2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
06/18/26	Samantha Pashkow	60610			X	X	X				Support	
06/18/26	KC	60515	X			X			X		Support	
06/18/26	Maria Burnham	60625			X		X			More direct routes	Neutral	
06/18/26	Christi Vitello	60056	X			X			X		Support	
06/18/26	Amanda Gierke	60554	X		X				X		Support	
06/18/26	Eddy	60561			X	X	X				Oppose	We already pay too much; cuts need to be made before taxpayers keep getting called up to pay more.
06/18/26	Benjamin Zeman	60641	X		X	X					Support	I strongly support this toll increase, understanding it will improve travel reliability and roadway conditions while reducing traffic congestion and enabling the construction of more access points across the Tollway system.
06/18/26	Kevin Wheeler	60451	X		X	X					Support	I'm not in overwhelming support of this proposal, however I do believe that additional improvements on the system are necessary to maintain - or improve current service levels. I have commuted on the south end of the tri-state for many years (between 80/294 and 94/394) and strongly believe there is a need for improvements in that corridor. I do wonder at least if the toll increase is proportional to the stated need or if it will be more than necessary. I also feel that the discount for IPASS tolls should be provided to Illinois residents only.
06/18/26	Gregory Linko	60451			X		X			I picked less traffic because you are forcing me to pick three. Totally against another toll hike. Affordability - current tolls are outrageous	Oppose	I am hanging on for dear life trying to afford to live in this state. It is starting to get to a point where it would be cheaper not to work than pay for gas and tolls. I would love to see someone at the toll authority open up the books and show us revenue vs expenses. Maybe I would feel differently but based on the volume of cars and what is already being charged it seems like money mismanagement by another Illinois authority to me. There also seems to be no method to the madness for what is charged! Some interchanges are nearly $2.00 and a mile or two down the road there is no charge to get on or off.
06/18/26	Kevin Koenig	60013	X		X		X				Oppose	There are enough tolls! You are public servants, ACT LIKE IT! You and every public servant can take a pay cut or get fired. We the people will see how "important" your jobs really are. Fuck you! Fuck your taxes! Fuck your tolls!
06/18/26	Cheryl Hochstetler	61101	X			X	X				Oppose	Absolutely no increases in tolls!! We are taxed to the LIMIT with EVERYTHING ELSE!! This is why people are LEAVING IL!! Listen to the people of IL, before we all LEAVE!!
06/18/26	Colleen Smolik	60451	X		X		X				Oppose	I drive 355 every day. It's fine. With increased prices everywhere else, I do not support a toll increase.
06/18/26	Diane Cichocki	60458	X		X		X				Oppose	We are paying enough in taxes. Cut spending. Everyone has to do it, so should our state.
06/18/26	kathleen hollingsworth	61008			X		X		X		Oppose	At this time, when prices are skyrocketing, it is a ridiculous idea to raise the price of tolls. Individual incomes are NOT increasing but prices on everything ARE increasing, it is a horrible idea to even think of asking people to pay more for the tolls. Some Rockford people travel into Chicago and the suburbs for their jobs. Increasing the tolls on top of the price of gas is going to make it impossible for many to keep their jobs. What is more important, people working or raising the price of tolls????? Wait until Trump is out of office and our economy settles down.
06/18/26	Ben Coutcher	60442			X		X			The tolls roads being free.	Oppose	Toll roads should be free. Stop raising the price and charging everyone an arm and a leg to use them, and assuming that everyone in Illinois is rich and can easily afford to use tolls roads when you guys obviously know that that is not the case. Illinois is becoming less affordable to live in by the day, so the least you guys can do is give us one less thing to worry about, aka paying tolls, and not watch us suffer.
06/19/26	Manny	60133	X				X			Stop collecting more money from people, we pay taxes, we pay for everything what is state government doing about it.	Oppose	Illinois yearly car registrations renewals are expensive compared to other states, on top of that, now increasing the toll fees is ridiculous.
06/19/26	Prarit Sehgal	60089	X				X			No toll increase	Oppose	I am tired of paying tolls. Please don't increase any tolls

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
06/19/26	Matt S.	61024	X				X	X			Neutral	With the Northern Illinois Transit Authority law taking effect and the 45¢ toll surcharge, this additional 45¢ increase and every other year inflation index has the potential to make the tollway much more expensive to use. I hope the tollway examines more opportunities for low income discounts and also reducing the toll for motorcycles so it is not the same as a passenger vehicle(car).
06/19/26	Madeline	60056	X			X	X				Support	
06/19/26	Test	60515	X	X	X						Support	
06/19/26	Renee Muloski	60480	X			X	X				Oppose	I already pay almost $100 a month to drive to and from work every month using the tollway. I do not have to use the tollway to get to work and will most likely choose an alternate route if the tolls are increased. A 45 cent increase would almost double some of the tolls I already pay. The tollway was supposed to be a temporary system to fund roads. Instead it has expanded into a monster that will never go away.
06/19/26		60638	X		X	X					Support	
06/19/26		60187	X		X	X					Support	
06/19/26	Nancy	60007				X	X			Faster route no stops	Oppose	This is ridiculous!! The route 390 is horribly expensive to go such a short distance! The price of gas and now this? My sons do heating and air and go to jobs via the tollway and go for parts on it! This is like taxes - $$$ and u don't see where it goes! Illinois is outrageous to live in!!! No to increase!!!!
06/19/26	David Johnson	60564	X		X		X				Oppose	I'm sorry, but $15B in additional funding?? This request for the amount of funding is F****** ridiculous. No additional work is needed on either I-88 or I-355. The roads are already well-maintained and in good shape. When do the continuous requests for funding ever stop? This Illinois Tollway funding request is a JOKE and a SCAM. The majority of this work IS NOT NEEDED. Enough already...
06/19/26	Tom Negele	60124	X			X				Lower tolls	Oppose	Roadway Tolls were originally sold to us as a temporary means. That promise was broken. The gas tax increase was to handle roadway needs. Pritzker moved zillions of those dollars elsewhere where. Fees have increased where I drive, and I really object to the automatic annual increases. With existing projects being delayed due to , too few civil engineers, any increase in funds will sit under used, and democrats in Springfield will raid those funds also in the ever growing wasteful, pork project filled Illinois budget. I strongly oppose this plan
06/19/26	Mary Kay Ibarra	60477	X		X		X				Oppose	For those that have to drive the tollway to get to work and spend hours in traffic since Covid it's not fair.Plus why does the tollway have to support mass transit? If there was a south to north mass transit route I could understand,but there isn't so the only option is to drive
06/19/26	Randall Israel	60053	X	X			X				Oppose	We have been paying and paying for years only to be subjected to construction traffic for way too long! Maybe if the Toll roads weren't privatized as they weren't supposed to be long term, we wouldn't be paying such crazy rates. Also these tollway projects seem to be mismanaged, taking way too long to complete and having so few workers working on them.
06/19/26		60005	X		X		X				Oppose	We are absolutely opposed to raising tolls!
06/19/26	Daniel Allen Janczur	60451				X	X			LOWER Tolls	Oppose	The gross misappropriation of funds by our current and prior state governments is NOT to be put on the people. Rebuild Illinois promised a pipeline of motor-fuel-sales-tax revenue into the Road Fund. That was part of the political sale of the 2019 capital plan. The 2025 transit rescue law redirected a projected $860 million in sales tax revenue charged on motor fuels from the Road Fund to public transportation operations, with 85% going to Chicago-area transit and 15% to downstate transit. It also allows an estimated $200 million from Road Fund interest to be allocated to mass transit. Raiding the tollway coffers to pay for Chicago-transit is disgusting and the people will not stand for another tax increase due to poor management.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
06/19/26	Ann Karow	60187			X		X			Honesty	Oppose	I've been around long enough to remember when the 355 toll was supposed to be temporary. That ship sailed. But we already pay more and have worse roads than other states. We have a rolling gas tax. All these things are supposed to help with a traffic problem that just keeps getting worse. If we actually see improvement, maybe it would be supported? The exchange of north, lake and 294 has been under construction and is THE SAME. Nothing improved.
06/19/26		60559	X			X	X				Oppose	The roads are well funded and do not need additional funds. Use the existing funds more effectively. The cost of living is expensive in IL. This a huge increase and will impact daily commutes on top of the gas taxes and other proposals
06/19/26	Tim Gilbert	,60123			X		X		X		Oppose	The tolls just saw a significant increase this last January. At least the Elgin 90 entrance. I already try to avoid the tollway if possible. There also is a distrist that the tolls go to the tollway only and not other state projects.
06/19/26	Linda lazzara	60714	X		X		X				Oppose	Stop increasing fees on everything. Illinois is not affordable!
06/19/26	Robin McNaughton	60102			X		X		X		Oppose	For years, all the money that has been taken from tolls has been misappropriated and used in ways that does not help make the toll roads any smoother or less congested. We have seen many stories on the news about how the money is being used to upgrade the offices of those who work for the toll company. I oppose any more money being charged for the use of the toll roads. The price to travel in Illinois is getting absolutely ridiculous... The whole idea of getting an I-Pass was to save the money!!!
06/19/26	Maddi Kopija	60090	X			X	X				Oppose	I oppose the proposed toll increase. Commuting daily to work from South to North suburbs already costs nearly $200 a month using main tollways. The proposed increase will bring it well over $200, closer to $250 a month. In the current economical crisis, this is not a welcome additional cost for most families in Illinois. The resulting construction will make the roads more congested for the first few years of implementing this move, so while we are paying more we will have even less favorable conditions in the immediate future. The current status of the tollways mentioned in the proposal is already quite good with the current funding. They are well maintained, and traffic patterns are more or less predictable. Most of the time, these tollways are the fastest, most efficient route to travel. However, with increased tolls (AND a biennial toll increase in perpetuity) they will become too expensive to use, and people will look for other alternate routes, causing more congestion on side roads and less revenue for the state. Please do not move forward with the proposal.
06/19/26	John Cisek	60439	X		X		X				Oppose	The tollway authority gave billions away to support the new RTA for northern Illinois and now you are asking for users to make up that lost revenue thru higher tolls. The unions are behind this money grab, have you no shame? Automatic rate hikes tied to inflation? This is a terrible idea.
06/19/26	Anne S	60014	X				X			Not having to stop. Less traffic on tolls means more cars on all the side streets. Not a solution.	Oppose	I pass 2 tolls in one trip from Crystal Lake to Elk Grove Village. I take side streets home because paying $2 per day, isn't in our budget annually so I suffer in traffic for an hour going home. Now, you want to make me pay an extra $.45 per toll, which means it'll cost me almost $2 to get to Elk Grove ONE WAY every morning, so the money I'm trying to save by not taking the highway home is gone. Asking an increase of that much, on each toll, is ridiculous. Why can't the highly paid politicians take a pay cut and put some of that towards rebuilding the roads, instead of adding an even bigger burden on the low to middle class?
06/19/26	Kate Sumnler	60491			X		X			Less shootings	Oppose	We are taxed to death and increase in prices in Illinois! Wasn't the lottery money supposed to be used for this? Pritzker is abusing his position! This money will probably be for illegals!
06/19/26		60515	X		X	X					Support	
06/19/26		60632			X	X	X				Support	
06/19/26		60616		X	X	X					Support	
06/19/26	Alice VanRyn	60445		X		X	X				Oppose	YES I AM "OPPOSED!" Just another "easy" way for Illinois to ROB the TAXPAYERS, NOT NECESSARY TO INCREASE TOLLS! PRITZKER "WASTED" TAXPAYER MONEY ON ALL THE "ILLEGALS." USE THE MONEY YOU ALREADY TOOK FROM THE TAXPAYERS!!!

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
06/19/26	Travis Franklin	60510	X			X	X				Oppose	develop a way for only the critical work to be completed within existing budgets and existing toll rates.
06/19/26	Tyler Gilligan	60490	X		X	X					Support	The Tollway offers an excellent driving experience, with well-maintained roads and snow removal services. In order to maintain the Tollways financial sustainability as a self-funded agency, the toll rate update is necessary.
06/19/26	JT	61115	X			X			X		Support	I support the toll increase so long as the Tollway remains financially independent and the toll revenues remain WITH THE TOLLWAY.
06/19/26	Jason	60563	X			X	X				Oppose	The toll is high already on some plazas, the increase is too much for those who commute everyday. Some of the tollway works do not make sense and have no benefits other than wasting money. They should be more cautious with the proposed programs
06/19/26	John	60714			X	X	X				Oppose	Should lower toll increase from $.45 to .$.25 increase
06/19/26	Bobby	60638	X		X	X					Support	
06/19/26		60632		X	X				X		Support	
06/19/26	James Patton	60655	X		X	X					Oppose	The tollway was supposed to be paid for years ago and be toll free by now. An increase is a slap in the face to taxpayers in Illinois.
06/19/26	Mark	60115			X	X	X				Oppose	just what the average person needs in these times of high inflation and huge grocery & gas price increases. this rate increase is going to negatively impact everyone, especially low income families. there is already sufficent revenue under the current rates so it would be a much better solution to curb the existing waste & overtime instead of stealing more from the already financially overburdened public!
06/19/26	Christine McGuigan	60440					X		X	The congestion is caused by shootings and people who speed and cause accidents. Speed limits must be observed and enforced but I hardly ever see police around. People need to slow down!	Oppose	Nothing is wrong with 355.
06/19/26	Joe Meyers	60123				X	X			Not getting gouged by your proposed price increase	Oppose	This will add hundreds of dollars to the cost of my daily commute to no real tangible benefit to me. Smartroads are a scam and more creeping data collection that is completely unnecessary to running the tollway. I firmly oppose the proposed increase and the plan as a whole.
06/19/26	dan	60564	X		X		X				Oppose	they should be "freeways" as originally planned after the bonds were paid back. extended i355 to i65 in N Indiana (help w around the lake overload) and i355 to i43 in S Wisconsin (there's more to WI than the lakefront)
06/19/26	Gabrielle Kosche	60451				X	X			Completing the existing 294 reconstruction that is causing terrible driving delays before increasing my toll costs any further	Oppose	The current traffic congestion is already terrible and you are just proposing more construction and increasing tolls- this is providing terrible service to your customers
06/19/26	Delia	60652		X	X		X				Neutral	
06/19/26	Andrea Grundon	50586	X				X	X			Oppose	The taxes in Illinois are already very high, the tolls are high and the cost of living is high. This does not help! Going to work each day, it already costs me enough between gas tolls and car maintenance. Please halt this proposal!
06/19/26	Pat	60510	X				X			No increase in tolls	Oppose	Please no increase please use the money you get and only that. Thank you

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
06/19/26	Terry Lyons	60546		X			X			Stop the theft and only selected more ramps due the requirement for :	Oppose	Let’s say what this really is , this tax increase is to bailout the RTA and CTA not fixing tollways. Illinois politicians need to learn that taxation is theft not a budget solution
06/19/26	Tim Finn	60462	X			X	X				Oppose	Where is the drug money going? Come on! Millions pouring in and no sales tax relief, no property tax relief, no income tax relief! This is ridiculous. Gas tax goes up and now tolls. Use the drug and gambling money!
06/19/26	Kim	60442					X		X	I don't drive on toll ways to much money	Oppose	Tolls are to expensive now we do not need a increase in the toll system
06/19/26		60639	X	X	X						Support	Great job!
06/19/26		60609			X	X	X				Support	
06/20/26	Tom Donohue	60532			X	X	X				Oppose	Stop the money grab! The amount of money that has been spent on the Tristate project is obscene and it’s still it finished.
06/20/26		60616	X		X	X					Support	
06/20/26	Edward Zemke	60067			X		X			Eliminating Corruption	Oppose	The Illinois tollway system was built on a promise that tolls would be eliminated once the construction costs were paid of. Gas taxes (highest in the Midwest) would then pay for maintenance. "Free in 73" was the lie you told us. the system that was supposed to go free decades ago has trippled it's rates generating over 27 Billion in revenue since 1973. Now you greedy, corrupt, and incompetent people want taxpayers to trust you with more money. Wake up Illinois. Of course all of this will fall on deaf ears and Illinois will continue it's decline and drag it's citizens down with it.
06/20/26		60651	X		X	X					Support	
06/20/26	Rachel Mabbott	60441	X			X	X				Oppose	This is a ridiculous toll hike. Your proposal states drivers lose $1800 worth of time in traffic. This toll hike will cost drivers more than what you are allegedly trying to save them. For those of us who take tollways to/from work everyday, this adds up to dollars more a day.
06/22/26	Eric	61101	X				X	X			Oppose	U take more money from us than other year now u want more this is not about fixing streets is about u getting more money in ur packet illinois sucks in this wisconsin highway are great they don’t steal money like this people
06/22/26		60510	X		X	X					Neutral	
06/22/26	Craig Bettmann	55125			X	X		X			Support	I'll pay higher tolls if it keeps me from sitting in congested traffic.
06/22/26	Aaron Ford	53185	X			X	X				Support	As an out-of-state commuter who relies on the Illinois Tollway each week, I support the proposed Driving Connections capital program and the thoughtful investment it represents in the region’s transportation system. This 15-year plan reflects a long-term commitment to improving road conditions, addressing congestion, and maintaining a safe and efficient network for those of us who depend on it every day. While no one welcomes increased costs, I recognize that this is the first proposed passenger toll adjustment in more than a decade, and it is tied to a comprehensive program designed to deliver meaningful improvements across the entire system. Importantly, the Tollway operates as a user-funded system, receiving no state or federal funding for maintenance or operations. That model places the responsibility for sustaining and improving the network directly with those who benefit from it. Investing now to maintain reliable, well-managed infrastructure is critical for supporting mobility, economic activity, and the overall quality of travel. From my perspective as a frequent user, a well-maintained Tollway that delivers consistent, efficient travel provides real value and supports both individual commuters and the broader region.
06/22/26	Rudina Zelo	60172	X	X	X						Support	
06/22/26	Lou Bufano	46311	X			X	X				Support	I support the increase
06/22/26	Denis Hogan	60192	X		X					Consider adding the I-90 at I-290/IL 53 interchange to your list of projects.	Support	Assuming IPASS users still receive a 50% discount on tolls if tolls go up.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
06/22/26	Brad Ward	61107	X				X			Clear in the winter	Oppose	People can't afford this increase. Illinois thinks that it can just keep gouging it's citizens to no end. Perhaps the Tollway needs to learn to live within its means. Not only would this cost drivers more, it will also raise prices on goods as the commercial increase will be passed on. But none of you care. Why do you think people are leaving Illinois in droves? Especially odious is the part where tolls will be adjusted every two years based on inflation to keep pace with "rising costs". Nowhere are those rising costs laid out and this is the same money grab as the gas tax, which is one of the highest in the nation.
06/22/26	Richard Vaiciulis	60526	X		X	X					Support	The Tollway system needs to be continually kept in good condition, I support the toll increase.
06/22/26	Kelly Vaiciulis	60526	X	X	X						Support	The Tollway system needs to be continually kept in good condition, I support the toll increase.
06/22/26	Charles Hain	60193			X	X	X				Oppose	The original Tollway deal was supposed to end eventually with the roads becoming public with no fees. Govenrment is not to be trusted when it makes promises.
06/22/26	Abby Vaiciulis	60526	X		X			X			Support	The Tollway system needs to be continually kept in good condition, I support the toll increase.
06/22/26	Katie	60526	X		X	X					Support	The Tollway system needs to be continually kept in good condition, I support the toll increase
06/22/26	Marc Floyd	61111	X				X			Affordable roadways	Oppose	Do you really think that raising tolls in an age of the average person losing ground daily to increased costs of everything while not keeping up wage wise is a good thing? If you're an Illinois bureaucratic organization, of course it is. Highest gas taxes in the country, some of the highest tolls in the country, taxes and fees on everything imaginable. No wonder people are leaving this state.
06/22/26	Customer	60515	X		X	X					Support	Great roads mean less maintenance costs and faster travel. I appreciate the Tollway's work and know our roads are SO much better than in other states.
06/22/26	Diane Scaccetti	37135	X				X		X		Support	As a former Executive Director of a major toll road, I understand the critical importance of a well thought out capital program. The Illinois Tollway is one of the most successful toll roads in the country. It is a major component of the regional transportation network. Maintaining a good state of repair, while also supporting new capital investment, is critical to our future mobility. I support Driving Connections and wish the Illinois Tollway Team great success in its implementation.
06/22/26	Fran O'Connor	07728	X	X	X						Support	The Driving Connections capital program is critical in moving Illinois forward by connecting people to work, home, medical needs, goods and employment opportunities. An updated and safe Infrastructure is the backbone for growth.
06/22/26		60515	X		X		X				Neutral	
06/22/26	Schmitt	60175	X		X		X				Oppose	Give SENIOR Citizens a break! We are the safest group of drivers on the road. Most of us are on limited income and again, SENIOR citizens drive less than any other age group. SO, please consider giving SENIOS a break on toll costs.
06/22/26	Chris	60701	X		X	X					Support	
06/22/26	Eric Morris	48837	X			X	X				Support	
06/22/26	Jeff Heilstedt	60404	X		X	X					Support	Continued investment in the Tollway system is critical in keeping the metro area competitive with other states. The increase in toll rates still keeps them well below other metro areas. I fully support the investment the Tollway is making.
06/22/26		60515	X			X			X		Support	I appreciate the Tollway doing this. More government agencies need to maintain their infrastructure and learn to be self sufficient.
06/22/26	Grace	60134				X	X			Ease of driving from point to point	Oppose	I am in favor of roads in good condition! A 45 cent raise scares me because I pass two tolls a day on my way to work. That would increase my daily pay by 1.45 and my yearly by 468. 2% of my paycheck would go to tolls. I would be okay with a cheaper increase!
06/22/26	Thomas Pingaj	60193	X			X	X				Oppose	I use the Elgin/O'Hare 390 tollway. Unlike other tollways, all of the tolls on 390 are under $1 - most are 30 or 60 cents. What will these tolls increase to. A 45 cents increase will more than double most of the tolls on the Elgin-O'Hare - that clearly doesn't seem fair - and I'll be looking for alternatives! Am I missing something?

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
06/23/26	Gretchen Ivy	64113	X	X		X					Support	I support Driving Connections and the toll rate increase needed to support roadway improvements and access.
06/23/26	Andrew Dieter	60563	X		X		X				Oppose	a 30% increase in tolls is ridiculous, find the funding for public transit elsewhere. I pay over $100,000 a year in commercial tolls, 30% increase is easy math and that money could go to my employees as raises instead it goes to this bottomless pit of wasteful spending we call the State of Illinois
06/23/26	Nicole Nutter	60525	X			X		X			Support	
06/23/26	Emily Tapia	60638	X		X	X					Support	The tollway provides a high quality roadway that I have come to rely on and trust. Appreciate the investment in the system to create a safer and more robust system
06/23/26		60506	X		X	X					Support	I luv da tollway !
06/23/26	Bonnie A Bloecher	60191	X		X		X				Oppose	I OPPOSE the proposed toll increase. The people who drive the tollways are getting constant increases, but the increased income is NOT helping the roads or the tollways! It is appauling that the state would increase tolls and divert that increase in revenue to public transit! Increase the cost of public trasit to the users of public transit NOT the drivers on the roads.
06/23/26	Andy	60302	X		X				X		Support	
06/23/26	Lisa Thompson	30324	X	X		X					Support	I drive the tollway as a visitor to the state and having a well maintained road with reliable drive times is critical
06/23/26	Jean-Pierre	60107	X	X				X			Neutral	
06/23/26	Jennifer Haslwanter	60613	X		X		X				Neutral	
06/23/26	Joel Bollas	60501		X	X		X				Oppose	
06/23/26	Catherine	60605	X		X		X				Oppose	
06/23/26	David Chan	60626	X		X		X				Support	
06/23/26	Eli	60625	X		X		X				Neutral	
06/24/26	Chandra Smith	60411	X	X			X				Oppose	The tolls are incredibly expensive as is, however more exit and entrance ramps would lessen the inconvenience of getting on and off the tollway at long intervals that misses where I would like to go.
06/24/26	Phyllis Hopkins	61360	X				X		X		Neutral	
06/24/26	Michael Humphrey	60452	X	X					X		Neutral	
06/24/26	D Mann	60666	X		X	X					Support	Appreciate the visionary leadership of Illinois Tollway!
06/24/26	James McKenzie	60473			X	X	X				Oppose	if the State of Illinois could properly budget, reduce internal waste and overmanagement, this rate increase would be unnecesary. Unfortunately, the governor is more interested in deflecting responsibility and pointing to Trump as the excuse for stupidity. Once again the taxpayer carries the burden.
06/24/26	Jessica Williams	60140	X		X		X				Oppose	We already pay a high amount in motor fuel tax, and the IPASS fees are already too high. Illinois needs to get it's act together instead of passing the cost onto us citizens.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
06/24/26	Jill Gigstad	60532	X		X	X					Support	My name is Jill Gigstad, and I am the Communications Coordinator with the Indiana, Illinois, Iowa Foundation for Fair Contracting (III FFC). The III FFC is a labor-management organization created to promote fair competition, public accountability, and compliance in the construction industry. We regularly monitor public works projects, prevailing wage compliance, responsible bidder standards, apprenticeship participation, and contractor performance across Illinois. I strongly support of the Illinois Tollway's Driving Connections Capital Program. This program represents exactly the kind of long-term infrastructure planning Illinois needs. The Tollway system is not just a road network. It is a critical economic artery for workers, commuters, contractors, freight, businesses, airports, local communities, and regional development. When that system is maintained, modernized, and expanded responsibly, the benefits reach far beyond the pavement itself. Driving Connections recognizes that infrastructure investment is not optional. Roads, bridges, interchanges, shoulders, customer facilities, technology systems, and regional access points all require sustained investment. Delaying that work only makes projects more expensive later and increases the burden on drivers, businesses, and communities. From our perspective, this capital program is important for three main reasons. First, it protects and strengthens existing public infrastructure. The Tollway has already made major investments through prior capital programs. Driving Connections builds on those investments rather than allowing them to deteriorate. That is fiscally responsible and practically necessary. Second, it supports economic growth and job creation. Large-scale transportation investment creates work for the skilled trades, contractors and subcontractors, suppliers, engineers, inspectors, and many others. Our toll dollars are hard at work, supporting families and communities across northern Illinois. Just as importantly, improved mobility helps businesses move goods and people more efficiently, which makes Illinois more competitive. Third, this program can be a model for how public infrastructure should be delivered. Public dollars should support contractors that follow the law, pay the proper wages, participate in registered apprenticeship programs, maintain safe worksites, and compete on a level playing field. As this program moves forward, we encourage the Tollway to continue prioritizing strong labor standards, responsible contracting, meaningful compliance oversight, and opportunities for a trained local workforce. We also appreciate that Driving Connections is not limited to one corridor or one type of project. The program addresses congestion, interchange improvements, infrastructure renewal, corridor modernization, smart infrastructure, and
06/24/26	Kaci	60515				X		X	X		Support	
06/24/26	Elias Leyva	60099					X		X	No more prices hikes	Oppose	We are being priced out of existence. Who will you collect from when nobody can afford to drive?
06/24/26	Agustin	60651	X				X			Stop increasing tolls.	Oppose	Everyone is getting expensive. The new minimum wage is about to go up and sometime once minimum wage increases, tolls somehow also need to increase.
06/24/26		60134			X	X	X				Oppose	
06/24/26	Dottie Fiedler	60015	X				X			Good signage	Oppose	Consider increasing the cost 5% to those folks from other states or those using cash or paying online but not those who have toll readers. Illinois losing population dramatically these years and one reason is the very high cost of living here.
06/24/26	Elizabeth DeReu	60448			X	X	X				Oppose	We give Illinois enough money, give the working class a break already!
06/24/26	Edward Derka	60139	X		X		X				Oppose	Retired and can't afford more increases. Have to drive for doctors and hospitals and food
06/24/26	Brian	60190	X			X	X				Oppose	The prices of everything is going so high, it is difficult for seniors to afford even driving on a toll road.
06/24/26	Laura	60188	X			X	X				Oppose	That is a huge increase!
06/24/26	John Doe	60089	X		X	X					Oppose	Why increase the toll ?
06/24/26	Bill Mathes	60543	X		X		X				Oppose	Learn to budget the money that you already steal
06/24/26	Richard Martin	60030	X		X		X				Oppose	A massive increase such as the one being proposed is pure bullshit. You can take your increases and shove them where the sun doesn't shine.
06/24/26	Berto	60505			X	X	X				Oppose	We keep getting rate increases but there's no improvements. All this extra revenue gets funneled into people's pockets, not into any more improvements

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
06/24/26	Barbara Fasiczka	60416			X	X	X				Oppose	Excessive & unnecessary price increases- unfair.
06/24/26		60622	X		X	X					Oppose	
06/24/26	Kelly gomez	60045	X		X		X				Oppose	
06/24/26	Alexandr Straista	60630	X				X			Affordability	Oppose	I oppose the proposed toll rate increase. Affordability is the primary concern for everyday commuters who already bear a significant financial burden from existing toll rates. Before increasing rates, the Illinois Tollway should demonstrate that current revenues are being managed efficiently and that all cost-saving alternatives have been exhausted. Further toll increases place a disproportionate burden on working families and regular commuters who have no practical alternative to using the Tollway.
06/24/26	Veronica Michelau	61036-8531					X		X	Maintain roads with general revenue funds—you rob us enough!	Oppose	Enough already!!!!
06/24/26	Robert Atkinson	60089	X			X	X				Oppose	Steep increases, in many cases the rates are practically doubling. If rates need to increase perhaps set a fixed percentage increase that applies to all plazas. Or stagger the increases over time.
06/24/26	Davis	60137	X				X			Lower toll prices	Oppose	You people are insane!!!
06/24/26	Karen Durante	60137	X				X			I avoid toll roads whenever possible due to the high costs already. However, certain trips require toll use and I feel it is unfair to raise the costs again. It is already very costly and the roads don't even seem adequately repaired. I travel almost weekly on 90 and there are always potholes to avoid/swerve around. There are other states which don't charge tolls and yet there roads are better maintained. Thank you for allowing feedback.	Oppose	Please see my note above as a toll increase to support a program is not fair!
06/24/26	Ivy Tian	61821	X		X		X				Oppose	Construction go on forever, bad traffic on tollways. Increasing the toll make no sense
06/24/26	Shari Winchell	60142		X	X		X				Oppose	Tolls are too expensive already
06/24/26	Michael Carrara	60441				X	X		X		Oppose	We pay enough in taxes , find other ways, like charging more for out of state.
06/24/26		60188				X	X			Less union labor costs	Oppose	More government intrusion into our lives. Less accountability on cost of labor. There's no way we'll see reduce drive times with all the construction being proposed.
06/24/26		60714	X				X		X		Oppose	
06/24/26	Mindy McNamara	60177	X		X		X				Oppose	
06/24/26		49301	X			X	X				Neutral	Is this increase only to passenger traffic? Seems like it should be equal across all toll users, maybe even higher for trucks since they are harder on the road. 45 cents per toll seems high for an initial increase.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
06/24/26		60051			X	X	X				Oppose	Prices have increased for years without roads being better maintained or repairs that are actually long term. Constant construction and congestion will not decrease due to an increased budget
06/24/26	Leslie	60102					X	X		safety	Oppose	you don't need more funding, you need better management of the funds you have. I stopped using the tollway after the last increase, only drive if if absolutely necessary.
06/24/26	Ryan Alberts	60463	X		X		X				Oppose	Despite what the proposed increase says, it won't improve for those of us that drive everyday. Higher payouts to the construction company to do the same things over and over again.

06/24/26		60614	X		X		X				Oppose	The state needs to find a way to fund improvements by cutting spending. Raising taxes is not the right thing to do on the people.
06/24/26	Richard Wolters	62704	X			X	X				Oppose	The general assembly has already raised gas taxes to astronomical levels. Now you want to do the same thing with tolls. You will kill the working man. Higher commercial tolls will also indirectly be paid by the working man.
06/24/26	Heidi Willer	60516	X				X			Safety	Oppose	We currently pay quite a bit with tolls. To add this increase and then to have the liberty to increase with liberty imposes a hardship on many of us. Why are the funds currently being received falling so short that maintenance cannot be completed? Why such an extreme increase? This is yet another tax stacked on top of taxes on the working person ... making it tougher and tougher to live in this state. Brutal
06/24/26	Luis Lopez	60447					X		X	It doesn't matter. Stop raising damn tolls you thieves	Oppose	Stop raising these damn tolls. You greedy people do nothing but take money from hard working people and don't do nothing but pocket our money.

