauthorized bodies imposing their wills upon me by TAXING me out of existance. Nobody is upping my salary I have to MANAGE to stay afloat Have you zipperheads ever thought that way? ...of course you haven't Thinking requires effort, effort requires caloric expedinditure (work), much easier just to TAX the chumps, Hence, loop back to my title for this comment
07/16/26	Leah Hoppes	61373	X				X			Roads need to be free, it is immoral to charge any tolls	Oppose	Cut out wasteful spending, you don't need more toll money you need to work with what you have.
07/16/26	Jane ODonnell	60805-3067	X		X		X				Oppose	Why isn’t the toll money in a fund for road upkeep and not in pockets of those working at the Toll-Mahal! I remember as a young girl the plan was to collect for 10 years then they would be removed well 60 years later they are still in place. You mean to tell me after 60 years you don’t have enough money!!!! Where has all this money gone?
07/16/26	Richard I Keefe	605209		X			X	X			Oppose	Life is becoming too expensive
07/16/26	David Cairns	60565	X			X				Reasonable tolls	Oppose	No more automatic increases. If something needs fixing, put it in the budget and save up for it. Just like all of us.
07/16/26	Daniel Lauer	60610	X			X	X				Oppose	These tolls were supposed to be temporary, no? Now they've become an ongoing revenue source that papers over the true problem in Illinois, which is a wildly overbudget general expenditures in Springfield. Since we're not supposed to need the existing toll structure, I can't countenance expanding it. This is just a tax that legislators don't have the courage to try to introduce as such because they know that Illinois doesn't have a revenue problem. It has a spending problem.
07/16/26	Diane Lynn Dee	60453	X				X		X		Oppose	Tolls were supposed to go away in 1973. Instead, the rate just keeps going up. I oppose both the increase and the automatic increase. We need more accountability and transparency.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/16/26	S Collins	60025				X	X			Less construction that creates traffic jams	Oppose	Lets see if we have this straight.... The Tollway Authority has concocted this idea of a "15-year, $26.5 billion investment intended to improve traffic and enhance road conditions, providing Illinoisans with a resilient, modern system built to support a dynamic region for generations to come." First of all, you don't actually think that the general public believes that, do you? Second, maybe someone involved with this nonsense will be able put a public relations spin on it to explain, in detail, just how 15 years of construction in a variety of areas throughout the tollway system, creating the traffic backups and "parking lots" that construction always causes is going to improve the flow of traffic for anyone. And at the end of 15 years, what will the next project be someone dreams up that will cause the tollway system to be under construction. In case you haven't paid attention, there is always construction on the tollway system so the nonsense I typed about traffic flow, road conditions, etc. in the first few lines of this comment never seem to materialize. We all know that this agenda will proceed regardless of how the general public responds to it because thtas how Illinois operates. It will be interesting to see if the same few construction companies that always seem to get the tollway construction projects are again employed with this fiasco. Maybe you should look at hiring the companies that rebuilt I-94 from the IL/WI state line to Milwaukee a number of years back. They were able to completely remove, widen with additional lanes in each direction & rebuild mutiple miles of interstate along with all the ramps and bridges in less time than it takes Illinois to repave a few miles of a 4 lane roadway.
07/16/26	Maryabn	60103	X		X		X				Oppose	A. E-mail arrives on the 15th with hearing schedule that passed or was that day!!! B. Do an incremental increase rather than all in one fell swoop. C. Cut tolls in half on roads that are under construction.
07/16/26	Jeffrey Leo	60194	X			X	X				Oppose	I oppose increasing Illinois tolls. Families and commuters are already facing higher costs for housing, fuel, and groceries. Improve efficiency and ensure accountability before asking drivers to pay more. Reject this increase
07/16/26	Gary Wrzesinski	60030	X			X	X				Oppose	Enough with the tolls! Illinois is far too expensive. And only the politicians know where this money is really going.
07/16/26		60193	X		X		X				Oppose	
07/16/26	Joseph Guckenberger	60030	X		X		X				Oppose	I would respectively ask the Toll Authority to reject this proposed toll increase. We live in a state that already taxes its citizens with one of the highest property taxes in the country and one of the highest gas taxes in the country. It is no surprise that residents are fleeing our state. If toll rates increase and are linked to inflation in the future, this will give one more reason that people will decide to live elsewhere where the cost of living is more affordable. Thank you for your consideration.
07/16/26	Joe	60516	X		X		X				Oppose	This increase is SO significant that it is highway robbery. Our tolls are ALREADY too high. Pritzker has done NOTHING but increase costs. Stop paying for the fckn illegals in this state and use common sense!
07/16/26	Bob Fergus	60656			X		X		X		Oppose	This is just another way of taxing the residents of Illinois without actually raising there take home pay. I will use my Google Maps to avoid the tolls. The tollway already has a surplus of money and now it’s being used to fund other things, like the transit system. Stop this nonsense.
07/16/26	Richard Keltner	60123				X	X			Faster	Oppose	I think the amount of increase is excessive. It should be increased in increments.
07/16/26	Sara Cossi	60477	X	X			X				Oppose	
07/16/26	Gina R.	60491	X				X		X		Oppose	
07/16/26	Christian	60608		X			X	X			Oppose	
07/16/26	christine bondi	60133	X			X	X				Oppose	toll are to expensive now and people have no other choice than using the expressways, to get to work or travel. automatic tolls are stealing peoples hard earned money. No to increases and NO to auto increases
07/16/26	Laura Garelli	60005	X		X		X				Oppose	

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/16/26	Len Saunders	61046	X		X			X			Support	The Illinois Tollway's Driving Connections program is a smart investment because it creates long-term construction work, supports union jobs, and strengthens the regional economy. The 15-year, $26.5 billion program will fund major roadway and infrastructure improvements, generating demand for skilled trades workers and creating opportunities for apprentices and experienced carpenters alike. Better roads also help contractors move workers, equipment, and materials more efficiently to job sites. In addition, infrastructure investments often attract new businesses and development projects, leading to even more construction opportunities. The Mid-America Carpenters Regional Council supports Driving Connections because it provides jobs today, economic growth tomorrow, and a stronger future for Illinois communities.
07/16/26	Cynthia L Sibley	61277-1307	X			X	X				Oppose	The increase you are proposing is extravagant! 45 cents is way too much!
07/16/26	JAN MANDEL	60439	X				X	X			Oppose	This is the most ridiculous rule to tie this to inflation. We have representatives stay are to represent us. These fees are taxes and nothing else. Big question. If we have a a negative inflation number. Will the toll amount be lowered. I highly doubt it. In a heated economy the toll will inflate dramatically due to compounding. Also can the Board transfer monies to the state for other purposes. I call Bullshit and disagree.
07/16/26	Tom Carmody	60137	X			X	X				Oppose	One more reason to join those who have left the state. The Tollway should not be used to support other pet or poorly run projects. Tolls should be for improvement and maintenance of the Tollways only. NO NEED FOR ADDITIONAL TOLLS.
07/16/26	Lisa Nichols	61425		X			X		X		Oppose	When is enough enough people can not afford food and medicine or even a car and you want to keep raising rates. Stop making it harder on people we never see any road repairs but you raise all these rates so here no road repairs and food prices keep going up .
07/16/26	Randy	60099	X		X	X					Oppose	stop stealing our money. Wisconsin doesn't have tolls.
07/16/26	Becky Cheek	60456-1115	X				X		X		Oppose	
07/16/26	Linda Bachelder	60510	X			X	X				Oppose	The tollways have been collecting tolls for many years. The so called improvements should be maintained by tolls already collected. Traffic congestion has not improved in areas that are known to drivers to be a problem. Old tollbooth areas remain not removed. The cost to drivers and consumers is out of control.
07/16/26	Gail Hobbs	60126	X			X			X		Neutral	Well maintained roads are so important in Illinois. I would support the increase if we see improvement in road maintenance.
07/16/26	Richard Reder	60089			X	X	X				Oppose	Learn to mange the money you already take in every single day across the State! I'm in Wisconsin often and they have absolutely no tolls and there roads are much better maintained! Please, enough on the taxes! If there is an increase I will not use the Tollways!!
07/16/26	Patrick Harvey	60521	X			X	X				Oppose	Illinois residents should Pay less (1/2) than out of state users.....
07/16/26	Maryann Griffiths	60487	X				X		X		Oppose	This is going to cost me a significant amount of money as I often travel the tollway. Very concerning for a senior citizen.
07/16/26	Jeffrey Thomas Ewanio	60176	X		X		X				Oppose	With the billions in surplus there is no need to raise tolls. Stop fleecing the middle class of Illinois.
07/16/26	Brian Gray	52722				X	X			LESS TOLL RATES!!	Oppose	Visiting Chicago from Iowa is already over expensive for the constant Tolls on I88, I294, etc!! ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/16/26	Michele Rickerd	60515	X					X		law enforcement	Support	I support the toll increase. The Illinois High Tollway Authority is self-funded; it receives zero dollars from State or Federal agencies. While people expect smooth travel, drivers seem to expect it for free. I would prefer paying the Toll rather than paying taxes to Illinois government. The engineering that goes into building these roads is immense and I believe, most drivers take for granted the scope of these builds. I'd like to see consideration to easement space continue and even expand (barrier wall placement and wind impact, secondary fencing when easement backs up to communities such as 6' - 8' solid fencing with wildlife passage points, along with better maintenance (mowing etc). The Tollway Authority does a good job with keeping motorists current on the projects and I'd like to see more updates on not just any delays, but info on the cause. Overall, the Tollway Authority has done a good job.
07/16/26	Marcia Bulleri	60554		X		X				Convenience	Oppose	Like other government run agencies there is likely a huge amount of waste and fraud in the current budget. More money, more waste....
07/16/26	Bill & kathy Christian	60007				X	X		X		Oppose	
07/16/26	Peter Hinsch	60111	X		X		X				Oppose	Illinois is addicted to irresponsible spending, waste, fraud, and abuse. We would not need these ridiculous tollways if our government would be more responsible with our hard-earned tax dollars. Perhaps our billionaire governor can donate some of his billions to pay for all the unnecessary and frivolous spending the government does in IL!
07/16/26	Zac Ritter	60467	X		X		X				Support	
07/16/26	Byron Moore	60481				X	X			Not stopping at toll boths	Oppose	Illinois gas taxes are high enough to cover roads if money is used right!!!
07/16/26	Brian Woltz	60446			X		X			Not having to pay tolls	Oppose	Stop taxing the great people of Illinois for these roads! They were paid off many years ago.
07/16/26	Sheri Supena	60126	X		X		X				Oppose	Hello. I'm Sheri Supena & I oppose this toll increase & I am even more opposed to automatic increases. Besides the negative impact ro everyday citizens going to work, all this will do is make goods & services more expensive FOR EVERY PERSON who lives, works or shops in IL.We already have an affordability issue, these auto increases will be a disaster. Please do not pass this legislation. These types of actions make it much more difficult for people to live in IL. If you pass it you will continue to push out tax-paying citizens to other states.
07/16/26	Jim Dykhuis	60510	X			X	X				Oppose	Illinois has one of the highest gas taxes in the country already. The chief purpose of which is road maintenance and construction. In the beginning, toll roads were sold as 'temporary'. Now they are an unstoppable bureaucratic monster. Further, I have never in my working life had my pay doubled, how am I to afford the doubling of one on my costs of living? Add this to the second or third highest taxes and this toll doubling will be that forces me to move to a more affordable state now that I'm retired.
07/16/26	Sheri Tomasello	60614	X			X	X				Oppose	Any increase in tolls should be linked to a specific projects and voted on. An automatic increase is bad policy because it reduces accountability and fiscal responsibility - it just increases costs without determining whether there is a need. We should be going in the opposite direction and eliminating tolls altogether and funding roads differently.
07/16/26	Michael Phan	60139	X			X		X			Support	
07/16/26	William Midgett	61080	X				X	X			Oppose	The rate increased proposed is much too high. I would propose a less ambitious plan scaling back to address the most critical areas first. A three year phase in during which no inflation adjustments are made. Only after that three year period would inflation adjustments be allowed along with a yearly cap on how large that adjustment may be. I feel your plan as presented will create more congestion by driving people away from the tollway.
07/16/26	Marge Kostka	60629	X		X				X		Oppose	Where have all the funds that were collected from previous tolls gone? We need accountability in this state. Not increased tolls!
07/16/26	Elliot Dubin	60045	X		X		X				Oppose	You keep raised tolls and the metra fares already increased making those near the county line paying dissaportionate amount of increases to commute. The increase is ridiculous and not needed.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/16/26	Jason Lambin	60451			X	X	X				Oppose	Why do drivers in the northern part of the state have to pay for some ill-defined and expensive “plan”? This is for a tollway system that was supposed to become free by 1973 — more than 50 years ago! The proposed hike comes when the system is taking in more revenue than ever, and the money collected to date far exceeds the amount needed to operate and maintain the system. Where is the accountability for the money already being collected? Maybe there should be an INDEPENDENT financial audit to trim the fat. Stop asking residents for more money when you can’t justify where the existing money went. Other states put up temporary toll booths when roads are built and then take them down once the tolls pay for the construction. Novel concept.
07/16/26	Feranda Williamson	60422	X				X			Equal employment for minorities	Oppose	The current costs are too expensive in comparison to how the roads are maintained din currently see improvements from current increases This is too much
07/16/26	Ed Zoller	60652			X		X		X		Oppose	The Tollway Authority should not be allowing more vehicles onto a roadway that's already congested any more than a theater should be selling tickets to a movie that's already sold out. People pay to use the Tollway to save time. If they're not saving time because you over-filled the roadway. It's nothing more than theft of service.
07/16/26	michael mathis	60083	X		X	X					Oppose	IL has collected huge amounts of money through increased gas taxes. That money was supposed to be used to maintain roads. Tolls are just another road tax. Where are your cost saving initiatives? Stop using prevailing wage rules and open up true competition among contractors for work. Until the State, and the Tollway, get costs under control, they have no moral basis to ask citizens for more money. VOTE NO
07/16/26		60169	X				X		X		Oppose	Bad timing for this expensive and drastic change. With cost of living increasing (food, rent, gas, utilities, etc) those of us who depend on the tollway twice daily 5 days per week do not need another increase that we must endure. In my personal opinion, the proposed work is a luxury that can least be afforded at this time.
07/16/26	Elizabeth Smith	62025	X			X	X				Oppose	Please do not increase the tolls!
07/16/26	Brandy Preston	60621		X	X		X				Neutral	
07/16/26	Mark McCourt	60451	X				X			Already have enough money in taxes	Oppose	
07/16/26	Frank Zimmerman	61115			X	X	X				Oppose	As a commuter from Northern Illinois into the suburbs every week, this toll will place a hardship on my budget. As gas prices, car maintenance and proposed toll increases impact the bottom line.
07/16/26	Sylvia Keppel	60510	X				X			Driver education- slow downs occur for no apparent reason. Drivers licensing should include “zipper in” education	Oppose	NO MORE TOLLS. I drive weekly to Chicago to care for elderly relatives. Increasing tolls + increasing gas tax = unaffordability. Increased commercial trolls = higher prices on food and other goods = unaffordability. STOP YOUR WASTEFUL SPENDING AND POLITICAL GRIFT. You have enough of our money. 07/16/26	Alberto Mosqueda	60629	X		X			X			Support	
07/16/26	Richard Meagher	60517	X				X	X			Oppose	The tollway already receives considerable revenue from current tolls. Also, automatic increases is a political tool to benefit no one but the govt.
07/16/26	Julia Uster	60532			X		X			Eliminate tolls like promised	Oppose	Do not pass this increase!!! We are burdened enough in Illinois.
07/16/26	Jason Gabel	60007	X				X			How the toll road was originally designed to switch to no toll, yet it has done nothing but increase in tolls since origination.	Oppose	"Toll Free in '73" was a lie. Time to move towards actually doing your part to help Illinois citizens actually save money instead of finding more ways to drain our pockets. The constant toll road increases is just one of the many reasons so many residents leave Illinois and I am one that has chosen to leave based on the continued increases along with many other financial and right infringing factors. If you raise the tolls, expect more citizens to continue the flight out of Illinois. ~Hello Florida!
07/16/26	D	60439	X	X					X		Oppose	

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/16/26	Tom Schutz	46360				X	X			Your survey is even rigged	Oppose	Pure Greed, and mismanaged funds by the state . Illinois is a sad state to live in. It will never be enough money
07/16/26	Andrea	60532	X		X		X				Oppose	This sounds like a nightmare for travelers during all this construction. Increased cost with the high gas prices we have currently? No thanks
07/16/26	Jennifer M Kulczak	60443	X				X			Snow/ice removal	Oppose	Illinois citizens pay more than enough for EVERYTHING! Toll rates have been increased several times already in the past. You've legalized gambling and marijuana, increased our fuel tax as well as hacked up the prices of license plate renewal...justvto name a few. I think you're good with all that money. Please don't make it more difficult than it already is to live and travel in this state.
07/16/26	James Murphy	60510	X			X	X				Oppose	Before any proposal of an increase moves forward, all existing projects should be complete. 294 has been under construction for decades, 88/290 is a consistent mess, 94/90/80/294 at the IL/IN border is always an issue. Why should I vote to approve when there's no visible end to the issues? Where is the revenue going now? It's difficult to find any supporting documentation of where the toll revenue is actually going. Remove the barriers of the construction and just get it done. Maybe then, there would be support.
07/16/26	Carolina Sz	60056			X		X		X		Oppose	Don't increase the tolls! Figure out how to manage the money better, if anything look at other states who have lower tolls or no tolls and how they manage costs to implement those processes.
07/16/26	Andrea	60532	X		X		X				Oppose	You sent the email AFTER the Dupage hearing already took place!!!! I received my email at 1:34pm on July 15th!!! DuPage meeting was 7/15 at 11am -1pm. Plus most people work and cannot attend a daytime meeting. Bad planning all around. Just a sneak peek how this project would go, poorly.
07/16/26	Alejandro Perez	69191	X				X		X		Oppose	Oppose
07/16/26	Joanna Leonor	60101	X			X	X				Oppose	
07/16/26		46383	X		X		X				Oppose	Continuing to increase the prices of commuting and travel is killing the everyday American. STOP MAKING EVERYTHING MORE EXPENSIVE. Make spending cuts elsewhere and use your current revenues more effectively for the taxpayers. Use all of the weed tax money, where is that going?
07/16/26	rick	60102	X				X		X		Oppose	
07/16/26	Michael Wojcik	60554	X				X			Insuring everyone is paying the tolls or is being held accountable for not paying	Oppose	In 2025, the Tollway Authority had $97 million in lost tolls by scofflaws not paying. You are now asking honest paying tollroad customers to pay even more to cover these losses. Pursue the scofflaws. Also, there should be NO automatic increases using CPI. If additional funding is required in the future, the Authority should make the case and file a request. Not just keep generating automatic increases without showing need.
07/16/26		61801	X			X				less long ass construction projects	Neutral	i know the money is going to evaporate. we are not NYC, we cant efficiently allocate funds to change for the better. tax the rich not commuters.
07/16/26	Chris	60641	X			X	X				Oppose

I travel to many other states that maintain beautiful roadways with zero tolls and significantly lower gas taxes. The state government has lied to us for years and continues to squander our taxes on non-essential services. This request is an affront to those of us who work hard for our money. One more example of Illinois being the worst-governed state in the union.
07/16/26	Barry Dubovick	60645	X	X					X		Oppose	The Governor's taxes plus raises in tolls making travel on the Tollway unaffordable.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/16/26	Emma Pounders	60148	X		X		X				Oppose	You state that less time on the roads equals more time with family. However, there are families that these increases will put a further financial strain on. Families who are already struggling with the increases in today's costs of living (gas, groceries), may forgo visiting family that live far away. Those who travel extensively for work who do not receive reimbursement from their employers will also feel the strain. Infrastructure, to my understanding should be assisted financially by the state.
07/16/26	John Gardiner	60130		X				X		bridge safety and development	Support	Submitted by: John Gardiner Title: Business Manager, Ironworkers Local 1 On behalf of: Ironworkers District Council of Chicago and Ironworkers Local 1 Public Hearing Location: College of DuPage, Student Resource Center — 425 Fawell Boulevard, Glen Ellyn, IL 60137 Date: July 16, 2026 Chairman and Members of the Illinois Tollway Board: My name is John Gardiner, and I serve as Business Manager of Ironworkers Local 1. I submit this written testimony on behalf of the Ironworkers District Council of Chicago and Ironworkers Local 1 to formally register our strong support for the proposed Driving Connections capital program. Driving Connections represents a $26.5 billion, 15-year commitment to strengthening the roads, bridges, and interchanges that our region depends on. The proposed program addresses critical safety improvements, congestion reduction, and the modernization of aging infrastructure across every corridor in the Tollway system. Here in DuPage County, the plan includes reconstruction and widening along the Reagan Memorial Tollway (I-88), investments that will directly benefit the safety and commerce of the communities we serve. This program is about far more than concrete and steel. It represents a long-term investment in the economic health of our region. Modernized corridors and improved interchanges reduce time lost to congestion and allow goods and people to move more efficiently across the state. Just as importantly, this program sustains thousands of good, family-supporting careers in the building trades, putting skilled craftworkers to work on projects that will serve Illinois residents for decades to come. Ironworkers are the bridge builders of this country. From the bridges that carry these tollways, to the skylines of our cities, to the infrastructure supporting renewable energy sources, our members have built Illinois. We have a long history of partnering with the Tollway and other jurisdictions across the state to deliver projects on time and done right the first time. That track record gives us confidence that this program will deliver real, lasting value to drivers and communities throughout the region. For these reasons, the Ironworkers District Council of Chicago and Ironworkers Local 1 respectfully urge the Board to move forward with the proposed Driving Connections capital program. We thank the Board for the opportunity to provide both verbal and written testimony on this important proposal. Respectfully submitted, John Gardiner Business Manager, Ironworkers Local 1 Ironworkers District Council of Chicago
07/16/26		60178	X		X		X				Oppose	
07/16/26	Vicki J Neels	61244				X	X			Speed limits followed	Oppose	How much $ does Illinois need to take??? Most drivers on roads are ILLINOIS residents. Use the $$ taken from our gas taxes
07/16/26	Stephanie Wolfe	60586	X			X	X				Oppose	First of all, tollways were not supposed to be permanent. The fact we have to even pay to drive on a road is bad enough. Second of all, how much more money do you expect to take from us?! This is ridiculous. We are being bled dry and now you want to increase an already too expensive way to drive around this area. Let loaded Pritzger pay for it out of his billions and give the majority of us tax payers, who are already struggling to live in this state, a break. Use the increase in gas tax to make up for your tolls. Thank you.
07/16/26	Edgar Fair	60050	X				X			Affordable access to tollway!	Oppose	Stop excessive taxation vote Republican!

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/16/26		60543	X		X		X				Oppose	The price of everything keeps going up and many people need to commute to work. Gas is already at a record high and now you want to increase tolls. Some are already losing money trying to get to work and now you want to make it worse. Learn to budget better. Have those in charge take a pay cut if you need money. Be the leaders you were supposed to be.
07/16/26	Barbara Mangiafico	53089	X	X		X					Oppose	Given this is a 15 year+ project a significant majority of 65+ today will not be alive or driving to enjoy the completed project Yet we will have paid the increased tolls I believe there needs to be No increase for those 65+
07/16/26	U	60067			X		X			Less road construction that lasts forever.	Oppose	This absolutely ridiculous! Tolls were supposed to be temporary and now look what you greedy people are doing! You have been moving the excess revenue from the tolls to fund your socialist dei stiff and “welcoming Centers” for illegals.
07/16/26	Charles Sekerak	60137	X				X		X		Neutral	I support the toll increase but oppose the cost-of-living adjustments every two years.
07/16/26	Phil	60146	X	X					X		Neutral	It is my understanding that the heavy vehicles do more damage to the roads than the passenger vehicles and SUVs do. How about we charge the heavier vehicles a higher fee and keep the cost down for cars and SUVs?
07/16/26	Edward Palenik	60482	X				X		X		Oppose	I oppose any toll hike, now and in the future. The tollway makes more money than it needs to exist and keep excellent maintenance of the roads. It appears that toll collector personnel (tollway gatekeepers) have been released due to automatic toll collection, so millions of salary and benefit dollars were saved. Where did that money go? We all know that the tolls are going up because the governor made a deal for votes by giving the unions millions (or billions) of our dollars to try and get reelected. The new 15 year rebuild program for the tollway was created to "justify " a toll increase. What is being done is another deal, under the table, to put money in someone's pocket that resides in Springfield. If the unions want to keep working, let them work on the roads and bridges that our gas tax has been going to and not being used. $3.7B can pay for a LOT of repairs.
07/16/26	Donald Weernink	60641	X		X		X				Oppose	I spend over $500 alone a year on tolls just going to and from work, and $200 traveling outside of work, and none of this is tax-deductible
07/16/26	JOLANTA WILHELM	60056	X		X	X					Oppose	The cost of living is already too high in Illinois. Our Goverment should first review the spending before taking more money from IL residents.
07/16/26	Sally	60642	X				X		X		Oppose	A toll increase? Ridiculous! I remember when the "Tollway" was temporary, and would become a "Freeway". It's interesting to watch the "workers" when I'm stuck in traffic. Most of them are standing around, with only a few people doing the work.
07/16/26	Jake	60601-1631				X	X			Less construction zones	Oppose	Fuck Jb pritzker and fuck your tolls. Your shit used to cost 0.40 fkn cents. Yall can choke on a cock. Fuck this and fuck yall. Roads are fine. The current rates is too high as it is. It shouldn’t cost more that 0.40 cents per car. That’ll be more than enough. You all are just stealing the excess and pocketing it. 07/16/26	CRISTINA TAYLOR	60120			X	X	X				Oppose	ILLINOIS ALWAYS WANTS TO CHARGE MORE FEES FOR EVERYTHING BUT DOES NOT WANT TO PAY COST OF LIVING WAGES. HOW ARE PEOPLE GOING TO SURVIVE WITH ALL THESE GROWING FEES?
07/16/26		61107			X	X	X				Oppose	
07/16/26	Cheryl Rascon	60410	X				X	X			Oppose	Why do you need more money? You have not done anything to help the people travel on the interstate tollway. What happened to the money that has been collected over the decades? There’s millions of dollars to build sports stadiums at the taxpayer expense. Why isn’t the money being collected over decades used to repair the infrastructure and all things on the tollways? We have taxation without representation. This must end.
07/16/26	David Crablouse	60655	X			X	X				Oppose	The public was told that these roads would be paid off over four decades ago. This is bullshit. Go bankrupt.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/16/26	Duck Fou	60181	X				X			The toll fees were supposed to end in 73.	Oppose	Now y'all want another raise for money so you corrupt politicians can steal money, and waste more money on stupid shit. Get fucking real.
07/16/26		60060	X			X	X				Neutral	I didn't see anything about eliminating the existing (unused) toll booths that lead to much road confusion. That would be money well spent.
07/16/26		60510			X	X	X				Oppose	
07/16/26	Tax payer	60187			X		X			Transparency	Oppose	Sounds good, but like all the previous political promises the money will be misused . The state is broke. Thanks to our illustrious politicians.
07/16/26	Linda Sala	60123	X			X	X				Oppose	
07/16/26	Catherine Kuna	60188	X				X			safety	Neutral	The email I received today, July 16, 2026, for the public hearing in DuPage County, came AFTER the hearing already happened. That is a big problem!!! If the tolls increase for passenger iPass holders by 45 cents per toll, I will probably use the tollways less. Maybe that is your goal?
07/16/26		60630	X				X			No tolls	Oppose	The toll way system, at its inception, was only to be in place to pay for its construction. Decades later, the Governor is still using it as a tax coffer to pay for government bloat. Another increase in taxing with no decrease in spending. Live within your means. If a company operated in this fashion it would go out of business. If a household manages their finances like this they go bankrupt. JB gets richer while Illinois goes broke.
07/16/26	Betsy and David Brint	60035	X			X	X				Neutral	I don't understand why the current fares cannot define the level of improvement that can be afforded. What is the urgency to do all the projects proposed. We are in a time of added costs for working class people.
07/16/26	Bob Orn	60540				X	X		X		Oppose	The toll is to much now - raising the toll increases the price of everything that trucks transport adding more inflation which we don't need. DO NOT RAISE THE TOLLS! Find another way!.
07/16/26	Michael Walsh	30024-2398					X	X		It's the only option.	Oppose	The existence of the toll roads are an to any civilized country. Our taxes pay for the roads already. The tolls, if you properly budget, are meant to cover maintenance and improvements. If the current 50 years of tolls collected are not enough to cover improvements, I encourage you to return the management of the road to the state and find a new business endeavor.
07/16/26	Michael Schmidt	60527			X		X			Unbelivable	Oppose	Keep raising taxes and tolls and you wont have anybody left in this state 👎▨
07/16/26	Lisa	60067			X		X		X		Oppose	The tolls were supposed to go away we were told and they are increasing instead?
07/16/26		60586			X	X	X				Oppose	Stop raising the tolls and just maintain the roads as needed instead of making over the top improvements that aren't necessary. You make enough money from the tolls as they are currently, just use the money collected wisely or have a longer timeline for projects to start and complete instead of rushing. With the amount of vehicles using the roadway there shouldn't be a reason to increase it that much per vehicle as it is already high enough as is. You have it all I-Pass friendly now and not paying extra booth workers, just maintain it going forward no need for extra changes.
07/16/26	Lore Falimirski	60002	X		X		X				Oppose	Why an increase? We get a higher gas tax. Our food tax is also 10 percent. Illinois legalized marijuana were is that tax money going? Stop making Illinois residents pay and line the politicians pockets
07/16/26	Michael	60560	X		X		X				Oppose	You already take more money than I can afford to give you. Tollway fees were supposed to be temporary not a permanent solution.
07/16/26	Jeffrey Giernoth	60002	X			X	X				Oppose	Tolls just get funneled to Chicago transit.
07/16/26	William McNally	60193			X		X			Affordable	Oppose	Tolls plaza's were supposed to be closed in the mid 70's. It's already too expensive to live and get gas in the state. Whole heartly oppose any more increases in tolls or tax's. Living in the suburbs, I'm tired of bailing out the city of Chicago because of mis-management. Toll money now going to the City to bail out Metra, CTA and RTA. Only reason Illinois had balanced the budget last year was due to Covid money from the Feds. No more money and the budget is unfunded now. Balanced my ass.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/16/26	Stacy Maita	60641			X	X	X				Oppose	as an Illinois resident I can not afford to pay anymore in taxes or fees, I am already looking for a new job and place to live outside of this overpriced state so I can live and not just survive barely.
07/16/26	michael wendorf	60148	X			X	X				Oppose	Until we see better attention to road and highway maintenance based off currant funding and toll charges, I'd refuse to support a toll hike. There is, what I believe is too much siphoning from the roadway maintenance account to fund other wasteful programs.
07/16/26	Eric Newland	60087	X		X		X				Oppose	I am strongly for improving the roads and interchanges, but the length of these projects take unrealistic times. The I-88 project seems to be going on forever with no end in sight. Find time to get things done realistically and with the increased budget you have. No longer should IL cover your costs.
07/16/26		60005	X			X	X				Oppose	
07/16/26	Harold Schilpp	61747	X				X		X		Oppose	Too much of a rate increase!
07/16/26	Olivia Ballon	60513	X		X		X				Oppose	You will not get anymore of my money. As a resident of this state I am done funding it.
07/16/26	Sid Salgado	60068	X		X		X				Oppose	Stop raising taxes! Have JB pay
07/16/26		60441	X		X		X				Oppose	People can barely eat and you want to raise prices? Aren't tolls supposed to become FREE at some point? Just another way to force people to pay. Greedy, greedy. I hate IL :)
07/16/26	L	60558	X		X		X				Oppose	
07/16/26	Lauren Svendsen	60070	X			X	X				Neutral	While I absolutely agree that an increase is needed for tolls to maintain the roadways, I feel this increase is too much of a spike up especially in this economy where inflation and lack of wage growth is making budgets tight for residents. Would rather see a more gradual increase in the price with smaller increments (ie- $0.10 increase 2027, then $0.10 2028, etc.) till it reaches the point of consistent increase to account for inflation to maintain the roads.
07/16/26	robert klein	60015	X	X			X				Oppose	The tollway was originally sold as tolls would end when the original Bonds were paid off. Instead, the tollway system became a place for politicians to put employees for political gain. The current cost is way too high. Any further increases in the tolls would be really burdensome on average people who are already cash strapped.
07/16/26	Mohammed Saifullah Shareef	61606	X		X		X				Support	Transportation infrastructure is essential to the economic vitality of northeastern Illinois, and the Illinois Tollway plays a critical role in supporting the region's mobility and growth. I support the Tollway's Capital Program and appreciate that the agency is funded entirely through toll revenues rather than taxpayer dollars. Because tolls are a user-based fee, only those who choose to use the system contribute to its funding, ensuring that motorists who do not use the Tollway are not financially impacted while preserving user choice.
07/16/26	John	60515	X		X		X				Oppose	Until the exist toll and tax money is spent efficiently and not wasted, asking for more $ is beyond unnecessary. Further, implementing permanent price increases is a complete joke that no business could ever implement.
07/16/26	Ronda M Balla	60561		X	X		X				Oppose	All you know how to do is to raise fees to keep the politicians and unions happy..poor choice..shame on u pritz
07/16/26	Brian	60008	X		X		X				Oppose	Shockingly another way for Illinois politicians to pass higher costs to residents instead of cutting wasteful spending and spending money where it is needed. Signs for each tollbooth cost were removed to hide the fact how much they have been increases. Its time to bring back signs at each tollbooth throughout the state showing how much they cost for it to be a constant reminder to everyone of how high the tolls have become.
07/16/26	william f calams	60120	X				X			Getting illegal aliens off our roadways	Oppose	No more money for roads than is already being taken. Illinois benefit fraud needs to be investigated aggressively before I contribute another dime for the feckless incompetence of Illinois Politicians.

07/16/26	JD Cumbee	60515	X		X		X				Oppose	NOBODY WANTS INCREASED TOLLS. Fix your budget and debt problems if you want more money for roadways. Ridiculous.
07/16/26	Vicki Allbritten	60193	X	X			X				Oppose	Extremely high increase causing more drivers to avoid tolls and use streets causing more traffic jams and more road repairs.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/16/26	Kurt Deckelman	60439	X				X		X		Oppose	Absolutely ridiculous! Tollways should become freeways over time as promised very early on in their development. That should be the goal and not to become another buruecratic, political machine as it has become. The current rolls are already outrageous, especially in I-355! Illinois is already one of the most highly taxed states in the country so this move will simply add another reason for citizens to move to other lower taxed states. Enough is enough. Be more efficient! Reduce non value add activities, improve operations, eliminate waste & abuse. Do your damn jobs like the rest of us. Live within your current budget limits just like households have to do. Enough “tax & spend”! I already try to avoid the tollways due to the already high toll rates so raising these rates even further will force us to try to Completely avoid the tollways. Manage the tollway system more effectively or loose more users!
07/16/26		61109				X	X		X		Oppose	I drive from Rockford to Schaumburg everyday for work, already am paying enough in tolls that were supposed to be removed long ago. These roads have been paid for over and over yet where has the money gone. We already pay more then most states for taxes and now you want to increase tolls.
07/16/26	DJK	60140	X		X		X				Oppose	
07/16/26	Armand Don Alcazar	60608	X		X	X					Neutral	Visit a city like Omaha, Nebraska, on Dodge Street. They took a street filled with traffic and built a two mile fly-over the existing street called the West Dodge Expressway that extends from 84-120, over 4 miles. If a city like Omaha Nebraska can do that, why couldn't a city like Chicago, IL on the highways leaving downtown?
07/16/26	Gary Miller	60067	X	X	X						Oppose	"Toll free by '73" - you've not been truthful since day one. Why should we believe you now? Bah!
07/16/26	Tom S.	60030	X		X		X				Oppose	The tolls are oppressively high already amidst out of control inflation and corporate greed in the broader economy. I don't accept the "maintaining roads" excuse because the same stretches have been constantly "under construction" for the last 10+ years. I agree a modest increase in toll rates is sensible after a 10 year freeze, but to catch it up overnight is not the answer. The tollway authority sat on its hands for 10 years before implementing an increase, so this increase can and should be phased in over the same span of time. There was a time I was spending over $1,200 annually in tolls just to get to and from work and thankfully I was being paid "enough" at the time to budget for that. Not everyone has that luxury. People are already stretching themselves to put food on the table, and they simply don't have capacity to spend more money for the "convenience" of traveling to and from work.
07/16/26	Brad Jones	60041	X			X	X				Oppose	
07/16/26	Kathie	60540	X		X		X				Oppose	Use the money you are receiving, the money needs to be spent like it’s your own. the tolls are high enough. We pay enough taxes to cover it
07/16/26	Lisa Haynes	60431				X	X		X		Oppose	Tolls are already to expensive and now u want to raise them again! I just might have to move to Indiana!!!! This state sucks!!’
07/16/26	Dave Peace	60566	X		X					Funding should come from State Budget and delete all tolls.	Oppose	The IL State waste money on non-essential items like ILLegals that could replace tolls and make the highways open for everyone. Raising tolls is opposite of where we should be going.
07/16/26	Ra	60076	X			X	X				Neutral	
07/16/26	Shanti D Brown	60490	X		X	X					Oppose	No increase please
07/16/26	Lisa Sakolari	60124	X				X			Discount for people trying to make a living.	Oppose	I run a small business and these fees are very expensive. Between the increases in license plates for commercial vehicles and toll fees, this is a burden for small businesses. Some proposed options for small businesses to have a discount or charge out of state plates more fees for use. Same as daily communters for work should also have a discount. People working should have a discount vs leisure travel.
07/16/26	Frederick Kviz	60543	X			X	X				Oppose	The Tollway system was supposed to retire tolls decades ago. I'm okay with paying a reasonable toll. However, the price already is high, especially to drive towing our boat on a single axel trailer. I oppose any toll increases.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/16/26	Anna Tapling	60068	X				X			Affordability and fiscal sensibility by the adminstrators	Oppose	The tollway system was meant to be temporary. It became permanent, and now these increases would appear to be irresponsibly, timed and outrageously sized. You are making access to the tollway system untenable for many people.
07/16/26	Dennis	60056	X		X		X				Oppose	Collect all the unpaid tolls!
07/16/26	Justin Time	60491	X		X		X				Oppose	You’re all absolutely out of your mind. Disgusting toll hike. Tolls provide billions in revenue and you want more lmfao
07/16/26	Charles Zydek	60190	X		X		X				Oppose	Significant amount of Tollway and IDOT funds were stolen by the CTA agreement, this should have been solely a fare increase for CtA patrons. Everyone should be responsible for their OWN costs. I will no longer use the Tollway unless no other route is available. This is a disgrace and Pritchett should be thrown out of office!
07/16/26	James J Corbett	60516-2905				X	X			more affordability or senior discounts.	Oppose	The tolls were originated as a temporary charge but continue and have only increased. The taxes (residential and fuel) in IL are significant and should cover any needed road repairs. I will join with many of my acquaintances and avoid using the toll system when I can. TOTALLY OPPOSED TO THIS.
07/16/26	Susan Groos	46373		X	X		X				Oppose	It's already so high like everything else. Nothing ever goes up 5-10 cents anymore. Bam 45 cents added on to .75 already. I will try and not use the expressway anymore.
07/16/26	Arlene J Magoc	60403	X			X	X				Oppose	Stop nickeling and diming tollway users.
07/16/26	Gregory Jurkovic	60452			X		X		X		Oppose	Illinois is the only state that requires a driver to pay a toll to leave the state, and pay a toll to re-enter the state. Whenever I use the toll way, it takes me 1 hour to cross into Indiana. That is a 15 mile stretch
07/16/26	Lisa Skilnik	60451	X		X	X					Support	
07/16/26	Matthew Baltazar	60103	X			X	X				Oppose	
07/16/26	Rae	60085	X	X			X				Oppose	People at the top cut pay . Years ago heads of tollways we’re not the most reputable people hope it’s better but increase not acceptable. You don’t need six people to fix a pot hole.
07/16/26		60067	X		X		X				Oppose	Where is all the money going already? I would want a full audit before any increase is proposed!
07/16/26	Paul sv	60561				X	X			free	Oppose	STOP that shit with increase!!!!
07/16/26	Philip schwier	60527	X			X	X				Oppose	These roads should have been paid for 50 years ago
07/16/26	Kari Fair	60108				X	X			No stop lights!	Oppose	We were promised when the roads were paid for by the tolls the tolls would be removed. Where is all the income going?????The tolls are excessive and to raise them more will result in people avoiding them unless commercial. Can Illinois do anything to serve the public that pays taxes instead of robbing us left and right with taxes, property taxes. We do NOT need stations built with gas or restrooms on the ipass. People can exit and use existing infrastructure easily accessible. I have driven I 65 and there was no bathroom exit or a long the expressway roadside for over 60 miles. We DO NOT have that problem, just exit!
07/16/26	Walter Gullang	60142	X				X			SEE COMMENT	Oppose	I am not a stupid person, I know how Illinois works. This is a done deal. You have made up your minds. The increase WILL happen. I went to your public meeting in Huntley and it was a farce. One big lie. You people on the board just don't have the gut's to say NO. No Increase. You know as does the people , you don't need what you and the governor is asking for. I have a long article on Nextdoor and believe me, WE THE PEOPLE ARE PISSED. I have also written to my state rep. and will be writting to my state senator. If you people really do need extra money, why don't you start tolling all of the Chicago expressways ? Thats right, start tolling the people of Chicago. Make all expressways toll roads. We the people of the suburbs are getting tired of supporting Chicago. Again, you know as well as I know, THIS IS A DONE DEAL. YOU'VE MADE UP YOU MINDS. THE INCREASE WILL HAPPEN.
07/16/26	MK	60124	X	X	X						Support	When the milk price is gone up by 60-70% so is everything else so it all make sense to support the toll hike to ensure the transportation- infrastructure is improved and maintained. Use Tollway everyday to commute and amount of Tolls paid still lower side compared to many comparable states.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/16/26	Kateri Bartz	61080			X		X			Affordability	Oppose	Illinois has increased taxes on the community and this is one more thing. This roadway was never suppose to continue to be a tollway. Not to mention that you have sold parts of this to other countries. The state of Illinois is also taxing more on gas then other states.
07/16/26	Tom Klimczak	60439				X	X			Tollway funds going to the tollway.	Oppose	If the most worthless governor in America hadn't stolen funds from the Tollway to pay for transit that I never use, you wouldn't need these unnecessary toll hikes. Also, please remove any and all political hires and appointees from your organization. Thank you.
07/16/26	Sarah Miller	60453	X		X		X				Oppose	The cost of road upkeep has always been passed on to drivers with no other avenues being thoughtfully considered. And road upkeep has not been undertaken in sustainable ways. Find ways to make long term updates, reduce the costs of labor and materials (they longer term fixes and negotiate with unions for quicker turnarounds), and make efforts to reduce wear and tear from things like salt and snow plows. More effort needs to be made to prevent problems and make useful changes rather than endless short term fixes. Also, invest on trains and buses so commuting will be easier without having to default to more use of cars.
07/16/26	Matt Sorensen	60048	X		X	X					Oppose	The toll increase is a clear dereliction of duty by the CTA, mayor of Chicago and governor's offices. The tolls were implemented to be temporary many years ago and, not only have they perpetuated, now the tax on the common man increases yet again. Abuse of power throughout Chicago needs to end.
07/16/26	John Russo	60103	X				X		X		Oppose	You really are going for annual inflation-increases. And every other government agency & and their spending money they don't have is the greatest cause of inflation. So why not. Another reason to exist IL.
07/16/26	John Zitkus	60060	X			X	X				Oppose	Do you think the public should function as an unlimited piggy bank? It sounds like you want to remake the tollway system. The toll was originally supposed to be temporary. Which any time politicians say "temporary" they really mean permanent. Illinois is raising all kind of taxes and you want to raise the taxes for using the expressway? We can't take it anymore. The government is supposed to live within the revenue, not increase revenue (taxes) every time a new program gets proposed. NO to the toll hike. NO to tying toll increases to inflation.
07/16/26	Vicki Rzeczkowski	60053				X	X		X		Oppose	I don't think the toll should be raised at this time! Cycle back a year from now and take another look.
07/16/26	Lynn	60805	X			X	X				Oppose	When the tollway was first proposed it was sold to the public as a means of revenue for schools. There was no accountability for the revenue it generated. Now they’re asking for more money to pay for improvements. The people of Illinois pay enough in taxes and I am not happy about this proposal.
07/16/26	Corinne Vos	60477	X		X	X					Oppose	Please hold off on the tolls until 2028. Everything has gone up so significantly that I do not think another tax is the answer. Please just give it a year.
07/16/26	Tom Webb	60532	X		X		X				Oppose	I oppose this there is a huge unused surplus already. If this goes thru I will find ways to get where I am going without using the tollways. I regularly use 55, 255 and 294 but can find work around.
07/16/26	Brad Walbrun	60193			X	X	X				Oppose	I understand that the price of things go up over time, but this increase is just too much.
07/16/26	David J. Kaluzny II	60447	X			X	X				Oppose	First I oppose a huge increase like this for both passenger and commercial vehicles. This money is not needed. Secondly I vehemently oppose fan automatic every other year increase. It eliminates all public accountability going into the future. No, No, No!
07/16/26	Jeannine Miller	60133			X		X			Affordability	Oppose	No this proposal is horrible. Most residents can't afford their lives with gas, groceries, property taxes etc. Illinois taxes us to death, maybe the Tollway Board should take a pay cut like we've all had to do and maybe then they can fix the roads. The roads have been awful here for way more than 15 years so when you last raised tolls you didn't do a good job then fixing roads and the money will just go in pockets like it does for everything else in this state. SO my answer is NO TO THE PROPOSED TOLL HIKE OF .45 CENTS.
07/16/26	Joseph Nabozny	60067		X		X	X				Oppose	Automatic cost of living increases in tolls only leads to more make work projects and protects useless bureaucrats form accountability for increasing fees.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/16/26	Jonathan Slywka	60002	X				X			Tollways should be free	Oppose	Oppose the increase. The state of Illinois and Illinois tollway needs to learn how to budget to fix the roads. All the state and tollway does is increase all costs of living instead of focusing on how to maintain a budget and work within the budget. So I oppose the increase.
07/16/26	Joseph Nabozny	60067		X		X	X				Oppose	Automatic cost of living increases in tolls only leads to more wasteful spending on make work projects and protects incompetent bureaucrats from accountability for raising fees.
07/16/26	Ken Littwin Jr	60008			X	X	X				Oppose	
07/16/26	Stephen P Ban	60025	X			X	X				Oppose	We are all aware that the original plans for the tollways called for the tolls to be eliminated. How it is that they can be maintained -- and increased -- is another reiteration of the state's reputation as one that spends recklessly. This increase isn't problematic in the abstract, but in the context of everything else that we deal with and that is being taxed, it's an object lesson in why people are leaving the state in droves. I plan to. Illinois needs to rein in its spending and stop taxing everything that moves. A hearty, hearty no on this one. Has to start somewhere.
07/16/26	laura landmichl	60629			X	X	X				Oppose	Hard working middle class people use that toll way and are being pinched every where on money they need to get to work and afford it .l Not raise it because money is being wasted
07/16/26	Norman Boyer	60453	X	X	X						Support	If the $,35 toll of 1962 had simply grown with inflation, it would now be about $4.90. The much lower proposed toll increase is clearly needed and moderate.
07/16/26	Wanda Ramirez	60188	X		X		X				Oppose	This increase will only make it more difficult for the citizens of Illinois to reside here. Affordability in this state is decreasing with high property taxes. High taxes and unaffordable rent prices also contribute to people leaving the state. Many are younger and looking for better opportunities. Increasing tolls is just another way for residents to not feel heard about how unaffordable Illinois has become. As government officials you need to think outside the box on solving government problems, instead of always making the citizens pay for the mismanagement of tax dollars that has been caused by bad decisions. I know in the end, the toll increase will probably pass, but I hope you consider how detrimental this is economically to Illinoisans. As a result, more residents will keep on moving elsewhere as more taxes and increases on government services keep on going up.
07/16/26	Deb Sturges	60542	X		X				X		Oppose	I think the tolls should go up but not that big of an increase. I feel that 30 cents is fine for the next ten years then revisit and see if it needs another increase. 45 cents is too much to handle at this point
07/16/26	Ronald Haring	60545		X	X		X				Oppose	The toll rates are already too high to afford! Illinois can't seem to take enough of our money. I'm on a fixed income. Nobody is going to increase my income to pay for these extra costs.
07/16/26	Jeremy	60089	X		X		X				Oppose	Our taxes go up every year. I feel that some of that is obviously used on our roads and highways. Why do we need to keep increasing the tolls?
07/16/26	Sean	60515	X				X			cost	Oppose	Tollway is becoming a huge bloated bureaucracy.
07/16/26		60104			X		X		X		Oppose	This is such BS. Lower politicians' pay. Boom. Funded.
07/16/26	Mary Mead-Cantrell	61061				X	X			Affordability is the only answer	Oppose	Another reason for trucking companies and individuals to leave/avoid Illinois.
07/16/26	Austin Kosiak	60546	X			X	X				Oppose	When will it end? When the tollway was built tolls were to end once construction costs were recouped. This is just another tax increase on the people of Illinois with NO accountability. Enough is enough. I say NO
07/16/26	Bill	60452	X		X	X					Neutral	I would need to know what improvements would be made before i can make a final decisionon whether or not i support the increase. Are we adding a new tollway? Are we widening existing tollways to allow for a more fluent flow of traffic?
07/16/26	Jon Costliow	60115	X				X			Sound barriers in Dekalb, IL	Oppose	Sound barriers are needed in Dekalb. There's also been a lack of maintenance ie mowing, and other landscaping needs; I 88 mile marker 92 area.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/16/26	Robert W	60174			X		X			No more tolls!	Oppose	We Illinoisans are already taxed to death. The proposed tollway increase will only push more people out of the state, taking with them their income and taxable dollars. Businesses are closing or leaving Illinois in record numbers because of the tax burden. This needs to stop. Otherwise all residents are going to remove the toilets from their homes and claim that it is uninhabitable so they don't have to pay taxes. Then you'll have not only shitty roads, but shit all over the sidewalks and streets and public parks. I am a 4th generation resident. The tolls were only supposed to be around to fund and build the Eisenhower Highway system when started in the 1950s and 60s. My grandparents and parents both recall what was "told" to us. You politicians have bled us residents dry for too long. Enough already!
07/16/26	D LEBEAU	60140	X			X	X				Oppose	The proposed toll increase of 45 cents is an almost 50% rate increase, the largest I've ever seen, and the projects proposed are not worth it. As an example, Smartroad is obsolete with new Google Map and Waze data to warn drivers of hazards and often times works better then the Smartroad system. Smartroad comes with a huge cost and zero benefit.
07/16/26	Kathy Roupas	60561		X	X		X				Oppose	We wonder why people are moving out of illinois. I will just take an alternate route so I don't have to pay an increase. I'm sure more people will do that and create more traffic on alternate routes.
07/16/26	Stephen Neil SR	60467-9435	X				X		X		Oppose	The original Tollway System was supposed to be meant to build the tollway system and the people in Illinois would pay tolls until the roads were complete. Now we are being told that we still continue to pay and the fees increase. Senator Durban was in office and could confirm this! This is a terrible idea for the people of Illinois. We already have very high sales, state taxes, and our property taxes are way too high and being raised constantly.
07/16/26	Doug Butchart	60120				X	X			sometimes it's the safest and way to go	Oppose	Toll rates were raised a few years ago. 45 cents per toll will raise the cost of many people's daily commute to an unsustainable level. When the toll system was originally proposed, it was supposed to be converted to a freeway after 40 years. What happened to that? The toll authority needs to live within its budget.
07/16/26	Derek Jones	60487	X	X			X				Oppose	When is enough enough. Where is all the money going from the tolls now. Millions a day is collected on our tollway. Weren't these supposed to be temporary, back in the day. If you keep giving Illinois Politicians permission to tax us, it will never get better in this State.
07/16/26	Valerie Dyar	60441	X		X		X				Oppose	This country (and state) is already putting people into a situation where we are not able to afford to live. How are we to be able to afford to drive on the tollway? It's getting out of control.
07/16/26	Chris Velzen	49426	X			X	X				Neutral	All costs associated with road repairs continue to skyrocket. $.45 seems excessive. Tier the increase over a 10 year period. Because of the iPass technology, could those who use the system more receive a slightly reduced rate? Be diligent on collecting from those pay by plate and fail to pay.
07/16/26	Rick G	60233			X		X			Getting from point A to point B without have to take out a loan to cover my I Pass account.	Oppose	Tired of all costs going up in Illinois and on top of it these automatic increases like gas tax only now tolls added on bills passed to cover politicians and Illinois toll, commerce's and what ever else commissions butts so they can say it's been ten fifteen years since last increase. That's B S_ _ _!
07/16/26	Corey Mccarter	60073					X	X		none of the other choices applies, there isnt less traffic, there arent predictable drive times, and barely maintained roads	Oppose	You got rid of all the jobs at the toll booths and still raise fees, this isn't benefitting people who need the roads to travel, you have a monopoly on convenient travel and make money off public roads that should have been removed as toll roads years ago. I think all toll roads should be removed especially if you receive gas taxes and federal money to keep them maintained, anything above that is fraud,
07/16/26	Mike Christian	60521		X			X			Realistic speed limits	Oppose	There is enough money in the tollway system. If this will increase the number of toll roads, I am against it 100%. The number of years since the last increase does not matter. You do not need an increase in order to justify more spend that you can complete anyway.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/16/26	Charles Egner II	60439				X	X			Sustainable cost	Oppose	It costs me $3.80 to get to work each day on the tollway as a public school teacher. The difference in travel time is 26 to 38 minutes. I hope for the environment and my wallet this increase does not pass. I will have to look into going the back way whenever possible should this pass as cost increase are everywhere and prices are rising. Please find a different system for these toll roads.
07/16/26	JOSEPH A BUTLER	60554			X		X			Less construction	Oppose	The state of Illinois is already robbing its residence in every possible way! So many residents have already left due to this. The misuse of funds in Illinois is borderline illegal. How can you even think of raising rates on a system that was originally designed to be temporary. The lawmakers in the state of Illinois are out of touch with reality!!
07/16/26	Miller	60447	X		X	X					Oppose	More police patrol to slow down excessive speed and weaving drivers which cause accidents
07/16/26	Kevin Niemann	60014	X				X	X			Oppose	
07/16/26	Robert Raymond Briggs	60126-2535			X		X			Low toll rates	Oppose	The tollway is already way too expensive and you just had an increase recently. No way
07/16/26	Nathan O'Day	60004			X	X				Most direct route	Oppose	Tollways were supposed to be temporary. Illinois made them permanent. The State already takes in around 1.5 billion dollars per year from the current toll system. Increasing tolls to “make the roads better” is absurd. This is a product of either fraud, waste, or abuse.
07/16/26	Barb	61020	X			X	X				Oppose	That is a huge increase. For those who use tolls everyday that is a huge dent in finances. The money has to come from somewhere else. You can’t keep hitting local people. There are tons from out of state that do not pay tolls. Or locals who never pay their tolls. This only affects those of us who actually have an account set up and do the right thing by paying them. Absolutely ridiculous amount of money considering how much we are paying for gas as well right now. Poor timing...
07/16/26	Marc McKay	60187	X			X	X				Oppose	Any tolls collected should follow the original charter of the Commission formed in the 1950's and only spent on ISTHA projects. Toll increases are inevitable. Auto toll increases should never be allowed. A 60% increase in passenger tolls is unwarranted. That increase will drive motorists away and further compound the traffic congestion on other non-toll roadways. Patrons will be incensed when they learn that the toll increases were formulated and demanded by Local 150 for their support for Pritzker's transit reform funding bill. The proof is Local 150 opposed the first draft of this bill and only supported it when all the toll increases were added to that package. It's political suicide and should be amended.
07/16/26	John Starasinic	60431			X	X				Tolls that eventually.go away when the bonds are paid. Not increase after increase.	Oppose	Illinois has a spending problem. Every budget politicians increase the tax burden on taxpayers. No budget cuts, no government jobs reductions. Always taxing the citizens. We are taxed to death. Stop increasing everything including the tolls. We already pay way too much in taxes in this state. Make cuts on your end and stop putting the burden on the citizens of this state. We are already heavily burdened. I do not plan to retire here in the future because of you democrats and your tax burdens you put on me. 2nd highest gas tax, #1 in property taxes, the list goes on. You, IL politicians, have a huge spending problem.
07/16/26	Bianca Pruitt	60433		X	X		X				Oppose	proposed rates are too high with the current standard and cost of living. The proposed rates are not affordable for daily commuters.
07/16/26		60634			X		X			How about you actually use this money to make the roads safer instead of putting the politicians pockets!	Oppose	Stop taking money from Illinois residents. How much is enough?!
07/16/26	Kyle weidner	60103	X				X			Fuck off politicians	Oppose	Fuck off, IL politicians are corrupt. Eat shit.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/16/26	Tony Fakhari	60035					X		X	See my comments below	Oppose	We have the nation's highest taxes and the tolls are out of control. The state and federal government should be paying for this. Isn't the thought of having highways to enable an economy where in turn people going to work feed into the system. 45c per toll as an additional increase has demonstrated the tollway has no financial controls and is wrecklance in management. The state and local government is also culpable. I vehemently oppose these increases. The rational is ludicrous and not inline with people's wages or inflation.
07/16/26	Gregory Sensmeier	60467	X				X			Root out all waste, fraud and contractor political kickbacks. No politician should ever be able to collect campaign funds, gifts or favors from an Illinois road building/maintenance contract or service.	Oppose	Any tax increase in Pritzker's overtax everyone state of Illinois should be subjected to intense scrutiny by every lawmaker in Springfield. in this case, the proposing agency should be required to explain to inform in great detail, words and video presentation to all citizens of Illinois why these monstrous increases are being made including the 5 year, 10 year and 20 year plan to maintain all roads throughout Illinois and expand and improve the interstate beltways that encircle the NE metro area and connect with Indiana and Wisconsin interstates. Legislation should also include laws that prevent the governor or legislative bodies from raiding the road tax funds collected and using them for any other prohibit spending them on any other item! FULL STOP!!!
07/16/26	Michael G Quilty	60462-1636	X				X		X		Oppose	When is enough enough? You need to stop expanding the tollway system or people won't be able to afford to use it any longer. I'm so tired of seeing construction projects on the tollway system year after year. Can't we just do maintainance only for a few years to give Illinois drivers a break for once?
07/16/26	Mary Beth VanCleave	60441					X	X		Less money owed	Oppose	Illinois is a tax happy state and it's hard to take on any more debt per person! Enough is enough!
07/16/26	Adam Brown	60544				X	X			Stop	Oppose	For the love of god stop taxing us to death. We are the worst state in the country. Now you want to make it worse. Enough. You mismanage everything. You give billions to illegals. For once less government
07/16/26	Timothy Osterman	60464	X				X		X		Oppose	With everything else increasing, a lot of people will not be able to afford the increase
07/16/26	Andrew Zawada	60169	X				X		X		Oppose	Your proposed increase is outrageous. I would rather take back roads spending more time with my family than pay that type of increase. Everytime and "improvement" starts it takes multiple years to complete and when it's complete there's more "improvements" that screw up traffic for years. Like they say Illinois only has two seasons, Winter and construction.
07/16/26	John	60482			X	X	X				Oppose	Enough is enough. Maybe if our governor wasn't fighting with the federal government and concentrated on Illinois we could find other ways
07/16/26	Kira Cloonan	60504	X			X	X				Oppose	In the current economy, this will practically double the cost of travel for many constituents. This gives me a serious sense of concern for many people who are already hurting financially. Even with the financial aid programs in place for the lowest earning Illinoisans, many do not qualify for this aid. Many people making almost $100,000 a year are paycheck to paycheck. How will they get to work?
07/16/26	Dana Kaempen	60563-9653	X		X		X				Oppose	45 cents is a HUGE increase, especially when the tollway system isn't even supposed to exist anymore! Sadly, you allowed yourself to become your own ecosystem instead of dissolving the organization once the bonds were paid. Instead, you're still here, and now reaching into our pockets for even more. ENOUGH IS ENOUGH! Use what you're already getting plus government funding and do what the rest of us do: Figure out how best to allocate your limited resources instead of constantly trying to take more.
07/16/26	Jesus ortegon	60120	X				X			No need for tolls when other states can do, why can't the state of Illinois do the same	Oppose	I have minimized the use of tollway highways to save money, and what is really upsetting is the fact that I have traveled to other states with far better roads and they don't charge any tollways, look at the fat built in your budget and cut as much as possible and maybe restructure your budget to save money and not increase the tollways
07/16/26	Donna Dobson	61329	X				X		X		Oppose	

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/16/26	Thomas Spears	60561	X			X	X				Oppose	What percentage of the increase in Tolls will go to bail out Chicago's Metra? If this is true why do the people of Illinois have to donate to the incompetence of the dumb elected Democrats?
07/16/26	Susan Minster	60035	X				X			no tolls	Oppose	I would be in favor of a one time price increase but I do not approve of the toll rate bring tied to an every other year price increase based on inflation. We are already doing that with the gas taxes and are not seeing where that money goes. As a road in IL you should be getting some of those taxes for road improvements.
07/16/26	Kent Drysch	60089	X	X			X				Oppose	Why do we even have the tollway? Wisconsin has great roads and no tolls. Just another typical money-grab in Illinois.
07/16/26	Local C	60169			X	X				No more construction.	Oppose	Absolutely not. No more projects. Waste of time and money. The only thing causing traffic is construction. Clear the cones and we'll have less commute time. Less is more.
07/16/26	Luisa Lomonaco	60178			X		X		X		Oppose	We already pay too much for tollways. To and from work, I pay $3.00 every day. It's outrageous that you want to increase the rate again.
07/16/26	Carrie Trinidad	60435	X			X			X		Oppose	Is Pay by plate included in the iPass rate? Also, how can an increase in tolls create less traffic, or congestion?
07/16/26	Wesley Riesmeyer	60515	X			X	X				Oppose	I live in Downers grove and have since 2011. When we moved here in 2011 the tolls were reasonable, as were other taxes in the state. But since then tolls and taxes have increased exponentially, far outpacing wage increases. The state promised Illinois would be "Toll free by 73'" but has obviously not honored that. This increase will add to the already unreasonable tax burden citizens here pay and are leaving the state over. My wife and I pass through tolls weekly for work and other activities. I oppose raising passenger tolls by about 45 cents and authorizing automatic inflation increases without future board votes. I urge the board to reject automatic toll hikes and instead pursue a more transparent, accountable plan that protects drivers from open-ended increases.
07/16/26	Frank Caniano	61108	X				X	X			Oppose	
07/16/26	Steve B	60634	X		X				X		Support	The increase is good idea as infrastructure must be proactively maintained. Also funding it primarily through tolls instead of state and federal taxes removes the burden from those who don't use the highways as much, like retirees.
07/16/26	Jensen L Harden	60440			X		X			People Eating	Oppose	To Whom It May Concern: I strongly oppose any increase in toll rates. Illinois families are already struggling with the rising cost of living. Many are having difficulty putting food on the table, paying their rent or mortgage, and covering basic household expenses. Increasing tolls will only place an even greater financial burden on hardworking families, seniors on fixed incomes, and commuters who rely on these roads every day. Road improvements are important, but people come first. The roads can wait—families who are struggling to feed their children cannot. Please consider the financial hardship that another toll increase would create and reject this proposal. Respectfully, Jensen Harden
07/16/26	Barbara Headrick	60543	X		X		X				Oppose	Illinois already has too many high taxes especially compared to most other states. I absolutely DO NOT want to see fees of any sort increased in this state. Instead why don't the people in charge take responsibility for the wasteful spending in general especially with regards to those that shouldn't be receiving tax revenue in the first place. Let me stress again, I am apposed to raising toll charges even if the roads have to stay just as they currently are.
07/16/26	Hunter H	60133			X	X				No more road closures.	Oppose	If there were no more closures due to construction, there wouldn't be any traffic. Fill the potholes and carry on. No future projects are needed and would only add more traffic.
07/16/26	Rich Kostner	60555	X		X		X				Oppose	I am normally in line with most things for our state. I also know that toll increases have not happened (with the exception of the gradual ones from inflation, etc...) and that they are needed to maintain our roads. However, a .45 cent increase AT ONE TIME is ridiculous. Our tolls are high to begin with but adding such a huge amount is, honestly, a horrible thing to do to your residents. A .25 increase I can deal with--but .45. That's just shameful. With people already saying horrible things about our state/governor--which I do not--this one is nearly impossible for me to defend.
07/16/26	Brad Chapman	60451	X		X		X				Oppose	Still milking the drivers when the tolls were supposed to be gone 50 years ago.

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/16/26		60090	X	X	X						Oppose	Don't see that this is necessary as I see many toll booths built then no longer used. Not sure past history of incorrect choices should burden the customer of a price increase. Tolls already cost enough. This system was just supposed to be temporary in first place and never went away but continues and increases.
07/16/26	KENNETH A CARTER	62684	X		X					Saves time,	Oppose	Would support except opposed the diversion of Tollway funds to the Regional Mass Transportation System. These funds should have been used to maintain the Tollway.
07/16/26		60201	X		X	X					Oppose	The increase in prices should only be tied to peoples abilities to pay them. if they are tied to economic indicators and increased costs, while ignoring peoples ability to pay you run the risk of people not being able to afford to use the services. and since republicans do not believe in investing in public transportation, there is no alternative options for 99.9999% or people using the interstate toll roads. build more rail. charge trucks and semis substaintially more. more than half of the traffic on the interstate is semi traffic and they cause most of the delays.
07/16/26	Janie Bristow	60115					X	X		Only choice	Oppose	I do not want the tolls to be raised. I will not be using the tollway if the tolls are increased. I recommend using the money you already receive from tollway users to make the improvements. I believe that is why we are paying you extra money to drive on these roads.
07/16/26	Burnett	60134	X				X			Affordability	Oppose	The tolls are high enough already. Increasing the tolls and adding CPI automatic increases just unnecessarily adds to the ever increasing cost to live in Illinois. Try something unheard of in Illinois. Live within your budget.
07/16/26	Robert M	60137	X		X		X				Oppose	I'm opposed to the full increase for commercial and passenger vehicles. As an example, an individual who utilizes the tollway to get to and from work would see an additional $225 yearly expense(.45(proposed passenger vehicle increase) x 2(assuming utilizing tollway to get to and from employment location) = $225/year). This is in addition to increasing fuel costs already being felt by Illinois commuters. Increases to the commercial vehicle toll will only increase the burden for Illinois families as this increased shipping cost will be passed on to them too. I would not be opposed to a smaller adjustment. Future CPI adjustments are reasonable and appropriate. However, the immediate .45 cent(passenger) and 30%(commercial vehicle) increase needs to be reconsidered.
07/16/26	Martin Falada	60545	X			X	X				Oppose	Illinois Roads are the worst, always under construction, and we have been paying for it my entire life. Classic Illinois spending. I drive past road work in a traffic jam to find there is 10 people watching 1 person use a shovel or 5 people on a truck with 1 person dropping a cone every 200 feet. Quit taxing and charging us to death and figure out how to be more cost effective and innovative in how the roads are built so they last more than a year or 2.
07/16/26	Nicole B	60544	X		X		X				Oppose	I think the increased toll is outrageous. we are already at an all time high with inflation and now you want to increase tolls for the average Illinoian. That's ridiculous. Our pay surely isn't increasing to keep up with the cost of inflation. This is going to put an even bigger strain on the average driver who uses the toll road on a daily basis. This will negatively impact those who rely on toll roads to go to work and make an income just to survive. Thank you for taking the time to read my comment.
07/16/26	David Waycie	60047	X			X	X				Oppose	Tolls were supposed to have been eliminated after the original bonds were paid off. So you have been lying to the public for over 50 years. I oppose you and your leadership completely.
07/16/26	Jack	60137	X		X		X				Oppose	Fuck off with higher tolls.
07/16/26	Fred	60048			X		X			No more swindling by you people.	Oppose	NO just NO. Stop all construction for a couple of years and SAVE up money so you don't have to increase tolls now!! The money will be available then when you need to do the projects. When am I going to get a rebate on Illinois gas tax I pay at the pump when driving on the tollway that I pay by mile for too?!!!!
07/16/26	elizabeth pieper	60647					X	X		transparency in costs	Oppose	It is difficult to support the increase in tolls when everyone is experiencing an affordable living crisis. There is not transparency for these increases that continue to happen over the years. Mismanagement appears to be the culprit and there is no trust in the public. This increase is very steep and I will be looking at ways to avoid tollways if they go into effect.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/16/26	Mick	60007				X	X			Stop charging us so much for tolls	Oppose	You charge us enough money already no reason to increase rates.
07/16/26		60068			X		X			Low to no toll costs	Oppose	I am 100% against any price increases on a toll system that appears to just be perpetuating itself with new projects. Legally our toll roads only exist to fund road repairs and construction. Your projects are inefficient money pits.
07/16/26	C.Lewandowski	60133	X				X		X		Oppose	Enough is enough
07/16/26	Keri Gaul	60560	X				X	X			Oppose	It is completely unacceptable to increase tolls in Illinois when the current income generated from tolls and the majority of other revenue sources in this state is horribly mismanaged. Illinois is a financial disaster and going downhill fast. Stop it with the tax increases! Stop playing politics and manage our money! Somehow other states such as Indiana and Florida are able to do it. Why can't Illinois?
07/16/26	Kevin Hilby	61101	X				X			Duh, no toll fees, please	Oppose	Once a year we would go to Chicago, from Rockford, for a day trip. Same goes for Brookfield zoo. We don't go to these places now because of the increase of tolls, not that I can't afford them, it's the principle. We go to Milwaukee now, no toll roads. Plus, Milwaukee has free downtown parking. Refuse to hand over my money for tolls.
07/16/26	Alex	60013	X	X	X						Neutral	If the tollway is going to increase its toll for each driver, then I would hope the tollway would finish the construction and NOT WAIT EVERY SUMMER TO add ADD ON MORE MAN MADE CONGESTION if you want more drivers to pay then make sure you finish the construction THE WHOLE THING then take a rest from any other construction until there's actually something that needs to be fixed.
07/16/26	Concerned citizen	60404			X		X			Tolls are already too high	Oppose	This will devastate many people who have no choice but to use the tollway to get to and from work. Stop squeezing every penny you can from us. WE ARE BROKE
07/16/26	Max Byrd	60611	X			X	X				Oppose	
07/16/26	William M Martin	61701	X			X	X				Oppose	The state is in a well enough situation!
07/16/26	Jessica Raye	60174	X			X	X				Oppose	Living in the western suburbs means I need to take toll roads to get anywhere. It already costs me between$1.30 and $1.50 each way into the city and $3.60 one way to go visit my 93 year old grandfather in Sterling, IL. That's about $3 round trip a day into the city and an insane $7.20 to visit my grandfather. You're proposing that at just the first increase those go up to almost $4 to Chicago and over $8 to get to Sterling. Who's going to use the toll roads when they cost that much? The cost of groceries, gas, rent, and buying a car have all sky rocketed. You're already added 49.6 cents per gallon to gas, and now you want us paying an additional $0.90 per trip on tolls to start with before it goes up to what? You haven't said. How are we supposed to afford this additional insane daily tax increase on a toll way that was supposed to convert to a freeway in the 70s! Figure something else out. Illinois is already getting too expensive to live in. This will break commuters.
07/16/26	Steve	60076	X	X			X				Oppose	I'm old enough to remember when the Tollway system first appeared. The tolls were supposed to be temporary, simply to cover the cost of construction. Now, decades later, it is so expensive, that I avoid the tollway whenever possible. And you want to raise tolls again?! Get real! Control your spending like your customers have to.
07/16/26	Ed Edwards	60047	X				X			Currently the price of tools barely makes it worthwhile. Now you want a fat increase on top of the nations highest percentage gasoline tax? NO NO NO	Oppose	Surface roads will suffer after you push this thru.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/16/26	Jeff	60520					X		X	Accountability with funds that are raised through various tolls, gas taxes, license plates, vehicle registration, etc	Oppose	IL Tolls were never supposed to be an on going burden on drivers. I have been a resident in IL and driving tollways for 52 years. I now avoid the tollways since we were lied to in the late 70's about the tolls being a short term resolution, which obviously they are not. Where does all the money go? Who decides what is fixed? How do we know as residents and drivers on these roads that these funds actually are being applied to needed repairs? Driver services in and around Chicago and the suburbs are non-existent. You enter Wisconsin on 94 and there's a welcome center, not reciprocated when coming from WI into IL on the same road. Same thing on most of the tollways in IL, no rest stops. Now you need more funds!?! Bureaucratic nonsense.
07/16/26	Jeffrey Moll	60091	X			X	X				Oppose	Wisconsin roads are free and in WAY better shape than ours. No reason to continue to increase toll rates.
07/16/26	William V. Taylor Jr.	46311	X				X			Better management of the money being spent.	Oppose	I grew up in Illinois, and I use the tollway system. I'm 79 and seen the progress of the highway system. I'm disappointed in the leadership today. Better management of the money could have done much more than to take money from everyone. I could understand a small increase, but this is highway robbery. I've been on the tollways system since its inception. As a kid I even helped build it. With the number of hundreds of thousands of cars and trucks that travel on it, I can't see how you could be asking for more money. You look ridiculous to everyone in this country. Illinois is failing and I'm watching it go down. My words probably don't make any difference, but the world is watching and so am I.
07/16/26	cody janicek	60402	X		X	X					Support	
07/16/26	James J House	60002	X		X		X				Oppose	I understand the need for an increase. But the rates going from .95 to 1.50 at Golf and from 1.40 to 2.25 at Waukegan is over 60%!! I would support .95 to 1.15. and 1.40 to 1.75. For regular users of the tollway, this is oppressive, especially with gas prices the way they are
07/16/26		60467	X		X		X				Oppose	
07/16/26	Kevin Chellberg	60189	X			X	X				Oppose	Yes to funds for repairs, No to using tollway to fund the states general fund
07/16/26	John McClelland	60201	X		X	X					Neutral	I have largely quit using the tollways for a variety of reasons. Cost is way down on that list, but clearly a major factor for those who teally need them. Safety (>75+ mph) and a generation of broken promisses, pressure to use a digital account or await billing....
07/16/26	Robert Babb	53590-9392	X		X	X					Support	No increase since 2012? Definelty time for an increase. (Like most people I dislike paying more/at all, but this is overdue.) For the bi-annual inflation increases, don't get lazy and round up everytime. If the increase doen't end in a 5 or a zero, the automated IPASS systems and us drivers can handle the pennies. Inflation coreection OK; inflation plus rounding up NOT OK.
07/16/26	will stanicek	61111-8637	X		X		X				Oppose	We pay enough taxes I wont use the tollway anymore
07/16/26	Robert	60178			X		X		X		Oppose	You seem to have trouble maintaining roads in all weather, there should be a truckers lane (1lane) only to keep them in. We go out of are way not to drive on toll roads because of insane truck traffic and truck drivers.
07/16/26	Tim Warner	60089	X		X		X				Oppose	Please do NOT raise the tolls based on the CPI! I cannot continue to afford to live in Illinois with all of the taxes, fees, and tolls the government continues to pile onto us.
07/16/26	Mike	61073			X		X		X		Oppose	More tax??
07/16/26		60706	X		X		X				Oppose	
07/16/26	Thomas Bajek	60540-7533	X		X		X				Oppose	Toll free by 73. What happened to that?

07/16/26	Wayne E. Vsn Dyne	60913	X				X			Elimination of tollway charges.	Oppose	We do not need an increase in tolls. In fact, we need reduced tolls leading to elimination of all tolls as originally designed. In Illinois no effort is made to reduce fraud, taxes or expenses. It is imperative that toll costs be eliminated.
07/16/26	Leah Steinman	60634		X			X		X		Oppose	

2026 Illinois Tollway Proposed Rate Increase

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/16/26	John McErlean	60487			X	X	X				Oppose	The fact that I will pay an additional $1.40 each way for a 16 mile trip is terrible. That's $2.80 per day, $14 more per week. Lawmakers need to think this out more thoroughly and look at the burdening impact on people. The tollway also should not be supporting other means of transit such as trains or bus routes. Thank you.
07/16/26	Joshua	Steinman		X	X	X					Oppose	
07/16/26	Philip Dzialowy	60501	X				X			Why waste money on the lane X and arrows?	Neutral	Please explain why any driver needs to see and "red X or green Arrow" to know if a lane is not moving?!
07/16/26	Kathleen O'Connor	60068					X		X	No increases!	Oppose	Tolls and gas prices are expensive enough. This is not the time for an increase. Thank you.
07/16/26	Connie Ary	61534	X		X		X				Oppose	Tax dollars are already supposed to be funding road upgrades and maintenance. Why punish the everyday people who are just trying to drive to work and support their families on a daily basis. Why not raise tolls on the trucks and heavier vehicles that slow down the traffic and contribute more to road wear and tear?
07/16/26	Thomas Rowan	60010			X		X			Toll free driving as was promised when the tollways were first built	Oppose	The tolls should not be increased. You already have a $3billion surplus in your account. This is an appeasement which will mainly be used to bail out the mismanaged CTA, while dragging Metra along. People who do not use the CTA should not have to subsidize it. Also tying future rate hikes to inflation gives you the opportunity to raise tolls without public comment or board votes. This is an underhanded way to escape public scrutiny and gives you an open checkbook. This entire proposal is a sham to bail out the CTA and assure long term funding for public mismanaged transportation as well as provide jobs for union members, thus assuring their support at the ballot box and at political fund raisers for the party and all its candidates.
07/16/26	Jon M Schickedanz	60035				X	X			Independent forensic audit	Oppose	The Illinois Tollway has one product: roads. If a monopoly with mandatory customers still needs constant price hikes, don't ask for more money. Audit the system and defend what you're spending and why. UNACCEPTABLE!
07/16/26	JOHN RENTAS	60563	X			X	X				Oppose	If the worthless governor didn't stel money from the tollway to cover chicago pensions-this rate increase would not be needed. Stop letting the corrupt politicians raid you funds
07/16/26	Paul Heikkila	60177	X			X	X				Oppose	Remember when tolls were supposed to be temporary? Those were the days. Management of funds and better budgeting needs to happen. You have a spending problem, not a revenue problem. Control your spending. Citizens and drivers of Illinois are not your piggy bank or slush fund.
07/16/26	Hugo Macias	60628-6116	X			X	X				Oppose	Personally this presents a hardship since I am retired and on a fixed income. I oppose the rate increase
07/16/26	Kelly K	60014	X		X		X				Oppose	While I understand the need to have funds to maintain safe roads, more people are feeling the effects of our current economy in our daily lives. When prices of groceries, gas, electricity continue to rise almost weekly, a toll increase is just one more price increase that will negatively affect our lives. A few cents increase here and there might not seem like much to the people making decisions, but not all of us are making 6 figures.
07/16/26	Thomas C Slosar	60119					X		X	Affordability, and cost to use, period.....	Oppose	First, do not allow those with a vested interest in the outcome comment, such as civil engineers, cement workers, surveyors, etc. They are not neutral parties and have no business commenting due to conflicts of interest. I oppose the rate increase. I already pay a sky high gas tax and now you want more money. Take the money form the road fund, as opposed to Pritzker raiding it to balance his budget. If this passes, I will no longer ever take the tollway again as it will become unaffordable, even if it takes me 30 minutes longer to get to my destination. There are other routes. The last time this went up, Pat Quinn said he said 95% support from the public. That was a lie, he had 95% support from those that had an interest in the outcome. This comment process is a sham; it is all about show. I am close to leaving this state. I hate the Illinois Tollway as well as this state.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/16/26	Robert Morandi	60634	X	X	X						Support	I have driven on the tollway my entire life and i have worked on the tollway since ive been a member of local 150 the last 20 years. Traffic times have gone down, roads are safer to drive on and I made alot of money working on the toll road throughout my career. I hope many apprentices behind me are able to continue to work on the tollroad and learn their craft. I support this investment in the future 100%
07/16/26	Thomas Dymit	60189	X				X			There is nothing else. Affordability and well maintained roads is all there is.	Oppose	The tollway was promised to go away when it was first built. Instead, it is becoming a road for the wealthy to use. The Skyway has priced itself out of reach of normal drivers and now the Illinois Tollway is doing the exact same thing. I will stop using the tollway if the proposed toll hikes go into effect. The Illinois Tollway is becoming less and less affordable for regular drivers. Don't do this!
07/16/26	Kate Chambers	60643	X		X	X					Oppose	
07/16/26	Maureen Wright	60045	X		X		X				Oppose	The Toll Roads were supposed to be temporary. Now you want automatic increases? Too expensive
07/16/26	Henry	60502	X			X	X				Oppose	Fuck no
07/16/26	Margo Sliwa	60631			X				X	Gets me from point A to B.	Oppose	Find out how the other states maintain their FREEWAYS. Without charging a toll.
07/16/26	Dana Rivera	60191		X		X	X				Oppose	The current toll rates are already unaffordable. The price increase is outrageous. I STRONGLY OPPOSE.
07/16/26	Kristin Ketelhut	60585	X			X	X				Oppose	The money was there for the roads - it was moved to the CTA, which is not what it was intended for. Therefore you do NOT have my support. We have a spending problem in Illinois, we do not need more money or TAXES no matter how it appears. We need financial responsibility.
07/16/26	Kimberly Schroeder	60021	X				X		X		Oppose	No automatic toll increases. Use some Illinois gambling revenue for funding tollways, every town has multiple gambling locations.
07/16/26	Richard Joslyn	60189	X		X		X				Oppose	I oppose raising the tools and oppose automatic toll increases. I urge the board to reject these proposals. People of Illinois should not be held hostage by the tollway system.
07/16/26	Austin S	60185	X			X		X			Support	You should implement peak hour toll hikes as a demand management system
07/16/26	Michael Polcyn	60433-2727	X				X			MORE MONEY FOR CONSUMERS AND SMALL BUSINESS	Oppose	The tollway already generates 1.8 BILLION per year and only needs $470 million to operate. Just a money grab to make up for their budget crisis.
07/16/26	Brian Larson	60005	X			X		X			Support	
07/16/26	Phillip Watson	60473	X		X		X				Support	Illinois tollways are cheaper than other states
07/16/26	Cheri Hall	60451			X	X	X				Oppose	Improvements need to be made but not from adding increases to drivers. Tolls were supposed be to improve the roads then go away. Never went away. More tolls went up. A simple drive near my home currently costs almost $8 round trip (on 355) of which one family member drives daily to get to work. That's already too much. Illinois needs to use their high taxes to pay it. Taxes keep going up. Illinois does a poor job with budgeting and using money wisely.
07/16/26		60622	X		X		X				Oppose	
07/16/26	Kathy Hines	60491	X				X			Gas taxes should be paying for our road, not tolls!!!	Oppose	My husband and I have significantly reduced our time traveling on the toll roads already because it is WAY to expensive. Gas taxes were supposed to cover road maintenance and Illinois already has the most expensive gas tax in the country. The reason the non-toll roads are so busy is because people can't afford the existing cost. If you raise the tolls, we will be force to not use the toll roads and this will cause significant traffic jams on non toll roads. Please do not increase the tolls, get rid of them all together!!!
07/16/26	Margaret Havens	50588	X			X	X				Oppose	I am from Iowa and drive to Chicago, via I-88, only 2 or 3 times a year. The only thing "Driving Connections" will do for me is to make it more expensive to visit my family. I am not in favor of adding these costs to out-of-state travelers.
07/16/26	Flav	60640			X		X		X		Oppose	we already pay enough in taxes we don't another toll raise

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/16/26	Michael Kaemerer	60451		X		X	X				Oppose	All Illinois bureaucrats do is tax, tax, tax. I've lived in Illinois for all of the 67 years of my life. In my childhood and young adulthood, I thought Illinois was one of the best states to live in. Now, for about the past 20 years, I consider Illinois one of the worst states to live in! Time to leave this terribly run state of Illinois!!!
07/16/26	Greg contos	60126			X		X			How about no tolls at all	Oppose	So many states don't even charge tolls, but here we are sticking it to the people once again. The tolls were suppose to be temporary, and here we are decades later. Whose pocket is all this money going to now?
07/16/26	Jim	60133				X	X		X		Oppose	Politicians need to do pension reform and Illinois would have plenty of money to handle these types of things. This State just keeps digging in taxpayer pockets until they flee or look to flee
07/16/26	User	60634	X		X		X				Oppose	
07/16/26	Jensen L Harden	60440				X	X		X		Oppose	To Whom It May Concern: I strongly oppose any increase in toll rates. Illinois families are already struggling with the rising cost of living. Many are having difficulty putting food on the table, paying their rent or mortgage, and covering basic household expenses. Increasing tolls will only place an even greater financial burden on hardworking families, seniors on fixed incomes, and commuters who rely on these roads every day. Road improvements are important, but people come first. The roads can wait—families who are struggling to feed their children cannot. Please consider the financial hardship that another toll increase would create and reject this proposal. Respectfully, Jensen & Walter Harden
07/16/26	Michael Gleason	53561	X		X	X					Oppose	The Illinois Tollway System was supposed to be paid off over 40 years ago and the tolls go away. What is Illinois doing with the road funds received from the feds, gas tax, vehicle tax, etc.? Why are all the tollways in Illinois located I80 and north, none south of I80. Why doesn't downstate have any tollways? Who's paying for those roads? The State of Illinois has been screwing the people who live in the Greater Chicago Area for as long as I can remember and I'm in my 70's. How can Wisconsin afford road maintenance and development with no tollways, when the entire state population is about the same as the Greater Chicago Area, gas tax, sales tax, and income taxes are all lower that Illinois and Wisconsin has a budget surplus. The politicians in Illinois only know how to spend more and more with poor, inefficient results. Wake up Illinois!
07/16/26	Ruth J Kamholtz	61016	X				X		X		Oppose	The price hike is bullshit. I think illinois residents pay enough in tolls. One of the only states that even charge tolls. Absolute bullshit if they raise them.
07/16/26	Brenda Downs	61021	X	X			X				Oppose	It is concerning that all this money collected for tolls is supposed to help our roadways here in the state. Our roads look like crap everywhere all over the state. Now you want to raise the rate and still not do anything to help people driving these roads.
07/16/26	Chris Gollehon	60142-2365	X		X	X					Oppose	Get fucked you greedy scumbags. The tolls were supposed to be taken away 50 years ago after the tollways were built. Now you want another increase. Pound sand you dirty leaches
07/16/26	Megan Kramer	60506	X			X	X				Oppose	
07/16/26		60107			X	X	X				Oppose	Stop charging us for everything
07/16/26	Barney Eilers	60142	X				X			Convenience	Oppose	A rate increase is okay. However, this "over the top". A huge increase will turn out to be bad economics. I'll use the toll roads less. So with others.
07/16/26	Islam Kambarov	60056	X		X		X				Oppose	It already feels like a rip off Are you trying to reduce the traffic by making the tollways unaffordable?
07/16/26	Gary	60517	X				X			Lights	Oppose	If anything it should be 30 for cars 45cent for trucks
07/16/26	Bill bradley	60915			X		X			Tolls	Oppose	The roads are already paid for through fuel, taxes, registration fees, property taxes it's a larger percentage for lower income households. All roads should be accessible to the public when you avoid tolls it puts an increased traffic on local roads. They also require more administrative costs as the government's responsibility to care for the roads and maintain for them because everybody benefits from that he also had to look into potential privacy concerns with electric tracking.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/16/26	Janice Faulkner	60010	X		X		X				Oppose	While there hasn't been an increase in a while this is too large of an increase all at once. It will deter people from using the toll system and clog up smaller local roadways. People on minimum wage cannot afford this increase especially if they pass thru numerous tolls on their way to work.
07/16/26	Mike Johnson	60056	X		X	X					Oppose	
07/16/26	Amy schoger	60511	X				X		X		Oppose	There are states that do not have tolls yet somehow we here in illinois do and they still aren't making enough money?! The increase is absolutely out of touch with those of us who live here and already pay way too much in taxes. I oppose an increase of any amount and think those in charge need to look into ways of saving money instead of constantly charging the residence.
07/16/26	Brian Michor Sr	60586	X				X		X		Oppose	Keep the rates affordable as they are now. Tolls were increased last year. Thank you
07/16/26	Christoph Wolter	60016	X			X				Timely maintenance/construction	Oppose	The proposed infrastructure does not offer the necessary value to justify the increased cost to taxes and toll rates for the community. The state needs to stop charging justifying increased budgets and large projects, and focus on the efficiency of the budget already on hand. Every project involving the tollway over the last 15 years has been a nightmare, and inconvenienced the lives of everyone. Hold these contractors accountable for realistic project timelines and hold yourselves accountable. People don't have more money to expend on every day commutes just to survive in this state.
07/16/26	Rob	60140			X		X			"Toll free in 73"	Oppose	It's not just for the fact that it's tone deaf to increase the daily cost of living on citizens already paying higher taxes and fees than ever, it's just expected that this will just end up passing anyway because that's government now a days. Accepting comments is just a step to moving forward and not caring what the constituents have to say anyway. This is America in 2026 no matter what color hat the politicians and other leaders wear.
07/16/26	Brandon Fielding	60189			X	X	X				Oppose	This should be funded with all that extra sales tax the state has collected on recent increased gas prices. My recollection is that money is constitutionally required to go into the transportation lockbox, which was established for these types of projects. The truth is that IL keeps skirting the constitution and taking all the transportation-related revenue and using it to fund other, unrelated budget items while inserting placeholders in the budget ("delayed transfers" aka I.O.U.'s) for the money that was supposed to be going towards our state's transportation infrastructure. Stop nickle and diming Illinoisans to death, or the last toll collected will be the one from residents driving their moving trucks out of IL.
07/16/26	Elizabeth Gnat	60436	X		X		X				Oppose	NO TO AN INCREASE
07/16/26	Lauren	60098			X		X			Safety	Oppose	This notice was delivered after the first five community hearing opportunities have passed, including the one in my county. It's cute that you are hiding behind seeking customer feedback when we all know you will just jam the agenda forward anyway. I don't even use the tollway often but I will be using it less now. Way to contribute to the rising costs in this state.
07/16/26	Nicole	60466	X		X		X				Oppose	Tolls are already too high and for what? We have gone on trips out of state and can't believe how much it has cost us just to drive back into Illinois to get home. If these tolls go up you may have less traffic on the roads but that will be because no one will be able to afford to travel and pay them!
07/16/26	Donald Strickland	61101	X		X		X				Oppose	Tolls are too high now and they are at every exit! Most states don't have tolls are state taxes and the highways are great. Robbery
07/16/26	Daniel Simpson	60517	X				X			Access with going north in the suburbs	Oppose	I highly oppose the toll increase proposal. The increase as proposed would be of great economic harm to me and my family. I do utilize the toll road a lot since I travel north for my work and utilize the toll road everyday. I appreciate the effort to keep roads safe, however there often seems to be construction pulling out roadways that were just put down a few years ago, with no real signs of replacement needed.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/16/26	Gail Tanzer	60148	X		X					I don't want to contend with delays from construction projects. Just maintain the roads and leave it at that	Oppose	Mainly I oppose because I don't want to contend with all the construction delays.
07/16/26	Margaret Krech	60194	X				X		X		Oppose	With the increasing costs of food, health insurance , car insurance many of us, including retirees like myself with a lower fixed income , are already drowning under the burden of higher living costs. I avoid tolls whenever possible but occasionally go to visit family in Wisconsin or my daughter in NY. Please don't make the costs higher.
07/16/26	Lindsey Davis	60640	X				X	X			Support	
07/16/26	Staci Marie	61073	X		X		X				Oppose	Absolutely not! Tolls are already high and these increases do not benefit areas outside of Chicago! Raise the tolls in the area roads would actually be improved. Automatic toll increases when they are already high is also ridiculous.
07/16/26	Sarah	60137			X		X	X			Oppose	
07/16/26	Patrick Nelligan	60423			X	X	X				Oppose	Under no circumstances should you be raising toll rates. You are already wasting billions of dollars. You should not get one dime more from us taxpayers.
07/16/26	Michael Hausch	60585	X			X	X				Oppose	I OPPOSE any hike in tolls. The tollway authority has more than enough money to maintain and repair the roads. This is evident by the the fact that the tollways are constantly under construction. If repairs were done on the roads so they lasted more than 5 years this wouldn't be a conversation. The tolls were supposed to disappear after the roads were paid for. Another lie by the corrupt Illinois machine. NO INCREASE IN TOLLS.
07/16/26	Jack	60618	X		X	X					Support	None
07/16/26	Michael Brennan	60453			X	X	X				Oppose	It's a money grab and you know it 294 North to 290 West is your perfect example and that's all I'll say you're spending $15 billion on redoing all of that for the same stupid circle ramp that saves no time saves people zero time and that's what you did and you expect people to get behind you and give you more money for the same garbage please people this is Illinois the most expensive state in the country and you want more money for your shitty roads. Be serious
07/16/26	Karen Hammond	60428	X				X		X		Oppose	The toll way was supposed to be free already for us, as promised when they created it. Instead we see hike after hike in fees and the roads are crap!
07/16/26	Andrew Simmon	60640	X		X		X				Oppose	We need guaranties that these dollars will not be siphoned off to pay for other projects not related to toll road maintenance. Pensions should not get a dime. If you are about "modernizing " the system then pension programs that eat ups lot of dollars for project all over the state, should be phased out to be more aligned with the times.
07/16/26	Alex K.	60031	X		X		X				Oppose	For the past 20 years we have been paying toll on I-94 which promised the same "benefits", but what it accumulates to is state always needs more money to fund their extreme radical ideas, and not truly care about IL residents and their well being. How much money does the toll currently generate and where does that money go??? Highways are not in GREAT condition as promised years ago... So your solution is "give us more money"??? Additionally, this program will NOT FUEL more jobs, economical improvements and other bs you are listing... Who will pay the price of those "new jobs" arepeople of IL who already pay extreme high taxes,tolls, fees, i surances, etc. that you ne last thing we all need is to have government come in and say toll increase must happen to deliver on something promised 2 decades ago... And after billions and billions spent, you are forcing all to shell out billions more ... No wonder people are leaving this state - blue political leaders have no sense how to lead... Time to look and move out of state unfortunately...
07/16/26	GEORGE DEJOHN	61443	X				X		X		Oppose	No new taxes or toll increases for any reason what so ever. Make the govenor use what he has and not a dime more.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/16/26	Jennifer Touart	60446	X						X	Better lighting and reduced risk of pedestrian traffic	Oppose	The toll prices are already very hard to swallow with the increased cost of living. Add in the fact that once you discontinued the transponder (which always worked) for the sticker (which has a failure rate of 50%), I'm consistently paying the full fair for tolls because of that issue. I've been switching to local roads lately to avoid the tolls, rather spending more time and money in gas than to deal with the frustration. I would be more likely to agree to the toll increase if all people with a registered sticker wouldn't be penalized for the sticker not working. If I have a valid ipass account, that money should be automatically deducted when my plate clears a checkpoint. I shouldn't have to pay full price nor have to remember to login to pay those 'missed tolls" and possibly accrue a fee. Especially when I have a credit in my account.
07/16/26		60491	X				X		X		Oppose	We already some of the highest tolls in the Midwest if not the country. This has GOT TO STOP
07/16/26		60525			X		X			It was never meant to be permanent.	Oppose	If you wish to increase, look to the fed gov for an assistance and make layoffs internally.
07/16/26	Mike Easter	60101	X		X		X				Oppose	Just another grand scheme to cater to the construction unions for votes, and fund the tollway bureaucracy which nobody would miss if it disappeared tomorrow.
07/16/26	Gail Tanzer	60148	X		X					I don’t want all that new construction. It increases my drive time. Also I am disappointed that you didn’t inform me until today of these meetings. The date for the Dupage County meeting has already passed	Oppose	
07/16/26	Luis Frau	60638			X		X			Affordable travel tolls are already to expensive!!!!	Oppose	We need a forensic audit before we can look at a toll increase!!!!! Money THEFT IN ILLINOIS IS AT AN ALL TIME HIGH
07/16/26		60133	X				X	X			Oppose	Tolls were supposed to be eliminated and instead a proposal has been made to raise tolls and even authorize automatic inflation-linked increases every two years indefinitely. Indefinitely without oversight? Better budgeting is needed. Use the record high toll revenues. How does WI function without tolls? Maybe, Il needs a role model. Another reason to move out of Illinois.
07/16/26	Thomas Gasior	60652	X	X			X				Oppose	The tollway bonds have been fulfilled for years and the tollway commission is cashing in. Sending the higher cost to the drivers who use the tollway as well as commercial drivers for a roadway that has long been paid for. As a commercial driver sometimes I have no option other than to take the toll road because there are no other viable roads in the area. As a consumer, it is frustrating to know that there is a lot of money that is not being spent well by the tollway commission! As mentioned in my first comment, the tollway that was built as a result of public bonds have been fulfilled and the roadway should be free! The state of Illinois should use its authority as Illinois Department of transportation to control the tollways and how it spends money instead of a tollway commission!
07/16/26	Loren Rex	49015			X	X				There needs to be open road tolling on the Skyway.	Neutral	Unless this includes upgrading the Skyway to Open Road Tolling, this doesn't help much. It just seems stupid to have to queue up multiple times for tolling in order to get downtown. I realize the Skyway is privately operated but can't Illinois require them to make that upgrade?
07/16/26	J. Solus	60453	X			X	X				Oppose	The tolls in the Chicago metro area are high already. $2 plus tolls are ridiculous. Major changes are made too frequently. Resurfacing is necessary but it’s time to stop the massive projects. These tolls were supposed to end decades ago.
07/16/26	Joel Zelasko	60139	X			X	X				Oppose	There is already an automatic increase on the gas tax. You need to focus on cutting the fat on frivolous spending, (trips, etc.) Thank you.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/16/26	Ron Demkowicz	60013	X				X			Better management	Oppose	The tolls were suposed to go away after a specified period of time. That never occurred. Now you are proposing an increase. With all the toll revenue collected over the years I find the tollways poorly maintained and contruction always takes forever. As in typical Illinois fashion I am sure the tollway authority is corrupt, fraudulent, and full of wasteful mismanagement. I pay a gas tax that is suposed to fix roads, why should I also pay tolls. Illinois is run like shit.
07/16/26	Pat Scholz	60543			X		X		X		Oppose	Too much money now! Other states don't have tolls! Tollway was Supposed to be only few years.! Illinois is ripping us residents off. More n more illinois people moving out of illinois. Less tourism from out of state people. Ridiculous idea. Our taxes are highest. Too costly for all drivers now let alone raising cost. No. No . Get rid of tolls!
07/16/26	Thomas Gjersoe	60565	X				X		X		Oppose	I am a senior citizen on a fixed income and I am against the increased toll.
07/16/26	Prince Paul	60007	X		X		X				Oppose	
07/16/26	Tim Carter	60005	X		X		X				Neutral	I would be supportive for a very small increase. But not at the current proposed percentage. While I understand, there has not been an increase in many years, And we appreciate that! I do believe, Projects can be spread out over the years years, And adequately budgeting with the current revenues So that rate Increases Are very nominal
07/16/26	Lisa Hanson	61073			X				X	None	Oppose	We as Illinois residents already pay enough for everything, Illinois continually raises gas tax, sales tax, property tax. Wisconsin does not have tolls and their roads, exits and on ramps are much better than ours. Taking out the people who worked in the toll booth had to decrease overhead. All the money Illinois is making on the many way too many gambling machines should more than cover what is needed to fix anything in our state. There is no need to raise tolls for Illinois residents raise it for the out of state plates.
07/16/26	Stan Slabas	60712			X	X	X				Oppose	Illinois is becoming unaffordable. The state cannot keep soaking its residents without stifling growth in the state. I'm retired and living on a fixed income. I'm opposed to the proposed increase and opposed to automatic increases.
07/16/26	Patricia Schreiber	60565					X		X	Strong ethics for the citizens of Illinois.	Oppose	You say the average toll rate nationally is .16 per mile and this would effectively be .11 per mile. What you are not pointing out however is that Illinois has more toll roads than most states. Illinois ranks in the top 7 states with the most tolls and they unfairly target those in the upper northeast portion. I would rather the toll authority consider the hard workers of Illinois who are paying very high fees for fuel and food and that they cut this back greatly rather than double the tolls for every driver in Illinois! Also strongly oppose this inflation increase every few years. Many Illinois workers work more than 2 jobs with no inflationary increases on any regular basis let alone each year!! This is just another example of the toll authority robbing the citizens of Illinois blindly while also making us live in infinite construction backups year after year. I can 't remember the last time 294 wasn't under construction and still no fixes to the backups!!!
07/16/26	Mike Smolarek	60546			X	X	X				Oppose	
07/16/26	Donn Miller	60144	X		X		X				Oppose	
07/16/26	Michele Swanson	60060	X			X	X				Oppose	I oppose this rate hike. We are currently being taxed to death in the state of Illinois and now we're increasing yet another tax. When the tolls were originally put in they were supposed to be temporary, but I guess we all know how that worked. I'd like to know where all the money is going to that we're already spending on tolls. WI doesn't have tolls and their roads are better maintained than the roads in Illinois. On top of that they are able to complete a large project in months, not years like Illinois. We're tired of paying out and receiving nothing in return. This is just yet another hoax to steal money from Illinois taxpayers.
07/16/26	Reginald Robinson	60473		X	X		X				Oppose	
07/16/26	Deb Dietz	61115	X		X		X				Support	I support a reasonable increase but do not support a program for blanket increases without review.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/16/26	Leo Armenta	60538	X				X			Less accidents	Oppose	Another tax for people just to drive on roads that we should already be paying to be maintained. If the Illinois government would just balance their budget correctly tolls shouldn't exist to begin with. I oppose this charge because we already pay high property taxes along with high state taxes on EVERYTHING WE BUY. If this proposal is to maintain the city of Chicago roads, let the people of Chicago pay for it not everyone else in the state. Tolls shouldn't even exist to begin with. This is also not going to make anything "more affordable" the higher the tax the more everything will cost because once you tax raise something everything else follows and nothing gets to a point of affordability.
07/16/26	Bill Franzen	60190	X		X	X					Oppose	The amount is the increase is too much. Costs are rising and the increase should be lower and phased in to mitigate the burden.
07/16/26	Dillon	60133	X			X	X				Oppose	The state of Illinois makes MILLIONS of dollars from tollway users every single day yet we're still somehow always out of money and asking our already broke population for even more. Well, more like taking, not asking. This is actually insane.
07/16/26	Greg Anderson	60101	X			X	X				Oppose	You fired all your toll collectors yet still raised tolls. Who audits the tollway?Dems?
07/16/26	Brian Andes	60193-5008	X			X	X				Oppose	
07/16/26	Patricia Scholz	60543			X		X		X		Oppose	Get rid of tolls! Terrible idea. Too expensive for all drivers!
07/16/26	Alex	60559	X		X		X				Oppose	
07/16/26	Gregg Macek	60187-5432	X			X	X				Oppose	The toll system was established to be a short-term solution. It has become a cash cow for politicians, state officials, construction companies, and the like. Stop tapping the residents and travelers of the State of Illinois. Learn how to properly budget the resources of this state instead of the solution always being raising taxes, tolls, and fees. Anyone can make that proposal because there is no thought or due diligence behind it. Look for the money elsewhere and manage this state more efficiently.
07/16/26	Andrew Hietpas	60513	X				X			Affordability and Affordability	Oppose	I am writing to express my absolute opposition to the proposed toll hikes and the automatic, inflation-linked increases scheduled to begin in 2029. Let's be entirely clear: the Illinois Tollway is operating on a foundational broken promise. When this system was established, the public was promised 'Toll-Free in '73'—the explicit guarantee that once the original construction bonds were paid off, these roads would become free public highways maintained by our state gas taxes. Instead, lawmakers made the Tollway authority permanent in 1968, and northern Illinois drivers have been treated as an endless ATM ever since, paying nearly $27 billion in tolls since that broken 1973 deadline. To propose the largest passenger toll hike in state history at a time when the Tollway is already bringing in its highest net operating revenues on record is an insult to Illinois taxpayers. Worse still is the attempt to sneak in automatic, biannual inflation hikes that bypass future public oversight and legislative votes. Northern Illinois families are already facing some of the highest cost-of-living and transportation burdens in the nation. Compounding that stress to fund a $26.5 billion program—while the agency is sitting on massive revenue surpluses—is completely unjustifiable. I urge the Board to reject this proposal, respect the taxpayers, and live within the historic revenues you are already collecting.
07/16/26	KIMBERLY HALL	60448	X	X			X				Oppose	
07/16/26		62615	X			X	X				Oppose	All Illinois government entities need stop raising taxes to finance poor budgeting decisions.
07/16/26	Linda	60025	X		X		X				Oppose	Tolls were to be eliminated. The money isn't going for care of the roads as they are they are supposed to. I do not think the tolls should exist to fix other government problems. ELIMINATE THEM!!! DO NOT RAISE THEM. Make politicians stop the spending!! Also NOTHING should be auto increase like Prickster did with the gas tax. There should be statewide votes for any tax he wants to raise. There should be a statewide vote at the election about this matter as well. The constituents should decide if there are tolls at all, and if there should be an increase. Politicians do what THEY want, they do not do what the people want. All they want is more of our taxpayer money.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/16/26	Bob Jones	60123	X				X			The tolls we already have were supposed to pay for the maintenance, etc of tollways - and now you want to increase them 30 to 45 cents? We say 'NO'.	Oppose	The tolls we already have were supposed to pay for the maintenance, etc of tollways - and now you want to increase them 30 to 45 cents? We say 'NO'.
07/16/26	Brian C	60438	X		X	X					Oppose	F your shitty state for trying to raise the toll for your shitty roads
07/16/26	Mark Rawski	60185	X		X		X				Oppose	The tollway fees are already high! Everything thats proposed can be done at the current intake levels. Like everyone of us who uses Illinois roads toll or otherwise, live within your means! Stop ripping us off and pushing us
07/16/26	Juan J Hernandez	60172	X	X		X					Support	
07/16/26	Sean keane	60525			X		X			No tolls	Oppose	Too expensive already, remove tolls
07/16/26	Mike Bivins	60543	X	X			X				Support	This equals more long term work for our current and future members
07/16/26	Rob Moreno	60542	X	X			X				Support	
07/16/26	Patrick C Perkins	60618	X				X		X		Support	
07/16/26	Mike Macellaio	60805	X		X	X					Support	
07/16/26	Brendan G Maher	60423	X		X		X				Neutral	
07/16/26	Beata Nowak	60062	X				X			Clean shoulder	Neutral	You have to do better with keeping the roads clean and the shoulder cleaned. There are so many rocks and metal parts. My windshield is broken as a result of a vehicle swerving going on the shoulder and the rock breaking the glass. That's a $3500 replacement on my vehicle. Not happy about this. It wasn't like this in the past.
07/16/26	Jeff M Olson	60453	X		X		X				Neutral	
07/16/26	Michael DeVito	60467				X	X			low fees	Oppose	around 45 cents per toll and 30 percent increases for I-PASS commercial? This is just not acceptable! Other state have no sales tax and budget surplus, ie texas, tennesse, fla but Illinois is not run properly and continues to demand more of our hard earned dollars when they need to clean up their mismanagement and stop the high taxes on everything and everybody. Is there waste, fraud and abuse?
07/16/26	Wendy Alvarez	60632	X	X	X						Support	
07/16/26	Andrew J Cullina	60643	X			X			X		Support	Inflation touches everything , do nothing and conditions will not improve. The years long work might seem disruptive on 294 yet traffic has kept moving while improvements are noticeable.
07/16/26	Jose Gonzalez	60402	X		X				X		Neutral	
07/16/26		60004	X			X	X				Oppose	
07/16/26	John Looby	60045			X	X	X				Oppose	Cost increases will drive traffic on other routes and actually cause slower traffic in chicago area. It will also cause higher costs for all the products moved by trucks in northern Illinois. As the Governor says it is just costly in Illinois costing more taxpayers to move out as the state is unaffordable to live in. Promising Union jobs is not what the tollway commision job is. Keeping it usable is.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/16/26	STEVEN ROY SCHMIDT	60467-1390				X		X		No other choice	Oppose	**Subject: Strong Opposition to the Proposed Illinois Tollway Rate Increase** To the Illinois Tollway Board and Members of the Illinois General Assembly: I am writing to express my unequivocal opposition to the proposed increase in Illinois Tollway rates. For more than seventy years, Illinois motorists have been repeatedly asked to pay higher tolls with the assurance that the additional revenue was necessary to fund specific construction, reconstruction, or modernization projects. Yet every time one capital program nears completion, another multi-billion-dollar initiative is announced and drivers are told that another toll increase is required. This pattern has become unacceptable. The Illinois Tollway was originally presented to the public as a temporary financing mechanism. The roads were to become toll-free once construction bonds had been repaid. That promise was never fulfilled. Instead, tolls became permanent. Subsequent toll increases were justified as necessary for major reconstruction and expansion efforts, often accompanied by statements implying that the increases would adequately fund those programs. Now, once again, Illinois drivers are being asked to shoulder another significant increase. Illinois motorists deserve better. Before asking families and businesses to pay more, the Tollway should answer several fundamental questions: * How much toll revenue has been collected since the original roads were constructed? * How much of that revenue has gone toward debt service versus actual construction and maintenance? * What efficiencies have been implemented to reduce operating costs before seeking additional revenue? * Why should the public believe this increase will be the last when history demonstrates otherwise? * What measurable accountability exists to ensure projects are completed on time and within budget? Illinois already has one of the highest overall tax burdens in the nation. Residents pay substantial property taxes, income taxes, sales taxes, fuel taxes, vehicle registration fees, and tolls. The cumulative financial burden continues to grow while many families struggle with inflation, rising insurance costs, and higher everyday living expenses. The Tollway should not assume that motorists represent an unlimited source of revenue. If additional infrastructure investment is truly necessary, it should begin with a comprehensive independent audit of Tollway finances, debt management, administrative expenses, project prioritization, and operational efficiency. The public deserves complete transparency before being asked to pay more. Furthermore, any proposal for increased tolls should include enforceable commitments—not simply aspirations—for fiscal accountability. Illinois motorists should not be expected to write another blank check without meaningful oversight and measurable performance
07/16/26	Nicole Davis	60631			X		X			Nothing else	Oppose	Illinois already has more tolls than most states. It is ridiculous to keep charging the residents! We already pay enough, and there is still always traffic.. not worth the money to take expressways anymore. Illinois already has a gas tax higher than other states, it's almost like you are punishing people who live here. It's actually extremely sad, take a look at why you have more people leaving the state than coming in. Of course delusional comms Ra come out of every office in Illinois! I already avoid toll roads if I can, you raise the tolls and I will sit longer in the car just not to pay the state any more money, and I know I'm not the only one!
07/16/26		60634	X			X	X				Oppose	Separate the road funding from all other funds.
07/16/26	Edward	60634	X				X			All of the above is to be expected	Oppose	When the tollways were being built, the tolls were to be TEMPORARY.
07/16/26	Mark Rawski	60185	X		X		X				Oppose	Rip-off rip-off rip-off! The authority already brings in more than it needs! Everything proposed can be done with your current intake! Atop pushing us out of the state!!!
07/16/26	Michael McEvoy	60154			X	X				The few times there is light traffic it is quick and easy.	Oppose	Long past time to end the Tollway Authority.
07/16/26		60622	X		X		X				Oppose	
07/16/26	Cjay	60172	X		X		X				Oppose	

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/16/26	Rick Edwards	60607	X			X	X				Oppose	Where does it end with this guy (Pritzker). Illinois residents are fed up with this buffoon, who apparently answers to no one. Time to engage in fiscal responsibility and financial management (which he's been incapable of) and stop free spending and passing that lack of responsibility on to the hardworking residents of this state. We've had enough!
07/16/26	Mary Ellen Smolen	60131		X			X		X		Oppose	Please do not vote this through. We can't afford more money taken from us. There has to be another way to come up with money other than putting it on the people that need the expressway to get to and from work. Governor Pritzker is walking along the Lake saying we're paying too much money under Trump. Another Toll increase is not what is needed. Ticket those that use the shoulder as a lane.
07/16/26	Robert lazzara	60714	X		X		X				Oppose	You don't need anymore of our money. Illinois is impossible to live in anymore.
07/16/26	Michael Conway	60193-1008					X		X	I am already paying way to much, now with gas prices over $4 my budget is at it's limit.	Oppose	The rate increases each year makes it much more difficult to maintain a budget.
07/16/26	Linda lazzara	60714	X		X		X				Oppose	No more money from citizens. Get it from your illegal immigrant budget. Stop taxing us!
07/16/26	Vitaliy Boklach	60031	X				X			Restriction for dump trucks to enter tollways and scatter the stones	Oppose	I am totally against any toll rate increase. And I do not wish to support and fund the upcoming Driving Connections capital program. I believe the true reason for this program is to collect extra money from the drivers. In the official release on your website, there is no justification provided for the program. Only vague implications to some improvements, renewal, and modernization. Even if you want to do all that, why do you put all financial expenses on drivers? This is dishonest. Trim your budget and invest your own money into your business projects, and don't throw your expenses on drivers. We already pay a lot. As a driver, I do not see any benefit from this program. The tollways will not become safer, faster, and cleaner, and the dump trucks will keep scattering stones on the roads that cause dents on passenger cars and cracks on windshields. Whatever your program in going to be, I believe all these problems will remain.
07/16/26	Jason Kropp	60950				X	X			FIRE EVERYONE, what a financial joke	Oppose	Everyone should be fired. Is this is a joke? Just sit at any tollbooth and watch all the cars and trucks being charged. Figure out how to stay in budget and on time. I have to with my budget! FIRED EVERYONE and start over. This is just not working. Go to any other city in the US that doesn't even have tolls and figure out what they are doing. This system is broke, and everyone knows it.
07/16/26	Sheila Silver-Brown	60090	X		X		X				Oppose	Do NOT raise the cost of Tolls! You collect enough toll money now and taxes to pay for the upkeep of our roads...
07/16/26	Ray Thrasher	61701	X				X		X		Oppose	
07/16/26	Steve Langton	53536					X		X	cost is very important	Oppose	I live in Wisconsin. this passed week I was driving on I88 with my 1/2 ton pickup pulling a small utility trailer. I was charged $11 for passing through the toll. I can can bypass IL toll roads if needed, which I plan to do in the future. what you will see in the future is people avoiding the toll roads and even avoiding traveling through IL (I can avoid traveling though IL by transitioning through IA). you need to rethink this idea and find other funding. Tolls are a form of tax and by raising the tax you will ultimately reduce your tax 'source'. people have tolerated the high tolls but if you push them higher your source of tax money will just simply leave.
07/16/26	Mary	61310				X	X			No. To many taxes in Illinois	Oppose	
07/16/26	Dave Pieniazek	60148	X	X	X						Support	I support investing in Illinois' infrastructure.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/16/26	Lou Palomino	60415	X	X			X				Oppose	Everyone is talking about transparency, right? Here's what I would really like to see, all records that can show exactly where every penny goes to, year after the year everything keeps going up and cost, and yet all the prior years nobody has shown exactly where this money goes. There is absolutely no reason to raise any taxes whatsoever. It's nothing but a snowball affect year after year and for what, to put money in politicians pockets, it's already have been proven time and time again that those working for the government and City Officials are stealing from us taxpayers and they continue to do so without any Accountability or Repercussions!!
07/16/26	Yvonne Rodriguez	60173	X						X	stop taxing us to death!	Oppose	this state is taxing the Illinois tax payers to death! If Pritzker wants to be govenor again, he better start protecting the people of Illinois!!!! I oppose this tax, years ago the tollway was to pay for schools, then gambling. Whose pocket is this money going into?
07/16/26	Edward Borowiak	60174			X		X			Toll	Oppose	Look I'm gonna be 64 years old. I have lived by the tollway all my life. I can remember when my parents would take the tollway and it would cost. I don't know an echo $.10 and the comments back then were the tollway was gonna pay for itself. How is it? You can travel to other states Indiana, Ohio, Arizona and the roads are beautiful. They don't pay tolls. Why the crap do we have to pay tolls in Illinois? Why is the money going into somebody's pocket? Stop raising the price figure it out you don't have to keep screwing the people the state of Illinois is the highest income highest state to live in. Nobody wants to live in Illinois and nobody wants to pay higher tolls coming through Illinois.
07/16/26		60540	X		X		X				Oppose	The road construction seems like it just gets completed and within a year, the potholes begin appearing again. How is this efficient? To me whoever is being hired, is using inferior quality materials or the roads would be holding up so much better. You cannot keep blaming trucks for everything. If that's the case, then you need to hold the truck companies liable. Get them to pay for certain portions of the road repairs like home owners have to pay for sidewalk maintenance.
07/16/26	Helen Burchell	60050	X				X	X			Oppose	The tollway was supposed to be done collecting money decades ago, yet it still is collecting our money and now wants even more. Learn to manage money before you work for the state in a job requiring money management! Clearly everyone else can see how poorly you folks manage money but yourself. Beyond disappointing!
07/16/26	Dianw	60047	X				X		X		Oppose	Where is all the money MORE money ??? Highway robbery
07/16/26		46307	X			X		X			Oppose	Between Illinois and Indiana raising toll rates I'm going to need to give a kidney to get to work or airport or travel somewhere for leisure.
07/16/26	D Campbell	60517	X				X			The promise made to the state almost 70 years ago and repeatedly in between.	Oppose	Isn't it funny how this was originally sold to the people of Illinois as a temporary way to pay for building the new toll highways. The expectation being that once the construction bonds were paid off, the tolls would go away. I think there was even a slogan decrying the elimination of the proposal by a certain year in the 70s. Like everything in Illinois, dishonesty prevails. The state's leadership uses this as a piggy bank while pushing agendas they want. There are many things I love about this state but the total control of one political party over another, one political party over this state, has driven this state into the ground. There is no trust and the blatant lies are rampant. I can give my opinion but it isn't as if the powers that be won't ram this down our throats, whether we agree with it or not. I hope for this state, that the residents start to see this and make more meaningful choices at the polls or tolls will be the least of our worries.
07/16/26	Mike Mareci	60193					X		X	Cheaper tolls	Oppose	Enough already. I do not live in Chicago and should not be taxed more to pay for the RTA or CTA.
07/16/26	John Cannon	60016	X				X		X		Oppose	These tolls were to be removed when the initial bonds were paid off. They have been paid for years and all you do is raise the fucking tolls. ENOUGH
07/16/26	Kona Johnson	61008			X	X	X				Oppose	Use the money you give illegals

2026 Illinois Tollway Proposed Rate Increase

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/16/26	Donald gambony	60085	X	X			X				Oppose	No more money for the banks the money's just going for the banks to make them rich they don't do a good job as it is tolls are supposed to be free at this point why are we paying for it your fraud upon your up in your paycheck every year you do something isn't worth it or economies crashed and no one's making any money except you government people it's time to stop you thief robbing us no money for you and the banks
07/16/26	Jenine Bober	60656	X				X		X		Oppose	I completely oppose any type of rate increase for the tollway. That tollway has been under construction for the past 5 years consistently. You should be paying the drivers to drive on that mess. When you get your act together and finish a project then you can talk about raising rates.
07/16/26		60546			X	X	X				Oppose	Quit listening to Pritzker. He's just doing this for his campaign fund.
07/16/26	Janet Welch	60438	X	X			X				Oppose	Poorly maintained roads, but want more $$$. Construction a constant battle
07/16/26	Brad	60630		X	X		X				Oppose	Tolls are too expensive as it is some families can't afford another increase. Must stop increasing tolls.
07/16/26	Christina Gutierrez	60428			X	X	X				Oppose	The point of a public service is for it to be accessible to all, increasing tolls of regular commuters makes it unaccessible and unaffordable.
07/16/26	Marie Fuesel	60467	X			X	X				Oppose	This is punishing the people who cannot work remote and must drive into the office
07/16/26	Jon	60190	X		X		X				Oppose	Get your hands out of my pockets
07/16/26	Scott holy	60638	X						X	Free tolls	Oppose	Its been over 76 years since these tolls were introduced to pay off construction bonds.are they still not paid? Does the federal govt cover any cost with our tax. State tax fuel tax vehicle tax etc. Remove all tolls . Fiscal management is the problem democratic leadership is the problem. No to raised tolls
07/16/26	Brian Gray	60189		X		X				Shortest route.	Oppose	To the Illinois Tollway Board, I appreciate the opportunity to comment on the proposed toll rate increase and the Driving Connections capital program. As someone who regularly uses the Illinois Tollway, I understand that maintaining a world-class highway system is expensive. I also recognize that the Tollway receives no state or federal tax dollars for its operations and relies on toll revenue to maintain and improve its system. Investing in safe bridges, smooth pavement, reliable drainage, and well-maintained interchanges is exactly what tolls should fund. However, I am concerned that the proposed program places too much emphasis on "transforming with technology" and creating "smart" roadways. Roads do not need to be smart. They need to be safe, durable, and well maintained. Every driver notices the basics long before they notice technology. We notice deteriorating pavement, rough bridge joints, poor lane markings, inadequate snow removal, and construction zones that seem to last for years. Those are the issues that affect our safety, our vehicles, and our daily commute. A smooth, reliable roadway provides far greater value to the average motorist than sensors, connected infrastructure, or other technology initiatives whose long-term benefits remain uncertain. The Tollway's own materials acknowledge that poor road conditions can cost drivers hundreds of dollars annually in vehicle repairs. If that is true, then the priority should be preserving pavement, replacing aging bridges, improving drainage, and addressing congestion through proven engineering—not investing heavily in technology simply because it is new. Technology certainly has a place in transportation, particularly where it demonstrably improves safety or operational efficiency. But technology should support the roadway—not become the roadway's mission. Before asking Illinois drivers to pay higher tolls and accept automatic inflation-based increases every two years, the Tollway should demonstrate that every available dollar is first being directed toward the fundamental responsibilities of maintaining exceptional roads. The Illinois Tollway has earned a reputation for having some of the best-maintained highways in the Midwest. I encourage the Board to preserve that focus. If additional revenue is truly necessary, dedicate it to the infrastructure that drivers actually use and experience every day. The measure of success should not be how "smart" our roads become, but how smooth, safe, reliable, and well maintained they remain. Thank you for considering my comments.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/16/26	Andrea Keil	60152	X		X		X				Oppose	As a retired individual my income does not increase 30%. I do not drive the toll way everyday and can not imagine the hardship someone that is on a limited income would have. I understand that an increase of some sort is needed but one that is 30% in this economy is too much.
07/16/26	Todd	60030		X		X	X				Oppose	We are already all being taxed. Please do what you need to do but work within the budget you have without increases. The rest of us don't get decide we just need more money to do more than we can afford. We have to live within our means. My only ask is you do the same. Live within means and no more extra taxing. (A toll is a tax-and it's double taxation, because I have already paid the state and federal taxes, and what I have left I have to use to pay things like tolls, which is just another kind of tax.
07/16/26	Elena Gutierrez	60411			X		X	X			Oppose	I am against increasing the rates for this project, find funding elsewhere, increase taxes for the wealthy.
07/16/26	Leo	53545			X	X	X				Oppose	Illinois has always been terrible with overcharging and then underproducing. Increases will come soon too with no voting or input from the people. I drive a lot and in a large radius from where I live. Illinois is the worst state to ever drive in and when you get out of illinoise it is great. No tolls! No toll increases (which I expect to happen a few more times shorty)
07/16/26	Carrie T.	60435	X			X			X		Neutral	Dose the iPass rate include pay by plate? How can an increase in tolls predict traffic congestion or travel times? Also, reducing high speed drivers?
07/16/26	Steven Canestrini	60187	X		X		X				Oppose	This increase would not be required if the money wasn't being diverted bailout Chicago.
07/16/26	Laura	60142			X	X	X				Oppose	$.45 is an excessive increase for individuals and businesses. The gall this state has to dictate further increases every 2 years for the next 7 years at its discretion is absolutely appalling.
07/16/26	Jurga Tautkute	60527	X		X		X				Oppose	Enough is enough . Illinois getting too expensive to live. Tolls were put untill it pays for construction years ago and you never took them off !!
07/16/26	Brittney Vlach	53105	X				X			Affordability and affordability	Oppose	Audit Illinois budget and financials and stop increasing prices for the consumer because the government is the worst in wasting and revenue coming in
07/16/26	Karen mengelis	60151	X			X	X				Oppose	Tolls were supposed to be eliminated, and they keep getting increased
07/16/26	Joyce	60142			X		X			There should be a discount for seniors who use the roads much less at this time in their lives. We are being squeezed enough with insurance healthcare costs!	Oppose	Again, there should be discounts for seniors who no longer utilize the roads as much any longer. If necessary, tie the toll charges to a sliding scale of used miles on toll roads.
07/16/26	Joann Giertuga	60585	X		X		X				Oppose	I believe that the intent of this proposal is to satisfy the deficits created by this states poorly managed administration and a means to yet create another way to tax the already over-taxed hard-working and in many respects the struggling citizens and seniors of the state of Illinois making it increasingly difficult to remain here. Our governor is not at all concerned with the people of Iliinois by his actions of taxing everything possible that is within his greedy reach. I pray he does not get reelected! I STRONGLY OPPOSE THIS MOST RECENT PLOY ON HIS PART WHICH HAS NOTHING TO DO WITH OUR INFRASTRUCTURE. Nothing will change in those regards and it's all about imposing yet more taxes!!

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/16/26	Cam Sells	60014	X			X	X				Neutral	In looking at the calculator to determine a typical "new" round trip from Randall Road to the Kennedy, the new rate did not include Randall Road so trying to better understand if there is a .90 toll to get on/off at Randall and then another toll at Elgin. If both, a round trip goes form $3.20 to $6.60 so more than an 100% increase. If not, the new rate is $4.80 or a 45% increase. While I could absorb it because I typically only do 1-2 trips per week, it's enough to make me think twice, even with an income that is above the median household income for McHenry County. My assumption is that the plan has accounted for people potentially abandoning the toll road and moving to other roadways. I would be interested in seeing an impact analysis on the number of drivers on the toll road as well as increases to those other roadways. Moving into the future, does the rate change end up not only increasing tolls, but also taxpayer dollars that need to be invested in improving non-toll arterial routes? What were the other rates that were studied? I'm not opposed to an increase, but my concern is that the cost differential will have a regressive impact on drivers that cannot afford a 100% (or more) increase.
07/16/26	Annette Foltz	60083			X		X		X		Oppose	
07/16/26	Leo J Koenig	60527	X		X		X				Oppose	Stop ripping us off. We can't afford the proposed toll increases. The tollways are in adequate condition as is.
07/16/26	Vikas	60099	X				X		X		Oppose	
07/16/26		60510	X		X		X				Oppose	The plan is focusing elevating traffic being experienced by commuters but a majority of the issues being experienced are related to the constant construction and slow progress made on the same. Years and years of projects on the same roads do nothing but create delays and once the project is completed, it is already been outgrown.
07/16/26	Judy Pepper	60142	X		X		X				Oppose	These rate hikes are ridiculously high. I would support a smaller rate hike. Figure out a way to pay for this without constantly reaching into our pockets
07/16/26	Darek Salwa	60631-1589	X				X			Where is the passing lane ? People are not educated	Oppose	The highway was supposed to be paid for by now , the tolls were supposed to be temporary , taxes are covering the maintenance , don't need to raise the cost of going to a doctor
07/16/26	Spencer Dixon	60118	X			X	X				Oppose	The proposed increase is absurd. If the proposed price hike goes through i will actively avoid the toll roads all the time
07/16/26	Harry Balzer	60010			X	X				Speeders	Oppose	Don’t like the percentage rate increase… you’re contributing to high inflation! Tying future to cost of living provides you with an incentive to no care about holding the line on costs. On top of that, I avoid the tollways, not because of cost, but because of construction and speeders…if I can get through the construction zone (294, 90), there is no enforcement of speeding laws…and I feel nobody really cares about the safety of drivers… you are on your own on those roads.
07/16/26		60073	X		X		X				Oppose	Just one more reason to pack up and leave the Land of Liberals! Most of the $ will probably go to feeding, housing and making sure illegals are well taken care of and kept out of prison. Spin it any way you want Leftie, it's just another cash grab from the middle class to pay for votes for the Demonrats! Illinois is a JOKE!
07/16/26	Nick Kalantonis	60110	X		X		X				Oppose	I believe there’s too many tolls to begin with and we don’t need more tolls. I tried to avoid using the tolls because of the cost and I don’t understand why you need to pay a toll when you get off the expressway when you get on the expressway yes pay the toll to use the expressway, but you shouldn’t have to pay another toll just to get off the expressway. I believe it’s just another way to get more money from taxpayers as usual enough is enough..
07/16/26	Suzanne Snyder	54155	X		X	X					Oppose	An increase ? Every thing is so expensive right now (gas, groceries, housing, utilities and on & on) Oh, and let’s add a toll to exit on to North Ave from 294 - insult after the years long construction project (the County Line Road exit) Think about it
07/16/26	William M	60174	X		X		X				Oppose	No!
07/16/26	Susan Sparks	60089	X		X		X				Oppose	The increase is too high. For years there has been much mismanagement with this agency, and we, the taxpayer. were on the hook. Clean house, cut back on expenses and offer a reasonable increase.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/16/26	Jeff Jones	47904	X		X		X				Oppose	Florida has the same system as I-Pass for their tolls but they are very inexpensive compared to Illinois. In fact, Illinois tolls are 8 times more expensive than Florida right now for the same service and this proposal would make the gap between the two states even wider if the new toll fees were implemented as outlined. How can this be?
07/16/26	Kurt Thomas	60451		X			X			No more toll increases	Oppose	Use some of the funds you have saved rather than just raising the price
07/16/26	Terry DeYoung	60473			X	X	X				Oppose	How about reducing tolls in construction areas? Something is always under construction, creating slower drive times, and the tollway keeps raking in money. It feels often like you invent new projects to serve the tollway authority more than drivers.
07/16/26	Scott Kryk	60441					X	X		Less toll booths	Oppose	The tolls are already too high, so they should not be raised, nor should they increase automatically with inflation. The original promise was to remove the tolls when the highway was paid off, but that has never occurred. Do not raise the tolls.
07/16/26	Raoul Markuson	60007			X				X	Safety on the tollways	Neutral	the need to start ticketing vehicles exceeding 100 miles/hr and excessive weaving of speeders
07/16/26	Jack Turner	60565	X	X			X				Oppose	I avoid using the toll road as much as possible because I feel it is already too expensive. In some cases, I have to drive 15 miles farther to save only 12 minutes of time. More gas and tolls on top of that. The rate increase will only cause me to use the tollway even less.
07/16/26	Don Wells	60067	X		X		X				Oppose	I will never support paying for a public road that already should be funded by the second highest property taxes and gas taxes in the country. If registering my car or license was free maybe I would consider paying a toll to drive on the road.
07/16/26	Jerome Smith	60016	X		X		X				Oppose	I support the capital improvements and understand a toll increase is needed but I think the proposed increase is too high.
07/16/26	Anonymous Driver	53405			X		X			Do away with tolls, its just another form of taxation	Oppose	Illinois has to be one of the worst run states. Crazy high property taxes and sales taxes. Just what people need, more taxation. Abolish all tolls and let people drive freely.
07/16/26	Julie Spence	60061	X				X		X		Oppose	The tollway was supposed to be a temporary charge to do a project and it has turned into a permanent expected fee everyone is supposed to pay. The fact that there are automatic increases built into the proposal does not show the public that the state is trying to manage their budget. Tolls were just recently increased already
07/16/26	Timothy Michael Courtney	60174	X		X		X				Oppose	When tollways first came to be, we taxpayers were told the tolls would disappear when the roads were paid for. What happened to that promise?
07/16/26	Michael Bakker	49071	X		X	X					Oppose	Rate hikes seem excessive and provide incentive to find alternate, non-toll roads.
07/16/26	Michele Clemens	61073	X				X		X		Oppose	Tolls are high enough... there has been a surplus downstate for roads. I don't think Illinoisians deserve all these increases. Use the surplus. Use the funds as intended.
07/16/26	Kelly Cavanaugh	61704	X		X		X				Oppose	Tolls were meant to recoup cost of building the tollway. They were not intended to last forever. This increase should not be implemented.
07/16/26	Larry	61726	X		X		X				Oppose	The last increase should have taken care of maintenance infinitely. It seems when maintenance is done, it's drawn out.
07/16/26	Nathan	60410	X		X		X				Oppose	It is already expensive as a daily commmuter and there’s too much traffic. Unless it becomes 6 lanes I don’t see an improvement in traffic for the cost
07/16/26	JEFF	60193	X		X		X				Oppose	Toll money is not managed properly. Fix that before any more increases.
07/16/26	Mark Guncheon	23116	X	X			X				Oppose	To suggest a toll increase during a time of rising prices for everything is a terrible idea. Show some concern for those who use the tollways of Illinois, including former residents of Chicago who return often to visit family. Please wait until the upcoming recession is ended.
07/16/26	Allen Seibert	60103	X				X		X		Oppose	

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/16/26	Ursula Buol	61008	X		X		X				Oppose	I have to commute to Schaumburg from Belvidere everyday!!! That's 100 miles every day!! My job does not allow me to work remotely, I have to be onsite everyday! There are not enough jobs in or around Belvidere for my line of work so I have to commute! I have to pay $5.40 a day just to drive on the road and I think that's even discounted! This is getting too expensive just to drive! Where does the money go for the roads currently? The roads are not in the greatest of shape so what are you doing with it now? If you have to raise the toll amount please at least allow a discount to those of us who have to commute everyday. We should not be punished!!
07/16/26	Larry Mills	60543	X				X			Eliminating the toll.	Oppose	The tollway concept has been abused in Illinois for decades. Almost all tollways should have been abolished after recouping the initial construction cost. At best, tollways funds should be used only for maintenance for the serving tollway itself. Inflation adjustments are insult upon injury, as most taxpayers income lags well behind inflation rates.
07/16/26	Agustin C Mota	60423	X				X			Avoiding the tolls roads	Oppose	We are already the highest taxed state in the union and we pay tolls. No more increases. The current toll revenues should be plentiful. Manage the money better!
07/16/26	Nicholas Secker	60538		X		X	X				Oppose	This is absurd. There are so many users on the toll roads as it is, why would you even consider increasing costs...seems like another Illinois-driven cash grab. We're already over taxed on every element to simply live in this state...now we're going to be price gouged just to drive. Insane. Please don't do this.
07/16/26	Chris Eaves	60010	X			X				Easy on and off	Oppose	Horrible plan with limited benefits and a perpetual toll increase hidden in the language. Make do with the money you already make and prioritize removing dangerous toll booths that are no longer needed.
07/16/26	Janet Kane	60048	X	X			X				Oppose	An increase was enacted a year or two ago a 30% increase is exorbitant! I oppose this increase.
07/16/26	Richard Jungles	60439			X		X			Less office people that burn up the money that should be going for road repairs and not have to raise the toll rates!	Oppose	Don't need it just use better judgement when spending the money elsewhere!
07/16/26	Karen O'Connor	60142	X				X		X		Oppose	I believe that the increase is excessive, especially as there will be multiple increases over a specific number of years. I would like to see a breakout on how much is collected every day and how that money is utilized, especially as staffing was cut when you automated the toll booths.
07/16/26	Craig	60062			X		X			Actually having police stop speeding and crazy drivers with even speed cameras. seems so easy to fix buy you don't want to for some reason. Safety is the most important as everybody is driving 90 now.	Oppose	IL already has the highest taxes in the USA. Home prices and taxes are off the charts. Then add gas, sales and all the other taxes. It's already too expensive so don't add more money to the tolls as this is just driving people away. We are seriously considering moving out of the state due to all the taxes and I know a ton of higher income people thinking to do the same. This is just a game to try and make up taxes for people leaving but it will only make it worse.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/16/26		61350	X		X		X				Oppose	Are y'all fully aware of the sheer expense involved in living in Illinois? This is a beautiful state with a lot to offer, but you are driving its citizens out with property tax increases, tolls, gas prices in some areas significantly higher than other Midwestern states due to state and county taxes. Illinois is RAPIDLY losing children and young ppl to states with more aggressive policies aimed at creating an affordability market, and this is a real problem. My family would be considered upper middle class. We moved here ten years ago from Los Angeles because we felt Illinois offered a more sustainable future. Since then, gas prices have doubled, my property taxes have gone up 2 1/2 times what they were, grocery prices are ridiculous and there is no commensurate ROI for the wealth transfer Illinois demands of my family. We are now looking to relocate out of Illinois, which is a shame because we love it here. I'm not sure what the end game is for politics in Illinois, but I know that if you keep expecting middle class families to fund unnecessary expenditures with a severe lack of transparency and little recompense for the investment, you're going to lose those taxpayers.
07/16/26	Brett Ross	60172	X		X					better designs leading to less traffic	Oppose	remember when the the tolls where going to go away when the roads were paid for? The Tollway construction at the 290/294/88 is still single lane and has been for 20 years.. and still hasnt gotten better. The redesign of the "hillside strangler" didnt fixed the problem.. it only moved it farther east. If the roads would be built correctly the first time.. you wouldnt need to constantly fix and resurface them every single season, but I understand the grift and contracts needing to be done to keep the politicians happy. If you want to eliminate bottlenecks and offer better customer service, remove construction zones when people arent working instead of turning them into speed traps for the State Police. There are so many ways to better serve the IL driver. I am happy to appear in person to address them all.
07/16/26	Richard Eckert, SR	60140	X	X			X				Oppose	As a regular user of I90 I believe the proposed rate increase is to large and inappropriate at this time. There is a lack of detail justify this large of an increasing. Much smaller increase perhaps could be justified going forward.
07/16/26	Dawn Pukala	60477	X				X		X		Oppose	Toll charges are out of control. If, all of the current toll collections were used for nothing but the maintenance of roads and rest stops, instead of diversifying funds to schools, etc. we would not need such a ridiculous high increase. We already pay some of the highest property taxes in the nation and now our tolls will be right there with the other few states that rob us with tolls.
07/16/26		60087				X	X		X		Oppose	Manage the money you already have. The Illinois toll system is one of the highest toll systems in the country and now it's going to be raised even more? Not at all happy with the increase.
07/16/26	CHRISTINE KELSTROM	60546	X				X			NO TOLLS	Oppose	YOU ARE RAPING MIDDLE CLASS AMERICA WITH YOUR UNENDING EXCUSES FOR MORE OF OUR MONEY. WE PAY ENOUGH TAXES SO ROADS SHOULD BE FREE. STOP WASTING MONEY AND CONSERVE INSTEAD OF SPENDING.
07/16/26	Concern Citizen	60477	X		X					The open tolling accounting system	Oppose	Link the transponder recorded tolls with video tolls to the account holder via the license plate and charge accordingly. There shouldn't be a separate notice/invoice for a video toll if you are an active transponder account holder. The plate number is not a secret. Your current system is broken! Unsettled video tolls with ridiculous fees can be avoided for those with transponder accounts if the Illinois Tollway wanted to fix this gap by spending toll dollars instead of asking for more!
07/16/26	mark	60007					X		X	no toll.	Oppose	original tolls were to expire once completed. did not last long but when the money is used to fund other state items. another reason people are leaving the state
07/16/26	Tracy	60172		X			X			I don't travel on the tollway because I'm not going to pay this ridiculous tolls and my cc kept getting hacked when we had an ipass.	Oppose	Stop driving businesses out of IL. You're part of the inflation problem when distributors have to pay these outrageous tolls.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/16/26	Murali Kalagara	60103	X		X		X				Oppose	IL tolls are already expensive and I oppose the rate increase
07/16/26	Edward Borek	60503			X	X	X				Oppose	We need a break from tax increases. Prisker needs to figure out how to do this without massive cost increases to WORKING people.
07/16/26	Michael P Dalexander	60103					X		X	NO TOLL INCREASES	Oppose	TIME TO VOTE REPUBLICAN!
07/16/26	Geoffrey L Dennis	60174	X		X		X				Oppose	Do not raise the tolls.
07/16/26	Gary Bleich	60087			X		X	X			Oppose	I personally think the tollway should consider a tram or train system. From Wi. to Ohare. From In. to Ohare. From Beloit to Ohare. Living here all my life and drove professionally for 45yrs. I can tell you, 60% of your traffic revolves around Ohare airport. Building more lanes will never solve this problem. It cost 200 million a mile to build a tram. At 26.5 billion, that's alot of track. 1300 miles give or take. You have approximately 60 miles on 294 and 85 miles on 90w. I think this deserves consideration.
07/16/26	Vadim	60103	X		X			X			Oppose	
07/16/26	Deborah Hall	60607	X			X	X				Oppose	Use the money you already collect more wisely
07/16/26	Peggy A. Kozacek	60440	X				X			Less construction	Oppose	Roads were supposed to be toll free after they were paid off. Now they are used as job security by a unelected political group. Just another group of grifters. tear the same roads up every other year. Total waste of money!!!
07/16/26	Crnich	60467	X		X		X				Oppose	That is a huge price jump. I feel that is extreme to raise it that much at once. Why wasn't this considered and planned for over years not one year price jump especially with the economy
07/16/26	Jake	60463	X		X		X				Neutral	Is there anyway to get funding from other sources than the public? Also, can there be more transparency on exactly how the money is spent. Break down the costs for us common people, show us who getting the checks to maintained our roads. Are we getting quality materials or are we getting materials and workmanship that only last 5 years. Roman roads lasts a long time because of how they were built, why can't ours? When I-355 was completed, it was less than a year before it was under construction again. I always tell people, if you want a permanent job, go work with the crews on I-80. One last thing, are you doing core tests on newly completed roads to make sure you are getting the thickness you contracted for? South Holland years ago made the contracting company redo the roads because of inferior materials and incorrect road thickness. We need accountability not shady deals.
07/16/26		60053	X		X		X				Oppose	
07/16/26	Jennifer Danaher	60565	X				X			Affordability	Oppose	Taxation is out of control. Manage budget as is. Stop increasing tolls.
07/16/26		60516	X		X		X				Oppose	For a system that was supposed to be paid off in the 70's, this is starting to get ridiculous. I don't mind paying the current tolls to keep this system maintained but this state continues to raise spending and then raise taxes to pay for it. The General Assembly and the Governor then diverts the gas tax money and other road revenue sources to pay for non-road spending. Enough-this has to stop!
07/16/26	Jacob Nowakowski	60103	X		X		X				Oppose	Driving in Illinois will soon be completely unaffordable. With the recent gas price hikes, the last thing Illinois drivers need is a toll increase. Additionally, it's insane that Illinois drivers are essentially being forced to pay for a bail out of public transit companies they don't even use. Also requiring that people chose three priorities and only allowing one of them to oppose the hike is a blatant attempt at gaslighting Illinois drivers into thinking this is beneficial for them.
07/16/26	Izabela Piatek	60656			X	X	X				Oppose	Too expensive to use highways
07/16/26	Mary Beth Zerafa	60542	X				X			Do not increase tolls	Oppose	Horrible decision! We already pay insane amounts of money for property tax, gas and cost of living! You make so much money on toll roads already. Enough is enough!!!! DO NOT RAISE TOLLS
07/16/26	Randall K Johnson	61701	X				X			$ efficiency	Oppose	Affordability is the big thing now, but tollway/government continues not to understand that. There is a limit to how much people can pay. Spend It efficiently and you wouldn't need more. But Illinois will never understand that
07/16/26	Lynn Charmaine Samaroo	60608		X			X			Affordable	Oppose	This proposal is hot smoke just to make more revenue off of the backs of already financially strapped families. Keep starving us like the rest of the rich getting richer.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/16/26	Scott Pales	60634				X	X			no increase in tolls	Oppose	our great governor at it again why doesn't the billionaire give away his money give it to the state affordability tax the billionaires
07/16/26	Pat	60451	X				X		X		Oppose	
07/16/26	William C Fox III	60069	X		X					Less construction	Oppose	The tolls being charged are high enough. Politicians and bureaucrats always will find justification to spend MORE money. And then on top of an increase, the proposal to insert automatic increases tied to the CPI, like Priztker did with the gas tax, is OUTRAGEOUS. NO NO NO
07/16/26		60089	X		X		X				Oppose	
07/16/26	Chris Farley	60423			X		X	X			Oppose	Reason #587 to leave Illinois. You and Prickzer are taxing us to death. Reduce spending. I'll be paying my last Illinois tolls in 2027.
07/16/26	Donald Lee	60178	X		X		X				Oppose	Enough already, between ridiculous property taxes, higher tolls, gas prices, governments are making it nearly impossible to live here!
07/16/26	Eric Himmler	60046			X	X	X				Oppose	Do we not already pay enough? Between increased tolls and the flawed mileage tax being discussed, it's becoming more desirable to avoid the toll roads in IL.
07/16/26	Teresa A Johnson	60516-2815	X		X		X				Oppose	Tolls are already expensive. The roadwork on 294 has been going on for a decade - and very rarely do I see anyone working. Just piles moved here and there and lanes moving around. Construction management: there is NONE. I just don't think the money will really be spent on improving the roads and easing congestion. Please do NOT raise the toll rates.
07/16/26	Brandon	60453			X		X			Toll ways were supposed to be free. That fat retard governer should be fired.	Oppose	Tollway, free by 73 right? Fuck that fat retard that runs this state
07/16/26	David Heeringa	49505	X				X		X		Oppose	Hard to believe what they take from 18 wheelers monthly. Illinois should be able to support the Hwy system on those 10's of millions a year in tolls w/no end in site. Criminal !
07/16/26	Dennis Merrick	60013				X	X			All you Politicians do is raise tax's Fees!! we are being attacked to death. I will be so glad when the election come, and Pritzker is out of there! Go take a look at how much a passenger car has to pay traveling through Illinois!	Oppose	Another B.S proposal from the Richest Governor in the country

07/16/26	Aaron Fezzey	54880	X		X	X					Oppose	The tollway generates billions of dollars. An increase in tolls is unnecessary. Tollway revenue continues to increase. Spend what you take in.
07/16/26	Kate	60462			X	X	X				Oppose	The commercial cars should be responsible more for the tools. It's insane that for me to do to Galana it's about $20 in tools. Passenger cars should not be responsible for all the damage that large commercial trucks do to the road system.
07/16/26	crisseytp@att.net	60477			X		X			less constant construction	Oppose	ARE YOU CRAZY???? DO YOU NOT KNOW THAT PEOPLE ARE STRUGGLING FINANCIALLY? YOU WANT TO SAVE MONEY? CUT SOME OF THE SALARIES OF THE EXECUTIVES.
07/16/26	Lynda Borsodi	60417	X				X			Direct routes without raising the rates	Oppose	The tollway was supposed to have been a short term fix and now it's become a huge money maker for the state and your texting us to death. 2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/16/26	Daniel Concannon	61108	X				X			Safety	Oppose	When the Illinois Tollways were originally built, they said they would go away in '73 when bonds issued to build the roads would be paid off. Gov. Pritzker promised reform for Illinois Tollway system, but this is not reform but more of the same. I support what he does but not this effort. We simply cannot affort this and we need to think long term on removing the tolls as other states have done. Why can't the Land of Lincoln accomplish this?
07/16/26	Carrick Coakley	60657	X		X					Less cars on the road - only possible through lane and parking reduction	Support	Make the tolls $50 and send every penny to transit
07/16/26	Jeffrey Wyler	60060	X			X	X				Oppose	We don’t need an increase when you have a surplus. The automatic increases are not reasonable.
07/16/26	Michael Mele	60137	X		X		X				Oppose	Back in the Fifties when the tollway was being built the tolls were only a quarter and people were told that it would be paid off in several years. And I believed that. I've seen so much inefficiency in the money being spent that I go out of my way not to use the tollway.
07/16/26	Donald Wiser	60050					X		X	45cents is way to much	Oppose	45 cents is way to much as crooked as Illinois is you more likely won’t see any improvements
07/16/26	Kenneth Brom	60546	X		X		X				Oppose	It's difficult to understand the need to have an at least 30% increase in the first two years, then another 7 increases over the 15 year project lifespan when the current revenue of ~$1.65bil per year provides $800mio annually for capital improvements, which this project is. That's $12 billion over 15 years, leaving a need for $14 billion. Seems you would need a thereabouts 15% flat increase and expense management such that you would do as a homeowner, rather than a spender of tax payers revenue.
07/16/26	James Fuhry	53074	X		X		X				Oppose	I try to avoid the Illinois tax hell and grift altogether. In Wisconsin, we have no toll roads.
07/16/26	Bryan	60099					X		X	Expenses	Oppose	I cannot afford another toll hike, and a 30% one at that! I will be forced to park my truck and lose my livlihood! Please don't do this. Cut spending somewhere but quit breaking the backs of truckers
07/16/26	Richard Kealey	60418	X		X		X				Oppose	Tolls are already high enough! IL residents already pay some of the HIGHEST TAXES IN THE COUNTRY! People are leaving IL when they're able due to high costs of living, so this will incentivize even more IL residents to leave! ENOUGH IS ENOUGH!
07/16/26		60521			X	X				Less disruption	Neutral	Please stagger the work so that it does not inconvenience one area for several years (like the current work on I-294). Thank you!
07/16/26		60411			X		X	X			Oppose	Every person in Illinois is sick and tired of the constant price increases for the tollway that was supposed to be converted HOW long ago
07/16/26		60409			X		X	X			Oppose	
07/16/26	Joni	60467	X		X		X				Oppose	This is ridiculous! Illinois needs to learn how to budget the money they already have coming in from all the taxes we pay. We need to get rid of all the crooked politicians. Instead of trying to balance a budget they continually turn to the people for more money. Enough is enough. And these people who continue to go along with this are the people getting free housing , free medical care and snap benefits. Maybe we should stop supporting illegals and let charity begin at home! I oppose any tax increase and not just this one. Property taxes are out of control. Illinois is not the place to be anymore. I for one plan to go soon and do it before they impose a tax for leaving the state.
07/16/26	joan koren	60302	X			X				Advance notification of construction projects and availability of up-to-hour updates of closed lanes.	Support	I support upgrades to the tollways, but consider 45 cents per toll excessive -- VERY EXCESSIVE. Why don't you reduce your plans and change 25 cents increase -- people would not have a problem with that.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/16/26	Adnan Hussain	60527	X				X	X			Oppose	I am writing to express my strong opposition to the proposed $26.5 billion "Driving Connections" Capital Program, the 45-cent passenger toll increase, and the automatic bi-annual inflation escalator. I urge the Board to reject funding for physical lane expansions and instead adopt a fiscally responsible "Fix-It-First" approach. CURRENT REVENUE IS SUFFICIENT FOR MAINTENANCE: Generating $1.75+ billion annually, the Tollway has more than enough net revenue to maintain existing roads and bridges in a state of good repair. The proposed rate hike is driven by costly physical expansions, not routine maintenance. LANE WIDENINGS FAIL TO RELIEVE TRAFFIC: Decades of data—and local projects like the $2.5B I-90 expansion—prove that adding lanes induces travel demand. Years of construction gridlock yield travel time savings that decay within a few years as new capacity fills up. PRIORITIZE DYNAMIC PRICING OVER ASPHALT EXPANSION: The Tollway's own strategic initiatives include exploring dynamic congestion pricing and managed express lanes. Peak-period demand management reduces congestion at a fraction of the cost of laying new pavement. Physical widening should not be pursued before full-scale dynamic pricing is implemented. SAFETY AND CLIMATE OVER HIGH-SPEED THROUGHPUT: Expanding corridors to 5 or 6 lanes encourages dangerous speed differentials and aggressive driving while increasing regional vehicle exhaust and tire particulate pollution. LACK OF ACCOUNTABILITY: Bi-annual automatic rate increases strip away transparency, granting open-ended rate hikes without requiring future public hearings or Board votes. MISALIGNED REGIONAL PRIORITIES: Expanding highways while parallel public transit systems (CTA, Metra, Pace) face fiscal cliffs induces car dependency. Capital funds should prioritize multimodal infrastructure—like dedicated Pace Flex Lanes and bus-rapid-transit medians—over asphalt expansion. ACTIONS REQUESTED: 1. Cancel the proposed toll rate increases and automatic inflation indexing. 2. Focus capital spending strictly on maintaining existing assets in a state of good repair. 3. Implement dynamic pricing and public transit integration as the primary congestion management strategy instead of physical corridor widening.
07/16/26	Sandra Rice	60506			X		X			no tolls at all	Oppose	I have 5 vehicles with Ipasses. I dont feel there is a need for an increase. We pay enough as it is. You no longer have people in the booths so you are saving there. And the state should have plenty go fix the roads. The other states seem to be able to take care of their roads with out tolls. We are one of the only states left with tolls. NO INCREASE!!!
07/16/26	Orion Galey	60137	X	X	X						Support	
07/16/26	Randy Thiel	60084	X		X	X					Oppose	The tolls should be waved when you are sitting in stopped traffic
07/16/26	Dan Schroeder	60532	X		X	X					Support	Increased tolls are needed to help maintain the Illinois Tollway with construction industry inflation far exceeding other sectors
07/16/26	David J. Grabarczyk	46321	X		X		X				Oppose	Whatever happened to the original concept of the toll road system?? Let me refresh you.....Once the work is completed the tolls will cease. So what happened with that?? Cash cow huh?? I take 294 once a week to Wisconsin, that toll is packed, you have to be making darn near a million dollars a day it's so crowded and now you're going to jack up the prices YET AGAIN?? sheesh
07/16/26	Naveed	60630	X	X	X						Support	
07/16/26	Rick Rivera	60181	X		X			X			Support	
07/16/26	David Parker	60305	X		X	X					Support	Continued improvement on the tollway system is a critical need for the area. Less congestion, improved economic growth and access to services to name a few.
07/16/26	Duane O'Laughlin	60030	X	X		X					Support	This is needed to maintain and improve the system.
07/16/26	Steve Jandick	60544	X				X			Oasises	Support	
07/16/26	Elizabeth Gallagher	60646	X		X	X					Support	A well maintained transportation system provides access and builds our regional economy. We understand it cost money to do that and tolls need to increase to keep up with inflation.
07/16/26	Kurt Horton	60478	X	X	X						Support	
07/16/26	Chris Martel	60712	X		X	X					Support	
07/16/26	Katelyn S Hacker	60613	X			X		X			Support	

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/16/26	Mary Ellen Mack	60656	X			X		X			Support	I don't utilize, but I like that the tollway connects trains, busses and local raods. (Ex. Barrington rd pace connection)
07/16/26	John	60532			X	X	X				Oppose	Where has all the money been spent from the tolls we've been paying until now? Why do we all of a sudden need to have such a sharp increase in price? The money spent on tolls should be well managed and accruing interest for large capex projects like this one. Small increases are fine periodically. This proposal tells us that money has been mismanaged and I refuse to pay for that mistake.
07/16/26	Jeff Lange	60137	X		X	X					Support	
07/16/26	Dan Drew	60202	X			X		X			Support	This increase will translate into not only the investment necessary to improve and modernize our tollways but also keep the engineering and construction industry healthy. I fully endorse the the Driving Connections Capital Program.
07/16/26	Dan Pokorni	60625	X		X		X				Oppose	Illinoisans pay some of the highest gas prices. We have to add tolls to that as well?
07/16/26	Matthew C Gilmartin	60423		X		X	X				Oppose	You've given me yet another reason to move to Tennessee. If I'm not out of this hellhole of a state by December, I will just stay off the tollway.
07/16/26	charles schott	60014			X		X			reduced tolls	Oppose	I am old enough to remember that once the bonds are paid off the road will become a freeway. I know the orginal bonds have been paid off and yet tye roads are not freeways. typical government lies!
07/16/26	sue mazur	60586	X	X		X					Oppose	I can't believe that Kendall County was not included in your list of public hearings! We come the farthest and need a say on access points and maintained roads. As someone who uses the Tollway System weekly to visit a sick mother, I am constantly replenishing my I-Pass. What are you doing with all the money that is being collected? The delays are longer, the roads are ALWAYS under construction, and there is no easing up of traffic. Hire a non-governmental company to manage the funds collected.
07/16/26	Robin Merigold	60449				X	X			Less construction.	Oppose	Time to start cutting the budget back like most normal people have to do each year. All this excessive taxation in Illinois is not making it better on families. We are paying more and more each year for less and less.
07/16/26	Greg Whisler	60030	X			X	X				Neutral	While I acknowledge that running the tollway system is expensive and agree that it should be paid for by the tolls, I think that the open road tolls should see the largest increase. Those handle the majority of traffic and include out-of-state drivers who use the roads but don't pay taxes. Leave the on/exit ramp prices fixed, as those are mostly local people.
07/16/26	Nicole Bandyk	60513	X			X	X				Oppose	You are taxing the people of Illinois to death. The working class can barely afford to live in this state. People can't afford to retire here. Some of the highest gas and property tax in the country, one of the only states with toll taxes, and you STILL can't figure out how to pay for things without imposing more taxes on the working class. Other states miraculously figure it out though! As a lifelong democrat - SHAME ON YOU.
07/16/26	Jenny	60467	X				X			No increase needed	Oppose	Where are the tens of millions of dollars already collected each year being used? This is basically to fund Chicago & to bail them out their own mess just like the additional RTA tax. Those that don't live in Chicago shouldn't have to pay for "Mayor" Brandon & Pricksters mess of a city & state. People already are getting taxed to death...additional gas tax, rta tax, increase in everything & now you want to kill us more with higher tolls. When is it going to stop?
07/16/26	Amanda jensen	53044	X		X		X				Oppose	
07/16/26	Jayne Quetsch-Rohrer	60439	X		X		X				Oppose	I believe we already pay high toll rates, and this increase is an extreme rise. This rate increase will discourage drivers from using the tollways.

07/16/26	Robert kay	60656	X				X		X		Oppose	294 has been under construction for 5 plus years it looks like a 3rd world country. Illinois tollway stealing money and not caring about actual people similar to Chicago teachers union

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/16/26	Andrea Yoblick	60462	X				X	X			Oppose	Our taxes already go to maintaining roadways throughout the state. All of these updates are happening because of the transition to tracking and tracing all human beings through digital ID, 5G networks and the nano microchip (mark of the beast) that will be coming very soon after the rapture or the three days of darkness when the world will never be the same. This is an unnecessary update and the cost is outrageous. Instead of spending money on buying unsafe Covid vaccines use it on the roads. "But he who did not know, yet committed things deserving of stripes, shall be beaten with few. For everyone to whom much is given, from him much will be required; and to whom much has been committed, of him they will ask the more" - Luke 12:48
07/16/26	Paul	61752		X				X		Usually the only direct route	Oppose	
07/16/26	John Parkin	60108	X			X	X				Oppose	
07/16/26	Eric Zavala	60085	X	X			X				Oppose	I opposed toll increase, Illinois politics doesn't know how to spend money in roads, we have been paying are tax on tolls no need for increase
07/16/26	Edward Mietz	60462	X		X		X				Oppose	
07/16/26	Jason Berland	60174	X		X		X				Oppose	I am asking something that I know I dont have permission to look at but I would like to see what the funding is being leveraged for. Specifically cost of materials, labor, etc. what were the bids, why the winning one was chosen, difference in cost, what if any kickbacks were given and overall plan of the future roadmap as to budget, emergency fixes, maintenance and allocation of toll costs for current pricing and future. I dont expect that any of this is documented for public knowledge and if it is I doubt it is accurate. The shadiness of Illinois bidding and funding is well understood and to my knowledge unethical. We as a state are in a financial crisis because we dont make fiscally responsible decisions because greed, unethical business and personal financial gain are clearly more important that the states well being.
07/16/26	Jay bender	61108	X			X	X				Oppose	Totally unnecessary increase, tolls were supposed to be removed years ago. Pure Illinois greed.
07/16/26	Eddie	60656		X	X		X				Oppose	Raising tolls because state politicians are incapable of appropriately spending funds. Stop raising fees and stop needless roadwork.
07/16/26	Grace Jones	60056			X		X			lower toll rates	Oppose	Rates keep going higher and higher, this is affecting my wallet and supporting my family. I also planned on attending public hearing, but I received email from chicago tribune on 7/16 which is passed public hearing meeting from 7/14
07/16/26	Marlene Hotovy	60089	X				X		X		Oppose	This is ridiculous! The tollway should tighten their belts and look at all the areas of wasted money they allow. I am sick and tired of the America people getting gouged by companies because they can. I do not agree with this increase. I think the tollway is doing this because everybody else is raising their prices. Give the commuters a break and use the money allocated to you thru current tolls and state and government funds. Do not make the American public pay AGAIN for something that should be maintained thru the status quo!
07/16/26	Jim	60467			X		X		X		Oppose	The tollway was sold as when they recoup the money of building it the toll booths would be removed. I believe you have enough state and get money to maintain the roads. There are too many people with their hands in the pot making a living. This is why other states laugh at our finances. You know it. Get it together Illinois
07/16/26	Linda Flores	60610	X		X		X				Oppose	I still remember that the tolls were supposed to be temporary. This is ridiculous especially in this economy. The roads aren't better in all these years, even though they are under constant construction. I want GUARANTEES AND ACCOUNTABILITY. When roads are built they should be guaranteed for YEARS! When projects exceed forecasted time frames, the contractor should eat the cost. Do something that HELPS the people. Squeezing us for more money is disgusting.
07/16/26	Adela S	60056					X		X	LOWER TOLL RATES	Oppose	Public Meeting for Cook County passed ... email notification with schedule came on 7/16 while meeting for cook county was on 7/14. Terrible process. I OPPOSE any rate hike for tolls

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/16/26	David Rice	60560			X	X	X				Oppose	A 45 cent increase per toll is a lot. I will definately reduce the amount of times I use the I-Pass. An increase of a much smaller amount will be acceptable.
07/16/26	Bill Daley	60657	X		X					Bring back ability to pay with cash and coins.	Oppose	The State Of Illinois is ignoring the constitutional right to pay tolls with cash and coin. Digital only payments is also an invasion of private travel. The state claimed not allowing cash would save costs, yet here we are again ready to raise tolls! The state also needs to REQUIRE auto insurance by all drivers, which it is not enforcing, and issuing drivers licenses without that proof, and, using tollways without that proof by drivers, to use the tollways REQUIRING AUTO INSURANCE. Why can't THAT INFORMATION be scanned information at the toll booths with the license plate sticker?
07/16/26	Terry Coradini	60073		X	X					avoiding chicago traffic	Oppose	NO to the rate increase. You do not deserve any more money!!!
07/16/26	Keith Luker	60124	X				X			I can spend my own money, don't need you to spend it for me	Oppose	You already have about 5 billion in profits, you don't need any more
07/16/26	M	60140	X	X			X				Oppose	I strongly oppose the proposed 30% increase in I-PASS tolls. Families across Illinois are already struggling with the rising cost of groceries, housing, utilities, insurance, and other everyday expenses. Adding another significant increase places yet another financial burden on hardworking residents. Before asking taxpayers and commuters to pay more, our elected officials should look at reducing government spending and finding savings within existing budgets. If additional funding is truly needed, perhaps legislators and other elected officials should consider reducing their own salaries and benefits rather than expecting Illinois families to absorb another cost increase. Illinois residents deserve responsible fiscal management, not another 30% increase that makes it even harder for people to make ends meet.
07/16/26	Geoff Bushelle	60564	X		X	X					Oppose	
07/16/26	Don Judd	60515					X	X		More taxes on the already poor.	Oppose	It is ridiculously expensive to live in illinois already. Tax the people to death.
07/16/26	Laterza Maria	69565	X		X		X				Oppose	I'll find other road to get around this is too expensive for those who retired and people out of work
07/16/26	Tom McMullen	60467	X		X		X				Support	I support any changes that will improve traffic and safer road conditions.
07/16/26	Gregory Guimon	60187	X		X		X				Oppose	Another way to punish working parents that don't work remote and have the luxury to not commute. Be more responsible with the tax base you have. Passing costs down hill is old, tired and the problem with current political "leaders." I'm going to Missouri.
07/16/26	Alberto Ornelas	60007			X	X	X				Oppose	Max increase should be 25 cents
07/16/26	Paul Rzasa	60480		X	X		X				Oppose	They have enough resources to keep the tollway system functioning for many years. No increase is needed. Thanks for letting me comment.
07/16/26	Terrell Murphy	50061-9333	X		X					I have no choice when visiting family in Chicago.	Oppose	Sounds like another fee or assessment which I am sure will never get to the roads but in the pockets of the Board of Directors or some politicians in Chicago.
07/16/26	Kristen Jorgenson	61008	X			X	X				Oppose	Tolls were started to help improve roads. And they are and always have been horrible. So that didn't work. Raising them again will do nothing but interfere with commutes to work and force people to find longer ways that have no tolls therefore congesting the back and side roads
07/16/26		33908	X				X			Affordability, Affordability	Oppose	
07/16/26	Johnny nomack	60016			X	X	X				Oppose	IL tollways are always busy. people are NOT paying $$$ to stuck in the traffic. Tollways are making $$$ why this needs to raise? Many states like WI have decent roads and no Toll. Why IL is always short of money?

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/16/26	Nicole Govert	46307	X		X	X					Oppose	I dislike that the passenger vehicles are getting a 45 cent per toll increase, but the commercial vehicles are only a 30 cent increase. Flip it. Commercial vehicles are what is primarily is on 80/94 and 294. They are also the vehicles that do the most damage. Why are these companies paying less? They profit from the goods being transported, they should bear the brunt of the increase. Passenger vehicles (common people) do not have it to continue shelling out more money than businesses. The commercial vehicles damage the roads more, pollute the air more, and take up more space in general, causing much of the congestion. This is why I oppose the increase.
07/16/26	Jennifer Banaszak	60560	X		X		X				Oppose	Tired of all the increases- people are leaving the state as we are getting nickle and dimed here- this is just another added increased cost
07/16/26	Kevin Katz	60074	X		X		X				Oppose	IL is already one of the most expensive, highest taxed states in the country, but sure, let's make it more expensive to live here. Sounds like a great idea.
07/16/26	Krrish Jayakumar	60089	X	X	X						Oppose	Increasing toll prices may cause a rise in living expense for daily commuters
07/16/26	Finnian Graf	60035			X	X	X				Oppose	I have grown up in Illinois and am proud to be able to say that. I've driven from Florida all the way to Washington state and to be completely honest I dread having to drive through Illinois having to pay tolls even as a resident has become frustrating especially when using the northern section of I-94 when there is a toll on every exit having to commute to school and work takes money out of my pocket that could be spent on gas and I personally would appreciate if we could abolish these toll booths and use the taxes we already pay to fix our roads.
07/16/26	Grace	60062		X					X	Most direct route	Oppose	Outrageous, another money grab from the quasi governmental agency.
07/16/26	Steve R.	60031	X			X	X				Oppose	As a lifelong consumer of Illinois Toll roads, I oppose this proposal because Illinois drivers have already paid billions in tolls with the expectation that those revenues would adequately maintain and improve the existing system, not require another significant increase. Before imposing higher tolls on families and businesses, the Illinois Tollway should demonstrate greater transparency, improve fiscal accountability, and ensure current revenues are being managed as efficiently as possible at the current multiple toll taxes imposed on hard working tax payers currently funding.
07/16/26	Alana McNabb	60450	X				X		X		Oppose	There's plenty of tax money that can be allotted for the roads....we don't need extra tolls to maintain the roads. Illinois under Pritzker is a disaster.
07/16/26	Stefanie Stocke	60540-4067	X		X		X				Oppose	We already pay more than many states in tolls. I remember when we were told that for the 355 expansion the tolls would be removed once the project had paid for itself - and here we are, 30 years later still paying toll. Our state and federal taxes should be enough to fund road improvements.
07/16/26	Ken Kieliszewski	60067				X	X			Cheaper tolls.	Oppose	60% increase is outrageous. Illinois citizens are having trouble paying their bills let alone having a huge increase in tolls. People working for the tollway plus union workers are getting paid much more then the general public. Too many incompent tollway leadership. The tollway around ohare is a complete joke. Work has been a stand still because incompent lawyers that handled the contact. We should not pay for the incompent workers of the tollway authority.
07/16/26	Anthony Boles	60618			X	X	X				Oppose	No details are provided just very broad benefits. The most detail is provided on the cost increases to drivers. Until you can quantify the benefits, I am a hard NO on the attempt to squeeze money out of drivers for decades on end.
07/16/26	Mark	60447	X		X		X				Oppose	Tax money should pay for infrastructure or let the trucks take on the burden. This would add over $600 a year to my budget. This will drive people off the tollway and into neighborhoods to get to work.
07/16/26	Paige Soule	60071				X	X			No tolls	Oppose	The tollway system was meant to be temporary and the fact that we still have it along with all the taxes and fees hoisted upon Illinois citizens is really beyond the pale!
07/16/26		60048	X		X	X					Oppose	
07/16/26	John	60448				X	X			Less toll plazas	Oppose	Another Illinois tax increase. I now travel to Indiana to purchase gas due to Illinois high gas tax. Now I will have to take route 30 and avoid the increased tolls. Can we try curbing spending insteadof raising taxes?

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/16/26	Gloria Vosburgh	60004	X				X		X		Neutral	I'll agree with initial increase but no increase every other year. It's not always needed.
07/16/26	Elle Wright	60642			X	X	X				Oppose	We do not need to be paying even more for the ridiculously high taxes and tolls in Chicago. People can not afford to live!!!!
07/16/26	Kevin	61283	X		X		X				Oppose	tolls are already too expensive!! Figure out how to live within your means like the rest of us do instead of just raising rates!!!!
07/16/26		60630	X		X					Driver safety	Support	
07/16/26	Matt Newell	60510	X		X		X				Oppose	Please do raise the tolls. We are taxed to death in Illinois. The tolls were supposed to go away in 1973. Anyone paying attention knows JB is proposing toll increases to buy union votes. The gas tax was diverted to Chicago transit, so the unions balked and JB came up with this idea to make them happy to get their votes. Their is so much money from gas taxes and tolls that the state can't even spend it fast enough. The increases tied to inflation are unethical as any increases should be voted on at that time and not automatic. Vote NO to increased tolls.
07/16/26	paula mccombie	60010				X	X			enough road to accommodate the traffic	Oppose	too big of a hike and what happened to all the money for the last hike?
07/16/26	Peter	60148			X		X			It seems like there is construction on ALL roads in Illinois	Oppose	Do NOT raise the Toll rates

07/16/26		60431	X		X		X				Oppose	Illinoisians are already feeling squeezed financially, we don't need additional rising costs!
07/16/26	Guy Mavros	60459		X	X		X				Oppose	Why should we bail out the trains and the buses? Maybe our politicians should take less money and donate their money.
07/16/26	D Alberts	60102			X		X			Republican governor	Oppose	Another money grab from the Peoples Republic of Illinois. Just another reason to hasten our departure from this corrupt lefty BS.

07/16/26	Illinois driver	69548	X				X			See below	Oppose	I want documented proof that all monies collected in tolls for the last 40 years has been spent on road infrastructure and not diverted to other political causes
07/16/26	pennie lea von Bergen Wessels	60142	X				X			state police presence	Oppose	The timing is bad. People are suffering to make ends meet, and this huge increase will add to inflationary pressure. Trucks will be pushed to arterial roads, or their costs will be passed on to the consumer. I've read pg 859 of SB 2111 -- the dog and pony show of hearings is an insult. The least you could do is have some respect. Maintenance, yes -- but this increase goes beyond that need.
07/16/26	Carrie Barkman	60517	X		X		X				Oppose	Please do not increase the tolls. So many people cannot afford to live in Illinois and if you raise the tolls even more, then I think many people will move out of Illinois. We can't keep up with the amount of taxes in this state. Please stop raising taxes and even thinking about putting even more of a burden on the people of Illinois by raising the tolls. Please stop wasting our money and use it wisely.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/16/26	Jose J Aguado	60148	X				X		X		Oppose	These hikes are too costly for everyone. For the people of Illinois, the trucking industry, out of state truckers driving thru Illinois, and out of state travelers. As it is, I live on Illinois Route 53, in DuPage County. And every truck driver wanting to avoid paying tolls on I-355, uses Rt. 53 to bypass using it up until the toll road ends at Army Trail Road to the north and Joliet Rd to the south. Trucks roar past my house over 60 miles per hour. In the 3 years I've lived on 53, there have been several accidents due to high speed traffic. Fully loaded trucks pass my house and my house shakes from the weight of the fully loaded toll scafflaws avoiding the tolls on I-355. Day and night. If these funds actually made it to fixing the roads, that would be a miracle. My stretch of Route 53 is in serious need of repair. Yet nothing has been done. Every fully loaded semi that passes the road bulge in front of my house shakes it to it's foundations. It's unbearable. Toll fee relief is needed to keep all the trucks and toll scofflaws off of IL Rt. 53.
07/16/26	Kenneth McClintock	61422	X		X		X				Oppose	We have enough expenses and taxes which delays our state growth and causes companies not to continue doing business in Illinois. Please try to copy Iowa and Indiana to gather ways to build Illinois.
07/16/26	Lorie Spitzer	61008	X	X			X				Oppose	The tollway was supposed to be temporary not a life long thing, we are paying to much for evrything in this state if the tolls go up we will take backroads instead
07/16/26	Kim Miller	60140	X			X	X				Oppose	Whatever happened to by 1973 we can be toll free? Increasing rates at this time with gas prices on the rise again, just leaves lower income consumers with less and less money. We cannot afford to drive anywhere with high gas prices and high tolls so you won't be getting any extra money from us. Also raising rates for trucks will raise the cost of consumer goods—again hurting those with lower income since that means groceries and other goods will also be increased. Trucking companies and all commercial vehicles will just pass the toll increase directly to the consumers. If you must increase rates, why so much at once? Maybe if you had outlined exactly what you were spending the money on instead of your very vague descriptions consumers would be more likely to agree. Like give us a timeline when the projects are expected to be done and be more specific.
07/16/26	Kristina Seydlitz	60124	X			X	X				Oppose	
07/16/26	Mark White	60513	X		X		X				Oppose	This increase for commercial vehicles will be passed down to the consumer, the toll roads have been collected billions of dollars for decades. We the people have been paying for the cost of living.
07/16/26	Jane Sells	60542	X		X		X				Oppose	Cut state employee salary increases. My former employer cut salary increases for 2 years to fund their company.
07/16/26		60189	X		X		X				Oppose	tolls are already high; please use existing funds more efficiently and don't continue to raise tolls
07/16/26	Jason Spitzer	61008		X			X		X		Oppose	
07/16/26	Laurie Spencer	60563	X		X		X				Oppose	As a senior citizen, I can't afford any more tolls or taxes! When the tollway system came to be when I was a kid, I remember the tolls were to end in a certain amount of years. Illinois is so corrupt that the money isn't used wisely and tolls keep going up and never end!
07/16/26	Nadine Kobus	61008		X	X		X				Oppose	The tollway was supposed to be temporary not a life long thing, we are paying to much for evrything in this state if the tolls go up we will take backroads instead
07/16/26	Louis J Thompson	60657			X	X	X				Oppose	Tolls are outrageous enough as they are and there always seems to be enough money to keep the pockets of the construction companies lined. Its obscene how long the work on 294 has taken. Im certain that the roads can be maintained given existing toll rates. Stop sticking it to consumers!
07/16/26	Wayne Bastiaans	60110		X			X		X		Oppose	The tollway was supposed to be temporary not a life long thing, we are paying to much for evrything in this state if the tolls go up we will take backroads instead
07/16/26	Maureen Dixon	60134	X				X		X		Neutral	The tollway is connected to all other states, isn't it? I haven't heard of a price increase (which I think is excessive) on the other connected states. There are too many workers who already are struggling to make ends meet. Adding an increase in tolls would exasperated people, companies and visitors to Illinois. I'm sure there could be a less expensive plan B and plan C

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/16/26	Gail Spitzer	60110			X	X	X				Oppose	The tollway was supposed to be temporary not a life long thing, we are paying to much for evrything in this state if the tolls go up we will take backroads instead
07/16/26	Timothy J Foss	61061				X		X		road safety	Oppose	Given the governor and state officials have seen fit to raid surpluses of toll road funds for use in other over extended projects it seems likely this illegal activity will continue. Then these nefarious actions are used to call this a "balanced budget" when it is nothing other than a surplus slush fund. Tying future rate hikes to cost of living only serves to exacerbate the COL situation. What's wrong with trying to find more efficient use of funds to actually DECREASE the rate of our overall COL rather than automatically add to them?
07/16/26	Caitlynn	60189			X	X	X				Oppose	Making it more expensive will only cause people to avoid tolls and put them onto other back roads, which are often in very bad condition due to the lack of care available for them, as well as in dangerous areas.
07/16/26	Scott	60153			X	X				Bring back the toll road oasis'.	Support	Raise the tolls. The people using the toll roads should pay for any improvements, not those who don't drive on the toll roads.
07/16/26	Jay	60421				X	X			Protected personal information	Oppose	Increasing tolls for the people on Illinois is putting undue burden on drivers who do not affect traffic or road conditions nearly as much as commercial vehicles. Big business should have to fund improvements if it's not within the state budget. Money is tight, debt is through the roof, food, gas, utilities, and basic necessities are increasing exponentially. The government is for the people, it should not bar someone from driving on a public road because tolls are too expensive. Tolls are the cost of doing business, trucks will not reroute because of an increase, the financial burden should fall only on commercial vehicles.
07/16/26	W Hart	60188	X		X		X				Oppose	We all need to pay less right now, we have been paying tolls since they were built. An audit is necessary.
07/16/26	Kim Davis	60148	X		X		X				Oppose	
07/16/26	Karen Welsh	61111	X		X		X				Oppose	The Democrats control Illinois. There is not a single Democrat politician or employee for Illinois that knows mathematics. When they learn to make a budget and stand by a budget Maybe! They can't be trusted. They lie. They harbor criminal illegal immigrants. Pay college for illegal immigrants and give abortions and medical car to illegal immigrants. I don't want a dime of my money going to just more totally unnecessary projects or until they can stay on a budget.
07/16/26	Heidi Thornton	60527	X		X		X				Neutral	We are in a time where historically, under President Trump, the cost of living is not affordable for many people. Your proposal, although it is a change for the better, comes at a time where people are already stretched thin and worried about being able to make ends meet. I'd like to see this change implemented when the country is back on track.
07/16/26	Amber	46307	X				X		X		Oppose	
07/16/26	Ken Bram	60502	X		X		X				Oppose	It is extremely difficult to live these days, and raising toll rates is not the answer. Tolls are expensive as it currently stands. How about looking for ways to reduce your budget and cut costs, or deny some of the additional proposed projects.
07/16/26	Venkat	60564	X		X		X				Oppose	
07/16/26	Becky	60021	X		X		X				Oppose	This toll rate hike is RIDICULOUS!!!! Illinois is one of the most taxed state & things are expensive enough. Politicians need to do better & stop raising prices.
07/16/26	Emily Likins	60442					X	X	X		Oppose	This is a regressive tax and the tax burden should fall to business owners who are putting excessive amounts of commercial vehicles on our roads causing unreasonable wear and tear burden on commuters
07/16/26	D. Reach	60544	X		X		X				Oppose	Too much, too fast. Suggest a gradual increase over a period of time.
07/16/26	Denise Call	60467	X			X	X				Oppose	Do not raise toll rates. I already cannot afford it and pay 6 tolls per day to do to work and back. I heard this toll hike is to pay for bus and trains so they do not need to raise bus riders and train riders. Why should car riders on the roads have to pay for those taking the bus or train? Let them pay more.
07/16/26	Debi	60010					X		X	Get rid of the overpaid executives!	Oppose	What?!?! Are you f*cking crazy?!?!? I've had to adjust my spending in this 💩 economy/administration - why can't you?!?!

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/16/26	Jim	46342	X		X					Stupid	Oppose	They don't call it "Crook" county for nothing!!!
07/16/26	Paulina Demos-Arne	60187	X		X		X				Oppose	My understanding is that from the beginning, the tolls were implemented to pay for the construction of the roadway and it was intended to be for a set and limited time. That time frame began shifting and extended and now there are creative reasons to justify the continuation not to mention huge increases in tolls. The entire process has been dishonest from the beginning and so I oppose this proposal to raise tolls.
07/16/26	Sean	60136	X		X		X				Oppose	Tolls were originally supposed to be temporary but here we are decades later and not only are they still in existence but they continue to increase in rates. Our state continues to increase every single tax, premiums, and everything in between. Something has to give because trying to balance a budget by increasing taxes and not reducing spending isn't sustainable and a key reason people continue to leave this state in alarming rates. Then the cycle continues because we lose the revenue from all the people leaving. No more increases, find a different way to pay for this.
07/16/26	Natalie	60463	X		X		X				Oppose	
07/16/26	Michael Shannon	60453	X		X		X				Oppose	You are going to force more traffic off the tollway . This too much of a bump in tolls. Trucks are already avoiding taking the tollway .
07/16/26		60423			X		X			someone to catch the 100 mph speeders that change go in and out of traffic	Oppose	You took a 40 cent toll booth and now charge around $2 a toll and thats with a loss of a lot of jobs and you think you need more money If you really need more money then you need to put more miles between Ipass tolls so people can afford to use the tollway
07/16/26	Ckyde richard cross	61032-4417					X		X	Too expensive	Oppose	Tolls were supposed to end years ago. But no putting private company in charge was a mistake. Me and a lot of people I know will just stop coming to chicago . Just a chit show is what I see
07/16/26	Dean McCarty	60014			X	X	X				Oppose	Who exactly is this benefiting besides the Board members already making over 6 figures? This is a typical Illinois move aligned with Crook County!!!
07/16/26	Devin Burg	60142	X		X		X				Oppose	No toll increases. We are already paying heavy tolls. I don't trust the state of Illinois to restrict the use of the toll revenue just to the tollway. They will spend it in other areas and it is just a way to further tax working residents. The drivers are taxed, and it will cause inflation due to increased transportation costs.
07/16/26		60441			X	X	X				Oppose	
07/16/26	Marissa Brown	60119			X		X		X		Oppose	I already live paycheck to paycheck and have to put money on every 2 weeks, if the rate goes up then it will be even more money from my pocket that takes away from bills to ensure I have a route to work. There are a lot of people already struggling financially so this will be another hardship for them
07/16/26	James M Wagner	60050	X		X	X					Oppose	I strongly oppose this measure. We pay some of the highest taxes in the country. Tolls were supposed to be phased out in the 70s and all you ever want to do is increase them. This will only hurt the middle class. Plenty of other States maintain their roadways without tolls. Illinois could too.
07/16/26		60657	X		X				X		Support	
07/16/26	Christine	60506	X			X				Get rid of the tolls	Oppose	Get rid of the "toll" roads! These were supposed to go away at some point. Stop the wasteful & excessive spending.
07/16/26	Judy	60640			X		X	X			Oppose	As someone who drives I90 4x weekly I strongly oppose the toll increase!
07/16/26	Jim Wyatt	45449	X			X	X				Oppose	Your proposal is to raise the rates by about 30% at one time and then put it in provision so you can raise them again every year. Certainly something that I oppose vigorously.
07/16/26	Nick Gepp	60142	X			X	X				Oppose	The tolls were supposed to be a TEMPORARY solution when first introduced decades ago. Since then, it has remained a permanent pain for the residents of Illinois. This state already taxes residents at a rate higher than the vast majority of states in the country. Before we start blindly clawing more money out of the pockets of our citizens and punishing them for choosing to make this state our home, maybe it is time to audit how our revenue is spent and eliminate waste to free up revenue to fix our roads. Stop the aggressive toll increases.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/16/26	Nick B	60467	X			X			X		Support	Every other road in Illinois is falling apart. This is the only roadway that I prefer to drive on while considering the toll.
07/16/26		60465	X				X		X		Support	
07/16/26	Mindy Hearley	60124					X		X	Again, affordability.	Oppose	Illinois residents are already paying enough to travel to work. This funding should come out of the taxes that residents are already forced to pay. Tell the state to share.
07/16/26		60430	X						X	Open n clean up the ones we have- especially down south	Oppose	It's so disappointing when coming back to IL that the price of gas and taxes r ridiculous in comparison to other states- Pritzker needs to step aside
07/16/26	Julie	60448	X		X		X				Oppose	It's already incredibly expensive to live. And now tack on more money to get from point A to B and back. Let alone the minimum $150 for a license plate sticker. Where is the money going? An increase will make me avoid the tollway all together!
07/16/26	Helen	60521	X		X		X				Oppose	The tolls were not supposed to be permeant. The bonds were paid off in the 80's and the tolls never came down.
07/16/26	Liberato Naimoli	60630	X		X					Jobs for our members & Illinoians	Support	
07/16/26	Alice Moss	60056	X		X		X				Oppose	The increase is extreme and makes commuting unaffordable, especially at a time when gas prices have skyrocketed. Also, construction times will make traffic worse for a prolonged period of time. The proposed increase harms working people who may not be able to afford the commute to work. The benefits will not be felt soon and do NOT justify the extreme cost that the consumer has to endure. All because our current government won't support infrastructure improvements. Terrible.
07/16/26	Nicol Crenshaw	60803	X			X	X				Oppose	I must use the toll to travel to work. This means 2-3 tolls one way!! I have yet to see anything that the counties or IL propose benefit consumers, and IL is raising costs to the point that relocation may be considered. For those who are using the tolls to commute to and from work, if you have to raise tolls, consider having something on their transponder that indicates such, so that those people do not have to be subject to an increase. Work places are not giving merit increases that keep up with the increasing inflation of living in Illinois and northern IL counties. I have seen the news. If something is actually already in place that requires hiking tolls, and money is truly going to that and not being diverted to something else, that's one thing. If this is a proposal to fund something that is not yet in place, it is asinine. I don't want to hear that we don't pay the highest tolls in the nation as an excuse, when we have the highest taxes in the nation.
07/16/26	Sarah	60442	X			X	X				Oppose	Illinoians cannot keep taking the hit for mismanaged money!! Hard working people cannot sustain EVERYTHING increasing. We already have the highest taxes in the nation!! Enough is enough!!
07/16/26	Chris Laughlin	60005-3716	X		X		X				Oppose	We are already paying enough to drive on the tollways! What ever happened to not charging tolls?
07/16/26	Anonymous	60143	X			X	X				Oppose	Is already too expensive to use the highway systems that are always already under construction
07/16/26	Nancy Wiesbrook	60626	X		X				X		Oppose	
07/16/26	Michael Manges	60074	X		X		X				Oppose	How much more money does this rotten state want out of us. Isn't it bad enough that we have the highest real estate taxes in the country, some of the highest sales tax, and the biggest corporate income tax in the nation. Always nickling and diming us. We will continue to move out of this rotten, shit, corrupt state.
07/16/26	Marc lapore	60497	X		X	X					Support	
07/16/26	FRANK PELETZ	88311	X		X		X				Neutral	i DON'T THINK MOTORCYCLES SHOULD BE CHARGED THE SAME AS CARS AND GET AN INCREASE.
07/16/26	Bradley B.	60047			X		X			More affordable	Oppose	It is expensive already and you want to raise it? Ridiculous.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/16/26	William Boschelli	60124	X		X		X				Oppose	I oppose this absurd additional Increase to our already country leading toll cost. You've already pillaged every Illinois residents on the road for decades. That's enough, learn to balance a budget.
07/16/26	Ryan	60172	X		X		X				Oppose	
07/16/26	Daily Driver	60555	X		X		X				Oppose	Illinois road construction is as corrupt as it gets. A tollway that was supposed to be free decades ago is still not only charging high tolls, but now wants to raise them?! You are corrupt SOBs that just fix roads enough to get thur one season then back again with the orange cones. This should be a free tollway. Instead you are going to cause more people to take side roads, causing more damage and traffic on side streets leading to what? You guessed it, more construction and more money for the road crews along with orange cones and accidents. You only care about money. I hope you rot in hell you thieves. Fuck the proposed toll increase and the devil you rode in on..
07/16/26	Ruth Davis	60099	X				X			Our roads are not maintained now.	Oppose	The tollways were supposed to be free by 73. Vote NO to toll increases. There is a surplus of funds in the tollway account. And you are proposing an increase every year with no end in sight. It's unsustainable for the people of Illinois.
07/16/26	Dale Gustafson	60452	X				X		X		Oppose	The State of Illinois, under Pritzker's illustrious "leadership", is killing Illinois residents. Fund the tollway in some other fashion instead of increasing another "tax" to maintain the tollway. Between corruption and sanctuary policies the funds can be re-allocated to those things the average resident needs and uses all the time. Stop gouging us to further the politicians' corrupt agenda. Including Pritzker!
07/16/26	Amanda Bandera	60030		X	X		X				Oppose	
07/16/26	Lorenzo	60135			X	X	X				Oppose	All the proposals are extremely vague. It seems like the state is "investing" to make it easier to extract more revenue later on. Haven't companies and the public been paying tolls already? Where are the funds from that and why arent they being used for these initiatives instead of increasing the cost of tolls. This on top of the state's gas tax is absolutely unacceptable.
07/16/26	Todd Fender	60510	X		X		X				Oppose	Toll Free in '73
07/16/26	Juwan	60626			X	X	X				Oppose	Terrible idea!
07/16/26		60067			X	X	X				Oppose	It never seizes to amaze us, how this state wastes our hard earned money on useless projects and then want to raise the tolls to have more money to waste. Look at how you can trim the fat in your system and raise funds that way, not by raising already high toll costs for all of us drivers.
07/16/26	Jeff Grevoy	60133	X	X			X				Oppose	
07/16/26	Isa. Imeri	60140	X		X		X				Oppose	
07/16/26	James Hardy	60047	X			X	X				Oppose	I do not understand why such a substantial increase in tools can be warranted. We receive little to no information to adequately substantiate the need for this proposal. Does the tollway authority effectively manage its finances, or as seems to be more the norm in Illinois, is mismanagement and/or corruption in place, instead? It would be helpful to see factual budgetary information that may or may not support an increase of a magnitude such as this.
07/16/26	Nicole Nutter	60451	X		X	X					Support	I understand there are rate increases but I like that they are progressive.
07/16/26	Robert Driver	60542				X	X		X		Oppose	Charging tolls at every entrance and exit in Chicago at current rates would pay for the whole thing. Why no tolls beyond O'Hare into downtown
07/16/26	Sandra Turek-Shelton	60446	X		X		X				Neutral	
07/16/26	Miki Tosic	60046	X		X		X				Oppose	The tollway was started in the 1980s and the original bonds were supposed to be paid off by the year 2000! Tolls were supposed to STOP at that time! Why do we still have tolls 26 years after they were supposed to stop? For 26 years you have been raising raters, and now you want a raise every two years!?! Whose pockets are being lined? Absolutely criminal. Stop this public theft NOW!
07/16/26	James	60176	X		X		X				Oppose	If you need more money put tolls on Chicago expressways. Let Chicago drivers pay their fair share.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/16/26	Steven Dobryman	60622	X				X			no tolls	Oppose	The tolls were supposed to be temporary..."toll free in '73"! The reason there is no money to pay for road maintenance is because all the money goes to the government and public employees' unions, who in turn campaign for these corrupt politicians. Big government? Has anyone learned the lessons of failed socialist policies time and time again!
07/16/26	Dave	60453	X			X	X				Oppose	Sure takes some nerve to propose an increase in tolls for a toll program that was meant to be slowly fazed out over 40 years ago. Not to mention the nerve to propose an increase whilst driving along some of the most dangerous and hazardous roads in the country which, by the way, have been under construction for the same 40+ years
07/16/26	James R Meindl	60707	X		X		X				Oppose	
07/16/26		60506	X			X	X				Neutral	You indicated that "Beginning in 2029, rates will be adjusted every two years based on inflation." - Which model will be utilized to calculate the Consumer Price Index? Will it be the All Urban Consumers: All Items in U.S. City Average (CPIAUCSLIs), or will it be filtered to use only the Midwest dataset to minimize outliers? - Will the adjustment rely on compounded inflation or the average inflation rate over the two-year period? - Furthermore, will this calculation be based on a starting point of January 1, or will it reflect a seasonal adjustment?
07/16/26	Karen	60585	X			X	X				Oppose	It's already so expensive
07/16/26	Marcia Cooley	60010		X				X		None of these are why I take the tollway. I have no other choice in highway system to get where I need to go. It amazes me that once I get to Wisconsin or Missouri I fl don't pay for the "privilege" of driving on their roads. And those highways are in just fine condition with a lot more police patrolling than driving on our roads with everyone driving like the Indy 500	Oppose	First it was the Lottery than it was the Casinos and then it got to be where our gas taxes are the highest in the country!! Why would anyone want to pay more to drive when all this other money is not accounted for?
07/16/26	Garrett Grosso	60103			X		X	X			Oppose	I do not have faith that any toll price increase will lead to a better tollway experience for me. Other U.S. cities have great roads without needing to add tolls. I am STRONGLY opposed to the price increase and I hope that the IL Tollway will listen to the people on this issue.
07/16/26	Richard Lisby	60618	X		X		X				Oppose	
07/16/26		60119			X		X			less construction	Oppose	Every "improvement" since Covid has made me avoid ever using the tollway, unless absolutely unavoidable.
07/16/26	Rose Carroll	60005	X		X		X				Oppose	It would be nice to feel that the increase would improve the roads and travel, but we are so used to paying more and getting less. Travel to other states without tolls and see that their roads are better without gouging drivers
07/16/26	Nick	60004	X		X		X				Oppose	We don't need more tolls we need better management on the hundreds of millions you crooks already take it.
07/16/26		60630			X		X	X			Oppose	Till was introduced as temporary years ago and now you guys turned this into another utility bill. Your greed disgust me

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/16/26	Samantha Bachara	60558		X		X	X				Oppose	This hinders drivers more; it is already expensive enough to drive. We rely on cars in this country and there is no other accessible way to get around, not a reasonable way at least. This additional toll will negatively affect drivers who have no other option than to drive on the interstate. Please rethink this and find other ways to secure this money that does not punish drivers. Because let's be honest, when this project is done, there is no way the tolls are going back down to the current rate. You will keep this money because it will be the new norm and other prices will increase with it.
07/16/26	Emma DeRidder	60004	X		X		X				Oppose	I think we pay enough in taxes and get next to nothing in return. 53 is a nightmare. How long has the Kennedy been under construction? What do you even DO with this money? Everything is more expensive. I'm getting taxed to death in this state and I know I'm not going to see these proposed benefits. It's just greed. How about you use the money you have to fix the existing problems? It takes forever to get into and out of Chicago. The traffic is terrible. There's constant construction. You should be ashamed to propose this.
07/16/26	Anna Miller	60436					X		X	Everything you put here is used to justify the tolls, but should are applicable to all roadways not just tollways	Oppose	Toll prices should be going down year after year, not going up. These tolls were proposed to go away after things were paid & they're still around.
07/16/26	Bill	60453	X		X		X				Oppose	JB AND THE TEAM OF GRIFTERS: YOU GUYS SUCK! YOU ARE THE REASON PEOPLE HATE POLITICIANS! BLAME EVERYTHING ON TRUMP, YOU LOSERS!
07/16/26	Steven	29689	X		X					More enforcement to stop crazy excessive fast weave in and out of traffic drivers	Neutral	Some increase is ok. Proposed is too much at once
07/16/26	Sam Lissner	37146	X						X	Even though I do not use the Illinois Tollway often, I appreciate the roads being in great shape. My only concern is some of the exits and entry roads are not in as good shape as the Tollway.	Neutral	I now live in Tennessee but I still use the Illinois Tollway, but to submit my comment I had to use my zip code from Illinois.
07/16/26	Thomas Mogavero	60148	X			X	X				Oppose	There needs to be a definitive end to collect of toll fees. Recurring revenue creates incentive for the government to spend
07/16/26	Leeya	60423	X		X		X				Oppose	STOP INCREASING COSTS FOR US WHEN WE ARE ALL BARELY ABLE TO AFFORD LIVING. WE ALREADY PAY SO MANY FEES AND TAXES AND IT DOESN'T SEEM LIKE IT'S FUNDING ANYTHING FOR THE ROADS. CONSTRUCTION LASTS TWO YEAR MINIMUM FOR A PROJECT. REPAVED ROADS ALWAYS IMMEDIATELY END UP BAD AGAIN. WHAT ARE WE EVEN FUNDING NOW??
07/16/26	Candy s	60188			X	X	X				Oppose	Do not favor the cost of living increase. Ok to ask for money for specific projects only. More work should be done off hours.
07/16/26	Will	60046	X	X			X				Oppose	I am a retired senior citizen living on a fixed income, and I have to travel the tollway roads to get to and come from doctors appointments. seeing an increase of tolls going from .45 cents for each plaza to .90 cents is a hardship. this means I would go from spending .90 cents round trip to 1.80. That is just not right.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/16/26	Al	60462			X		X			Freeways	Oppose	Monetary theft in perpetuity by the agency that invented theft via tolls. All tollways were to be freeways like the well constructed highways in the free western states. But you also have the king of theft too! JB Pritzker!
07/16/26	Rick Smith	60601	X				X			Affordability	Oppose	Keep raising toll rates that you promised to abolish decades ago. I can't afford any more tolls. Manage the program you have and stop asking for more $$.
07/16/26	Brian Hastings	61761	X				X			construction completed in reasonable time	Oppose	The proposal does not clearly share *how* the fees improve the road infrastructure. The biggest slowdowns I experience on the toll roads around northern Illinois are for construction zones - which is fine if there is actually construction work happening, but far too often it looks like barrel storage.
07/16/26	Jeff Boyle	60614	X					X	X		Oppose	DO NOT ADD MORE LANES!! This only adds more vehicles and traffic ends up just as bad as before. This is called induced demand. Traffic engineers know this will happen but are paid to keep adding more roads. Shift funding to regional public transit and get people out of their cars. Thank you.
07/16/26	Bob Chikos	60013	X		X	X					Support	I'm sure I'll get drowned out by the mob, but we the users need to step up to fund our roads. I also like how future adjustments will be tied in automatically to inflation. I remember the 80s, when we had long lines at toll booths. The tollway is better than ever and I appreciate getting ahead of maintenance issues.
07/16/26	William E. Lorenz	60805	X		X		X				Support	I wish someone could find a solution about the Trucks and traffic on 80-94 east and into Indiana!!!
07/16/26	Bruce Glickman	60120			X	X	X				Oppose	The Jane Addams Tollway was redone as part of the previous 15 year plan. Why does it need resurfacing between Elgin Toll and Rockford again so soon? "The Jane Addams Memorial Tollway (I 90) has undergone major resurfacing and reconstruction as part of the Illinois Tollway's $2.5 billion I 90 Rebuilding and Widening Project, approved in 2011 under the 15 year "Move Illinois" capital program"
07/16/26	Risa Becker	60098			X		X			Low Prices, no toll raises.	Oppose	I fully oppose any choice that would cause increase in tolls.
07/16/26	Michal	60103	X				X			F PRITZKER	Oppose	No tolls at all. We already pay enough in taxes, gas tax, registration. Where's all that money going to? Pritzker belongs in prison.
07/16/26	Waclaw Lakomy	60073			X		X			Affordability	Oppose	I oppose the proposed 45-cent toll increase for I-PASS passenger vehicles and the 30% commercial vehicle increase, as well as the automatic CPI escalators beginning in 2029. 1. No meaningful accountability or performance metrics. The $26.5 billion "Driving Connections" plan lacks specific, measurable outcomes (congestion reduction targets, pavement condition benchmarks, project completion deadlines). Tollpayers deserve a binding scorecard before approving the largest hike in Tollway history. 2. Automatic CPI escalators remove democratic oversight. Indexing rates every two years starting in 2029 bypasses future public hearings and board votes. This is taxation without representation — future increases should require a new public process each time. 3. Regressive impact on working commuters. A daily round-trip commuter on I-88/I-90/I-294 faces $200–$300+ more per year with no guaranteed travel-time savings. For Lake County residents like myself (Hainesville), the Tollway is often the only viable route — this is a de facto tax on necessity. 4. Commercial increases will cascade to consumers. A 30% truck toll hike flows directly into higher prices for groceries, construction materials, and delivered goods — amplifying inflation the CPI index already captures. 5. Fifteen years without a hike is not a justification. The Tollway's own 2023 audit showed $1.2B in unrestricted net position. Deferred maintenance is a management choice, not an inevitability. Prioritize existing revenue before demanding more. 6. No "Pay By Plate" equity. The proposal doubles the penalty for non-I-PASS users (90¢ vs 45¢), disproportionately affecting lower-income, unbanked, and occasional drivers.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/16/26	Mary Fredrick	60175	X				X			NO TOLL INCREASES, Would like to see TOLL system REMOVED	Oppose	As an resident of Illinois for the last 35 years, I do NOT support a Toll Rate Increase. How do our neighboring states, Wisconsin, Iowa and Indiana all continue to improve and maintain their highway systems WITHOUT any Tolls? Where has all the money gone that the Illinois Tollway has received over the last 50 years gone? The toll system, implemented in 1976, and marketed to be a TEMPORARY pay system, stil exists 50 years later, and has had numerous pay increases over those years. I do NOT support a pay increase, and ask that the toll system be revoked completely, and an audit be done on the Toll money.
07/16/26		47408	X				X		X		Oppose	
07/16/26	John myers	61036			X		X			Faster building of roads	Oppose	I don't drive the toll very often and they said most of the people who use it are out of state I am not from out of state and I remember back in 95 I think they said that they where going to get rid of tolls all together no they put less in and charged more so now I take state hwy to avoid tolls al together
07/16/26	Carol Hartman	60561			X	X	X				Oppose	
07/16/26	Jeanne Burda	60189	X				X			See comment below	Oppose	You sent out the hearing schedule today and the closest location for a hearing was yesterday! I am opposing because of your lack to get information out to residents
07/16/26	John smith	60639	X				X		X		Oppose	You tax to death
07/16/26	Marina Sarkisian	60302	X			X	X				Oppose	**Comment:** The Illinois Tollway has already placed a significant financial burden on its own residents through continually increasing tolls and fees. Illinois drivers pay these costs every day simply to travel for work, school, and essential activities. Before considering any additional increases or changes that would further impact residents, greater attention should be given to affordability and the cumulative cost of living in our state. Illinois taxpayers and commuters should not be expected to bear an ever-growing financial burden for using roads they already help support through taxes and registration fees.
07/16/26	Judy Bloom	60193	X		X					I drive a few miles away from my house to avoid traffic, tolls and confusion when possible.	Neutral	I drive a few miles away to get on the tollway because of to many tolls and to confusing to get to the express way I need.
07/16/26	Tom Kendrick	60188	X			X	X				Neutral	I believe since the toll roads in Illinois are not funded by either the Federal or State governments it is necessary that The Illinois Tollway systems bring in enough funding to support their proposed plan. I also am under the impression that support activities also include Metra and other commutor services. In any case I am guessing that they can increase the tolls and ride fares to whatever they want. It is the people who use these services to determine if the cost is worthwhile. What I find unusual is that the tollway system will say we haven't increased the tolls or train ticket rates in years. I for one would rather see a moderate increase every few years instead of being shocked by a 30% to 40% increase all at once. This avoids sticker shock, even though the end result is the same. In any case the Illinois Tollway have identified their plan so it will happen. As a private citizen, each one of use will determine if we will use the tollway or not. Since most everyone uses GPS, routes will come up with no tolls or tolls. I for one will chose no tolls if the time is not excessive.
07/16/26	Janet zarack	60442	X			X	X				Oppose	I think the tolls are high enough already.
07/16/26	P. DeMaert	60610	X			X	X				Oppose	Expanding roads is known to simply generate more traffic. Maintenance is important, but a more holistic approach to traffic is what's required. Further, it should be explained what exactly our tolls have paid for since original bonds were paid off years ago. If, as suspected, tolls have more than paid off construction costs over the years, then tolls become a flat tax.
07/16/26	Dave Guglielmi	60586	X			X	X				Oppose	I've driven the tollways to work twice per day for 25+ years and have seen enough unnecessary changes or additions to say that your proposal cannot be well thought out. I don't trust those in charge.
07/16/26	Guido	60135	X		X		X				Oppose	Just another way to steal tax payers money. Illinois already taxes the crap out of its residents. When is enough enough. Crooked politicians.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/16/26	D. Burke	60126	X				X			speed control and penalization for drivers who ignore limits	Oppose	Try fixing what you got already. The Jane Addams Tollway nees drastic seam repair, LOTS of potholes, and the upgrade done +8 years ago is failing.
07/16/26		60089	X		X		X				Support	I understand the need for toll increases since it has been years since they were raised. I support them as long as the money keeps being reinvested into the highways.
07/16/26	Michael DiPrima	60056			X	X	X				Oppose	I am profoundly upset that the email explaining this proposal arrived after the open sessions held in Lake and Northern Cook counties. The message seems clear - you wanted to prevent public discussion from two of the largest consituencies by population. And you speak of 45 cent toll increase instead of giving us a percent increase for the most widely used portions of the toll road in the Chicago area. Shame on you all!!!
07/16/26		60457	X		X		X				Oppose	Actual U.S.A. Citizens and IL residents who pay taxes are already taxed to maximum capacity! They're being taxed out of IL! STOP already!
07/16/26	Joseph	60491	X		X		X				Oppose	Fuck NO
07/16/26	Bonnie	60126	X		X		X				Oppose	Illinois needs to stop taking more money from the taxpayer by increasing rates and raising taxes, and use the money they already have in their coffers more wisely. Tollway users already pay enough.
07/16/26	Martin Ruane	60477	X	X		X					Support	Keep the toll up to date
07/16/26	Kyle Streeter	61108	X		X		X				Oppose	I pay enough in taxes in Illinois. I use highways to travel and paid tolls my whole life. Leave it the same because it's already expensive enough.
07/16/26	William L Harder	60067	X		X		X				Oppose	My biggest headache getting around the area is that there is no good way to get from the northwest suburbs to the north shore. The 53 extension was killed. And traffic has bottlenecks around 53 entrance and exit ramps. The Kennedy and Edens are bigger problems, but you cannot do anything about them. With the higher volumes of traffic, $.07 per mile sounds reasonable. More volume means higher revenues.
07/16/26	Catherine McDermott	60803		X	X		X				Oppose	This is ridiculous!! One more reason to move out of this State!!
07/16/26	David Lee	60521		X			X			Stop ripping off toll drivers	Oppose	Why don't you tell the truth and tell how much you collect from tolls and your cost - stop funding Chicago with money collected from tolls -
07/16/26	Kris Melahn	60421	X	X	X						Oppose	How about you use the funds to fix the roads that need to be fixed and don't send everything to Chicago! Quit raising the tolls also!
07/16/26	Steve	60452			X		X			Less money spent on tolls	Oppose	You are kidding more misused funds this has to stop what's the fuel tax and plate fees used for. What a joke.
07/16/26	Sherri Lee	60521		X			X			Tolls too high	Oppose	Stop funding non toll roads
07/16/26	Julie	61853			X		X			Adherence to a reasonable speed limit	Oppose	Take away the tolls altogether like other states! IL has to pay extra to do anything it seems. Make the tollways safer by enforcing speed limits and getting people swerving in and out of lanes. Make signs that say slower traffic keep right! Stop fixing things that don't need to be fixed just because you have to use government money
07/16/26	Dawn Fletcher	60046	X				X			Being safe while driving, no shootings, carjackings, etc)	Oppose	You send out your notice for Lake County residence on the 14th or 15th but the Lake County meeting was on Monday the 13th how in the world could you expect to receive comments from anybody in Lake County aside from receiving them this way? Toll weight increases are just ridiculous. It just makes everything more expensive to do more expensive on a daily basis for people that do have to use the tollway. Driving through Wisconsin has no toll roads and their roads are well-maintained without tons of traffic. How many more times are you going to increase? Having an I pass was supposed to be cost-effective and save us money in the long run and you're still going to increase rates with that and if you don't have a sticker or an I pass, it's even worse. It's just not right the burden that you put on Illinois families.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/16/26	Beth Brody	60015			X		X			Road work is completed in timely manner (and on budget) so as not to cause additional traffic from the work areas, like on 294	Oppose	Please do not start another project and perpetually increase tolls. that never end and work that goes on beyond its finish date creating worse traffic that which it's intended to relieve. Tolls were initially intended to provide revenue for roadwork until the cost was covered and then the toll was to be removed. Instead, once a toll goes up it stays in perpetuity. Where is that money going? Stop and go traffic has been an issue in the Chicago area for well over half a century so it is unlikely this new project will remedy that. Frankly, it may be better to scrap the big project and so smaller more urgent repairs while creating a savings plan to build up the funding needed for a larger project. Some fiscal responsibility and preparedness would be welcome. is already expensive enough and it's better to deal with what we have for a while longer than take on the expense and worsening traffic that comes with perpetual large projects.
07/16/26	Annette Hiatt	60462	X		X		X				Oppose	It is already ridiculously expensive and I typically choose the routes avoiding tolls for that reason,
07/16/26		60451	X		X		X				Oppose	Finish up one of the major projects currently happening with no end in sight. 294, 290, 88, 355...
07/16/26	Mike Peters	60148			X	X	X				Oppose	If this increase goes through, I will use alternate routes and avoid using the tollway all the time.
07/16/26	Kevin Hughes	60423					X		X	Affordability is my answer and that is it. I only had to answer the others because this survey is not specific to my concerns	Oppose	We pay enough for tolls already and Illinois should take it out of the payroll for government officials.
07/16/26	Rick Hud	60516	X	X						Offers options.	Oppose	What started out to be roads that we would pay off over time has become a monetary funding mechanism for our state. Your increases are overwhelming.
07/16/26	David Westin	60453			X		X			Affordability	Oppose	
07/16/26	Randy Durecka	60192	X	X		X					Support	
07/16/26	Crystal	60107	X		X		X				Oppose	Not that they really care what we think but that’s insane that they want to increase it!
07/16/26	Linda Ryan	60491-8713					X		X	20 cent increase. Tops. The regular middle class family that has to work can't afford 45 cent per toll. Outrageous. A Prizker idea? Terrible	Oppose	This is just plain greed and the money will somehow show up helping only CHICAGO. WE ARE NOT STUPID. YOU ALSO WANT MORE INCREASES EVERY OTHER YEAR, RIDICULOUS.
07/16/26		60504	X		X	X					Oppose	
07/16/26	Julie Swanson	60067	X		X		X				Oppose	
07/16/26	Brian Snyder	48168	X		X		X				Oppose	With an I-Pass, depending on entry/exit points, the new rates amount to a 60% increase in cost for the ridiculously stated 45 cents per toll on passenger vehicles! Why it is stated in a per toll figure vs. the commercial vehicle figure of 30% is ridiculous along with the fact that a 60% increase in cost is huge. Commercial vehicles are harder on the roads and throughput than passenger vehicles, but the commercial vehicle doesn't feel the brunt the passenger vehicle would take; that is not logical! Who wouldn't like a 60% increase in their budget? No one! This project needs to be scaled down and more balanced between commercial and passenger vehicle toll increases and project scope. I'm a BIG NO to going forward with this plan in this form! Get the project sized more appropriately and balance the percentage increase in tolls to be equal to one another for passenger and commercial vehicles.
07/16/26	Ted	60056	X			X	X				Oppose	The only thing that has improved is in the ease of collecting more money from the users. If traffic does not improve, there should be a refund.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/16/26	James F Pater	60135	X				X		X		Oppose	Just REDICULOUS...not only do you want another increase, but an open checkbook any time you want...addicted to spending
07/16/26	Stephen Dubina	60513	X	X	X						Support	
07/16/26		60555				X	X			Low tolls is the only factor for me.	Oppose	Tolls were meant to be temporary not permanent and certainly not continually increasing. IL already has some of the highest taxes in the country, those funds should be used for roads. This toll increase directly impacts middle and working class citizens in an extremely negative manor.
07/16/26	Dr. Suzanne Coleman, MD	60068	X	X	X						Oppose	There have been 2 projects on I-90 west of Cumberland exit in the last several years, both spent money unnecessarily. Why? I read Pritzker is giving companies he owns or has relationships with kickbacks. Unacceptable. I-90 W from Cumberland is now very difficult to traverse to get onto I-90 from the entrance. I-190 traffic is often slowed and drivers have to weave thru 2 lanes of traffic to get over to I-90 here. Previous to the "improvements," traffic flowed well even during rush hour, and it wasn't a threat to life and property to move over 2 lanes. This was not an improvement, so why was it done? It also cost people their time for 2 years, and now onward as almost every time you use this entrance, there is slowed traffic. Prior to that, they built a $325 million ramp to nowhere. While the concept of adding an off-ramp to Cumberland southbound was valid and helpful to traffic (though hard to delineate to what degree due to covid traffic decreases and long-term changes in travel for work), land was open and available on the ground to simply add this lane in. Building a massive concrete bridge was not necessary, and the price? Ridiculous. It's now covered in graffiti and not used by many people. Who benefited from these projects that worsened travel for all? Improvements we do need, are more state police (they are almost never around anymore, literally) to monitor the speeding and dangerous driving on 294 N from I-90. Overall, traffic is good N-bound on 294, but I do see lots of backups S-bound on 294 later in the day. We could also use more interchanges to get on and off of 294 from Park Ridge, with the amount of drivers using the highway, it's not very convenient to have to go far N or far S to get on. It would be ideal to add a northbound entrance to 294 at Touhy in Park Ridge. As far as increasing the toll cost, that is a very large increase. Why not start with $0.20 and go up from there as needed? You'd get more support I believe.
07/16/26	Ka	60564			X	X	X				Oppose	This is a joke. More money for mobsters that run the unions, concrete, and asphalt businesses. Find money from somewhere else. Crook County. Most corrupt state in the states
07/16/26	Tom L	53938	X				X			Better roads your roads in Illinois are not that well even with your tools they’re not very well don’t get me started on your gas prices because I would think that would be the first place you would start working on. You were the most high state from Illinois to Texas. I hate getting gas in Illinois.	Oppose	Your roads are horrible compared to other states that I have driven in your gas price is horrible compared to other gas. I have gotten other states.
07/16/26	Joseph P.	60068					X		X	lower rates	Oppose	Stop it. Just stop bilking Illinois residents. We pay enough for tolls already. Figure out your budget and STICK WITH IT!!! That's what all of us do. Stop wasting our dollars!!! We are not and endless pool of cash.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/16/26	Jordan	61108				X	X			Lower costs	Oppose	Reduce tolls not raise them!
07/16/26	Rick Swanson	61614	X		X	X					Oppose	Use the toll money more efficiently and stop the money drain from citizens.
07/16/26	Melody Fountain	60555	X		X		X				Oppose	For a system that was supposed to be paid for in the 60s, and tolls were supposed to disappear, all we're seeing is increases. It's kind of like the lottery paying for the school systems. Nonexistent.
07/16/26	Jeremy Kubik	60487				X	X			This survey is flawed requiring three choices. All of them except affordability lead to toll increases!	Oppose	A 45-cent increase per toll plaza for passenger vehicles representing a roughly 57% to 59% jump for I-PASS users is a staggering spike. For daily commuters who have no viable alternative routes, this amounts to hundreds of dollars in extra out-of-pocket costs every single year just to get to work or see family. The proposed 30% hike on commercial vehicles will heavily penalize local trucking companies and supply chains. These multi-dollar increases per trip will inevitably be passed directly down to the consumer, making everyday groceries, retail items, and services more expensive for families who are already struggling with the high cost of living. The most concerning part of this proposal is the provision to allow automatic, inflation-linked rate hikes every two years starting in 2029. This strips away public oversight and eliminates future accountability, locking drivers into open-ended cost increases without requiring future board votes or public hearings. The Tollway has consistently brought in record-breaking revenues and maintains substantial cash reserves. Before asking drivers to empty their wallets even further, the Tollway must prioritize efficiency, manage its existing massive budget responsibly, and protect Illinois families from an unnecessary financial squeeze.
07/16/26		60501				X	X		X		Oppose	You would like to build more connections but haven't finished and no where near done with I294.
07/16/26	Ann Christoff	60035			X		X	X			Oppose	The proposal comes at a time when we have sky-high inflation in grocery and gas prices. Insurance is up. Electricity rates are up. Taxes are up. We simply can't afford this.
07/16/26	Eric	60544	X	X			X				Oppose	These are reasons why people are moving from Illinois. This is a ridiculous increase. In what world is this fine that tolls are going up by almost a third in one year. This is very insulting of residents and almost seems like you are encouraging people not to be on the roads
07/16/26	Marty Manley	60175	X		X		X				Oppose	
07/16/26	Jason Haake	60436	X			X	X				Oppose	You guys said the tollway was temporary. The government is full of liars.
07/16/26	Janet cunningham	60630	X				X		X		Oppose	This is too much of an increase.
07/16/26	Cassie J Stutman	60068	X				X			Designated truck lanes	Oppose	Nothing is affordable anymore. This only increases the unafordability of travel and goods.
07/16/26	Jennifer Moseley	60048	X			X	X				Oppose	I oppose raising passenger tolls by about 45 cents and authorizing automatic inflation increases without future board votes. I urge the board to reject automatic toll hikes and instead pursue a more transparent, accountable plan that protects drivers from open-ended increases. I'd also like better transparency by having a full accounting of how the board intends to spend its record revenues in 2025 so that the public can have a better understanding into how these toll hikes fit into those plans. Thank you.
07/16/26	Scott Ward	60083-9686			X		X			No higher tolls, stop trying to skew responses with fake surveys. When you require 3 answers, you force a response to choose a reason to justify your rate gouging increase.	Oppose	No no no no no no no no.No higher tolls, stop trying to skew responses with fake surveys. When you require 3 answers, you force a response to choose a reason to justify your rate gouging increase.
07/16/26	Lorna Ortiz	60641	X			X	X				Oppose	I understand the need of improvement and I think that the talking points are valid. However, a $0.45 increase per toll is too much, in my opinion. We are struggling with the insane gasoline prices as it is. The cost of food is outrageous as well. 45 cents may sound like a small amount, but it's a lot for struggling families. Thank you for letting me share my thoughts on this matter.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/16/26	Robert Hopper	60202	X		X		X				Oppose	
07/16/26	CARRIE CUNNIFF	61071		X			X		X		Oppose	This is a horrible idea for people that need to travel these roads for work or school every day. Take the money from the rich people like Pritzer himself. It is way to expensive as it is!!
07/16/26	Dan Coyne	53534	X				X			Better police monitoring for speeding and erratic drivers.	Oppose	I have been a lifetime user of the Illinois toll roads living in Naperville for 38 years. I now live in lower Wisconsin and frequently drive in Illinois. I believe the current toll road system is great and does not need additional expansion once I294 is complete. I am opposed to any rate increases.
07/16/26	Aaron Phillips	60426	X		X				X		Support	I know in order to keep up the roads that the money has to come from somewhere, so if a increase is needed and there is no other way to fund the roads then I'm in support of the increase and look forward to seeming roads improvement.
07/16/26	Margaret W Cicuto	60459	X		X		X				Oppose	Before I was driving, I remember that this toll road would be paid for - NOT what is being proposed here today. I oppose this manipulation!
07/16/26	Dennis Jeffrey	60487				X	X			cheaper tollway prices	Oppose	pritzker just can't help himself, he's raised our gas tax, property taxes niw AGAIN tollway taxes. STOP giving himself and his "buddies" raises and he wouldn't gave to RAISE ANY TAXES. ITS COMMON SENSE.
07/16/26	rodney r rusakiewicz	60169	X			X			X		Neutral	the improvements to I-90 and the Kennedy are fantastic no doubt they were needed and have accomplished what was promised and yes our road system is always in need of upgrading it's called aging regarding current proposed increases considering we have a president that really doesn't seem to care about the real people my thoughts are since we are in a situation that is not going all to well the the common individual who uses our road system my thoughts as much as I would like to say go for the increase but for now is it possible to scale back the amount proposed and work with a lesser plan just my thoughts GOOD LUCK
07/16/26	Cheryl Santucci	60126	X			X	X				Oppose	Toll roads were to be paid off years ago. We are still paying tolls. Now you want more. I can't ask my boss for more to get $$ to me to get me to work, where is this $$ coming from?
07/16/26	August Bodhaine	61010	X	X		X					Support	I am a supporter and user of the Illinois Tollway.
07/16/26	Robert Todd	60540	X			X	X				Oppose	
07/16/26	Melissa Marshall	60172			X	X	X				Oppose	So many other states do not have a toll system. Illinois leaders keep raising our taxes, the high school by me wants a tax increase to make improvements, inflation. We just keep paying and paying and there's never an end to how many people want their pockets full of tax payer money. I would be for this if all the other increases weren't happening. And I feel it doesn't matter what we think. There will be an increase.
07/16/26	Daniel Yackley	60124			X		X			Affordability	Oppose	This is absolutely ridiculous, this state has a spending problem and they "fix" it by increasing another fee on residents "Taxed Enough Already!!!"
07/16/26	Ramakrishna Nimmagadda	60504	X				X	X			Oppose	Government should look at alternative revenue streams than increasing tolls as gas prices are already high and hurting everyone
07/16/26	ANTHONY MUZEREUS	60623		X	X		X				Oppose	Use up all collected monies to date for the tollway only, no transfer of tollways funds to another entity as was done by the Governor this year. You do not need an increase in the tolls, until you spend all the funds you presently have. If there is an increase , it should not be automatic, I wish my salary had a built in automatic raise. Never going to happen, it also should not happen for the tollway !!!!!! Ask for additional monies every year with no guarantee it will be approved just like I have to.
07/16/26	Sue	69540	X		X		X				Oppose	
07/16/26	tom parr	60098	X		X		X				Oppose	stop with the raising the tolls the toll toad was paid for years ago stop stealing JB Fred is no help either he to worried what Trump is doing !! his commercials suck !!!!
07/16/26	John DiMiele	60451	X			X	X				Oppose	I do not support an increase to support the Bears. Let the corporate sponsors pay the bill. Going to games is not affordable and watching all games is not free and accessible to all citizens in Illinois.
07/16/26	Rhoda Gaule	60035	X		X		X				Oppose	THE STATE MUST BE A GOOD STEWARD OF OUR HARD EARNED TAX DOLLARS!! NO ADDITIONAL TAXES!!
07/16/26	Leah Kamm	60119	X		X	X					Oppose	

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/16/26	Diana Gonzalez	60115				X	X			Needed to be affordable	Oppose	Life is so expensive as is , the increase will only hurt us more , your making us go broke, how are we supposed to survive??????
07/16/26	Melinda Zaccard	60133	X		X		X				Oppose	There was a point where we were under the impression that these "tolls" were temporary. Where exactly...EXACTLY...would this money go? It certainly hasn't been improving any road conditions anywhere near my zip code. The only thing this does is divert most of us onto alternate routes as it has in the past. Adding MORE taxes is the LAST thing Illinoisians want.
07/16/26	Dawn Hunt	60438	X			X	X				Oppose	I'm sixty two years old and in my entire driving career, the toll road has always had repairs nd improvements going on. I'm of the initial reasons for charging a toll. Were that there were less access points, less traffic, quicker drive times. The reason there are quicker drive times for some is that they go a 100 miles an hour. If you would stop tearing up and redoing the same places year after year, Maybe that could free up some funds for your projects. That's low guys on the totem.Pole can't afford to keep having all these nickel, and dime expenses.
07/16/26	Richard Piek	60025	X				X			Done without raising prices which should be free.	Oppose	The toll roads were supposed to be toll free in 1973. What is turns out to be a handy cash payout to unions and politicians' greed at the expense of the citizens of this state. Wisconsin does a better job of making it highway safe and long lasting.
07/16/26	AL Theis	60477		X	X	X					Oppose	While gas is high this is a punch in the gut
07/16/26	Kassia Snyder	48168	X		X		X				Oppose	With an I-Pass, depending on entry/exit points, the new rates amount to a 60% increase in cost for the ridiculously stated 45 cents per toll on passenger vehicles! Why it is stated in a per toll figure vs. the commercial vehicle figure of 30% is ridiculous along with the fact that a 60% increase in cost is huge. Commercial vehicles are harder on the roads and throughput than passenger vehicles, but the commercial vehicle doesn't feel the brunt the passenger vehicle would take; that is not logical! Who wouldn't like a 60% increase in their budget? No one! This project needs to be scaled down and more balanced between commercial and passenger vehicle toll increases and project scope. I'm a BIG NO to going forward with this plan in this form! Get the project sized more appropriately and balance the percentage increase in tolls to be equal to one another for passenger and commercial vehicles.
07/16/26	Joe Latham	60513	X		X		X				Oppose	You are out of your mind passing more taxes and increased tolls on us. Wasn't the roads supposed to be toll free by now? And now you want MORE money.....no thank you
07/16/26	Vikas Rao	60073	X	X		X					Oppose	Man I already pay enough
07/16/26		60464			X	X	X				Oppose	We use the tollway for most of our travel and we oppose raising the toll charge. In addition, we strongly oppose authorizing automatic inflation increases especially without public input and a vote by the board. It is important that the board reject any automatic toll hikes. We must have governing bodies in this state that pursue a transparent, accountable plan that protects the drivers/users from open-ended increases. Illinois is already one of the most expensive and overly taxed states. This issue and the recent laughable state budget process, many of the residents in our community are talking about searching for homes outside of Illinois. Please do not give us yet another reason to want to leave this state!
07/16/26	Laura Doherty	60103	X			X	X				Oppose	I oppose this proposed toll increase. Illinois drivers already pay some of the highest tolls in the country, and yet we continue to be asked to pay more. A 45-cent increase per toll may not seem significant on paper, but it adds up quickly for commuters and families who rely on the Tollway every day. I am also concerned about the proposal to automatically increase tolls based on the Consumer Price Index every other year. Tying tolls to inflation creates a mechanism for perpetual increases without requiring future public scrutiny or justification. Before asking drivers to pay more, the Tollway should demonstrate that it is operating as efficiently as possible and explore cost-saving measures. Illinois residents are already facing rising costs for housing, groceries, utilities, and fuel. This proposal places yet another financial burden on the people who have little choice but to use the Tollway. I urge the Board to reject these increases and find more responsible ways to fund infrastructure improvements.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/16/26	mckernan	60018	X			X			X		Support	Back in the day when I was a senior in high school we were told that our house stood in the Tollway right of way, and that we had to move. We were given fair market price for our house and moved about one mile or so directly east. Our house stood right at the Lee Street exit off of I 90 going west. At that time the Tollway was supposed to pay for its self, but we know now that could not happen. I have no real problem with the Tollway, and use both I 90 and I 94 often. Noise can be a problem, but I know the Tollway is trying to mitigate that. Everything is increasing in price and so is transportation. All I ask is for you to try your best to keep prices a low as possible.
07/16/26	John Tauber	60194	X				X			These rates are way out of line, forget all the baloney, just keep roads maintained and cost down.	Oppose	If I remember the promise was that tolls would be eliminated or reduced once the roads were built. What a joke. Since most of the roads are in place, we need to keep things simple and cost effective. The rates are way out of line and now the tollway is seeking a very significant increase. Probably a typical ploy to scare people into accepting something a bit less that is still an out of line increase. It appears that just maintaining roads is not enough, now we have to deal with more and more Chicago graft.
07/16/26	robert pliskat	60030	X			X	X				Oppose	Your current toll rates are already too high. Now you want to raise them, you are thieves. You've done very little upgrades or maintenance on these tollways to boot. Potholes, bridges heaving, damage to vehicles. Youve made plenty of money tolling us already. You need to make better choices and decisions before you come crying to us for more. I quit my job and took a closer one just to eliminate the use of your tollways. Forget about raiseing tolls, do your job and make better choices. I have to cut back to live when prices go up, so should you.
07/16/26	John	60005	X		X	X					Neutral	I won't support toll increases tied to inflation that automatically take effect year after year
07/16/26	Greg Adlesi k	60002	X				X			No automatic increases, tax tax	Oppose	Just like the gas taxes, automatic increases. How much money do you want.
07/16/26	James Smith	60053	X			X	X				Oppose	The cost of driving on the toll roads, even with an I-Pass, is becoming too expensive. I know many people who will go out of their way to avoid driving on the toll roads - especially the infamous Sky Bridge. Please find another way to fund this work other than raising usage rates and thus making the road less traveled and being yet another impetus for moving out of state (due to unacceptable high taxes and charges.)
07/16/26	Linda W.	60630	X				X		X		Oppose	I oppose the element of the rate hike that would allow for automatic increases in the future. Each potential rate hike should be independently determined, approved, and passed. The freeways were supposed to be free, there were never supposed to be permanent tollways, so there should definitely be no automatic rate hikes!
07/16/26	Mayor Chris Vieaux	60468	X			X	X				Oppose	The Tollway road repairs should be done by IDOT, they are Illinois roads. They are already paid for.
07/16/26	Mary K Mcnally	60193	X		X		X				Oppose	I believe that more fiscal responsibility and money management is required before another rate increase is proposed
07/16/26	Ben A	61611	X		X		X				Oppose	
07/16/26	Rodger D. True	60506-2725	X			X	X				Oppose	For as system that was originally intended to only be a toll based system until the construction was paid off this has grown into a monster. We were promised a time when the tolls would cease and instead they have only grown. Too much administration and too much overhead has presumably justified the ongoing and on growing tolls. If the constant strain on the pocket book is not enough with tolls as they stand, for the board to possible pass a ruling that not only would they be increasing the tolls but would build in a formulae by which they could automatically increase is more than the public should have to bear.
07/16/26	Judy Evers	60120	X		X		X				Oppose	This increase is totally unacceptable and will absolutely hurt those who need to use the tollway the most and who can least afford an increase, especially with the increase in gas prices. There are funds in the tollway reserves that could be used to fund future necessary repairs and projects
07/16/26	Haseeb	60659	X				X		X		Oppose	Increase tolls for the trucks that are actually running the roads and causing the congestion issues. Tolls are already a privilege to use and you’re making them more inaccessible.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/16/26	carl zegan	60030			X	X	X				Oppose	I can understand some increases in the 15 year, but why hasn't the roads significantly improved from all of the already received money from the past? This tollway system does have bloat & needs to eliminate excess expenses to save the IL driver ongoing. Also, the tag to inflation is not necessarily a good gauge based on debates of real costs verses over-increases with excess. Thank you for your attention to this matter.
07/16/26	Mike Barr	61764			X	X	X				Oppose	Toll increases at this time are aggressive. Plus the additional automatic toll increase every two years without having to be accountable for increasing costs just opens the door for further misuses of toll funds.
07/16/26	Jason Messner	60050	X		X		X				Oppose	
07/16/26	Mary Oliver	60068	X				X		X		Oppose	We pay the highest tolls in the country. We can't afford to live in Illinois any longer. Illinois is so poorly run but people are paid to vote the way they do.
07/16/26	Derek Stauffenberg	60950	X				X			Affordability	Oppose	The tollway is flush with cash and any additional funds should come from restructuring. Additional increases after becoming permanent tolls (when initially promised as temporary) shows poor financial management on the tollways part and should not be the responsibility of the tax payers to correct.
07/16/26	Theodore G Morrison	60156	X				X		X		Oppose	Given the current state of the country's economy with cost increases everywhere, the last thing we need right now is a price increase to drive on our tollways.
07/16/26	Boris Tashlitsky	60026	X		X		X				Oppose	Another waste of tax money
07/16/26	Mario Godoy	60126	X		X		X				Oppose	We already pay too much for tolls; Manage within your budget and reduce expenses. You are spending too much already for the projects that are being worked on.
07/16/26	Bonnie Ggerst	61530	X						X	Well maintained roads	Oppose	Our governor is pathetic! All he want to do is raise taxes and most of our money goes to help Chicago not downstate.
07/16/26		60532	X					X	X		Support	
07/16/26	Mary Contento	60453	X		X		X				Oppose	Increase is too much. Lower the amount of increase to be more affordable for users.
07/16/26	Maureen S	62612	X				X			N/A	Oppose	Illinoisans are already taxed beyond a breaking point. Where is all the other tax hike money going? Why do we see little-to-no improvement after years of bleeding our hard-earned money? Continous tax hikes are NOT the answer. New leaders and representatives who actually know how to balance a budget and handle money are the answer. Make change with the millions the state had already taken from us.
07/16/26		60431	X	X	X						Support	
07/16/26		60431	X			X		X			Support

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/16/26		60431			X	X	X				Support	
07/16/26	bruce lindskog	60447	X			X	X				Oppose	I feel that the toll authority has not been a good Stewart of the funds they already receive. I believe that your current projects have gone on far to long. People and companies can not support your pie in the sky projects. Consumers need a break. To many wasteful projects already.
07/16/26		60532			X	X		X			Support	
07/16/26	Randy Duncan	60448		X	X		X				Oppose	Use the current surplus in revenue for road maintenance & improvements
07/16/26		60446	X	X				X			Support	
07/16/26	Susie Wankerl	61250	X				X		X		Oppose	
07/16/26		60446	X	X	X						Support	
07/16/26	Rich Penner	60148	X			X	X				Oppose	Scam. It this how Pritzker is making Illinois more affordable for average Illinoisans? The tollway was supposed to become free after 1973. Still waiting Automatic toll increases every 2 years is just theft by government
07/16/26	Amy	61071		X	X		X				Oppose	We already pay enough
07/16/26	Patricia Goddard	60047	X				X		X		Oppose	Current operating revenue is 4 times the current operating costs! Where is that excess revenue? Is it earning anything? Until the excess revenue to costs figure is greatly reduced, there should be no toll increases!
07/16/26	Thomas Trinko	60525	X		X		X				Oppose	The government has enough money to maintain the roads. However it is bloated and inefficient and has no reason to improve since the salaries and jobs of government employees aren't impacted if they fail to be efficient. So the answer isn't giving the government more money it's either getting the leadership to get the job done with the budget available or fire them and replace them with someone who can.
07/16/26	Barbara Clem	61107	X				X			Speed limit being a bit higher so I e can get from point A to point B a bit faster.	Oppose	I don't believe with your current rates that another increase is necessary. Learn to budget and use money judiciously. The residents of IL are tired of 'the state' and agencies continuing to reach in to our pockets for more monies. We should be a "tax" friendly so to speak state and attract people to live here. NY and CA are NOT states to emulate. IL is better than that!
07/16/26	Maureen Strobl	60502	X				X			Appropriate cost vs value	Oppose	Please do not increase the tolls and do not tie increases to the pricing indices. While costs have increased, so has the revenue from tolls. Automated tolls and improved technology for reading toll responders and RFID tags have reduced costs. Please explore other options to reduce costs such as review administration costs and utilization of the IL Tollway headquarters and real estate. Regarding automatic price increases, this change would lessen the incentive for the tollway system to tightly manage costs and reduce expenses. While increases are inevitable at infrequent times, this accountability ensures increases are truly justified.
07/16/26	Melissa Keegan	61348	X		X		X				Oppose	Illinois tolls when originally created were to be temporary, here we are many many years later and not only are they still in place, but are being proposed to increase and continually be increased. Where are the tolls received going now? We certainly don't have good roads. Along with the exorbitant gas taxes we have, it all just needs to stop. These ridiculous fees and taxes are resulting in Illinois losing residents, as the result of the current administrations need to fund illegals instead. Make budget cuts as needed, get rid of all the pork, and be fiscally responsible for a change.
07/16/26	Michael S Strelka	60004	X				X		X		Oppose	A 50% increase is totally unwarranted. I can see doing staged increases over time, but not such a large increase at once. I make regular short trips on various interstates; I will take a little longer and avoid the tolls

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/16/26	Joseph Taylor	60525	X				X		X		Oppose	I oppose the proposed increase based on my driving experience on I=294. The road seems to be constantly under construction and so I see no benefit to my tolls on the driving experience. It seems like construction is the goal (and to keep road crews employed), not the means to an end of improved road surfaces and driving experience. I also oppose automatic inflation increases when tolls are already more than covering maintenance and administration costs. The stated goals on most listed projects list "reduce congestion"; Well, that doesn't work if the construction never ends as had been the case on I-294 for at least 5 years or more.
07/16/26	Scott Nierman	60047-8040	X				X			ORD Access	Oppose	Proposed toll increase is way too high. Reading the program, a lot of the projects are not necessary. For instance, widening 294 from Deerfield to Half Day is not necessary. Manageable Congestion occurs only during rush hour. 90 and 294 were recently rebuilt (I lived thru it), including bridges, and don't need it again. Likewise with the other proposals. I travel on the toll road regularly, 88, 90, 94, 294, and Vets. Keep them maintained but don't improve as they are working well now and will do so for the foreseeable future. The only project you should finish soon is loop around ORD and One suggestion: FINISH DEMO and reconstruction of the ORD entry. It is taking way way too long and reducing entry to One Lane is unconsciousable.
07/16/26	mustafa ali	60523	X	X	X						Oppose	The tollway was supposed to be temporary. All we see is price increases and nonstop construction. Shame on you all.
07/16/26	Jeffrey Wojtynek	60154	X		X		X				Oppose	I oppose raising passenger tolls by about 45 cents and authorizing automatic inflation increases without future board votes. I urge the board to reject automatic toll hikes and instead pursue a more transparent, accountable plan that protects drivers from open-ended increases.
07/16/26	Juan	60035	X		X		X				Oppose	
07/16/26	Rick Norton	60659	X			X	X				Oppose	Too much of an increase, all at once. I understand that the rates haven't reportedly increased since 2012, but a 50% increase all at once during one of the largest periods of economic struggle on record? That's way too tone deaf. We can't make ends meet as it is, but to have to pay the tollway another 50% when tolls are already steep seems....well, highway robbery. Maybe find a way to decrease costs and make the highway repair contractors stop gouging for their work so that 7 extra people can stand around every project barely doing anything.
07/16/26	A Wynn	60030				X	X			Slow downs on the roads and hazards.	Oppose	The Toll Road is constantly being reconstructed. While it is nice to have improvements, many times these construction projects result in increased drive times of 2 or 3 times normal. Construction during night hours is hazardous because drivers knock down signs into active lanes on the toll road causing accidents or near misses. Accidents are also a hazard. There need to be signs on the road of an emergency number to call since most cars have phone access.
07/16/26	heidi hofmann	60193			X	X	X				Oppose	The proposed increase is very high and very quick. I travel far out of my way to avoid tolls. I already thought he 3 tolls on the short hwy 390 cost too much for such a short stretch between 290 and Lake St.
07/16/26	THOMAS ROBINSON	60060			X	X	X				Oppose	This increase is totally unacceptable and wrong for Illinois. Illinois is taxing people beyond what is reasonable and this is another example of what we don't need. Further, tying future increases to inflation is an excuse to avoid facing the public for comment and avoiding their concerns.
07/16/26	David Lynch	60136					X		X	Police pressence is absent	Oppose	Were hurting kane county too. Im tired of bailing out cook county. Illinois is becoming unfriendly to live and work.
07/16/26	Mary Phillip	60490			X	X	X				Oppose	Many drivers have several tolls a day for round trips which they take daily. The increase will add up to be significant amount for those drivers who need to use the tollway frequently. Could their possibly be a smaller increase?
07/16/26	Tom	60618	X		X		X				Oppose	Stop raising taxes, leave the roads alone, stop unnecessary construction
07/16/26	Jeff bohne	60482			X		X			Cheaper tolls	Oppose	This is why everyone wants to leave this state

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/16/26		60190	X				X			Not having tax dollars stolen.	Oppose	You are running one of the biggest money laundering schemes in the nation. I avoid the toll way at all cost and will add time to my commute in order to keep my hard earned money out of crooked politicians pockets. Do better because this company is an absolute joke.
07/16/26	Jorge Barajas	60451			X	X	X				Oppose	
07/16/26	Justin M	61103	X			X	X				Oppose	
07/16/26	Mark	60192				X	X			affordability	Oppose	enough already, these tolls were supposed to drop years ago
07/16/26	koshy mathew	60085	X	X					X		Support	SUPPORT FOR WELL MAINTAINED ROADS BUT PLEASE CONSIDER THE LOW INCOME RETIRED SENIORS COMMUTING TO BABY SIT OR TO VISIT GRAND CHILDREN 4 DAYS A WEEK AND CONSIDER TO CREATE A SEPERATE I PASS TRANSPONDER FOR THEM WITH REDUCED RATE.THIS IS ONLY A SUGGESTION BUT PLEASE CONSIDER.
07/16/26	Sam	60618			X	X	X				Oppose	
07/16/26	Judith Powers	60462			X		X			Construction Congestion	Oppose	JB Pritzker has been raising tolls and ALL taxes since the beginning of his administration. Illinois is becoming unaffordable and I have not seen any improvement in anything. This proposed increase will only serve to increase all prices on everything. I believe most of the money will end up going to Chicago.
07/16/26	Jim Parks	60126	X			X	X				Oppose	While I support the IT's need to raise toll rates to pay for improvements to the system, I believe that 45 cents per toll is excessive. In some places, that is more than a 1/3 increase. Remember, the tollways were supposed to be free in 1973. I would support less of an increase, say 20 cents, or a larger increase in pay-by-plate tolls. Otherwise, I urge the tollway board to reject the increase outright.
07/16/26	David Gallaher	60515			X	X	X				Oppose	I am a working class individual who is trying to support a family. I drive daily on I294 to get to work at O'hare airport. This toll increase is crushing to my family and our ability to meet the basic needs. It already costs me $1.50 each direction to drive 10 minutes on the tollway. This would nearly double my costs. I urge you to rescind this increase. I also encourage you to offer fee waived tolls for workers at ORD who have no other choice but to use the tollway.
07/16/26	Christopher Gerholdt	60051			X		X		X		Oppose	In Illinois we are nickel and dimed at every opportunity. The tollway was promised to be temporary thing. You are liars and thieves. Almost every other state has impeccable toll free roads. You want to increase the tolls and the state does too for RTA. GET RID OF THE TOLLS!
07/16/26	Jacob	60504			X	X	X				Oppose	I already don't use highways. I find them unsafe, unreliable, and too much of a pain to get the right passes for. A toll increase further guarantees I will choose not to use highways in Illinois.
07/16/26	Alonzo McNeil	60501	X		X	X					Oppose	You keep going up on tolls. Where is all this toll money going because you can't tell me it's all going on maintaining our roads. Interstate 55 is the worst in the area leading to downtown Chgo. The roads are horrible and nothing is being done about it. Meanwhile you keep nickel and diming us to death with these toll increases. How is it Wisconsin has better roads than us and no tolls ! This is poor management of funds and you keep making taxpayers and everyone else fund it just for using our vehicles. This is beyond appropriate. I plan on leaving this state when retired because of this. Beyond frustrated with this state!!!!
07/16/26	Jillian Zierden	60177	X			X	X				Oppose	
07/16/26	Timothy O'Connor	60517			X	X	X				Oppose	This is a regressive tax, too large, suffocating the middle class worker
07/16/26	Nicholas	60706	X			X	X				Oppose	
07/16/26	Nidhi	60538			X	X	X				Oppose	
07/16/26	Arthur A. Cano	60561	X				X			Lower prices for seniors and the handicap.	Oppose	The proposed increase is too-too high, especially during these inflationary time where a gallon of gas and a loaf of bread are at record high and may never change downward. If the State helps pay for other roads why not the Tollways too? Does the State help pay for Tollways in other States like Texas and California or others. Tollway increases should appear on a ballot like schools and other public projects. Also, the public hearings are during the daily working hours and evenings whereby the attendance will be close to zero! Why not a ballot to the registered members?

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/16/26	Richard Flogel	60046			X	X	X				Oppose	I use the tollway system a lot to travel between work and home. With the cost of living in the chicago area and such, I oppose any hikes in the current price in tolls. It will cause more harm to travelers in this state and common commuters trying to get by.
07/16/26		60706			X			X		roads and cars should not be the mainstay of transit	Oppose	I know this is probably not going to change anything, but expanding roadways is an investment in a worse future for us and future generations
07/16/26	Brad fox	60712	X				X			Free roads! Fire all overpaid administrators and cancel their pensions.	Oppose	Do not allow tollway increases. As per law, the tollway should be changed to a freeway! Shut down the high salaries and make the tollway FREE!!!! Automatic increases is an illegal idea, think of the average resident not overpaid government workers to be able to afford higher tolls!!!,
07/16/26	Gary Pittman	60506	X		X		X				Oppose	The price increase is not justified and frankly, is absurd. The tolls in Illinois (namely the Chicagoland area) are already exorbitant.
07/16/26	Don/Lili-Ann Kvaas	60041	X		X		X				Oppose	Use the current funds more wisely.
07/16/26		60202			X	X	X				Oppose	I oppose increases in tolls. It’s already expensive enough for gas and tolls.
07/16/26	Andrew	46516	X				X		X		Oppose	Damn government taking all our money and you want to take more. Bleeding us dry.
07/16/26	Patrick	60090	X				X			Reduce the cost to drive	Oppose	Stop taking my money you fuckers
07/16/26	Eric	60441	X		X		X				Oppose	The tollway just had an increase. It is already expensive as it is. This will create congestion on other roads as people are already paying the highest taxes in the nation, the highest gas among all of Illinois other taxes. People shouldn't have to pay $7 or more to get groceries, go to a local facility, etc...
07/16/26	Carl Krivanec	60467-7481	X		X		X				Oppose	There should be no increase
07/16/26	Steve Erdmann	60074	X			X	X				Oppose	Raising a 55 cent toll by 45 cents is over an 80% increase. That's ridiculous. The tolls were supposed to be a temporary thing when first instituted, and now everyone's worst nightmare is coming true - that they are an unstoppable monster. An increase of this magnitude is a major event. Scale back the project and institute a more reasonable increase of 10%.
07/16/26	curtis Buchanan	60563	X				X		X		Oppose	they cost enough !!!!
07/16/26	Fred Stadtler	60559	X				X			Saving gas if possible	Oppose	The Tollway was promised to abolished and "toll-free by '73." The tolls were only meant to be temporary until the construction bonds were paid. I try to find other alternative roads every day. Another Ilinois Boondoggle that will go down in history!
07/16/26	Mark Shulman	60108	X				X		X		Oppose	Gas tax has reached an unbelievable reserve use that for maint. And restoration of tollroads
07/16/26	Skilla da killa	60608	X				X	X			Oppose	Bro- people are barely surviving & you are seriously saying this will reduce drive times? People are hurting, I understand you are saying it will bring people money- but if ya made something to last, who cares? Another effort to stay in debt and make us reliant on Uncle Sam
07/16/26	Mike Laird	60467	X				X			Higher speed limit	Oppose	
07/16/26	Carmen Schwartz	61008			X			X	X		Oppose	I am basically opposed to adding anything that produces more Interstate traffic. Multiple lanes are not particularly safe with impatient people on the roads. We are not a patient country as a whole! I also think travelers miss many opportunities our state offers by passing by on Interstate highways.
07/16/26	Randy Svencner	60561-3947	X				X			Not getting a speeding ticket	Oppose	Will stop using the tollway
07/16/26	Bob Brittain	60142	X				X		X		Oppose	Enuf is enuf... This was to have been paid off long ago.. quit scavenging money off the toll to pay for other shortfalls in Illinois .. we’re being taxed to death in Illinois compared to other states and far less to to show for it

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/16/26	Atanacio Rios	60515			X	X	X				Oppose	To win public approval, then-Gov. Bill Stratton promised that these tolls would be temporary and that the roads would become free in 1973 once the original construction bonds were paid off. However, in 1968, state lawmakers made the tolling authority permanent, citing ongoing maintenance, expansion goals, and job creation. In fact as of July 2026 I have never seen the toll roads more congested-dangerous and more expensive. The present leadership in my opinion does not have a long range plan on solving congestion and providing safe roads. They do seem to have a boundless need/desire to raise tolls-create congestion with no relief in sight. Why could the present leadership not come up with lanes for those with multiple passengers-an idea that works on other states and has no need to raise tolls. A hard no to more congestion and more dangerous roads.
07/16/26		60137	X			X	X				Oppose	I oppose this rate hike. First off, the interstate was supposed to eventually become free. It should not be collecting tolls in 2026. Also, it is already way too expensive to use the highways. But using the highways is not a choice, but a necessary to get around Chicagoland. Charging so much for something people need to use is wrong when it is supposed to be free by now, not too mention how many taxes we pay as residents of Illinois and with how high inflation has been for the past few years.
07/16/26	Michael Lykins	60177	X			X	X				Oppose	The tollway was supposed to be temporary decades ago. Traveling on 355 and 390 is so expensive already that an increase is not necessary. It is not a small increase but about 100% and even more on 390. Taking more money and then increasing it every few years is absurd and not required. Other states have roads with no tolls and Illinois keeps them forever and now wants to increase the amounts. When will the taking more money end and allow working people to retain some money and not be taken by more government entities? I do NOT support any increase in any tolls. A reduction should occur or an elimination entirely as it was told to people decades ago.
07/16/26	Liz	60440	X		X	X					Oppose	Tolls keep going up, but seems like the roadway has to be ridiculously bad before repairs are planned and completed. Research better materials that can last through brutal winters and summers. They may cost more, but if they last longer than the bad patch jobs that happen, it would be worth it. Don't start 5 different jobs on 5 different roadways to conjest all of the Chicago area tolled roads at the same time. I've been driving tollways and interstate/intrastate non-tolled roads for 40 years, and it's worse than ever (I55, I'm looking at you). No rate hikes until you can show us you'll be more mindful of our money, and can come up with better planning. The engineers get paid very well - they now need to produce better project proposals.
07/16/26	Douglas Burke	61244	X				X			More truck enforcement	Oppose	A modest increase would be more acceptable. .45 cents is excessive
07/16/26	Edward Karecki	60618			X		X			Low tolls	Oppose	Please stop the proposed toll increase. Tolls are already too high and should be reduced.
07/16/26	Thomas Klopf	53129	X				X	X			Oppose	I do not want to see endless construction blocking lanes on the tollway system trying to add a lane here or there. Money from tolls should be used to improve public, mass transit trains to Chicago airports and to Chicago suburbs and even to the Milwaukee and Madison airports.
07/16/26	The Schuberts	60108	X		X		X				Oppose	
07/16/26		60491	X		X		X				Oppose	
07/16/26	Jean	60540	X	X			X				Oppose	The transportation department has built more lanes. On the tollways. That doesn't help. So raising the fare is not going to solve anything . The roads have pot holes. So address the issue now and don't make anymore issues for the drivers of Illinois
07/16/26	Rozecki	60714		X					X	fastest and shortest route to my workplace	Oppose	toll rates are already expensive and Driving Connections program won't solve traffic jam in peak commuting hours. And in the off-peak hours, why to charge users more?
07/16/26	Bill oberg	53158	X		X		X				Oppose	I can see increase of .25 cents, your nuts rasing it's .45cents. This increase is totally unacceptable at 21% .

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/16/26	John Janeczek	60491	X	X			X				Oppose	When the F*** does this end? When we pay $100 to drive 20 miles within the suburbs? You already have enough to spend, don't always have to spend it. Maybe soon they'll be 12 lane highways?
07/16/26	Benjamin	60115				X	X			Not raising prices to pay for more tax burdens on Illinois residents	Oppose	Stopping raising prices and spending my money on projects you think are necessary.
07/16/26	Jorge	53704	X					X		Less vehicles	Oppose	Nothing that you have planned to do is gonna work. Thousands of cars use the roads and that should be enough money to take your plan in accion. The " more you do" the more is gonna get worst. If you trying to decreased the traffic by opening new lanes to make better fluidity of vehicles those lanes at the end will causing more traffic as soonest it gets full.
07/16/26	DEBORAH HUDSON	60422			X		X			GREEDY TOLLWAY CONTROLLERS	Oppose	Greedy government pocketing MORE MONIES AS USUAL. GREED OF GOVERNMENT AND ABUSE TO CITIZENS. CONTINUED COST ON THE BACKS OF CITIZENS WHILE THEY MISMANAGE AND POCKETING MONIES. NEEDS INVESTIGATION
07/16/26	Kyle miller	60189	X			X	X				Oppose	Just another cash grab from our lovely Illinois government. How many more taxes can they impose
07/16/26	Joe Pincenti	60007			X		X			Free access	Oppose	Can't even afford electricity and gas or fuel for my cars now you want to add even more . I will go out of my way to stay off illinois toll roads . You just like the rest of this state just keep taking try looking at your salary and maybe take a pay cut give it back then lets talk
07/16/26	Pedro Aguilera	60435	X				X		X		Oppose	I don't need to pay more for something that I don't use often
07/16/26	Brian P Kelly	60012	X				X		X		Oppose	We pay the highest taxes in the country.... Why more??? When is a Politician going to decide to "cut" ..... THEN choose to strategically spend?? 07/16/26		61115	X		X		X				Oppose	Lots of funds are deposited daily from motorist driving toll ways, the roads aren't any better than a typical high way. Not really sure why we need a toll way - what's it funding? In other states they have a tolls to pay for major projects- project gets funded and paid off the toll Goes away- a other IL cash grab
07/16/26		60156	X				X			Not having debris like rocks and vehicle parts on the roadways	Oppose	I would oppose such a steep increase as for my position this would add about $500 more out of my pocket to commute to work so I can afford to support a family of 6 on 1 paycheck. This dramatic increase will essentially cost me 2 -3 weeks of groceries a year for my family which at a time of increasing expenses from property taxes, gas, groceries, and everything this is going to hurt and cause me to look for some alternative routes to try and reduce this expense. I take damage from the tollways all the time from rock trucks and salt trucks. Would be safer for me on the side roads then expressways in these cases as I usually go through a wind shield a year due to debris on the highways. Would really like for the highways to be cleaned once in a while to eliminate such damage from occurring which adds to my cost of driving the tollways.
07/16/26	Al Jolson	60505	X				X			not being RAPED by the tollway	Oppose	This is insane! You people are like the MAFIA...I'm retired and can't afford this let alone the costs of truckers increases that bring all the food and other products into the state. Have you checked the price of gas lately? Do you know there is a war going on and prices are going through the roof???" You are killing retires in the state! Illinois is one of the FEW STATES THAT HAS MORE PEOPLE LEAVING THE STATE THEN COMING HERE, DO YOU KNOW THAT? Or you do and you don't care just like the MAFIA. We will be selling our house and moving to WI or IN where the state agencies don't rape and pillage their citizens! Until then I will be using alternate routes to get around instead of being held hostage by the Illinois Mafia!
07/16/26	David Wise	60532	X		X			X			Support	If funds are used carefully occasional increases are necessary.
07/16/26	Raul	60804	X		X		X				Oppose	You ask for more money and it never really gets translated back to the drivers Ross are in horrible shape, traffic only gets worse.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/16/26		60139			X		X			no nigger crime.	Oppose	for the money you get, you fucks don't do jack shit. fire that kike pritzker and that nigger johnson and then we can maybe reconsider.
07/16/26	Whitney Dailide	60491	X				X			Safety	Oppose	Someone has misled the public here. There should be a full impartial investigation. I'm guessing a lot of mismanagement, insider dealing at the expense of the public and possible illegal activity.
07/16/26	Dave Helsley	60136	X		X		X				Oppose	Illinoisans are drowning in tax increases year after year. As I understand it, at least a portion of this proposed toll increase is to bolster the faltering Chicago Transit Authority, which is now oversized for its ridership thanks in part to COVID in 2020. If what I heard on the radio is correct, I believe the right thing to do in this situation is to right-size the CTA schedules and routes to account for the reduced ridership, and then adjust the fares for riding the CTA busses and trains and make the system solvent. It isn't fair to make Illinoisans who do not use CTA pay for the CTA budget deficit. People are leaving Illinois. I am considering the move myself. I hope you are open to other options and have considered what I am proposing, and that you will reconsider and not raise the tolls. Thank you. Dave Helsley
07/16/26	Mike Lisle	60712	X				X			Greater spending efficiency	Oppose	Start with paring back absurd administrative expenses
07/16/26	Ed Lampe	52761	X				X		X		Oppose	Having a cost-of-living adjustment in there will cause you to spend money because you have it. When you need additional maintenance or improvements and it's time to up the tolls. Whenever a government agency or business like a road program has extra money they find they have to spend it. Never good. Causes waist creates other issues.
07/16/26	Bill James	60505				X	X			not being RAPED by the tollway	Oppose	This is insane! You people are like the MAFIA...I'm retired and can't afford this let alone the costs of truckers increases that bring all the food and other products into the state. Have you checked the price of gas lately? Do you know there is a war going on and prices are going through the roof???" You are killing retires in the state! Illinois is one of the FEW STATES THAT HAS MORE PEOPLE LEAVING THE STATE THEN COMING HERE, DO YOU KNOW THAT? Or you do and you don't care just like the MAFIA. We will be selling our house and moving to WI or IN where the state agencies don't rape and pillage their citizens! Until then I will be using alternate routes to get around instead of being held hostage by the Illinois Mafia!
07/16/26	Deborah Rogers	60506	X		X		X				Oppose	No increase in tolls!!
07/16/26	Mike	60031	X				X			Less crime	Oppose	
07/16/26	Stacey	60108	X				X			I just want to drive on a road WITHOUT construction! These projects never end!	Oppose	You've got to be kidding me. Use the money you've already collected to pay for this! You want to DOUBLE the tolls?!?! Also, 294 has been under constant construction for basically a decade or more. How are there any more repairs to be made? I am not an old person, but I wonder if I will ever drive on 294 and not have to go through massive construction. I'm still waiting...
07/16/26	Cobin	60108	X		X		X				Oppose	
07/16/26	James Rogers	60506	X		X		X				Oppose	No more increases on tolls.
07/16/26	Phil Smithmeyer	60560				X	X			Congestion and daytime repair work.	Oppose	I oppose the toll increase AND any future toll increases (subject to future public hearings) as the increases would put a significant financial burden on the public - especially low income people who have to use the tollway to get to and from work.
07/16/26	Alejandro	60101	X			X	X				Oppose	
07/16/26	BILLIE SUE BRAUN	60073					X		X	ENDING THE GRIFT!	Oppose	STOP GOUGING DRIVERS!!!!! TOLLS ARE TO BE TEMPORARY! THEY ARE FOR OUR MILITARY. LET THEM PAY!!
07/16/26		60538				X	X			Well lit roads	Oppose	Tolls should have ended a long time ago.
07/16/26		60632					X	X		Affordability Affordability Affordability	Oppose	
07/16/26	Ted Ward	60004					X	X		No automatic fee hikes	Oppose	Please look at ways to cut overhead and be more efficient as a business rather than keep raising fees. The toll authority has become big business and has been levying higher fees on the people. Rein it in, we don't have endless amounts of $ to pay for your inefficiencies.
07/16/26	Kathleen McGourty	60148	X			X	X				Neutral	

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/16/26	Perry Miller	60073	X				X			Navigability (Thank goodness for GPS)	Oppose	The current I294 project has now been under construction for 8 years and will be for another three years (give or take) and Pritzker wants to "initiate" another 15 year project. What have we done to deserve this punishment? I couldn't find the "scope" or intent of said project on the IL Tollway website (despite finding the words "clearly defined"). But I did notice the stakeholders list for this project includes all the necessary political constituencies, insuring this project is run efficiently and to maximum effect, but to whose benefit, TBD. So my question is simple: In 50 words or less can you tell me what the bill of goods you're trying to sell me is .... and will "Home of Crony Capitalism" replace "Land of Lincoln" on all Illinois license plates? In general, this administration views tax revenue as a limitless resource. NEWS FLASH: We don't want or need the "California" model of governance in Illinois. "It's never enough" is a credo that should be posted in every Illinois government building. Prime example: We know tens of billions and probably hundreds of billions of Illinois and Illinois administered federal dollars flow thru Illinois's hands to politically favored NGOs to no effect other than the enrichment of special constituencies, and I would bet that a significant portion of that flows back into political coffers. So I say, "I am not your chump." I don't trust Pritzker or his cronies now, so I see no logic giving them more money to piss away on an ill defined mega project that will snarl traffic for another fifteen years. And as an aside, how many tax increases has Pritzker signed into law? Answer.... too many. How many cost cutting initiatives have been tendered....none to my knowledge. (I don't count "improvements" that will save us piles of cash because the savings never seem to make it back to the tax payers.) And I do think "Driving Connections" is the wrong name for a program of this magnitude, this boondoggle should be called "The Porky Pig" project, or "the Bridge to Nowhere" or even "the High Speed Rail" project. But wait, could it really be, the "Save Brandon Johnson's Ass" Project. Naaaa, not enough money for that.
07/16/26	Mark Garrison	60542	X			X	X				Oppose	All the tollway does is find projects to spend money
07/16/26	Joe	60098	X			X			X		Oppose	
07/16/26	vernon j wankerl	61250	X				X			None	Oppose	None
07/16/26	Diana Wiley	54902	X		X		X				Oppose	It’s too much of an increase. Can’t afford gas & now this. 45cents on each toll for a commuter is about. 45-50 percent increase! Commercial vehicles that are heavier, damage roads more with their weight and loads, yet get a lesser increase? Not Fair. I oppose this increase
07/16/26	Ernie	46307		X			X		X		Oppose	Current funding from tollways I believe are sufficient enough. With the over 1.5 million daily users contributing to the program there is plenty of revenue being generated. So the question is: 1. Who comes up with this 45 cent increase per toll and the 30% increase for commercial vehicles? Perhaps the administrative committee ask "the people" what seems like a fair 'increase?' If any. 2. How about Illinois Tollway employees take a 5% pay cut? 3. How about the administrative staff take a 10% cut with some annual salaries at over a quarter of a million dollars? That I believe is a number you all can work with. But, definitely not eliminate any jobs-just make a minor adjustment. As I am from Indiana, most people drive to their jobs via the tollway not making $43 / hr. Thank you
07/16/26	Dan Smaczny	60181	X			X				Safety, like cleared snow.	Oppose	Maybe the State could supplement people that have long commutes with multiple tolls.
07/16/26	Glenn	60429	X				X			More transparency in pay for upper tollway management.	Oppose	I would like to see the tollway commission take pay cuts to help support the roadway improvements. It’s only fair to the travelers just trying to stay safe and make a living. Thank You

07/16/26	P. Henseler	60189				X	X			Lower costs	Oppose	With the 2nd highest gas tax in the country, it is crazy to be adding such a significant increase in tolls. Please help Illinois citizens stay in Illinois vs driving them away to other states by making Illinois unaffordable.
07/16/26	Veronica Terrell	60446-1060	X				X	X			Oppose	

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/16/26	Ovidio Acevedo	60142	X		X		X				Oppose	These toll increases are ridiculous. These tolls were sold to the public as a temporary measure to pay for the initial construction of the highway by users of the highway. Maintenance was supposed to be covered by gasoline taxes. The state of IL lied to the public and kept the tolls and then to make things worse they increased and passed a perpetual annual increase of taxes on gasoline!! No wonder businesses and residents are leaving this state. This needs to stop. Existing gasoline taxes should more than cover the costs of these highway improvement programs.
07/16/26	Nancy Cicero	60133-6136		X	X					Omit cut throughs at exit ramps	Support	I truly wish 390 will finally go to County Farm Rd. The back up exiting at Lake is ridiculous. I supported the Elgin/O'Hare before it was built...please help it run smooth! Thank you
07/16/26	Janine Tarnowski	60462	X		X		X				Oppose	
07/16/26	Konstantin Papucharov	60143			X		X			motorcycle rates	Oppose	I believe it is unfair that motorcycles have to pay the same toll rates as cars, SUVs, and vans.
07/16/26	Kelley Budd	60585	X		X		X				Neutral	(Neutral with some Opposition) Although I understand the need to raise rates, I just returned from a trip to Colorado, and found their toll system interesting. First, toll amounts are based on time of day. Higher traffic times result in higher toll amounts. The idea is to encourage people to drive at alternate times. Secondly, they have a HOV lane where no toll is charged if there are 3+ passengers in the vehicle. This would encourage ride-sharing. Either of these options may make an increase more palatable.
07/16/26	L. van Wijngaarden	60657				X	X			Low fees.	Oppose	Life is no longer affordable and continuously upping rates based on CPI is a way to just add to the malaise because everyone else is simply doing it. You guys are no different than the utility companies and no one seems to care that we're getting bled dry from all sides. I do NOT suppet higher rates. You guys need to learn to run a budget and spend wisely. We shouldn't be footing the bill for your pipe dreams.
07/16/26	Terry	60010	X				X		X		Oppose	Road construction in Illinois is constant, and our roads are no better. Tolls were first instituted to fund education. I'd be interested to know how much funding goes to education.
07/16/26	Richard Ankenbrandt	60142-7827	X			X	X				Oppose	The Illinois tollway has been a cash cow for the state and the funds have too often been diverted. The people of Illinois wanted tolls to go for roads and instead the representatives in Springfield used it to bail out the RTA. And the change from the 55/45 split to 85/15 for road funds is simply woring/
07/16/26	Ellen Dooley	60091	X			X		X			Oppose	Tolls should only go to the tollway system. No one believes this will happen. Also, the tollway was supposed to become free, not be a cash cow with two pensions. Building in an automatic escalator on top of an increase is vintage Pritzker. This will be one more reason to move away and one more nail in Illinois' economic coffin. Don't do it!
07/16/26	Erin Brumfield Grima	60120	X				X			Affordability	Oppose	At a time that Illinoians are struggling financially now is not the time to make everyday commuting more expensive. Don't raise tolls!
07/16/26	KD	53579			X		X			A functioning payment system	Neutral	Please use some funds to fix your online pay by plate payment system. Often a travel record will take over a week to show up in the system, if at all, and shortly after when you hit 14 days you're fined for being too late. Please make the system easier to use, or give a longer deadline if you cannot load toll records within a reasonable timeline.