06/24/26	Kevin	60466	X		X		X				Oppose	Only support if they stay ahead of the game. Never ending construction. Always a backup somewhere. Make more than needed.
06/24/26	Walker	60030	X		X		X				Oppose	You already collect enough! Do not raise the toll rates
06/24/26		60505	X			X	X				Oppose	The cost of everything is high, don't add more costs to working individuals.
06/24/26	Proud Illinois Resident	60103			X	X	X				Oppose	With the complete lack of financial / fiscal discipline and responsibility by IL state government officers and elected officials, it's nauseating and crushing to hear proposals like this when such waste and fraud is being committed (and proven to be factual) but yet with no accountability. Particularly on the topic of increasing tolls more in 2027, Pritzker has already stuck it to Illinois residents by increasing tolls in 2026. Needless to say, IL residents are already taxed beyond our affordability. Please help support our state residents by using the billions of tax revenue already collected to go towards these needs.
06/24/26	Faris Nijim	60610	X		X	X					Oppose	A toll road should pay for the improvements on that road and then be removed. Illinoians are already taxed to death and our income taxes should pay for infrastructure improvements. The tolls are another way of taxing us on our necessary movement - on which we pay a gas tax - instead of running the state with a balanced budget.
06/24/26	Moses Arenas	60556			X		X			Toll prices	Oppose	With the current climate and affordability really is this the right time? On thought the governor was on our side. Disappointed! I will avoid the tollway as much as possible.
06/24/26	Nicolae	60503	X		X		X				Oppose	The tolls are already high for comercial vehicles. Being an owner operator the cost of tolls aren't cover of big corporation, we have to pay from our pocket! I'm against this, shame on you, Illinois!
06/24/26		60452	X				X		X		Oppose	Do not raise the tolls, people in Illinois are paying more in tolls, we have the highest gas tax in the nation. The politicians are making Illinois unaffordable to live in for people of Illinois.
06/24/26	Alexander	60056	X		X		X				Oppose	This is absurd. Abusing the citizens of Illinois.
06/24/26	George De Jong	60438				X	X			Lower costs	Oppose	The tollway was supposed to be a free road soon after the beginning of tolls. The price is unsustainable. Already many people are bypassing the tollway. I know I do when it's possible, due to the high cost. It's time to consider the people's needs, not the Tollway's continued profits. Thanks.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
06/24/26	Jason Enders	60133	X		X	X					Oppose	With gas prices as high as they are right now and the big orange idiot in charge doing nothing to make it better, why on earth would you think now, of all times, is the time to increase tolls? This is absurd. We are dealing with high gas prices, shrinkflation, inflation of all goods and services, a housing crisis, and you think this is a good time to increase toll costs? Get your heads out of your asses and stop this from happening.
06/24/26	Stephen krupa	60516	X	X			X				Neutral	Why does it have to be 45cents why can't it be 25 cents
06/24/26	ROBIN THOMAS	60188				X	X			None of these are going to change by raising to cost of the toll! Just robbing us!	Oppose	Quit stealing out money! We've been paying tools for years, which was initially supposed to be short lived.. Not permanent. You aren't stealing enough money from us... You have to take more? Lining Pritzker and Johnson's pockets. The tools already improve the flow of traffic. Raising prices is not helping that!
06/24/26	David Wright	46307			X	X	X				Oppose	
06/24/26		60067	X		X		X				Oppose	
06/24/26	Tony Rodriguez	60614	X				X			Better/ Bigger signs	Oppose	We don't need to raise tolls. Manage the money better. And don't lie to our faces. If I didn't have to pay so much for tolls I could save more and then stay home more with my family. This just takes money from the people who work the hardest in the state.
06/24/26		60714	X				X		X		Oppose	Illinois has some of the heaviest traffic, worst maintained roads and expensive tolls in the United States. And yet, the state is proposing even more money to this state when we have a corrupt government and none of the money goes towards what Illinois says it will go to.
06/24/26	Jeff Horne	60046	X		X		X				Oppose	So now you're going to get automatic increases every two years to tolls that were supposed to go away years ago. I remember the doubling of the State income tax "temporarily" too! Keep it up, we'll all leave.
06/24/26	Daniel Ahlgrim	60067			X		X		X		Oppose	THIS IS ABSURD!!!!!!!! IF YOU PEOPLE WOULD LEARN HOW TO MANAGE YOUR MONEY YOU WOULD NOT NEED TO DO THIS!!!! i WILL START FINDING OTHER WAYS TO GET TO WERE I AM GOING.
06/24/26	David Riddle	60585	X		X		X				Oppose	Just another fleecing of the taxpayer by the State of Illinois, already one of the highest tax burdens in the country. Here's an idea: learn to live within your means like the citizen must!!
06/24/26	Cyrus	60139	X		X		X				Oppose	We need to work to reduce the cost of our toll roads, not increase them.
06/24/26		61065			X	X	X				Oppose	
06/24/26	Mark	60156	X	X			X				Oppose	Stop raising the toll prices. Manage your budget better. What happened to no more tolls when the roads were paid off 5 decades ago?
06/24/26	Voicu	60077	X		X		X				Oppose	Fifty years ago, Illinois politicians made a promise to taxpayers: The tollway system would eventually become free. Instead, it's become a permanent, multi-billion-dollar cash cow. And now, they want even more. Here is what the @GovPritzker -appointed @ILTollway is pushing for 2026: >A massive 45-cent hike on passenger tolls, driving the average to $1.24 per toll. >A 30% rate hike on commercial vehicles, which already sit at an all-time high. >An extra $1 billion extracted from drivers every single year to fund a $26.5 billion capital plan. >A permanent inflation escalator starting in 2029 to keep costs rising automatically. The worst part? The Illinois Tollway is taking in more toll revenue than ever before. They are collecting far more than they need to operate and maintain the roads, with net revenues peaking in 2024. Since 1973, Illinois taxpayers have poured at least $27 billion into these plazas. Why are we paying for infrastructure that was supposed to be paid off decades ago? How much longer are you planning to milk this cow?
06/24/26	Kylisa Young	60438	X		X		X				Oppose	This economy is already ridiculous and now we are about to be charged more to travel, which will ultimately further inflate the prices on our goods and services! We are already taxed on everything in Illinois and now this? NO!
06/24/26	Mikki Johnson	60061			X	X	X				Oppose	I appreciate the toll roads and the maintenance required to manage them, but the tolls are just as packed with traffic as other highways. If costs are being increased, so too should my accessibility and drivability on these roadways. Not to mention, that inflation and cost of living expenses are insurmountable at the moment, I would not support this endeavor.
06/24/26	Alex Goldman	60193					X	X		Low tolls	Oppose	Do not increase tolls

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
06/24/26	Nunya	60142				X	X			Accessibility to ohare	Oppose	All Illinois knows is increased taxes and fees. We just had an increase in tolls to fund the metra which I have never been on. I feel the tolls are expensive already and spending more is not the answer.
06/24/26		60555	X				X		X		Oppose	
06/24/26	Nick	60020	X	X					X		Oppose	Is there no limit to the amount of money the state will steal from people. The interstate always looks terrible. The rest areas are by far the worst in the surrounding states. There is zero doubt this money will just be wasted and end up lining someone's pocket
06/24/26	Jeremiah Stingl	60490	X		X		X				Oppose	I oppose this rate increase. It would severely affect my personal finances.
06/24/26	Linda Fahrenbach	60044				X	X			Toll authority using money efficiently	Oppose	I strongly oppose the proposed toll increase. I also do not want toll money to be used in any way to support development of or connectivity to other regional transit programs. We already pay too much for gas and tolls because of the poor leadership of state, local, and tollway authorities. Whatever happened to the original plan that called for making toll roads free after the initial cost of construction was paid off? I believe the cost of living in Illinois has become too onerous!
06/24/26	Warren Welbourn	54729	X	X	X						Neutral	I can totally support if this additional expense goes only to road improvements and not to general state expenses.
06/24/26	V. Alvarado	60046			X	X	X				Oppose	Tolls are already very expensive as a daily commuter this is not the best message to send to daily drivers. Organizations will lose many employees that are required to be on site every day.
06/24/26	Chris Hartrich	60044	X			X	X				Oppose	The capital project goals and objectives appear to make good sense. And I acknowledge the need for appropriate funding to enable these improvements to happen. But the recent action of the Illinois legislature to divert highway funds and raise tolls to fund the Chicago area transit authority in order to keep mass transit fares stable in the City of Chicago makes an additional toll hike unacceptable. In addition, the Illinois Tollway Authority has not demonstrated an ability to deliver construction projects on time and on budget. So the idea of providing additional toll revenue without reform in the construction funding and management process seems to be another example of waste being thrust on to the users of the tollway. If these projects are to be executed, instead of asking the users to fund the entire amount, state and federal options need to be explored and utilized. I'm old enough to recall the promises made in the 1970s that eventually the tollways would become freeways when the bonds were retired. And if memory serves me correctly, there was a brief period in which tolls declined. But when the bonds were retired, the tolls did not go away and have increased since then. So I strongly oppose both the proposed toll increase and the cost of living provision being proposed.
06/24/26	V	60123				X	X			Less tolls	Oppose	The state nickels and dimes us on everything. Figure something else out. Maybe get your budget in check first before costing your citizens more money.
06/24/26	Carla	60089		X	X		X				Oppose	rates should remain the same for i-pass holders. It is insane the raise with be .45.
06/24/26	Bernardo Vega	60634			X	X	X				Oppose	Makes traveling less desirable tru tolls especially if you're forced to commute trough a tollway
06/24/26	Angelososavage	60538					X		X	Price increase	Oppose	I understand you guys want to increase the price, but could we plz bring back the pricing signs near the toll every toll. Every toll isn't the same price and tollway sticker prices are different than ones without them. We atleast request transparency. With what we are being charged. Thank you.
06/24/26	Jeff Bahry	62471		X			X	X			Oppose	The Illinois State Lottery was Intended to Pay for Illinois State Tollway Operation starting over 40 years ago. The Illinois State Lottery should begin to Pay for any rate increases.
06/24/26	Amanda	60641	X	X	X						Oppose	We pay enough already in this state-don't put it on the residents of Illinois
06/24/26	Zach Jones	61080	X			X	X				Oppose	Must be nice to spend everyone else's money. Jacking up the tolls to help pay for debt all you morons created.
06/24/26	M. Bla	60642	X		X		X				Oppose	We are tired of you money laundering our funds to your pockets. Potholes don't get fixed. Traffic is worse than ever. Stop stealing our money. You do not need to raise tolls.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
06/24/26	Tim Miers	61264	X				X			I had to pick three. Most other choices are a joke	Oppose	Don't make this sound like something it's not. It's another tax increase to bail out Chicago. Just another reason to avoid Chicago and the Illinois tollways
06/24/26	JC	60046			X		X			More roads	Oppose	You have plenty of revenue. Shrink costs before requesting more
06/24/26	Angelica	60459				X	X			ONLY AFFORDABILITY. Requirement to select 3 should is NOT OKAY!!	Oppose	The most famous toll-free slogan is "Toll Free in '73," a historic campaign promise famously used by politicians in the 1950s to convince drivers that tolls were only a temporary measure to pay off the initial road bonds. Well rates keep going up and the money that has been collected is not just for the upkeep but new expansions and or new exits that's only benefit a small amount of people. The cities should be paying for these new exits and have to chip in and pay for these roads to be built not just the consumers.
06/24/26	Cornelius Donley	60564				X	X		X		Oppose	
06/24/26	Diana	60056			X	X	X				Oppose	People can barely make ends meet, yet companies keep hiking prices. I have yet to see any infrastructure improvements, yet the taxes and tolls have been raised numerous times in the past 15 years! So sad. I wish I can leave this state!
06/24/26	Trevor Cannon	60660	X					X		Maintaining good roads at status quo system size.	Oppose	I am opposed to the serious toll differential that I-355 still has. Additionally I am opposed to all long stretches of proposed widening. We are a busy region, where people choose to drive, and accepting that bad traffic is a part of our region is necessary. Widening increases pavement surface area, future expenses, and entrenches driving culture. If pavement widening is proposed, bus shoulders should be a requirement.
06/24/26	Youssou Diatta	60302	X			X	X				Oppose	
06/24/26	Mike O'Connor	60441	X			X	X				Oppose	hahahaha....45 cents per toll increase??? every entrance and exit, then remove the lane tolls.
06/24/26	M Dees	60156			X		X			Cost to use	Oppose	Illinois has been doing this for years....and traffic and congestion get worse every year. Just another illinois money grab....nothing ever gets better in this state. Got to keep the liberal construction boys happy! What a bunch of BS!
06/24/26	andy	60025	X		X	X					Oppose	Already too high cost.
06/24/26	Michelle	60107	X		X		X				Oppose	This increase is absurd. The roads are already in a perpetual state of construction, are congested, expensive, and now we have to pay more to use them. Don't our taxes already go towards maintaining them? Also, I don't agree with expanding our current roads. We have enough crap around - the state should use the money to purchase and maintain some green space.
06/24/26	H. Arlene branz	60431	X				X	X			Oppose	I have traveled in Europe, Asia, Mexico AndCanada and have never paid a toll. I thought once it was originally builT and paid for the toll was to be abolished.
06/24/26	Steve Bush	60101	X				X			No tolls. Illinois already steals enough of my paycheck	Oppose	It's shameful that the Illinois toll department would find it acceptable to increase tolls when drivers are already struggling due to the amount of increased taxes we pay on everything else and this Democrat run state. Instead of increasing tolls actually use funds wisely.
06/24/26	Ann Luce	60451	X			X	X				Oppose	
06/24/26	Dale	29842	X		X		X				Oppose	You ask for my input and then you direct how I'm going to input my comments. You selectively choose what I can say and what I can talk about and how I can comment on it. You won't even let me use my own words. Terrible survey. And it's a terrible comment section. You direct people on how to respond. We're not allowed to be creative, innovative or free will our comments. Shame on you.
06/24/26	Antonio	60532			X	X	X				Oppose	We already pay so much in tolls as-is. A 45 cent increase is ludicrous, especially considering driving time won't be significantly decreased.
06/24/26	S	60081	X		X		X				Oppose	The tolls are so high already, where is all that money going? Illinois is unaffordable in so many areas, don't make traveling worse. You say this will help families have more time together, but if you can't afford to drive to see your family then you are only creating more separation. Stop taxing and charging people out of illinois.
06/24/26	Chris	61080				X	X			Cost of toll	Oppose	There is no way this should pass. I will stop using the interstate in Illinois and stop traveling in Illinois.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
06/24/26	John Chapman	60439			X	X	X				Oppose	
06/24/26	Jim	60487			X	X	X				Oppose	I pay over $7 a day to commute to work. Increasing this seems excessive especially with how high our taxes already are and how much road construction exists where roads are torn up and sit for months
06/24/26	Monika Moro	60137	X		X		X				Oppose	The state budget needs to be better balanced, not inflated by charging more money, but to use the money we have wisely.
06/24/26	natalie	60612	X		X		X				Oppose	Assume your Bosses need to increase their bonuses etc...
06/24/26	Beth	61283			X		X			Less tolls	Oppose	Just another way to tax us for something else!!!!!!!!!! Can't afford to live in this God forsaken state anymore thanks to the Dems! And now wanting to raise all the tolls.... When does it end and who will want to travel here??????
06/24/26	JULIE ANDERSON	60445	X		X		X				Oppose	THIS WAS SUPPOSE TO TAKE CARE OF ITS SELF YET IT HASNT. IM OLD ENOUGH TO REMEMBER THAT. THE ROADS ARE SHODDY, THE BRIDGES ARE NOT SO GREAT, THE TRAFFIC FOR 5 LANES AT SOME POINTS IS STUPID CROWDED. WITH ALL THAT THE TOLLS SHOULD BE ABLE TO MAINTAIN THE ROADWAY. I THINK LESS HIGHER UP'S AND MORE MONEY DIRECTED TO THE ROAD.
06/24/26	Tom Borsellino	60451	X				X		X		Oppose	It cost a small fortune to get around on Illinois tollways. You've got to be kidding that you want MORE money !!! I bet you wouldn't spend money like you do if it was yours
06/24/26	John Fox	60446	X				X			Traffic from construction	Oppose	It's a democratic greedy move . The tolls were supposed to be temporary but now it's the democrats cash cow. Bottom line more money to embezzle
06/24/26	Bill Hameman	46321			X		X		X		Oppose	You have got to be kidding me an increase . It's costing me an arm and a leg now.
06/24/26	Phillip	57258			X		X		X		Oppose	Illinois is all about getting money from people who are not in the position to make it from day to day and that is ridiculous find something else to get money from like the people who got it
06/24/26	Taxpayer	60565			X	X	X				Oppose	More money??? Whose pocket is that going in.
06/24/26	Reverend M	60137	X		X		X				Oppose	No need for more money, balance the existing budget and use it wisely, please.
06/24/26	Margaret Oslizlo	60047	X				X			Clean highways!! Roads have so much trash it's appalling	Oppose	Absolutely not. Use the money we are ALREADY PAYING YOU to fix this problem. Perhaps pay the politicians less and stop the fraud within the system, and then magically you will have the money to fix what should already be well maintained!!!
06/24/26	Robin Keel	60126	X		X		X				Oppose	Tolls are high enough, cut salaries would be a great start, especially with elected officials who constantly give them selves raises
06/24/26	Mike	60540			X	X	X				Oppose	Didn't the governor increase tollway tolls to fund the bailout of the CTA, RTA & Metra? And now the tollway authority is increasing tolls for capital improvement programs. I can't afford it!!!!!
06/24/26	Mary Ellen Powers	60035			X	X	X				Oppose	Too high and taxes are already too high in IL too.
06/24/26	Tim	61727			X		X			Stop the increasing taxes.	Oppose	Stop increasing taxes.
06/24/26	Lenard Tavernelli	60018	X			X	X				Oppose	A toll increase will make it harder for poorer people to regularly use the tollway. And Illinois already has some of the highest taxes in the nation. Please don't squeeze the people of Illinois in anymore ways like this. With high gas taxes, travel is already too expensive. And this will lead to commercial increases that will also raise the price of good and services. It will hurt the people of Illinois, especially those who are poorer, in every way. The money is already collected by the tollway to keep it maintained.
06/24/26	JC Frazier	46324	X		X		X				Oppose	Everything is on the increase at the same time. WHY???? DO PEOPLE MATTER ANYMORE?? I THINK, NOT!!!!

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
06/24/26	Kevin Camino	60016	X		X	X					Oppose	"Proud to introduce this program"? The tollway authority should be embarrassed to request this significant increase. The authority has shown to be poor stewards with the money they have already. Just recently they spent millions to decommission the tollbooths at both the on/off ramps at Golf Rd and 294. Totally unnecessary work as each was functioning fine. They even closed the entire on-ramp for contractor parking for a period of well over 6 months, inconveniencing drivers and creating the need for hazardous U-turn maneuvers. And unless you are counting on less drivers due to the exorbitant increase, the plans are unlikely to improve commute times. Originally when the system was created in 1953, lawmakers promised the tolls would only be "temporary" to pay off the initial bonds used to build the original 187 miles of the highway. Once the bonds were paid off, the roads were supposed to be converted to free highways maintained by gas tax revenues. That promise was broken in 1968, the toll authority formed, and drivers have been paying through the nose ever since.
06/24/26	Nick	60101			X	X	X				Oppose	I fully oppose this toll increase, an increase of just a few cents would be reasonable, a full 45 cents per toll times the frequent booth for both ways makes the commute to work nearly double the price and will be a huge burden. add more to the commerical trucks that cause more damage to roadways
06/24/26	Amber	60465	X		X		X				Oppose	Other states do not take years and years to fix roads like Illinois does. 4/5 of the time our roads are under construction with no one out there working for days at a time. We are hemorrhaging funds with no benefit. Manage funds better and actually fix the damn roads with the money you take from us. The Toll road was originally designed to be temporary and here we are decades later gouging people for money who just need to get to work and are now spending several hours at work a day just to pay for the ****ing tolls to get to work.... All because someone's mismanaging funds and projects. But it's also corrupt Illinois, so I'm sure half that money isn't even making it to the roads. I drive for a living (school bus) and the highways are so messed up that the last couple weeks of school when the kids had all their final trips- the pockholed road under construction for miles and miles loosened my rear view mirror 3 times in a week. You guys need to actually get the projects done and hold the companies you contract with to stricter timelines. I know some of that's union stuff, but yall need to fix that and hold someone's feet to the fire. I see money getting collected from every nook and cranny they can get in this state and Ive seen no actual improvement in decades... this is yet another reason I'm trying to move out of this state. It's bleeding its residents dry in all aspects. Why not look at what other efficient states do and create a plan like that and make people actually want to live here. Do better with what you have first before you start capital campaigning this nonsense. Show us you know how to complete ANY project in a reasonable amount of time under a balanced budget first.
06/24/26	Mark	60004	X		X		X				Oppose	Illinoians pay some of the highest taxes in the Country. There is plenty of funds to sufficiently maintain the Illinois roadways. Stop subsidizing governmental incompetence with additional taxes/ tolls.
06/24/26	Ryan Michalowski	60411	X		X	X					Oppose	You are taxing the people to death and this is crazy. We need to stop paying the corrupt government officials who can't complete simple tasks in this state and stop punishing the citizens.
06/24/26	Frank Williams	54487	X		X		X				Neutral	I remember when it was built it was only a Toll Road until paid for, that was 70 years ago. I guess too profitable to stop. Very expensive to maintain with all the Politian's and ILL corruption.
06/24/26	Heungyol Lee	60077	X		X		X				Neutral	
06/24/26	Philip Knell	60010-3640	X		X		X				Oppose	Tollway system legislation passed was to end tolls at a certain date. 45 cents increase is too much and adjusted for Cost of Living yearly gives an automatic increase versus Legislative approval. Need professional versus political appointees running the system

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
06/24/26	Ojeda Daniel	60016	X				X			Accountability	Oppose	This is not the time to increase fees on a road that should be free. Truly, most families cannot afford this increase. There must be accountability and the tollway brass and the Governor will be held accountable. Any increase in the public's commuting cost should eased in and a staggered approach with smaller increases should be adopted. We will be watching.
06/24/26	Kate Lee	60047		X			X	X			Oppose	
06/24/26	R	60018	X		X		X				Oppose	The governor has plenty of money in his pocket. Very typical to make illinoisians pay more.
06/24/26	Charles Schroeder	60201	X		X					More durable construction -- deeper road beds leading to fewer repairs	Neutral	Deeper road beds will lessen the constant need to resurface the roads & snarl traffic -- good luck getting this past the trade unions...
06/24/26	Marcia Eichhorn	46540	X		X		X				Neutral	Hope it improves all
06/24/26	Gary Conte	60514			X		X			Fewer tolls	Oppose	I am totally opposed to the significant increase in tolls. The additional monthly cost for commuters who regularly use the toll way is budget stressing. And the fact that future toll increases are tied to an inflation index is manipulating and spineless behavior on the part of politicians. Illinoians alteady pay close to the highest gas taxes in the states and very few metropolitan areas add tolls to transportation costs of commuters in a city area. Another example of politicians adding significant fees and taxes onnits residents. This type of tax and spend policy is the reason Illinois's tax paying population continues to decrease.
06/24/26	Monga	60628	X			X	X				Oppose	Thank you for the potential increase in the Tollway. That's our exit out of the state. You guys ruined it for a lot of people.
06/24/26	Jonathan D Speckman	60081	X		X		X				Oppose	Regular people are struggling... the tolls roads were initially proposed just to fund the original construction...And then the toll is supposed to stop. Please don't raise the rates.
06/24/26	Daniel D	60193	X			X	X				Oppose	Stop raising prices on us
06/24/26		60090	X			X	X				Oppose	It is already difficult to keep up with rising costs due to inflation. An increase in tolls without a corresponding increase in pay would be very difficult to absorb financially. I respectfully ask that you reconsider and avoid increasing the toll rates.
06/24/26	Keith	61704			X	X				Can I afford it	Oppose	These are significant increases to a system that was supposed to be paid off years ago. The cost of tolling has become out of hand and now presents itself as a financial burden. Additional increases are not practical.
06/24/26	Peter Chan	60016		X		X	X				Oppose	All the state know is increase , increase , increase.
06/24/26		53402	X		X		X				Oppose	
06/24/26	Toni	60440	X		X		X				Oppose	increase increase increase -- it's ridiculous...the tollway wasn't even supposed to be around this long ... money collected is abused .... not what it's supposed to be used for so i'm against the increase
06/24/26		60561			X	X	X				Oppose	
06/24/26	Suzie Mayo	60510				X	X			Truck lanes or HOV lanes	Oppose	All you are doing is taxing the people who work. You need money, so you raise the tolls. Originally the tolls were only to around to help pay for road when this program began and here we are still getting raises in our tolls. Between the gas tax, inflation and now this, will drive more people out of Illinois. You are taxing us to death. We are second in the nation for our taxes. A midwestern state shouldn't have that title. I have to budget for changes in my house, why doesn't the tollway? You make a statement release of a toll hike but literally can't tell us any concrete details. It must be nice to just say you need money and then tax your people. Stop raising the tolls! Nothing you have done has made our road better at all! The Mannheim strangler was suppose to fixed and all you did was move it farther up the road. It isn't fixed. 294-has been a mess for years and guess what, when you are all done you will have to go right back to where you started. Stop raising the tolls and adhere to a budget and we need to stop bailing other companies out of this mismanagement of funds.
06/24/26	Anonymous	60126	X					X		Fastest way between two points	Oppose	Tolls were supposed to end years ago. Stop taking more of our hard earned money during a time when everything else is already unsustainably too expensive.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
06/24/26	PHILLIP MARTINO	60564	X			X	X				Oppose	Continue plans for road maintenance without raising tolls. Higher tolls add graft and corruption to actual road construction.
06/24/26	Mike	60190				X	X			Not having endless construction on all expressways.	Oppose	I don't think any increases should be made until there is transparency on where ALL the tax dollars were assessed in this state are going. Highest taxes in the nation and yet we're always broke....
06/24/26		60068	X		X					Toll booths that work	Support	I 100% support this, but I'm curious what controls are in place for this funding? Is this exclusively going to the transit?
06/24/26	Matt Radz	60803			X	X	X				Oppose	you already tax us enough in cook county, the tolls are already a dollar and a half as is the cost of living is going up and now you want to raise the tolls so we have to pay more to sit in traffic. I propose finish the work you've already started and maybe a few years down the line you even think about raising the tolls not with the current states your highways are in
06/24/26	Brian palma	60418			X		X			No	Oppose	I vote no
06/24/26	Fran Mizzi	60191				X	X		X		Oppose	
06/24/26	Jody Whitaker	53147			X		X		X		Oppose	My family moved to your godforsaken state in 1979. The promise was to end the tolls by the mid 1980s. How well did that work out? You idiots sold off the income atream from these roads to foreign countries and now want to fleece the traveling public even further? What the hell are we paying Fuel taxes for if it doesn't maintain the roadway system? Abolish the tollbooths!!
06/24/26	Amanda harris	53214	X		X		X				Oppose	Everything has gone up & people cannot afford this. It already costs over $14 for me to visit my family from KY in WI round trip. This is ludicrous
06/24/26	Johnna Woods	46321	X		X		X				Oppose	There should be no more tolls. It should have been paid off by now!
06/24/26	Anthony Cullen	Ctbone420@yahoo.com	X				X			Not paying tolls	Oppose	The tollway is criminal.. the tollway wasn't supposed to last forever. It's criminal and unconstitutional!!!
06/24/26	Janel motley	60803		X	X		X				Oppose	
06/24/26	Kathleen Shanahan	60305	X			X	X				Oppose	outpaces economy. Trucks do not pay fair share.
06/24/26	Susan Applegate-Hayes	60614	X	X	X						Neutral	The traffic has been a problem since I moved here in 1987. NOW it's something you are prepared to address. I will be 80 years old when this project is complete, who knows if I will still be able to drive or even ALIVE. The road conditions and the traffic should have been addressed years ago so I feel like your efforts now will be futile otherwise you would have done it already. It's ridiculous to have cars at a stand still, talk about global warming!!! It seems like too little too late and aren't toll prices already high enough?
06/24/26		60137		X			X			More lanes	Oppose	
06/24/26	Mike	60051	X				X			Better plowing	Oppose	All you do in these democratic run states is steal our money through taxes fuck off
06/24/26	Jennifer Morrison	60914	X				X			Only affordability and safety matter to me at the moment.	Oppose	I know that costs have gone up everywhere & on everything. But with the higher fuel prices, this projected increase will cause monetary stress for Illinois drivers already stressed by today's costs. It will also cause a domino effect on prices on goods and services that commercial freight transport costs will be passed along to the consumers. Please reconsider.
06/24/26	Lisa	60647			X	X	X				Oppose	How is this possibly going to improve traffic? Are roads widening? 15 years of construction congestion and no information about the actual construction plans. No thanks
06/24/26	Nancy	60618	X				X			The state not robbing us through tolls	Oppose	You will lose money because we will all AVOID tolls. I will never pay a toll again mark my words, fund your project off the backs of the government not citizens. This state is a joke compared to others and this proposal is offensive.
06/24/26	Carl A Maturo	60467	X	X			X				Oppose	the tolls are already high. Further increases just make it worse. Get money from all the people that are driving electric cars and not paying gas taxes.
06/24/26		60585-5799			X	X	X				Oppose	

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
06/24/26	Michael Garro	60169					X	X		cheaper tOLLS	Oppose	THIS IS RIDICOULOUS ...YOUR JOKING RIGHT . ITS ALREADY EXTREMELY EXPENSIVE AND YOU WANT TO RAISE AGAIN!? WHAT A SCAM. IF ANYTHING IS SHOULD BE LOWERED. ARE YOU AWARE THAT ALL PROCES ON EVERYTHING ARE RISING AND MAKING 1 OUT 5 FAMILY POOR?! i know you need to fill your pockets with more and more money but maybe lower the toll instead of raise it.
06/24/26	Edward Sailer	62301	X				X	X			Oppose	I use tolls frequently to visit friends and family in Kane and Cook County. They are already way too expensive for income from rural Illinois.
06/24/26	B. Coz	60415	X			X	X				Oppose	The toll authority are crooks years ago the board was caught misusing funds to live lavishly, tolls were suppose to disappear that was the promise many years ago after funding the tollway, illinois is so crooked and broke now you want to add more burden on commuters.
06/24/26	RB	60458	X		X	X					Neutral	Tax the truckers more. They do more damage to the roads!!
06/24/26	Jamie	60633			X		X			Affordable roads	Oppose	Please do not raise the cost of the toll road. Illinoisans can no longer afford to live in this state.
06/24/26	Mike	60060	X				X		X		Oppose	The Governor of Illinois has said he would raise the tolls to pay for other public services. Thought the Illinois Tollway was a separate entity.
06/24/26	Andrea Corry	60142	X		X		X				Oppose	The cost of tolls is already ridiculously high and we avoid using the tollway when possible because of the cost.
06/24/26	Jenna	60187	X				X		X		Oppose	There has to be a better way to distribute the funds the state already has to support the roads. We pay too much to live in Illinois and should not have to increase tolls.
06/24/26	Tired Taxoayer	6008			X	X	X				Oppose	No more taxes! Tolls were supposed to be temporary!
06/24/26	Lily	60633	X		X	X					Support	If it will help fix the roads, maintain clean during winter season and overall help move traffic along, then that is okay
06/24/26	Dean Moore	60051	X		X		X				Oppose	Please stop raising our taxes which is what a toll is!!! Be more responsible with our hard earned tax dollars or I will be forced to leave this state I was born and raised!
06/24/26	Mark Latuszek	60646	X				X			Better speed and reckless driving enforcements	Oppose	I do not support automatic toll increases tied to the Consumer Price Index. Any increase in toll rates should require a public review process and an affirmative vote by the appropriate governing body. Those making decisions that affect millions of motorists should be accountable for those decisions and willing to publicly justify why additional revenue is needed. Automatic increases eliminate an important layer of oversight and reduce transparency. When toll rates increase, the public deserves to know exactly why the increase is necessary, how the additional funds will be used, and what steps have been taken to control costs before asking drivers to pay more. Illinois residents already face some of the highest taxes and fees in the nation. While maintaining and improving our transportation infrastructure is important, there must be a balance between funding projects and protecting taxpayers and motorists from continual increases in the cost of living. If the Tollway believes a toll increase is necessary, it should present its case to the public and require a vote by the Board after public input. This process ensures transparency, accountability, and responsible stewardship of taxpayer and toll-payer dollars. Automatic CPI-based increases should not replace that responsibility.
06/24/26	S A GOULD	60466-1905	X			X				Faster	Neutral	Seems like a pretty big hike to me. Are you going to fix the potholes and repaint the lines so I can see them?
06/24/26	Mark	32258	X		X		X				Oppose	Maybe if so many government officials stopped taking kickbacks, there would not need to be an increase in tolls.
06/24/26	F. Elaine Hutchcroft	60151	X				X		X		Oppose	
06/24/26	Alex Koors	60515	X			X	X				Oppose	
06/24/26	Douglas Berman	60475	X		X		X				Oppose	It's already expensive enough to travel on the tollways!!! I'm going to have to look for alternate routes eve it if it takes longer or is less convenient.
06/24/26	Susan Baker	60448	X	X			X				Oppose	How can you propose more time spent with my family, when this will cause more construction traffic? I am all about supporting taking care of our roads.

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
06/24/26	HM Kopp	53223			X		X			getting the hell out of Illinois	Oppose	charge Illinoisans on their state taxes, leave tourists (who provide a lot of $$$ to your state) out of the increase
06/24/26	Ron	60462	X				X			Safe highway	Oppose	Once the current rebuild is completed the heaviest trafficked areas will be in great shape, the amount being requested is unnecessary and unwarranted
06/24/26	Donna Kubicz	60467	X		X		X				Oppose	Current projects should be completed first and should have been at or below budget
06/24/26	Beth Pitel	60041	X			X				Shorter construction times (like WI) Full repairs not temporary that require continous updates	Oppose	You may not have increased tolls in a decade but you added more toll booths. You got more money but our toll ways have become more congested, are always under some form of repair, take 3x longer than other states to complete construction. And when there is repairs are are long lasting so our tolls get shut down again. i.e. RT 53, 294 have been consistently shut down for 2-3 years. I would gladly pay for tolls if IL mainted their roads with the same consistency, vigor, quickness and long term solutions are our surrounding states, WI, IN IA. Wisconsin started their new build the same time IL started the 294, 90, etc fixes. They completed with the year and are onto 2 more new builds. Seeing other states maintain their tollways made me realize it's an IL problem, NOT a construction problem. NO RAISE until you've given us road worthy or more money!
06/24/26	Fred weis	60047	X			X	X				Oppose	The toll booths were supposed to come down when the tollway was paid for. THEN they stayed up to maintain it. But due to mismanagement, graft and absolute stupidity, they are still up and you want to raise the toll. If this board worked in private industry , you would ALL be on welfare.
06/24/26	Timothy Hogan	60643	X		X				X		Support	I appreciate that you have to suffer some pain to get some gain. Nothing better than a well maintained highway. So not let the State of Illinois or the City of Chicago get anywhere near the money that gets collected.
06/24/26	Robert	60025	X		X	X					Oppose	The tollway was supposed to be FREE after the bonds were paid off! While I understand the need for more money to maintain our infrastructure, we Illinoisans should pay less than all the out of state travelers! Also, the state should have better applications for the use of the money!
06/24/26	John Norfray	53086	X				X	X			Oppose	I think it’s too steep an increase! Traffic has increased dramatically since I’ve moved to Wisconsin 4 years ago, so your income from tolls should have also risen exponentially, I’d be more willing to accept an increase if it was for additional lanes. I’d also like to see how much your revenue from tolls has increased and what your salary/administrative costs have risen. Let’s me transparent.
06/24/26	james c;lancy	60517	X		X	X					Oppose	
06/24/26	Betty Waters	60463	X		X		X				Oppose	
06/24/26	Rod Ortiz	60618				X	X		X		Neutral	I'm a hard no. I would like a general 5% across the board increase due to inflation though.
06/24/26	Sheila Fennessy	60439			X	X	X				Oppose	I already pay over $50 per week in tolls. The increase will become an extreme hardship for me. Most people don’t have that kind of disposable income for such an extreme increase. I beg our representatives to fight this increase.
06/24/26	Fred Hepp	60140		X	X		X				Oppose	I will do everything my power to NOT use the toll roads if this passes. These rate increase amounts are ridiculous!
06/24/26	Pamela Toner	60525	X		X		X				Oppose	
06/24/26	Ron	60134	X				X			Higher speed limits	Oppose	Considering the mismanagement of tolls now why can we trust if we give more money that it will be used in a just manner? Tollways were originally built to be temporary that once they paid for the road that was built they would go away that never happened! Look at 294 we’ve been paying for the worst construction I’ve seen in my lifetime why has it been under construction for over ten years now? Just like everything else in Illinois throw more money at it to line a few pockets let’s fu$k1n go I like this new idea!

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
06/24/26	Andrew Lee	60516	X			X	X				Oppose	The increased price of the tolls takes away my COLA raise from work and gives it to you. My commute isn't even an hour long. I understand a price increase, however it should be on a per day basis, not a per toll. Increase the price of getting on the system instead of increasing the price at each tollway. This price increase scheme would make taking i-390, one of the most empty tollways, at least twice the price for me. This would increase congestion on i-290 <-> i-355, which is already very congested at times, simply due to the reduced number of tollways one passes through.
06/24/26	Carol	60563			X			X		Public transit system not highways	Oppose	Invest in better public transit connections, ohare to Oakbrook, ohare to Gurnee, etc. we need to decrease vehicle traffic with affordable commuter options.
06/24/26	Kathy Orozco	60439	X		X		X				Oppose	
06/24/26	Melodie Halik	60014	X			X	X				Oppose	Billions of dollars are dumped into tolls already. Use these funds instead of trying a significant rate hike. This isn't even feasible, and then seek additional rate hikes dependent on inflation every 2 years is absurd.
06/24/26	Chris	60448				X	X			Less construction	Oppose	Things are already expensive and this state is broke and you want to charge more to do absolutely nothing and blow the money. NO!
06/24/26	Michelle	60192	X		X		X				Oppose	Stop raising the damn tolls. Enough is enough. This state sucks!
06/24/26	Michael Skoien	33325	X				X			Easy usage	Oppose	The cost of using the interstate system is already excessively high cost. The amount of money already charged should be plenty enough to support the system - we need to complete a deep dive audit and find the waste. Assign an audit advisory committee of 8 people (4 democrats and 4 Republicans). We need to quit taxing and charging to death our citizens
06/24/26	edward cornell	60015	X				X			good signage	Oppose	Irresponsible and unnecessary. All that the Illinois government does is spend money they don't have and raise taxes across the board. This is another example.
06/24/26	Jim kwasek	60084	X			X	X				Oppose	Completely unnecessary. Just another money grab for the construction companies
06/24/26	Joan Linnane	60193	X				X			affordability	Oppose	Don't we pay enough in taxes. Toll roads were not built to have fees forever. I feel the government is abusing their power. Tolls should be abolished. How do so many other large metro areas have better roads and no tolls. Manage your/our money better and quite asking for more blood. THERE IS NONE LEFT.
06/24/26		61107	X		X		X				Oppose	We already pay tolls at multiple points of each trip. More construction ends up delaying trips anyways.
06/24/26	F anast	60174	X		X	X					Oppose	
06/24/26	Eleanor Bennett	60102	X		X					No bottlenecks (especially at tolls).	Oppose	This is just another way to tax Illinois citizens. For the already billions of dollars being collected show me where that money et has been spent before asking for more! Gas tax, tolls, rising property taxes annd utilities ... are you trying to force us all out of this state!!
06/24/26	Jose M Romo	60585					X	X		Affordability	Oppose	I do not need more financial burden to be inputed on me which I think more money is improper. If there are people that are willing to donate they can do that on their accord by submitting a check payable to the Illinois Authority.
06/24/26		60031			X		X	X			Oppose	
06/24/26	Wanda Jenkins	60620	X				X		X		Oppose	Most of the tolls prices are too high now. Wish you could find another way to finance your projects.
06/24/26	V Joshi	60089	X				X	X			Oppose	I don't think residents should have to bear this cost in addition what they're already paying.
06/24/26	Sheila OBrien	60430			X		X			Government spending on bad construction that needs to be redone every 1-2 years!!!	Oppose	Illinois has a spending problem. I will not use the toll way system if there is an increase. Pritzker likes to tax and increase everything!!
06/24/26	Alice Fitzgerald	60439			X		X			Less construction	Oppose	Additional costs are inappropriate at this time. With increases coming from all sides, at this time, increasing tolls seem punitive which will then increase other prices as well. Just Stop!

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
06/24/26	Krystina Ramos	60516	X		X		X				Oppose	We the tax payers of Illinois have had to incur increase after increase of fees and taxes, yet nothing has improved. Traffic is the worst it's been since I've began driving over 13 years ago. Roads are constantly under construction. I am not going to continue giving my money to a corrupt government.
06/24/26	James Barnes	60081	X		X		X				Oppose	Do not add on another Tax - one that is not needed - in a state already overwhelmed with taxes. Oh and in case you missed the point - yes, tolls are taxes!
06/24/26	Charles Widerstrom	60950	X				X			speed limit	Oppose	45 cent increase is too much at one time ,that will be an extra $225 a year for me and being on a fixed income is not good
06/24/26	James Bond	60438	X				X		X		Oppose	Eat it J. B.
06/24/26	Mary Grace Niemann	60172			X	X	X				Oppose	Can't afford the toll system as it is. Only use it when I must.
06/24/26	Bugs Bunny	60476	X		X		X				Oppose	Ya'll are a bunch of thieves! The whole state is corrupt and it starts with the governor and includes the toll system. Go straight to hell. Do not pass go. Stop ripping ppl off!
06/24/26	Greg Martin	60061	X			X	X				Oppose	You create more congestion with your road work...maintaining should be goal. NO MORE NEW ROADS....
06/24/26		61109	X				X			License plate recognition for tolls.	Oppose	Let's start by stating the obvious.... I'm still paying a toll; multiple tolls that is on a highway that was suppose to be toll free decades ago. A promise today for a future tomorrow is a lie as time passes. New excuses arise and things change. Now that's out of the way let's talk about the sales pitch. How am I saving money with this when you're costing me an extra $5.40 a day traveling to work? That comes to $27 a week and $1404 for a year, but I'm suppose to be saving over $700? Your improvements don't affect my route. I'm pretty sure people are still waiting for 290/294 construction to be done. How about the issues at IKEA exit? Why should we pay more for a user fee system when you dished out money for Chicagos public transit system. Eat the decision and earn it back accordingly at the current rate. No one asked for this.
06/24/26	ES	60625	X		X	X					Oppose	The i94 highway is already riddled with potholes uneven pavement puddles of lumped up asphalt. The traffic is ridiculous as the constant construction creates bottlenecks and people not understanding or knowing how to zipper merge. Sometimes I'll take the toll if I know I can save 10 minutes. Otherwise I avoid it as I'm paying to sit in more traffic.
06/24/26	Eileen	60156	X		X		X				Oppose	I think the timing of this is extremely poor. The economy is tanking, people are struggling to buy basic necessities, loosing health insurance, unable to find affordable housing. Not the best time for a rate increase.
06/24/26	Dr. Doris Hope-Jackson	60443	X			X	X				Neutral	It is most important to me that funds are made available to maintain the toll roads and highways minimize the number of hazardous conditions that might impact the tires and rims of the user's vehicle and/or cause the roads to be unsafe
06/24/26	Jeffery Patenaude	60098-2494	X		X		X				Oppose	I believe the Tolls we are already paying and have been paying for years, should be alleviating congestion issues and provide upkeep. If it's not, than the funds and budget are being mismanaged.
06/24/26	Darlene Chakeen	60007	X				X			DO NOT INCREASE TOLLS. WHOEVER PROPOSED THIS IS NUTS..	Oppose	The tollways system will have less traffic because the toll increase force the public to take other routes. So if the tollway increases the toll, the tollway system is only for the privileged. Why doesn't the tollway have to live within their budget like everyone else in the WORLD! When I-90 was built, the promise was that the toll would be eliminated. What a joke - what lies. The government has their own set of rules, that is not for the public. All states around Illinois don't charge tolls and have wonderful interstate roads. I HAVE TO LIVE WITHIN MY BUDGET SO SHOULD THE TOLLWAY SYSTEM.
06/24/26	GERALDINE L FERGUSON	60402	X		X		X				Oppose	We pay enough already
06/24/26	Bill	60462	X				X			Keep current toll cost	Oppose	Cost to use roads is already high enough, no increase in tolls. Other states have better roads without any tolls.
06/24/26	Judy C	60559			X		X			Pay less	Oppose	We can't afford another price hike...vote no!!
06/24/26	August Marturano	60525	X	X	X						Support	I want roads smoother and cleaner.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
06/24/26	Edward Gorski	61008			X		X			More open lanes/express lanes should be opened entirely!!	Oppose	It's been proven over many years how our tolls are not used appropriately resulting in the worst traffic in America! You better show less traffic jams immediately whatever you do!!! I vote NO! Reduce tolls immediately!!!!!
06/24/26	Tom Bainbridge	46410	X		X		X				Oppose	Rates have basically quadrupled in 10 years. It costs $17 to go to chicago and back. I have seen any improvements only toll increases after privatizing the toll road. Train is $7.
06/24/26	Jay	60457	X		X		X				Oppose	Increasing tolls by 30% for commercial is unfair. With so many tolls commercial trucks are paying 60-75.00 on a round trip that would consist of less than 40 miles. Not all commercial trucks are the same . Trucks should pay by the weight they are listed with the state of Illinois. For an example and 18 wheeler semi that is listed to haul a maximum of 80k pounds should be paying the higher amount than a pick up truck pulling a smaller trailer with 3 axles , that is hauling let's say a maximum of 40k pounds. As of now from my understanding anything with 5 axles has a set amount regardless of weight. Also a ipass discount of some sort . But to make all commercial vehicles pay the most as well as get an increase in payment is not fair to truckers and their companies.
06/24/26	Patrick McCormack	60126				X	X		X		Oppose	
06/25/26	Jacob Kosarko	46327	X			X	X				Oppose	This proposed rate increase is just another slush fund for Jelly Belly Pritzker. The amount of money Illinois takes for zero improvement is asinine & you should be ashamed of yourselves.
06/25/26	ScottAllen Barber	60201	X		X		X				Neutral	First, your communications here are excellent in justifying the toll increase, neatly detailing what will be done where! I'm just sorry the expansion of the Tollway system has resulted in such urban sprawl increasing, destroying thousands of acres of farmland and the rural collar Chicago used to enjoy. "If you build it, they will come". Indeed, as more lanes are added, it only seems to encourage MORE traffic. . .a sad result.
06/25/26	Kristi	53105	X		X		X				Oppose	Will stop using multiple times daily if increases
06/25/26	Gary Michielsen	60451	X				X			No Tolls, we were promised the tolls were only temporary to pay for the roads? How did that work out?	Oppose	The Toll Roads have Long been Paid For! STOP THIS NOW!
06/25/26	Daniel Hoffman	60554-9237	X	X			X				Oppose	This will severely impact my ability to utilize the tollway due to affordability. The tollway was suppose to be free once it was paid off. They are taking in more money than ever and yet still need to raise rates. Automatically tying rate increases to inflation skirts accountability to voters
06/25/26	Heidi Lavorato	60527		X	X					higher speeds - get to areas quicker	Oppose	
06/25/26	Miriam Roman	60629		X			X		X		Oppose	Toll fees are ridiculously high already. Stop misusing funds.
06/25/26	Bob Bielenda	48239	X			X			X		Support	
06/25/26	Jamie Atkinson	60002				X	X		X		Oppose	The tolls are already high. For me to drive from the north suburbs to visit my family in the southwest suburbs it costs like almost $4 to get there. To add almost a half dollar to each toll is too high. Also you have been doing construction on 294 for about 5 years and that is just this recent one, what more in capital projects do you need to do. Traffic is awful in 294 already, and you're talking about doing more work on the tollways. Greedy!
06/25/26	Lori	53546	X		X		X				Oppose	It's getting ridiculous to travel tollway due to charges!
06/25/26	Mr saddiqq	60617			X		X		X		Oppose	We don't have anything to show for now. You ask for more, and we get nothing.
06/25/26	Josh	60123			X	X	X				Oppose	Stop increasing our toll prices. Its ridiculous enough how taxed everything is in this state and the fact that you want to increase it more is just not right. I know this comment isn't even going to be read but in the 0.1% chance that it is, please do NOT increase the price of tolls. This might not affect someone who is in their 50s and has money but as someone in their mid-20s every dollar counts and this is just not fair.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
06/25/26	Mary Catherine Rice	60172	X				X			Safety	Oppose	
06/25/26		60563	X		X		X				Oppose	Start taxing all the millionaires and have them actually pay their part of tax bills
06/25/26	Samantha	60187	X		X		X				Oppose	Tolls are already too expensive. Use the money you have to make improvements. A 45 cent increase is unacceptable.
06/25/26	Judy Walters	60540					X		X	Clogging local roads to avoid tolls will just get worse if tolls are raised.	Oppose	We were lied to when we were promised these roads would become free once the bonds to build them were paid off. And now you propose to raise rates again, and even worse tie them to inflation so you can keep raising them. Shame on you. This is one more nail in the coffin of citizens losing trust in our governing bodies.
06/25/26	Henriette	60123	X				X			Not paying for using the road	Oppose	I am using the tollway to get to work and get home after work. We are paying way too much taxes on everything else. How come other surrounding states are not charging tollways ? For example on 390 toll already paying over $4 for not even 10 miles traveling that's a joke!!!!
06/25/26	Marilyn Costa	60464	X				X		X		Oppose	It will alleviate traffic because nobody will be able to afford to drive the tollway. Everything is so damn expensive, food, utilities, and now this! How dumb is that! The tollway was originally created to help the school system. That fell by the wayside long ago and now it's used for your slush fund. Shame on all of you!!! 😡
06/25/26	Amber Joiner-Hill	60618	X		X		X				Oppose	
06/25/26	John Seifried	60805	X				X		X		Oppose	With all the other tax increases in this state, and now you want to raise the toll prices you're killing us !!! People on fixed income wont be able to afford anything in this state. This is getting ridiculous !! Maybe the Executive Director and her staff should take a pay cut to help fund this, I mean they're making anywhere from 190,000. to 250,000 a year. The Governor only makes 237,900 a year!!!
06/25/26	Cassandra Gronke	60060	X				X			COST!!! 😡	Oppose	Very Strongly Oppose!! 😡
06/25/26	Christina	60133			X	X	X				Oppose	Why would I pay for the changes that someone else wants to do? Cost of things are expensive as is no need to add more cost on to us customers. They need to come up with another solution of paying for this.
06/25/26	MARYBETH NUNZIO	60441	X				X			Lack of law enforcement regarding trucks laws and passing lanes.	Oppose	Tolls were supposed to be temporary and have become permanent. Residents barley can afford the last increase and this is a very steep. Bad timing with increases in daily life.
06/25/26	Tina	60564	X		X	X					Support	I support the toll increase ONLY if the money stays with the Tollway and is not looted to fund Chicago or bloated public transit agencies. Keep that money invested in the Tollway. Thank you.
06/25/26	David Moore	61107	X				X			Honesty from the people who are exacting this rate increase.	Oppose	Sounds like another money grab. The increased cost will probably make me limit my time on the tollways. 45 cents extra per toll, and 3% increases every two years will price me right out of the tollway. You never say how much extra revenue this rate increase is going to generate, because it is probably so much that it is embarrassing to admit it to the public.
06/25/26	Tomasz	60181	X		X		X				Oppose	
06/25/26	Adam Knauf	60107	X		X		X				Oppose	The tolls are expensive enough, and the roads seem to be serving their purpose. What are the full details of what $26 billion is needed for, e.g. what is the work planned , where in the toll network is the work to be done, why was it determined the work was needed there, and how is the money and work going to solve the problem ? Asking $26 billion from a population already struggling is a big ask, and shouldnt even be considered unless it is sold to the public why we will be otherwise in a worse condition if we don't act on this plan.
06/25/26	Jeannie Lifka	60189	X			X	X				Oppose	

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
06/25/26	Ross Lake	60123					X		X	No tolls in construction zones.	Oppose	Over the last 10 years the Tollway has automated Toll taking. Eliminated Human and mechanical Toll collection and streamlining operations. This has saved a substantial amounts of expenditures for the the Tollway. If more capital is required, I would suggest that following private industries example is the way to move forward. Encourage investment from outside sources, reduce staffing and streamline the executive structure. I am vehemently opposed to raising Tolls on an already overpriced system that Drivers get little to no benefit from and that the Illinois DOT could replace.
06/25/26	Tom Edwards	60118	X		X		X				Oppose	This is one of several reasons everyone is leaving Illinois, and we keep doubling down. In your personal lives, if your kids spent poorly and maxed out their credit cards, would you advise them to keep opening new ones or learn how to spend money properly and cut costs and understand where funding has gone and what has been effective and efficient or not? Enough money is not the problem, so please stop squeezing it out of the taxpayers. Figure out where you are spending it and why it hasn't been enough, despite tax hikes, and spend more wisely, please.
06/25/26	Matthew Lifka	60189	X			X	X				Oppose	
06/25/26	H VanStelle	46410	X				X			Stop handing out so many other freebies, then you can keep roads affordable	Oppose	Avoiding tolls makes traffic congested, and wear and tear on roads - elsewhere worse.
06/25/26	Matthew P. Lifka	60189	X			X	X				Oppose	
06/25/26	Justin Lifka	60189	X			X	X				Oppose	
06/25/26	Kat S.	60506	X			X	X				Oppose	We've been paying tolls for years. If I had confidence that the current funds were being spent wisely, I could most likely support this. However I've yet to see paperwork that suggest that you've looked for avenues to cut costs.
06/25/26	Craig Palminteri	53185	X	X			X				Oppose	
06/25/26	L Batterton	61084	X		X		X				Oppose	
06/25/26	Fred Ruedas	60053	X		X		X				Oppose	This is too much! Almost every year you increase the fees. It is getting more expensive.
06/25/26	Robert J Yessa	60123			X		X			Less unnecessary services and amenities	Oppose	Citizens of Illinois are way overtaxed already. We don't need to be charged any more than we are already paying! And to build in an automatic increase is incomprehensible. Enough is enough. Live with the money you get from the tolls you charge now and leave the tollway users alone. We pay too much as it is!
06/25/26	Paul Gonsalves	60098			X		X			Cost.	Oppose	I cannot support this w/o you showing transparency in your finances. What have you done with the tolls collected so far? I see no improvements over the past 15 years, with only increases in revenue.
06/25/26	Jill	60451		X	X		X				Oppose	
06/25/26	JULIE COY	60016	X						X	working toll booths!!!!	Oppose	consider discount to Ipass holders and increase to nonholders
06/25/26	Kimberly Preski	60451			X	X	X				Oppose	You people are ridiculous, you are taxing us to death. Hopefully they stop wondering why people are fleeing Illinois. Tolls were supposed to go away a long time ago when they paid to fix the roads, that never happened. Why not put tolls in central and southern Illinois so we can stop paying for the whole state up north.
06/25/26	Janet Yessa	60123	X		X					Less superfluous amenities	Oppose	We pay too much for tolls now. Live with the billions you take from us now. And automatically rating rates is unconscionable!
06/25/26	Prasad D. Jasthi	60502-7041	X			X	X				Oppose	we are already paying too much in tolls for the way the highways are maintained and always congested causing delays and waste of fuel.
06/25/26	Laura Cohen	60047	X		X		X				Oppose	Tolls are high enough as they are. The toll system was supposed to be temporary, and here we are however many decades later facing ever increasing costs. I would want to know what specific projects these increases are going to fund. Tolls along affected roads should be increased only, and then the prices reduced again once capital is raised.
06/25/26	Steve Smith	61021	X			X	X				Oppose	We do not need an increase in tolls or any other fees.
06/25/26	Todd Carroll	60410	X		X		X				Oppose	

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
06/25/26	Nick Engleman	53207		X			X			Update all interchanges tied to the tollway system. This includes updating such as 290/90/53/62/72/Woodfield	Neutral	Hi, I still have a lot of family and good friends in the Chicagoland region. I also have been using the tollway my entire life and also from different perspectives throughout my life. In the past, I used to cut corners in never taking it and now I think its a good way to bring back passive tax dollars to help other things in the state. The 290/90/53 interchange has decayed to misery. With the passive income that comes from paying tolls, I think Tollway allong with IDOT come together and build a functionable interchange. I look at 88 and 355 in contrast and wonder how these 2 interchanges are so close and yet, so different. I know you all have been putting more rural interchanges out there, keep improving on that. I think Maple Park and I 88 could use one.
06/25/26	Alex Borges	60076	X				X		X		Oppose	Gas is high, the cost of goods is high, the overall cost of living is high, while wages remain low. Is there another creative way to pay for this project?
06/25/26	Anthony J Simonini	60189			X		X			Finding waste in IDOT so you stop raising rates	Oppose	Yet another thing to pass on to taxpayers. How can I access a report that shows an analysis of IDOT that first removes fraud (contracts given to friends and family), waste (people working overtime when not needed which also could be fraud), etc.
06/25/26		60175			X	X	X				Oppose	Illinois is already taxing its citizens to death. 13 of the states in this country do not even impose tollway taxes; we must find a way to maintain and improve our roads without increasing the fees just to utilize them.
06/25/26	Paul Krauss	60560				X	X			Accountability for the tollway system and costs.	Oppose	Tolls and toll roads were originally proposed as a funding measure to get them built. It was never to be intended as permanent for basic essential roadways. It is unbelievable that you want to increase costs for essential roadways use for Chicago and Illinois while asking tax payers to support more of the burden. You are forcing us to cut household budgets while making no adjustments of your own.
06/25/26	Tim Tkach	60467			X	X	X				Oppose	
06/25/26	tania martinez	60126		X		X				finishing existing construction	Oppose	please just finish what is started. 294 and 88 have been under construction as long as i've been alive.
06/25/26	Steve Demunster	60446		X	X		X				Oppose	JB at it again raise raise raise taxes all the time. He just robbed peter to pay paul.
06/25/26	Joe Siwek	60643	X	X			X				Oppose	When is the governor going to make efficient cuts in running Illinois rather than raising fees and taxes. Certainly we can reduce areas of waste in the state instead of asking taxpayers for more money.
06/25/26	Joanne Strebeck	49038-9623	X			X			X		Support	I'm in favor of well maintained roads, and an increase in tolls is reasonable and necessary. I'm totally in favor of this increase.
06/25/26	F	60631					X	X	X		Oppose	
06/25/26	Chrissy Davis	61107	X				X			Fill the potholes	Oppose	We already pay enough in tolls and taxes. I'm being taxed out of Illinois
06/25/26	David Miller	53704	X		X		X				Neutral	Appears passenger vehicles will be paying a lot higher percentage increase than commercial vehicles.
06/25/26	Michael t Guerin	60634				X	X			Price	Oppose	The tolls where to by removed when done.
06/25/26	Beverly Jumper	60415	X				X	X			Oppose	
06/25/26	Carrie	60447	X		X		X				Oppose	The truck tear up the roads, why do we have to pay . Other states tax way less and have way better roads
06/25/26	Susan Olson	60118	X		X		X				Oppose	Less traffic may happen if more vacate our state due to rising taxes. You need to lessen the burden on taxpayers. We already have some of the highest rates. Of course we wish to have safe and well maintained roads. You need to look elsewhere for funding.
06/25/26	Thomas J Edwards	53147-3229	X				X			No more tolls.	Oppose	Once the initial cost of the tollway was paid for tolls were supposed to end. They still should. You piss away too much of our money doing more than just maintaining functionality. Aren't our gas taxes supposed to support our roads? Tollways (that shouldn't still be charging tolls) should be included.
06/25/26	Megan McPhilimy	60618	X		X			X			Support	
06/25/26	Robert Luepkes	61072			X		X		X		Oppose	
06/25/26	CORNELIUS J DILLON	60630				X	X	X			Oppose	don't you collect enough in tolls now?
06/25/26	Rose Rakers	60517			X	X	X				Oppose	

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
06/25/26	Vickie Reilly	60137	X				X			Cost containment	Oppose	Tolls, when first implemented were proposed to be temporary! They actually do not go away or go down! In Germany, road repair contracts are for 10 years to encourage contractors to build well and efficiently. We pay a lot of taxes and the roads and defense is all I need from the government. Please stop wasting money and wasting time asking my opinion if you don't plan to follow it, or even consider it.
06/25/26	Andrew	60510			X	X	X				Oppose	Stop taxing us! We already pay taxes for roads. The IPass program was supposed to be temporary to begin with. The fact that you lied about that and continue to charge hard working people for simply using the roadways is shameful.
06/25/26	Ken Smith	53094	X				X		X		Oppose	Worry about your Illegal Immigrant population. You wouldn't need the increase.
06/25/26	Don	60565	X		X		X				Oppose	We would like to see where the millions $$$$ of toll revenue have gone in past decades, and how much was unaccounted for? Based on reports this revenue has likely been poorly managed like the Illinois Lotto. The funds collected do not go where it was proposed, mostly funding special interest groups. So why wouldn't Illinois Toll not be demanding yet even more of our money $$$$ to keep spending foolishly. Like all other Illinois Taxes, and Taxes, and yes more Taxes let's just keep Taxing the people of Illinois to keep growing a dysfunctional BIG government. Current administration has it all backwards, Illinois need to change its way of thinking (you work for the people, not the other way around) ...
06/25/26	Murtaza Iabal	60714	X				X		X		Oppose	I strongly oppose the increase of Toll prices non commercial vehicles.
06/25/26	Joseph Marmion	60142	X				X			lower cost to use infrastructure	Oppose	Illinois regularly just increases rates on common goods to cover inherent inefficiencies. I suggest a comparison with toll rates employed in other States. The proposal will drive traffic from thruways to byways, particularly larger commercial traffic.
06/25/26	Ed Levine	60645	X				X			Keeping idiots from using the emergency lane	Oppose	I'm old enough to remember being told the tolls would go away. Of course it's going to increase instead. No wonder there's an exodus from the state of people who pay, vs those who take
06/25/26	Fuck off	60656	X		X	X					Oppose	Loser pritzker . Loser Illinois. Worst fucking state ever. If I could avoid ever crossing into the worst state in the world, with some of the worst drivers and people, I would. Fuck your.
06/25/26	Pat	60194		X	X		X				Oppose	With the waste in Illinois and tax burden continuing to be placed on citizens, any increases are wrong.
06/25/26	Matt Block	60156	X		X		X				Oppose	Have you guys lost your minds? We already have the highest taxes in the country, no one is going to support this insane price increase.
06/25/26	Tricia Budach	60561	X			X	X				Oppose	The last toll hike was supposed to be temporary, so how are we having another hike?!? But let’s be honest, it doesn’t matter what the tax payers think because our “representatives” don’t represent a majority of Illinoians. You keep spending irresponsibly and throw it on the backs of your tax paying residents. Enough already!!
06/25/26	Christina cerami	60160	X			X	X				Oppose	You have a surplus already.. fix the pavement
06/25/26	Gretchen Schroeter	60490	X			X			X		Oppose	
06/25/26	Mason	60513			X	X	X				Oppose	Way to much in cost.
06/25/26	Tomasz Kokorzycki	60477	X	X	X						Oppose	
06/25/26	Marek Jezykowski	60025	X		X		X				Neutral	It's the motorcycle ruin the road equal to any vehicle not mention SUV, trucks and campers? Can motorcycles be excluded from equal toll pay? More motorcycles on the roads mean less traffic, less pollution, less surface damage. Just copy most of European country.
06/25/26	Matthew Kaminski	60544			X	X	X				Oppose	The cost of commuting including tolls is unaffordable. The current pricing it too high. If I have to pay more in tolls, will either ask employer for full remote status or leave State of Illinois entirely. You have to reduce your expenses. We are not a spigot of free flowing money.
06/25/26	George Sheehey	60451					X		X	More Police Presence	Oppose	Tolls already to expensive. Should not have given the road fund money to Chicago / CTA for something most people dont use and you wouldn't have to raise tolls.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
06/25/26	Kimberly B Erbstoesser	60180	X		X		X				Oppose	I oppose the proposed toll increase because it would add financial strain to commuters and families who are already dealing with higher living costs. Many people depend on these routes daily and have few alternatives. I believe other cost-saving and funding options should be explored before increasing tolls.
06/25/26	joe johnstone	60467					X		X	less money	Oppose	when the 'toll road' was built in 1955 the goverment, State of Illinois. said the 'toll' would last for 10 years and pay for itsself. Its now 2026, many years afteer the promise and here we are, still paying and more cost. BS!
06/25/26	Steve York	60110	X			X	X				Oppose	Poor idea
06/25/26	Linda M	60540	X				X			Faster completion of construction on the roadways	Oppose	
06/25/26	Kim Baer	60181			X		X		X		Oppose	The tollways are expensive now; I do not want to pay even more to travel on them. The tolls were only supposed to be until the roads were paid off, and that was years ago. I pay taxes to keep the roads in good shape, therefore I should not have to pay any more.
06/25/26	Sonya Pedersen	60491				X	X	X			Oppose	I think we pay a lot in tolls already.
06/25/26	Margaret hodgkins	60074					X		X	No more toll roads, no more toll increases	Oppose	
06/25/26	Laurie Schumacher	60448			X	X	X				Oppose	Illinois is finding ways to tax everything! A better idea is to lower the budget not increase taxes. Other states manage it why can't this state?
06/25/26	Jessica West	60408	X				X			Less tolls	Oppose	The economy is already too expensive. How do you expect working families to pay for all these extra expenses.
06/25/26	Valoria J Simpsom	60162	X				X			discounts for seniors	Support	I believe that Seniors should have reduced rates. Everything has gone up for but the funds we receive have not gone up. Please give up a break.
06/25/26	Renonda ambrose	60411	X				X		X		Oppose	Already too high
06/25/26	Brian Kindness	60142	X			X	X				Oppose	
06/25/26	Joe McDowall	60087			X		X			WHY YOU MAKE ME CHOOSE 3 IS ALSO TRICKERY! REMOVE THE TOLL ROAD!	Oppose	I would like to know just why you would need any kind of increase!! You people continue to waste money on garbage. I find it hard to believe you don't make enough as it is right now. Just how much does a single tool plaza make in a day?? MORE THAN ENOUGH!!
06/25/26	Debra E Sparling	60181	X			X	X				Support	If the increases help keep roads safer, I will pay them. They seem expensive to me already, but if I really don't have the money to pay tolls, there are other roads I can use to get where I need to go.
06/25/26	Joe Smith	63304	X				X			Not being taxed me to death	Oppose	I am so glad I moved out of Illinois! Truly feel sorry for those still living there. There are much better places to live and make a living.
06/25/26	Citizen	60426	X				X			Competence.	Oppose	ABC News: "the year, 1973, Illinois taxpayers had been promised their original 187 miles of tollways would be paid off and the roads would be turned into freeways". Politicians seem to have an allergy to truth and an out of control spending problem as they continue to make promises of nose bleed level pensions to state Government workers. The new proposal won't fix the spendaholic habit or bridge the debt gap. It does put into place a guaranty of perpetual price increases. Will it actually fix a pot hole? It is maintaining 187 miles of paid for road, not building new road. The only traffic reduction will be people fleeing a mismanaged state.
06/25/26	Julio Del Real	60119	X				X		X		Oppose	.45 cents per toll????? Are you kidding us???? That is absurd. That is too big of an increase. In top of that, other future increases? Please stop relying on us to fund EVERY PROJECT IN THIS STATE.
06/25/26	Carol Possehl	60540-7915	X		X	X					Oppose	Sounds like years of traffic snails for road constructiom
06/25/26	Jennifer Clark	60543				X	X		X		Oppose	My husband commutes daily and an increase of this magnitude will hurt our budget. Everyone is raising their fees for everything we can't take anymore increases.
06/25/26	BRENDA	60067	X				X			affordability	Oppose	REALLY??? the toll road was supposed to be FREE years ago!!!!