07/16/26	Harold Benton	61726		X			X			Do what the charter stated end the tollway authority	Oppose	The tollway authority has revenue that's exceeding your expenses by almost a billion dollars a year yet you're wanting more. We the People of Illinois can't afford to keep prying our wallets open because people in government want to take more from us. We're getting taxed out of our homes with property tax increases businesses in small towns downstate are fleeing the state leaving no jobs forcing longer commute distances and with gasoline taxes increasing yet again costs keep rising. We can't afford it. Live within your means for once. These tollway were supposed to have been made free in 1973 53 years ago we want that to happen.
07/16/26	Christine Caponigri	60193	X			X	X				Oppose	I'm a retired senior with a set monthly income. It's hard to add this increase into the budget and it will be a hardship if this increase goes into affect. Please vote no to this large increase.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/16/26	Sandra Edge	60638			X		X		X		Oppose	Raising the commercial tolls that high will cause all products the truck drivers deliver, to increase. e.g. food, gas, and all basic necessities. The Illinois citizens can't afford anymore price increases.
07/16/26	Brian Mudra	60540			X	X	X				Oppose	Strongly oppose. We already have the most tolls, now you want more! No way do I support this.
07/16/26	TM Drechny	60559	X			X	X				Oppose	My concern is the toll increase will negatively impact households in what is already an unstable economy--especially the rate increase for trucks that are bringing goods to households. I would support a toll increase for regular drivers, even though it will affect my household commute costs, but a lesser toll increase for commercial vehicles already bearing the brunt of higher fuel prices.
07/16/26	Paul Caponigri	60193	X		X	X					Oppose	The toll increase is outrageous
07/16/26	Kathy Neil	60515-3457	X		X		X				Oppose	Budget your money! Don't waste all the tolls collected.
07/16/26	S.Brusa	60517			X		X			Speed Enforcement	Oppose	Too Expensive!!!!!
07/16/26	Daniel Morrison	60098			X		X		X		Oppose	To the Illinois Tollway Board: I am writing to oppose the proposed toll rate increase tied to the Driving Connections capital program. Illinois tolls were never meant to be permanent. When the tollway system was created in the 1950s, lawmakers promised drivers it would be a temporary measure to pay off construction bonds, after which the roads would become free and be maintained through the gas tax. That promise, memorialized in the "Toll Free in '73" slogan, was abandoned when the General Assembly made the Toll Highway Authority permanent in 1968. The original bonds were actually paid off by the early 1980s, yet tolls have only grown since. The tollway does not lack money — it has a track record of collecting far more than it needs. From 1973 through 2024, the tollway took in nearly $20.7 billion more than was required for maintenance and operations, including about $1.28 billion in surplus in 2024 alone. On the broader state transportation side, more than $3.3 billion currently sits unused in the road fund, a surplus built largely from automatic gas tax increases that have outpaced actual road spending Despite this, the agency has a history of poor stewardship. As one example, the tollway spent $20 million on automatic toll-collection machines that were pulled after four years, with most unable to make change and overcharging drivers by nearly $500,000. Waste like this undermines the case that drivers need to pay more. Meanwhile, Illinois residents are already stretched thin. Drivers are paying nearly $1.8 billion more overall to get around than before 2019, averaging about $1,505 more per person in higher gas taxes and fees. Layering a 45-cent-per-toll passenger increase and a 30% commercial increase on top of that — with automatic inflation-based hikes starting in 2029 — adds another permanent cost to an already unsustainable cost of living and doing business in this state. Before asking drivers for more, the Tollway should account for existing surplus funds, demonstrate it has eliminated waste, and explain why a "temporary" funding mechanism from 1953 still hasn't been retired seventy years after it was supposed to end. Daniel M
07/16/26	Christina Kadlec	60646	X		X		X				Oppose	
07/16/26	Nick m	61265	X		X		X				Oppose	Why should we pay for tolls even tho Illinois roads are garbage iowa has no tolls and there roads are smooth as butter in Illinois we got tolls for no reason but to give pritzker more money
07/16/26	Lori Atherton	60439			X	X	X				Oppose	What an awful time to raise rates when the cost to commute to/from work has increased dramatically due to rising gas prices and the overall cost of living has increased due to higher healthcare costs, higher auto insurance costs, higher utilities cost, higher gas and groceries prices. No rate increase should be considered until we have these other rising costs addressed. The little guy is getting totally squeezed.
07/16/26	Gerald Jurek	60449	X				X			Proper stewardship	Oppose	Funding should be obtained through cost-cutting and reallocation of existing resources. Illinois' leadership continues to shrink the taxpaying base through short-sighted solutions characterized by an increasing tax (in the broadest sense of the term) burden on residents and businesses without just or adequate services by the State in return.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/16/26	klein	60187	X				X			Less corruption	Oppose	I see your meeting are in the middle of the day when most working class people are working. So inconsiderate. So moving on to how the tollway was supposed to pay for itself in the first couple years. Would be great to know how much money people are being overpaid. Just like most of Illinois, so much corruption.
07/16/26		61008	X				X			Saving by choosing to pay tolls for most direct route, vs xtra fuel	Oppose	Absolutely not! You already overcharge us to give 50% discounts to people who live the free Life of Reilly off our taxes, they get more in FOOD STAMPS ALONE (& upwards of $150k in free LIVING EXPENSES FOR EVERYTHING . While we the taxpaying population make $20k/y and get NO discounts or considerations but keep getting screwed over charged for more freebies to them & their communities. GET RID OF TOLLWAYS & go back to Roads for All paid by All. Raise these rates 30% in 1 swoop--when retirees get 1.5-2.5%to pay all living expenses ???? We will destroy our transponders and never use the tollway again!
07/16/26	Dan Sikic	60554	X	X						Less TOLLS	Oppose	Why are we using toll money to support METRA and the CTA?, tolls have done. Nothing but increase and we still have roads that are shitty
07/16/26	Dan	60561		X		X	X				Oppose	Illinois is a corrupt democratic shit hole. Fat ass pritzker is as useless as the day is long. There should be no need for a single dime from tax payers to go towards tolls. Fuck him
07/16/26	Kevin Prine	60457-1110	X			X	X				Oppose	I oppose this proposal, I am ok paying tolls for premium roads, however I own a small personal watercraft and a car trailer, the tolls i have to pay when towing s trailer are absurd already, 30% more and i could pay for any additional gas it will take me to drive around the toll roads. Commercial vehicles do the most road damage and cause the most traffic/congestion so I agree having Commercial vehicles pay more is the right thing to do, however lumping non-commercial vehicles in just because its towing a 1500lb trailer is crazy. i should not be paying 20-30$ in tolls alone to drive to the lake. Recreational vehicles should not be penalized. 1.5x the standard toll rate would be logical not 6x standard rate. Please address this major flaw in the pricing structure.
07/16/26	Lindsey Nicole Zolp	60613	X		X		X				Oppose	I do not approve of the plan to link toll increases to inflation and that voters should be allowed to have a say.
07/16/26	Jaswanth Vallabhaneni	60564	X			X	X				Oppose	The increase in toll charges is an additional burden on already financially strained families.
07/16/26	stela botezatu	60156	X				X		X		Oppose	Plenty of money gets collected now and the roads are just as bad as when the tool was .25cents, I have travelled in states with no toll roads with far better maintained roads. This state has a waste-spend issue, not a collection of few taxes and fees. The gas tax is the 2nd highest in the country in IL, where is that money going? As a taxpayer that is not collecting any "free" social services, my wages do not keep up with the unacceptable high property taxes and hundreds of other taxes and fees that is making this state unaffordable to live in. Enough is enough!
07/16/26	Daniel Chilla	60714				X	X			Toll price freeze or a reduction in price	Oppose	The increase would add about $700.00 + a year to my already expensive ride.
07/16/26	Jim & Vanessa Clohessy	60126	X			X	X				Oppose	The ISTHA has lied time and again. First, when the tollways were initiated we were told they would be short -term. Next, we were told the Ipass would significantly reduce or eliminate future personnel/labor costs, yet tolls were increased in 2012 and following the elimination of manned tollbooths, the ISTHA wants to further increase tolls. The ISTHA should prospectively eliminating their defined benefit plans and switching to defined contribution plans, like 99% of the rest of the country. Honestly, we think this ISTHA is nothing more than a consulting firm's recommendation, and the toll increases are happening anyway. Are you REALLY interested in what citizens have to say?
07/16/26	Jim Schmitt	60126	X			X	X				Oppose	Why am I being asked to bailout CTA thus necessitating a major toll increase and then auto increases every two years. CTA rates are not increasing or being automatically increased every 2 years. ALSO why are there very few toll plazas down state? It seems Chicago metro area has the privilege of carrying everyone else's load

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/16/26	Robert Madura	60046	X			X	X				Oppose	
07/16/26	Mary Moran	60004					X		X	Safety	Oppose	Will not be using the toll road unless I absolutely have to, Too expensive to go a short distance !
07/16/26	Natasha Werner	60417	X		X		X				Support	FIX THE ROADS.
07/16/26	Packing Mybags	60555					X	X		Leaving the staye	Oppose	Indiana wants me
07/16/26	Russell Kluchka	60031	X				X			Road work completed quickly	Oppose	Roadwork has been ongoing for my whole life. Cheap fixes aren't designed for a better road. They keep the contractors working
07/16/26	Steven Kuehl	60448					X	X		I think you have three choices mandated so you can dilute the affordability answer. Why don't you just raise the tolls as your survey is clearly biased!	Oppose	Do not raise the tolls. You just siphoned the money to subsidize the grossly inefficient METRA system, so don't raise the tolls as METRA needs to right its own ship and layoff all the "greeters" and other complete nonsense costs. Taxing autos is just another way that you are deriving people out of Illinois through toll road increases. Also, shame on you for having a biased question above requiring three responses so you can dilute the affordability response. How about adding "less taxes" or "using tolls only for tollways" or "making tollway expenses more transparent "?
07/16/26	John Reynolds	60532	X		X		X				Oppose	Is already too expensive in IL do we need to make it worse?
07/16/26	John	60062	X				X	X			Oppose	Tollway was originally supposed to be temporary. Then they said they would use it to make repairs but we have to dodge potholes everyday. But they want to increase it..... Where is the maintenance that was said to happen? Where does the money go that isn't used after the budget year?
07/16/26	stela botezatu	60156	X				X		X		Oppose	100% opposed to any tax on auto increase like the gasoline tax today and anytime in the future!
07/16/26	John	60062	X				X	X			Oppose	
07/16/26	Steve Massie	60110	X	X					X		Oppose	I thought once the tollways were complete no tolls. You are a bunch bold face untruthers. Tired of paying while there is litter and weeds everywhere. What the fuck do the workers do all day?
07/16/26	Carla	60634		X	X		X				Oppose	Stop raising prices for anything. People are struggling so much already. Irs ridiculous to raise anything til Trump is out of office or prices come way down.
07/16/26	Michael zdanowski	60625	X	X	X						Oppose	How about yall stop spending money on unnecessary things and paying for overpriced items . Get doge involved and have them route out all the waste .
07/16/26		60564			X		X		X		Oppose	
07/16/26	Craig Duy	60560	X	X					X		Support	
07/16/26	Edwin	60152	X		X		X				Oppose	
07/16/26	James McCarthy	60103	X		X		X				Oppose	
07/16/26	J. Mintalar	60133					X		X	Affordability x3	Oppose	
07/16/26	PPS	60089	X		X		X				Oppose	
07/16/26	Scott Callihan	60164					X		X	Law Enforcement	Oppose	Everyone that currently uses those toll roads already pay a toll that is supposed to go to the upkeep and repairs of those roads. If this toll increase does not pass, will the current tolls be removed since you can't maintain the roads with what you are currently collecting?
07/16/26	Gelyana	60016	X		X		X				Oppose	
07/16/26	Cynthia Dickinson	49709	X				X			Just 2	Oppose	What do you do with all the money you're collecting now?
07/16/26	John Early	60510-9525	X				X			What happened to the promise; toll would go away after construction costs were paid?	Oppose	The toll increase is egregious. Details of proposed work does not support work proposed, including ambitious funding for unclear construction. This is clearly a state funding shift to Chicago area residents and commuters to other spend funds on illegal aliens. You are gravely increasing transportation costs for residents. Years in the future you can tell all your family and friends that you were personally responsible for making north east Illinois more unaffordable and reduced the quality of life for residents.
07/16/26	Erika Combs	60174-2812	X		X		X				Oppose	
07/16/26	C.m.	54601	X			X	X				Oppose	A 45 cent increase per toll is a large increase. It would be nicer if the increase were smaller.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/16/26	Therese Brader	60101	X				X		X		Oppose	A 45 cent increase along with permanent increases is a slap in the face to taxpayers. We have no say in this outrageous increase. For many people a tollway is a must and this cuts into their paycheck. Illinois has high enough property taxes, gas taxes etc. I usually use the tollway to get from one place to another quickly, plus in inclement weather such as snow I know I can count on the tollway being cleared before the secondary roads. However, being retired and on a fixed income I'm not sure these two are more important than my pocketbook. I think many Illinoisans will feel the same way and you may in the long run loose money. We all know you will increase the tolls, I feel to put in a permanent increase is unfair to the residents and gives us no input for future increases.
07/16/26	Sheri piccolo	60070			X		X			No tolls!	Oppose	I oppose any tollway hikes! No!
07/16/26	Eliazar Marquez	46375	X		X					faster construction times on road	Oppose	FUCK U FAGGOTS TRYING TO GET MORE MONEY OUT THE WORKING CLASS HOW ABOUT U TAX THE PEDOS RUNNING THE COUNTRY FOR IT SCUMBAGS
07/16/26	James F. Bennett Jr.	60543	X		X		X				Oppose	I believe that a .45 cent increase is way too much. The tollways were supposed to be paid off after the bonds were paid for. They have never been taken off and I realize that it does not get any federal or state money. However J.B. Pritzker has raised the Registration fees to $151, and has gotten the Legislature to raise the gas tax with another rate increase every year. It is the second highest gas tax in the nation. With all of these increases that the Illinois Legislature and the Governor have put on the people of Illinois it is no wonder why people are leaving this state. I wish I was able to do so. Therefore I believe your increase of .45 cent is out of line and also the increase of every 2 years. I'm on a pension and Social Security and you are making it very hard to survive in this State.
07/16/26	Randall Townsend	61108	X				X		X		Oppose	Illinois is taxing us to death..always more money,more money...Time for responsible government ,, something Illinois has been lacking for a long time...no more tax increases,,no more new taxes...enough is enough
07/16/26	Jack Thompson	60618			X		X			no increase period.	Oppose	No
07/16/26	jb prickzter	60432	X		X		X				Neutral	stop taxing us for something that should be free.
07/16/26	Tony Darmstadt	60140	X	X			X				Support	
07/16/26		60181	X		X		X				Oppose	I do not support this decision whatsoever! Stop raising the tolls! In fact, why don't we just get rid of the tolls instead?!?!? They were never supposed to last this long anyway! Stop being greedy and stop robbing hardworking taxpayers to give yourself a high salary!
07/16/26	Vada Grant	60517			X				X	Faster trip	Oppose	Too big a jump to .45 I do not like the automatic 2 year increases Program designed over too many years into the future Toll roads have taken on a life of their own, they grow out of proportion.
07/16/26	Philip Cordero	60047	X		X		X				Oppose	How are tolls going up? There are no more need for toll attendants anymore because everywhere is either ipass or online pay. The roads are decent but there are still roads that I avoid because too many imperfections on the road. I'm greatly opposed to any increase to tolls in Illinois.
07/16/26	Victoria E	60436		X			X			Faster travel time	Oppose	The tollway roads are too congested, so there should be plenty enough cars paying toll fees to maintain the upkeep of those roads. I'm also concerned about the proposed inflation every 2 years after 2029. I don't need the toll roads becoming too expensive. Is there a cap? Or will the state be taking advantage of the people. If you increase the tolls you will have less people who can afford it and less people who will take the tollways, which will negate the increase.
07/16/26		60030	X				X			Toll reduction	Oppose	
07/16/26		60096			X	X	X				Oppose	It is already extremely expensive to use the tollway, it is ridiculous that the rates are being raised again.
07/16/26	Mohammed	60007		X	X	X					Oppose	
07/16/26	Joan	53406			X				X	Controlling excessive speeding	Neutral	If the improvements include speed traps and license plate photo fines to control the crazy drivers I'm all in on the increase tolls.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/16/26	Michael Thomas	60613	X		X					Police patrols	Oppose	Shame Shame Shame. You should be lowering or eliminating tolls, not adding substantially to them. Most other states have thousands of miles of road and absolutely NO tolls, or very few. You should first eliminate the waste and corruption before asking for more money.
07/16/26		60041	X			X	X				Oppose	
07/16/26	Venkat Kasireddy	60564	X			X	X				Oppose	Can't afford
07/16/26	Rich French	60142	X			X	X				Oppose	This is a complete scam - charging us more money ... again, for things that will never be fixed. We pay enough for taxes, gas, food, etc. - it shouldn't break the bank to drive on a road.
07/16/26	Jacqui Titus	60426	X		X		X				Oppose	Too much construction for years at a time; damage to vehicles; backup traffic everyday!
07/16/26	Debabrata Pal	60192	X				X			please fill the potholes on I90 between Chicago and Rockford.	Oppose	I oppose toll increase.
07/16/26	Dinesh Sharma	60540	X				X		X		Oppose	Tollway were supposed to be temporary when they were imposed years ago, they must be abolished not increased during these times of high prices of everything. We are paying exorbitant amount of our hard-earned money in government-imposed taxes. It is difficult for families to pay for food and other essentials when they have to pay majority of their income in taxes, property taxes, tollways...Please ban the tollways, many states are doing well and maintaining their roads with any tollway tax, why Illinois cannot do same? It is a shame.
07/16/26	Sebastian	60056	X	X			X				Oppose	I oppose raising passenger tolls by about 45 cents and authorizing automatic inflation increases without future board votes. I urge the board to reject automatic toll hikes.
07/16/26	Elena Kreucher	60430	X				X			AFFORDABILITY!!!	Oppose	Illinois drivers have paid $26 BILLION in tolls since 1973 with a record high of $1.65 BILLION in just 2025 and if this bill were to pass then it would take another BILLION out of consumer pockets, citizens who are already struggling. There's constant construction on I-94, 294, I-90, and many other main expressways every year, especially during the summer which are high travel times, and not one time has there been evidence to the people that tolls are helping to fix the roads that WE ARE PAYING FOR and driving on a daily basis. Take your toll increase and shove it. Every penny that this government takes from the people goes into someone's pocket and does NOTHING for the people paying the price. DO SOMETHING USEFUL WITH THE MONEY THAT WE HAVE GIVEN YOU.
07/16/26	Walter Prest	60305	X		X		X				Oppose	I'm all for good roads but IL has some of the highest taxes in the nation. You need to find another way to pay for this, perhaps cut other spending. You can not ask for more taxes from the people of IL, and a toll is a TAX.
07/16/26	Robin Hank	60504	X		X		X				Oppose	I don't believe the funds collected by tolls are actually used to repair and maintain our roadways.
07/16/26	T Yangas	60455	X		X	X					Oppose	Sounds like the Proposed plan is to further increase traffic and delays for at least the next 15+ years, with more and more never-ending construction, increased costs for the commuter that wont decrease down the road (Illinois never passes up a chance to Nickle-and-dime you), and whatever additional headaches and delays that are created as a result of propagating Illinois' state flower, the traffic cone. All of this is amidst Illinoisan's growing distrust with the use of our money.
07/16/26		60056	X			X			X		Support	
07/16/26	Tom Martens	61201	X		X		X				Oppose	
07/16/26	James Copeland	60083	X			X	X				Oppose	It was always my understanding that the tolls would go away after the roads were build and the gas tax would maintain the roads. It seems that every time the state spends money they do not have, they try in find another way to tax the citizens other than finding waste in the budget to cut. Like reducing headcount by nutrition. Also, I think there are more Illinois drivers using the tollway daily than those from out of town.
07/16/26	Jill O'Neill	60005			X	X	X				Oppose	I already spend over $30.00 a month to get to and from work. Increasing this toll by $0.45 PER TOLL will be a hardship.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/16/26	Theodora C McFerren	60422	X		X		X				Oppose	Toll fees are high enough! As it is, I don't see where the existing monies collected have been put to good use. Every year the tollway systems needs repair and every year it's in worse condition. What type of materials are being used? Years ago the roads were in better condition and didn't have to be repaired every single year. The quality of the materials used must be subpar for repair work to be needed every year. It's been said before, we only have 2 seasons in Illinois: Winter and construction. While I'm most concerned with having well maintained roads to drive on, why raise the toll fees if the quality of the roads remain the same.
07/16/26	Andy	60304	X		X	X					Oppose	
07/16/26	Kamil K.	60007	X		X		X				Oppose	Dear Illinois Tollway, I would like to submit my comments regarding the proposed toll rate increase. I am strongly opposed to this proposal. I believe the Illinois Tollway should first take a closer look at its own efficiency and spending practices before asking drivers to pay more. There is often a perception during major construction projects that "money is no object." When a project such as I-490 is under construction, it seems that almost any request or change is approved regardless of cost. While completing projects efficiently is important, the Tollway also has a responsibility to be a careful steward of the money collected from the millions of motorists who use these roads. Unfortunately, I do not believe that level of financial responsibility is consistently demonstrated today. Projects may move quickly, but quality and oversight appear to suffer. We see newly installed overhead signs already showing signs of peeling paint (look at the signs and shields I-294 etc), newly paved roads developing potholes or longitudinal settlement, and what appears to be excessive reliance on layers of consultants overseeing other consultants. Taxpayers and toll-paying drivers deserve better value for the money they contribute. I also do not believe a toll increase is justified when new facilities, such as I-490 and the expanded sections of I-390, will already generate additional toll revenue. Before increasing rates, the Tollway should demonstrate that it is making the most efficient use of its existing revenue. Another concern is the impact on drivers and businesses. At some point, higher tolls will encourage more motorists to avoid the Tollway altogether by using local roads, creating additional congestion and wear on those streets. While the proposal places much of the increase on commercial vehicles, those costs do not simply disappear. Trucking companies pass higher operating expenses on to consumers through higher prices for goods and services. A 45-cent increase for passenger vehicles, combined with significantly higher increases for trucks, will ultimately affect everyone. It is also important to recognize that the trucking industry is already operating under significant financial pressure. It is striking that drivers can travel through much of the United States without encountering many toll roads, yet once they enter Illinois, nearly every major expressway is tolled. Before asking residents and businesses to pay even more, the Tollway should focus on improving efficiency, reducing unnecessary spending, and ensuring that construction projects deliver lasting quality. If truly necessary improvements are identified, those should certainly be considered. However, not every project needs to include expensive, state-of-the-art features (like heated garage floors for snow plows), if more practical and cost-effective alternatives can meet the same operational needs. Fiscal
07/16/26	Edmund NASJLETI	60726	X			X		X			Oppose	Please do not raise the tolls.
07/16/26	Cesar Arciniega	60586	X		X			X			Support	I only support, if they make public transport to and from different places throughout Chicagoland, cheaper, more abundant, and safer. And then use profits of the hike up to provide cheaper/free services for these busses to reduce traffic and use our roads less leading to less emissions as well.
07/16/26	Alex Nordhaus	60712	X		X		X				Oppose	
07/16/26		61101				X	X			Don’t raise toll pricing	Oppose	Don’t raise toll pricing
07/16/26	Uriel Portillo	60108			X	X	X				Oppose	
07/16/26	jim Guth	60477	X		X		X				Oppose	It is not the Toll Authority's responsibility to create jobs for the roadbuilders and construction workers. How about reducing costs and graft in the system. Once you show reductions and real efficiencies come back and present the data. If it is legitimate then maybe the overtaxed citizens will buy into the rate increase!!

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/16/26	Sergio Mendoza	60452	X			X	X				Oppose	
07/16/26	Melissa	60510			X	X	X				Oppose	The toll prices have increased every year regardless of who is making the decision. We just had an increase in 2026. More people are leaving Illinois due to all these cost increases. This is not good.
07/16/26	Austin Lynch	60441	X		X		X				Support	I am a local 150 member as of July 1st 2026 and fully support this.
07/16/26	Shannon W	54401					X		X	Accessibility for those without credit cards	Oppose	My elderly family member though they can drive, pay everything in cash, when coming to Wisconsin that means they need to take 1 toll and every time we end up having to walk them through and pay their bill online as there is no manned tollbooths. I'm sure they aren't the only one. This person refuses to use a cell phone or internet, the more infrastructure gets changed the more people might be left behind.
07/16/26	George Skoulikaris	60136	X		X		X				Oppose	
07/16/26	Drumil T	60559			X	X	X				Oppose	Being one, if not the highest, toll tax in the country, it is utmost important to not raise tolls. Although a small change to some, the middle class families and lower income earners will hurt the most from this. It is unfair to increase the tolls and I strongly oppose this change.
07/16/26	Jason Malone	60458	X		X					No tolls	Oppose	
07/16/26	Juana Barragan	60804			X	X	X				Neutral	I believe in improvement and peace of mind, but also considering the difficult financial times most citizens are experiencing paying a high cost in tolls would be a luxury and not a fulfillment of the principal involved in creating a safe and less stressful experience driving. It would not be possible for low income citizens. I remember taking a the express way 90-94 towards Indiana to go to Midlothian, Illinois, little did I know to expect to pay 2 tollways $8.00 dollars each. Yes it was fast, but I don't take that route anymore. Keep a reasonable cost and you will get more for your express drivers like myself. Thank you for your time and service.
07/16/26	Brandon Guillen	60031	X		X		X				Oppose	Everything in this God Forsaken state is already too expensive! This is the last thing we need!
07/16/26	Connor	60022	X		X		X				Oppose	Tolls are already high and frequent. Even higher costs will make Illinois Tollway usage entirely unreasonable.
07/16/26	Carter Gould	61061	X		X		X				Oppose	No
07/16/26	Anthony	60077	X		X		X				Oppose	There has not been a time were the tollways have been complete enough, without construction to have a consistent driving experience. I have been paying for construction for decades and now you want more money. Stoppp
07/16/26		60047	X		X		X				Oppose	
07/16/26	Jerred	60102	X		X		X				Oppose	Stop taxing us to death
07/16/26	Leonard Prazak	60565	X				X			No other preference	Oppose	We already pay too much. The original concept did not envision the kind of increases you propose. Broken promises, so typical of government! No more increases live within your means and stop padding the pockets of your labor and construction company buddies!
07/16/26	MH	60440				X	X			Roads being open	Oppose	I already avoid toll roads and CHOOSE to spend more time and money being in the car. Last time this was proposed, it just led to "predictable" construction causing the same if not more issues. I know others who also refuse to use the tolls. More and more people will join this pattern and THIS is why you constantly need more funding. The funding plan is not solid and cannot be guaranteed. I see another price hike in the near future of this being approved. I pay more in tolls than I do in gas and time to avoid them.
07/16/26	Monty	53538			X		X			Fuck raising the rates. I've had enough of these increases	Oppose	You guys are jacking up the gas tax. Why don't you look for fraud in your local government to pay for this garbage.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/16/26	Loretta Knight	60475	X			X	X				Neutral	Every so many decades the Same reasons for repairs and an increase in tolls information is sent to till drivers. Suggestion: Search and purchase materials of the highest quality to use for the roads long-term, highly qualified laborers, and decision makers of Integrity. It's the same statement about improving the roads and yet in 2026, again back to the beginning situation. In fifteen years a large number of drivers will be dead yet still had to pay the increase with no return on their investment of experiencing any improvement while waiting. Sometimes 6 to 8 tolls a day for each week for years. Thank you for the opportunity to have my say.
07/16/26	Jeanne Fec	60558					X	X		the use of a repair material that is driven by technology, durability and sustainability	Oppose	It is not just the initial increase that irks me, it is the incremental inflation assessment every two years! Get your act together. I have to travel to Indiana from the Western suburbs frequently and I do not have an alternative. I've lived next to the Tri State Tollway for 30 years, put up with the noise, fumes, constant construction and Tolls. would really rather be taking a train back and forth to Indiana.
07/16/26	Joseph D Wentworth	60545		X	X		X				Oppose	
07/16/26	Michael	61109					X	X		Less construction.	Oppose	Please don't raise it more. We already don't see that money come back.
07/16/26	Keith	60108	X	X					X		Oppose	
07/16/26	Marge Roe	60554	X				X		X		Oppose	
07/16/26	Luis Miranda	60714	X		X		X				Neutral	Raising toll prices right now is bad for families dealing with high inflation and gas prices. Instead of sudden spikes, toll hikes should start small (prorated from the year's start) and then rise slowly each year at a steady rate tied to inflation and gas costs!
07/16/26	Luis	60123	X		X		X				Oppose	Every one already pays thousands of dollars yearly on a toll it's ridiculous that with all the money funneled from tolls they want to increase the rate higher trucks already pay a high value thousands of trucks dayly multiple tolls a day and they still want to add increases let see really where is the money going and whose lining their pockets before all this increases come
07/16/26	Pat Z	60007		X			X			Efficient processes to reduce cost. Get the current road construction completedd	Oppose	There needs to be a review of how the current funds used and hiw effectively your department functiond
07/16/26	Cathy Jones	60056			X	X	X				Oppose	Raising the tolls is not a solution. With all the huge project the tollway has undertaken over the past years, there should be no reason to strain the commuters anymore than they already do. Take on less projects! The roads need LESS construction
07/16/26		60047				X	X			Nothing besides standard maintenance	Oppose	
07/16/26	Julieta	60415	X		X		X				Oppose	The cost of living is so high a lot of people goes through more than one toll this will hurt families financial situation pretty bad
07/16/26		61360	X		X		X				Neutral	Use the toll money for ROAD MAINTENANCE & NOTHING ELSE!
07/16/26	Nicolas Rosy	60139	X			X	X				Oppose	I think that not all major tollways need to be supported. Perhaps only the busiest, which in my opinion is I-290
07/16/26	Tee	60173			X	X	X				Oppose	Aside from the fact that most people don't heed another expense in this economy this sounds like a terrible idea thinking about how much construction this will require. 15 years is a very long time to see a return on this investment toll payers would be making with increased prices
07/16/26	Ryan Soderberg	61115	X				X			City streets matter	Oppose	We already pay alot in taxes here in Illinois for road repair. How about we focus on repairing our atrociously bad city streets before spending more money on the already functional highway!

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/16/26	Kurt Strong	53147			X		X			Not to pay tolls	Oppose	It is my understanding that the toll roads around Chicago were to be temporary when they were first proposed. What a joke. This "monster" is out of control. It is nothing but a mechanism to steal money from ordinary people who are forced to use these roads. And, to give jobs and money to the people who are in power. When will it all end? No wonder IL is a state where its citizens leave at the first opportunity. I do my best to avoid going anywhere in IL, and I almost always drive around Chicago when I get the chance. IL is a failed state.
07/16/26	Mike Fletcher	60181				X	X			No toll, Freeway	Oppose	
07/16/26	Sheryl Hansen	61533	X		X		X				Oppose	
07/16/26	Davilyn Freeman	60517					X	X		Less Tollway Prices	Oppose	The State of Illinois can find money elsewhere, rather than to increase tolls and taxes. It is already expensive to drive now days. Increase in tolls is ridiculous and a money grab from state. Find another way to fund these projects from the billions you already suck out of tax payers.
07/16/26	merry kruschke	60609	X				X			better managed and efficient using funds already collected	Oppose	tolls - decades ago - were promised as temporary. Making them perm and raising rates in unacceptable.
07/16/26	Michael E	60103	X	X			X				Oppose	Tolls revenue should managed properly..private companies manage their revenues, eliminate waste, and invest intelligently.. government should do the same.
07/16/26	Mike Messina	60487	X		X		X				Oppose	Illinois just loves ripping of the people with all their bullshit! Bunch of crooks!
07/16/26	Gregory Bullis	61073	X			X	X				Oppose	The AUTOMATIC EVERY OTHER YEAR INCREASES are NOT acceptable . Voters, not appointed board members , should decide whether a raise in tolls is warranted. Inflation is already rampant and causing average people great hardships . This state will end up destroying itself with second highest property taxes in the country, automatic increases in gasoline taxes, and now, proposed automatic tollway increases . The cessation of tolls in 1973 was deceitful. With the heavy reliance on Transport Trucking, raising the tolls on them will inevitably raise prices in the goods they are transporting. The continued increases in taxes and fees the average person must deal with is just not sustainable . I have frequently traveled the interstate in Wisconsin, which has No Tolls,the only difference in the driving experience is the damned tolls in IL. Illinois needs to clean up its corruption,cronyism and indiscriminate spending sprees to give the good people of IL relief from relentless fees and taxation that is driving working families to flee the state in search of a better way of life.
07/16/26		60193	X				X		X		Oppose	
07/16/26	Landon hanton	60453			X		X			No tolls	Oppose	
07/16/26	Tina	60435	X			X	X				Oppose	current funds have not been used for keeping roads safe for years and the $ increase hurts more working people. Also, with no "attendant stations" family, friends from out of town are getting high fines using the tolls. ----no matter what you try, will never lessen traffic flow/accidents etc.....
07/16/26	JECEL CASTRO PARRISH	60440	X		X		X				Oppose	The cost of living has been rapidly increasing, food, gas, housing. But my paycheck has not adjusted to the increased cost of living. Now IPASS wants a piece of the pie to take more of the consumers' earning. I personally am now living paycheck to paycheck making it difficult to live day to day. So, yes, I oppose the rate increase to the toll rates. Please do not increase the toll rates.
07/16/26	Li-En Tai	60123	X				X			shorter driving times in certian cases	Oppose	Please oppose this increase and do not allow future automatic increases. Illinois citizens and business will vote out government representatives with these increases as it hurts them. With the regular "tax" increase of the tolls in the future and the already regular annual gas tax increases, we are hurting already stretched residents and lose businesses to other states with lower costs.
07/16/26	R	60545			X	X	X				Oppose	

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/16/26	Eric Raver	60152	X			X	X				Oppose	To me this rate increase is an absolute outrage!!!! I understand that it has been sometime without an increase but not to hit drivers of with an egregious increase over such a short period of time in my opinion is outrageous! I am not opposed to a cost increase if their an absolute guarantee that it will go to roads, and roads only. The Illinois state government is corrupt entity that will extract this money for its own purpose. I am opposed to this kind of increase, and I will plan to attend these meetings and stir up additional outrage on social media against this!
07/16/26	George Coutré	62326	X	X					X		Oppose	Stop breaking the backs of Illinois residents.
07/16/26	Marks	60107	X		X		X				Oppose	
07/16/26	Nicole Yaniz	60448			X	X	X				Oppose	Absolutely hard no!!!!!!
07/16/26	Antonio N Yaniz	60448			X	X	X				Oppose	
07/16/26	Analia Yaniz	60448	X			X	X				Oppose	
07/16/26	Mahesh Kilaru	60067	X			X	X				Oppose	
07/16/26	Antonio L Yaniz	60448			X	X	X				Oppose	
07/16/26	Jeff Damhoff	60467	X				X			fair toll rates and nothing automatic as far as price increases	Oppose	Work on reducing spending and making smart financial decisions. The rest of us have to do it and so should you. Come back when you have reasonable increase proposals.
07/16/26	James Beck	60618	X		X		X				Oppose	We are getting nickel and dimed enough! Please find another way to fund this project of yours....
07/16/26	Darek Wasilewski	60005	X		X		X				Oppose	These politicians are a complete joke and scam artists who only want to fill the pockets.
07/16/26	Jason	61108			X		X	X			Oppose	The cost of tolls are getting out of hand. Why is the northern 1/2, the only toll part? What is being done with the money that is collected now?
07/16/26	Efrain Zambrano	60423	X		X		X				Oppose	
07/16/26	Lee Erickson	61115	X	X			X				Oppose	Nope
07/16/26	Joseph Morici	60169-6905			X		X		X		Oppose	
07/16/26	Paul Elza	60634	X		X		X				Oppose	Illinois is already one of the highest taxed states in the country. As a daily user of the tollway, this cost incease would personally cost me an additional $800 a year. We continue to siphon money away from the programs they were intended to fund and then continue to raise the cost to replace the money that was taken for other projects / programs. Instead of raising tolls, what is the tollway doing to reduce or control thier expenses?
07/16/26		60051			X		X		X		Oppose	FUCK YOU Illinois already over charges for everything Taxes, Tolls, My children cannot afford anything now and I am on retirement cannot afford any more increases.
07/16/26		60142	X				X			Not being ripped off to use the road	Oppose	An increase will mean I avoid using the toll road all together. An increase with already high prices is insane.
07/16/26	Aidan Gates	60450	X				X	X			Oppose	Would be stupidly increased for really nothing to show for it, roads are nasty and covered in potholes so I don’t see a purpose in increasing it if we aren’t using the money efficiently why would chranging more change anything
07/16/26	Nicholas Russell	60431	X			X	X				Oppose	I strongly opposed this increase. The capital program is unnecessary and wasteful. We pay enough taxes and tolls already, an almost 50% increase is unacceptable.
07/16/26	NICK MUGAVERO	60188			X		X			NOT PAYING FULL TOLL FOR TWO MILES OF USAGE	Oppose	These tolls were intended to be temporary and were supposed to be removed once the construction bonds were paid off. The state is garbage and even though I am a democrat it cannot go unnoticed how poorly democrats run states and take advantage of the people who live in it
07/16/26	Carl	60126			X		X			No Tolls	Oppose	The tolls were supposed to be phased out years ago. By paying tolls on the current roadways, the rest of Illinois does not cost share the maintenance/improvement for these roads; however, as a tax payer in Illinois, I still fund maintenance/improvement costs for every other state road in Illinois. This is basically an unjust tax and increasing it is a bogus money grab. Tollways should be eliminated and all costs associated with maintenance/improvement work should flow through the same processes as all other state roads.
07/16/26	Simon Gersib	60563	X		X	X					Support	

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/16/26	Paul Jaenicke	60439			X	X	X				Oppose	Illinois taxpayers in the Chicago area are so heavily taxed now, that this proposal seems unfair. It's getting difficult to live in this state with taxes constantly going up.
07/16/26	Tarann McSmith	60477			X	X	X				Oppose	We just had a hike it's getting unaffordable
07/16/26	Joseph J Engerman Jr	60453	X		X		X				Oppose	I can't afford it now. No matter how much they increase the tolls they don't take of them anyway. If it is approved I won't use the tollways at all.
07/16/26	Brian	60048	X		X		X				Oppose	Illinois already taxes its citizens too much. This just another way to take more money from us.
07/16/26	Steve Hoxworth	60545	X		X		X				Oppose	This is another example of corruption in action
07/16/26	Charles	62934	X		X		X				Oppose	
07/16/26	Bryan Lembke	60050-6408	X			X	X				Oppose	Find more spending efficiencies, eliminate fraud and optimize operations before asking taxpayers to continue to pay MORE.
07/16/26	Ellen	60630			X	X	X				Oppose	
07/16/26	Jeff Romani	60007	X		X		X				Oppose	I am against any toll increase.
07/16/26	James Svehla	60126					X		X	Lower the cost.	Oppose	Against the toll increase. Cut spending. I believe the board should be elected.
07/16/26	Gail Pepalis	60062	X	X		X					Support	I'm 82 yr old and love the convenience the tollway offers: no stoplights. I may not live long enough to reap the rewards of the finished product, however, my children and grands will.
07/16/26	Ilhana Mohamadeen	60445	X			X				for the money that is collected daily our roads should be the envy of the world pristeen condition and clean, futuristic.	Neutral	please clean and update the bulbs on the decretive lights going on and off the veterans memorial bridge. it should be clean bright and noticeable, instead it looks neglected
07/16/26	J Miller	61081	X				X			I avoid the tolls due to the cost ALREADY	Oppose	THE KING PRICKSTER IS TAXING US TO DEATH LITERALLY
07/16/26	Laetitia Benberry	60506	X				X		X		Oppose	I think that the tolls are already high and that the $0.45 toll increase is definitely too high, maybe a $0.25 increase would be a reasonable compromise. I think that the possibility of an automatic every 2 year increase would be a horrible burden on hardworking lower and middle class citizens of Illinois who are struggling living paycheck to paycheck. Please do not increase the tolls, it is already very expensive and difficult to live and work in Illinois (our unemployment rate is higher than our surrounding Midwest states) please don't make it even harder for working people to make ends meet. Quite a few of my family and friends have left to escape the high cost of living here. I think that you should at least compromise on the amount of the toll increase and not automatically increase the tolls every two years.
07/16/26	Larry Vinson	60440	X		X		X				Oppose	There should in no way shape or form be automatic price increases. Enough is enough. Stop nickel and diming Illinois residents. Learn to live within your means.
07/16/26	Colin Green	60126			X		X			No tolls	Oppose	
07/16/26	David Torres	60131	X				X			Not seeing more tolls every 2 miles	Oppose	Learn how to spend the multi millions already earned to what it was originally supposed to, instead of squandering and stealing tax payers hard earned money. Funny thing about socialism, it fine and dandy until the cash cow goes broke or leaves.
07/16/26	Rick Male Kieras	60467			X		X			After Tollway being paid off, it was to be "FREE"	Oppose	After Tollway being paid off, IT WAS TO BE A "FREE ROAD"
07/16/26	Crystal	60641	X		X		X				Oppose	We have a serious affordability crisis right now; price's are going up on everything! Do you want fewer people using the toll roads? I think you had better have a really compelling reason to raise rates before subjecting us all to higher prices right now, and I don't think you do.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/16/26	Catherine Miller	60440	X				X			LONG standing road repairs like MI and WI do without taxing.	Oppose	We are already paying way too much for tolls. Illinois Citizens are being squeezed to death until we break. The quality of road resurfacing is of poor quality compared to other states like Michigan and Wisconsin road surfaces that do not even charge tolls. The minimal longevity of these repairs are not long withstanding. Always cutting out sections of roads that failed with rectangular patches and constant pot hole formations. Just not worth it any longer! If this goes through, me and a lot of others I know will not be using the toll roads and what good is it then? (Other than paying more for gas with the increase) This makes no sense and is too long standing time wise to even consider along with all of other taxes on gas per gallon, my water bill with American Water and other home utilities and property taxes. We are being taxed out of our homes. Mass exodus from Illinois is going to happen and is a thing! Including me!
07/16/26	Patti	60061	X				X		X		Oppose	To double something is absurd. These tollways were supposed to be temporary!
07/16/26	Ram	60564			X	X	X				Oppose	Don’t want anymore hike. It’s already too costly.
07/16/26	Jim Akers	61115				X	X			No tolls	Oppose	
07/16/26	George Bartnicki	60056			X		X			Get rid of tolls like you promised	Oppose	Will stop using tolls!
07/16/26		60014		X		X	X				Oppose	
07/16/26	Allene Slagle	54234	X			X	X				Oppose	Tolls are expensive enough as it is, and the amount of the proposed increase is outrageous. While traveling short distances I will avoid toll roads.
07/16/26	Aaron Sidehill	60521	X				X			Transparent Illinois government	Oppose	Stop raising the rates. Tollways are never supposed to be a permanent solution
07/16/26		60642	X		X			X			Support	
07/16/26	Matt Slys	60156	X			X	X				Oppose	This state is completely mismanaged by those imbeciles in the government. They tax the crap out of the citizens because they cannot run this state, which is a financial ruin. They will tax us for anything. These fat bastards should be in jail long time ago.
07/16/26	Kimberly Kurtzweil	60453	X		X		X				Oppose	Illinois families do not need And cannot afford another toll hike.
07/16/26	A. Karavitis	60154	X		X		X				Oppose	The tolls are already high. With existing factors like rising insurance rates and fuel costs, raising tolls only adds to the affordability issue.
07/16/26	John	60523	X		X		X				Oppose	
07/16/26	Ed Morgan	60643	X		X		X				Oppose	This is ridiculous! It was supposed to be free at this point, then you had public meetings packed with contractors for this current project that never ends!
07/16/26		61115			X		X		X		Oppose	Incredible unfair prices already
07/16/26	Greg Norton	60118			X		X			free access as advertised in the 1950s	Oppose	tax the rich to pay for it
07/16/26	Carlos	60510			X	X	X				Oppose	
07/16/26	Kevin Montano	60099	X			X	X				Neutral	
07/16/26		60543	X	X			X				Oppose	Projects are untimely They continue to open new jobs instead of finishing
07/16/26	Maureen Jacobsen	60561	X		X		X				Oppose	
07/16/26	Helen Sheridan	60613					X		X	More patrols to arrest truck drivers	Oppose	Start cutting expenses across the board. Get rid of unions, merge agencies, to many higher education groups(universities, colleges, jr colleges), time to shut some down.
07/16/26	Victoria kurschner	60002	X			X	X				Oppose	It’s literally stealing when you already have billions for transportation available that you haven’t used…you should be decreasing tolls
07/16/26	Linda Getner	60103	X		X		X				Oppose	Our taxes are supposed to pay for the roads. Have corporations that pay minimal or no taxes pay for them.
07/16/26	Nicole Lakics	46580	X		X		X				Oppose	I thought tolls were temporary from when they first started. Now an increase?!
07/16/26	Oakley Hallstrom	61081	X		X		X				Oppose	The cost of living is already insane thanks to reckless government spending. Adding to that burden doesn’t help anyone. Illinois roads are terrible but we don’t need to pay more. The answer is to reduce Illinois socialist spending. That would free up plenty of money for decent roads.
07/16/26		60435	X	X	X						Support	

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/16/26		60532	X				X		X		Support	
07/16/26	Alvin Nguyen	60614	X			X		X			Oppose	These taxes should be levied on corporations that haul their goods on heavy semi-trucks that actually damage the road. The working people of Illinois should not be footing the bill when economic crisis is affecting a majority of citizens. Failed construction projects of mega highways and massive interchanges that hardly budged commute times is not the problem of everyday Illinoisians.
07/16/26	Brian Wolford	60510			X		X			No tolls	Oppose	JB is awful!
07/16/26	Geoffrey M Strotman	60058	X				X			Less tolls!	Oppose	Stop taking our money. Run the government properly and you won't have to steal from the people.
07/16/26	Josh S	60630					X		X	Low cost if none.	Oppose	No increase!
07/16/26	Sagar	60502	X				X		X		Oppose	
07/17/26	Cristino Marcia	60634	X		X		X				Oppose	I oppose toll rate hikes.
07/17/26	Dominic Leone	60651	X		X		X				Oppose	I would rather you guys make i80 a toll way instead of this. Honestly, do both if you're gonna do this to begin with.
07/17/26	R Heidenes	60174	X		X		X				Oppose	With all costs increasing, only do if necessary.
07/17/26		60439	X		X		X				Oppose	
07/17/26	raul	60506	X		X		X				Oppose	
07/17/26	Darlene Johnson	60586			X		X		X		Oppose	All we need is a new governor instead of the money grabbing one we have now. That's all he knows is to keep raising taxes on everything.
07/17/26		60004	X			X	X				Oppose	
07/17/26	Dustin Hachmeister	60188	X		X		X				Oppose	People in Illinois pay some of the highest taxes in the us and the tollway is saying they don't get any tax money is crazy. The tolls were never meant to be permanent or so we were told. I was doing some simple math and one toll easily takes in 5 million a month. How is this not enough? Greed is the reason.
07/17/26	Kathy	61080		X			X	X			Oppose	
07/17/26	George Matkov	60093	X				X		X		Oppose	Strongly oppose!! Tolls should be phased out and toll roads eliminated as originally promised!
07/17/26	Joe	60487					X		X	Crooks	Oppose	Pritzker you corrupt piece of shit!
07/17/26	Mike Zuniga	60629	X	X					X		Oppose	There are no longer cashiers and fares are paid electronically.
07/17/26		53214					X	X	X		Oppose	Everything is already expensive right now and milwaukee already has this huge project and construction and limited lanes for increased traffic before ground is even broken in many areas and it is affecting daily life negatively, please do not add more of this and take more from the working people that are already struggling to get by right now and find reasons to keep going
07/17/26	Tim Hoyne	60148	X			X	X				Oppose	We already pay one of the highest gas taxes in the nation. Why is this money not being used?? I will not support endless open ended, long projects that do not help.
07/17/26	Nick	60410			X		X		X		Oppose	
07/17/26	John Gerardi	60140	X			X	X				Oppose	IL taxes and charges us residents too much and the time may soon be coming that I have to move out of state to survive. Tolls were supposed to be temporary when they were introduced and IL government spending is out of control. Thank you for listening
07/17/26	Tom	60016	X		X		X				Oppose	Tolls cost too much all ready.
07/17/26	Kevin Schlenger	60439	X				X			Affordability	Oppose	For a State agency that supposedly operates in the black every year with a surplus of funds, and totally funded by tolls, where are the surplus funds? They do not go back into the General Fund as other agencies. I will avoid the Tollway as much as possible and only use in an emergency. The Tollway is a political dumping ground and the extra money collected needs to pay for the extra employees they hire.
07/17/26	Lucinda Badillo	60442	X		X		X				Oppose	Illinois is always increasing costs on its residents. This is just another. There will be no betterment for us just more money out of our pockets
07/17/26	Jean Katzenberger	53115	X						X	Ease of use when using the I Pass	Oppose	We love the I Pass when traveling thru Illinois because it is so easy with no stops. But it always shocks us as to how much it costs considering most roads in most states don't charge anything!

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/17/26	Buerkle	61115	X			X	X				Oppose	
07/17/26	Jeremy Norquist	60103		X	X		X				Oppose	
07/17/26	Andrew	61008	X		X		X				Oppose	Governor Pritzker is a joke get him out of office all he does is raise taxes not to do anything with the money except pad his cronies pockets
07/17/26	Diana Rudnick	60046	X				X		X		Support	I am SO sad when I see for sale signs EVERYWHERE around us. If we weren't so tied to family and our home we would seriously consider moving to another state as well. Illinois is letting working families down so hard. Now our men and women that have to travel the tollway for jobs will have to pay even more. Nope. You don't have to spend the money just because it is in the budget! You need to make the repairs and tear ups that are necessary only not just because the money is there already. "Our budget can be less this year" said no department ever!
07/17/26	Susan Sperl	60540	X	X			X				Oppose	I avoid the toll road as much as possible.
07/17/26	Gerardo	60505	X	X	X						Support	I support it more open jobs
07/17/26	Luis Lozano	60139	X	X	X						Support	We support
07/17/26	Alejandro Munoz	60804	X		X				X		Support	
07/17/26	Kathleen Pann	53511	X				X		X		Neutral	Agree an increase is warranted however $.45 per toll, plus biannual increases after is excessive especially for me only using such a small portion of I90/I39 the bulk of the time.
07/17/26	Raj K	60564	X		X		X				Oppose	
07/17/26	KAthy Crosby	60050			X	X				LESS CONSTRUCTION GET IT RIGHT THE FIRST TIME	Oppose	Lived here for 68 years Last Toll increase was suppose to be last then tolls were going to be obsolete. Road work ALWAYS TRAFFIC ALWAYS unless you travel from 12am to 4am ILLINOIS ROAD SYSTEM SUCKS
07/17/26	Gavin	60189	X		X		X				Oppose	These roads have been paid for multiple times over.
07/17/26	Dom	60136			X	X	X				Oppose	This increase is beyond ridiculous! I take 4 tolls to work and back home 6 times a week! I won't be able to afford some of the necessities if this passes, Illinois taxes are killing us already, now you're trying to kill us with this ??? NO to the hikes!
07/17/26		60142	X				X			Law enforcement (ISP)	Oppose	Illinoisans are already suffering economically, while prices continue to go up on essential commodities like food and energy. Find other ways to fund this project. I'm sure you can trim the fat with current projects and/or spending.
07/17/26	Jasmine	60021		X	X	X					Oppose	Do not increase tolls. Everything is expensive
07/17/26	Martin Jacob	44143	X			X	X				Neutral	Do the proposed cost increases affect tolls in other states such as Indiana, Ohio, Florida, etc.?
07/17/26		60110	X				X			Low cost to driver	Oppose	Use the tax hikes you've already set, including the fact we have the highest tax rates and gas rates in the surrounding states.
07/17/26	John	60586	X		X					Responsibility of the tollway to control its funding to not have a price increase	Oppose	Illinois does NOT need this! We are being over taxed and inflation is killing the residents. I never hear any one say "I'm moving to Illinois because it's great. ". Residents leave for a reason. This will be mine. Pritzker must be behind this.
07/17/26	Thomas Aebly	61062	X		X		X				Oppose	Many states line Wisconsin are able to maintain better roads and they have no tolls with lower taxes overall. Get rid of the illegals and we can afford to pay for the roads with the money you take in now. Get people off of welfare and make them get a job. Everything is not free and those of us who work shouldn't have to pay for everyone else who is capable of paying. This is madness.
07/17/26		60659	X		X		X				Oppose	
07/17/26	Wendy Juern	60018	X			X	X				Oppose	Your rate hike increases are absurd! You will be contributing to increased inflation on all items sold in illinois! Quit overspending and cut out the fat in your budgets. I will have to avoid tollways completely if these rate hikes become effective.
07/17/26	Lars trent	60516	X			X	X				Oppose	Im a local 150 operator. My union supports raising tolls because our president is on board. All he cares about is power and more work for unions. I can hardly afford tollway but can't get around without it. Please stop raising tolls. Make laws money can only be used for tollway!

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/17/26	DeeDee	60440				X	X			Affordability, Affordability	Oppose	Stop raising tolls! Enough is enough! Nothing ever gets improved with all these increases, except for lining the pockets of crooked politicians and all their buddies.
07/17/26	Ralph Anderson	60464	X		X		X				Oppose	Please do not raise our cost to live in this state. You are driving people out which ultimately reduces revenue to the state.
07/17/26	Vicki Klingbeil	61108	X		X		X				Oppose	Stop the overtaxation on the citizens of Illinois. No more tolls period.
07/17/26	chris bice	60543	X		X		X				Oppose	NO toll increases! Taxes/tolls hit my working class minority family hard! Pritzker just diverted $308 million from the Road Fund to the general fund! Since 1973, the Illinois Tollway has collected nearly $20.7 billion more than required for maintenance and operations. THIS IS NOT FAIR OR EQUITABLE! Gas tax increase, licence plate fee increase, tire tax, sales tax to buy a car, your smothering us! We were promised tolls were TEMPORARY until the road was paid for when the toll idea was sold to us.
07/17/26	David Rintz	60558			X		X			Affordability for drivers	Oppose	Do not increase tolls
07/17/26	David Ocasio	60193	X				X			Overtaxation	Oppose	How could you possibly consider raising taxes in this state. Focus on corruption, efficiencies, and reducing government spending and or downsizing. Stop destroying the middle class in this state!
07/17/26	Kim Teg	60012-1343				X	X			Affordability	Oppose	Absolutely no increase. The toll money is already squandered. Additional funds won't change that
07/17/26	IUSTIN BACIU	60004	X		X		X				Oppose	WHERE DID THIS MONEY COME FROM?>>>> FROM OUR TAXES OR MORE TAXES TO PAY. THIS IS ridiculous.
07/17/26	Kris Mitoraj	60448		X	X		X				Oppose	You must be joking. Lanes closed off no one working. These were supposed to be shut down YEARS ago you just keep tearing up roads that are fine to pretend you need the money. Patronage jobs serving no purpose.
07/17/26	ana	60525	X		X		X				Oppose	I do not believe in having our tolls raised and being raised every two years. Trying to get to work is going to be more expensive, we pays Illinois taxes and this should cover the tollways.
07/17/26	Steve	61911	X			X	X				Oppose	As an Illinois resident who pays an exorbitant amount of gas tax in order to maintain Illinois roadways it is an INSULT to me that the road funds continue to be diverted to "fix" other areas of the budget. Then you come back and try to charge us even more for a problem that should not exist. Leave the money in the highway fund and tell the politicians to stop giving money away that this state does not have. CUT THE SPENDING, please cut the frivolous and corrupt spending in this state.
07/17/26	Richie	60156			X		X			Price	Oppose	
07/17/26	Richard Selover SR	60647	X		X		X				Oppose	The roads are not good by any means. There are potholes constantly, and road debris. Traffic is at an all time high and you want to raise the price for a toll. How does that make sense?
07/17/26	Brian K Sullivan	60101-5716	X		X		X				Oppose	45 cents now and an additional increase every 2 years. You guys are criminals. This state is out of control with taxes.
07/17/26	Vince	Collaro			X	X	X				Oppose	Chicago and roadways have been in a construction longer than I've been alive. Nothing gets done and all we do is sit in traffic because people don't know how to merge. The tollway was only supposed to be temporary to pay for construction of the new roadways yet we've been paying them for the last 40 years. It's nothing but a money grab you guys get more than enough money from the state stop taking it from my pocket. You're one I've only 10 states that have tollways it's a Ponzi scheme.
07/17/26	Andy Guerrero	60446	X		X		X				Oppose	Illinois does not need to compete for most expensive state to live in,
07/17/26	Tom neal	60517	X		X		X				Oppose	I support the road improvements yet not funded by toll increases. Evaluate inefficient or ineffective spending elsewhere. At some point the state needs to operate within a flat (or decreasing) budget to prevent ever rising costs on our state citizens. That time is now and should be welcome by all state representatives. The easy answer is to increase taxes. The hard work is prioritizing programs, shifting money and making the tough decisions on what the fund when. It's hard work time
07/17/26	Keli P	60463	X		X		X				Oppose	

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/17/26		60148	X		X		X				Oppose	Even before the “need” to get more money, the roads have barely been fixed. Workers take forever and there are so many potholes all over the place.
07/17/26	Brian Peschke	60140	X	X						Lower tolls, fix the non tollway roads	Oppose	Why should we give you more money aren't the fuel tax and the current tax enough. Why don't you you at your budgets and cut out the waste first. Its the state there wasteful spending in there in morebthan one place. Please don't give me another reason to leave this state, lastly let Chicago figure their own budget short falls not the rest of the state.
07/17/26	TC	60462			X	X	X				Oppose	No. Absolutely not. The Illinois Tollway needs to evaluate it's current spending and cut unnecessary jobs or bloated contracts. From my understanding is that years ago, the tollway was meant to be temporary. Instead, we've gotten toll increases and roads under construction for years. Many times, there are long stretches where work is NOT being done on torn up roads. Instead of hitting up the people of Illinois for MORE money, look inward and restructure.
07/17/26	ralph lowers	61350	X			X	X				Oppose	enough is enough!
07/17/26	Karen Gehrke	60542	X			X	X				Oppose	
07/17/26	Natalie	60607	X		X		X				Oppose	I think you need people who actually budget and ensure the current toll monies go to the appropriately allotted projects and not people’s pockets.
07/17/26		60613	X		X	X					Support	
07/17/26	Michelle Graham	66208	X	X		X					Support	
07/17/26	Kristen North	60451		X			X			Quick route to specific locations.	Oppose	The tollway system is getting unaffordable. I’m on a fixed income. I am starting to avoid using the tollway system whenever I can or changing plans so I’m not traveling to many of my favorite places as often anymore. This increase will reduce travel and subsequently have an impact on businesses.
07/17/26		60201	X				X			Less construction - see comment below	Oppose	Road beds should be at least 16” deep & would last much longer — as in Germany. Anything less is planned obsolescence and a give away to the trade unions. Typical IL corruption
07/17/26	Frank Piszczor	60056	X		X		X				Oppose	The history off the Illinois Tollway system shows that this plan will not work and will further entrench itself in our "driving culture". Pay off the current bonds please before incurring more debt and making it more difficult for us drivers.
07/17/26	Jenni	60172	X			X	X				Oppose	We pay enough for tolls already. The roads are still in terrible conditions, traffic is terrible, and it seems like it's only getting worse. Now, we are expected to pay more money. I would seriously like to see where this money is going! How much is going into the politicians pockets? Is Pritzker getting his share? This is just another reason people will be leaving the State. Illinois has become a nightmare to live in.
07/17/26	Michael Miskell	60451	X		X		X				Oppose	Not needed bogus tax by Fatboy gov!
07/17/26	Heczen	60188	X			X	X				Oppose	
07/17/26	Thomas E Teune	60189	X			X	X				Oppose	
07/17/26	Michael Caliendo	60517				X		X	X		Oppose	
07/17/26	James	60646	X		X		X				Oppose	Get your shit together. This must stop. At what point do you group of fucking inbred retards realize that continuing to tax people won’t work?
07/17/26	Samantha rausch	61350			X	X	X				Oppose	This states budget needs to be better managed. Stop being financially irresponsible and then placing that burden on your tax payers. IPASS was supposed to be temporary. The amount of money that is already being made for all of us to sit in traffic is outrageous. If the tolls are increased I will drive longer to avoid paying them.
07/17/26	Mary	60441	X				X			Convenience	Oppose	All for making improvements but a 30 percent increase outweighs what working people can afford added to the cost of gas, etc. Foresee a lot of people skipping tolls and finding other routes. Please reconsider the cost proposal to regular drivers.
07/17/26	Daniel	60060	X		X	X					Oppose	It is bewildering why commercial vehicles would have a lesser increase than personal vehicles. This will make me strongly consider bypassing the tollway at every opportunity
07/17/26	Daniel B	60156	X		X		X				Oppose	People can’t afford anything now and you’re gonna charge them more for driving??? Crazy!!!!
07/17/26	James Walker	53179				X	X			None	Oppose	These rate increases are too high too quickly.
07/17/26	Mary Denaer	60565	X			X	X				Support	I am in favor of the increase but not in favor of automatic increases every 2 years
07/17/26	Daniel Overstreet	60543			X		X			Less tolls.	Oppose	

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/17/26	Rebecca Luginbill	60506	X				X			Easy access to Chicago	Oppose	
07/17/26	David Citizen	60645			X	X	X				Oppose	You're a bunch of liars. The original plan for the tollway was have tolls collected until the expenses were paid off. Now, not only do you continue to collect the tolls, but you're demanding a huge increase. This is the dishonest government that we get in Illinois. Entitled functionaries who just tax and tax and tax. Don't raise the tolls.
07/17/26	Owen	60515	X		X	X					Oppose	You can’t continue to tax yourself out of the mistakes you’ve made
07/17/26	Sandra	60565	X			X	X				Oppose	Other states manage to have functional safe highways without gouging drivers. Maybe stop the grift of enriching officials.
07/17/26	Lisa	60025	X				X		X		Oppose	
07/17/26	Mark Miller	60035	X		X		X				Oppose	
07/17/26	Gary Cole	60188			X		X			Fix the roads properly, stop constant construction!!!	Oppose	People are already leaving the state because we are over taxed. Use the money you already have. Tell the Governor to learn how to budget appropriately like we have to!!!!
07/17/26	Evan	60422	X		X			X			Support	
07/17/26	John Kramarz	60634	X				X			Free tollway	Oppose	Please stop raising more and more money I admire states that have free tollway and well maintained
07/17/26	Brian	60448	X		X		X				Oppose	No trust in Illinois
07/17/26	Kathy Lachowicz	60463	X	X			X				Oppose	Just like the public, we have to pay our bills with what we have, we don't have a way to "get more" money. We work with what we have, so too should the toll system. Perhaps you need to do a reassessment of what your earn vs what you spend. This increase is just not fair to the customers or truckers who use the tollway daily. You know the price increase will increase other things and the residents will end up paying anyway. Perhaps there is a better way, a financial loan or something, The customers cannot continue to take on the responsiblity of the costl. What happens when customers find alternative ways to get where they want without paying a toll, you loose.
07/17/26		60640	X		X		X				Oppose	
07/17/26	Michael S Bares	60190	X		X		X				Neutral	Of course I don’t want an increase. The tollway was supposed to be abolished in1973. Does it really matter what I say? You’ll increase the tolls even if all the citizens of Illinois are against it. Hopefully the toll increases go towards the roads and nothing else. Time will tell.
07/17/26	Dolores Merino	60085	X				X		X		Oppose	It's ridiculous. It's only going to make Pritzker richer It definitely won't help the working people. Of course they hate us.
07/17/26	Ellen Klatt	61063	X	X			X				Oppose	Quit raising prices! Taxes go for this!!!!!!!
07/17/26	Jess	60119	X		X	X					Oppose	JUST STOP IT!!!! STOP ITTTTTTTTTT YOURE TAXING US TO DEATH. STOP IT
07/17/26	Enrique	60560	X		X			X			Neutral	Time to get cars off the roads investing in electric public transportation (railroad and bus services) from the suburbs and also within the City of Chicago. Don't build more roads, maintain what we have and reduce traffic with efficient public transportation. Look at cities like Paris, London, Barcelona, Milan, Madrid, Valencia, Liverpool, Munich, Berlin, etc. etc. etc. Forget oil is ruining the earth.
07/17/26	aguiar	60453					X		X	no more construction	Oppose	do not approve we need a break!!!~!
07/17/26	Richard Nemcek	60134	X				X			Keep transport ion cost low	Oppose	The cost of living is at an all time high. Now you want to initiate a program which will make it even higher. Incredibly tone deaf strategy. Increase the tolls which increases the cost of transportation for the next 15 years. Which increases the cost of goods and services which intern will be inflationary. A tax by anthother name in the state Illinois.
07/17/26	Ramesh Akula	60543			X	X	X				Oppose	Already paying tools and paying for gas due to traffic congestion. Taking consideration of economy this should not be approved
07/17/26	Gavin Grizzle	60914	X			X	X				Support	
07/17/26	Alex T. Paschal	61021	X		X	X					Oppose	We are taxed to death. Cut the fat somewhere else.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/17/26	Julie	60540	X		X		X				Oppose	It's surprising to me that a fee for tolls that was supposed to disappear decades ago still continues to rise, even though your expenses have gone down. Far lesson employees to take toll money, and you're able to make interest on the money you hold for I passes. Who truly benefits, it smells of corruption.
07/17/26	Karen	60137	X			X	X				Oppose	
07/17/26	Judith Schramm	60452	X			X	X				Oppose	Illinois needs to learn to cut out waste and manage the money the have, not demand more.
07/17/26	Rebecca Kropidlowski	60148	X		X		X				Oppose	Illinois gets plenty of money to maintain roads, it is just not being spent well. "Of the sales tax revenue going toward public transportation, 85% will be dedicated to the Chicago region. The bill also calls for directing 90% of the expected $200 million in interest generated in the Road Fund to NITA, leaving 10% for the rest of the state." Shameful that Chicago is run so poorly that a 90/10 swing for the STATE is imposed. We've got bigger problems. Sadly looking to move out of state now. Shame on those in charge of poor spending.
07/17/26	Molly	60194			X	X	X				Oppose	Do not raise toll prices until construction is complete. And do not add more tolls and keep prices the same. I avoid tollways because drive time in most cases is longer than taking side roads, especially during construction.
07/17/26	Katie Littlefield	61073	X			X	X				Oppose	At a time when families are struggling with higher grocery bills, insurance costs, property taxes, and utility bills, this proposal shows you're out of touch with the people who fund this system.
07/17/26	Shari Campbell	60193	X		X		X				Oppose	We've been paying into this system, which was supposed to be temporary, for entirely too long. The Illinois tollway already has ENOUGH of our hard earned money. Emphatic no to increased toll cost. What about other resources they always say will cover the cost of road improvements???
07/17/26	Suzanne Wolcott	60647	X		X		X				Oppose	Working class Chicago and are getting taxed to death and are leaving in droves. Chicago will be the next Detroit if Pritzker and his fellow corrupt politicians are not careful
07/17/26	Jennifer Jones	61015	X			X	X				Oppose	This state needs to practice financial responsibility for its current budget not just increase taxes/fees especially when there is no accountability/transparency and/or review of current budgets. Trim the budget and pay for road repairs within the current budgets just like any family has to. Renegotiate with unions. We can't afford to live in this state now or in the future. And there isn't enough tourism in Illinois so it's just another tax/fee on the already taxed and taxed again working class of Illinois.
07/17/26	Phaedra Lecher	61114				X	X			Stop increasing our taxes and raising fees! It's disgusting!	Oppose	Raising tolls AGAIN is absurd! STOP taxing us to death! It is out of control!
07/17/26	james sandt	60173	X		X		X				Oppose	the tolls were supposed to be GONE by 1973!! we are taxed to death in this state. where is all the marijuana money going? gambling money? enough with increasing all these taxes! IL has some of the highest taxes (property, sales, etc). it is never-ending! it's bad enough we STILL have these tolls 53 yrs after we were told they'd be gone but you're continuing to raise them, when people can't even pay their bills as it is! you continue to pour salt on the wound and make things worse!
07/17/26	Rod Gossard	61252	X		X		X				Oppose	45 cents is to much for each toll That's a big increase. I feel .25 is good
07/17/26	Rachel LaMay	611"3	X				X			Less/No tolls	Oppose	I oppose this hike in toll cost.
07/17/26	Diane Wing	61008	X		X		X				Oppose	Please look into waste and inefficiency by the state of Illinois government concerning our roads
07/17/26	Andrew	60505	X		X	X					Oppose	I already pay taxes to register my vehicle and purchase my vehicle why the fuck should also pay to drive in the roads. Tolls should not even be a thing
07/17/26	Greg Gittleson	61109	X			X	X				Oppose	Too big of increase at this time when everything else is rising so fast mostly due to Iran problem that US government created. Find cheaper solutions for maintaining tollway at least until oil shortage problem is solved.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/17/26	Terry Denniger	60067	X			X	X				Oppose	Wisconsin was able.to improve their roads with no tolls why can't we do the same. If anything, keep everything the way it is or instead of increasing the cosyof tolls add more on 55 to St Louis, 57 through the center of Illinois or 80 towards Iowa. This way the state gets more money and it will be spread out throughout the entire state instead of just the Chicagoland area.and northern Illinois.
07/17/26	Mike Frost	60134	X			X	X				Oppose	
07/17/26	Stebin Thomas	60126		X	X					N/a	Oppose	Already taking good amount of money for toll.
07/17/26	Robert Caldwell	60106		X	X		X				Oppose	Toll ways was suppose to be temporary not a long term thing but now you guys have began to get more greedy and bold to raise and continue to raise price for your own gain it needs to come to a end or have a low set cost that never rises if not do away with it
07/17/26	Patti	61115	X		X		X				Oppose	Cut your waste and improve efficiency by looking at your own operations.
07/17/26	Aidee Perez	53143	X				X			Safety on roads ...good support for cars, trucks and help if something happens	Oppose	There are less people working in toll booths. Do not see fifference on roads. The toll keeps on going e ven higher. Seems some people are benefiting and it is not the people using the tolls
07/17/26	Janet Tomaskovic	60561		X		X				other	Oppose	shitty tax increase after shitty tax increase. I will start taking no-toll routes when possible. Time to move out of Illinois.
07/17/26	tom	60154					X		X	FREE	Oppose	ELIMINATE TOLLS ON ALL ILLINOIS ROADS!!
07/17/26	Bliss Dupes	60110			X	X	X				Oppose	Enough is enough. We have suffered through 30 years projects, that still continue, and we don't need anymore longterm projects right now while daily living costs are as much as they are. Take a break!!!
07/17/26	Shweta panchal	60564	X			X	X				Oppose	There are no significant changes in the roads i drive daily, just not finding the justifiable reason for an increase.
07/17/26	Karen Salzgeber	43440	X				X	X			Support	Understandable, necessary and modest increase.
07/17/26	Xavier	60431	X		X		X				Oppose	Where has my money been going all this time? I already pay tolls and this ridiculous income tax.
07/17/26	Jacob Durgan	60102	X			X	X				Oppose	It's already expensive to use the toll roads. Raising the price of the tolls will make it more difficult to afford commuting and seeing family members. Furthermore, it is disheartening that the hearings are mainly happening during the day with little warning. Many people who use the tollways will inevitably be at work and unable to attend. Lastly, it is frankly undemocratic to have this be a notice of prices raising rather than have it be on the ballot.
07/17/26	Skye	60411			X	X	X				Oppose	45 cents per roll increase is a significant increase. At that price point, you will be closing people out that already choose to pay $20 for a transponder and replenishments of their choice. With this proposal, I think that overall transponder use will decrease. For me, the costly upfront cost was worth it as I get a discount and if I see on Google maps a toll for $1, I know that I'm paying half because I have a transponder. With a 45¢ increase, I would just take my chances on a non toll road and increase my commuting time. Additionally, how are you going to prove that it will actually help maintain the roads? Do you propose the price increase of 45¢ until 2042? Not only will I not be able to have social security when I retire, now I have to pay $1 minimum in tolls for nearly 20 years??? That's a long time. Propose to get it from somewhere else. We already are paying high taxes for cook county. Inflation has made everything rise to astronomical prices, a gallon of gas is $4. Please find another solution.
07/17/26	La Donna Tittle	60649	X				X			Better drainage - NO puddles of water along 94 from Chicago to Detroit!	Oppose	Gas is already at an all time high thanks to the Trump administration! Tolls should NOT be increased at this time and NOT in 2027.... The cost of Gas, Groceries, Medical care, etc., are "out of control"! It's time to "pause for the cause"🙏🙏👏hank you!!!
07/17/26	Emily	60610	X		X		X				Oppose	Illinois already charges its taxpayers enough. Brandon Johnson is really reaching with this one.
07/17/26	Lorna Osborne	60954					X		X	Reasonable expenses to run the tollroads	Oppose	Would be good to publish the accounting books so people can see where the revenue you are currently receiving is going. Is it possible to see it? May be worthwhile to do an overhaul of the entire system and fix where you are bleeding money!

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/17/26	L Hall	60069			X		X			Fiscal Responsibility	Oppose	I can't reason why the toll system needs a rate increase as our system has been gaming individuals for years. Tolls are priced differently whether you have an iPass or not. Charge people from out of state and commercial vehicles more; not residents. I will not take the tollways if there is an increase and it will be easy for many lake county residents to do so; especially those whom you are trying to target. Maybe shuffle some of the money away from Brandon Johnson and/or use infrastructure monies from the Biden admin. We're taxed enough already by a one party system littered with corrupt politicians. Not sure who is lining their pockets with this money, but I'm tired of paying for the billionaire class and the lifestyle they keep. Guess I'll adjust my routes today. Later tollway.
07/17/26	Mary Posinger	60143	X				X			open road	Oppose	First of all, did you know that when the tollway system was to be free by '73? Whatever happened to that lie? Swept under the rug, I guess. But thank goodness I don't use the tool roads too often since they keep getting more expensive to drive. 390 is a JOKE! Because of the expensive tolls on that short portion, it is always empty but all the alternate traffic goes down Rohlwing Road (53) which leads to my home. Traffic on 53 in the evening commute is heavy and causes our 'local' stretch to become overly congested and in the high heat, the street buckles. Why don't the politicians stop raising taxes and tolls on us, the citizens, and start budgeting as we all have to do in our own households considering the inflation we are all dealing with today? Another point, stop greasing your own palms in order to make deals with third parties. I think we have all had enough! When is it going to stop? Gas is up; food is up; property taxes go up every year; homeowners insurance escalated over the years; and now you have the audacity to want to increase the tolls? REALLY? Bad timing, fellas! Cut the salaries of all political positions. Maybe there'd be some money for the roads. If they had to work like the rest of us, they'd be fired with the games they play. Of course the operative phrase here is "if they got caught" but we all know the history of our state and who has served time...don't we? At least you are giving us the opportunity to voice our opinion. More than I can say on other matters.
07/17/26	Inez	64131	X				X		X		Oppose	This may help those individuals of Illinois however those traveling in and out of Illinois are charged more than we should be. You send the notifications for payment out months after and we are charged double and triple the toll amount. The system already overcharges travelers and it's not fair.
07/17/26	Simcha Smolensky	60645			X	X	X				Oppose	I hear the profit numbers from the tollway as of now, and i think it is obscene that a toll increase is being asked for. No excuse when the tollway posted 1.1 Billion profit a couple of years ago to ask for more money. Wasn't the tollway supposed to be created years ago to build the road, then the toll would be abolished? Shame on you all for taking in over a billion in profit and still wanting more.
07/17/26	John Lee	51250			X	X	X				Oppose	I use the Illinois toll system while traveling from my home in Iowa to family in Michigan. Ever other state but Illinois has the hospitality not to charge travelers. Illinois does. It is also consistently the worst part of the journey. I'm not sure this increase will meaningfully improve things for our experience. Thanks for hearing us.
07/17/26		60633			X		X			It's not a good way to start things by increasing every year?	Oppose	I believe they increase of the toll. It's unacceptable because we as a customers not enough money to spend in the tollways so it's ridiculous to increase more and as a matter of fact every single year everything increases but our wages still in the same place while you guys get incentives all the time and we outside small business people get ripped off left and right ? So that is why I'm a pause to this type of things because the roadway should be free everyone cuz we already pay enough taxes and insurance which is not a later thing. But I still you guys want more and more and more when it's going to be enough?

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/17/26	Raymond	60016			X		X	X			Oppose	So, the original concept was essentially: Build the highways → pay off the debt with tolls → remove the tolls and make the roads free. Now I understand keeping the tolls to pay for the roads instead of getting grants to pay for progress. But to keep raising and raising and raising like everything else in this state is asinine.
07/17/26	Paula Hosnedl	60137		X	X		X				Oppose	The cost of driving on a toll way gets expensive on a daily basis. These increases will also put more traffic on local roads and will affect the maintenance of those roads over time.
07/17/26	Craig Phillips	60187	X			X			X		Support	
07/17/26	Oscar Lopez	60804	X			X	X				Oppose	We've already seen increased tolls in the last 5 years along with demolition of oasis stops. I dont support increasing toll payments while there's still unfinished construction along the 294 toll connecting to 290.
07/17/26	Steve Howard	60030			X		X		X		Oppose	The proposed increase in cost for passenger cars at the Waukegan Toll on I294 is ridiculous! It should either stay the same or be reduced. In turn, you can increase the cost for some of the other low-priced tolls. I travel to and from Wisconsin to visit my family. The current toll of $1.40 is excessive. I believe the main reason you charge more at this toll is to make commercial vehicles pay their fair share. They are the ones who cause the most wear and tear on the interstate highways.
07/17/26	William A. Johnson	60004	X			X	X				Oppose	Why do we have one of the largest gas taxes for road funding and a toll tax? And our state income taxes should be paying for new roads as well. This is triiple taxation to drive on public roads! Infuriating!!!
07/17/26	Christopher Pankoke	60660				X	X	X			Oppose	We need find another way of paying for improvements. With gas and tolls going up but wages staying low it's making it harder to get to work. The mayor and governor need to do better and find a way to make it affordable
07/17/26		60611			X		X			faster speed limits	Oppose	Get rid of your pensions and cut salaries before raising tolls. Raise speed limits. Get rid of construction zone speed limits.
07/17/26	Marla Eash	61102	X			X	X				Oppose	Find the money from something else. the people driving in and out of Chicago every day are your WORKING PEOPLE. Stop penalizing the very people that pay the taxes. Eventually my employer will leave the state. I'm convince this governor wants to intentionally destroy Illinois.
07/17/26	George Pappas	60534	X				X		X		Oppose	The tollways were supposed to be paid a long time ago. I don't feel we should have to continue to pay over and over again or have continual rate increases.
07/17/26	Brenda Kujawski	60131		X			X		X		Oppose	it is not the time to add additional burden to drivers with growing cost of gas and food.
07/17/26	Elisabeth Wittman	60634	X		X		X				Oppose	This email was received yesterday, July 16, when all of the hearing sites close to me were already completed. Did you want me to drive far away paying more tolls? I do want to say that the monumental project on 294 in the Chicago suburban area must be the reason more money is needed. Seems like some things were completed only to have more new construction in some of the same places. Reduced lanes especially from 294 to 88 were horrendous traffic jams at all times. Much time for drivers was wasted. Now you want more in tolls.
07/17/26	Jeff Carr	61108	X			X	X				Oppose	The tollway is no different then anyone else Work within your budget !! A annual MINIMAL percentage increase is expected. This proposed incease is NOT ACCEPTABLE WHY such a large increase ?? Stop with the BS reasoning You do a good job currently If you have proper planning there would not be such a large request Who is reponsible for the poor budgeting and planning?? Be accounbtable to the public and stop with the political BS in the State of Illinois

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/17/26	Mark Morgan	60126-2330	X				X			Limit stop and go driving. Less traffic would presumably fix this. I've traveled the 94/294 North South tollway for over 45 years and it never seems to get better, no matter what type of construction goes on. Today, I still sit in traffic heading north on 294 near O'Hare airport every morning. Why spend millions of dollars when it doesn't improve things.	Oppose	I oppose spending more money on tollway improvements. The original intent of tolls was to provide money to build and maintain high speed roadways to improve transportation. The roads are already built so the toll money is now used to maintain these roads. Where is all the money currently collected going? I have to believe that the current tolls collected should support any improvements to the tollway system.
07/17/26	Robert Krueger	60513				X	X		X		Oppose	As with everything in life, costs are far outpacing my budget. My wife and I use the toll road system perhaps once a week during good weather. We have to make trips to a second property to check on it. The trip requires 6 tolls; last year we made 36 trips. This would be an additional $97.20! Please help in rethinking your planned increase(s). Thanks.
07/17/26	Marc LaMay	61103	X				X			Limited or no tolls	Oppose	The tolls were originally scheduled to be temporary. Now we are talking about a significant increase in the past ten years. This is ridiculous and encourages me to not use Illinois tollways any longer.
07/17/26	Louis BurksJr	60411	X				X		X		Oppose	I pay three tolls going to work and the same three tolls going home.The volume of traffic on tolls roads doing same and those traveling through should be sufficient enough to support the tolls system at today rate.
07/17/26	Scott Baker	60545			X		X			Less long-term construction	Oppose	At 3 daily tolls to and from work, I would be paying an additional $675 a year to go to my job. My employer isn't going to offset that for me. I'll also be running gauntlets of extra long-term construction over the next 15 years, making my commutes even longer. These projects will not alleviate congestion, they'll make it much worse. This is simply a money-grab and I oppose it!
07/17/26	Michael Mack	60540	X		X		X				Oppose	Illinois has not proven trustworthy with existing funds and highway construction and maintenance projects always seem to take years of disruption to complete. Why should the citizens and travelers across Illinois pay more money expecting different results from the same incompetent construction managers?

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/17/26	Alan Kramer	60101	X				X			Actually seeing Tollway employees doing routine maintenance, like cutting the weeds that grow close to the roads and tollway infrastructure. And thees tolls were supposed to end years ago ago, why do you keep charging us more every year	Oppose	
07/17/26	Vinayak Ram	60515	X		X		X				Oppose	I pay enough in taxes
07/17/26	Mark Dziedzic	60515-2105	X			X	X				Oppose	The Chicagoland area is particularly impacted by traffic, with the average Chicago driver spending about 100 hours per year in traffic – more than two full work weeks – costing about $1,800 in lost time (INRIX). This is more than double the national average of 43 hours per year sitting in traffic. We also pay the nation's highest gas tax that is supposed to be funding road improvements so I do not think you should be looking to the users for such an increase in a "use tax" on top of the gas tax I already pay. Manage your finances better. Improve the roads, drive times, and flow. We residents have limits which is why you have seen many people relocate out of our state unfortunately. Illinois has experienced a long-term trend of domestic outmigration, ranking among the worst states for residents moving to other parts of the country. However, recent data from the U.S. Census Bureau shows the state's total population has grown marginally in recent years due to surging international migration and higher birth rates. So now you want to raise the cost of living here more? Rethink this decision and hold the rates or even a modest increase not what was proposed. Illinois has a lot to offer, but affordability seems to be low on the list for government.
07/17/26	Angela Gloria	60070	X		X		X				Oppose	No need for a project that will last 15 years and deal with construction traffic for many years. And a rate hike on top of that. No thanks.
07/17/26	Tyler S	60642	X		X		X				Oppose	Illinois hasn't had a truly balanced budget since 2001. This state succeeds in spite of the leadership. If there were a true competitor in the midwest for talent, people would leave in droves. It's because of things like this. Look at any poll of state citizens focused on our main concerns and it's always focused around one thing: taxes. Passing this would be another shot across the bow for folks to leave the state. Focus on fiscal responsibility rather than increasing spending.
07/17/26	Greg Dettro	60174	X				X			This question is a self fulfilling prophecy to simply justify raising tolls. Do away with the Toll Authority as originally planned at its inception.	Oppose	Due away with the toll authority as was supposed to happen when the toll authority was originally conceived.
07/17/26	Ana A	60073				X	X			Shouldn't even have to pay tolls. Disgusting you're trying to raise it.	Oppose	Selfish greed. And getting more greedy. Find your humanity before it's too late for you. I vote no way!

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/17/26	Keith Nyderek	61061	X	X			X				Oppose	The tolls charged for tollway roads are already much higher than should be expected for general maintenance / limited expansion of the current system. In general, these roads are already better maintained than normal IDOT or municipal roads in the state of Illinois. Damage to vehicles is not a major concern when traveling tollway roads. Raising rates also tends to deter drivers from using these roads and just drives the congestion to different locations. I appreciate the idea of reducing back-ups on the tollway roads, but my commute is just as long if I am stuck in traffic when I get off the tollway because drivers choose to avoid the tollway because of high prices.
07/17/26	Bianca	60073	X			X	X				Oppose	People in illinois have been paying tolls for a very long time yet the roads have been a disaster since I was a kid living in the city. It seems the money is not being fully allocated to fix the roads in a timely manner as a lot of the roads I take for the past 5 years have been under the same construction nightmare and thats just the most recent im going to name. We pay high taxes from our salary and properties and the state still seems to be failing at all of this. I think the cost shouldnt increase. Other states ive gone to with no tolls have nicer roads compared to us and its pretty sad to see as ive lived in Illinois my whole life. Stop raising the price of things instead properly budget. If you cannot properly budget yourselves then maybe you all who are in charge should go on the show financial audit to actually learn how to budget the money you receive appropriately. More money doesnt automatically fix things if the you cannot follow a budget with the money you already receive. If the people who are younger than those in charge can learn to budget things on their salaries you older folks in charge should be able to as well.
07/17/26	Kevin	60631	X		X		X				Oppose	It costs too much as already. I already avoid when possible to pay a toll for what was supposed to be "temporary"!!!!
07/17/26	Louis Burks Jr	60411	X				X		X		Oppose	no rate hike
07/17/26		60056				X	X			Less construction.	Oppose	Since 1977, I can't recall a year when there wasn't construction on 294. Traffic has NEVER improved because you have no clue how to move traffic. Or maybe it's the constant construction. Not only that but the big contractors (your cronies) rarely pay their subcontractors, especially the minority owned ones. You retrorectums need to pay your bills. There is also no need for a separate tollway board; it's a waste of taxpayer money. Of course 90% of IL govt is a waste of taxpayer money. Let us keep our money and just leave the roads alone. The cronies (e.g. Paschen and Walsh) don't need to become billionaires on our backs and they do an utterly crappy job. Anything they do starts falling apart within a year. But they're your fiends and y'all think it's OK. No toll increases!!! Shrink the govt and use that savings to pay. How many billions have been sunk into 294 alone?
07/17/26	Jason Knight	60021		X	X		X				Oppose	Years ago, tolls were instituted to fix the roads and the end. Through constant mismanagent and misappropriation, they remain, have gone up, and conditions are worse. Taxes are already high in Illinois and there's too much fraud and mismanagent to trust this proposal.
07/17/26	Brent Burnard	61704			X	X	X				Oppose	Illinois already has some of the highest taxes in the country, yet state government still can't seem to get its finances under control. Simply asking taxpayers for more money without addressing how the current funds are being spent (mismanaged) is like pouring water into a leaky bucket. I'd love to see real improvements, but the first priority should be efficiency, accountability, and eliminating waste. Until the state demonstrates it can manage existing resources responsibly, raising taxes feels less like a solution and more like rewarding what appears to be chronic mismanagement and waste.
07/17/26	George	60018	X			X				Guarantee of transparency	Oppose	Manage what you already have; reform the management before grabbing more for the corrupt graft slush fund that the tollway authority has become.
07/17/26	Jake	61102	X	X			X				Oppose	Several programs are already receiving too much funding such as road maintenance, better allocation of funds would work better than simply increasing toll rates.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/17/26	No Name	60618	X		X		X				Oppose	I am writing to express my absolute disgust and strongest possible opposition to the proposed toll rate increases set for January 1, 2027. The decision to hit everyday drivers with an approximate $0.45 increase per toll is not just ridiculous—it is completely uncalled for. Commuters are already struggling with the cost of living, and your solution is to treat us like an open checkbook. Your press release proudly boasts about "more than a decade without a rate increase" as if that justifies a massive, sudden hike. Let's be clear: keeping rates steady in the past does not excuse poor fiscal planning today. Here is exactly why this proposal is a slap in the face to Illinois drivers: Gross Financial Mismanagement: If the Tollway cannot fund its operations with the massive amount of revenue it already collects daily, the solution is to manage your money better, trim the fat, and audit your internal spending—not demand more from the public. Crushing Commercial Hikes: A 30% increase on commercial vehicles starting in 2027 is economic suicide. This cost will inevitably be passed directly down to consumers, driving up the price of groceries, goods, and services for everyone in the state. The "Inflation" Trap: The plan to automatically adjust rates every two years starting in 2029 based on inflation is a cowardly way to lock in permanent, unchecked price gouging without public accountability. We are tired of being forced to fund vague "capital programs" like Driving Connections while seeing zero improvement in our daily financial strain. Stop treating Illinois drivers as your personal funding safety net. I demand that the Tollway Board reject this proposal, go back to the drawing board, and find a way to balance its budget without penalizing the hard-working taxpayers who keep this state running.
07/17/26	William	60561	X				X			Stop endless construction- 95th street ramp was torn up and abandoned causing daily backups for miles! WTF	Oppose	At minimum Illinois residents should have tolls ELIMINATED not raised. Let transient travelers pay. Ultimately the tollway authority should be abolished and folded into IDOT to save administrative costs. No More tolls for IL residents- were already overpaying with gas taxes!
07/17/26	kelly hawkins	46304	X		X	X					Oppose	There's no way I can spend more time with my family if you continually jack up the toll expense. I have to work extra hours to cover travel expenses as it is right now. Your campaign using time with family as a marketing slogan is a joke! Tollroad traffic is light because nobody can afford it. You are NOT for the people, you are NOT for America, you are ONLY for making private pocket millions and scamming hard working citizens out of hard earned money.
07/17/26	George Hoffman	60102	X				X			No toll increase	Oppose	Why do we require a significant toll increase (largest in State and Tollways history) and where do the monies go for current tolls vs. Using to repair roads and install new on / off ramps where absolutely required? The state continues to put the burden on taxpayers for bailouts of Chicago, Metra, pension fund and many other areas where monies are mismanaged and corruption runs rampant in this state!! Pritzer has no sense of what the taxpayers burdens are and the easiest way to fund anything in this state is to raise taxes and tolls putting the burden on average taxpayers. Residents are fed up with this mentality and hopefully with election time approaching voters will remember these issues and vote those out who are responsible!! I am providing direct and blant comments since I am completely fed up with this administration. It's time for a change which I truly doubt will ever happen in state of IL!! George Hoffman
07/17/26	Rodney Woodard	60605			X		X			TIME SAVINGS	Oppose	Why am I paying more then have to deal with the insufferable traffic that is sure to follow as it will take 2 extra years to complete and still be over budget and have y'all come back for yet another increase. Learn to stay within budget.
07/17/26		60067	X		X	X					Neutral	

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/17/26	Sharon Harring	53072	X		X	X					Oppose	They enacted tolls in the 1950-60's as a temporary way to pay for the new roads. They promised Illinoisans that in 20 yrs the roads would be paid for and tolls would be eliminated - and here we are 60 yrs later still paying tolls that continue to increase.
07/17/26		60056	X			X	X				Neutral	I receives this message on 7/16. The public meeting nearest to me occurred on 7/14. I feel as though my opinion is not respected
07/17/26	Lynda Dillon	60561	X			X	X				Oppose	45 cents per toll is excessive. I will drive local routes to bypass this expense.
07/17/26	Jason Penman	61353	X		X	X					Oppose	Manage your money better. Increased tolls in the past have not proved to have good roads. Too much corruption and do not require unions to do the job as they only increase the costs.
07/17/26	Bart	60103	X		X		X				Oppose	Its crazy
07/17/26		60447	X				X			Just a normal highway that America is capable of having	Oppose	Really - more taxes and higher rates. You need to stop fleecing us. It is never-ending. Can you just stop raising taxes and fees on us constantly. This is unsustainable for the average person living in Illinois. Just stop.
07/17/26	Jared Jury	61073	X	X		X					Support	
07/17/26	Wilson Montana	60047	X		X	X					Oppose	Make payments efficient rather than increasing them
07/17/26	Janice Johnson	60172	X				X		X		Oppose	
07/17/26		60451					X		X	Dead animal pickup	Oppose	How convenient that the toll increase for commercial vehicles was listed in a percentage and not actual dollars and cents. Maybe if much of the revenue didn't mysteriously disappear into someone's pocket instead of actual infrastructure we would not be in this mess.
07/17/26	Amy l Vuckovich	60417					X		X	How about no more giving I think we've given enough from now we're going to start taking	Oppose	Is if you don't pay enough in taxes is if we don't pay enough with roads that haven't even been fixed in decades that we've been paying for is if we haven't paid enough to call police to our areas only to pay for crime reports when you could just print them up yourselves you really want to charge us more for roads that haven't even been fixed yet that we've been paying for for how long now you want to charge more for us to use the toll roads this is an outrage I think what we need is less money given to you and more of you given to us is an absolute cry for help some of us can't even afford groceries gas and property tax let alone would you want to charge more just to drive on the roads that we've been paying for that have not even been fixed yet from now on I'm voting for Republican I will no longer vote for Democrat anymore. It's a travesty of justice to ask us for more money when we could barely pay our bills

07/17/26	ROSE COUCH	63755	X				X			Safe driving conditions during increment weather	Oppose	Roads are still crap from the last recent increase and all the other increases. We travel these roads everyday in a CMV. We use PRE PASS for our tolls.
07/17/26	Sonia Garcia	60073				X	X		X		Oppose	I used toll ways 5 day a week is gonna affect me monetary, hope don't increase or increase less
07/17/26	Rachel	60416	X		X		X				Oppose	Absolutely OPPOSE!!! We're are already taxed to death with NOTHING to show for it! This money will go right into incompetent prickster's pocket!!!
07/17/26	Alyssa Comer	46319	X		X	X					Oppose	
07/17/26	Sierra Alexander	60477			X		X			Reasonable prices	Oppose	I think the proposed raise is extreme. If an increase was necessary it should be much more gradual than putting all of the costs on Illinois residents. The cost of living is already too much, to have to pay so much just to commute back and forth is obscene. There needs to be another way to cover portions of the cost than raising the tolls by so much.
07/17/26	Dan	60803				X	X			Easier way of travel	Oppose	They rape with everything else
07/17/26	Terry Mackey	60074	X		X		X				Oppose	Pritzker is ruining Illinois. All these tax hikes including property taxes. No one can afford to live here anymore and now he wants more money for people to travel with toll hikes!!! These tolls are expensive enough and they sure are not paying for fixing roads
07/17/26	Diana Dvorak-Incandella	60707	X				X			All if the above. No more tolls.	Oppose	We have paid enough to Illinois for keeping up roads. You have mismanaged the money. Thats why you think you need more money ey from us. Stop enough us enough
07/17/26		60647	X		X		X				Oppose	
07/17/26	Rylie	61114	X		X		X				Oppose	The tolls were supposed to be temporary to begin with and the roads have not been actively maintained or improved. Maybe actually fix things instead of padding your pockets more.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/17/26	Kelly Rennie	60056	X				X			Clear debris and other hazards in roadway	Oppose	The tollway was originally designed to be TEMPORARY. I already avoid toll roads due to cost, and increasing tolls is unacceptable. It is already desperately expensive to own and operate a personal vehicle, this exacerbates the issue. There are alternatives for funding, stop digging into our pockets for every damn thing!
07/17/26	Cristian Sanchez	60453	X		X		X				Oppose	
07/17/26	Emilian	60005	X		X		X				Neutral	They are gonna raise the price just to not do shit. Roads are so horrible that I popped two of my brand new tires and when I tried to file a complaint they made the process impossible.
07/17/26	Kim	60462			X	X	X				Oppose	Heck no! Illinois is always looking for more and more money. This is ridiculous!
07/17/26	Roque Aguirre	60191	X		X		X				Oppose	Somehow someway it’s always a Illinois thing to have the taxpayers pay for it , on top of everything else , have the regular hard working citizens pay for it and at the end of the day our say means nothing , we will end up having no option but to pay . It’s a signature welcome to Illinois
07/17/26	Donald Nack	60148	X	X			X				Oppose	We have over paid for years it's time it stopped. It was supposed to be free after it was paid for
07/17/26	Manu	60623	X		X		X				Oppose	
07/17/26	Gill & Gill Engineering	60053			X	X	X				Oppose	As a business - our "factor" will be achieved by avoiding tolls at all cost. Ridiculous that they are going up again. Should not have used money to bail out Chicago mass transit in the first place -
07/17/26	B J	60191			X	X	X				Oppose	Am on a fixed income this is ridiculous year after year this government raises everything these toll roads were supposed to be paid off and tolls eliminated what’s happened to that Pritzker you’re a multimillionaire doesn’t bother you at all
07/17/26	Jeffrey Foreman	60035	X			X	X				Oppose	In my experience the roads are generally in good shape and this appears to be an exorbitant amount of money to spend. Also, as part of the justification, regarding economic development (see the quote below) - it is not my responsibility to supply jobs. It is the Tollway Authority's job to run an EFFICIENT and functioning system. "the plan will also fuel economic development by creating thousands of engineering and construction jobs, support suppliers and small businesses while improving commerce and economic development."
07/17/26	Sarah Sims	60468	X		X		X				Oppose	
07/17/26	Lisa	60491			X	X	X				Oppose	It’s already so expensive. Why when you drive to other states there are no tolls and their roads are better. I will be avoiding driving on the roads with tolls
07/17/26	Anahi Castilla	60050	X		X		X				Oppose	I frequently travel down south and to the city. The congestion on I-290 and I-294 has become very hectic these past few days. Roads have also been more dangerous due to increased traffic accidents with construction workers. I think increasing the tolls is beneficial, but will there still be opportunities to save on the toll increase if we have an I-PASS? How will frequent commuters benefit? I think tolls are necessary but I am skeptical on the increase and the time frame for these new constructions as there have been a lot of construction projects these last few years.
07/17/26	Andy	60608					X	X	X		Oppose	
07/17/26	Ramos	60181	X	X			X				Oppose	The tollway fees were to be temporary. Clearly they have become a source of income at the expense of taxpayers. It seems there will never be an end to the cost of traveling on the roadways. This is double taxation as far as I can see. The customer service is absolutely horrible. The app doesn't work most times and if you don't pay on time there's a $20, which is simply outrageous and violates usury laws. With the automation of everything people are losing jobs. It is unfortunate that other alternatives have not been considered. My question is how do we as Illinoisians benefit?
07/17/26	Barb Condill	60133			X	X	X				Oppose	Just traveling a few miles will be so much more expensive. If commuting it becomes unreasonable for the current economy.
07/17/26	Marcia Struwing	60103	X			X	X				Oppose	Another taxing source is ridiculous. The state and the toll authority should be focused on decreasing spending rather than finding new sources of revenue.
07/17/26	Matt Patoska	60452	X			X	X				Oppose	
07/17/26	David Green	60181	X		X		X				Oppose	

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/17/26	Israel	60639	X	X	X						Oppose	Every day traffic is worse in the toll roads
07/17/26	Shawn McGinnis	60467			X		X			Less construction. Seems every summer our roadways are under repair	Oppose	The issue for this state is overspending not funding. Our politicians need to understand that they need to be more mindful about their spending. The constituents are beyond tired of the increased and out of control spending.
07/17/26	David Hardy	61755	X				X	X			Oppose	There are no regular traffic jams on the tollway, only if there is an accident. Great maintained toll system currently has no adverse wear and tear on an auto. Only way to reduce travel time is to eliminate speed limits (and often seems like there are none).
07/17/26	Richard Weidman	61080	X			X	X				Neutral	A little bit of a gradual increase over three years out of the question? I get it all, the need and the cost, but a severe drastic increase of one bump could stress the daily commute for a lot of people. I love the road system and the open road tolling is awesome, if you could kick Indiana out of the 50s on interstate 90 would be helpful too
07/17/26	Ken Stone	60081	X				X			Better police protection	Oppose	I truly haven't seen the Tollway get any better from the last price increase. The Road way is still rough in places and lack of police has protection is still bad. I say this because their has been more and more shootings every year. So I don't see how raising the toll higher is going to help the commuters any. I've been in the Chicago area for about 15+ years and haven't seen much improvement to the Tollway but the crime rate has gone up more and more. I think this is just another way for the government to line their pockets more and not to help the commuters.
07/17/26		60633			X	X	X				Oppose	
07/17/26	Jenny	61107			X		X			Less construction to try and navigate around	Oppose	I do not support these toll increases at all! My husband commutes frequently into the city for work and it has become a very large burden for our family. It seems like the road projects are never ending and will continue to put the burden solely on us citizens. At this point, the state of IL receives more of our money than we do. That is a terrible way to show you care about the people who live here. It shouldn't cost us to drive on the road, to head to a job you already tax, to then head home to the homes you already inflict the nations highest property taxes on...
07/17/26	Cheryl Woehrle	60190	X			X	X				Oppose	As a senior on a fixed annual increase, toll rate increases should be based according to the same COLA increase.
07/17/26	Eduardo	60639	X				X		X		Oppose	It already costs 100$ one way to go IL-DE, with gas being 4.40 where does it end?
07/17/26		61604	X				X			Construction that doesn't need to be repaired annual	Oppose	
07/17/26		49307			X				X	Would prefer trains	Oppose	More lanes is not the answer. Your projects will create more traffic. You need viable alternatives to cars, like too public transit infrastructure with an emphasis on trains.
07/17/26		53168	X				X		X		Oppose	It is already expensive driving from WI boarder to 137. This is going to make it cost prohibitive and will force me to seek alternate routes.
07/17/26	Edmond OCallaghan	60656	X	X		X					Support	I have been an IUOE local 150 member for 37 years and I live in Chicago I regularly use the tollway system and understand how important these investments are to our communities our economy and working families
07/17/26	Nakhle Morcos	60506			X	X	X				Oppose	The tollway is already too expensive. Raising the rates by more than 50 percent is insane.
07/17/26	Annalyssa Alvarez Martinez	60060			X	X	X				Oppose	How does this help families in an already stressful and struggling economy? We are paying the price for these already difficult times and we are in need of a break, not added stress.
07/17/26	Tom Bahns	52742					X		X	Overcharging system fraud	Oppose	I have suspended all use of Illinois Toll road system since fraudulent billing is a problem that takes hours to resolve. Resolving fraudulent charges costs more than selecting an alternate route
07/17/26	Paul Selman	60453	X				X			Tolls remaining at current levels or being lowered.	Oppose	Increased tolls will cause financial hardship to those who use the roads regularly. Tolls should remain at current levels or be lowered.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/17/26	G. Hill	46323		X	X		X				Oppose	As a tax paying citizen, I hugely disagree with any increase in tolls!!!! We pay way too much for everything already!!! Tax payers don't need another bright idea from the corner office that further busts our budget. I say NO to any/all toll increases. WE CANNOT AFFORD IT!!
07/17/26	Barbara Coss	61021				X	X		X		Oppose	Too much -the Tollway System is too political - all of the roads should be owned & maintained by the state of Illinois- get rid of the Toll Authority-& I was told that it is owned by Canada- how smart is that!! We should be able to drive on ANY roads without getting penalized with a toll!!!!!
07/17/26	Jesse	61761	X		X	X					Oppose	We already pay gas tax
07/17/26	Scott Grotto	60185-2727			X	X	X				Oppose	All this state does is squeeze its residents, no one should believe for a second that this increase is necessary considering how highly taxed we are alre
07/17/26	Matt	60517		X			X			Clever to make us pick three options so you can justify this spending.	Oppose	ABSOLUTE CROOKS. I think this settles it, I dont care if it takes me twice as long I will no longer use the tollways. This state is broken.
07/17/26	Krizia Davila	53210		X			X	X			Oppose	Please don't charge anymore than you guys are charging already
07/17/26	Norma Samuelian	60099	X		X					The Chicago traffic is HORIBLE it took over an hour just to get around Chicago on my way home to Zion. to much stopping and sitting in traffic.	Oppose	Why charge more when there are too many issues that need to be fixed
07/17/26	Stephanie	60304	X		X		X				Oppose	You no longer have attendants manning the Toll Booth, everything is automated and you collect millions of tolls a year, why do you need a toll rate increase!!!
07/17/26	Ann B Maine	60069	X				X			none. I only had 2	Oppose	You keep expanding and make all users pay for improvements instead of those who will be using those roads.
07/17/26	David Yoon	60192			X	X	X				Oppose	Increasing tolls by that much at 1 time is absurd. And the automatic increases without oversight is not fair to residents who already are paying some of the highest taxes in the country. This cannot be allowed
07/17/26	EM ZINGARELLI	60630					X		X	low cost / maintenance	Oppose	oppose
07/17/26	NR ZINGARELLI	60630				X	X		X		Oppose	
07/17/26	Joseph Such	60502			X	X	X				Oppose	We already pay some of the highest tax rates in the country, if you need more money from me after taking 1/3 of my paycheck every week, you're crazy
07/17/26		60451	X	X			X				Support	
07/17/26	Jason	61548	X			X	X				Oppose	reduce spending to fund project versus raising rates/taxes!
07/17/26		61010			X		X			Cost	Oppose	
07/17/26	Brad Prairie	60964			X		X	X			Oppose	The Illinois Tollway was proposed in 1953 with the legislative promise that it would become a completely free system by 1973. You should honor that promise
07/17/26	Lance Lanway	61038		X			X			No tolls	Oppose	No more tolls
07/17/26	Stephanie	53215	X		X		X				Oppose	
07/17/26	Nick Trepasso	53589					X	X	X		Neutral	Could you please address the timeliness of posting tolls to accounts? Late fees are added if not paid within two weeks but many times they are not posted to pay until after the two week period adding $20-30 in late fees for $4-5 in tolls. Thank you for your attention in this matter.
07/17/26	Tim Logemann	61021	X			X	X				Oppose	Why is it only SOME of the Interstate roads within 100 miles of Chicago are charged tolls? Instead of increasing the tolls, how about charging ALL the interstates in IL? I can get on Interstate 39 at Rochelle and travel via interstate all the way to Springfield without paying a penny in tolls, but if I want to drive from Dixon to DeKalb via Interstate the current toll is $3.60 and you want to increase it another $0.84. So 42 miles cost $3.60 and 174 miles is free. INSANITY.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/17/26	Bernard Nyder	60423				X	X			Tollway prices are too expensive now.	Oppose	Maybe I'm Wrong. But, I have been under the impression that the people (entity and its employees) that received the money from the system, have been a profitable organization. Just like the Bears, or any other team wanting to use taxpayer money; they should pay for their profitable Venture by themselves or take a loan. It should not be passed on to an already overpriced system. Just because somebody wants to do something doesn't mean they should. This type of thing is called living beyond your means. The system asks too much of the people that pay the tolls. Improvements should be made with the profits of running the tollway system. If they are at a loss, it's time to immediately get rid of the people that lead and make sure they get no golden parachute on the way out. Remember who pays for this.. people are leaving Illinois for reasons just like this. Thank you for the opportunity to express my opinion. Bernard Nyder
07/17/26	Charles A Hernandez	60656	X			X	X				Oppose	The proposed tax increase will be an unnecessary and costly burden to Illinois drivers and taxpayers. The Illinois Tollway is already funded adequately. To make matters worse this Tollway tax scheme includes automatic increases in the future. This is government sanctioned theft. I am in STRONG opposition to this proposed toll increase.
07/17/26	Wynee Donald	60544				X	X			Affordability!!!	Oppose	Inflation/cost of living is already extremely high - during these hard times most people are not receiving 45 cent raises, some are not receiving raises at all. This is a massive increase. I feel consumers should not have to pay for mismanagement of funds allocated for the roads.
07/17/26	James McCarthy	60103	X		X		X				Oppose	
07/17/26	Gabriel	60618	X		X	X					Oppose	Although I like driving on the tollway, I don't think that Illinois should be investing this much money in car infrastructure. We should instead be developing more robust rail, bus, and last-mile services so that people don't _have_ to drive as much, which will reduce traffic for those still on the roads.
07/17/26	Desirée Du Pont	60030				X	X			Cheaper or nonexistent tolls	Oppose	This is so messed up. The tolls were supposed to be temporary. I go to grad school in the city (live in the suburbs) and I have to pay $4-8/trip or go the long way to get there. It’s ridiculous. I’m trying to pay for an education, not the state highways that are always under construction for some bs reason. Ridiculous!
07/17/26	chris nowosielski	46307			X		X			State Troopers are not enforcing no trucks left 2 lanes-the truckers are out of control-cruising in all lanes-causing more crashes	Oppose	I do not support any further toll increases. Please see my comment above regarding state troopers not enforcing "no trucks 2 left lanes" signs on 294 and 80/94.
07/17/26	David Wolfe	60423-8024	X				X			Equitable Pricing	Oppose	Currently I am being charged commercial rates when I use my RV or a trailer. I am looking for anyway to get around using your tollway due to high costs. We can not afford anymore. How do other cities afford to maintain their roads without tolls?
07/17/26	Nicholas	53121			X	X	X				Oppose	It’s to much money already and it keeps increasing
07/17/26	Luciana Fascia	60565			X	X	X				Oppose	Tolls are already ridiculously expensive and you’re just going to increase them more? I don’t know how anyone affords to live here
07/17/26	Alan Chambers	60302				X	X			No more toll increases, we are fed up with this.	Oppose	The endless taxes and fees this state charges are insulting to people in Illinois, we are fed up with this.
07/17/26	Alonzo A Rupert	60623	X	X		X					Oppose	Last thing we need as Illinois residents is price hikes on already expensive tolls, on roads we pay so much in taxes to maintain.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/17/26	Lois Wilkens	60047	X				X			Require Close Watch of Quality Control of each Phase of Project as well as Paymeny Made only after Actual Inspection Signed Off by Lead Individual Responsible for Work Don & Subsequent Payment for Same.	Oppose	Illinois roads in general are in such poor condition, it challenges the individual taxpayer to find room in their very tight budget for another “overwhelming” expenditure regarding tollways, when the actual streets and common roads of Illinois are in such sad disrepair. We as citizens, are lost in a sea of unending cost just to travel to work...to make the money to pay the unending costs. We’re drowning and there is no lifeboat heading our way!!
07/17/26	Stacey DiGrazia	60123	X				X			Need for FREEWAYS, not TOLLWAYS	Oppose	The state is sitting on billions of dollars that have been collected and either usurped for other purposes or misapplied to the department of transportation. There is zero need to raise tolls and tolls definitely should not be tied to an annual increase mechanism.
07/17/26	David Grandt	60056	X			X	X				Oppose	The tollways were sold to the public as freeways once the construction costs were recuperated. The gas taxes were to pay for maintenance. The lottery was to pay for the schools. This is just a politicians shell game to skim more money for political ambitions.
07/17/26	Jason	60634	X				X			Affordability	Oppose	You're killing us with these rate increases
07/17/26		60103	X			X	X				Support	
07/17/26	Anthony wiseman	60452	X		X		X				Oppose	
07/17/26	D. Walker	60506	X				X			No Year after year increase, say no to more tax!	Oppose	Illinoisian, want a full AUDIT on state funds for tollway hikes. There are too many tolls. Price increases do not help traveling citizens.
07/17/26	Bill Chamberlain	60069	X			X	X				Oppose	The tollway fees are already too high! The tollways were originated as a "one time" fee and that they'd go away. 50 years ago. And now you just keep raising the tolls higher and higher. It is ridiculous. Please do not include toll fees yet again.
07/17/26		53713	X				X			Affordability - don’t raise the prices	Oppose	
07/17/26	Michael c	60120	X				X		X		Oppose	
07/17/26	M Forster	60174	X			X	X				Oppose	It's my understanding that the toll roads were originally created to be self-sustaining. Why should we trust that Illinois law makers will handle these funds any more widely than the ones they are already collecting?
07/17/26	Martin Family	60124	X				X			These questions are skewed to provide answers that can support your intended outcome	Oppose	The tollway is making 1.4 billion dollars a year in profit alone. Maybe you could fund this project out of your profits instead of continually gouging customers that have no recourse but to use your product. Your tolls are already incredibly expensive and this increase is unwarranted. Your board is sorely in need of replacement with members who better understand the economic challenges of your customers.
07/17/26	P	60030	X			X	X				Oppose	Having to drive it to and from work across the state line 5 times a week is a large increase to have to take. The state crossing is already more into and out of WI and it almost doubles the amount I'd pay each month.
07/17/26		60564			X	X	X				Oppose	
07/17/26	Frederick McLaughlin	61109	X			X	X				Oppose	Toll road fees should reflect what it costs to maintain, not become a means to finance other project or services. The toll system only, current figures indicate the system is cash heavy due to excessive fees already being applied. (Over charging).

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/17/26	Alexis	54241	X				X			Keeping costs low while maintaining what you have!	Oppose	There's no need to increase the toll rates. Green Bay WI doesn't have a toll road and their roadways are well kept. You are already the most expensive in gas. Maybe allocate your tax dollars more appropriately since you also are high in taxes. Manage the money and spending habits better. Don't put this on the people that travel your road ways daily, they already pay enough. As for me personally, I can add 30 minute's to my trip and avoid all tolls. There goes my little i contribute and all i need to do is add 30 minutes to my drive. No big deal for me, think of your locals. Also think of the truckers that'll avoid if you keep increasing. Not to mention you don't even pay someone who can assist to pay the tolls over the phone as you took them out of the booths!
07/17/26	Gerald Allmansberger	60506	X		X		X				Oppose	Again, ever since he was elected governor, everything has gone up ! Highest property taxes in the country, 2nd highest gas taxes. Why do we pay so much fot gas, with 3 refineries within 50 miles ? Again, he hasnt lowered the ptices on anything, to help retired people like us !
07/17/26	Mary Fugate	46383			X	X	X				Oppose	It already is the most expensive toll road in the country. This is ridiculous to keep raising prices. It's criminal.
07/17/26	Susan Roe	60068	X			X	X				Oppose	How much of this rate increase is going to bail out the new NITA. I've been doing a little reading and I think this is a bail out of CTA. So the people that don't even use that system have to pay for their system. I don't think that's fair for IL drivers and visitors through out our state. More BS as usual.
07/17/26		61108	X				X		X		Oppose	The proposed increase of tolls on Illinois Tollway has the"feeling" of another tax hike. We are being taxed to death in this state. Not only that, the monies gathered through, which may include our tollways are not typically used for what the tax is for. I find myself not able to trust the governing bodies of the state.
07/17/26	Robert Moriarty	62294-2035	X		X		X				Oppose	I think if you want increase tolls it should be done with committee. Not on rolling inflation. So if inflation go down you will lower the rate?
07/17/26		60015			X		X			Construction efficiency	Oppose	Under no circumstance should tolls be raised. As a frequent toll road user I have seen nothing but the same traffic congestion patterns and continually prolonged road construction. The proposed toll increase is fundamentally too extreme even if an increase were to happen.
07/17/26	Jacobsen	60110	X		X		X				Oppose	When is enough enough, when everything in Illinois just keeps getting more expensive. The tolls were originally supposed to be temporary but greedy people made it permanent. Spend our money better! Ridiculous
07/17/26	Tim	60477				X	X			NO TOLLS	Oppose	Already pay $60 round trip when I leave the state roads are just as good if not better and I don't have to PAY keep your increase and quit sticking it to the people find another way try looking at how other states have nice highways without making people pay already paying highest taxes in the country for everything I forget to mention the fact that it's not right to sit in traffic for sometimes up to an hour and still have to pay tolls keep your increase and stick it where the sun doesn't shine
07/17/26	Daniel Gleason	60525	X			X	X				Oppose	The toll system costs a lot right now. It is always under construction. You never know how long it will take to get anywhere. We are already spending a fortune to sit in traffic. Yearly increases will just make it less affordable with the same bad traffic. How come Wisconsin can get their roads fixed in a timely manner but we can't.
07/17/26	Kevin Hammersmith	60102				X	X			Having a FREEway!!!	Support	You guys are out of your freaking minds!! Nice try saying a 30% increase for commercial vehicles and only a $.45 increase for passenger cars. That is a 60% increase for all cars. Maybe the tollway admin and executives should give up 60% of their inflated salaries as a good will gesture. And btw, I thought tolls were to be dissolved after they were originally built!!! Also, I stopped using the tollway for most of my travels. I only use it if it is absolutely necessary and unavoidable!
07/17/26	Anonymous	60131				X	X			No more tolls or bring back cash payment	Oppose	Why can't I pay cash? It's so inconvenient to pay online or recharge. As a low income person, I don't always have $20 in my account. I don't have a credit card. I forget to go online to pay. It's so inconvenient.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/17/26	AL DOKMAN	60542			X		X			WHERE ARE THE STATE POLICE BECAUSE THE CARS GO OVER THE LIMIT AND DRIVERS USE CELL PHONES? DON'T YPU CARE ABOUT THE SENIORS?	Oppose	WHAT HAPPENS TO THE GAS TAX PRITZKER HAD PASSED and WHAT ABOUT WHEN THE TOLLWAY CHARGES SEPARATED FROM THE GENERAL FUND ?
07/17/26	Gabriella	60411	X		X		X				Oppose	Tolls were not supposed to be forever. there are so many parts of Illinois roads that haven't been updated since the 50's. Where is all the money going that we give you for car registration and license plates and taxes?
07/17/26	Roberta Rand	60436	X				X		X		Oppose	That is way too much of an increase. 15 cents would be enough.
07/17/26	Robert Wille	61525	X	X		X					Oppose	Until there is accountability to the residents of Illinois no more money!
07/17/26	Steve Murray	60707	X				X			No tolls as promised	Oppose	Illinois families don't need another toll hike. In fact, we should be working to eliminate tolls altogether, just as taxpayers were promised from the very beginning
07/17/26	Xavier Thomas	60430	X		X		X				Oppose	I don't know the specifics but there's plenty of money in other places that can be pulled to fund whatever this is going to fund instead of burdening the daily commuter even more in this economy. Gas prices are already rising wages are pretty stagnant for most people and although I'm lucky in working construction that also means I and others like me who have to drive long distances (ex: 45+ miles both ways) will have to suffer even more just so we can work.
07/17/26	Rehmat Ullah	60015			X		X		X		Oppose	We are not getting any raise from our jobs for long time. Everything is up not a good time to raise toll.
07/17/26	Nic	60626	X		X	X					Oppose	They have been so unreliable and not worth it especially the Chicago skyway why do we have to pay when the toll both backs everyone up

07/17/26		60004	X			X		X			Support	
07/17/26	Michelle Pawlak	62702	X				X			Less tolls	Oppose	Illinois tollway was supposed to be eliminated in the 70s... The gas tax and the tolls are astronomically robbing Illinois! Between the property taxes, the gas taxes, and the tolls I don't know how anybody would want to stay in Illinois or come to Illinois!
07/17/26	Martin J Zimmerman	60074				X	X		X		Oppose	Our Toll Roads are very expensive to drive on at any time. Please do not increase the Toll Rates.
07/17/26	Jasna Saric	60527	X		X		X				Oppose	Illinois financial mismanagement and improper usage off funds shouldn't always be psssed on to us by increases in tax and tolls, time this state got fiscally responsible !!
07/17/26	Mirjam Kohler	60625	X		X	X					Support	It all sounds good, especially improvements to I 90.
07/17/26	Joshua Harrison	60073	X		X	X					Oppose	
07/17/26	Marianne Bost	60120	X		X		X				Oppose	If the roads were in good condition, I would understand what my money goes towards and would be willing to pay more to keep pace with maintenance. However, projects were undertaken with existing toll rates and are not completed in a timely manner. The State is asking for more money to complete projects already budgeted and they are still not in good repair? One drives in Wisconsin, with no toll roads, and is generally impressed with the condition of their roads. Friends and family who drive to Illinois always complain of the construction and traffic, year after year. I am not convinced that raising the toll will result in any measurable improvement, if the past is any indicator
07/17/26	Jordan	60551			X	X			X		Oppose	The toll road money should be more than enough as it stands. I've been shown no monetary reason for a hike, and all it screams is mismanagement of funds. Your commuters to Chicago and rideshare drivers will hurt the most- is this an attempt to stop commuting into the city? If not it seems like that's going to be what happens

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/17/26	Jake Marchewka	60631	X		X			X			Oppose	How dare they propose an increase in tolls. 294 has been under construction for not one, but two cicada emergences. Maybe if IL finished construction projects in a timely manner, we'd all feel a little differently.
07/17/26	Jeannine	60134					X		X	Freeze the current toll fees and explore other money sources to fill the gaps.	Oppose	I vehemently oppose any toll price increases for the most important reason(s): I have been a lifelong Illinois resident and grew up right next to the 53/I355 corridor of which had to be modified shortly after completion to add an additional lane due to unsustainable for current traffic loads. No idea what the contractors received for that major overhaul but sure it was substantial. The original toll system was to be "short-term" and discontinued in the 70's, there are no more booth employees and everything is now electronically monitored and charged, so consider how many state employees were let go and savings on salaries.. I am ashamed to say that Illinois of which I have spent my entire life in has not ever had a balanced budget of which the monies collected every day for everyone that passes through our state is going where? Capital improvements to our roads are partially subsidized by the federal government and it is up to our governor to oversee that the state budget becomes the primary to allocate money rather than continue this trajectory of using not only our own money for those of use who have to commute to work but our taxes, gas taxes... which by the way are up there with California and the roads still require more money. Maybe a good idea to not pay those in the capital when they "recess" and use their payrolls to fund the roads. Please vote NO to this proposal!
07/17/26	Bob Kudla	60491	X		X		X				Oppose	Go ahead and raise it; I'll continue cutting down on my use. These tolls are WAY too high already!
07/17/26	Charles Schiller	60527				X	X			I have driving 294 for over 35 yrs. The worst commute going from Bensenville to 55 interstate in the evening rush hour. Every Boardmember should be required to drive it and see the mess they have created.The have experienced two major reconstructions on it and my commute is worse than ever.	Oppose	The current Board should be fired for the mess they have created. No more money increase for a broken interstate system. I remember when they rebuilt the Oasis Restaurants on 294 near OHare. Then the Board had them destroyed and paid out $ millions to the owners. The Tollways were to be paid off years ago but this political board seems to like to enrich their construction company allies. In the past the Board has made bad decisions and I think they will continue with the political environment they operate under.
07/17/26		61704			X	X	X				Oppose	
07/17/26	Max Patel	60004			X		X	X			Oppose

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/17/26	P J Styx	60408			X	X	X				Oppose	We're taxed to the hilt, the public can't afford more rate hikes here in Illinois
07/17/26	Eileen	60638-3544	X		X		X				Oppose	They were supposed to stop tolls in 1973.
07/17/26	Jessica Brummel	60506	X				X			Affordable and taken care of roads	Oppose	Absolutely NO more increases! You are literally driving people and businesses out of IL. JB is billionaire, perhaps he contributes to ease the burden on us lowly folks. The tolls were never supposed to be long term. Figure it out with the $ that keeps being mismanged!
07/17/26	Jeannine O'dell	60126-4339	X				X		X		Oppose	Live within your budget. Our tolls are for the tollway and not for other costs such as public transportation. How does Wisconsin manage their roads without a toll.
07/17/26	William Jennings	60451	X	X	X						Support	This revenue increase is needed to fund the program to benefit all in transportation for the future
07/17/26	John Peters	60188			X		X			Less traffic if tolls are raised	Oppose	Where does the money from the gas tax go? Lottery? Etc. Too many taxes in Illinois.
07/17/26	Paul Dragich	60558	X				X			Efficient and properly allocated funding of only absolutely necessary rode repair projects	Oppose	I'm retired, on a fixed income and can't afford these toll increases. The amount of increase appears to be excessive. Is it possible to rethink and possibly downsize and spread out your road upgrade and repair projects? In this way, maybe your toll increases would be less expensive and more affordable to Illinois citizens. Thank your for your consideration.
07/17/26	Christopher Mourousias	60185	X		X		X				Oppose	This is ludicrous. The toll program was supposed to have ended many decades ago. What are these funds really being used for if the roads are constantly in disrepair? A better system would be to pay by weight, as that has a much larger effect on road longevity than simply frequency of traversal. If I rode my moped to work on the same route everyday, am I really degrading the roads at the same rate as a semi truck traveling the same route? Then why am I paying the same amount for tolls?
07/17/26	thomas Serio	60126				X	X			pay fore's !! budget cuts in illinois to pay for	Oppose	extremely opposed!!! They subsidize EV cars that are heavier than most cars wearing down roads!! These owners need to pay more
07/17/26		60625	X		X		X				Oppose	
07/17/26	Kent Salmond	60435	X		X		X				Oppose	Balance the budget, stop wasting money and fix the roads. We are already taxed too much on everything in illinois. More taxes will not fix your outrageous spending habits. Road repairs don't even last a year before they need fixed again. How about some quality repairs and less taxes. your citizens are already unable to afford living in this state and you want to charge them more so they can get to work in a timely manner. Ridiculous.
07/17/26	Ryan	60143	X				X			My money	Oppose	Please stop making up reasons to take our money so you can siphon it off into your pockets while saying it's a 15 year program. Everybody knows what all you organizations are doing. It's a big racket scam and we're sick of it. Please stop taking our money and do the job right the first time there's no reason that you should have to do continuous work for my entire life. Taking billions of dollars from taxpayers who are already trying to survive, we're sick of the greed.
07/17/26	Thomas	60607			X			X	X		Support	
07/17/26	Jeff	60099	X				X		X		Oppose	
07/17/26	Towry	60477	X		X		X				Oppose	My account reloads about every 2 weeks. Already have unaffordable way to visit my children and grandchildren in Kenosha County. Taxing us right out of this state. IL does not care about communities outside of Chicago or downstate IL. Lived here since I was 6 years old. Retired senior citizen now. I hear you are also thinking about Death Tax or Relocating to different state tax. Get me out of this state!
07/17/26		60076			X	X	X				Oppose	
07/17/26	Deb rousseau	60401	X				X		X		Neutral	Senior citizen on fixed income. It's getting more difficult to live in Illinois.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/17/26	Michael P Suda	63128	X			X	X				Oppose	I do not support increased tolls. The cost of living has already risen too high. Please find other ways to fund the projects.
07/17/26	Kathy	60046			X	X	X				Oppose	45 cents increase per toll is way too high! Plus the increases just keep on coming. Wisconsin doesn't charge to drive on their roadways.
07/17/26	Benjamin Sherman	60614			X	X	X				Oppose	This price hike is ridiculous. The tolls are already very expensive. Please do not increase the price anymore, if anything they should be reduced.
07/17/26	Sameer Patel	60062			X	X	X				Oppose	Stop increasing tolls. Illinois residents are getting squeezed on all fronts. The answer is to not increase revenue by yet another tax. Fiscal responsibility also means cutting expenses. Also please suspend tolling on roads where projects are completed. Follow the model in California.
07/17/26		60130	X			X	X				Oppose	Have to be out of your mind and full of greed if you think raising the toll prices even more is a good idea. Just keep hurting the citizens of illinois and wonder why so many people hate it and are moving out.
07/17/26	Kerry Schafer	76048	X				X		X		Oppose	Already too expensive and the roads are horrible!! Where is the money going all of these years???
07/17/26		60089	X			X	X				Oppose	
07/17/26	Melissa Kessler	60614			X	X	X				Oppose	Tolls to get to Chicago to Indiana are already outrageous, especially at the Chicago bridge. It's $15 to go just a short ways.
07/17/26	Mike Dean	60015	X				X			-	Oppose	A 59% increase is unacceptable. Everything is so expensive these days and this increase will hurt commuters and result in price increases for goods and services. More "improvement" projects are not needed. No wonder people are leaving Illinois.
07/17/26	Mary Godlewski	60640	X			X	X				Oppose	The proposed increases will make driving more unaffordable.
07/17/26	Peter Kubala	60007	X				X			Decent travel time.	Oppose	A small increase would be tolerable, but the proposed current and future increases are excessive.
07/17/26	Kris Johns	61021	X				X			None	Oppose	Interesting how half of all of the hearing dates were held before this email was ever even sent/receieved. Rural communities that won't see the majority of the benefits mentioned should pay lower local tolls
07/17/26	Raymond goff	60502	X				X		X		Oppose	Stop giving the tollway money to the city of Chicago for the RTA
07/17/26	harun karademir	60016	X		X		X				Oppose	if you vote for this i will vote for your opponent in the next election
07/17/26	Glen Parker	61010	X				X			Same rate not dependent upon time of day the road is traveled on.	Oppose	Illinois already charges more dependent upon the time of day the toll road is used, which in my opinion is a scam. Raising the rates further is less likely to improve road conditions and more likely to just be another give away to Chicago.
07/17/26	joe flasch	60074	X			X	X				Oppose	We all ready pay some of the highest toll rates in the nation , has there been any look at making the money we already pay work better for us ? It seems construction on the toll road is non stop , and construction costs are out of control , are we looking into this ? We need better control of costs here not higher rates !

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/17/26	Angel Colon	60151	X	X			X				Oppose	I support maintaining and improving Illinois roads because safe, reliable infrastructure benefits everyone. Roads and bridges require ongoing investment, and delaying maintenance often leads to higher costs in the future. However, asking Illinois drivers to pay more should be the last option, not the first. Before approving any toll increase, the Illinois Tollway should undergo an independent financial and operational audit. That audit should answer several important questions. Has the agency eliminated unnecessary spending? Are projects being completed on time and within budget? Are contracts awarded through a competitive and transparent process? Have administrative costs grown faster than construction costs? Has every opportunity to improve efficiency been explored before requesting additional revenue from drivers? Illinois residents already make significant contributions to transportation funding. Every time drivers purchase fuel, renew their vehicle registration, pay licensing fees, buy or repair a vehicle, or travel on a toll road, they contribute to maintaining the state's transportation network. Many families feel they are paying repeatedly for the same infrastructure while continuing to encounter aging roads, construction delays, and congestion. Before asking taxpayers and commuters to contribute even more, government agencies should demonstrate that existing resources are being managed as effectively as possible. The proposal to automatically increase tolls based on the Consumer Price Index every other year raises additional concerns. Inflation measures changes in the cost of goods and services across the economy. It does not guarantee that a government agency has become more efficient or that projects are delivering greater value. Automatic increases reduce accountability because they create a mechanism for raising revenue without requiring the same level of public scrutiny, legislative discussion, or detailed justification each time rates increase. Transparency should be the foundation of any request for additional funding. If toll rates are increased, the public deserves clear answers. Which projects will receive the funding? What is the expected cost of each project? What measurable improvements will drivers experience? How will progress be tracked? What safeguards exist to prevent cost overruns? Taxpayers should have access to regular public reports comparing projected costs with actual spending, project timelines, and measurable outcomes. Higher tolls also have consequences that extend beyond individual drivers. Commercial carriers will likely pass increased transportation costs on to manufacturers, retailers, and consumers. The cost of delivering food, medical supplies, construction materials, and everyday products ultimately becomes part of the prices families pay.
07/17/26	Sharon Rosier	60439			X		X			355 was paid for in years. People going to work that oay more than 2 tows a days is taking from our paychecks each week plus the high fuel charges. Why work? I work for UPS and only receive a 2% raise a year no cost of living raise. Tax the rich and let the poor alone	Oppose	Stop raising the tolls. We can't afford the raise. This survey to check 3 is not the purpose of why I'm writing on this. Don't raise the tolls
07/17/26	Daniel John Morrissey	60048	X			X	X				Oppose	I am very sceptical of our ability to use the new revenue to achieve the stated goals. We have had many promises of what the toll revenue would do for the state only to find out it would never happen. (temporary, fund schools, etc.). This state is raising taxes everywhere and we seem to be going in the wrong direction despite all the new tax laws. We need to figure out how to streamline our government processes including tollway / roadway planning with the tax base we have - take responsibility

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/17/26	Cheryl Brownell	60506	X			X	X				Oppose	Please no increase. It's hard enough now. The proposed increase is not sustainable.
07/17/26	Michael coriell	60404	X			X	X				Oppose	
07/17/26	Vlad	60431	X		X					Safe	Support	Safe and reliable roads do not happen by accident. They require ongoing investment and planning. I support the Driving Connections Capital Program because it helps ensure the Tollway system remains safe and efficient.
07/17/26		60007	X		X		X				Oppose	Ask Ken Griffin and his billionaire friends to pay. Stop pushing everything on the middle class.
07/17/26	Anthony D Irvin	60440					X		X	Fixed rates that won't price the average person away	Oppose	I'm a driver and I remember when we built the tollways the fee was supposed to be temporary but for some reason seems to be permanent and continually grow up at this rate in this price everyone will have to avoid them and additional pressure on the free access points available. I'm not sure if you even listen to people anymore but just in case you do on all of us can afford to do this okay
07/17/26	Jerry Gooch	60084	X		X		X				Oppose	We already pay with gas tax
07/17/26	SHIRLEY SYKORA	60516			X	X				Truck restrictions	Oppose	In my experience the toll roads are almost always under construction; in the short time I355 has existed it has been under major construction at least 4 times and it seems that each time it is "improved" it actually becomes worse. Because it was extended to I80, the truck traffic has significantly increased and the truck drivers are no longer the most courteous considerate folks on the road. Don't even get me started on I294, the road of perpetual construction! I fail to see how another "project" will do anything to improve the toll roads. Toll roads were built with the promise that once they were "paid off" the tolls would be eliminated...yet the tolls only continue to increase...the drivers are being penalized because the authority cannot seem to hire honest construction companies. Throwing good money after bad is definitely not the solution...better planning, "design and materials and more honest, conscientious spending is the solution. Rather than "redesigning and rebuilding" the toll roads, you should think about redesigning the Toll Road Authority. The only way raising tolls will help is in keeping more people on the side streets and out of the "toll booths." That is certainly where I will be.
07/17/26	Brian DeYoung	60548			X		X		X		Oppose	We are always getting nickel and dimed in everything gas/ cable/food it has to stop my pay doesn't go up all the time
07/17/26	Rick Sherman	60124			X	X	X				Oppose	Remember when tolls were only supposed to be temporary...and then they weren't? Affordability is the most important item for me when taking the tollways and constantly raising the tolls is not ok. It's not like you are going to be making them any wider to help with traffic. Feels like the tollway is just wasting our money. No rate increase!
07/17/26	Lucas Allen	60190	X			X	X				Oppose	I am a daily, heavy user of the entire tollway system for the last 20+ years. I understand and appreciate the management's interest in delivering exceptional and industry-leading performance; I believe the tollway system is working well. I also acknowledge that costs of operation continue to increase. I urge the board to reduce the proposed scope of work and limit the rate of increase to no more than half of the proposed rates. Things are going well, and you've worked to reduce overall overhead costs, but many of the technology expenditures you have planned will require replacement too often. Please cut your increases and spend fewer resources on the development of future projects that are only nice-to-have, and not need-to-have.
07/17/26	Robert Smith	60174	X	X						Stop giving money to illegals	Oppose	Stop giving money to illegals, stop running businesses out of Illinois Goodbye Pritzer, Goodbye Johnson - thanks for ruining the city & state I loved
07/17/26	Craigory	60440			X	X	X				Oppose	The idea that we don't already pay enough in taxes and tolls in Illinois is insulting...

07/17/26	Will	60517			X	X		X			Oppose	Stop wasting our money, you slimy, corrupt fucks. You politicians belong in a reeducation labor camp. Especially Pritzker, would help him slim down.
07/17/26	pam hendrickson	57103			X		X			do away with the tolls like they were supposed to many years ago	Oppose	all they're going to do is clog up the toll road for 15 years and then in 15 years they're gonna say hey we need to spend more money on doing something else stupid

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/17/26		60516			X		X			Lower tolls or no tolls	Oppose	Tolls were supposed to go away after 50 years, not go up!
07/17/26	VMMB	60560	X		X		X				Oppose	
07/17/26	RAFAEL PARRA	60110	X	X		X					Neutral	
07/17/26	Kimberly Kolbert	60126	X			X	X				Oppose	The tollways were supposed to be free in 20 years once the original bonds were paid off. The tolls are already too high. Doubling the toll rates is very burdensome to Illinois residents.
07/17/26	Mike reed	60458			X	X	X				Oppose	We already pay enough taxes to fix roads
07/17/26	Virginia Farrell	60090				X	X			noooooo	Oppose	no more funding corruption
07/17/26	Chris fillmore	61008	X		X		X				Oppose	The tolls are enough already if not too much
07/17/26	Brad Jack	60510	X	X	X						Support	Safe and reliable roads do not happen by accident. They require ongoing investment and planning. I support the Driving Connections Capital Program because it helps ensure the Tollway system remains safe and efficient
07/17/26	Virginia Parsons	60119				X	X		X		Oppose	This increase will negatively impact my families commute to school where we don't have alternative routes to choose from. We are opposed to the increase.
07/17/26	Lucille Mary Frett	60060-6029	X				X			Trucks destroy the roads. They should pay more	Oppose	We pay too much in taxes now! Why don't you live within your means? People are hurting now because Illinois is the most expensive state in the union in which to live. That is why every 15 minutes someone moves out of Illinois.
07/17/26	Steve Parsons	60119	X				X			Fix our roads	Oppose	The Govt of Illinois is literally 'driving' people out of this State. My family has no intention of staying in this State any longer than 12 months. The cost to register a vehicle DOUBLED and now it seems like Illinois nickle and diming us, it's quartering and dollaring us!
07/17/26	Christopher Torres	60074	X				X	X			Oppose	Price increases were already applied. The increases need to have a time frame and then be lowered.Why not have a set time frame of the price increase or are the higher ups pocketing the money for the illinoisians' roads
07/17/26	Ken Marland	60586			X	X	X				Oppose	I wish my income went up 30 percent . Why don't you try managing what you get now better before asking for more of people's hard earned money
07/17/26	Cindy Klimt	53182	X		X		X				Oppose	I'll simply remind you that when the toll system was started way back, it was only supposed to be for X amount of years. What happened to that promise?
07/17/26	Theresa Elliott	46385	X		X		X				Oppose	I understand that everything goes up. Cost of materials/labor/ vehicles and everything else behind the scenes! It just seems year after year nothing improves but the cost to use those roads raises Frustrating for use commuters!
07/17/26	Basilio Irizarry Jr	60177	X	X	X						Support	As a member of IUOE Local 150, I support the Illinois Tollway's Driving Connections Capital Program. These investments help maintain and improve the roads and bridges that millions of people rely on every day while creating opportunities for skilled construction workers.
07/17/26	Roman Magid	60062	X		X		X				Oppose	
07/17/26	Dean	60543	X		X		X				Oppose	Illinois has a very poor reputation for fiscal responsibility, accountability, and project funding within a budget. The rate hike is too high and should be stepped every five years vs all up front. This will allow it to be absorbed better by users and also trend with inflation. Example. If you want 40 cents. Do it in 3 increments.
07/17/26	Lydia kou	60169	X				X			Lower toll rates, not higher ones	Oppose	Please find ways to balance your budget that do not involve further extortion of the public. Maybe cutting some red tape could save money and time. Find some fresh minds to think outside of the box for new solutions. Not everything is a money problem and the public can't afford to keep giving more. Illinois residents are suffering and a toll increase will add additional burden.
07/17/26		60585	X		X		X				Oppose	
07/17/26	Mario Misseha	60586	X		X		X				Oppose	It is already expensive driving as it is. The narrative that tolls help traffic is a poor one. Please stop putting this horrible strain on Illinois citizens. Where does this money even go?
07/17/26	Alfred vidrio	60506	X		X		X				Oppose	This is not a good idea. People are struggling to afford a decent quality of life.
07/17/26	Lauren Hai	60048	X		X		X				Oppose	
07/17/26	Steve Rygula	54424	X	X			X				Oppose

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/17/26	Josh Bryant	60423	X		X		X				Oppose	Already expensive
07/17/26	Justin Williams	60118	X						X	ELIMINATION	Oppose	Eliminate the whole DHAAAAMN thing. Put back rest stops. Barricade the skyline. None of its worth looking at anymore. 75 MPH speed limit. Eliminate All wasteful spending. MAKE ILLINOIS GREAT FOR ONCE.
07/17/26	Eieen Castrovillari	60618			X	X	X				Oppose	The tollway already collects more money than they need. I am extremely opposed to an increase.
07/17/26	Gordon Heavern	80301	X		X		X				Neutral	From the early 1980s into the 1990s the I-80 pass through to Indiana was in a horrible state of disrepair as work was being done to upgrade the road system. Driving though one year, from west to east to NY state, I was delighted with the completion of the massive improvements which has made travel through the corridor much more pleasant. Having gone through during heavy rush periods there is still delay, as of my last trip in 2018, but other times it has been a breeze. I am dismayed by everyone going to the transponders for the tolls but if I were a more frequent traveler would be having one of my own. It would be awful kind if these devices had a low battery indicator as I have read of people being charged the higher non user rate because their device was not transmitting to the toll barrier receiver. I wish you well on the improvements to other areas of the highway system. Gordon Heavern CO Lic # 640-IEU.
07/17/26	Ted hvarre	61021			X	X	X				Oppose	
07/17/26	Howard Bailey	60450-9168	X				X		X		Oppose	We are simply taxed too much in this state, everytime we turnaroud the state has their hand out again. They have plenty of revenue sources for the roads, find the money elsewhere!
07/17/26	Terry Karner	60177	X				X		X		Oppose	I find it ridiculous that a travel trailer gets charged the commercial rate. An Illinois resident that already pays sky-high taxes then gets blasted with sky-high toll rates just to pull a camper on a trip. Now you are proposing a 30% rate hike, enough already!
07/17/26	Jettus gaffey	61010				X	X			Concrete roads	Oppose	
07/17/26	Jane Campbell	60192	X			X	X				Oppose	Stop the madness! Your taxing people too much. Real estate OMG, sales tax , gas tax, now services, and increased road tolls. Do you realize when tolls began, people were told it was temporary. Government has no restraints and is out if control in illinois. False promises, contract agreements, pensions remain underfunded by every past administration including the present one. Administrations have no conscience, look to only benefit their own, and bear no responsibility when this all finally falls apart. Stop!
07/17/26	Ildiko Puskas	60189	X	X			X				Oppose	No increase!
07/17/26	Michele	0548				X	X			Payed off in 1975	Oppose	It has been many years and too many increases! 07/17/26	Kuba Glowczak	60458	X	X	X						Oppose	There should not be an increase in tolls if the highways now cant even seem to have a change and raising the prices will just hurt each and every drivers pockets more.
07/17/26	Rachelle D Woolbright	60103			X	X	X				Oppose	The increase amount would be too much for the average driver. While the toll amounts may not have increased the number of tolls has on roads that did not have tolls previously or had less tolls.
07/17/26	Vance	60611	X				X			Nothing	Oppose	You will doubtless recall that the original toll charges were to be “temporary “. Many years later we are still paying tolls to a system that cannot manage it’s finances. Doubt increased revenue will do anything other than pad the pockets of pensioners and incompetent politicians. Just returned from Wisconsin where there are no tolls and excellent roads. Don’t pat yourselves on the back in Illinois. The system is broken. But you know that.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/17/26	Michael Murray	60544	X			X	X				Oppose	First. The money that is collected by the toll authority is supposed to be used to maintain the toll system. It's not meant to be raided by the politicians in this state. 2nd as a commercial driver raising the tolls is going to hurt independent and small operations. Their margins of profit are not that great. Passing on the raise to shippers will not ease the burden on the small business. You're going to force these drivers on to local roads this is going to cost these drivers time. Time that they will not be able to make up because their hours of service is so regulated. It is also going to put a strain on the additional amount of local traffic on city streets. The you need to factor in the wear and tear on local streets due to the heavy weight of the larger vehicles traveling through the municipalities from Lansing Illinois up to Bristol Illinois. I would add that for the average citizen. The toll raise could be a burden on their budget. Illinois is already the largest taxing state in the country. The average citizen is falling behind because Illinois is losing large businesses to other states and they are taking their jobs with them. I would for once like to see a taxing body decrease the taxes or fees that all citizens and businesses are levied. Please think of the citizens of this state before making this decision. I for one am getting ready to sell my property and move south. I can't handle any more new taxes. The Citizens of Illinois are not an ATM. they actually pay your salary
07/17/26	Sam w	60626	X			X				Drivers pay for it	Support	This is an excellent idea to make cars pay for the infrastructure they use. Keep it up!
07/17/26	Dave Chapman	60140			X		X			Fix on ramp from 53 to 90 make it a fly over ramp	Oppose	Illinois miss appropriates the funds as it is. Balance your budget without raising tolls. Also, fix the on ramp from 53 nb onto 90
07/17/26	Nick	60169	X		X		X				Oppose	Increasing prices is going to decrease use. These roads have long since been paid for. If the Illinois government wasn't so corrupt, and knew how to manage money, we wouldn't be in this situation.
07/17/26	Cindy Esquivel	60446			X		X		X		Oppose	I'm on a fixed income and can't afford the price increases!!!!
07/17/26	Andrew	60093	X		X	X					Support	
07/17/26	Linda Garcia	4.99E+08	X				X		X		Neutral	For people who rarely use the tollway, and have an impeccable driving record such as me, the price should be lower.
07/17/26	Bubba Gump	60614	X			X		X			Oppose	Tolls bad
07/17/26	Robert Borchardt	60521	X				X			Cleaned in the winter	Oppose	We know you're just forcing us to pay for Chicago's CTA. Pritzker, the Tax King, has sucked the Tollway Authority into his evil plans to raise taxes on the workers of the state. Shame on you for allowing yourselves to be steamrolled. Isn't that damn thing paid for yet? Another bait and switch played on the tax payers.
07/17/26	Stuart Geiger	52404	X		X	X					Support	Eliminating congestion on inbound and outbound I-88 is a "must have!"
07/17/26	Margaret Kleifgen	60561	X			X	X				Oppose	While the toll roads are a convenience to travel in a shorter amount of time, I will not be using a toll way (I 355 and I 294) very often. The increase in cost will not justify the time savings. I will travel the main in town routes to get me to my destination. Be it a little longer travel time and not have to deal with the heavy traffic and congestion on the tollways. And tractor/trailer traffic is just too heavy now a days.
07/17/26	Alicea	60142		X	X		X				Oppose	
07/17/26	Sharon	60432	X		X		X				Oppose	The economy already struggles with everyday cost of living expenses
07/17/26	Pat Steiner	60540			X		X			End the construction	Oppose	Must fix 294 to 88- horrendous!
07/17/26	Jordan	60031	X		X		X				Oppose	You guys have to be actually stupid in thinking this is a good idea. NO ONE WANTS MORE TOLLWAYS. Especially for construction projects that never get finished.
07/17/26	Tom O'Connor	60634	X	X			X				Oppose	The increase is excessive and should be reducded to half of what is stated
07/17/26	Mark Papadogiannis	60625				X	X			Synchronized red/green lights for flow. C- Holland Michigan!!	Neutral	Improve what you already have. Whoever is responsible for red lights flow and coordination is doing a very poor job. There is no flow. Go to Holland Michigan and learn from them!! Too many stop signs...learn from Belgium: the driver coming from the right has priority...that is it!!! No STOP signs!!! Create more parking areas at low price and increase pedestrian areas.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/17/26	Monica	60516	X		X		X				Oppose	Will definitely find alternatives to driving the Tollway. Too much traffic congestion. Rate increase is ridiculous. What have current tolls done for Illinoisans? What happened to toll free in 73'?
07/17/26	Heidi	60448	X				X			Clearer signage	Oppose	
07/17/26		60563	X		X		X				Oppose	It was already paid for. The tolls should be paying for the upgrades. What is the money being collected used for now?
07/17/26	Kimberly Plaxton	60304	X				X			None	Oppose	This is NOT the time for a toll rate increase--especially of this magnitude. A toll rate increase will add to inflationary costs across the economy--and likely cause commuters to find alternate routes, which will clog secondary roads. Very upsetting.
07/17/26		60069	X		X		X				Oppose	
07/17/26	Cecilia DiSomma	60441				X	X			SAFETY THAT INCLUDES ALL OF THE AFOREMENTION	Oppose	Do not do this increase. It's an outrageous proposition that would add even more over bearing financial pressure to myself and all others in this state who are demanding fiscal responsibility to those elected to keep Illinois citizens safe and live in abundance, not struggling constantly with high taxes plus multitudes of extreme over priced gas, food, medical and many other necesities. No to this outrageously way too high, any amount will be too high. It was promised in 1973 that no more tolls would be taken again at all!!!!!!! Keep that promise !!!!!!
07/17/26		60517	X		X		X				Oppose	What have you done with all the money you already have? The tolls were supposed to be temporary and they just keep increasing. It takes over an hour to go 20 miles which is absolutely ridiculous and I have to pay for it. I have to pay for the privilege to sit in traffic for over an hour for a trip that should take more than a half hour. You could have all the money in the world and it will never get any better.
07/17/26	Jessica W	60614	X		X		X				Oppose	Increase of toll cost will create a dominate effect not in just the cost for us to travel daily for personal use, to and from work, and for essential travel, but it will effect the supply chain ecosystem. Companies will pass along the hefty increase in cost to EVERYONE else, especially us the end consumer. Think groceries increase, cost of goods, everything!
07/17/26	Thomas Beranek	60440	X				X			Knowing Illinois won't try to increase toll rates for everyday commuters.	Oppose	No road expansion, maintain the existing roads. Cut costs and save money to fund your projects.
07/17/26	Joseph Mazzarella	60637	X		X	X					Oppose	
07/17/26		61109		X			X	X			Oppose	
07/17/26	James	60627	X			X	X				Oppose	Please do not raise the price.
07/17/26	KAROLY VARGA	60169-1902			X	X	X				Oppose	
07/17/26	Christopher Demitropoulos	60136	X		X	X					Oppose	No more tolls! We pay enough in taxes to fund roads and highways. Balance the budget that you have before asking for more. Fiscal responsibility isn't just for private citizens.
07/17/26	Ronald Nault	60450				X	X			safety	Oppose	Just another reason to encourage people to move out of Illinois. I always thought the tolls were supposed to disappear once the original bonds were paid off. Can't believe authorities and politicians would lie about that. 45 cents multiplied by the number of vehicles passing thru these tolls annually is an amazing total! Let's collect what we need to operate and maintain a safe, reliable roadway system, but let's limit it to what is actually needed.
07/17/26	Anne Herzeg	60504	X	X			X				Oppose	I do not desire to pay additional costs for tolls. They are high enough and my husband and I are struggling financially due to his job loss and the job market thr past few months. I think the tolls we pay are enough to maintain the toll roads.
07/17/26	Connor Marchman	60641	X			X	X				Oppose	
07/17/26	Haworth	32097	X			X	X				Neutral	Isn't gas tax supposed to be used for roads? Don't taxpayers already fund transportation? Also paying for iPass to maintain toll roads. Is current funding not sufficient or is it simply poor planning & management of funds to not be able to cover costs with dedicated resources.
07/17/26	Armando Sandoval	60446				X	X			Cheaper tolls	Oppose	Affordability.. what have we been doing with all the current toll funds already?