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
06/25/26	Gesermaa Jamiyanjav	60625		X	X		X				Oppose	It is expensive as it is, why burden people
06/25/26	Lori	60451			X	X	X				Oppose	I pay thousands to the tollway every year. I can't afford to keep paying to drive to work every day
06/25/26	Alan Salgado	60656	X				X			NO TOLLS	Oppose	I do not agree with the increase of tolls under any circumstances.
06/25/26	Matt G.	60458	X	X			X				Oppose	The tolls are constantly going up, yet the state is still too broke to properly maintain the roads. More money will hurt the every day citizens, and I highly doubt there will be any noticeable improvements. Stop wasting money and promising pensions far beyond what the state can actually afford to pay (already at least 3x more in pensions promised that taxes will fund!).
06/25/26	Neil	60004	X		X		X				Oppose	All this state does is raise taxes and fees so they can spend more. I'm tired of it and avoid tollroads as much as possible. I refuse to take I390 with its sky high rates.
06/25/26	Cori Brummett	60441-4632	X		X		X				Oppose	Tolls increase every year. And the Proposed 2027 increase is significantly higher. This has gotten ridiculous.
06/25/26	Richard D. Green	22046	X		X	X					Neutral	Is this fair to those of us who live in Virginia?
06/25/26	Kim	60142	X		X					Need more law enforcement for reckless drivers causing accidents	Oppose	Stop wasting taxpayer money; cut spending on ridiculous things and you'd have enough money to fix the roads.
06/25/26	Zachary Dale	60007					X	X		Alternative transportation to driving. Public transit options such as train, bus, and bike paths.	Oppose	The toll system was meant to be temporary. Now it is permanent. The way to solve traffic is not to add more lanes or construct new roads. Look to LA as an example, it doesn't work. Please consider alternatives, such as a robust train infrastructure. Other modern countries have this as a basic public service, and we should too. Make it easier for people to get around.
06/25/26	Juan Sanchez	60189			X		X			Stop increasing prices	Oppose	Why are prices rising? If times are hard right now everything is expensive, traffic is horrible. Things need to change but not by increasing prices. Gas groceries everything is expensive don't add another price increase to the people of Illinois.
06/25/26	John Eber	60610	X				X			Reasonable cost	Oppose	I can't believe the size of the increase. You're proposing for passenger cars. It's outrageous. People who use the toll roads every day are being gouged.
06/25/26		60441			X		X			Affordable	Oppose	I think raising the price for the tollway is absolutely ridiculous. Most people can't even afford the current tolls. Being 77 years old and disabled, going to and from the doctors office for visits is so expensive now. The toll road was supposed to be over a few years after it was built. taxes in Illinois are so high that it is time for a change in state leader's in Illinois or raise our social security benefits.
06/25/26	Margaret Moragne	60187	X			X	X				Oppose	The tollway system was supposed to be FREE after 50 years! Instead, the traffics gets slower and more congested and the tolls get higher and higher! A 45 cents PER TOLL increase is absolutely ridiculous and not supported by information provided. I have NO MORE CONFIDENCE in the word of your services or questionable expenses that we, the ALREADY OVERBURDENED AND CASH-STRAPPED CONSUMER MUST ALWAYS PICK UP THE TAB FOR! I feel like the people running the toll service (and the government at large) are all a bunch of incompetent, corrupted CROOKS! I have to use 5 to.ls each time I travel, as a senior citizen on a fixed income! My vote is an ABSOLUTE "NO! Find another way to line your corrupted political pockets!
06/25/26	Mary	60618	X		X		X				Oppose	An almost 50 cent increase? Everything is already unaffordable and now you want to hike up yet another cost we already can't afford??
06/25/26	Anthony Allen	53405			X	X				It is not always quicker but there are less police.	Oppose	The toll way system was not supposed to be a permanent thing. The roads arent always the best and construction takes years to complete, for every project. More corrupt legislation trying to take more money from the hard working lower - middle class. With all the extra illinois taxes, there isnt enough everyone has to pay for.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
06/25/26		61108	X		X		X				Oppose	I do not see where traffic , especially around Chicago and suburbs will improve. Another money making scheme, most likely proposed by our terrible governor. Where has all the $ gone, was meant to improve education and roadways, neither has improved, actually things are worse. Politicians putting this money to other uses. Majority of other states have zero tolls, but better roadways and less traffic concerns. We pay a tremendous amount of money already to sit in traffic, endure constant road construction and damage to vehicles due to potholes and debris. This is a terrible plan.
06/25/26		60449	X		X		X				Oppose	Tolls are a burden especially for those that have no other expressway options. I355 for example.
06/25/26	M Bruno	60404			X	X	X				Oppose	The tolls should be dropped to levels that just cover maintenance, there is no need for constant additions and never ending tool increases.
06/25/26	Daniel Bacoulis	60631					X		X	Need more state troopers patrolling highway.	Oppose	Between the amount of taxes on gasoline, vehicle registration fees and tolls collected now it has become way too expensive to operate a vehicle for the average Illinois family. The State of Illinois needs to cut its spending on unnecessary road projects. The state still hasn't opened the stretch of highway from I-90 near Elmhurst Rd to wherever that goes. A supposed must need improvement that is still not operational. NO MORE MONEY IS NEEDED FOR UNNECESSARY ROAD PROJECTS.
06/25/26	Gerardo Diaz	60453	X				X			No new taxes it's ass	Oppose	Stop it with your broke ass raising taxes on commuters. I will vote no in November.
06/25/26	James Balke	60456	X				X		X		Oppose	Governor already put a road tax on gasoline in Illinois. What happened to once 294 was paid for with tolls decades ago that it would no longer be a toll road 🤯
06/25/26	J. L.	60548	X		X		X				Oppose	When the system operated for many years employing people at manned booths with much lower toll rates then eliminating the positions for electronic tolling while quadrupling the toll rate, I absolutely do not support more increasing rates with the job cuts, spend the money you already receive a little wiser!!! There wasn't even supposed to be tolls after the system was originally paid for!
06/25/26	Craig Watson	60657	X		X		X				Oppose	I think you have it twisted. You're going to charge us regular people more money but business pay less money. You're not for the people. Maybe if you change it the other way around I might agree.
06/25/26	Scott	60487			X		X			Tools are already too high	Oppose	Thought when the tolls went in year ago they were to be Temporary! Clearly it is another revenue driver on the backs of IL residents. The state is doing a great job of forcing folks out of this state. Highest taxes in all of US in many areas like gas and housing, another increase in Tolls, etc wtc
06/25/26	Zoey	60123	X				X			Cost	Oppose	Raising tolls will disproportionately affect poorer people. My partner and I already struggle to pay tolls as they are. A 45 cent increase per toll is not acceptable when we are already struggling to put food on the table.
06/25/26	Pete Meyn	60517	X			X	X				Oppose	No increases for passenger vehicles
06/25/26	Dawn Iselin	60081	X			X	X				Oppose	Just a day ago - you gifted money to the libraries, but now propose an increase. Stop gifting money, maintain the roads and quit using tax payers as your not for profit funders.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
06/25/26	Alissa Rourke	60714	X				X			I think we need to model our system after neighboring states without insane taxes and tolls on their roadways. Driving to and from work is not a luxury. We should not be taxed to drive to work. My taxes from working, shopping, and living here should fund our road systems already.	Oppose	We already have the highest taxes in the entire nation... How are we going to increase tolls another $.45 per toll? It will discourage people from driving and exploring our state. Additionally people will just take non-toll routes furthering wear and tear on those roads. I think we need to have a discussion with Wisconsin or Indiana and other neighboring states without tolls to see how they maintain their roads without additional tax on their people. I am so exhausted from the constant tax hikes; our family is debating leaving this state. We need to get it together and stop pushing the costs onto the people.
06/25/26	Joe P	60053	X	X		X					Oppose	I'd be okay with supporting this if the roads were well maintained, which is not the case. There are sections of I90 that desperately need to be repainted, and it's been like that for well over a year. Do something!!!!!'
06/25/26	Debra Briley	60410	X		X		X				Oppose	I travel the toll roads to get to my MIL home. I will stop using them completely if the rates go up any more.
06/25/26		61341	X		X	X					Oppose	How about instead of raising the tolls we get rid of all the corruption and get rid of all the freeloading illegals in this state. Do that and you won't even have to charge tolls anymore.
06/25/26	Daniel	60435	X		X		X				Oppose	There's no reason to raise the cost of tolls given the fact of how much they currently are already and nothing is still being done with traffic or Construction. Raising the tools will not satisfy any of these points except for just taking more money out of hard-working citizens pockets
06/25/26	Amy Gulley	60560	X		X	X					Oppose	The state doesn't need more money. It needs to learn how to budget the money it has. Cut out the excessive non-essential expenditures. If the average tax payer has to live within their means, so should the state of Illinois.
06/25/26	Daniel	60008	X			X	X				Oppose	Just wring us a little tighter. The tollway is quickly becoming a luxury cost.
06/25/26	Harpreet Singh	60441			X	X	X				Oppose	I oppose the proposed toll increase. Illinois Tollway users are already paying significant costs, and the state should focus on managing existing funds more efficiently before asking residents to pay more. Increasing tolls places an additional financial burden on working families and commuters who rely on these roads every day.
06/25/26	Jill Smith	60074				X	X			Basic infrastructure	Oppose	I'm outraged!!! How dare you propose to raise tolls for this project. I remember some 30 - 40 years ago the tollway was supposed to be a finite way to pay for road work at the time and then tolls would be reduced or eliminated. This is another example of financial mismanagement in the state of Illinois! Stop making us pay for a generation of debt that is not our fault, especially in a time with record high inflation.
06/25/26	Edgar de la Cerda	60154	X		X		X				Oppose	The tollway has done an incredible job maintaining the roads with consistent project. The tollway has been successful with current rates and it is offensive to see the proposal at a time where ordinary people have financial struggles. The proposal is unnecessary and will make life harder for families. The tollway should also absolutely not get tied to funding government projects that have nothing to do with transportation.
06/25/26	Robert	60440	X	X			X				Oppose	the up charge should go towards the heavy trucks that do the damage to the roadways,not the individuals that use it to commute to work.
06/25/26	Brian Love	60053					X		X	Less multi year construction that runs years behind.	Oppose	Tolls are high enough. No increases are needed. Multi year construction projects are already snarling traffic across the region. Enough already.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
06/25/26	Dan Richard	60656	X		X					Making sure all the money is used for the road work cause our roads suck	Oppose	If they keep the roads in better condition that would be good. However the state normally misuses the money the citizens entrust them to spend properly.
06/25/26	Colleen	60123	X				X			Winter plows. Then you MAKE me choose 3 why to make your survey results work better for you?	Support	These proposed rate hikes are outrageous! So glad I don't use the tollway anymore. All ppl are hurting now financially because of the current President, now you expect them to come up with this increase. Go with a shorter less expensive plan!
06/25/26	Carrie onsen	60439		X	X		X				Oppose	That increase willl make me never use the toll roads. I can take alternative route. It's a little slower but $.45 hike each way everyday is unaffordable for my family
06/25/26	Jorge Rivera	60504	X		X		X				Oppose	
06/25/26	Muhammad khan	60543	X				X			Cost effective	Oppose	Illinois toll is already increased to cover engineering projects. Further increase is a burden and risk on residents and transportation.
06/25/26	Cathie Munoz	60439	X				X			Quicker construction times	Oppose	Total misinformation these funds do get diverted to other areas and not the roads. The governor has already made comments. We have seen this since the beginning of the tollway! This is totally unacceptable and ridiculous. Illinois has one of the worst roads in the the country with the most expensive toll systems. We are not idiots we see you!
06/25/26	Landria	60565	X		X		X				Oppose	We are already paying entirely too much in taxes, there's a hundred never ending road projects and raising the already too expensive tolls is ridiculous. Find out how FL is able to actually complete their road projects, and model their success because IL roads are terrible, traffic is bad no matter which direction you're traveling due to construction and just as you wrap one, here comes another and they never result in any real improvements. NO to toll increases.
06/25/26	DAWN PIONTKOWSKI	44056	X				X		X		Oppose	
06/25/26	Timothy Kohl	61080	X	X			X				Oppose	For the maintenance and condition of the roads, this is too much > Out of state drivers should pay more and trucks also, a senior discount should be considered I still work cause I cany afford to retire
06/25/26	John Sliwicki	60631	X				X			Eliminating tolls	Oppose	These tolls were NEVER intended to continue forever. Another tax on taxpayers
06/25/26	Antonia Mastro	60453	X		X		X				Oppose	That's ridiculous to raise the toll .45. At that rate it will be impossible to travel as increases occur every two years. The roads are always in repair and Traffic jams never end. I don't see what's going to change.
06/25/26	Lisa Wikman	60051			X	X	X				Oppose	
06/25/26	Terry Randall	61111	X		X		X				Neutral	
06/25/26	Pat	60538	X			X	X				Oppose	Road projects in illinois for major interstates and highways have been going on for 20+ years with no end in sight or positive improvements from the changes we have completed. Illinois residents are charged enough for you to not make the roads acceptable now. How is giving more money going to make the state better, the money isn't being used appropriately or in a timely fashion now.
06/25/26	Linda Pecka	60450	X		X		X				Oppose	You have raised them already. It's very hard on families and visitors from other states.
06/25/26	Jeanne Lepley	60013	X		X	X					Oppose	Illinois and the Chicagoland area already have some of the highest (or only!) toll prices in the country. Addition of 45c per toll increase rates ~1.5 times. Additionally, there is limited viable public transportation options for commuters. Trains or buses do not run frequently or within the suburbs or to and from Indiana to make this feasible. Additionally, IDOT has been notoriously slow about construction so I do not feel this project will address the proposed needs. If this must be done to address this project, it is recommended there is tiered pricing available for families who must use the toll roads to commute who do not have the resources to pay, OR infrastructure is set aside to improve public transportation instead of rebuilding roads.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
06/25/26	Kathy Nsrofsky	60120			X		X			Avoids stops for traffic lights	Oppose	I understand the need for a price increase, but the .45 per toll is way too much of an increase.
06/25/26	John	60156	X		X		X				Oppose	Get rid of corrupt politicians like Pritzker
06/25/26	Berscheid	60447				X	X			No more semi trucks	Oppose	We cannot afford this government and their high taxes.
06/25/26	John Fuzzy	60453	X	X	X						Oppose	Fux this democratic state money hungry mofos
06/25/26	Patrick	60550	X		X		X				Oppose	Its robbery. All the republican states are great at keeping the roads great. Illinois charges more and more and more then when there is roads built they fall apart in a few years creating a mess. Something is fishy and I think we the people are being robbed by the Illinois government
06/25/26	Rebecca Blum	60560				X	X			not getting ripped off all the time	Oppose	Tolls are too expensive already. Illinois citizens feel pinched and ripped off.
06/25/26	Joel Smith	60175			X	X	X				Oppose	This is increasing my commute costs and making Illinois less attractive to live in.
06/25/26	Kai Loberg	53140			X		X	X			Oppose	I oppose this proposed increase.
06/25/26	Jim R	60067	X		X					#2 lower toll prices, #3 lower toll fees	Oppose	we are all being squeezed by gas prices, auto repair prices, taxes, taxes, taxes. most other states do not charge tolls, DO Not Increase tolls.
06/25/26	Patty Behrens	60506			X	X	X				Oppose	This is such abuse of the tollway system. Most drivers pay 4 tolls to go back & forth to work. If you want to target people driving thru our state then have a special iPads for them & stop bleeding Illinois people dry between property taxes, tolls & now streaming taxes. If we didn't ask immigrants into our states this additional money would not be needed or the free 1,000 dollars give to people in Chgo monthly. FIRE Pritzker & Johnson NOW!!!
06/25/26	William	60093	X				X		X		Oppose	Tolls were supposed to be temporary when the roads were built. Transponders have done away with toll booths and associated labor costs, so tolls should be going away, or decreasing, rather than increasing.
06/25/26	Matt Ross	60044	X		X		X				Oppose	in a time of unaffordability; another Illinois toll rate increase is not good for the consumer. This state needs to adopt the model of Wisconsin that does not toll and has nicely maintained roads
06/25/26	Debra L Stanford	60178	X				X		X		Oppose	
06/25/26	Matthew Hartman	60004	X		X		X				Oppose	Oppose.
06/25/26	Jon Szabo	60901	X	X	X						Oppose	Hell no!
06/25/26	Ronald Krauch	60439	X		X					Fewer commercial vehicles.	Support	I think this is great. It discourages commerce and will help return Illinois to the desolate prairie it once was.
06/25/26	John Kearney	60004	X			X	X				Oppose	The Illinois tollway is already very expensive and raising rates this much is a huge increase. Other states don't have tolls or have express lane tolls and seem to do very well with their infrastructure. I worry how responsibly current toll funds are being managed and where all the toll money is currently being spent if it's being proposed to raise toll rates by this much to fund the next project.
06/25/26	Kim Fentress	46307	X		X		X				Oppose	The tolls are already high and those seem like really big increases! If this happens, I will be avoiding toll roads whenever possible! How much profit do the companies running the toll roads make?
06/25/26	Scott Anderle	60544	X		X	X					Neutral	Hold toll prices

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
06/25/26	Kevin	60504		X	X	X					Oppose	To the Illinois Tollway Board of Directors, I am writing to oppose the proposed 45-cent passenger toll increase and the accompanying biennial inflation-based toll escalator under the Driving Connections capital program. When the Illinois Tollway system was created in 1953, tolls were sold to the public as a temporary measure — bonds would be paid off and tolls would end, originally projected for the 1970s. That never happened. Instead, each time the original justification expires, a new multi-decade capital program is introduced to justify continuing and raising tolls indefinitely. Move Illinois, Bridging the Future, and now Driving Connections are successive versions of the same pattern. At some point a "temporary user fee" that has lasted over 70 years and shows no plan to ever end stops being a user fee and becomes a permanent tax on a subset of Illinois residents and businesses, levied without the protections of the normal legislative tax process. I ask the Board to consider the following before approving this increase: No sunset, no end in sight. Drivers were never told tolls would be permanent. Every capital program resets the clock. The Board should explain what it would take for tolls to ever actually end, or admit that they will not. Indefinite automatic increases remove public accountability. The proposed CPI-based adjustment every two years starting in 2029 means future toll hikes will happen without the public hearing process now underway. That is a significant erosion of oversight on a 15-year, $26.5 billion program. Real cost to working families and small businesses. A roughly $329/year increase for typical commuters and a 30% jump for commercial vehicles will ripple into delivery, freight, and consumer prices across the region — a regressive cost falling hardest on commuters with no practical alternative route. Fund maintenance, not expansion, with existing revenue. The Tollway has stated it received no toll increase for passenger vehicles for over a decade while still funding billions in capital projects. The Board should detail why existing toll revenue, bonding capacity, and reported surpluses are insufficient before asking drivers for more, rather than bundling routine maintenance with new expansion projects. I urge the Board to reject this proposal as structured, or at minimum to add a genuine sunset provision and remove the automatic biennial increases so that future toll changes require public review each time.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
06/25/26	Mike Lunde	60654	X		X		X				Neutral	I am writing as an Illinois Tollway customer and Chicago-area resident. I understand that maintaining and modernizing major transportation infrastructure requires funding, and I am not opposed in principle to investing in safer roads, better bridges, and targeted congestion relief. However, I do not support approving the proposed toll increases in their current form without stronger accountability, transparency, and performance requirements. The proposal asks drivers and commercial users to pay significantly more, followed by automatic inflation-based increases every other year. That may provide predictable revenue for the Tollway, but it does not provide enough accountability to the public. Any future increase should require regular public review, updated cost estimates, and a clear explanation of what has been delivered since the last increase. Before approving new rates, the Tollway should publish a clear, corridor-by-corridor justification showing the expected benefits of each major project. This should include projected travel-time savings, safety improvements, pavement and bridge-condition improvements, construction timelines, expected lane-closure impacts, and post-completion performance measures. Vague claims that the program will "alleviate traffic" are not sufficient when Chicago-area drivers already experience severe congestion and frequent construction delays. I am especially concerned that continuing to raise tolls can become a substitute for fixing inefficiencies. The Tollway should commit to an independent review of project costs, procurement practices, change orders, contractor performance, lane-closure coordination, and construction scheduling. Drivers should not be asked to pay more unless the agency can demonstrate that it is using current funds efficiently and that new funds will be tied to measurable results. I also ask the Board to distinguish between essential maintenance, safety-critical work, congestion-relief projects, technology upgrades, economic-development projects, and discretionary or partnership projects. Customers deserve to know which projects are necessary to keep the system in good repair and which projects are being pursued for broader policy goals. Finally, I urge the Tollway not to rely on highway widening alone as the answer to congestion. Some targeted widening or interchange improvements may be justified, but the agency should show evidence that each project will produce durable congestion relief rather than simply shifting bottlenecks or encouraging additional traffic. Please do not approve this toll increase package as proposed unless it includes: independent cost oversight, published performance metrics, regular public review before future increases, transparent project prioritization, and clear reporting on whether completed projects
06/25/26	Paulette Busler	60421	X		X				X		Support	Make trucks pay their fair share!!!
06/25/26	Caleb Williams	60545	X	X						No toll increases	Oppose	Toll free in 73. How many times do we have to pay for the roads
06/25/26	Tom Pechous	60101	X	X					X		Support	
06/25/26	John Friedman	60440	X		X		X				Oppose	What was originally meant to be temporary tolls has turned into never ending and increasingly expensive tolls. And the idea that more money means improved roads is historically incorrect. Stop taking our money and wasting it!
06/25/26	Marilyn	60651	X		X		X				Oppose	
06/25/26	SUE RHODES	60936	X		X		X				Oppose	Given that the toll booths were suppised to be temporary when they were put in, it's really sad that this state continually increases tolls as well as taxes all because the elected officials over spend & don't pay state commitments in the manber they shoukd
06/25/26	Vicki Parker	60194			X		X		X		Oppose	I strongly object to raising the tolls!!! They are way too high now!!!
06/25/26	Joe Miller	60403					X		X	Stop Fleecing drivers	Oppose	Toll free by 73
06/25/26	Chase Rambo	61107	X			X	X				Oppose	I can understand an increase given the scope of the interstate project and the maintenance costs associated with it, however I can't support a roughly 58% increase in my toll expenses, where I drive through the South Beloit toll twice per day for work commute and the proposed new toll rate would cost roughly $225 extra per year. I also believe the development of numerous large-scale distribution centers from companies such as Amazon and Walmart in the region have increased commercial traffic significantly, which in turn would have increased toll revenue therefore making a nearly 58% hike in fees wildly unnecessary.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
06/25/26	Jeff Ziegler	60188	X				X			Affordability	Oppose	Enough is enough, as a regular user of the tollway I find the cost increase unnecessary and unreasonable. My pocket book is starting to tell me to leave Illinois and take my $ with me instead of being taxed to death. Thanks for the opportunity to comment.
06/25/26		61016	X		X		X				Oppose	To whom it may concern, I am writing to strongly oppose the proposed toll rate increases. Illinois residents are already facing higher costs across the board, including taxes, insurance, groceries, fuel, and general transportation expenses. Increasing tolls again only adds another burden to working families and commuters who often have no realistic alternative but to use these roads. I understand the need to maintain and improve infrastructure, but the solution should not automatically be to charge drivers more. The Tollway should first demonstrate clear cost controls, budget discipline, transparency, and accountability before asking the public to pay higher rates. I do not support the proposed increase, including the additional passenger vehicle tolls, commercial vehicle increases, or automatic future adjustments tied to inflation. These increases will ultimately affect everyday drivers, small businesses, and consumers. Please record my comment as opposition to the proposed toll rate adjustment.
06/25/26	Linda Swift	60007	X			X	X				Oppose	You can drive through Wisconsin and not pay any tolls
06/25/26	Barb Corby	53045	X		X		X				Oppose	
06/25/26	Melanie Dausch	60106	X	X					X		Support	Got to keep up with economy
06/25/26	Leah Jones	60478					X		X	Price increase is too much	Oppose	Will take alternate travel as much as possible to eliminate the use of toll that is a convient not a necessity. There is always on going construction and never a completion . Thanks for providing a source to provide my feedback
06/25/26	Brian	49706				X	X			Less construction	Oppose	I'm so glad that I don't live in the Socialist State of Illinois. What an increase! I will curb my travel to Chicago. State of Illinois runs a terrible managed state.
06/25/26	Fannie Chionis	60131			X		X			Affordable	Oppose	Maybe decrease the amount of money the politicians make and take it out of that money. Stop putting it on the consumer. The amount of taxes that everybody gets hit with from property to grocery to just about everything is out of hand! That's why everyone is leaving IL!
06/25/26	Brian	60151				X	X			Not paying for shit roads	Oppose	The roads are absolute shit. The tolls were promise to go away decades ago. This increase is insane. Stop funding chiraq, no need to raise anything.
06/25/26	Megan	60193	X		X		X				Oppose	For those of us who commute every day for work, this is just another item that will increase the cost of living along with increases in gas, food, utilities, property taxes, home prices, and literally every other item or service that needs to be purchased. Meanwhile traffic and road conditions continue to decline rather than improve and it is hard to believe that the toll increase will do anything to improve those conditions. Shame on you!
06/25/26	Lee dunn	60423			X	X	X				Oppose	The toll rates HAVE risen in the past 10 years, but the state did that and not the tollway. But your customer doesn't care WHO raises the toll, because we pay the whole toll. And it's terribly expensive already. It's a tax and needs to stop in this state!
06/25/26	G	60634	X				X			Stop increasing pricess	Oppose	STOP INCREASING TOLLS. YOU POCKET THE MONEY AND ROADS DON'T GET FIXED IN A TIMELY MANNER. TOLLWAYS PUT AT EXITS ARE A HUGE MAFIA CORRUP MONEY SCHEME. THIS IS DRIVEN BY POLITICIANS WHO BENEFIT FROM IT BUT NEVER THE PUBLIC PEOPLE WHO ARE HARD WORKING. ALL TOLLS SHOULD BE LESS THAN A DOLLAR AND ABSOLUTELY NO TOLLS AT EXITS. STOP BEING CORRUP!
06/25/26	LE	60046			X		X			Speed	Oppose	
06/25/26	Daniela Kirchner	60601	X				X			Using the left lane only for passing would decrease the traffic. Practice common in Europe works.	Oppose	Absolutely not! The tolls are already very expensive.
06/25/26	Farris	60646			X	X			X		Oppose	

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
06/25/26	Frank Falzone	60487	X		X				X		Oppose	We already pay one of the nation's highest gas taxes, property taxes are outrageous with no relief in sight. We were also told when the original pay toll system was started it would be temporary, that never happened. Sorry to any false promises made.
06/25/26	Steve	60118				X	X			Less construction delays	Oppose	Are you kidding me? The tollway is constantly under construction. Being a senior, by the time you finish I'll probably have passed away. There is nothing wrong with the roads now. People pass at 90 mph! I rarely ever see law enforcement making stops to enforce the speed limits. This money is wasted due to political influence. I feel that the contracts are awarded to campaign contributions. What a joke! Construction projects means delays for people using the roads and you are paying to sit in traffic.
06/25/26	Dean karakosta	60026	X				X		X		Oppose	Roads should be covered by state and federal taxes
06/25/26	Rob	50627	X			X	X				Neutral	How can you say that you're not making enough money now to pay for the proposed enhancements? With the millions of cars trucks buses etc there isn't enough money? It's hard to believe. I'm originally from Illinois and remember when the toll road was built. After 25 years it was supposed to be a freeway. What happened? Better manage money better. Rob
06/25/26	James Kral	60101			X	X	X				Oppose	
06/25/26		60467	X		X		X				Oppose	I would like it if things were transparent on where the toll money is going towards
06/25/26	Joshua Ward	60642	X		X	X					Oppose	The roads have always been shit and nothing will change besides someone stealing the money. More corruption at every level. Charge the people more and promise something that never happens
06/25/26	Valente	60448	X		X		X				Oppose	This is a ridiculous infringement on the public. If the state would cut spending on frivolous items and illegal things this increase would be necessary. The tollway was paid for decades ago
06/25/26	Chris	60108	X		X	X					Oppose	I oppose tolls that would increase an already high toll given neighboring states. Come on Pritzker another raise on rates. You lost my vote before but now definitely!!!!
06/25/26	Kevin	60565	X	X						STOP RAISING THE TOLLS	Oppose	Tell Pritzker to stop taxing people to death!!!!!
06/25/26	Ron White	61401	X				X		X		Oppose	You raise the rates but reroute the money so it doesn't go to fix the roads, or you only fix the roads in Chicago. More DoughBoy (Priztker) money grabs
06/25/26	Bob	60193	X	X			X				Oppose	We are the most over taxed and fee state enough is enough get rid of the pork and spend responsibly
06/25/26	Maria Luna	53142				X	X		X		Oppose	Gas price and cost of living are expensive right now, and an additional fee to my daily commute is going to increase how much I spend on transportation.
06/25/26	Joe	60442			X		X			Price of tolls	Oppose	Times are as hard as they've ever been. Stop raising prices on us, make it work with your current budgeted rates, don't pass it on to us.
06/25/26	Katie Richert	60516			X	X	X				Oppose	I can't keep getting charged more for everything including having to go to work which I don't want to anyways.
06/25/26	Todd	53563	X		X		X				Oppose	I won't be traveling to O'Hare airport again
06/25/26		60124	X		X		X				Oppose	We pay enough to live in this state and travel the highway system. Cuts need to be made in other areas. Stop taxing the drivers.
06/25/26	Eliezer Medina	60402	X				X		X		Oppose	The toll don't have personal in the collections boots ,so is shipped to run the toll.
06/25/26	Vonda	61032	X				X		X		Oppose	
06/25/26	Frank Pyrcik	60516-2941	X		X		X				Oppose	Clean off the debris on the side of the roads. It's a disgrace. Just keep the roads in top shape instead of endless patronage projects
06/25/26	Mike Wolfe	60503			X		X			Affordability	Oppose	The only thing that will change is the increase in the tolls.
06/25/26	James Lorr	61801	X				X	X			Oppose	
06/25/26	A. Khan	60181			X	X	X				Oppose	Please use the money that you've been collecting for years to fund the project. Don't increase our rates for roads we may not even use.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
06/25/26	David Canning	60543	X				X			Not paying anymore tolls for a roadway that was paid for more than 30 years ago!!	Oppose	The road has been paid for many times over!! Due to mismanagement, the tollway system is a joke, and should be abolished. The State of Illinois, should be responsible fro maintaining all roads, with the money they scam in fuel taxes.
06/25/26		60175	X			X	X				Oppose	They were supposed to be free in 1973. Over 26 BILLION dollars has been collected since. It already costs too much to live and work in this state. It cost me almost $2000 in tolls just to get back and forth to work. Illinoisans pay enough.
06/25/26	Paul Bauman	53120				X	X			You mandate 3 choices so you can justify your outrageous toll increases.	Oppose	These rate increases are outrageous. Nothing like robbing people that just want to use the interstate system. We ALREADY pay a huge amount in taxes...use THAT money instead of frittering it away on useless programs. Use that money for what Americans need—roads!!
06/25/26	Betty Grassi	60056-2151	X		X		X				Oppose	I have choices to use free roads to get back and forth from work. Currently the toll roads are too expensive and does not save time.
06/25/26	Neil Fackler	60120	X			X	X				Oppose	Very Bad idea. The rate increase is way to high,especially on commercial vehicles. The ordinary driver is already struggling with high gas prices. The commercial tax will substantially increase the price of goods transported by truck. This is many of our everyday goods, especially food. Already strapped consumers cannot afford daily necessities as it is now. Additionally, all of b the major infrastructure projects done by the state are over budget and always take longer than estimated. The Tollway system has run a surplus over the last several. Those surpluses should be spent on some of these projects first. AND the tolls that were supposed to expire when specific projects were completed have NOT been eliminated.
06/25/26	Sean S	60030	X		X		X				Oppose	Illinois has some of the worst roads and traffic in the country yet tolls keep increasing. However, California, which has no tolls has some of the best roads in the country. How is this possible? And don’t tell me it’s the weather because I’m smarter enough to know that excuse is nonsense.
06/25/26	Rebecca Hamilton	60564	X			X	X				Oppose	
06/25/26	Tom Mineo	60487	X		X		X				Oppose	Everything is going up. As a retired citizen it’s hard enough
06/25/26	Arruda	60014	X			X	X				Oppose	Between the high gas tax and the toll expense you should be spending those dollars which should be more than enough.
06/25/26	Chandler	60605	X		X		X				Neutral	Very unclear what the toll increase will actually go to in supporting improvements. I clicked through about 3 sites trying to find more info on the changes outlined that the increase plans to support only to land on the agency page that didn't have any adjustments since 2024. What is the point beyond the broad strokes language used in the announcement and all of these sites??
06/25/26	Donald Kadlec	60516	X				X		X		Oppose	quit sucking tax money
06/25/26	Dianen Bilak	53142	X				X		X		Oppose	I believe 35 cents is way high including the 30% for commercial vehicles. With gas prices soaring I would go for 25 cents and 10% foot commercial vehicles. Raising the toll increase high will just make cargo more expensive for the general public. Thank you.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
06/25/26	Colin Maloney	60108	X		X		X				Oppose	It feels unfair when toll authorities keep raising rates even after a road has long been paid off. A lot of people feel the same way. Let me break down why this happens and why it feels like it shouldn't. Why people think rates shouldn't keep increasing: Because once the debt is paid, the original purpose of the toll is gone. The logic is: Road built Debt paid Tolls should stop or at least not increase That makes total sense from a user's viewpoint. But toll authorities see it differently: Even when a road is "paid off," they argue the toll still needs to rise because: Maintenance costs keep growing Inflation affects equipment, labor, and construction The same road eventually needs rebuilding, not just patching Revenue from one toll road often supports the whole system They rely on tolls instead of general taxes Where most people get frustrated: Toll agencies often don't clearly explain why tolls go up. It ends up feeling like: "We already paid for this road. Why am I still paying more?" And the truth is: Some increases are reasonable, but continual hikes without transparency feel wrong. If you'd like, I can help you: Break down how your specific toll authority sets rates Draft feedback you can send them Compare toll vs. non-toll funding so you can see the tradeoffs Just tell me what direction you want to go. major real world issue — planned obsolescence affects everything from cars and appliances to phones, software, and even tolling and infrastructure systems. And you're absolutely right: we need to stop it. Here's why it keeps happening and what can realistically change: Why planned obsolescence exists: • Companies profit more when products wear out faster • Cheaper materials often mean higher short term profits • Repairing is made intentionally difficult • New models are marketed heavily, creating pressure to upgrade • Some industries build recurring revenue into their business model Why it's bad for everyone else: • Wastes money • Wastes resources • Creates massive environmental impact • Forces people to replace things they should be able to repair • Reduces long-term value and trust What's starting to change: There's growing momentum in several areas: • Right to repair laws (big wins in states like Minnesota, Colorado, California) • Regulations limiting forced software shutdowns • Mandates for longer support cycles • Independent repair shops gaining legal protections • Public pressure forcing brands to offer longer warranties and parts availability Stopping planned obsolescence completely would require: • Stronger laws protecting consumers • Product designs that allow easy repairs • Transparent parts pricing • Longer guaranteed software support • Incentives for companies that build durable products suggestions • Write a clear explanation or argument you can send to your representatives • Break down how planned
06/25/26	Jens Wisse	53144			X	X	X				Oppose	My daily commute is already at $16.11 per day. Adding $0.45 for each of my four tolls is wild.
06/25/26	Alfonso Napoles	60067			X	X		X			Oppose	I oppose a blanket toll increase and urge the Tollway to adopt equitable, location-based pricing instead — higher rates at interchanges serving affluent communities, and reduced or capped tolls in lower-income areas. A flat increase disproportionately burdens working-class commuters who have no alternatives and can least afford it. I recommend that revenue from road pricing be reinvested directly into public transit, biking and walking infrastructure, and transit-adjacent housing — not funneled into bloated, poorly managed construction timelines. Before asking for more revenue, the Tollway must demonstrate fiscal discipline by sequencing construction strategically, completing high-priority corridors before opening new fronts. Long-term, no toll strategy will meaningfully reduce congestion without investing in real transit alternatives. The Tollway should partner with IDOT and Pace to fund dedicated bus lanes on key highway corridors, increase service frequency, and lower fares. Paying bus drivers competitively reduces turnover, improves reliability, and grows ridership — ultimately putting fewer cars on Tollway roads. This is not a minor quality-of-life issue: it is a matter of economic equity, environmental impact, and basic mobility for hundreds of thousands of Illinois residents. The Tollway Board must treat this comment period as a genuine policy reset, not a rubber stamp for a revenue grab.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
06/25/26	Don Johnson	60090	X			X	X				Oppose	Your ever-increasing rates leads me to avoid the tollway system whenever possible, even if it means taking longer. This increase would only serve to make me avoid the system even more! Paying to sit in barely moving traffic due to what seems like never ending construction just doesn't make sense to me.
06/25/26	Jerry T Wanko	46350	X				X			Increase police presence for drivers that create multiple violations. Higher fines and possible suspension of Drivers License	Oppose	Ask the Governor of Illinois to dig into his multiple sources to supplement the toll and road increases and up keep of the highways
06/25/26	Thabit Issa	61107	X		X		X				Oppose	
06/25/26	Will Lindmark	60540-4420	X		X		X				Neutral	The toll rates for senior citizens [72+ years of age] should remain at the current rate All others should pay the increased toll rate.
06/25/26	STEPHEN KLIR	60162		X	X		X				Oppose	Unbelievable. With all this talk in this expensive state about the cist of living ("affordability") the governor thinks it's now time to raise tolls. He would do better to call up billionaire Ken Griffin and ask how best to invest state funds in order to raise the capital he "wants".
06/25/26	Paul Kuhn	60137			X		X			cost of tolls	Oppose	Fuck off . Typical fucking Illinois jack up our tolls so the Mother Fucking McCaskey's can get billions . You wonder why people are leaving this shit hole state.
06/25/26	T Day	60171		X	X		X				Neutral	I'm ok with an increase, but $.45 per car, per toll for I-Pass customers seems a bit high. Maybe $.20-$.25 per toll would be more manageable for all of us.
06/25/26	Vince Falco	60051	X		X		X				Oppose	Honestly this is why I avoid the tollway system now. Its not worth the miniscule time savings for the price.
06/25/26	Cody Knight	60460-9441	X	X					X		Support	
06/25/26	Tim Carr	60431	X			X	X				Oppose	We pay enough for tolls, gas tax, and other vehicle services in this state. Affordability is becoming worse and worse in Illinois and increasing the tolls even more would cause a huge burden, not to mention the absurd part of tying increases to inflation in the future. We're not all rich and no increase should happen without a decrease in pay to any management in the Illinois Tollway department or other agency tied to an increase.
06/25/26	Matthew Weger	60098	X		X	X					Oppose	How much is enough. When enacted tolls were meant to be temporary now they are permanent and rise with too great a frequency. Operate within your budget.
06/25/26	Laurie Spencer	60563	X			X	X				Oppose	With the HIGH taxes and the tolls we pay, there should be more than enough to maintain our roads!!! The state is squandering our money! They keep asking for more and more. As a senior citizen, I CANNOT afford anymore. And I'm sure the tolls will be going up every year, just like the gas tax does!!! It's a disgrace!!!
06/25/26	Mark Moldenhauer	61201	X				X			That it doesn't cost soo much to use the toll roads	Oppose	As much as is collected the condition of the tollways should be in alot better condition!!
06/25/26	Dan oslage	60002			X	X	X				Oppose	
06/25/26	Dennis Lane	60178	X		X		X				Oppose	ANOTHER PRITZKER TAX!!!!!!
06/25/26	John Trautmann	60458				X	X		X		Oppose	I'll just stop taking it like many other people.
06/25/26	Robert Marques	60435	X	X			X				Oppose	
06/25/26	Kiyana	60443	X		X	X					Oppose	
06/25/26	Bill West	60062		X			X			Stop taxing us	Oppose	"Toll free by '73"!! Time to stop the spending sprawl. These were supposed to be freeways after the initial bonds were paid off.

06/25/26	Alexander Klimunda	60440				X	X		X		Oppose	Ridiculous. Another price increase is insane.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
06/25/26	Andrew Cichon	60502	X			X	X				Oppose	I believe passenger vehicles are already taxed at an exorbitantly high rate, especially compared to surrounding states. We have a massively high gas tax, high registration fees, and we already pay tolls for highway usage that would be free in other states. I have also seen that the tollway operates with incredibly high rates of revenue. Taxing passenger vehicles at an estimated $0.45 cents more PER TOLL is ridiculous. A budgetary rebalance and the possiblity of less services is heavily preferred over this absurd increase.
06/25/26	Eric	60061			X	X	X				Oppose	J.B. talks a good game about "affordability" but then sticks it to the little guy again. Tax, tax, tax. And then he tries to say the increase is mostly directed at out of state drivers. When will it end?????????
06/25/26	Erica Vitek	53126			X		X	X			Oppose	
06/25/26	Rob Nicholas	60014					X		X	Lower tolls	Oppose	Find another way. Illinois is already taking too much of my money.
06/25/26	Robert Williams	54313	X			X	X				Oppose	I will find alternate routes to avoid paying that much for tolls
06/25/26	John Fauerbach	60048					X		X	Less tolls	Oppose	Toll rate was supposed to be temporary now it's increasing 30% for CMV'S? It's criminal
06/25/26	Jonathan Miller	60401	X			X	X				Oppose	
06/25/26	Kim Jones	60425	X			X	X				Oppose	We are already paying a lot of money on tolls. It’s not affordable. Why can’t our tax dollars cover the cost?
06/25/26	james blaney	60463	X		X		X				Neutral	
06/25/26	Judith Wallock	60189	X			X	X				Oppose	I think a toll increase is absurd. When 294 was initially constructed we were told the tills would stop once the road was paid off, instead we continue to pay tolls and have increased. IL needs to manage the tax payer money more efficiently. We are being taxed to death!
06/25/26	Jackie	60177	X		X		X				Oppose	The more expensive the tolls get the harder it makes to travel these roads & will make us start to look for alternative routes
06/25/26	Eugene H Witt Jr	60411					X		X	Stopping tolls	Oppose	The original purpose of the tolls was to build the roads and pay for them. The roads have been built and paid for tenfold. Like taxes, we are being tolled to death and you want another increase? NO!
06/25/26	Corey Kosloski	60540	X		X	X					Oppose	Aren't you already taking in record amount of toll money? Do you have projections on the amount of toll money you would earn over the next 10 years if you didn't increase tools? Are all of these projects critical? Seems to me you should be prioritizing the work based on criticality and worked on them with the ever growing amount of tolls you are already taking in. Also, what have you done to look for efficiencies in your own programs to save money that can be used towards the roads. I would like to know that you have done your due diligence before asking for more money when you are already taking in record amounts of toll money.
06/25/26	P Puleo	60108	X				X		X		Oppose	What happened to the tollways will be paid for. Been hearing this for years! You can drive in other states their roads are better than ILL same traffic same weather and they are free. Stop ripping off the people of Illinois! Stop cheating us! You do a terrible job of taking care of our roads and now you want more money. This is rediculous! Get the money from the companies cheating the state with what they charge to fix the roads. Get the money from the lowlife politicians running this state. You are a bunch of crooks!
06/25/26	Krystal	60447	X	X					X		Oppose	Tolls are costing enough and the people already pay enough to purchase and maintain their vehicles. Use some tax dollars to maintain the roads instead of increasing pointless rates
06/25/26	John	60102	X				X			Enough	Oppose	We pay enough in this state to drive on the roads. When is enough enough. Constant construction. Once this proposal is done then you have another plan , but for 150 billion to redo what was already redone. We’d like some more money in our pockets.
06/25/26	Christopher	60491	X		X	X					Oppose	The state already raised our tolls. If they hadn’t done that I would be for a rate increase.
06/25/26	Marie Castro	60077	X		X		X				Oppose	
06/25/26	Mark	60564	X				X		X		Oppose	All Il does is raise taxes. Learn to manage with what you already take in. Tollways were supposed to go away, remember that?
06/25/26	Tom D	60432	X		X		X				Oppose	Don't trust Pritzker. He is on the board and appointed the board. All his flunkies. Most of the money will probably be used for Chicago and very little for tollway improvements.
06/25/26	Ruth Ruskowsky	60451	X		X		X				Oppose	Too much tax already and poor work from previous projects.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
06/25/26	Sherry Cleek	60516	X		X		X				Oppose	Tolls are already ridiculous and don't need to be raised. Other states don't even have tolls. Illinois is getting to expensive for everyone.
06/25/26	Nicholas Smith	60041	X			X	X				Oppose	It's just another way to get more money from the tax payer and do nothing with the roads.
06/25/26		60586	X		X		X				Oppose	It's hard to see where the current toll money is going. I suggest a different construction contractor who can actually finish the job that they start. I never see anyone working in the construction zones. I don't believe all the toll money goes to maintaining the roads.
06/25/26	Sean Herman	60013-2050					X		X	I need my money	Oppose	The government simply doesn't care when they take enough money in taxes and gas fees take the money from the rich people this just screws me over like everyone else that doesn't have a ton of money but of course my opinion doesn't matter and will never get heard
06/25/26		60139	X			X	X				Oppose	How about that gas tax helping with the roads?
06/25/26	Sue	60546	X		X		X				Oppose	Don't think we should have to pay more tolls to drive on public highways when the money is not being used properly to support and maintain the roadways. There are a number of closed manual toll lanes on 355, 88 and 90/94 not being repurposed or used, causing heavy backup of traffic by toll booths.
06/25/26	Ana De la cerda	60154	X		X	X					Oppose	
06/25/26	Samantha Cole	60490	X		X		X				Oppose	The benefits of the toll way was a faster commute, this has not been the case for some time . With gas already being high this will be an added issue if this increase happens.
06/25/26		60010			X	X	X				Oppose	
06/25/26	Greg	63143	X				X	X			Oppose	
06/25/26	Noldy Leano	60185			X		X			Free driving (no toll)	Oppose	No to proposed toll increase. We pay enough taxes. Driving in the expressway should be free.
06/25/26		60532	X			X	X				Oppose	
06/25/26	V Sorescu	60629	X				X		X		Oppose	Please keep our highways affordable. Increase prices for services only!
06/25/26	Greg McCollum	60446			X	X				Not dying by a semi or in a construction zone because of a semi.	Oppose	I don't trust this state to use any form of taxes to improve the state or the lives of it's citizens, when it can't even manage its own budget or protect it from fraud.
06/25/26	DJ	60462	X		X		X				Oppose	Nothing is affordable right now. It would be another thing that goes up in price.
06/25/26	Adah Lara	63143			X		X			Tolls. I am a senior. I had applied for the senior discount and it was converted into a regular account. It costs too much to take the highway	Oppose	It costs too much for a senior citizen who drives every Saturday to the temple in Deerfield from Kenosha.
06/25/26	Jp	60449	X		X		X				Oppose	How about take all of the money that’s being spent on illegals! Use those funds! We are taxed to death already!!!!!!
06/25/26	Christina Canright	60611				X	X			More drivers using automatic payment through using transponders.	Oppose	First, Why increase rates, when you could have a campaign to get more motorists to use the transponders. With the funds gained from that, I believe you would gain the funds you are wanting without increasing everyone's costs. With the interest you would gain, you would have the funds you require. The cost to you would be having a marketing campaign. Secondly, I see no public hearing for Downtown Chicago. We use the Toll road going back and forth to Indiana, so Chicagoans should have a say. Please send other hearings for our fine city.
06/25/26	Serena Twombly	60423	X		X	X					Neutral	I am all for a toll increase as long as all toll funds are put toward road and traffic improvements. There are many sections of 80, 55, and 57 that are nightmares road quality wise, and it seems are current tolls aren’t going to fix them for more than a few weeks at a time.
06/25/26	Steve Branom	60505				X	X			Affordability	Oppose	Right now people are struggling to make ends meet and the states way of helping us is to make like more expensive. I can't take the train because I have to bring tools with me toy job sites. A 45 cent toll increase is outrageous.
06/25/26	Ben Zimmerman	60119					X		X	No new tolls	Oppose	

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
06/25/26	Steven Rakers	60510	X			X	X				Oppose	If you need more revenue, I believe you need to explore other ways to raise funds rather than making the tollways even more unaffordable. For example, what do other states do that do not have tolls? Most states do not have tolls and their highways are even nicer. Higher tolls just makes Illinois less competitive in so many ways...please do not raise them.
06/25/26	Jiri pekarek	60035	X		X					There is always work on highway so i have no idea what you people are talking about Fixing same area twice or more in ten years	Oppose	Toll way should be for free like wisconsin and other states You people put toll way 3 years temporary pay Now we pay all the time Great business really If I pay for toll way I don't want se repairs after year when you finish And if you don't know how to fix the roads give the contract to Europeans they will give you 10 years warranty And not do the new repair and coming back year later coze they have no idea how to do it 294 is horrible and still you charge for not safe highway I belive when you charge full price then when you repairing same problem you should give us money back right ??? but that will never happen
06/25/26	Joanne Roney	60448	X		X		X				Oppose	
06/25/26	Chase Munson	60123	X			X	X				Oppose	To whom it may concern, I find that the proposed toll increases to be steep for commuters. I believe that these rates could have a chilling effect on workers being able to get to a job when no public transit is available.
06/25/26		60517	X		X		X				Oppose	Tolls were not supposed to be a forever thing. How much of that money goes into the pockets of the "suits". People shouldn't have to pay tolls when there is road construction. It defeats the purpose of taking the tollway. Ridiculous
06/25/26	Samantha	60056	X			X			X		Support	Driving on the Tollway is the best part of my commute.well worth the value of what I pay to know I will get there safely and on time. Thank you Tollway!
06/25/26		60435	X		X		X				Oppose	The tolls were here to fund the build and be abolished. The state has plenty of funds that keep ending up in crook pockets
06/25/26	Alan Bowen	60140	X			X	X				Oppose	The tollway was suppose to only be tolls until it was paid for many many years ago, but now that we have an income out of the roads we just raise the prices. I know it hasn't been raised in several years but this amount is ridiculous. And then are the funds really going to fix the roads or help Chicago out with it's mass transit system. If that's the case raise the price of the transit system and the people who use it pay for it not all of out in the burbs who use it for work etc and never use the transit system to begin with. The Illinoisians are being taxed to death already.
06/25/26	Elaine	60523	X			X	X				Oppose	In this economy? Thanks for showing me how tone deaf state officials are to the struggle of Illinoisans. Increase fees, increase taxes. That is all you know.
06/25/26	Joe	60439	X				X			Less police	Oppose	It's expensive enough. Make cuts, don't just spend more of our money.
06/25/26	Ken Kasowicz	60657	X		X		X				Oppose	Please don't do this. Enough already. So much of the work you have done that you said would improve traffic NEVER does. Fix the pot holes. Sunset the tollway like you were suppose to YEARS ago when it was first introduced as a temporary thing. ENOUGH. You do this and watch all the trucks and cars go local and rip up the streets.
06/25/26	Sue Pacione	60193	X			X	X				Oppose	Comes to a point where we have to stop raising everything in Illinois. Where does the money actually go cause the tolls where never to stay this long. Now it's permanent. Yes infrastructure needs to be fixed but when does it stop asking for more money. I strongly oppose
06/25/26	John Doe	60455	X		X		X				Oppose	Typical Illinois, lets charge the resident for all the politician screw ups. I thought the tollway system was suppose to be "Toll free by 73" another political lie. This state will never change. Thank you for taking more money out of my pocket.
06/25/26	Dana	60439	X		X		X				Oppose	We need to make better use of the money we already pay instead of money going towards unnecessary salaries and useless projects. Everything is expensive enough. I try not to take the tollway as it is now because I don't want to pay the price. If it increases I'll use it even less.
06/25/26	Dave	60469					X		X	Clean roads	Oppose	More 18 wheelers and cars in towns taking highways great. People are struggling right now
06/25/26	Marissa	60415	X		X		X				Oppose	I am against this tax hike, this is far too expensive for someone like myself that drives 20 miles to work!! I already spend $20 a week in toll and you WANT TO DOUBLE IT? No thanks
06/25/26	Tracy Thompson	60633	X		X		X				Oppose	
06/25/26	Abygail Morrigan	60014				X	X			Low toll rates	Oppose	

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
06/25/26	Terry Bergstrom	60083	X				X			Safer roads too many crazy drivers	Oppose	This state already gets enough of our money. This is getting absolutely ridiculous.
06/25/26	PHILLIP MARTINO	60564	X			X	X				Oppose	Complete the project without blowing up the budget! Set up a referendum to see how the driving public wants to proceed.
06/25/26	Melissa McPhail	60447	X		X		X				Oppose	Current toll costs are already high. Increasing toll costs negatively affects drivers/consumers as wages are not increasing & cost of living continues to spike
06/25/26	Mary Anne M	60004	X			X			X		Support	I drive on the Tollway to visit my grandchildren on the weekends. I appreciate the predictable drive times and being able to get to the girls quickly to spend time with them. I support the increase knowing it will continue to allow me to have more time with my family than on the road.
06/25/26	Jada	60560	X		X		X				Oppose	
06/25/26	Laura	60586			X		X			Less money	Oppose	
06/25/26	L glasgow	60404	X		X		X				Oppose	Tolls are increasing just like everything else. If it's not a necessity don't do it.
06/25/26	Dan	60108	X				X		X		Oppose	We are already taxed too much in this state. If Springfield would show some fiscal responsibility these increases would not be necessary.
06/25/26	Gerald	60487		X	X					No more construction delays	Oppose	This is a far cry from the original proposal of building the toll road and once it paid for itself, it would become a freeway. This current debacle is consistent with the way the entire State is being run. They can't let this cash cow go without bleeding the folks once again. Good reason for the current exodus from the state.
06/25/26	John Christensen	60189	X		X	X					Oppose	Before considering any increase, please fix the following problem: passenger vehicles pulling boats or other light trailers with 2 axles are paying an unfair toll rate, they pay the same as a medium CV which is 2-4x a passenger vehicle toll, even though the combined weight is typically equivalent (or less) than 2 passenger vehicle and cause less traffic congestion than 2 separate vehicles This is an unfair burden on recreational boaters and other people with light 2 axle trailers, and the public in general is being unfairly charged medium sized commercial vehicles. The tolls for towing 2 axle trailers behind passenger vehicles should be 1.5 to 2 x of the passenger vehicle rate at most, and much less than a medium CV. Thank you.
06/25/26	JMCG	60515	X	X	X						Neutral	test
06/25/26	ANTONIO ONG	60641		X			X		X		Oppose	THE INCREASE IS NOT NECESSARY. THE PRESENT RATE OF TOLLS ARE MORE NOT ENOUGH TO SUPPORT ITS EXPENSES.
06/25/26	Ashley B	60404	X		X		X				Oppose	This state needs to stop taxing the shit out if us. Jb is on facebook always talking about Trump this Trump that. But yet many state laws that Trump cant touch...is another tax for us. How can he say he cares about illinois? We already get taxed from our job...now youre trying to raise taxes on us driving to work!? Disgusting
06/25/26	Mark Taylor	60655	X		X		X				Oppose	The tollway was supposed to be to eliminate tolls years ago. And now we're increasing them again. I want out of this state, I cannot afford it.
06/25/26	Sharon	60439				X	X			Reliable route from point a to point b.	Oppose	I commute on 355 and 88 everyday to work. It's my only way to get to the western suburbs from Lemont. I am a teacher- I can hardly afford what tolls are right now. Side streets will take me 1.5 hours each way to get to work. Please don't raise the tolls. We can barely survive as it is.
06/25/26	Brett	54501	X		X		X				Oppose	You guys have got to be kidding us drivers that use the tollways. How much more money can you nickel and dime us? We already pay a ton of taxes for road improvements and other infrastructure. I believe you spending has gotten out of control and all the fees and extra taxes on everything is just insane. I think maybe you should look at your wages and start there that is a huge increase good luck trying to sell it to anybody normal.
06/25/26	David Mijares	60450		X	X	X					Oppose	There will be more traffic and it will be more expensive going to places
06/25/26	Brian Bravo	60517	X		X		X				Oppose	
06/25/26	Karen Carroll	60477	X				X			Affordability	Oppose	The state of Illinois is out control with taxes. Instead of balancing a budget and reduce spending, so many costs are passed on the the public. We simply cannot afford to pay more taxes. I live on a fixed income and am being taxed unmercifully. I will avoid the toll road as much as possible.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
06/25/26	Jack Meoff	69696		X			X			Being able to drive on a road without paying	Oppose	How about no!
06/25/26	WILLIAM SHAZER	60490	X				X			Safety	Oppose	The tollway was supposed to be temporary. Now you're coupling it to inflation. This is another unavoidable tax in this state. If you are able to tie the tollway into other states (Washington, California , Texas) and allow it to pay for parking garages in the Chicagoland area I'll get behind the increase as that's showing improvements. The Texas tags allow you to enter and exit the airport garages using the toll passes. This would be an improvement. Your roads are lackluster and are not built with future travel needs envisioned.
06/25/26	Carl Fuderer	48025	X		X		X				Oppose	These price increases are outrageously expensive ! Bring the cost down to a reasonable increase ! Not 45 cent per use increase and 30% on commercial also too much. Will just make price of our goods increase ! Hits people too hard financially ! Too big of an increase !
06/25/26	Laura Rubicz	60188					X		X	Toll free in '73! There will never be less traffic!	Oppose	Citizens are strapped enough and here you go asking us to bend over once again. What ever happened to "toll free in '73"? You know, the slogan when it was built in 1950? We are tired of this crap! Stop mismanaging our money and it wouldn't have to be raised.....again!
06/25/26	molly obryan	60130	X				X		X		Oppose	Tolls are already too expensive I already avoid toll roads and plan to avoid them even more Toll roads are a rip off and we who drive on them have little to no options The toll roads are a money grab
06/25/26	Agatha L	60103				X	X			Affordability	Oppose	Stop finding ways to take more of our hard earned money. You get enough of it through our taxes and the already high tolls!! Ask pritzker to hand over the taxes he's using to keep Illinois a sanctuary city!!!
06/25/26	Mae Williams	60053	X				X		X		Oppose	Use money more wisely, I seldom take a toll road, fee too high now. Take better care of roads and stop building more. What happened to eliminating toll, right, keep hiring more people, get less work
06/25/26	Florencio Chagolla	60140			X		X			Affordable tolls!!!	Oppose	
06/25/26	Ryan	60453	X		X		X				Oppose	Don't forget to mention that upper management will get large bonuses and raises. You don't need to raise the tolls.
06/25/26	Tyler Rudy	61061		X			X			Oasis pull off	Oppose	Veterans should be able to travel through ipass for Free
06/25/26		60410	X				X			Cost	Oppose	
06/25/26	Butthead	60193			X		X			None, How fast can I move out of this horribly run state	Oppose	Add this to the multitude of reasons Illinois is the worst state
06/25/26	Alice Clark	60137	X				X		X		Oppose	I am one of many, many people in Illinois that wants to live in another state. I am very saddened that we have the accomplishment of the most governors that have been in jail. Sad. Illinois has huge financial management issues. I am here because my family is here. I have lived elsewhere as well. I do not support spending any more money. Illinois needs to be much more accountable for where are tremendous tax dollars go. Do not support at all. Thank you for asking.
06/25/26	Steven Tanguay	60638	X		X		X				Oppose	this seems like an awfully steep increase.
06/25/26	Leyna	46342	X		X		X				Oppose	Don't raise the tolls!

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
06/25/26	Steven Sabourin	60513			X		X			Access points that are easy to exit onto the interstate. The entrance ramp from Cermak Road (22nd Street) to northbound I-294 is very dangerous. We usually go south and enter I-294 North from Ogden Avenue which takes us out of our way.	Oppose	It's a dramatic one-time increase. It should be more gradual and started earlier. The Tollway should adjust rates in accordance with the Consumer Price Index EVERY year rather than every OTHER year.
06/25/26	SMITH	60538	X		X		X				Oppose	
06/25/26	stafford wade	53223	X	X						Communication	Neutral	
06/25/26	Jeremy	61011-9517	X		X		X				Oppose	Do not raise the tolls. We spend enough on taxes in this state. The last thing we need is another increase in what we pay
06/25/26		60458		X				X		Usually fastest and shorter route	Oppose	Tolls are expensive right now, with the cost of living after the increase it will become really not affordable. We pay enough taxes to cover road works etc and truckers pay even more taxes and fees.
06/25/26	Joan Doran	60136	X		X		X				Oppose	We are already heavily taxed in the state of IL. Enough is enough. This increase also negatively impacts people visiting our state.
06/25/26	Lynne Swanson	61244	X				X		X		Neutral	I just\nWant to know as far as improved road is downstate drivers again paying for chicago, like we do for so much else in the state
06/25/26	Andres	60030	X				X			To keep tollway rates the same.	Oppose	I vote against this new program. Absolutely ridiculous.
06/25/26	Laurie Weber	60025	X		X		X				Oppose	Start learning how to budget otherwise moving out of Illinois is an option How many toll increases can people take?
06/25/26	Grant	60565	X				X			Fraud	Oppose	All Illinois has ever done is raise taxes to feed the Democratic/Commie regime. We have been ripped off long enough.
06/25/26	Robert McGrath	60452	X				X			Less tolls	Oppose	Tollway/ idot always has a huge surplus so why in the hell do u need a raise
06/25/26	Larry J.	60084			X	X	X				Oppose	Another TAX grab! you are making living in Illinois less attractive every year. As soon as we can, we are leaving Illinois.....we've had enough!!!!
06/25/26	Brian Lazzara	60448		X					X	Rebuild and bring back all of the Oasis in Northern Illinois that were torn down.	Support	We support modernized and less congested toll roads. And paying an increased toll amount is an equitable way to realize these improvements.
06/25/26	Kenneth Miller	60517	X			X	X				Oppose	This is exactly why everyone is LEAVING Illinois!! And I am working on a way out! Pritzker needs to give much MORE money to infrastructure than paying people to not WORK!!
06/25/26	kevin gulley	60601					X	X	X		Oppose	
06/25/26	Desiree	60431	X		X		X				Oppose	Stop mismanaging our money then you don’t have to worry about raising tolls. Tolls were never intended to be a lifetime payment.

06/25/26	Brian Wendlandt	60142	X		X		X				Oppose	I primarily drive I90. This and many toll roads were expanded and rebuilt during COVID. What has happened to all the money collected after the roads were rebuilt? I can't imagine a rate increase is required to continue to maintain and expand the tollway system
06/25/26	Carol	61115	X				X		X		Oppose	As a senior driver, and on a fixed income, I would like to see some discounts for the toll roads.
06/25/26	Judy Smith	60002			X	X	X				Oppose	So, starting in 2027 and for the next 15 years, the tollways will be under construction causing severe headaches and delays for drivers. Whose bright ideas is this?

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
06/25/26	MarK Lobsinger	60190	X				X			Affordability	Oppose	I pull a 22 ft boat with a dual axil trailer with gmc canyon... a small truck. We go 2 or three times a year to Fontana for a day trip. We are retired. The tollway although more convent costs so much more we are forced to take back roads so we don't pay over 20.00 round trip in tolls! How can you possibly charge my small truck pulling a small boat the same as a semi truck weighing 20,000 lbs or more!! You force me to not use the tollway system that my hard earned tax dollars have paid for.
06/25/26	Alicia Sears	60443			X		X	X			Oppose	
06/25/26	Goce Taseski	53140	X		X		X				Oppose	What improvements will justify the increase in price.
06/25/26	Cindy	52317		X	X	X					Support	I lived in Chicago for 15 years but recently relocated but visit often. I support the toll increase as I still maintain a transponder.
06/25/26	Randy Markowicz	60423	X			X	X				Oppose	
06/25/26	Sabas	61032	X				X		X		Oppose	
06/25/26	Nick	60646			X		X		X		Oppose	
06/26/26	j gendron	60175			X		X			Pritzker is fiscally irresponsible taxing Illinoisans to death! I'm going to move out of Illinois ASAP!	Oppose	
06/26/26		60137	X				X		X		Oppose	
06/26/26	Laura Franklin	60554	X			X	X				Oppose	Tolls are already high. If you want to raise rates, raise them for everyone but passenger cars.
06/26/26	Caitlin Daly	60532	X			X	X				Oppose	
06/26/26		53211				X	X			Safe roads - less weird lane changes and signage that is unclear	Oppose	The suggested toll rate increased passenger vehicles of $.45 per toll is unacceptable especially considering that commercial increases are 30%. I would recommend any increase be a percentage not a flat toll. The Illinois toll road is becoming prohibitively expensive.
06/26/26	Jack Morton	60012	X				X			none	Neutral	I would love to see the detail behind the $ 725 cost to drivers per year for maintenance.
06/26/26	Wendy	60510			X	X	X				Neutral	The increase is too drastic, especially in this economy. It will really hit people hard who cannot take public transit and are already struggling in today's world. a gradual increase would better suit the public
06/26/26	Mary Savio	60192	X		X		X				Oppose	I don't support a toll increase. Illinois already collects enough.They need to manage money better.
06/26/26	Linda Elmer	61018	X			X	X				Oppose	Tolls are already high!!!
06/26/26	Craig Plymesser	50849	X		X		X				Oppose	Cap administrative costs to 2% of the total cost.
06/26/26	Baltimore Ortega	46385			X		X			None, I prefer the old days, No Tolls.	Oppose	I prefer the old days of no tolls. I drive a gas car and have to pay for the EV who do not pay gas taxes. Also, this is a difficult time in the economy with prices always going up. This rise in toll is one more painful cost. The increase is not $0.45 cents, it's $0.45 each time time you use the tolls, every day, every month, every year, and the rates will increase in the future. I think it's time for using Google Maps with the No Tolls option on directions.
06/26/26		60081	X		X		X				Oppose	We are already taxed and tolled too much. Please explain why you haven't been able to care for the roads with all of the previous tolls and increases.
06/26/26	Paul McCrimmon	60538-6002	X				X			Stop Springfield from stealing the tollway funds	Oppose	The tollway was supposed to be eliminated in the 1980s. Why are the democrats allowed to steal our tollway money for their non-tollway projects. The current tolls more than cover toll road maintenance services and should not be increased.
06/26/26	Lisa Obecny	60448			X		X		X		Oppose	IL continues to raise costs year over year, these tolls were supposed to be temporary when they were first erected. Pull money from the sales of video gambling or legalized marijuana. Absolutely ridiculous, the tolls already cost $3.90+ in some areas(I.e. southwest suburbs). By continuing to raise the cost of the highways, and constantly deal with the slow IL construction cycles adding longer transit time, IL continues to highlight why people are leaving the state. Taxed to oblivion with minimal positive impact.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
06/26/26	Tim kontek	60143	X		X		X				Oppose	There should be no annual price rate increases. This should have to go through the legislature every time it is proposed. I don't mind paying tolls if they are to directly make the roads better and relieve congestion. But, the tollway funds should be used solely for maintenance and construction of the tollways. The state should not be able to divert these funds to any other unrelated projects including mass transit bailouts and funding. The tollway was supposed to be an independent entity so I am not sure how they are allowed to divert funds intended for tollway infrastructure. Given the growing needs of transport, and commercial cargo on the roads, we cannot have this happen.
06/26/26	Amy Bye	60016	X		X		X				Oppose	The increase proposed is too high. When I drive I usually pay many tolls so this increase is too much. I would support a lower increase. We need safe roads and to maintain them.
06/26/26	Lee Alagna	53115			X		X			Why have a 55mph speed limit when most do 90mph plus? Did the state defund the state troopers? Yeah, I know, dumb question.	Oppose	Amazing how my entire life the toll roads have been under construction. What was supposed to be a short-term funding program turned into an infinite money grab. I am glad you are making it easier for the rest of the fiscally responsible Illinoisians to have a clear path to leave this corrupt state…like I did 35 years ago. Maybe if you moved the cones off the road and allowed traffic to flow over the already re-done (19 times over) roads, people would spend less time in their cars…just a thought. Of course, common sense is lost on you folks as all you are interested in is how to further line your pockets at the traveling publics expense. Not sure why you even ask for opinions…is this just a coy way of stating the next toll increase is going to happen, under the guise that the publics opinion matters?
06/26/26	Mark P	60175		X	X		X				Oppose	The toll charges were supposed to be temporary stopping many years ago and not be a profit business. Decrease tolls not increase them.
06/26/26	Mark Streit	60068			X		X			No tolls	Oppose	
06/26/26	Hope	60538			X	X	X				Oppose	
06/26/26	Sarah Resco	60450			X	X	X				Oppose	OPPOSE
06/26/26	Linda Bischman	60490	X			X	X				Oppose	
06/26/26	Meagan	60192	X				X			opposed	Oppose	With the rising cost of everything this is just another way to make Illinoians feel the constraints of financial burdens.
06/26/26	Daniel Bacoulis	60631					X		X	More state troopers patrolling the highway	Oppose	You can't keep gouging people for unnecessary projects. You started the I-490 construction 9 years ago and it still isn't completed. That's ridiculous! But it shows that was a project that wasn't needed either. Stop wasting taxpayers money. You get more then enough out of the gasoline taxes, vehicle registration fees and current tolls collected. STOP WASTING TAXPAYER MONEY.
06/26/26	Tracy Powe	60030			X	X	X				Oppose	Tolls are already expensive and don't always provide the fastest route. I have never felt that I get the value for my money in the 30 years that I've been traveling on the toll roads. I avoid them at all cost and would rather add a few more minutes to my travel time to avoid the tolls then to go through them.
06/26/26	Jim Vallazza	61369	X			X				No need for increases	Oppose	We are already being hammered with significant gas taxes that we were told were to be used to maintain Illinois roads. Instead, there is a surplus in this account and only a small fraction is being used to maintain Illinois roadways, mostly in the Chicagoland area. If our politicians did what they said they were going to do and use the gas tax revenue to maintain roadways as it was originally designed to do, there would be no need to hit Illinoisans again with more fees and more taxes. It seems apparent that Illinois politicians care little for the people they represent and who pay their bills. This proposed increase is just another prime example of that.
06/26/26	Laura Tapia	60632	X		X	X					Support	I like to travel a lot and need to get to O'Hare International Airport frequently. I always use the tollway to get there because it's fast, easy and safe. I support more investments in the tollway.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
06/26/26	Rita Odegaard	60134			X		X			Increasing tolls won't help the congestion that has increased markedly in the Chicagoland area.	Oppose	Inflation is outrageous for lower and middle classes and high values increasing had only increases our real estate taxes. STOP WITH THE TAXES ALREADY, AND DON'T INCREASE THE TOLLS. Instead, quit spending other people's money so inefficiently on pet programs. STOP. All this will do is add additional burdens to lower and middle income earners who need to use the toll system. A 45 cent toll increase is outrageous.
06/26/26		60559	X		X	X					Support	I like the Tollway is smooth and has lights everywhere.
06/26/26	Yessenia Castro	60525	X	X	X						Support	My daughter plays travel soccer. I am always on the tollway because I can't stop and go on the local roads. I hate sitting in traffic.
06/26/26		60515	X						X	Safety	Support	I always feel "safer" on the Tollway.
06/26/26		60515	X		X		X				Support	I completely agree with the increase every 2 years.
06/26/26		60515	X				X			Lights	Support	I understand the need for the large increase now and support the ongoing rate increase.
06/26/26	John Falkenberg	60450	X		X		X				Oppose	
06/26/26	maureen koscielak	60008	X				X		X		Oppose	retired living on social security and cannot afford to pay more
06/26/26	Jeff Gritzenbach	60544	X		X		X				Oppose	With the governor's recent tax on tolls in IL, nobody will be able to afford to use the system. I unfortunately will take other roads to save money.
06/26/26	CAROLINE M KNOFF 34028332	60139	X				X		X		Oppose	I think the increase is a bit high.
06/26/26	Michael Sosa	60148	X		X		X				Oppose	I support raising toll on commercial vehicles, but not passenger tolls by this much. I already spend approximately $400 per year on tolls driving to and from work and I don't want to spend more. I think raising the toll by only $.10 at most would be appropriate, or increase passenger tolls only for those who don't use ipass.
06/26/26	Ken	60056	X		X	X					Support	As someone who drives on the tollroads every day for work I am willing to pay a little more if it means faster commutes and better roads. The predictablity of knowing when I'll get home to my kids is worth the extra cents.
06/26/26	ANTONN HARDEN	60620			X	X	X				Oppose	None
06/26/26	Lori Heilstedt	60404	X		X	X					Support	The traffic in the Chicago area is horrible and any improvement will be very welcome. Happy to pay higher tolls for a reduction in congestion and better travel time reliability. Fully support this effort
06/26/26	Andrew	02116	X		X			X			Support	
06/26/26	Bill Cramer	60423	X	X		X					Support	Tolling helps me to commute to work more easily. It reduces congestion and keeps traffic moving.
06/26/26	Joe Vallera	60404	X		X	X					Support	I hate congestion and need travel time reliability. Tollway has the best maintained roads. Support increasing tolls to help reduce the congestion and better travel time reliability.
06/26/26	Mike Mulling	60122	X		X	X					Support	I support toll roads because it helps me better prepare for my drive time and usually is a less congested roadway. The quality of the roadway is typically better maintained than state roads, and if something happens to me or my vehicle on the toll road I know there are services and quicker response to me than on a general road. I overall do not enjoy sitting in traffic, as others do not either, and do not mind to pay to free up my time. My time is valuable, and sitting in traffic due to limited capacity on a roadway is not how I want to spend my time.
06/26/26	Paul Heilstedt	60423	X		X	X					Support	Congestion in Chicago area is horrible. I can't stand sitting in traffic. Fully support higher toll rates to help congestion and give us all better travel time reliability
06/26/26	Luke Stanczyk	60559		X	X			X			Neutral	I am excited about the new access points that will be available across the system. I understand a rate increase comes with that.
06/26/26	Robert Horvat	60404	X		X	X					Support	Would support paying higher tolls for expansion of the tollway and decreased congestion. I hate congestion. Need predictable travel times and if that means higher tolls, i support this.
06/26/26	Al	60056	X		X		X				Support	Traffic is getting out of hand lately. If this toll increase is what it takes to fund ways to get us clearer less congested roads, I'm all for it. Time is money and when I drive on other roads I am losing too much time sitting in traffic, so tollroads it is!