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/17/26	Tony Zenisek	60544			X		X		X		Oppose	Everything is so expensive i literally can not aford to pay more tolls im literally broke from the high vost of Everything thinknabout the little guy dor once
07/17/26	Keilan McCann	60134	X			X	X				Oppose	As a recent grad, an increase toll marks a significant effect on my income.
07/17/26	Michelle Lerma	60546	X				X		X		Oppose	
07/17/26	Nell M.	60827	X				X			Toll enhancements? when community streets are collapsing! Local Major street to hospital have been closed for almost 3 years. This in very inconvenient to the community. Emergencies occur daily- complaints have been made repeatedly to NO avail. Taxpayers money....this is ludicris & inconsiderate because the email received for the Markham Community Toll Meeting was emailed on July 16, 2026 when in actuality the toll meeting was posted for July 15,2026 according to website. This apppear to be misleading & deliberate ..... For real, For real🤔	Oppose	More money for who? Billions with a B I oppose the Toll changes because Taxpayers already work harder & benefit less. Have a selfless heart & think about how this will increase the struggle for many.This is why decision making individuals must be wise & compassionate rather than being greedy for power & satisfying their lust. I hope this comment is taken into consideration. Try resolving many of the local community issues BEFORE grasping to satisfy a few tyrants & harming the masses. I hope this can/will be address at your upcoming forms because this is being submitted before the deadline. Your attention is greatly appreciated AND I am one out of many concern taxpayers/citizens that opposes this burden on the pure hearted, hard-working Taxpayers. Many are avoiding the tolls daily - already 🙄 Save $$$ is the end game. What say you? 🤔🤔🤔 Your consideration for the general public is greatly appreciated! "Thanks"
07/17/26	Nick rovella	60462	X		X		X				Oppose	
07/17/26	Nick Murphy	60416	X		X	X					Oppose	These tolls were supposed to end decades ago and yet here we are with unregulated government spending and more tax hikes. No wonder everyone moves out of Illinois!
07/17/26	Esequiel Zepeda	60018	X				X			It should be free like California	Oppose	It should be free of charge
07/17/26	Thai ty	60004				X	X			Affordability	Oppose	This is a flawed survey and you know it.
07/17/26	Christine Melone	60446				X	X			Affordability	Oppose	The Tollways are expensive already
07/17/26	Brian Sowinski	60448			X	X	X				Oppose	Do not raise the toll
07/17/26	Mohammed Ghouri	60156		X		X	X				Oppose	do not increase the toll price as we travel everyday for work
07/17/26	Marie Wojak-Harnish	60126	X		X		X				Oppose	We want another toll hike, to fund roads, but there is no accountability as to how this money is actually spent. Construction is a joke. It take Illinois four times as long to get half of what some states get done in four weeks. We are struggling to afford basic needs in Illinois and now we have to pay extra on top of the exorbitant gas prices and already high tolls? This is ridiculous.
07/18/26	Alfredo arguello	60647			X	X	X				Oppose	
07/18/26	Valerie	60613	X				X	X			Oppose	
07/18/26	Marcel	60613	X				X	X			Oppose	

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/18/26	Tyler	60453	X			X	X				Oppose	Strongly oppose due to having to commute multiple times a day, the tolls add up and are forcing me to resort in taking non-toll roads
07/18/26	Marylou Coyne	60102	X			X	X				Oppose	45 cents per toll can really make a dent in a budget when traveling from the NW suburbs to the city. Possibly half that amount would be a bit more palatable. Thanks
07/18/26	Paula Bardahl	60510				X	X		X		Oppose	There's a thing called "taking the back roads." I can do that for free.
07/18/26	Ed	60449	X		X					F U Pritzker	Oppose	F U Democrats
07/18/26	Lynn Fall	60639-4312	X	X			X				Support	
07/18/26	Larry	60047	X		X		X				Oppose	I know it takes money to maintain the tollway but the amount is crushing the trucking industry that uses the roads everyday. I don't have an alternative answer but forcing the raises in tolls every year creates costs that need to be paid by someone and the trickle down theory makes the average consumer the brunt of all these increases
07/18/26	Juan j hernandez	60438	X	X	X						Support	Creates work for union workers
07/18/26	Bruce Kirchhoff	60050	X			X	X				Oppose	Its going to raise everything that is delivered by car or truck
07/18/26	Anthony	60441	X			X	X				Oppose	
07/18/26	ATRI KALLURI	60564	X	X		X					Support	
07/18/26	Chris	60563			X	X	X				Oppose	This is ridiculous. Toll booths were supposed to be taken down years ago. This raise in rates is solely due to the states constant misallocation of funds.
07/18/26	Jason	61052	X			X	X				Oppose	Illinois is becoming to expensive to live in or even visit.
07/18/26	Bruce Johnson	60015	X		X		X				Oppose	We already pay high gas taxes for roads.
07/18/26	Edward	60173	X				X	X			Oppose	Illinois is already too expensive. Don't know how much longer I can live here.
07/18/26	Mike	Hollis	X		X		X				Oppose	
07/18/26	Dr. Bernard Barr	60172	X			X				alleviate many difficult diagonals around Chicago suburbs	Neutral	At our advanced age, we mostly go "out of our way" to bypass tollways
07/18/26	Nick calcagno	60439				X	X			Taxes have been raised 63 times under JB when does it stop?	Oppose	The working class shouldn't be the states break glass incase of "emergency" fund
07/18/26	Amber calcagno	60439				X	X			Jb stop imposing more taxes	Oppose	Only kings impose taxes like JB. 63 tax hikes since 2019 is ridiculous.
07/18/26	Raj	60004				X	X	X			Oppose	Illinois Tollways has collected so much money over the years... more then they need to to upkeep the roads for decades... this increase is theft.
07/18/26	B Baughman	61853				X	X			None of the above. What is important to me is the reality that all that I desire for travel is already provided by non-toll roads.	Oppose	The toll concept is a gross example of political corruption and an abuse of tax payers. The roads and bridges exist (paid by taxes and tolls to date. Existing taxes and tolls have been misappropriated and misused thus preventing the sustenance of the existing infrastructure. Find a way to live within existing revenues by ending political corruption and misuse of current taxes and current tolling revenues.
07/18/26	Thomas Boersma	60477	X		X	X					Support	
07/18/26	Christopher Cuellar	60634	X	X	X						Oppose	Get Pritzker out
07/18/26	Martin	60517	X			X	X				Oppose	The tolls currently collected are not being used in fiscally sound manner. When was the time the Toll Authority was audited by an outside, nongovernmental organization. Don't give it more money until we see what where the current is going.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/18/26	JoLinda Schuh	60914			X		X			Safety from NOT having to drive directly into city of Chicago	Oppose	Balance your budget, quit spending like an irresponsible, spoiled child, Pritzker already took a majority of our road & bridge money for other projects, enough is enough. Mt area is not being represented, Taxation without Representation.
07/18/26	Chris Jensen	60120	X				X			Fiscal Responsibility	Oppose	This increase is far an above what is needed to maintain the roadway. The tollway brought in 1.753 billion dollars last year. Illinois also received several billion in Federal subsidies. We do not need improvements to existing roadways in northern Illinois other than the general scheduled maintenance. Everything in Illinois increases. Property tax rates have skyrocketed, gas tax raised, now tolls are being raised. Fiscal mismanagement.
07/18/26		60638	X		X		X				Oppose	
07/18/26	Bryan m	60068	X			X	X				Oppose	
07/18/26		53185	X		X				X		Support	
07/18/26	angelica v	60076	X	X		X					Oppose	
07/18/26	Tom Sullivan	60188			X	X				How about NOT having to pay extra to travel the roads we have, and provide more travel options.	Oppose	The tollway when it began was supposed to be TEMPORARY! Now it seems as though you can't travel anywhere in the Chicagoland area on a non-toll expressway. Having traveled recently to Michigan and Ohio, they have non-toll expressways everywhere making it way to get around. If the tollways are supposed to prevent stop and go traffic to help curb fuel consumption, then the tollway is failing miserably! There is NOTHING express about the expressways/tollways in Illinois. If we saw improvements in our roadways, we may be okay with constant rate hikes and taxes; however, we don't see improvements, gridlock is just getting worse, and it just keeps costing us more money to do normal everyday things in this state. It is disrespectful to the residents, and quite honestly a joke when you try to say the increases are going to improve anything. The only thing it improves is the wealth of the crooked politicians and the businesses they align themselves with.
07/18/26	William DiClementi	60714					X		X	your just trying to create unnecessary work	Oppose	The roads are fine the way they are this project is unnecessary and way to expensive!
07/18/26	John Zefeldt	60188	X		X		X				Oppose	
07/18/26		60162	X		X		X				Oppose	
07/18/26	Andrew Brewer	60560	X				X			Funding through existing revenue	Oppose	We already increased toll rates to support borrowing money for improvements. I expect that increase is either repealed with those being paid off, or used to fund without coming and asking for more increases. Do not raise rates.
07/18/26	Dr Dominc Nic Andriacchi	60465	X		X		X				Oppose	I feel rates are high enough for what we are getting on our tollways in Illinois
07/18/26		60448				X	X			less construction	Oppose	Time to end the Illinois Tollway scam. It was originally sold to the voters with the promise that once paid off it would be self sustaining from tolls. Now it is continuous welfare for contractors and connected unions.
07/18/26	Matt Thompson	60102	X			X	X				Oppose	Per the illinois policy,"Since 1973, toll revenues have consistently exceeded the cost of maintaining and operating the tollway system. In total, from 1973 through 2024 the tollway collected nearly $20.7 billion more than needed for maintenance and operations" If you have collected over 20 billion more than what was needed, where did the money go? If you can't keep track of the money, or if you have funneled it elsewhere, then you pay for this project. The corruption in this state is ridiculous
07/18/26	Kathleen Costello	60451			X	X	X				Oppose	It's already very expensive to make a trip on the tollway. You are already taxing our gas, our income, and everything we buy. Please keep the roads affordable. No toll hike please!!
07/18/26	Susan Berkowicz	60438	X			X	X				Neutral	I understand that you need increased revenue to maintain the roads, but as a senior citizen each increase makes it less affordable for us. It might be nice if you offered some kind of senior discount. That would be greatly appreciated!
07/18/26	Carolina Alvarado	60706	X		X		X				Oppose	
07/18/26	John Fallon	60565	X		X		X				Oppose	Cut spending!

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/18/26		60626			X	X	X				Oppose	
07/18/26	Jennifer Miramonti	60074	X		X		X				Oppose	I probably should support this because if you raise the tolls, smart people will avoid them and I'll have the road emptied by this action. However, most ppl are not quite where I'd like and will gripe but pay. Do it- make it $100, beat the skyway prices- choke the tollway. I will do my best to avoid those roads and clog your suburbs instead. IDOT should just make these roads for trucks only.
07/18/26	Elizabeth Schutz	46310	X		X		X				Support	There is too much focus on the western suburbs. The worst road for congestion is I-80 especially from Indiana to I-294. I would like to see a long term plan for easier O'Hare access connecting to I-294 from the southeast side of Chicago. The only option is to go on I-90 or I-94 north through downtown Chicago or suffer on I-80 to I-294! And I OPPOSE any increase to I-90 Skyway tolls and suggest a decrease in I-90 Skyway tolls to eleviate the I-80 and I-94 south congestion. It's obvious that very few are willing or able to paying those Skyway tolls at the price they're set today. Thank you
07/18/26	Mary G Mildren	61201	X	X			X				Oppose	Why do fees never decrease? Make cuts to the truly unnecessary first instead of finding more reasons to increase!
07/18/26	David Salvino	60544					X		X	Help on roads	Oppose	No tolls
07/18/26	Heather Schmidt	60540	X				X		X		Oppose	Where is the money going for the tolls? The road are terrible. Every year they are under construction. It is becoming so unaffordable to live in this state and you are not helping. Also, how do you get on the board? How much do you all make?
07/18/26	Jon Maul	60504				X	X			It reduces its cost	Oppose	My name is Jon Maul. I live in Aurora. I use and pay tolls frequently. I oppose raising passenger tolls by about 45 cents and authorizing automatic inflation increases without future board votes. I urge the board to reject automatic toll hikes and instead pursue a more transparent, accountable plan that protects drivers from open-ended increases. This is yet another example of horrible government in Illinois. Your board is only accountable to Pritzker. Pritzker is the worst Illinois governor ever. You are not accountable to the voters. One more reason why people leave Illinois. Your projects like rebuilding the 88 and 294 interchange immediately after it's built are inexcusable. An example of the low IQ board and management of the tollway. Illinois citizens pay the highest gas taxes plus tolls and you want more $!? Quit insulting us and figure out a better plan. I find it disrespectful and disgusting that many of your hearings are in the middle of the work day. This makes it difficult for working people to attend. What about the cost savings from automated tolls when you got rid of cash? You probably spent it on enriching the contractors. It takes you people a ridiculous length of time to complete projects. All the states around Illinois have great roads and either minimal to no tolls and lower gas taxes. Figure out a better plan and manage your business better. Quit ripping Illinois citizens off! Warmest Regards, Jon Maul
07/18/26	Rachael	61108					X		X	Decrease is tolls so traveling in state is less expensive	Oppose	This is an absolutely horrible idea. Inflation is through the roof, people are literally being taxed out of their homes in Illinois, income is not rising for residents, and this proposal wants to increase the tolls on both residential and commercial vehicles which means less money for families to use on food and housing while also causing all purchases to increase. Every single person in this state knows that all of that money will be spent on the roads in Chicago while the rest of the state gets screwed over again by the toll increases. Everyone outside of Cook County can no longer financially afford to support them.
07/18/26	Ron Cochran	60447	X		X		X				Oppose	We already pay way too much as it is. Many people in the area have no other choice but to use the tollway and this increase will put a severe burden on them.
07/18/26	Raul	60185	X		X		X				Oppose	We get taxed enough in this state go find the funding elsewhere we get pinched at every turn we do in this state.
07/18/26	Luke Halverson	60030	X		X		X				Oppose	

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/18/26	Amy Robledo	60177	X				X			affordability - reduction in tolls	Oppose	I'm disgusted by the proposal to increase tolls, especially knowing when tolls were implemented they were supposed to be temporary and end in the 70's. Still charging 50 years later and you continue to increase and make getting anywhere less affordable. I feel this program is grossly mismanaged. Illinois continues to DRIVE people out of the state.
07/18/26	Fisher	60148	X				X			More police to monitor dangerous drivers	Oppose	The tolls have gone up significantly and another is proposed. Residents can ill afford the increases when wages are not going up to match the increase you request. Keep it up and the roads will be used to have more residents take a one way out of the State.
07/18/26	Kelsee Vandervall	60626	X			X	X				Oppose	59% increase?! An increase that high makes me question if the funds would be used efficiently and properly. My fear is the roads will be the same. Throwing more money at something doesn't always resolve issues. Would there be an itemized list of reasons for this increase and where the funds will be directed accessible to the public?
07/18/26	Collin Rabe	61356	X		X	X					Oppose	These tollways should be free. They were supposed to sunset years ago. Quit charging people for the government's bad spending habits
07/18/26	dace	60193	X			X	X				Oppose	Toll free by '73! Remember that old slogan?
07/18/26	Kenny Kim	60060			X	X	X				Oppose	
07/18/26	David Wolfe	60152	X			X	X				Oppose	For residents it is already too high. What happened to years ago when it was working towards no tolls for residents? I avoid using the tollway due to ridiculous costs for a daily user.
07/18/26	Satoshi	60044	X		X		X				Oppose	You idiots have never found a tax hike, a toll increase, or an additional fee you didn't like. All you can do is demand more and more from us. This state is rotten. I've lived here my whole life, but I've had enough. I will leave this shithole.
07/18/26	Bill	60426				X	X			Strongly oppose but it doesn't matter because you are going through with it regardless	Oppose	Like I said it doesn't matter because you are going through with it regardless
07/18/26	Casey Kitching	60446	X		X	X					Oppose	We are taxed to death in Illinois. For the love of all things holy, please stop!
07/18/26	Julie	46373	X			X	X				Oppose	The state is poorly run and taxpayers are being overburdened with the costs due to bad management, corrupted infrastructure and politicians. Yet here we are with another increase and there wasn't improvement from the last increase or any other times. Smh.
07/18/26	Walter Spreadbury	60452	X	X			X				Oppose	When the tollway was first approved it was to become free once paid for. This never happened. It is always looking to enhance, extend, widen or build new roads and the costs keep going up. Illinois has some of the highest taxes in the nation and they keep going up. If you look at population growth, it's slowing down. Schools are having less students which will translate to less vehicles in the future. Stop the expansion. You're using technology to collect tolls which translates to less employees, less expenses. Move in this direction
07/18/26	Miguel	55044	X			X	X				Oppose	I have been using toll since 1984. It has gotten worse and more expensive. Seems like it has become a DEI employment agency. Customer service is horrible, web site works 50%, roads a mess, legal department is lead by an angry bitter DEI flunky that hates most people. Place is a shame. It use to be great.
07/18/26	Glen Carlton	60015	X				X		X		Oppose	I'm afraid that the increase would not be used totally for the tollways but use to bail out other programs.
07/18/26	MaryLeslie Naker	60123	X			X	X				Oppose	The toll road was suppose to be FREE once the initial road was paid for. Now years later the cost to drive is just going up and up. Had our parents and grandparents known that the tolls would just keep increasing in the future, would they have ever approved the original "Toll Road". I think not. Just another political lie.
07/18/26	Tom Chitwood	60563	X		X	X					Support	The increase must be used for better and safer roads. Illinois tollways have too much traffic and lack of law enforcement. High speeds and open bed trucks that don't secure their load securely cause issues. Until speed is addressed and all vehicles are safely capable of the higher speeds I see a difficult challenge ahead.
07/18/26	jaykob wadsworth	61109	X				X			No tolls they are gay	Oppose	dumbest thing i've heard him try to do istg

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/18/26	Jagdish Patel	60108		X	X			X			Oppose	We need affordable Tolls so we can commute
07/18/26	Barbara	60156			X		X	X			Oppose	Illinois is very expensive state to live. Taxes and fees are popping up like mushroom after rain . It is almost impossible to live here for a widow with w children . I am opposed to this idea. Please stop waisting money , and put them in a good work instead of bringing another I payment increase on the citizens
07/18/26	Tom Johnson	60453	X		X		X				Oppose	
07/18/26		60126	X				X			Eliminate tolls as that was the initial promise when toll roads were proposed decades ago	Oppose	Considering that when the toll roads were initially established many decades ago and the politicians at that time said tolls were "short-term and would end", there is no way I will support a toll price increase and have it indexed to inflation. You people are money-sucking parasites. Illinois is one of the nation's leaders in people LEAVING THE STATE. Illinois has some of the highest taxes in the nation and you want to increase them further? No! The Tollway System has been a self-sustaining venture that runs financial surpluses. I am staunchly opposed to supporting this request.
07/18/26	Bill Rotenberry	60103	X		X		X				Oppose	Fuck the tollway system and any price increases
07/18/26	Chinanita Leslie	60532		X		X	X				Oppose	Toll fees are so expensive already! Drivers cannot afford higher toll fees along with higher gas prices
07/18/26	Tony Graham	60417	X				X			No construction jams	Oppose	You haven't even finished with your latest project. We are paying to use a road that is constantly jammed because of your inability to finish even one project. But it is Illinois, the home of constant graft.
07/18/26	Andre Meeks	60505			X		X		X		Oppose	Why do the state's citizens have to pay for this? We pay so much in taxes already. Where is that mkney going? Or the lottery money? Or the ridiculous taxes on the marijuana from dispensaries?!?! Not to mention... The orange cone season is now year long. There hasnt been reprieve for any person that has to commute to and from the city from the suburbs. It is NEVER ending! And there are always rim-bending potholes!! Why must we pay more for this torture?
07/18/26	John Stout	60106	X		X		X				Oppose	THIS IS AN OUTRAGE! The toll system should be winding down and abolished. Illinois Government has badly mismanaged, hoarded and squandered these funds for years. We the people meed to see the full accounting of the tollway funds for the past 20 to 30 years so we can see how much has been accumulated and where the money has gone. No more new tolls and no more raise in toll amounts. Illinois has the worst streets, roads and highways in the country and asking for more money is an insult to the tax payers.
07/18/26	Bob Golm	49315	X		X	X					Oppose	
07/18/26	Ed Hoveke	60521	X		X		X				Oppose	I oppose the increase in tolls. Especially automatic raises annually. The Tollway is a public company. Make financial needs and statements available to us.
07/18/26	Marks	46383			X	X	X				Oppose	As a senior citizen who has to get to the airport and back twice a month, every extra dollar puts more strain on my limited paltry ssa check. Trucks using the passing lane are getting worse. Half the time I already give up and exit to take regular streets where I am at least not trapped in stalled traffic in case of medical emergencies. My trip takes 45 minutes longer that way but I feel a little bit safer. I recently had a stroke and would rather not be coraled by aggresive trucks while toll roads jack up prices, to boot. Please, at least, give seniors a break! I will be 73 this year.)
07/18/26	Therese LeRoy	60193	X		X		X				Oppose	We in Illinois have been paying tolls for our roadways for YEARS. Other states with harsh winters (Wisconsin, Minnesota) have managed to keep roads in good condition and DO NOT pay tolls. How has all this money paid over YEARS been allocated? If this increase happens, I will avoid tollroads in the future whenever possible. It's just too much with a disastrous economy that we are all trying to cope with
07/18/26		60473	X		X		X				Oppose	No increases for the working class. Make the government cover the cost. We are drowning in inflation. The priceless are up and our income is down!
07/18/26	Joan Kahley	61109	X				X		X		Oppose	There would be plenty of money for road maintenance if the idiot we have as a governor didn't spend billions on illegals.
07/18/26	Theodore Kahley	61109	X		X		X				Oppose	It's already expensive living in Illinois as it is. Why not lower the cost for once?

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/18/26	Robert Nordstrom	60187		X			X			fairness: balanced burden throughout the state's communities	Oppose	Cut expenses rather than raise rates please.
07/18/26	stanley brown	60106			X	X				just do not want fines from company that own's i-pass system.	Oppose	I'm amazed all the money saved from not having toll booth agents, have some nerve to increase rates on roads that get drivers from one location to their destination.
07/18/26		61109	X		X		X				Oppose	
07/18/26	Sean Raddatz	60477	X		X		X				Oppose	Everywhere you turn in Illinois we are getting hit with taxes... now working people who have to travel for work are getting absolutely killed in tolls. Your proposed increase is going to drive me away from using the tolls and when I do it will be a sizable chunk of my pay. Plus increasing without the say of the people as this progresses similar to the gas tax is awful.
07/18/26	Joseph Guckenberger	60030			X	X	X				Oppose	We live in a very high tax state already! We don't need to add an increased toll fee to the list. To say that the toll rates will be linked to the CPI for customer predictability is so misleading. Simply put, it will be forever increasing toll rates much like our Illinois state gas taxes. I ask that this increase be opposed.
07/18/26	Oliver Robinson	60047	X				X			n/a	Oppose	Please do not further increase how expensive it is to live in Illinois. Taxes are already so high. Consider managing your resources more effectively, reducing corruption, to make this needed improvements.
07/18/26	John Reinke	48893	X		X		X				Oppose	Don't spend what you don't have, and eliminate waste. Then you can look at your roads.
07/18/26		60411		X		X	X				Oppose	This is too large of a toll amount increase. It especially affects the drivers with lower to middle income making it harder to get to jobs in western or northern suburbs. Also, the very large percentage increase on trucks will affect price of goods, especially of those of lower to middle income. Lastly, there was already a huge increase from original toll rate of 40 cents to 75 cents a few years ago.
07/18/26	Erin Gunderson	61548	X		X		X				Oppose	Illinois is a fiscally irresponsible state. You don't need more money, you need to learn how to better budget the money you already have. Illinois citizens are the MOST HEAVILY TAXED population in the nation.
07/18/26	LINDA FETLA	46319	X				X	X			Support	We don't travel it very often, for those who do..we do support this.
07/18/26	William Kostecki	47960	X		X	X					Oppose	There is no way that a toll rate increase will alleviate traffic congestion nor do I believe that it will improve regional connectivity or support long term economic growth. As a daily toll way user for many years and now a part time user I strongly oppose any toll increases!
07/18/26	Marilyn Lee	60564					X	X	X		Oppose	Toll authority has not been forthcoming on its money management reporting and budgeting controls that could justify the planned increase.
07/18/26	Mary	60046	X				X	X			Oppose	I understand that the tollroad already has excess dollars and this governor has already taken the money from that fund. We voted that the money collected should only be used for improvement.
07/18/26	Daniel Rascop	60487	X			X	X				Oppose	I will avoid Tollways if this increase comes to fruition. I am a frequent user of I-355 and I-294. The tolls are already high enough. Any higher and I would be glad to take alternative routes. I would prefer to support improvements to Metra and other forms of transportation. The current profit from tollways is more than enough to maintain and improve. Lining the pockets of politicians is not what I go to work for every week.
07/18/26	N/a	60607			X		X			More state police on 90/94 to capture speeding individuals	Oppose	Go find funding somewhere else, you already ludacrisly charge fees at the highest rate when a toll is missed! There's a reason why the Illinois tollway has payment plans, because you guys are already taking so much money. Mortgage rates and taxes have already gone up, we don't need to add even more charges onto what's already been taken out of our wallets.
07/18/26	jim mance	60451	X				X		X		Oppose	Sorry JB....you're just a lying Dem....(kind'a redundant)
07/18/26	Jami Lagerstrom	60146	X				X		X		Oppose	Oppose this increase.
07/18/26	Fahad	60503	X		X	X					Oppose	

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/18/26	John	60033	X		X		X				Oppose	Youve been collecting tolls for as long as I can remember and the Illinois roads seem to be some of the, if not the worst roads in the Midwest. We already pay for the road maintenance with the gas tax and now you want to raise the cost of the tollway (which is already too high). Way to screw over the people that have to go to work for a living and use the tollway.
07/18/26	Timothy Cousins	60561	X		X		X				Oppose	Much of the toll increase is not actually due to the tollway, but rather the decision to subsidize transit. Which would be fine in and of itself. However, none of this envisions any sort of expanded transit access for suburbs, especially those further west, like where I live. And indeed, when it was being debated in the state legislature, they called the toll increase a purposeful disincentive to driving. However I feel that is fundamentally unfair. If you don't want me to drive, then I should be able to have transit connections. As it stands now, aside from driving to metra, there is only one bus that even comes to my town.And it goes almost nowhere of note. I cannot get to o'hare.I cannot get to the oak brook shopping area. Using the tollway and the tolls is a blunt instrument to help the city at the expense of people in the suburbs, especially those working class like me. It's a slap in our face to functionally tax us to fund transit while refusing to give us service. I would also have gone to the public comment open house, but your email announcing it actually arrived after the open house was already over in my area. Which is also in and of itself, a little disingenuous, and calls into question whether you actually want feedback.
07/18/26	Tonia Case	54449	X		X		X				Oppose	IF IL would actually put the funds proposed in this increase I would be all for it, unfortunately history has shown over & over again that will NOT be the case! We only travel through the tollway to help care for & visit my husbands elderly mother. We moved to WI for a good reason....NOT to live in IL ever again! Our poor car goes through a real beating 4 times a year when we are in IL, had to replace the struts twice in 5 years. Simply put.... I oppose this because the HIGH taxes and $$ goes to the very corrupt Chicago and the rest of your State suffers, you could give a rats a**!
07/18/26	Colleen Zielinski	60463	X		X		X				Oppose	Due to Pritzker‘s constant increase in taxes and fees, we will be moving once my kids are done with school. An increase in toll fees would just be another reason for us not to stay here. Please oppose this increase. Please vote Pritzker out next election.
07/18/26	Sylvia Stevens	61107	X				X			highway safety especially traffic weaving lane to lane at super high speeds.	Oppose	The Illinois tollway way system when inaugurated in the 1950's proclaimed that after the current bonds matured/paid of in the 1970's, the roads would be toll free. That promise was broken. I can accept a reasonable toll for the betterment of the system, but tolls have been increased excessively ever since and are causing my friends and family to seek other ways of passage. We need to know where all this money goes, as an Illinois resident all my life we know it doesn't all go to the Illinois Tollway system.
07/18/26	David L Freese	60656	X			X	X				Oppose	You should not be "proud" of this rate increase! I have driven all over the country and most states have no toll at all. It seems that better fiscal management is in order for your tollway system.Example is the 294 road. It was JUST finished when the whole thing was torn up again! Why? Poor planning is why. You need management that forsees what is next and does it all at one instead of constantly inconveniencing the tollway users and charging them for it. Shame on you for raising prices due to the lack of planning.
07/18/26	Mike altman	60426				X	X			Pay with a credit card or debit card or online	Oppose	This is not the way. Cost have pushed me to poverty status while working. More relief need to happen. Get rid of income taxes for everyone under 150k a year. Get more opportunities to people to create more revenue. Make free enterprise the solution!!!

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/18/26	James Carrillo	60418			X			X		I only drive on it for convenience but you made me choose 3. The roads are trash, the traffic is the same as the public eways, and its not affordable or predictable	Oppose	You're really proposing toll increases instead of coming up with better solutions? I hope this tollway gets shut down and you all lose your jobs. People cant afford to commute already and this is just exacerbating the problem. Greedy fucks.
07/18/26	tony cio	60026	X		X		X				Neutral	any toll increases should only be due to inflationary costs.
07/18/26	Kerry	37058		X	X		X				Oppose	Although I moved out of Illinois my entire family lives there and I travel there often. It's becoming more and more difficult to visit with the price of fuel, tolls, traffic and expenses while there.
07/18/26	James Brooks	60189	X				X			Fix potholes and unsafe roads	Oppose	Pritzker blames Trump for inflation but we have the highest increase for tolls in the nation!! That will trickle down to higher prices for consumers. They have a surplus - use it to improve the roads!!!
07/18/26	Brittany T Green	60099		X	X		X				Oppose	Tolls are already too expensive.
07/18/26		60646	X		X		X				Oppose	we do NOT need toll increases the people of Illinois are sick and tired of being taxed and charged with a higher cost of living while the millionares and billionares get tax breaks. Leave us alone
07/18/26	Tom Dennis	60119	X	X			X				Oppose	When is going to stop? There is not an endless pot of money to keep paying tolls. Our gas taxes continue to increase which is supposed to pay for roads. Stop this nonsense!
07/18/26	Alexander Moller	60564	X				X		X		Oppose	Better management of public money instead of increases
07/18/26	Tammy	60467	X			X	X				Oppose	As the owner of a small trucking company this is a huge concern. Keep driving people out of Illinois!
07/18/26	Sally Pelszynski	61356	X				X		X		Oppose	Thats pure bullshit. Raising fees is lining Pritkers pockets. Never has it ever by raising or adding feed ever cured mismanaged or didapearing funds. Gas tax increases have never fixed our roads snd this new incresse will never see it applied to our roadways.
07/18/26	Fred Basse	60443	X				X			None	Oppose	I can't believe you're gonna raise the rates like that. That is unbelievable. I can hardly get by as it is. I'm choking on expenses and you casually gouge me like it's nothing
07/18/26	David Ellingwood	60554			X	X	X				Oppose	Turn the tollways into freeway.
07/18/26	Daniel Cwiak	60050	X				X			More police presence.	Oppose	Why do we keep raising taxes on a population that is growing older and smaller by the day. We should be interested in making the State a better and less expensive place to live...especially for seniors. When we raise taxes, now with automatic increases, we burden the people with unfair and unjust costs. ESPECIALLY WHEN LEGISLATORS LOOK THE OYHER WAY BY BOOSTING THEIR OWN SALARIES USING THE SAME TACTIC ! The governor of all people should recognize this and Veto this type of legislation. WAKE UP !! Let's get a program together that can be palatable to the people of this State. Then we won't lose them to surrounding states.
07/18/26	Trinity Kocmoud	60440	X				X			Safety	Oppose	This increase is insane & comes at a time when people are just trying to survive basic living. It's insane to think Illinois families can afford this.
07/18/26	Ben	60002			X		X			One and only answer, the rest are shit	Oppose	This is the dumbest shit I've ever heard, corrupt Illinois asking for bail out money from everyday hard working Americans. You can take your new proposed bill and shove it up your asses. Good thing plate blockers exists. If this gets approved I promise you'll not get another penny of my money you assholes. $1,400 a year in commute isn't enough for you pricks? Greedy corrupt Illinois as usual. Then you do construction and take 15 years to complete a project just to move traffic 1 mile further down the road and have the same commute time. Yall are a joke. Fuck off.
07/18/26	M T	60625			X		X			None. Stop this nonsense	Oppose	No more tolls. The Illinois tollway system was supposed to last from 1956 to 1973! We're 53 years past 1973, and you still keep charging us and now you wanna take even more money. Shame on you.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/18/26	Grant	60178			X	X	X				Oppose	
07/18/26	Linda Rose	60451	X				X		X		Oppose	I am a senior living on a fixed income. i've lived in Illinois my entire life, however the state has deteriorated immensely in the last twenty years. The government officials have taxed our once prosperous state into the ground. I use I355 and now pay $5.50 to travel 13 miles back and forth, which is outrageous. ABSOLUTELY NO INCREASE! !!
07/18/26	Donald Stateler	60031	X				X	X			Oppose	My name is Don Stateler. I live in Gurnee, Illinois. I am opposed to the proposed .45 increase and any automatic increase in the near-distant future. I would ask that no action be taken without the boards approval.
07/18/26	Owen	61238	X		X		X				Oppose	We do NOT need an increase. It will cause more crowding on non tollway roads.
07/18/26	Sydney	60516	X		X		X				Oppose	Increasing tolls would place an unnecessary financial burden on daily commuters who rely on these routes and lack practical alternative options. Furthermore, a substantial hike on commercial trucks will inflate shipping cost across the supply chain, ultimately, forcing everyday consumers to absorb these expenses through higher prices on groceries and household goods.
07/18/26	M M	60540	X			X	X				Oppose	This proposal for rate increase is too large for those that use the tollway every day on top of the prices we are paying for gas.
07/18/26	Emily	60640	X			X	X				Oppose	I moved here from NC and I think it's ridiculous that you have to pay to drive here, and yet the roads are significantly worse than NC
07/18/26	Kevin Ward	60631				X	X			Accountability of the Board	Oppose	Contractors in the loop have "job security" as they open up newly done roads for no reason. The proposal they are offering is too high, people will start opting for non- toll routes. Remember, these tolls were suppose to be faded out originally, now it's political honey pot.
07/18/26	Mike Schrader	60148-2223	X			X	X				Oppose	So, higher toll fees to use our "free" interstate systems. This proposal is so "Illinois".
07/18/26	Zoey stack	60467				X	X			DO NOT INCREASE TOLLS WE DONT OWN 355	Oppose	
07/18/26	Robert Galassi	61326	X	X						Saving money. No dont do it.	Oppose	Do not do this.
07/18/26	Greg	33904	X		X		X				Oppose	I remember the toll roads we're supposed to be paid for in 73' and here we are looking at a 30% increase and another 15 years of construction. We left the state in 1999 and it was the best decision we've ever made. Unfortunately we still have family in northern Illinois and between the potholes and traffic I still hate driving Illinois roads. I do get a good laugh watching a crew of 50 guys watching a half dozen working as we creep along for hours in traffic.
07/18/26	Brenda Hilton	60148				X	X		X		Oppose	The government of this state is running us into the ground and just keeps taxing residents to the point they want (or do) to leave. Stop taxing us!
07/18/26	Mary Lynott	60107	X			X	X				Oppose	Illinois already has more taxes rest of mid-west States. It just keeps getting more and more expensive to live here. How can a 50% increase in toll fees be justified; especially when toll revenues are not currently being spent at the rate they are collected. This will put an undue burden on working class people and goods and svcs moving in the state. I oppose this increase.
07/18/26	Casey Cross	53104	X			X	X				Oppose	The funds generated by the Illinois tollway rarely get utilized in an efficient manner, or even for Illinois roadway projects. This is another pathetic attempt to raise tolls so the funds can be used for something completely unrelated to this so called initiative.
07/18/26	Laurel Legenza	53703	X					X		Safety	Support	Widening highways to reduce congestion is quixotic. Implement congestion pricing

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/18/26		53095	X				X			Eliminate the toll system altogether!	Oppose	I live in WI and have a tollway login because you no longer have toll booths. We rarely visit Illinois because of the ridiculous cost to just enter the state via the interstate. You make it real hard to have any desire to visit the Chicagoland area. Wisconsin has beautiful roads and they are free. Illinois needs to figure out how to do that so they can get more tourists dollars into the area. Perhaps thinking differently about the priority of roads for tourism dollars will help you figure out how to balance your budget correctly to make that a priority instead of over taxing the citizens that live in your state and those that pass through it. My guess is you would be more likely to recoup the dollars for this project in tourism visits by eliminating the ridiculous tollway system to begin with. We avoid Illinois at all costs to head south.
07/18/26	Brian	60048	X				X		X		Oppose	While I appreciate that rates haven't increased for quite some time, the proposed rate increases are excessive
07/18/26		60148	X				X		X		Oppose	The tolls were originally supposed to end at some point and instead you continue to raise the amounts over and over and over. It's literally a joke, the governor should be impeached and removed. Everyone in government involved in this issue is a failure. Incompetence.
07/18/26		60516	X		X		X				Oppose	
07/18/26	Vicki Hermann	49080	X			X	X				Support	Updates always necessary. Impressed you haven't increased tolls since 2012. That is good financial management/investment.
07/18/26	Erin Peters	60544	X		X		X				Oppose	The hike is way too high. Additionally the sneaky gradual yearly increase starting in 2029 is what I really oppose. I understand needing to increase, but where does it stop? Everything is already unaffordable.
07/18/26	Andrew	60103			X		X			Stop taxing people to drive on public roads	Oppose	Tolls are just another tax on normal working people. How about pay cuts on the crooked politicians to fund this next round of bogus spend? You all should be ashamed of yourselves.
07/18/26	Dario	60486	X		X		X				Neutral	
07/18/26	Skeeter Spidel	60010	X		X		X				Oppose	Highway robbery!
07/18/26	Kathryn Poulsen	60655			X		X			lengthy construction	Oppose	I suppose another increase is inevitable however I completely oppose authorizing automatic inflation-linked increases every two years beginning in 2029 with no expiration date. From experience we know rates never reduce and giving unlimited increases is robbery. There is no accountability for the collections now and tax happy Illinois legislators and governor are certainly not caring. Having automatic increases is a nightmare.
07/18/26	Customer	60643	X				X		X		Oppose	Why not create a third lane for car pooling like other States and add the .45 and leave the current rate for vehicles where it is. No opposition to the increased rate for trucks pass the increase to trucking companies that can afford it.
07/18/26	Maggie Johnson	60540-9580			X	X	X				Oppose	I know it has been a while since the last increase, but don't try to catch-up all at one time. You're asking for too much. I feel this will route vehicles to area surface roads so as to avoid the higher tolls. We know what this will do to those roadways and the surrounding areas.
07/18/26	Chuck M	54302				X	X			Less vacations on the road!!!	Oppose	Gas is hard enough to pay for on trips and now you want to hike up the toll cost. Let's make it even harder on the consumer.
07/18/26	Nicholas D	60423	X				X		X		Oppose	
07/18/26	Michael Boland	60610	X				X		X		Oppose	I am against the toll increase, we can't afford it.
07/18/26	Amir	60510	X		X		X				Oppose	How much greedy can the government get i already cannot keep up with the bills and now this
07/18/26	LINDA BELICE	60148	X		X		X				Neutral	I support the toll increase re: personal use. While I understand the need for well-maintained roads and the like, I am afraid the increase to commercial drivers will result in higher prices for material goods which then are passed on to consumers. I am already burdened by current prices and a fixed income, and do not need additional expenses at this time.
07/18/26		60007	X				X			Lower tolls!	Oppose	Give me a break! How about the politicians stop taking kickbacks and putting our taxes in their personal bank accounts, and take a celery cut in order to provide some of these improvements. We are dying out here..... Everything is going up except our paychecks!
07/18/26	Nick Pavlov	60525	X		X		X				Oppose	The toll is too expensive as is right now - most of the times in Illinois the toll is more expensive than the fuel you have used while on the same toll stretch of the road. Nowhere else in the world the toll is more expensive than the fuel you need to travel the same toll road distance

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/18/26	Nadia Marler	60453	X			X	X				Oppose	
07/18/26	Nathaniel Hernandez	60452	X		X		X				Oppose	
07/18/26	Al Januszewski	60487			X		X		X		Oppose	Can't afford a toll increase and future increases. Inflation is out of control
07/18/26	jason Schnurr	61080					X		X	Mote speedtraps for reckless drivers	Oppose	The increases are crazy
07/18/26	Nathan Cooper	62703	X			X		X			Support	Till roads ensure the people using the roads are the ones also paying for them. Increasing the tolls is the only way to ensure the burden isn't shouldered by the entire state. When I go to Chicago, I happily pay tolls on the roads I am using them when I am using them. However, I only use them once or twice a year, tolls make it fair that I pay for my use while not charging me for everyone else's
07/18/26	Bryan and Marie Therese O'Connor	60601	X				X			less traffic would be preferable, but that is outside your control	Oppose	This proposal calls for a very excessive and unfair toll increase. I do not believe the Authority has demonstrated enough evidence to support any increase, let alone one of this magnitude. My family strongly opposes this increase. Bryan J O'Connor
07/18/26	Sam	60174	X		X		X				Oppose	
07/18/26	Tiffany brooks	60085	X	X			X				Oppose	I strongly disagree with this proposed toll increase. Families and businesses are already facing higher costs for groceries, housing, gas, and other everyday expenses. Increasing tolls by 45 cents per trip for passenger vehicles and 30% for commercial vehicles places an even greater financial burden on commuters who rely on the Tollway to get to work, school, and appointments. Additionally, tying future toll increases to the Consumer Price Index means drivers could continue to face higher costs every other year with little opportunity for public input. While investing in infrastructure is important, the Tollway should explore alternative funding options and improve efficiency before asking Illinois residents to pay more. This proposal places too much of the financial responsibility on the people who use the roads every day.
07/18/26	Yon	60441	X		X		X				Oppose	Too many taxes and tolls
07/18/26	Carol	60441			X		X			How about NO TOLLS	Oppose	People can barely keep food on the table and yet you CROOKS want to raise the Damn tolls year after year. I have never lived in a more CORRUPTED STATE in all my life now I know why people are leaving Illinois. You are a bunch of corrupt MF CROOKS.
07/18/26	Tim carlson	60002				X	X			Not. Wing taxed to death	Oppose	That's all Pritzker does. Tax tax tax. Send him packing.
07/18/26	Rafael Rubio	60123	X				X		X		Oppose	No way no increases for the I- pass
07/18/26	Aldona Fisiak	60120	X				X	X			Oppose	
07/18/26	Patrick Dowsett	61282	X				X		X		Oppose	Way too much.
07/18/26	Dean	60002	X				X		X		Oppose	If the increase goes through many towns will see local and county roads congestion due to drivers taking alternative routes causing increased pressures on local infrastructure and protection departments. Also these increases will follow inflation rates as people's income remain stagnant. Many commuters use the Highway Toll system to get their jobs as the tolls increase many of these commuters salaries dont increase year to year. We already have the high tax on gas and now want a increase on the use of our roads to get work seems excessive.
07/18/26	Jeff Dundek	60450	X		X		X				Oppose	We have the highest tax rates in almost every category you can think of compared to other states. Are you guys out of your minds raising the toll charges? Then again I really don't care like every other person. I wanna get the hell out of the state and making plans to do so. So go ahead and screw Illinosians all you want, I won't be here.
07/18/26	Thomas Dean	46062	X		X					Open road tolling	Neutral	Even with an EZ Pass, I still have to STOP at a tool booth and have the transponder read when I'm just northwest of the Chicago Skyway toll road bridge. See "The Chicago Skyway Bridge Toll Plaza. Surely in 2026, we have and SHOULD USE the technology to remove this (and any other such) required STOP.
07/18/26	Jeanetta Smith Benbow	60418	X				X		X		Neutral	I realize that with infrastructure there will be an increase in the tool fee, but a 45 increase is too high.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/18/26	Hitesh	60007			X		X			Don't spend money you don't have. Don't make Illinois unaffordable	Oppose	Don't spend and increase toll. Just Fire this committee. And have committee members pay $26.5 Billions if they still want to do it.
07/18/26	John Smith	60439	X		X		X				Oppose	
07/18/26	Heather Wood	60007	X			X	X				Neutral	Why is the project not covered by existing funds? Once the money has been raised, can we expect the rates to return to the current numbers? If not, where will that money go?
07/18/26	Daniel A	60436				X	X			Cost	Oppose	Costs of tolls is already to high.
07/18/26		60004	X			X	X				Oppose	There are many reasons to oppose the proposed toll increase. This toll increase will cost each daily commuter hundreds of dollars a year. The commercial drivers will need to pass on the increase to the consumer, causing a further rise in prices. Toll increases will occur automatically every two years with no accountability, similar to the annual gas tax increase. After all this, some may decide to avoid using the toll roads completely, which will offset some of the state's expected income. The tollway is already self funded under the current rates and there is no need to increase them further.
07/18/26	Dylan	61081	X	X				X			Oppose	
07/18/26	Rebecca Strupeck	60422	X				X		X		Oppose	
07/18/26	Joe Carney	60084					X		X	Sell municipal bonds for this project	Oppose	The fraud that goes into picking the construction firms to do the repairs is reprehensible. State politicians can't be trusted when money is involved. Sell bonds to fund your projects.
07/18/26	Donna Gramm	61742	X				X			Already too much taxes	Oppose	NO MORE TAXES!!!! Already paying too much
07/18/26	Raj	60540	X		X		X				Oppose	
07/18/26	JM	60194	X				X			Slow driver enforcement	Oppose	Tolls were sposed to be temporary. It seems that too much money continues to go to administration costs. Other states maintain roads without tolls. The roads should be concrete not asphalt because asphalt needs constant repair, causing more traffic delays and spending money. An example is 390 was concrete since it opened in 93 and needed nearly no repairs over 20 years. When the tollway took it over, it was expanded 3 lanes but asphalt was put down and we already seen constant repavement, crack sealing within 4 years. That's poor design and not cost effective. The system is the problem. The tollway system should be dismantled and absorbed back into IDOT.
07/18/26	Kevin	60110			X	X	X				Oppose	You wanna raise the tolls again on something that was supposed to originally be temporary? It is already expensive enough!
07/18/26	Paul Ruscko	60050	X		X	X					Neutral	
07/18/26	Ron Higgins	53149	X		X	X					Oppose	What has the tollway done with the excess money generated by toll collections that wasn't spent on the tollway?
07/18/26	Thomas	60560	X					X		No extra cost to travel	Oppose	Where is all the tax from marijuana sales going? Where is the Lotto money going? Where is the double gas tax going? Where is my increase in car registration going?
07/18/26	David Capps	61733			X		X			Ending the toll	Oppose	End all tolls, now.
07/18/26		61548	X		X		X				Oppose	
07/18/26	Sarah W	60169	X		X				X		Oppose	The tollway was "supposed" to be a temporary solution. It's not only gone on way longer than it should have, we Illinoisians pay insane tacked already. Mismanagement of funds is the problem, not the cost of the tolls.
07/18/26	Christina Grzybowski	60188	X			X	X				Oppose	Tolls are already high as it is. Driving in 390 has even more tolls than any other highway as it is. Driving on any highway is becoming inaffordable for many drivers. Tolls were first proposed to be temporary. Now they just continue to cost more and more. Illinois politics must find a better way
07/18/26	Jade	60647	X		X	X					Oppose	

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/18/26	Susan Zitella	60403	X				X			Affordability	Oppose	This increase plus future set yearly increases will put a huge financial burden on Illinois citizens, who are already heavily burdened with so many taxes in Illinois, especially property taxes. Illinois is a very expensive state to live in & this toll increase will make it less affordable for many of us. People are truly struggling in this state. Please do not implement a huge increase like this and especially not built-in yearly increases like our yearly-increased gasoline taxes. Plus keep Road Fund money towards roads so we have drivable roads & do not divert it to other purposes. Out-of-state family & friends know they've crossed into Illinois by the condition of our roads. Thank you for your consideration of my input.
07/18/26	Scott Thomas	60178	X		X		X				Oppose	Strongly oppose - I don't take the tollway often and even I think 45 cents per toll is RIDICULOUS!!! This state continues to find ways to send citizens elsewhere. Well done Illinois!! Complete BS
07/18/26	Peter Udelhoven	60047					X	X		Not paying tolls	Oppose	Definitely do not want an increase. Tolls were intended to be temporary and should not be continued. We pay enough taxes and the elected people need to learn how to mange their revenue much better. As IL continues to increase taxes & fees everywhere, the people here cannot survive.
07/18/26		60914	X		X		X				Oppose	
07/18/26	Sean	60540	X				X	X			Oppose	The proposed increase is irresponsible
07/18/26		60133	X	X			X				Oppose	
07/18/26	Fred	61103	X			X	X				Oppose	
07/18/26	Ken Kohler	60060	X			X	X				Oppose	In 1953 the Illinois Tollway authority was created. The original purpose was to collect tolls to pay off the bonds used for creating the tollways. Upon completion of paying off the bonds, the tollway authority should have ceased to exist. It is beyond insane that the toll authority, an organization that should not have existed for the last 50 years, thinks they can follow the same idiocy as the Illinois legislature with automatic yearly increases (like the gas tax.) As it is, one meeting regarding toll hikes in the northern Illiniois area had a large portion of the meeting discussion Illinois 41, which is NOT part of the toll road. The fact that NON-toll roads come up at all in discussions about toll increases, shows just what a failure the toll increases are. This is a hard NO on the toll increase and the yearly automatic increases.
07/18/26	Joseph Gasienica	60453			X	X	X				Oppose	First of all the burden of providing and maintaining safe roadways of Illinois residents is a function of the state. While understanding that this is done via taxes and NOT tolls. The roads in question were originally built and paid for by the tools but it was never understood to be a permanent expense. Illinois budget should include monies to pay to maintain the infrastructure. Very similar to the Kennedy reconstruction, a years long multimillion dollars project, Illinois taxpayers footed the bill not the people using the roadway. The same should hold true of any road in the state. Nothing is done for private use and thus toll worthy. If one road has tolls then all roads should have them. There is no difference between 55 and 294. I believe that if tolls are increased it would be a discriminatory tactic. The freeways are not build to accommodate the population nor are they located to support the growing businesses within the state. Illinois built 394 to accommodate western populations on the backs of us citizens. We have a right to have maintained roads as a shared tax payer expense. Additionally seeing the tolls are currently paying for the maintenance etc. how about cleaning them. The rocks and debris are also taking a toll on my vehicle.
07/18/26	Gary Berblinger	60541			X		X			Being able to get around Chicagoland	Oppose	Just another money grab that will be used to fill some shortfall by these bureaucrats. The toll system came into being with a sunset. Once the bureaucrats get their hands on people's money they only want more. It needs to stop!!!
07/18/26		53546	X				X	X			Oppose	Raising the rate then re evaluating every few years is just a nice way of saying it's going to go up every few years. What a joke
07/18/26	A. Davies	60617	X		X		X				Oppose	
07/18/26	Angie Thomas	62901			X	X	X				Oppose	Families can not afford the continued increase in living in all areas. After inflation, and gas prices are lower I would support a toll increase.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/18/26	Rich Baca	60513	X						X	Better policing on our roads	Support	Better policing on our roads because of all the crazy drivers
07/18/26		60403	X			X	X				Neutral	Just want the monies that is for the Tollway to go to the Tollway!!
07/18/26	Ed	60062			X		X			Less Construction	Oppose	The proposed passenger rate increase of what is effectively 60% is unacceptable. Inflation is decreasing, not increasing and that magnitude of change, is simply gouging. Illinois continues to be challenged with retaining citizens as well as retaining businesses, let alone being viewed as a preferred state for relocation or starting a new business. As a citizen who frequently uses many of the tollways monthly, the prospect of another long term set of projects and resulting snarls/challenges PLUS paying 60% more is nothing short of disappointing. From a personal perspective, both my wife and myself work. In fact we work harder than we ever have as we move through our late 50's. I would characterize us as part of the middle class. I am volunteering this information for two reasons - 1. The level of taxation just continues to rise on the backs of people like us - all types of taxation. 2. Your Tollway announcement is interesting timing as we are in the process of making a decision whether to stay in Illinois for the long term or begin our process of selecting a new state. Importantly, where is the fiscal strategy and responsibility? Why isn't this being funded, at least partially, from other means - Surely the executive team has been planning this for years!? I strongly urge you to at least reduce the increase and widen your lens on the real impact that this brings to a state that has been struggling for decades!
07/18/26	Melanie N	60548	X		X		X				Oppose	
07/18/26	Michael J Sochacki	60527-6445	X	X			X				Oppose	WHY ARE WE STILL PAYING TOLLS? THE TOLLWAY WAS TO BE TURNED INTO A FREEWAY IN 1973 ! STOP CHARGING TOLLS AND USE THE 26-BILLION DOLLARS TO KEEP THE ROADS IN GOOD WORKING ORDER. THE PUBLIC IS TIRED OF SPENDING MONEY FOR A ROADWAY THAT SHOULD BE FREE. WITH THE HIGH INFLATION PRICES FOR FOOD, GAS, AND EVERY DAY PRODUCTS , THE AVERAGE PERSONS BUDGET IS STRECHED OVER THEIR LIMIT. STOP THE TOLLS AND HELP THE WORKING PEOPLE SAVE MONEY TO AFFORD A DECENT LIVING. I HOPE YOU WILL CONSIDER MY COMMENT. THANK YOU, MIKE
07/18/26	Janice and Terrence Ward	60445	X	X			X				Neutral	We take issue with the amount of time it takes you to complete projects. You want a toll increase? OK, then get your projects done/ work at night and weekends. The exit ramp on I-294 at 95th street is a frigging disaster. Pass there every week and see almost NO ONE working. Please explain.
07/18/26	Wayne	68122			X	X	X				Oppose	
07/18/26	Trenna Carlson	61109	X	X	X						Oppose	I don’t see why increasing them is necessary. where is the money going?
07/18/26	Beth Gustafson	60189	X				X		X		Neutral	I think an additional 45 cents per toll is too high. Hopefully you can make the increase less. That would make it really hard for those who live paycheck to p[aychecm and need to use tollways to get to work. People like me may just travel less or use sidestreets as well.
07/18/26	Melissa Keller smith	61021	X				X		X		Oppose	I'm si k of yaxing us for everything. Some of us need to take the tollway. Pristker wants this to bail out chicago. Let chicago bail themselves out. I do not live there or go there so I shouldn't have to pay because of mismanagement of funds for chicago 7 y
07/18/26	Anthony	60139	X			X	X				Oppose	The highways have been long paid for and continuation of the tolls is unfair for all of us paying taxes, especially with the constant price hikes, addition of more toll points, and misuse of funds with some areas of highways being problematic for months if not years without repair.
07/18/26	Tanner Lawson	61021	X		X	X					Support	The Tollway is a vital part of our regional economy. Continued investment through the Driving Connections Program will help support businesses, commuters, and working families across northern Illinois
07/18/26	D. Parker	60432	X		X		X				Oppose	

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/18/26	Cathy	60005	X		X					Patrolling by state police to actively ticket the distracted and aggressive drivers. Can't get 5 minutes into Wisconsin without seeing patrol cars everywhere on the highway - why can't Illinois do that?	Oppose	The toll increase is a pretty big jump. Perhaps raise it to cover costs but at a lower rate.
07/18/26	Kenneth Krawczykowski	60411	X				X			Affordability	Oppose	Absolutely ignorant, the excuse of building up infrastructure is ridiculous, no toll booths , requirements of elders and the common person to register, the system is garbage, know it... wtf is wrong with illinois? Pay for programs that don't enrich and charge the working people more to enable your Shit government to hold people down.. such of illinois,
07/18/26	Laira	60193			X		X			Not raping us further when we pay a shitload in taxes in IL. States like TN don't have tolls and don't have income tax. Do better IL. No one wants to live here. No one is making money any more everything is fucking expensive beyond belief. No one can afford basic needs. Why aren't you optimizing the gambling and THC money? Where the fuck is that weed and gambling money going? Stop fucking us over just to drive to work.	Oppose	Tired of being fucking raped with mor fees. Other states don't have this bulkshit. We pay a ton in state income taxes. We have weed legalized use that fucking money. We have gambling everywhere now so use that money. Stop robbing us and fucking us over. Do better. Fuck the government in IL for being so shitty
07/18/26	Larisa Fansler	61008	X	X	X						Support	Infrastructure projects create family supporting careers while delivering long term benefits for the public. I support the Driving Connections Capital Program because it invests in both workers and the future of Illinois.
07/18/26		60142	X			X	X				Oppose	The governor says trump is making the cost of living higher yet prickster just keeps raising the price of everything and nothing to show for it. Highest property tax in the country, one of the highest gas tax in the country. Can't wait to leave this state. The tollways are fine. I thought tolls were only supposed to be temporary.
07/18/26	Richard Davis	61912				X	X			Less cost	Oppose	We are already paying the highest fuel tax. We don't need to pay any tolls.
07/18/26	James Welzts	60102	X		X					Low toll fees	Oppose	Should be no need to increase toll amount, especially "annual" or "rise with inflation" current calculation says IL Tollway earns more than enough to cover the basic required maintenance of roads thank you for taking time to read
07/18/26	Xyz	53170	X			X	X				Oppose	How can other states maintain roads without charging for their use?

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/18/26	Ed Sabourin	60087			X	X				Safety	Oppose	
07/18/26	Abby Merchantz	60441	X	X			X				Oppose	I think these funds have been mismanaged. The whole point of the original tollway was to fund the road and then turn it over to the federal government to become a public highway. It's become all about greed. The rates do not need to increase again to service a project that is already happening.
07/18/26	Georgette Joyce	60068-3211	X				X			That Tollway money gets used for tollway roads - NOT CHICAGO or pensions	Oppose	Years ago we were told that tolls would be gone once the roads were paid off. At one time we actual had a surplus. We now have open tolling; do not pay for employees (their benefits; their pensions; etc.) at toll plazas. We bill online; collect tolls online; ticket online. Why have all these improvements/efficiencies not made the toll roads more affordable? We need to see the projected collections AND the projected project costs. If you do not improve the 10-15 miles of 294 from the Indiana border west - a constant bottleneck, then you are NOT doing your job!
07/18/26	AJ	60606	X		X		X				Oppose	Overwhelmingly disagree with these price increases
07/18/26		60803	X	X	X						Oppose	
07/18/26	Jerry P	60041	X				X		X		Oppose	No automatic toll rate hikes
07/18/26	Ben Lopez	60608	X			X	X				Oppose	As a small business owner who uses the tollway system extensively, any increases in tolls coupled with with the high Illinois gas prices would be a very heavy burden. Its not right.
07/18/26	Hans Becker	60133		X					X	Illinois roads are bad	Oppose	Bad roads
07/18/26	Joan Guglielmotto	60446		X					X	No other option	Oppose	
07/18/26	John auerbach	60564				X	X			Not multi year construction projects.	Oppose	Illinois never uses the money they tax for with projects like this. Please don't increase our taxes even higher.
07/18/26	Eveleyna	60441	X		X		X				Oppose	To expense
07/18/26	Steven	60118				X	X			Speed limit	Oppose	I'm the only one left in my big family that has stayed in Illinois. Tired of the gouging on everything we Good Samaritans do in this awful state. I avoid tolls at all cost since the last hike.
07/18/26	Judah feiler	60659			X		X		X		Oppose	Why is it so expensive!!!!!!! You can't even use half the road cause its always under construction
07/18/26	Joe	60018	X		X		X				Oppose	Already to high
07/18/26	Noe	60640	X			X	X				Oppose	No money
07/18/26		61742	X		X		X				Oppose	Get pritzker out of office. He's destroying our state. Send him to California.
07/18/26	Fran Jensen	60148-1822	X				X		X		Oppose	Gas prices are high enough we don't need the tolls to be increased!!
07/18/26	John Quinlan	60656	X		X		X				Oppose	
07/18/26	Mark Lawson	60123	X				X			.	Oppose	My family regularly uses the tollway for work travel. On average we spend between $30-$40 dollars a month already. If the tolls increase more that would add about $10 more. With prices of gas so high it told cost more just to change course.
07/18/26	Chuck	60527				X	X		X		Oppose	
07/18/26	Dave Chiou	60035	X				X			Accountability	Oppose	a 50%+ increase for most tolls!! No CPI index, I want to something that is accountable in a 2-3 year timeframe to evaluate value before approving future increases. Maintain what we have.
07/18/26	Rebecca	60194	X	X		X					Oppose	
07/18/26	Tracy Jensen	61282	X				X		X		Oppose	Illinoisans are being gouged by Pritzkers excessive taxes, and taking down state monies to fund Chicago's area.
07/18/26	AlexandriA	60115	X					X		Stop charging to drive on the highway ! I will avoid Illinois all together.	Oppose	Stop charging to drive on the highway !
07/18/26	James	62959	X		X		X				Oppose	
07/18/26		60827	X	X			X				Oppose	
07/18/26	Reed Whitford	61238	X		X				X		Oppose	
07/18/26	Bev Meyer	60477	X		X		X				Oppose	Our government needs to keep it's promises.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/18/26	Jim Bob	60453	X		X		X				Oppose	We already pay up the a$$ in gas taxes and nearly every damn tax there is higher than neighboring states. Get it together IL! We've lost more people leaving in 12 years than any other states.
07/18/26	Suresh Kukkapalli	60067		X	X					I would to have none	Oppose	It's total waste of people's money and it's already high tolls compare to other states.
07/18/26	Leah Bolderoff	60631			X	X	X				Oppose	
07/18/26	Kathy	60133	X			X	X				Oppose	
07/18/26	James Di Naso	60453					X		X	Eliminating the corruption surrounding the tollway moneys.	Oppose	Illinois had a record high toll revenue in 2024 and now the Tollway Authority wants to raise the largest toll hike in Illinois history. You call it an investment but it's just another tax on an already burdened IL citizenry. The auto increase with inflation every two years almost guarantees skyrocketing costs of travel in IL. The average cost to drivers in IL would be approximately $1.24/toll. This will no doubt make IL yet another poor place to live, do business, and disincentivizes travel through IL. The only jobs this will help maintain is the already bloated union roadway jobs and does little to help the working class that have to use the tolls every day. Illinois residents already pay the highest combined taxes in the nation. When is the fleecing of Illinois residents going to STOP!!! I oppose this and so do the hundreds of thousands of other tollway users. Stop dressing this up as something good for Illinoisians when it's NOT!!! Since 1973 the Toll Authority has collected more in tolls each year than it needed to operate and maintain. You think we are ATM machines and we are NOT! There is more than enough money to pay for the roads. The problem is corruption and political favor for union votes. NO TO THIS NEW TAX!!! You lied to us before saying the roads would become toll free in 1973, over 50 years ago! Not falling for the PR scam the Toll Authority is pushing. NO TO THIS INCREASE!
07/18/26	Sarah Fugelseth	60031	X			X	X				Oppose	Don't need to raise the tolls. Need to make the Current toll money work within the budget.
07/18/26	Erik Gonzalez	60629	X		X		X				Oppose	Fawk that, tighten your belts.. cut over paid employees or management
07/18/26		61021	X				X			Shouldn't have to pay to drive on a road seems illegal to me but who am I?😂	Oppose	This is retarded stop raising prices on tolls, highways should be free
07/18/26	Kevin Koenig	60013	X		X		X				Oppose	How about every public servant, politicians included, takes a well deserved pay cut! How many millions will that save the state?
07/18/26	Tiffany Clarke	61108	X				X		X		Oppose	I do not want the priorety to be Smart Highways. Tolls are meant to be temporary. Stop coming up with reasons to ask for more money.
07/18/26	Salvatore Forestieri	60124					X		X	Work on road during off hours to help decrease congestion. Put time limits on how much time they can have per project.	Oppose	The people of Illinois because of all the mis management of the toll money are going to suffer. It needs to stop. These increases are overwhelming and unnecessary.
07/18/26		60090	X				X			No tolls or new taxes—make maintenance upkeep etc with what you have— as your constituents are having to do daily	Oppose	Extortion and mismanagement of taxpayer's money and government funds. Where are the checks and balances, accountability, and responsibility.
07/18/26	Jason Johnson	60641	X		X	X					Oppose	The proposed improvements are vague and offer no assurances the money will be spent on maintaining the roads. What prevents this increase from being diverted to other state needs, and why is it tied to inflation like every recent bill? It is obvious why.
07/18/26	Gonzalez	69435	X				X		X		Oppose	Tolls are already overly priced for what is being done with them currently.
07/18/26		60563	X	X	X						Support	You pay for what you get, the tollway is great, as is the Chief Engineer!

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/19/26	Alex	60031	X		X		X				Oppose	None
07/19/26	michael fox	54724	X				X			Abolish it	Oppose	The Tollway is a total strongarm especially at Beloit. You force people to pay to travel a connecting Highway without Alt Highway route. Fuel tax is for the Highway system you are literally doing Highway robbery.
07/19/26	Overpriced Driver	60441	X				X			The toll at 22nd street is always backed up. You may need to find another way to take money from honest people that just need to get from here to there. The toll way was just to pay toll for the construction of the road. Now it is a real money maker for the state, the road is finished. I make it a point to use other ways to get where I need to go without paying extra.	Oppose	The initial tolls were to pay for the construction of the road. It has been paid for so many times over. I just know that corruption is not cheep but I really don't want to pay.
07/19/26	Sedona	62236		X			X		X		Oppose	There is absolutely no good reason to increase Illinois tolls. The tollways are already significantly better maintained than general roads and I do not believe such a significant increase will go towards improving them. The money made from tollways should EXCLUSIVELY be used for the maintenance of tollways and their accessory roads, I do not believe this will happen, given the recent reallocation of gas tax funds and the transportation budget. We need to put more money into our roads, but it should not come in the form of increased tolls unless that increased toll will be EXCLUSIVELY designated for tollway improvements. Our roads are critical infrastructure, especially outside the Chicago metro area, that every citizen needs unrestricted and easy access to, and our government needs to acknowledge and respect that.
07/19/26	Killer	60441					X		X	I can no longer afford the Illinois toll way. There is no such thing as road side assistance. I spent two days in my car when my cars computer went haywire. There was no assistance and I had no cell phone.	Oppose	You want us to pay more money for roads that have been paid for so many times over. Coruption doesn't come cheep. Please go to your sponsers and ask them to pay for the toll way instead of paying to you. I already pay my taxes. I already pay and pay just to live in this state. I'm an old man and I have paid and paid and paid. Now you want me to pay more? I just don't have the money any more. You took it all away from me.
07/19/26	Norman Banister	46217		X	X		X				Oppose	More taxes.....calling it road repairs. More reasons to avoid Illinois highways!
07/19/26	Rick Kieltyka	60805	X			X	X				Oppose	Stop the greedy money grab. Ever since going to open road tolls you've been increasing tolls for expansion. Spend our money on maintenance.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/19/26	Erika Weatherbee	60193				X	X			Get some damn police on the highways	Oppose	Your toll prices are outrageous already. I already pay you THOUSANDS in tolls as a resident every year. If you increase the toll rates, you can expect people like myself to just blanket avoid tolls in Illinois moving forward. Let me make myself clear: your tolls are ALREADY too expensive and come with zero perks and so much danger. There's close to zero policing of the highways ontop of all this. Go ask Massachusetts how they do it. That's where I'm from and that's the level of protection and tolls I want here. State police on highways that pay attention and ticket people for driving recklessly. Cheap for actual residents. I never paid more than a few hundred bucks a year when I lived there. This place TRIPLED my travel expenses because of insane the toll prices already are. This is predatory.
07/19/26	Dorothea Lensink	60190	X				X	X			Oppose	We pay enough. Let us invest in public transportation instead. Trains, busses etc. They are not used as much because they run too infrequently and many places they do not go to. Public transportation, too many vehicles on the road. And more safe bike lanes. Lots like in EUROPE.
07/19/26		60506	X		X		X				Oppose	
07/19/26	Janet	60477	X		X		X				Oppose	
07/19/26	chris khayat	60126					X		X	active/inactive road repair notifications	Oppose	eliminate all tolls completely (which will eliminate the toll collection service expense). highways should be federal/state government managed & tax base funded.
07/19/26	Larry Schlink	60491			X	X	X				Oppose	Find another way to do it without adding to the already sky high cost of living in Illinois
07/19/26	Michael	62220			X		X			Afforabililty.	Oppose	Stop increasing Taxes!!! No increase to the toll.
07/19/26	Ray Luedtke	60035	X		X		X				Oppose	No need to hike our bills. The state needs to manage their money better.
07/19/26	Dale Sorci	60172					X		X	Open road tolling	Oppose	Tollways when started was to be short lived in the state. It was never ment to be operated has a continuous pay toll system. That's the way they sold to the taxpayers in Ill.
07/19/26	Ronald Sherwood	61341	X				X		X		Oppose	The cost for all drivers to use tollways has been increasing, forced on line payments and poor road assistance not to mention road surface conditions. As a result I personally avoid them. This led to using more congested roads to avoid them, thus increasing my drive times and avoiding Chicago trips totally. The Illinois roads are unsafe and I would not like to see the increasing revenue from increased tolls as a reward for the poor services they have been currently providing.
07/19/26	Melissa Greven	60440	X		X		X				Oppose	With tolls increasing people wont be able to afford to drive on the tolls. When is there going to be a cap? Our tax dollars arent taking care of the roads already? Tolls dont help anyone. It only slows traffic. I had to pay $10 roundtrip to go to Wisconsin and back. Thats absolutely ridiculous. This cant increase. You can find other means to pay for infastucture repairs.
07/19/26	Maki Paula D.	49820	X						X	Paying a toll when I use the toll way	Support	I live in Michigan and maybe twice a year use your tollway . Going to and from Arizona. I just got a CC charge for $3.00 . I am home in Michigan and didn't use your great tollway. My plate is a personal- that no one else has. I would like to be able to pay at the toll booth. Then youland know a toll is paid. And mistakes can't be made. Plus you're hiring people! Who need jobs! My plate is MauiS5... and again I was home on 7/15/27 in Michigan day before yesterday!!! Sending billings out takes a person too - and one letter costs about $20 to send out by you! Please for us vacationers we'd like to pay at a toll booth!!! Not get frustrated with $3.00 CC CHARGES EACH TRAVELING SEASON THANK YOU FOR OPPORTUNITY TI EXPRESS
07/19/26	J Wisniewski	60561	X			X	X				Oppose	I am a senior citizen who remembers when the tollways were "sold" to drivers that eventually there would be no tolls. Not only have tolls increased over the years, the toll roads will become unaffordable for many. I, and many others, have already started using alternative no toll routes. Cost over convenience and safe roads should not be a consideration for the people of Illinois. The increased cost for every product and service that is trucked on the toll road will be passed on to consumers. With the proposed increase scale, tolls will continue to rise with no end in sight. The increases will make using the toll road a financial burden pushing traffic and congestion to secondary routes. If people have any alternative, they won't pay it because they can't afford it. This is another example of a very bad idea that will impact the people of Illinois. Rather than denying influence in this matter, the Governor should stand up for the people of Illinois- I don't see that happening.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/19/26	meg	60139	X		X		X				Oppose	
07/19/26	Chad Miller	60619	X		X		X				Oppose	It's already ridiculous enough we have to pay tolls at all. Why should we have to pay even more, when I'm not really seeing improvements and positives I'd like to see
07/19/26	Carlos Rodriguez	60634	X		X		X				Oppose	I suggest riding a motorcycle through the tollway so you have a better understanding of what's happening with the road surfaces.
07/19/26	Susan Greve	60948	X				X		X		Oppose	The rest areas are not as good as other states I've traveled. Roads are bad and we already pay too much to travel to work.
07/19/26	Jennifer	61244	X				X		X		Oppose	
07/19/26	Ruby Alvarez	60440	X			X				Quicker destination arrival	Oppose	
07/19/26	Anonymous	61310	X						X	Low cost tolls/removal of tolls	Oppose	
07/19/26	Kevin McMillan	61115					X		X	You have already taken away most of the Oasis's. And I really like that you make us choose three. And most of the answers we have to choose from you will say "well that's why we have to raise the tolls". Sorry not going to fall for that bull crap. No!No!No toll hike!	Oppose	The state is already taxing us way too high on fuel. And now you're going to raise toll rates. This is literally highway robbery.
07/19/26	Vivica Ramirez	60120	X			X	X				Oppose	
07/19/26	Stephanie Yehling	60441	X	X			X				Oppose	The state already makes enough money on tolls and needs to learn not to waste and steal from the system.
07/19/26	Lou Van Gelder	60558	X			X	X				Oppose	This increase is unwarranted since our roads on our tollways have recently been upgraded. Existing tolls should more than cover maintenance. There are additional drivers every year, which help increase revenue that is needed!
07/19/26		60441	X		X		X				Oppose	Reduce the unnecessary spending on bureaucracy. Tolls are expensive as it is.
07/19/26	Kevin Yehling	60441	X		X		X				Oppose	The state already makes enough money on tolls learn to budget.
07/19/26	Jacquelyn	60542	X		X		X				Oppose	Oppose raising tolls. 1. We already pay enough for roads that should be free. 2. Frevioulis spending occurs today. Wasteful spending on signage, removing abandoned toll booths that could have remained. 3. Spending funding due to $0 based budgeting. Should allow a reserve for future projects like the proposed. The funds are not utilized appropriately. 4. Tolls were increased for CTA funding. Not all citizens utilize the city/ public transportation and the remainder of the State does not to fund the roads not utilized. 5. Do a better job of annual budgeting.
07/19/26	David Golden	37363	X		X		X				Oppose	Concentrate on the tollways and squeeze efficiency out of your operation. Higher tolls should be the LAST resort. I have paid tolls for over 30 years and they are high enough.
07/19/26	Leanne White	60438				X	X			State Police with radar. Speeders are out of control.	Oppose	DO NOT raise rates.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/19/26	Michael Collins	60453				X	X		X		Oppose	Every year construction delays and raising tolls for poor planning. Example it appears with new technology the tollway system is going to electronic payments or online. Tell me why with new lane additions you have toll pay lanes unmanned and the lanes closed. Why didn't you plan to remove these booths and open up those lanes. How much did it cost us to build those pay lanes that you not using. Another waste of taxpayers dollars. This is just one example that I have seen in over 50 years of using the toll roads. We are paying more for the mismanagement and poor planning of the toll road system.
07/19/26	Toni Sim	60133	X		X		X				Oppose	This state has collected more than enough money from the existing tolls, that money has been misapproprated. Giving this state more money would only lead to more misappropriation and no accountability. STOP STEALING THE MONEY AND USE IT WHERE ITS SUUPPOSE TO BE USED. NOT YOUR POCKET
07/19/26	Cheryl Renshaw	60031	X				X		X		Oppose	Not an I opposed to the tax increase but am aminately opposed to automatic tax increases without review.
07/19/26	William Powers	63301	X			X	X				Support	I do support the need to improve the current tollway system. I object to what appears to be an unfair increase on passenger vehicles. You propose updating the system to increase economic growth. That's to me means an increase in truck usage. Is it fair to increase the toll for a passenger vehicle that is able to use a roadway designed to a lesser standard than the heavier trucks that an increase in economic development requires. All I ask is that the increase be fairly shared. I understand that I live in Missouri and only travel a couple of times a year on the toll road system. I have family and friends who use it on a daily basis / weekly basis. I'm thinking of the impact on them.
07/19/26	Kylie Spytek	60048			X	X	X				Oppose	This increase in tolls is going to encourage me to take backroads and drastically worsen my daily commute to work. Please do not vote for this.
07/19/26	Chris Kaplinski	60156	X		X		X				Oppose	The tollway was supposed to be a temporary thing. Do not charge travelers due to mismanaged revenue
07/19/26	Terry Semmens	60190	X			X	X				Oppose	You made $2B last year. Why can't you pay for of these magnificent improvements thru the existing tollway revenues. Also, the COLA to follow the state's lead with fuel taxes is unacceptable. You should need to come to the public for tax increases and make no mistake tolls are a tax.
07/19/26	Sue Wunderlich	60431	X		X		X				Oppose	There is no reason why we citizens of Illinois should have to endure another increase in fees. We are getting taxed out by this governor and our love for Illinois is diminishing fast. This is my home and I'm so tired of the way we are being used because this governor can't stop spending money on other things and we as taxpayers have to pick up the slack. We should feel safe and protected in our own state and I don't feel that way anymore. I am a retired educator and don't want these increases.
07/19/26	Luca	60068			X	X	X				Oppose	
07/19/26	Jason Majka	61350	X		X		X				Oppose	Illinois residents are already overtaxed thanks to our incompetent & overweight governor who has raised taxes 52 times already! Another increase in tolls is a TAX on hard working Illinoisans that I oppose & will do NOTHING but force more residents to avoid tollways in Illinois & relocate to a more tax friendly state like Indiana, just like the CHICAGO BEARS are going to do!!
07/19/26	Thomas Bartusch	60152	X		X		X				Oppose	There needs to be more transparency as to where all the money has gone that I've paid in tolls and everyone else in this state over the last 25 years I've been using the tollway explain where the money is gone
07/19/26	Raahsaan brown	60446	X		X		X				Neutral	Love the easy access and the extended lanes and the new toll streets covers for the window .. very clean and not too bulky

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/19/26	Jurea Crudup	61101	X		X	X					Support	I support the proposed toll increase and the Driving Connections capital program. As a longtime Illinois Tollway ConstructionWorks service provider, I have seen firsthand how this investment creates career pathways, connects job seekers to training and employment, and opens opportunities for small and diverse businesses. ConstructionWorks has made a meaningful difference for individuals and families throughout our communities. Continuing this program will help develop the next generation of skilled workers while maintaining and improving Illinois' transportation infrastructure. I encourage the Tollway to continue investing in ConstructionWorks, workforce development, apprenticeships, and equitable contracting opportunities as part of this capital program.
07/19/26		60203	X	X	X						Oppose	Tolls were originally supposed to be toll free by 1973... when my father was born, now he is a grandfather of 5. Tolls should be completely removed.
07/19/26	Tom Kabarec	60103	X			X	X				Oppose	I'm for paying a toll for a well maintained road. Tolls should be used specifically for the road not other projects that are failing. What is the existing balance in the toll fund? How much waste is there?
07/19/26		60070	X			X	X				Oppose	Il charges us more in taxes than almost all 50 states. Enough already!!
07/19/26	Frank Husak	53170			X		X			Reduce fees	Oppose	The Rates are to high as it is and now another increase, rediculous
07/19/26		60586	X	X		X					Oppose	
07/19/26	Jake S	61264	X			X	X				Oppose	
07/19/26	DON DAVIDS	60506-1917	X			X	X				Oppose	I believe the proposed increase could be lower, and I do not support indexing future increases to automatically increase.
07/19/26	Angel	61107				X	X			These toll roads do not help traffic to and from Chicago in any way. Other states have one lane that is toll and not required for your daily commute, but in Illinois if you don't take a toll there is sometimes up to a 50% increase in travel time just because they monopolize the best routes forcing you to use tolls.	Oppose	Moving here from a state where tolls are optional, Tolls in Illinois has been a deterrent to go to the city and enjoy the state more. Tolls shouldn't be needed to maintain roads when taxes are so much higher than other states.
07/19/26	Crystal Szabo	60110	X		X		X				Oppose	As a resident of Illinois I am constantly expected to pay more whether it is in tolls, taxes, or goods. It is unacceptable.
07/19/26	Geremias Fesalvo	60040	X			X	X				Oppose	Wisconsin can do it. End the tolls.
07/19/26	Roberto Santoyo	61008	X						X	Potholes on the road	Neutral	I drove everyday from Belvidere Il to Schaumburg on Barrington rd and the toll way needs a little service some potholes on it
07/19/26	Jacknordin	60169	X		X		X				Oppose	
07/19/26	Tarun Kandaswamy	60047	X		X		X				Oppose	It's working well enough as is, let's leave it be.
07/19/26	Debbie Schramm	60559	X		X		X				Oppose	
07/19/26	Claire	60960	X		X		X				Oppose	
07/19/26	June Slaven	46571	X		X		X				Neutral	If the increases are to be based on the Consumer Price Index, the same Consumer Price Index used to determine the Cost of Living Adjustment (COLA) the price should only go up by an average of 2.8%.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/19/26	anne gallagher	60142				X	X	X			Oppose	Way too much of an increase!! If the funds were used correctly in the past, such a large increase would not be necessary
07/19/26	Nikki Schellhase	60102				X	X			Paying less in fees for the middle class - you're robbing those of us that follow the law and pay	Oppose	Use all the other programs we had in place to pay for the roads!
07/19/26	Jennifer Cucinella	60018	X		X	X					Oppose	
07/19/26		60561				X	X		X		Oppose	
07/19/26	Mark Moise	60148				X	X	X			Oppose	Almost doubling the cost for tolls is unacceptable, as it is already too expensive and will only lead to even more traffic on local roads. If you really want to raise more money, start tolling on I-55, 290 or 90/94 where everyone is using those for free now.
07/19/26	Hayden Sloter	61081				X	X		X		Oppose	
07/19/26	Ed	60586	X				X			cost	Oppose	the original tollwayys were supposed to revert to non- toll highways when they were first built. Big government screwing the taxpayer again.
07/19/26	Hank Aleliunas	60192	X				X		X		Oppose	Totally OPPOSED! For years funds from tolls were used for other purposes. I suggest using all current toll revenue for ONLY tollway use. There are adequate funds for necessities.
07/19/26	Gary Chappell	61109	X				X		X		Oppose	I think I rates are high enough we don't need more increases cuz going to be too much to travel on the roads at least the interstates anyways so I think the car should be keep it as is leveled out instead of increasing every freaking year it's crazy it's bad enough gas prices are high enough now you want to raise our f****** roads so I think you should just leave them alone.
07/19/26	Chuck	60543					X		X	Too much government waster, disband the tollway authority	Oppose	Disband the entire tollway authority, it was supposed to be temporary.
07/19/26	Jack Fitz	60652	X	X			X				Oppose	Money never spent for the better roads, always mis managed and used for other purposes. Taxes are high and services are low.
07/19/26	Larry Barcheski	60101	X				X			Affordability Afforability	Oppose	As a Senior Citizen who saw the first toll roads that claimed tolls would be temporary we cannot afford the roads we drive on now. Find a different way
07/19/26	Cameron Marchese	60010	X		X	X					Oppose	Make better use of the funds you already have.
07/19/26	Linda O'Brien	60188	X		X		X				Oppose	Realize in order to keep up with maintenance of roads, please understand with the cost of living this will cause me NOT to use any tollway and take a longer drive to save on cost.
07/19/26	Mike Manade	60503	X				X			Safe roads patrolled by the State Police	Oppose	This increase is conceived with the intention of satisfying the unions at the expense of affordability in IL. Extremely high IL gas taxes should already be supporting these projects as more funds going to the tollway will be mismanaged by a politically charged board that has historically performed poorly. Any new funds should be directed to support local roads and transportation infrastructure. Illinois House Speaker Chris Welch explicitly stated that the toll hike was the price agreed upon to secure labor union support, ensuring that road repair and infrastructure projects would "keep working people working". This ill conceived policy will add to the growing emigration movement in this state.
07/19/26	Alec Moehn	60193	X			X		X			Oppose	Continuing to raise tolls to pay for expansions of lanes and more roads for vehicles is a well studied phenomenon that does not work. It's classic "induced demand" the tollway should not be adding more lanes but only repairing upgrading the current roads as necessary. Otherwise moneys for roads should really be used to build trains and local public transit like streetcars. Be better with our money and tax dollars.
07/19/26	Johnson	61073	X		X		X				Oppose	

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/19/26	Barbara Piltaver	60176		X	X		X				Oppose	I understand that you want to fund your "improvements". But, this is for a tollway system that was supposed to become free by 1973 — more than 50 years ago. From 1973 through 2025, drivers paid at least $28 billion in Illinois tolls! And, you've been taking in more toll revenue than ever. So where has the money been going all these years? I'd like to see more transparency as to how much you are taking in and how much your are spending on repairs, etc. Also, I find the increase in personal vehicles to be WAY too much! I could see going to a $1 for passenger vehicles, but increasing it by .45 cents? That's crazy! People are not getting raises in salaries. People on pensions and social security are not getting increases that match how everything is going up. Gas prices are out of control and now you want to raise tolls so people can get to work and have to work longer and harder to make up the increase? And, I'm not happy that you want to make "automatic" increases take effect. NO, NO, NO!!!!! Future increases should have to go before the board and give the public an opportunity to vote on it.
07/19/26		60178			X	X	X				Oppose	
07/19/26	Jim Knapp	60475			X	X	X				Oppose	I couldn't oppose something more than this ridiculous increase. That will equate to double the current price of many tolls, and you make more than enough money already to cover road repairs. You don't properly address those repairs, however, choosing to hire lax road crews that use intentionally cheap materials that break apart year after year. This is akin to extortion, and I again could not oppose your proposal more.
07/19/26	Raymond Kolk II	60107	X			X	X				Oppose	Illinois residents—especially those of us in Cook County—are already paying enough. The last thing we need is another increase in tollway fees. Instead of asking drivers to pay more, the state should look to existing revenue sources like casinos and video gambling machines to help fund transportation. It feels like Illinois places a heavier financial burden on its residents year after year, and it's time to find solutions that don't keep reaching deeper into taxpayers' pockets.
07/19/26	DM	60540		X	X		X				Oppose	Our Tollway system sucks!!
07/19/26	Len Grzeda	60439	X		X		X				Oppose	The roads have long been paid off and should now be free. No increase and no tolls. These payments are meant to get contributions from contractors to fill the democrat coffers and maintain their political machine.
07/19/26	Rob Held	60446-1511	X		X		X				Oppose	Illinois needs to stop giving money to illegals and put it to schools. There is so much fraud under this government and needs to be investigated from top starting with JB! Enough is enough!
07/19/26	Mike Prince	60441			X	X	X				Oppose	Enough already. End the tolls. They were never supposed to last forever.
07/19/26		60134	X		X		X				Oppose	You're a bunch of thieves. There shouldn't be any increase. Pay for it out of Prtizker's personal billions and. Have the fat fuck eat less.
07/19/26	John Petersen	60634	X				X	X			Oppose	I oppose the amount of the hike. For people that travel each day on tollway thats a big hike. It will cause businesses to raise prices. The tollway cannot keep up with the amount of cars using it anyway. Never will. Train service is needed on the toll roads like on the Kennedy & Dan Ryan Expressways. Rinse and repeat construction not working.
07/19/26	James Pyfer	61011				X	X		X		Oppose	By rate increase you are raising companies bottum line increasing cost to consumers. Also chasing small companies to other routes bypassing the tollway.
07/19/26	Boyd Griggs	60153	X				X			Nothing wrong with how it is, stop trying to charge us higher rates!!!	Oppose	Our tollway system was rigor fixing the roads then it was supposed to be removed! Stop trying to charge us more money for something we don't need!!!! 🤬 🤬
07/19/26	J Martin	60559			X	X	X				Oppose	Rates are already high. This notice arrived in my emailbox THREE days after the public hearing for DuPage County so we are unable to voice our opinions or hear the presentation. Currently, we often route our travel to avoid paying tolls. I294 has been under construction forever. Appreciate all you do, but can't afford the 30-50% increases on a limited income.
07/19/26		60130	X		X		X				Oppose	
07/19/26	Mark	60136	X		X		X				Oppose	Increasing by only $.15 would be acceptable for me

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/19/26	Wade Pekarske	46979			X				X	Better, cleaner rest stops, less access points in Chicago	Oppose	
07/19/26		60126	X		X			X			Oppose	
07/19/26	Shannon Mulroy	60031			X			X		Safety, Public Good, and Environmental Concerns	Oppose	I have yet to see any explanation for how the proposed plans will provide the intended goal of better transportation and less traffic. Numerous studies have been done to show that adding extra highway lanes does not improve traffic. See reports like the following: https://www.ucdavis.edu/magazine/does-widening-highways-ease-traffic-congestion In fact, it often worsens it, as people have to shuffle between more lanes to get into the appropriate area, causing constant slowdowns and shifts in traffic and more complicated driving. The proposed increase in tolls would be good for one reason: decreasing the number of people willing to drive on the highways, thereby decreasing traffic, similar to NYC's congestion pricing. However, NYC has one thing that Chicagoland lacks: effective travel between locations. While the Metra rail is very convenient for a small number of people, it is fundamentally useless for the vast majority of commuting done in Chicagoland. Raising the tolls in order to improve inter-city and inter-suburb busing and trains would be a much better use of the money and actually provide what the public needs for these goals in order to function. Additionally, I'm bothered by the idea that individual passengers--your constituents!--are expected to pay higher tolls than large corporations. This is deeply irritating to me, as companies have far more funds at their disposal than individuals have, and yet their costs will be lower. Please rethink this entire project proposal and come back with a more effective one.
07/19/26	Juli	60510			X		X			Affordability! Stop raising tollway for its Illinois residents!	Oppose	
07/19/26	Daniel kosman	60014-4943	X		X		X				Oppose	This is ridiculous. Illinois is one of the highest taxed and tolled states. Stop taking money out of people's pockets and re-direct taxes that we already pay towards this. Politicians need a pay cut, construction crews need to work more efficiently and smarter. Our current tolls and taxes are egregious. Tolls and lotto were supposed to fund schools. We can barely afford to eat- if anything, make the federal government pay for this. At the end of the day, we already put money into it!
07/19/26	Holly Olson	60004	X				X		X		Oppose	Inflation is impacting everyone and this increase amount is just too high. I also adamantly oppose a flat increase every 2 years based on inflation. Inflation is definitely increasing, but salaries aren't. Employees were laid off and at exit/entrance ramps, so many of the lanes aren't even currently used after all theses installation costs. And toll plazas are disappearing. They offered a chance to get food/gas/break from driving without getting hit with more tolls. Plus they were fun. It feels like there is a lot of financial mismanagement and perhaps an internal audit should happen first.
07/19/26	Martha Castillo	53207	X						X	Better utilization of express lanes	Neutral	I'm curious why you wouldn't have a larger increase for commercial vehicles, who are far more likely to 1) cause more wear and tear due to heavier weight, in many cases, 2) be funded by companies that often have more income, or at a minimum can writer off more as travel costs, and 3) would be more likely to use the roads more often.
07/19/26	Joseph Terc	60005	X		X					No tolls	Oppose	First, the email for the public hearings for Lake County and North Cook County came out after the date of the hearings. Second, the public was told they would be freeways after the bond issues were paid. Why can’t we be like other states like Wisconsin and Minnesota where all interstates are free? Why aren’t all the interstates toll roads or all are free?
07/19/26	Steven Pascazio	60631	X			X	X				Oppose	We do not need higher tolls when we are already taxed on gas for roads. The current toll fees should stay and whatever projects should fall into that budget and not ask for more money. Especially since the tolls are all automated now.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/19/26	Laura Maleski	61016	X				X		X		Oppose	I oppose this toll increase we are also having a gas tax increase which is for our roads. You are making our toll road something that people will want to avoid because of the high tolls this will take away from our tourism income along with now costing businesses more money to use our roads which will cause an increase in the products we purchase. We already have the highest taxes on our homes how much more does Illinois think we can afford with all these tax increases people will start moving elsewhere.
07/19/26	Lisa Burke	60103	X		X		X				Oppose	I understand and agree improvements need to be made, but feel the increase proposed is too high. Perhaps it could be a lower amount especially since the plan is for additional increases every 2 years.
07/19/26	Scott Batzel	60459	X			X	X				Oppose	I oppose the proposed 45-cent toll increase. While I support maintaining and improving the Illinois Tollway, this increase places an additional financial burden on commuters and working families who already face rising living costs. Many drivers have no practical alternative to using the Tollway for work and other essential travel. Before increasing tolls by this amount, the Tollway should demonstrate that all reasonable cost-saving measures have been explored and consider a smaller, phased-in increase if additional revenue is truly necessary. I respectfully urge the Tollway Board to reject the proposed 45-cent increase and pursue a more balanced approach that protects both our transportation system and the people who depend on it every day.
07/19/26		60185	X				X		X		Oppose	Thanks for the email after the meeting for our county already took place!!!
07/19/26	John N	60449	X		X		X				Oppose	Another tax increase is crazy. IL is already so expensive to live in. Shame on you
07/19/26	James	60031	X		X		X				Oppose	You charge enough already and don't use the funds appropriately. Fix the corruption and theft and there is no reason to increase toll pricing
07/19/26	Don Woehrer	61611			X		X		X		Oppose	Since being a kid in the 60's living in wisconsin the tollway has been collecting tolls. It was supposed to be a program of finite time yet continues into perpetuity. Someone wrap their arms around the pension problem and graft that continues to haunt Illinoisians. The state is nothing but a money grab with property, sales and any other kind of taxes. Quit fee fucking us to death.
07/19/26	Gregory Gomez	60002	X		X		X				Oppose	Eliminate the tolls. They were supposed to be temporary, yet they keep increasing tolls. Traffic is still bad and the tollway team is completely inaccessable or able to be reached for the long standing damage at I-94 east/southbound, 3rd lane at mile 5 7/8. STOP RAISING TOLLS! We're taxed enough already!
07/19/26	Herbert Lange	29928	X						X	If all makes it a safer drive ok	Support	
07/19/26	Trevia Trice	60477	X		X		X				Oppose	
07/19/26	Rebecca	60442			X		X		X		Oppose	No hike in the price of tolls it's already ridiculous
07/19/26	Stephanie Dolan	60510	X		X		X				Oppose	
07/19/26	Sean Delby	60914	X			X	X				Oppose	The state, and the tollway, should better manage their money. If the proposed rate increases are implemented, I will avoid the tollway except when absolutely necessary.
07/19/26	R William	60167			X		X		X		Oppose	
07/19/26	Patty	60107	X		X		X				Oppose	We pay enough. Stop paying for all the services that people use and don't even live in the state but get access to it
07/19/26	Maria Espitia	77429			X	X	X				Oppose	As a small commercial truck company, our expenses are already extremely high. We currently use the toll to help with the time but with a 30% increase it would no longer make sense on the cost per the profit!
07/19/26	Chet Matysek	60102			X	X	X				Oppose	You guys are ripping us off every day! Just to enrich Union workers and Contractors! We pay more than 90% of drivers throughout the nation, and we still have a garbage system like I-294...
07/19/26	Mary Knight	60178					X	X		The roads are fine	Oppose	We are already being taxed out of our homes. Now is not the best time to add more cost to the working families.
07/19/26	Amy Thomas	60622	X		X		X				Oppose	Shouldn't commercial use vehicles that are profiting off their road use have to pay more than the average citizen?

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/19/26	Janna Pearson	60123	X				X			Lower tolls	Oppose	The cost of living, and driving, in Illinois is already too high. We can't afford higher tolls!
07/19/26	Gus Richards	60423	X		X		X				Oppose	Where does all this money go?
07/19/26	Justin Frey	60013			X	X	X				Oppose	Tolls are ridiculous as it is, plenty of other states do without them. If you're not going to eliminate tolls, you sure shouldn't increase them!
07/19/26	Larry Fry	60135	X		X		X				Oppose	These roads have been paid for many times. It's time for you to live in your budget.
07/19/26	Bob P.	60048	X		X		X				Oppose	The proposed rate increase is too high. Toll road often congested. Road capacity should have been planned out better. Perhaps more lanes.
07/19/26	JP	60563	X		X		X				Oppose	Construction is never ending with snail progress. I'm not sure what if any deadlines are given to construction companies. There has been no improvement since the last toll price increase. I am against this increase
07/19/26	Andrew Greif	60134	X			X	X				Oppose	I am writing to formally submit my strong opposition to the proposed toll rate increases under the "Driving Connections" capital program, which would raise passenger tolls by approximately 45 cents and commercial vehicle rates by 30% starting January 1, 2027, alongside ongoing biennial inflation adjustments. My opposition is rooted in two primary concerns: Deviation from the Original Purpose: The Illinois tollway system was originally pitched to the public with the promise that tolls would be a temporary funding mechanism. Once the initial construction bonds were paid off, these highways were supposed to transition into free public roads. Instead, the Tollway has become a permanent taxing body, and this massive new 15-year hike further breaks that foundational promise to Illinois drivers. Severe Financial Burden on Working Families: Commuting is not a luxury; it is a necessity for people to get to work, school, and essential services. Adding roughly 45 cents per toll plaza—translating to hundreds of dollars in extra costs a year per commuter—makes daily transportation completely unaffordable for average citizens. At a time when household budgets are already stretched thin by inflation, forcing drivers to pay even more just to access the state's infrastructure is entirely unreasonable. Illinois drivers have already paid for these roads many times over. I urge the Tollway Board to reject this rate hike, honor the historical intent of the tollway system, and find alternative, non-regressive solutions to manage infrastructure costs. Sincerely, Andrew Greif Geneva, IL
07/19/26		60452	X		X		X				Oppose	We pay enough and the roads will are terrible.
07/19/26	FU	60538			X	X	X				Oppose	Fuck you for another toll increase. The roads never get better but costs continue to increase. You should be looking for ways to eliminate the toll roads completely as was promised years ago. I am completely against this proposal to increase tolls. Work with what you already are taking from us and be more transparent on where the money is going now.
07/19/26	Maria A Cavros	52404	X		X		X				Neutral	I love the tollway to save time to get to my daughter's house.
07/19/26	Barb Coley	62278	X				X			No toll bridges.	Oppose	
07/19/26	Sam	61081	X	X			X				Oppose	Dixon and dekalb tolls are at $3.60 per toll plaza and are significantly higher than rest of the state. I think those should stay the same considering the fact no changes. Also it might not be a bad idea to look at another exit for Sterling. Currently have to look using Dixon or rockfalls and helps Dixon downtown traffic reduction
07/19/26	Marc	60101	X	X			X				Oppose	Absolutely not! Illinois is one of the few states that even has tolls at the moment and we have some of the worst roads and traffic in the country. Whatever backwards justification you're using to claim that increased tolls will somehow lessen these problems is landing on deaf ears to anyone who's been around long enough to see countless increases without any improvements. I don't believe you at all and these claims are nonsense. I will vote no against this, do more with what you have and prove that you're capable of doing more with less before you come asking for more from the citizens who are already some of the highest taxed in the country.
07/19/26	Chris Chan	60008	X				X	X			Oppose	Specifics need to be provided as to what the funds will go to, so far, generalities are furnished.
07/19/26	Jim	60513	X			X	X				Oppose	Pritzker and the democrats said the would fight for affordability. STOP RAISING TAXES

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/19/26	Dan Wilson	60030	X			X	X				Oppose	None of the benefits proposed ever come to fruition starting with the original purpose of the toll road through today. It's just a money grab.
07/19/26	Bryan	61363	X			X	X				Oppose	
07/19/26		60015	X		X		X				Oppose	It is a money grab. They don't manage the budget well as it is. Why do they think throwing more money at will help solve these issues. Never has never will. Would love the justification for the exact dollar amount.
07/19/26	Keith M Stamer	60118-1628	X		X		X				Oppose	Over the years since I began to drive,back in early 90s I haven't seen any improvement to the toll road. Even the big project that was on I 90 near Elgin over a decade ago . When I travel, to avoid the mess of the toll road, I take side and back roads for my sanity. Now this BIG plan to solve what should've happened looong ago,and raising rates is asinine. I'm sure I'm not the only one who feels this way. So overall, I will continue to stay off the cash crop, because Wisconsin can maintain their hi ways not money makers here in Illinois.
07/19/26		60123	X		X		X				Oppose	
07/19/26	George	60007	X			X	X				Oppose	No more raising payment for tolls
07/19/26	John W Ditmar	49456	X		X	X					Support	You run a huge system very successfully, and I support your proposal!
07/19/26	Susan Wise	49420	X				X		X		Oppose	The tolls are high enough!
07/19/26	Joshua R	60544			X		X			Less bottlenecks during construction	Oppose	I've already spent a lot of time sitting in traffic due to the construction on i294. If you can't maintain or expand on what you are already charging, then I think you need to renegotiate contracts with contractors. As workers we dont get 30% wage increases and I dont see how that much of an increase is warranted.
07/19/26	K Jaranowski	60517			X		X			Less trucks	Oppose	Highly oppose this rate hike!!!! Tolls are too expensive already. What happened to let's build it and the tolls will be removed?!?!?!
07/19/26	Jimmy Watrous	61115	X			X	X				Oppose	This is why we are leaving this excessively taxed state.
07/19/26	Jeff EHRLICH	60935	X			X	X				Oppose	Illinois tollway system has turned into a total boondoggle for politically connected construction companies. There is construction all the time, and in many cases where it was never needed at all. In some cases, it's easier not to take the toll away just because of the constant construction and delays. Another issue is the lack of patrolling by the Illinois state police of large carriers IE 18 wheelers who continually violate the law by running in the first three lanes rather than the inner two lanes is required by law. It creates a dangerous situation and I realize that this is about the Illinois state police and not the tollway. The tollway commission certainly has enough political power to affect the way the police patrol the tollway system. I use the tollway quite often and in many ways it's a great convenience for me, but on the other hand, it seems as though great sections are continually under construction and all that does his increase the costs to us the consumer in toll fees to pay for these boondoggles thank you
07/19/26		60014	X	X	X						Oppose	
07/19/26	Douglas Lammie	60609	X				X			Its only affordability	Oppose	Its not an average of a 0.45 cent increase - in many instances, its an almost 100% increase!!! AND THEN to have the audacity to say "increase with inflation every two years" with no specific is disrespectful. The tolls were supposed to be temporary to BUILD the tolls, and then go away; that never happened. This is just more of the same, and applied in a way that will prevent me grom ever taking it again.
07/19/26	Michael Marola Jr	60148	X			X	X				Oppose	This is the worst idea I ever heard. Automatic increases for what? This auto increase doesn't solve the problems. It makes you less accountable. You need to figure out another way or people like me will leave the state even faster. Pritzker already pushed through auto increases on gas forces people to find alternatives. I have. I will find an alternative to the tollway too.also thanks for giving meeting dates after they passed.
07/19/26	MZam	60629			X		X			decreased tollway fees	Oppose	The basic essentials has increased 100% and you will raise toll fees? Illinois will no longer be affordable.
07/19/26	Grigoriy Nisimov	60090	X		X	X					Oppose	I strongly believe that in NO way the proposed toll increase should be approved.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/19/26	Art Wasilewski	60490	X		X		X				Oppose	You should remove the tollway system as promised in 1973, but like all politicians, they fill their pockets and can never grab enough of the taxpayer's money. You should leave any increases as a vote and not link it to inflation like the dumb fuel tax installed in 2019. Keep your hands out of our pockets.
07/19/26	Damian	60634	X				X			start repainting traffic lines on payment	Oppose	For over 15 years our roads have more and more pathols on our roads and you nothing but putting small tar patches that they come out after a month. This increase in tall are ridiculous. It's already too expensive to travel!!
07/19/26	Lynn Hernandez	60010					X		X	Complaint	Oppose	I'm so happy I will no longer be dealing with the date of Illinois.
07/19/26		60146	X			X	X				Oppose	Stop taking our money. The roads are garbage in this state, so stop talking more of our money
07/19/26		60108			X		X			Potholes of wasteful spending.	Oppose	No way. Time for a taxpayers revolt.
07/19/26	Jess	60560	X			X	X				Oppose	No toll increase. Use the money you already get to accomplish your goals.
07/19/26	Beth Donofrio	60440	X			X	X				Oppose	The Illinois tollway takes in 4.7 MILLION a DAY!!!!!! THAT is already more than enough money you're ripping off us drivers!! I strongly oppose an increase!!!! Manage the money better!!!!
07/19/26	Craig muzzey	60542				X	X			Get rid off tolls on roads. We are already taxed to the hill	Oppose	This is getting very ridiculous in this state. Need to cut funding, slash jobs and everything that is needed to quit taking all our money. Every other day it seems a new tax, raised tax etc is put in place to drain more of our hard earned money in these times when most of us have nothing and can't even live check to check
07/19/26	Dale	68048	X				X			Affordable	Oppose	Stop price gouging the truckers 45 cent for cars and a 30% increase in the toll will Stop me and others fron traveling them roads
07/19/26	Emma Pelayo	60639	X			X	X				Support	None
07/19/26	Rick P.	60402	X		X		X				Oppose	Let the state budget pay for this.Dont know what was worse Obama library cost or 90/94 near down town that was way over budget.Big No 👎🏻▨
07/19/26	Mary Grace	60053			X		X		X		Oppose	That's unnecessary increase, when you already have thousands of motorists everyday and everywhere along the highway where are tolls installed. The increase seems to just go to those who sits in position. If you can be transparent with budget and expenses and explanation of why increase is necessary, and the current fee is not enough even though there are thousands of motorists and still not enough.
07/19/26	Michael Zawaski	60086	X				X			More enforcement of the rules	Oppose	
07/19/26	Mary Ann Harrelson	60174			X	X	X				Oppose	Prices for food is extreme, gas prices extreme, my paycheck the same. Do not increase tolls it is getting unaffordable to live.
07/19/26	Amit Tiwadi	60585			X		X			Cost	Oppose	We don't see any value from current tolls collected. Road conditions are same, traffic is choking the commute. With no improvements so far, how the increased toll will change the picture? It's not.
07/19/26	Amit Tiwadi	60585			X		X			Cost	Oppose	Stop increasing toll price, no improvements seen so far. Same road conditions and same traffic issues .
07/19/26	jeff filipski	60175	X			X	X				Oppose	You are already collecting more money then is needed to maintain the tollways. If anything, tolls should decrease as the original intent was to stop the tolls after the roads were paid for.
07/19/26	Luka Stranc	60641	X		X		X				Oppose	

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/19/26	David Sanders	60026	X			X	X				Oppose	To Whom It May Concern, I am writing to express my strong opposition to any proposed increase in Illinois Tollway rates, particularly on I-294. I have been a frequent user of the Tri-State Tollway for approximately 17 years. I commute between Glenview and Lombard four to five days each week, traveling roughly 27 miles each way. For many commuters like me, there is no practical alternative. The only comparable routes, such as I-355, are also toll roads. This means we do not have the ability to simply choose a free route, making any toll increase effectively unavoidable. Several years ago, toll rates were already increased significantly—approximately doubling for many users. Since then, the cost of my daily commute has continued to rise, and I now spend several dollars each way simply to travel to and from work. Another increase would place an even greater financial burden on thousands of commuters who rely on these roads every day. I fully recognize that maintaining infrastructure is expensive. Road resurfacing, bridge maintenance, snow removal, pothole repair, and future improvements all require substantial funding. I understand that these services are not free and that users should contribute to maintaining a safe transportation system. However, I believe Illinois Tollway users are already contributing more than their fair share. In addition to tolls, Illinois residents pay state income taxes, fuel taxes, vehicle registration fees, and other taxes that help support transportation infrastructure. The state also receives significant revenue from legalized gambling and cannabis sales, among other sources. These revenues should also play a role in funding major infrastructure investments rather than placing an ever-increasing burden solely on commuters. My greatest concern is the ongoing reconstruction of I-294. This project has extended for approximately seven years and has required drivers to endure years of lane closures, construction zones, traffic congestion, and delays. Throughout this time, the public has repeatedly been told that funding was available and that toll revenues would support the project. Yet many commuters have watched the project continue far longer than expected. From a driver's perspective, the work often appears inefficient. There are days with excellent weather when little visible work is occurring, while activity sometimes appears during poor weather conditions. Whether or not there are valid construction scheduling reasons, the public perception is that the project has taken far longer than necessary and that taxpayer and tollpayer dollars have not always been used as efficiently as they could have been. As someone who drives this corridor regularly, I expected a toll road project to be completed more efficiently than similar highway projects because toll roads generate a dedicated source of revenue.
07/19/26	James Valentine	60631	X		X		X				Oppose	Yet another tax hike in Pritzkers Illinois. Toll roads were to be free once completed.Yet. Here we go again. More tolls. More cost. Sadly. This won't be the last hike we see. I can't wait to leave this forsaken spit of land we call Illinois.
07/19/26	No higher tolls	12345	X		X		X				Oppose	The roads are already good. The bad roads won't be fixed by this proposal as they aren't toll roads. No toll increases!!!
07/19/26	Robert Miles Polletta	60435	X		X		X				Oppose	Some of us have been around since when the tolls were supposed to go away. Most road traffic and wear is caused by commercial vehicles. Increase their tolls and make private vehicles free.
07/19/26	Brian Greaney	46307					X		X	Less government	Support	I oppose. I would write more but you are not worthy of my letters.
07/19/26	Paul O'Toole	60477	X		X		X				Oppose	Instead of continuing to widen existing routes, there needs to be alternate routes along with affordable, safe public transportation. Roads should have been planned with a rail system in the median at least through the most populated areas. Finally, when tolls were first placed on the toll roads, we were promised they would be removed once the roads were complete. You have created a never-ending money grabber. Illinois taxes are the highest in the nation, including the highest gas taxes. I should not be charged extra to drive on the roads.
07/19/26	JF	60441			X	X	X				Oppose	Illinois is very poorly managed. At a certain point the cost to travel will outpace what people make.
07/19/26	john schmidt	60629	X			X	X				Neutral	Where possible, install solar panels to collect electricity -- e.g., along bridges, in medians, etc.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/19/26	Jan	60915	X		X		X				Oppose	Illinois legalized marijuana and said that money would go towards the roads. Where is that money going? Apparently, it is lining good ol' JB's pockets, along with all the other taxes. Just another way to psyphin all of our hard earned money.
07/19/26	Kim Benoit	60914	X	X			X				Oppose	Illinois has to start cutting and balancing the budget instead of continually gouging the tax payers with more and more increases. It's just becoming too unaffordable to live in Illinois. I'll be ok with raising tolls if you cap our property taxes at 1%
07/19/26	Joshua Genens	60448	X		X		X				Oppose	I truly don't believe the higher tolls are going to benefit the people. And that the extra revenue generated by increasing the tolls will not be seen by the people but those in power who will use the revenue for themselves.
07/19/26	Cherrie Peeples	60445	X		X		X				Oppose	
07/19/26	Rosa Houtz	61107			X	X	X				Oppose	We already pay enough. Other states don't even have toll fees and you want to increase ours higher? We already pay Illinois taxes in so many different areas. Stop taxing us and increasing costs of living in this state.
07/19/26	Jim Jones	60142	X				X			Removal of IPASS	Oppose	This was promised 25+ years ago when IPASS was originally implemented and NOTHING has changed. This state is corrupt and our politicians crooked, they will do nothing to improve traffic or help build better roads. Nobody wants this.
07/19/26	Kathy Jenkins	60612	X		X		X				Oppose	Taxpayers are already straining to meet the cost of living. This is yet another increase to nickel and dime the public.
07/19/26	Wyconda Marshall	60610	X				X		X		Oppose	
07/19/26	Jamie Ieremia	60440	X				X		X		Oppose	Stop passing it down! I am tired of Illinois charging more and more for nothing! You are all worthless!
07/19/26		60103	X		X		X				Oppose	No increases in tolls
07/19/26	Brian Mancuso	60069			X	X	X				Oppose	Figure out a way to get rid of the tollway.
07/19/26	Kyle Hertz	53115	X			X				Faster to get to where I'm going, and usually more direct.	Oppose	It's not my fault the Illinois toll system has dust so far mismanaged the money that they've made off of billions and billions of travelers each year. Why should us as travelers have to pay a higher price for your poor management of the money we've already given you to maintain these systems. Show us there's a real need for the improvements and etc.. Not just increase the prices just because you can.
07/19/26	Rachel Scanlan	53511-1422	X		X		X				Oppose	I believe you should reconsider the the increase in tolls. I travel daily to work from Wisconsin and this is the most direct and timely path for me (I hold an ipass). 45 cents is an almost 50% increase, and based on what I read, the tollway is proposing being able to adjust higher annually going forward. With costs in the US at a high point, this is only adding to that for the population. You could consider passing along the extra cost to those who do not have an ipass as an alternative, or reconsider the rate increase to a more reasonable and gradual amount.
07/19/26	Martin Hyams	60660	X		X		X				Oppose	Now is not the time to raise tolls at all. The government has caused inflation and prices to sprocket. Raising rates now will hurt the people that are being hurt the most. The lower and middle class.
07/19/26	Jay Meyer	60169	X			X	X				Oppose	It is not clear how waste and mismanagement are being reduced with the new plan. Until this is clear, I do not support the plan.
07/19/26	Maya Popbozhikova	60714	X		X		X				Oppose	Too expensive already.
07/19/26	D Reinke	60172	X				X			fewer potholes	Oppose	Roads need to be maintained much better than they are today. The capital already accumulated needs to be used to improve the roads so taxpayers don't get asked to contribute even more that will not be used for roads.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/19/26	Sally Forker	61615	X			X				Drivers who drive the speed limit or no who are fined for not driving the speed limit. That is how I propose you make enough money to improve all roads in Illinois.	Oppose	Fine people for speeding and driving recklessly on Illinois roads and then you will have more than enough money for roads.
07/19/26	Mandi Nelson	46360		X	X		X				Oppose	Keeping the rates as they are keeps traveling via the toll road mostly affordable. However raising the rates will make the added cost not worth using the toll roads and cause many people to seek alternate routes.
07/19/26	Fred Barrett	60031	X		X		X				Oppose	I am a retired senior citizen on a fixed income. Other transportation options such as Metra offer a reduced rate for seniors. It would be beneficial to offer a 50% discount to qualified seniors. If the proposed rate increase takes effect with no relief for seniors, I will avoid the tollway whenever possible.
07/19/26		60440			X	X	X				Oppose	Tolls are high enough
07/19/26	Vernon Van Vleet	61455	X				X			Roadside beautification	Oppose	I travel on the tollway frequently. The Illinois Toll system has a surplus. How much of that or future increased tolls will be sent to Chicago area to support the transit mess up there and not used for the projects mentioned? Raise fares on the mass transit in Chicago and not on the backs of tollway users.
07/19/26	Sanjay	60108	X			X	X				Oppose	Tolls were supposed to be eliminated at some point but it never happened. We are among the top five in the nation as fad a toll fees go. Tolls are very expensive today and we should NOT be increasing it anymore
07/19/26	Doucet	60131	X		X		X				Oppose	Enough is enough! We all have to live within our means & spend less to live everyday. I'm sure the tollway bosses make a plenty of money & maybe that should be looked at first & ways to save money instead of always on the working people.
07/19/26	Sean Parmelee	60608			X			X		Stop wasting money on infrastructure for cars	Oppose	Every dollar you spend on infrastructure for cars is a complete waste and could have been spent on other forms of transit. You are imprisoning us in an endless cycle of traffic, repairs, expansions, traffic, repairs, expansions that never change anything. Plenty of global cities have moved away from cars. Illinois and Chicago are not special except insofar as our leaders choose to make the same mistakes forever.
07/19/26	James	60499				X	X			Paying nothing	Oppose	You earn money on holding short term Treasury bills, Fiber-Optic leasing, Cell Tower Co-location fees. Overweight Truck Fines, Corporate sponsorships and let's not forget the escrow account money you hold from every single I-Pass account that you invest in. The other fact is that the ITA has never retired the original bonds and instead realized that rolling over those bonds in so-called "new investments" has resulted in lavish spending for Tollway executives including he helicopter and other exclusive offramp for the Downers Grove Headquarters. Cut your spending, retire the bonds and remove the tolls.
07/19/26	Kylie M	61063	X			X	X				Oppose	I think it is unfair to make the driver have to pay this increase. This should come from government funding, not the drivers whom already pay so much every day for their travel.
07/19/26		53511	X			X	X				Oppose	This rate increase is almost 50 percent and a big impact to those who have to use the tollway to commute to work daily. Please reconsider passing along the funding needed this way, or pass along to those who do not participate in the ipass program

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/19/26	Amy	60067	X				X		X		Oppose	The tollway began as a short-term solution to build roads in the Chicago area back in the 1950s. Those roads have long since been paid for, but the tolls were made permanent. I understand using the funds for continued upkeep on the roads, and they are in good condition. However, the rates are high now, and enough is enough. There is plenty of money coming in; it's time to look at how it's being used and do some rearranging of the funds before taking more money from hard working Illinoisans. 45 cents more per toll is ridiculous; the amount we're paying for each toll now is over the top.
07/19/26	James wskeford	60050	X			X	X				Oppose	Lol....it never stops....cash cow for the tollways admins.....no
07/19/26	LAKITA RICE	60644	X			X	X				Oppose	No increase
07/19/26	Margaret Bruun	60115-3835	X		X	X					Oppose	I drive I88 for work every day. Its already very expensive. Those of us that have to drive to a job and have no other way to get there should not be charged even more.
07/19/26	Michael Mayr	60540	X		X		X				Oppose	Rate increases for the Illinois Tollway should be directly correlated with the cost of living rates for citizens of Illinois.
07/19/26		60446	X				X		X		Oppose	NO TOLL RAISES.
07/19/26	Joe Gonzalez	60467	X			X	X				Oppose	The current tolls are well funded; the problem is the reallocation of the excess funds to other Illinois budget programs like the CTA.
07/19/26	Kevin Wachowiak	60156	X		X		X				Oppose	STOP RAISING TAXES AND TOLLS ON ILLINOIS CITIZENS!
07/19/26	Rob petzold	60004		X			X			Wasted spending	Oppose	I drive around Illinois quite a bit. I always see too many Illinois state workers standing around leaning on a shovel. It’s time that they stop cut the staff and save some of that money. All we’re doing is spending money recklessly this is one of the most expensive states to live in. I live in crook County. I see waste every day. Feel free to call me. Email me I will come and talk to you in person. This is ridiculous. Start holding the people accountable for the spending that they’re doing and the waste that they allowed to happen every day instead of raising the prices maybe ask every state employee to donate Money. Support oppose or if they’re neutral to that.
07/19/26	Isabel Hansen	61265-5809	X	X					X		Support	More than willing to pay extra to have better roads!!
07/19/26	Steven A	60462	X		X		X				Oppose	Absolutely no increase. Do better fiscally with the state than increase tolls.
07/19/26		60601	X		X	X					Oppose	No toll increases!!
07/19/26	Clinton M Dykes Sr	60431	X			X	X				Neutral	It cost enough already. Where's is money going some of the toll road has big potholes !!!
07/19/26	Peter Ziegler	60502	X		X		X				Oppose	We are taxed to death in the state of Illinois. We have the second highest gas tax in the nation, our tolls keep going up. For many of us who drive our cars on the toll ways we are now charged in excess of $1000 a year through I pass. This has to stop. I can drive on tollways in other states that don’t have tolls and their roads are fine. I will vote against every person in office that I can if these tax increases go through.
07/19/26	John Kleindienst	61107	X				X			Safe drivers with traffic control (police)	Oppose	If Illinois would stop financing illegal aliens with tax dollars, they could afford many things.
07/19/26	Gary Prasser	60564			X	X	X				Oppose	Cost to live and work in Illinois will be increased so that more people will leave. You are making cost of living in Illinois unlivable!
07/19/26	Bruce Wright	60134			X		X		X		Neutral	
07/19/26	Patrick	60586	X				X			Better use of the money you already get that should have stopped in 1973.	Oppose	I 100% oppose more taxes on citizens in Illinois, we are over taxed already and I now have to pay for CTA that I do not use. Get your money back from the CTA and budget it more wisely.
07/19/26	Jessica Smith	60401	X		X		X				Oppose	The toll roads have been a ripoff for years. Stop raising prices for residents who are already struggling to get by. If Illinois knew how to budget the insane amount of taxes it rips from its residents, we wouldn't need constant increases. Tell politicians to stop lining their pockets, stop funding unnecessary line items and focus on roadways, infrastructure and education. This state is just getting worse. We need to end the corruption.
07/19/26	Ted Mroz	60516	X				X			Cost effective	Oppose	Seniors should be discounted, and commercial vehicles should pay more. The trucks are all over the roads.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/19/26	Vince Tornabene	60402	X		X		X				Oppose	You have enough revenue. Time to start using it more wisely
07/19/26	Diane Collins	60089	X				X			Stop raising rates	Oppose	Funny how WI has better roads, less congestion & no tollroads. Nice to send out this notice AFTER the date is past for our area.
07/19/26	Vera Schmitz	60154	X				X		X		Oppose	We are all struggling to put food on the table, and Illinois' politicians and programs have MASSIVELY mismanaged the money already raised from tolls that were supposed to be TEMPORARY! As a Democrat, I won't be voting for anyone in favor of making it even more difficult to afford to live in Illinois. Keep pushing us and no one will be left to pay your tolls.
07/19/26	Jason Butcher	46385			X	X	X				Oppose	This was supposed to be temporary when the toll road was initially built.There shouldn't be any tolls.This is just another rip off by Illinois.
07/19/26		60301	X			X	X				Oppose	I fully oppose indexing the tolls to inflation. This is a money-grab and built-in cost of living increase that Illinoisans will suffer ever two years on top of the ongoing nationwide cost of living crisis. Before we know it we'll be stuck paying the same outrageous tolls that make New York an unlivable place to commute.
07/19/26	Julianne K	60031		X	X	X					Oppose	OPPOSE
07/19/26	Katie	60471	X		X		X				Oppose	Please do not increase toll prices. We are taxed enough.
07/19/26	Christopher Spoo	60561			X	X	X				Oppose	Massively increased toll rates coupled with the possibility of the tollway taking over I-55 and I-80 leaves the residents of northeast Illinois with limited alternatives to the monopoly created by the toll authority.
07/19/26		60056				X	X			Less tolls	Oppose	I oppose the increase, especially at 30 percent!
07/19/26	Stephen Hoover	60506					X		X	low tolls	Oppose	The proposed toll increase is twice as large as I think it needs to be. Plus including an automatic inflation increase is a bad idea.
07/19/26	Alex Schaller	60453	X		X		X				Oppose	This a great idea right now, many people struggling, hey let's increase more taxes, brilliant. We already do construction constantly toll roads with projects taking years to decade. I do not believe it will improve traffic as it never does. You can't get by with $2 billion seems like you are doing something wrong. If this passes, I will never drive on a toll road and will protest every chance I get.
07/19/26	Daniel Biel	60018			X	X	X				Oppose	At what point are you going to say enough is enough and call it finished? One never-ending project is finally completed and then you start another with a toll increase thrown in for good measure. Do the driving population a favor- leave it alone!
07/19/26	NA	60030			X	X	X				Oppose	Tolls haven't gone up in Illinois since 2012??? Fake news. This is JB Pritzker's way of screwing Illinoisans more by taking more of our hard earned money. Balance the budget instead of stealing. Stop giving us reasons to leave.
07/19/26	Bob	60490	X		X			X			Neutral	Total increases are designed to expand roadways. However, what is being done to reduce traffic and increase mass transit such as high occupancy vehicle (HOV) lanes and inter suburban rail system between the expressway divide? Also what is the timeline for tolls to end? Other systems have finished collecting tolls after repayment is made.
07/19/26	Roman	60025	X	X	X						Oppose	At this point of time Illinois toolway is one of most expensive in a country. I believe local government should better work with subcontractors to get better deals. IL needs new management
07/19/26	Breonna	46324			X	X	X				Oppose	
07/19/26	Mohammed Majid	62526	X		X		X				Oppose	Please decrease the rates or keep them same as existing.
07/19/26	Jeffrey Wilshire	61611	X				X		X		Oppose	Federal dollars from OUR gas taxes should be able to upkeep OUR roadways.
07/19/26	Vicky coleman	60025			X		X			Less never ending construction	Oppose	Please: just another money grab with no accountability
07/19/26	Thomas Zastrow	61008	X		X		X				Oppose	
07/19/26		61081	X				X		X		Oppose	
07/19/26	Kevin	60439	X			X				Stop the corruption and road construction - wasting money	Oppose	The toll system is a joke. It was never intended to be long term. Corruption at its finest. Stop redoing projects every 2-3 years. Illinois should learn from other states that have better roads, no tolls, and similar or worse climates.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/19/26	Wayne Wilkinson	60189	X		X		X				Oppose	In a time of high inflation, we dont need more cost increases.
07/19/26	YouDontCareAboutShit	60076			X		X		X		Oppose	Where is all the tax money going to. You increase it every year to just having it increase every year. Step down from office. Youre all a disgrace to your families and to your country.
07/19/26		60477			X		X		X		Oppose	No point in trying to make new construction, when the Construction we already have is never finished. It shouldn't cost us more to drive on roads that are not improving and increasing the tolls for construction won't help. I'm not interested in paying more money for the shit roads
07/19/26	JOY HUEBNER	60030			X	X	X				Oppose	I am alright with first proposed increase . However, I have extreme concerns over automatic increases every 2 years after.
07/19/26	A	60103	X		X		X				Oppose	Use some of the money that's funneled to these ridiculous pensions, contract management, cps travel budget and all the other countless spend.
07/19/26	Jeremy Wagner	60142	X		X		X				Oppose	Absolutely no money collected through tolls should be used in anyway on any other project Illinois. All tolls collected should be used ONLY on existing stretches of the toll road, any extensions or additions to the system should be paid for by the state highway system or the federal government.
07/19/26	John Davis	60096	X						X	Trash	Neutral	Typical bureaucrat disfunction. Your notice is a week late. Translation, road improvements will take an extra year. 7-11 is not a road side rest stop. There is nothing restful with dirty broken toilets, bugs, and overflowing trash cans. Double the rate on trucks. They tear up the roads and fine companies big that overload their trucks and trailers.
07/19/26		60031	X		X		X				Oppose	
07/19/26	Kevin Lou	66067	X				X			Lower our taxes!!!	Oppose	Stop the insanity!!! You are driving everyone out of the state!!! Lower costs and stop wasting our money!!!!!!
07/19/26	Terry	60462			X		X			We have been driving on roads from Orland park to touhey avenue that are over crowded BECAUSE of all the construction for 5 years and you are going to do it for ANOTHER 10 YEARS! AND CHARGE EVEN MORE!	Oppose	We have been driving on roads from Orland park to touhy avenue that are over crowded BECAUSE of all the construction for 5 years and you are going to do it for ANOTHER 10 YEARS! AND CHARGE EVEN MORE! Time to leave the state. The roads will continue to be congested because this state takes forever to finish the work!
07/19/26	J	60430			X		X			.	Oppose	Everything is expensive and increasing in price. Might as well hit tollways as well right.
07/19/26	Rob Winograd	60435	X			X	X				Oppose	Toll roads were supposed to be non existent by 1973 and yet here we are and the only thing that has happened is the rates get raised. The money is supposed to go back into the maintenece of of the roads and yet the toll roads in Illinois are disgusting with pot holes, bumps, construction that leads no where. It is obvious that the corrupt politicians in this state are using this money elsewhere. It's time to put a stop to this Stop squeezing IL tax payers for all your mistakes and fix the system.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/19/26	jacek Lesny	60172	X				X			I-94 in Chicago never been fix from 159 th street to 115th both ways biggest potholes in America you spend money for clean trash along highway but not fix road what is more important fix road or clean trash biggest looser in Dot	Oppose	Did anyone see how new roads look like differences between old road and new ones is new road but same quality uneven I can do better job
07/19/26	Fey	60646	X		X		X				Oppose	
07/19/26	Dejan Zecevic	60056			X		X		X		Oppose	You already one of the highest in the country roads are horrible and you're proposing in increasing the tolls Unacceptable.
07/19/26	Patricia Wolf	60515	X				X		X		Oppose	Already paying high fees for our roads . Figure out another way to pay from the already high tolls in place for numerous years.
07/19/26	Stuart Kalman	60618	X				X			lower tolls	Oppose	Our tolls are already too high and we don't need to fund this bloated and unnecessary beaurocracy. WE NEED WIDER ROADS WITH MORE LANES in regular highways that touch millions of us daily. Urging governor and others to reject this plan. No automatic toll raises, no to spending billions of our funds on this plan.
07/19/26	Diana Schneider Rudolph	60071			X	X	X				Oppose	
07/19/26	Tony	60142	X	X	X						Oppose	I like how I get an email about the public hearings dates when the hearings already happened. Im curious as to how much money is going to the the roads and how much is going into political pockets or other slush funds.
07/19/26	James Hogan	60435	X	X		X					Support	we need to commit to keeping the system working and making improvements no one likes rate hikes but they are necessary. count me as supporter.
07/19/26	John Cieslak	60191	X				X		X		Oppose	Considering growing up in the region and the promises that tollways would become FREEWAYS were not kept, and our fuel taxes are some of the highest in the country, I do not believe increasing tolls is a fair option to residents. Driving Wisconsin highways regularly, I see that they are able to improve their roads without tolls. Many improvements now in progress and in the recent past from the illinois state line all the way north to Green Bay.
07/19/26	Linda Martin	61530	X		X		X				Oppose	We drive to and around Chicago and use the toll roads. We do not approve of the scheduled toll increase, mostly because it is higher than most of the rest of the country, as are the gas tax and property tax and driver license fees and almost everything else in IL. Also, we did not like the fact that Pritzger took money from the roads to pay for other things in the budget. We are in trouble financially, and not a good business climate. Someone needs to address these issues instead of putting cash into areas that remain unresolved, like that teacher pension and schools that have declining enrollments.
07/19/26	Brian James Baldi	60107			X		X		X		Oppose	Thought tollway was to stop collecting tolls years ago.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/19/26	MATT MILLER	60102-9760	X		X		X				Oppose	I am writing to express my opposition to the proposed Driving Connections Capital Program. While I understand the importance of maintaining and improving Illinois' transportation infrastructure, I have concerns about the potential financial impact this program could have on Illinois residents. Many families are already facing rising costs for housing, utilities, groceries, fuel, and taxes. Any program that could result in additional fees, taxes, or long-term financial obligations should be carefully reconsidered. I also believe there should be greater transparency regarding how the program will be funded, how projects will be prioritized, and what measures will be in place to ensure taxpayer dollars are spent efficiently. Before committing to a program of this scale, I encourage the state to demonstrate that existing transportation funds are being used as effectively as possible. I respectfully ask that decision-makers explore more cost-effective alternatives, prioritize essential infrastructure needs, and ensure that any future investments minimize the financial burden on Illinois residents. Thank you for considering my comments.
07/19/26	Nicole Kowalczyk	60538	X				X			Save time	Oppose	The tollway was started as a temporary thing. The public was lied to. The funds from thevtollway are being siphoned by the govenor for CTA which is not what the whole state should be paying for. To raise the rate by 40 cents is insane. The govenor just raised the rates and it's like the tollway said, we want one of our own. Fuck that. You and the governor can choke on your increases. You are making millions of illinoians suffer with your increase and the governor's tax increases. If this passes, i will use the GPS option of avoiding tollways and will not give any more money to your corruot and mismanaged company.
07/19/26	Robert	60558	X		X		X				Oppose	You shouldn't be allowed to raise tolls as you haven't remotely managed to prove you can use the existing budget remotely effectively. Complete scam proposal.
07/19/26	Gene Nauert	60042	X			X	X				Oppose	Look at spending the money that you already get more efficiently instead of fleecing the people more. Hold contractors responsible for their shoddy work when necessary too.
07/19/26	Barb Lampros	60566			X	X	X				Oppose	Tolls were not to be a permit part of our road system. I feel we have paid for these roads several times over. I have stopped going into the city because the travel times are way too long and congested. Traffic seems to get worse every year.
07/19/26	Dave Gliva	60607			X	X	X				Oppose	No new rate increases. Already too expensive
07/19/26	Cynthia Sarff	60119	X				X	X			Neutral	Well, I support improvements to the system, I can sympathize with commuters financial conditions right now.
07/19/26	Roberta Murphy	60101	X			X	X				Oppose	Another reason To leave IL - tolls. Not every state has tolls to support roads.
07/19/26	Mario DePasquale	60439				X	X			No more rate increases	Oppose	You people are out of your mind that you are asking for a toll increase. Weren't these toll roads supposed to pay for themselves and become freeways like 20-30 years ago? What happened to that plan?
07/19/26	Anita Barbagallo	60031	X		X		X				Oppose	The tolls and taxes in Illinois are high enough! I will stop using tollway if rates increase!
07/19/26	Randy c	60901	X		X					Affordability of tolls	Oppose	I oppose this. Gas prices are already ridiculously high and continue to rise. Raising toll prices on top of gas prices are crazy to do. I dont travel many tollroads any more due to the cost of tolls. They have gotten out of hand.
07/19/26	Jacob Willis	60402				X	X			Affordability and this is forced into 3 false choices so you can say “X answer for so many votes” when the answer is Affordability and corruption	Oppose	This proposal is pure crony corruption and is a regressive tax on the working class. The proposal states openly that its main purpose is to take money away from ordinary residents to hand out to an insider bureaucrat’s choice of friends/contractors. We don’t want to “fuel economic development” with a regressive tax funding handouts to corporations “fuel economic development by creating thousands of engineering and construction jobs, support suppliers and small businesses” = stealing from Peter to pay Caesar This will not improve roads, it will just cause years of pointless construction zone traffic to feed lobbyists and connected insiders. That is a bottomless money pit. This is not progressive
07/19/26	John Miller	60515				X	X			Lowest cost	Oppose	This is unnecessary and discriminatory for low income households. I will avoid toll roads at all cost if this unnecessary construction union driven rate hike is implemented.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/19/26	Patrick Reilly	60487	X		X		X				Oppose	I think before increasing tolls your organization should complete decade-long projects such as 294. This road has been under construction my entire life as a driver and it is still extremely hard to navigate to this day as a commuter. If the traffic flowed and construction has finished I may consider it an option instead of taking side streets during rush hour.
07/19/26		53589	X				X		X		Neutral	Why is the toll for Dixon going up $1.10 for IPASS instead of 45 cents? Is this a misprint?
07/19/26	Donald Friedlund	60044-1518	X	X			X				Oppose	.45 increase. I will use the alternative routes in my area even if it means longer commute. Illinois already scams us with crazy gas tax.
07/19/26	Dre Murphy	60616			X		X		X		Oppose	There needs to be some type of accountability for the construction companies who are building these highways often times they're running over schedule and over budget there needs to be penalties in place for running overtime. They're also needs to be accountability if they bid $1 billion for the project because that's what they said they could do it for it then they need to do it for that amount or they need to cover 75% of the cost overrun that way they can keep cost in line other states do it such as Texas and they get their roads built a lot faster than we do. yes they have more time to build, but they also get it done a lot faster. I also think we should have 24 hour cruise or at least 15 hour crew days so that way we can get the projects done faster and get people Moving if you are going to raise it by $.45 that might be too much for the taxpayer to take on perhaps $.20 and slow down the construction of projects until we get a new president in place who's willing to help fund
07/19/26	Tipler	60046	X		X		X				Oppose	Projects tske too long and aren't done with future plans in mind. So then in a few years they're torn up again. Its constant construction and inconvenience. Inflation is too high as it is and basic needs are hard for many to afford.
07/19/26	Matt Darby	61068	X				X		X		Oppose	"I strongly oppose any increase in Illinois Tollway rates to fund expanded surveillance. Drivers are already burdened by high taxes, gas prices, and inflation in this state. Raising tolls by ~45 cents per trip (and much more for commercial vehicles) to install more cameras and tracking systems is not the solution.
07/19/26	Mark Laskowski	60527	X			X	X				Oppose	Illinois highways should be free. In such a difficult time, Illinois should focus on cutting prices and taxes not increasing them.
07/19/26	Janet Jensen	60502	X				X		X		Oppose	
07/19/26	Philip Lewandowski	60525	X			X	X				Oppose	The existing tolls are too high and any increase will hurt most people that are forced to use the toll roads for one reason or another.
07/19/26	Linda Swan Jackson	60104	X		X		X				Oppose	Fixed income as a senior citizen and have to work requiring four tolls a day. I cannot pay the increase.
07/19/26	Mario Mendoza	60629	X				X			Enough with taxes and increases	Oppose	Enough is enough with additional taxes or tollway increases. Why isn't our elected officials doing their job and get funds from Washington? Road/infrastructure improvements should not at taxpayer backs. Definitely do not trust this administration with additional increases. License plates fees went up already, now the tollway? This is disgusting
07/19/26	Beth Holland	60051	X			X		X			Support	We need to maintain our infrastructure, especially bridges, and minimize traffic delays
07/19/26	Renee Banks	60504	X			X	X				Oppose	We are already taxed to death in this state! The tool roads were supposed to be free years ago! And yet, they just keep increasing. Enough is enough.
07/19/26	Charles Huntington Jr.	60459	X			X	X				Oppose	Tollways were supposed to become public freeway once paid for. Only contractors are benefitting from these rate increases. As a senior on fixed income I find it offensive that IL finds yet another way to increase the cost of living. Stop giving money to illegals and free loaders and put the money you already have where it truly belongs.
07/19/26	Kenneth Napodano	62985	X		X		X				Oppose	Toll should have been payed off a decade ago. Seems to be a cash cow the people have to support. Needs to have accountability, not just endless tolls and increasing tolls.
07/19/26		61013				X	X	X			Oppose	using your trip calculator for various routes from 1-90 entry point US 20 Rockford, the 2027 proposal results in a 62.5% increase, which is way out of line with any cost of living calculation

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/19/26	Marisa Marzec	60451	X		X		X				Oppose	The toll roads were put in place years ago to pay for road improvements. The tolls never went away, even after the improvements were completed and yet continue to skyrocket, making driving to work extremely unfordable. I am completely tired of the state of Illinois raking its residence over the coals and us getting nothing in return. Between taxes, tolls and gas costs and gas taxes, Illinois is becoming completely unaffordable to live in. With as much tax as I pay to this state, they can figure out a way to use my taxes that I already pay to pay for the road improvements that need to be done.
07/19/26	Mark Rissman	60541			X		X			Nothing. Reject this increase!	Oppose	You get too much money as it is!
07/19/26	Eric Pena	60639	X		X		X				Oppose	The Illinois Tollway says these higher tolls will help us get home faster and spend more time with our families. But for many of us, the opposite is true. If tolls keep going up, I'm going to avoid the tollway whenever I can. I'd rather spend an extra 20–30 minutes driving than keep paying more every day. The money I save can go toward groceries, my kids, or a family vacation instead of higher tolls. Making roads more expensive doesn't create more family time—it just creates another financial burden for working families. If you really want to help families, keep the tolls affordable so people can choose the fastest route without worrying about the cost.
07/19/26	Seth	61350	X		X		X				Oppose	Raises prices to raise prices is just dumb. Make it more transparent where the money is going.
07/19/26	Amanda Smith	60074	X				X			Affordability	Oppose	You all must be out of your minds to increase rates ONE HUNDRED PERCENT per toll on most of these tolls. SO MUCH FOR THE TOLLWAY BEING TEMPORARY UNTIL PAID OFF AND NOW YOU WANT TO RAISE THE RATES AGAIN AND AGAIN AND AGAIN IN THE FUTURE ?!! Absolutely RIDICULOUS!!!! INSANE!!!!! Can't barely afford the gas and tolls to see my family every weekend in Rockford and now ANOTHER INCREASE!!!!!! Absolutely not!!!!!!!!!! PLEASE do not do this. We are already being nickel and dimed on every other damn thing in our lives I'm begging you not to do it for this too. Please. Do not do this.
07/19/26	Keith Jones	60102-2531	X				X			Affordability again	Oppose	It is unbelievable that the tollway is proposing a rate hike at this time when gas is at a record high. I use the tollway when I can afford it but lately with gas so high I have to avoid it.!!!
07/19/26	John Williston	61087					X		X	Another Pritzker tax that only benefits Chicago the rest of the state doesn't have toll roads.	Oppose	Chicago can take care of there own roads l have a I-pass but will find alternative roads around your taxed roads. I don't use it enough that I can drive a little farther only one your going to hurt is tourism and the people of Chicago that need to use them to and from work. IT'S BULL
07/19/26	sergei saveliev	53713	X				X			More efficient budget spending rather than increasing toll fees	Oppose	
07/19/26	Amy Hoidas	60185	X	X			X				Oppose	Please do not raise the rates.
07/19/26	Henkel	60137				X	X			Safety of roads	Oppose	Tolls are high enough already. Attaching additional increases based on consumer price index is a terrible me idea which I strongly oppose.
07/19/26	Fred Zioncheck	60448			X	X	X				Oppose	Whatever happened to the infrastructure bill Biden signed into law?
07/19/26	William H Delisle	60464	X				X		X		Oppose	strongly oppose toll rate hike
07/19/26	Amanda C	60545		X	X		X				Oppose	Absolutely not! We already pay an unjustified amount for roads that aren't even maintained now. Our roads are worse than other states that don't even charge these toll fees. On top of the fact that we have annual plate registration fees too! What are all the fees we are currently paying even going towards????
07/19/26	Fred Zioncheck	60448			X	X	X				Oppose	What happened to the Biden infrastructure bill?
07/19/26	Belcore Deborah	60045	X				X			removal of tolls as promised	Oppose	Roads were paid for years ago. REMOVE THE TOLLS AS PROMISED. STOP SPENDING, start CUTTING all spending. NO NEW TAXES !! We are already highest in the nation in total state tax burden, and that's saying something!! Roll it all back:-(!!!
07/19/26	Daniel Cagney	60554			X		X			Safety	Oppose	With today's technology, there must be a way to ensure safety for Senior citizens. People drive too fast and too reckless. You never see police on I88. You also need a senior senior discount.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/19/26	Bartholemew Mckockiner	60050	X			X	X				Oppose	you have been taxing and charging for these roads for 30 years+. if you raise rates all individuals attached to this project need to be fired and prosecuted for mismanagement of funds.
07/19/26		60415			X		X			Affordability!	Oppose	It's already expensive enough as a constant traveler on the tollway!! Fix your ipass stickers first because they never work properly and I was get notices that my stickers don't get read! I already replaced my ipass stickers twice! The older ipass block worked the best! Stop trying to raise tollway prices all the time!! Do your annual budget and cut cost/spending on the things you don't need! Be conservative and smart with your investments!!
07/19/26	Anna	60441					X	X		Cost	Oppose	Tolls are high enough already. We pay enough in Illinois taxes overall.
07/19/26	Franklin O. Mina	60565	X		X		X				Oppose	
07/19/26	Don P	60081	X				X			Lower taxes so I don't feel the need to move to another state.	Oppose	I don't believe anything you say. Just another tax hike to be squandered as usual.
07/19/26	Mr Steven Ford	60126		X	X					More intelligent people using common sense and valid data to figure out where to add entrances/exits, to eliminate unnecessary traffic, example: I294/I290/I88 Spaghetti Mess (adding entrances/exits at St Charles Road Berkeley/Elmhurst Cities could stop Truck Traffic from all the Warehouses east of I294/I290 trying to get on I294/I88 north and south and west bound from doing loop/loop/loop on290/off290/on294/off 294/on88 etc. and all the other various combinations of those on/offs to get going in the direction in a Tollway they wish to go or are coming home and want to get off east	Support	I just hit my email on July 19th 2026 AFTER THE SCHEDULED MEETING for DUPAGE COUNTY!! If whoever is in charge can not email things out on time, how can we trust you people and vote for this?? I won't because you just showed all of us in DUPAGE COUNTY you are "STUPID and can not be Trusted just to send emails out on time, do anything more complicated is way too much for you to get it done right?!?!?!?!?!!
07/19/26	Rachel Earl	60502		X			X			Sinagewith the amount of toll written out with ample time to exit if the driver chooses not to pay the toll	Oppose	An increase at this time is more like a poor tax. Those that can nolonger pay for gasses and food will struggle to get to work on time if they can't afford the increase. Further financially destabilizing the poorest amongst us.