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
06/26/26	Migdalia Fernandez	60431			X		X			NOT raising the prices for the tollway	Oppose	This is absolutely insane that you all are proposing a raise to prices. It's already hard enough for Illinois workers to get to and from work and survive off of the money we earn, now you want to raise prices in an already inflated world? You're barely finishing the work that's needed on the roads. Do what you promised years ago, and then MAYBE decide whether or not this is a good decision.
06/26/26		60430	X		X		X				Oppose	Eliminating tollbooth workers during COVID should have saved the tollway money in salary/benefis. Given the increased costs of gasoline, food, rent, etc. now is not the time to increase tolls when families are struggling to meet everyday expenses.
06/26/26	William Toohey	44118	X	X	X						Support	
06/26/26	Nicholas Panicola	60106	X	X	X						Oppose	Everything else is rising across our economy. The tolls make enough money. Do a better job of planning and preparing to space out job instead of everything at once or to many jobs at one time.
06/26/26	Holly	60004			X	X	X				Support	I use the toll roads to visit my family. At my age I want a drive that is safe and stress free. I support this investment in our roads because it means I can get to my loved ones faster.
06/26/26	Joe Barca	60056	X		X	X					Oppose	
06/26/26	Nicasia Djikas	60448	X		X		X				Oppose	
06/26/26	Joey Misener	60555	X		X		X				Oppose	The jump in price seems a little too ambitious! Not the best time in the political and economical climate to hit people with more costs and fees
06/26/26	Emilee Stanczyk	60559	X		X		X				Neutral	
06/26/26	Andrew	60403	X		X		X				Oppose	You never have the roads repaired right or timely. We shouldn't have to pay for your negligence about it
06/26/26	Craig Pickering	60418				X	X		X		Oppose	You have to be kidding me! How much more can this Big Beautiful Blue State charge It's Middle class?
06/26/26	Anselmo Presisto	60098	X	X		X					Support	Well maintained road & bridges keeps our roadway system safe and enhance business & economy.
06/26/26	Nancy Stanczyk	60559	X			X	X				Neutral	
06/26/26	Beth Tatro	60189	X			X			X		Support	I commute often and need to be able to travel reliably between home and work. I trust the Tollway to provide safe, reliable traffic times, and help if I need it. The roadside assistance is crucial!
06/26/26	Sara Denham	60098	X				X		X		Oppose	When the toll roads were first put into place, they were supposed to be temporary. WTH happened?
06/26/26	Martin Stanczyk	60559	X			X	X				Support	If it maintains safe roads and decreases travel times.
06/26/26	KB	60172			X	X	X				Oppose	No!!! We pay enough already and the roads are still shit. Illinois will misuse our funds like they do with everything else. This will make the toll roads unaffordable and with the high fuel rates taking the long way around isn't a great option either. As per usual we are getting fckd
06/26/26	Lily Tatro	60189	X			X			X		Support	I am a new driver and appreciate knowing there are people to help me if I need it. My mom made me save *999 in my phone.
06/26/26	Matt Tatro	60189	X	X		X					Support	The Tollway has successfully fostered economic development with new access and roadways. I want to continue seeing new and expanding businesses in Illinois.
06/26/26	Austin Tatro	60189	X	X	X						Support	I want to get to my baseball game as fast as possible.
06/26/26	Daphne Tatro	60189		X	X	X					Support	I rely on the Tollway for safe travel. I appreciate all the people who work to keep it that way.
06/26/26	Regular user of tollway	61081	X	X		X					Support	
06/26/26	Alicia Gutierrez	60142		X		X			X		Support	We need more roads in my area. Traffic is horrible and we need to make sure we can move around and get where we need to go. It's expensive but as long as it goes to the right place, I can support this.
06/26/26	Ambi Durcal	61102		X	X	X					Support	My job is in Chicago and traffic is horrible. I appreciate the tollway and feel that we need more toll roads to get downtown easier.
06/26/26	Elisa Lopez	60089			X	X	X				Support	I will pay more to not sit in traffic. Fix that and I could support

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
06/26/26	Kevin Ahern	60126	X			X				Convenience	Support	I have been using the Tollways for as long as I have been driving. Us dinosaurs remember the long rush hour queues at the cash boxes. The Tollway has come a long way in delivering a very enjoyable and functional ride for motorists. Yes, it costs a bit, but the convenience, condition, and overall enjoyable ride makes up for the price paid. Frankly, I cannot wait until the Central Tri-State work is complete!
06/26/26	Sharon J. Andrews	60160	X				X			Sober drivers	Oppose	ABSOLUTELY NOT!!!! Cut back on welfare programs, find another resource. BAD TIMING! STOP SQUEEZING the life out of Illinois residents.
06/26/26		60464	X		X					Safety	Support	
06/26/26	David Smolensky	60035	X		X	X					Support	The Tollway is the one roadway system in the region that is well maintained and predictable. Additional investment is welcome and appreciated.
06/26/26	Jessica Gruben	60404	X		X	X					Support	I hate congestion and inability to predict how long my drive is going to be. I support this small toll increase to improve both of these.
06/26/26	Joe Gruben	60404	X		X	X					Support	I hate congestion and inability to predict how long my drive is going to be. I support this small toll increase to improve both of these.
06/26/26	Bill Melby	60423	X		X	X					Support	I hate congestion and inability to predict how long my drive is going to be. I support this small toll increase to improve both of these.
06/26/26	Amy Melby	60423	X		X	X					Support	I hate congestion and inability to predict how long my drive is going to be. I support this small toll increase to improve both of these.
06/26/26	Scott Heilstedt	60423	X		X	X					Support	I hate congestion and inability to predict how long my drive is going to be. I support this small toll increase to improve both of these.
06/26/26	Zach Melby	60423	X		X	X					Support	I hate congestion and inability to predict how long my drive is going to be. I support this small toll increase to improve both of these.
06/26/26	Irsilia Colletti	60517	X		X	X					Support	The Tollway is well maintained and its improvements are evident and thoughtfully executed especially considering the complexity of Chicago and O'Hare area traffic patterns and intensity. As with any type of improvements, funding is required. The Tollway's execution of its projects instill solid confidence that increases in tolls are utilized in deliberate and well-planned manners.
06/26/26	David Waterman	60035	X		X				X		Support	The Tollway system is the best, safest, and most convenient!
06/26/26	Ashley Smolensky	60035	X		X		X				Support	The tollway is very reliable and well maintained. Ensuring that it stays that way is important.
06/26/26	Deb Smolensky	60035	X		X	X					Support	Our tollways are the best given I travel often to other states.
06/26/26	Carlos Mata	60538	X		X		X				Oppose	
06/26/26	Austin Loehman	60559			X	X	X				Oppose	
06/26/26	Dwayne Branum	61107	X				X			Effeciency and affordability	Oppose	The Tollway already generates an annual revenue of roughly $1.6 billion. Toll revenue alone reached a historic high of nearly $1.4 billion, with passenger drivers contributing about $697 million and commercial vehicles making up a record $742 million. The proposed increase seems excessive with the amount of revenues already being generated, and shows little concern to the taxpayers and how it impacts their pocketbooks. Tolls have never been reduced after capitol projects have been completed and the timeliness seems poorly planned with cost of living expenses at an all time high. I would recommend delaying the capitol project or identifying other channels to fund the project that does not impact the taxpayer. With the revenue already being generated it would seems that could cover a phased in project without the proposed significant increase in the toll rates taxpayers will absorb.
06/26/26	Louis addante	60189	X		X		X				Oppose	The new increases are being diverted to Chicago not the roads. This increase is huge and will hurt already struggling illinoians. If passed the side streets will be gridlock as people will avoid using the tollway. Illinoians need a break, you make plenty of money from use. What happened to free in 73. Please don't gouge use for this blatant money grab
06/26/26	Henry G	61021	X				X		X		Support	I support keeping the Tollway self funded and independent. Best way to get to and from Chicago area. Thanks
06/26/26	Augie	60137	X			X				Safety	Support	While I don't like paying more, I realize that the Tollway roads are better maintained than many of the other roads I drive on in the state.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
06/26/26	Samuel	60439		X	X	X					Support	The Tollway does good work on their projects. Roads are in great condition. Increases for inflation every two years is fair.
06/26/26	Jeff S	53115				X	X			Less corruption	Oppose	The Tollway Authority is the most corrupt organization in the most corrupt state in the union. There is no credibility and I have no reason to believe that these proposed increases would be used fairly and efficiently.
06/26/26	Caroline	60021			X	X	X				Support	Costs go up for everything, and roads are no exception. I'd rather see a modest, proactive toll increase now to fund improvements than watch our roads crumble into disrepair. I support this increase.
06/26/26	Eileen Chin	60607	X		X	X					Support	The Tollway user-based system.This is a modest increase and will ensure our roads are maintained.
06/26/26	Summer Maison	60645	X		X			X			Neutral	
06/26/26	Colleen Flynn	95401		X	X			X			Support	
06/26/26	Bernadette Phillips	60515						X	X	Old enough to remember that the tollways were supposed to become free!! Obviously that will never happen. And, now all the oasis stopped are gone. What about some nice clean stops with restaurants and bathrooms like the ones available on the Ohio turnpike?	Oppose	I really oppose, but I am sure the increases will go ahead anyway. I wish we could get to a point where travel could be achieved with no road construction which is the biggest hindrance to travel time and safety.
06/26/26	Mike Lisek	60544				X	X		X		Oppose	Years ago there was a promise to end tolls. The current plan is ridiculous. Illinois cost are out of control. You need to thin expenditures and tighten your belts! I absolutely disapprove of any increase.
06/26/26	Amy Thayer	49401	X	X					X		Support	Illinois toll roads are generally well-maintained and I appreciate this. I understand it takes money to make that happen, and costs rise over time. I appreciate iPass technology and support this measure.
06/26/26		60035	X		X					Reducing environmental impact	Oppose	
06/26/26	Sharon Nader	60451	X		X		X				Oppose	With the price of gas, groceries and taxes, we cant afford a tollway increase. We drive it twice a day for work. Do not increase the tolls.
06/26/26	Sara Dopke	60013	X				X			Affordable tolls	Oppose	I wish that the toll rates could just stay the same. I know that people work hard to earn their money but when I travel the tollway I see numerous workers standing on the side of the road just talking.
06/26/26	D.J. Cocks	60545	X	X	X						Oppose	
06/26/26	Randy	44202	X			X				safety	Support	The driving connections program will allow for growth and ensure safe, reliable travel for years to come!
06/26/26	Pete R	60564	X	X	X						Support	The Tollway roads are better than other systems. I'm OK with higher tolls if it's the tollway in charge.
06/26/26	Babs	60409	X		X		X				Oppose	I'm opposed to passenger vehicles paying a 45 percent increase and commercial vehicles paying a 30 percent increase. Why can't the increase be the same? Passenger and commercial vehicles travel on the same roads.
06/26/26		61114	X	X	X						Support	I support the increase. The tolls should have been raised every year like gas tax to avoid major increases, but at least it will be fixed moving forward

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
06/26/26	Ponicki	60004					X		X	Tolls	Oppose	The tollway already collects enough revenue to cover its operating and capital needs. Taxes in Illinois are already far to high and raising the cost of using the tollway will hurt Illinoisians directly through the cost of the toll and the increased cost of the goods that are moved on the roads. This is a huge tax increase and should not be implemented. Furthermore, the tollway was supposed to be free over 50 years ago. Stop raising our taxes!
06/26/26		60148	X	X		X					Support	As a daily commuter, I strongly support the Driving Connections Capital Program. Every day I rely on our transportation system to get to and from work, take my kids to practice and games, events, run errands, access healthcare and travel to visit family and friends. Safe, reliable roads are an essential part of our daily lives. Investing in maintaining existing infrastructure while improving access and mobility is critical. Well-maintained roads reduce congestion, improve safety, and make travel more predictable for everyone. Access improvements also help connect our communities, support local businesses, and ensure people can reach jobs, schools, healthcare, and recreational opportunities more efficiently. As our region continues to grow, it's important that we continue investing in transportation infrastructure so it remains safe, dependable, and ready to meet future needs. I appreciate the long-term planning reflected in this program and encourage its approval.
06/26/26	Dale Fontana	60586	X	X			X				Oppose	the promises made previously regarding tolls were not kept and that should come as no surprise. one cannot reasonably expect the efficient use of public money from this authority.
06/26/26	Joe Furlane	60404	X		X		X				Oppose	Illinois wastes so much money why does Pritzker want to tax us more. He is horrible.
06/26/26		60618	X		X	X					Neutral	An increase in tolls to better support other transportation options like public transit is needed. To decrease traffic/SOVs on our tollway, we need to improve and increase transit access, and this should be the main focus of increasing our tolls.
06/26/26	Allen Curry	60624	X	X		X					Neutral	The Tollway is a valuable infrastructure asset, and I appreciate the continued service, maintenance, and diligence that go into keeping the roadway system operating safely and efficiently. That said, I would not support a toll increase at this time. However, I do understand that continued maintenance, improvements, and long-term infrastructure needs may require additional funding. Thank you for the opportunity to provide feedback.
06/26/26		53119	X				X			Of these options and the ones I care about, there are only these 2	Neutral	45 cents is steep at EVERY toll? How about less than that increase and not at every one?
06/26/26	Curt D Casanova	53717	X		X		X				Oppose	Are you serious. My state has interstate in better condition and less traffic with no tolls. And you want an increase? Please explain what you are doing with the billions of dollars from your tolls? Please tell me there is absolutely no corruption involved. Please tell me that your state has not made a bad deal involving state benefits for your employees. Please tell me that your state is not in terrible financial condition based on poor political decisions.
06/26/26	Vincent R Connolly	60610-5103	X		X		X				Oppose	To large n increase
06/26/26	MC	61755	X			X			X		Neutral	I can understand the need for a rate increase, but 30% seems extraordinarily high. From a consumer point of view, EVERYTHING is up except my Social Security benefit. A smaller increase would be more reasonable.
06/26/26	John Foran	60439		X			X			No toll increases	Oppose	No one is asking for this huge unnecessary increase. Stop this.
06/26/26	Cindy Yost	60447			X	X	X				Oppose	This is literally “HIGHWAY ROBBERY”!!!
06/26/26	Edward Voss	60803	X		X		X				Oppose	Glad cost is being linked to cost of living
06/26/26		60639	X					X	X		Support	Jobs are supported.
06/26/26	Marisol Villagomez	60612	X			X	X				Oppose	
06/26/26	Tony Montana	60618	X	X	X						Support	Charge more but make sure the roads are smooth.
06/26/26	Philip imberman	60641	X				X			Not	Oppose	The tollway charges too much money now and they want to charge us even more money
06/26/26	Marta E Vera-Zamudio	60707-3939					X		X	Not in agreement with a 60%+ toll hike	Oppose	A 60%+ toll hike for each station would force me to take side roads vs express roads. Lower the amount!

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
06/26/26	Cindy Kats	60415-2143	X				X		X		Oppose	I'm 69 years old. When I was in gradeschool, the tolls were only supposed to be there for 20 years. Why are they still around? You want to raise the tolls? What have you been doing with 50 years of collected cash? Start spending our money more wisely instead of wasting it. NO INCREASE AND NO NEW TAXES.
06/26/26	Sonya Bellson	60102	X	X			X				Oppose	When these tolls were originally passed, they were presented as a temporary measure. However, they have become a permanent fixture, and the frequent rate increases are unacceptable. It is disappointing to see these costs continue to rise despite the initial promise of their removal. I urge you to reconsider the current tolling structure and provide transparency regarding when these fees will finally be discontinued.
06/26/26	NORM REUTER	60013	X				X		X		Oppose	A .45 cent increase is too much at one time. A .30 cent increase is more reasonable. The cost of vehicle maintenance has risen a lot in the last couple of years, along with recent gas prices. A tollway increase needs to be conservative.
06/27/26	Bryan Moore	60502				X	X			Less toll roads reduced cost.	Oppose	That's intentional gouging and it's going to piss everyone off. Illinois is already one of the highest taxed states in the country. Instead of constantly raising rates you need to figure out how to be more efficient with why you've got. Other state are much better at this that why I know many people that have left or are leaving Illinois. If that the goal here then keep ding what you have been doing.
06/27/26	fvck you	60517	X				X			literal highway robbery	Oppose	fvck you. increasing rates by 45¢ is literal highway robbery. increase them by 25¢
06/27/26	Jill	60091	X	X		X					Support	It costs money to make necessary improvements and maintain the roads. I support aligning tolls with the cost of that work so we can count on the tollway system to get to the places we need to go.
06/27/26	Marc	60016	X		X	X					Oppose	I am 62 and have been paying tolls my entire adult life: Is it true that the proposed future every other year increase will help Support the metra and rail systems in and around Chicago and the state as has been reported? If so, that is highly unfair to the vehicle drivers who do not ise those systems but use the tollway systems. I am against the proposed permanent increase if that is the case. If the increase are 100% used for tollways only, then I would be ok with it.
06/27/26	Robert H.	60068			X	X	X				Oppose	All this state does is raise taxes, tolls making it less affordable to live in this state. Tolls were supposed to be temporary. I don't mind paying a tolling reasonable but an increase is not warranted. State already has the money and Illinois gets money from the feds as well.
06/27/26	shafiq ahmed	60564	X		X					I 294 construction has been going on for more than 10 years.Will it ever end?	Support	We travel on I 88 then onto 294. I know it is a lot of work.I wish it would end in the near future
06/27/26	Carlson Dawn	60451	X		X		X				Oppose	Cost for tolls is already expensive. Your proposed plan wants to put more on the consumer instead of the commercial vehicles that weigh more and do more damage to the roads. Lots of out-of-state vehicles travel through the Illinois tollway, especially trucks and semis. You should put more of the toll increase burden on them and not the local residents /consumer.
06/27/26	Rita Young	60104	X				X		X		Oppose	Reduce the amount of tolls in Illinois. Upon entering Illinois and exiting locations throughout is excessive.
06/27/26	Lisa Geisler	60118-3341	X				X			Affordability to get to work	Oppose	
06/27/26	Susy Que	60056		X	X		X				Oppose	
06/27/26		46383	X		X		X				Oppose	
06/27/26	Jennifer Scott	60560	X		X	X					Oppose	Tolls were supposed to be temporary. They are still here because you don't know how to manage money?

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
06/27/26	Raymon S	53104	X		X		X				Oppose	This could be the Worst Time to impose a fare increase! With increase gasoline prices and inflation... a 100% increase is ludicrous and greedy. I thought the elimination of toll booths and coin collection/depositing was going make us closer to a freeway.
06/27/26	Michael Giese	60525	X		X	X					Oppose	Proposed increase is too high. Prefer stronger cost management efforts, oversight and efficiency review as opposed to solving with significant new revenue. Consider non-union labor to lower costs and better work rules for taxpayers,
06/27/26	Nick Meyers	60606	X			X		X			Support	
06/27/26	Michael Farmer	60563	X			X	X				Oppose	I am old enough to remember "Toll free by 73". Here we are 53 years later still paying tolls. Part of the current campaign states that tolls have not been raised in 10 years. Yeah so, what is your point? If you have not needed to raise tolls for 10 years, why now? Just because it has been 10 years? We already live in one of the most taxed states in the country. We have a governor who has either increased or implemented over 60 new taxes during his reign of terror over Illinois. Look, I have been around long enough to know how this process works. This increase is a done deal. It is happening. This survey is nothing more than a mere formality and has little to no value in changing that. I just find it very sad that you are electing to take the easy way out. With some hard work and tough decisions, I am sure that there is a path to continuing normal operations, service, quality, and affordability for consumers. I sure hope a few months down the road that I am not reading about massive pay raises and golden toilet seats at the Tollways headquarters.
06/27/26	Linda Home	60070	X				X			Lower cost	Oppose	
06/27/26	Barry Frank	60441	X		X		X				Oppose	Raising the price is only putting more money in the states pockets, it's not alleviating traffic and it definitely is not improving my family life. This is a complete crock of shit.
06/27/26	Darlene	60366	X			X	X				Oppose	All of the toll booths were originally supposed to to be temporary. We pay taxes for roads and the tolls are increasing constantly. Sometimes for less than a couple of miles. This increase is on top of the last increase that occurred fairly recently. It does not curtail drive times or improve roadways.
06/27/26	Andrew	60025	X	X		X					Support	Always nice to see investments to improve our infrastructure as it continues to age.
06/27/26	Scott	60093	X	X		X					Support	
06/27/26	Amanda Stover	48038				X	X			none	Oppose	These rate increases are way too significant for the daily commuter who is already struggling to make ends meet. The timing on this is in poor taste considering the state of the economy.

06/27/26	Jeff	60542			X		X			Prefer more police to slow down the drivers I355 to I88 is horrible- take your life into your own hands	Oppose	We just had an increase from JB for Chicago this is so wrong.
06/27/26	Karen Schaefer	60148	X				X			Too. Damned.Expensive.	Oppose	TOO.DAMNED.EXPENSIVE.
06/27/26	Dinah Kee	60148	X				X			Reasonable rates	Oppose	The initial reason for the toll was to improve the roads and end the grab for money. It was not meant to be a continuous drain on our pocket books. Your excuse for the increase is not valid or appreciated. If this greedy excuse for funding moves forward I plan not use the toll roads. This is the feeling of many of my family and friends.
06/27/26	Anthony Plankis	60477	X		X					Affordability?? That shouldn't even be a selection.	Oppose	Why do you waste money on this survey when you're going to increase the toll prices anyway. Stop spending money on entitlement programs and illegal aliens and then you could decrease the tolls.
06/27/26		60515	X		X	X					Support	Provided good roads and great support for drivers
06/27/26	JERRY OSADNICK	61342	X			X	X				Oppose	
06/27/26	George	60077			X	X	X				Oppose	No increase period

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
06/28/26	Bybis Jumsisikna	60445	X		X		X				Oppose	Stop laundering money and maybe you will have enough from what you already charge
06/28/26		60002						X	X	None of the above. Other selections were to bypass requirements to submit comment.	Oppose	Tax more more. Fuck this state
06/28/26	Vicki Pries	60451	X				X			None	Oppose	I have to drive 355 to get to work or anything north of where we live. There were no North south highways until that went in without driving 45 minutes east or west. I pay $5 a day now in tolls to get to/from work. Why are you wanting to add to that? Due to where I live and lack of jobs where I live, why would you charge me more to drive to make a living? I pay the motor fuel tax in all the gas I use. I already pay $120 a month in tolls. My cost of living raise isn't going to keep up with the increases it costs to live. I'll just need to spend more time driving through smaller communities to avoid tolls and less time with my families because the toll roads can't manage the funds properly? Or the state can't share the funds properly? Residents shouldn't be penalized for using their streets and highways. Maybe non residents driving through IL should have to pay a higher toll- yes commercial drivers can pay higher - they can work it out in their costs along the way. It's disappointing that this raise has to happen and in such a large chunk across the board.
06/28/26	Chris O'Malley	60013					X		X	I will not use the tollway	Oppose	I will take side roads from now on. Tolls were supposed to be gone in the 60's, this state is an absolute corrupted money hungry state. All this money goes nowhere instead it goes to corrupt Pritzker
06/28/26	Brian	61571	X		X		X				Oppose	Stop supporting illegal aliens with my tax dollars. Remove illegal aliens out of Illinois so tax payers are no longer burdened. Then, with the cost savings, reassess the need for increasing toll charges.
06/28/26		60516	X			X	X				Support	Costs go up. Tollway needs maintain the roads.
06/28/26	Mike Altendorf	60510	X			X	X				Oppose	This is outrageous. Illinois is financially strangling residents at every opportunity. Learn to manage your budget and stop sucking us dry. Check the statistics. Illinois is losing residents as people cannot afford to live hear.
06/28/26	Thomas	53142	X		X		X				Oppose	GREED!
06/28/26	Lmoe	60431	X		X	X					Oppose	
06/28/26	Anamous	60564	X			X	X				Oppose	Please explain to me why we have to constantly go up. Where is my money going. I know that you guys don't even care about what the public says you just gonna vote anyways to approve it and be done with it. Overall, the board does not take their job seriously. They can claim they are working for everyone, but they are actually not. They are a bunch of crooked individuals who are bribed by many politicians that only care about themselves and no one else. If any of the poor manners do decide of voting favor of this increase, they should immediately resign or faced the dire consequences from now from the public, but also from legal perspective.
06/28/26	Kimberly K Wood	60442	X				X			less truck traffic	Oppose	No matter how much is paid in tolls there is never any improvement. Roads are in poor condition. The roadsides are completely unmaintained. Grass and weeds overgrown. Debris is everywhere. It's embarrassing how bad they look and are! Nothing will change except the amount the hardworking citizens of this state will pay to use our horrible roads.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
06/28/26	Brian	60559	X	X				X			Support	I would like to advocate for in the strongest possible terms for Illinois Tollway and the Chicago Department of Aviation to fully cooperate and build a world-class western access point or terminal for travelers on the western side of O'Hare Airport. While I can look at a map of O'Hare's western side and it's clear to me that I don't think there's enough room to safely allow for a full concourse or terminal for arriving/departing flights. There does need to be a facility that allows western suburban travelers to utilize the new I-490 to get dropped off (or picked up) on the west side of the airport, then be able to clear security before proceeding to their gate via an expanded ATS at O'Hare or a new underground walkway/ATS that further connects travelers to their terminals. O'Hare is an economic engine of the region, and anything Illinois Tollway can do in partnership with the continuing modernization and upgrading of our gateway to the world will only serve to benefit the millions of Chicagolanders for decades to come. Thank you.
06/28/26	Melissa	60133	X		X		X				Oppose	A .45 cent increase is a HUGE increase, from the current .75 cent toll rate for cars. I know we need to maintain our roadways, but they are going to become too expensive to drive on!!
06/28/26	Cat Harmon	60628	X				X		X		Oppose	
06/28/26	Kevin Paarlberg	60178	X				X			Fiscal Responsibility by agency	Oppose	The Illinois Tollway has not made a case why additional tolls are needed. The tollway needs to live with the tolls that they are currently receiving and not try to gouge the public. The tollway has been doing capital upgrades continuously over the past 15 years. A lot of this money is being spent on features that are completely unnecessary. For example, on I88 west of Aurora, there are pullout areas every few miles that were added not many years ago. This was complete waste.
06/28/26	Patrick Smith	60010			X	X	X				Oppose	
06/28/26	Suzanne Chaplin	60010			X	X	X				Oppose	
06/28/26	Natalie Smith	60614			X	X	X				Oppose	
06/28/26	Hannah Smith	60610			X	X	X				Oppose	
06/29/26	Colleen	60559	X			X	X				Oppose	I'm a senior citizen who is on Social Security and make less than $26,000 total every year. I appreciate the reduced rates for low income families and hope that this proposal will not affect this program. Everyone I know are already struggling to make ends meet. I'm sure this increase will negatively affect all people making less than $75,000.
06/29/26	Keith Spencer	60302	X	X		X					Support	I support the Driving Connections program because investing in transportation infrastructure today will improve safety, reduce congestion and strengthen our region's economy for years to come and if that means paying an increased toll that's what we have to do.
06/29/26	Mike Brown	60142		X			X			Raising rates on tolls	Oppose	You cannot be serious! The rates are already outrageous and you want to raise them. Your agency has been completely mismanaged and you need to find competent directors who can operate within the budget and not spend frivolously. Maybe start by cutting the outrageous salaries! Clean you own house before levying more taxes on Illinois residents!
06/29/26	Janet Wackro	60513	X		X	X					Support	Continued investment in the Tollway system will create jobs, support local businesses and improve the reliability of the transportation network that millions of people depend on every day.
06/29/26	Ed Novicki	60016			X		X			Freeways	Oppose	Another reason to move to Wisconsin. Ridiculous.
06/29/26	Joan	61008	X	X					X		Support	As long as the money is all used for the Tollway, I'm OK with the increase. Tollway roads are better than IDOT and I like having help trucks for breakdowns.
06/29/26	Kendall	61008	X		X				X		Support	I support the toll increase. Tollway has created jobs that we rely on. Board please vote yes.
06/29/26	Vince	61023	X	X		X					Support	I support the Illinois tollways plan to build new on ramp in Lee county. we need better access.
06/29/26	Amanda crespo	60410	X		X	X					Oppose	Illinois is already too expensive to live in. Definitely thinking of moving out. Along with lots of others especially if you raise tolls. We rely on the toll ways to get to work. We already don't make enough (especially me being a pre k teacher)to make a living. And don't even get me started on these gas prices. Now your going to make it too expensive to get to work. I vote HEEEEELLLL NAWWWW
06/29/26	Ferzan Ahmed	43065	X			X			X		Support	

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
06/29/26	David	Andalcio	X		X				X		Support	Well maintained efficient system
06/29/26		60517	X		X	X					Neutral	
06/29/26	Joi Dean	23059	X		X	X					Support	I fully support tolling as a means to fund transportation projects.
06/29/26	Rosa Rountree	32835	X			X			X		Support	I understand the cost of services are increasing and in turn the cost to travel must also align with those increases.
06/29/26	Shelley S.	53590	X	X			X				Oppose	I have been traveling to Illinois for a long time now to visit family. I was born in Illinois and I still don't know where all the money you have collected so far from me has gone. The roads are always in terrible condition. We don't have this issue in WI and we don't collect toll money. Hmmmm... wonder where it all goes and now you are proposing to raise the amount? That's terrible.
06/29/26	Madeline Washington	32818	X				X	X			Support	
06/29/26	Ann L. Jasper	60540	X		X		X				Oppose	I use the tollway regularly. I oppose the increase of .45 for this year, and especially oppose the time frame you wish to use for future increases.
06/29/26	James R Jasper	60540	X		X		X				Oppose	If 33% of my reason for using the tollway is affordability, why would I support fee increases, ESPECIALLY since you plan to implement (potential) additional increases every two years.
06/29/26	Mike Zorn	60189	X		X	X					Support	
06/29/26	Mackenzie Rouw	60657	X		X			X			Support	Helps me travel to the airport faster.
06/29/26	Haley Alberstett	61108	X		X	X					Support	I support a reasonable Illinois Tollway increase if the additional revenue is dedicated to the Capital Improvement Program and used transparently. Investing in the transportation system is essential to preserve existing infrastructure, improve safety, reduce congestion, and support economic growth.
06/29/26	Michael	60445	X	X			X				Neutral	What specifically is the increase going to?
06/29/26	Gordon	60175	X		X	X					Neutral	I wonder where the money goes. The price goes up, but you never say where it goes. If this astronomical amount of revenue all went to the toll roads, we should expect much better road conditions and shorter repair shut downs. Can you include a synopsis of how it is spent so the public can stop speculating that is goes directly into the governers pocket. Thats all I keep hearing. Thank you.
06/29/26		60193	X	X		X					Support	
06/29/26	Ralph Biesk	60148	X				X			Safer traffic, better law enforcement of traffic violations against dangerous drivers	Oppose	Tolls are already overpriced and mismanaged
06/29/26	RALPH LARSEN	60005				X	X		X		Oppose	A 10% raise should be sufficient for your needs. With inflation hitting us on everything there is no need for doubling the cost of the tolls.
06/29/26	Paul Loete	60532	X			X	X				Support	Tollway does a super job maintaining their assets. I would support a tolling increase because the tollway has the credibility for me to know that increased funding will go to good use.
06/29/26	Samuel Johnson	48221	X		X	X					Support	
06/29/26	Harpreet Singh	60565		X			X			Too much toll	Oppose	
06/29/26	Mimi	60503		X	X		X				Oppose	
06/29/26	Christine Reed	62711	X			X		X			Support	
06/29/26	Daniel Colón	60535	X		X		X				Oppose	Enough is enough with taking more money out of peoples pockets!!
06/29/26	Joel Middleton	60466	X			X	X				Neutral	
06/29/26	Wilbur Milhouse	60604	X		X	X					Support	

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
06/29/26	keith Williams	60142	X		X					Fair fees by adding the Interstate roads in the City of Chicago to the tollroad system.	Oppose	However you look at it tolls have increased, every January new signs are posted showing the new rates. Some how a transfer fee or something like that was added which goes toward the 6 county mass transportation fund, mostly to the CTA. It would be nice to be able to walk less than a mile and get on a bus ever 20 or so minutes. Our closest bus stop is at Randall Rd and Rt. 90, which is close to the Big Timber rail stop. That has limited rail service. Stop giving away everything and start being fair to tax and toll payers.
06/29/26	Adam Joseph	60606	X			X	X				Neutral	
06/29/26	JOHN TROTTA	60462	X	X		X					Support	The Illinois Tollway has done a wonderful job in continuously improving the driving experience. It creates jobs and opportunities, measurable economic development, supportive of small businesses, and provides clean and safe roads! Ultimately it makes all of Illinois a better place to work, live, attract investments, and raise a family!
06/29/26	Courtney K	60008	X				X	X			Oppose	Use the cannabis tax to pay for roads.
06/29/26	George Christopher	20147	X		X	X					Support	Well-maintained toll roads are essential to ensuring safe, reliable, and efficient transportation for the traveling public while supporting economic growth and regional mobility. As infrastructure continues to age and construction costs rise, modest toll adjustments provide a sustainable, user-funded mechanism to preserve and improve these critical assets without placing additional burdens on the general taxpayer. A reasonable toll increase helps fund roadway maintenance, capacity improvements, safety enhancements, and emerging technologies that reduce congestion and improve the customer experience. Investing today through responsible tolling ensures that future generations inherit a transportation network capable of meeting growing demand. I live in VA but use the toll roads as I drive across the US with my family so they can visit states and national parks. Toll roads are reliably kept and I don't mind paying because it keeps my family safe.
06/29/26	DJ	60515	X		X		X				Oppose	
06/29/26	Anthony	60714	X				X			Cost of driving	Oppose	Enough with the raising of tolls. Budget better. Its to a point people will trade time driving longer on back roads versus paying more in tolls every few years. The tolls get higher, and roads are still congested and need repair. Enough.
06/29/26	J Middleton	60466	X			X	X				Support	
06/29/26	Christy Sams	60614	X			X				Less backups at tolls	Neutral	I'm not thrilled about paying even more to drive the tollway (I currently pay $26/day to drive to and from my job in Indiana) and I use other routes when possible. I do enjoy driving the tollway overall, except for the backups at the tolls. Why aren't we able to drive through the I-pass lanes without stopping for a barrier arm? In most other states you can simply drive through. The technology should be able to send a ticket for the missed fare to those who drive through without proper I-pass accounts set up. Far too often, drivers without an I-pass go into those lanes, backing everyone else up. Or the camera/tech doesn't properly recognize an I-pass, prompting the driver to have to stop and call for support. The cameras and technology should be used to support smooth flow of traffic, ticketing people who improperly use the lane, and make drivers WANT to use the tollway. The current rising costs and traffic backups make the tollway a bigger headache and less attractive to drivers.
06/29/26	Naomi Wallisch	60102	X		X		X				Oppose	I am sorry but I think we have been paying enough for our tolls many states including Wisconsin have beautiful roads and they have zero tolls I think there is to much money going into pockets of someone versus the roads itself we pay a ton for our roads and the tolls are quite high id love to see the state balance a budget and put out a spread sheet of what our dollars actually go to
06/29/26	Matthew Daeda	60192	X			X	X				Support	
06/29/26	M. Wiedmaier	60152	X	X			X				Oppose	What I oppose is a flat increase of $0.45 on all tolls. For example, the current I390 tolls could increase from $1.90 to $4.60 if you pass through all of the tolls (+140% increase). Please clarify what average of $0.45 increase means. On I88 the mainline tolls in DeKalb & Dixon are $1.80, so $0.45 increase is reasonable. Same for I90 Belvidere and Marengo mainline at $1.50 currently, the increase is reasonable for the distances covered.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
06/29/26	Shelby Becker	60142	X				X			Not having increases forced on us	Oppose	Thank you, Governor Pritzker, for stealing more money from taxpayers to fund your sanctuary cities and deplorable handling of funds across Illinois. You have exceeded our expectations for Worst Governor Ever.
06/29/26	Jonathon Hart	60565	X	X		X					Support	Tolls have not been raised in more than a decade. I understand the importance of well-maintained infrastructure for our safety and the economic wellbeing of our region
06/29/26	Desi Wrightsel	61111					X	X	X		Oppose	
06/29/26	Benjamin Hamdan	60523	X		X	X					Support	
06/29/26		60102	X			X				Safety	Support	Dear Illinois Tollway: I support the toll increase because it provides a dedicated funding source for critical roadway improvements, safety enhancements, and system modernization. Unlike other transportation agencies, the Illinois Tollway does not receive Motor Fuel Tax (MFT) revenues from gas taxes or vehicle registration fees, so toll revenue is its primary means of funding infrastructure investments. This reasonable toll increase will help maintain and improve the transportation network that drivers rely on every day while ensuring the Tollway can continue to meet future transportation needs.
06/29/26	Carl Helfrich	60115	X	X					X		Support	
06/29/26	Brian Foster	60441			X		X		X		Oppose	
06/29/26		60018	X		X	X					Support	
06/29/26		60707	X	X	X						Support	
06/29/26	Suze	60610			X	X	X				Oppose	This reaffirms my decision to move out of Illinois. It is already one of the highest taxed state, & this only adds to the unfair burden on hard working residents. This should be funded by other taxes we already pay.
06/29/26		60804		X	X		X				Support	
06/29/26	Cheryl Pellus	60169	X			X	X				Oppose	I am appalled that you are considering increasing tolls on Chicago area residents. The Illinois tollway has sufficient funds from it's daily receipts to maintain and build new roads. This is an unfair increase and should be voted down. Illinois residents already pay enough to drive on our tollroads.
06/29/26	Robert Bagley	46614	X			X			X		Neutral	I understand the increase because the price of materials keep rising every year but we need a good toll road. I travel it often.
06/29/26	Keith m Korkus	60056	X	X			X				Oppose	I'm retired and can't afford any more increases gas electric taxes what else???
06/29/26	Chad	61073	X		X		X				Support	Safe and reliable roads do not happen by accident. They require ongoing investment and planning. I support the Driving Connections Capital Program because it helps ensure the Tollway system remains safe and efficient.
06/29/26	Raju Jamkatel	60193	X	X			X				Oppose	The projects included in Driving Connections will help modernize aging infrastructure and improve the transportation system that so many Illinois residents and businesses depend upon.
06/29/26	Vincenzo G Lampignano	60490		X	X			X			Support	
06/29/26	Myers	60123	X					X	X		Support	
06/29/26	John Antos	60586	X				X		X		Support	
06/29/26		60101	X	X				X			Support	
06/29/26	Ken ouellette	60157	X			X	X				Support	
06/29/26	Jaime Downs	60901	X		X	X					Support	As a Local 150 member, I know firsthand the importance of investing in transportation infrastructure. The Driving Connections Program will improve mobility, create jobs, and strengthen communities throughout northern Illinois.
06/29/26	luis garcia	46385	X	X	X						Support	As a member of IUOE Local 150, I support the Illinois Tollway's Driving Connections Capital Program. These investments help maintain and improve the roads and bridges that millions of people rely on every day while creating opportunities for skilled construction workers.
06/29/26		60515	X		X	X					Support	Are car pool lanes an option?
06/29/26	Brian Ludke	46307	X	X	X						Support

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
06/29/26	David Downer	60181	X	X			X				Support	"I have been an IUOE Local 150 member for 38 years and live in Villa Park. Even though I am retired, my family and I regularly use the Tollway system and understand how important these investments are to our communities, our economy, and working families." As a member of IUOE Local 150, I support the Illinois Tollway's Driving Connections Capital Program. These investments help maintain and improve the roads and bridges that millions of people rely on every day while creating opportunities for skilled construction workers.
06/29/26	Janet Jordan	60115	X				X			Knowing that my money is being used for roadway supplies not salaries	Oppose	There is too much overhead in the state government and misuse of funds. I have already paid my share of money for the tollway and I hardly use it - why should I have to pay higher rates for your departments misuse of the last 20 years of tollway funds?
06/29/26	Dale Van vuren	46392	X	X	X						Support	
06/29/26	Neal Topping	60631	X	X		X					Neutral	The Tollway is a vital part of our regional economy. Continued investment through the Driving Connections Program will help support businesses, commuters, and working families across northern Illinois.
06/29/26	Robert Arneson III	61111	X	X	X						Support	
06/30/26		60447	X				X			Affordability	Oppose	
06/30/26	David Mayer	60041	X		X		X				Support	
06/30/26	Joe Farrell	61244	X		X	X					Support	The Tollway is a vital part of our regional economy. Continued investment through the Driving Connections Program will help support businesses, commuters, and working families across northern Illinois. I travel regularly on the tollway system please consider any chance to improve my routes.
06/30/26	Jacob graham	61356	X		X	X					Support	As a member of IUOE Local 150, I support the Illinois Tollway's Driving Connections Capital Program. These investments help maintain and improve the roads and bridges that millions of people rely on every day while creating opportunities for skilled construction workers.
06/30/26	Gilberto Valladolid	60403	X	X	X						Neutral	I support more updates to the roads
06/30/26	G Randy Bennefield	37659	X	X			X				Support	Please fix our roads they need help
06/30/26	Donna Breault	46356	X				X			Less cost	Oppose	Toll were supposed to be temporary when first established. Other states have better roads and don't charge tolls. Better money management. I oppose raising the tolls.
06/30/26	Ken Koran	60449	X			X			X		Support	
06/30/26	Scott Seibert	61360	X	X	X						Support	This works needs be done the right way, by the UNION
06/30/26	John	60631	X	X			X				Support	We need safe roads and safe bridges.
06/30/26	Marc	60540	X		X			X			Support	I have been an IUOE Local 150 member for 23 years and live in Naperville. I regularly use the Tollway system and understand how important these investments are to our communities, our economy, and working families.
06/30/26	Alejandra Ortega	60073	X		X	X					Support	As ILL Resident and Also a member of Local 150, our Routes and Tollways are destroyed,congestion is absolutely insane , Chicago need all the Tollways, Bridges and Roads Up to Date, also these will bring Work for many, many Skill Operators of loca 150.
06/30/26	Chris Carr	61323	X	X	X						Support	
06/30/26	Lumie Jones	60525	X	X			X				Support

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
06/30/26	Charles Roth	61265	X		X	X					Support	
06/30/26	Cody K	61081		X		X	X				Support	Tollway roads in better shape than IDOT. I support the toll increase so roads have enough funding.
06/30/26	Michelle	61114	X		X		X				Support	I support the illinois tollways capital program and their toll increase
06/30/26	K. Tedrick	61020				X	X			a time when there isn't construction	Oppose	Perhaps the toll authority could use fund surpluses from prior years (beginning in the late 1970s) when collected tolls exceeded the cost of maintaining the toll roads. Perhaps the toll authority could be more fiscally responsible. Road improvement funds have already been pulled from the rest of Illinois to fund the CTA. It is time for Illinois government to stop pulling money from the pockets of Illinois residents, visitors to Illinois, and folks just passing through - all to fund the greater Chicago-land area.
06/30/26	Sara	60144	X		X	X					Support	The Tollway creates good jobs in our area and I support a slight toll increase to keep investing in the system. Vote yes!
06/30/26	Alejandro A	60804		X			X			Should be free	Oppose	No toll price raise
06/30/26	Lance McGill	60115	X	X	X						Support	I am proud to support the Driving Connections Capital Program. Strong infrastructure is essential to a strong economy, and this program will help ensure that Illinois remains competitive and prepared for future growth.
06/30/26	Reta Kerrick	60090			X		X			Affordable	Oppose	As a retired person in Illinois. This increase in some tolls of almost 100% will either force me to drive side roads to avoid tolls or consider moving out of Illinois.
06/30/26	Carl Dinwiddie	60510			X		X			Winter conditions plowed and salted. You've done well	Oppose	Its about to price me out of taking the tollway to the ORD as it is. The tolls cost half as much as my gas.
06/30/26	Lori Miles	60617	X		X		X				Support	
06/30/26	Kate Organ	60178	X		X	X					Support	I support the Driving Connections initiative because I value a well-maintained transportation system. As someone who regularly uses the Tollway, I have seen the benefits of past investments through improved road conditions and more reliable travel. While no one likes paying higher tolls, I believe investing now is better than allowing roads and bridges to deteriorate and become more costly to repair later. Better traffic flow and reduced congestion save drivers both time and money
06/30/26		60143	X		X	X					Support	My family, work colleagues and I all use the Tollway on a regular basis. It is exceptionally well maintained and traffic moves freely. It is well worth the toll to get to where I'm going faster and safely. I understand that tolls are needed to maintain and improve services, and I fully support increasing the tolls for this exceptional tollway network.
06/30/26	Adalee Wasikonis	60611	X	X				X			Support	
06/30/26	Sarah Archer	60056	X	X				X			Support	

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
06/30/26	Brian	60563	X			X	X				Support	I am a resident who relies on regular, weekly access to the tollway to navigate the Chicagoland area. While no driver welcomes an increase in commuting cost - especially at a time when inflation is through the roof - I understand the need for the proposed toll increase and do support it. I am willing to accept that major capital investments require funding, but only if this increased financial burden on drivers directly translates into improved safety, exemplary roadway maintenance and more predictable drive times. For families and professionals in the burbs, the tollway is part of our daily lives. Its what I take to drive my kids to travel sporting events all over the region and its how I get to the airports for work. I depend on predictable travel times to keep my life on track. The capital plan isn't just to support the infrastructure of the roads but also the infrastructure of our lives. I am willing to invest in this. Also, with kids starting to learn to dive in the next year or so, I ask that safety be prioritized. The capital program must heavily prioritize advanced safety designs, well-engineered interchanges, clear signage, and tech-forward considerations to keep these high-speed corridors safe. Finally - this is Chicago and we know winter is coming. With extreme low temps, and large snowfalls, road maintenance must be a priority both during a weather event and in response to road degradation. In conclusion. I support toll increase and believe the tollway has the opportunity to put drivers minds at ease and commit to a continued premium driving experience in exchange for this premium price.
06/30/26	Ed wills	61341	X	X		X					Support	Update and modernize continually.
06/30/26	Marshall Douglas	61265	X		X				X		Support	I am proud to support the Driving Capital Program. Strong infrastructure is essential to a strong economy and this program ensures that Illinois remains competitive and prepared for future growth.
06/30/26	Bob Mundo	46366	X				X	X			Oppose	
06/30/26	Daniel Begert	60302	X		X	X					Support	The overreliance on gas taxes to support roads means that revenue needs to come from somewhere, and the well-maintained and well-managed toll roads in Chicago take some of the pressure off. It would be good if the toll roads could be subsidized for lower income individuals, though, perhaps by giving pre-loaded toll road credits to accounts under a minimum household income.
06/30/26	Janel Merritt	60611	X		X		X				Support	
06/30/26	Thomas Chada	60453	X	X		X					Support	
06/30/26	James Vercillo	60137	X		X	X					Support	
06/30/26	Tom	60564	X		X				X		Support	I am proud to support the Driving Connections Capital Program. Strong infrastructure is essential to a strong economy, and this program will help ensure that Illinois remains competitive and prepared for future growth.
06/30/26	Bill	60540	X	X	X						Support	As a Local 150 member, I know firsthand the importance of investing in transportation infrastructure. The Driving Connections Program will improve mobility, create jobs, and strengthen communities throughout northern Illinois.
06/30/26		60189	X		X	X					Support	
06/30/26	Ella	60540	X	X		X					Support	Infrastructure projects create family-supporting careers while delivering long-term benefits for the public. I support the Driving Connections Capital Program because it invests in both workers and the future of Illinois.
06/30/26	Lauren	60544	X	X		X					Support	Safe and reliable roads do not happen by accident. They require ongoing investment and planning. I support the Driving Connections Capital Program because it helps ensure the Tollway system remains safe and efficient.
06/30/26	Gavin	60585	X	X	X						Support	The Tollway is a vital part of our regional economy. Continued investment through the Driving Connections Program will help support businesses, commuters, and working families across northern Illinois.
06/30/26	Deane	60586	X	X	X						Support	As a skilled trades worker, I support the Driving Connections Capital Program because it creates opportunities for construction workers while improving critical public infrastructure.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
06/30/26	Rich	60515	X	X	X						Support	This program represents a smart investment in our state's future. It will strengthen transportation infrastructure, reduce congestion, and support economic growth throughout the region.
06/30/26	Rob	60517	X	X				X			Support	The projects included in Driving Connections will help modernize aging infrastructure and improve the transportation system that so many Illinois residents and businesses depend upon.
06/30/26	Kara	60540	X	X		X					Support	I support the Driving Connections Program because it creates jobs, supports apprenticeship opportunities, and helps maintain the infrastructure that keeps Illinois moving.
06/30/26	John Hodel	60404	X		X					Safe road conditions	Support	As a Local 150 member, I know firsthand the importance of investing in transportation infrastructure. The Driving Connections Program will improve mobility, create jobs, and strengthen communities throughout northern Illinois.
06/30/26		60515	X			X	X				Support	I support this increase to continue to make our roads better and continue the great work of the Tollway
06/30/26		60609	X		X				X		Support	Tollway is the best run agency in the country!
06/30/26	Lukas Stanczyk	60559		X	X			X			Support	This is going to really enhance our roadways! Awesome program.
06/30/26		54247	X		X		X				Support	
06/30/26		60108	X	X	X						Support	
06/30/26		60609	X		X				X		Support	A Tollway Help Truck stopped to help us as our son was having a seizure 2 years ago. I'll always be grateful to the Tollway.
06/30/26	Alfred	60540	X	X	X						Support	
06/30/26	Jeff Spiekermann	60067	X	X		X					Support	
06/30/26		60154	X		X		X				Support	
06/30/26	John Stevens	60126	X			X	X				Support	Important to maintain system. The tollway provides a vital, well maintained transportation network . It also provides job opportunities through the continued construction.
06/30/26		61022	X	X		X					Support	I support the toll increase. My family always takes the Tollway because it's well lit, well maintained roads and has driver assistance.
06/30/26	David	60302	X	X	X						Support	I support maintaining well repaired roads and funding that with user fees (tolls)
06/30/26	zana thompson	60611			X		X	X			Support	
06/30/26		60604	X		X	X					Neutral	
06/30/26	David Carino	60416	X			X			X		Support	
06/30/26	Jim Quinn	60803	X		X		X				Support	
06/30/26	Rochelle Wells	60409	X			X	X				Oppose	That's a huge increase and a burden on those who use the tollway daily.
06/30/26	Erin Mugnaini	60148	X		X	X					Support	I want the roads to be well kept and safe. I'd rather pay to keep them maintained than have them degrade.
06/30/26	Bernardino Flores	60467	X		X			X			Support	We need to invest more on roads and bridges, and bring illinois infrastructure up to the 21 first century standards.
06/30/26	George Hagopian	60646	X				X		X		Neutral	
06/30/26	Robert Edwards	60491			X	X	X				Oppose	The tollway system was supposed to go away but this seems to me that will never happen. The tolls are already high in a strapped economy. Construction on some of the tollway doesnt need to happen, I feel they do this to make it seem like the tollway is a good thing.
06/30/26	Megan	60614			X	X	X				Oppose	
06/30/26		60089	X		X	X					Support	
06/30/26	George Antos	60585	X		X		X				Support	I rely on the tollway to travel back-and-forth from work every day, making sure that the roads are safe for myself and my family to travel on is very important. I support this capital budget
06/30/26	Brian Castro	60618	X					X	X		Support	The Tollway has provided great infrastructure improvements over the past 15 years that have reduced congestion times and increased the connection of communities. This increase will help modernize even further their infrastructure.
06/30/26	Becca Taylor	60451		X	X		X				Oppose	I choose to take back roads most days to avoid the final toll on 355 to connect to 80 because the $1.90 is insane, especially compared to other tolls. Additionally, it is frustrating when 55 has none.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
06/30/26	John Doe	60101	X		X		X				Oppose	I oppose this because I have no confidence in this state that the tolls will ever come down. Admittedly I hate taking the tollway because I never want to give this corrupt state any more money that is required. I also think the tollway does not save me sufficient time to justify the toll.
06/30/26	Mark Lubus	37174	X			X	X				Oppose	Taxes are high enough in Illinois. Toll increases will support what you are proposing, but here we go again! The people of Illinois pay enough for the mis-management of it's resources/ allocations and now higher tolls and increased taxes at a rate usually higher than the COL! Please, we aren't all idiots! I have traveled into and through for many years, enjoyed it's use, but where and how are these proposed changes to be made? Why can't the state take care of it's own infrastructure? Is it because they can't maintain what they have due to it's lack of income or too many hand outs, too many subsidies? Make the businesses that the state continually subsidizes pay for this, wait, let's not they'll just pass it on to the consumer while the reap their excessive profit's of of the average working persons back!
07/01/26		60062	X			X			X		Support	
07/01/26	Dan F	60516	X		X	X					Support	Compared to the national average the Illinois Tollway tolls are reasonable. No problem with a slight toll increase to support this program.
07/01/26	Michael Getzelman	60140	X			X				Weather maintenance	Support	The Illinois Tollway has been an integral part of my career as an operating engineer. Regardless of weather if I can make it to the Tollway I can get anywhere.
07/01/26	David Rogers	60430	X		X		X				Support	Infrastructure projects create family-supporting careers while delivering long-term benefits for the public. I support the Driving Connections Capital Program because it invests in both workers and the future of Illinois
07/01/26	Stanley Wang	60126	X		X	X					Support	I use the Tollway every day. Without continued investment, it cannot get me to where me and my family need to go.
07/01/26	Tara Walsh	60561			X		X		X		Support	
07/01/26	DMac	60565	X	X	X						Support	
07/01/26	Shannon Armstrong	60646	X		X				X		Support	
07/01/26	Michelle	60101			X	X	X				Oppose	if you are hard up for money, put tolls in downtown Chicago 90 and 290
07/01/26	Geraldine	60432		X	X	X					Support	Tollway provides jobs and does excellent job managing the roadways. Vote yes on the increase.
07/01/26	Lara Arizmendi	60085			X		X		X		Support	I rely on the Tollway to get to work and need good roads
07/01/26	Kevin	60045	X	X		X					Support	The Tollway should focus on building more access to their systems. In the past the access points were limited by the cost of manning a toll booth. Now with the ipass system that fixed cost does not exist to limit the number of access points. I live near route 176 and I often travel north. There are no entrance ramps northbound which means that I typically end up taking alternative routes. The Tollway could potentially see a considerable increase in revenue if your system was easier to access.
07/01/26	Sophia L	60638					X	X	X		Support	
07/01/26		60430	X	X					X		Support	
07/01/26		60430	X			X			X		Support	i like knowing where my money is going for roadway maintenance. State and locally maintained roads are constantly underfunded due to political priorities that shift with the election cycles.
07/01/26	Bridget Malinowski	60564	X		X	X					Support	maintaining assets is very important to the longevity of the Tollway investment
07/01/26	Zaida Morillo	60515	X		X	X					Support	
07/01/26	Jordan	60647	X		X		X				Support	
07/01/26	Tammy	60517	X			X	X				Neutral	I may limit shorter trips on the Tollway if tolls are increased, currently I will utilize for short distance trips to save a few minutes but may not continue to do so if tolls increase too much at once.
07/01/26		60618	X		X	X					Support	
07/01/26	Richard Pieruccini	60103	X		X		X				Support	

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/01/26	Richard Pieruccini Jr	60103	X		X	X					Support	
07/01/26	John Rush	60402					X	X	X		Oppose	
07/01/26	nelson	60714			X		X			you increase the tolls and nothing improves	Oppose	No
07/01/26	Jennifer O'Connell	60174	X		X					reduced speeds	Oppose	
07/01/26	Roger Dominguez	60490	X		X					If we can do more to eliminate trafficking jams please.	Support	I'm in favor, because it would make sense to folks like myself self who use the tollway most of the time to get to work safely and promptly. So I'm all IN. Also it well creates good paying jobs that our community desperately needs.
07/01/26	Peter Gonzalez	60506		X		X	X				Support	
07/01/26	JasonJames	60177	X		X	X					Support	
07/01/26	Ed Kulchar	60527	X		X	X					Support	
07/01/26	Jeremy strong	60652	X	X	X						Support	This program will be good for labor
07/01/26	Jack Connolly	60527	X		X	X					Support	This proposed plan will help roadways be more progressive and maintained.
07/01/26	Angela	60641	X		X				X		Neutral	
07/01/26	Jim Bacerra	61016		X			X	X			Support	
07/01/26	Edward Paganelli	46307	X		X	X					Support	I would love to see a world where I can drive 60 miles in 60 minutes going 60 miles per hour in northeast illinois where I work, spend majority of my time out, and as of right now this is hard to do passed 8pm and before 5am.
07/01/26	Imelda Bacerra	61016		X				X	X		Support	
07/01/26	Paul Fosco	60527	X	X	X						Support	
07/01/26	Jacob Bacera	60115		X			X	X			Support	
07/01/26	Robert Treichel	46385	X	X			X				Support	Love the tollway
07/01/26	Paul Price	60130	X	X						Fewer cops.	Support	
07/01/26	Juan Munoz	60527	X		X		X				Support	Let's improve our tollway infrastructure
07/01/26	Cheryl Schenk	60634		X			X			Easy way to connect from point A to point B	Oppose	Your proposed rate hikes do not help the people who use the tollways to get where they want to go. These hikes will force people to stay away from your toll system. Your latest program seems to admit that you like being in construction mode forever and further hinder the traffic the tollway was designed to help. How does delivering a more affordable, reliable transportation network work when you are constantly under construction and raising toll fees. I have yet to see a reduction in tollway fees as was promised when the tollway was first introduced. Stop this nonsense!
07/01/26	Lalo Juarez	46323	X	X	X						Support	My name is Lalo Juarez, marketing representative for (LiUNA) Laborers International Union of North American we represent hundreds and thousands of construction workers. We are in support of the proposed toll increase because it will create great paying jobs for our members.
07/01/26		60015	X		X		X				Support	
07/01/26	Vincent sourile	60440	X			X	X				Neutral	Maintenance is always important but not at the cost of raising toll rates again. Use the billions already taken from toll users.
07/01/26		60010	X			X		X			Support	
07/01/26		60445-3704	X				X		X		Neutral	
07/01/26		60010	X		X	X					Support	
07/01/26	Quinton	60103				X	X			Freeway aka Elgin/ord. Now a toll road	Oppose	Correct me off I'm wrong. The 355 extension to I80 was paid off in 6 months in tolls
07/01/26	A. Townsend	60301	X		X		X				Neutral	
07/01/26	Heather	21204	X			X	X				Support	Generally I'm in favor of a rate increase when needed to support roadway improvements and maintenance/operations costs. Given rates have not increased in 15 years, it seems like an increase would be warranted to keep up with escalating costs.
07/01/26	Brad Gerdes	61769	X		X	X					Support	

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/01/26		60544			X	X	X				Support	Great maintained road for the rush house commute. Love these widening!
07/01/26		60090	X		X	X					Support	The proposed toll increase is warranted based on Tollway's history for providing a high level of road and bridge maintenance thru-out the entire Tollway system.
07/01/26		60090	X		X					Provides the best access to locations important to my business and personal travels.	Support	
07/01/26	Beth	60126	X		X		X				Oppose	"Toll free in 73." What an absolute joke and just another way to suck every last penny out of people who are barely scrapping by on their wages as it is. If said proposed increases take effect as written in 2027, I will happily resume to being an ipass-free vehicle and commit to drive on strictly toll-free roads for my future commutes.
07/01/26	Pawel	60467	X			X	X				Oppose	
07/01/26	Derek	60126	X		X		X				Oppose	Ridiculous. Isn't that what a state "budget" is supposed to be there for? Get the money from the politicians who oversee the IL budget instead of schmoozing up and making friends with them.
07/02/26	NOE CHAVEZ	60403	X		X	X					Neutral	I have been an IUOE Local 150 member for 5 years and live in Joliet. I regularly use the Tollway system and understand how important these investments are to our communities, our economy, and working families.
07/02/26	Charlie Westberry	60506	X				X		X		Oppose	How as a senior citizen on a fixed income will I be able to afford another (outrageous) toll increase??? I have to take the toll way on a daily basis and your new rate will kill me financially!!! Way can't you have a senior citizen rate???? I like to take the toll way it is right bye my house. However I am not made of gold, and the rate increase will be detrimental to me!! .10 cent is more than enough. Was not the toll road once it was built going to be free??? Also where is the gas tax going to??? The increase should be a lot lower, or have a senior rate. Thank you for reading this. Charles Monroe Westberry III 887 Laurel Dr. Aurora, Illinois. 60506 708-565-8893
07/02/26		60625	X				X	X			Neutral	
07/02/26	Randolph Alexander	60120	X		X		X				Neutral	
07/02/26	Ari Ghasemian	60647	X		X	X					Support	Safe and reliable roads do not happen by accident. They require ongoing investment and planning. I support the Driving Connections Capital Program because it helps ensure the Tollway system remains safe and efficient.
07/02/26	Ari Ghasemian	60647	X		X	X					Support	Safe and reliable roads do not happen by accident. They require ongoing investment and planning. I support the Driving Connections Capital Program because it helps ensure the Tollway system remains safe and efficient.
07/02/26		60189	X	X			X				Support	Tolls were supposed to be temporary. I-390 has too many. Maybe look at the Indiana toll system
07/02/26	Ari Ghasemian	60647	X		X	X					Support	Safe and reliable roads do not happen by accident. They require ongoing investment and planning. I support the Driving Connections Capital Program because it helps ensure the Tollway system remains safe and efficient.
07/02/26	Aang	60139	X		X		X				Neutral	Need to modernize the 290/90/53 interchange in Schaumburg. All the oldstyle tollbooth stalls on entrance/exit need to go.
07/02/26		60174	X		X		X				Oppose	
07/02/26	Keith Bowen	60914	X	X	X						Support	a member of IUOE Local 150, I support the Illinois Tollway's Driving Connections Capital Program. These investments help maintain and improve the roads and bridges that millions of people rely on every day while creating opportunities for skilled construction workers.
07/02/26	Denis Sharkey	60516	X				X			cost	Oppose	The Il Tollway is taking in records amout of money, well above costs at this point and you want more? IL is driing people of this state with costs, property taxes, lic plate costs, retail tax, fuel cost, time to stop

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/02/26	Joshua Wold	60608	X		X			X			Support	As a transportation professional, I believe maintaining and modernizing our roads and bridges now is the most responsible way to protect previous investments and avoid more costly repairs in the future.
07/02/26		60525	X			X			X		Support	I love the Tollway. It allows me to travel as quickly as possible to my destinations around the Chicago area, all the way up to the Wisconsin border. And in the winter, there is no better road to take than a Tollway road.
07/02/26	Will Hazlewood	46385	X		X	X					Oppose	Constant construction zones are already diminishing the value. The individual taxpayer already pays enough, the state should be funding this increase if it's really necessary.
07/02/26	Evan Summers	60515	X					X		Better sound separation between tollways and neighborhoods	Support	To the Illinois Tollway Board of Directors and Capital Planning Team, Thank you for the opportunity to provide feedback on the proposed Driving Connections 15-year capital program. A $26.5 billion commitment to updating our regional infrastructure is a vital step toward ensuring a reliable transportation network for generations to come. As the Tollway looks toward the future (2027–2042) to improve traffic flow and spur economic development, it is critical that we protect the quality of life for the communities hosting these major corridors. Specifically, I am writing to advocate for the inclusion of enhanced, modern sound walls at the I-88 and I-355 interchange. The I-88/I-355 interchange is one of the busiest hubs in the entire Tollway system. While the proposed plan rightly focuses on regional priorities to maximize benefits for drivers, the resulting increase in traffic volume and economic activity will inevitably bring an increase in noise pollution. For the residential neighborhoods and communities that border this massive interchange, the current noise barriers are insufficient to handle today's traffic, let alone the projected growth over the next fifteen years. The Driving Connections plan states a commitment to "connecting communities." True community connection requires minimizing the negative externalities of major thoroughfares on the families living right next to them. Excessive highway noise impacts residents' health, disrupts outdoor spaces, and threatens local property values. As you finalize this historic 15-year capital program, I urge the Tollway to: Conduct an updated, comprehensive noise impact study specifically targeting the residential zones surrounding the I-88/I-355 interchange. Allocate dedicated funding within the $26.5 billion budget to construct taller, more effective, and aesthetically cohesive sound barriers along this interchange. Strategic investments should not stop at the pavement. Integrating robust noise mitigation into the Driving Connections program will ensure that the Tollway's growth does not come at the expense of local communities, creating a sustainable network that benefits drivers and neighbors alike. Thank you for your time, leadership, and consideration of this critical community priority. Sincerely, Evan Summers North Downers Grove Resident
07/02/26	Patrick J Hughes	60184	X	X		X					Support	We need to build, improve backups times, and maintain our roads.
07/02/26	TEST	60056			X	X	X				Neutral	
07/02/26	B Villarrubia	60302					X	X		Everything above makes sense, however we need to find non driving options that possibly use the tollway route.	Oppose	Tolls seem like they're here to stay when it was supposed to be a temporary thing.
07/02/26	Christopher Kappes	60048			X		X			Affordability. With higher tolls, traffic is diverted to free roads	Oppose	We already pay high tolls AND high gas taxes. I thought the gax taxes went to support the road system. Illinoisians have had enough with high prices and taxes. I oppose.
07/02/26	Paula Smith Kappes	60048			X	X	X				Oppose	HIgher tolls already drive many drivers to our toll free roads, which become increasingly congested. WE cannot afford continued rise in prices. What is the gas tax used for?

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/02/26	Evan K. Summers	60190		X				X		Economic Development	Support	This public comment is in strong support of the Tollway's proposed I-490 West Landside Reserve Improvements at O'Hare International Airport. Western Access is a long-overdue promise, and the Tollway is the right agency to lead the charge. All successful transportation systems are defined by how effectively they connect to their ultimate destinations. Trains go to yards, ships go to ports, and planes go to airports. To fully unlock the massive regional investment already made in I-390, true Western Access must finish the job and connect drivers directly to a western terminal at O'Hare. This is a transformational infrastructure project that only comes once in a generation. It will create thousands of jobs, drive hundreds of millions of dollars in economic development, and provide critical resiliency by eliminating the single point of failure at the eastern I-190 entrance. It is time to complete the vision. We deserve the West.
07/02/26	Timothy Whalen	46304	X		X	X					Support	While no one likes a toll increase, I still support the increase as a regular user of the facilities. I believe that this additional revenue is necessary to continue to maintain and improve the network. I further feel that this will help promote more opportunity through improved mobility and safety.
07/02/26	Megan Beny	60139	X				X			Safer roads	Oppose	A near fifty cent increase in tolls is absurd. Please read the room, people cannot afford anything these days; rent is astronomical, daycare is practically a mortgage, student loans are going up, grocery prices are up, car payments are up. To propose this kind of increase is a slap in the face to the people of Illinois. 10 cents, sure. But 45? Absolutely not. People commuting at minimum will be paying an extra $40 a month in tolls, and if they pass multiple tolls in their trip each day that will add up fast.
07/02/26	Azeez Dawodu	60586	X	X	X						Support	
07/02/26	Damilola Dawodu	60586	X			X			X		Support	
07/02/26	Fatima Nwokoro	60409			X	X	X				Support	
07/02/26	James McCarthy	60624	X	X	X						Support	Keeping families & community connected on safe well maintained Roads . Keeps trades Men & Women working & passing down knowledge & skills to the generation behind us .Win WIN
07/02/26	Pasquale	60104	X						X	Oasis stops	Neutral	Raising prices, and not rebuilding the Oasis's that were demolished? No thank you
07/02/26	Wilmer Martinez	60120		X		X	X				Support	
07/02/26	Joseph Garcia	60047		X	X		X				Support	
07/02/26	Elizabeth B	60555		X			X			Billed you and did not get no bill and the email was sending to wrong address	Neutral	Need cancellation on the charge that they bill my account, that wasn't me and I can't log into my account to see what is going on. Called and the lady gave me a temporary password that never works
07/03/26	Ben Zimmerman	60119					X		X	No toll increase	Oppose	
07/03/26	Shontae	60104	X				X	X			Oppose	Why should we pay more to connect us to travel access. Our gas is more expensive. Grocery more expensive & now our access is too
07/03/26		60647	X				X	X			Oppose	
07/03/26	Keith Pruchnick	60008	X	X			X				Oppose	
07/03/26	Diane Barnes	60525	X			X		X			Support	
07/03/26	Brian Quirke	60002	X		X		X				Oppose	
07/03/26	DONALD MOSIER	60045	X			X	X				Oppose	It's a regressive tax, mostly impacting people that the State otherwise professes to support.
07/03/26	Dawn Larsen	60048-2682	X	X			X				Oppose	Where is all our tax money going? Where is the high gas tax money going? This is a travesty!!!- won't take the Tollway anymore because I won't be able to afford it.
07/03/26		60031		X	X	X					Oppose	
07/03/26	Marina Cervantes	60085	X		X		X				Oppose	The current toll rates should be maintained. Taxes and tolls continue to increase year after year with little to show in infrastructure improvements. Therefore, I don't see the benefit of continuing to increase the toll rates.
07/03/26	Nancy Dixon	60031	X			X	X				Oppose	Let's see WHERE current monies for tollway are going. Too much waste and huge salaries on our money.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/03/26	Nancy Dixon	60031	X			X	X				Oppose	Want to know WHERE current tollway monies are going. Too much waste and high salaries on our money.
07/03/26	Carl Middelegge	60045	X	X		X					Neutral	
07/03/26	Yogesh Ajmire	60089	X		X		X				Oppose	We already have one of the highest taxes in the country and still we can't balance the bills. It's not like roads are in a very great shape or highways are roads congested or wafers then anywhere else in the country.Illinois is a laughing stock of all out of state visitors. What will you gain by increasing the taxes. We should work on balancing the books instead of increasing taxes. Learn from Wisconsin or Indiana what they are doing better than us. Thank you
07/03/26	Christopher Hebb	60042	X	X	X						Oppose	Most expensive roads yet worst maintained.
07/03/26	Chuck	60031	X	X	X						Oppose	
07/03/26	Michael Gordon	60422	X				X		X		Support	Thanks for being fiscally responsible. 15 years and first increase. That' speaks for Leadership too
07/03/26	Michele Gallas	60031	X		X		X				Oppose	Please stop the madness..we can't afford to live in this state, our home. We, the citizens, deserve better.
07/03/26	Anita Barbagallo	60032	X		X		X				Oppose	The tolls already high enough. My taxes are too high. Mainstream your organization and your budget without scamming tax payers that already overpay!!!
07/03/26	Charles E Coburn	60061	X				X			Safety	Oppose	Seems like the tollway is expensive enough already to maintain them. Where is all the money going from out gasoline tax that is approaching $0.50 a gallon?
07/03/26	Suzy N	60032		X		X			X		Support	
07/03/26	Jasmin Delva	60563	X		X	X					Neutral	I'm not opposed to a toll increase if the goal is to focus on Traffic control and flow. There is a need for infrastructure updates which is understood but if traffic rules are not enforced, the systematic traffic and flow problems will revert back and remain the same. Your biggest traffic issues are at merge points and navigating construction, if traffic cops or traffic systems are implemented as well, then I would support this. If you implement as system with limited enforcement, yall are just going to waste our money. Please have consideration for the enforcement piece. I spend almost $1000 a year on tolls, if that's going to increase, the fix better be sustained.
07/04/26	Larry Mondello	60031					X		X	Efficient use of tollway revenue	Oppose	Your asking tollway users to pay 60% more for using the tollway when many are saying the tollway authority is not efficient and others are saying the money isn't used for the roads but is used to balance a bloated out of control state budget.
07/04/26	Natalie A Steele	60031			X	X	X				Oppose	
07/04/26	Sheryl L Gregory	60532	X		X		X				Oppose	I am old enough to know tolls were supposed to be temporary for the building of the road. a 45cent increase is 50% - which is criminal. STOP the money grab and make do like the rest of us.
07/04/26	Martin Meadow	60048	X				X			Keep costs down	Oppose	Affordable roads are most important. I take from Libertyville to Warrenville that I'drive2 x a day would only add to my daily expenses that I am having a hard time with now. Perhaps in the future but with all the other cost i may have to stay away from the toll roads. I think it will reduce the use of the roads and not increase revenues.
07/04/26	Dana Z	60015			X	X	X				Oppose	Inflation is out of control. Consumers are being squeezed from every angle. The constant increase of rates all around needs to be stymied - it's suffocating the residents and creating so much disappointment with living here. I realize this is a bigger problem than just the toll roads and increasing toll rates but doing so contributes to the problem. The simple answer is to raise rates. Try looking at cutting costs to find income for proposed projects. Try earmarking an investment to be used in the future after you've already earned the money to use before spending it.
07/04/26	Marc Gonsiorowski	53563	X		X					Less tolls/taxes on drivers is most important.	Oppose	Elect a better governor and mayor and maybe the state will recover from the current terrible policies that have bankrupt the state
07/04/26	Gregory Dembek	60124	X	X			X				Oppose	The highest taxed state. Why are the residents so completely stupid in constantly electing these ridiculous democrats???