2026 Illinois Tollway Proposed Rate Increase

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/19/26	Andrew Schauer	61(48	X				X			Safety	Oppose	Tolls are too high. The state needs to live within its means and redirect funds from lower priorities to maintain roads without squeezing more cents from IL citizens.
07/19/26	Linda	60056				X	X			Find a way to cut bureaucratic costs	Oppose	There is so much waste with money collected from Illinois residents. Among other things, it seems like construction projects go on for years only to restart soon after something is finished. I don't believe a word of what the Illinois Tollway tells the public. I am sure there are ways to cut costs instead of always looking to the public, but those options never seem to be considered. This increase will significantly impact people's commute costs, but the governor and the Illinois Tollway don't care. I used to drive the tollway every day, and even though my job is still in the same location, I avoid the tollway whenever possible. Even for other trips, I would rather add a few extra minutes to my drive than give my money to the tollway. With another increase, I would definitely find other routes whenever possible. Vote no!
07/19/26	Lou Delliquadri	60423	X			X	X				Oppose	Average need is 2 billion dollars per year, toll increase should equal that not some 15 year projection that includes fat for a wrong guess.
07/19/26	Kyler Westerfeldt	53705	X		X		X				Oppose	You should have what you need as you additionally tax (unnecessarily) federal highway roads. I would exhort you to petition the Illinois government to decrease its spending and other ways they unnecessarily increase costs to give you spending you need. Overall, the tollway I believe is well maintained. Illinois' propensity to always increase taxes on its people and others instead of fiscal responsibility and limited government is not good.
07/19/26	Christine Alexander	60439	X		X		X				Oppose	The tolls are already too high and most of the work being done is unnecessary. The tollway board is also overpaid with no oversight
07/19/26		6062	X		X		X				Oppose	The economy is rough right now.
07/19/26	Sam Pope	61114					X	X		The need to eliminate wasteful spending	Oppose	Excise middle management and above.
07/19/26	Shannon Buckley	60491			X	X	X				Oppose	An increase in tolls will serve to increase barriers for access to the roads. A 45 cent increase is astronomical and is disproportionate.
07/19/26	Richard Cronborg	60044	X		X					Work for Operating Engineers	Support	Keep Illinois safe!
07/19/26	Christopher Markos	60048	X		X		X				Oppose	I am strongly opposed to raising the tolls across the board, by 50% in some cases. This is more than 10x the rate of inflation. As a lifelong Illinois resident, funding for roads should not only come from tolls, but from other state revenue sources as well, such as all of the taxes. This would be a significant cost increase for people that commute to work daily using the toll roads. We can and need to do a better job of managing costs to citizens by being more fiscally responsible as a state.
07/19/26	Bryan	60062			X		X			Less Tolls	Oppose	Absolutely NOT! Enough with the taxes!
07/19/26	Gina	60018	X				X			No tolls	Oppose	
07/19/26	Edwin Appel	60108	X			X	X				Oppose	In the Sustainability statement the goal is to financially make Tollway use affordable. How exactly is raising the toll rates by close to 30% achieving this goal? In the last 20 years I've seen highways rebuilt time and time again, toll stations expanded then abandoned and now the thought is to raise the toll rate? The Tollway is nothing more than an investment opportunity and this seems to be the latest method of making more money for the investors/stakeholders. Sad.
07/19/26	Bill Davidson	60614					X		X	Fewer tolls	Oppose	By what authority does a committee that was not elected, have to increase the tolls on a Federal Hghway without consent.
07/19/26	Bill Davidson	60614					X		X	No costs	Oppose	An unelected state committee does not have the airoriry to increase tolls on a Federal highway
07/19/26	Raghu	60053		X		X	X				Oppose	
07/19/26	GK	60093	X		X		X				Oppose	Stop Illinois Governmental Fraud which is in Billons Of dollars. Thankyou for
07/19/26	Eva Kramer	60030			X	X	X				Oppose	We already pay enough in taxes. The average American can't afford to work due to all the extra fees we have to pay.
07/19/26	Amanda Collins	49460	X				X	X			Oppose	I will travel as little to Illinois as humanly possible. We left the state due to unreasonable tax rates and now you're robbing people even further.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/19/26	David Kruse	60172	X				X			I avoid tollways as much as I can	Oppose	Stop raising rates. Toll road prices go up and nothing ever really gets completed
07/19/26	Sandra Araujo	55016	X			X			X		Oppose	Guess I will find alternate routes and stop going to Chicago to spend money.
07/19/26	Ed	60629		X	X		X				Oppose	Traffic is worse. You guys don't make shit better. All you do is put more money in your pockets and you aren't fooling anyone. You're trash at fixing roads are too lazy to make repairs at night. We're just as well off with out you thieves.
07/19/26	Joseph rosnett	61877	X			X			X		Oppose	Absolutely criminal!
07/19/26	Friedemann Gilde	60415	X				X			no toll increases	Oppose	The curent roads should be maintained. No toll increases to justify your bloated workforce and lack of competitent employees.
07/19/26	Jeff	60438				X	X			Making choose 3 is a scam, forcing the answer to be able to be taken either direction!!	Oppose	This is BS, maybe have a better bidding process for construction!! Having 2-3 companies making 100's of millions of dollars seems unethical. Tolls are already expensive, this will drive up the cost of all goods purchased in Illinois not just the toll road consumers. Use tobacco and alcohol taxes for legitimate reasons, they sure aren't going to the schools that are always broke and maybe you wouldn't need to keep ripping off the people paying all your salaries
07/19/26	Holly Conroy	61115					X	X		Less costs permanently reduced tolls	Oppose	Illinois already pays way more than can be afforded, I don't support this increase and condemn it. This isn't what any Illinois resident wants with how incompetent the Illinois Toleway and all fees are this is unsustainable and should be canceled.
07/19/26		60617			X		X			none	Oppose	every reasoning to raise the toll is a LIE. This state has more than enough to work on things but it is spent selfishly. UNACCEPTABLE!!
07/19/26		60188	X			X	X				Oppose	The amount of the pay increases is excessive. I already live near the most expensive (and shortest) toll road-the 390. This increase would make it a road for only the rich and not for the average middle class citizen. At a time when most are struggling to pay for groceries and gas, the state of Illinois is recommending a pay increase just to drive our toll roads to get to/from work. Politicians need to work harder to get things done with the budget they have and stop asking for more money
07/19/26	Don	60010				X	X			We should be looking to eliminate tolls, not increasing them!	Oppose	The tollways were never meant to continue to have tolls after being completed. Tolls should be eliminated completely. Short of that, we should be looking to lower tolls significantly and not raising them. And revenue from tollways should never be used for other programs.
07/19/26	John Doe	60607			X		X			Rid the corruption stealing the money	Oppose	Quit steeling the peoples money enough is enough everyone politician involved should be in prison for larceny and extortion
07/19/26	Karen E	60073	X		X		X				Oppose	I thought the tollway system was supposed to be a temporary solution. If our politicians could budget better there would be no need for toll and especially not an increase! Shameful!!
07/19/26	J cullen	60134	X		X		X				Oppose	I totally oppose this tax increase. Good roads are necessary. Please build and maintain the much more efficiently.
07/19/26	Daniel cole	60156	X				X			No construction	Oppose	Stop fucking raising prices when your roads are absolute horse shit
07/19/26	Brian morgan	60177				X	X			No tolls is most important	Oppose	I feel that this commitment is too much money and very limited on economic investment.
07/19/26	Dave Cell	60448			X		X			Should be free by now, at least for those told so many years ago !	Oppose	I have been in Illinois a better part of my entire life (some 50 years)... I believed the promises in the past regarding "pay tolls would pay for original projects and thus would be free thereafter"..... I believe these roads have been paid for many times over now!!! Either thru overpaying or corruption, we are still paying... maybe anyone 55-60 years old and in Illinois for so long; should get to ride these roads for free now , or at least say 3/4 % off...?... Until then, you should have very little congestion , because many of us use other roads to save a lot of many; even if you take into consideration any other costs of doing so !!! Please review this and other such proposals more deeply, to really save any money possible !!! Thank you for your consideration of this most important opinion on this issue !!!

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/19/26	Therese osullivan	60525	X				X	X			Oppose	I strongly oppose the proposed rate hikes. Our tolls are currently outrageous, with the increase from January already adding a significant cost to transportation costs for commercial vehicles. All these costs are passed down to the consumer at the end. It is unbelievable that it is proposed to make it even more expensive to utilize our transportation infrastructure. Tolls were supposed to be abolished decades ago. Stop making Illinois more unaffordable. Wisconsin and Indiana operate expressways without more tolls. Driving the cost of using the expressway will force more people onto side streets to avoid the cost. Our sales tax is already increasing as well to pay for Illinois inability to manage funds
07/19/26		60610			X		X			Stop wasting everyone's money.	Oppose	Absolutely insane that there is only ever increased costs and never a discussion about ways to save money. Government needs to work for the people not the other way around. Fiscally irresponsible to continue to saddle people with more costs with no benefit.
07/19/26	Samuel Dunbar	60618-9124	X			X		X			Support	As a frequent tollway user, I support the increase to maintain the road. In fact I think there should be an additional increase with that money funding electric rail in our state.
07/19/26	Ed	60148	X			X	X				Oppose	You people have had a unfiltered tap on my credit card. Manage your money better, I have to.
07/19/26	Theresa Young	61101			X		X		X		Oppose	No more increases
07/19/26	JORGE E HURTADO	60440	X		X		X				Oppose	I oppose the increase. We already pay alot to use the system and cannot afford higher rates.
07/19/26	Matt	60002				X	X			Do not increased tolls, work to eliminate them.	Oppose	Pinching every cent out of us. All the tolls and gate taxes are a joke. This is one of the many reasons people are leaving the state. Other states have no tolls and have better roads than Il. Figure it out.
07/19/26	Maria orr	60451	X				X			No tolls would be better	Oppose	My spouse and I already spend thousands every year in tolls.He is in construction. Has no choice but to go wear the work is. Is insane how high tolls are! Stop killing us with taxes! N
07/19/26	Daniel Hudak	60638	X			X	X				Neutral	The project is massive in money and time. The history of past projects in Illinois is massive cost overruns, blown completion dates, and poor quality of construction that fail before the expected life. The tollway users need to be protected against all these calamities. There must be strict oversight and inspections of the work being done. There must be tight cost control. Contractors have to be held to the strict specifications in the contracts. If they fail they do not get paid. It is not the Toll Authority's money being paid out, it is the toll users who are funding this project. It must be done right, under budget, and on time.
07/19/26	Margie	60477			X		X			Accountability of funds	Oppose	Money from The Road Fund was to be used for highway construction, NOT for public transportation.
07/19/26	Bill Negarti	60064	X			X	X				Oppose	What about public meetings. Our newspaper would love to attend that, rather the read the results of a random survey that your minons could flood the data to create a "halo" effect. I am one of the old-timers that remembers when this was a temporary toll, and your state treasurer was fired or paying off the debts too quickly. Instead it became the money-making cash bucket that it is. The thing is constantly under construction, you just finished kinda the O'Hare area, and now the rest is deteriorated? Why provide a liveliehood for your union friends like Berger, HR Green, and do service to the users?
07/19/26	Ryan Gilbert	61021	X				X			Balance between system priorities and consumer costs	Oppose	Our costs are already substantial with the gas taxes, registration fees, etc. I am fully against this big of an increase in tolls and against automatic adjustments for inflation. The toll system already does well in managing finances, a proposal this large is unnecessary for the toll infrastructure.
07/19/26		61244	X				X		X		Oppose	
07/19/26	Nancy Spencer	61285	X		X					Less debris in roadway	Support	I'm glad to support current and future projects for the betterment of our roadways. I don't mind paying more.
07/19/26	Pawan Soni	60563	X		X		X				Oppose	Illinois has way more toll points compared to any other state. The worst traffic is not because road conditions are not good, but because of never-ending construction.
07/19/26	Edward Shogren	60102	X		X		X				Oppose	If you raise the rates as described, I will do everything I can to avoid driving on any of the Illinois tollroads. I thought originally you were going to end the tolls once the tollways were constructed. Now you just find reasons to increase them more.
07/19/26	Victor M Mendoza	60087	X	X			X				Oppose	Things are already expensive we cannot afford more

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/19/26	John Dawn	60068	X	X			X				Oppose	Tollways originally were based on tolls being eliminated after a period of time - need to eliminate tolls on older toll roads as promised. People rely on roads to get to work and need their money.
07/19/26	Rex	60441		X	X		X				Oppose	
07/19/26	James Spillson	60056	X			X	X				Oppose	We are taxed to death in Illinois. Maybe it's time to start asking the state for money for our roads. They collect a ridiculous amount of taxes from residents and should start spending it to help us instead of the countless things they're wasting it on today. No more increases.
07/19/26	Sylvia Schafer	60013	X				X		X		Oppose	Tolls were never supposed to be permanent. Instead, those in charge have robbed the public for more and more money. Control the spending and stop using tax-payer money as a slush fund
07/19/26	Leo	60107				X	X			Speed	Oppose	The increases have gotten WAY out of control. Massive price increases for taxes, tolls, etc is why everyone is leaving the state, and then you tax and increase prices on the people who remain behind. Remember when the toll way was started and they said that once the bonds were paid off the toll booths would be removed? You need to stop the insanity. I already avoid certain stretches of toll roads out of spite because I refuse to pay the tolls even if it takes me 5 or 10 mins longer.
07/19/26	MATTHEW SENG	62837				X	X		X		Neutral	I believe the tollway authority is asking for too much and should consider a smaller increase.
07/19/26	Lorena Gonzalez	60097	X		X		X				Oppose	Tollways are already expensive. Increasing it is ridiculous and not for the people. Have the rich pay for it and not the working class
07/19/26	G P Ryan	60156	X				X			Inflationary proposal!	Oppose	The toll funds have been diverted to too many other accounts and have not been protected for their proposed use. The unprotected increase is initially too high. Consumer price index should be the increase basis from beginning to end.
07/19/26	Sharon	60016	X				X		X		Oppose	People of Illinois are already paying enough in tolls. When I was younger tolls were to be temporary. How much more is Illinois goin to rip residents off? Crooked state and politicians giveth but are sneaky finding other ways of getting my money. You can't even deduct on income tax any more unless you own a business. Totally oppose this hike!!!!
07/19/26	Mike Giovingo	60558						X	X	None. Illinois toll roads are expensive and terrible.	Oppose	This is ridiculous. It's just another Illinois ridiculous increase in cost to the tax payer that's being advertised as helping us. Spend your money better! Other states do!
07/19/26	Billy Hearth	60490		X				X		Only option without taking side streets	Oppose	Enough is enough. Remove spending to fund improvements.
07/19/26	Robert Pazik	60613	X				X		X		Support	The intent for the increase is to maintain conditions with improvements as needed. I'm in.
07/19/26	Paul Zoltowski	60441-6267	X				X			Different imposed speed limits for trucks , buses, and cars cause hazardous conditions.	Oppose	Enough is enough,
07/19/26	Scott Lang	60134	X				X		X		Oppose	
07/19/26	Anthony gault	48328	X		X		X				Oppose	Prickster and Pastor/Mayor Johnson need more money? I-94 from the Wisconsin boarder all the way to Michigan has always been a shot show, always under construction yet never gets better.
07/19/26	Joanne Bakas	60540	X			X	X				Oppose	I received the email today 7/19/2026. The public hearing for DuPage is/was scheduled for 7/15/2026. A little late isn't it? I oppose the rate increases. Many of the items identified under this proposal seem routine/maintenance type items. This is a money grab when your users can least afford it!
07/19/26	Tom mukite	60411	X				X		X		Oppose	You're pricing middle class people out of driving on our own roads! This is an insane jump.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/19/26	NMK	60431	X		X		X				Oppose	The problem is not that more money needs to be collected. Sure, the price has not changed for a long time, but the amount of traffic on the toll roads is at an all time high. They have plenty of money for upkeep and expansion. The problem is the money is misused and used for corrupt purposes. Fix this problem with controlled spending. Not making people who are already struggling to pay more money to get to work.
07/19/26	Karen Babos	60047	X		X		X				Oppose	Spend money appropriately, don't increase tolls.
07/19/26	Andrea King	60013	X		X		X				Oppose	The prices are already too high. It would appear there is poor management of tool funds currently
07/19/26	Ben	60586	X		X		X				Oppose	
07/19/26	Eric Haenisch	60554				X	X			Had to answer	Oppose	NO RATE INCREASE. I'M ALREADY TAXED ENOUGH.
07/19/26	Chuck Zinda	53507	X			X			X		Neutral	I have been using the tollway since 1980, mostly passing through to the East Coast. Major congestion has always been an issue, with very few options to get around. I don't mind the toll increase, as long as I can see an improvement. The information posted on this project is very limited and I hope there will be more details, so that I can try and plan a route in the future. At least my cousin moved from Berwyn west to Minnesota, so that trip has eased considerably! I would also like to see some speed control built into the redesign, as I think this is a major cause of the stop and go traffic. I saw a system in England, where they use electronic signage to change the speed limit based on time of day and traffic flow. This is probably not possible with Chicago drivers!
07/19/26	Jeremy	60193					X		X	Leas government overreach.	Oppose	Illinois needs to confront spending and stop taxing and over-regulating business. Start with Crook county
07/19/26	Hugo	60609	X		X		X				Oppose	I respectfully oppose the proposed Illinois Tollway rate increases and the plan to implement automatic inflation-based toll adjustments. For many Illinois residents, toll roads are not a luxury—they are a necessity. Commuters, workers, small business owners, and families rely on the Tollway every day to get to work, school, medical appointments, and other essential destinations. Another increase in toll rates would place an additional financial burden on people who are already dealing with higher costs for housing, groceries, insurance, fuel, and other everyday expenses. I am also concerned about the proposal to automatically increase tolls based on inflation beginning in 2029. Future toll increases should not occur without public review and accountability. Illinois drivers deserve the opportunity to provide input before being asked to pay more, rather than having increases happen automatically. While I understand the importance of maintaining and improving our transportation infrastructure, I believe the Tollway should first demonstrate that existing revenues are being used as efficiently as possible and explore additional cost-saving measures before asking drivers to pay more. Large capital projects should be carefully prioritized to ensure they are necessary, cost-effective, and provide meaningful benefits to the public. I urge the Illinois Tollway Board to reconsider this proposal, seek additional efficiencies, and explore alternative funding solutions that do not place such a significant burden on the people who depend on the Tollway every day. Thank you for considering my comments.
07/19/26	John Sagun	60026	X		X		X				Oppose	Strongly opposed. Toll rates are already expensive!!
07/19/26	Anthony Brzezniak	60090	X				X			Build toll booths on the Dan Ryan and Eden's instead of increasing rates	Oppose	Originally they were to remove tolls but failed. Build tolls on the Dan Ryan and Eden's expressways to spread the tolls to other communities that never have to pay
07/19/26	Shari Seilheimer	60060			X	X	X				Oppose	Illinois pays too much for everything right now. The money you need is there, you just have to pry it from a politician's pocket. Tolls were supposed to be temporary. Manage your spending and you won't need more money from the citizens of Illinois.
07/19/26	Maxwell persak	60439			X	X	X				Oppose	I am a student who commutes daily because I already can not afford to live on the campus of my school. Doubling my cost to get to school would hurt me in so many ways

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/19/26	Danny Roger Kawzinski	46404	X		X		X				Oppose	YOU HAVE STOLEN ENOUGH FROM US OWNER OPERATORS. 30% MORE ON THE ALREADY INSANE PRICES YOU CHARGE? NO. HELL NO. YOU CANNOT STEAL MORE OF MY MONEY FOR ANYTHING. NOT ONLY WILL I STOP USING IT I WILL BOYCOTT ILLINOIS WHERE EVER YOU TRY TO CHARGE ANY MORE. YOU SHOULD NOT GET WHAT YOU ARE STEALING. STOP FUNDING UNION WORKERS AND SAVE US ALL SOME MONEY.
07/19/26	Ann Creedon	60544-6333			X	X	X				Oppose	Are you kidding me?? Why isn't there a discounted rate for senior citizens?? All we get for living in Illinois is raised taxes & construction every where on our roads! This is ridiculous! No wonder people are fleeing Illinois!
07/19/26	Alex Martinez	60521					X	X		More public transportation (there should be more frequent buses or trains through these areas)	Oppose	
07/19/26	Josh Schmidgall	61755	X				X			NO FEES	Oppose	What do you do with all the stolen money now!? It's laughable how much you steal from us and act like you care by asking us how to spend our money. Blow it on "engineering fees" like all politicians do.
07/19/26	Rhiannon Urso	53144	X	X		X					Neutral	I mean I don't drive it all the time so I don't really care
07/19/26	steven demerer	60714			X	X	X				Oppose	
07/19/26	Chris	60018	X				X			Safety	Oppose	
07/19/26	ms nomore	20171	X			X	X				Oppose	Illinois needs to learn how to provide government services efficiently. The entire state, including the toll road, has declined under Democrat government control. They don't know how to deliver basic services efficiently without the corruption. I do not wish to use the toll road ever again. I am glad I left this corrupt and incompetent Democrat-run state a long time ago. It has only gotten worse.
07/19/26	Mary Maillard	60060	X	X		X					Oppose	The increase is too much. $0.15 increase per toll is more reasonable. A yearly increase is unacceptable. The proposed increases will force drivers to take local road s which will increase congestion.
07/19/26	Jennifer Johnson	60402	X			X	X				Oppose	I do not like the automatic increase every two years being written into the bill. 45 cents now becomes a dollar increase without discussion on the next scheduled increase. Only the rich will be able to afford it. The state doesn't care if I can spend more time with my family. If this passes, I will take the extra hour on the side streets to avoid paying tolls.
07/19/26	Jenny Berman Ross	60060				X		X		Connections to local roads where traffic actually moves.	Neutral	I drive from central Lake County to near O'Hare and back most weekdays and occasionally into Chicago and back. Traffic is always terrible and I cannot use public transit to get to work because the O'Hare transfer Metra station was designed to not connect up with local transit. I routinely get off the tollway onto roads that look like parking lots and have for over 30 years. Some evenings it takes 30 minutes to get onto 294 North from 90E near O'Hare. My other option is to take 90 to 53 and take my chances in the bumper car merges through the poorly marked and ever changing lane alignments through the never ending construction zone. The idea that there is any plan or will to improve any of this is laughable as is the idea that you, IDOT or Lake County DOT will ever do anything that will make my commute time more predictable or make my commute better. I would be OK with the fact that driving was such a terrible experience if anyone involved had ever made an effort to make public transit a better alternative but no - the options around my house and workplace are terrible. I understand why you didn't build the 53 extension into Lake County but still can't believe that no one thought they would need an alternate plan. Every time I drive home from work, I regret my decision to move to Illinois and buy a house here.
07/19/26		60046	X			X	X				Oppose	
07/19/26	Jordyn	60083	X		X		X				Oppose	
07/19/26		60067	X		X		X				Oppose	NO MORE NEW TAXES!!!!!

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/19/26	Kyler Giampaoli	60148	X		X		X				Oppose	
07/19/26	Tadas	60137					X		X	No tolls	Oppose	Abolish tolls!
07/19/26		60426	X				X		X		Oppose	Why are these fees not covered by IDOT we the tax payers always get stuck funding these projects are tax dollars is supposed to cover
07/19/26	Mike	60016	X		X		X				Oppose	Expensive enough
07/19/26		60467			X	X	X				Oppose	This announcement is extremely ill-timed and insulting when so many middle- and lower-class residents throughout the state are struggling to afford anything in the current K-shaped economy in this country. Prices for goods and services are sky-high, inflation remains elevated, and gas and oil prices continue to spike because of U.S. conflicts in the Middle East. It no longer makes sense to continue to tax Illinoisans to rebuild and maintain roads when people can no longer afford to even buy a car, so many people have lost their jobs through mass layoffs and remain unemployed for six months or longer and are locked out of the current job market because of the current "no hire, no fire" environment, fewer people are commuting to and from jobs due to the rise of hybrid and remote work options coming out of the pandemic, fewer people can afford to even take any road trips, more roads and aging infrastructure will likely become more damaged over time because of accelerating effects of climate change, and the cost and estimated time of construction projects always spiral out of control and take decades to complete. The General Assembly in Springfield should provide funding for Tollway projects in the state's annual budget going forward.
07/19/26	Cole	60548	X		X		X				Oppose	You are all retarded if you think raising more shit in Illinois will fix it, lower your salaries and serve the people
07/19/26	Rullo	60174	X			X	X				Oppose	No!
07/19/26	Gerald Miller	61874	X			X	X				Oppose	IL continues to have some of the worst road conditions anywhere. We have some of the highest gas tax in the country. Give me a detailed list of where all the current taxes go before you add an additional tax burden to IL drivers. Maybe you need to stop the hi level corruption and spending on non citizens and that would give you the moneies needed for necessary things that actually help IL residents. Simple economics and yet you don't understand why the state continues to lose residents/businesses.
07/19/26	Jacob Toth	60135	X	X	X						Support	As a member of IUOE Local 150, I support the Illinois Tollway's Driving Connections Capital Program. These investments help maintain and improve the roads and bridges that millions of people rely on every day while creating opportunities for skilled construction workers
07/19/26	jeff wiszowaty	60056			X		X			I want to keep my money in my pocket and stop giving it to this corrupt government.	Oppose	Nope. Not getting another dime out of me. I have had it with this shithole state and robbing the working class blind.
07/19/26	Kimberly D Deschamps	60025				X	X			Clear direction signs	Oppose	This is to much too fast. Right now everything is going way up & this adds to making travel way to expensive.
07/19/26	Mark	54401	X		X		X				Oppose	If this passes I'll take an alternative route to avoid the tollway.
07/19/26	Jonathan OBrien	61265	X			X	X				Oppose	Illinois is in a financial crisis and you want to suck more money from the people who can afford it. Absolutely not
07/19/26	Gary Teune	60641	X				X		X		Oppose	Toll free in 73!!!!!
07/19/26	Vincent Nylin	61254	X				X			Stop ripping us off!	Oppose	Why stop at .45 cents. Why not make each toll $20 dollars, you could build a super tollway! This is getting ridiculous. Maybe if your people quit sleeping in their trucks and the state quit stealing the money you wouldn't have to do this.
07/19/26		49083	X		X	X					Neutral	Who owns the Illinois Tollway
07/19/26	Heather Beaman	60505	X		X		X				Oppose	Toll Booths bring in thousands upon thousands of dollars PER SHIFT and there is no reason, other than frivolousness, that the roads can't be maintained within this budget.
07/19/26		60061		X	X	X					Oppose	We already pay enough in taxes in the state of Illinois. Please leverage the tax payer funds that we are already committed too.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/19/26	Robert Kazan	60523	X			X	X				Oppose	State Of Illinois should pay for this, rather to add which amounts to another tax to car owners. How about eliminating tolls entirely like states that are fiscally responsible.
07/19/26	Katie	60631	X		X		X				Oppose	Absolutely not. This increase is absurd. Find a different way - out of state drivers using our tollways can pay more. Stop raising and penalizing Illinois residents. Enough is enough.
07/19/26	N Y Bizznezz	60025	X				X			Not giving my hard earned money to pirates.	Oppose	Just another boondoggle that when I was a kid was supposed to be "only until it pays for itself". I'm 67 years old and its more expensive than ever.
07/19/26	Rick	61111	X		X		X				Oppose	Heck no. Way too much money. The tollway should have been done years ago. Ripping people off
07/19/26	mike	60408	X		X		X				Oppose	this is a complete joke. We have some of the worst roads in the country, yet Illinois continues to waste money and take money from other subsidies to fund the highways. When does the waste stop?? Enough is enough. No more tax increases and no toll increases
07/19/26		60026				X	X			TOLLS MUST END!	Oppose	As originally enacted, the Illinois Toll Highway Act contemplated toll financing as a temporary mechanism, requiring that upon retirement of all bonds and obligations, the toll highways be transferred to the State highway system and thereafter maintained and operated free of tolls (605 ILCS 10/21). TOLLS MUST BE ENDED NOT INCREASED!
07/19/26	Kevin Bonilla	60623	X		X		X				Oppose	How is this more affordable by increasing the costs on Illinoisans exactly? On top of that, is it really a smart idea to increase costs in what could be one of the most expensive times to live in right now?
07/19/26	Nels Lopez	61920	X						X	Safety!!!! Speed Enforcement!!!	Support	Enforcement of speed limits and higher tolls are warranted
07/19/26	John	60120				X	X			Cheaper tolls	Oppose	A long time ago the tolls were supposed to stop altogether. That promise was broken. Now you want to raise the tolls. The regular citizen just trying to get to and from work will be priced off the tollways onto regular streets increasing travel times. Officials in charge of this are not thinking of the regular citizen.
07/19/26	R D	60450			X		X			Come on no price increase everything keeps going up and up how about a break	Oppose	I'm sorry I know things need to be adjusted and road maintenance but sorry this is not the time to increase the tolls Might be better cutting waste and higher pay benefits in the front office and go from there.....
07/19/26	Lloyd Thomas	60409			X	X	X				Oppose	I already pay $80 a month in tolls. This is highway robbery, no pond intended
07/19/26	James	60187	X	X			X				Oppose	
07/19/26	Linda Cox	60452					X		X	Biden already funded billions for roads	Oppose	This is horrible! People have to use the tollway daily to go to work! This will strain drivers even more in this economy!
07/19/26	Bob adams	60068					X	X	X		Neutral	30% you must be on another planet! Get down to earth,10%.
07/19/26	Kyle	60151	X				X			No fees	Oppose	Tired of this state charging and taxing for every little thing. Get your funding in order. Other states have better roads and no tolls. Figure out how they do it and maybe you guys can get your shit together.
07/19/26	Kenneth Jones	64850	X		X	X					Oppose	Seems excessive, it won't impact me so much, as I'm not a daily commuter. Consider the impact of the daily driver, and overall impact of approximately 20%, + the annual increase. The hardships are somewhat inconceivable, the daily cost will cause most drivers to cut back on other necessities in order to afford transportation costs.The cost of fuel has skyrocketed. The Average family will be adversely impacted! I would propose a 20-25 cent upfront increase, & perhaps a 1% additional cost increase on an annual basis, in addition to the annual cost increase, that is already planned. It would be easier for the common man/woman to absorb. Thank you for considering other thoughts! Good luck & God Bless! K. C. Jones In God We Trust!
07/19/26	Frank Zhang	60004	X		X		X				Oppose	Toll already high
07/19/26	Jeremy Burris	60545	X		X		X				Oppose	No additional increases. We pay enough. If you want support to increase toll costs, work with Springfield to reduce gas taxes or other related expenses.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/19/26		60175			X			X		More police on the roadway	Oppose	You start projects here and there without completing them. I see areas with construction and no workers for months. You do not spend the money we give you wisely. Therefore, I oppose it.
07/19/26	Marge	60467	X	X			X				Oppose	If the tolls increase I will find other ways to travel to avoid them, even if it takes me longer. It is already ridiculous how much our tollway system costs to use. Just driving from my house to the Wisconsin border pulling our 1 axel trailer is over $30 each way. It is just no longer affordable.
07/19/26		60068	X		X	X					Oppose	
07/19/26	Cyrena Peden	48315	X		X		X				Oppose	I am not in favor of raising to rates on the Illinois roads. More than enough money is collected from tourists already traveling up and down the toll roads no need to charge more for that. I'd like to see the residents of Illinois share in the costs of the toll roads also since they travel them more than tourists . It only makes sense for residents to share in this costs. Thank you
07/19/26	Nicholas higdon	61109	X		X			X			Support	I have been an IUOE Local 150 member for 21 years and live in Rockford. I regularly use the Tollway system and understand how important these investments are to our communities, our economy, and working families."
07/19/26	Yahia Mohamed	53154	X		X				X		Support	I support it.
07/19/26	Marzano	60439				X	X			No other comment	Oppose	Seniors cannot absorb all these increases. People of all ages are fleeing IL because of ridiculous unreasonable taxes and rate increases.
07/19/26	Janet Snyder	46311	X		X		X				Oppose	with everything going up, I do not want the tolls to go up that high. I could deal with 10.00 but this proposed hike is too high. I thought the lottery and casinos were suppose to support the roads.
07/19/26	Kari Downey	60014	X				X	X			Oppose	There is adequate income between current tolls that long have paid for roads, and tax dollars. We can't make it cost even more, along with inflation on everything, this is too much of a jump in expenses. 5-10 cent increase...fine but this is too much!
07/19/26	Jeffery A Brandes	60135	X	X						As a member of IUOE Local 150, I support the Illinois Tollway's Driving Connections Capital Program. These investments help maintain and improve the roads and bridges that millions of people rely on every day while creating opportunities for skilled construction workers.	Neutral	
07/19/26	John Carbery	60189	X			X	X				Oppose	When does it end for the citizens of Illinois? The Tollway system took in $120 million per month in 2024 of $1.44 billion annually. The toll roads cover 300 miles of highways. That means every year we are charged $4.8 million per mile. You can't manage on $4.8 million per mile? I know when I take the tollway there are miles and miles of road that is not being worked on. That represents more than enough to pay wages and maintain the roads. I oppose a toll charge increase.
07/19/26	Jeffery A Brandes	60135	X					X	X		Neutral	

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/19/26	Chris Jachcinski	60563-5321	X		X	X					Oppose	First off, I didn't receive your email till 7/19 and the public meeting for DuPage was 7/15. If this reflects the reliability and trustworthiness of the Tollway Authority, then by definition I oppose the toll increase. That said, I see/hear a lot of talk about what you're going to do with the extra money but nothing solid is presented. Before I could consider supporting this proposal I would want/need to see a detailed accounting of what you've done/are doing with the tolls you currently collect and then another one showing the same if/when your proposed tolls are enacted.
07/19/26	Anna Crane	60181	X					X		Drivers not speeding	Oppose	I rarely use highways with tolls. I would prefer a safe bicycle routes to get from suburbs to Chicago; Really safe and continuous routes. More pedestrian friendly neighborhoods. Highways are used way too much.
07/19/26	Rivk	60439			X		X			Tax monger	Oppose	Let’s raise more taxes , that’s al baby pants done because he doesn’t cut all his spending. Nitwit.
07/19/26	Jim	60439	X		X		X				Oppose	Your rate increase represents a 58% increase and is significantly higher than the federal indexes. Not a fair increase at all. Please reconsider to an increase that falls in line with the CPI. Thank you.
07/19/26	Jeffery A Brandes	60135		X					X	This program represents a smart investment in our state’s future. It will strengthen transportation infrastructure, reduce congestion, and support economic growth throughout the region.	Neutral	
07/19/26	Randy Schultz	61088				X	X			Remove the tolls	Oppose	Wasn't the tollway suppose to be free a few years after it started up
07/19/26	Greg Davis	60452	X				X			Traffic enforcement is random and unfair in this state because nobody is actually doing the speed limits on our highways. In some cases if you don’t drive fast enough you have people who become very enraged.	Oppose	We have seen historic price increases in this country and in this state over the last 6 years and we simply must find other options to fund infrastructure projects besides asking or making us pay even more. Sooner or later this house of cards will crumble and it will be because legislators have only one solution, raise taxes and raise fees. A healthy society has 3 classes, low, middle and high and we are watching the middle shrink down to nothing. Please don’t!! State citizens don’t share many of the the benefits and perks enjoyed by state officials.
07/19/26		60515	X		X	X					Oppose	DO NOT DO IT!
07/19/26	JAMES ARIAGNO	60586	X				X			accountability	Oppose	This proposal is contrary to the initial tollway construction proposal that fees were to be temporary. And with the built-in bi-annual increase, this cost will never end and continue to increase overtime without further legislative action. This is not in the best interest of the users and citizens of Illinois. It continues that which was established by the general assembly when it established the ever-increasing gas tax without further legislative action. The members of the general assembly should be held accountable whenever they decide to increase taxes.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/19/26	Leon Lake	60031			X		X			Stop wasting our dollars for your benefit.	Oppose	Rates just went up this year. Stop deferring our tax dollars to Chicago and the politicians pockets. This state is driving more and more people out of it. His will just cause people to divert around the tolls and add to the traffic in the towns. There has been construction on 294 for years and it seems like it will never be done. Now you want more money? Absolutely not!
07/19/26	Brian Melton	60142		X	X	X					Oppose	When the tollway system started in the late 60's, we were told that in a few years, there would be no more tolls. Now 60 years later, after numerous toll increases, you want to increase tolls by 100%! Also, there is no way to check if one is being charged the correct amount with the present system. I suggest, cutting admin and professional staff instead of raising tolls when inflation is taking its toll on most citizens!
07/19/26	Maribel Saldua Vargas	60124	X				X		X		Oppose	I live in Elgin, Illinois and commute to Arlington Heights, Illinois. I make 14 dollars an hour and spend too much on tolls. It's ridiculously priced.
07/19/26	Jason Dessenberg	46307	X		X		X				Oppose	Illinois is a mismanaged state that spens way more money than it spends. This is nothing more that a money grab for the LARD ASS GOVERNOR JB. I would be opposed to a small increase but the tollway and the state can go FUCK THEMSELVES. If the state build the roads right the first time instead of redoing them. Then in six months you are tearing shit up for one reason or another.
07/19/26	Quince	60162	X		X	X					Oppose	We shouldn't be funding anything.. the present tolls weren't supposed to be permanent
07/19/26		44087				X	X			Efficiency and less time with Dad's playlist	Oppose	We drive 3 hours on the turnpike every month from Cleveland to the west end to go take care of my grandparents. Growing up, the tolls were expensive enough Mom and Dad would spend over 30min extra on the road and take alternative routes. I still carpool with them to make the trip more enjoyable ... PLEASE don't subject me to longer road trips with Dad's playlist by increasing the tolls. Plus, there's already more than enough road construction ... seems like every few miles it's down to two lanes and going super slow. Really frustrating.
07/19/26	Nancy	60411	X				X		X		Oppose	If the roads were constructed better initially, they would last longer. And as experts on evaluating this increase have stated,, those commercial increases on trucks transporting our goods, will be passed on to Illinois residents. So we pay more to travel on toll road and will also pay more for our products. Thanks Illinois.
07/19/26	Bob Ptak	61081					X		X	More signage for Scott's Law.	Oppose	As a tollway user for the past 50 years, I understand the need for improvements and also understand that interstate users should share in the cost for improvements. What I don't understand is the high amount that users will have to pay. A lower rate would benefit many seniors that still use the interstate system. Many will now need to switch to 2 lane roadways making it a more dangerous driving experience. Please consider a lower raise in the toll.
07/19/26	Mike Horvath	60101					X	X		No increase in tolls!!	Oppose	Another money grab by the State of Illinois. Tolls were supposed to be abolished years ago. Construction never stops on the tollways. It's programs like this that make Illinois look bad. Contractors keep the politicians stuffed with campaign contributions. What a joke.
07/19/26	sophie jarzab	60656	X	X	X						Oppose	It's already a high toll price and should not be increased. Where did all this money go??? STOP STICKING CITIZENS WITH LESS IN THEIR POCKETS TO TAKE CARE OF THEIR FAMILIES
07/19/26	Asna Qureshi	60188					X	X		Low tolls	Oppose	I do not support any increases to tolls
07/19/26	Tom Bonner	60062	X	X			X				Oppose	the toll road was supposed to end in 1970's.
07/19/26	John Allen	60406	X		X		X				Oppose	"Toll-free by '73" was a lie. This proposed toll increase is based on another lie. And this one lets the liars escape public scrutiny by building in automatic toll increases forever. Just like they did with the gasoline tax. We need to lower taxes, not increase them. And tolls ARE taxes, no matter how they're worded. I vote NO!
07/19/26	Rich Yohn	61008	X		X		X				Oppose	Taxes are already high. We should strive toward eliminating tolls.
07/19/26	Kathleen Horvath	60101					X	X		No increase in tolls	Oppose	Another money grab by the State of Illinois. Tolls were supposed to be abolished years ago. Construction never stops on the tollways. It's programs like this that make Illinois look bad. Contractors keep the politicians stuffed with campaign contributions. What a joke.
07/19/26	Ron Rohrbacher	60013	X		X	X					Oppose	Our tolls are high and we have had toll roads with condition issues for years. Other states seem to do this much better than us somehow.
07/19/26	Rodo	60538	X		X		X				Oppose	Stop this moment / miss a turn pay. Turn around pay/ Illinois is a joke

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/19/26	Ashley K	60136	X			X	X				Oppose	I do not agree with the tollway increase. If this increase happens, a lot of people will decide to take alternate non-toll roads. There needs to be better spending of the toll money. Dumb that certain highways are always under construction. What are you fixing if the following year to continue the same work. Tollways need to be better repaired- pot holes, debris, etc. if this was the case then maybe I would consider it. We already pay a lot in tolls and raising it $0.45 when paychecks are not increasing is absurd. Maybe reduce politicians salaries and put towards that towards the repairs that need to be made verse always taking it out of our pockets.
07/19/26		60467	X			X	X				Oppose	
07/19/26	Richard Hanson	60441	X				X		X		Oppose	Prices are already too high. The gas tax is high and raised every year. Tollway rates should be lowered to keep delivery charges modest and keep everyday product prices down. Unions should not dictate toll rates. The everyday consumer already is cutting our everyday goods we purchase.
07/19/26	Sam	60026	X		X		X				Oppose	Why can't we just use the funds we are already paying into? We need an audit to show why IL keeps flushing its money away, not an increase to tolls.
07/19/26	Shannon	60441	X			X	X				Oppose	Enough with the increases! People can barely afford to live and now you're adding DOLLARS daily! This increase can be as much as $50-$100 monthly for some people. There is no way to keep up with this awful state and everything to do to break us while you preach about affordability for families. Enough is enough!
07/19/26	Louise	60084	X				X			None	Oppose	
07/19/26	Samuel Vera	60123	X		X		X				Oppose	Do agree on any increase
07/19/26	Ryan	60561	X			X	X				Oppose	Absolutely not!!!!
07/19/26	Dana Coldren	61771	X				X			Safety	Oppose	You cannot be serious… This is outrageous. You need to be more responsible with the money you already make from tolls. There is no need for raising tolls this high. Absolutely ridiculous proposal. Go back to the drawing board and take a fiscally responsible approach to maintaining our roads.
07/19/26	Paul Henry	60014	X				X			Elimination of tolls as previously promised	Oppose	When is our state government going to mature enough to stop excess spending? No other state budget is this mismanaged. Keep raising taxes and tolls and the only tolls you'll collect are people moving out of the state. It's already becoming a problem
07/19/26	Alyssa	61008	X	X		X					Oppose	A lot of people need the tollway to get to their job I spend over $100 in just tolls every month for a 30 min commute to Elgin
07/19/26	Josiah Roman	60652	X			X	X				Oppose	Wisconsin does not have tolls and they have roads just as well maintained
07/19/26	Amir A.	60056					X	X		Paying less for road that should be free.	Oppose	Gtfo. With the cost of everything rising with no end in sight, right now is not the time for this crap. People are struggling to eat, pay their rent and raise kids. Life is not great for a majority of Illinoisians and our property taxes have more than doubled in some areas. This is not the time. Food and homes are better for the majority than clean roads.
07/19/26	Victoria May	60130	X				X			open road tolling	Support	Will this project include I-Pass open road tolling? My biggest complaint travelling in this region is the amount of time spent waiting for a toll reader that doesn't work.
07/19/26	Joyce Wilkens	61252	X				X		X		Oppose	
07/19/26	Stephen Spiwak	60005	X			X	X				Oppose	Roads and bridges should not be supported by toll increases and should be addressed via tax base. The tolls were never intended to be permanent and costs to tollways have gotten out of control. I am against raising tolls in the manner proposed and very against the ability to increase them on a frequent basis.
07/19/26		60543			X	X	X				Oppose	Taxes and tolls are already too high. Road projects take decades to complete always over budget. I'll avoid taking toll roads if this is passed.
07/19/26	matt schroeder	46323	X		X		X				Oppose	Already expensive to utilize the Illinois toll roads. I take an annual trip to Wisconsin for a family vacation. The toll cost to just drive less than 2 hours from the IL/IN border to the WI/IL border at Rockford it costs over 35 dollars. That is literal highway robbery.
07/19/26	Rob	61115	X			X	X				Oppose	Strongly oppose another rate/tax hike in this state.
07/19/26	Adam robles	61207	X	X			X				Oppose	Why THE FUCK do you all constantly get more money when WE THE WORKING FUCKING CLASS DONT. Fuck no and fuck your corporate cannabis monopoly too

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/19/26	John D.	60004	X				X			Reasonable tolls for commuters.	Oppose	Two comments: This increase is 50% too high, going from .07 per mile to .11 per mile. The automatic inflation added increases in future years takes all citizen's voices out of the process. 2. On January 1st annually, the Illinois tollway should publish their best estimate on what it would cost to maintain the tollways annually we already have. Then list the amount you intend to spend, including the 240 million in this year's budget to get an ESTIMATE for a future project that should start first with an internally generated replacement only cost. Thank you!
07/19/26	David Hafft	60026	X		X		X				Neutral	I thought the increase in tolls about 15 years ago was to be temporary, then a freeway? Oh well, bureaucracy must have taken over.
07/19/26	Jose J Villegas	60451-3562			X		X		X		Oppose	This is the reason why you kept to toll system instead of just being temporary so it could pay for itself!!
07/19/26	Brittney	60440			X	X				Not paying to drive on a fucking road!	Oppose	STOP JUST STOP INCREASING EVERYTHING !!! People all around struggle keeping up with every bill every month stop increasing!! JUST STOP!!!!!!!! Why do we have to pay to drive on a road why?! What next ? Pay to breathe??? Stop!!!!!! People can't live anymore! Pepper struggle! Stop increasing the tolls, stop!!!!!!!
07/19/26	Dolores Schllessinger	60142	X				X		X		Oppose	The Governor of Illinois is also proposing raising tolls and now the Toll way is raising tolls. The money already should be used strictly for maintaining only the tollway and not being spread out for other projects. Also by raising commercial vehicles you are ultimately riding pricing on goods for consumers. So I will not only be paying higher tolls but also higher prices on goods I purchase. Please give us middle class senior citizens a break on raising prices when our fixed incomes do not raise anywhere near these raises being considered.
07/19/26	Daniil Larin	60050	X		X		X				Oppose	You are profitable, there is no point of increasing it ... That's just greed at that point
07/19/26	Michael Folliard	60655-3506			X	X	X				Oppose	Tolls were a temporary fix to inject caoital into road fund. Shiuld have been abolished in the 70's. It appears to be a slush fund for Democratic party to aid their budget. If Democratuc party really cared abiut affordability for its residents, stop the spending and taxation.
07/19/26		46106			X		X			Affordability	Oppose	No more tolls and especially no more toll increases!
07/19/26		60652	X		X		X				Oppose	
07/19/26		60634	X				X		X		Oppose	
07/19/26	Vanda Shulga	60014		X		X				Proposed two circles of highways. Outer around far western, southern, eastern and northern suburbs. The 2nd circle around Chicago outer circle. 3rd-connect outer circle with inner circle with multiple connections.	Neutral	I'm commuting from Crystal Lake City to Aurora. The proposed highway circle can go around farmland and small towns and not through downtown of the small towns. The highway circle should have overpasses above railroad tracks without stopping the traffic
07/19/26	Tye Edens	55024	X			X	X				Oppose	The increases proposed are too large a price increase. I support reasonable increase of at most 25% of current rates.
07/19/26		60189	X			X	X				Oppose	
07/19/26	George	60101	X				X			No more tolls! They were supposed to be temporary!	Oppose	Do NOT raise toll costs! Tolls were intended to be temporary and have become a complete scam and ripoff. Tolls have become a political tool used by corrupt politicians. NO MORE TOLLS!
07/19/26	Pam Kennedy	60102	X		X		X				Oppose	Too high of an increase all at once. You will drive users away, as there's always an alternative route to tollways. Not disputing an increase, but can't be all at once like this. Very poor management at a time when citizens are being hit with increase after increase in all aspects of their lives. Strongly oppose!!!!!

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/19/26	John Schaller	60010	X				X			Better law enforcment, they are all SPEEDWAYS !!!	Oppose	Increases are EXCESSIVE !!!
07/19/26	Fuck you illinois tollway	60532	X		X		X				Oppose	If you didn't finish your first set of projects. How can you ask for more money?
07/19/26	Jane Browne	60611	X			X	X				Oppose	Totally opposed to this!! I drive about 350 miles per week on toll roads.. I cannot afford this!!!!
07/19/26	Sharon Balazs	60172			X	X	X				Oppose	everything is so expensive and unaffordable and this is just another added expense to deal with
07/19/26		60585			X	X	X				Oppose	
07/19/26	Bruce Wood	60554	X				X		X		Neutral	I believe this is the Governor's attempt to raise road taxes or money that has been lost due to electric vehicles. This is not fair, find a better way to get road taxes from the electric cars and trucks.
07/19/26	Jessica Koch	60586	X			X	X				Oppose	We pay far too much in taxes and tollways and mass amounts of projects all go at the same time and none get finished.
07/19/26	Sandor Barat jr	60107	X		X		X				Oppose	We paying too much already! Highest tax rates in the country!
07/19/26	Patty L. Cook	61201	X					X	X		Neutral	I'm not opposed to an SMALL increase in tolls to maintain adequate highways & services. However, I am opposed to your system. Very confusing! Since 2020, Your toll booths are not operated by humans and are very confusing about getting on and off the freeways and how to pay for tolls if your driving somewhere you've never been or unfamiliar with your automated payment systems. Also, "Illinois" tollways around chicago are not even owned or managed by the State. They are private owned! Why! Call them Illinois tollways?
07/19/26	Valerie Roth	46307			X	X	X				Oppose	The tolls are already expensive enough plus you have to sit there and hope that the bar raises when it's your turn. Many times it won't read the transponder and you're sitting there like the jerk holding up the line. My vote is NO increase. Find the money elsewhere.
07/19/26	Cathy	60487	X		X		X				Oppose	Expressways already have high tolls and there's lots of congestion/traffic. Increasing tolls will only mean us paying more to sit in traffic. Higher rates will push more people to take side streets because they cannot afford expressways anymore. When the tolls were originally created, it was supposed to be temporary. Now they are still here and the tolls keep getting increased yet not improved.
07/19/26	Mike	60097	X		X		X				Oppose	If the Illinois state budget is properly balanced and merit increases are withheld from state officials, representatives and other political positions over a specific amount of time then increasing the toll charge would be unnecessary. How do the residents of Illinois know for sure where all the till money is going? How does anyone know where our tax dollars are going that could support the tollway system without an increase? Allocate unused dollars and money from other areas of the budget that could be used for the roads. I live in McHenry County and we pay the highest property tax in the nation besides New Jersey. I'm opposed to it. I think Illinois can do a better job balancing the budget and making better allocations with tax payer money.
07/19/26	Sydney Czajkowski	60714	X		X		X				Oppose	Tolls are already expensive as is, and they are everywhere. There is zero reason why we need to implement another increase on top of what we already are paying. This is unacceptable. Where is all of the money that we already have to pay in tolls???
07/19/26	joseph leydon	61354			X		X			Open tollway no gates	Oppose	Wasting more taxpayer dollars on never ending work
07/19/26	Durgesh Shah	60047			X				X	Less toll or free excess. We do not have to pay any tolls.	Oppose	There should not be any tolls.
07/19/26	Vipul M	60089				X	X		X		Oppose	Just between TriState and Jane Adaams, IL toll generates a surplus profit of 100 Million a months. The 45 Cents is a 50% increase. I strongly oppose this.
07/19/26	Theresa Bertocci	60625	X			X	X				Oppose	You've already imposed some rate hikes this year. And now is a BAD time to impose more, with inflation rising and costs of living increasing.
07/19/26	Gerald McGreevy	60135	X	X		X					Support	I strongly support the rate increase !

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/19/26		60089	X			X	X				Oppose	
07/19/26	Marianne Oshea	60089	X	X			X				Oppose	Eliminate some of the ridiculous waste and stop charging me more. Also figure out how to charge electric and natural gas powered vehicles.
07/19/26	Mr Cushing	60662			X		X			Less tolls / Cheaper tolls	Oppose	
07/19/26	Nicole Faber	60453		X	X	X					Oppose	Tolls are clearly never going away despite promises when they were first brought forth. It's also true it's been a long time since the last increase. But you have got a lot of nerve more than doubling it for passenger vehicles as well as making commercial a 30% increase. That's not a fair split, and it's way too much at once. A staged in approach is more appropriate. And frankly, the roads are too congested already for us to have to pay even more. It's almost faster for me to do side streets than the toll about half the time now.
07/19/26	Eleanor Slesicki	60956	X				X		X		Oppose	The tollway promised tolls would be removed when the necessary improvements were met. What a lie that was!!!! And now you are proposing HUGE increases. Do you think I as a senior citizen can absorb these increases? I'm not going to get one of the proposed jobs this giant increase is supposed to create. Why don't you just charge your new employees these higher rates as they will be able to afford them. As far as really improving travel times, l have never seen your "improvements" actually do that. Chicagoland is just as congested as ever. So I don't believe you will actually improve anything except cause financial hardship on most of us who use these roads!!!!!!! I am totally against this added tax burden for nothing but lining your pockets.
07/19/26	Tom	60462	X		X		X				Oppose	Too expensive!!! 45 cents more plus inflation kickers??? Are you nuts!! Terrible idea. Cut all the waste and expensive political hack contracts. This HUGE FARE INCREASE is out of touch and will hurt drivers
07/19/26	William Krygsheld	60401	X			X	X				Oppose	State mismanagement and poor negotiating is always being bailed out by the citizens pocket book. Nobody can run a household or business this way the state should not either. Don't spend money or promise unions things that can't be afforded. I oppose this as there already has been cost increases.
07/19/26	Betty Burt	60430			X		X		X		Oppose	I strongly disagree with this toll fare increase! Why does every project has to fall on the back of the citizens. We are being overwhelmed with the increase of everyday living! The increase in groceries, gas, utilities, insurances, daycare, car repair, plate stickers etc.. It's just too much! .45 may not seem much, but it's a great amount of money to individuals that are living paycheck to paycheck. I strongly suggest you rethink this and use the monies from tolls that are already being collected to repair the roads. If you guys cut our unnecessary spending, you would have more than enough to repair the roads and pay your employees.
07/19/26	William Bullerman	60189	X	X						Cheaper tolls	Oppose	The proposed toll increase is absolutely insane! All commuters in Illinois are dealing with high gas prices and inflation. I am paying $60-80 a month in tolls and I do not use the tollway but 3-4 days a week. I am a democrat BTW. I think this is going to far and another tone deaf rate increase!
07/19/26	Ann Schreifels	61611-1041			X		X	X			Oppose	I would support the toll increase, if the costs for using public transportation are lowered. We need to incentivize people to use public transport. So increase the tolls, but then lower ticket prices for other modes.
07/19/26	Phil Sevenz	53144	X			X				See comments.	Oppose	Distance equals rate times time. You have a fixed distance. You can measure the time. Rearrange the formula to "solve for rate" (speed). BILL THEM. You RARELY have State Patrol on the highway, but your toll booths are EVERYWHERE. You need more money for roads? Charge the people who increase the likelihood of using emergency services and causing road damage with excessive speed. You CAN'T assess "points," but you can assess fines for the Ipass vehicle exceeding the speed limit. Untapped funding AND enforcement source....
07/19/26	Michelle Miller	60515				X	X			Low rates	Oppose	This is just because Springfield bailed out Chicago area mass transit. DONOT RAISE TOLLS!!! Payoff existing bonds first then reissue new ones. This is a total bait and switch.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/19/26	Laurie Salvano	60021	X				X			Fewer toll increases	Oppose	I received the email about the proposal on July 19. The in person meeting to discuss this was last week! Poor communication. Shows lack of concern for my feedback.
07/19/26	Lori Williard	60451		X		X	X				Oppose	Please do NOT increase the toll amounts! This is a financial hardship. This will encourage people to drive non-toll roads and take longer to reach the destination.
07/19/26	Morgan Schmalz	60502				X	X			ease of access	Oppose	that's a giant increase not justified for any reason.
07/19/26	Lynda Mataban	60625	X		X		X				Oppose	
07/19/26	BRYAN HICKMAN	60090	X		X		X				Oppose	As a home of seniors, this, as well of its annual increases seems extraordinarily exorbitant. I was alive when the tollway were to pay themselves off and become free. I don't appreciate the promises being altered as this one will eventually be too. The CPI is never negative... be real.
07/19/26	Kurt	6006					X	X		Financial accountability	Oppose	Better utilize the funds you currently gave
07/19/26	Kevin	60462			X	X	X				Oppose	Absolute joke. It's already expensive enough. Budget better elsewhere
07/19/26	TM	60435			X	X	X				Oppose	The toll ways were only supposed to be charging tolls until the road was paid for. Apparently we will never end up paying the roads off.
07/19/26	Jeremiah J Pruitt	61010	X				X			No tolls for non commercial traffic	Oppose	Tolls were suppose to be temporary and is already a burden on illinois residents. No till increases and abolish all rolls except for commercial (semi traffic)
07/19/26	Joe L.	60140				X	X			Toll increase would be unavoidable	Oppose	I commute Monday through Friday on I90 and if there is a .45 cent toll increase then I will no longer commute on I90 and will adjust my commute time and utilize route 72 for my weekly commute.
07/19/26	Danielle Oakes	60565	X			X	X				Oppose	We can barely afford the toll roads now, yet need them to get from place to place because so much off the old roads have now been built up with traffic lights every block to support empty luxury housing making a commute off the toll roads take 3x as long. The state needs to prioritize affordability of the tax payer and find another place to get the money they want.
07/19/26		60172	X		X	X					Oppose	
07/19/26	Jeremiah Lamour	60651	X		X		X				Oppose	The main thing causing difficulties for sustainability in the state budget is the over-inflated pension for government employees and poorly structured staffing model. I would encourage a staffing restructure and switching the pensions to 401K's rather than increasing tolls on Illinois residents.
07/19/26	Bryan	60031	X		X		X				Oppose	It's really disheartening to have the solution to EVERY problem is to pass the costs down to every day citizens, making life unaffordable to live.
07/19/26	Allison Johnston	60076	X		X		X				Oppose	I am already taxed to DEATH in this state. The leadership in this state is incompetent and cannot be entrusted with any more of my hard earned money. The tollway was supposed to be TEMPORARY, not a permanent drain on the residents of Illinois to offset the total financial mismanagement of tax payor money. Find another way to pay the debt YOU created. I'm done being your piggy bank.
07/19/26	Christine Bloome	60189	X		X		X				Oppose	Our toll rates are ridiculous to begin with and have continued to climb over the last several years with no noticeable improvements so far. I am vehemently opposed to raising them further.
07/19/26	Gail Gennuso	60031	X		X		X				Oppose	Gas taxes are already high in Illinois and an increase in the tolls is an added burden to Illinoisans.
07/19/26	Jody Mahaney	60102	X				X	X			Neutral	The state of IL needs to stop spending the taxpayers money and stick to a budget! I do not agree with an increase of tolls. This is out of hand and needs to stop. There is millions coming in from casinos and dispensaries in IL that the state didn't have before and IL needs to live within a budget and stop the bleeding of taxpayers money.
07/19/26	Aria White	60004	X		X		X				Oppose	
07/19/26	Michael McHugh	60074	X				X			The state promised to omit all tolls after the roads were built!	Oppose	In the middle of massive inflation and economic pressures on ordinary taxpayers like me (born out of reckless government spending) you are now proposing yet another big toll tax increase which will only drive more citizens to exit Illinois. I think you will not rest until you have destroyed what is left of middle class/working class people like me! PLEASE don't make the affordability crisis in Illinois even worse by passing this proposed toll increase.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/19/26	Mike Glosson	60136	X			X	X				Oppose	That is too much of a price hike. People that have an Ipass and travel the toll regularly will be absolutely crushed with a hike that high, especially on top of rising cost in pretty much every aspect of life.
07/19/26	Martin Warnick	48834	X		X	X					Support	We so not make our trip from Michigan to Wisconsin very often. We just happy to have the Tollway when we do so.
07/19/26	Craig	60436	X		X		X				Oppose	Oh fuck no
07/19/26	Katie Mae	60439	X		X		X				Oppose	Other states such as Georgia use Tole system during the expansion and once a project is completed no longer collect tolls. Our weather is harsh on the roads. Please provide other options of where funding goes for the state and why this couldn’t be allocated from another fund.
07/19/26	Jim McGrath	60010	X	X		X					Support	I'd like to learn more about the long term plans
07/19/26	Katie Trapino	60134	X		X		X				Oppose	I want to understand how this increase and your plan will help with traffic. Everything that i am reading is not clear. It shows that it will help with infrastructure but to claim congestion reduction but no clear plan on exactly how.
07/19/26	Christopher De Filippo	60031					X	X		Accountability for tolls.	Oppose	I do not support this toll increase. The original purpose of the tollway was to help pay for building the roads, and many Illinois residents believed the tolls would eventually be reduced or eliminated once those costs were covered. Instead, tolls have become permanent and continue to increase. Before asking drivers to pay even more, the Illinois Tollway should demonstrate greater efficiency, transparency, and accountability in how existing toll revenue is spent. Illinois drivers are already facing higher costs in many areas, and another significant toll increase places an additional burden on commuters and working families.
07/19/26	Tiffany Davila	60012	X		X	X					Oppose	Illinois is taxing us to death! Enough already!
07/19/26	Brian Stein	60014	X				X			affordability - the tollways should have been freeways back in 1973 ... we're still waiting	Oppose	Thanks for the opportunity to submit a comment. Not that you're actually going to do anything different based on these comments but at least thanks for the opportunity. The tollways were supposed to revert to freeways back in 1973. I was around at that time. 53 years later i'm still waiting.
07/19/26	Chris Smith	60102	X		X		X				Oppose	If the money the tollway is already getting isn't enough to maintain the roads then the tollway authority has a serious problem. Other states have the same roads and they are in better shape and they don't cost the people of those states as much as Illinois. If the state would do an audit on the tollway they would find a huge amount of misspent money and they wouldn't need to raise the tolls. The tolls were supposed to be temporary when they were first opened in the 70's. I guess that went away once the state saw how much money they collected. This state has ridiculously high taxes and we don't need another hike in the tollway. Learn how to do things correctly and you wouldn't need to raise taxes and fees. Audit the state first!!!!
07/19/26	Easy	60517			X	X	X				Oppose	Do not increase the tolls.
07/19/26	Terry Sopkin	60540			X		X			Toll free roads	Oppose	Tolls are too expensive already. I vote to reduce the tolls.
07/19/26		60554	X		X		X				Oppose	It’s already pretty high
07/19/26		60559	X		X	X					Oppose	I am in favor of the infrastructure improvements and I am ok with the proposed cost increases, however I am concerned with the ITS technology that is stated in the proposal. There is not detailed information on what that would contain, I do not want my fare going towards more automated license plate reader cameras or other technologies that would contribute to mass surveillance.
07/19/26	Eduardo	60415	X				X		X		Oppose	Management should concentrate on weeding out any waste and corruption to fund projects
07/19/26	Adrienne Regan	60647	X		X	X					Neutral	
07/19/26	Lynette Bumber	60451	X		X		X				Oppose	
07/19/26		61114		X			X			Why do I have to answer	Oppose	Raising tolls an additional 45 cents is insane. How can Wisconsin have better roads without one single toll? Cause our leaders aren't crooks like Illinois. Good grief!

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/19/26	Michelle	60424	X				X			Actually fix the roads!	Oppose	Why increase the price especially when its to high to being with and the roads are horrible!!! Illinois has the worst roads, never fixed but getting worse, but of course we have pay even more money!
07/19/26	Wes Frenell	61265			X	X	X				Oppose	Why can't we have high speed rail instead? Moline has been waiting 20+ years for Amtrak, and it's even more obsolete that it was. China and other world powers have high speed rail systems that put our public transit (lack of) system to shame. Does the oil and auto lobbyists have that much influence to shut down what is best for the people of illinois, our state economy and the environment? Toll road expansion is a policy failure when it takes me an hour bus ride and a 3 hour train ride to get to Chicago from Moline. Give us high speed rail, keep your tollway expansion to yourself.
07/19/26	Wally Fiebiger	60192			X		X			Cheaper or NO TOLLS	Oppose	When the Tollway opened, we were told the Tolls were supposed to disappear in 1973. Looks like the powers in IL. lied to us again!
07/19/26	David Wilson	61523	X		X		X				Oppose	Illinois is run by corrupt and inept leaders who don't know anything about budgeting money or representing the people of Illinois (not Chicago). People in downstate Illinois suffer the consequences of poorly run programs in Chicago. Money is taken from our roads to be sued (wasted) in Chicago. I don't want to have to pay more money for tolls just to cover the piss poor spending habits of J.B. Pritzker and Brandon Johnson. How about replacing those morons before increasing the price of anything that affects the people of Illinois. And you wonder why people are leaving Illinois in droves?
07/19/26	Tammy Sorg	60097	X				X		X		Oppose	I drove from the Huntley on ramp to Tinely Park today. I paid $11.00 for my round trip. That is absolutely outrageous. It is not acceptable. How is evena thought to increase tolls? Hard no. Do not increase.
07/19/26	Anne Dutz	60016-2971		X		X	X				Oppose	Where has the money gone that you have been collecting over the past years? The whole purpose of the tollway system was to be able to do exactly what you are saying and it hasn't happened correctly. What makes you think that you will start to use this extra money in the right way. I do not want my toll money going to illegal immigrants or lining the pockets of government officials. My property taxes also just went up and I believe it was also for the roads, so why do we need to continue to increase the tolls? You do not need to raise the tolls, you need to find better ways to budget the money you have already.
07/19/26	Virginia Heaven	60640	X				X		X		Oppose	The tolls have risen steeply in the last few years—this seems like an extreme hike in cost with little or no explanation as to why.
07/19/26	MC	60463	X		X		X				Oppose	It's easy to spend somebody else's money. I think you need to be able to learn how to manage the money that you have. This proposal shows no consideration for the issue of affordability. Everyone is asking for more money with the cumulative effect on the consumer at a time when many are facing potential loss of income.
07/19/26	Jared Waters	60124	X	X			X				Oppose	I understand a standard increase, but rates should not increase every other year.
07/19/26	Cindy Hoscheit	60192	X				X		X		Oppose	Illinois tolls cost too much already, i thought they were supposed to be temporary???? Ilinois has a spending problem not a revenue one, Now squeezing illinois drivers even more, The state needs to figure out how to get spending down not charging us more $$$$$$$
07/19/26	Edwin J Trusk	60515	X			X	X				Neutral	As a senior citizen paying commercial truck rates when I tow my boat to the lake seems unfair.
07/19/26	Rory W Hoffmann	53150	X		X		X				Oppose	Should be tax dollars that maintain roads. Use the marijuana tax.
07/19/26	Ryan Vitello	60169			X	X	X				Oppose	The tollway needs more transparency where the existing toll money is allocated to. Many projects are finished, so that budgeted money should be available for funding many of these projects. Where is the existing toll money going? To raise the toll 45 cents on a 75 cent toll is a 60% increase. This will only drive up costs more, and actually force many to use non-toll roads as the cost no longer justifies the small benefit. This increase is excessive and abusive of your powers. There needs to be better oversight of your agency if you can actually justify a 60% increase! This is unacceptable.
07/19/26		60585		X	X	X					Oppose	I don’t support a rise in tolls it’s already too expensive. We shouldn’t have to pay to drive on roads.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/19/26	Justin Przybycien	60473			X		X			No tolls at all like the original proposal	Oppose	Stop raising taxes. Stop throwing money away on projects done by companies that drag their feet and milk tax payer dollars. We don't live on the toll ways they don't need to be perfect concrete monuments, they just need to get people from A to B without RAIDING THEIR WALLETS
07/19/26	John Ballard	60561	X				X			Less tolls	Oppose	Questions id like answered. Why do states like Illinois have excessive tolls while other states have none? Why have tolls continued to exist when i believe they were temporary with a removal going back to the 70s??? If you can answer that with a legitimate answer and not some white wash I will be in awe. Somehow other states manage and all Illinois does is find a way to spend more of our money due to???? I await real answers and not some ai response.
07/19/26	Robert Koeplin	60516			X		X			I already try to avoid using the tollway if possible.	Oppose	We already pay the second highest gas tax in the country. We also have more tolls than any other state. Where has all this money gone? The gas tax already gets hiked every year now the tolls. This is crazy.
07/19/26	Jamee Carlin	60201	X			X	X				Neutral	There really should be a discount for seniors and disabled people as these incomes don't keep pace with inflation as well as other's do. I would be completely in support of the program if the financial needs of seniors and the disabled were taken into consideration. I chose Neutral as this does not seem to be the case.
07/19/26	Jonathan	60004	X				X	X			Oppose	
07/19/26	Patrick Siemsen	60430			X		X			free tolls	Oppose	you thieving scumbags! Everyone is already leaving this state and you want to raise taxes and increase the tolls ..fuck you
07/19/26	Sarah Primozic	60517				X		X		Faster than going surface streets at time	Oppose	Even though you won't really read or take to heart these comments and you'll just do whatever you want without caring about the residents you are going to impact, I'll submit this anyway. Will there be nighttime construction? You have said before there wouldn't be on other projects and then I get woken up at 230 am to jackhammers outside my bedroom window on 355 South by 63rd Street. How are you going to lessen the noise from construction and increased traffic when you widen the lanes? There's tons of dead trees on the Tollway easement that have been neglected for decades. How are you going to take care of the residents who live with 355 in their backyard and the increased noise from traffic due to the expansion? When will the tolls actually go away? That was the goal when the Tollway was built, was it not? That the tolls would pay for it and then be gone? Hasn't it been paid for by now? What are you going to do about the drag racers at 2 am? What are you going to do about the noise from semi trucks engine braking? Are you actually going to listen to the residents that will be affected by all of this and listen to their concerns? No, you are just going to do what you want to do and don't care about the residents it impacts. Will you fix the chain linked fence by my house that was cut and you were alerted to back in April? Probably not because it took months and another email from me to get the dead tree from the Tollway Easement that fell on a tree on my property to be cleaned up, but didn't bother taking down the broken branch off my tree that your tree broke with its fall. Please do not expand the lanes on 355 anymore. We didn't want that the first time and yet continue to suffer from the increased noise because the Tollway only cares about the Tollway, not about the residents whose houses were here BEFORE the Tollway was put in. Don't know why I even typed all of this out, no one is going to read it, no one is going to actually think about it, the Tollway is just going to do whatever the Tollway wants. What the Tollway really should do is respect the residents that live on either side of 355 and hear them out and maybe, just maybe actually care and do what was promised over and over and over again. If anything, you need to clean up the easement on 355 South by 63rd Street because it hasn't been mowed in a while, trees are dead and either fallen over or will within the next few bad thunderstorms. And fix the dang fence already!
07/19/26	Corryn Frost	60423	X				X	X			Oppose	Absolutely not.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/19/26	DMITRIY SHERMAN	60191	X				X			What matters most to me is honest accountability: I refuse to be taken for a fool by paying higher tolls just to cover up state financial mismanagement while driving on roads I've already paid for	Oppose	I am writing as a resident and taxpayer of Northern Illinois to state my absolute opposition to the proposed 45-cent passenger toll hike, the 30% commercial truck toll increase, and the implementation of automatic biannual inflation increases scheduled to begin in 2029. Northern Illinois motorists are currently facing an unprecedented financial squeeze, and this historic rate hike is a direct, unfair tax on daily commuters and local businesses. I oppose this capital plan for the following reasons: Compounding Tax Burdens from Legislative Horse-Trading: It is no secret that this massive toll hike is a direct legislative "backfill" resulting from the state's public transit bailout package. Lawmakers shifted roughly $800 million in motor fuel sales taxes away from road funds to plug the operating deficits of regional public transit systems like the CTA. Forcing tollway drivers to pick up the tab for a completely separate, failed mass transit system is a clear mismanagement of public funds. Sustaining Inefficient Operations: Hardworking families are being asked to pay higher tolls to offset funds diverted to organizations that have failed to improve. Public data shows that roughly 70% to 75% of the CTA operating budget goes strictly toward labor costs, benefits, and legacy pension debt, rather than tangible service or infrastructure improvements for the public. It is unacceptable to penalize highway drivers to subsidize these institutional inefficiencies. Severe Economic and Financial Impact: According to estimates from the Illinois Policy Institute, a typical daily commuter passing through just two tolls per workday will face an additional $225 burden per year. Furthermore, the 30% commercial truck hike will inevitably be passed directly down to consumers, further driving up the cost of groceries and everyday consumer goods in an already inflationary environment. Total Lack of Accountability via Automatic Escalators: The proposal to automatically increase toll rates every two years based on the Consumer Price Index (CPI) starting in 2029 completely strips the public of its voice. It allows an unelected, appointed board to continuously raise the cost of living on Illinois residents in perpetuity without ever having to face the voters or hold public hearings again. The Tollway reported record-high net revenues in 2025. There is no justification for squeezing more money out of working residents to fund a 15-year, $26.5 billion expansion while the rest of our state's transit infrastructure suffers from systemic mismanagement. I urge the Board to reject this rate hike proposal, table the automatic inflation escalators, and force Springfield to find fiscally responsible solutions that do not involve treating Northern Illinois drivers as a bottomless piggy bank. Sincerely, Dmitriy Sherman Verified Sources for Your Records If you need to cross-
07/19/26	Lisa Den Besten	60558			X	X	X				Oppose	The current 294 tollway project is not quite finished and you are already forcing us to endure another project, with toll increases, starting next year! It would be nice to have a few years with minimal tollway construction, so we could get to our destinations in a reasonable time. And, starting the toll increase right away is also disconcerting, i.e. so you are asking us to pay for the privilege(?) of continuing to drive on lousy, construction-ridden tollways? When do we reap the benefits of all the money we pay for the construction-clogged traffic that we suffered through with this most recent project on 294?
07/19/26	George Frost	60423	X			X	X				Oppose	
07/19/26	Richard Wendling	60455	X				X			Faster project completions! SB 294 is STILL under re-construction!	Oppose	NO MORE TOLLWAY HIKES! The Tollway systems was orignally designed to pave the for the highways built. Once paid for, the Toll Charges were SUPPOSED to end! But like any other tax on citizens, the government never wants to repeal the tax and is constantly finding new "excuses" NOT to end a tax! Well that BS stops here and NOW! ABSOLUTELY NO MORE HIKES ON TOLLWAYS AND pass legislation to gradually reduce Toll Way Fees until they do no exist anymore! ANYONE who votes for a tollway tax increase will NOT win another re-election anywhere in the State of IL. We the People are watching ALL our elected officials! After all, you work for US! NOT the other way around!

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/19/26	Omar Ramos	60502	X				X		X		Oppose	Good evening, and thank you for the opportunity to speak. I appreciate the work that goes into maintaining one of the nation's busiest tollway systems. I want safe roads, reliable infrastructure, and clean, accessible oases just like everyone else. I understand those things cost money, and I recognize that the Tollway has a responsibility to plan for the future. My concern is not with the need to maintain the system. My concern is with the size and timing of the proposed increase. Illinois families are already facing significant financial pressure. The cost of housing, groceries, insurance, utilities, and transportation continues to rise. For many people, using the tollway is not a luxury. It's how they get to work, take their children to school, attend medical appointments, and support their families. Every increase adds to an already growing financial burden. While this proposal may seem modest when viewed one toll at a time, the cumulative impact on daily commuters can be substantial over the course of a year. Those costs are especially difficult for working families who have little flexibility in their budgets. I would encourage the Tollway to explore every reasonable opportunity to reduce costs, improve operational efficiency, prioritize projects, or identify alternative funding sources before asking drivers to shoulder such a significant increase. If an increase ultimately becomes necessary, I would ask that it be phased in more gradually and accompanied by clear, measurable accountability showing taxpayers exactly how the additional revenue is being used and what benefits they will receive. Maintaining our transportation infrastructure is important, but so is maintaining affordability for the people who depend on it every day. Thank you for your time and consideration.
07/19/26	Ronald C Baumann	61032	X		X				X		Neutral	Will the bi-annual cost of living increase be based on the most recent annual CPI or on the most recent two years? In other words, will the toll increase be based on 2 years of CPI totaled together?
07/19/26	Nicole Nicholson	60152	X		X	X					Oppose	July 19, 2026 Illinois Tollway Communications Department 2700 Ogden Avenue Downers Grove, IL 60515 Re: Opposition to Proposed Illinois Tollway Rate Increases Dear Illinois Tollway Communications Department, We strongly oppose the proposed toll increases. Before asking Illinois residents to pay more, the Illinois Tollway should demonstrate that it has thoroughly addressed waste, inefficiency, unnecessary administrative costs, and opportunities to improve operational performance. Taxpayers deserve confidence that every existing dollar is being managed responsibly before they are asked to contribute even more. Higher tolls disproportionately burden working families, students, commuters, small businesses, and those who have no practical alternative but to use the tollway system every day. These costs accumulate quickly, effectively becoming another tax on people already struggling with the rising costs of housing, groceries, fuel, insurance, and education. Illinois should be making it easier, not more expensive, for people to get to work, attend school, and support their families. We urge the Illinois Tollway Board to reject any toll increase until it conducts a comprehensive review of its spending, identifies measurable cost-saving efficiencies, and demonstrates a genuine commitment to fiscal responsibility. Illinois residents expect government agencies to manage resources wisely before shifting additional financial burdens onto the public. Thank you for considering our comments. Respectfully, A resident of Marengo, IL
07/19/26	Fabian Calisto	47905	X		X		X				Oppose	The rates are already excessive. Roads lag well behind other states for well maintained roads. Cut out some of the corruption in other programs. Do better.
07/19/26	Ashley Miller	61068			X	X	X				Oppose	
07/19/26	David Gonzalez	60099	X		X		X				Oppose	Stop raising the tolls when our roads are still bad. We , the people Of illinois are running out of money to stay in illinois.
07/19/26	Chris Simmons	60435			X		X			Less Govt	Oppose	You don't need to raise Tolls, you need to spend OUR money wisely. Obviously you haven't
07/19/26	Dorianne Janonis	60554	X		X				X		Oppose	
07/19/26	Karly Koladycz	60586	X				X			N/A	Oppose	No thanks
07/19/26	Patricia Smith	60548		X	X		X				Oppose	

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/19/26	Phil	60510					X		X	The only reason why I take the tolls because it makes my commute to visit my parents 30 min less.	Oppose	Completely eliminate the tolls. It's just another way for Jelly Belly to scam hard working Illinois residents. Raising the tolls should mean property taxes get cut dramatically.
07/19/26	Joyce	61107	X		X		X				Oppose	If you guys would use the funds appropriately and not keep misusing it we wouldn't have to essentially tax the people even more for roads we are already being taxed for out of our pay checks to build and use. I need to use the tollway every day, which means that I am getting billed for a toll twice a day 6 days a week. Illinois is already taxing my paycheck like crazy and now you want to tax me even more for driving to work?! This is not ok
07/19/26	Hamza Memon	60148			X	X	X				Oppose	I-290 has the worst traffic in the U.S. and the intersection of 294 & 88 is also one of the worst in the U.S. IL needs to do better yet still wants to increase tolls? There's a reason people are leaving this state. Increasingly becoming one of the worst stated to live in.
07/19/26	Dave klebine	60543	X		X		X				Neutral	I understand your need to fund future capital projects but us senior citizens living on savings and fixed income cannot afford the magnitude of the increase that you are proposing. please consider giving senior citizens a break going forward on road tolls. Our state does not tax our retirement income yet we pay full cost of all tolls, which are in effect a road tax on us.
07/19/26	Peggy Gjoen	60435	X			X	X				Oppose	Tolls are already way to high
07/19/26	Arsh	60464		X	X		X				Oppose	No No No rate increase period.
07/19/26	Kevin	60805	X		X		X				Oppose	raising tolls AGAIN and getting another 15 year contract of bullshit, little improvements just to keep paying more and more. We don't need an increase and we don't need another 15 year agreement of this bs
07/19/26	Adam Langowski	60714			X		X			Lowest cost of tolls	Oppose	Tolls are too expensive currently. Its like a double tax - tax for publicly funded roads and tolls for the tollway. Other states with lower taxes have better publicly funded highways.
07/19/26	Mari	60605	X		X	X					Oppose	
07/19/26	Chantell	60556			X	X	X				Oppose	
07/19/26	None of your business	60084			X	X	X				Oppose	Really? Pass your funding onto the consumers of Illinois? How much do you already collect on tolls from the current outrageous fees??? When is enough enough?? Probably you need to look at how the current tolls are being stolen, or I mean used for. Obviously Illinois needs to budget the money they are already receiving in tolls in a more productive and financially beneficial way.
07/19/26	Miguel Aguirre	60056	X	X			X				Oppose	How is Illinois Tollway authorities doing to make sure there is very low to now misspend which is typical with government agencies? Roads have been paid for and then some but yet people continue to pay more and more. There has to be some end to this without needing to constantly come back to the public for more and more money. That is not the solution
07/19/26	Barbara Knapp	60031-4493			X	X	X				Oppose	Two large of an increase at a time when people are already struggling. traffic will get worse on the other roads people cannot afford and avoid the tollway system. It will be a burden on everyone.
07/19/26		61063	X		X		X				Oppose	Illinois is making it so we cannot live here and yet they keep taking more and more.
07/19/26	Brad	61614	X		X		X				Oppose	I believe the increase in tolls will result in fewer people using the roads, and not bringing in the anticipated funds the state believes it will. I also believe Illinois does not do a good job of managing the funds it has, and can find this money elsewhere without increasing roads. While inflation rates may be acceptable in certain situations, a 45 cent per toll increase seems excessive.
07/19/26	Michael	60803	X	X		X					Oppose	
07/19/26	Harini Pasupuleti	60193		X	X		X				Oppose	You're proposing a permanent toll increase for a project that is supposed to last 15 years? How does that make sense
07/19/26	Faith	60410	X			X	X				Oppose	

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/19/26	Crook county	60074			X	X	X				Oppose	Illinois Congrats! You now have the worst traffic in America! Any yet you have the nerve to ask, or demand, more payment on tolls! Solve your issues without burdening citizens and businesses with more taxes! You work for the tax payers, so start decreasing taxes !
07/19/26	Ronald Smith	60071			X	X	X				Oppose	Doesn't matter what I say you will raise it anyway. It really hurts with the new Pritzger tax on top of that.
07/19/26	carl zimm	53704	X		X	X					Support	Semi trucks do much more wear on roads than cars, and near the cities cause a lot of congestion and pollution and make entry and exit very difficult. Their tolls should be at least doubled to encourage more use of rail for cargo.
07/19/26	Elana Horwitz	60076	X				X		X		Oppose	In the current state of finances it is a very bad idea to raise the tolls by doubling them. This will result in less traffic on tollroads and more on regular roads. Very bad plan
07/19/26	Marty Hartmann	60004				X	X			Fuck you, we are taxed and fee'd into poverty. You assholes have already run off countless corporations. How about cutting spending and making life affordable for citizens and corporations.	Oppose	Fuck you, we are taxed and fee'd into poverty. You assholes have already run off countless corporations. How about cutting spending and making life affordable for citizens and corporations.
07/19/26	Michael Linden	60561		X			X			Tax all electric vehicles More. They don't pay gas tax.	Oppose	Root out fraud in this state and use that to improve roads. Appoint a competent person to do this, not Pritzker! He already has automatic gas tax increases in place. Tax all electric vehicles more.
07/19/26	Jose Rodriguez	60085			X	X			X		Oppose	No way it needs to go up the charges
07/19/26	Javier Pena	60477	X				X			Can we do this without spending 26.5 BILLION	Neutral	We pay one of the highest gas tax's in America why do we need this 26.5 billion dollar proposal what happened to working within your budget , who will benefit from huge expense a few contractors , how will this benefit the average person that uses the toll way perhaps twice a week , when was the last time analyzed the department from within on ways on improving its operating expenses , do we really need all the overhead in this department , time to do more with less
07/19/26	Sam	60652	X	X			X				Oppose	
07/19/26	Cathy	60462	X		X		X				Oppose	The increase is way too high!! My god it's greedy and unnecessary. Horrible
07/19/26	Syed	60403	X			X			X		Oppose	For the entire time I've been alive, there has never once been a highway in Illinois that has not seen construction traffic on it everyday. This proposed toll hike only looks to take more money from Illinoisans for endless construction projects that only seem to keep piling on. We are already among one of the highest taxed people citizens in the country. Stop putting more financial burdens on folks who have no choice but to use the tollway everyday.
07/19/26	Nancy	68134	X	X			X				Neutral	Already paying too much taxes. Increase the wages first before proposing toll Increase
07/19/26	altaf khan	60137	X	X	X						Oppose	We already paying higher toll increase more burden on retire peopls
07/19/26	Peter Gatz	60543	X			X	X				Oppose	You just can't keep raising tolls to pay for the prior failures to use the toll money as intended. Stop using price hikes and taxes as your means to close budget. Metra is not a viable alternative for many due to schedules and parking issues. Additionally it is more expensive for me for a monthly train ticket than it is for gas. Enough is enough. Vote no.
07/19/26		60564			X		X			I don't want my words twisted	Oppose	Stop raising prices of tolls isn't driving expensive enough
07/19/26	Erin Lopez	60193		X	X	X					Oppose	Tolls originated as temporary, which was false and stayed. Now every year, the tolls increase. A 40 cent jump is ridiculous.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/19/26	Christine OReilly	60067	X		X		X				Oppose	This is just another way Illinois government is taxing its citizens to misuse the funds by redirecting toll revenue to fund migrants. It's disgusting
07/19/26	Terri	60137	X				X		X		Neutral	When do these shenanigans end? The Illinois usage of "temporary tolls" to fund better roads is a disgrace. To increase the price to allow us the laughable privilege of driving on the crappiest roads in the country, all while in a CONSTANT state of construction using materials that don't even last a full season of summer<->winter<->summer, is embarrassing. You know what else would provide thousands of Illinoisans jobs? Building a new stadium for the Bears in Arlington Heights. And when done, the stadium would continue to employ thousands year round while bringing in even more revenue than our embarrassing toll system. Good God, you don't have to drive far in any direction from IL to hit smooth-as-silk roads with clean and safe oases offering food choices, gas, bathrooms, etc. Get it together, Illinois.
07/19/26	Alonzo Robinson	60652				X	X			Reduce the toll instead of increasing	Oppose	We are literally being priced increased out of Illinois. These price increases will not change traffic time. A 15 year project only benefits the construction industry and not the drivers. It will in fact make traffic unbearable. Every reason listed as to why the increase does not benefit the drivers. A big fat no for me.
07/19/26	Anna Turwon	60451	X		X		X				Oppose	I urge state leaders to explain why additional tolls costs are necessary when Illinois residents already contribute through property taxes, income taxes, fuel taxes, vehicle registration fees, and sales taxes. Many families are already struggling with the cost of living, and additional tolls would make commuting even more expensive.
07/19/26	Mark Figurski	53029	X			X	X				Oppose	The tollway is currently expensive considering the condition of the roads, traffic congestion, unpredictable drive times, and constant construction. What I don't understand is where all of the money for current tolls is spent. What is needed is transparent communications as to what the current revenues, how the revenues are spent, and a specific vision/plan for the tollway system is. Other states can manage their roadways without collecting tolls. The amount of traffic on the tollway has increased dramatically over the years as have the revenue collected. Please show and accountancy for it.
07/19/26	Susan Chesler	60089	X		X		X				Oppose	We pay the highest taxes in the country. How about some relief
07/19/26	Mark	60172	X				X			Less tolls	Oppose	This was never suppos to be a permanent toll in the begining and now you're going to increase costs. No other state does this to maintain infrustructer.
07/19/26	Scott D	60035	X			X	X				Oppose	We need to stop pricing people out of IL. How can people afford to live here on minimum wage. These increases proposed are too high
07/19/26	Michael Reilley	60546			X	X	X				Oppose	Federal Government should be funding these projects. Illinois sends too much money to the Federal Government and doesn't get enough back because we are funding Red States that can't take care of their own citizens.
07/19/26	John Braun	60060	X			X	X				Neutral	I am very opposed to automatic increases every 2 years. That is nothing but a confession of poor management.
07/19/26	Jim	60564					X		X	Safety	Neutral	As a passenger vehicle user not commercial I have no way to recoup any of the charges you propose. I would think this should be more of a commercial expense that can be included in the services provided by the transport companies. I realize that increased cost to a freight company could end up coming out of my pocket indirectly but at that end it will be spread more evenly. Please consider not hitting the little guy anymore than our government is already doing.
07/19/26	JOHN W DAVIS	60096	X						X	trash and junk along the roadways	Neutral	A dirty 7-11 store with smelly washrooms and broken toilets with bugs crawling on the floor is not a rest stop. What roadside help? I don't see state police, county sherif or anybody to help. Unless there is an accident, no one stops to help. Dangerous potholes need immediate attention. 911?
07/19/26	Michelle Rohland	60560	X				X		X		Oppose	Look for ways to cut expenses and stop fraud. Quit placing more burden on the taxpayers.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/19/26		60048	X		X		X				Oppose	45 cents is a 50% increase in tolls. This is excessive. A lower increase would get a more positive reception. For most that take the tolls daily, this is nearly $1+/day. Other travel the toll way for work and evening activities. This could add several dollars a day. This increase would be a deterrent to taking the tollway.
07/19/26	Michael & Diane Zimmerman	60441	X		X		X				Oppose	I'm on a fixed income and can't afford all these increases that are occurring in this state.
07/19/26	Eddie Lalowski	60631	X		X		X				Oppose	You all make so much money off of the tolls already and you embezzle it instead of fixing our roads. Try using it well before asking for more.
07/19/26	Jordan	60957			X	X				No other options	Oppose	Governor pritzger is the biggest crook this state has ever seen . He needs to go.
07/19/26	Suzanne Gaub	60502	X	X						Randall Rd needs exit &entrance ramps.	Neutral	
07/19/26	Theresa	60630	X		X		X				Oppose	We already pay too much for tolls. Why don't you use the money we have already given you to do repairs and other projects. More costs equal less use.
07/19/26	Jef	60661				X	X			Consistent toll fees at each toll booth.	Oppose	.45 more is 60% increase where some of the tolls are currently .75. It should be capped at 5% increase. If inflation target is 2%. Toll increases should be in line. Consistent toll fees. 1 toll location should not be significant more costs. They range from .75 to $8.10. That is excessive already.
07/19/26	Harold Wilkinson	99130-8754					X		X	Affordable	Neutral	As an out of state traveler when driving west coast to east cost I consider all my costs in doing so. I may decide not to drive on your tollway which would take my traveling dollars to another state. This does not bode well for in stat business
07/19/26		60187	X				X			No other	Oppose	If the Illinois tollway adopts these proposed increases and continues to do so every two years, we will make every effort to avoid using the IL tollways.
07/19/26	Perry M. Frulla	60160	X	X			X				Oppose	I was blindsided by the 390/Thorndale installation. A short,well-traveled commute resulted in a toll for a distance of less than one mile. Little benefit to the working commuter in Itasca.
07/19/26	Ben Goldstein	60031			X		X			Lower toll fees, not higher toll fees	Oppose	When the tollways were built, the citizens of Illinois were told the tolls would be temporary. What happened to “Toll free in ‘73.”
07/19/26		60056		X	X		X				Oppose	
07/19/26	Pete H Raineri	60441	X				X			Cheaper tolls	Oppose	Are you insane? Seriously, us low paid non-tollway executives need cheap roads. Stop the increases.
07/19/26	Ignacio	60480			X	X	X				Oppose	No more taxes, stop sending money to Israel and then we won’t need all these taxes on the citizens
07/19/26	Josh	60148	X		X		X				Oppose	This is insane so much money is already taken from us yet the roads are always a work in progress or aren’t great to drive. It’s rare to find roads done right time and time again year after year
07/19/26	Chris cooper	60534	X				X		X		Oppose	It is my understanding the toll roads were supposed to be temporary yet here we are now raising the tolls again. Why are there still tollways? Mismanagement?
07/19/26	payton jernstad	60506				X	X	X			Oppose	
07/19/26	Loren	61701	X						X	Less construction	Oppose	
07/19/26		60004		X	X		X				Oppose	
07/19/26	Evonne Cash	53597		X	X		X				Oppose	Out of state iPass holders should pay substantially less since we are rarely in IL.
07/19/26	Zach Franklin	61528	X		X		X				Oppose	Where has all the money gone from the last 50 years of tolls. The tollway is crooked and corrupt. Overpaying for work and favoring contractors. Put an end to tolls like they were supposed to do when the tollway started in Illinois. I strongly oppose any increase in costs.
07/19/26	Daniel Winkelman	60177		X	X		X				Oppose	We already pay excessively high gas tax and now this. Proposed increase on tolls is unexceptable
07/19/26	C saraf	60031	X		X		X				Oppose	Do not need or want increase in tolls
07/19/26	Klimas	60527	X		X		X				Oppose	
07/19/26	Mojtaba Ahmadi	60193			X	X	X				Oppose	

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/19/26	Barry	60640	X				X		X		Oppose	People are getting on and off the tollway just fine as it is. It's a waste of money to add more access points. Make Better use of funds by maintaining the roads. You say making it more 'affordable' 'how? By raising the rates? Hippocratic!
07/19/26	Quin OBrien	60031	X			X				Build 53	Oppose	Build 53
07/19/26	f. wisinski	60154	X	X		X					Oppose	
07/19/26	Brad	60085	X		X		X				Oppose	
07/19/26	Daniel Herro	61115	X			X	X				Oppose	Don't spend our tolls on mass transit. Our tolls are supposed to be spent on the tollways themselves, not external projects. Cut the external project expenditures (mass transit, etc.), and spend the revenue generated by the tollway for the tollway. No need to raise tolls. Also, if the tolls are raised any higher, more people will avoid the tollway altogether, and there will be less revenue for repairs.
07/19/26	Suzanne Polkow	60561	X				X		X		Oppose	When tolls were implemented we were told it was temperately and now you want to increase them. As usual you can't believe what you say. I say get rid of tolls totally as promised.
07/20/26		60031				X	X			Job conmute	Oppose	
07/20/26	Alyssa valencik	60565			X	X	X				Oppose	
07/20/26	Nova Brooks	60628	X				X		X		Oppose	
07/20/26	Killian	60622	X	X				X			Support	Raise the commercial vehicles more than the passenger vehicles. Illinois residents shouldn't have to shoulder the burden when trucks account for more wear and tear on the roads. Trucking won't avoid Illinois just to avoid the rate hike. Charge them more. Passengers vehicles less.
07/20/26		60901	X		X		X				Oppose	
07/20/26	Jeffrey Carmelle	60163	X	X			X				Oppose	The Illinois tollway currently has a large surplus. Obviously it doesn't need to raise rates as the tollway is able to "maintain the roads at the current rates.
07/20/26	LaToya Doggan	62226	X		X		X				Oppose	The tolls are expensive enough, especially the fees incurred for not having a pass. Find other ways to fund changes.
07/20/26	Karla	60804	X		X		X				Oppose	
07/20/26	Jason	60099			X	X	X				Oppose	We have some of the highest taxes in the country. Gas is already high, partly because Illinois has a high tax rate on gas. We pay $150 yearly for vehicle tags. Where is all of this money going already? Over the last decade taxes and tolls have in increased, I-294 has been under construction for a lot of that time, and Illinois still needs more money? Property taxes are already super high. I live in a low income area and yet have one of the highest taxes in the country. Where is this money going? We need more answers and to find a better way to fund this stuff.
07/20/26	Anonymous	60067			X	X	X				Oppose	Traffic never gets better even with this never ending construction. The rate increase is too steep for daily commuters.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/20/26	FK	60177			X		X			Lower the cost of tollways	Oppose	I strongly oppose the proposed toll increase. Although this is described as the first toll increase in more than a decade, Illinois residents have continued paying tolls and taxes throughout that time. As someone who has lived in the Chicago metropolitan area for many years, it often feels like road construction is constant. Once the weather warms up, there is construction on local roads, state highways, and tollways across the region. Drivers have been paying for road maintenance and improvements for years, so it is reasonable to ask why such a significant increase is now necessary. The financial impact on working families should not be underestimated. My commute already costs about $2 each way, or roughly $5 per day per vehicle. With both my husband and me commuting, our household spends around $10 every workday on tolls. Increasing tolls by another 45 cents at each toll plaza will make an already expensive daily commute even more costly. The proposal states that better roads save drivers money in the long run by reducing traffic, fuel consumption, and vehicle wear. While everyone supports safe and well-maintained roads, residents also deserve transparency and accountability. Before asking drivers to pay more, the Tollway should clearly demonstrate how existing toll revenue has been used and why current funding is no longer sufficient. Illinois families are already facing high property taxes, taxes in general, insurance costs, and a rising cost of living. Instead of increasing the financial burden on residents, state leaders should be looking for ways to make Illinois more affordable. Proposing additional toll increases moves in the opposite direction. High taxes and fees are already causing many people to consider leaving Illinois. My family is among those considering relocating to another state because the overall cost of living continues to rise while new fees and taxes are regularly proposed. For these reasons, I respectfully urge the Illinois Tollway Board to reject the proposed toll increase.
07/20/26	Sandra E Yates	60008	X		X		X				Oppose	You are expensive as we speak
07/20/26	Sharon	60706				X	X			Cost of toll	Oppose	With the cost of EVERYTHING increasing everyday, the toll increase will make me avoid using it by going via a longer route.
07/20/26	Jamie aguinaga	60140				X		X	X		Neutral	
07/20/26	Michelle Beaudoin	60564	X				X			Tollway fees taken away, especially to senior citizens on fixed incomes.	Oppose	To the Illinois Tollway Board of Directors, I am writing to express my strong opposition to the proposed 45% toll hike for passenger vehicles. As a daily commuter who relies on I-88 to get to work, this increase represents a significant, immediate financial strain on my household budget.This proposal is particularly damaging because I am planning to retire in approximately five years. Transitioning to a fixed retirement income means I will have to strictly manage my expenses. The addition of automatic, inflation-adjusted toll increases every two years starting in 2029 makes it impossible to plan for the future.Furthermore, the tollway is my only viable route to visit family members. If these hikes are implemented, the cost will become too expensive, effectively isolating me from my loved ones. Roads should connect families, not price them out of seeing each other.The Tollway must find ways to fund its "Driving Connections" capital program without placing the financial burden on working-class commuters and future retirees who have already paid into this infrastructure for decades. I urge the Board to reject this proposal. Sincerely, Michelle Beaudoin
07/20/26		60031	X		X		X				Oppose	
07/20/26	Erik C	60046	X				X			Trucks having and using their own lanee	Oppose	
07/20/26	John Laliotes	60471	X	X		X					Support	
07/20/26	Amy	60136	X				X			Get your shit together with thr money you already have.	Oppose	I oppose the new increase in toll money. You are mishandling funds as it is and cant keep a budget. We are over taxed and the tolls are outrageous as it is. I already choose routes that do not include tolls for this very reason. The only reason why you are increasing tolls is to line your own pocket books and pay Pritzker on the side.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/20/26	Dianne	60655	X		X		X				Oppose	from the tolls they collect now; I don't see much improvement in the roads; still have tons of potholes created in the winter; with slow (if any) fixes in the spring/summer. You have to wait until someone loses a tire; or breaks an axel on the tollroad and gets on the news for authorities to listen and fix the problem; that shouldn't be standard practice. Look at Wisconsin - they don't charge tolls; and look at their highway system and other roads- the roads are BEAUTIFUL!!!! Why do you think that is? They also improve their highways - where do they get the money to do that? Not from tolls. I remember hearing once that the tollroad authority was only going to collect money for a certain amount of time; and then it was going to stop charging - guess that will never happen.
07/20/26	David Koontz	53089	X		X		X				Oppose	Increase is too steep. Price gouging. Will force much traffic to local roads.
07/20/26	Anna Rodriguez	60950		X			X			Convenient	Oppose	Illinois is killing us with taxes, and fees. We can't afford to live here let alone pay more more and more.
07/20/26	Don	60175			X		X			Good roads like other states that don't have tolls.	Oppose	This is just another example of how insanely expensive it has become to live in Illinois. Stop the madness!
07/20/26	Tina M Madigan	61068	X		X		X				Oppose	Get rid of illegal spending first
07/20/26	Anne	60446	X				X		X		Oppose	By providing maintained expressways at an affordable costs it provides affordability for all families and out of state travelers. When you start making it unaffordable then people use local roads increasing traffic. The expressways also reduce gas usage vs driving on local roads.
07/20/26	Bryan	60421			X	X	X				Oppose	I can barely afford my bills as it is. An increase as you say would be a drastic increase for someone who commutes and uses tollways often. I strongly disagree with pushing the cost on civilians when politicians continue to use tax money no to the benefit of the citizens needs
07/20/26	Kate	60467	X			X	X				Oppose	
07/20/26	John P Kavanaugh	60544	X	X				X			Support	I have been an IUOE Local 150 member for 2 years and live in Will County. I regularly use the Tollway system and understand how important these investments are to our communities, our economy, and working families. I use the toll way nearly daily to go to and from work. 2 great examples of toll way improvements that have changed my life for the better is the current and ongoing 294. It is amazing what it was and how much better it is now. Also I grew up along 355 in lemont seeing that get extended and was an amazing improvement to the city of lemont as a whole
07/20/26	Consuelo Boyd	60446	X		X		X				Oppose	I vote no to any proposed increase in toll rates.
07/20/26	Paul Hess	60531				X	X			Typical gov bullshit pick three?	Oppose	I'm waiting for them to stop charging toll that was as promised to stop a long time ago work on that
07/20/26	Deedee Paluch	60035			X		X			Cheaper, not higher, tolls	Oppose	People are having difficulty filling their gas tanks. Now is not the time to raise tolls.
07/20/26	Kathleen	54821			X		X			Speed of drivers	Oppose	I used to live in Chicago but will not return. Your taxes, both at the store and property taxes, are way too expensive and your tolls are already too costly. On average Chicago makes about 5 million a day on tolls, you have no more toll booth operators so everything is online generated. In one year the toll system, which was designed to be temporary, now keeps going up. At what point are you going to stop charging Illinois residents or visitors? Use the average of 2 billion a year generated from the already current tolling system and use that to build the changes you are looking to make. Manage the money you have wisely and stop charging residents and visitors! At the current rate, I'm going to avoid as many tolls as possible even if it means driving further to avoid the toll increase if this is what Illinois decides.
07/20/26		60639	X			X			X		Oppose	Finish construction on the Edens near Old Orchard in Niles off Touhy.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/20/26	Elizabeth Kozak	60491			X	X	X				Oppose	The original idea of tolls was to repay the construction loans to build them which would have been re-paid years ago if that was the case. I generally use I-355 and find the tolls extremely high when compared with other toll roads in other states. Many of the states I drive through have no toll roads at all and maintain and improve their roads. Why can't Illinois do the same? Find a way to maintain them the same way you maintain the Stevenson Expressway or the Dan Ryan. Even if you go a short distance on I-355 you pay an exorbitant amount in tolls which quickly add up. An increase of 45 cents per toll will quickly add up to a minimum of 90 cents a day if you only use 1 toll going and then returning. Generally you will pas through more tolls so this will incur a significant increase in tolls for drivers and impact their monthly budget. When I-355 was completed years ago the contractor was paid millions for completing the project on time! He was given a bonus for doing what he was supposed to do. Stopping this kind of practice will give you more fund for maintaining the roads. We already have the highest property taxes and gas prices in the country. Do we need to have the highest toll rates as well? Please think of the overburdened tax payor before implementing this increase. At the very least reduce the amount of the increase to half of what is proposed. Have you every thought about reducing the amount of tolls paid by seniors? Their I-pass could be programmed to charge a lesser amount. This would help those no longer employed and on a fixed income. Final thoughts - I would love to eliminate tolls all together so I do not have to reroute to avoid the toll roads. Thank you.
07/20/26	Armando Perez	60046	X	X		X					Support	
07/20/26	Stephen Sodergren	60634	X		X	X					Oppose	You say you want more money to create better tollway conditions, well what you did at EB 88 and the ramp to northbound 294 is a design similar to the Hillside Strangler. After all the money spent, this is what you designed. Horrible
07/20/26	kyle mayer	60477	X		X		X				Oppose	If you go to alot of other states there roads are like glass. Our roads are constantly shut down for construction and they are still trashed. We use salt that don't help. No one is out here enforcing that semi's stay out of the far left lane causing traffic jamming. Plus the tollway was supposed to go to the roads, and schools. NOT KEEP GOING UP CAUSE THE STATE IS BROKE!. every year I get a dollar raise. Everything else goes up four or five dollars. Oppose oppose OPPOSE!!!!! This states ripps enough people off!
07/20/26	Pankaj	60559	X		X		X				Oppose	No way to increase the 45% of toll for the general public. With income and other tax it's too much for the middle class public. I strongly oppose this increment. 3 to 5% is okay.
07/20/26		60617	X			X	X				Oppose	The citizens of Illinois already are suffering from an increased in property taxes and inflation period. There is always construction and terrible roads yet the citizens keep having to pay the cost of plans that never end or improve. Is there not another plan? Does not each city have a budget already in place to cover these expenses that the citizens are already paying taxes for. Make it work some other way.
07/20/26	Miles	53210			X		X			Tolls are a rip off	Oppose

Roads are always torn up and a mess and expensive.
07/20/26	Leah	60563	X		X		X				Oppose	
07/20/26	Cheryl	60177	X		X		X				Oppose	Based on the levels of mismanagement and fraud in the government and government entities I am against any increases in any taxes imposed on taxpayers. In fact, I would like to see steady decreases in taxes and different people in charge who are honest and can get things done efficiently.
07/20/26	Donna Castle	60140	X		X		X				Oppose	It’s a bit too steep. I already pay gas taxes for roads. The toll road was supposed to be toll free after so many years.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/20/26	Robert Ulcigrai	60464	X			X	X				Oppose	Drivers have paid roughly $29.2 billion in Illinois tolls since the collection era began. The system was initially authorized in the 1950s with a promise to become "Toll free by '73", but lawmakers made it permanent, with collections exceeding $26.8 billion from 1973 through 2024 alone.
07/20/26	Barbara Larson	60172-2088	X		X		X				Neutral	
07/20/26	Aubrey Lucas	60466		X		X	X				Oppose	The current toll costs was for road maintenance and improvement. So why does the new project even need to happen. The current revenue and work should already be doing this. Increase should be somethong voted on by all voters. Not this comment section that few people will see or comment in.
07/20/26	Bryce	60014			X	X	X				Oppose	Between gas taxes, vehicle registration and tolls Illinois has become to expensive for Illinois motorists.
07/20/26	Doug Thompson	62025	X		X		X				Oppose	It's too expensive, funding is not provided to downstate Illinois and the tie to the inflation index will make it even more expensive in the future. Plus, there is no guarantee how the new tax money will be spent.
07/20/26	David Garvey	60510			X	X	X				Oppose	The Illinois Tollway is nothing more than double taxation and political contribution money laundering for political support for construction union members. The Tollway should be abolished as it is ripping off tax payers.
07/20/26	Doug	60516	X		X		X				Oppose	Really? A $.45 increase. Way too high. I will find alternative ways to travel.
07/20/26	Allan Luzbetak	60441	X	X			X				Oppose	For a majority of people public transit is not an option higher tolls for commercial vehicles will add to costs reduced affordability of goods and services
07/20/26		60193			X	X	X				Oppose	Sounds fishy and overly expensive considering current economic challenges. It's suspicious and unacceptable to give Illinois government a blank checkbook with forever increases every 2 years with no further recourse.
07/20/26	Ruby Escuadra	60451	X				X		X		Oppose	No! No to higher toll fees
07/20/26	KARL HEITZ	60435			X	X	X				Oppose	Illinois already charges too much for tolls compared to other states.
07/20/26	Mike Smetana	60516	X			X	X				Neutral	The automatic increase is particularly concerning and should be removed from consideration. Any future increases should require the same justification and hearings to prove why more money is needed.
07/20/26	Kathryn Janeice Lannom	61704	X		X		X				Oppose	with costs for simply being alive rising in every quarter of our lives, your timing could not be worse.
07/20/26	Daniel A Joseph	60056		X		X	X				Oppose	100% No. Illinois are way too high already, we need to cut spending, stop funding the bankrupt Chicago Teachers Union, and other unsuccessful programs, especially in Cook County. Cut these programs lower taxes and you will have the money to do these programs.
07/20/26	H Simon	60462	X			X	X				Oppose	Tollway funds have been mismanaged for years and enough is enough. Illinois taxes are extremely high and continue to rise. Consumers are being squeezed in all areas and this increase is ridiculous. Lawmakers need to tighten the budget, cut excess spending and figure out how to be fiscally responsible!
07/20/26	Walter	61065	X		X		X				Oppose	Other states do not have tolls and there are plenty of jobs and well maintained roadways The state is misappropriating funds and is irresponsible with tax payers money states like Florida are always in a surplus and do not need to tax residents for using roads to go to work the Illinois toll system was initially temporary when the state figured they could use the funds for other projects they imposed them as permanent the state has a spending problem it shouldn't be resident's responsibility the tolls paid themselves and the state once again has failed the residents and misappropriated funds due to lack of money management so this increase is yet another excuse to make Illinois better when all of it's a huge money grab
07/20/26	Holden	60093	X		X		X				Oppose	The whole point of this hike isn't to make our roads better it's to rollout a new budget forecast that lines corporations pockets. You should only increase tolls where you haven't recouped your expected investment.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/20/26	James Rixie	60563	X			X	X				Oppose	The Illinois Tollway already collects a tremendous amount of money from drivers. These funds should be going to the roads, but instead they have been diverted to cover state budget gaps that have nothing to do with roads. Spend the money that you already have in the way that you promised, which should be the roads. Balance the rest of the budget. I have to as a consumer otherwise bill collectors will come knocking. Why shouldn't the state?
07/20/26	Denice Link	60031	X				X			No construction areas that never seems to get finished	Oppose	If the rates go up as proposed I will find roads that do not charge tolls
07/20/26	Willis	60638	X				X		X		Oppose	At every turn, tax payers are constantly burden with rate increases. The roads and high ways are still in disrepair. Taxes and rates keep going up, but the living wage, remains down. In the current state of the economy, it is not affordable for me as a citizen and tax payer to take on another rate increase
07/20/26	Jor	60477	X			X	X				Oppose	Stop charging your residents to use a road.
07/20/26	Barry	60189	X				X			Lower toll rates	Oppose	Tolls are already too expensive for how messed up our roads and highways are.
07/20/26	Suzanne Alpert	60097			X		X			Less construction and lane closures	Oppose	With this hike more people will avoid the tollway. Also pretty tired of construction and congestion already
07/20/26	Ken Macko	60046				X	X		X		Oppose	I think this proposed increase is absurd. When these roads were built, tolls were supposed to be eliminated once the bonds used to build were paid off. Yet we not only continue to have tolls, rates skyrocket at an incredible pace, there are constant construction blockages with no work being performed, projects take too long and the whole system is totally mismanaged, as expected with any government, especially Illinois, agency. One of the many reasons to leave this god awful state.
07/20/26	Saloni	60193	X	X			X				Oppose	With all the inflation and lack of consistency in woes increasing proportionally this will put a large burden of residents of Illinois evsn to travel to work
07/20/26	Bryan Pett	60525	X		X		X				Oppose	Enough already. Other states seem to thrive and survive without tolls. This is just another example of out of control government spending that has no end. Instead of cutting spending, we just mandate more money from the people. I recently drove from Illinois to Florida and there were no tolls—and better roads—immediately after I drove out of Illinois.
07/20/26	Donald Hespell	60441			X	X	X				Oppose	Well, of course! This is Illinois, after all! OF COURSE you are proposing steep toll increases. Ridiculous!
07/20/26	Deborah E Boylan	60046	X				X			Affordability is the main and only thing.	Oppose	I have no problem with the Tollway system as it is. When the current construction is complete, it will be much better. No additional tolls are necessary. The Tollway has saved tons of money by no longer employing toll booth attendants. Use all the savings and current toll rates to fund projects. Pick one thing at a time and fund it within your current budget. Vote NO to toll increase. The tolls are already quite high.
07/20/26	Cunningham	60634	X				X	X			Oppose	
07/20/26	Scott Gloodt	60464			X	X	X				Oppose	No toll increases!!!!!!!!!!!!!!!!!
07/20/26	Deena Norris	60552					X		X	An end to infinite road construction!!	Oppose	Extremely tired of the never ending road construction. 294 has been a ridiculous mess for YEARS. Now you want to charge us more AND we still have to deal with traffic messes due to construction. NO!!!
07/20/26	Kathleen Rospenda	60201	X		X	X					Oppose	If the toll rate increase was to support more construction of more public transportation infrastructure, I would support it. I have trouble supporting a rate increase at a time when we should be focused less on supporting car culture and more on supporting environmentally sustainable options. Plus the endless construction on 294 is just too much. Reducing construction would help improve traffic flow.
07/20/26	Robin	60062	X		X		X				Oppose	Tolls were collected initially to make the tollway. Tolls were supposed to be obsolete after funds were collected. That was decades ago. Since you still collected it for decades, then you should have enough money to maintain it. Hiking it now is being greedy. Stop the greed and make the tolls obsolete or a lot less than what you are charging. A hike? Ridiculous! Just money grabbing and not necessary.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/20/26	Greg Jaglowski	60172				X	X			Affordability once again!	Oppose	Why was email notification about public hearings sent out 5 days after the public hearing was conducted?
07/20/26	Corey Fulton	61278	X	X			X				Oppose	Tollways should operate on the minimum amount necessary to cover maintenance and limited employees. They should serve as high speed links over long distances. In congested areas like Chicago and it's suburbs the expenses should be spread / shared across the tax base of cities/counties they serve rather than cause general increases .
07/20/26	Pedro	61201			X		X			That there are none.	Oppose	None of our money goes towards anything useful in this state. Tired of seeing our tax money and toll money going towards failed initiatives in Chicago. Pritzker is a Billionaire Democrat, let’s see his tax documents. Homie couldn’t run a race let alone a state.
07/20/26	MaryAnn Gunderson	60124			X	X	X				Oppose	I am not understanding how, in this state of tax and spend the appointed board can justify forcing people to pay extortionate prices to use roads that were supposed to be paid for 53 years ago. I’m tired of bailing out Chicago and paying for the politicians poor budget choices
07/20/26	Brandon Hilby	53185		X			X			Reducing vehicles that should not be on the road. (poor condition to drive)	Oppose	I respectfully but strongly oppose the proposed toll rate increase. While I recognize the importance of maintaining and improving the Illinois Tollway system, this proposal places an additional financial burden on the individuals, families, and businesses that rely on the Tollway every day. For many commuters, using the Tollway is not optional. It is a necessary part of traveling to work, school, medical appointments, and other essential destinations. Increasing passenger vehicle tolls by approximately 45 cents per trip, raising commercial vehicle rates by 30 percent, and implementing automatic Consumer Price Index adjustments every other year will significantly increase transportation costs for those who already face rising expenses in many other areas. I am particularly concerned about the proposal to automatically adjust toll rates based on inflation. Any future rate increase should be evaluated through a transparent public process rather than occurring on a predetermined schedule. Public accountability is essential whenever additional costs are imposed on taxpayers and motorists. Before asking customers to pay more, the Tollway should clearly demonstrate that existing revenues have been managed efficiently, that operating costs have been carefully controlled, and that all reasonable alternatives have been fully considered. A detailed explanation of why current funding is insufficient and how every additional dollar will directly benefit Tollway users should be provided. The Illinois Tollway is an essential part of the state's transportation network, but affordability must remain a priority. I encourage the Tollway Board to reject the proposed rate increase and pursue solutions that preserve critical infrastructure investments without placing additional financial strain on the motorists who depend on the system every day. Thank you for considering my comments.
07/20/26	Brad	60563	X			X	X				Oppose	The government misused our taxes in the first place. Why give them more money.
07/20/26	Max	60192	X		X		X				Oppose	
07/20/26	Alex	60185	X				X			Free access	Oppose	I’m a Democrat but JB is a disgrace! This is disgusting so much taxes yet they wanna add more? Thieves
07/20/26	Larry Limbach	60142			X	X	X				Oppose	Don't raise toll rates
07/20/26	Susan Angelini	60631	X		X					Eliminate tolls	Oppose	Tolls we're supposed to pay for the roads which they've more than paid for by now.
07/20/26	Michael R Collins	60123	X	X			X				Oppose	Stop the Illinois greed. You are taxes all of us to leave. Property tax, sales tax, you name it. Illinois is taxing out it's highest earners.

07/20/26	Pamela	60142	X				X			Police back on the road!	Oppose	I cannot afford more increases. Thank you
07/20/26	Asia Bell	60411	X		X		X				Oppose	This economy is ridiculous right now let’s be honest! Job market isn’t too good either. Raising costs will cause more debt to customers or less people to use it due to affordability which is sad!
07/20/26	Patti Limbach	60142			X	X	X				Oppose	Don't raise toll rates
07/20/26	Brian Loftin	60187			X	X	X				Oppose	Don't raise toll rates

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/20/26	Michael P Broglin	60174	X			X	X				Oppose	All you do is increase taxes and then divert the money elsewhere. Enough is enough. If you can't figure out how to balance a budget, maybe you should all go back to school.
07/20/26	Tamara Field	60073			X	X	X				Oppose	
07/20/26	Stan Stanton	60180			X		X			typical Illinois tax everything to death!!!!	Oppose	A 30% increase at a time when inflation is consuming most working people's wages on top of the massive property tax increase due to revaluation of property is going to hurt most of us. Fortunately I don't use the tollway since our plant moved to Naperville. North-south vs prior east west ride. However my son who drives 2 hours to work on some days either totally or partially on the tollway says he & his wife are going to be saddled with an expense that wasn't planned in their budget. Illinois seems to be one of the highest taxed states in the nation and adding this addition cost will drive some folks to expenses they can't afford. My family strongly opposes this additional financial burden.
07/20/26	Tejas Shah	60173	X		X		X				Oppose	There are no new significant benefits to drivers that warrant a toll increase. Tollway system removing manual booths which reduces the staff cost to support. So toll shouln't be increased, it is already an added burden to the family. I strongly oppose the increase.
07/20/26	Helene Dvorak	60101-2998				X	X			Direct routes	Oppose	I strongly oppose this proposal. In this time of substantially increased costs, the government needs to help the public, not raise tolls, especially such a massive increase. These roadways get us to work every day. This is too high and at the wrong time.
07/20/26	Carolyn Anthony	60473	X				X		X		Neutral	I'm a senior, the tolls expensive now the economy is horrible this is another burden on us infrastructure should have always been in a budget cuz you know this day was coming for repairs so more on the consumer. This country is in bad shape horrible leaders.
07/20/26	Michael P Jakubiec	60175	X		X		X				Oppose	NO MORE TOLL INCREASES! Get rid of the overpriced union employees!
07/20/26	Kellie Case	60457			X	X	X				Oppose	To sit in bumper to bumper traffic and take over an hour to go 13 miles is ridiculous. I am not in favor of having to pay additional tolls (which I pay three of them for my commute daily to work) to sit in road construction where no one is working, to sit in bumper to bumper traffic. I do not see that this new traffic pattern will alleviate congestion or speed. Do not raise this. This is a disgrace to be paying for.
07/20/26	Brandon Durbin	61840	X			X	X				Oppose	The Illinois tollway is by far one of the most mismanaged projects in Illinois. Our tax dollars are already alloted to infrastructure management and we pay EXTRA to use the tollway. They tollway is constantly under construction and exhibits poor driving conditions already. More money will not help the mismanagement of Illinois taxpayer dollars. Strongly Oppose!
07/20/26	Allison Havens	60615	X		X		X				Oppose	You have made 1.4 billion dollars in 2024 alone from tolls, 27 billion since the tollway has begun. That's more than enough money needed to cover these long overdue repairs yourselves. It's obvious that investments have not been made on this toll road and yet it's one of the highest tolls in the country. There are frequently broken toll booths, pot holes, and traffic because of long lines for the tollbooths. Pure greed would lead you to think it's ok to raise rates on the people who have made you rich and who have already been overpaying for lousy service for too long.
07/20/26	Pam	60188	X			X	X				Oppose	The IPass is a great device which makes tollways more convenient. However when you drive to work on a daily basis, between your potential rate increase and the price of gas nowadays, I would have to oppose the new rates.
07/20/26	George Cook Jr	61752	X				X		X		Oppose	Illinois under Pritzer is taxing us to death. Residents downstate are SICK OF CHICAGO POLITICIANS WHO CONTINUE TO ROB ALL OF US!!!
07/20/26	Karlos Ramirez	60172					X		X	Construction at night	Oppose	Way too much cost
07/20/26	Stefan Poulsen	60192	X			X	X				Oppose	
07/20/26	Linda Pushaw	60007	X			X	X				Oppose	Oppose the amount of the increase. Would support half the amount, with increases coming only every 5 years. 2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/20/26	Peter Kolov	60193	X			X	X				Oppose	It's hard to understand how every state surrounding Illinois has cheaper gas (and therefore collects less money for roads), no toll roads, and still manages to maintain better roads. Clearly, their transportation management is much more effective than Illinois'. Instead of asking taxpayers for more money, become more efficient and start putting people first. Stop wasting taxpayer dollars.
07/20/26	Mark Kluga	60048	X				X			More State Police presence. Rarely if ever see them.	Oppose	You have basically told us nothing in detail by leaving your buzz words like "technology" undefined. For example, What do you mean by: "SmartRoads, improving customer-facing technologies etc." Need detail on each topic you mention, not just "feel good" words.
07/20/26	Aldona Fisiak	60120	X	X				X			Oppose	Other states do not have the tolls but maintain the quality of their highways
07/20/26	Mike	60401	X			X	X				Oppose	Just another Illinois tax that is oblivious to the nature of responsible spending.
07/20/26	STEVEN A BALDASTI	60192	X			X	X				Neutral	Since we will be forced to accept the rate increase, I would expect to see more Troopers on the road to ensure safety and security. I drive the Northwest Toll from Roselle to the Kennedy end point at least 5 days a week and rarely if ever see a Trooper.
07/20/26	Lois Skibicki	49920	X				X		X		Oppose	To much to sit in traffic.
07/20/26		60110	X			X	X				Oppose	
07/20/26	Tammy Baker	60466	X			X	X				Oppose	The tolls are already expensive for most! There is not actual signage to tell you what that toll costs, you even have dynamic pricing! I have travelled on toll roads to just end up sitting- thinking I paid for this?! I am opposed to this toll increase! No one wants an increase, but be realistic- this is robbery for the average toll road travelers!
07/20/26	Dawn	60463	X			X	X				Oppose	I think we pay more than enough. I oppose definitively!
07/20/26	FRED KAHN	60089	X			X	X				Oppose	Any money needed should come out of the gas tax "Build Illinois" program, the cash is just sitting there doing nothing. Illinois taxes in general are way to high and this proposed increase is just piling on. It appears to be just another Illinois cash grab "just because we can" get away with it. I think all the public hearings are a waste of time (and money!) because this increase is already a done deal
07/20/26	Kevin Bischel	60657	X		X	X					Support	
07/20/26	grace guttilla	60016	X	X	X						Oppose	I don't use the Tollway, so it won't affect me whether it's increased or not. This is just a reminder that as many of us recall that the tolls were supposed to be temporary. Look where we are NOW!
07/20/26	Dan Goldberg	60106				X	X		X		Oppose	The Governor promised not to raise tolls and he is in charge of the board. If he runs for President this will be a really big issue. I am retired and cannot afford the increases
07/20/26	Brooke	60102					X	X		No tolls	Oppose	Tolls were supposed to be temporary. Toll free in 73. Please do not increase tolls. This greed is ridiculous. I don't believe anything would get better. Just more construction.
07/20/26	Deb Clay	60544	X			X	X				Oppose	i feel 30 % increase is excessive 45 cents per toll is an extreme increase. You should look at a more realistic proposal I would never support this increase. Our area has a high tax basis and adding this increase on top of the already high taxes I cannot support!
07/20/26	Alan Shattuck	61265	X				X		X		Oppose	The state of Illinois continues to want more and more money. I believe we should live within out means. We continue to lose population. NO new taxes and that includes this project which is just another tax.
07/20/26		60056	X		X		X				Oppose	
07/20/26	Alan Januszewski	60477	X		X		X				Oppose	NO INCREASE IS MY VOYE
07/20/26	Lisa	54235						X	X	Safety	Oppose	Not enough police presence (which is more important). I've been harassed everytime I travel IL roads, which is why I moved to WI. IL is not spending money in the right areas and has become more demanding of citizen's money and not enough in exchange for it (i.e.,protection). Not giving IL my retirment income anymore.
07/20/26	Therese Hanysz	61301	X						X	Safety on the roads	Neutral	The idea that the price is going up and the roads are more dangerous than ever before is more a joke than anything! And it isn't just the toll roads. This is one reason I hardly ever drive the toll because what is the difference between the toll and the rest of the roads???? There is construction on all the roads! And the drivers are always speeding faster than the speed limit like they are on a race track! No matter what time of year it is! I am not paying to die

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/20/26	Travis Podrug	60030			X	X	X				Oppose	I don't support an increase of even a penny.
07/20/26	Patrick	60103	X		X		X				Oppose	Years ago the Illinois Tollway told my parents that the Toll fees were a temporary thing and they would be free. So what happened, now you want to raise the fees and cost us more money. Wisconsin and many other states have no tolls and there roads are better than ours. So what's the catch! I don't understand! Explain please! If not free at least lower the tolls don't increase them!
07/20/26	Mark R	46311	X		X		X				Oppose	The Tollway was created as a temporary fix - not something that would continue. It was suppose to end no later than 1973. At least that is what the politicians of 1953 and later promised. And the promise was broken again and again and with it, trust that politicians would do right by the people and for the people. The tolls were supposed to be removed once the money used to create highways was paid. (ABC News Chicago) And now you wish to raise it even more with high gas prices, high taxes, high car insurance. Instead of figuring out where the state is bleeding money or where it is disappearing, government officials continue to push the cost onto citizens, and also the neighboring state of Indiana where Illinois residents are flooding to due to high cost and taxes of Illinois. Do the decent and honest thing - don't put this cost on hard working citizens who are simply trying to make ends meet.
07/20/26	Donna Rehman	60190	X			X	X				Oppose	The toll increase is horrible for ANYONE who drives every single day & lives far away from Chicago. Or even half way !! You are talking 2 times a day 5 days a week!! That is HORRIBLE. Against it BIG TIME !
07/20/26	Peter Tom	60175	X			X	X				Oppose	If the tolls are being raised to support rta, why are only a selected group being charged even more money for improvement and maintenance? Heres an idea - share the wealth - make kennedy, ike, edens, 55, dan ryan, lsd into toll roads - spread it around so its not the same people paying for others benefits over and over again - thank you
07/20/26	Anthony V Marino	60514	X				X		X		Neutral	I believe continued upgrades to our tollway system is necessary, but it comes with a downside. The increase to commercial vehicles will find its way down to the consumer. The noncommercial I-Pass users will get hit on both ends.
07/20/26	Tuyen Phan	60025			X	X	X				Oppose	I strongly oppose any toll increase. Commuters like myself already pay $4 per day simply to travel to work, which represents a significant and growing financial burden. Raising toll rates would further strain working individuals who rely on these routes daily. For this reason, I respectfully urge decision-makers to reject any proposal that would increase toll costs.
07/20/26	Therese	60460	X				X		X		Oppose	Too high a financial burden for Illinoisans, better to maintain what we already have. Best service available for me when I ran over a metal pipe on I-88 is the *999. He was there to help me on the ramp within a couple minutes near Farnsworth Ave by checking the damage, advising me and taking a picture underneath the vehicle for the Honda dealer. Great job in helping me! Best Service ever for a single person alone at night....
07/20/26	Sam D	60803				X	X		X		Oppose	Tollway was supposed to be temporary... You all are scum
07/20/26	Ken Maggiore	60051	X	X		X					Support	As a member of IUOE Local 150, I support the Illinois Tollway's Driving Connections Capital Program. These investments help maintain and improve the roads and bridges that millions of people rely on every day while creating opportunities for skilled construction workers.
07/20/26	John	60193			X		X	X			Oppose	The increase to the tolls in this economy is absolutely insane. People are already struggling to make ends meet and this makes things even harder. The focus should not be on improving roads, it should be on affordable and environmentally sustainable transportation. Busses and trains are what should be receiving our funding. This is a joke. You'll have doubled toll fees in 2 years with this proposal. Who's pocket is all this money going into?
07/20/26	Mien Hoang	60025			X	X	X				Oppose	I strongly oppose any toll increase. Commuters like myself already pay $4 per day simply to travel to work, which represents a significant and growing financial burden. For this reason, I respectfully urge decision-makers to reject any proposal that would increase toll costs.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/20/26	Joel Sacks	60195	X	X			X				Neutral	I remember that the original tolls were to be eliminated once the initial bonds were retired. That obviously didn't happen and tolls are here to stay. Some tolls make no sense. For example, why is there a toll at the I-90 westbound entrance at Meacham Rd when every exit thereafter has a toll? A driver would pay .90 to enter at Meacham and exit at Roselle or Barrington. Similarly, a the toll from eastbound I-90 to southbound IL-53 should be eliminated as there is a toll at each eastbound I-90 entrance. There are other 'discrepancies' in tolls as I have always understood that the rates are based on the miles driven between points. The I-355 rates are the highest for no good reason.
07/20/26	Christopher Siek	60563			X	X				Stopping slower drivers from driving in the left lane.	Oppose	My current opposition is due to the utter lack of transparency about what this initiative actually entails. I've clicked through all the links I could find, and nowhere is the plan explained, despite the assertion that "This Strategic Plan provides a broad yet well-defined path to success." Well-defined to whom? Also, I received the email about this on 7/19 - days past any public hearings in my area. The complete lack of easy public access to the details of this plan screams big-money boondoggle to further enrich wealthy contractors and public officials.
07/20/26	Helen Polgar	60490	X		X		X				Oppose	tollway was paid off 50 yrs ago. Last year more money was made in tolls than ever before. Where does all this money go? I see constant construction but very few positive results. Better use of taxes and tolls not increases in tolls. We cannot afford any more.
07/20/26	James Domenella	60015	X				X			Cost	Oppose	Tolls were never supposed to be permanent. I am opposed to increasing them and would rather see them reduced or removed entirely.
07/20/26	Laura Ashley	60455			X		X			STOP YOUR SPENDING and get rid of the Illegals if you want to save money!! I'M DONE PAYING FOR ALL OF IT!!! CANT WAIT TO MOVE OUT OF THIS HELL HOLE!! CANT WAIT TO MOVE OUT OF THIS HELL HOLE!!
07/20/26	James Dulski	60638			X		X			Cost	Oppose	I guess I won't be using the tollway anymore.
07/20/26	Ellen Schmitt	61252				X	X	X			Oppose	
07/20/26	Chris Benson	60074	X		X		X				Oppose	We all realize it takes funds to maintain a functional system. The rate of the proposed increase is too high. Smaller increases are more palatable. Also, the seemingly never-ending repairs and poor/rough roads are dangerous and maddening.
07/20/26	G Trefilek	60558	X		X		X				Oppose	There is never any police presence on the tollway and I have been driving the tollway for 20 years. TRUCKS DRIVE IN THE LEFT 2 LANES WHEN THE SIGNS SAY NO TRUCKS IN LEFT 2 LANES. Why don't you ticket them and collect the fines??
07/20/26	Jessica Tsapralis	60458	X		X		X				Oppose	
07/20/26	B Nowak	60073			X	X	X				Oppose	
07/20/26	Elise Bertucci	60638	X			X	X				Oppose	Increasing the toll prices will encourage more use of non toll roads and other "side streets" which are not in good condition and causes more traffic in neighborhoods.
07/20/26	Les Morgan	61114			X	X	X				Oppose	Illinois and Pritzker are already taxing us to the maximum. NO TAX INCREASES!!!!
07/20/26		60467				X	X			Traffic keeps moving even during peak driving time (rush hours)	Oppose	The proposed increase is too much all at once,plus there is no transparency in what i am paying today. Costs should be posted by every toll. Any increase should be justified with explanation of what we are getting for the extra money
07/20/26	James Neblock	60135	X				X			Cheaper tolls	Oppose	Do not raise the cost of tolls! JB has raised taxes 57 times and is pricing people out of the state while trying to buy the votes of the illegals by giving them everything for free. We are tired of paying for Chicago's failed policies and piss-poor management. Stop raising the tolls!!!!!!! What happened to "toll-free in 73"?

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/20/26	Jacob Darley	60435	X				X			Fiscally responsible politicians	Oppose	Illinois' budget continues to grow as our credit rating is still the lowest in the nation. Please stop spending money & making promises that end up as another taxpayer burden.
07/20/26	CJ Adams	60586	X		X	X					Oppose	I love the moment we are on a road trip and Leave Illinois. The Clean, Well Maintained, Toll-Less roads are a breath of fresh air. My wife and I told each other that once our son graduates high school, we are moving out of Illinois. That graduation day has come and the countdown has begun! 284 more days, can't wait!
07/20/26	Jaclyn	60456	X		X		X				Oppose	The tollway was never to be funded continuously by the citizens of Illinois. Tolls were to be "temporarily" imposed and then end - In 1953 the General Assembly created the Toll Highway Commission to borrow money to build the tollways. "Toll Free in 73" A promise to the citizens they would become free once construction bonds paid off. After which the roads would be funded by gas tax. The original bonds were paid off in the 1980's but the till system continues. The people do not need an increase for what should be covered by the gas tax. Where are OUR tax dollars going if you need to keep tolls in place?
07/20/26	Rachel Perkins	46526	X				X		X		Oppose	
07/20/26	John Gundy	46322			X	X	X				Oppose	As a person who travels the toll road mainly for work, tolls are not fair to working families. I have no choice as the alternative is using 94 and Ive been shot at on that road. Please reconsider the increase and putting it on the back of people going to work.
07/20/26	Dave	60446	X		X		X				Oppose	STOP INCREASING THE FUCKING TAXES AND INCLUDING THE RATES FOR THE TOLLWAYS. GO RAID JB PRITZKERS FAMILY FUNDS AND WEALTH TO RAISE MONEY FOR YOUR PROJECTS. YOUR ALL SCUM.
07/20/26	David Cange	62226	X				X			I never use toll roads.	Oppose	When the tolls were enacted, they were supposed to be temporary. How about keeping your word and eliminating them. An increase of 30% on trucking will only increase the cost of everything the trucks carry. I thought affordability was an issue for the Democrats. Quite being hypocrites.
07/20/26	maureen l peterson	60465			X	X	X				Oppose	You are being greedy with this much of an increase. AND to ask for an increase EVERY 2 YEARS !!!???? Not only will WE pay for using the tollway but we will pay even more for all the businesses that use it as well. AND don't get me started on the mess your contractor of choice has made on construction on 294!!! I HATE how long this has taken & the mess of configuration the engineers have designed. If this is what you want the money for, NO, you cannot responsibly use this much of an increase. Be respectful of what your customers can afford. You can raise it at just below 9% equaling 7 cents.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/20/26	John Brooks	60154					X		X	Toll road is to expensive	Oppose	Formal Notice of Unequivocal Opposition: Proposed "Driving Connections" Capital Program and Toll Rate Increases To the Illinois Tollway Board of Directors, Executive Leadership, and Appointing State Officials, This correspondence serves as formal, unequivocal opposition to the proposed "Driving Connections" 15-year, $26.5 billion capital program and its aggressive, compounding toll rate hikes. Approving a sweeping financial extraction from working commuters and local businesses under the guise of infrastructure renewal is economically irresponsible and politically indefensible. The proposed funding structure imposes an immediate, regressive financial burden on the citizens of Illinois: * Regressive Commuter Penalties: A 45-cent per-toll increase for passenger vehicles starting January 1, 2027, is a direct, unavoidable tax on working families. Daily commuters cannot opt out of these corridors to get to their workplaces. Forcing them to bankroll a $26.5 billion expansion ignores the ongoing cost-of-living crisis already straining household budgets across the state. * An Inflationary Catalyst: A 30 percent rate hike on commercial vehicles is an attack on the regional economy. Freight carriers, contractors, and logistics companies will not absorb these costs; they will pass them directly down the supply chain, inflating the retail prices of groceries, consumer goods, and essential services for every Illinois resident. * Abdication of Public Oversight: Instituting automatic, biennial toll increases tied to the Consumer Price Index beginning in 2029 is an unacceptable administrative overreach. By embedding automatic rate hikes into the system, the Board is attempting to permanently insulate itself from public accountability, stripping taxpayers of future oversight and creating a perpetual revenue machine without debate or vote. State leadership and appointing authorities must recognize the untenable political liability of advancing this proposal during the active 2026 election cycle. Illinois voters are acutely sensitive to government overreach, inflation, and backdoor taxation. Attempting to quietly push through an unavoidable daily surcharge on millions of drivers right before voters head to the polls in November 2026 is a profound miscalculation. While the Tollway operates as a separate authority, the electorate does not distinguish between administrative boards and the elected officials in Springfield who appoint, oversee, and empower them. Voters will directly attribute this recurring hit to their wallets to the incumbents who authorized or enabled it. Pushing this burden onto the public during an election year is political malpractice, and working families will remember who treated them as an ATM when they cast their ballots. The Tollway must operate within its financial means through rigorous fiscal discipline, operational efficiency, and the
07/20/26	Mark Phillips	61032			X	X				shorter routes	Oppose	Raising rates on a toll road which has so many travelers each day anyway is counterproductive and takes a further toll on our pocketbook. .45 cents for each toll is a steep incline which increases the cost of travel to Chicago from any point almost double. This is another attempt to gouge even more money. The gas tax alone is .50 cents per gallon and the oil companies gouge us by not following market prices. Travel anywhere is becoming a luxury for the wealthy.
07/20/26	C Siergiej	60418	X			X	X				Oppose	A $0.45 increase in each toll is ridiculously high and too much all at once! I will likely plan travel to avoid the expensive toll roads. The roads are not so great to warrant paying that much to drive on them. What happened to no more tolls after 1973? I am sure we can find this needed money if we stop supporting illegals and sanctuary policies!
07/20/26	Timothy Hovious	28079-5826	X			X	X				Oppose	Simply astounding that Illinois feels this increase is acceptable. The corruption goes so deep and all who support this increase at a state level should be relieved from their duties due to corruption.
07/20/26	Sharon Pavis	60481	X				X			No construction	Oppose	We already pay too much for tolls and our roads are not maintained. Potholes everywhere The construction never seems to stop which holds up the drivers Illinois is the worst!
07/20/26	Jack Rowe	60475	X				X		X		Oppose	Illinois is one of highest taxed state in the country. I don't agree with our political leaders spend it. Quit spending our taxes like it's an unlimited checkbook. We're tired of it all.
07/20/26	Jim Ross	60305	X	X	X						Oppose	
07/20/26	Stacy Rosenkoetter	62401	X				X		X		Oppose	Tolls are already to the point they are a struggle to pay in this current economical environment.
07/20/26	Anthony obrochta	60638			X	X	X				Oppose	NO TOLLWAY INCREASES!!!!!!!!!!!!!!!!!!! THEY ARE ALREADY HIGH
07/20/26	John Forsberg	60119	X			X	X				Oppose	Illinois Toll monies should be for Illinois Tollway ONLY!!!

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/20/26	Steve Burgdorf	61001	X			X	X				Oppose	Now there's an increase in the tolls. Aren't the high gas prices enough to pay for the roads? It's difficult paying for so many increases!
07/20/26		60067			X		X			No tolls	Oppose	
07/20/26	Illinois TollWay is a scam	60601						X	X	Toll roads were supposed to be temporary, shame on the greedy people	Oppose	Illinois toll way needs to be shut down and the people in charge need to be put in prison and/or hung in public.
07/20/26	Matthew	60010	X		X		X				Oppose	All you do is increase toll prices and nothing changes. Reduce funding else where to get the money.
07/20/26	Eric Schramm	60561	X		X	X					Oppose	
07/20/26	sam	60453			X	X	X				Oppose	
07/20/26	Adam dreher	60516	X		X		X				Oppose	You make 1.5 billion off tolls a year, I feel like that is more than enough already.
07/20/26	Denis Rewerts	60540				X	X			the tolls are a ripoff and support political graft.	Oppose	I avoided the toll roads and have found alternate routes. I will vote against any political crook that's supports raising tolls.
07/20/26	Alyssa Petersen	61065			X		X	X			Support	
07/20/26	Sue Panfil	60074	X				X		X		Oppose	No more tax increases please. This state is not business, nor citizen friendly due to increasing taxes. I encourage you to not raise tolls. Thank you.
07/20/26	Michael Collins	60560	X	X		X					Support	I support the Illinois Tollway's proposed Driving Connections program and its commitment to improving transportation infrastructure in ways that benefit local communities throughout the region. By enhancing connections between neighborhoods, employment centers, schools, and commercial districts, the program will improve mobility, increase access to economic opportunities, and support continued community growth. These investments will help reduce congestion, improve safety, and strengthen the transportation network that residents and businesses rely on every day. Driving Connections reflects a thoughtful, long-term vision that supports both regional transportation needs and the vitality of the local communities it serves.
07/20/26	Leslie Fretzin	60062			X		X		X		Oppose	Prices are rising everywhere and for everything. An increase is to be expected but not by such a great percentage. 10 cents per toll would be more reasonable.
07/20/26	Chris Sorenson	60561			X		X		X		Oppose	I do not support the fee increase due to the perception of mismanagement of funds and contractor management (not employees) making too much money from the state. Funding is also not transparent and misuse of funds happens often. People who use the toll ways cannot afford an increase and you sold us these I-Passes as costing less than having manned tolls with cash/credit and forced us to get transponders and now stickers. The stickers are another way of securing more funds as they cannot be moved from vehicle to vehicle for many families. Please reconsider how to fund the toll roads and find a better way to secure funding. The State Gas Tax is already one of the highest in the country and you can do better than increase toll fees. Thank you.
07/20/26	Damian	60097	X		X	X					Oppose	
07/20/26	Nancy Sleboda	60446	X		X	X					Neutral	However, I think a 30% hike is a lot for everyday toll drivers, I only use it for visiting family. Maybe spread out the tolls and lower the amounts to more gradual increases
07/20/26	Ray Luchetti	60564	X		X		X				Oppose	I think the automatic increase tied to the cost of living index is another example of our government dipping into our pockets without any justification. This automatic increase will just encourage unjustified spending
07/20/26	Mary Friedlieb	60626	X		X				X		Support	Thanks for the information on these proposed changes and the toll increase to finance them. I do support the proposal.
07/20/26	Grzegorz Barnas	60707	X			X	X				Oppose	Tollways are already expensive compared to other states

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/20/26	Barry Levitus	60067	X		X		X				Oppose	I find it convenient that the tollway did not notify us until the 7/19/26 after a lot of the community meetings are over. I think they are trying to slip this through without the proper attention from the community. I think there is a lot of waste from our tollway authority and they need to get their workforce to do a better job. Most sites you see a few people working and many just standing around. Poor Management!!! No more money until you justify how you work!
07/20/26	We The People	60611	X				X			Where is all the menu going? And why is 55 riddled with pot holes 2ft deep!?	Oppose	The tools were supposed to stop in 73. But unfortunately greed took over and now look at the state of our roadways. The money collected over the last 20 + years has been squandered and the people of Illinois are fed up with this nonsense. The roads are atrocious, they take years to get fixed, and in my entire 30 years of life I have yet to see the funds collected for the road easy actually be put to use. Stop with this egregious overreach taxing citizens for travel. St this point it is a disgusting money grab and we are fed up with these outrageous fees in a time where everyone is trying to make it. We shouldn't be forced to pay road fees when we all pay for a registration, car insurances, and the hundreds of other idiotic taxes we have to shell out each year. Give the people a win and remove this ridiculousness.
07/20/26	Eric	60187	X		X		X				Oppose	The toll increase proposed at $0.45 per toll amounts to up to 64% of some current tolls, so a set fee does not seem compatible with differing rates based on which location. And such a large immediate increase, rather than a tiered increase, does not align with work staged over 15 years. Also, most of the proposed work is maintenance on bridges and roads, which should be currently accounted for with the yearly budgets - these are no surprises with this work. It seems disingenuous, but expected, that the marketing of the toll increase is for "roads" and not to fund increasing pensions and bloating administration. Such a large, and ever-increasing toll, should result in more tangible results than only a new lane on I355 and on I88 in Oakbrook.
07/20/26	Beth A Larocca	60422		X				X	X		Oppose	The Tollway was supposed to be paid off and free at some point. Our Illinois government needs to find ways to be more efficient with my tax dollars. The tolls are high enough for cars. If anything, semi-trucks should be paying more as they cause more wear and tear on the roads and are usually involved in any accidents that occur. Why aren't the State Police ticketing semi drivers who are speeding and/or driving in the wrong lanes. You could pay for road upkeep with the ticket collections. This pertains to car drivers also.
07/20/26	A Stanley	60004	X			X	X				Oppose	The proposed increase is too high
07/20/26	Garry Gbur	60430	X			X	X				Oppose	Short sighted planning and population shifts have kept the tollway system obsolete for decades. Case in point- Tri-State tollway expansion projects. By the time these are completed, there is still more traffic than the roads can handle. We are left with an endless cycle of construction projects with long traffic delays. Every completion lasts less than 10 years and we need more lanes to alleviate tollway congestion. I cry foul and contend that toll increases are NOT JUSTIFIED with positive solutions and foresight to the areas needs.
07/20/26	Gina DeBenedetti	60464	X		X	X					Oppose	It is time IL learns how to balance a budget without constantly asking its residents for more money. The constant answer is raise taxes, raise tollways...where does the money go? Until someone can show me how the current increases are being used appropriately and not to line pockets of lawmakers, I am against anything that will take more money away from my family
07/20/26	Kristin	60045			X	X	X				Oppose	Would like to see the last 10 years of toll collections and use of the tollway money. Is it being used appropriately? Are there competitive bids for the use of the money. It appears we continue to repair and redo the same roads. Why?
07/20/26	CARLA ROSZCZYBIUK	60467	X			X	X				Oppose	This puts a bid strain on budgets and going up in coming years. Taxes proposed in state already make this state not a good place to live.
07/20/26	Gregg	60523			X	X	X				Oppose	I already spend $12 a day in tolls to get to work. This is on top of the 60+ cents per gallon tax Illinois adds on gasoline. How about finishing the projects that have been strangulating traffic in the Chicago area for the last five years so we can actually get somewhere in a reasonable length of time.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/20/26	Rhonda S	60148	X		X		X				Oppose	Continuing to raise tolls will cause individuals to take alternative routes. Keep it affordable for people. Focus on collecting late tolls.
07/20/26	David Krawczyk	60087	X				X		X		Oppose	If yrs. ago You chose the Feds to take care of the road like WI. There would have been no need for tolls. And here we are!! A"Money Grab". Taking money from people. Tolls were to disappear yrs. ago. Stealing is what You have now!!
07/20/26	L T	37075	X			X	X				Oppose	1953 lawmakers promised once construction debt was retired, the tolls would go away. Till free “73” promise. Gas tax revenues which are extremely high, are supposed to pay for the roads. Another of many examples of money mis management and corruption of IL government. Other states have accomplished maintenance of roads without tolls and increased taxes, why can’t you? NEVER believe a promise from Illinois.
07/20/26		60103			X		X			Tolls were supposed to be temporary	Oppose	Tolls were supposed to be temporary. Get rid of them. You can fund everything through our already ridiculously high taxes stop being greedy people can barely eat and pay rent you fucks. Rework what our taxes get spent on no way a school district super intendent should make 400k. No wonder the school systems need so much money. I’m pretty sure the tollway has billions in the bank already why the need to raise it ?
07/20/26	Kim Varzino	60126	X			X	X				Oppose	I am truly shocked that there will be an increase. Illinois has so many tolls compared to the other state in the midwest and we shouldn't need another increase when our tolls are already so excessive. It only benefits the politicians who are obviously making money off these projects. Ridiculous!
07/20/26	Gary Fundakowski	60067	X			X	X				Oppose	We all are having to figure out how to do more with less . It's time Illinois Tollway does as well.
07/20/26	Garry Gbur	60430				X	X			Timely notification of public hearings.	Oppose	This email was sent on 7/19/26 and received AFTER the hearing for south cook county which was 7/15/26. Toll increases are NOT JUSTIFIED.
07/20/26	Patricia	60077	X				X		X		Oppose	The increase is too high.
07/20/26	Ricky Taxpayer	60455	X		X		X				Oppose	Open the books to an Audit first before any increases!!!!!!!1
07/20/26	Emily Hitze	60504	X		X		X				Neutral	I am not opposed to the initial 2027 rate increase. I am concerned about the following 2029+ two-year rate increases based on inflation. Many jobs that our road users are at do *not* give regularly scheduled yearly raises nor follow inflation. It is not reasonable to expect citizens to just get a new job. The proposed toll increases may end up costing workers MORE money to get to and from work effectively than it does now by comparing the inflation toll increases to the overall pay rate increases (or lack thereof).
07/20/26	Dino Samy	60564	X		X		X				Oppose	with the given economy and the AI taking over our jobs and so much uncertainity in a year from now, I oppose the proposition to raise the toll.
07/20/26	Lisa	60643	X		X		X				Oppose	Where has all the money gone for the current tolls? Would surely like to see more accountability.

07/20/26	Mark Green	60131			X		X		X		Oppose	I’m A Retired Professional Now I And My Wife Are Both Retired And We Are Living On A Fixed Income And We Can’t Afford An Increase To Use The Tollway With The Increase And If You Make The Decision To Increase The Tollway Fees We Will Have To Take The Public Streets And Roads That Are Available Thank You For Listening To My Thoughts On The Matter
07/20/26	Jessica Krennrich	60068	X		X	X					Oppose	We already spend a lot of money paying for our roads. Funds need to be managed more appropriately by our government leaders.
07/20/26	Alan Osoba	60564	X		X		X				Oppose	
07/20/26	Don Rowley	60156	X	X		X					Oppose	I think the amount the tolls are going up is a slap in the face to Illinois drivers and small businesses even big trucking companies, if we get these democrats out of office and put people in that actually care about the people living in Illinois, people who know how to balance a budget people who know how to invest. Vote these abusers out of office especially the governor ductworth and mayor of Chicago.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/20/26	Ronald Beaulieu	60135	X		X		X				Oppose	Roads are not maintained well with the amount of tolls we are currently paying. Lines are not visible when it is raining. Driving in traffic with 4 lanes and no lines are visible is extremely dangerous. There is no reason lane lines should not be visible in all lighting and weather. People are driving 70 mph but don't know which lane they are in are which direction the road is going. Also need to make sure that semi drivers stay out of the left lane. There should be signs or something painted in the lane that reminds them they should not be in the left lane of 3 lane highway.
07/20/26	Douglas Thompson	60077					X	X		Connectivity to IN and WI	Oppose	Please reduce your operational overhead instead of increasing toll rates. We will choose other routes if toll rates increase and you will lose us as a customer.
07/20/26	Terry Krikava	60638	X				X		X		Oppose	Just raise Ten Cents NOT 45 cents
07/20/26	Jonathan GuillenGarcia	60030			X		X			Not having to pay a ridiculous fee to access a public roadway	Oppose	I remember when tolls were supposed to be a temporary measure. And now we're proposing the largest hike in history despite sitting on thousands of already unused tax dollars and credits, yet the roads are still terrible
07/20/26	Ben Ben Manderfeld	55057	X			X			X		Support	Penny's for a great cause. Oops they are not minted anymore
07/20/26	Ken Notson	60031	X		X	X					Oppose	How can you possibly need an increase? You have been collecting money for 50 years. Where the hell did all your collections go?
07/20/26	JOSEPH JAMES BLACK	60540				X		X		What other reasonable choice do we have?	Oppose	Highway robbery. Also I notice this was sent out past the public comment sessions. How convenient...
07/20/26	Kelsey Davis	60004			X	X	X				Oppose	
07/20/26	Meg Townsend	60510	X				X		X		Oppose	ABSOLUTELY NOT! If you can not figure out how to maintain our roads with the current tolls and our insanely high taxes then there is a much bigger problem! Learn how to budget and spend wisely and stop gauging our pocketbooks!
07/20/26	Scott	61114	X				X			Free or discounted rates for the I-39 portion of the tollway (Rockford, Loves Park, Manchester Park)	Neutral	Moderate increase Less Than 8%
07/20/26	Richard Nieman	60193	X				X			Fix your computer system. See below.	Oppose	Fix your computer system so that I can log into my account without having to go through through the creation of a new password every time I try to log in. This has been going on since about 2021 when you shut down the system for a weekend for updating. I have not been able to easily log in to my account since then. I have been to the tollway office many times to get it fixed but nobody seems to be able to fix it. When you get that fixed maybe then you should start thinking about fixing the road system. If it ain't broke don't fix it!
07/20/26		61265	X			X	X				Oppose	Adjusting for inflation means more price increases every 2 years. Prices will never go down.
07/20/26	Matthew Heiberger	60004	X		X	X					Support	
07/20/26	S dohouse	60440			X		X			Stopping the corruption in the Illinois tollway system	Oppose	what happened to free in 73? You have a self-perpetuating system that rewards employees with exorbitant salaries on the backs of the taxpayers. This will cause people to start taking local routes like Route 53 instead of the tollway this will increase traffic damage and traffic travel times on surface streets, making the local municipalities responsible for the additional traffic and deterioration stop the corruption that you continuously perpetuate year over a year over a year Illinoisans have had enough of this bullshit
07/20/26	MT	60172	X		X		X				Oppose	Please do not raise tolls. This will be the straw that keeps me off of them for good. The state has a terrible record of tollway management and I vote NO.
07/20/26	Mary Stoczynski	60169			X	X	X				Oppose	I propose an audit first of the tollway authority, then a more modest 10 year plan at less cost to the public. We cannot keep supporting government agencies with no accountability on how the money is spent and over ambitious amounts!

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/20/26	Tim Schneider	60005	X		X	X					Oppose	Ridiculous, tolls already too high
07/20/26	Amy Wolf	61265			X		X		X		Oppose	this only benefits Chicago and the burbs then tax them more
07/20/26	ran lew	60638	X	X	X						Oppose	Quit raising stuff. Give back to the people not take away. Tolls are to make traveling to and from easier not break the bank.
07/20/26	Alexis Duda	60467	X		X		X				Oppose	Do not increase tolls. They're already expensive and commuters cannot afford any more increases!!!!
07/20/26		60404			X		X			Stop creating traffic jam with more road work	Oppose	
07/20/26	Mary Stoczynski	60169			X	X	X				Oppose	I learned of the public hearing two days before the hearing in my area. This was less than transparent on the part of the tollway authority. It seems like the board is really not interested in public input! The rate hike is way too high!
07/20/26	Brian	60014	X				X			No options requiring more funds are a priority	Oppose	Increasing the extraction of funds from citizens only increases poor budget management. This needs to stop
07/20/26	Holly Munch	61011	X				X	X			Oppose	A resounding NO! Too many taxes in Illinois. Always being raised and new ones installed. Most of the money goes to Chicago which is of no benefit to me. Let Chicago pay their own way and stop having the rest of the state support them. I am a senior on fixed income. Can't afford any more tax!
07/20/26	Janlekha	60007	X		X	X					Oppose	You cannot increase tolls. Inflation is already high. I am retired and on fixed income. I need my car to get to places that public transit cannot bring me to.
07/20/26	Al Lapinskas	60515	X	X	X						Support	As a resident who lives near the I-355 and I-88 corridor, it is obvious that enhancements and upgrades to that corridor are necessary to improve congestion, increase access points, and create a safer corridor. I am in support of the Driving Connections Capital Program that the Illinois Tollway is proposing, and I support the toll increase.
07/20/26	Greg Krohm	60091	X				X			good signage	Oppose	I strongly oppose any project that will increase tolls. Management should aim to live within the current revenues. Considering how automated tolls have reduced operating costs, this should be easy.
07/20/26	Pat OBrien	60143	X			X	X				Oppose	Example I-390 is the most expensive tollway/mile. It is is horrible condition. Pot Holes, gaps in the centerline of lanes in disrepair, very poorly designed overpasses that are the most uneven I have eves seen. The repairs are at the very least temporary, but never completed. Make tollways drivable before increases.
07/20/26		60098	X		X		X				Oppose	
07/20/26	Robert Colbert	60004	X		X					How this is being paid for	Neutral	Using tolls as a main source of revenue to pay for this upgrade seems unfair since it is a regressive tax and everyone benefits regardless of direct use. I would suggest a modification in the state income tax with a graduated tax based on income levels.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/20/26	Charlie Westberry	60506	X			X	X				Oppose	So what happened to the toll road being free? When they first started building the tow road they said the toll road would impose a toll fee until it was paid off, then they jacked up the price to $.15 and then $.30 and then $.40 and now $.75 all these increases are ridiculous with the millions of cars that pass by $.75 should be doable. If it's not then maybe they should start thinking about getting help from the state. I am a senior citizen and I cannot afford the hike that they want to impose on the toll road. $.75 is already my high water Mark as it is now I tried to avoid the toll road as much as possible, even though it would be much more convenient and much faster for me, but when you are living with a certain budget, then you have to think of where can you cut things out that are extravagant, and the toll road is one of those. I do enjoy taking it so I can get to church quicker and back home but other than that, I try to avoid it at all cost. I most likely would take it more if the tolls went back down to $.45, but at $.75 that's as much as I can afford and this increase would just kill me and I would have to make other arrangements and leave earlier. As it is, it's nice taking the toll road because especially in the winter time they do keep it clean and for that I appreciate it however, like I said before, with the millions of cars that passed by tolls every day, they should be able to make it on what they're charging now.
07/20/26	Rich Frank	60010	X				X			Fiscal responsibility of the governing bodies. STOP THE WASTE OF FUNDS.	Oppose	According to the original plan, Tollway was supposed to be disbanded after it was paid for. That date was about 20 years ago. DISBAND the agency and use Road Fund like all other roads are paid for. STOP THE WASTE OF FUNDS.
07/20/26	Kristina Malon	60440				X	X			Affordability	Oppose	The state of IL needs to stop raising rates on everything. The amount of cars on the tollways daily should be more than able to cover costs. If it is not - someone or some group is not dedicating funds effectively or people are being to greedy in their pay they receive. Stop the madness
07/20/26	Kathryn Lynch	60643					X		X	Affordability, Affordability, Affordability	Oppose	I strongly oppose the 45 cent increase on citizens driving the tollway. In addition I am hyper-strongly against the automatic inflation adjusted rate. The Illinois Tollway Authority should have to come before the citizens and support their request for an increase in tolls. Citizens don't get inflation adjustments unless they work for government. Most of them do not get inflation adjusted wages. Figure out how to work with the funds you have like the citizens do.
07/20/26	Erick Garcia	60517			X		X		X		Oppose	Never been a fan of tollways, especially when I consider that I'm paying to sit in traffic sometimes. An increase to the fair will make it harder to afford with the same amount of traffic.
07/20/26		60643	X		X	X					Support	I support the proposed toll rate adjustment because continued investment in our transportation system is important for everyone who depends on it. These improvements can help make our roads safer, reduce congestion, and allow people to get home more quickly and reliably. They also support jobs, economic growth, and the efficient movement of goods and freight. Maintaining and modernizing the infrastructure we already have will help ensure that it remains safe and dependable for years to come.
07/20/26	Robert Suster	60629	X		X		X				Oppose	Amazing that a state like Wisconsin has no tolls yet they have better roads than we do. You make enough money from the existing toll way fee, lottery, Marijuana tax, property taxes, sales taxes, etc. Get rid of your overpaid do nothing political jobs and stop spending our tax dollars like little kids in a candy store!
07/20/26	John myers	61036	X				X			less construction that takes 10 yrs	Oppose	the govenor said that it is mostly vheicals from out of state just passing thru using them i beg to differ you go in or come out during rush hr those are not people just passing thru they drive it every day and it will hurt them for as long as i can remeber there is always construction going on and none of it eleviats the traffici dont use the toll very often but when i do it seams to get more and more exspensive i remeber back in the 90's they where supposed to take all the tolls out but nope here they still are

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/20/26	Jeff Holmquist	60010			X		X			No tolls!	Oppose	This is crazy! Whatever happened to removing tolls once the roads were initially paid for? You've removed labor (and pension) expense by automating tolls, yet Illinois continues to tax and tax its residents and those traveling through Illinois. What happens when more people leave the state and tourists avoid it? The tradeoff in decreased economic activity more than offsets the toll increases you are asking for. Roads and infrastructure should be paid out of the 4.95% state income tax. The state needs to learn to live with less!
07/20/26	Annamarie Brzezniak	60090	X				X			Charge tolls on the Dan Ryan	Oppose	Put toll booths on the Dan Ryan expressway since the travel for free. That would bring in the needed revenue.
07/20/26	Scott Klasen	60008			X	X	X				Oppose	The proposed cost to go through a toll is kind of ridiculous. Just because I can afford it doesn't mean that I will. I really feel bad for those having a rough time financially. Just one more opportunity to nickel and dime us. Nothing new here in Illinois. I'm sure we all know what the end result will be.
07/20/26	Bruce McAbery	60193				X	X			Affordability	Oppose	The tolls were supposed to eventually be removed not continually go up. Dont you wish we were more like WI, Indiana and MI that dont have a ton of toll roads? Lets attract business not punish it.
07/20/26	Joyce Bozzetti	60417	X				X		X		Oppose	This increase especially for the rate, will only hurt hard working residents who are already being taxed out of the state! And why does it need to be an automatic increase?
07/20/26	Ava Lewis	43528			X	X	X				Oppose	
07/20/26	Stacey Spears	60585	X		X	X					Oppose	Please work within your means. Increases keep happening. Another increase will be "needed in the near future. I strongly oppose the rate increase. Learn to do what the rest of us need to do. Work with what you have.
07/20/26	Laura Kelly	60540	X				X			Low or NO tolls	Oppose	Please don't do this. Illinois residents face a very high tax burden: income tax, property taxes, sales taxes, gas taxes, tolls and more! This state has debt and plenty of obligations--focus on what we have, not adding more. Electronic signs? Waste of money. New highways? Can't afford it. Making drivers bail out mass transit (again)? Not fair. Fill the potholes on the roads we already have. NO NEW PROJECTS....voters don't trust politicians to keep their word--especially when it comes to tollway revenues. Please, please, please don't raise tolls. Your constituents are all ready squeezed by inflation, higher gas prices, higher property taxes. Please don't add to it. I don't know what else I can cut from my household budget. These politicians are constantly trying to make a name for themselves as they climb their career ladders and then stick us residents will the bill. PLEASE keep toll rates where they are or reduce them. NO NEW TAXES.
07/20/26	Kathleen Szuslik	53017	X			X	X				Oppose	The proposed toll increase is too high, .45 per toll! And the continued hike every 2 years based on inflation is outrageous!
07/20/26	Mikal	60123			X		X	X			Oppose	
07/20/26	Dawn Hasz	61068	X		X		X				Oppose	It's ridiculous to have to pay even more when everything is already so expensive!
07/20/26	Olivia Jacquez	60542			X		X		X		Oppose	The toll taxes now are already ridiculous. Paying for just for nothing. The tollways roads still look like shit, too much construction STILL going on and making much progress. Just a waste of money to keep taking from illinois residents. If i see this increased tolls i will not be using them. i rather take the longer route instead of paying +$3 for a damn toll.
07/20/26	JAY KISSACK	60102	X	X	X						Support	
07/20/26	Nick D	60048	X		X		X				Oppose	Strongly oppose. My dad constantly reminded everyone the original promise was "toll free in '73". Back in the 1950s, Governor Bill Stratton sold the public on the idea that tolls were a temporary, 40-year measure to pay off the construction bonds for the initial 186 miles of the interstate. However, that original bond was fully paid off in the early 1980s. Instead of removing them, the Illinois General Assembly made the Toll Highway Authority permanent in 1968, pivoting the system into a perpetual funding mechanism...
07/20/26	Justin	60901	X		X		X				Oppose	

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/20/26	Chrisitne Bennett Erwin	60097	X		X	X					Oppose	I have lived in Illinois for 60 years and have found the tollway to be a convenience. The increases however have been questionable. It appears there is never enough. We were told years ago tolls were being banished but it never happened. When I travel in other states I find the roads to be in excellent condition and no tolls. It's honestly hard to understand. We put up with so much here. Why can't the roads be repaired with the materials other states use. I never saw so may closures and traffic back ups as here in Illinois. Plus the fact that the money tax payers have paid for other projects was misused and is our loss. I am not for another increase. Do it right the first time so this doesn't keep happening. Use the money wisely. Hire people that really work. So much time wasted watching workers texting or standing around.
07/20/26	Tomas Novickas	60148	X					X		Noise, aesthetics, environmental impact (air, noise pollution)	Support	Some of the newer tollway on 294 looks great for example the bridges and bridge color choices, however recent upgrades elsewhere (walls, communication huts, etc) are not visually a good representation of the tollway system. The older toll booth buildings were often quite nice as was older landscaping--I hope that we can reprioritize architecturally interesting tollway infrastructure. I would also add that noise mitigation (pavement, walls, landscape) would be very helpful especially since we have opportunity with electric vehicles in the future to have a nearly silent tollway system! Thanks
07/20/26	Kelli Jackson	61107	X	X			X				Oppose	
07/20/26	Cheri	60447			X		X			I remember when Illinois instituted toll roads and we were told they would be free after initially paid off	Oppose	
07/20/26	Gerardo	60418	X			X	X				Oppose	No more price hikes on toll roads. Roads aren’t well maintained.
07/20/26	Starr Gobtop	61748					X		X	less costs	Oppose	Just another tax on the already overtaxed and under represented Illinois taxpayers. If this kind of thing continues there won't be anyone left in Illinois that can even afford to live let alone travel anywhere. Just stop the increases and taxes before complete disaster happens to Illinois citizens!! Not to say that Illinois is already a disaster.
07/20/26	Michael J Heatherly	60561	X			X	X				Oppose	TOLLS SHOULD BE LINKED ONLY TO A BUDGETED ANTICIPATED PERIOD EXPENSES AND CAPITAL IMPROVEMENTS TO PAY OFF A LOAN SCHEDULE. EVERY TIME ILLINNOIS AGENCIES ASK FOR INFLATION LINKED REVENUE SOURECS ACCELERATED WASTEFUL SPENDING OR DIVERSION TO OTHER PURPOSES OCCURS.
07/20/26	Paul Jackson	61115		X			X		X		Oppose	we already pay too much ! the tollway was supposed to be free by now , this state has take that away from us .. again the tollway was never ment to be here forever
07/20/26	Susan Neely	60107	X			X	X				Oppose	Things right now, like essentials, food, clothes, medical, are getting extremely expensive. I don't think this is the right time to be thinking about increasing cost for tolls.
07/20/26	Anita L Anderson	61107					X		X	It's important that the roads aren't always raggedy yet always under construction.	Oppose	Please don't do any increases!
07/20/26	Mark Eisenberg	60081	X			X	X				Oppose	Everyone knows this is not for the tollway it is more for City of Chicago and bailing out the RTA and Metra. Completely wrong!! The rate is outrageous and the inflationary increases will make people find other routes and make our other roasts unsafe with heavier traffic and vehicles.
07/20/26	Kathy Judd	60056			X	X	X				Oppose	Stop funding the illegal aliens, the we'll have enough money.
07/20/26	Rick Sesk	60439		X			X		X		Oppose	Too many toll tax hikes and other taxes from this goofy governor. Out of control. How about cutting wasted spending. What happened to lottery dollars !!
07/20/26	Tony Lusk	60438			X	X	X				Oppose	If you want customers to continue using toll roads, I would suggest not continually raising the prices. Depending on how much mileage a car gets per gallon, it could be cheaper to avoid them.
07/20/26		60914	X		X		X				Oppose	

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/20/26	Marty Walsh	60077	X						X	Politicians & "authorities" that do what they say then shade into the sunset	Oppose	All I see on the Illinois Tollway is traffic & CONSTRUCTION ... ALL THE TIME. Now you want more money for more construction to make traffic worse. NO MORE INCREASES TOLL Road should be returned to the state/local authorities and the Tollway authority be disbanded. No TOLLS Definitely NO TOLL INCREASE
07/20/26	James Faletti	60417	X		X	X					Support	An increase seems reasonable. Since you will now build them in every two years is may be more reasonable to have a begin with a smaller increase than you have proposed.
07/20/26	Adam Mugnaini	60148	X		X	X					Support	
07/20/26	Sarah	61068	X				X		X		Oppose	We do not need any more increases.
07/20/26	Robert Heck	60304			X	X	X				Oppose	
07/20/26	Mike oxbig	60440	X	X	X						Oppose	The roads on the entire highway are bad and have messed up my suspension numerous times
07/20/26	Steven Smith	61615		X			X		X		Oppose	Should have been done away with already.
07/20/26	Scott Charmelo	60107	X				X		X		Oppose	We don't need to raise tolls anymore we need less Government spending on Pensions and high salaries for politicians
07/20/26	Cecilia Morales	60625	X				X		X		Oppose	Increase and ongoing is a financial toll on Illinois especially with currents increases everywhere. COL does not keep up with this especially for retirees and minimum wage people. Will have to stop using toll way or avoid toll roures.
07/20/26	Daniel Wade	60008	X		X		X				Oppose	This is unacceptable.
07/20/26	Julie Drury	52748-2028	X				X			signage	Neutral	The toll increase makes sense, if the yearly vehicle registration cost decreased. I don't mind paying for things I use, the highways, but why such a big charge just for having a car? Insurance is also high. We are being priced out of being able to afford a vehicle. If you increase tolls, decrease other costs such as license plates and registrations.
07/20/26	Richard Luby	53140	X		X			X			Oppose	I think public transportation needs to be a priority that's reliable and that safe commercial traffic should have separate lanes high speed. Trains should be utilized. There's just too much cars with one person for the roads that we currently have especially in urban areas when I was working. I'm retired now. I would drive and sit in traffic four hours a day which is ridiculous an hour and a half to 2 Hour Dr. time was normal to get to work and to get home the emphasis and cars has to change because of oil issues too updating Chicago's L system to a modern train system like Washington DC has would definitely be a plus we have the ability now to go under the city with trains more of them thank you for the opportunity to comment
07/20/26	V Red	60123				X	X		X		Oppose	no more toll fees
07/20/26	Jeff	60544					X	X		Reduction of costs	Oppose	Criminal negligence and abuse of public trust vested in tollway authority!
07/20/26	JoAnne Lyons	60423	X		X		X				Oppose	With the ridiculously high property taxes in the state of Illinois, our excessive taxes on a gallon of gas, our dollar is being stretched to its limit. Your 2027 toll hike is going to negatively impact the average middle class person who is just trying to drive to work to try and pay their bills and raise their families. Not to mention the inflationary increase starting in 2029. It might be a different story if our middle-class salaries were to keep up with inflation, but we know that's not going to happen. I AM NOT IN FAVOR of an increase.
07/20/26	Jacob	61109			X	X	X				Oppose	It already costs me $9 to drive from Rockford to the Chicago area. The state already takes so much money from your average citizen with skyrocketing property taxes, an unjust gas-tax, and already high toll prices. Increasing the toll prices is just further robbery from average people trying to make a living. Do better with the taxes you already collect from citizens. We are already some of the highest taxed citizens it n the entire country and you really want to increase that. It is ridiculous to even propose and consider higher taxes in Illinois. They only need to be reduced.
07/20/26	Ed Warda	60124	X		X		X				Oppose	I do not support a $.45 per toll increase. As a retired person all my expenses continue to increase. In my past career I sold asphalt road products to the Tollroad. Every job I sold my pricing had to be extremely competitive! Most jobs were sold just above cost to meet the Tollway budget requirements. Thus I think all future work must meet strict expense requirements to minimize toll increases. I think all operating expenses need to be reviewed to better utilize the budget.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/20/26		60004	X	X	X						Support	
07/20/26	Rebecca Carlson	61073			X		X			Better police patrol	Oppose	You can't just keep jacking up the toll rates! Claiming that since everything has gone up, it's okay to raise tolls too!? That's insane. We're already paying too much for anything. Tolls should be used for the tollway and nothing else; not capitol projects and waterways, etc. Claiming that out of staters use the tollway more is nuts. Chicago and suburb residents are traveling our interstate daily. Removing manned tollbooths saved millions in payouts that can now be used on the roads. Consider adding the Kennedy/Dan Ryan to the tollway system and see how much more can be made on the backs of drivers, not just raising the tolls everywhere else. Our state needs to learn how to save and quit wasting. The tollway has become so congested, it's not worth driving anymore.
07/20/26		60632	X		X		X				Neutral	A reasonable toll rate amount is important or more people would avoid taking the tollway and more traffic would be on non toll roads. I hope there will not be an increase of traffic on the non toll routes.
07/20/26	Benjamin Johnson	60098	X		X		X				Oppose	Tolls are already unreasonably high. Increasing the price to drive on the roads our taxes pay for is ignoring the issue of our poorly managed spending and budget hikes
07/20/26	Laura Lapinskas	60517	X		X		X				Neutral	
07/20/26	Sandra Pothast	60513	X	X			X				Oppose	I am on a fixed income and the increase would mean that I would need to find alternative routes when traveling to avoid the Tollway as I cannot afford such a huge annual increase in my budget. I also oppose future increases as the Tollway was supposed to be FREE a long time ago!!
07/20/26	Kelly Buikema	60631	X		X		X				Oppose	Toll increase way too high!
07/20/26	Scott Roberts	60012	X			X	X				Oppose	Enough is enough. The state government buries its citizens with never ending fees and taxes. Use the money being spent on illegal immigrants. Shouldn't legal taxpayers come first?
07/20/26	Michael Koetteritz	46307	X			X	X				Oppose	Isn't the new proposal the very essence of what the current toll road is meant to be? I thought I was already paying for well maintained roads (not) less traffic (not) safer lanes and less construction (not).Use the money you're currently raking in to complete all these projects. I will definitely not use the toll road if prices increase. Tolls are already porohibitive.
07/20/26	Rich Chiapetta	60480	X		X	X					Support	Personally, I'd rather pay a little more in tolls if it means getting where I'm going more safely, more reliably, and often more quickly. To me, the time saved and the added safety are well worth it.
07/20/26	Rose Tomasello	60646	X				X			Speed regulations should be enforced	Oppose	Why are people allowed to drive 85, 90, 95 Miles Per Hour on the tollway? It's YOUR road, either insist on a Police presence or hire your own! Is 70 MPH only a suggestion? If it's the law, do something about it. You wouldn't have to raise the toll if you gave out 1/2 the tickets I see that should be given in one day. Why should I be taking my life in my hands every time I get on the tollway and I'm going the speed limit and cars are passing me like I'm standing still? Put up more speed limit signs but follow thru! Put parked squad cars every few miles on the tollway. Cars will slow down. Give tickets when 2 cars are drag racing at over 100MPH. Give semi-trucks tickets when they are 4 inches from your back bumper! I don't want to die because you can't control what happens on YOUR toll road! Hop to it!
07/20/26	Jo Schappaugh	61704	X		X	X					Oppose	Put to better use the money you already take from the tax payers.
07/20/26		60603			X		X			Get rid of the tolls	Oppose	No tolls please kys

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/20/26	Benjamin Mazon Jr	60164	X		X		X				Oppose	POLICY PROPOSAL: THE SEGMENTED TIERED INFRASTRUCTURE MODELPrepared For: Illinois Tollway Authority Public RecordTarget Revenue Goal: $1.0 Billion Annually=== 1. EXECUTIVE SUMMARY & PROBLEM STATEMENT ===The current Illinois highway network experiences a severe mismatch between traffic volume and structural pavement damage. Data indicates that passenger vehicles account for roughly 85% to 90% of highway traffic volume, while commercial trucks represent 10% to 15%. However, when evaluating the physical weight distribution on the road, commercial trucks carry 60% to 75% of the total combined vehicle weight moving across Illinois highways at any given time.According to engineering standards dictated by the Fourth-Power Law, a single five-axle tractor-trailer loaded to the 80,000-pound federal limit inflicts the same amount of pavement damage on a highway as 9,600 passenger automobiles.The state's proposed "Driving Connections" Capital Plan relies on a flat 45-cent passenger increase and a flat 30% commercial truck increase. Because a 45-cent passenger increase represents a ~57% rate jump from the baseline $0.79 average, passenger drivers end up funding 64% of the new $1 billion revenue goal. This creates an unfair financial burden on regular commuters and local delivery trucks, which directly drives up regional consumer inflation.This proposal presents the Segmented Tiered Infrastructure and Congestion Pricing Model—a fairer alternative that aligns revenue collection with actual pavement wear while protecting the local economy and regular commuters.=== 2. CORE PILLARS OF THE SEGMENTED MODEL ===The Segmented Model moves away from flat percentage hikes and implements three targeted policy guardrails:The "Last-Mile" Retail Exemption (0% Increase): Toll rates remain completely frozen for Tier 2 and Tier 3 local commercial delivery fleets (such as local grocery distributors, box vans, and delivery services). This prevents logistics companies from passing new overhead down to the cash register, fully insulating local consumer goods from inflation.The Long-Haul Interstate Surcharge (+80% Surcharge): Heavily targets out-of-state Tier 4 semi-trucks passing entirely THROUGH Illinois corridors (such as I-80 or I-90) without stopping at local distribution hubs. This captures revenue directly from the vehicles causing exponential pavement wear. The Illinois Tollway can track these automatically using existing I-PASS/E-ZPass entry and exit timestamps.Passenger Mitigation & Transit Credits (+27c capped to +18c): Passenger vehicle hikes are scaled back from 45 cents to 27 cents to cover basic system administration. Furthermore, by directing 25% of the long-haul truck surcharge to fund regional transit systems (Metra and Pace), the model introduces a Congestion Credit. If transit
07/20/26	Julie Ericson	60625	X		X		X				Oppose	The proposals are so vague that I don't believe we will actually see any changes that will contribute to less traffic and congestion and reduced travel times. When the tolls were first instituted, they were proposed as a temporary measure. Since that time they became permanent and tolls continue to increase. I wish I could believe that this proposed increase (which is a greater than 50% increase at some plazas) will result in improvements for travelers, but the vague proposals do not instill confidence that it will be money well spent.
07/20/26	Kelly Nokes	60610	X				X			All of the above but depends on the day and season	Neutral	If you make living costs affordable, wages increase for all and healthcare affordable, sure 30% (whatever that increase $ is) plus keeping up with times plus another 5 cents - adds up to ??? Could cost change of city I live in to afford to drive! Or better and safer transit! It doesn’t matter cause it’ll all increase anyway

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/20/26		60657	X				X			Safe roads with fewer A-Holes who disregard the Rule of the Road	Oppose	If our state legislature didn't steal the ever increasing gas tax to bail out the Chicago Metra/CTA's poor management with ridiculous administration position wages, that was supposedly guaranteed to go to maintaining our roads and highways, this increase that doubles our cost wouldn't be necessary. Especially not necessary after almost completing construction on all our tollways/interstate highways (with exception of the Edens which is falling apart and not part of our tollway system anyway!). No doubt that money will just go from the driver's pocket to the Tollway administrators and road construction company's never-ending economic expansion. More bullshit for the public to choke on while swallowing! Yet another reason for me to want to leave this state and take my assets and tax-base with me - this stinks of just one more money grab and ya can't keep squeezing blood out of a turnip. Get your spending under control first!!!!
07/20/26	George Hardwidge	60540	X			X	X				Oppose	This is all pure lies and fraud. The entire plan is a shell game by Pritzger and the stooges on the Tollway Board. It was developed in haste to justify Pritzgers' plan to raid toll revenue for his dishonest and failed policies. The Authority should vote no to this plan. you're not fooling anyone.
07/20/26	Heidi Hookstadt	60540	X				X			Completing current projects in a timely manner	Oppose	Maybe if you would use materials designed for our weather conditions we would not have to tear up 294 regularly only to have it take years to be completed. Just another way for $ to be distributed in the wrong places. IL Govt. is corrupt and unfortunately will never change.
07/20/26	Gail Martinez	60586	X				X			toll increases should be voted on by the people.	Oppose	We the people of Illinois are already stretched thin by our State Governments poor use of funds, inability to reduce spending, and gross misrepresentation of intent. Increasing the tolls at a regular rate to subsidize the public transit bailout for the CTA, Metra, and Pace. (Public Act 104-0457) when the State of Illinois has diverted hundreds of millions of dollars from the dedicated Road Fund to cover structural budget deficits is just more poor use of funds at the expense of the tax payer.
07/20/26	Desoray Williams	60162	X			X	X				Oppose	I do not agree with increasing toll rates. They are already too high.
07/20/26		60067	X		X	X					Support	
07/20/26	Sarah gold	60202			X		X			Lights only on at night or bad weather	Oppose	
07/20/26	Barb	60560	X		X	X					Oppose	Work within the budget you have, like the rest of us have to. What happened to the lottery money that was supposed to be spent on the expressways? That money was supposed to alleviate tolls, now you're telling us you need to increase the tolls? I think the first order of business should be to audit the companies bidding to do the work on the roads. All roadwork really should be done from 11 PM to 7 AM, cause that would really make sense.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/20/26	Junior Mazon	60164	X		X		X				Oppose	POLICY PROPOSAL: THE SEGMENTED TIERED INFRASTRUCTURE MODELPrepared For: Illinois Tollway Authority Public RecordSubject: Alternative Framework for the $26.5 Billion Capital PlanTarget Revenue Goal: $1.0 Billion AnnuallyDeadline Classification: Formal Public Hearing Submission=== 1. EXECUTIVE SUMMARY & PROBLEM STATEMENT ===The Illinois highway network faces a profound structural and financial mismatch between vehicle volume and infrastructure degradation. The Illinois Tollway's proposed "Driving Connections" Capital Plan relies on a flat 45-cent passenger vehicle increase and a flat 30% commercial truck increase to generate $1.0 billion in new annual revenue.While a flat increase is simple to administer, it creates severe economic inequities and lacks engineering logic:The Funding Disparity: A flat 45-cent passenger hike represents a massive ~57% rate jump from the baseline $0.79 average. Consequently, everyday commuters are forced to shoulder 64% (~$640 million) of the new $1 billion revenue goal.The Inflation Risk: The flat 30% commercial truck hike applies indiscriminately to local "last-mile" delivery vehicles. Independent shipping fleets operating on thin margins will pass these costs directly to regional distribution networks, acting as a hidden sales tax on local consumer goods like groceries and retail products.The alternative framework presented here is the Segmented Tiered Infrastructure and Congestion Pricing Model. This comprehensive plan achieves the exact $1.0 billion funding goal by shifting the burden to the heavy vehicles causing physical road damage, while shielding local commerce and regular commuters.=== 2. INFRASTRUCTURE WEAR & THE WEIGHT DISPARITY ===To design an equitable toll system, the fee structure must map onto the physical reality of highway wear. Traffic data and physics demonstrate that vehicle volume does not equal pavement damage:Traffic Volume vs. Weight: Passenger vehicles account for 85% to 90% of total highway traffic volume in Illinois, while commercial trucks represent only 10% to 15%. However, when measuring total physical weight on the road at any given time, commercial trucks account for 60% to 75% of the total weight on the asphalt.The Fourth-Power Law: Standard transportation engineering proves that road damage increases exponentially to the fourth power of a vehicle's axle load. According to the U.S. Government Accountability Office (GAO), a single 5-axle tractor-trailer loaded to the 80,000-pound federal limit inflicts the exact same structural pavement damage as 9,600 passenger automobiles.=== 3. CORE PILLARS OF THE SEGMENTED MODEL ===The Segmented Model separates traffic not just by size, but by economic function and origin-destination routing, using three distinct policy guardrails:The Last-Mile Retail Exemption (0%
07/20/26	Jennifer Albom	60607	X		X	X					Support	
07/20/26	Robert Lizik	60525	X				X			Cheaper tolls	Oppose	This is ridiculous! Gas is more expensive, food is more expensive, housing is more expensive. Everything is out of control, and you want to raise the cost of travel. People won't be able to afford to get to work. How about pay cuts for the executives.
07/20/26	Had Enough	60148	X		X					Less construction	Oppose	You people aren't transparent now with the money you get. You tear up good roads just to stay busy. You get enough money already. An amount of money like that will just fall into the black hole of corruption. My vote is NO! HELL NO!!
07/20/26	Alfred Sosna	60123		X	X	X					Oppose	The original tollway was supposed to have been paid off over 30 years ago and tolls removed, and here we are still paying for tolls on poorly maintained roads, and you are asking for a .45 cent raise per toll, I take the 390 tollway 5 days a week and by increasing each of my 3 tolls on a 7 mile road will more than double my daily toll costs. this is way to excessive, why not just add a 10% increase on each toll and most people would be happy. I for one will stop using the toll roads if you pass this excessive money hungry toll proposal, as I'm sure many other toll users will be doing the same.
07/20/26	Martin Reiter	60477		X			X		X		Support	Pritzker and tollway personnel have no accountability.This rate hike is way more than it needs to be. The tollway's were supposed to be collecting money for a few years and then stop. Another lie from the government.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/20/26	Linda Baroska	60194	X		X		X				Oppose	Wasn't there an increase in the last 18-24 months? Speeders!!!!!! Cars are exceeding 90 - 100 mph. Care weavers while traveling those speeds. Policing, where are they? Use ticketing overhead speed readers!!! Ticket owners of the vehicles even when allowing another to use their car. We are paying to use these roads....Laws should be followed for safety.
07/20/26	Rigby	60617	X		X		X				Oppose	
07/20/26	Tyler	60014			X	X				Not having to pay to drive	Oppose	Tolls are already a great inconvenience in this state, and the tollways do not necessarily need improvements. They ride like normal highways. Other states have normal highways that ride the same as Illinois tollways. There is no need for an increase.
07/20/26	Carl Hintzelman	53081	X		X		X				Oppose	Illinois loses more money than this spending proposal on graft and corruption. Fund the improvements with money recovered from criminal politicians and their cronies.
07/20/26	Anonymous	60517	X			X	X				Neutral	Rate increases are inevitable, however, I'd like to know why this notice was sent out on July 20 when the first public hearing was scheduled a week ago. All hearings should be held when the public can attend. Not randomly select a day time for one location and an evening time for another. Lastly, ABSOLUTELY NOT to the adjustable rates every other year!!! Every single increase should be voted on by the public!
07/20/26	John Hoffman	60004	X				X			The tolls should be eliminated	Oppose	The tolls should be eliminated. They certainly shouldn't be increased. Recall the tolls were only supposed to be temporary. The tollway doesn't have a revenue problem, they have a spending problem.
07/20/26	Chad Marten	60502	X			X	X				Oppose	I find it reprehensible that there is going to be rate increase on the Illinois tolls. Unfortunately the state keeps redirecting funds from the tollway system to other transportation systems. Overpaid directors of the tollway have little interest in public opinion. This rate increase will keep making Illinois unaforable and is just another tax to people of Illinois. Any argument about out of state trucking paying more for Illinois roads is a complete joke and adds little to the people of Illinois. As you know most of toll revenue collected in Illinois are from Illinois citizens going to work.The toll system was never intended being a continious form of revenue, but politicians (especially current regime) continue to mismanage state funds putting Illinois in a bigger hole. You should be ashamed to even consider a rate increase.
07/20/26	Barbara Christian	60540	X			X	X				Oppose	I'm 100% opposed to the $26.5B Driving Connections Capital plan. It includes a massive tax hike plus built-in biennial increases based on inflation. This will allow the Toll Board to continue its ways of over budget and behind schedule.
07/20/26	Halah Abbasi	60532	X				X			Affordability	Oppose	This increase hurts people like myself that commute daily. I am truly disappointed in the state of Illinois for proposing this increase on me and my fellow commuters. I already pay $69 per month to commute back and forth to work daily and pay taxes.
07/20/26	James Mastalerz	60714			X		X			I pay enough taxes to Illinois the way it is	Oppose	I pay enough taxes to Illinois the way it is
07/20/26	Anne Gryczewski	60803			X		X			Safety-the constant construction, makes it confusing, congested, and dangerous.	Oppose	The tolls are already too high, especially in this current economy. And the fact that you now charge someone pulling a camper trailer the same as you charge a semi truck because you’re only basing it on the number of axles is inappropriate to the non commercial commuter.
07/20/26	Sandra Rosas	60638	X		X		X				Oppose	
07/20/26	Dubs	60193	X				X			Maintained roads	Oppose	I will never vote to increase the price of tolls.
07/20/26	Brian Fry	60020	X		X		X				Oppose	This is not the right time to increase toll costs!
07/20/26	Ryan	60622			X			X		Better public transit to get more people off the road	Support	
07/20/26		60103	X			X	X				Oppose	
07/20/26	Bill Blackwell	60914			X		X			I don"t belive in toll roads	Oppose	We have one of the highest gas taxes in the country.Eliminate the tollway Board that will save money and all the other stuff that goes with it that will save. The state of Illininois should have plenty of money to take care of it.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/20/26	Edgar López	60428	X		X		X				Oppose	
07/20/26	Matt	60803			X	X	X				Oppose	We're taxed enough we can barely afford gas to get to work now we won't be able to afford to even take the express way please don't raise the prices
07/20/26	Frank Caniano	61108	X			X	X				Oppose	No.
07/20/26	Daphne Francis	60649			X		X	X			Oppose	Just as citizens are required to make financial adjustments while keeping life as close to normal as possible, governments need to do the same.
07/20/26	Corina Lepek	53546		X		X				Saves time	Oppose	Your giving me a reason not to travel on your toll road.
07/20/26	Donna T Greener	85248	X				X	X			Oppose	Why can WI improve their roads and bridges without tolls? Their roads are better repaired and maintain than IL. To review rates every 2 years smells like scaming taxpayers. Many states don't have tolls. The IL toll road was supposed to be temporary. IL lied to its people. We moved out & only come back to visit family in IL.
07/20/26	Joseph	60639	X		X	X					Oppose	
07/20/26	Shebin Philip	60625	X	X	X						Oppose	
07/20/26	Lisa miller	60074			X	X	X				Oppose	Unacceptable. This will raise the already inflated grocery prices that most Illinoisans cannot afford anymore. It will raise the prices of transportation like ride shares & taxis, busses etc. look for ways to cut fat from the government & use that money instead of robbing the bottoms of our pockets
07/20/26	Lou Herout Hicks	60151	X			X	X				Oppose	They are so incredibly high already. My family really can't afford this hike.
07/20/26	Leroy Mckay	61080			X		X		X		Oppose	
07/20/26	Bob Kozack	60462	X				X			Affordability	Oppose	The tolls were supposed to go away over time, not keep increasing. You keep raising the tolls and it will end up like the Skyway, nobody will want to use it. It is fine as it is, leave it alone. Just keep filling in the pot holes. How much money do you make sitting on the deposits in all the I-Passes out there? Use some of that for your projects.
07/20/26	Jack D Haacker	60140			X		X		X		Oppose	It matters not what my comments are because you're going to raise rates as much as you want even through the People say No!!!! We are no longer a Government for the People!!!!! When I travel the Tollway from Elgin to past Rockford and see a streetlight every 50 feet I would ask what Contractor got that bid but I'm sure he on his private Island in the Caribbean that the People of Illinois paid for!!!!!
07/20/26	MaryAnn D	60048	X		X		X				Oppose	Strongly oppose. We shouldn't even have a toll road. It was promised to be a short-term system.
07/20/26	Kenneth Damhoff	61252	X		X		X				Oppose	This increase in toll will hit the ordinary man who has to work for a living and daily travels the toll road to and from work. The governor of Illinois and his fellow Democrats have no idea how they are ruining this state with tax, tax, and more tax. They don't care about the citizens of Illinois.
07/20/26	Rich D	60048	X		X		X				Oppose	No thanks. You receive plenty of money from drivers and need to hire people better at managing the funds rather than charging IL residents more. Tolls were supposed to be gone long ago.
07/20/26	Nicole Nutter	60525	X			X			X		Support	I'm a president at an engineering and construction management firm that has had the privilege of working with the Illinois Tollway for many years. Through that experience, I've seen firsthand the agency's commitment to building infrastructure that improves safety, reduces congestion, and serves the public for decades. These projects also create meaningful careers and opportunities—we've hired young professionals, including graduates from Joliet Junior College, who are now building rewarding careers working on Tollway projects. While no one enjoys paying higher tolls, I believe investing in infrastructure before it reaches a crisis point is the responsible approach. The value these improvements provide to motorists and the regional economy far outweighs the additional cost.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/20/26	charles spence	60660	X			X				more police patrols	Neutral	first-living in northern cook county, the public hearing date was july 14, yet i didn't receive the notification email until july 19. bogus. second-the proposal includes adjusting rates in accordance with the Consumer Price Index every other year to provide cost predictability for customers. double bogus. EVERYONE knows the toll authority is just filling their pockets. tell the truth!
07/20/26	Robert Suster	60629	X				X		X		Oppose	Put this question on the voters ballot and let the voters decide!
07/20/26	Taylor O'Brien	60625	X		X	X					Support	I noted that I don't mind the increase, with caution. I think that if we're increasing the funding, the projects need to have goal posts that are closely monitored. I also expect that the projects should be done safely and as quickly as possible. There must be BIDDING for the work. No job should be done without a bid and public input for the bids should be taken into account. Finally, I think that the every two year toll increase for inflation should not be done without review or public commentary. There also must be more lead time for notification of public hearings and not just centered around the suburbs. Chicago needs to have a location that doesn't take 1.5 hours to get to due to traffic on the tollroads. Thank you.
07/20/26	Ivy Lloyd	60546	X		X		X				Oppose	I feel it could be more adorable....too costly
07/20/26	David Hoffman	60181	X				X			Speed	Oppose	Since they will never be free, like was promised by the State and Tollway Authority when I was a child, the increasing costs of mismanagement and pension deals granted to workers should not have to be paid by the people who have been paying tolls they weren't supposed to for over 50 years.
07/20/26	Benjamin Mazon Jr	60164	X		X	X					Oppose	TECHNICAL ALTERNATIVE SUBMISSION: WEAR-BASED PRICING FRAMEWORK Prepared For: Illinois Tollway Authority Public Record Subject: Alternative Structural Funding Framework for the $26.5 Billion Capital Plan Target Revenue Goal: $1.0 Billion Annually (Revenue Neutral Baseline) Legal Framework: Fully Compliant with the 2016 Illinois Safe Roads Lockbox Amendment === 1. STATEMENT OF OBJECTIVE & REVENUE NEUTRALITY === This formal submission outlines the "Segmented Tiered Infrastructure and Congestion Pricing Model." This alternative framework matches the exact $1.0 billion annual revenue target required to fund the $26.5 billion "Driving Connections" Capital Plan. It is completely revenue-neutral compared to the official proposal, ensuring that the Tollway's long-term capital bond obligations are fully met without creating a deficit. === 2. INFRASTRUCTURE WEAR & ENGINEERING LOGIC === The current state proposal relies on a flat 45-cent passenger increase, forcing everyday commuters to fund 64% (~$640 million) of the new revenue goal. This ignores fundamental transportation engineering principles: • Traffic Disparity: Passenger vehicles account for 85% to 90% of highway volume in Illinois, but carry less than 25% of the physical weight. Commercial trucks carry 60% to 75% of the total combined vehicle weight moving across state highways at any given time. • The Fourth-Power Law: Pavement damage increases exponentially to the fourth power of a vehicle's axle load. According to U.S. Government Accountability Office (GAO) data, a single 5-axle tractor-trailer loaded to the 80,000-pound limit inflicts the exact same structural pavement damage as 9,600 passenger automobiles. === 3. CORE POLICY GUARDRAILS === To protect local taxpayers and eliminate consumer price inflation, this model segments traffic by economic function and origin-destination routing: • The Last-Mile Retail Exemption (0% Increase): Toll rates are completely frozen for Tier 2 and Tier 3 local commercial delivery fleets. Vehicles moving goods from regional fulfillment centers to local retail shelves face zero added overhead, fully insulating local grocery and consumer goods from price inflation. • The Long-Haul Interstate Surcharge (+80% Surcharge): Heavily targets out-of-state Tier 4 heavy semi-trucks passing entirely THROUGH Illinois corridors (such as I-80 or I-90) without stopping at local distribution hubs. This captures revenue directly from the cross-country freight operations causing exponential pavement wear, tracked automatically via existing I-PASS/E-ZPass entry and exit timestamps. • Park-and-Ride Transit Credits (+27c capped to +18c): The baseline passenger toll increase is scaled back to 27 cents to cover system administration. Additionally, 25% of the long-haul truck surcharge is legally earmarked to build high-capacity regional Park-and-Ride

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/20/26	Margaret Tyne	61064	X				X		X		Oppose	Our state highway taxes have been allocated to Chicago. There is a huge redistribution inequity coming soon. When what is now I 88 was built, the tools were to be paid until the construction costs were recouped. That never happened. Rural Illinois and suburbs cannot keep funding Chicago's inability to efficiently budget for many things including transportation. Do not raise tolls outside Chicago city limits.
07/20/26	Jean M Blevins	60014			X		X			No tolls	Oppose	Enough already! Just using this to line someone's pockets
07/20/26	Todd Polivka	61103	X		X		X				Oppose	I pay a LARGE amount of State, sales and property taxes. Inflation at the store is hard to manage. Restaurant prices are "through the roof" and you want to increase the cost of iPass? Every increase to services is affecting our already shrinking budget and we WILL drive less, if not avoid the tollway altogether.
07/20/26	L. Ro	60614	X		X		X				Oppose	Yes another increase in costs for a state that is already on the highest end of taxes and other expenses for its citizen. When do you think the state will ever balance a budget, keep expenses flat and run itself with some level of fiscal responsibility. This state must have the highest levels of corruption to have expenses that are so high and services that are so mediocre. Simply embarrassing.
07/20/26	Ken Littlejohn	60538			X	X	X				Oppose	
07/20/26	Bonnie Wiklanski	60123	X	X			X				Oppose	Originally we were told that once the tollway was paid for, the tolls would subsist. Greed and misappropriation of funds have put us where we are today. There is PLENTY of money to proceed with the proposal. In Illinois, we are already taxed into poverty. Misappropriation of funds and greed have put us there also. Use our money appropriately and it will all work out!
07/20/26	Diane Tate	60442			X		X			More direct routes	Oppose	I stopped using the tollway system whenever possible due to the outrageously high cost. The prices are way too high already. I believe that to expand this elitist system of greater convenience and less traffic and stress for the wealthy is typical of the Illinois political machine. Roads should be available for use by all, not just the elite few who can pay extra. Government owes its allegiance to all the people. This is disgusting. I hope you realize which road this attitude of entitlement is leading you down. Try to do better and think again.
07/20/26	Conor	60403	X		X	X					Oppose	
07/20/26	John Klingelschmitt	60466	X				X			Safety	Oppose	For the times I have to commute to Des Plaines from Park Forest, this will cost me an extra anywhere between $500-$2,000 per year. This is not a justifiable increase. We are already taxed and tolled enough in this state. Enough is enough!
07/20/26	Anthony Lan	60634	X	X						THAT ITS FREE	Oppose	FUCK JB PRITZKER. FAT ASS LOOKS LIKE THE PENGUIN FROM BATMAN.
07/20/26	James Cook	60442	X		X		X				Support	
07/20/26	HEATHER M GLASS	68803		X		X	X				Oppose	
07/20/26	Kevin	60632	X				X	X			Oppose	The tolls were only supported to be for a limited time, that were to end decades ago.
07/20/26		60707				X	X			It’s a faster way to work.	Oppose	As someone who uses the tollway twice a day five days a week and sometimes more,I strongly oppose this! Illinoisans have been taxed to death. The state has already been fiscally irresponsible with the money they’ve already gotten from us. If the tolls get any higher, I will NOT be using the tollway any longer.
07/20/26	Sheri	60142	X		X		X				Oppose	The Tollway was supposed to pay for itself years ago and now, once again, we face another increase in rates. While I would love to have less traffic and a lower cost, the point remains, I pay tolls today and these same topics are not addressed. There is often construction that takes YEARS to complete and does not help current day traffic when it should plan for future traffic numbers. How is it that the funds collected today do not suffice? You need to get it together before automatically seeking an increase as the easy answer.
07/20/26	Jack	61073	X					X	X		Support	This program represents a smart investment in our state’s future. It will strengthen transportation infrastructure, reduce congestion, and support economic growth throughout the region.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/20/26	Chris Tolksdorf	60053-2449			X	X	X				Oppose	If this rate increase passes I will no longer be able to afford to use the tollway. I will be forced to increase my travel times significantly to avoid using the tollway. In today's economy with prices increasing across the board,this rate increase shows callous and cruelty to lower income illinois residents of which there are a growing number. If you want an empty tollway then follow your greed, this just shows how out of touch with reality most wealthy people are because no normal person who has a normal job which requires travel would support this. No on rate increase!!!!!!!!
07/20/26	Sadie	60140	X		X		X				Oppose	
07/20/26	Michael Wolff	61016	X				X			Less spending	Oppose	Many projects are a waste of money. The exchange at Harrison road and I-39 was a waste of money. The only part that was needed was the off ramp to I-90. It was a 4 leaf exchange and just needed resurfacing. More taxes to pay off riad contractors.
07/20/26	Matthew Strauss	60513	X		X		X				Oppose	Commuters should not be charged $200+ more per year to go to work. This will hurt people who commute, and have a negative impact on already rampant inflation. Illinois is a central hub of transportation, food, and other essential goods flow through us. When Illinois raises tolls, prices for other goods go up. Illinois needs to balance their existing budget and come up with real solutions that don’t hurt us.
07/20/26	Marge Lancor	60544	X		X		X				Oppose	We use the tollways everyday.
07/20/26	Jeremy McCoy	60657			X	X	X				Oppose	The public would be better served if the bi-yearly rate adjustments were based on fluctuations in the Average Median Household Income rather than on the Consumer Price Index.
07/20/26	Stephanie Gaczewski	60490	X		X		X				Oppose	
07/20/26	Rob Melgoza	60441	X		X		X				Oppose	I have been an IUOE Local 150 member for 24 years and live in Lockport. I regularly use the Tollway system and understand how important these investments are to our communities, our economy, and working families.
07/20/26	Chris Latta	60441			X		X			Toll amount posted on collection points	Oppose	The amount of the toll needs to be posted on the collection point (or toll booth). The proposal shows variable rates based on time of day, that should be posted clearly so any driver can read it at the collection point. That should've never been removed, correct it. Affordability is should be the top issue. Charging more for business vehicles means the price of our goods and services will go up. The toll rates as they are now were supposed to be able to maintain these highways and extra money would go to school programs. People think that IL is continuing to rip off the communities that use these roads. Something that would help would be to publish a clear audit of where the current funds are going
07/20/26	RICK S CARLSON	60177	X				X	X			Oppose	People complain about inflation - this is inflation - learn to do more with less
07/20/26	Thomas Driver	60030	X		X		X				Oppose	We pay so many taxes in this State compared to other states. I know this is not a tax but it is just another cost for all our residents. Many are fleeing the state for the high costs. I know I will seek other routes before taking the Toll roads if possible. I have already started. I also live close to Wisconsin and do my best to purchase gas and other goods up north
07/20/26	Ripley	60010	X		X		X				Oppose	Illinois already has high taxes not to mention gas taxes
07/20/26	Vanja	60706	X		X		X				Oppose	
07/20/26		60076			X		X			Affordability again	Oppose	
07/20/26	Gavin	60010	X	X			X				Oppose	Just don’t
07/20/26	Joe smith	60010	X	X			X				Oppose	I travel for work. This increased tax rate will affect how much money I can put towards groceries/rent
07/20/26	Tye Jeff	60655			X		X		X		Oppose	We have enough unnecessary taxes in this state. Drivers will just start taking alternative routes.
07/20/26	Tony Brezniak	60607	X				X			Put tolls on the Dan Ryan expressway	Oppose	The Dan Ryan expressway needs tolls to support your project. Why should drivers be allowed to use the Dan Ryan without paying tolls? Citizens already pay to much.
07/20/26	Cameron	61008	X				X			Only way I can get to work in 30 min otherwise my drive is over an hour.	Oppose	Tolls were supposed to be temporary. I pay as much tolls as an hour of work one way in Illinois. Tolls are ridiculous no one supports. Should be illegal. We pay enough taxes follow wisconsins path.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/20/26	Elizabeth Wolf	61108				X	X	X			Oppose	The justification for this toll increase makes no sense when combined with the projects it's intended to fund - why should drivers in Roscoe, DeKalb, and Dixon pay for "improvements" that are publicly stated to be planned for east of Elgin? And these aren't the $0.45 increases that your press releases advertise, $0.90 for drivers in Belvidere to pay for projects that that don't even come within 35 miles of them is ludicrous. $1.10 for DeKalb is crazy as well. None of your users get raises tied to the consumer price index, so I see no reason to think you should either. If you can't make it work with the funding you have, then maybe the rest stops and oases need to close because there's no excuse for people needing that many places to stop off on a 1-2 hour drive. The tollway needs to be turned back over to the state - there's no logical explanation why it's free for downstate residents to drive into the city on 55, 80, or 90/94, but northern residents get to pay for their roads while subsidizing everyone else's too. Interstates should never be privately owned when it is our tax dollars that paid to build them in the first place. Abolish the tollway and all the leeches that run it.
07/20/26	Randall Andersen	60803					X		X	Cheaper tolls.	Oppose	Iam 77 years old. On a fixed income. And an increase in any tolls means a decrease on any travel. Using no roads that have tolls. Are you planning to give seniors a discount?

07/20/26	Claudette Bettner	61353	X				X		X		Oppose	With the economy in the mess it is the average person has all they can do to just pay their bills and feed their families, they don't need additonal financial burdens placed on them.
07/20/26		60056			X	X	X				Oppose	
07/20/26	Thomas Gill	60302	X	X		X					Support	I appreciate the opportunity to comment on the Illinois Tollway's proposed Driving Connections capital program. As President of Thomas Engineering Group, I have spent nearly two decades working alongside municipalities, counties, state agencies, and the Illinois Tollway to help plan, design, and deliver transportation improvements throughout northeastern Illinois. During that time, I have developed a deep appreciation for the importance of long-range planning, disciplined investment, and responsible stewardship of public infrastructure. I support the Driving Connections program because it reflects many of the same principles that have guided regional planning efforts for decades. The Chicago region remains one of North America's most important transportation hubs, yet our aging infrastructure, changing economy, fiscal challenges, and evolving mobility needs require thoughtful, coordinated investment. I have long believed that our region is strongest when public agencies work together toward common goals rather than independently. That philosophy is reflected in CMAP's guiding principles of Inclusive Growth, Resilience, and Prioritized Investment, and I believe those same principles are evident throughout the Driving Connections program. Throughout my career, I have seen firsthand that maintaining and modernizing existing infrastructure must remain a priority. Transportation systems continue to age while available funding struggles to keep pace with increasing costs. Replacing aging infrastructure provides an opportunity not only to restore existing facilities but also to improve their resilience, efficiency, and long-term performance. Infrastructure never becomes less expensive to repair by waiting. Communities that invest proactively preserve the value of previous investments, reduce emergency repairs, and provide more reliable service to the public. Communities that defer investment frequently face higher costs, greater disruption, and fewer options. Driving Connections embraces that philosophy by emphasizing preservation and modernization while making strategic investments that improve safety, mobility, reliability, and freight movement. In my opinion, maintaining existing infrastructure before deterioration accelerates is one of the most responsible investments any transportation agency can make. My experience has also shown that public resources should be carefully targeted to maximize regional benefit. Transportation decisions should not occur in isolation but should be coordinated with housing, economic development, utilities, environmental stewardship, and local government planning. Projects should be selected transparently, based on measurable objectives, and coordinated across jurisdictions whenever possible. That collaborative approach is clearly reflected in the Driving Connections

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/20/26	Every Tollway Driver	60000	X				X			Tollway system to go away as originally planned many years ago	Oppose	A %60 to %82 percent increase in tolls is unacceptable. The toll system has been in place for far longer than originally anticipated. The toll system has been mismanaged for far too long and needs to be revamped and eventually removed as was planned many years ago.
07/20/26	Thomas Gaydos	46304			X	X	X				Oppose	Offer senior discounts. I cannot afford a toll increase nor do I want to sit in traffic for hours.
07/20/26	Judy	60184-2119	X				X			Ethical spending, good budget management	Oppose	No,no,no.Why? Self-employed truckers.The cost of fuel is out of control,the economy/inflation,etc.Figure out another way.Ask the billionaires where its going.
07/20/26		60013	X	X			X				Oppose	
07/20/26		60102	X				X			I'll take the long road before paying a toll rate	Oppose	I urge the Board to vote NO on the proposed toll increases and unvoted biannual rate hikes. Between record operating revenues and widespread inflation, forcing an additional $225+ per year onto regular commuters and a 30% hike on commercial transit will only hurt local consumers and small businesses. Drivers are already leaving the tollway to take crowded local roads—higher tolls will only worsen this safety and traffic crisis for local municipalities. Please scale back the scope of this 15-year plan to protect everyday drivers.
07/20/26	Andrew Walukonis	60048	X			X	X				Oppose	The reason I oppose is because I doubt strongly that there will be any guarantee for less overall traffic (e.g. if congestion doesn't improve measurably do I get a refund of the increased tolls collected?). This will also likely create significant increased congestion for the years/decades it takes to implement and I may not live in Illinois long enough to experience any benefits that may result once completed. Lastly, once complete, is there a guarantee that the toll prices will revert back to what they were previously, adjusted for inflation? Very unlikely.
07/20/26	Louie Eboli	60523	X		X	X					Support	As a Local 150 member, I know firsthand the importance of investing in transportation infrastructure. The Driving Connections Program will improve mobility, create jobs, and strengthen communities throughout northern Illinois.
07/20/26	Judita Slusnys	60914			X		X	X			Oppose	
07/20/26	Ron Mortensen	60103	X		X		X				Oppose	With costs rising for everything I don't believe we should raise tolls also.
07/20/26	Nichol Fricks	61102	X		X		X				Support	
07/20/26	Brian Wendt	60516					X		X	Nothing you have to offer	Oppose	This reminds me of typical politicians who have policies that effect everyone but them...apply the Toll Road system to the city of Chicago where most of our downstate politicians come from...meaning put more Toll booths in the city
07/20/26		60438			X	X	X				Oppose	
07/20/26		60018			X	X	X				Oppose

07/20/26	Bryon Howard	60142	X			X	X				Oppose	Not for toll increase
07/20/26	Eddie Rivera	60526	X				X			Construction that doesn't take forever	Oppose	We pay enough in this state to fund all these things we are already over taxed I drive for a living and I'm tired of construction projects that never finish and all these programs usually don't work like the Mannheim 290 project that saved everyone absolutely no time I say NO
07/20/26	Robert rossell	60042			X	X	X				Oppose	will not be using toll roads as much if at all
07/20/26	Naveed Ansari	60010	X		X	X					Oppose	I don't see how this increase would lead to improvement of any of those factors selected above. This would force drivers to pay more with nothing in return. Wholeheartedly oppose this proposal.
07/20/26	Laura	60521	X		X					Limit road work	Neutral	I suspect most of the traffic jams are road work related. The same roads are fixed again and again. I realize it's union jobs but the quality of the work or materials must be subpar. No sooner is the road done than a square hole is dig into it. This comprises the seal. Also too large a stretch is ripped up. This is never completed by the winter. Also always over budget. These issues need to be addressed.
07/20/26	Ryan	46304			X	X	X				Oppose	

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/20/26	Tony Pragovich	60545	X			X	X				Oppose	You are SOAKING us enough already!! Pot holes. Closed lanes for non-existent construction. Overhead lights inop. Poor winter plowing but trucks HANGING OUT waiting for NO SNOW at. Rte 56 & I-88. I could go on & on. YOU guys MUST be more efficient & frugal.
07/20/26	Sarah Adams	60089	X		X		X				Oppose	Stop stealing $$$ from Illinois residents!!
07/20/26	Heather Edwards	60097			X		X			Quickest	Oppose	We do not need to give more money for it not to be used on what it is actually for!
07/20/26	Camielle Holcombe	60446	X		X		X				Oppose	I am a single mom with two school age children. I live in a small ranch house and make slightly too much for government assistance. Increases would significantly impact my household. Increases could add as much as $2000 a year in expenses for my commute to work and picking my children up from school. If I avoid the tollway, my commute will increase about 30 minutes to my job both ways. I would get reprimanded for being late, my production would decrease as peak work ours are in the morning, and it would significantly affect my career negatively in more ways than one. I cannot get after or before school care as it is an additional expense. This is a working middle class penalty that doesn't put struggling single parents in mind.
07/20/26	Edgardo Montoya	60630			X		X			Free tolls	Oppose	Stop increasing the fucking tolls, it is not needed.
07/20/26	Gary Miller	60071	X				X		X		Oppose	I have been a driver since tool ways. Seems a lot of money has been collected. I believe this makes us the most expensive system in the US. We all know it will go over budget!
07/20/26	james Pulia	60154		X				X	X		Oppose	the number of cars going thru those tolls everyday is staggering. I cant believe since those toll plazas were built, that those toll roads were not paid off. Drive east on I390 from I 290 is insane, there are like 3 tolls in a few miles until you reach the end near York rd...Ill never take that road again. Spend that money on the crappy roads like The Eisenhower and I55, which i know are not toll roads, but they suck.When are you ever not sitting bumper to bumper on those roads.No one wants to take public transportation since the trains dont connect to any EL system where one can reach their destination whichout buses or Ubers, and the crime on them is unreal. I know 294 is a massive undertaking and that is great, but thats once in 70 years...
07/20/26		60441	X		X		X				Oppose	
07/20/26	Daniel	60561		X	X		X				Oppose	
07/20/26	Diane	60004	X				X			Police patrolling reckless driving on the tollways	Oppose	Only use toll funds for tolls and roads. Don’t use toll funds for other government agencies’ shortfalls.
07/20/26	Kashmir Crump	60096	X		X		X				Oppose	The increase in tolls will cause more issues for more drivers. Traffic will increase in other areas because individuals may utilize detours instead to save money and risk a longer commute.

07/20/26	Lawrence Campbell	60707	X		X	X					Oppose	The present toll fare is far more wit needs to be. There should be an abundance of money. There is no payroll to yoll collectors or benefits anymore. Taxing the citizens of Illinois in excess only hurts the economy.
07/20/26	S. Boston	60193					X	X		Just one way to get from Point A to Point B. Don't really care about the other answers you have besides Affordability	Oppose	Toll system was sold as a system that would be paid off in 20 years. That was 50+ years ago. Just going to raise price of goods & services.
07/20/26	Teresa M. Rackley	60123				X	X			Less construction	Oppose	The last thing we need is an increase in cost of anything except for more road closures and construction! The construction on the roads here is ridiculous!

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/20/26	Linda Tri	61350				X	X			Fewer tolls.	Oppose	Why should individual vehicles have a higher rate increase than commercial vehicles?? You seem to be screwing the little guy AGAIN. Come on! Give me a break! I just want to be able to visit my grandchildren without having to budget tolls into my trip! -- I travel from Ottawa to Chicago weekly. And I'm a widow on a fixed income. This survey sucks! I don't want to choose another answer in this category! But I MUST CHOOSE 3 😠
07/20/26	Melodye Foster	61614	X				X	X			Oppose	We get tired of every department in the state of Illinois won the taxpayers to give them more money every month and every year. This is ridiculous. The state has a budget and that budget needs to be divide up and each department needs to be able to maintain a good budget underneath what they're given.
07/20/26	Daniel Tyrpak	60706	X			X	X				Oppose	Illinois has some of the highest taxes and fees in the US. The 30% increase in commercial fees will surely affect the cost of goods traveling through and to Illinois. The average person will at the minimum pay $225.00 a year more in tolls,and let's not forget the high gas taxes. In 2025 the Tollway collected the highest amount of revenue in history. Please find other means to maintain the roads under your jurisdiction. Thank you.
07/20/26	TERESE PENZA	62650	X	X	X						Oppose	If you cared about us you would first root out all the money politicians put in their own pockets and then fix the roads to last but no, you treat us like your personal ATM, and IL has always built roads to need constant repair so the money can go into your pockets. But, you don't care and you will continue to screw us.
07/20/26	Sarah Djordjevic	60068			X	X	X				Oppose	I have never in my life been able to drive on 294 without construction. I am paying enough to sit in traffic for hours and have rocks break my windshield, do not charge more.
07/20/26	Michael B Smith	60441	X	X				X			Support	More people live further from their work place . So more expressway travel will lessen traffic on the local roads
07/20/26	John Finch	60630	X		X		X				Oppose	Tolls were to be removed when the original bonds were paid off. Not only have the tolls been kept in place, now Illinois wants to raise the tolls. I am against the proposed toll increase.
07/20/26	Michael B	60555	X			X	X				Oppose

07/20/26	sam gentil	60586	X	X		X					Oppose	Not gonna lie don't know what to say but I already pay enough I ain't tryna pay to drive on roads already taxes with a car that's taxed paid for my by money I earn that's taxes. Buttttt if you guys could extend a job application my way the tax the fuck out the roadways. Sincerely a guy who really doesn't give a fuck anyway and gonna have to pay regardless. Chow chow 😁
07/20/26	Barbara Speicher	60565	X		X		X				Oppose	Too sharp of an increase Goods and services will increase for the consumer.
07/20/26	Alan Salas	60618	X		X	X					Oppose	if you want fixed costs for the public, stop raising the tolls. This is a cowardly way of burying annual increases instead of going to the public and forcing politicians to sign off on the increases. Maybe if you were efficient in doing your work you would not need to raise the tolls. The Jane Byrne interchange cost 50% more than budgeted and took 4.5 years longer than budgeted to complete.
07/20/26	David Jankowski	60532	X		X		X				Oppose	
07/20/26		60515	X		X			X			Support	We all pay taxes for government services. Tolls as a "pay for use" is a fair way to collect these taxes. We all need to accept that inflation and the proposed projects dictate a need to raise tolls.
07/20/26	Shadow	53403			X		X			easy travel points faster to get to destination	Oppose	I use the tollway roads to get to my destinations fast. I would rather take more time to plan ahead when using roads just to not pay if there is an increase because it's about $8 everytime i go to + from a destination.
07/20/26	Phyllis	60517	X				X		X		Oppose	I would think that all the cars that travel on the tollroad every day would be paying for all the improvements that need to be made. What happened to the promise that after so many years the toll would be free.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/20/26	Deborah Wiegele	60188	X		X		X				Oppose	I think it is outrageous to increase each toll by 45 cents. That amount is way too high especially taking into account those rates will be increased every 2 years! I understand there hasn't been a rate increase since 2012. However...didn't ANYONE have the foresight to think additional road work would need to be done in the future!! The tolls should have been slowly increased years ago and that money saved and invested to be used when needed. I have zero confidence in this state's ability to budget and complete any improvement projects in a timely manner. You will always be "working on the roads" and I will be stuck overpaying for it.
07/20/26		60172	X	X			X				Oppose	A small increase is ok but 45 cents per toll is a massive increase and it's too high.
07/20/26	STEPHEN SEILS	60655	X		X		X				Oppose	The toll roads were proposed as a temporary solution to help fund the road as it was built. The Illinois tollway continues to raise tolls while letting the entire road system crumble and simultaneously remove the Oasis.
07/20/26	TIMOTHY M BARNES	60164	X			X	X				Oppose	We already pay enough in tolls.
07/20/26	Laura Ann Spencer	60540	X			X			X		Oppose	
07/20/26	Byung Lee	60169			X		X			What we have is good enough for what it is... pay off debt before starting more long term debt..	Oppose	Illinois residents are already struggling with tremendous amounts of taxes due to bad decisions and you are deciding to add to the long term debt...? Data shows many people left the state already. This state can't afford it... Please pay off debt before starting projects like this one. Or maybe use the money from state officials' paychecks to afford this project. I think 30% cut from state officials' paycheck for about 20 years should be considered before approving projects like this one. Think about it... it's actually a good idea.. if their salaries are on the line, they might think more about what would actually benefit the state and the people.
07/20/26	Daniel Gerard	60555	X		X		X				Oppose	I do not want higher tolls!
07/20/26		60431			X	X			X		Oppose	The roads are already garbage as is there is absolutely no reason to further fund a useless project that will just have funds pilfered and reappropriated for useless purposes
07/20/26		60543	X		X	X					Support	
07/20/26	Mary Bergunder	60914				X	X			Cost effective	Oppose	Cost increases at this time with the economy/increased gas prices is absolutely ridiculous. People are struggling to make ends meet without any relief in sight. This is not the time to increase rates.
07/20/26	Yuriy Yelin	60004	X		X		X				Oppose	Illinois is one of a few states that does NOT effectively managing road work and having tolling system. Check how Wisconsin is managing and maintaining roads while not having toll roads. Tolls and Taxes are the worst in the country. Strongly oppose any toll increases, especially Inflation adjustment.
07/20/26	Diane	60448	X				X			More state police	Oppose	Unaffordable, unnecessary, huge waste of taxpayers money in Illinois. No way.
07/20/26	Sean Patrick Durkin	60517	X			X	X				Oppose	I do not support any new toll increases.
07/20/26	C Sullivan	60061	X			X	X				Oppose	Another money grab by Illinois. Didn't the tollway just clear a lot of expenses from the books when D-15 was consolidated into Troop 3. Spend wisely and budget properly. Crazy concept.
07/20/26	Jason Galicia	60613			X	X	X				Oppose	
07/20/26	Lisa Jaime	60544	X		X		X				Oppose	I will specifically avoid all toll roads unless absolutely necessary if this Driving Connections passes. Tolls are high enough as is, even with an I-PASS. Construction is never ending, adding to the increased traffic and travel times.
07/20/26	rebecca pitre	60074	X				X			less expensive	Oppose	i will have to figure a way Around the tollway. i will not be able to pay more tolls.
07/20/26	Charles LoVerde III	60601	X		X	X					Support	
07/20/26	Mike Kyburz	60563-9320	X		X		X				Oppose	Tolls are high enough already.
07/20/26	Sherri Canchola	60090	X	X			X				Oppose	
07/20/26		60532			X	X	X				Oppose	
07/20/26		60657	X				X			Well functioning and fast efficient tollgates	Oppose	
07/20/26	Sarah	60515	X		X	X					Oppose	

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/20/26	Laura M.	60126	X			X	X				Oppose	I oppose the increase and the automatic increases afterward that are proposed.
07/20/26	john smith	60076	X		X		X				Oppose	
07/20/26	Donny miller	60050			X		X			Don't care all of these are not important to me	Oppose	Fuck you guys. Can't do any work in a timely manner and this governor blows. IM DONE PAYING FOR EVERYONE ELSE
07/20/26	Jay	60643-1511	X		X		X				Oppose	I frequent Wisconsin to fish and travel. Their interstate system has no tolls and they do a wonderful job of maintain/upkeep the highways. Also when repairs are needed they perform them in a respectable amount of time. Whereas, IL takes a tremendous amount of time to repair lanes and complete system changes. IL does not need to raise tolls, they need to use the money that it has responsibly!
07/20/26	Z.S.	60563	X				X			Drivers services also! And Can't control traffic or some drivers.	Oppose	I would not oppose 10-15 cent increase, but no one listening or hearing me. A 45 cent increase almost doubles some tolls is unreasonable. Obviously road maintenance, tollway ceo, tollway cfo, union tollway employees are very overpaid. Actually I think the guys on the roads deserve to paid with the risks they are on a daily basis. White shirts don't make enough, so they need to increase tolls to increase their salaries.
07/20/26	Aazram Ahmed	60192	X				X			Safety	Oppose	Our tolls are already so high, but the quality of our roads is not proportionately high. We have always been promised big things with toll hikes, but never delivered upon
07/20/26		60462	X			X	X				Oppose	The toll fees were suppose to be temporary, never permanent and now it's getting out of control with cost. Illinois can never manage money right, J B Pritzsker is ruining this state more everyday financially. People can't make ends meet now, stop raising the cost of everything. The state needs to be responsible. Enough on rhe people! 😡
07/20/26		60103				X	X			high speed limit	Oppose	becoming unaffordable when combined with higher gas prices
07/20/26	Jan Macklin	60152	X	X			X				Oppose	No more increases!!
07/20/26	Louie Kaito Kraus	60517	X		X		X				Oppose	
07/21/26	Norma Sefren	62920	X			X	X				Oppose	Illinois is already one of the highest tax states in the country. We need to find cuts from the bloated budget to pay for any proposed improvements. Do not add more tax burdens to the citizens of our state who do not control the poor budgeting decisions currently being made. FIND THE MONEY FROM A PREEXISTING SOURCE! DO NOT RAISE THE TOLLS!!
07/21/26		60617	X		X		X				Oppose	
07/21/26	Brian Steinhagen	53511		X			X	X			Oppose	The South Beloit toll will be the most expensive on the Jane Adams segment and its an absurd increase of 0ver 50%. I will take Highway 251 more to avoid the tollway with this unreasonable hike for South Beloit. You could spread that increase around more throughout the segment than hit drivers hardest who may simply be going to Rockford to spend money. Same with the Waukegan toll. I only use that segment to go to Gurnee but there are alternative routes I can take to avoid it.
07/21/26	Anton Lockwood	60189	X	X			X				Oppose	
07/21/26	Ed Warda I	60544			X		X		X		Oppose	Lower the rates and live with a more realistic budget
07/21/26	Susan Ohlson	60472	X		X		X				Oppose	I give Illinois enough of My money. Find it somewhere else.
07/21/26	Otis Crosby	60472	X		X		X				Oppose	I don't have any money.
07/21/26	Cherie	53179	X		X				X		Neutral	Too many tread wear along the highways from tires. I'm guessing from the semis
07/21/26	Cherie	53179	X				X		X		Neutral	You all need to clean up all the dead animals on the roads
07/21/26	Ernesto Rosales	60107	X				X	X			Oppose	Personally I oppose because the tolls are lady affect me as is economically, I have spent over $1000 in the past year just on tolls alone and although because I rely heavily on the highway to get there where I need to be on time also because it saves gas but in the end it doesn't really matter if I choose the city streets or highway roads either tolls or gas will make up for it, I would just like to see affordability more around.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/21/26	Javier	60805	X			X	X				Oppose	I appreciate the opportunity to provide feedback on the proposed toll rate increase. While I understand the need to fund long term infrastructure improvements through the Driving Connections capital program, a 45 cent increase for passenger vehicles and a 30 percent increase for commercial vehicles is a significant change for many regular Tollway users. I encourage the Tollway to clearly demonstrate how these funds will directly improve safety, reduce congestion, and enhance reliability for customers. Additionally, predictable and transparent communication about future CPI based adjustments will be essential to maintaining public trust. I ask that the Tollway continue exploring cost efficient alternatives, phased implementation options, and ways to minimize the financial burden on daily commuters and small businesses. Thank you for considering public input as part of this process. Equity concerns — Emphasize the impact on lower income commuters or workers who rely on the Tollway daily. Small business impact — Highlight how commercial vehicle increases affect local businesses. Transparency request — Ask for clearer breakdowns of how funds will be allocated. Phased implementation — Suggest spreading increases over time to reduce sudden financial strain. Accountability measures — Request regular public reporting on project progress and spending.
07/21/26	Curt Stamann	60098	X				X			To save time.	Oppose	The rates to drive on the toll roads is ridiculous.Other states have no toll roads and their roads are just fine.This is just another ploy to get more money out of people and more money into the pockets of the thieves that run the state.
07/21/26	Mike	61232		X	X		X				Oppose	
07/21/26	Muhammad Muharram	60189	X		X		X				Oppose	I'm already spending $100 a month on tolls and this increase would bring that up to roughly $160 a month, I've seen basically no progress on the interstate in terms of 294 being widened to alleviate traffic if anything it has caused more traffic. I thought tolls were supposed to stop in 1973 but here we are in 2026 with construction still on going and proposing more tolls. Absurd.
07/21/26	Dawn Deerwester	60482	X				X			Lower tolls	Oppose	
07/21/26	Chelsey McNeil	80033	X				X			Not being photographed.	Oppose	I do not consent to non-cash, surveillance-based tolling. Return to a cash-based method so drivers can more adequately consent to price increases, and "feel the burn" as they place monies in the toll booth. Cashless tolling is like debit cards, in that it lessens sticker shock and friction. Higher friction tolling will reduce its effectiveness as a funding model and hopefully allow voters to see it for what it is, repealing it as a revenue stream for the out-of-control Illinois political spending machine.
07/21/26	Jairo Navarro	61704	X		X	X					Oppose	At least fix the roads in Timely manner and make sure rest areas are nice open and clean!
07/21/26	Eric	61761	X		X		X				Oppose	Stop taxing us to death
07/21/26	Sai	61761	X		X		X				Oppose	Several thousands of dollars are already being paid by common man for property tax, county tax, city tax, local tax. Increasing tolls is another rip off to existing inflation, high gas and groceries prices
07/21/26	Yvonne Liberto	60175			X		X			No tolls!!!	Oppose	Illinois tollway is overcharging the Illinois residents. We do not need to pay more on our tollway's! We pay enough!!!
07/21/26		60640	X		X		X				Oppose	
07/21/26	Kyle w	62656	X				X			affordability	Oppose	i think the government should balance their budget and save money not spend it freely
07/21/26	Lee	60626		X			X		X		Oppose	
07/21/26	Timothy Falsey	60453	X		X		X				Oppose	
07/21/26	Amber Marie Parish	60618				X	X	X			Oppose	I don't believe this city or state knows what to do with money or is held accountable. Illinois politicians have a long history of severe financial mismanagement and public corruption. It's likely this board isn't any different and my commute to visit my parents would cost even more without any or minimal improvements to road conditions at all. Dislike.
07/21/26	Peyton Maynard	61109	X	X			X				Oppose	If we have a hike I want the roads to be fixed. I would like to know where all my toll money is going because I know well they aren't going to the roads at all. Gov. Pritzker, do better!
07/21/26	David Smesrud	61614	X		X		X				Support	Please increase the toll rates. We need more revenue to fund improvements. Thank you.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/21/26		60123	X				X			For there to not be any tolls at all!!!!	Oppose	It's already ridiculously expensive in this state !!!!!! Everyone in IL is unhappy and trying to move out so congrats if you do this then I don't see many people happily complying.
07/21/26	Sydney Lambert	60431			X		X			knowledge of when my information is being used.	Oppose	Would love to know if this includes flock cameras that citizens are unaware of. Overall, we pay you enough money. It's ridiculous.
07/21/26	Tim Putlak	60450			X		X			Less construction	Oppose	Please reject the proposed toll increases- I'm retired and on a fixed income and I travel on the tollway daily to get medical treatments
07/21/26	Raymond Thrasher	61701	X				X		X		Oppose	
07/21/26	Julian Villareal	60162	X	X			X				Oppose	
07/21/26	Michael K Henry	61073	X			X	X				Oppose	Based on past history, money collected for certain projects get pulled back and used elsewhere. Example; money that was supposed to be used for downstate road projects, are being pulled back for Chicagoland use. In addition, increase tolls will cause additional inflation for citizens of Illinois. It's just another tax that isn't being called a tax
07/21/26	Ruth Fugate	60073	X				X	X			Oppose	The tolls should have stopped in 1973! The money collected from the highest gas tax that the governor added when he came into office, and every year after, where is that money?
07/21/26	Lindsay Thomey	61944	X			X	X				Oppose	You get enough of our hard earned money already.
07/21/26	Dave Sampson	53949	X		X	X					Support	Well run organization. Appreciate the work you do.
07/21/26	Kim Conradi	60016				X	X			Access without tolls	Oppose	Already too expensive
07/21/26	CM Ryan	60423			X	X	X				Oppose	Toll rates are already high. My toll cost to drive to work is more than parking at a Metra station. I have no train available to take to work. The toll costs are already too high.
07/21/26	Alex	60504	X		X		X				Oppose	
07/21/26	Gerard Solon	60646	X			X	X				Oppose	
07/21/26	Parker Stafford	60060			X	X	X				Oppose	
07/21/26	Vanja Kodjabashieva	60706	X				X			.	Oppose	OPPOSED, OPPOSED, OPPOSED!!! The proposal to raise I-PASS passenger tolls by 45 cents and commercial vehicle tolls by 30% places an unfair financial burden on Illinois families and businesses. For the average driver, this hike will cost an extra ~$400 per year. Even worse, the plan to implement automatic, inflation-linked increases every two years starting in 2029 gives the Tollway Authority a blank check without proper legislative oversight. Illinoisans already face some of the highest tax burdens in the nation. At a time when the cost of living is already high, we cannot afford higher commuting costs. These hikes will also increase shipping costs, driving up the price of everyday goods for everyone. We work hard for every dollar we earn. We will not stand for a plan that increases our financial burden while offering zero transparency and giving unchecked power over where our money goes!
07/21/26	Dejan Kodjabashiev	60706	X				X		X		Oppose	OPPOSED! We work hard for every dollar we earn, and we will not stand for a proposal that increases our financial burden while offering zero transparency and unchecked power over where our money goes. By driving up logistics costs, this toll hike will ultimately steer businesses away from Illinois, killing local jobs and damaging our economy. The ultimate goal of our community is clear: we demand that lawmakers reject this unfair rate hike, enforce immediate transparency, and strip the Tollway Authority of its power to enact automatic, unchecked cost increases.
07/21/26	Carl R. Amling	60103			X	X				shorter travel times	Oppose	This is another regressive tax being proposed that will impact the most vulnerable and lower income residence of this state. The so-called leadership of this state continues to burden residents of Illinois with further taxes. The Tollway board should be abolished and only be elected business people and not political appointees.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/21/26	Maja Kodzabasiev	60706	X		X		X				Oppose	OPPOSED!!! We refuse to stand for a plan that forces hard-working Illinoisans to shoulder an even greater financial burden, especially when it comes with zero transparency and gives the Tollway Authority unchecked power over our money. This massive hike will inevitably steer businesses out of Illinois by driving up transportation and operating costs, making our state completely uncompetitive. Our goal is to protect local taxpayers and the economy by demanding that lawmakers completely reject these rate hikes and stop the automatic, unvoted future increases.
07/21/26	Sandy Peterson	60554	X			X	X				Oppose	An increase may be needed but for gods sack not that big. What is he thinking! All if these increases are going to kill Illinois
07/21/26	Lindsay Heimer	60585	X			X	X				Oppose	
07/21/26	William Luczak	60073	X		X					Safety (speeding/reckless drivers)	Oppose	
07/21/26	Joe	60014	X		X		X				Oppose	WE ALREADY PAY FOR THESE ROADS! TAX TAX TAX THATS ALL YOU CAN DO
07/21/26	Michael Alexander	60453	X				X			law enforcement	Oppose	The tolls have been there forever and the roads are in a constant state of construction in the same areas while the rest of the roads fall apart. Leaders have shown they cannot spend funds in a proper manner, this will not change. NO to TOLLs
07/21/26	Brian lowenberg	60608	X				X			Best way to get from here to there	Oppose	This toll increase is going to hurt the states competitiveness, it is clearly unnecessary and a money grab for road builders, come up with a smaller more manageable plan and do smaller increases tied to inflation of a penny or two every year: there is no reason that suddenly the tollway should be going from one of the best values in the nation to one of the worst values. We don't need a $25b improvement plan. It's irresponsible.
07/21/26	Steven M. Rienks	60563						X	X	Dynamic message signs to inform drivers in real time of tollway conditions.	Support	"Lessons to be Applied" from the Tollway's previous CIP.
07/21/26	Jill Weedon	60922	X	X			X				Oppose	
07/21/26	Brian Fullerton	60404	X			X	X				Oppose	
07/21/26	Bob Estrada	60544	X		X		X				Oppose	Illinois has some of the highest taxes in the country. The state government needs to cut non essential services and pet projects. Reduce spending and waste, and use some of that revenue to maintain the road ways.
07/21/26		60404	X			X	X				Oppose	Tolls are already too expensive.
07/21/26	M dawson	60516	X		X		X				Oppose	Pritzker should have enough of our tax dollars to fund
07/21/26	Dino Manzella	60123	X		X		X				Oppose	Suggestion to use better materials so you don't have to construct new roads every few years
07/21/26	TL	60185	X				X			Eliminate All Tolls	Oppose	
07/21/26	Steven Schmal	60101				X	X	X			Oppose	Prices keep going up with no change in service. Roads are constantly under construction. Times are still bad. Leave it as it is
07/21/26	Ahmad monsour	60462	X		X		X				Oppose	

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/21/26	Peter Johnston	60631	X	X		X					Support	•Good evening. My name is Peter Johnston, and I am here today representing ACEC Illinois, the American Council of Engineering Companies of Illinois. •ACEC Illinois represents more than 220 engineering firms across the state. •Our member firms help plan, design and deliver the roads, bridges, interchanges, and transportation infrastructure Illinois residents and businesses rely on every day. •I am also here as a Principal with GRAEF USA, where our team works on bridge inspections and design, interchange designs, drainage improvements, and highway rehabilitations. _____ •ACEC Illinois supports the Illinois Tollway's proposed Driving Connections capital program. •The program focuses on: oStrengthening the existing Tollway system oReducing congestion oImproving safety oExpanding regional access oSupporting economic growth oIntegrating new technology _____ •While I work in the engineering industry, I want to speak for a moment not as an engineer, but as an Illinoisan and user of the Tollway system. •Like many residents, I have had numerous days where the commute felt longer than the event I was driving to. •Infrastructure investment is not abstract. It affects people's lives every day. •A better transportation system means: oParents get home sooner oStudents and workers travel more safely oCommutes become more reliable oBusinesses can move goods and services more efficiently _____Driving Connections is also about safety and reliability. •Stronger bridges, better pavement, safer interchanges, improved drainage and smarter traffic management all help protect the traveling public. •These investments also prepare the Tollway system for future demand. •As engineers, we know it is far better to invest before problems become emergencies. •Long-term capital planning helps: oReduce disruption oAvoid higher future costs oImprove reliability oKeep this critical system moving safely _____ In Closing •The Tollway system is one of Illinois' most important regional assets. •It connects: oWorkers to jobs oFamilies to communities oBusinesses to customers oFreight to markets oIllinois to the national economy •A system this important requires sustained, responsible and forward-looking investment. •ACEC Illinois respectfully encourages the Tollway to move forward with the Driving Connections capital program. •This is an investment not only in roads and bridges, but in: oSafer travel oShorter commutes oStronger communities oand A more competitive Illinois economy Thank you for the opportunity to provide these remarks.
07/21/26	Tori	60091	X				X		X		Oppose	Tax billionaires and corporations for their use of public roads and toll ways before you increase the price on citizens.
07/21/26	Edward Krones	60194	X		X		X				Oppose	For all the money already spent, I sure don't see any better roads. Sure, they are great in the beginning, but you sure as heck aren't doing enough maintenance on them.
07/21/26	Voulzwasbeck Mendiola	60560	X		X		X				Oppose	
07/21/26	Ethan	60707			X	X	X				Oppose	
07/21/26	Ed hansen	60067			X		X			No increase please	Oppose	No toll increase please.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/21/26	Nathan	61109					X	X		The tollway was to be closed years ago, stop hiking the price and stealing the money of people who live in IL. You have enough of our money, decrease the toll price. There's no reason it should go up. OTHER STATES ARE DOING FINE WITHOUT TOLLS. Lower the price!	Oppose	The tollway was to be closed years ago, stop hiking the price and stealing the money of people who live in IL. You have enough of our money, decrease the toll price. There's no reason it should go up. OTHER STATES ARE DOING FINE WITHOUT TOLLS. Lower the price!
07/21/26	Judy Orlos	6050				X	X			I can only afford to do tolls limited now I won't be able to afford them at all if this takes effect	Oppose	We don't all have money for the tolls now. On a fixed income and now you want us on a fixed income not to be able to drive on it at all. Sometimes we have to used the tolls to get somewhere faster and not to add another burden on us on fixed incomes. We don't all live in a money free world.
07/21/26	Lauren Klosak	62522						X	X	Making roads safer for multi-use, less cars, more bike lanes and public transit options	Support	Support higher tolls so less people will be motivated to drive, but put that money towards public transit infrastructure, such as finishing the high-speed rail from St. Louis to Chicago. Also adding in safe protected Bike lanes in more communities outside of Chicago. Trains need to connect Illinois. There needs to be reliable transit from where I live in Decatur, Illinois to Chicago or St. Louis
07/21/26	Thea R	60031			X	X	X				Oppose	Illinois has a history of just adding more lanes to "make highways less congested " yet it doesn't work. The constant construction causes more delays and frustration. Plus, this expensive toll road "update" only helps Chicago and the near suburbs. This completely overlooks central and southern Illinois and their needs. Instead of taking all this money to throw a bandaid on a solution, hire ethical individuals to study and explore how to improve roadway congestion without just hoping wider lanes and different off ramps will work. Illinois has the opportunity to do some amazing things, but we just need to think with our heads and not our pockets. Things like tax breaks for businesses who promote work from home or alternative work hours in order to avoid the rush hour crunch or incentives to take public transit by improving train car conditions and cleanliness could be options worth researching
07/21/26	V. Logan	60033	X		X		X				Oppose	
07/21/26	Cheryl Renshaw	60031	X				X		X		Oppose	Please stop taxing us to death. Enough already.
07/21/26		60608	X			X				Quicker to my destination(s)	Oppose	Stop punishing the working class
07/21/26	Darren Udaykee	60487	X		X		X				Oppose	
07/21/26	James Thuot	60435					X		X	Elimination of tolls and conversion to freeway.	Oppose	The goal should be to eliminate tolls once capital investment is paid for. These increases smack of money laundering and grifting by the tollway authority board.
07/21/26	Trevor	60031	X		X	X					Oppose	Already pay $5+ in tolls for my daily commute. No increase seen in road condition and traffic consistently bad.
07/21/26		60118			X	X	X				Oppose	Coming off the heels of charging customers for "missed tolls" from LAST YEAR without WARNING or PROOF....that's gonna be a big no from me dawg
07/21/26	d	60102	X				X			You should not force people to select 3	Oppose	Toll rates are getting very excessive.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/21/26	Margo	60061	X			X	X				Oppose	Too much. We need to use toll roads each day and alobg with increased gas costs, includibg gas taxes here in Illinois, we can barely afford to get to work
07/21/26	Bridget Cannon	60442			X		X			Less tolls	Oppose	We already pay way too much in tolls. Stop increasing the amount. Tolls are too expensive already.
07/21/26	Rosemary F Neeb	61853	X			X	X				Oppose	Every increase whatever it is takes a bite out of Senior living expense. The Governor does not seem to care about that.
07/21/26	Lillian Jeffers	60613				X	X			You're really gonna make me choose 3 to try and justify raising the cost? the cost of living is already so high right now. Stop.	Oppose	
07/21/26		60131	X		X		X				Oppose	Tolls are already annoying and the roads still suck
07/21/26	Fran Stern	60103	X			X	X				Support	I am so confused at the costs of using the tollway system. Because I'm on social security, I now take alternate routes because costs are not clear. Please be transparent in the costs before entering the tollway. This isn't allowed at a restaurant, grocery store or anywhere else. You need to be up front.
07/21/26	Edward DAVILA	60617	X			X	X				Oppose	Especially that everything is going up in prices. Politicians when their don't match increase to the public is their way.
07/21/26		60645	X		X		X				Oppose	
07/21/26		60174				X	X			Catching reckless drivers of which there are many	Oppose	
07/21/26	Verónica Perez	60554	X		X		X				Oppose	As it is, toll prices are already high, I spend $3.20 daily going to work and school and can't afford to pay more. The .45c is outrageous not only that but you want to increase it every 2 yrs after that. We are already paying so much for gas, groceries please stop with the injustices for the working class.
07/21/26	Vince Logan	60435			X	X	X				Oppose	This was a temporary tax that is now far too expensive. The tollway needs to work within its means. Then you make people select 3 to justify the increase.
07/21/26	Heather Maynard	61109	X		X		X				Oppose	This is ridiculous. We don't need an increase. The state needs to spend the budget better.
07/21/26	Uwe Hagen	60120		X			X		X		Oppose	I use tollway probably every day to go to work.I will probably use it less often if the increase happens I will probably have to use the local lanes when I go home from work to save money
07/21/26	Bob Murphy	60069		X	X		X				Oppose	Another tax that is rediculous. Please stop our governor from getting into our pickets again.
07/21/26	vince logan	60435				X	X			None	Oppose	Pretty sneaky way of justifying the raise. People HAVE to pick three.
07/21/26	Don	60561	X				X	X			Oppose	Tolls are too high
07/21/26	Christopher	46617	X			X		X			Oppose	We absolutely do not need further increases in IL supporting the toll in the guise of better connections and economic development. If those were truly the focus, the board and state would be investing in widening access without a toll and making significant improvements to alternative travel methods (bus, tram, etc). Compared to Europe and many other regions, we severely underdevelop and under fund these modes, exacerbating existing travel, traffic, and pollution issues.
07/21/26		60194	X		X		X				Oppose	If you are going to increase the tolls, then it should be increased to the drivers that do not have an I-PASS account. The rates should remain the same for the current I-PASS users and increased on the drivers not using the I-PASS (similar to the double rates for non-users).
07/21/26	Larissa D Aguilera	60542-1188	X		X		X				Oppose	It's expensive already to drive on the tollways. Please scale back proposed plans to avoid the increase.
07/21/26	Mateo Rey	60608	X		X		X				Oppose	

2026 Illinois Tollway Proposed Rate Increase

07/21/26	Nicholas Piekarski	60175	X	X	X						Support	
07/21/26	Roger L. Cotten	61041	X			X	X				Neutral	You're gonna do it anyway. You're going to make it all increase with "inflation". If that's all it goes up in the future, that might be an accomplishment. But we all know you won't stop there. The "inflation" increase will just be a part. There always seems to be more. Can my house taxes going up be tied to inflation only, no extras? There is no end. It's always more, more, more.
07/21/26	Jim OMalley	60189				X	X	X			Oppose	I am opposed to this 30% increase. The toll authority needs to cut its internal budgets and reduce the overhead. The overhead and management should be cut instead of asking the consumer's to pay more. (Reduce the 'fat')
07/21/26	Erica Spolar	60480	X	X		X					Support	Our family supports the Tollway increase to continue to maintain and improve the Tollway facilities in the Chicagoland area
07/21/26	Jean Renier	60124	X			X			X		Oppose	I believe Illinois needs to move to a combination of tolls and mileage based fees. That way anyone driving a lot of miles is paying for that privilege. However, since this could negatively impact rural drivers we need to figure out a discounted rate for them. They can't afford the additional cost. I believe tolls are necessary to cover the cost of out of state users of the toll system, so eliminating tolls doesn't make sense, but balancing out the cost with the hybrid system in the long term would help. We have to think long term as more EV cars hit the road gas taxes aren't going to cover costs. We need to eliminate the gas tax and move to the toll and mileage based fees. Thanks for asking toll users for input. I hope Illinois figures it out we are ranked 38th in road quality and considering the high rate of taxes we pay our roads and all infrastructure should be better.
07/21/26	Eugene Daly	60638	X			X	X				Oppose	The Illinois tolls were supposed to be temporary. The tolls should've ended 50 years ago.
07/21/26	Dennis O'Leary	60142	X			X	X				Oppose	Illinois already has one of the highest road fund taxes. Now this is another way to charge for roadways from an organization that was supposed to have dissolved decades ago.
07/21/26	Tom Harris	60435	X		X		X				Oppose	
07/21/26	Marcia Diehl	60103					X		X	Just don't raise the fees.	Oppose	The toll roads were supposed to be used and then taken out!! You ate already taking tolls from everyone. Use that money!! The state tries anything and everything to raise our taxes and fees. Enough is enough. You're going to run me out of the state. You raise fees and your letter says we should like it and feel happy because it will benefit our families. I say NO!!!!
07/21/26	Hannah	63148	X						X	More dispensaries on Highway and interstate roads, they are the direct money for the government	Oppose	I'm not paying fucking eight dollars for a goddamn toll, the highways interstates and exit ramps have not been fixed in over 10 years by your shitty spot repair from pricier. Why can't you use the actual money that is from the department of road revenue and make your affordability done correctly. You are miss using budgets and you are miss using government money. You were a shame to the Illinois government.
07/21/26	SANTOS EXINIA JR	78559	X		X				X		Neutral	tolls system hard to understand
07/21/26	Heather	60134				X	X			Cost	Oppose	It's already too expensive to get to work. Increasing tolls will ultimately have me spend less time with my family as I'll have to work more to pay to get to work.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/21/26	Steven Simpson-Black	62712	X						X	Sustainability (practices that are gentler for the planet)	Support	I am an occasional tollway user, often traveling between downstate and Wisconsin via the segment of the Jane Addams from Cherry Valley to Rockton Road. Support toll increase if it means a better surface around Rockford. This segment is showing its age after major investment in the mid-aughts. I have also used the Ronald Reagan Tollway out near Dixon and Sterling-Rock Falls. An additional access point will be helpful due to the lack of oasis services in this area. Last comment is about sustainability: please limit light pollution in and around Rock Cut State Park when considering improvements to the Jane Addams. Thank you.
07/21/26	Jeannette Lohan	60142	X		X					Safety	Oppose	I support the current increase. I totally disagree with an annual increase similar to our gas tax. It will lead to huge charges and I do not believe that the factors the tollway faces require an annual increase.
07/21/26		61854	X				X			most direct route without stoplights	Oppose	Although I no longer use the tollway frequently, I feel this impacts the costs for everyone because the transportation of goods and people traveling to work are impacted by such a high rate increase. Many will resort to using other roads increasing travel times and wear and tear to more local roads. Between extremely high gas taxes and this toll increase Illinois affordability takes another hit.
07/21/26	L Luczak	60073	X	X	X						Oppose	
07/21/26	Pablo	60585	X				X			low cost	Oppose	Are you people crazy? A 45 cent hike?!? Maybe you folks should do a better job in managing the funds you already have.
07/21/26	Jason Martin	60517	X		X	X					Support	Transportation infrastructure is the lifeblood of the economy in NE Illinois and the Illinois Tollway's system is a very important aspect. I am in support of the Tollway's proposed Driving Connections Capital Program. The improvements the Tollway has made continue to support a safe and efficient system which helps all motorists in NE Illinois and those passing through. I appreciate the fact that the Tollway is completely toll funded and that the agency does not receive any tax revenue. As a result, tolls being a user based fee structure, do not impact motorists that don't use the system and the user fee system gives motorist a choice.
07/21/26	John Drew	60527	X		X		X				Oppose	illinoisans already pay some of the highest gas taxes in the country. Adding additional cost by raising tolls is going to make travel even more expensive in the Chicago area.
07/21/26	Mitchell	60564	X			X		X			Support	I appreciate the fact that the Tollway is completely toll funded and that the agency does not receive any tax revenue.
07/21/26		60446	X		X		X				Oppose	
07/21/26	Ella H	60561	X			X	X				Oppose	It is expensive as it is right now; the Tollway does not need to increase the rate; it needs to better manage the funds, drain the swamps, and stop the uncontrolled spending. You don't have a money tree; those are our pockets that you are pulling money from.
07/21/26	Steven Ludkowski	60007	X		X		X				Oppose	I think it is ridiculous that you are even entertaining the thought of increasing tolls on roads that should be paid for. We already pay the highest fuel taxes and high road tolls. Operate within the current budget or find people that can.
07/21/26	robert edwards	60491		X	X		X				Oppose	a 45 cent increase per toll is outrageous. the tolls are already expensive enough especially on the veterans memorial tollway.
07/21/26	Fred d'Escoto	60505	X			X				Design and building safe roads/corridors.	Support	This program is an investment in job creation and in small businesses in northern IL.
07/21/26	Michael Papasevastos	60134	X		X		X				Oppose	Absolutely NO on increase of tolls. The tolls were supposed to be temporary when originally conceived. Each and every year we see endless construction on these roads and very little gain. Compare it to Michigan where the roads do not need as frequent repairs. Nothing ever gets done and nothing seems to get improved - roads are still crap. Traffic is still crap. Meanwhile, you want to raise tolls for more of the same? NO. Show me value - build with solid, long-lasting materials. Reduce traffic congestion. Then ask to increase tolls.
07/21/26	Gary Doyle	60044	X		X		X				Oppose	We were supposed to be done with tolls 50 years ago. Why aren't we? Why are you raising them? STOP raising them, Better yet, eliminate them.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/21/26	Corey	61115	X				X			No other	Neutral	An increase for road and bridge maintenance makes sense because there isn't federal or state funding, and an increase hasn't taken place in over a decade. However, I feel like there are things that are "nice to have" but we don't need that would lower the rate increase. For example, technology. We live in an age where everyone has a cell phone connected to satellites that observe our roads giving us great and accurate details about our travels. We don't need our roads to be "smart" when that's already available in other technology. I'm also skeptical about road widening. If there isn't an accident, my road traveling is usually smooth until I get just passed Ohare coming into Chicago. I don't know if the roads can be widened at that point. Then, if you're coming from an even wider road, there is going to be a bigger bottleneck, right? I'd like to see evidence about the noise alongside the highway, and to know where that will be placed. More transparency and data to support this justification. And that honestly comes with the territory of living next to a highway. Much like living in Chicago next to a train rail. Instead of promising to increase tolls every other year, how about promising to decrease tolls when objectives are met. Is it greedy to ask for more than is needed to fund solutions outside the basic need for a highway knowing there's not much anyone can do about it. In summary, I support an increase to make necessary repairs but not to fund things that aren't the basic nature of a highway such as making our roads smart. Rates should be dynamic in both directions, raised when there's a significant project, and lowered once that project is complete.
07/21/26	Brian Wells	60506	X				X		X		Oppose	No toll road price increases!
07/21/26	Erik Sutterlin	60134	X				X			Less tolls	Oppose	You're gay if you support tolls
07/21/26		60564	X		X	X					Oppose	
07/21/26	Ben Rodriguez	60630			X	X	X				Oppose	I can barely afford to live these days. Stop taking more money from us and pay your share. I just need to toll way to get to work and home
07/21/26	Jim Rau	60031	X	X						Pay off the bonds and give us freeways.	Oppose	I'm tired of dealing with all of the toll increases over the years. Back in 1963 when I first started driving I would use the tollway once in awhile. Back then we were promised the tollway would become a freeway once the bonds had been payed. Instead the Tollway Commission keep starting new projects that kept the tolls coming. The time has come to stop adding new roads and adding new lanes and keep the promise of paying the bonds and giving us freeways.
07/21/26	Nina Busch	60030			X	X	X				Oppose	I do not support an increase in tolls; when they were instituted, they were supposed to be temporary and they have become permanent; you should use the money you have from the tolls that are collected to fund the project.
07/21/26	Daniela Flores	60546	X		X		X				Oppose	
07/21/26	CHRIS L Tondola	60542	X			X	X				Oppose	It is too high as it is. Prickster is pocketing half of the money now!
07/21/26	Edee Carbonara	60148					X	X		Affordability	Oppose	Ipass sucks!
07/21/26	SCOTT	60466			X		X		X		Oppose	RAISE THE PROPERTY TAX NOT HIGHER TOLL RATES.
07/21/26	SCOTT	60466	X		X				X		Oppose	RAISE SALES OR PROPERTY TAXS NOT TOLLS
07/21/26	Dr. Paul David Scaletta	60423-7827	X		X		X				Oppose	Believing anything will improve other than drivers having less money is moronic. This will grab more cash for the same redundant construction projects. More construction, less money in drivers pockets, and more traffic. The bridge on 355 has been “under construction” since MAY. Haven’t seen a worker.
07/21/26	Shelly Flowers	61270	X		X		X				Oppose	To drive from Morrison, IL to Batavia, IL is 84 miles on the tollway to see my grandkids currently costs $24 for fuel for a round trip at current prices. On top of that the two tolls round trip costs $7.60 for such a short trip. With the increase at the two gates we travel through in Dixon and DeKalb, the cost will rise to $9.20 round trip. This is excessive and we do not agree with your increase. Highway 30 is another longer option we can use. The highway is in desperate need of repair with large potholes especially created by the increasisng semi traffic using it to avoid the tollway and costs. Will state Highway 30 be included in this upgrade and how come the potholes are not being repaired all this summer on Highway 30? The neglect is obvious. I would appreciate a response at my email cricketolli24@gmail. com Thank you,

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/21/26	Hardik Joshi	60564	X		X		X				Oppose	Two expensive
07/21/26	Joseph Joutras	60432	X	X		X					Oppose	As a retiree and part-time worker, I am required to travel on the Illinois toll roads and these proposed toll increases are excessive and are projected to continue into the future! Illinois is driving citizens to relocate to more conservative states due to the high taxes, fees, tolls and regulations!
07/21/26	Kenneth M Santowski	60007	X				X			Effective use of funds	Oppose	The state of Illinois and the Tollway Authority keep putting their mistakes on the back of taxpayers and truckers. If this next increase goes through then I will encourage my drivers to take side roads, thus saving our company money. That that will mean that counties and municipalities will bear the brunt of repairing those roads while the TWA sees less revenue. You have failed to keep promises before, so why should we believe you now?
07/21/26	Gaurav Parikh	60177			X		X			Plan on reducing toll rate or eliminating it	Oppose	Toll roads were supposed to be paid off long time ago and yet drivers are being slapped with new toll rate increases. Completely unacceptable, get your operational cost under control. No more toll hikes
07/21/26	AjithKumar Narayanan	60564	X			X	X				Oppose	We are spending so much on war and supporting other counties with financials aid but nothing for our infrastructure
07/21/26	Alex najera	60164	X	X			X				Oppose	We pay enough taxes to support the road infrastructure already
07/21/26	Dottie Ashley	60189	X		X		X				Oppose	I was under the impression that the tollway charge was to pay for the construction of the tollways. however, the charge continued and I assume to maintain the roads. Isn't there enough money in there pot left?
07/21/26	Elizabeth	60538			X		X			No tolls	Oppose	IL needs to focus on managing the current funds we have today. IL is the most mismanaged state and the residents are sick of paying high taxes, tolls, etc. Enough is enough. Figure out a way to reduce expenses to residents trying to make a living in this state and stop gauging
07/21/26	Cindy Smullin	60523	X		X		X				Oppose	The state of Illinois is bleeding it's people with all there taxing. There should already be money for infrastructure..With out the Illinois people having to empty they're pockets again and again.
07/21/26	Oscar	60064	X		X		X				Oppose	
07/21/26	Suresh Karuppanasamy	60503	X		X	X					Oppose	Traffic is always too heavy. 294 and 88 for almost 4 years .. Please fix it first
07/21/26	Gabriela Giarratana	75077	X		X			X			Support	
07/21/26	Jay Schroeder	60134			X		X			Stop the road-ragers and drivers who think it’s a speedway.	Oppose	Maybe rein in costs and the exorbitant loss of revenue in toll enforcement which apparently has gotten out of hand according to reports. Why is it the board is the highest paid among all pay highways? The state needs to step up and have IDOT assume more of the daily operations. It appears that it’s easy to raise tolls, not as easy running the roads efficiently.
07/21/26	Larry McGrenera	60467	X				X			Reasonble rate increases and plans for future	Oppose	I am vehemently opposed to an almost 100% increased in toll for cars and 30% for Commercial vehicles. Illinois is out of control (not just the Tollway commision) with tax increases that do not provide the proposed benefits (example: no significant roadway improvements despite doubling the gas tax in 2019 with yearly increases for inflation and using the funds to illegally support the Chicao RTA). If that isn't enough, the Tollway also proposes bi-annual inflation increases, which should not be needed (I am a senior citizen and do not get automatic increases in my retirement benefits). I also note that Operating revenue has increased by 400% in the last 20 years, how does that affect not increasing tolls (doesn't seem to have any impact)? You and IL Gov't is literally killing the golden goose be overtaxing residents and businesses, every day we say data of how people are moving out of IL due to taxes and fees. I am in the position to avoid tollways & will do so and it is possible I would move out of Illinois if the overtaxing insanity does not stop!!!!!!!
07/21/26	Maggie	60477			X		X			Accountability of current funds	Oppose	The public transit system will be receiving $1.5 billion annually that was meant for highway construction and infrastructure repairs. Where is the justice for the people who do not use public transportation but are expected to pay for it?

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/21/26	Jason Gordon	61081	X		X		X				Support	I'm a local IUOE 150 for 3 years, I live in Sterling, I regularly use the toll way to get back and forth to work in Chicago and Rockford. It's provided me with employment opportunities. It's important to me to continue to invest in this project to provide safe efficient commute for me and my family into the future,
07/21/26	Allison Kapitanoff	60506	X				X			Less construction delays	Oppose	Illinois is a national joke when it comes to taxes, road construction, and cost. 30% toll increase is not only ridiculous, it is unmanageable my many Illinois families. We do not need a "modern and dynamic" roadway system. We need you to fill the potholes and let us drive to where we need to be. Nothing you have done thus far in my 45 years has improved anything with regards to driving, traffic, or roadway conditions, so I am in no way confident that paying you even more money will accomplish those things and more. Between gas prices and what toll charges already are, it is becoming too expensive to drive, and now you want to charge Illinois families 30% more? This is criminal, and I firmly OPPOSE.
07/21/26	Jason Whitmire	61282	X		X		X				Oppose	There is plenty of money coming in now. Every year you get more drivers on your roads pay the tolls so every year you make more money. I guess I would like to see some of it put into the streets. Not just a mile here and a mile there around Chicago to jack up traffic. To raise the tolls is a joke. Where's the money at your getting now and have been for years. Millions upon millions made already. Get the greed out of office. This has got to be the governors greedy idea.
07/21/26		60451	X				X		X		Oppose	
07/21/26	Thomas Evans	60180	X				X			NO TOLLS what so ever. Just like the majority of other states.	Oppose	The tollway slogan was "Drive for Free in 73". These promises were NEVER kept. I will being moving my two businesses and my family to Tennessee if this goes though. I,m sure MANY more businesses feel the same.
07/21/26	Andrew benson	60135	X			X	X				Oppose	
07/21/26	Kristen	60625	X		X		X				Oppose	
07/21/26	Ryan	60560	X				X			Get rid of toll roads it's a scam	Oppose	Toll roads were never supposed to be a permanent thing. And our roads still suck anyway. If you took all the money that was generated in one day just from 355 alone it should cover all of the roads in our damn state. Yet we have multiple toll roads and the entire state roads are garbage. This is a giant scam and it needs to be stopped
07/21/26	Robert Parker	60565	X			X	X				Oppose	Toll roads were supposed to go away decades ago. Now the tolls go up and the roads are worse.
07/21/26	Turner	60504			X	X	X				Oppose	Norwegian 4x4 Consumers are already facing a lot of financial challenges (i.e., housing, affordability, gas prices, rising food cost, etc.) increasing tolls doesn't need to be one of them. So much of the traffic on the expressway are people trying to get to and from their jobs. Wages don't keep up with inflation or the cost of living. This proposed cost increase is just more money out of the pockets of Illinoisans. Finishing the existing construction projects and maintaining the existing roads, without a cost increase, must be the priority. Postponing this increase for at least another year would be optimal for Illinoisans. Maybe focus internally on how cuts can be made to operating expenditures versus consistently looking toward Illinois residence to pay more and more to get around.
07/21/26	Jeff Seitz	60517			X	X	X				Oppose	
07/21/26	Samantha undesser	60538			X		X			Only direct route	Oppose	I have to take several tolls a day to teach in my school district- I literally can't afford that increase, it's not a small amount in the slightest that's a huge jump and for what? Also stop putting in ways to approve future increases year in advance without the people's approval. Tolls were supposed to be removed years ago.
07/21/26	Chuck Widerstrom	60950			X		X			Cost	Oppose	45 cents jump may seem little but that's a a big increase when it's added up at the end of a year
07/21/26	Kristin Wilkinson	60642	X		X		X				Oppose	
07/21/26	Dan	60002	X				X			Less fraud	Oppose	This temporary toll is permanent due to crooked politicians. 28 billion??? Half will go to politicians personal bank accounts

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/21/26	Kathy	60120		X	X		X				Oppose	This is way too high of an increase. Once the roads were built, we were not supposed to be charged tolls anymore. Why have you lied to us? The state is raising our taxes to fund public transportation, which I dont use. Therefore people who use public transportation but not the tollway should have to pay for your increases!!
07/21/26		60139	X		X		X				Oppose	We don’t need MORE FEES IN ILLINOIS
07/21/26	Nick Novak	60490	X	X			X				Oppose	Back when I-355 was built the Governor said tolls would be eliminated after the road was paid for. Why are we expected to personally live within our means while others seek increases on consumers. How has the Illinois Tollway tightened their belt? Labor has been drastically reduced from the elimination of toll booths. I feel an independent efficiency evaluation and accountability study is required before any increases in my out of pocket costs.
07/21/26	Amanda Z-G	60178		X	X		X				Oppose	No thank you! This is ridiculous! Other states can do without, so can we!
07/21/26	Luis G	60178		X	X		X				Oppose	No! That's stupid!Another reason people hate IL!
07/21/26	Janet Elischer	60189				X	X			Affordability	Oppose	We just got a huge increase in tolls from the state of Ilinois to prop up the RTA and CTA.This is a big burden to me as a senior citizen on a limited income. I must travel on the tollways multiple times a month for healthcare in Park Ridge from Wheaton. In these times of inflated costs of groceries, electricity, and gasoline, this is a terrible time to burden us with bigger tollway costs. Why punish car drivers with this extra increase and have trucks pay a smaller increase. In my opinion the trucks destroy roads more than a car. Is there a possiblity, you could provide a discount to senior citizens? We are really suffering in these times of inflation. Thank you for listening. Janet Elischer
07/21/26	Robert Czaska	60156	X		X		X				Oppose	Some of these toll roads, or maybe all of them, were supposed to become free after they were paid for. That was the selling point to the general public way back when. Instead of raising the rates, try doing what was promised and eliminate the tolls and the tollway authority. You have been ripping the public off long enough.
07/21/26	Anthony Losurdo	60540	X			X	X				Oppose	Seriously, when is enough enough.
07/21/26	Jeff	60005	X			X	X				Oppose	I am writing to express my strong opposition to the $26.5 billion Driving Connections capital program and the accompanying toll hikes. Illinois toll roads were originally sold to the public as temporary. State leaders famously promised that the roads would become freeways once the original construction bonds were paid off, a milestone long summarized by the historical phrase "Toll Free in '73." Instead of honoring that foundational intent, the Tollway has become a permanent taxing fixture, collecting billions of dollars over the decades while keeping drivers further from cost-free roads than ever. Raising passenger tolls by 45 cents and commercial vehicle tolls by 30% creates an unfair financial burden on Illinois families and local businesses already struggling with inflation. Furthermore, allowing toll rates to automatically increase every two years starting in 2029 completely removes public transparency and legislative oversight. Rather than locking drivers into permanent, compounding price hikes, the board should reject these historic increases. I urge the state to look into downsizing this massive capital program and establishing an actual long-term plan to wind down the Tollway Authority so these roads can finally become the public freeways they were always supposed to be.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/21/26	Christopher Fuchs	60542	X				X			Fix the damn bottlenecks if you're gonna charge us!	Oppose	The fact that they were supposed to be temporary, coupled with the ever increasing taxes in this egregiously corrupt state filled with lawmakers that waste taxpayer money on ridiculous "priorities" none of which reflect the will of the people, mean that certainly, this insane increase is NOT welcome. Not to mention the fact that they want the money to go towards CTA and 85% Chicago area up from 45% .. And really, this is just double if not triple taxation. 1. Dollars earned are taxed by Illinois via income tax. 2. Sales tax to buy your car. 3. Cars require annual stickers for license plates/registration. 4. Gas Tax.. and 5. Taxes to use the damn roads... that's actually 5 taxes on one thing!!?? Beyond triple taxation .. People are LEAVING Illinois in record numbers every year, leaving less folks behind to make up your tax base. ENACT constituent friendly changes to the taxes aka CUT TAXES and watch people be willing to move here instead of leave. The more people you have, the bigger dollar amounts of taxes you will raise. Don't further punish the folks who are stuck here by making it unaffordable to be here!
07/21/26	Jake Goodman	60007	X		X		X				Oppose	WHAT HAPPENED TO ELIMINATING ILLINOIS TOLLS????????? YOU ILLINOIS LIBERALS SPEND BILLIONS O OUR TAX MONEY ON ILLEGALS..... BUMS.... FREELOADERS.... MINORITIES..... TO KEEP THE VOTING DEMOCRAT.... AND KEEP THE POWER IN DEMOCRAT CROOK HANDS!!!!! ILLINOIS RESIDENTS DESERVE BETTER!!!! YOU PEOPE ARE CROOKS..... STEALING MILLIONS.... OFF OUR MONEY!!!! ALL O YOU CRIMINAL POLITICIANS IN ILLINOIS NEED TO GO TO JAIL!!! I HOPE TRUMP COMES THRU ILLINOIS LIKE A WRECKING BALL AND TAKES BACK ILLINOIS!!!!! "Toll free in 73." That was the year, 1973, that Illinois taxpayers had been promised their original 187 miles of tollways would be paid off and the roads would be turned into freeways. But, by then, state politicians had realized that with the tollways went jobs, contracts and clout." https://abc7chicago.com/archive/8327185/
07/21/26	Larry Trotter	60423				X	X			Once again Affordablilty	Oppose	The tollway system was suppose to go away as soon as 294 was finished over 4 decades ago. It never did and you have been collecting tolls every day since that time. And the rates keep going up and up and up. You are not concerned about affordabilty, you use that word and then in the same breath propose an increase of another .45? You are making very difficult for people to afford to even get to work.
07/21/26	Anonymous	60148	X			X	X				Oppose	The point of the toll road was to provide funding for road maintenance and other projects. Even given that purpose, road construction and delays remain ever present, with no clear signs of progress. An increase in tolls places an unnecessary burden on the driver, with no clear benefit.
07/21/26	Mike	60502				X	X			Remove the tolls. Make freeways	Oppose	Remove the tolls. Was supposed to be temporary.
07/21/26	Jung kim	60068	X	X						Tollway neighborhood	Neutral	As part of the proposed toll increase and associated Driving Connections Capital Program, the Tollway should be mindful of your neighbors. Traffic noise is something we deal with 24/7, 365 days a year. The Tollway should look to modify its Traffic Noise Study and Abetment Policy, as part of the proposed Program, to give consideration to residents who did not previously qualify for noise walls based on structural feasibility. It is common practice now for noise walls to span bridges, so the Tollway should reconsider noise walls in locations where it was previously deemed not feasible because the wall would cross a bridge or be placed on a structure.
07/21/26	Frank E London Jr	60110	X	X					X		Neutral	How do we support a cost of living increase when the state can't even get our state taxes back to us in a timely manner?
07/21/26	Alexis	60107			X	X	X				Oppose	
07/21/26	Krystyna	60630-3860	X			X			X		Oppose	
07/21/26	Tammy	61832	X	X			X				Oppose	

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/21/26	Frank asta	61036	X		X		X				Neutral	Wil the revenue from the tolls be used exclusively for the Illinois Tollway use or will the government siphon off money to help them balance their budget that is in the RED??
07/21/26	Tom Jones	46385	X		X		X				Oppose	More money from the drivers and the people at the top are getting richer. Does Illinois own the tollway or is it owned by another country like Indiana tollway.
07/21/26	M. Fernandez	60516	X	X			X				Oppose	
07/21/26	Mike	46614	X				X			Already costs too much.	Oppose	
07/21/26	Jacob	60803		X	X		X				Oppose	
07/21/26	Donna Buss	61460				X	X		X		Oppose	The state of Illinois gets plenty of money from motor fuel tax and sales tax on gas to properly maintain all roads. Take away a paid board on the tollway and the tolls. We understand the Governor uses these positions as rewards for his minions. Time to knock off that practice. Contract roadside rest stops to private industry.
07/21/26	Jong Deuk Kim	60068	X		X					Tollway neighborhood	Neutral	The Tollway's Driving Connections Capital Program must include its neighbors. Traffic noise is a 24/7 issue. The Tollway should update its Noise Abatement Policy to review areas previously denied noise walls due to "structural feasibility." Modern engineering allows walls on bridges—outdated rules shouldn't leave residents unprotected.
07/21/26	Darrell Cain	60131	X		X		X				Neutral	I am writing to formally request that the Illinois Tollway prioritizes small, minority-owned, and disadvantaged business enterprises (DBEs) in its upcoming capital program. To ensure these businesses can meaningfully participate, I urge the Tollway to break down large contracts into smaller, more accessible packages under $5 million, as current project sizes often exceed the bonding capacity of small contractors. Furthermore, the Tollway should mandate that larger prime contractors include meaningful diversity and inclusion components in their bids, requiring them to partner with small and diverse firms. By diversifying the contractor pool and fostering growth among smaller businesses, the Tollway can ensure higher standards of quality and service while promoting greater economic equity across the region.
07/21/26	Leland T Streufert	60107			X		X	X			Oppose	
07/21/26	Eugene Woodsum	61240	X		X		X				Oppose	Pay enough already
07/21/26	Stephanie Heav	60538	X		X		X				Oppose	The residents of Illinois are already stretched so thin with all our taxes. Enough is enough
07/21/26	Daniel Sheehan	60659			X	X	X				Oppose	
07/21/26		60120	X		X		X				Oppose	
07/21/26	Shane Lindholm	60077			X	X	X				Oppose	I travel a lot for business using the toll roads mostly. The volume of commercial truck traffic is out of control and contributes to the majority of lengthy drive times. They should have dedicated lanes, and not camp out across all lanes of traffic. The far left lanes, supposedly meant for passing only, are constantly held up by uneducated or uncaring drivers. I never see this enforced by State Police. Also, the largest and most frequent traffic jams are caused by (seemingly) never-ending road construction. That which is supposed to solve the problem ends up causing it. So much for "Toll-Free by '73"! It doesn't take a genius to see that the non-commercial drivers will pay the bulk of the increases while the commercial drivers hold the majority share of the congestion and road-wear blame. And when the uproar becomes loud enough, I anticipate one of the solutions to be dynamic pricing based on congestion, that which the majority of us who must use the tollways will be stuck paying overinflated tolls. Enough already!!
07/21/26	Jim Mayer	60435	X		X	X					Support	The Tollway provides safe and reliable transportation for me and my family. They drive economic development throughout northeastern Illinois. The proposed toll increase keeps the Tollway near the bottom for proposed passenger car rates nationwide. The time savings benefit and clear roads in winter alone make the Tollway well worth the cost.
07/21/26	Rachel Mayer	60435	X		X	X					Support	
07/21/26		60537	X	X					X		Support	
07/21/26	Jonathan	61032	X	X	X						Neutral	
07/21/26		60064	X					X	X		Support	

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/21/26		60064				X		X	X		Support	Tolls are reasonable and roads are well maintained
07/21/26		60540	X		X		X				Oppose	
07/21/26	Long time driver	60045	X				X			Safer than other hellinois expressways	Oppose	The tollway was supposed to be paid off years ago. It's just another way to pick our pockets. Whilst it's my favorite road, I won't be able to afford the tolls anymore. This state hates its people. We're nothing but cash stations. We're all tired of all the crazy fees and cumbersome situations.
07/21/26	Geraldine L Wagnon	45140			X	X	X				Oppose	
07/21/26	Sam	60044	X		X		X				Oppose	
07/21/26		60478	X		X		X				Oppose	
07/21/26		60173		X			X	X			Support	
07/21/26		60173			X			X	X		Support	I save 25 mins on my commute because of the Tollway
07/21/26	R M GRAHAM	60091	X	X	X						Oppose	Too much
07/21/26		60142				X		X	X		Support	
07/21/26	Theresa Vasquez	60148	X				X			See below	Oppose	This is greater than a 50% increase in toll fees for iPads holders. To make this change abruptly is reckless. Although I'm sure there are capital improvements that need to be made I have no confidence that that is believe done in a timely fashion and in a frugal way. To agree to this I would need to know that the funds already being collected are being used in a financially responsible way. I do not have that confidence.
07/21/26		60142			X		X		X		Support	I always take the Tollway because of well maintained roads. Support the continued investment.
07/21/26	Patricia Jachec	60140	X				X			Police to control the 100 mph drivers	Oppose	It's already too high
07/21/26	Jamie aguinaga	60140		X				X	X		Neutral	
07/21/26	Thomas Kane	60137	X			X	X				Oppose	Way too much of an increase, on top of constant increases in gas taxes. I will do whatever I can to avoid using the toll roads if this is implemented.
07/21/26	Adam G	60044	X			X	X				Oppose	
07/21/26		60137		X	X	X					Support	Thank you for the plan to improve 355/88 interchange so I can save time and spend more time with my family.
07/21/26		60137			X	X			X		Support	Along with safe and reliable travel times, thank you for the rest stops and *999 roadside services.
07/21/26	Ashley	60641	X				X		X		Oppose	
07/21/26	Barbara Lis	46356	X				X		X		Oppose	It's already expensive to travel due to the cost of fuel. Adding more expense is a hardship. Also adding more tolls to commercial vehicles will only add to the cost of products which the public will be paying more to purchase. It's more of a burden to the public.
07/21/26	Harry B Hartman	60119			X		X			low cost	Oppose	Too many taxes
07/21/26	Dan	60543	X			X	X				Oppose	
07/21/26	Norbert K Martin	60191	X			X	X				Oppose	Tolls are already too high. Will the revenues go to construction or will much of it be used for pensions and office staff?
07/21/26	Andy Wood	60435	X		X	X					Oppose	
07/21/26	Jhon z baker	60120	X				X		X		Oppose	
07/21/26	JJ	60490	X	X			X				Oppose	
07/21/26	Ann Pedersen	60189	X				X			Direct route from A to B.	Oppose	No, no, no! In the face of higher gas prices and rising motor fuel taxes, we consumers don't need increased toll rates too. The Illinois tollways are clogged with traffic. I don't see better conditions, or less traffic, than on other highways. I don't understand why we need toll roads at all. Also why, is it really true, that there is not federal and/or state funding? Are the books open for audit?
07/21/26	Brian	60610	X		X		X				Oppose	

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/21/26	Joaquin A Bello	60446					X	X		The prices are to high in Illinois and the road are not in good condition look at Wisconsin roads they don't have any toll on their road and they are better than Illinois roads	Oppose	Illinois is to high all roads we this prices
07/21/26	Rachel	60621			X	X	X				Oppose	City of Illinois has enough funds to not increase. Illinois is financially draining the residents of Illinois.
07/21/26		60563			X		X			Minimal contruction	Oppose	Why increase if they were only meant to be used for a handful of years. Tolls were only meant to be used to help build the highways, if you want designated expressways do so and charge for those like other states do. But making a state where having to use the highway is almost a necessity to commute to work and other location just to make it more expensive is absurd. What's even the point of the highway is in constant construction and making more traffic, defeating the purpose of its use. We seem to build these highways to last a handful of years instead of making them last over decades or such to avoid having to maintain them so frequently. If your going to raise them then make them better but that hasnt been the track record of the tollway system, especially when project tend to last well over 3+ years for small segments
07/21/26	Janet Klonowski	60418	X	X			X				Oppose	I understand things have to increase but why do they have to be increased in such large amounts? Why not 10 cents. With the amount of people driving on tollways every day there is alot of money collected. I have been thinking where has the money gone from all of the toll booth workers that are not working anymore in toll booths because we now have I-Pass. That has to be alot of employees salaries and benefits that you have not been paying. I know the tolls were to improve roads but you are still collecting alot of money every day. This is ridiculous. All of the people that go to work everyday on the toll roads you should have an enormous amount of money. Who are you all fooling. This State is taxing people to death. The more companies that are leaving this state you are losing money and with these increases that is how you are trying to cover your loses. I know you will not respond to this because you do not ask for a email. I read about a public hearing in Romeoville which is a hour away but couldn't make it. I wish I could have. I also read that those present from the Illinois Tollway don't even listen. They are reading their phones. I wish I could have voiced my opinions.
07/21/26	Diamond	61104	X	X			X				Oppose	
07/21/26	Kimberlyn	60118	X		X		X				Oppose	
07/21/26	Hiram	60629			X	X	X				Oppose	
07/21/26	Adam	60491	X		X	X					Oppose	Hell no to the increase. Democrats are stealing the money to pay for other things that should be discontinued. Next, 294 project is a disaster. You should be embarrassed that someone pays money to waste their life on a road that has been under construction for the past 8 years. Finish it! Show me the value.
07/21/26	Sal Roti	60456			X	X	X				Oppose	

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/21/26	Chauncy Hart	60140			X	X			X		Neutral	Over the past 20+ years, I have frequently traveled the Illinois tollway system through many counties, including Kane, Cook, Lake, Will, and DuPage. During that time, I have noticed that there are relatively few opportunities for drivers to stop for fuel, food, or rest in certain areas. With the new funding being allocated for tollway improvements, are there any plans to expand the number of service plazas, rest areas, or gas stations along the tollway system? As the Tollway Authority plans future improvements and redesigns, I encourage you to consider adding more service plazas and public rest areas. Additional facilities would improve convenience, enhance driver safety by reducing fatigue, and better accommodate the needs of both commuters and long-distance travelers. Thank you for your consideration of this suggestion.
07/21/26		60564	X		X	X					Oppose	Use the money from the exorbitant tax we pay in Illinois to pay for the Rhoads. The tolls were supposed to disappear 50 years ago when the bonds were paid off, but consistently been increased. That's fraud!!
07/21/26	Nick Carlson	60657			X	X	X				Oppose	Ridiculous to increase the price, we are already charged for everything. This needs to end.
07/21/26	Kennay	61068.	X		X		X				Oppose	I pay over 10 dollars a day in tolls to sit in traffic! It is the most ridiculous thing ever. The toll roads are like a speedway, causing accidents and further increasing congestion and my overall commute time!
07/21/26	Holly	60098	X				X		X		Oppose	Illinois has absolutely lost its damn mind. Quit making yourselves rich from your residents. I can't wait to be far away from you money hungry pigs. We already pay for the roads (which are trash), we already pay extra for gas because your toll roads don't work. The best thing I've ever done is headed west. The problem is too many people.
07/21/26	Phyllis Kelly	60118				X	X	X			Neutral	I don't use the tollway much however I know some MUST use it or add an hour to the drive to & from their jobs. With DC run by psychopaths, States must step up. With so many people without jobs or working poor & hungry, my question is could you split the difference & just go up $.25 instead of $.45? That's all. I do what I can personally to help those with so much less but it's getting harder & harder to afford to help. Split the difference. It's called compromise.
07/21/26		61275	X			X	X				Oppose	
07/21/26	Sergio Garcia	61241	X		X		X				Oppose	Tolls are ridiculously expensive already
07/21/26	Jonathan Sanchez	60008	X		X		X				Oppose	
07/21/26	James Wojdyla	60152	X				X			Police Roads patrolled	Oppose	The tollway was supposed to be paid for years ago. Most other states control the costs much better than Illinois government. Illinois is driving people away from here to other states where their governors don't manage state funds so poorly. Pritzker must be removed from office.
07/21/26	Leah	60169	X		X		X				Oppose	More public transportation and less toll roads!
07/21/26	matt johnson	60504			X	X	X				Oppose	
07/21/26	Jerry	60706	X				X			No Tolls	Oppose	NO to unlimited price increase of tolls!!!
07/21/26	E Buck	60542	X				X		X		Oppose	As I understand it, toll money was diverted to fund Chicago transportation so now you are increasing tolls. sounds like a bait and switch. Not right. I don't even use Chicago transit
07/22/26	R Peslak	60439	X			X	X				Oppose	
07/22/26	Kevin OBrien	60542	X		X		X				Oppose	It's a huge increase and individual drivers will receive too little benefit.
07/22/26	Ricky	60634	X		X		X				Oppose	Stop
07/22/26	Madeline	60542	X	X		X					Oppose	
07/22/26	Ragini Venkataraman	60137			X		X			roads that last more than a decade not break down every other year	Oppose	daylight highway robbery this is. we are already paying taxes at federal, state and county and village level. find funding from one of those avenues. the theme seems to be continuing to tax and burden those paying already taxes. wages don't seem to be increasing with inflation or tax burdens and a lot of ppl are losing jobs to AI. if the cost is labor employ technology and bots to do the work and reduce cost. road projects are corruption at this peak where a roadwork repair starts right before winter and is abdandoned for months. i want to see a strict plan with dates and if dates are not met then toll prices will be reduced and if road break down less than 10 yr then toll price will decrease. it is only fair that the govt and those involved construction also have something to lose and a price to pay.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/22/26	DMCooper	60445	X		X		X				Neutral	Optimize your resources. Why does 6 construction workers watch a seven work? Playing someone 100k to hold a slow sign, and $10 pipe does the same?
07/22/26	April	60409	X	X			X				Oppose	If infrastructure support is part of city and state taxes, why will there be biennial cost increase for tolls. The consumer is completely stretched to the max, the project is tax funded, there should be no cost pushed through to tax paying customers.
07/22/26		52047		X			X			Going around different route that doesn't have tolls	Oppose	
07/22/26	Ellen Bear	61008	X				X			Safety	Oppose	An increase like this will make it very costly for myself & others who commute!!!
07/22/26	Lori Itano	60187	X				X			No additional tolls	Oppose	Do not raise tolls.
07/22/26	Amanda Wegstein	61545	X		X	X					Oppose	
07/22/26	Laura Niemeyer	60552	X			X			X		Support	Living outside the Chicago suburbs the Tollway has been the preferred travel route for years and will continue to be for me and my family. The travel is predictable and the roads are well maintained, especially in the winter season. I am glad to see widening on 88 EB and 88 WB in the proposed Driving Connections Program. It is forward thinking and mitigates traffic delays that have started and continue to worsen.
07/22/26	Estelle Aloisio	60018	X		X		X				Neutral	
07/22/26	Paula	60457	X				X			Cost	Oppose	Looking at the 294 proposals, for the Central portion, your prior work had to do with resurfacing and reducing congestion (i.e. 294 to I55, etc.). Not seeing how this proposal is not a rework/redo and value added, especially at the proposed cost. Would be interested in seeing what the prior project(s) goals were/are and status (did your work achieve stated goals) before you ask taxpayers to fund this. I understand rate hikes are needed periodically, however, given what you are proposing for 294 I find to be a bit extreme. Given gas prices, cost for operating an automobile, I find this a bit extreme, especially for those commuters whose incomes would be significantly impacted. Trucking companies may be able to fund their portion, concerned about others being nickel and dimes.
07/22/26	Janice Torelli	60417	X				X		X		Neutral	
07/22/26	Jade	60477	X		X		X				Oppose	People already can't afford to live with the cost of everything else. Now the toll way is going to make that even worse.
07/22/26		60440		X	X		X				Oppose	
07/22/26		60123	X			X	X				Oppose	
07/22/26		60441	X		X		X				Oppose	
07/22/26	Roy Woodruff	60070			X	X	X				Oppose	Subject: Opposition to Proposed 2027 Toll Rate Increase and Inflation Indexing I am writing as an Arlington Heights resident to formally object to the proposed I-PASS toll increases and the plan to automatically adjust rates for inflation starting in 2029. A flat 45-cent increase per toll represents a massive percentage hike that unfairly burdens daily commuters who rely on local routes like I-90 and I-294. Families are already dealing with a high cost of living, and this increase directly reduces our household purchasing power. Furthermore, tying future rate hikes to inflation removes necessary public oversight and gives the Tollway a blank check to raise costs every two years. I urge the Board to reject this proposal and find cost-saving efficiencies within the existing budget rather than shifting the burden onto Illinois drivers.
07/22/26	Lawrence slaiwa	60016	X				X			Make it less	Oppose	We already paying toll every day for infrastructure why we need to increase thanks
07/22/26	John Doe	60645			X	X	X				Oppose	
07/22/26		69174	X				X	X			Oppose	
07/22/26	Albert wright	60068			X	X	X				Oppose	No, the tolls need to go away... Not go up..
07/22/26		60441	X		X		X				Oppose	
07/22/26	Patrick Cronin	60586	X		X		X				Oppose	We pay enough in this state for everything. The last thing we need is another toll hike which will continue to increase every other year. This state needs to quit bleeding us dry. This is just another reason my wife and I are looking to flee this state. All this state and counties do is fleece us every year. The well is running dry for most of us.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/22/26	Denise Mayhew	60050	X	X	X						Oppose	This state misuses funds. Let's get that straightened out and stop increasing the fees / tolls / taxes etc.
07/22/26	Rich Jarmakowicz	60516	X			X	X				Support	
07/22/26	Steven deleon	60617			X		X			Cheaper prices.	Oppose	
07/22/26	Dan	61065	X		X		X				Oppose	This state is too expensive already, and the value for our tax dollars and exorbitant cost of living is almost non-existent. We simply do not have the quality state that we should have for all the money that we're paying. Paying premium prices should equal premium product; yet we pay premium for high crime, failing schools, corrupt leaders, and frivolous grandstanding--all of which make a beautiful state a terrible place to live, and compel those living here to prepare for exodus.
07/22/26	Karen Munson	60172	X		X	X					Support	As a resident of Roselle and a working mother of two young children that participate in a lot of activities, I frequently use the tollway to get to work and attend my children's events. Having easy access to a well-maintained roadway system is a large reason why we chose to live in Roselle. With the days of COVID and working from home behind us, I support the proposed toll increase so that the Tollway can continue to keep its roads in good condition and minimize traffic, and I can be in my office more frequently and still make all of my children's activities.
07/22/26	Albert Raffin	60628	X			X	X				Oppose	I am not opposed to increases in tolls except that the toll road fund has a lot of money and funds for the toll road should not be used for other roadways. Keep the increase small and do not have automatic increases tied to inflation. Look at that the situation every few years and if it warrants, increase tolls. Automatic increases allow government not to be accountable to the people. I try not to drive the Chicago Skyway or Indiana Toll Road because their fees are so high. Please keep costs affordable. Not everyone driving the toll road is out of state and for those of us who drive it every day, it is just one of many cost increases that we encounter that are difficult to afford.
07/22/26	Christine Hurley	60609	X		X	X					Support	The Driving Connections capital program will create jobs and spur economic development throughout the region by creating additional opportunities to the small business community
07/22/26	Keenan Robinson	60477	X		X		X				Oppose	At what point you going to stop put all the burden on the tax payer and why people are leaving this state
07/22/26	Kendra	60187	X				X	X			Oppose	I can barely afford my commute as it is with increased gas prices, increased tolls would put me into poverty
07/22/26	Christopher Murin	60139	X		X		X				Oppose	If only revenue from tolls was used exclusively for the toll roads as intended, then this magnitude of an increase wouldn't be necessary. If only my income kept up with our state's spending habits, let alone inflation. Illinois lawmakers need to reduce their appetite for "PROGRAMS-PROGRAMS-PROGRAMS," significantly reduce state spending, and finally resolve unfunded pension liabilities before I would even consider supporting any increase in taxes, fees or tolls. Pertaining to the Illinois Tollway, here are a couple of examples that are repeatedly top of my mind. First, how much money has been wasted on reconfiguring and then rebuilding even just the toll plazas, especially on the entrance and exit ramps? Second, how about the horrible condition of pavement on the newly rebuilt NB 294, specifically the section on the bridge over Franklin Avenue and the railyard (or thereabouts)? Come on already! Use what limited labor in the trades is available to maintain the toll roads with materials designed and built to last longer. Can we go 10 or even 20 years without ANY major rebuilding ANYWHERE in the system?
07/22/26	Humberto Jaimes Jr	60564	X	X	X						Support	
07/22/26	Jasmin	60543			X	X	X				Oppose	Taking m o r e money away from people who can barely afford to pay their bills these days , let alone a car is probably the worst idea at the given moment. We are in the middle of the cost of e v e r y t h i n g going up. The l a s t thing I need is to be trapped in a city without the cash needed to relocate. I dont want to spend an additional cost ontop of how expensive it already is to travel.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/22/26	Keith m Korkus	60056	X		X	X					Support	Money well spent keep our roads accessible GOD BLESS us AMERICA
07/22/26	Chris Ratini	60143	X		X		X				Oppose	Our tolls are high enough already Most states don't have them and have nice roadways We need to cut government costs in the roadway division to pay for repairs & maintenance The tolls have gotten too expensive as it is
07/22/26	Eddie Garcia	60101	X		X		X				Oppose	No to any increase. We are over taxed in this state already. If other states dont have tolls how come we do.
07/22/26		60134	X		X				X		Support	very Helpful Initiative from ISTHA
07/22/26	Ankit Patel	60124	X			X	X				Support	
07/22/26	Vivian Zimmerman	60422	X		X	X					Neutral	If work were done during the middle of the night hours when the roads were less traveled on I might be in favor of this project. Additionally, work should be completed in less time if more people were hired to complete the task at hand. While some materials need to cure, the amount of surface area blocked off at times is greater than the area being worked upon. This isn't necessary if done properly. We could have far more work completed in less time making drivers happier and willing to pay. Work smarter not longer.....Higher more people and do the job at night.
07/22/26	Shea Brim	60504	X		X		X				Oppose	Initially the tolls were supposed to be a temporary thing and now it's become out of hand. It never stops and I don't think there will ever be enough money to satisfy those who are requesting this money. The increase is too large. It is too much. If there is going to be an increase, it should be no more than 10 cents. This is going to be too hard on people who rely on taking the toll every day. This will cause the trucking industry to raise prices on other things because they have to pay so much because they rely on having to take these tollways. I strongly oppose this huge increase.
07/22/26	Miguel Hernandez	53511	X				X		X		Oppose	I vote against it.
07/22/26	Patricia Theriault	60502	X			X	X				Oppose	I do not support the huge increase. I do not support the year after year increase proposed.
07/22/26		53558	X			X		X			Support	Given the scale of the infrastructure of the tollway, the rates are a bargain.
07/22/26	Kalyan Kancherla	60503-6225	X			X		X			Support	
07/22/26	Peggy	60477			X		X			Transparency and Accountability	Oppose	$1.5 billion will be rediverted annually to public transportation from money that was to be used for highway construction. Riders of public transportation did not have a fare increase. Where is the fairness in this decision?
07/22/26	Charlene	60076	X				X		X		Oppose	Until the minimum wage is at least on par with the living wage in Illinois, we should could continue to make it affordable for people to actually commute to work.
07/22/26		60126			X	X	X				Oppose	Roads aren't always maintained, construction takes much longer than in other states making traffic worse for years, and more tolls/taxes are imposed without seeing significant improvement in function and traffic
07/22/26	Margaret Downs	60527	X			X	X				Oppose	
07/22/26	John	60516	X		X	X					Support	Although no one likes price increases, I understand the need to upgrade and maintain infrastructure key to the tollway system.
07/22/26	David Files	60510	X			X				EV Charging Stations	Support	
07/22/26	Heidi Files	60510	X			X				EV Charging Stations	Support	
07/22/26	Gina Gaydos	60586	X		X		X				Oppose	The tolls were supposed to go away YEARS ago. As a frequent commuter family, and the current increased costs of living, the increase is coming at a bad time in this economy.
07/22/26	Alan Fry	61011	X				X			Direct route to places I travel	Oppose	You effectively increased rates for most drivers when you implemented day/night rates this year. Further, instituting an automatic increase every other year effectively removes any ability for the public to voice concerns about rates provides more opportunity for fraud and mismanagement of funds Lastly, further increases makes living in Illinois less affordable which leads to more people and jobs leaving the state. This is another bad idea from Illinois government. As a life-long Illinois resident, I am getting pretty sick of the government constantly thrusting its hand into my pocket.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/22/26	Brian.twait	60112	X	X	X						Support	As we grow we need the infrastructure to grow in order to keep every thing flowing and there's maintance like anything u have it got to maintain it if u don't the cost factor to replace gos up I fully support this
07/22/26	Laura Wright	60506	X				X			Clear signage	Oppose	That is a significant increase. I remember that the cost was only going to be temporary. I understand the need to have tolls. However, for drivers (passenger and commercial) using the tollway regularly, I think that the increase is too significant. You would be almost doubling the cost, an average of almost $500 a year. I oppose an increase! We don't keep needing new access points.
07/22/26	Brandon Ramazzina	61107	X	X			X				Oppose	I lived in CA for 35 years, and can tell when the state is leaching money from its citizenry. As a case in point, the so called “train to nowhere” that was supposed to be completed in 2020 and connect San Francisco and LA, and cost taxpayers a whopping 30 billion dollars, will now only span half that distance and cost a whopping 231 billion when/if it’s ever completed. Similarly, the state of Illinois promised that tollway users wouldn’t have to pay tolls after 1973, but 50 years after that promised deadline, they’ve paid 28 billion and for what? We should not have to pay for the failed transportation system of Chicago or any of the other failed programs that all ironically require endless revenue streams. Please do not make this bad and avoidable situation worse by hiking the toll rates ad nauseam. We deserve better than this. Thank you. Sincerely, Brandon Ramazzina
07/22/26	Carlos Alonso	60608	X	X					X		Support	We need this bill pass for better roads and more work for our families
07/22/26	Paul Kovacs	E	X			X				Safety	Support	Tollway has consistently delivered improvements to the system and continues to best serve its customers by providing a safe, reliable, toll highway system.
07/22/26	Jeffrey Dominiak	60178	X		X	X					Oppose	My objection isn't so much to the increase but to the years of gridlock that these projects are going to create. As it is it seems like there is no accountability for contractors to complete projects (i.e. why is it taking multiple years to complete the I-90/IL-53 toll plaza). I would prefer to see the tollway focus on some smaller projects. Two high priority projects should be the I-355/I-88 interchange and the i-290/IL-53/I-90 interchange. Both of those are horrible and result in lengthy backups. The latter is down right dangerous. I don't think anyone wants to see even more years of construction on I-294.
07/22/26	Shannon	60175			X	X	X				Oppose	The per toll increase is too much
07/22/26	OZ	60641	X		X		X				Oppose	Keep raising the tolls, Pritzker!!! You F***
07/22/26	Dennis W Hayes	60506	X		X	X					Support	I think this will be a push forward to updating an outdated infrastructure
07/22/26	Robert A Rohrer	60525			X		X			Affordability emphasized	Neutral	Dear Illinois Tollway Authority - I serve as manager of the Cook County Farm Bureau organization, made up of 5000 members. We are a local non-for-profit that provides membership support, communications and benefits. While our organization does not have an official position regarding the proposed toll increase, we are concerned about the economics of our members and an increase in toll costs will negatively affect many of our members financially. We are concerned that members may not be aware of the increase and we encourage you to extend the open comment period for another month to allow for a broader response from area citizens. That will provide us time to continue to encourage our members to provide input regarding this issue that will affect them directly. Thank you for the opportunity to provide these comments. Sincerely, Robert A Rohrer, Manager, Cook County Farm Bureau
07/22/26	Bob Rohrer	60439				X	X			Affordability is the only option I want to select but you make me pick something I don't support just to send a comment?	Oppose	Dear Illinois Tollway Authority - I am opposed to any increases to the toll fees. Originally, when the tollways were established, tolls were supposed to go away after construction and infrastructure. It just continues to go the opposite direction. These inflationary fees continue to eat away at all individuals net income. This tax should not be viewed as a "jobs program"! Please do not increase rates. Thank you for the opportunity to express my concern. Bob Rohrer, Lemont

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/22/26	Chaz finley	60119	X				X			More officers maintaining high traffic zones	Oppose	The tollway makes around 1.7 billion dollars most of the tollways in Illinois is safe and fine to drive on the worste part of traffic is the construction zones that take way too long to complete it's a joke to charge more learn how to budget better
07/22/26	Leroy Adams Jr.	46321	X	X			X				Support	no comment
07/22/26	Jerry Gawlik	60560				X	X		X		Oppose	Illinois took money from Illinois Tollway for the 2027 budget to help PACE. If the state took funds for other purpose than why do you need more money. Is this becoming an Illinois state piggy Bank? regarding every other year increase, its typical Illinois! lets just peep increasing with out accountability. Its a lazy way out of doing due diligence for the board and staff. I equate it to letting the Fox in the hen house because we need to. Automatic increases are stupid and lazy thinking with no regard for us citizens.
07/22/26	S. Erickson	60005	X		X		X				Oppose	We strongly oppose increased rates for tolls. We would encourage the Tollway Authority to look for ways to cut excess spending and be more fiscally responsible rather than put the burden on tax payers. We are held hostage by the toll roads in the Chicago area, and hate the predictable yearly construction that cause slow traffic and flat tires.
07/22/26	Tatiana Munoz	60133			X		X			Cost cost cost	Oppose	Do not raise the tolls. The cost of taking tollways when you go to work is already too high for working class people. My family has two people that commute and spend over $70 a month on tolls. We do not need to charge more for tolls. I am completely opposed to any increase in the cost of tolls. You're going to push people to stop using them all together
07/22/26	Kevin Klaput	60103	X		X		X				Oppose	Absolutely not. I do not support any toll rate increases. Manage the money you make hand over fist currently in a better manner. This state and all of the agencies are corrupt.
07/22/26	Jay Kronbach	61401	X			X	X				Oppose	The toll increase will discourage me and other drivers from using tollways, since even at current prices, the cost of using a tollway is greater than the extra gas and time cost of alternative routes
07/22/26	Thomas Wiese	60510-2799	X		X		X				Oppose	Utilizing toll funds for anything other than road improvements is not something I support and feel should be illegal.
07/22/26	Mariela Mendoza	60185	X		X		X				Oppose	Being able to take the toll way is already a privilege for vehicle owners, by increasing the price it will only negatively affect drivers. There are already high expenses that come with owning a vehicle; especially in this economy and the current gas prices. This would only make tolls more inaccessible to those who already struggle to make ends meet but need to take tolls to make it faster to work or get home faster to their family.
07/22/26	Luceli Hernandez	60647			X		X			Don't increase the prices	Oppose	During the pandemic you laid off and let go of all your staff to save money. you don't have any new employees to pay or any at all. And now you want to increase prices??? Stop with the greed!
07/22/26	Alvaro	60133	X		X		X				Oppose	Already too expensive no need to increase. Politicians need to figure out how to run a budget
07/22/26	Brandon Kulpit	60586	X		X		X				Oppose	They already have a surplus of funds and are not using it.
07/22/26	Erik Adney	61342	X			X	X				Support	Anyone who was drove in ILL knows are roads are one of the worst roads in the U.S. enough is enough. It's time fix this problem. Pass this bill please. Thank you.
07/22/26	ALEX	60189	X		X		X				Oppose	So, let me get this straight. You want more money when the highways have pot holes the size of the death star but somehow construction on every one of them? But the current tolls aren't enough and you want more of my taxed paycheck? No the answer is no. Budget with the money you currently pull from everyone's account on a regular basis.
07/22/26	Terence Carmody	60465	X			X	X				Oppose	Can't just keep spending more. Taxes aren't the answer for everything
07/22/26	Genaro Angeles	60435	X	X	X						Support	As a Local 150 member, I know firsthand the importance of investing in transportation infrastructure. The Driving Connections Program will improve mobility, create jobs, and strengthen communities throughout northern Illinois.
07/22/26	Frank Miceli	60515			X		X			Removal of Flock Cameras and the legal ban of their use.	Oppose	This action by the state is moronic and will only further push people out of the state. I cannot afford to live on my own at the moment as a full grown adult and the fact our government in this state is so blind to the issues of its own people is baffling. We need tax breaks and an indefinite suspension on payments coming from the state that do not directly address the debt problem.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/22/26	Nina Blazier	53128-1478			X		X			Affordability	Oppose	Stop taxing the people to death!!
07/22/26	Gerardo Mora	60068	X			X	X				Oppose	Stop raising the rates. I-294 has been consistently getting repaired! When is the stealing going to stop. If the rates continue and Illinois keep taxing us. We and my family have considered leaving the state. I'm tired of taxes being paid for nothing.
07/22/26		60585	X			X	X				Oppose	I pay enough money to the govt as is. You don't need more to keep roads maintained.
07/22/26	Christian Reibel	60512			X		X			Better policing of unsafe driving and left lane camping	Oppose	The state takes enough of my money without showing any improvements. It's time to stop and figure out your finances and stop reaching into citizens pockets.
07/22/26	Robert Moreno	60542	X		X	X					Support	I support the program. For my family especially new drivers in my family . The safety gives me peace of mind knowing they have safe places to move off the rd if necessary.
07/22/26	Angelina Haney	60502	X		X		X				Oppose	Does the increase have to be so much at one time? That's a lot for us drivers to pay when we are already struggling with other increased costs on food, gas, etc. Can't you do a smaller increase - do your improvements in phases?
07/22/26	Mike warren	61109		X	X	X					Support	I use the toll road every day to get from one end of town to the other so don't have to stop at lights do to grandson having autism and he doesn't like stop and go traffic in the city
07/22/26	Terry Walloch	60172	X	X		X					Support	I support the Tollway's continued expansion of service, capacity, and interchange reconfiguration. I use the Tollway daily and want more consistent travel times.
07/22/26	Kenny	60506	X			X		X			Support	I support this increase
07/22/26	Sandra	60115	X		X	X					Support	Thank you Tollway for providing the best part of my commute
07/22/26	John R Markez	46307	X		X		X				Neutral	I understand the need to increase tolls to keep the roads updated, however the .45 increase for passenger vehicles seems to high as the higher increase should be placed on commercial vehicles such as trucks as they are the heavier vehicles which cause more wear and tear on the roads compared to cars!
07/22/26	Jack Shannon	60302	X			X		X			Support	
07/22/26		60030	X		X					Snow cleared!!	Neutral	I understand the need but feel many people will have major pushback to a toll increase.
07/22/26	Anthony Phan	60609	X			X	X				Support	
07/22/26	Jacque Henrikson	60302	X		X			X			Support	
07/22/26	Sungie Cobb	60478	X	X			X				Neutral	
07/22/26		60459	X		X		X				Oppose	Under better oversight probably would have been paid for years ago.
07/22/26	John Doe	60446	X				X		X		Oppose	
07/22/26	Yousef Samrah	60453				X	X			NA	Oppose	They're already expensive enough and the funds is going to go to what? Construction that never ends that cause more traffic on the highways? Isn't the point of paying on the highway to get to my destination faster and I have to take the toll roads for work and already have to take a cut of my pay to pay towards iPass tolls
07/22/26	Courtney Bartl	60511	X			X	X				Oppose	JB Pritzker sucks! Don't raise my tolls, everything is expensive enough
07/22/26	Luis Aguilar	60085	X	X	X						Support	As a member of IUOE Local 150, I support the Illinois Tollway's Driving Connections Capital Program. These investments help maintain and improve the roads and bridges that millions of people rely on every day while creating opportunities for skilled construction workers
07/22/26	Regina Martynek	60139	X		X		X				Oppose	No to increase! Use the other sources that politicians use tax payer funds for their personal use!

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/22/26	Kane County Division of Transportation	60175	X			X				Safety, access to transit	Neutral	Kane County requests early coordination on the following local priorities: •I-90/Randall Road Interchange. Request Tollway participation in needed interchange improvements, including operations, safety, transit access, and bike/ped accommodations. •I-88 bus-on-shoulder / transit priority concept. Request that the Tollway evaluate and fund shoulder reconstruction and operating requirements for Pace bus-on-shoulder service on I-88. A phased approach could focus first on service to Farnsworth Road for the casino/outlet mall/economic development corridor, then extend west to IL 47 for western Kane growth, coordinated with Pace, Metra, the Tollway, Kane County and municipalities. •I-88 overpass bridge deck replacements. Include deck replacement for four County bridges over I-88 - Bliss Road, W. County Line Road, Dauberman Road, and Main Street Road. Evaluate them for inclusion in the Tollway's program or assistance with funding. •I-90 Tyrrell Bridge Bicycle / Ped crossing. As requested during the I-90 widening, evaluate alternatives and fund a crossing at or near the Tyrrell bridge over I-90 to improve bicycle and pedestrian connectivity across the I-90 Tollway. •Early design and construction coordination. Request a Kane County/Tollway coordination meetings before scoping is finalized to confirm bridge responsibilities, shoulder design opportunities, local road impacts, detours, construction timing, emergency access, drainage, utility conflicts and opportunities to bundle local priorities into Tollway work.
07/22/26	Kyle Friestedt	60046	X		X	X					Oppose	Tollway revenue far exceeds actual maintenance and expense costs already. Until more money is spent maintaining our infrastructure, why would an increase be necessary?
07/22/26	Chris	60189	X		X		X				Oppose	Construction takes for ever. Tollway doesn't deserve more money. Raising the tolls will just increase the price of goods for everyday consumers.
07/22/26	Thomas M. Grange	60515	X		X		X				Oppose	This rate increase is unethical and will place further hardship on Illinois residents. Tolls were supposed to vanish in 1973! Stop using inferior materials so that our roads last. If you raise tolls again, you are going to impact our already outrageous food costs, public transit, and other services, which are dramatically affecting seniors! With an incompetent billionaire governor and other useless politicians, this is one of the worst states in which to live. This increase cannot happen! Thomas M. Grange
07/22/26	Neil Goldman	60441	X			X	X				Oppose	I-355 is already very expensive and the new toll increase will make it worse. I enter I-355 from I-55 southbound to the Archer Avenue/143rd street exit, which is 5 miles. The proposed new toll of $2.85 will mean 57 cents a mile. This will mean $2.85 x twice a day x 20 work days a month = $114 per month. This already seemed excessive, and the increase will make it more so. It doesn't seem like a reasonable rate for the short distance. Thank you.
07/22/26	Carolyn Maggio	60007	X		X		X				Oppose	As someone who takes the 390 every day, the last thing I need is more costs on the tolls, which are already very high. Gas prices are already sky high and no nearby state has the tolls IL does, and the roads are still very bad in places. Please do not increase the tolls.
07/22/26	Francis Clark	53143	X		X		X				Oppose	I'm old enough to remember being told the tolls were only temporary to help support some road improvements and we all know how that went. These proposals are more of the same just different language. At least you're telling us in advance that our tolls will increase every 2 years whether we like it or not! Please explain what "smart infrastructure" looks like and how it benefits us by paying higher tolls. We all know none of this will relieve congestion, it's nothing more than another money grab.
07/22/26	Robert	60008	X		X	X					Oppose	Our tolls are alrwady among the highest in the nation while simultaneously having substandard road quality. There is no need to increase funding to the already misappropriated budget.
07/22/26	Robert Owensby	60190	X			X	X				Oppose	I support a much smaller rate increase than that proposed. The advisory group supporting this does NOT represent the average commuter using the tollway each day. It primarily represents special interest groups. Get some of your customers involved.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/22/26	Roger Sudnick	60185	X				X			affordability	Oppose	In Illinois, the tax burden on citizens is high, while governmental fiscal responsibility is low. The tax burden is great. Illinois is at or near the highest taxing state for property, sales, corporate, gas and overall taxes. Fiscal responsibility is low. Illinois received an "F" financial grade and ranked 48th among states. The grade is a result of high debt levels and low transparency to taxpayers. https://www.truthinaccounting.org/news/detail/financial-state-of-the-states-2025 With little interest identifying opportunities to reduce costs, Illinois government officials seek to satisfy their voracious appetite for higher taxes by punishing tollway drivers with enormous and perpetual toll increases. Without a doubt, those who build safe roads and bridges deserve fair compensation for their important work. Let's not Illinois government officials divide taxpayers and road builders by pitting us against each other. Illinois is attempting to position this enormous toll increase as the only way to finance future roadwork. This position is false. Without this toll increase, Illinois ranks among the highest states for taxation. As many have said, we don't have a revenue problem, we have a spending problem. Illinois officials purport a desire for affordability and fairness. This enormous toll increase worsens affordability and fairness. Costs will increase for tollway drivers. Costs will also increase for all Illinois consumers on goods and services as their costs go up due to shipping via the Illinois tollway system. Accountability and integrity are rarely mentioned by Illinois officials as they could not withstand the public scrutiny of such hypocrisy. Before proceeding, I have outlined estimated Illinois taxes for Illinois drivers: 1.Average state & local gas tax (including sales tax) of $0.66/gallon. 22 average miles per gallon. Average gas tax per mile = 3 cents. 2.Average current toll tax of 7 cents per mile, increasing to 11 cents per mile. A 57% increase. 3.Total Illinois tax increasing from 10 cents to 14 cents. A 40 % increase. 4.Gas and toll taxes will continue increase FOREVER. Integrity is not: •Failing to honor the promise to eliminated tolls upon repayment of bonds in 1973. •Increasing tolls when Illinois promised drivers tolls would be eliminated. •Continuing to punish drivers with perpetual gas and toll taxes. •Taxing a tax when sales tax is charged on a gas tax. •Preaching a desire to improve affordability while driving up the cost of groceries through increased freight costs. •Charging a $1.50 toll to drive less than 2 miles from Army Trail Road to North Ave on RT 355. Fairness is not: •Charging tolls in the suburbs while city highways remain freeways. •Charging 367% more in taxes to drive the Tri-State than to drive on the Eisenhower. •Converting route 390 from a freeway to a tollway, while other highways continue as freeways. •Continued increases of regressive taxes which disproportionately
07/22/26	patty	46319	X		X					Semi's and slow drivers need to stay out of the fast lane backing up traffic	Neutral	How much traffic and inconvenience is this 15 year project going to be on commuters?
07/22/26	Catherine Sears	60016	X			X	X				Oppose	From the time I was a child, I heard that the tolls were to pay for the roads by the 1970s. That hasn't happened. Now you say you are going to charge more AND disrupt driving times on the road. I have NO faith that you are using the toll money you currently have in an efficient manner. I do not approve of raising the tolls. Illinois is taxing the residence to the poor house. The toll system seems to be doing this as well.
07/22/26	Gary Lichthardt	60123	X				X			Better ways of reducing wait times to get on the toll road, example northbound Randall Road @ I-90 in Kane County often has a 3 mile backup going north and south every morning	Oppose	I have often felt that Illinois has an obligation to road construction contractor to provide "work" to them so they can pay the carrying charges for the equipment they own or lease. Please Union labor increases alone add to the cost of doing business. There should be a balanced approach that's fair to the toll road consumer and the hard costs of doing business.
07/22/26	MARYGRACE SPENCER	60803			X		X		X		Oppose	Our tolls should not be used to make up the subsidy given to the CTA.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/22/26	Tony	60056			X	X	X				Oppose	Too much over and over increases
07/22/26	Jack	60605	X	X	X						Support	If the increase is for updating/maintaining the roads and making commutes easier it is well worth the money.
07/22/26	Kevin s.	60013					X	X		More police at interchanges	Oppose	"Toll free in '73"? Clearly no trust in your process or promise. Tolls are already punitive and are just another tax to be subverted by our "representatives" for other wasteful projects. Try living within your means or you will continue to lose citizens. It's not convenient if its to expensive to use.
07/22/26	Larry Weaver	61064	X	X	X						Support	Keeping all our roads and bridges in good condition should be of the utmost priority. Safety and jobs are just some of the benefits.
07/22/26	David	60517			X		X			Not having useless construction every summer	Oppose	This is a proposed raping of Illinois citizens. Nothing more.
07/22/26	AntiCar	60621					X	X		NONE	Oppose	FUCK CARS AND EXPRESSWAYS FUND CTA AND RTA INSTEAD
07/22/26	Jessica Glasnovich	61401	X		X		X				Oppose	
07/22/26	Cindy Taylor	61727	X			X	X				Oppose	The tolls collected now only service the Chicago area. The roads south of Chicago are neglected, in poor condition, hard on automobiles, and pea gravel pot holes. I strongly oppose this increase because the funds collected do NOT come to the middle or southern parts of IL....just in someone's pocket in politics. Tired of being taxed to death by this state and not seeing any return in investments....just more bills to repair my vehicles when the roads are so bad the tires are ruined, misaligned, and damage to the under carriage parts. Its not because of the weather we have here the roads are so bad. Go to Alaska and Africa...where the weather is most extreme....their roads are 100% better than here. (Been there seen it myself) So I oppose lining someone's pocket again.
07/22/26	Mr.Patrick Evans	60130	X		X		X				Support	The program represents a smart investment in our state’s future. It will strengthen transportation infrastructure, reduce congestion, and support economic growth throughout the region.
07/22/26	Michelle Heidloff	60060	X				X			Only 2 are important	Oppose	The last thing we need is a toll increase at this time. With the high price of gas & all other factors of maintaining your vehicle adding a toll increase compounds the problem of the every day driver. The toll roads do not need changed or to have more cameras for surveillance. The simply need maintained which the tolls we pay now should be more than enough to cover this. Especially since you did away with toll booths & the employees who worked them. You are already saving from that expense. I realize you want to limit drivers & how people move freely. More people will just go around tolls if it keeps increasing even though it may take longer.
07/22/26	Haylie Lapinskas	60515	X	X		X					Support	I am more than happy to pay for a safe/clean roadway that helps me get from point A to B. Cost of everything has gone up, it makes sense why maintaining our roads is going up too.
07/22/26	Scott Birney	60625	X		X	X					Support	
07/22/26		61107	X		X		X				Oppose	
07/22/26	Devvon Clay	60185	X	X	X						Support	A robust Tollway program keeps our 150-200 employees employed! Not to mention when you have a commute from the Western Suburbs to Downtown Chicago 4-5 days a week, smooth roadways, less traffic, and predictable drive times make all the difference in the world. We support 'Driving Connections'!!!
07/22/26	C Wheeler	60148			X		X			Safety	Oppose	I oppose this tollway rate increase. We are already dealing with rising costs and higher tolls will add another financial burden. Before increasing rates, the tollway should focus on improving efficiency and controlling spending. The original concept for the Illinois tolls was that once the construction was complete and bonds paid off, the roads would be toll-free. What ever happened to that? Another reason to leave this state.
07/22/26		60631	X		X	X					Support	
07/22/26		60089	X		X		X				Oppose	My tolls to and from work will SIGNIFICANLTLY increase. I OPPOSE THE HIKE.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/22/26	Graham Burns	60073	X		X		X				Oppose	This state already spends too much money on roads for them to be maintained so poorly. Stop the graft and cut ties with every existing road construction company and let them go bankrupt. Adopt the German model
07/22/26	Ravi	60605	X		X		X				Oppose	We have some of the MOST expensive stretches of road in the U.S. and you have the gall to demand more? Are you kidding me? What the f*** do the rest of our taxes go towards? These roads have been paid off by taxes and tolls for DECADES and you're still money grabbing the citizens. There's a huge movement to take local and toll avoidant trips. I'm going to be one of their biggest advocates now because of the s*** you guys are constantly trying to pull. Screw you.
07/22/26	Diglat canon	60077	X	X						I dont take the toll cuz its an extra tax by the tyranical Illinois/US government i pay enought taxes as is that yall send to isreal so why would i pay more. Ignore the 2 choices i picked yall wouldnt let me just pick other.	Oppose	Should be free. We pay taxes already. Wait for the revolution bby
07/22/26	Miguel Mata	60165		X	X	X					Oppose	Money is not being spent right to begin with. How do we eliminate toll workers and substitute with automated cameras yet want to hike up the prices... makes no sense. If anything decrease due to us having to do the work of having to look things up ourselves.
07/22/26	Brian M	60618			X	X	X				Oppose	More money infused into a system that has consistently mismanaged money will not fix any problems. Remember when the toll roads were to be free by 1973?
07/22/26	John Bailey	60555			X		X			Can't afford it anymore.	Oppose	Driving everyday is costing me hundreds of dollars a month. On top of the gas money, toll money is one thing that is killing my pocket book. I can't keep up with the auto draft on refilling my ipass. Tell our politicians to stop raising the tolls.
07/22/26	Jon Schmidt	61114	X				X			.	Oppose	Price increases in Illinois are inevitable. However, the effort to shut out citizen input on future toll increases is reprehensible and cowardly. I object to the automatic toll increases tied to the consumer price index. The Tollway Authority is joining other Illinois pockets of government that go out of their way to avoid political accountability by failing to openly discuss in real time the legitimacy of any revenue increases. Gasoline taxes immediately come to mind.
07/22/26	Omar	60435	X			X	X				Oppose	
07/22/26		60465	X		X		X				Oppose	after tollways were built,we paid tolls until they were paid off. that never happened, we pay tolls,gas tax for roads and got federal money for roads still it is not enouph
07/22/26	Martin Parra	61020	X		X		X				Oppose	
07/22/26	Tim Rees	60067	X				X			Fix all the lights that don't work	Oppose	Paying enough
07/22/26	Enrique Muñoz	60133			X	X	X				Oppose	Its already expensive to drive on the toll way dont make it even more so
07/22/26	Alveera Ahsan	60565			X		X		X		Oppose	

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/22/26	Fran Shaw	60506	X		X		X				Oppose	There must be something I do not understand. The rate hikes passed the general assembly and have been approved by the Governor. The toll increase WILL occur in January 2027 and at 2 year intervals going forward. The Tollway Commission need only approve the hike. The hike will occur conveniently after the 2026 election. However, you must first check all the legal boxes including these public forums required by statute. These are being held after the decision has been made to hike rates. If you really cared what citizens thought, these forums should occur before the hikes. Maybe that was the original intention of the statute? These are not real public input. They are propaganda infomercials to inform us of your fiat accompli. Do you really intend to deny the Governor, who appointed all of the members of this commission, what he wants? If I am wrong, prove it. The climate concerned should be ashamed. Nothing encourages public transportation more than sitting in traffic for a few hours every day. Didn't Metra run a commercial suggesting citizens could relax and get to their destinations faster and with less stress? God bless the union members who showed up to support this. May they receive a transportation allowance in their next contracts to cover the expense of the tolls. I happen to like and respect the regular labor union members. These people do real work. To them I say there is plenty of infrastructure work that needs to happen besides the toll roads and they will not get hit with the toll hike on their off time like the rest of us. What about the Teamsters? How do they feel about these hikes? Never mind. The increase to trucking tolls will pass through to the consumer. Sorry we can't afford you! What about the working people driving Uber, cabs, limousines? What about the everyday worker trying commute to a job across town? You just made it maybe faster but certainly not cheaper. Having experienced the delays that construction of these projects causes, how happy will the toll paying public be to pay more and sit longer during construction? In contemplating an addition for a house or even just a new driveway, the owner should plan accordingly and save finances for the proposed project. Sadly, the tollway commission has not saved for the projected projects. Why should they when unlike the home owner they can just tax us to pay for these projects. In 1953 when the Tollway Commission was created, the tolls were designed to expire when the bonds were paid. Really? Even back then I believed that this was comparable to "can I sell you a time share in Hawaii?" It is really a beautiful plan. Just keep pushing those bonds and proposing more projects and the Tollway Commission keeps rolling along. At the rate people are leaving Illinois, your plan makes sense but only for one way traffic out of Illinois. This is what happens when you have one party rule.
07/22/26	Colleen	60073	X			X	X				Oppose	No more hikes, it's too much
07/22/26	Ramiro	60120	X		X		X				Oppose	Raising prices during a time of horrible inflation is a bad move. We already struggle day to day to make ends meet and pay our bills why would we want to add more into it! Our taxes fund the roads why must we pay to use them?
07/22/26		61008			X		X			How to avoid them altogether	Oppose	It cost me $15 to drive to O'Hare and back once from rockford. Your tolls are complete bs.
07/22/26	Tom Murphy	60172	X			X	X				Oppose	Now is the time to help struggling and middle class families, not to double the price of their commutes to work.
07/22/26	Arthur Schuber	53018			X	X	X				Oppose	This just gives me another reason to not return to the Chicagoland area. There should be no automatic increase. It should only be done based on need.
07/22/26	Erich Massat	60084	X		X		X				Neutral	The interchange of I-290/I-90/IL-53 has been a bottleneck for decades. Atlanta reconstructed their antiquated cloverleaf interchanges between Interstate highways in the late '80's and early 90's and here it's 2026 and still using a ramp system that cannot handle rush hour traffic demands. This interchange should be a priority, especially if the Chicago Bears build a stadium in Arlington Heights. Southbound 294 from Willow road south to I-90 interchange becomes bottlenecked. Adding a southbound lane from Dempster to south of Touhy avenue should be included.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/22/26	Kathleen Manthei	60406	X				X	X			Oppose	The Illinois Tollway was supposed to be free in 1973 when bonds were paid off. The tolls then were .25 at the main plazas and .10 at the exits. Those costs, while not the highest, are still at a significantly higher percentage. And they are much higher than FREE! I understand that Illinois is famous, or rather infamous, for never repealing tax. But to dare to make automatic increases tied to cost-of-living is unconscionable. The intention is to pay for improvements to the tollway system over the next 15 years. The reality is that by building automatic increases into law bypassing any semblance of transparency and accountability. Mr. Pritzker continues to tout himself as standing for the working people of Illinois and making Illinois affordable for them. This is just another tax he wants quietly pushed through while he publicly screams about Federal fiscal irresponsibility. I assume he thinks the majority of Illinois residents will be so busy listening to him scream about President Trump they won't notice how he is taxing the middle class to death.
07/22/26	A Padalik	60439					X		X	Transparency	Oppose	The call we were supposed to be a temporary fee to get it up and running. It has turned into a monopoly and has taken on a life of its own. When all their unnecessary government entity that takes advantage of the working porn....
07/22/26	Tom O'Hara	60540	X			X	X				Oppose	State just raised tolls .45 for trains. Most of proposed increases by tollway sounds like maintenance and normal improvements. Can the tollway find the money they already get from its customers without unlimited increases every couple of years?
07/22/26	Brianna Coser	60517	X		X		X				Oppose	It costs almost $10 each way to see my dying grandmother. The other option is to drive through an unsafe Chicago neighborhood. The skyway is a monopoly.
07/22/26	Kevin cox	60178	X			X	X				Oppose	I pay 200o to 3000 a year now in tolls commuting to the city I believe this is adequate.
07/22/26	Michael Fagiano	60542	X			X	X				Oppose	
07/22/26	Jason Kilarski	60558	X			X	X				Oppose	I vehemently oppose a toll increase. We have so many toll roads when many other states don't. It's already onerous and unfair to IL motorists. Strongly oppose. Very Strongly oppose.
07/22/26	Emily S.	60640	X						X	N/A	Oppose	The cost of tolls here are already way too high. It costs on average, over $20 to leave the city. If you come back using the toll road, it approaches $40. There are multiple back to back tolls. It's too expensive.
07/22/26	Robert McCall	46383	X	X				X			Support	As a Local 150 member , I know firsthand the importance of investing in transportation infrastructure. The Driving Connections Program will improve mobility, create jobs and strengthen communities throughout northern Illinois.
07/22/26	Francis Nelson	62650	X	X		X					Support	
07/22/26		60140	X			X	X				Oppose	
07/22/26	Beth	60189	X				X		X		Oppose	I am totally against this increase. Vote no!!!
07/22/26	Tyrone Coleman	60608	X	X						More lanes	Neutral	
07/22/26	Richard Predki	49098	X		X		X				Neutral	
07/22/26	V	60601		X			X	X			Oppose	
07/22/26	Bill Horwath	60532	X				X			Truth in advertising the new rates for Passenger vehicles in 2027	Neutral	I am dissatisfied with how the proposed rate increases are published to the public. Indicating that the increase is about .45 per toll for passenger vehicles really equates to a 60% increase. Why didn't all the tollway propaganda just simply state that our iPass expenditures will be increasing by 60%?? I think it's obvious that the tollway didnt want to shock the public and instead hid behind an amount the public might initially believe was trivial. You quoted a 30% increase for commercial, but somehow just could not state the 60% truth for passenger vehicles. Just looks sneaky and like the tollway wanted to lull the public back to sleep. Funny how our so called news media outlets didn't report a 60% toll increase, but I guess it lines up with their increased censorship of noteworthy news items.
07/22/26	Anne Marie Splitstone	60126	X			X	X				Oppose	The state often wastes money fixing roads that aren't in need while neglecting those that do (local roads)
07/22/26	izzy	60172	X			X	X				Oppose	maybe we stop overpaying construction crews to do a subpar job and start budgeting better
07/22/26	Lisa Hopkins	60123	X				X			Well maintained roads twice	Oppose	The proposed increase will push me right back to local roads. There are unfinished projects on almost every toll road now. I'm reading all the buzzwords but just seeing wasteful spending.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/22/26	Gerard fox	60010	X				X			It's time to end the tolls, which were supposed to end over 50 years ago. Other states keep their promises in this regard - why can't Illinois? Does it always have to be this corrupt?	Oppose	It's time to end the tolls, which were supposed to end over 50 years ago. Other states keep their promises in this regard - why can't Illinois? Does it always have to be this corrupt?
07/22/26	Adrian Walasik	60634	X		X		X				Oppose	Tolls collect a heafty amount already, what is the benefit of taxing more if it will only incentivize less travel?
07/22/26		60565			X	X	X				Oppose	
07/22/26	Eva Panczyk	60068	X		X	X					Support	The noise level is increasing continuously. One cannot sit in their balcony, have conversation or watch tv with the windows open.
07/22/26		60540				X	X	X			Oppose	
07/22/26	Larry grabowski	60041	X		X	X					Support	
07/22/26	Malachi Vinaccia	60643	X		X		X				Oppose	
07/22/26	Barbara Contorno	60120	X				X		X		Oppose	When the Illinois tollway was first created in 1953 Illinois residents and tax payers were promised it would be free by 1973 and then gas taxes would support our roads. Illinois has the 2nd highest gas tax in the country and the tollway has had its highest net revenue in history. There is no justification for the largest toll hike in history and this rate will keep going up every couple of years. Where has the 27 billion dollars that the tollway has generated up until 2o24 gone? Illinois's lawmakers and representatives answer to everything can't be increase taxes and tolls and not have good accountability for where all the money has gone and been spent. This increase will put an additional burden on the people of Illinois in addition to gas taxes and the huge increase in Illinois license plate renewal each year. I am adamantly opposed to the proposed increase in tolls.
07/22/26	Natalie	60647	X		X		X				Oppose	
07/22/26		60641	X		X		X				Oppose	
07/22/26	Maria	46324			X	X	X				Oppose	
07/22/26		60657	X		X	X					Oppose	
07/22/26		60139	X		X	X					Oppose	
07/22/26	Mia N	60102			X		X			That's it!!	Oppose	Please don't do this to us! It's already so expensive to live in Illinois!
07/22/26	Bracewell	60707	X			X	X				Oppose	It is to have been paid off years ago Cut all $200,000 jobs People getting fat over there.
07/22/26	W Smith	46375	X		X		X				Oppose	So, you sent out an email containing the schedule for meetings about the proposal, and inviting attendance and comment, the day after the meeting was scheduled in my area. Pretty damn transparent about wanting input.
07/22/26	Candido Lopez	60634			X	X				Less or no more tolls.	Oppose	The tollway needs to be abolished. It is already expensive to maintain a vehicle I need and add the fact that I have to pay for the worst roads and traffic ever and for what, more construction that causes more congestion for years. No thanks. Remove the tolls. They were supposed to be gone in 1973.
07/22/26	Kelly	60004	X				X			Less construction	Oppose	
07/22/26	Paul Eysenbach	60154	X		X		X				Oppose	Enough is enough!! Do not raise tolls. Cut out the fat!!!!!!
07/22/26	Charles Miller	53128	X			X			X		Neutral	Have to adapt to the times!
07/22/26	Joseph Bruno	60441	X		X		X				Oppose	I just cannot afford to spend YET more money--these roads here are poor. What are you all doing with the money? I oppose yet another increase. Do not raise it!!
07/22/26	Marian	60093	X				X	X			Oppose	

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/22/26	Robert Creed	60046				X	X			less construction	Oppose	The Illinois tollway was promised to tax-payers to be tax FREE in 1973. Illinois politicians and the Illinois toll commission have broken that promise and consistently increased rates on roads that are never free of construction or congestion. I suggest that there be no increase, and that rates return to their pre-1958 prices: $0.00.
07/22/26		61853	X		X		X				Neutral	Toll increase is warranted for reasons stated, happy to see state planning ahead and gradual increases for inflation makes sense. Wonder if initial jump could be reduced though given current economic climate and how strapped citizens are....perhaps 30 cents per toll
07/22/26		60031	X		X	X					Oppose	There's zero evidence that the current tolls can't support the needed improvements over a gradual time table. Many of these improvements don't seem time sensitive or critical enough to justify the increased tolls.
07/22/26	Jan	60090	X				X		X		Oppose	
07/22/26	Ben hasbrouck	60435	X		X		X				Oppose	
07/22/26	Paul	60423			X		X			Less construction	Oppose	Please no!!!
07/22/26	Mitchel flynn	61265	X		X		X				Oppose	It was suppose to be toll free by 1973. If it can't be toll free it should stay within its budget. The tolls were to pay of the original debt. Then for future improvements. Now the tollway is in debt and requesting more money from tax payers
07/22/26	Jose G. Alanis	60469	X	X			X				Oppose	
07/22/26		46723	X			X	X				Oppose	
07/22/26		60561	X		X		X				Oppose	No need for this program. The plan is to reduce traffic, however, it will be anything but that. Drivers will sit in traffic during all the construction. More money to sit in traffic while construction continues. Then some other project will cause more traffic somewhere else. Focus on maintaining the existing roads, no need for more. Time for a change in leadership at the Tollway.
07/22/26	Melvin Mcbride	60473	X				X			That's a significant increase for a senior citizen on a fixed income.	Oppose	I Disagree with the increase being that it makes a difference for someone on a fixed income.
07/22/26		60642			X	X	X				Oppose	
07/22/26	Alexis Goddard	60187			X	X	X				Support	Increase toll expenses on express lanes
07/22/26		60438	X				X			Penalizing people cruising in passing lanes	Oppose	
07/22/26	Dave Jay	60622	X		X	X					Oppose	
07/22/26	Thomas Chada	60453	X	X				X			Support	Our roads and bridges have been decaying, damaged, and outdated for far too long! It's time for a major overhaul!
07/22/26	Ron Jeremy	60175		X			X			Reducing or eliminating tolls all together	Oppose	The idea is to reduce to eliminate tolling or come up with a plan for this.
07/22/26	LINDA M BUJKO	60177	X			X	X				Oppose	WAY TOO MUCH OF AN INCREASE. MAKE IT MUCH SMALLER AND PEOPLE WILL APPROVE.
07/22/26	Matt	60110					X	X		Less tolls	Oppose	Moneygrab after moneygrab.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/22/26	Michelle Ingram	60108				X	X			Most efficient direct route to destinations	Oppose	This change would increase the cost of a 2 axle vehicle for a working class commuter by about 60%. That is a huge impact on just getting to & from work. It's like a forced cut in pay. $1000 current annual fees would go to about $1600. Based on a little research: The Tollway recently reported record net revenues. We do not need a massive rate hike when this system is already collecting all-time highs in revenue; it should use existing funds and responsible bonding instead. I absolutely oppose automatic, inflation-linked increases every two years starting in 2029 that will not require a board vote. Every rate increase must be voted on publicly. The business vehicle hikes would end up being rolled into the cost to the consumer, ultimately having us shoulder the toll costs for those vehicles too. I fully oppose any increase in toll costs. If there were any other ways to get to & from work without the need to travel on a tollway, I would. But with limited other non-tollway expressway options, it leaves the commuter held hostage with the no win choice of, absorb added cost of increasing tolls or add more time to their commute to use local roads instead. Either way is not a good option.
07/22/26	Jose Gomez	60133	X			X	X				Oppose	It's all ready with everything more expensive now for me to have to work every day and drive the high way it's costing and if prices go hire I will have to find a job closer to the town Im from
07/23/26		60014	X			X				Not paying more	Oppose	Highway robbery.
07/23/26	NA	60504	X			X	X				Oppose	Stop nickel and diming the people and use the tax from marijuana sales to pay for road maintenance
07/23/26	Joann	60156			X		X			Making it affordable to use - nothing else matters if you can't afford to use it	Oppose	This a huge increase that will significantly affect access and the ability to use the system. Our household will be significantly impacted. It's not affordable to use. This toll system was never supposed to be eternal. This is a huge burden. Cut costs in other areas to cover expenses
07/23/26	Terry Robbins	60431	X		X		X				Oppose	no need for a toll increase
07/23/26		60120					X	X		Cost	Oppose	Stop charging for roads that should have been paid for.
07/23/26	Dan M.	60148	X			X	X				Oppose	NO TOLL INCREASE!
07/23/26	Nancy Fanning	60477		X		X	X				Oppose	This rate increase is ridiculous & to tie future increases on inflation is WRONG! The tollway makes plenty of money now with the tolls as high as they are. People will find alternative routes to avoid using the tollways if this goes into effect. Hopefully you will actually read comments & listen to the opposition at the meetings you held and NOT put this in effect.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/23/26	Steven teska	60177	X				X			The highways have been under construction for my whole life , 290 is a shithole with so much trash on the shoulders I can almost furnish a whole house from all the shit on the highway , tolls go up then the highways should be clean , no pot holes , not trash , get rid of the amber lights and replace them with white since u can't see shit with them. (prime example is at York and 290) also people should be pulled over for sitting in the left lane not moving or impeding traffic, do something about all this since you have all taken our money and have done nothing for the people of Illinois but put us in dead stop	Oppose	Get it together, this is not hard to do , you people should be smart but it's looking like we have a bunch of toddlers running this highway system, 294 has been under construction for over 20 years , for what? Why? Just alone this year I'm sure I'm over $500 in tolls . So who's paying for me to drive to work to help the old people in retirement homes that need there meds ? When Covid hit how did I get compensation for having to come to work everyday while most of you people sat at home not doing shit getting paid just to take more of my money , you people really need to get it together, a lot of people are already leaving this state and it's definitely not stopping after this gets raised
07/23/26	Denise Katunas	60610			X		X			Again affordability	Oppose	Living in Illinois is already too expensive for those who have to commute. Raising the rate for toll just because it hasn't been raised for some years is wrong. The state needs to become fiscally responsible. Stop taxing us to death.
07/23/26		61111	X		X		X				Oppose	
07/23/26	DAN R ASKELAND	61068	X	X	X						Support	please continue to upgrade and make are roads safer and better
07/23/26	Gabriel Martinez	61111			X		X		X		Oppose	You refuse to support the Bears Stadium funding. But you're digging our pockets for your own personal agenda.
07/23/26	Vijay	60067				X	X	X			Oppose	
07/23/26	Joe Smid	60137	X		X		X				Oppose	It seems like some areas are being worked on where roads are ok and why aren't there more tolls down south and less up north?
07/23/26	Dmitriy Davydovich	60607			X	X	X				Oppose	It's expensive as it is, and the roads are still horrible , the toll gates keep malfunctioning... where is the money people are paying now going ?
07/23/26	Arran	60101	X					X		More money should go to public transit and definitely not highway expansion	Support	Please use this money to expand public transit and maintenance for those systems and our roads. Danke :)
07/23/26	Jose Salas	60586	X		X		X				Oppose	

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/23/26	Peter Matsukis	61019	X				X	X			Oppose	As a business operating in Northern Illinois, the proposed toll increase presents a significant financial burden that directly impacts our operational viability. Our business relies on consistent and cost-effective travel throughout the region, and the cumulative effect of rising overhead costs—specifically the combination of potential toll hikes and annual fuel price increases—has reached a breaking point. The current economic climate for logistics and heavy transport is already challenging. Adding another layer of expense through increased toll rates forces us to reevaluate our footprint in the state. Please be advised that if this toll increase is implemented, it will be the deciding factor in our decision to relocate our operations to either Wisconsin or Indiana, where the cost of doing business is more sustainable. We urge you to consider the detrimental impact these rate hikes have on local businesses and the state's economy. **Reasons for Opposition:** * **Cumulative Financial Strain:** The toll increase is not an isolated cost but is compounded by rising fuel expenses and existing inflationary pressures on business operations. * **Operational Viability:** Increased transportation costs directly reduce our profit margins, making it difficult to maintain competitive pricing for our recycling services. * **Relocation Risk:** The proposed rate hikes serve as a major incentive to seek a more business-friendly environment in neighboring states like Wisconsin or Indiana. * **Economic Impact:** The departure of local businesses to other states results in a loss of jobs and tax revenue for Illinois, which counteracts the stated goals of the Driving Connections capital program.
07/23/26	Mike	60634	X		X		X				Oppose	
07/23/26	Alexandra Zelles	60510	X				X	X			Neutral	I understand that toll prices have not increased in more than a decade, despite material cost increases, and that increases are likely necessary to keep with maintenance and necessary improvements. I do have concerns about the total cost for an individual to drive from one end of the system to another (a current $22 price tag to go from the south suburbs to Wisconsin with a trailer is expensive and may already be cost-prohibitive to people), and that an increase would only make that problem worse. People are already struggling with the economy and it is difficult to make ends meet for many people. And it is nearly impossible to get across the Chicagoland without utilizing the Tollway, without at least doubling trip time. I would like to see information presented on the budgetary need for the increase (showing why the current toll rate is not enough), in addition to demonstrated purpose and need with supporting data on the proposed projects. I would rank factors most important to me when traveling the Tollway (1 being the highest as): (1) affordability, (2) well-maintained roads, (3) connections to buses, trains and airports, (4) predictable drive times, (5) less traffic, (6) driver services, (7) access points.
07/23/26	Leah Anderson	60506-5349	X				X			safety: primarily speed control, mostly I-88 EB Aurora to Chgo.	Oppose	I have an I-PASS transponder. It's convenient and I have automatic toll replenishment on my account. Today, I rarely use the tollway. When I do use the tollway, I try to make my trips ONE-WAY to save money. It seems there are more drivers using the tollways, so a route (say Butterfield Rd, Rt. 56) seems to have less traffic. For me, the tollways don't save me that much time, but they will cost me quite a bit in the long run with the new toll increase. If you increase the tolls (and you will, no doubt), I would suggest raising the amount by 15 cents for five years.
07/23/26	David Work	60540					X		X	Cost	Oppose	As I resident of Naperville the highway system in my my area limits me to using only the tollway system for area highway travel. Whether going into the city, traveling to Wisconsin, Michigan, etc I have no other choices. As a retiree this toll increase has a substantial impact on budget, not only the initial increase but the ongoing annual cost. The impact on the trucking industry will clearly necessitate that consumers pay more, so a double whammy. I realize that for the construction industry strongly supports this initiative. However, the vast majority of users are individuals, families, commuters who will feel the impact to their budgets. Prioritizing this expansion and phasing over time would reduce the need for such a substantial increase to our pocket books and spread drivers continually dealing with tollways endless construction.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/23/26	Angel Silva	60069			X	X	X				Oppose	I already pay four tolls a day every day to get to and from work just for you guys to increase the rate in siphon more money out of my bank account is ridiculous all for what more traffic and construction that bottleneck entrances and exits of the interstate
07/23/26	Jack	60506	X	X			X				Oppose	Tollways should be eliminated and made into freeways
07/23/26	C Wresin	60543			X	X	X				Oppose	i don't know how you expect any of these improvements to reduce traffic
07/23/26	Brian Olsen	60543	X			X	X				Oppose	This increase proposal is pure graft. The toll users are not a piggy bank for politicians.
07/23/26		60439	X			X	X				Oppose	
07/23/26	Amy Baudouin	60506			X	X	X				Oppose	
07/23/26	Ryan Delves	60515	X		X	X					Support	I support the Illinois Tollway's Driving Connections Capital Program. As someone who uses the Tollway regularly, I depend on it to get where I need to go, whether it's for work, spending time with family, or doing the things that matter most. Having safe, reliable roads and bridges improves my quality of life by helping me spend less time stuck in traffic and more time where I want to be. Investing in infrastructure today will help avoid more costly repairs and disruptions in the future. I support the proposed toll increase and the Driving Connections Capital Program.
07/23/26	Katie	60120			X		X		X		Oppose	With gas as expensive as it is, its ridiculous to be hiking the prices this much.
07/23/26		61068	X		X		X				Support	As a member of IUOE Local 150, I support the Illinois Tollway's Driving Connections Capital Program. These investments help maintain and improve the roads and bridges that millions of people rely on every day while creating opportunities for skilled construction workers.
07/23/26	Brandy Kackert	60506			X		X	X			Oppose	
07/23/26	Monica Fazekas	60056					X		X	Non you can't control people and the immigrants you allowed to stay here illegally	Oppose	Driving in the roads should be free. The current toll is bad enough. The illinois tollway ipass scammed me out of money due to a bad transponder they wouldn't take back and now you want more. Learn how to manage with what you have. This isn't progress. It's stealing from the people.
07/23/26	Anastasia Skoupas	60156			X	X	X				Oppose	We have lived with tolls for way too long. When this originally began, it was promised to be temporary and now there are even more tolls and higher rates. This is robbery! Citizens use the tollway to commute for work and with fluctuating gas prices, this will hurt us more. Lower than prices!
07/23/26		60540	X		X				X		Support	I think it will be great for the area! We need the roads repaired and also widening will help with the rush hour traffic.
07/23/26	Fred	60020	X				X		X		Oppose	There is no need to raise the toll costs. How much fraud is within the tollway system? Clean up all the fraud first.
07/23/26	Ethan Mobley	60466	X		X		X				Oppose	We pay enough there's no reason to make us pay more
07/23/26	Frank Bullitt	62794	X	X			X				Oppose	You know you are going to raise the tollways. I do not like the automatic rate increase every two years. There will be no accountability any more you will be wild and crazy with the money that we the people work hard for.
07/23/26	Jason Ingram	60108	X			X	X				Oppose	As everything run by the State of Illinois is nothing more than a tax burden due to incompetence and misuse of funds. That a hard OPPOSE!
07/23/26	Emanuel	60643		X			X			Attendants that accept cash/coins	Oppose	
07/23/26	Christian Legan	60440	X		X		X				Oppose	I'm OK with necessary hikes. I get it. But let's set the hike for one year or two, then reassess. Making it a never ending series of hikes is irresponsible and greedy. As much as I might be inconvenienced, I will avoid the system if tolls are expensive, especially if expensive for no reason. And then the system will get no income from me at all. Just be smart about it.
07/23/26		60601	X		X	X					Support	
07/23/26	Andrew Alcott	60607	X		X		X				Oppose	Illinois is irresponsible with money and the conditions of the roads are such that no one has any idea where the existing high toll money goes, these kinds of insane increases will do nothing but hurt people in Illinois
07/23/26	Zoe Jeanes	60462	X		X		X				Oppose	

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/23/26	Michelle	60503	X		X		X				Oppose	
07/23/26	Matthew Fichtel	60502	X		X		X				Support	While nobody wants to spend more money, i understand that no tax dollars support the tollway and it is completely funded through tolls. Tolls have not increased for some time and an increase is necessary to keep up with inflation and to continue to improve the network.
07/23/26	Fontana	69416	X			X	X				Oppose	
07/23/26	Michelle	60503	X		X		X				Oppose	It is too much of a jump in price and completely unaffordable in this economy
07/23/26	Robert	61367	X						X	No increase	Support	We pay to much in taxes already. And get rid of this so called board
07/23/26		60176		X	X			X			Support	
07/23/26	Horras	60148	X				X			Accurate signage w good interval for action	Oppose	Make results of these surveys clearly public. Post new toll rates where collectefd
07/23/26	Todd Hayden	60435					X		X	Eliminating tolls	Oppose	Illinois Tollway Authority lacks checks and balances. Tollways should be changed to freeways once capital investments are paid off. At a minimum, tolls should be reduced and only needed for maintenance. This organization appears to be a money laundering operation for politically connected in Illinois
07/23/26	James Fahey	60448	X				X			less construction	Oppose	I strongly oppose a toll rate increase. I already pay one of the highest state and local tax rates in the entire country. Figure out how to better manage funds and reduce spending.
07/23/26	Cody Lake	60505	X	X	X						Oppose	
07/23/26	Scott Hebert	53142	X		X		X				Oppose	Illinois roads are already the worst in the country. We pay and pay and pay and roads are still terrible.
07/23/26	CS	47904	X		X		X				Oppose	Increase in fees/taxes rarely provides any tangible benefit to the public by the time 'salaries' are doled out - government organizations are terrible at managing money (especially money that isn't really even theirs)
07/23/26	Subhas Dhodapkar	60606	X				X		X		Oppose	Politicians lie but to tell the public that tolls would end in 1973, and have them prevalent through 2026 and beyond is disgusting and hypocritical. Thanks Pritzker and the rest of you thugs!!!!!
07/23/26	Nicole	60148			X	X	X				Oppose	Tolls don't need to be any more expensive than they already are. I already don't use the tollway as much as I normally would because tolls are too expensive.
07/23/26	Calum Sims	60193	X		X					I work on IDOT/Tollway Roads so these programs in itself provide my employer the ability to bid on contracts, therefore more work for my crew and I.	Support	I support the Illinois Tollway's Driving Connections capital program. This investment supports good jobs, keeps our infrastructure safe and reliable, and helps skilled workers like me and my coworkers stay working. Please move forward with it.
07/23/26	Andrez Blanco	60586	X			X		X			Support	
07/23/26	Julie deignan	14617					X		X	construction delays	Oppose	This is insensitive considering the price of gas and cost of living rise we have seen since 2025.
07/23/26	Sam Francis	60305	X		X	X					Support	I strongly support the rebuilding of road in IL.
07/23/26	Michael L Freeman	60118	X			X			X		Support	I support the Driving Connections Capital Program. Infrastructure is essential to a strong economy. This program will ensure that Illinois remains competitive and will support future growth.
07/23/26		60510			X		X			Less future hikes	Oppose	
07/23/26	John Paul Piattoni	60411	X		X		X				Oppose	We are already at a level of tax that I would consider extortion. The roads are consistently in bad shape anyway because you use asphalt. Asphalt isn't make to last long term. So what's the point of increasing tolls if you only make roads that last a couple years at best. Stop stealing our money under the guise of " better roads".

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/23/26	Seb from northbrook	60062			X		X			My highway to not be under construction for 20 years with no improvements and cones everywhere	Oppose	Tolls where a temporary infrastructure that’s never ended because of the greed in this state
07/23/26	Roque	60101	X	X	X						Support	*"I support the Illinois Tollway's Driving Connections capital program. This investment supports good jobs, keeps our infrastructure safe and reliable, and helps skilled workers like me and my coworkers stay working. Please move forward with it."*
07/23/26		60440	X			X	X				Oppose	It's absolutely absurd to be imposing a 30% increase in tolls. My pay doesn't increase by 30% so why should my payment to you increase by 30%. Why wouldn't you increase tolls by 2% every year to ease the pain? This is a money grab to use money for the purposes and the Illinois Tollway is tone deaf to request this given current affordability issues for everyone
07/23/26	Beatriz A	60586	X		X			X			Neutral	
07/23/26	Kim	60193		X	X		X				Oppose	I support the Illinois Tollway's Driving Connections capital program. This investment supports good jobs, keeps our infrastructure safe and reliable, and helps skilled workers like me and my coworkers stay working. Please move forward with it.
07/23/26	Diana Warren	60646	X				X		X		Oppose	I think the state should provide a toll discount for Senior Citizens (65 and up) as many are on fixed incomes and all we've seen are prices going up on everything.
07/23/26	Jermaine turnage	60505			X		X		X		Neutral	You shouldn’t have to pay to get off at multiple exits. There should be a threshold point on the highway you pay and not to get on or off.
07/23/26	Ron	60448	X				X			no increase	Oppose	
07/23/26	Ingrid M Edwards	60505	X				X		X		Neutral	Keep toll prices affordable
07/23/26	Cadmus Hicks	60187	X			X	X				Oppose	Recently the Tollway Authority appears to be functioning more as a "make work" project than a proper highway maintenance organization. I was appalled to see mountains of concrete that were piled along the sides of the tollways after existing paving was torn up. I have never seen other interstate highway managers engage in such extravagant, wholesale replacement of existing roads.
07/23/26	N	60126			X		X	X			Oppose	I oppose the Tollway's proposition for a toll increase. In 1953, it was declared that the tolls would be temporary. Now, not only is the false, the Tollway is trying to increase the tolls. We need to put more money into public transportation, not into supporting the car and oil industries. I oppose this tollway increase, and I ask that money in the State of Illinois be spent on better public transportation. I would like highspeed rail, improvements to the CTA, and more movement toward sustainable/green energy solutions.
07/23/26	Walter	60070			X		X		X		Oppose	We are taxed to the breaking point!
07/23/26	Andrew Baum	60440	X				X			LESS TRAFFIC DUE TO WIDER HIGHWAYS, NOT BY INCREASING TOLLS TO EXCLUDE DRIVERS	Oppose	
07/23/26	John Bordenaro	60473	X			X				More state troopers to help stop the speeders and shoulder riders.	Support	OMG it's going to get WAY worse before it gets better. However, before the interstates we all drove the side roads!!!!
07/23/26	Ed Geoffroy	60503	X		X	X					Oppose	Would love to see a budget
07/23/26	Eduardo Orozco	60505	X	X	X						Oppose	Prices are high as is already and I believe there are plenty of commuters on the road already to bring in the revenue
07/23/26	Dominick Claypool	60140	X		X	X					Oppose	I support the Illinois Tollway's Driving Connections capital program. This investment supports good jobs, keeps our infrastructure safe and reliable, and helps skilled workers like me and my coworkers stay working. Please move forward with it

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/23/26	Magnus Ferrell	60634			X		X			No more money. Rolls are too expensive as it is and there's no need for them.	Oppose	Your stealing.
07/23/26	Susan Curwin	60169	X		X		X				Oppose	
07/23/26	Ilene Bindl	61109-4006	X				X			Traffic speed control	Oppose	I realize that an increase is necessary, but the amount of the increase especially for commercial vehicles (30%) and for those commuting to work every day (.45 per toll) is extreme at a time when daily living items and taxes have severely strained budgets. The biennial increase has not been broadcast and many are not aware of this. How can other states maintain better roads than Illinois and at a time when many are moving out?
07/23/26	William T. Priegel	53095	X	X		X					Support	Living in Wisconsin, I do not drive in Illinois on a regular basis, but I do use the tollway system whenever I am driving through Illinois. It is important to drive on well-maintained roads for overall personal safety and preservation and care of automobiles using the tollway system. The price tag looks high, but maintenance of roads is not inexpensive. Asking for increases of 45 cents per passenger car per toll is not too high of an increase for well-maintained roads. Like everyone's food and gas budgets, costs are rising and so are the costs of maintaining roads. As a current HOA board member and past school board member, I understand no matter how hard one tries to keep dues and taxation increases to a minimum, maintaining safety and quality in infrastructure is paramount but carries a necessary increase in spending that we must accept. Thank you for allowing tollway users to share their thoughts on this pending price increase.
07/23/26	Jeffrey Pyrn	60005	X				X			disband the organization like originally planned.	Oppose	The tollway was supposed to be disbanded many years ago, yet they continue to keep it as a cash cow full of patronage windfall. Many of the programs are useless and a huge waste of money such as street lights for the entire length of rural 294 from the Wisconsin border. After only 1 year, most are broken and not working. The entire length of 294 is bordered by fencing so the chance of wildlife wondering onto the road is rare. There are no pedestrians. Cars are required to have functioning headlights, so why did they feel streetlights were necessary. Seems like someone is getting paid off very handsomely. They've automated everything, yet they still require more and more money for an organization that should no longer exist according to original plan.
07/23/26	Manuel Sanchez	60560	X		X		X				Oppose	
07/23/26	Benedict Augustine	60069	X		X	X					Support	Please please please make commute to city reasonable. 2 hr commute for 30 mile is sad and pathetic. I have been driving to city from NW Suburbs for 15 years. 2 hrs on average. horror crazy please fix it. Add more lanes increase tolls. Maybe make monthly pass with higher tolls for a faster express way? This is pathetic condition for a city like Chicago.
07/23/26	Teresa Jacobson	60502	X		X	X					Oppose	We already pay way too much in taxes. Higher property taxes and sales tax then neighboring states. I don't want the tolls to be increased. There should be other ways to find money to pay for this; finding fraud in government services, ending our sanctuary state status, etc. Please look at other ways to finance this project.
07/23/26	Jeannine Jeskewitz	60189	X		X		X				Neutral	Strongly oppose. These tolls were originally temporary. Tolls are already far too expensive. People are avoiding tolls, check google.and causing more congestion on roads.
07/23/26	Sarah Hill	60115			X	X	X				Oppose	
07/23/26	Richard belastegui	60646	X				X			Safety	Oppose	Corrupt politicians never use the money towards the specific targets

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/23/26	Hilda Mikkelsen	60004			X	X	X				Oppose	Increasing the tolls while doing massive construction projects is wrong and will only contribute to less people willing to pay those tolls. Who would want to pay more in tolls just to be subjected to more construction? The plan, as outlined, is not sustainable and will cause hardship for those who have no other choices. Every year we have to put up with road construction that disrupts traffic making it worse for anyone who absolutely has to travel those roads and multi-year projects are even worse. Perhaps planning should be proceeded by a hard look at what is absolutely needed for safety reasons instead of a "wish list" of projects.
07/23/26	Margaret Ann	60477			X		X			Transparency	Oppose	During the meeting I attended, those who support the increase are people who will benefit from the increase--owners of construction and engineering companies and people who will be working on the projects. As always, the opinions of the hard working individuals who struggle every day to make ends meet will not be heard.
07/23/26	Sheila A Roos	60074	X	X			X				Oppose	Tolls are too much already. Please, do not increase the tolls. I'm retired and the gov. keeps digging in our pockets. Now tolls are increasing. It's not right. You need to find another way. Tolls were not supposed to be permanent. We pay way too much in taxes.
07/23/26	Kathy Kerndl	60148	X				X			If there's not too much traffic, I can usually get to my destination quicker.	Oppose	We already pay too much for tolls in Illinois. Whenever I can, I avoid the toll roads due to the high cost
07/23/26	Deborah Masura	60051	X				X			That my taxpaying dollars are being used for legal citizens of this state!	Oppose	This is just another democratic mismanagement of taxpayer money! Stop this Sanctuary State/City BS and make life more affordable for the citizens that live here. Stop all the freebee programs supporting illegals for a status the majority of this state doesn't agree with!
07/23/26	C Clemons	60618			X		X			Most direct route	Oppose	It’s already incredibly expensive to drive the toll road. And with limited alternatives we are forced into it. The government may not care about the high cost for gas but our state should be supporting us and not inflicting additional costs to drive. Who exactly thinks this is a good idea?
07/23/26	Don Nemerov	60045	X		X	X					Oppose	I would like to see competitive bids including from companies not so tied to state political connections. The plan appears excessive in scope and cost, and cost overruns always happen. The proposed increase to tolls is well above inflation trends, why?
07/23/26	Joseph Roth	60435	X			X	X				Oppose	There is little room my family has for dealing with continued increases in prices for fuel, food, insurance, etc. We use the tollway system regularly. A 45 cent toll increase would force us to cut back in other areas of our budget and reduce our usage of the tollway system. If we and other citizens have to watch budgets and weed out wants versus needs then the ISTHA has to do the same. Also, the idea of building in automatic rate increases in the future related to inflation is unacceptable. If the system needs more money in the future then it should have to justify that with the public instead of it being automatic.
07/23/26	Sarah Phillips	60081	X			X	X				Oppose	
07/23/26	William Theriault	60502	X				X			Affordability & well maintained roads	Oppose	I know costs are increasing but the proposed rate increase is excessive. I would be on board with a smaller increase and the department finding ways to improve productivity and eliminating unnecessary spending
07/23/26	Jenny Mulc	60527	X		X	X					Oppose	This does not even begin to address the current issues of the Illinois State Highway. We need some short term solutions that do not have construction on about 70% of the roads assigned to the State Highway system. As a person living in Burr Ridge and commuting to and from work daily, every state road that I drive has had some type of lane closure. 55th Street from Hodgkins to Western Springs has lanes closed in both directions for over 3 plus years. We have no idea what is happeneing and 70% of the year there are no workers and no work being done in any direction. This is a common issue within a 30 mile radius in the chicagoland community. Why would someone downstate even consider putting money in the Northeast corner of Illinois when some of their own local highway streets haven't been repaired in over 10 years.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/23/26	David Kunstman	60502					X		X	Shorter drive times	Oppose	We are being taxed to death by every government agency. Of course the unions and democratic elected officials are for this. Government by the people for the people, not politicians
07/23/26	Lynda Bauch	61016	X			X	X				Oppose	We were told years ago that those would be the last! But someone's lining their pockets with the money since We supposedly need another!!!
07/23/26	Kim Pavlis	60416	X		X			X			Support	My husband works as a Union Laborer, and our insurance is funded by these projects! Please SUPPORT the IL Tollway—the next 15 years will finally help ease congestion around town.
07/23/26	Fraider	60441			X		X			Eliminating tolls	Oppose	Illinois is the worst state in the Union...cannot wait to leave.
07/23/26		60502	X		X		X				Oppose	
07/23/26	Marc D'Alessandro	60175	X				X			No tolls	Oppose	I strongly oppose ANY toll rate increases! The tolls in Illinois are out of control. Stop raising taxes, city, state, county and TOLLS
07/23/26	Athreya Sreenivasan	60068	X		X	X					Support	As a parent of two children who are actively involved in sports and other extracurricular activities, I rely on the Illinois Tollway to help our family travel efficiently throughout the Chicago region. Whether we're heading to the north, south, or western suburbs, the Tollway provides a dependable transportation network with predictable travel times that help us stay on schedule. As the Tollway advances its new Capital Program, I would encourage continued investment in innovative solutions that improve both safety and mobility. One opportunity worth exploring is the separation of truck traffic from regular car/vehicle lanes where feasible. Creating dedicated truck facilities on key corridors could enhance safety for all users, improve traffic flow, and support the efficient movement of both people and goods across the region.
07/23/26	Joseph Whang	60181	X			X	X				Oppose	Stop with the fare increases
07/23/26	Deepa Prasad	60068	X		X	X					Support	As a parent of four kids who are constantly on the go with sports and other activities, I really appreciate having the Illinois Tollway as a reliable part of our daily lives. I know I can count on the Tollway to get us there with predictable times, making it easier to plan our busy schedules. Looking ahead, I'd love to see the Tollway's new Capital Program explore ways to make the system even safer and more efficient, including managing construction during off-peak periods and provide for a more smoother travel experience.
07/23/26	Aurelio	60402	X		X	X					Oppose	
07/23/26	QT Carter	60076	X				X		X		Oppose	The increase in toll cost is too much of an increment. Reduce it to $.25. That is reasonable for the area. As it is, the Sky Way toll is too, too expensive. That road way seems to increase without an explanation.
07/23/26	David Venckus	60202	X				X		X		Oppose	The Tollway fees were supposed to be temporary, when originally created. What happened to "Temporary"???
07/23/26	Dave	60031	X		X		X				Oppose	It's already too expensive, tolls were supposed to go away in 1974, you can't be trusted with automatic increases and I think you know it too!
07/23/26	Emanuel Martínez	60504	X		X		X				Oppose	
07/23/26	John	60302			X	X	X				Oppose	I'm a counselor at Waubonsee CC, this is my only way to get to work, I already pay 100 a month in tolls, This is so regressive and going to make it so much harder to afford to live
07/23/26	John Q. Public	60561	X		X		X				Oppose	These were supposed to be FREE roads after they were paid off decades ago. Corruption at it's finest in the great state of IL. Tolls should not be going up now or any time in the future. Based on the number of cars and trucks traveling, these roads should be self-sustaining. AND THEY ARE FOREVER UNDER NEVER-ENDING CONSTRUCTION. There's got to be a better way, but unfortunately, this is the IL Way.
07/23/26	Mike S	60560	X	X			X				Oppose	
07/23/26	Connie	61201	X		X		X				Support	
07/23/26	Saul Sanchez	60101	X		X		X				Neutral	
07/23/26	Larry Sandford	60060	X				X			fewer road closures	Oppose	No toll fee hikes.
07/23/26	John Laesch	60504			X		X			This question should not be mandatory	Oppose	Illinois Tollway should be converted into freeways as promised in 1973

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/23/26	Lorraine Anderson Mitchell	60428				X	X	X			Oppose	I am not sure why this increase is occurring even after reading the explanations that I read. I see no reason for an additional increase, especially since our gas prices are going up, and inflation all around is increasing. People can barely afford the present cost. Increases will reduce the number of people who will be using the tollway.
07/23/26	k wenin	61240	X			X	X				Oppose	I am already shocked how much the tollways cost and another increase is absurd! I realize it costs money to maintain the roads but I think we are being taken advantage of and ripped off! Illinois is going to shit!
07/23/26	Ava Wallace	60046	X			X	X				Oppose	
07/23/26	Tamarja	60805	X		X					No tolls	Oppose	
07/23/26	Timothy Klotz	60462	X				X		X		Oppose	I already pay gas tax, exorbitant inflation on food, and have to commute for work. A toll increase is just one last straw piled on this camels already breaking back. The government greed has to stop somewhere
07/23/26	s m	60512			X	X	X				Oppose	
07/23/26	Richard Matula	60430			X	X	X				Oppose	The tollway already takes in millions each year. This increase is not necessary.
07/23/26	Cindy Henrich	60133				X	X			Less construction	Oppose	If all these tolls, in the past and new proposed ones, have to improve the roads then why has I-294 been under construction since the fall of 1987? Will I-294 ever be construction free? Will the traffic ever flow nicely on I-294 where we don't have to sit in lines or driving 15 mph, if that? If it will ever be construction free please let us know what year that will happen by -- it's been non-existent for the past 38 years. Thank you.
07/23/26	NA	60610			X	X	X				Oppose	Illinois is a corrupt money state where nobody could possibly afford anything because the government cares more about spending our tax dollars on idiotic “projects”, or just money pits, instead of our communities. IRRESPONSIBLE, disgusting, and honestly criminal that we are forced to make up for these shortfalls with more and more taxes.
07/23/26	Drew Arnopolin	60030	X		X		X				Oppose	Fuck you JB
07/23/26	Halsey Embree	60554	X			X	X				Oppose	
07/23/26	Ira Francisco	60805			X	X	X				Oppose	Toll prices are already expensive even with ipass we should not be needing more and more money for tollways when it often times it takes the same amount of time to travel using the tolls vs using the expressway
07/23/26	Lisa	60554				X	X			Direct and quickest route	Oppose	Quit sticking it to us!
07/23/26	Rob callis	61701	X				X			Dissolving the Illinois toll authority as it was meant to in 1973	Oppose	Bloated administration salaries and benefits of the Illinois toll authority do not serve Illinois families. Shut it down and let the state maintain the roads
07/23/26	Martin Gartzman	60640	X						X	Clear, well-designed signage, including in construction zones.	Neutral	Despite paying tolls, we continue to have to put up with poorly maintained bathrooms at rest stops. Not as bad as they were 25 years ago but not acceptable. Broken or malfunctioning equipment. Poorly cleaned. Spend some time inspecting the work being done at those rest stops. We're not getting our money's worth. I'd feel better about increased tolls if I felt you were managing even the most basic of services—cleaning bathrooms and overall maintenance at the rest stops.
07/23/26	Kim	60193	X		X	X					Neutral	
07/23/26	Debra White	60520	X				X		X		Oppose	With the toll increase, this money will go to Chicago. The roads further out will continue to deteriorate, especially with the increased traffic of those vehicles trying to avoid these toll increases. Drivers will find alternate routes and those routes will become garbage and no one will then fund the repairs for these roads that are not in Chicao
07/23/26	kevin dierking	60517	X		X		X				Oppose	The toll is supposed to be gone once the road is paid for, yet this state has used it as a continuous taxing body. Raising both the tolls on cars and commercial traffic will hit the average user twice, as most commercial traffic is delivery of goods, and the cost increase will just be passed onto us.
07/23/26		60657	X				X			None	Oppose	

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/23/26	Ramon Manglano	60464-1824	X		X					Keeping slow drivers out of the left lanes.	Oppose	IDOT already has plenty of funds and the tolls were to cease after 1973. IDOT should have kept its promise long ago.
07/23/26	elizabeth purdy	60604	X				X			safety	Support	getting around the area via the tollway is a good idea, but please ensure that safety is the highest priority for all who use the tollway- so design and maintenance are important as well as affordability to use the tollway - many income levels can benefit to connect to homes, workplace, fun activities, family and worship; but if it takes too long, is too dangerous and the roads are unkept then other options of travel and relocation may have to be considered- keep up the good work
07/23/26	Christine	60188	X		X		X				Oppose	Ridiculous. Completely asanine.
07/23/26	K Orseske	60403	X			X			X		Oppose	With a low salary job it's hard to add cost and/or skip toll roads which would add more time on the road and less time with family.
07/23/26	teodor Kurtash	60622	X			X		X			Oppose	
07/23/26	Jorge Mejia	61008	X	X		X					Support	I support Illinois tollway construcción.
07/23/26	Mike	60007	X		X		X				Oppose	The tolls to high as it is and the roads are to congested due to poor ramp designs and merges.
07/23/26	Katie lara	60133	X			X	X				Oppose	It's hard now with gas being expensive but I use the high way every day I don't think I could afford it and would have to quit my job and stop supporting my Latino family
07/23/26	D.fadden	69172				X	X		X		Oppose	
07/23/26	Christopher Olsen	60175				X	X	X			Oppose	This totally ignores the burden placed on lower income commuters.
07/23/26	Jane	60195		X	X			X			Oppose	I will not travel on the Illinois tollway any more.
07/23/26	Mark Besztery	60618	X				X			Less Taxes	Oppose	Stick this tax up your rear end! It will be another $ grab for the politicians!
07/23/26	Valerie Parker	60048	X			X	X				Oppose	Perhaps a specific, one-time increase for a specific purpose is fine. Then the rate should go back to what it was. There should NEVER be open ended rate increases. Illinois taxpayers have previously voted NO on this type of tax for income taxes. We do NOT want an open ended tax on our tollway system. Recall when the tollway system was opened, it was clearly stated the toll would one day be free. What happened to that?!?!
07/23/26	beth wilson	60554	X			X	X				Oppose	With the high price of food, gas, electric, heating, etc adding the increase toll will make it harder for all of those who need to drive the tollways for work, see family, get children to school, etc to afford the daily items. This is penalizing residents.
07/23/26	Cindy Purtell	60638	X	X	X						Oppose	We pay enough in IL. Raise tolls for out of state people coming to/from IL
07/23/26	Teresa Yeater	60148	X		X		X				Oppose	Where has all the money gone from the last substantial increases? Not to mention the cost savings from no longer needing cash toll booths with live operators? There is always construction yet no traffic improvements.
07/23/26	Patricia cottone	60152	X				X		X		Oppose	The toll rates are already very high. The amount of money already collected should be adequate to maintain proper road conditions. I realize costs are rising for everything but this state has already raised the toll rates above average. Im so grateful I dont have to use the tollway often and make a point to avoid it whenever possible for this reason.
07/23/26	suzanne gudvangen	61020-9426	X				X	X			Support	A small increase is acceptable to me but I am concerned that local labor will truly be used.
07/23/26	Tony brzezniak	60607	X				X			No more toll increases	Oppose	If you need revenue, ask Pritzker the oligarch who inherited the Hyatt fortune. Put up toll booths on the Dan Ryan and Stevenson expressways and charge people who have never had to pay tolls.
07/23/26	Arturo martinez	60639			X	X	X				Oppose	Im tired of paying $20 in tolls a day just to be stuck in traffic most of the time. My ipass gets charged randomly at times it's hard to know what's getting charged at times.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/23/26	Rick Wagner	60527	X		X		X				Oppose	I recently attended and spoke at the public meeting at Lewis University. Not usually speaking in a public forum, I forgot to mention a few things that I would like to comment on now having heard all of the audiences comments. First and foremost, I was surprised that probably 4 of 5 comments were in favor of the Driving Connections program. Why I asked myself? Because it was apparent that this meeting was heavily skued by those in attendance to having "skin" in this process. There were construction company reps, union workers and many others that were making comments. There didn't seem to be many non-affiliated users of the tollway speaking. I think if you want to get better feedback from the general public, I have a proposal for the board- Send an email to 1,000 random users of the tollway and ask them 3 questions. Give them 5 choices on how to respond from strongly agree, somewhat agree, neither agree or disagree, somewhat disagree and strongly disagree. The 3 questions are- 1-On January 1st, 2027, the Illinois tollway is considering a rate increase of 57% for residential vehicles and 30% for commercial vehicles as part of their Driving Connections program. Do you support this increase? 2-The tollway board is asking that beginning January 1st, 2029 and continuing every 2 years that toll increases become automatically tied to inflation.. Do you believe future increases should be reviewed publicly, justified and based on actual needs rather than occurring automatically? 3-Do you believe that future toll revenue should only be used for specific spending of tollway related projects? I would be interested in the responses. On another note, I was was rear ended two years ago on 294 southbound just before the I-88 ramps. Was hit so hard that I was pushed into the car in front of me. And just two weeks ago witnessed another terrible accident with children standing on the side on the ramp going to 290. I'm sure that there are numerous accidents in that area because it is very dangerous navigating through there. I'm asking that more consideration be given for these transitions to make them safer for all. Thank you.
07/23/26	kristi becker	60543	X	X			X				Oppose	get rid of the people mismanaging the contracts. actually complete the work contracted within budget. use building materials that will last. Live within your budget. Quit spending more, and more, and more
07/23/26	Holly	60148	X				X			Access to all communities and not only those who can afford it	Oppose	If this goes through I will boycott the tollway permanently. It’s not right to turn everything into a money grab especially when there needs to be more oversight on how the funds are being spent!
07/23/26		60515	X	X	X						Support	

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/23/26	Rosemarie Brandt	60629	X				X			Illinoisans, Most which I was for 70 years, are leaving Illinois because of TAXES ON EVERYTHING! THE TOLLROADS WERE SUPPOSE TO BE FREE AFTER 5 YEARS! THAT NEVER HAPPENED. YOU ALL KEEP SAYING THAT THE ROADS WILL BE BETTER AND THAT NEVER HAPPENS! THE ROADS ARE NEVER BETTER WITH THE 'WHATEVER TIME' IT WAS BEING TORN UP AND THAT NEVER HAPPENED. TOLLS ALWAYS INCREASE AND THE ROADS ARE ALWAYS UNDER CONSTRUCTION. SEEMS LIKE THE UNIONS NEED AN ONGOING PROJECT TO KEEP THEM IN BUSINESS, ERGO THE DEMOCRAPS ALWAYS	Oppose	see ABOVE, 'OTHER'. WE ARE ALL FED UP WITH THE CONTRUSTION THAT NEVER ENDS ON THE TOLLROADS! WE ARE ALL FED UP WITH TAXES, TOLLS AND LIES!
07/23/26	Mark Brown	60560	X			X	X				Oppose	You are taxing us to death
07/23/26	Troy B	60110	X		X		X				Oppose	Another toll increase would cost commuters even more money during a time of record inflation. My commute will be an additional $1.80/day. Those who are unable to obtain an I-Pass will have to pay double. Businesses would see an increase in costs including truckers who transport goods, passing some costs to consumers & absorbing the rest. Tolls were supposed to be temporary until 1973, yet they were never discontinued. Instead, apx. $36 million was used for other purposes. Many other states, including neighboring WI, don't have tolls and are still able to fund their highways. IL needs to cut frivolous spending instead of constantly taxing their residents. This is another example of why people like me want to leave the State of Illinois.
07/23/26	James Frey	60025			X		X			Why must I choose 3?	Oppose	Do not adjust costs every other year. You may increase them but keep them fixed for a long period of time.
07/23/26	Jacob Korducki	60661	X			X	X				Oppose	I drive on the Illinois Tollway almost every day for work and frequently on trips to Wisconsin. I generally think the Tollway is well maintained and well run. The bulk of toll roads are in excellent condition though. I question the need for such a massive toll hike when most of the system has already been rebuilt in the last 10-20 years and toll revenues are higher than ever. It feels like this capital plan is being pushed for the sake of appealing road building unions over actual need, and I would encourage the board to question if such a large toll increase is warranted for a system already in excellent condition.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/23/26	Nadine Graber	60005			X	X	X				Oppose	The tolls are already ridiculously high. Commuters shouldn't be punished because the state doesn't know how to manage its money
07/23/26	Patricia Meyer	60540-7432	X				X			Stop penalizing the western & southern suburbs	Oppose	Do NOT increase the tolls. Living in western suburbs I have to pay tolls to get to nearby suburbs. If I lived in northern suburbs I would not pay tolls. Illinois is punishing those that live in southern & westeren suburbs only. Utilize the tolls to maintain only for the roads that are charged! Illinois charges tolls for 88, 80, & 294. Those roads should be perfect - they are not. Funds should only go towards "tolled roads". Can we get reliable roadwork too?
07/23/26		60511			X	X	X				Oppose	
07/23/26	Arthur	60007				X	X			Less tolls	Oppose	Toll free by 73. That was a lie.. stop spending!
07/23/26	anita lewis	60505			X	X	X				Oppose	
07/23/26	Gaile Towner	60505	X			X	X				Oppose	
07/23/26	Phil Mathieu	60123	X				X		X		Oppose	The tolls are high enough
07/23/26	Charles Magoo	60559	X		X		X				Oppose	Get him out, frickin corrupt state
07/23/26	Don Wachal	60585	X				X		X		Oppose	
07/24/26	Irfan Sarwar	60090	X			X	X				Oppose	Consider cost cutting. I know IT consultants made fortune doing basic stuff for the illinois tollway.
07/24/26	Dawn Deerwester	60482			X	X	X				Oppose	
07/24/26	Yaheard	60064	X		X					No tolls	Oppose	
07/24/26	WILLIAM HEREZKE	60487				X	X			Should not have to pay to travel on public roads	Oppose	Tollways are a financial burden on drivers, especially those who rely on them daily for work or other essential travel. While tolls are often justified as a way to fund road construction and maintenance, they can disproportionately affect lower- and middle-income families who have little choice but to use these routes. Public roads should be funded in a way that spreads costs more fairly, rather than charging people each time they travel.
07/24/26	Nichole Herzke	60487				X	X			Should not have to pay to travel on public roads	Oppose	Tollways are a financial burden on drivers, especially those who rely on them daily for work or other essential travel. While tolls are often justified as a way to fund road construction and maintenance, they can disproportionately affect lower- and middle-income families who have little choice but to use these routes. Public roads should be funded in a way that spreads costs more fairly, rather than charging people each time they travel.
07/24/26	Artur	60177	X		X		X				Oppose	We pay for roads thru plates, fuel tax, income tax, and property tax. Roads are in poor shape and companies fixing them are building them to fail without any accountability using cheap materials as well as going over budget and taking more time then they propose the job will take in order to boost their profits.
07/24/26	Richard Nuccio	60142	X				X			Phase out tolls	Oppose	Considering when originally proposed, the toll way was supposed to be a toll free road over time not a source of revenue with a inflation factor added into it making the toll road into a permanent revenue zone. This proposal violates the original promise to the vehicle owner and tollway user. We pay the highest gasoline taxes outside of California in the nation. There is plenty of money to support the roads already from gasoline taxes, and this added tax burden punishes the users of the tollway system. There is no vote on this increase, or public input, beyond this gratuitious gesture of pretending to address the public's concerns. Shame on all of you for abusing the public's trust.
07/24/26	Edward Moy	60194	X		X		X				Oppose	We pay so much already in taxes, stop wasting our money and use what you have effectively, don't raise tolls or taxes to pay for this. Find ways to be less wasteful with the money.
07/24/26	Andre Powell	60153	X			X	X				Oppose	Too many confusing, construction delays when traveling on the toll roads. Different toll cost are not posted when traveling on the toll road. Too many traffic delays. Constant increases in toll prices will cause financial hardship and price me out of using the toll roads.
07/24/26	Linda Cummings	60020				X	X		X		Oppose	Look, everyone is being Nicole and died to death....good God take the funds from somewhere else....everything related to driving, owning, licensing, testing, reneal stickers is all ready outrageous....to increase tolls only rubs salt on the sllready gapping wound.

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/24/26	ALBERT R COBB	60025	X				X			Balance sheet showing how money is spent and kept	Oppose	Need detailed justification for any increases, not just making it better....prove it.
07/24/26	Ken Haase	60142			X	X	X				Oppose	Please consider the ill-timed nature of these proposed increases against the backdrop of already challenging financial strain.
07/24/26		60451	X	X	X						Support	
07/24/26	Edward Drafke	60520	X		X		X				Oppose	
07/24/26	Margaret A	60477			X		X			Fairness	Oppose	I don't understand the reasons why public transportation was gifted $1.5 billion from THE ROAD FUND which receives money from gas sales tax. The people who pay the gas sales tax are now being raised 45 cents a toll. Sounds like double dipping to me.
07/24/26	John Cilenti	60013	X			X	X				Oppose	The outrageous gas taxes should be covering the roads not additional excessive tolls. The addition of future increases being tied to inflation is just wrong, the public should have some say each time they are increased.
07/24/26	Doug Hafer	60542	X				X			I have no reasonable option.	Oppose	If tolls increase, I will stay off the tollways and use non-toll roads to save money.
07/24/26	Yehonatan Figueroa	60961		X	X		X				Oppose	IL promised to end tolls decades ago. Now we are left with a money pit. How about we slash the administration budget for the top IL Tollway Officials? If you are going to rate hike the tolls in the name of improvement, there should be a MANDATORY freeze on all salary increases on executives. The most expensive administrators and top executives should not get a slice of this rate hike if it decides to pass. 355 and 55 interchange is the worst in IL, what has been done with Tolls to improve it anyway all these years.....ABSOLUTELY NOTHING.
07/24/26	A G Hall	60563	X	X			X				Oppose	Better management of tax resources
07/24/26	Brian Schwartz	60061	X		X			X			Neutral	it would help to see what the current cost is and what the proposed cost will be on the "Proposed Toll Rates" document, instead of just indicating in the wording that it will increase approximately $0.45. Also, the statement of "Beginning in 2029, rates would be adjusted every two years based on inflation" is too vague. This means that it could increase an amount to whatever the Illinois Tollway Authority deems fit. The problem is that if it goes up too much, people will have to choose between using the tollway and finding other ways to get to their destination, such as getting to work every day. This would force people to waist more time driving alternate routes instead of a direct route, causing them to be in their vehicles more during the day instead of being with their family or friends. Does this seem like it is a good idea? I don't think so. I understand that tolls need to increase to offset inflation, but tolls will never be lowered. Once the increase happens, it will always be there.
07/24/26	Patti Turk	60030	X	X			X				Oppose	There is no financial accountability for where the monies collected from the tollway are being funneled. Illinois continues to be corrupt and there is no reason this state is in financial ruins and why people are fleeing.
07/24/26	Timothy John Manning	60640	X				X			Strict accounting of how all the toll money is spent on tollway projects.	Oppose	You have offered no explaination or shown us where all the previous money collected in tolls over the past years has gone. I believe the money collected was spent on things not related to maintaining the tollways.
07/24/26	Msrcia	60140	X		X		X				Oppose	A toll hike is ludicrous! How much more can Pritzer take from the Illinois residents? Our tax money, which is exorbitantly high, should go towards maintaining the roads!
07/24/26	Frances Baker	60124	X			X	X				Oppose	Nothing is going to change by adding more money into an already corrupt system. The government just wants to keep taking money and not put in what people want anyways. Just keep the roads maintained and no need to keep updating it.
07/24/26	Jennifer LaVan Kukulka	60439	X			X	X				Oppose	The tolls were supposed to be gone years ago and all this will do is increase costs for residents in an already tax heavy state. Additionally, businesses will be hurt further and will increase prices to offset these costs, which also hurt residents.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/24/26	AP	60193	X	X	X						Neutral	When the tolls were implemented decades ago, it was with the promise of increased revenue for Illinois. This failed since you need to increase it now, or it was poorly managed like pensions and everything else that has Illinois in financial trouble. This new huge increase needs to be closely monitored, and YOU need to be held accountable for the spend. You need share with Illinoisians exactly where this increased revenue is being applied, and share itemized information to retain your credibility, no matter who is in office.
07/24/26	Jane	60646-4242				X	X			Making toll roads unaffordable for many people.	Oppose	When tollways were built we were assured we would only pay for a certain period of time. That time had passed and we are still paying. What is more upsetting is now you want to increase the fees now and every two years. You need to budget better what a ripoff.
07/24/26	George Foutris	60188	X		X					Safety	Support	Without proper funding it is clear to see that progress on improving the Tollway's infrastructure would stagnate. Through the "Move Illinois" program the Tollway has created a resilient network of Toll Roads and it's up to the Driving Connections program to ensure these roads are maintained and resurfaced accordingly. One of the worst bottle necks in the nation will be resolved shortly on the Central Tri-State, but there are still aging infrastructure/capacity issues with I-355/I-88 interchange that still need to be addressed and we need this funding as part of the Driving Connections program to fix that. Thank you.
07/24/26	Allison Kenney	60452	X		X	X					Support	Excited to see the investment in Illinois Toll roads to help make my drive times more predictable on well maintained roads!
07/24/26	zay	60193	X		X		X				Oppose	
07/24/26	Lisette Mutsch	60447	X			X	X				Oppose	Please do not approve the proposed tollway rate increases. This will burden Illinois drivers not only from the direct increased toll rates, but also by increased prices of consumer goods, as the commercial drivers will simply pass the additional costs onto us. The automatic increases every two years places an undue burden on Illinois residents, driving more residents to flee the state. This is clearly connected to last year's mass transit bailout, and not from a legitimate need. The tollway system was supposed to be temporary. Currently, tollway revenues are at record highs, and we already have a gas tax to supplement the costs for road improvements. The proposed tollway rate increases should not be necessary if the money allotted to road improvements are being properly maintained. Please reject the proposed tollway rate increases.
07/24/26	Michael Swanson	60130-2532	X		X		X				Oppose	Increased toll rates could decrease commuter traffic across the highways due to affordability. Please consider the impact on housing population movement/future housing consideration due to toll rate increases.
07/24/26	Adam Mutsch	60447	X			X	X				Oppose	Please do not approve the proposed tollway rate increases. This will burden Illinois drivers not only from the direct increased toll rates, but also by increased prices of consumer goods, as the commercial drivers will simply pass the additional costs onto us. The automatic increases every two years places an undue burden on Illinois residents, driving more residents to flee the state. This is clearly connected to last year's mass transit bailout, and not from a legitimate need. The tollway system was supposed to be temporary. Currently, tollway revenues are at record highs, and we already have a gas tax to supplement the costs for road improvements. The proposed tollway rate increases should not be necessary if the money allotted to road improvements are being properly maintained. Please reject the proposed tollway rate increases.
07/24/26	Mike	60004			X	X	X				Oppose	
07/24/26	Steven O'Reilly	60564			X	X		X			Oppose	I will continue to find ways around driving on the tollways. I avoid them as much as possible now. The reckless speeding goes unchecked. The Tollway Authority is as corrupt as the state of Illinois. The solutions always involve raising taxes and fees as opposed to cutting costs and outrageous Tollway salaries.
07/24/26	Maria Wysocki	60016	X		X		X				Oppose	

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/24/26	Jennifer Mehlan Johnson	60048	X			X	X				Oppose	Regular toll hikes without oversight are a poor decision. Many people will not be able to afford the toll increases with the recent increases in the price of gas, food, and local goods. Increased tolls will further raise the price of food and locally produced goods that need to be transported efficiently. Tollway funds were misdirected for YEARS on the Rt 53 tollway extension in Lake County. Why weren't the tolls eliminated in 1973?? With an almost $2 billion budget, put the people first. Do not be swayed by the Unions.
07/24/26	Michael Shriber6	60559	X		X		X				Oppose	I strongly oppose the proposed Illinois Tollway rate increase. Illinois families, commuters, and businesses are already facing significant cost pressures from inflation, housing, insurance, and transportation expenses. Increasing tolls would place yet another financial burden on residents who often have no practical alternative to using the Tollway system. More importantly, the Illinois Tollway's recent financial reports show that the agency is not operating in a financial crisis. In 2024, the Tollway generated approximately $1.44 billion in toll revenue, the highest toll revenue in its history, while also reporting a substantial operating surplus. According to publicly available analyses of Tollway financial data, toll revenues have exceeded maintenance and operating costs for decades, with billions of dollars collected beyond those expenses since the system was originally intended to become self-supporting. Before asking drivers to pay more, the Tollway should clearly demonstrate why existing record revenues are insufficient, identify efficiencies that have been pursued, and provide transparent justification for any additional charges. Taxpayers and commuters deserve accountability before being asked to absorb the largest toll increase in state history. I respectfully urge the Board to reject this proposal and focus instead on responsible stewardship of the substantial revenues already generated by Illinois drivers.
07/24/26	K Matthews	61114	X			X	X				Oppose	At this time in Our Economy with unpredictable/Subpar/Unqualified Executive Leadership, it's going to be tough on the average Americans Budget to have a rate increase over the next 48-60 months.....
07/24/26	Antoine Hale	60612	X			X			X		Support	I commend the Tollway for fighting to freeze pricing increases for the past fifteen years & I also commend the tollway for keeping our per mile costs less than half of the national average. The tollway designs are cutting edge & the commitment to detail culminates into a more beautiful, sustainable & safer finished product. In my travels, I always check GPS on the Tollway & other routes to see what the fastest & most feasible route is. The Tollway is typically the best option. The time savings allow me to be present for my daughter's tennis matches, ballet recitals, violin recitals, soccer matches & wherever else the future may take us. The increase & new initiative will strengthen our infrastructure, but this will also strengthen the economy and keep skilled workers, engineers, architects & other construction professionals gainfully employed. I fully support and encourage the Tollway on this matter.
07/24/26	M. Michalides	60124					X		X	The discontinuation of the entire toll system. It was suppose to be paid off years ago!	Oppose	Someone is totally incompetent in your office. I did not receive this email with all the proposals and meeting places until the afternoon of July 15. Which was 3 days after 4 of your meetings were held! Idiots! If I had a choice I would stop all further funding of the toll road. You just waste money to keep your pork barrel projects going!
07/24/26		60431		X	X		X				Oppose	
07/24/26	Eduardo	60660		X				X	X		Oppose	
07/24/26	Zoraida Odegaard Donnelly	60118	X			X	X				Oppose	The automatic increases every two years places an undue burden on Illinois residents, driving more residents to flee the state. The tollway system was supposed to be temporary. Currently, tollway revenues are at record highs, and we already have a gas tax to supplement the cost for road improvements. The proposed rate increase should not be necessary if money allotted to road improvements are being properly maintained!

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/24/26	Taylor Brandenburger	60107	X		X		X				Oppose	you guys really need to consider the cost of living for Illinoisans. We're already met with so many taxes being residents here that its simply bullshit to suggest more. its also going to be added costs to our commercial products. if the incentive is to get people to STOP using the tolls then this is a great bill, because i will make the economic decisions todo so, and that will translate to me taking side roads which further increase traffic in those areas. Illinois toll roads have recieved a record breaking 1.44 billion dollars in revenue... and you guys want to be greedy and ask for more???
07/24/26	Emily Farr	60625	X		X		X				Oppose	We already pay a lot in taxes to maintain roads. Long, long ago these tollways were supposed to be temporary. The money we have all collectively paid already should be more than enough.
07/24/26	Jack McCleish	483014	X		X					Winter snow blows	Oppose	I moved to Detriot 15 years ago which has no toll roads. When I travel to my family your roads are worse than Michigan and Indiana. Expalin where this money goes first because it is not better than MI
07/24/26		60623	X		X	X					Oppose	I visit the burbs but I live in Michigan. These increases should be for Illinois residents and out of state people who work in the Chicagoland area and not visitors.
07/24/26	Roy Sethi	60616	X				X	X			Oppose	Automatic Inflation Increases: Plans starting in 2029 to adjust toll rates upward every two years based on inflation create endless, compounding financial pressure on regular users. The IL tollway board does not need 9 directors. Reduce the size to 4 and save money. The tollway authority should cut management staff by 50%. Tollway Board should provide an annual refund of 25% of total tolls to IL residents, considering that the tollway authority charges tolls on roads which are owned by the state of IL. Tollway improvements should be done by non union labor to reduce construction costs. Commercial truck rate increases of 30% raise shipping expenses for businesses, which trickles down to higher prices for groceries and retail goods. IL roads are worse than roads in WI and MI, which have no tollways (except for the bridge near Mackinaw City, MI. Tolls in IL should be permanently abolished. IL is one of the highest taxed states in the country with an unemployment rate over 5% in June 2026. Constant increases in taxes and fees is a major reason why people continue to leave IL for more affordable states. Constantly using union labor and supporting unions is a tax burden on hard working people. The tollway authority, like the legislature and other taxing bodies are behaving like an occupying force. Constantly increasing taxes and fees every year makes IL unaffordable. The tollway needs to consider the needs of people who depend on the highway for commuting to work without constantly increasing tolls. If you have ever traveled to FL, the tolls per mile in FL are much lower than in IL. Need to end the taxation and spending culture.
07/24/26	Robert Siemann	60565			X	X	X				Oppose	I think you guys are NUTS, especially with this INSANE rate hike proposal, then an additional increase every 2 years. From my ride today your rate increase will be 35%, 37% and 39%. How on earth do you think that this is ok for the consumer? The governor of this state has already taxed us to death, and now you want to rape the consumer even more? How about busting the IDOT union and fat retirement checks and trimming all the dead weight at the top, middle and bottom. Your existing project management team is worthless. Whoever plans for these projects has their head up their a$$. Why not reach out to the Federal Government and ask for some assistance instead of putting this insane project on the backs of hardworking taxpayers? Maybe if our governor worked with the Federal Government instead of bashing on it all the time, we may have been in line for some big dollar help. I for one am totally AGAINST THIS INSANE PRICE INCREASE. I can see a reasonable rate increase, but this is highway robbery. You should all be ashamed of yourselves. How do you look in the mirror each day and think this is ok? Remember, the toll system was first established to pay for its original construction, then go away.....welcome to HellInois, where you get taxed to death and tolled to death. Shame on you all.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/24/26	Ethan Saltzberg	60625	X					X	X		Support	Given its relation to the new NITA transit bill passed last year, I support this toll increase as part of the important work of funding public transit and our transportation system at large. Our tolls are also relatively low compared to similar infrastructure in places like the East Coast or California. My main comment is this: drivers will naturally prefer free roads over toll roads (unless the time savings are quite massive). It doesn't make much sense that the Interstate roads going through the city of Chicago are completely free, but the suburban bypass on the Tollways are tolled. This means we're essentially encouraging drivers and trucks to take the free city route, adding to increased congestion where we have less space, as well as making Chicago's roads less efficient. I think it would make more sense to toll the city freeways instead of the suburban bypass, encouraging thru-trips to avoid the crowded city while encouraging some drivers to take transit downtown instead of driving.
07/24/26	Kristen Galayda	60015			X	X	X				Oppose	In todays difficult economy, a .45 cent jump per toll is a huge hit to people who need to tollway to get to work and to family.
07/24/26	Sherry Salamone	60542		X		X	X				Oppose	
07/24/26	J Swensen	60022	X	X	X						Oppose	
07/24/26	Laurie Ruble	60120			X	X	X				Oppose	The revenue you are already receiving is plenty. The budget is poorly managed. I am against raising tolls yet again.
07/24/26	Michael Noverini	60120			X	X	X				Oppose	You need to better manage the revenue you have.

07/24/26	Amanda	60491				X	X			Na lower toll cost	Oppose	Do not increase the tolls. The cost of living is bad enough. Adding 45 cents extra to all tolls is ridiculous. Yeah if you want less drivers on the fucking road that’s the way to do it. It will have zero point to fixing anything. Why change something that doesn’t need fixing??
07/24/26	Amanda	60491				X	X			Lower tolls.	Oppose	
07/24/26	Richard Vogler	60565	X		X		X				Oppose	
07/24/26	Leah Ostwald	60148	X				X			regular cleaning from debris	Oppose	We just need a break from all of the increases. Increased food expenses are noticeable now, health insurance, gasoline, school fees, stamps! Every little bit adds up, and we're starting to really feel it. Yes, we choose to live in Illinois even with the property taxes, gulp!, but can we get a break for a while, please.
07/24/26	Jill miller	60185			X		X		X		Oppose	I Do not understand how Wisconsin doesn’t charge and the roads are wonderful!!! I’m old enough to remember tolls were only TEMPORARY what a joke . Stop using the roads as a cash cow for whenever Chicago is broke !!!!
07/24/26	Gil Feliciano	60123				X	X		X		Oppose	IL Tollway promised tolls were temporary. Keep your promise! The cost of living in Illinois is already through the roof. Wait another 10 years before this substantial increase and plan for consistent increase via COA justifications. IL Tollway should look at all the many other options to fund their projects than on the backs of the already-stretched Illinoian!
07/24/26	Ellene	60047				X	X	X			Oppose	I am strongly opposed to easing the tolls. We were told long ago that the tolls were only temporary and now they are permanent and consistently rising. I think the tolls we have are enough and I do not want yo pay any additional fees
07/24/26	William	604466	X		X		X				Oppose	Taxation without representation Toll increases place an even greater burden on working families. I drive on the tollway multiple times every day just to get to work, and those commuting costs are not deductible on my taxes. For many of us, using the tollway is not a luxury it is a necessity. Raising tolls only makes it more expensive for people to earn a living. I hope our leaders reconsider this decision and find solutions that do not continue placing the financial burden on everyday commuters. People are getting tired of paying more and more while feeling like they have little representation in these decisions.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/24/26	Christopher Lamar	60542				X	X			Construction durations should be schedlued to have the least duration possible, and the award of new work should take into consideration the loss of use of the users. There should be a reduction in toll for any portion of the road that is under construction in that segement due to the reduced service that it provides during that time.	Oppose	It has held a rule on the toll structure that the I-Pass rate was half of the Pay By Plate rate. Why is this changing? Why will drivers that Pay By Plate (mostly out of state drivers) will have a lower cost increase than your loyal customers pay per toll booth. What value is provided by the added funding? The original purpose of the Toll system was to build and maintain the roads, and when paid off, handed over to the state of illinois. This is in the original charter, and which the tollway is in violation of this charter. How do you justify the increase in tolls (more than double in many locations) without adding a proportional number of lane miles to the toll system?
07/24/26	Angela Alonzo	60609	X				X		X		Oppose	The initial goal was to have tolls so that they maintained the roads. The elimination of the toll booth workers also should have helpe
07/24/26	Roman	60106			X	X	X				Oppose	
07/24/26	Jo McCloskey	60631			X		X			location	Oppose	Money previously allocated for highway construction has been given to public transportation, mostly in the northern portion of the state. Our gas sales tax has already been given to public transportation. Once again, the State of Illinois is taking advantage of its citizens. This is a public disgrace.
07/24/26	Phil Kieffer	60014			X		X			No tolls	Oppose	Eliminate tolls. Other states don't have tolls and the roads are more than sufficiently funded. Eliminate the unions, fraud and waste. There's already more than enough money coming in from the gas taxes that the roads should be paid for.
07/24/26	Matthew Steinberg	60173	X		X		X				Oppose	These roads should have been paid in full decades ago, how are you going to tell me Illinois still needs to pay off the Jane Addams
07/24/26	Diane Pionto	60148	X		X		X				Oppose	Notice came July 19 and meeting in my area had already taken place. Increase is excessive..people won’t be able to afford using these highways.
07/24/26	Jennifer Wright	60612			X		X	X			Oppose	Enough already!
07/24/26	Gio	60629	X		X	X					Oppose	
07/24/26	Logan	60016	X	X		X					Oppose	The tolls are ridiculous. The road has been paid for time and time again. Stop with the tolls!
07/24/26	Lokeswar reddy	60540				X	X			Less toll charges	Oppose	Already inflation is too high, gas prices are high and already difficult to manage house hold expenses… now this toll charges. I believe now it’s not the time to increase toll charges

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/24/26	Mike Valentino	60439	X		X	X					Support	As a resident of Lemont and a frequent user of the Illinois Tollway system, I support both the proposed toll rate update and the investments outlined in the Driving Connections program. I appreciate the Tollway's efforts to engage the public through hearings, informational materials, and open discussion of the program's objectives and benefits. One aspect of the Tollway I value is its user-fee model. Those who choose to use the system help fund the maintenance, modernization, and expansion of the infrastructure they rely on. Knowing that toll revenues are reinvested directly back into the Tollway system gives me confidence that these investments are focused on improving the transportation network for current and future users. Growing up in Lemont, my family experienced firsthand the benefits that strategic transportation investments can provide. The opening of the South Extension of I-355 improved connectivity for our community and made daily travel more efficient for my family. Looking back, I recognize that transportation infrastructure is not simply about moving vehicles, it creates access, saves time, strengthens communities, and helps people stay connected to the opportunities and relationships that matter most. The proposed Driving Connections program continues that tradition. The focus on preserving infrastructure, reducing congestion, improving mobility, and making strategic investments for the future will help ensure the Tollway remains a safe, reliable, and innovative transportation system for the region. Delaying needed improvements may reduce costs in the short term, but the long-term consequences are often more expensive and disruptive. I also appreciate the program's commitment to fiscal responsibility. Advancing a significant capital program while funding a substantial portion through net revenues demonstrates thoughtful stewardship and a balanced approach to investing in the future of the system. The benefits of these investments extend well beyond individual drivers. They support families, businesses, economic development, and regional mobility throughout northern Illinois. Just as previous Tollway investments created lasting benefits for my family and community, I believe the Driving Connections program will provide similar value for future generations. Thank you for considering my comments and for your continued commitment to maintaining and improving this critical transportation system. I respectfully support the proposed toll rate update and the Driving Connections Capital Program.
07/24/26	Joe Mazzocchi	60074			X		X			Having roads and bridges that last 30 years. Roads should not need to be paved every 3-5 years.	Oppose	I oppose the proposed Illinois Tollway rate increase. The proposal would increase passenger tolls by approximately 45 cents per toll beginning January 1, 2027, while commercial vehicle tolls would increase by 30 percent. It would also allow toll rates to be adjusted every two years based on inflation. Illinois residents and businesses are already dealing with increased costs for groceries, housing, insurance, utilities, and transportation. Raising tolls adds another financial burden on commuters who often have no practical alternative route. The commercial vehicle increase is especially concerning because those additional transportation costs will ultimately be passed along to consumers through higher prices for goods and services. Before approving any increase, the Illinois Tollway should provide a full and transparent accounting of current revenues, administrative costs, existing debt, proposed projects, and potential cost-saving measures. Drivers should not automatically be asked to pay more without clear evidence that current funds are being used efficiently. I also oppose automatically tying future toll increases to inflation. Any future increase should require a separate public review, public hearings, and a vote based on the financial circumstances at that time. Please reject the proposed toll increases and explore more responsible ways to prioritize projects, control expenses, and maintain the tollway system without placing another recurring financial burden on Illinois families and businesses.
07/24/26	Paul Paraskevopoulos	60005			X	X	X				Oppose	You are taxing us to death. We are already overpaying.
07/24/26	Paula Williamson	60970	X		X		X				Oppose	Prices are high with gas, food taxes!!

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/24/26	Amanda Maier	60532			X		X			No more construction	Oppose	Our taxes have increased every year, gas, property, sales and now you have the audacity to increase the tolls? For once I would like to make more money when I get my merit increase instead of it being eatten by new taxes and fees by some government body in Illinois. Also you are increasing cost of doing business and guess who pays that. That would be the consumers and the employees of companies have less to increase wages and they pass those costs along to the consumer. So not only will it cost more to go to work, it would cost more to buy any goods or services. The road construction is never completed, other states dont have a problem they finish their roads and are done for a decade or more. Do it right the first time and stop wasting my money. And you took money from the tollway to subsidize the metra, maybe we should get that money back and let Chicago pay for Chicago.
07/24/26		60634	X				X		X		Oppose	
07/24/26	Eric Llamas	60506	X		X	X					Oppose	NO MORE INCREASES. MAKE IT FREE
07/24/26	Naveen Kandhasamy	60563	X	X			X				Oppose	In current inflation it’s high to increase tolls
07/24/26	Vijaya Sagar Killi	60490	X		X		X				Oppose	
07/24/26	Chris Hoshko	60660	X			X	X				Oppose	Way too high of an increase. Especially with the highest gas taxes in the nation
07/24/26	paul green	60436	X			X	X				Neutral	In 68' we were told the 25 cent toll was temporary...see!!! Does not matter what anybody thinks!! ps. WI, MN, IA, MI ...as good, if not better roads...NO TOLL!!
07/24/26	Sarah	60188	X			X	X				Oppose	
07/24/26	Satabdo Dhar	60540	X				X		X		Oppose	
07/25/26		46122	X				X			Inter connectivity to other toll systems	Oppose	Far too much increase in far too short time. Prefer you speed inter-connectivity with other nation-wide networks.
07/25/26		60532	X		X		X				Oppose	
07/25/26	Shamir	Maredia	X		X		X				Oppose	
07/25/26	KarenH	60194	X				X		X		Oppose	I remember when the tollway was suppose to be free. This rate increase is absurd.
07/25/26	Anonymous	60173	X		X		X				Oppose	Do something for once besides constantly raise taxes! Enough! This is why everyone is leaving Illinois!
07/25/26	L Grice	60477			X	X	X				Oppose	You’ve ripped us off since the 1960s, telling us tollways would be temporary to pay for schools. Now on top of the already high toll rates you want an increase? Go f—-k yourselves, thieves and con artists.
07/25/26	Rosa Valdez	61008	X			X	X				Oppose	I absolutely do not support this proposed toll increase. Illinois families are already stretched thin by rising costs for groceries, fuel, insurance, and taxes. Asking drivers to absorb what could become the largest toll increase in Illinois Tollway history—while also tying future increases to inflation—is simply unacceptable. For many of us, using the Tollway isn't a luxury; it's the only practical way to get to work, school, medical appointments, and home. Higher tolls amount to another recurring expense that working people will have to absorb. Before asking drivers to pay more, the Tollway should demonstrate that every existing dollar is being spent efficiently and transparently. Illinois residents deserve fiscal responsibility, not another automatic increase in the cost of living. I urge the Tollway Board to reject this proposal and look for better solutions that don't place yet another financial burden on the people who already pay enough.
07/25/26	Eugenia Panos	60634	X				X			AFFORDABILITY	Oppose	Please do not raise tolls! An additional 0.45 per toll is beyond excessive. And increases every 2 years based on the rate of inflation is robbery! My salary doesn’t increase by the same rate, and yet I still have to pay for increased gas prices, housing, groceries, utilities, etc. it’s not right or fair. I drive on 294 regularly. I can’t even recall how many YEARS it’s been under construction, and most every time I drive on it, I don’t see people working. They’re standing around, wasting taxpayer money. It’s no wonder why it take YEARS! And the portions of the roads that have been completed are already deteriorating. All while those in power are lining their pockets. Having to pay increased tolls will just reward this behavior. I am so disappointed and upset that the State of Illinois and the Tollway continues to gouge us.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/25/26		60565	X		X		X				Neutral	Be transparent about exactly how the CPI-based inflation adjustment will be calculated every two years. For instance, is it a specific date/point in time when it will be determined? Or is it an average calculated over the prior two years?
07/25/26	Brady Watson	62545	X		X		X				Oppose	As someone who travels through the Chicagoland area every other day in a commercial vehicle and registers all of my equipment in Illinois, I strongly oppose this proposed toll rate increase. Illinois trucking companies and residents are already carrying a significant financial burden. For just one truck, my apportioned Illinois plates have cost nearly $2,900 annually for each of the past two years. In addition, I pay more than $350 each quarter in IFTA taxes to Illinois, along with the annual federal Heavy Highway Vehicle Use Tax (Form 2290) of $550 per truck. Those expenses are on top of fuel taxes, insurance, registration fees, maintenance costs, and every other operating expense required to keep a trucking business running. At some point, increasing costs becomes counterproductive. Raising tolls will place yet another financial burden on Illinois-based trucking companies and the countless Illinois residents who rely on these toll roads every day to get to work. I believe there are two likely outcomes if these increases move forward: First, more commercial vehicles and passenger vehicles will divert to local roads and city streets to avoid higher tolls, creating additional congestion, increasing wear and tear on roads not designed for that volume of traffic, and impacting the communities those roads pass through. Second, some trucking companies will simply choose to avoid Illinois toll roads—or even the Chicagoland market altogether—when practical alternatives exist. There is substantial freight moving through northwest Indiana and Wisconsin that can often be transported without using the Illinois Tollway system. As operating costs continue to rise, routing freight around Illinois becomes a more attractive business decision. I respectfully ask that you consider not only the additional financial burden these increases will place on working families and small trucking businesses, but also the unintended consequences they could have on traffic patterns, freight movement, and Illinois' overall economic competitiveness. I appreciate your time and consideration and hope these concerns are carefully weighed before any toll rate increases are approved.
07/25/26	Chris	60010	X		X		X				Oppose	STOP STEALING OUR MONEY AND USE THE MONEY YOU ALREADY STOLE FROM US IN THE SURPLUS FUND YOU CROOKS
07/25/26	Ben	61008	X		X		X				Oppose	
07/25/26	Maggie A.	60477	X				X			Accountability of Funds	Oppose	In 2024 the Illinois tollway received $1.7 billion in tolls. Who is accountable for this tremendous amount of money that was paid by the drivers of the Illinois tollway system?
07/25/26	Dan Sledz	60502					X		X	No toll increases	Oppose	No increases illinois already highest taxes state, people will keep moving out with your increases. Stop, stop increasing taxes, be responsible
07/25/26	Alexis Battaglia	60517	X		X					The noise	Neutral	My main concern is the noise we hear in our yard. My yard connects to the wood noise wall on 355 & the 75 th street exit. We have not been able to enjoy sitting in the yard for the last 5 or 6 years. Even when inside, the noise is extremely loud with all doors and windows closed. It's really sad that we have to listen to that day & night. I
07/25/26		60477				X	X		X		Oppose	I already avoid the tollways due to cost. When I absolutely need to use them because of travel time concerns as opposed to using surface streets, I really have to consider if I cam afford it along with the price of gas.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/25/26	Eric Miller	60188	X		X		X				Oppose	1. This is just another burden to the people of Illinois to hit their pocket, may middle class people are lucky to get pay raises to cover the expense of education, their constant higher property tax. People are already paying the highest gas taxes then any surrounding state. The tollway has already deep money in their coffers. 2. The most unwelcoming state - to come into the state you have to PAY. Makes Illinois unattractive. It is embarrassing especially for truck companies independent drivers will need to raise rates for freight services and eventually layoff people or simply forget about servicing any Please do not raise the rates, it is unaffordable to the heavily tax burden Illinois citizen and any business and future business that would considers coming to Illinois and unwelcoming to the people who want to visit or go through our state .
07/25/26	Ronald Hill	60646	X		X		X				Oppose	These roads were supposed to be free after 1973. Yep, I remember the broken promises from that era.
07/25/26	Steven Wiskerchen	61001					X	X		Tollway stop being a propaganda machine to take yes take $'s from the public..	Oppose	When is enough enough? Auto increases means the tollway authority never has to go in front of the public and be transparent explaining why... this is a money $$$ grab for eternity... just stop..
07/25/26	Michael Eckler	60136-4076	X				X		X		Neutral	This is probably a necessary evil to fund this extensive project since the state is in such a poor financial position. I will still continue to use the tollway system to travel to work but I will no longer use it to go home from work.
07/25/26	Tyranny hater	60477			X	X	X				Oppose	The Illinois tollway is pushing trucking companies to not use tolls. This is against their SBE/MBE/DBE businesses. This proposal would destroy many small-diverse companies forcing them to use already bad shape roads, sitting in traffic longer and causing congestion on alternative routes. The ware and tear of their vehicles won't last and this is all because of the highest hike in Illinois toll history. On top of this, Chicago wants to do a $7.00 tax going in/out of the city. This is racist and will keep minorities out of Chicago. JB Prizker. Doesn't care, he pays the tolls with our taxes and he will just stay in his summer home in Wisconsin. Also he is a billionaire, pretending to care about us small businesses and small peasants. If the Illinois tollway does this they might as well stop being so damn proud about promoting black people internally and promoting their DBE programs for new construction projects. Because the ppl getting hurt the most are the minorities!
07/25/26	Arja Brown	60084	X		X		X				Oppose	We residents in Illinois are already burdened with high taxes. Instead I would like to see our government officials look into getting our government working in a more efficient way and to looking into the fraud that our tax money is being used for. Just like our federal government.
07/25/26	Rusty shackleford	60448				X	X			No toll roads, all the proposals have never worked in the past and the lies that preceded it for years since the 1960's.	Oppose	I know this will be read by a minimum wageslave, that has no power to do anything and whose job is mostly pointless, however, these crooks in illinois need to become less and less and stop with asking for more money, they are too corrupt and will become more corrupt with more money. The increase in tolls and the already riduculous high taxes will on go ninto someones pocket and they will usethe minium works and half ass anything productive. Whats next you use the flock cameras to toll every square inch of road as soon as you leave the house? This has to end illinois needs to be fully reevaluated as a state because they are out of control. Illinois doesnt deserve to stuart a single household much less an entire land and population of 12 million.
07/25/26	J langan	60016			X		X			EV charging	Oppose	Not a fan increasingly expensive toll especially seeing decrease in employment by the department via open road tolls. Do not pass any of these increases.
07/25/26	Peggy Brennan-Matyas	60137	X			X	X				Oppose	The rate increase is too high for customers. Commercial rates should be higher since they do more damage to the roads. In addition to the increase planned for 2027, the additional increase in 2029 should not occur. The proposal should be for 10 years, not 15.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/25/26	Eric Johnson	46304	X		X	X					Oppose	It already costs me over $30 to get from Northwest Indiana to Chicago and back. The total round trip is less than 100 miles and I'm only on the tollway for a portion of the trip. I have dealt with it but a rate increase that won't even improve the portion of the tollway that I use will definitely decrease my usage of the tollway. Middle class families are already struggling. Please don't pinch us even more. Thank you
07/25/26	Jeff Benensohn	60035			X	X	X				Oppose	I would like to see some fiscal responsibility and accountability from the Tollway since we have been paying for decades and driving through horrendous construction zone every day for 10 years. The Tollway was supposed to be fully paid for and tolls would go away a long time ago. Wisconsin seems to have figured it out, why can't Illinois? Go back to the drawing board and cut your budgets.
07/25/26	Daniel Babis	60423					X	X		Access to areas not served by freeways.	Oppose	The proposed rate increases are outrageous. A 30%-60% increase in the toll rates is a money grab from the State of Illinois. If anything, raise the toll rates by The Consumer Price Index in 2027 and then adjust accordingly each following year based on The Consumer Price Index.
07/25/26	Charlie K	60026	X		X	X					Oppose	Already expensive enough with these hidden tolls that pop up in my account every couple months. Also roads have been under construction for years and nothing has been done. Where is my money going?
07/25/26	Thomas	60137	X		X		X				Oppose	We pay enough already and the roads still suck!! 5 mile backups constantly!
07/25/26	Scott Darin	61275-9101	X		X		X				Oppose	Too high already
07/25/26	Glenn wasack jr	60073	X			X	X				Oppose	We are talking about raising our rates and going up cost of living every year and that'll end up increasing my costs and everybody else's cost and we won't have any better traffic and we will constantly be in construction. This is all political ploy so that Walsh Construction can get more business. Every time contracts are up for bid Walsh gets them why is that also a big supporter of politics in the state of Illinois. It's just a rip off for the average Illinois citizen. Tollways were supposed to be eliminated once the tollways were built. What happens to all the money that you get from the government for our roads. Quit spending the money on other things and spend it on what it was intended for. And there's no it's going to save me $800 a year. It's not going to save me anything and I'm still going to have the same problem construction every year after year after year and nothing seems to improve cuz they're always working on the improvements. That is why the state of Illinois is losing people because people are leaving do the high cost. And you just inflicting more cost on people raising my toll rates will not improve anything
07/25/26	Denise Drube	60563	X		X		X				Oppose	
07/25/26	Robert millman	60089	X			X	X				Oppose	
07/25/26	Carol Limanowski	60634	X				X		X		Oppose	Illinois drivers already pay enough to use the roads, enough is enough. Springfield needs to open its purse to maintain the roads and keep them safe.
07/25/26	Juli Sterne	60185				X	X		X		Oppose	As a consumer and business owner my opinion on the proposal is negative. Between the fuel taxes and the tolls all residents are penalized and the state still has some of the worst road conditions. WI and MN dont have tolls and high fuel taxes and roads get repaired just fine. Really questions where the money is going.
07/25/26	Lori McBurney	61548	X				X		X		Oppose	Stop government waste to pay or help pay for improvements.
07/25/26	Joyce DeStefano	46804-6539	X			X	X				Oppose	I will avoid your toll roads. You aren't fiscally responsible.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/25/26	Jim Veldman	60453				X	X			Increasingly becoming more and more dangerous to drive on the south end of 294. The excessive speeding by some is dangerous. Please encourage the State Police to patrol and issue tickets.	Oppose	DO NOT increase the toll rates.
07/25/26	Maria Wysocki	60016	X			X	X				Oppose	
07/25/26	Robert Zill	60527	X		X		X				Oppose	Tolls are already too expensive. It is embarrassing to explain to out-of-state guests how our tolls were supposed to be "temporary". I think drivers should pay less for tolls during periods of construction and heavy traffic.
07/25/26	Dawn Deerwester	60482			X		X		X		Oppose	
07/25/26	Hector Calderon	60438	X		X	X					Oppose	
07/25/26	Welch	60438	X				X		X		Oppose	Is that all that JBP knows how to do is raise the price of everything? Time to lower some prices!
07/25/26	Steven Nickels	60142	X		X		X				Oppose	If the tolls need to be increased then charge out of state vehicles more not the residents of the State! This increase will add $598 to what I'm already paying which is $988 for just 3 tolls each way!!! It's not right to charge an Illinois homeowner a proposed $1,586.00 a year for just 3 tolls each way!!! I haven't even calculated what it would cost me if I work extra days.... NO, on this rate Increase!
07/25/26	Carnell Ashford	60440	X		X		X				Oppose	The funds will be misappropriated
07/25/26	Denny	60053	X		X		X				Oppose	Stop committing highway robbery with your toll rates. Toll roads should be built with tollway fees and should be maintained with existing taxes and without any additional fees. Find efficiencies and better manage your system without raising already high toll rates.
07/25/26	Lori kightly	60585				X	X			Less tollways	Oppose	No increase in tolls please and thank you!
07/25/26	Sarah Delmore	54115	X		X		X				Oppose	We drive through Illinois corrie vacations, and I am very disappointed in this. Cost increases right now are terrible for most people, especially since we know gas prices are increasing and won't be going back down. Less people will travel, and this will have a negative effect. If it's raised every 2 years, it won't be long, and it will be very expensive to go through. We end up behind so many semi trucks that it really isn't fast anyway.
07/25/26	Sandy Stewart	60440	X			X	X				Oppose	American Water rates thru the roof , gas is up , groceries are up and now the toll roads that were suppose to end when I was a child are going up . The people are being taxed to death in this state.when is it enough?
07/25/26	Deborah Daniel	60067	X	X			X				Oppose	The tollways are now all electronic, so it has to be saving millions of dollars a year not having to pay wages, insurance, retirement plans, etc. The millions of vehicles and trucks that pass through tollways every month must bring in millions of dollars, so I don't know why the tolls must be increased. Like the rest of us, I am sure you could find ways to cut your spending somewhere. And why not something more reasonable like a ten cent increase for vehicles and trucks? Thank you.
07/25/26	Michala	60448	X	X	X						Oppose	Tolls are already very expensive if you rely on the roads daily, which is the case for many people due to how large our state is. Many people are struggling right now. Don't add increased transportation costs on top of it.
07/25/26	Tracie Williams	60615	X		X		X				Oppose	

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/25/26	Jacek Olejnik	60007	X			X	X				Oppose	I oppose the proposed toll increase. Drivers have already absorbed years of higher costs for gas, insurance, and vehicles. Raising passenger tolls by 45 cents and commercial rates by 30%, with automatic inflation increases every two years starting in 2029, places an unnecessary burden on working families and small businesses. The Tollway should prioritize efficiency and essential maintenance before imposing the largest rate hike in its history.
07/25/26	Graddy	60565	X		X	X					Oppose	We are already paying the second highest gas tax in the US at 66.4 cents per gallon. Stop using tollway money to bail out the RTA and any other program on a whim or to continue the liberal and socialist programs. Use the tollway money already accumulated rather than to subject Illinois residents again to another increase which is purported to be for the Tollway. We can no longer trust the politicians in Springfield to honor their commitments. You are driving people out of the state with your programs, falsehoods and socialist tendencies. Please be more respectful, responsive, and truthful.
07/25/26	Michael Book	61021	X	X		X					Oppose	
07/25/26	Suzanne zomchek	60048			X	X	X				Oppose	The increase to cars and trucks is far too high. Some “wants” should be delayed to be budgeted in future years to reduce the current increase request. Also the idea of automatic toll increases every 2 years is unacceptable. Budgets should reflect current NEEDS , not an opportunity to spend whatever money was collected or will be collected. Our household budgets can’t spend future pay raises and we have to stay within our budgets regardless of inflation or wish lists. Automatic increases (rampant in government these days) are a significant cause of the incredibly high state, local, and property taxes in IL. Let’s hold the line and cut spending as well.
07/25/26	Kimberly Koehler	60123	X			X	X				Oppose	The cost of living is too high. Increasing tolls will add to these costs - even for people who don't drive toll roads as businesses whose vehicles use toll roads will pass the cost increase onto consumers. Get speed cameras and police to arrest and fine reckless drivers and give a cut of the money to the road system.
07/25/26	Jacob	61088	X		X		X				Oppose	
07/25/26	Mary Gasparac	60190					X		X	No tolls or decrease tolls	Oppose	Absolutely ridiculous a $26.5 billion increase. We are funding illegal immigrants! Take all the insurance, tuition, housing money that we are using for illegal immigrants and put it to the tolls. Why are we funding illegal immigrants and we can’t fund our roads! Illinois is a financial mess. You’ve have over taxed corporations and citizens too much and they are leaving Illinois. But you are a sanctuary city, so you are inviting non-tax paying illegals to stay in our city and you’re funding them! It’s a financial upside down mess. And the only thing you know to do to fix this mess is to keep raising fees and taxes. People and companies will continue to leave just like the Chicago Bears! It’s not what is best for the people of Illinois, it’s what is best to keep your political power.
07/25/26	Stephanie	60525	X		X		X				Oppose	I commute everyday to work and use the tollway. I refuse to pay more than what I already do. The state can find funds from somewhere else not working commuters.
07/25/26	Bill Buentini	60107	X				X			Being capable of driving to and from	Oppose	There is absolutely no reason to increase the cost of tolls when it costs me $8 daily to get to and from work
07/25/26	Nathan	60002	X				X	X			Oppose	
07/26/26	Vladimir	60503	X				X			No tolls. Make Illinois same like Iowa or Missouri	Oppose	I am already paying 7000$ as a local trucker. This will put me over 10k. Maybe it's time to give Illinois to Republicans. Let's see what's gonna happen.
07/26/26	Michael Gasparac	60190			X		X			No till or decrease tolls	Oppose	Illinois needs to manage finances better. Stop funding illegal immigrants, stop driving away corporations, stop over taxing citizens!
07/26/26	Mari	60638	X				X		X		Oppose	Gov Prickster Sucks!
07/26/26	Sue	.60124	X				X	X			Oppose	
07/26/26		60646	X		X		X				Oppose	

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/26/26		60067	X		X		X				Oppose	I am writing to express my strong opposition to the proposed increase in Illinois toll rates. Illinois residents are already carrying an overwhelming financial burden. Over the past several years, the cost of nearly every necessity has increased dramatically—including groceries, gasoline, utilities, housing, insurance, vehicle maintenance, clothing, and property taxes. Many families are working hard simply to keep up with the rising cost of living. For many of us, using the tollway is not a luxury—it is a necessity to get to work, school, medical appointments, and care for our families. Increasing tolls places an additional financial burden on the very people who already have few alternatives. Before asking Illinois residents to pay more, I urge the Tollway to carefully evaluate spending priorities, identify operational efficiencies, and demonstrate that every existing dollar is being used responsibly. Taxpayers deserve transparency and accountability before facing additional costs. Illinois consistently ranks among the highest-taxed states in the country. At a time when so many households are feeling financially stretched, this is simply the wrong time to increase tolls. I respectfully ask the Board to reject or significantly reconsider this proposal and instead pursue solutions that minimize the impact on Illinois drivers. Thank you for considering my comments.
07/26/26	Daniel Gordon	60007	X				X			Lower tolls	Oppose	
07/26/26	Steven Garrison	60110	X			X	X				Oppose	I consider alternate routes based on whether the tollway can save me enough time to justify the cost. It's made less and less sense over time. Increasing costs and doing so automatically drives more people to take surface streets. What we collect today should go toward funding public transit initiatives that help reduce our dependence on cars, lowering road maintenance and emissions overall. We need to provide affordable and time efficient ways for people to get around without using a car. Chicago is one of the greatest metropolises in the US, but if the costs to get around aren't brought under control, only the wealthy will be able to live here and that's not a great recipe for commerce and growth.
07/26/26	JEff Arseneau	60423	X				X			Freeze tolls	Oppose	The tollway needs to make due with less, like every other responsible organization
07/26/26	Luke	61802	X			X				Construction zones that don't go for miles and miles without being worked on at the time	Oppose	No matter how much money they take or receive they'll always find a reason to need a little more
07/26/26	Leo	60505	X		X		X				Oppose	
07/26/26	Steve Dippold	60935	X				X			Lower or no cost	Oppose	
07/26/26		60022	X		X		X				Oppose	You should put tolls as people enter the state and share the burden with out of state individuals. Illinois already pays extremely high property taxes. This is one more incentive to move.
07/26/26		60654			X	X				None.	Oppose	Will not vote in support of an increase. If an increase passes, will avoid tollroads in protest.
07/26/26	Joe Lojas	60441	X			X	X				Oppose	
07/26/26	John Lehner	60453	X			X	X				Oppose	The proposal to adjust rates in accordance with the Consumer Price Index every other year to provide "cost predictability for customers," is a Trojan Horse for never ending rate increases. We see it now with Pritzker's gas tax already linked to CPI. It just keeps rising & rising. This is the same situation all over again. Customers do not have never ending pockets to pay for this crap. The proposal, as it reads today, is a NO GO with the CPI provision attached to it. Cut it out immediately, the people have had enough!
07/26/26	Margaret Guth	60477	X		X		X				Oppose	This proposal is making the average Illinois citizen unaffordable to travel on for a daily bases. We have to live within are means maybe you need to do that. That might start with cutting your payroll of non essential employees. These toll roads were suppose to be payed for by now but that hasn't happen. I am very disgusted with this state by there only solution is to raise fees and taxes to solve problems. Cutbacks from within are needed first.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/26/26	Maureen Valaski	60542	X		X		X				Oppose	Why must only drivers pay for the road improvements? I don't have children in the schools but I pay hefty school taxes! These toll increases are too high! Share the load by having some paid by taxes. Everyone benefits with trucks using the roads so everyone should bear some of the costs.
07/26/26		60047	X			X	X				Oppose	
07/26/26	Katherine Macauley	60411			X				X	Travel and some other factors	Oppose	Saying no to increase. For the most part it was suppose to go away in 1970"s.
07/26/26	Cynthia Jackson	60505		X		X	X				Oppose	Lots of taxpaying citizens use the toll to commute to work. On top of fuel tax being so high there is always another tax on top of that making it tough for tax payers.
07/26/26	Ricardo Jackson	60505		X		X	X				Oppose	I am a tax payer getting bled out by this state of Il that I call home. Fuel tax makes it hard for tax payers and has not gone down making it harder on top of more taxes this governor puts on middle class citizens. Illegals get more breaks for FREE. How is that fair?
07/26/26	Susan	60137	X		X		X				Oppose	If an increase is necessary, there should be a tiered/bracket system implemented based on usage for individuals . The fee increase gradually goes up based on the number of tolls paid in a month. The greater number of tolls paid in a month the price per toll will increase. You could also implement it using dollars paid per month. The increase adjusts based on dollars spent. Those who use the tollway more often will shoulder more of the increase. It should not be an overall increase for all users. In addition, those without iPass stickers would pay maximum rate. For commercial usage since there is so much truck traffic an overall increase would be fine. One thing that should be considered is that an increase of this magnitude may impact tollway usage and people will find alternate routes and not use the tollway. If this were to happen other roadway's would be overcrowded causing another set of problems.
07/26/26	Te Yang	60045	X				X			better website/app	Oppose	
07/26/26	Kelly Neeson	60190				X	X			Construction finished TIMELY and less corruption	Oppose	The endless robbing of tollway funds by Illinois to full budgets gaps needs to stop. That is not a reason to raise tolls. Poorly managed construction projects isn't either. There is no reason the same roads our under construction for years, even decades with any significant progress, let alone completion is a clear sign there is no intention of trying to stay within any sort of budget. Our roads are dangerous, traffic sucks all the time and construction is never ending. You are constantly asking for more money claiming that will make it better, but yet it NEVER gets better. It's another slush fund Illinois is world famous for.
07/26/26	Williams	60805					X	X	X		Oppose	No rate increase
07/26/26	Linda Elwood	60189				X	X		X		Oppose	The tollway was SUPPOSED to be short term. Raising toll prices is wrong! Get the big guy "P" out of IL. We are in debt because he is spending in the wrong places. Stop this now!
07/26/26	Laura S	60108	X		X		X				Oppose	These tolls are a farce. The roads suck constant construction and congestion. Why are other states that don't charge tolls so far ahead. Maybe it is grift in contract awards? Anyway we don't need an increase you need to figure out how to manage what you do collect and do a better job with allocating it.
07/26/26	Gene Dyer	60056	X			X			X		Neutral	
07/26/26	Faith	60014	X				X			Sure I like maintained roads and some of the rest of these, but we already have them.	Oppose	I feel this proposal is a bunch of fancy words to dump more taxation on any one who has to drive the toll roads in IL. I totally oppose it.
07/26/26	Laura R	60142			X	X	X				Oppose	I am opposed to the huge increase you are wanting as well as an increase every other year for the next 7 years without any say. Crooks!
07/26/26		46307			X		X			No tolls.	Oppose	Illegal toll collection has been occurring for decades. The toll was to end on the 1900's.
07/26/26	Peggy Ann	60477	X				X			Accountability of Tax Payer Funds	Oppose	This is another example of politicians "robbing Peter to pay Paul". When will the people of Illinois realize that the gas sales tax money is not being used appropriately?

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/26/26	Barbara Sader	60155	X		X		X				Oppose	Yes, we need better, safer roads and we need less congestion. However, the money for these things should be found elsewhere and not on the backs of the citizens of Illinois. I think it's despicable to add to the financial burdens we already face right now. People need the tollways to go to work, to reach family and to try to go on simple vacations. This nickel and diming us for every single thing has got to stop. This will put a terrible strain on many people and I think it's unconscionable. I'm not saying don't make improvement. I'm saying find the money somewhere else! Don't tell me that can't happen in this state.
07/26/26	Patrick Mcgowan	60502	X			X	X				Oppose	The tollways are biased to certain interstates and not others. Why can I drive on I 80 free if I live south of Chicago, but pay so much for 88 driving because it's closer to my house? Why is 290free, but 294/355 aren't? I 55 versus I 90? Make them all tolls if you do, why does my tax money go to pay for some highways, but others it doesn't? Let's make the state fair, let's have our road money divided across roads, not pay for select ones. The toll roads cost me about $1400 in the past 12 months, and will be charged much more under the increase. Make fuel be tax exempt for toll drivers, or make highways fair across Illinois. Why do some residents get hammered and others subsidized roads. Start making a plan for highways revenue and expenses to become more equitable across Chicago and Illinois!
07/26/26	Jim	60068	X				X			Current access, maintenance and traffic is acceptable	Oppose	Illinois already taxes along with the current toll system and gasoline. When the totals were originally set up, they were designed to be funded, and then the tolls eliminated. More cars travel our roads now than ever before, which increases the revenues the state collects. To force a 50+ percent increase is unjustifiable and complicates for an ordinary citizens the effects of inflation, higher gas prices as they stand right now. Use the funds, currently collected wisely, eliminate corruption, and fraud!
07/26/26	Ryan Sheriff	60451	X				X			Lower tolls	Oppose	
07/26/26	Jonathan Rodríguez	60629	X		X		X				Oppose	There is no need to increase toll payments when everything is expensive already. All these tolls collected don't even go towards fixing up the roads. Every day the roads are still the same if not worse condition than ever before.
07/26/26	Jan	53098	X				X			Ability to pay tolls without the hassle of online access. Your online access is always messed up requiring multiple phone calls.	Oppose	Fix the system you have. Going online to pay when a person has an account and your system read the plate is ridiculously complicated. Your tollway is much more a headache than convenience.
07/26/26	Kathryn McEneely	60201	X			X	X				Neutral	I appreciate that there hasn't been an increase in many years, but every time I use the toll roads, I encounter nigh-unbearable levels of construction and traffic. It makes travel unpredictable and stressful, and it's hard to see how additional costs will remedy these frustrations. I imagine the increase in costs will hit daily commutes and shipping routes much harder, and the expenses will cascade into the cost of daily life - which isn't great at the moment! I don't get the sense that current projects are run well, and I'm hesitant to fund increased projects when there's no clear benefit. What kind of project management improvements is the Tollway system considering that will alleviate waste, poor communication, and cost overruns? I appreciate the suggestion of reviewing toll costs on a more regular basis. The current jump feels very high, and smaller, more frequent increases may be easier to absorb.
07/26/26		60441			X	X	X				Oppose	
07/26/26	Rosa Psarros	60005	X				X		X		Oppose	People that use the tollway everyday for work, should be offered a better price. Another increase in toll charges are not welcomed.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/26/26	Erin Cronin	60439			X	X	X				Oppose	The demands that Illinois taxpayers face are astounding and to consider increasing tolls in which already expensive/ frequent tolls exist is unbearable. As a commuter, this increase would create an additional financial barrier in an already volatile economic terrain. It is not fair for Illinois to continue to burden the taxpayers to solve their inefficiencies. Instead, please consider how this would negatively impact the community of workers who must depend on affordable tollways.
07/26/26	Allee Hernandez	60467			X	X	X				Oppose	Many people rely on the toll way system to travel to work daily. A 45 cent tax increase adds up ridiculously quick and for low income families especially, it is a detriment to daily living.
07/26/26	David Smietanski	60491					X	X		Stop increasing taxes. Cut spending to fund roads. Lower pensions You are killing is jelly roll	Oppose	Vote him out asap. Cut the budget. Cut the pensions. Cut the jellyfish roll spending
07/26/26	Susan Brown	60441	X				X			Safety of roadway	Oppose	I do not like the plan to increase the fees every other year. It seems it should be based on the project list and roadway needs rather than we have collected all this money and what should be spend it on.
07/26/26	Trentyn	61241	X		X		X				Oppose	We give all this money and the roads are still shit what's gonna actually change
07/26/26		60045	X				X			Less tolls like Wisconsin which also has better roads	Oppose	You already charge a ton get out of here
07/26/26	Samuel	60404	X		X		X				Oppose	I'll stop taking the tolls and cancel my IPass
07/26/26		60451	X		X		X				Oppose	F pritzker and all the bs he is trying todo and increase toll tax is gunna add up quick.
07/26/26	Jackie Kapcheck	60010	X		X		X				Oppose	Adjust the IL state budget to cover these expenses instead of tossing the burden to taxpayers. Just like a traditional household budget, sometimes you have to make difficult decisions and remove or reduce other expenses and not pull money out of the air. You're bleeding water from a rock. Time to stop. This is the worst state EVER.
07/26/26	Mary	60056			X	X	X				Oppose	Rolls are already high. Please stop burdening the taxpayers because the state cannot balance their budget or spend responsibly. Make cuts elsewhere.
07/26/26	Lynnea Walsh	60010	X		X		X				Oppose	
07/26/26	Anthony	60484	X	X	X						Oppose	
07/26/26	Suzanne	60585			X	X	X				Oppose	The proposed toll would be more than double what I'm currently paying. $0.45 to $1.50. I drive a compact hybrid, while big trucks (semis etc) only get a 30% increase... this is absurd the heavier vehicles are more likely to cause damage to the roadway. Make it 50% increase across the board. Share the burden with the big multimillion dollar companies instead of putting all the burden on the little people who are already struggling to make ends meet.
07/26/26	dorothy pfeuffer	60563-2718	X		X		X				Oppose	We are retirees we cannot afford another squeeze out of our limited income is being drained with property tax insurance increases food prices medical costs tax tax tax please think of us. Thank You
07/26/26	Karen Cirrincione	60010			X		X			Affordable to commute	Oppose	Sheer insanity that they want to increase tolls. This was suppose to be a temporary and then you added one at every exit and now you want to increase .45 money mis management at its best. Get it together! We need new blood in our government
07/26/26	Witold bieszczad	60014					X		X	Enough is enough you assholes !!!! Get a f job not our hard earned money suckeds !!!	Oppose	Thieves !!!! 😭😭😭😭
07/26/26		60638	X		X	X					Oppose	

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/26/26	Ted W. Schall	60622					X		X	Constant construction delays	Oppose	With IL already having one of the highest gasoline taxes in the country, and linked increases to COLA, you need to better manage costs then just continue to raise taxes. Also the fact that there will be automatic increases every 2 years is crazy. Manage to the budget that you have, don't keep wasting our funds.
07/26/26	Aidan	60060	X			X	X				Oppose	As someone who commutes often, the hike in toll prices will affect me in many negative ways rather than positive.
07/26/26	Rieger	60523	X				X			Toll plazas that don't take advantage of exit points. Why should I pay money when I am getting off immediately.	Oppose	Stop this proposal. You are sitting on a lot of money and have done a terrible job of managing it if you are asking for more money. Learn to live within your budget and stop taxing (and this is a tax) the citizens who use the toll roads.
07/26/26	Ralph	60643	X		X		X				Oppose	The Illinois Tollway already collects enough money for needed upgrades or repairs. I already pay high taxes a additional fees living here. Enough is enough.
07/26/26	muna zeitoun	60504			X		X			price	Oppose	
07/26/26	Daniel Diaz	60651	X				X		X		Oppose	
07/26/26	Siemen	60175	X		X	X					Support	
07/26/26	Scott Dykstra	60659	X				X			This was supposed to be paid off and over in the 70s!	Oppose	This was supposed to be paid off and discontinued in the 1970s. Clearly that was a lie and a scam from government yet again.
07/26/26	Debra Cravatta	60135	X				X			LOWER COSTS	Oppose	This rate increase is ridiculous! The State of Illinois and their affiliated divisions only seem to know how to reach into the taxpayers' pockets whenever they feel the need for additional funds. Considering that the highways were only supposed to collect tolls for 10 years FIFTY YEARS AGO, wanting more funds is certainly audacious! How about you make the system more efficient before digging in our pockets again!
07/26/26	Jean Sullivan	60073	X				X		X		Oppose	Increases every two years is totally too often.
07/26/26	Diane Zeek	60140	X			X	X				Oppose	At this time, the economy does not support this proposal. When gasoline is already so expensive, I would not pay additional tolls- I would drive on non-toll roads and allow more time. Why do you need so much money when Wisconsin has better roads and no tolls? What happened to all of the money that the lottery was supposed to bring in for this? Do away with the Tollway Authority completely and turn the roads over to the governor.
07/26/26	Seth	60185	X			X	X				Oppose	
07/26/26		60164				X	X			Make it cheaper	Oppose	
07/26/26	Ashley Kaehn	60642	X		X		X				Oppose	Figure it out
07/27/26	Liliana Ruiz	60465	X		X		X				Oppose	We aren't supposed to be paying for it now. The people did it under the facade of not being charged once construction was completed. If anything, they should pay all of that back. They chose to build a road and made promises they just don't want to keep due to greed.
07/27/26	Marybeth Sison	60172	X		X	X					Oppose	Please do not raise my taxes to do this. I cannot imagine that there isn't another way to raise these funds.
07/27/26	V MB	60643	X		X		X				Oppose	
07/27/26	Richard V.Vullo	60586	X		X		X				Support	
07/27/26	Gina Mancari	60616	X		X		X				Oppose	We cannot keep paying more and more money. We already pay enough money with little to show for it for everything. We do not need surveillance technology. We need clean roads, and roads repaired. I'd like to see itemization of where all our tollway money goes to see if cuts could be made. Are illegals paying tolls? ILLINOIS IS THE WORST STATE!!!
07/27/26	Richard V. Vullo	60586	X			X	X				Support	As a member of IUOE LOCAL 150, I support the Illinois Tollway Driving Capital Connections Program. These investments help maintain and improve the roads and bridges that millions of people rely on while creating opportunities for skilled construction workers. The Driving Connection Program will help improve mobility, create jobs and strengthen communities throughout Illinois

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/27/26	Samantha Cooper	60448	X			X	X				Oppose	I don't have a problem in theory with a toll increase, but it's too drastic all at once. Your poor planning and not raising rates in 14 years (which doesn't sound true, I feel as though they have gone up since then) is a you problem, not a driver problem. There needs to be better stewardship of the funds as well. Choosing contractors to do work on the roads who are known bad actors is just bad business, and ends up costing us more.
07/27/26	Thomas Cahill	60542	X				X			Affordability	Oppose	Another yearly tax
07/27/26	Michael Hendriks	60618	X			X	X				Oppose	A flat rate increase of $0.45 PER TOLL for passenger cars lead to much higher rate increases percentage wise than the proposed 30% increase for commercial vehicles. Frequent drivers (like commuters for city to suburbs will likely see a 50% increase (or more). Most of the wear and tear is due to commercial traffic. Why make individual passengers pay most of the bill? It would be much fairer to increase the rates for all traffic by the same percentage.
07/27/26	Lucy	60137	X				X			Safety	Oppose	The state should push the IRS to include tolls in the commuter benefit. This is a fee we have to pay to get to work. The state of WI or MI dont have tolls and their taxes are just as much as ours for the most part. We don't need this expansion or new technologies that will continue to cost us more money. Things are very expensive as it is.
07/27/26	Frank rizzo	60099			X	X	X				Oppose	I do not use tollway. I drive out of my way to avoid it. I'm not paying extra to drive in the same, or even worse traffic than the "free" roads we already pay to use via typical taxes. Raise the speed limit to 80 so things move faster and then it's a maybe better way to travel
07/27/26	Sheri	60126	X		X		X				Oppose	We already pay too much. With the price of gas and increased tolls people will be forced to use surface roads causing increased traffic in communities. If other states can maintain their roads without charging tolls, why can't Illinois? When tolls were initially started it was supposed to be temporary.
07/27/26	Debra Speer	60532	X			X	X				Oppose	At a time when the cost of living outpaces the middle class American's income by far, this is just one more nail in the coffin. Please know that we are actively looking for other places to live because the taxes and fees in Illinois are more than we can handle.
07/27/26	maya	60502	X		X		X				Oppose	
07/27/26	David Donald Speer	60532	X		X		X				Oppose	
07/27/26	maya	60439	X		X		X				Oppose	
07/27/26	Jimmie	60527			X	X	X				Oppose	Like everything in Illinois your bloated budgets for administration use of extremely overpriced union labor have created an unstainable cost structure. And we are here to pay the bill for all this incompetence. When does it end, so far 53 years past when it was supposed to. What do we even gain? in 12 years of traveling the tri-state I've seen my commute time almost double. What have my tolls been doing, nothing is getting better. Instead of hitting us for more tolls why don't you budget better maybe some layoffs for the layers of unnecessary admin and more realistic labor costs for the actual work, hold people accountable. I know that's a foreign term in Illinois, but you should look it up.
07/27/26	Josequezada	60426	X		X		X				Oppose	Let's get ebikes
07/27/26	Lia	60451	X		X		X				Oppose	
07/27/26	Gina	60126	X		X		X				Oppose	Stop increasing prices. Everything is too expensive. It's ridiculous. We take tolls to get to work to make money and you just keep taking more of it. We can't not use the tollway. Make it affordable. This state is the worst with tolls and roads. Stop raising rates. Tolls were supposed to be temporary anyway...
07/27/26	Gregory J Michalik	60491	X			X	X				Oppose	A toll hike at this time is not needed. The Tollway Authority is currently collecting more in tolls than is required to maintain the tollway system. Also, the Tollway Authority has a surplus in the billions of dollars that can be used to start any of the proposed improvement projects. Once this surplus is reduced, the need for a toll increase can then be investigated. Also, future increases should not be put on autopilot and should be proposed, and voted on, as additional funds are needed.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/27/26	Doug Schneider	54467	X		X		X				Oppose	Illinois has a long track record of mishandling their budget, consistently raising taxes to make up for their poor financial management of revenues generated from hard work Illinoians. Upgrade the roads and tollway system using the money you already receive and quit spending money on special interests and social issues designed to brainwash Americans into your political ideology.
07/27/26	Dev Johnson	60510	X		X	X					Support	Hello. I support the Driving Connections Capital Program. I understand why people bring up the old promise that the Tollway would be "free in '73." But the system we have today is very different from the one that existed 50 years ago. The Tollway and region have grown, traffic has increased, and the cost of rebuilding roads, replacing bridges, and keeping drivers safe has gone up significantly. Like it or not, times change. For better or for worse, we live in a much, much different world than we did in 1958 – when the first Illinois Toll Road opened. You know what college tuition was in 1958 at the University of Illinois? $150 I think we can all agree our state's flagship university has expanded from a few buildings and cornfields over the last 70 years to become a Top-Ten Public University. They didn't do that by keeping tuition at $150. I bring this up to point out that the question today isn't really about what was expected decades ago. It's about how we keep one of the busiest transportation systems in the country safe and reliable for the people who depend on it every day. The nice thing about the Tollway is that the people who use it are the ones who pay to improve it. Those toll dollars go back into rebuilding roads, replacing bridges, improving interchanges, and planning for future projects instead of competing with other transportation priorities for tax dollars. These investments also support thousands of construction jobs, help businesses move goods more efficiently, and keep our regional economy moving. I support the Driving Connections Capital Program and the toll increase because I want to see our roads stay safe, reliable, and ready for the future. Thank you.
07/27/26	Jeff Holland	51201	X	X		X					Support	I support the Driving Connections Capital Program and the proposed toll increase. I understand that no one likes paying more for items or services. I don't either. But I also know the Tollway hasn't raised rates in more than a decade, while the cost of rebuilding roads, repairing bridges, and maintaining a safe transportation system has continued to rise. It's true for most things in life, that if you want a quality product or service, you have to pay for it. Whether it's a new suit or hiring a plumber to fix your kitchen sink, if you want something that's going to meet expectations and last a long time, it'll cost you. And the cost to Illinois Tollway drivers pales in comparison to other tollway systems. Right now, Illinois Tollway drivers pay $0.07 per-mile. The national average cost-per-mile for tollways is $0.16. That's less than HALF the national average. Even with the proposed increase, we'd still be well below the national average for cost-per-mile. The proposed increase would help fund the long-term improvements needed to keep the Tollway in good condition, reduce congestion, improve safety, and support the millions of drivers who rely on it every year. One thing I appreciate about the Tollway is that the money collected stays with the system. The tolls drivers pay are reinvested into rebuilding roads, replacing bridges, improving interchanges, and maintaining the infrastructure we all use. In other states, this is not the case. Some states like New Jersey and Pennsylvania allow tollway funds to be used on other non-tollway transit projects. Illinois actually has one of the most restrictive laws about how toll revenue can be used. The bottom line is, the Illinois Tollway is a closed loop. The money collected stays with the Tollway to maintain and improve our system. To me, this is an investment in the future of the transportation system, and I believe it's one that's worth making.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/27/26	Adam Gigstad	60532	X		X	X					Support	I support the Driving Connections Capital Program and the proposed toll increase. I know people have questions about where toll money goes. I did some digging, and it turns out the answer was simple and really not hard to find. Tollway revenue is used to improve and maintain the Tollway system itself. It's written into the Toll Highway Act. There is no mechanism in the Act for sweeping toll revenue into general state coffers or funding unrelated agencies. Period. When drivers pay a toll, those dollars go back into rebuilding roads and bridges, improving safety, reducing congestion, and planning for future projects that millions of people depend on every day. And that is the only place they go. These investments also create thousands of construction jobs, support businesses that rely on moving goods efficiently, and strengthen our regional economy. Tolls collected by the Tollway are spent back into the system. I believe continuing to invest and grow the Tollway now will save money in the long run by fixing transportation infrastructure problems before they become bigger and more expensive.
07/27/26	Allison German	60540			X	X	X				Support	I support the Driving Connections capital program. Safe, reliable roads don't happen by accident. They take years of planning and a reliable source of funding. Many of these projects can take five, ten, or even fifteen years to design, engineer, and build. These projects can cost millions or even billions of dollars and take a lot of pre-planning. Without planning ahead, projects get delayed, costs go up even more, and drivers are left dealing with more congestion and deteriorating roads. Because drivers' toll dollars are reinvested directly back into the system, the Tollway has a reliable funding source to plan and complete major projects through long-term capital programs like Driving Connections. That allows the Tollway to move projects from planning to construction in a way that many other transportation agencies simply can't. The fact of the matter is, when the Tollway identifies a need or a project, they get it done. I think about all the road and bridge projects that spend years waiting for funding just to complete a study, let alone begin construction. Too many important projects get delayed or never happen because they're competing for limited tax dollars or waiting for funding that never materializes. The Tollway is different. Because it's funded by the people who use it, it can plan ahead, invest consistently, and actually deliver the projects that keep people and goods moving safely and efficiently. The bottom line is, the Illinois Tollway is a closed loop. The money collected stays with the Tollway to maintain and improve our system. The Driving Connections Capital Program will improve safety, reduce congestion, create thousands of good-paying jobs, and keep Illinois moving. I hope the Tollway continues making these long-term investments because they're investments that benefit everyone who uses the system.
07/27/26	Greg German	60540	X	X	X						Support	I support the Driving Connections Capital Program. I also use the Tollway regularly, so I look at this as both someone who works with the construction industry and someone who drives the roads built by construction workers. What I like about the Tollway model is that the people who use the system are the ones paying to improve it. My toll dollars help rebuild roads, replace bridges, improve safety, and keep projects moving forward. The Illinois Tollway receives zero… I repeat… zero federal or state tax dollars to support its maintenance and operations. The system is entirely user funded. My tax dollars don't support the toll road, only my tolls. I understand why some people don't want to pay higher tolls. Nobody enjoys paying more. But the Tollway hasn't increased rates in over a decade, while construction costs have continued to rise. If we want safe, reliable roads and fewer delays in the future, we have to invest in them today. We also all have a choice whether we want to use the Tollway system or not. If you feel the system isn't worth the toll price, you do have a choice not to use it and instead you can drive on roads that are slower, more congestion, and less maintained. I like that the Tollway can continue to improve the system without relying on additional tax dollars, and I encourage the Board to move forward with the Driving Connections Capital Program.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/27/26	George B	60605	X	X	X						Support	It's always less expensive to maintain infrastructure than to wait until it fails. We all know what happens when we put off repairs—they become bigger, more disruptive, and much more expensive. Investing now means safer roads, fewer emergency repairs, and lower costs over the long run. That's why I support this capital program.
07/27/26	Patrick M	60625			X	X	X				Support	I don't see transportation spending as simply another expense—I see it as an investment. Every dollar spent maintaining our roads today helps avoid larger costs tomorrow while supporting jobs, improving safety, and strengthening our economy.
07/27/26	Phil C	60053	X	X			X				Support	No one enjoys sitting in traffic. Expanding capacity, improving interchanges, and rebuilding aging infrastructure helps reduce congestion, improve travel times, and keep people moving more efficiently.
07/27/26	Robert F	60162		X				X	X		Support	Millions of drivers rely on the Illinois Tollway every year because it provides a dependable way to travel. Continued investment ensures that reliability continues for years to come.
07/27/26	Dana P	60426	X		X	X					Support	Businesses choose locations with dependable infrastructure. Modern roads help attract employers, move freight efficiently, and strengthen our economy. Maintaining the Tollway helps keep Illinois competitive.
07/27/26	Ashley P	60517	X		X		X				Support	Every generation inherits infrastructure from the people who invested before them. It's our responsibility to leave behind a transportation system that's safe, reliable, and ready for future generations.
07/27/26	Colleen F	60563	X	X	X						Support	Anyone who's completed a home improvement project knows costs continue to rise. The same is true for highways and bridges. Waiting only makes projects more expensive. Investing today is the responsible choice.
07/27/26	Sarah P	60077		X	X	X					Support	Major transportation projects aren't built overnight. They require years of planning and consistent funding. Supporting this program today helps ensure the projects we'll need years from now are already moving forward.
07/27/26	Rick R	60004			X	X		X			Support	One thing I appreciate about the Tollway is that it's funded by the people who use it. Drivers pay for the system they benefit from, and those dollars are reinvested back into improving it—not diverted elsewhere. That seems like a fair and responsible approach.
07/27/26	Quin L	60647	X		X	X					Support	Illinois has grown, traffic has grown, and our transportation needs have grown. Our infrastructure has to grow with it. Standing still isn't really an option if we want the system to keep meeting today's demands.
07/27/26	Ryan Gigstad	60657	X	X	X						Support	Safe roads save lives. Replacing aging bridges, improving interchanges, and modernizing highways helps reduce crashes and makes travel safer for everyone. That's one of the biggest reasons I support continued investment.
07/27/26	Tricia Gigstad	60613	X		X		X				Support	These projects do more than improve roads. They support thousands of skilled construction jobs, keep suppliers busy, and help businesses move products efficiently. Investing in infrastructure is also investing in our economy.
07/27/26	Carter G	60439		X	X			X			Support	Construction costs don't go down by waiting. Delaying projects usually means paying more later while roads continue to deteriorate. Planning ahead saves money and delivers better results for drivers.
07/27/26	Hillary P	60477	X		X	X					Support	Whether you're heading to work, picking up your kids, or delivering freight, people depend on reliable travel times. Maintaining and improving the Tollway helps reduce unexpected delays and keeps Illinois moving. That's an investment worth making.
07/27/26	Jessica Blessman	60457	X	X		X					Support	Most people don't think about infrastructure when everything is working. We expect smooth roads, safe bridges, and reliable travel. Investments like this are what keep it that way. I'd rather continue maintaining the system than wait until problems become impossible to ignore.
07/27/26	Brianna C	60463	X		X	X					Support	It's always less expensive to maintain infrastructure than to wait until it fails. We all know what happens when we put off repairs—they become bigger, more disruptive, and much more expensive. Investing now means safer roads, fewer emergency repairs, and lower costs over the long run. That's why I support this capital program.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/27/26	David Fisher	61068	X			X	X				Oppose	I strongly oppose your proposed rate increases. Tollway revenues are already at record highs with 1.3 billion more in revenues in 2025 than operating and maintenance expenses. Since 1973, when the system was supposed to become free to drivers, the agency has collected more in tolls each year than it needed to operate and maintain the system. With revenues like this the tollway could still expand their capital expenditures without increasing tolls. There is no justification to warrant an increase in tolls. Thank you.
07/27/26	Carol	61283					X		X	State Police	Oppose	The roads are not well maintained. The Police aren't around and the rates are high now. You took toll booth operators away so where did all that money that was saved go? I truly think this is horrible to do.
07/27/26	Judy Pielach Taaffe	60148	X		X		X				Oppose	Tolls are already very high. It costs me $7 to drive roundtrip just over an hour to Wisconsin. Of course, when I get to Wisconsin, it's the same road WITH NO TOLLS. While I understand Illinois is not the most expensive tollway system, it's still high. I will consider using alternate routes if this increase is approved. On a side note, truck traffic on the tollways is excessive and getting worse. Maybe charge more for that.
07/27/26	Abby Downs	60116	X		X		X				Oppose	
07/27/26	Paul Muskat	60045	X				X			Noise level too high - add wall from Half Day north to Hwy. 60 on east side of highway	Oppose	Manage within the means.
07/27/26	Luke	46360	X		X		X				Oppose	I strongly oppose the proposed toll increase. Illinois drivers are already paying some of the highest tolls in the region, and raising them again places an even greater financial burden on the people who rely on these roads to get to work every day. As someone who commutes regularly, I already pay a significant amount in tolls, and the cost continues to climb. The Chicago Skyway is especially outrageous. Charging such high rates for a short stretch of road feels excessive, especially for working people who have little choice but to use it. If additional revenue is needed, there should be greater transparency about where current toll dollars are going and why existing funding isn't sufficient. Before asking drivers to pay more, agencies should demonstrate that current funds are being used efficiently and that every effort has been made to control costs. Working families are already dealing with higher prices for groceries, housing, insurance, and fuel. Another toll increase only adds to that burden. I urge you to reject this proposal and instead focus on keeping transportation affordable for the people who depend on it every day.
07/27/26	Clare Thomas	60004	X		X		X				Oppose	While I recognize that the tolls have not increased in several years, the proposed increases seem excessive. A smaller increase would be much more palatable.
07/27/26	Justin Sigalos	60618	X		X		X				Oppose	To the Leadership of IDOT, I am writing to express total and unyielding opposition to your proposed toll rate hikes and the relentless escalation schedule you intend to enforce. The public has reached a absolute breaking point. Between skyrocketing living expenses, unrelenting inflation, and stagnant wages, commuters in Illinois are already financially suffocating. To demand even more money from working people just to drive on the roads their tax dollars built is not just poor policy—it is an outright insult. You are pushing residents to the absolute brink of economic endurance. The frustration in this state is volatile, and if you move forward with this hike, you will face an unprecedented explosion of public outrage, mass boycotts, and fierce civic resistance. Drivers will intentionally abandon the tollways, choking local state roads and creating gridlock that will paralyze surrounding communities. We cannot afford this, we will not accept this, and we demand an immediate halt to this proposal. Re-evaluate your budget, audit your internal spending, and stop treating the driving public as an infinite line of credit for administrative overreach.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordabililty	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/27/26	Arunas Navickas	60491		X			X			Affordabililty	Oppose	Tolls are way too high already. What happened to a toll system that was setup to pay for the road that was being built and would go away once those funds were collected?
07/27/26	Margey	6044			X		X			Proper use of funds	Oppose	Road fund money should be used for roads, not for mismanaged public transportation. Also, automatic rate increases are unfair to the drivers and taxpayers. It's another way for the government to not be accountable or transparent.
07/27/26	sanford kolinek	60510	X				X			direct routes. avoiding your fees	Oppose	rate change is too much. Impact on cars with trailers is significant. this on top of the last rate change by the governor, is huge and burdensome. NO
07/27/26	EDDIE	60418				X	X			affordability	Oppose	illinois tollway along with all illinois goverment need to stop raising taxes and cost on the illinois taxpayer and start rolling back.I 100 percent oppose any increases on illinois tax payers for this and any other program illinois government conjures up. Bill the increase towards all of the out state travelers that use the tollway i pass especially for Indiana residents since they benefit the most living out of this state and working here to enjoy the higher paying jobs. This state needs total goverment reform period.All you are doing is causing us illinoisan's to have to find a way out of this state due to affordability.
07/27/26	Your Average Citizen	60133	X	X			X				Oppose	Why doesn't the State use a better product that will increase the longevity of our roads. Instead of paying Board Members and Executives millions of dollars to scratch their asses, and pick their noses while increasing the toll fares for the average IL residents. Effective immediately have them take a 35% payroll cut for 2026 and coming years, Have them pay back 35% of their salary for the last 5 years. Let's see how they react to that. I bet they WOULDN'T BE TO Thrilled hearing that proposal.
07/27/26		61088	X		X		X				Oppose	
07/27/26	Craig B	60151	X				X			Toll roads can handle the trucks	Oppose	This will cause more truck traffic on rt 64 and 38. Roads can not handle the heavy traffic and trucks now.
07/27/26	Kristan Hanson	60098	X			X	X				Oppose	We are being overly taxed - car registrations, gas tax, and current high tolls. People are leaving the state and any commercial increase will be passed on to the consumer. Gambling, lottery, ever increasing taxes just keeps depleting the residents and any discretionary income to drive the economy!!
07/27/26	Rebecca	60646	X			X	X				Oppose	Having driven through many other states that do not have high toll prices there is NO reason for this increase. Mange the money you are already given more efficiently and stop hiring companies that over charge for work that is never completed so that they can keep charging the state. Wisconsin's road are better maintained and the projects actually get done! Also, stop spending the toll money on things that don't have anything to do with road infrastructure.
07/27/26	Adam Kretz	60187	X			X	X				Oppose	I am submitting this comment in opposition to the proposed toll rate increase under the Driving Connections capital program. The proposal calls for a 45-cent per toll increase for passenger vehicles and a 30% increase for commercial vehicles, effective January 1, 2027, followed by CPI-indexed adjustments every two years starting in 2029, to fund a $26.5 billion, 15-year capital program running through 2042. Illinois residents already carry one of the highest overall tax burdens in the country. Illinois has the highest effective property tax rate in the nation (Tax Foundation, 2023 data), and independent studies such as WalletHub's annual state tax rankings place Illinois at or near the top nationally when accounting for real estate, income, and sales/excise taxes combined. Against this backdrop, a toll increase functions as an additional, flat-fee tax on drivers rather than a targeted charge tied to actual road wear or usage. Roadway maintenance and infrastructure investment should be prioritized within existing state tax revenue rather than funded through recurring toll hikes layered with automatic, uncapped CPI escalators. Locking in perpetual inflation-indexed increases removes future public accountability and normalizes cost growth without requiring further legislative or public review each time. I urge the Tollway Board to reject this proposed increase and instead pursue cost containment and reprioritization of existing tax revenue to fund the program's stated goals.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/27/26	Jeff Swirenski	60611					X	X		Stop wasting my taxpayer money on endless highway projects with no clear be benefits	Oppose	These projects will destroy the environment, waste taxpayer money, and, because of induced demand, do nothing to alleviate traffic. Wake up to the realities of what happens when you keep building out highways and let's realize a future where people don't need to be so reliant on cars to get around. Give back the money to IDOT to find bike/ped projects.
07/27/26	Mary Frese	60015					X	X	X		Oppose	Our toll and tax money is obviously not being put to good use as our infrastructure continues to decline in key areas.
07/27/26	B. Wiklanski	60123	X	X			X				Oppose	I am old enough to remember that once the tollway was paid for, it would become a freeway. Greed and misappropriation of funds negated that promise. There is PLENTY of money to maintain the road and make improvements. In Illinois, we are already taxed into poverty. End the greed and corruption and all can breathe easier instead of the elect few.
07/27/26	Venkat Gunuganti	60606					X		X	Fairness to all communities	Oppose	Rates should be uniform across the region, particularly within 30-50 mile radius and somewhat lesser fares beyond that. With automated tolls, you should implement entry and exit scanners also. Rt 59 entry/exit shouldn't be free. A person entering and exiting at that location and leaving on Rt355 is not paying their equivalent share for all the ride on Rt88.
07/27/26	Haritha G	60193					X	X	X		Oppose	Within City area, all should pay same amount per mile. Current I390 and I355 drivers are paying a lot more than others. e.g. on I355 from Armytrail Rd to Boughton Rd pay $1.90 for 14+ miles. Rt59(I88) to I355 Boughton exit, pays just $0.95 for 14+ miles. I understand a new road might pay more initially but not life long. It should be restricted to the first 10 years and then all fares should be uniform per mile from 11th year onwards. Let everyone pay their fairshare and not discount some locations(e.g. Rt 59). With all electronic system, it is easy to implement per mile cost.
07/27/26	Brenda Feltman	60467	X		X		X				Oppose	I am tired of being raped financially by the state of Illinois squeezing every dollar they can get out of Illinoisans especially when we are able to check easily that the tollway has a surplus of 300 million according to AI. I am adamantly opposed to any increase on the toll roads at this time.
07/27/26	Patricia Murdock	60002			X	X	X				Oppose	I don't believe that the Illinois Tollway system is capable of delivering all their promises. Just make what you have work. The increases are totally inappropriate and unfair and unnecessary.
07/27/26	Jody L Dal Santo	61016			X		X			Tolls was never meant to be a permanent solution	Oppose	People are barely getting by & taxes plus tolls in IL are crippling many families. When the tollways were proposed it was a temporary solution not a permanent solution it was not supposed to last forever and all these increases are not helping they seem to not be able to fix the problems.
07/27/26	Nancy Muhs	60467	X			X	X				Oppose	Tollways were never suppose to be permanent.
07/27/26	Mark	60514	X				X			Clear and logically-marked exits and entrances.	Oppose	Illinoisans already pay some of the highest tolls and fees in the nation. We were told when the tollway was first constructed that tolls would only be in effect until the project was paid for. After that, we've been repeatedly lied to for over fifty years. There is no reason to increase fares so measurably; Pritzker just can't keep his hands off of (other people's) money. I've debated leaving Illinois for most of my life; this irresponsible, greedy decision made far before the fact by our corrupt socialist governor has sealed my fate. See you later, Illinois. I'll take my purchases, my taxes, my lucrative factory and employees and move elsewhere.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/27/26	Michael Rodgers	60191	X		X		X				Oppose	First of all, you didn't send a public hearing schedule until four days before they started, which, to me, indicates you didn't want people to show up. Secondly, I'm looking at an average of a 57% increase on my current toll bill. How do we have such a budget shortfall that we need to increase tolls? We already voted into the IL constitution that tolls can only be used for roadway improvement projects. Additionally, you're proposing to tie the price of tolls to the CPI every other year for "cost predictability for customers," which is complete BS because 75% of the drivers probably don't even know what a CPI is! How is that "predictable?!" Your proposed plan is going to cost drivers several billions of dollars in the next 15 years, which right now, in case you haven't noticed, NOBODY HAS TO SPARE!!! It's just another tax Illinoisans have to pay, and we're tired of it.
07/27/26	Randall Wells	60068	X				X		X		Oppose	The Tollway never requested an increase until the Illinois government took money from the gas tax lock box to bail out the CTA. The toll increase was proposed to appease the local unions who correctly objected to lock box raid. The corruption will never end.
07/27/26	Ian J Rogers	60606			X	X	X				Oppose	As is typical, Illinois government has once again lost the plot on effective stewardship of public funds and management of basic services. At a time when taxpayers are longing for more government fiscal responsibility, Illinois bureaucrats and politicians as well as the union construction lobby have proposed or endorsed continued increases in tollway fees which would now be scheduled for automatic increases in the future. On top of increases that have already been tied to CPI in the past on what was originally meant to be temporary cost funding. It's no wonder this self-reinforcing system always comes to one conclusion...more, more, more. More burden on taxpayers and more costs out of pocket to fund the growing government machine. We all would love to see our government (state and local) take seriously the exercise of considering how to balance the budget before asking for more , including stopping the practice of giving input to interests that stand to gain financially with approval. And a government that considers cutting / eliminating new services that have been created during events such as the Pandemic or stops/eliminates programs when federal funding has dried up. This proposal specially reeks of collusion and tone deafness and continues to reward other people's money to powerful interests at the expense of the voting taxpaying public that can no longer reasonably be confident that our basic needs are being met. More and more I talk to my wife about leaving this state where I have lived and worked since birth. My hope is that one day she agrees and we can begin the process of moving from a state that can't balance itself except on the backs of the public to one which agrees with me.
07/27/26	Ann Nestander	60439-4185	X		X	X					Oppose	I would first ask why you can't do better with the toll revenue currently collected. When I travel to other countries, or even other US states, I'm often amazed at the quality of the roadways compared to those Illinois. Despite the annual "construction season", and the attendant traffic disruptions, even recently repaired roadways seem to fall into disrepair quickly. My father, a registered civil engineer, always maintained this was due to shoddy construction despite the exorbitant cost. How about insisting on a longlasting quality product at a reasonable cost before asking for more money? If I was driving on impeccably maintained roadways, as Germans and many others are accustomed to, I worksheet mind paying more.
07/27/26	Patrick McNeil	60660			X	X	X				Oppose	The catch word of the day is "affordability," and for good purpose. This increase is not needed and hurts affordability for drivers. I believe this is being driven by unions representing contruction workers. Please put the interest of the public over special interests.
07/27/26	Julie	60010	X		X		X				Oppose	Everything is going up price wise in Illinois. I am moving out because I can’t afford the taxes for mortgage and this is another thing to add to the heavy taxing for Illinois.
07/27/26	Isabella	60067	X		X		X				Oppose	
07/27/26	Valerie Hamilton	30064				X	X		X		Oppose	Tolls are high enough. The brokers are not paying to keep up with the fuel costs right now. Ask the Congress to fund the project.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/27/26	Rick Bostrom	60459					X		X	Fair cost of tolls	Oppose	I would be for the increase, except for what I pay for a single axle trailer. The cost is ridicules. I don't mind paying my fair share but I feel I'm being robbed. With the money that's made, through tolls, our roads are no better than any other state that doesn't have tolls. By giving the state free rein on toll increases every couple of years, it'll get to a point where people can't afford to go anywhere. This state has been over taxing its residents for years and I'm the tolls will be the same. No mercy to the people of the state.
07/27/26		60008	X		X		X				Oppose	
07/27/26	C D.	61026	X				X		X		Oppose	Time to move out of Illinois
07/27/26	Andres	60623	X		X	X					Oppose	I'm an owner operator of a commercial truck and tolling is making me want to go out of business!
07/27/26	Oscar	60115	X				X			Truth	Neutral	Comes into my remembrance the report made by Walter Jacobson
07/27/26	Anonymous	60632		X					X	Its just a long highway	Oppose	
07/27/26	Dana Prill	60441	X		X		X				Oppose	
07/27/26		60625	X		X		X				Oppose	We shouldn't have to pay eight dollars a trip for the road to just sit there like literally every other road. It was paid for years ago, let us fucking use it for free or for two dollars like every other toll road.
07/27/26	Angela Marsh	60901	X		X		X				Oppose	Illinois tolls are getting too high to take the tollway - we have begun avoiding the tollroads
07/27/26	Cassius	60190		X		X			X		Oppose	Stop raising prices on these roads. One of the most corrupt states in the nation. Where is our money going?!
07/27/26	Marc Brandt	60046	X				X			Most efficient use of funds already collected under the current toll fees.	Oppose	The Illinois Tollway has difficulty with spending their collected funds wisely. Some examples are crumbling concrete on roads that were built less than 20 years ago. Shoulders that are often dirty, spotted with weeds and littered with scraps of tires and other trash, often for days or weeks at a time. The lighting along the highway is excessive and needlessly expensive (as most know, Wisconsin has many miles of unlit road along the same interstate and is just as safe as the Illinois Tollway portions, but is undoubtedly cheaper to maintain.) Since the physical lights probably can't be removed or reduced without additional cost increases, the lighting system should be programmed so that every third or fourth post is lit, which would reduce energy costs while helping with darkness conservation (a growing concern in the U.S.) When a light post is knocked down or a chunk of the retaining wall is busted open, these need to be replaced quickly and professionally - not leave the base of a light pole wrapped in cloth or slap a length of guardrail to close the gap in the concrete. Examples of both are along the I-94/I-294 and have been there for years, and they're both eyesores that reinforce the lack of urgency by the Tollway for the best fix possible. More recently, it appears that the Tollway is working to replace the exit ramps with drive-thru tolling. Since most of the exits have only two or three lanes, yet have been under construction for months and months, causing exits to be bottle-necked at times, causing dangerous back-ups onto the interstate, it begs the question - Why the delay? Yet now the Tollway operators want to increase tolls based not on what has been accomplished, but what will be done in the future, so that things can be "safer and better." However, given the less-than-efficient track record of the Illinois Tollway system to date, it's a safe bet that most Tollway users are wondering how that will come to be. It's as if the Tollway system is planning/promising, "bigger and better" as an excuse to maintain its current state of existence, rather than provide better value for the dollars collected. Here's a thought: Hold off on the rate increase for two years. Each month over that two-year period, show the drivers of the Tollway system that their funds are being spent as smartly as possible, by posting verifiable accomplishments made each month (i.e. accountability), rather just asking for more money to build "more." IF that can be done, then that'll be a lot easier to support/justify than going forward with a rate hike at this time. It may even show Illinoisans in the northern portion of the state, and its many, many commuters, truckers, ride-share drivers, limo drivers, etc., that those at the decision-making level really do care about expenses and the cost of living here and how it is affecting them. Hopefully, a delayed increase will not "break the bank" and if it appears that it will, then it just
07/27/26	Lauren Lotz	60451			X	X	X				Oppose	

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/27/26		60630	X			X	X				Oppose	
07/27/26	Tom	60067	X		X		X				Oppose	Fix the state of I-90 before you money hungry politicians increase tolls as this state is continuously increasing taxes with absolutely zero benefit for the taxpayer
07/27/26	Michelle Morrison	61065	X			X	X				Oppose	Dear Illinois Tollway Officials, I am writing to express my strong opposition to the proposed toll increases and to ask that you reconsider the impact these decisions will have on working families across Illinois. I commute from Poplar Grove into Chicago three days a week for my job, and the cost of that commute is already a significant financial burden. Between fuel expenses, vehicle maintenance, and tolls, the cost of simply getting to work continues to rise. For many of us who live outside the Chicago area, the I-90 Tollway is not a luxury or a convenience. It is a necessity. Alternative routes add substantial travel time and are often not realistic for people who need to get to work, care for their families, and manage their daily responsibilities. Many families in communities like Poplar Grove face the same challenges. We depend on these roads to access employment opportunities, and increasing tolls creates another barrier for people who are already struggling with rising costs in nearly every area of life. Illinois residents are facing higher expenses from many directions, including increased taxes, housing costs, utilities, groceries, and everyday necessities. For many families, these continued increases are making it harder to afford to stay in their homes and maintain stable employment. Winter weather also adds another layer of difficulty for commuters traveling long distances, making reliable and accessible transportation even more important. I understand that infrastructure requires funding and maintenance, but repeated cost increases on the people who rely on these roads every day are not a sustainable solution. Please consider the impact these toll hikes will have on working families, commuters, and communities across Illinois before moving forward. I respectfully ask that you find alternatives that do not place an even greater financial burden on the residents who depend on the tollway to earn a living. Thank you for your time and consideration. Sincerely, Michelle Morrison
07/28/26	Lisa Thomas	60586	X		X		X				Oppose	
07/28/26		60610			X	X	X				Oppose	
07/28/26		60014	X		X		X				Oppose	It's sickening that we still have the tollways to begin with. The roads should be free and the tolls were supposed to be temporary. Illinois should use the revenue from the dispensaries that they get on top of the tollway money to get done what they need and stop being so greedy towards the public who already live in a state with a high cost of living.
07/28/26	Robert Silverstein	60048	X		X		X				Oppose	Stop raising our tolls, they were supposed to stop charging or them a long time ago. Start charging ev the same gas tax for roads and tolls!!
07/28/26	Frank Jaramilla	60657	X	X	X						Support	
07/28/26	Cameron witheft	60503				X	X	X			Oppose	
07/28/26	Jera Piper	60554	X		X	X					Oppose	No more taxes. You are taxing us out of Illinois!
07/28/26	Timothy Booth Timothy Booth	60124	X		X		X				Oppose	It's ridiculous that we even have tolls. This is another money grab by the state of Illinois and our lousy crooked government! Where do all of our taxes go? Get rid of the powerful teacher unions and the underfunded crazy pensions and use this money for roads.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/28/26	Whitney Wilda	60451			X	X	X				Oppose	From what I read, the average toll increase was supposed to be $.45 per toll. That seemed reasonable to me. Then, I calculated my own commute, and the ONE toll I use is going from $1.90 per toll to $3.05 per toll. That is a $1.15 per way increase--over 2.5 times more than the average that was originally given to the media. At the current cost, I pay around $741 each year to take the tollway to work. As of 2027, it will cost me $1,159, which is $418 more (not including the inflation increases that are planned). This also does not include my other immediate family members who use the tollway for work. When that is taken into account, we will be spending over $750 more per year on tolls, and that is just to get to work. I was not opposed to the $.45 per toll average increase I originally read about, but it is very unclear why people in the southwest suburbs have to pay so much more than people in other areas to take the tollway to work. Why do we have to pay 2.5 times more than the average? What other ways could this increase be more evenly spread around? What other options have been looked into? For these reasons, I am opposed to the current plan as stated.
07/28/26		60540	X			X	X				Oppose	
07/28/26	John	60655	X		X		X				Oppose	
07/28/26		60010	X		X	X					Oppose	
07/28/26	henry	61018	X				X	X			Oppose	there’s so many states without tolls that are better than illinois it’s bullshit
07/28/26	Carter	60478	X		X		X				Neutral	We understand the need for improvement but everyone is increasing all over. Will the government be contributing? People need to survive and pay for rent and food.
07/28/26	Jodi Suddeth	60553		X	X	X					Oppose	
07/28/26	Joe	60805	X		X		X				Oppose	
07/28/26	Colleen	60586	X			X	X				Oppose	Tollways in north part of state putting burden on those of us with high property taxes and already supplying the majority of state revenue. Most people on tollways must pay as it is most efficient way to get to work. Worst congestion is caused by slow response to and slow removal of accidents. They seem to occur in same locations. It would be far more fiscally prudent to determine if something can be done to decrease accident rates at these problem points rather than get into these big construction projects that never deliver and cause pollution and delays for years. The 294 has been ripped up for more than 30 years in same spots and the congestion never gets better. Only change is added congestion from construction. You want approval with no concrete plans. Maintain the roads and fix the bridges and complete the 294 before jumping into more delays causing projects. The 355 55 interchange was ripped up for years with little sign of active work but lots of added congestion and after done no added benefit to traffic flow. Stop expanding and consuming fiscal and material resources and fix and complete these endless projects already causing congestion.
07/28/26	josh	60110	X			X	X				Oppose	
07/28/26	Mortimer Filkins	60601	X		X					Safety. Wide lanes.	Support	Please construct the Illiana Tollway. There needs to be an alternative to 80/94. It is jammed and dangerous. Also, increase lanes on I-55. Toll those. It should be 4 lanes to Bolingbrook and three lanes all the way down state. Toll it to build it. More highways and tollways the better.
07/28/26		60477	X				X			Proper use of highway construction funds	Oppose	Gas sales tax money intended for highway construction should never have been given to public transportation when the actual users did not have an increase. They received a gift from the tollway drivers of Illinois. When are Illinois politicians going to stop diverting funds to other agencies? Sounds unethical to many people.
07/28/26	Melanie	60660				X	X			Quick commute	Oppose	
07/28/26	Aly M	60047	X				X			Use what you have	Oppose	Strong oppose. I don’t understand how this state can keep raising fees so high.
07/28/26	Moran T	60423		X					X	Having a well maintained road for a very very small price	Oppose	The tolls were supposed to be gone a long time ago. Last thing we need to do is increase it.
07/28/26	Caleb	53402			X	X	X				Oppose	
07/28/26	Larry Barr	60501	X			X	X				Oppose	The toll costs to trucks is already high. The costs to cars is minimal. Our customers view the cost of shipping in the Chicago area as already uncompetitive.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/28/26	MICHAEL SOLER	60031	X			X	X				Oppose	Before spending millions of dollars to expand the tollway, the toll authority needs to repair the hundreds of pot holes and cracking pavement between Lake Cook rd. and the Wisconsin border. It is the worst stretch of tollway pavement in the system. It has been like this for years and is only getting worse.
07/28/26	Lexi Richards	60004	X		X		X				Oppose	
07/28/26	Kyle Davis	60014	X		X		X				Oppose	We already pay enough between all the taxes, fees, and tolls on top of that just adds another squeeze on working families who have no other reasonable way to get to work. Automatic increases every two years going forward is another expense forced on us with no end in sight.
07/28/26	Kyle Davis	60014	X		X		X				Oppose	We already pay enough between all the taxes, fees, and tolls on top of that just adds another squeeze on working families who have no other reasonable way to get to work. Automatic increases every two years going forward is another expense forced on us with no end in sight.
07/28/26	Matt Edelmann	60002-6434	X		X		X				Oppose	That increase is huge. Lucky for you all these people dont have a choice. They still need to get where they need to go.
07/28/26	Todd Daniels	60062	X			X	X				Oppose	The current program allows for multi-millions of dollars to be amassed to help maintain roads and allow for future improvements. Why should we allow this program to be authorized when we have not allowed the existing program to function and build revenues? This is in short adding another tax to the citizens of Illinois. With inflation increases created by the federal governments actions, lack of tariff revenues being legal and the increase in oil prices due to conflicts, perhaps it is too early to tell what these funds should actually be used for? how about letting the citizens of Illinois keep their hard earned money and not spending it for them and make the Board engage in policies and planning that limits useless spending and controls maintenance and projects costs. Wasn't this system supposed to be toll free by 1973?
07/28/26	Paul Eysenbach	60154			X		X		X		Oppose	
07/28/26	Ryan	60120	X			X	X				Oppose	
07/28/26	David Myslinski	65802	X		X					Anything that will increase safety for drivers and anyone working on the tollroad	Support	I am in favor of a rate increase as it will help to create much needed jobs. As someone who worked (and has since retired out of state for health reasons) a construction project funded by the Illinois Tollway, I have benefited from the collected Tolls.
07/28/26	R A Greene	49017	X		X		X				Oppose	Don' think this much increase is warranted. Although not a frequent visitor to Illinois the condition of most roads and maintenance are substandard for what we all pay
07/28/26	Todd Behme	60517			X	X	X				Oppose	I have already commented once, so I apologize for the duplicate. I just want the board to know that in checking our family Tollway account today (July 28), had the proposed increase been in place this year, it would have cost us about $491. That would mean an estimated $1,000 extra (or nearly that) for the year. Our driving patterns might change next year and we might pass fewer tolls, but when Gov. Pritzker wants to tout affordability, how can he and a board he appointed sign off on a toll increase that could cost families additional hundreds of dollars, or perhaps even more, a year? Thank you very much for your time.
07/28/26	S Cribaro	60525		X	X				X		Oppose	I oppose increasing Tolls by 45 cents per transaction and placing an unnecessary financial burden on The Daily commuters and local residents who rely on these routes for work, school and essential services. During a time when many households are already managing Rising costs for basic necessities, this additional expense acts as a regressive tax that disproportionately affects working class families (due to the ineffective Governor of Illinois with his ridiculous increase in taxes).
07/28/26	Natalie Ulloa	60559		X	X	X					Support	
07/28/26	Christine Enright	60432	X		X		X				Oppose	No more raising the tolls! People remember the lie still to be toll free. They have continued to increase. They have never decreased and we know they won't decrease 40 years from now either. The working people of our communities should not have to pay for failed budget management.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/28/26	Nicholas	Eccles			X		X			i really like the fact that none of my roads have been fixed for years and years and i'm just giving you old fucks more money every year/ day i drive on the highway. you guys are shit at your job	Oppose	what happened to a good ol strike what happens if no one pays tolls for a week
07/28/26	Scott McMurray	60134	X			X	X				Oppose	We don't need additional roadways in the Tollway system. I especially oppose the automatic toll hikes. Thanks for your consideration.
07/28/26		60175				X	X			FIRE JB PRITZKER	Oppose	FIRE JB PRITZKER
07/28/26	Don	60103					X		X	To many construction projects	Oppose	90cents to travel on 390 for one mile ridiculous on a road taxpayers paid for in the first place
07/28/26		60538	X		X		X				Neutral	
07/28/26	Michelle Kowalisyn	60646	X		X	X					Support	
07/28/26	David Powell	60449	X			X			X		Neutral	Love the Tollway roads on snow days. Easy to travel
07/28/26	Lynnette Robinson	60490	X	X		X					Support	I know that the toll collected supports road improvements, updates, and maintenance.
07/28/26		60544	X		X		X				Support	
07/28/26	William Robb	53189	X	X						Better enforcement of traffic laws speed, lane changes, reckless driving	Neutral	Speeding and reckless driving on the toll roads is the worst today than in any time in the past 50 years. Lane changing without blinkers and speeding is at all time high. Please fix this.
07/28/26	Bryan	60012			X	X	X				Oppose	Nobody can afford anything in this state anymore so stop constantly raising prices.
07/28/26	Michael Simmons	60466			X		X			Please make road less crowded and all the prolong construction. Get it done already	Oppose	I've been using the Illinois toll road consistently for the last 20 years and I feel like at times I'm on the Kennedy Expressway are the Dan Ryan Expressway because the traffic is so congested and I'm moving at snail pace. Things have got to be better if you expect a significant increase in toll fares. I'd rather travel on free roads if I'm gonna sit in traffic, especially during rush-hour. I traveled through five tolls on my way to work one way, 10 round-trip and the cost if increased would be significant to my wallet. If you are gonna improve the toll roads please stop with all of the unnecessary repairs that you're doing just to spend the money that you have. Thank you.
07/28/26	Carlos	60517	X			X	X				Oppose	
07/28/26	Marcos Martinez	60453			X	X	X				Oppose	
07/28/26	C. Wagner	60490	X			X	X				Oppose	We already don't use the tollway often. If the tolls increase and then in the future continue to raise every year or two-we will avoid using the tollway whenever possible. Too many taxes and cost increases all over Illinois!
07/28/26	Ara Hernandez	60164	X		X		X				Oppose	Its totally unnecessary to increase the toll when there was a net increase!!!!!! Totally OPPOSE to this proposal
07/28/26	Alejandra	60453	X		X		X				Oppose	Would not like the increase. I feel that tolls are reasonably priced as is.
07/28/26	Paola Gonzalez	60804	X		X		X				Oppose	
07/28/26	Jerry L Campbell Jr	52302-9572	X			X	X				Oppose	The Illinois toll system was originally set up to be a temporary system that would be removed once the money was recuperated. 07/28/26	Martha Garcia	60440			X	X	X				Oppose	
07/28/26	Randy Kobat	60010-3051			X		X		X		Oppose	Fuck no. You get enough money already. Live within your means like we all have to. Do more with less like I have to do every day at work.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/28/26	Cheryl miller	60506	X				X		X		Oppose	It's ridiculous how the rolls keep going up. And then want it propose to up every other year. The state of Illinois is greedy. If they didnt use the money for other things they wouldn't have to do this.
07/28/26	George Hernandez	60618	X		X		X				Oppose	The traffic is really bad in the city already and everything is expensive and raising the tollway prices even more will make it worse for all drivers and does not improve any of the transportation issues we have like highway maintenance or improve traffic.
07/28/26	David Meraz	60120	X				X	X			Oppose	This goes back to the original toll free promises back in the 1973. We were lied to and this became permanent. I would like to believe that the funds would be used for good but somehow this state ends up being in more debt and being taxed more and more. I don't have trust that the funds would be utilized for the desired outcomes.
07/28/26	Tyler Horn	61920-2255	X		X		X				Oppose	Trucks are already paying road use tax, why am I paying twice to drive on the roads I am already taxed for????
07/28/26	Johan	61071	X		X		X				Oppose	
07/28/26	Oscar Morales	60162	X		X		X				Oppose	Absolutely not ok with an increase!!! Totally Oppose!!!!!
07/28/26	Camila Diaz	60104	X		X		X				Oppose	
07/28/26	Roger Weitzel	60085	X		X				X		Oppose	
07/28/26	Maria Fernandez	60634	X		X		X				Oppose	Perhaps instead of asking constituents of the state for more money on a project that will not be completed until 30 years from today, allocate money NOW from the booming marijuana business (plus inflated state and city tax associated with such purchases) AND begin to improve constituent's commute by completing necessary roadways already being funded by the constituent's money. Thank you.
07/28/26	Tina Madigan	61068	X		X		X				Oppose	Illinois taxpayers cannot afford any more increases! You are forcing us out!
07/28/26	Michael Klemp	60491	X			X	X				Oppose	NO INCREASE !!!!!!!
07/28/26	Donald Wener	60451	X				X		X		Neutral	I don't use it that much but for those who do an increase is just another cost they can't afford. May drive some to public transit.
07/28/26	Rodrigo Villalobos	60411	X		X		X				Oppose	Please leave it like that. The higher we pay for the tollways we don't get paid more in our jobs. Please leave it at that price please.
07/28/26	Cameron Pendleton	60431	X					X	X		Oppose	
07/28/26	Farah Smith	60134	X	X					X		Oppose	The Tollway already brings in millions of dollars through tolls the rates don't need to be increased
07/28/26	Jeremy	60115	X			X	X				Oppose	I commute over an hour each way to work. I pay six tolls per day five days a week. A dramatic increase of $.45 per toll will easily add $600-$700 more to my commute expenses. This doesn't include the increased fuel expenses I am already paying this year. I believe drivers will find alternative routes to avoid tolls, which is going to increase traffic in unsuspecting areas and present unsafe passage through smaller communities. I never feel my drive is so busy or slow that some sort of technological advancement would save me time. A very rare incident may cause me an extra 10 minutes on the road two or three times a year. I'd rather see our current roads maintained without "fluffy" projects costing billons of dollars. It's delusional to think this increase is acceptable or affordable.
07/28/26	Jeremy	60115	X			X	X				Oppose	No confirmation on submission, so sending this again: I commute over an hour each way to work. I pay six tolls per day five days a week. A dramatic increase of $.45 per toll will easily add $600-$700 more to my commute expenses. This doesn't include the increased fuel expenses I am already paying this year. I believe drivers will find alternative routes to avoid tolls and will cause increased traffic in unsuspecting areas. This will lead to unsafe passage through smaller communities. I've never felt my drive was so busy or slow that some technological advancement would save me time. I am - maybe - inconvenienced two or three times a year when an incident occurs, but not enough to justify a rate increase being proposed. It's delusional to think this is acceptable or affordable.
07/28/26	Jose Chavez	60402			X	X		X			Support	N/A

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/28/26	Linda Starr	61379	X				X		X		Oppose	We have paid up with over 60 tax hike can't afford ANY MORE TAXES RAISED!!! Especially REOCCURRING TAXES! Are you out of your minds????
07/28/26	K spradlin	61084	X		X		X				Oppose	
07/28/26	Ryan M	60517	X		X		X				Oppose	If I paid tolls and our roads were actually well maintained, I wouldn't have such an issue. The roads are terrible. A tar patch is effective for all of 72 hours before it's just a speed bump. The shoulders are littered with trash and debris constantly. We are home to the worst bottle-neck interstate merge in the country. I-290, 294, and 88 has had some sort of construction for decades. It's unreal. We are taxed out of our ass in the state already and this administration just wants more of our hard earned money. Not to mention, people like myself in the suburbs foot this bill. Drive on any interstate near the city of Chicago and there are hardly any tolls. God forbid we make the people (and problem) of this state (citizens of Chicago) foot any kind of bill. Fuck this increase.
07/28/26	Ellen	61084				X	X			Freeway instead of tollway	Oppose	Tolls were supposed to end in 1973! We are already taxed to death...can we please make life in Illinois more affordable, not less?
07/28/26	Judith Olson	60404	X			X	X				Oppose	I have been driving the toll roads for more years than i care to remember. when the toll roads first opened, we were told that the tolls would only be collected until the roads were paid for. I guess the joke's on us!!! the toll roads will NEVER be paid for!! and that is a very sad commentary on our state and local government!!!
07/28/26	Brian Bravo	60517			X	X	X				Oppose	
07/28/26	Christa Hebling	60134	X				X		X		Oppose	
07/28/26	Jeffery	61342	X			X	X				Oppose	The price is already to high..in this economy?? No thanks Obama.
07/28/26	Brian Sepe	60004	X		X		X				Oppose	
07/28/26	Sam	60613	X				X	X			Oppose	
07/28/26	B. Wade	60068						X	X	I don't like any part and would like to remove the first two answers	Oppose	I hate Pritzger
07/28/26	Vanessa	60804	X		X		X				Oppose	I don't often see road improvements. If we would have seen improvements then it would've been worth it. unfortunately I don't see anything. Thus it would be a bigger financial burden. This economy ain't no joke!
07/28/26	Marcelo	53172	X		X		X				Oppose	I am in complete opposition of the increased tollways. Although I may not live in IL, I find myself frequently traveling there. I cannot begin to express how disappointing the interstate is to drive on. HORRIBLE leveling of the lanes, EXTREMELY POOR speed of construction/ repairs which results in drivers becoming a DANGER to others on the roads by making the emergency lanes an unofficial traffic lane and nearly colliding with disabled vehicles MULTIPLE TIMES IN ONE COMMUTE, and what one can consider as unacceptable quality of pavement. Potholes every single inch of the way. All of these issues lead to others such as traffic congestion for 30 minutes + at a time. Until the Illinois tollway actually begins to use the toll charges they collect as they were intended, they have ABSOLUTELY ZERO RIGHT to even THINK about raising the toll prices. It is unbelievable how even some of the worst roads of Michigan, Wisconsin, and Minnesota are in substantially better condition. The Illinois tollway is currently a failure to the people and I firmly believe that it is time for it to change.
07/29/26	Pamela Longo	60010	X		X		X				Oppose	I oppose the proposed automatic increase of tolls
07/29/26	Cindy Stein	53151			X		X			No increase in tolls	Oppose	Don't want to see an increase in tolls.
07/29/26	James Bastek	60448	X			X	X				Oppose	

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/29/26	Sarah delger	60002	X				X			Use the billions of tax dollars you are already getting from us for these roads. Can't believe you think you can squeeze more out of us.	Oppose	We are already being taxed for literally everything and you still want more money?? Give it a rest or people will stop paying tolls all together.
07/29/26		60611	X		X		X				Oppose	
07/29/26	Adam Wykes	61107	X		X		X				Oppose	I have been happy with my experiences on the toll roads already and would still be happy even if the service and quality was slightly degraded. I would NOT be happy to pay more tolls on these roads, under any circumstance.
07/29/26	Jonathan Suastegui	60647			X	X	X				Oppose	
07/29/26	Dave calabrese	60441	X	X			X				Oppose	Paying over 50 a week in tolls just to sit in bs traffic and drive to work is ridiculous
07/29/26	Jacob	60451	X		X		X				Oppose	Tolls are theft, just another stick in my pocket
07/29/26	Will riess	60156	X			X		X			Support	
07/29/26	Michelle Gallo	60542	X	X		X					Oppose	This state already over taxes its citizens. They have more than enough revenue from us. The toll money should not be used for train and bus transit issues in Chicago.
07/29/26	Jeff Barron	60189	X				X			All of the above with our current massive taxes.	Oppose	
07/29/26		60025	X		X		X				Oppose	No increase!
07/29/26	Vladimir	60561	X		X		X				Oppose	Tolls are already expensive, we don't need them to be even more expensive
07/29/26		60089	X			X	X				Oppose	
07/29/26	Adam	60641			X	X	X				Oppose	This would be terrible for Chicagoans amd Illinoisans as a whole, an increase in already plentiful tolls will definitely not be takenb to lightly by Illinoisans.
07/29/26	Allison Sokachitch	60441	X	X						Roads are NOT maintained and there is absolutely NOT less traffic but for whatever reason I MUST select 3. The roads are awful and too expensive for the shitty and pot-hole infested conditions. Take a look at i-80. Construction has been underway for YEARS with no end in sight. Kingery Expressway? I have never NOT sat in traffic and now that's under construction too!!	Oppose	Roads are NOT maintained and there is absolutely NOT less traffic but for whatever reason I MUST select 3. The roads are awful and too expensive for the shitty and pot-hole infested conditions. Take a look at i-80. Construction has been underway for YEARS with no end in sight. Kingery Expressway? I have never NOT sat in traffic and now that's under construction too!! You want to charge more for THAT? Hike up your tolls in your precious city of Chicago and leave the rest of us, who can't afford it, OUT OF IT.
07/29/26	Haley R Minella	60060				X	X	X			Oppose	DO NOT INCREASE TOLLS AGAIN

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/29/26	James Angus	60805					X	X	X		Oppose	I work a small company, we are always under pressure to reduce our costs. This is unnecessarily large increase! Then your plan to just automatically increase afterwards is a joke. It will continue to drive people out of Illinois, which is happening at a rate second only to California. Your own budget showed a massive surplus. Illinois families has adjust their budgets when things are tight, the tollway needs to do the same, especially when this was supposed to be a FREEWAY! NO INCREASE!!!!
07/29/26	Zachary	60181			X	X	X				Oppose	
07/29/26	KarenSchettler	53705	X				X			Merging laws and Speed limits monitored effectively	Oppose	$.45 per toll is too much of an increase, especially as tolls are to be increased every two years. It should be far less of an increase and toll increased less often. Perhaps every five years. Illinois drivers use surrounding State's roads toll free and pay no gas tax in surrounding states. High gas tax is imposed onto Illinois residents and visitors to pay for roads. Visitors and residents end up paying towards road maintenance ongoing as no adjustment to the gas tax is made when gas prices rise. Construction over many years does and has added to drive time and creates unsafe driving conditions. Concrete barriers are used and do not provide enough room to travel safely in areas with concrete barriers. This is especially unsafe in the winter months. Semi trucks, larger vehicles and recreational vehicles, some pulling campers and cars do not follow speed limits.Trucks are constantly speeding, passing cars and not allowing traffic to move over to accommodate merging traffic. Adding more merging areas only complicates an already dangerous merging situation. It is the law that all vehicles move over for merging traffic and for vehicles that are pulled over and stopped along the roadways. Trucks need to be monitored to insure they are following the merging laws and speed limits.
07/29/26		60089			X		X			faster roadwork (i53 has been under construction for 2.5years)	Oppose	i pay to build the roads but pays to use it???what? make it make sense
07/29/26	Matt Steele	60152	X		X		X				Oppose	
07/29/26	Max Allard	60647			X		X		X		Oppose	
07/29/26	Vanessa Brown	53210	X				X	X			Oppose	Bring workers back instead of charging more. Duplicate payments, unable to dispute because I reside in Milwaukee. Travel and gas exceeds duplicate amount. Too many tolls, you pay one toll and then 5 minutes later a second and third toll.
07/29/26	William Santiago	60175	X				X		X		Oppose	
07/29/26	T Klir	60430	X				X		X		Oppose	The proposed hike is ridiculous.
07/29/26	Tina Dagostino	60706		X			X	X			Oppose	this was suppose to be temporary and instead continues to go up to the point that if this goes through we will NoT. use the tollway anymore ! We know so many people that are willing to not use it and take the extra travel time !
07/29/26	Margy	60477	X				X			Transparency	Oppose	Why is the gas tax sales money that drivers of the tollway pay being used to support public transportation? Shouldn't the users of public transportation pay their fair share? Because of the money that was given to them, the riders of public transportation will not have to pay anything extra to use public transportation. This does not seem logical to many people in Illinois.
07/29/26	Robert J Deptula	60043	X		X		X				Oppose	What are the dates for the projects affecting N294 and S294 between Willow and the Indiana border? Why are there no State Troopers on the road? The "No Trucks Left Lane" signs appear to be just a suggestion as trucks use them daily for long distances. I'm opposing the toll increase only on the grounds that the State Police are invisible because speeding and truck lane usage are out of control.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/29/26	Jen Gabrielse	60487	X		X		X				Oppose	I understand the need for more money, and for increased costs, but to double the price at many tolls prices out wide groups of people- we may have to reconsider being able to use the toll toads at all. We already try to avoid 355 because of the added expense. If people are avoiding your roads- toll increases will not help overall. We will get priced out. If it has to happen either way, can you increase it by less?
07/29/26	John Ballard	60561					X		X	Lower tolls is the only one i want and you force us to pick 3. What a joke.	Oppose	I submitted comments at least a week ago and still no reply. Not surprised. Put some of that excessive toll money towards somebody who can actually reply instead of this black hole, pretending you care.
07/29/26	Robert R Tetzloff	61114	X			X	X				Oppose	As a retired person on a fixed income, I always get concerned when governmental bodies increase rates/taxes with annual adjustments. This is nothing more than an effort to avoid getting approvals from those affected when conditions change. The Illinois gas tax is an example of unbridled increase with no consideration of those under fixed income constraints. Consequently, I am opposed to any road toll rate increase and automatic adjustment-based conditions under no one's control.
07/29/26	Sean Neuwald	60060	X		X		X				Oppose	
07/29/26	Robin Schwenn	60467	X		X		X				Oppose	The tollway was supposed to be temporary, but JB keeps stealing more money from us. Do not let the politicians raise the toll rates.
07/29/26	Rick feeney	61705	X		X		X				Oppose	
07/29/26	Alasdair Ladd	46601	X			X	X				Oppose	I regularly commute both to Chicago, and through Illinois to Wisconsin throughout the year. As a student, the usage of the toll road is somewhat helpful when it comes to travel time, but if the tolls are increased, I, and many others, may be forced to forego the toll road for a more affordable option.
07/29/26	Cameron	60542	X		X			X			Oppose	NO
07/29/26	Jose	60104			X	X	X				Oppose	Increasing toll prices helps nobody. What we should be worrying about is all the construction on these tollways never being finished.
07/29/26	Dareon	60429	X		X	X					Oppose	Illinois, especially cook county residents, pay too much for everything. Find the funding elsewhere beside the pockets of the already borderline impoverished masses.
07/29/26	Yaroslav	60173	X		X		X				Oppose	
07/29/26		60073	X			X	X				Oppose	I thought the tollway system was supposed to be temporary...of the state knew how to budget properly tolls could probably be eliminated.
07/29/26	Jen	60601		X	X		X				Oppose	

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/29/26	Will	60804					X	X		None apply	Oppose	I am submitting this comment to formally OPPOSE the proposed toll rate increases associated with the $26.5 billion 'Driving Connections' capital plan. This proposal, which seeks to raise passenger toll rates by approximately 57% (45 cents per toll) and commercial rates by 30% starting January 1, 2027, represents an unacceptable burden on Illinois families who are already struggling with one of the highest tax burdens in the nation. While this board proposes a massive revenue hike, the reality for daily commuters is a hit of approximately $225 in additional annual costs just to get to work. This does not include the automatic, inflation-based increases proposed to begin in 2029, which would essentially give this agency a blank check to raise rates in perpetuity without further public accountability or voting. We were told decades ago that tolls would vanish once the original bonds were paid off. Instead, we have seen tollway revenues hit RECORD HIGHS—$1.3 billion ABOVE operating costs in 2025 alone—yet our roads remain riddled with congestion. This new 15-year plan promises relief, but history shows us it will likely result in endless construction zones that slow our commutes further, rather than improving them. It is difficult to ask drivers to pay more when reports indicate that this increase may be tied to a legislative deal to bailout Chicago-area mass transit rather than solely improving tollway infrastructure. Furthermore, public trust is eroded when we see administrative costs ballooning, with individual salaries exceeding a quarter-million annually. We are being asked to subsidize bloated payrolls and political deals while receiving the same congested service. I urge the Board to REJECT this rate hike and find fiscal solutions that do not treat Illinois drivers as an endless source of revenue.
07/29/26	Joseph Chaffee	60586	X				X		X		Oppose	The constant disregard for Illinois politicians have for their constituents is unbelievable constant increases on taxes, cost of living, and now this. How many time since the toll road creation has the toll price gone up. Yet the quantity and time of the road repairs go down. It amazes me states that do not have a toll system have a better road system and repairs with a fraction of the money that their state generates for their state roads. And this is exactly why so many people are moving out of Illinois.
07/29/26	Robert Niescierowicz	60005	X	X		X					Support	
07/29/26	Jeff Kararo	60543			X	X	X				Oppose	
07/29/26	Christina Mesker	60047			X	X				Most efficient route	Oppose	Stop taxing IL to death!! Be better stewards of your current money like the rest of us have to.
07/29/26	Mary Larson	60074	X			X	X				Oppose	Since it is a long term project, I see no reason why the rate increase needs to occur all at once. A 15 cent increase per year for 3 years would gradually introduce the burden of a higher toll as opposed to hitting everyone with a huge increase at a time when the economy is in sad shape.
07/29/26	Stanley	61350	X		X		X				Oppose	
07/29/26		60087	X		X		X				Oppose	When an elected official of Illinois uses a tollway, do they pay the toll themselves, or does the taxpayer foot that bill, too?
07/29/26	Rosalinda Ramos	60402	X				X		X		Oppose	I am a college student that is constantly driving out of state due to work, school, and family commitments. I am already struggling to keep up with gas and tolls, this increase would make it nearly impossible for me to keep up with my commitments and see my family.
07/29/26	Art Palma	60002			X	X	X				Oppose	Stop raising fees
07/29/26	Danielle Mbadu	60137				X	X			Being safe from people driving foolishly or excessively fast	Oppose	While I do not travel regularly on the tollway, we do need it to get to certain places and destinations. A toll hike such as this proposed one would cause me to actively create alternate routes to my destinations that avoid the tollway and its fees; I am aware that others cannot do this. Illinois has not shown itself to be responsible with money and fees; maybe try regulating and allocating existing funding first before putting yet ANOTHER fee increase on drivers.
07/29/26	Modupe Oladeinde	60423	X		X		X				Oppose	IL toll is too expensive already, so I do not want an increase, thanks!
07/29/26	Amelia Prus	60137	X		X		X				Oppose	
07/29/26	Vince Early	60640	X	X			X				Neutral	
07/29/26	Peggy Lavin	60031	X				X			Can’t afford increase in tolls	Oppose	

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/29/26	Shawn Gilbert	60018	X	X					X		Oppose	No more taxes. Enough is enough.
07/30/26	Al Perez	60446				X	X			What is the tollway doing with the money they saved from eliminating all the toll booth operators	Oppose	With the rise of inflation, how is this a good idea for the already souring cost of living? When is the working class going to catch a break?
07/30/26		60002					X		X	Build 53 for the northern suburbs	Oppose	You're 15 years CIP total amount is exactly what your current 15 year revenue is. So why do you need a rate increase?
07/30/26		60531	X			X	X				Neutral	I do not know how tollway collections are allocated. I support covering the cost of maintaining the toll roads and their supporting systems. I do not support the use of tollway collections for unrelated purposes.
07/30/26	mary kendall	60108			X		X			Need to cost less not more.	Oppose	We can't afford more increases! The toll way needs to budget better!
07/30/26	Breakthru Beverage Illinois	60804		X		X	X				Oppose	This increase is too high for the services the tollway provides. A much smaller one, while not ideal, would be easier to accept.
07/30/26	Dylan Parker	61201	X					X	X		Support	I support the Illinois Tollway's proposed capital program and accompanying toll rate increases.
07/30/26	James Hartnett	60137				X	X			Transparency and ease of access to Illinois Tollway spending	Oppose	Absolutely insidious to include automatic toll rate increases every two years. The increase is already horrendous on its own, but the automatic increase insulting, especially considering the Illinois Tollway RECENT history of corruption. No. No shot. No way.
07/30/26	Cheryl Waitekus	60188	X			X	X				Oppose	I'm aware an increase is needed. But for someone who has been an I-Pass user for years I would like to see are rates go up less than the base cost you are proposing on the fact sheets. Maybe collecting fines for the users that don't pay you could go up more for them and a bit less for loyal customers like us with I-Passes. I can only hope you will give us some consideration. Retired fixed income user. Cheryl Waitekus
07/30/26	Kenny Golden	62656	X			X		X			Oppose	The state already mismanage's the roadway, funds, and taxes that they collect. There is no reason to have an entire another sub structure of non-government organizations running our road systems. I spent more money going to Chicago O'Hare on the road than I do in purchasing an air ticket from Chicago to Springfield. There is no reason for this ever remove the tollway system completely.
07/30/26	Rick G	60045			X	X	X				Oppose	This state is a joke. Highest taxes on everything and yet the infrastructure is crumbling. Make the politicians pay for their needs and wants. These tax increases are exactly why people are fleeing this state by the 10s of thousands.
07/30/26	George Wilkalis	60074			X	X	X				Oppose	Before any toll increases are implemented the tollway authority should collect ALL overdue toll payments from ALL users. This especially applies to commercial drivers (trucking companies) that owe payments and have not made an effort to pay the amount due. Make them pay penalties.
07/30/26	Keith Betry	60448	X				X			Not paying for bad decisions	Oppose	I have lived in Illinois most of my life. I do not trust people who put in increases that do not get voted on. They automatically happen. Our governor did that with our gas taxes so that he could shift the blame for tax increases every year. I do not trust the Tollway authority. I remember when you built a 25 million dollar building that ended up going vacant. You need to learn how to budget with the money you already have. I lived in this area since 1972. The tollways were supposed to cease in 1973. They are still here. Promises made but never kept.
07/30/26		60643	X		X	X					Support	
07/30/26	Richard Reschke	60480	X				X			Tollways should be FREE	Oppose	The administration has been stealing from the Americans, lying to the public, wasting tax payers money and breaking promises they made to the public. It's time to get rid of this phony group. Defund the tollway and the entire staff.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/30/26	Julia Fenner	60142	X		X		X				Oppose	As a retired person who still drives, I find that this large toll increase is prohibitive for persons on a fixed income. Seniors should be given a discount recognizing their long term commitment to paying tolls in the past. This increase is very disappointing.
07/30/26	Tammy Hogan	60465	X	X			X				Oppose	First off, it seems like road construction never ends!!! When it is actually done, another project pops up. Tolls were only supposed to be around for 40 years, then the states RELIED on toll money and here we are still paying, in Illinois tolls were supposed to go away in 1973 but here we are still paying for the infrastructure that is constantly being worked on because we keep building with cheap materials that don't last. I go to other states, and their roads are way better than ours. So why should we the taxpayers of Illinois have to pay more toll money? Make better material decisions, stop making positions that are not needed, Get the federal funding that available to us. The fact that we still use materials that are archaic and don't use the kind of materials that other states and other countries apply to their road tells you how far we have gotten. So, you need better decision makers not more money. You can throw money at things doesn't mean it will fix the problem.
07/30/26	Karen Wrobel	61008					X		X	Affordability	Oppose	It is already expensive to drive the toll roads and the proposed increase will add an additional burden on the working class. Why such a large dollar amount increase? Why every year? If there must be an increase doing so in much smaller amounts over a longer period of time would be better to help drivers budget for them.
07/30/26	Samantha	60191	X		X		X				Oppose	Chicagoans spend more money on taxes that dont seem to be helping the improvement of much. We are already paying to much for basic needs, this will be another burden we will have to carry. Instead of increasing tolls might we look into where all of our tax and toll money is going in the first place
07/30/26	Lilly Katavic	60101	X		X		X				Oppose	
07/30/26	Chicago Women in Trades	60608	X					X		Equal opportunity and diverse workforce	Neutral	Chicago Women in Trades (CWIT) is grateful for the opportunity to comment on the Illinois Tollway's new capital program. As a longtime pre-apprenticeship provider and workforce partners with the Tollway, CWIT is excited to see new investments planned for the Tollway system. However, in addition to investing in physical infrastructure, the Illinois Tollway should recommit itself to creating job opportunities for all Illinoisans and invest in workforce equity on its capital projects, so that those building the roads reflect the diversity of Northern Illinois. While previous efforts to diversify the workforce of those building tollways had been moderately successful, we believe that recently the agency has stalled its progress. Three key mechanisms that should be reinstituted in the effort to spend the public's dollars while ensuring equal employment opportunity include: 1) Creating a dedicated staff liaison between Tollway contractors and assist agencies that can source diverse, qualified candidates for construction jobs. 2) Including gender and race hiring goals once again in bid credit incentives. 3) Ensuring that investments in the Construction Works program are provided to community training partners at a level that more accurately reflects the cost of service delivery and administration, and that program administrators are intentional in including training partners and assist agencies that can source candidates that reflect the diversity goals of the Tollway. We would be happy to discuss further these or other diversity efforts if desired.
07/30/26	James Sarros	60646	X		X		X				Oppose	The rates are already too excessive. Start collecting from the morons who fail to pay their toll violations and penalize them to the statutory limit.
07/30/26	Abel Cristobal	60652			X		X		X		Support	The Illinois Tollways Driving Connection 15 year program will improve highways long term making transportation better and safer for everyone.
07/30/26		60467				X	X			Less travel time to son’s house	Oppose	Being retired, we cannot afford to travel to our son’s home when necessary! The cost per month is egregious! There is no other way to get there other than to take 355. How dare the tollway authority relieve the metro riders of a rate increase and have us fund it when they are not responsible for their own transportation! Perhaps they should pay my tolls!

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/30/26	William Quinn	60061	X			X	X				Oppose	The tolls are excessive now. It is a burden to use the tollway system for daily travel to work. To increase the tolls more for a 15 year plan is not needed or helpful to Illinois residents. Many will choose to use alternative routes if increases are adopted.
07/30/26		60148			X	X	X				Oppose	The most recent major projects took a significant amount of time and money with no discernible benefit. Most of these projects are not needed. Most strongly opposed to the automatic annual increases in tolls, tying them to inflation. Working families can't afford to be squeezed in yet another way for no discernible benefit.
07/30/26	Joseph Mayer	60525	X				X			safety - eg. trying to eliminate reckless drivers	Oppose	I wish to thank you for the recent email regarding the Illinois Tollway's proposal for new capital expenditures. I appreciate the ability to comment. However, I believe that the last thing that drivers on the Illinois tollway need is an enormous increase in tolls. This just amounts to one more tax on Illinoisans. Many years ago, we were told that the tolls would be gone after the tollway was built. Instead, the tolls have subsequently more than doubled. Now a truly massive increase in tolls is proposed and to make matters worse, the tolls will further increase every 2 years. Much of what is being proposed to justify this increase is not needed. For example, for the last several years, traffic on Interstate 294 has been horrible and the construction is still not complete. Yet, further work is now being proposed over the same area. According to the Internet, the Illinois Tollway system generates about 1.5 billion dollars annually which should be sufficient for what is truly required. Drivers on the tollway also pay gas and other taxes designated for roads in Illinois. If more money is needed, the tollway should receive some of that. There is no legitimate excuse why the tollway should be shut out of state and federal funding while drivers who use the tollway have their taxes fund other roads.
07/31/26	Art	61102			X		X		X		Oppose	Holding a meeting during the middle of the week at 11am? A price increase is inappropriate, especially right now. If tolls prices go up then a tax in illinois must go down
07/31/26	Jon	60008			X		X			Why are we paying millions and millions of dollars to build toll locations to collect money from us?	Oppose	Our rich Governor who keeps raising our taxes and raising calls, removed toilet out of his house to avoid paying taxes he shouldn't even be in office
07/31/26	John A Griffin II	61024-9715					X		X	Cutting the budget.	Oppose	HELL NO!
07/31/26	Phil Curtis	60181	X			X	X				Oppose	While the goal of new construction is to ease traffic congestion, the almost constant construction that has taken place over the past 20+ years has yet to provide lasting relief- the construction zones and limited movement allowed doesn't confirm any consistent improvement. On top of that, the toll charging authority was never meant to be permanent.
07/31/26		60626	X		X	X					Oppose	Tolls are already too high, and they are involuntary - they just keep going up and we have no control over them. The original tolls were to build the roads, but the tolls have stuck around DECADES beyond their construction. Gas prices are ridiculous right now, and probably won't improve. Please don't add one more tax to people who have to drive places to make their living.
07/31/26	Al Mags	60558			X	X	X				Oppose	I'm against any toll hikes. I've also proposed the idea of toll transfer.... not getting penalized for exiting a toll road and re-entering...e.g. from Lagrange to Deerfield.... I'm driving to work and pray two tolls, this time i drop a family member of at the ohare. I pay three tolls now! Or if i meet someone half way to car pool and we exit then renter the tollway i pay again.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/31/26	Daniel E Denys	60540	X				X			No Political actions such as increased spending to cater to road contractors	Oppose	Five concerns. First, increasing by inflation contradicts the historic philosophy of the toll road. The capital cost was an initial burden to offset traffic needs in the suburban Chicago area (instead of free interstates targeted in Chicago and Cook County) that were to be repaid in constant payments and converted to free roads when the bonds were repaid. (The politicians did accomplish this in Hilton Head Island South Carolina) Costs remained constant and declining through at least 2000 until more roads were to be built. Unclear what the current philosophy is. The current increases appear to be Pritzker's POLITICAL accomodation to road builders to obtain transit funding that mainly benefits Chicago and Cook County. Second, when I-355 was constructed and opened in 1989, it had a "premium toll" (two times the average I thought) so its costs would not be subsidized by the initial road system. This was to SPEFICALLY address the issue that was not done on the expansion of I-88 (Illinois 5) between Aurora and the Quad Cities. Has that been eliminated now that 37 years have passed (the total bond costs to finance should be repaid). Also, are no projects such as I-490 rates to be set in the same manner? Third, collection of tolls from fixed booths create unfair situations. For example, if you enter I-355 from I-55 and get off at 75th Street you pay the same as getting off further north (at least Ogden if not Butterfield. Not as equitable as the tolls out east. With the new transponders, tolls could be calculated based on distance and type of road (such as higher cost new roads). Finally, a Tollway study 20 years ago noted that trucks cause 10 times the damage to a road than automobiles. However, they do not pay 10 times more. At rush hours they also cause substantial delays. Accordingly, their rates should be substantially more in general and even more during heavy traffic periods. With a significant penalty (that should not only be the Tollway, but all road taxes), they will reroute to save money. Finally, capital spending should be based on needs. It only took IDOT and the Tollway 55 years to correct a mess at I-294 and I-290. There are others such as I-290 and I-90 that should be enhanced like Indiana has done on the Borman by creating full fly-over interchanges. The congestion on I-355 at I-88 proposed fits into this category. And new projects should be done just like I-355 with the incremental tolls paying the cost. Maybe even the costs for existing deficiencies that were not properly planned. Illinois is not as costly of a state like New York, New Jersey or California although Pritzker seems to want to catch up to them. The Tollway does not have to participate in that action. Thank you.
07/31/26		60016			X		X			Less unmanned construction sites	Oppose	All of the toll collections on 294 were replaced with automation and removed people/money collections to presumably save money. If this automation is now in place, it should be cheaper to collect fees. Use these savings to route money back to road work instead of raising fees.
07/31/26	Marty Flanagan	60527	X		X	X					Support	
07/31/26	Joaquin Mendoza	60123	X	X	X						Support	Get more Federal funds. To improve The projects .
07/31/26	Paul Gehrmann	60542	X		X		X				Support	
07/31/26	Jeremy Esparza	60018	X		X		X				Support	
07/31/26	Kevin J Davis	60452	X				X		X		Support	This project will bring much needed maintenance to the roadways as well as create good union jobs
07/31/26	Armando Granados	60123	X			X	X				Neutral	
07/31/26	Adolfo Zamora	60560	X			X			X		Support	It’s always good to travel a well maintain/safe roadway knowing you’ll be home in a timely manner to spend quality time with family.
07/31/26	Adolfo Zamora	60560	X			X			X		Support	It’s always good to travel a well maintain/safe roadway knowing you’ll be home in a timely manner to spend quality time with family.
07/31/26	Hector Serrano	60480	X	X	X						Support	
07/31/26	Francisco Perez	60099	X		X				X		Support	

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/31/26	Dennis Johnson	60634	X			X	X				Oppose	You are making this state more unaffordable to live in. You are a powerful entity in this state now. Gov. George Ryan pledged to get rid of the tollways in this state. And that was the beginning of the end for him as he was driven from office in scandal. You are going to get what you want. There are enough of us out there that aren't "wokes".
07/31/26	Dana Comiskey	60462		X	X				X		Support	
07/31/26	Nick M Medina	60638	X		X				X		Support

07/31/26	Sergio Ayala	60148	X		X	X					Support	
07/31/26	Michael Lazzaretto	60035	X	X	X						Support	
07/31/26	JEFFERY DOUCETTE	60656	X		X	X					Support	
07/31/26	Jairo Gomez	60120			X	X	X				Support	
07/31/26	Fernando Ruiz Jr	60559	X	X	X						Support	I drive the roads every day and would like the roads maintained. It is important for workers and drivers that we have well maintained safe roadways. The improvements made to Illinois roadways have significantly cut down on traffic. I support this 100%
07/31/26	Andrew J Cullina	60643	X			X	X				Support	The work that's been done on 294 is remarkable. Improvents that will make the system even better got all
07/31/26	James Heil Jr	60448	X		X		X				Support	I believe this is a positive proposal that will provide the union trades with long term work as well as helping with traffic congestion and having well maintained roadways.
07/31/26	Roberto Perez Jr	60480	X				X		X		Support	
07/31/26	Dexter Ziemann	60510	X		X	X					Support	
07/31/26	Loyd Vaughn	60416	X		X	X					Support	
07/31/26	Patrick A Healy	60068	X	X		X					Support	Safe roads are a high priority for me, and people who use these toll roads need to pay their fare share
07/31/26	Marcelino Medina	60638	X		X				X		Support	
07/31/26	Nick Marino	60630	X		X	X					Support	This is a must for us not only as a union that does the work, but as drivers on these roads daily.
07/31/26	Robert Moreno	60542	X		X				X		Support	
07/31/26	Frankie m Smith	60411	X	X					X		Support	Let's make our roads better
07/31/26	Keith Vitale	60616	X		X			X			Support	
07/31/26	John Thompson	60619	X		X		X				Neutral	
07/31/26	Jude Vitale	60639	X		X			X			Support	
07/31/26	Marcelino Medina	60638	X	X					X		Support	
07/31/26	Tom A Giunta	60652	X		X		X				Support	These projects will help keep Illinois moving and creating opportunities for infrastructure work, good union jobs, and continued investment in the communities where a lot of members live and support there families.
07/31/26	Mark J Micetich	60540	X		X	X					Support	I'm in support of the tollway proposals. As the economic hub of the midwest, northeast Illinois needs to have world class roads to advance.
07/31/26	Anthony Wallk Sr	60527	X	X	X						Support	
07/31/26	Colleen Kilbride	60618	X	X		X					Support	It's important that we continue to invest in our roads.
07/31/26	Raymond P Balousek	60073	X		X				X		Support	We need to keep our roads well maintained and safe for the drivers
07/31/26	George Rapidis	60615	X			X		X			Support	The tollway is vital to connecting our region. I support efforts to keep it safe and well maintained, and the good union jobs it creates.
07/31/26	Robert K Behenna	60586	X		X	X					Support	Safe roads are important
07/31/26	Ladislao V Juarez	60527	X		X	X					Support	
07/31/26	Larry B Ervin	60118	X		X		X				Neutral	
07/31/26	MICHAEL H MURPHY	60123	X	X			X				Support	

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/31/26	David Napoles	60630	X	X	X						Neutral	My opinion, I think open access points in new access will be the best way and help. We don't have that much traffic.
07/31/26	Michael Camacho	60652	X		X		X				Support	Feel the Power!
07/31/26	Adam Kalec	60465	X		X		X				Neutral	
07/31/26	Jesus A Ortiz	60656	X				X		X		Support	
07/31/26	Brittany T Thomas	60612	X		X		X				Neutral	
07/31/26	Evelyn Morens	60609		X		X	X				Neutral	
07/31/26	Quincy Shaw	60644	X		X				X		Neutral	
07/31/26	Jonathen Davis	60615			X		X	X			Support	
07/31/26	Tremell Allen	60652	X		X	X					Neutral	
07/31/26	Juan Ayala Jr	60657	X				X	X			Support	
07/31/26	Tracy Guzman-Barron	60624-2316	X	X						Reduction in congestion	Support	
07/31/26	Jett McCoy III	60621	X				X		X		Neutral	
07/31/26	Kenneth W Bragg	60620	X		X		X				Support	
07/31/26	Anthony G Panczak	60641	X		X	X					Support	As a union member I support better infrastructure
07/31/26	Giael Morgan	60641	X		X		X				Support	
07/31/26	Courtney J Lewis	60628	X		X		X				Support	
07/31/26	Jennifer J Ramirez	60633	X			X	X				Neutral	I definitely see the need for this project, but do not want the price to go up anymore, it's already outrageous, but I know if they do it, it will go up greatly
07/31/26	Yolanda Carter	60652	X				X		X		Support	
07/31/26	Matt McGowan	60174	X			X	X				Oppose	Proposed rate increases are excessive. Well beyond rate of inflation. And tying them to future COL increases is just another way to increase costs across the state. Seniors cannot afford all of these increases. Just another example of IL state government not living up to its commitment to remove the tolls once the roads were paid for.
07/31/26	Robert E Murphy	60655	X	X	X						Neutral	
07/31/26	JOSE D CUATE	60123		X	X				X		Support	NO GOOD
07/31/26	Juan Gomez	60623	X	X	X						Neutral	
07/31/26	Martesha M Walls	60619	X		X		X				Support	
07/31/26	ROGER C GODFREY III	60619	X	X		X					Neutral	
07/31/26	Freddie Jones	60619	X	X			X				Support	
07/31/26	STANLEY R SCHMIDT	60515	X		X		X				Neutral	
07/31/26	Frank P Taffora	60411	X	X		X					Support	Nobody likes paying more but I'm in complete support of this program. This program will not only create thousands of jobs for skilled labor but also connects communities and supports businesses by creating a strong infrastructure with anything everything it touches! It's a yes vote for me!
07/31/26	David B Sheahan	60152	X		X	X					Support

07/31/26	Jay K Bedore	53140			X	X	X				Neutral	
07/31/26	Adrian Hinojosa	60099	X		X		X				Support	We the People! Local 152 proud!
07/31/26	Katherine Cerda	60633			X		X		X		Support	Road safety, Rest stop, Entrance & Exist and also Emergency Roadside need to part of all and should be included to help with less congestion
07/31/26	Arthur R Thompson	60620	X		X		X				Neutral	
07/31/26	Joe Yanan	60185	X			X	X				Oppose	Please do not do this. I am already struggling with many other state imposed increases in taxes and can barely afford to live in this state. Just use the money you already get each year to do what ever improvements you like. We as tax payers in this state are at our limit and if you keep raising the costs of everything, we the taxpayers will find another state to live in. Which is what has been happening for the last several years. The tollway has plenty of money already. Budget to use it wisely like we do!
07/31/26	Miguel Suarez	60632	X		X		X				Support	
07/31/26	Javier Amigon	60803	X	X	X						Neutral

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/31/26	Raymond W Woodworth	60445	X		X	X					Oppose	I oppose the proposed toll rate increase and encourage the Illinois Tollway to reconsider both this proposal and the long-term funding model for the Tollway system. As a middle-class Illinois resident, my family and I already pay substantial federal, state, and local taxes. Adding higher tolls places yet another financial burden on working families. While tolls may technically be user fees, they increasingly feel like an additional tax on people who simply need to travel to work, school, medical appointments, and other daily obligations. I understand that highways require ongoing maintenance, reconstruction, and improvements, and I recognize that those projects are expensive. However, after nearly 40 years of driving on the Illinois Tollway system, it seems that there has rarely been a time when some portion of the system was not under major construction. This raises an important question: why does the system require such continual reconstruction? Taxpayers and toll-paying motorists deserve greater transparency about the life cycle of these projects, the durability of construction methods, and what is being done to reduce the frequency and cost of major roadwork. I have also heard that toll roads were originally intended to be self-supporting only until the construction bonds were repaid, not as a permanent revenue source. If that history is accurate, then I believe it is time for Illinois policymakers to reevaluate whether the Tollway should continue operating under the current model or whether portions of the system should eventually become part of the broader publicly funded highway network. Finally, I do not believe motorists should be expected to pay full tolls while traveling through long-term construction zones that reduce speeds, increase congestion, and diminish the quality of the driving experience. If construction is ongoing for extended periods, the Tollway should consider temporary toll reductions or other forms of relief for its customers. Before increasing toll rates again, I urge the Illinois Tollway to demonstrate that it has exhausted opportunities to improve efficiency, reduce project costs, increase construction durability, and evaluate alternative funding approaches. Illinois families deserve safe roads, but they also deserve a transportation system that respects the financial burden they already carry.
07/31/26	Marco A Enriquez	60940	X	X	X						Neutral	
07/31/26	Angelica Carrasco	60501	X	X	X						Support	I believe this project is very important to reducing congestion while making it easier and safer for transportation on the tollways.
07/31/26	Scott Santoyo	60452	X		X	X					Support	If laborers are working, I'm happy.
07/31/26	Derek G Roberts	60645	X		X		X				Support	
07/31/26	Andrew m Renteria	60506	X				X		X		Neutral	
07/31/26	Hector L Roa	60609	X			X	X				Neutral

07/31/26	John J Gilmore Jr	53142	X		X	X					Neutral	
07/31/26	Jackson Prather	61371	X		X	X					Support	Small price to pay for years of work while being compensated with Union Pay and Benefits!

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/31/26	Lissa L Murray	60145	X			X		X			Support	I support the toll rate increase because Illinois needs reliable, long-lasting roads, and that only happens when skilled union workers are the ones doing the job. As a Laborer, I stand with my brothers and sisters who depend on this work for strong careers now and in the future. Quality infrastructure comes from trained tradesmen and tradeswomen, and I'm proud to support the investment that makes that possible!
07/31/26	Jairo Lopez-silva	60440	X		X				X		Neutral	
07/31/26	Jennifer Viviano	62234	X		X		X				Neutral	I am a LABORER out of Local 44 in Collinsville ILLINOIS I've been a member since 2010. I have done the apprenticeship program and I am interested in the work you have coming up.

07/31/26	Daniel Estrada Jr	60629			X			X	X		Support	
07/31/26	Denis M	60085	X		X		X				Neutral	
07/31/26	Angeles Rodriguez	60629	X	X	X						Support	
07/31/26	Juan A Chavez	60629	X		X		X				Neutral	
07/31/26	Alfred Paolucci	60404				X	X	X			Oppose	The tolls are supposed to pay for road improvements, there should not campaigns for road repairs. Stop allowing the state to pilfer the tolls and use the money the way it was supposed to be used.
07/31/26	Maggy	60477	X		X		X				Oppose	It appears that Illinois politicians are not concerned about the majority of the state's citizens. Raising the tolls 45 cents and the sales tax .25 percent and giving the money to public transportation is a outrage. I guess JB and most of the other politicians don't care about the people of the state who are struggling to make ends meet. I hope voters remember this during future elections. I know that I will, and I will do my best to inform others.
07/31/26	Debbie	60441	X			X	X				Oppose	The tollways are already too expensive. We live by 355 & it's very costly! Sometimes I avoid 355 so I don't have to pay the tolls.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/31/26	JENNIFER	60103	X		X		X				Oppose	I TRAVEL ON 390 DAILY FOR WORK. MY TOLLS COST OVER $1000 PER YEAR FOR A DRIVE THAT TAKES ME AN AVERAGE OF 20 MINUTES EACH WAY. THE PROPOSED INCREASE IS JUST TOO MUCH FOR SUCH A SHORT DISTANCE. IT IS JUST NOT RIGHT TO CHARGE THE AVERAGE DRIVER SO MUCH TO USE A ROAD THAT IS SO SHORT. THIS PROPOSAL IS OUTRAGEOUS. DO NOT INCREASE THE TOLLS!
07/31/26	Kristin Kalitowski	60136	X	X		X					Neutral	I am disappointed that relief for the 90/290/53 interchange was still not really addressed as in need of fixing. It's been bad for the last 17 years I've been driving it.
07/31/26	Jeff Jackowski	46373	X		X	X					Support	For me, time is money. The amount I pay in tolls during the course of my day is far less than the cost of my time that I would spend sitting on congested public highways. this is especially true in snow conditions. I know the Tollway lanes will be clear.
07/31/26	joe johnstone	60467				X	X		X		Oppose	The tollway was built in 1955 with the politicans telling us it would pay for itseelf in 10 years. So here wee are many years after 10 still paying with almost yearly increses because of some bs the people in charge say is necessary. Illinois is one of a few states that still 'charge' for use of it's road. I and many others are really against this bs.
07/31/26	Matt Krug	60565	X	X		X					Support	
07/31/26	Laura Toren	60441	X			X	X				Oppose	Quit diverting money from the tollways to other "pet" projects in Illinois. The money should only be used on improving the roads.
07/31/26	LINH D NGUYEN	60515	X			X			X		Neutral	
07/31/26	Adam	60446	X				X	X			Oppose	I oppose the proposed Illinois Tollway rate increase. Many residents are already facing higher costs for housing, groceries, fuel, and insurance. Increasing tolls by approximately 57% for passenger vehicles, along with future automatic inflation-based increases, places an additional burden on commuters and working families who rely on the tollway every day. While infrastructure improvements are important, the Tollway should first demonstrate greater efficiency, transparency, and cost controls before imposing the largest toll increase in its history. I urge the Tollway Board to reject or significantly reduce the proposed increase and explore alternative funding options