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/04/26	Jay Hubbard	60187				X	X			Affordability and not getting screwed by bailing out the CTA for poor management.	Oppose	The board should be ashamed. Toll Free in 73 never happened. Now doubling toll cost to bail out CTA and tax suburban drivers is wrong. Plus, CTA and Chicago politicians never solve problems so Illinois government will raise tolls again in 4-5 years to bail out the CTA again, which combined with a capital plan will push drivers to side streets and more congestion.
07/05/26	Chesney Leafblad	60031	X		X	X					Oppose	
07/05/26	Peter VandeMotter	60661	X		X			X			Support	While nobody like tax (or toll) increases, here are my opinions. When I started driving, dinosaurs did not roam the earth but did appear on some gas station signs. Adjusted for inflation, tolls were significantly higher then, about $3.00 at typical plaza. Considering that the money will be used to improve the condition and capacity of the roadways, that is a good use. I would rather pay a little more in tolls than substantially more in car repairs later. As a side benefit, it will provide employment for Engineers and Construction workers.
07/05/26	Christine Anderson	60173			X		X			Fix the roads with the money you have	Oppose	You tax the people enough in this state You were supposed to abolish the tolls completely years ago and now raised it! You should be ashamed!
07/05/26	Michael feeney	60656	X	X				X			Support	The best roadways in America
07/05/26	Jeffrey Odegaard	60450	X				X	X			Support	
07/05/26	Randy V	60188	X		X	X					Support	
07/05/26	Mark Korosa	60462			X	X	X				Oppose	The proposed toll increase is ridiculous. Illinois residents are taxed enough already and a commute to work, to see a loved one, or for recreation should not put a strain on the budgets of working Illinois residents. I will oppose this by any means necessary.
07/06/26		60410	X		X		X				Oppose	
07/06/26	Vince Silva	61023	X	X		X					Support	I support the Tollways new capital program and the funding it provides for road projects and jobs.
07/06/26	Jim Hill	61023		X		X			X		Support	Tollway projects provide jobs in our communities. I support adjusting tolls since it hasn't been done in over a decade and seems fair.
07/06/26	Kevin Burke III	62712	X		X	X					Support	I drive over 25,000 miles a year. It is critical to my success to have reliable travel times and well-maintained highways.
07/06/26	Stephen Davis	60189	X			X		X			Support	

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/06/26	Kyus Dungill	60543					X		X	Common Sense and Community Building	Oppose	I want to point your attention to formula. Baby formula which in its origin was merely cow's milk, wheat flour, malt flour, and potassium bicarbonate. Baby formula which was created at the end of our great nation's civil war in 1865, now is transported by plane and then truck to the tune of half a million (500,000) pounds a year. These proposed toll hikes are supposed to help Illinoisans and all toll users but how so? By raising the cost of commercial tolls, by 4% indefinitely? This increase which will surely force the trucking industry, [just as the COVID pandemic did], to pass those costs to consumers and related businesses in the form of higher sales prices for consumer goods across the board including, baby formula. The tollway sports nearly 1 billion and a half in revenue every year, but most recently in 2024 as records indicate. I, my family and many other proud hard-working Illinoisans should not be forced to bear the burden of affording an entire state's cost of living. We as Americans are also currently in a recession, all indicators point to economic downturn over the last year at least with AI expected to take over more than twenty-five percent of American jobs over the next ten years. How then will Illinoisans afford this indefinite 4% toll hike? How will business and truck companies continue to afford the ever increasing toll hikes with less consumers overall and therefore less business needing their services. All economic indicators show the top ten percent of earners in the US (less than 10% of the total United States population) are driving 90% of consumer spending as of 2025. Are these the people Illinois expects to pay never-ending increasing tolls at infinitum? The answer isnt more tax, its common sense. Budget properly, use the funds we have and zero out annually. Pull on the community and realize people cannot afford anymore financial burden and use the revenue to pour back into the local parks, community events, town hall meetings and more. As a final note, I ask that you members of the Tollway board recognize that you have the chance to do something truly generational here and make Illinois a national popular destination again. Start here, build here, save here. Thank you.
07/06/26	Tom Thommes	60090			X		X			Affordability	Oppose	I am retired and use 294 frequently. If this increase is approved I will be forced to either stay home or avoid toll roads.
07/06/26	Katerina Gojkovich	60525	X		X	X					Support	I'm in support of the upcoming, Driving Connections, capital program. Traffic has become unbearable, potholes have damaged the rims of my tires, and this plan would effectively benefit any member of the community who wishes for improvements on convenience & safety on a daily basis.
07/06/26	Marty Buehler	60030	X			X			X		Support	The Illinois Tollway System has been a much better highway system, since the toll increases and associated capital programs. I fully support further capital programs and the associated toll increases.
07/06/26	Ben Holmstrom	61107	X		X	X					Support	
07/06/26		60540		X	X	X					Support	
07/06/26	Conner	61114	X		X	X					Support	
07/06/26	Anita Mitchell	60152	X		X		X				Neutral	It seems the tollways have been upgraded fairly recently. I am all for well maintained roads, but it seems the doubling of tolls is unnecessary. An increase could be much less in my opinion
07/06/26		60010			X	X	X				Support	
07/06/26	Aaron Fish	61011	X				X		X		Oppose	Dont raise the toll
07/06/26	Mark Warnecke	61073	X	X				X			Neutral	
07/06/26	Jason Martin	60517	X		X	X					Support	Transportation in NE Illinois is the life blood of our regional economy and is in need of improvement. The Tollway is a large part of transportation and they have the ability to identify funds and make investments in the economy. While some are opposed to toll increases, I believe that it is a fair way in Illinois to make regional investment because it is a user based fee, thus tax dollars are not involved. Therefore people downstate and those that don't use the Tollway are not impacted by the increases as they would if there was an increase in motor fuel tax.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/06/26	GREGORY STRZALKA	60081	X		X	X					Support	Clean, well maintained roadways are a beacon of the tollway. People can complain about the tolls, but do not realistic with the level of service that the tollway provides compared to other states and even IDOT.
07/06/26	Denis Hogan	60192	X	X	X						Support	
07/06/26	Jason Fluhr	60014	X		X	X					Support	The I-90/I-290 interchange should be included in the upcoming plan
07/06/26	Mike Harding	60050	X			X	X				Oppose	
07/06/26	Michael J Ewers	60517	X		X				X		Support	
07/06/26	Tim Coffman	46303	X		X	X					Support	As a Local 150 member, I know firsthand the importance of investing in transportation infrastructure. The Driving Connections Program will improve mobility, create jobs, and strengthen communities throughout northern Illinois.
07/06/26		60305				X		X	X		Support	
07/06/26	Brandon Buzzell	60554	X	X		X					Support	
07/06/26	Calder	60452	X			X	X				Oppose	Tollways were never to be permanent and they are. Governor Pritzker is already raising tolls, which is completely wrong! Please do not raise the tolls - people can't afford to travel the tollway because of the costs.
07/06/26	Bernardo	60164			X		X		X		Oppose	
07/06/26	John public	60805	X		X	X					Oppose	Truck traffic and constant construction are the cause of most of the accidents, road rage and long delays in particular on I 294. A rate increase should go to trucks and or out of state drivers. Illinois residents should be offered a discount especially for off driving times.
07/06/26	Shane Jefferies	60653	X		X	X					Support	Illinois tollway agency is going to make our roads safer and modern!
07/07/26		60103			X	X	X				Neutral	
07/07/26	Andy Keyster	60410	X	X		X					Support	
07/07/26	Mark Heaton	60565	X	X		X					Support	
07/07/26	Raymond Kumapley	60431	X	X				X			Support	Like families and businesses across Illinois and throughout the country, I understand that rising costs have placed real financial burdens on everyday life. No one welcomes higher tolls, and I recognize that any increase adds to the challenges many people are already facing. At the same time, I believe it is important to acknowledge the realities of maintaining a transportation system we all depend on daily. Like the cost of groceries, utility bills, and every other expense we bear, the costs of construction materials, labor, equipment, and project delivery have increased significantly in recent years, making it more difficult to preserve existing infrastructure and deliver the improvements needed to keep our roads safe and reliable. While this toll increase is not an easy decision, I believe it represents an investment in the long-term safety, mobility, and economic vitality of our region. The Illinois Tollway has a long history of responsibly managing its resources and investing in projects that benefit the traveling public. Because of that record, I am confident that the additional revenue will be managed with care, transparency, and fiscal responsibility to improve the transportation system for current and future generations. Although higher tolls are never welcome, making thoughtful and responsible investments today is necessary to ensure that our infrastructure remains safe, dependable, and capable of supporting the people, businesses, and communities that rely on it every day.
07/07/26	Nicholas Lofdahl	60622	X			X	X				Oppose	
07/07/26	Jeff Druckman	60510	X		X	X					Support	The Illinois Tollway does a fantastic job of maintaining their roadway system as well as expanding the system to provide motorists with the best experience possible. I have no issues paying tolls to utilize their system, especially in the winter when they are the first roads cleared.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/07/26		61109	X				X			Affordability twice	Oppose	I oppose this proposal because it would significantly increase the financial burden on people who rely on these highways to commute to work. For many working residents, toll roads are not a luxury but a necessity. At a time when many families are struggling with rising housing, food, transportation, and other living expenses, adding another substantial cost to daily commuting is difficult to justify. Illinois residents are already facing affordability challenges, and increasing toll expenses disproportionately impacts working and middle-class commuters who have limited alternatives for getting to work. Rather than placing additional financial strain on those who depend on the highway system every day, efforts should focus on improving transportation options while keeping commuting costs reasonable and accessible. This proposal would make it harder for many people to afford their daily commute and would negatively affect the very residents who help keep our economy moving.
07/07/26		60050			X	X	X				Neutral	
07/07/26	Christopher Prosperi	60056	X	X		X					Support	
07/07/26	John Murillo	60106	X			X				Save time	Neutral	The Tollway is a well maintained system and is a safe/fast mode of transportation.
07/07/26	Gene Sherman	60089	X			X		X			Support	Understandably, Tollway will need more funds to maintain and improve the existing road network.
07/07/26	Chris Rivera	60010	X		X		X				Oppose	
07/07/26		61114	X	X		X					Support	The Tollway is maintained better than other state roads
07/07/26	David J Young	60544	X				X			NO bumper to bumper slow traffic	Oppose	Because commercial tolls are already at historic highs, this increase is expected to drive up the transportation costs for consumer goods across northern Illinois. With so many people already having trouble with expenses, this is unfair. I also disagree with the automatic CPI adjusted increases every year. Illinois will have the most expense toll system in the country in a few years
07/07/26	M. Heaton	60565	X	X		X					Support	I fully support the Tollway's Driving Connections capital program. Investing in our transportation infrastructure is essential to improving safety, reducing congestion, enhancing mobility, and supporting long-term economic growth. These improvements will benefit commuters, freight movement, and local communities while ensuring the Tollway system remains reliable and efficient for future generations.
07/07/26		60563	X		X	X					Support	
07/07/26	David McDonald	60515	X			X		X			Support	I wish more roads were like the Tollway roads. The Illinois Tollway provides a very good product to the traveling patrons. I support the toll increase as it will help to keep the system well maintained and to expand the system as needed for additional access and more predictable drive times.
07/07/26	Judy T.	60515	X			X	X				Oppose	
07/07/26	Arielle Malinowski	60174	X			X			X		Support	
07/07/26	Sandra l Perzee	60403	X		X		X				Oppose	I read everything I could find and it doesn't say exactly what you are going to do with the money. ie: build new roads, add more lanes, more exits. If there was a definitive answer then I wouldn't oppose the increase.
07/07/26	Amber	60565	X	X		X					Support	
07/07/26	Stephanie Widuch	60532	X				X		X		Neutral	I do think the increase will help maintain the toll roads.
07/07/26	Bryan Shramovich	60185	X		X	X					Support	
07/07/26		60515	X			X	X				Oppose	The tolls are paying for too much. They should be used for the specific roads that charge them - not general budgets and mass transit in Chicago. Also, building in an auto-increase every year removes some of the incentive to manage costs. I would rather the tollway is intentional about requesting and supporting toll increases.
07/07/26	Rob Deming	60613	X	X		X					Support	remind the motoring public that the toll increase is not coming from tax dollars.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/07/26	Brian Scifers	60565	X	X		X					Support	The roadway conditions of Tollway maintained roads is always top-notch for the region. I support programs that maintain that level of drivability. The access afforded by the Illinois Tollway is very important to me, as I find myself on Illinois Toll roues often when traveling throughout northeastern Illinois --- it's vital part of the regional network and beyond. The fact that all of this is afforded through a user fee based structure ("tolls"), and not a tax burden outside of those using the Tollway, is being fiscally responsible to all Illinoisans. Motorists opposed to any toll increases have the choice to use alternative routes. I for one appreciate the choice and affordability that the Illinois Tollway provides (which is well balanced by comparison to other Toll roads found in other parts of the Country).
07/07/26	Matt Villanueva	60025	X		X					safe workzones	Support	I like to see all the improvements that the Tollway commits to and executes in our region. It's a stark difference when you drive on the Tollway system vs the IDOT system so it's good to see our Tolling dollars used locally.
07/07/26	Lisa Buntin	60126	X		X	X					Support	
07/07/26	Jeffrey Bushur	62712	X		X	X					Support	Knowing tolls have not increased since 2012 and that inflation and prices in general have only gone up in the last 15 years, it appears that toll increases are necessary to maintain and improve the Illinois Tollway system.
07/07/26	Jean-Alix Peralte	60047	X			X	X				Support	
07/07/26	Leonel Rodriguez	60647	X		X	X					Neutral	
07/07/26	Stephanie	60803	X			X	X				Oppose	
07/07/26		60012	X				X		X		Oppose	
07/07/26	Andrew Nicol	60561	X		X	X					Support	Providing sufficient funds to maintain/expand the Tollway infrastructure is paramount to a successful system. The tollway offers a means to avoid lengthy delays on state routes or poorly maintained roadways.
07/07/26	Karianne Mccue	60185	X		X	X					Support	
07/07/26	Moussa A. Issa	60162	X		X	X					Support	
07/07/26	Donald Zima	60410	X	X	X						Support	“I have been an IUOE Local 150 member for 15 years and live in Joliet . I regularly use the Tollway system and understand how important these investments are to our communities, our economy, and working families.”
07/07/26	Kerry Nutter	60525	X		X	X					Support	I appreciate that when I'm on the Tollway, my travel times are more predictable, rain or shine, than other area roads and that the road will be smooth and well maintained. I wish other area roads were as reliable.
07/07/26	Kelly Lefever	60154	X		X	X					Support	
07/07/26	Matthew Kuechenberg	60506	X		X		X				Support	
07/07/26	Nick	60115	X			X	X				Oppose	
07/07/26	Nick Smith	60115	X			X	X				Oppose	Stop raising the toll rates. It's getting outrageous and ridiculous. All the "improvements " have done nothing but cause more congestion and increased drive tiles. It's ridiculous to sit on the 294 interchange near ohare and have a 13 mile 4 lane road block all the way to 290/88
07/07/26	Michael krol	60480	X				X		X		Oppose	As a business owner in the wesstern suburbs, I am required to commute to work. There an impossible maze of public transportation which will increase my one way trip from 1 hour to 2.5 hours, one way. This places a burdon on both my business and blue collar workers who travel by car to work. Placing more burdons on us is unacceptable.
07/07/26		60642			X	X	X				Oppose	Horrible decision to raise already high tolls. This helps no one with this much of an increase. To try spin it any other way is absolutely ridiculous. All the construction going on as it is takes 10+ years and traffic never improves barely either way. A complete waste for a justification of a rate increase. Where is all the current money collected from tills already?
07/07/26	Michael Sutton	60601	X				X		X		Support	Level of Service and value is excellent

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/07/26	John Leddy Sr	61021	X		X	X					Support	I have been an IUOE Local 150 member for 10 years and live in Dixon,IL. I regularly use the Tollway system and understand how important these investments are to our communities, our economy, and working families. As a member of IUOE Local 150, I support the Illinois Tollway's Driving Connections Capital Program. These investments help maintain and improve the roads and bridges that millions of people rely on every day while creating opportunities for skilled construction workers.
07/07/26	Keith Weyker	60491	X	X	X						Support	As a member of IUOE Local 150, I support the Illinois Tollway's Driving Connections Capital Program. These investments help maintain and improve the roads and bridges that millions of people rely on every day while creating opportunities for skilled construction workers.
07/07/26	Marlita White	60644	X				X			Clear and understandable signage and directions	Oppose	I believe the increase is too high. One exchange is proposed to increase from from .50 to 1.20 which is excessive. I would agree to a .25 increase with a plan to revisit every 2 years.
07/07/26	mark gillono	60115	X			X	X				Oppose	as a frequent user of IL toll roads, this increase will significantly negatively impact my already stressed finances. perhaps a reasonable increase may be necessary but a 60% increase is ludicrous and needs to be re-evaluated.
07/07/26	James Walsh	60449			X		X			Less taxes	Oppose	There are already too many taxes taken from us to fix the roads! With all the taxes we currently pay we should have gold plated roads! Stop taking the already taxed money from all the road taxes and keep it in a seperate fund! Do not want another tax hike of any kind! We pay way too many taxes!!!!
07/07/26	Kyle Decker	60119			X		X			Road work that doesn't last for years	Oppose	None of your info actually says what this money will do. Stop pocketing money for another 10 year construction project on an interstate
07/07/26	Latonya Williams	60643		X			X		X		Oppose	It seems like we are being treated unfair because everything and everyone is nickel and Dime us to death but our pay is not going up why do we have to pay more money you guys are 1 billion or trillion dollar company and you still trying to squeeze blood from us give us a break
07/07/26	Harry	60302	X			X	X				Oppose	You guys can't even fix 294 that's been under construction for 10 plus years. I avoid that toll road because of how hazardous 294 is. Now you want to raise tolls? For more mismanaged construction projects? Get out of here
07/07/26	Gary	60004	X				X			No tolls	Oppose	Enough taxes in Illinois!!! Toll collections initially were proposed as temporary. What happened to that?
07/07/26	Scott Beranich	54115				X	X		X		Oppose	Tolls do not need to be increased to fund this. Give me a break. You're seriously telling people that with the current toll rates, and the sheer number of vehicles passing through every single day, you still can't afford this project without raising tolls another 45 cents? I don't buy it for a second. This is exactly the kind of thing people have come to expect from one of the most corrupt states in the country. And I'm saying that as a progressive. It's a huge reason I moved north to Wisconsin, where affordability is actually still possible.
07/07/26	Ora Davis	60087	X		X		X				Oppose	Its already super expensive to commute there are tolls what seems like every 5 miles. We pay enough taxes for roads that are not maintained to begin wirh. Additionally when there is concern on a ballot to have tolls put in a lock box because the funds are absolutely misused. Tell alot about why increases are needed. The residents of Illinois are squeezed enough. The toll way brings in millions a day in tolls there is zero reason they are broke.
07/07/26	Jeffrey Barsuk	60068			X		X			Not more taxes	Oppose	The solution in Illinois to any issue is to raise taxes. Throw money at a problem. What happened to good stewardship of the funds you have already raised? Where does all of the money go? It is supposed to go right back into the roads. STOP TAXING ILLINOIS! People are leaving this state because we are taxed too much!
07/07/26	Mark B	60016	X		X		X				Oppose	When the tolls were established in the 40's/50's, they were supposed to be TEMPORARY & to be stopped in the 90's. The Tollway Dept has atrociously bilked & misused the funds for over half a century. This is complete BS - no increases, anymore!
07/07/26	Mary Gervino	60123	X		X		X				Oppose	I oppose increasing the toll rates.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/07/26	Victoria Prasil	60126			X	X	X				Oppose	Absolutely ridiculous that we need to continue increase tolls. It's way too expensive as is with little return.
07/07/26	JOANNE HUSARIK	60585	X		X					end of tolls	Oppose	I thought the goal of the tollway was to pay off the roads and STOP COLLECTING TOLLS- not to endlessly collect and spend
07/07/26	Ken Procknow	60041	X		X	X					Neutral	The projects included in Driving Connections will help modernize aging infrastructure and improve the transportation system that so many Illinois residents and businesses depend upon.
07/07/26	frank scherer	60046	X		X		X				Oppose	I think if you used the current toll money collected at the current rates, for me it is about .75 - 95 per gate, with some accountability you could lower the current rates. I use the tollway only for the odd trip to pickup someone at the airport, and to start my trip to see my mother in Pennsylvania. I am often delayed by traffic and work zones, even when I am travelling at night. Get your act together and work with what you have, you could even put out some senior discounts! The best way you could raise more funds would be to actuallly regulate the speed limit and ticket the bastards that think 90mph is acceptable in a 65 zone. Do Your Jobs. Ticket the Reckless!
07/07/26	John Kloster	61065			X	X	X				Oppose	I support capital improvement projects but not on the backs of folks that can least afford them. The timing could also not be worse with rising inflation/prices, high gas prices and diminishing wages for those who have not lost their jobs outright. Please do not fund this via toll increases. Instead, fund it through the sale of bonds or tax the wealthy and corporations, they can afford it and it's their fault we are in this mess.
07/07/26	Stanley Solis	60156	X		X		X				Oppose	i don't even get a 45¢ raise a year. don't raise the tolls.
07/07/26	Rosalie Reynolds	60517	X		X		X				Oppose	A $0.45 increase is ridiculous!! The tollway fee was supposed to have gone away? What happened to that promise?
07/07/26	Ted bianchi	60126	X		X		X				Oppose	Until the tollway authorities can outline their needs not wants and show transparency of how many vehicles pass through weekly along with collections and how to keep costs down the average citizen is not going to approve of this the costs for normal and commercial use will be to great thank you
07/07/26	Troy Traficanti	60069	X		X		X				Oppose	Our toll revenue is wasted currently on poor quality roads and over budget construction. The toll authority already collects too much for what it provides. I'd like to see some accountability before another rate increase.
07/07/26	Mark Pelkowski	60451-9721					X		X	Poor spending and funny I have to pick a predetermined 3rd	Oppose	Tolls were supposed to fund the building (temporarily). We should not supplement the poor spending/decisions by our state government
07/07/26	Michael McNally	60558	X	X		X					Support	As a member of IUOE Local 150, I support the Illinois Tollway's Driving Connections Capital Program. These investments help maintain and improve the roads and bridges that millions of people rely on every day while creating opportunities for skilled construction workers.
07/07/26	Samantha Goodger	53150	X		X		X				Oppose	We already avoid Illinois toll roads whenever possible. The roads in IL are worse than Wisconsin or Iowa despite charging tolls. I don't have a high level of confidence that increasing tolls is going to adequately improve the roads to justify the increase.
07/07/26	Paul Ridl	60156	X			X	X				Oppose	Wow, a rate increase every 2 years to "provide cost predictability for customers". That's one of the most galling justifications I've ever heard for constantly raising costs. How about a commitment to NOT raise tolls for at least 5 years, now that's real predictability!
07/07/26	Blake S Nahf	60087	X	X			X				Neutral	As a member of IUOE Local 150, I support the Illinois Tollway's Driving Connections Capital Program. These investments help maintain and improve the roads and bridges that millions of people rely on every day while creating opportunities for skilled construction workers.
07/07/26	Courtney Miller	53211			X		X			Safety	Oppose	The roads are fine. The issue with the roads are the safety concerns with the aggressive driving and the cars that shouldn't be on the road anymore and don't have license plates
07/07/26	Duncan McBride	60026	X				X			Safety is my only concern but required to pick 3	Neutral	A 15 year project is an impossibly to manage. Scope creep is inevitable. Pick high priority item(s) get them done in a two year period. If they finish on time and show the expected improvements then move on to the next set of improvements.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/07/26	Elizabeth Vasquez	53189	X		X		X				Neutral	Doesn't seem like you have done much with the funds collected all these years..roads are terrible..crowded and we hate having to drive thru to other destinations..do better
07/07/26	Odilon Perez	60014	X		X			X			Support	Infrastructure projects create family-supporting careers while delivering long-term benefits for the public. I support the Driving Connections Capital Program because it invests in both workers and the future of Illinois.
07/07/26	Kelly Chapman	60031	X		X		X				Oppose	It's all crap. The toll fees were just increased and your wording above is just fluff for more taxes, because Illinois roads are worse than ever for the amount of money I pay to drive on them to support the city of Chicago.
07/07/26	Richard Allen Wruck	60056	X		X		X				Oppose	Just another money grab from a system which is optimized to perpetuate the inflated bureaucracy.
07/07/26	claude sredzinski	60411	X		X		X				Oppose	Pritzker has $150 million in windfall gas taxes meant for roads due to the higher price of gas. He is using this amount for other purposes
07/07/26	Nick	60502			X	X	X				Oppose	Your proposal is extremely out-of-touch. Look around you? Higher gas prices, higher grocery bills, higher utility bills, higher rent, and your proposal is to raise the price of our roadways which are already in terrible condition? No. I will avoid highways and cause more traffic congestion if this bill goes through. You and your family are a disgrace.
07/07/26	Amanda Buchanan	60152	X				X		X		Support	"I have been an IUOE Local 150 member for 27 years and live in Marengo I regularly use the Tollway system and understand how important these investments are to our communities, our economy, and working families." Fully support this funding!
07/07/26	Pawel	60194	X				X			No potholes,	Oppose	I am not sure if you realize, but we drive through different states. Different states that dont have tollways yet still have better highways/roads than us. While you enter Illinois, you are met with disintegrating roads and potholes. How is it possible that states with no tollways have much better roads than we do. And not just in urban areas but rural areas... How about you learn how to better manage money instead of all the money being spent on waste, weather administrative or other wise. Then you have the audacity to take more money. How about you get down to the basics and spend money on upkeep, roads and infrastructure. Instead of wasting tax/consumer dollars on your own luxury vehicles, travel, flock cameras, etc....
07/07/26	Alyssa Letsinger	60177	X				X		X		Oppose	
07/07/26	Bill Rickert	60098	X		X		X				Neutral	I am proud to support the Driving Connections Capital Program. Strong infrastructure is essential to a strong economy, and this program will help ensure that Illinois remains competitive and prepared for future growth.
07/07/26	John Robinson	60645	X			X	X				Oppose	At a time when affordability is front and center in this country and this state what gives you all the gall to propose not only 30% increases, but also create increases yearly in perpetuity that have us all guessing odd pennies? You already profit from the tolls more this year than any year prior. You have many other options, from charging per mile used to five year phased fixed increases, to reducing the fraud/waste caused by those you employ and contract out to. Let us not delude ourselves that estimates are ratcheted up and that profits have become quite over zealous for a public service that should operate without these sort of profit margins to begin with. Instead, I would respectfully ask that you propose to return the tollway to the people as it was intended and written in legislation. Let my tax dollars and my elected representatives adminster the improvements; they already tied taxes to CPI. Let my elected officials know, I back the candidate who would see the tollway system dismantled as it rears its ugly profit maximizing head for a 30% increase in a single year and perpetual increase that only pave way for more visible corruption. The tollway if allowed to operate should operate on a fixed profit margin not a sliding scale.
07/07/26	Rhea	60616			X		X			No or limited construction	Oppose	Tolls are already too expensive. Please stop the rate increase.
07/07/26	Jordan Harris	61107	X		X		X				Oppose	We already pay enough in taxes and fees in Illinois. Get the spending in order to benefit the people of your state.
07/07/26	Marinel S.	60610	X				X	X			Oppose	

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/07/26	Joe Solak	60634	X				X			It's crazy to increase the tolls, this state is bleeding the people dry , with all these tax increases, when does it stop	Oppose	Enough with this increases, this is bullshit
07/07/26	Jan	60062	X		X				X		Oppose	Get rid of Pritzger
07/07/26	Randall Ling	60410	X			X	X				Oppose	Decades ago Illinois and we're told that once the tol roads were paid for the tolls would go away. We were lied to. Toll roads are a cash cow. I can't wait to escape this God Forsaken state that is taxing me to death.
07/07/26		60439	X			X	X				Oppose	Tolls are very expensive as is.
07/07/26	Kevin Gaidurgis	60071	X		X		X				Neutral	The projects included in Driving Connections will help modernize aging infrastructure and improve the transportation system that so many Illinois residents and businesses depend upon. Along with being a smart investment in Illinois infrastructure, it will be a reliable source of income for many Local 150 union members.
07/07/26		60561	X		X	X					Oppose	A 60% increase? Seriously? The toll roads have been under construction since before I was born, and I am over 30 years old. Construction on I-294 alone has been dragging on for legitimately over 10 years on the same 5-7 mile stretch of road with no end in sight. If construction was completed on a reasonable timetable, I might be more susceptible to support an increase in fares. These proposed projects are going to give drivers bigger headaches, increase road rage and the amount of traffic, dramatically alter drive times between destinations rendering the toll roads unreliable, and once again prove that Illinois is genuinely incapable of finishing a single construction project before deciding to tear up another section of road. This is asinine, and IDOT should be ashamed at the lack of progress on current projects.
07/07/26	Erika Escobar	60652		X	X		X				Oppose	
07/07/26	Joseph Keehn	60106				X	X			Low toll costs	Oppose	Tolls are already high enough. If they are raised more, I will always avoid till roads. Raising prices during this economy and with the current unpredictable administration, is not a good idea.
07/07/26	Briana Glaser	60402	X		X		X				Oppose	TAKE FROM YOUR OWN POCKETS, NOT OURS
07/07/26	Jerome matula	60123	X		X		X				Oppose	Tolls were supposed to have ended decades ago. Wasteful spending by Illinois on illegal immigrants should have been used for infrastructure. Scam
07/07/26	David Paul Underwood	60087-2829	X				X			What have been the cost reductions since 2012	Oppose	What doesn't the 40+ gas tax cover this along with tolls. Why was 3 billion transferred to Chicago to cover busses and trains instead of raising user fees. I don't trust govt to honestly manage this or any other cookie jar. Cost reductions, efficiencies should cover any increases.
07/07/26	George Velianoff	60014-2917	X		X		X				Oppose	Cut it by 50%
07/07/26	Eric Cocanig	60467			X	X	X				Oppose	Absolutely fucking not you greedy bastards. Charge the goddamn trucking lobby who causes more damage to roads than hybrid vehicles
07/07/26	Dario	60154				X	X		X		Oppose	Living life in cook county is becoming extremely difficult. We pay property taxes and income state tax, and it supposedly for the roads. Why does there need to be an increase in IPASS charges? It's absolutely unacceptable.
07/07/26	Dominick DeMonte	60013-1589	X	X	X						Support	I have been an IUOE Local 150 member for 27 years and live in In McHenry regularly use the Tollway system every day. Between McHenry and Channahon / Joliet area and understand how important these investments are to our communities, our economy, and working families.
07/07/26	Eric C	53051			X	X	X				Oppose	No
07/07/26	Diane Morgan	60014	X		X		X				Oppose	Gov. Pritzker is the worse governor in the history of Illinois. He does not care anything about legal citizens and is continuing to make Illinois less affordable. I can not wait to leave this state so that I no longer contribute any money to this man and his corrupt policies. Good luck

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/07/26	Michelle Stone	61072	X				X			Affordability	Oppose	ENOUGH! Cannot afford to go to work using the highway. 3.00 A DAY!!! WE ARE TIRED OF RATE INCREASES!!! ILLINOISIANS PAY ENOUGH TAXES for this!
07/07/26	Piotr Regmunt-Sobieszczanski	60133			X		X		X		Oppose	It should be free to travel on any interstate in Illinois
07/07/26	Alaina	60007			X	X	X				Oppose	You are increasing the costs of the tolls - charge those that are using the roads who DONOT live here. We already can barely afford commuting to work and this will increase total yearly cost by almost 500 a year for our family for my commute to work alone.
07/07/26	Todd Wirth	60041				X	X			an efficient management organization	Oppose	enough raising rates for driving around Greater chicagoland. figure out how to maintain roads and budget effectively before asking for any more of the communities money.
07/07/26	Calvin	60056	X	X	X						Support	I drive the tollway every day and am willing to pay for the time and sanity it saves me.
07/07/26	Gavin N	60004	X			X			X		Support	I broke down on the side of the Tollway last year and couldn't believe how quickly the roadside assistance worker got to me. They were kind, helpful, and made me feel safe. These are the kinds of services that come with paying tolls and I am here for it. I support this increase even if it is just to ensure someone is there to help me again when I need it. Thank you
07/07/26	John McNichols	60004	X		X		X				Oppose	Our tolls are already ridiculously high and I vehemently oppose any more toll hikes. Please dont make Illinois even less affordable!
07/07/26	Suzanne Rocks	60563					X		X	Only affordability but you require 3	Oppose	"Toll-free by 73" was the phrase used when tollways were introduced in Illinois. 53 YEARS later you are asking for MORE money. Why not find the savings by fixing corrupt contracts and eliminating the $219 million in salaries and benefits from this unnecessary organization?
07/07/26	Anonymous	60002	X		X		X				Oppose	I wholeheartedly oppose! The tolls are already excessive. It seems like there's always ongoing construction and despite the claims that it will improve traffic flow, nothing has changed. Traffic still sucks!!! Unions and exorbitant contracts like these have ruined Illinois.
07/07/26	TOM ZELINSKI	53057-9699	X		X					More obvious speed regulation. On my drives on the tollway I see very few police vehicles.	Support	These things seem inevitable. The price of everything continues to rise, and it would stand to reason that tollway expenses will also rise. If all these proposed projects take place, it should make for better and safer conditions.
07/07/26	Kim Benoit	60914	X		X		X				Oppose	We are being taxed out of our home in Illinois. Why don't you cut expenses to balance the budget instead of always passing it on to us. Take a look at what Florida is doing and try that. I am very much apposed to raising tolls
07/07/26	Caryn M	60031			X		X			Affordability!!!	Oppose	I pay too much already and pay too much in taxes to this horribly expensive state already. If you raise it I will avoid the tollway at all costs!!! The tollway was to be temporary and here you still are. I am sick of paying tolls on top of the taxes I pay to support the roadway system in this state.
07/07/26	Caleb Stein	46001	X		X		X				Oppose	An increase is surely merited, but a 30% increase?
07/07/26	Jennifer	60442			X	X	X				Oppose	Our toll roads are already very expensive. While you argue they will drive jobs and growth, I actually travel the direction of free roads to visit stores and shops. For example, I prefer the Costco near my home office of 355, however the cost of tolls to drive there and back is very high, negating the savings of shopping there. Instead I take I80 to another Costco where I can save that toll money. Increasing tolls will increase costs of goods and services when those costs are passed on to the consumer. Our toll roads are already very expensive, an increase will make it too expensive to use!
07/07/26	Filan Kishiata	60016		X	X	X					Oppose	What's happening with the slogan: "Toll free by '73" Short memory? Like everything from the government officials.
07/07/26	Jim Stotts	60803-1227	X		X	X					Oppose	No toll increases. Tolls are already too high and along with the rising costs of everything else in life, an additional fee is way too much.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/07/26	Michael Kneebone	60634	X			X				Toll Rates should NOT subsidize wasteful CTA/RTA spending	Oppose	I live in Chicago so I would benefit from tollway money being routed to the RTA/CTA but living here also means I see endless trains and buses being run empty - no business could survive this insane wasteful spending of running heavy equipment with no passengers when clearly there is a pattern that any computer program could figure out in a few days.
07/07/26		60181	X		X		X				Oppose	These public hearings have not even started and you are ALIENATING the people who use the interstates the most in Cook and DuPage Counties by scheduling their meetings from 11 am to 1 pm when MOST of these people are working. Is that your plan? Don't think they can get a two hour lunch. Over the last 12+ years there is ROAD construction somewhere whether I-94, I-294, I-88, I-55 and any other interstate I may have missed. As for not fares going up, that is a bunch of BS. Cannot believe with ALL the traffic that exists there is not enough money to pay for necessary improvements. Just finished a stretch around 95th to the Indiana border on I-294that took forever and a total mess on the Kennedy for years to come. So it is NO for now and will see if I can make the meeting!
07/07/26	Kevin Gartley	60067	X		X	X					Support	The Tollway provides the most predictable travel times and minimizes my worries about arriving places on time. I will have no problem with the increase if it provides better passage through the current blockages. I know I-90 was just redone, but the Tollway needs to team up with IDOT to redo the I-90 and I-290 interchange.
07/07/26	Mark C Koszyk	60070-2818			X		X			No never-ending construction	Oppose	Absolutely against this increase. Ridiculous. Why is it taking 5 years to finish 294? Mismanagement and bureaucracy is my guess. And you want more money to screw up more. We have had enough of this nonsense.
07/07/26	Tom Honeycutt	61102			X		X			No toll increase connected to the index	Oppose	It cost too much for tolls already. No toll increases whatsoever
07/07/26	Valerie Moore	60466					X		X	None of the above	Oppose	If the Illinois tollway wants to make changes they should fund it themselves not rely on tollway users to fund their unnecessary infrastructure projects & upgrades. I will cancel my iPass & avoid tollways if tollways are going up.
07/07/26	Zuriel	60624	X	X						You guys are scumbags wasting our money. Have you not made enough money from us	Oppose	Screw you and your roads.
07/07/26	Tom	60625	X		X		X				Oppose	Get the funding from the federal government who must cut off all aid, including military, to Israel. This will completely fund this project and many, many, many other projects across the country. The math is crystal clear.
07/07/26	Travis Brown	60544	X				X			Less tolls	Oppose	It is already expensive enough to live in Illinois, we have bigger problems than needing next generation “connectivity via the road”. No, stop increasing tolls we pay some of the highest taxes in the nation and we don’t need steadily increased costs to travel the roads we pay to live around.
07/07/26	J Gonzalez	60440				X	X			Reducing toll count	Oppose	You guys are leeches. Tollways suck

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/07/26	Nick Karnezis	60487	X		X		X				Oppose	I am writing to voice my opposition to the proposed 2027 toll increases and the automatic inflation triggers in the "Driving Connections" plan.The current toll system is structurally unfair. For example, a single plaza on I-355 costs $1.90 one way—double the rate of other plazas. Not sure if some are higher or lower for a specific reason. If the revenue is pooled to be utilized across the entire network then the charges should be standardized with how the rates were determined. Please consider that commuters do not have a choice in this matter; we are forced to pay these prices because there are usually no viable freeways or alternative routes available to reach our destinations efficiently. If the tolls become excessive or unaffordable then ridership is reduced and revenue remains flat. I am completely against automatic price increases based on inflation starting in 2029. Toll adjustments must be based strictly on verified infrastructure need, not automatic economic indexes. Assuming regional traffic volume is consistently growing, more vehicles are utilizing the system and naturally driving up toll revenues anyway. If the Tollway is already capturing increased funds from higher traffic volumes, forcing automatic inflation hikes on a captive driving public is unjustifiable. I urge the board to standardize costs across all plazas and reject automatic increases.
07/07/26	Valentina	53946			X		X			Easier way to get through Chicago when we drive to Michigan or East Coast	Support	We often travel from WI to Northern Chicago or to O'Hara airport, and that's ok. But getting downtown Chicago or traveling through IL to get to Michigan / East Coast is always a problem. Hopefully, the Toll increase will allow for better roads around Chicago and Lake Michigan.
07/07/26	Shane Parkman	60041	X			X	X				Oppose	Yeah fuck off
07/07/26	Devon	25405			X		X			Less things that cause frivolous state spending.	Oppose	Learn how to manage the money you raise from current tolls
07/07/26	Daniel Varela	60451			X		X			More lanes	Oppose	I already pay more that 20 dollars a week to get to work when I use the tolls. Horrible bill when already being taxed by this horrible state and government.
07/07/26	Ruth Vis	49546	X				X		X		Neutral	replace I-Pass readers with those ala SunPass that don't require slowing down/stopping at pay stations to be read
07/07/26	Nadine Djordjevic	60465	X		X		X				Oppose	This is more than 50% increase per toll. Also I am totally opposed to increasing tolls every two years starting in 2029 based on CPI!
07/07/26	Gloria Uncapher	62531	X		X		X				Oppose	The current toll fees don’t go to the actual projects and budgets they were created for. If they were, there wouldn’t be a need for any increases. Corruption needs to be stopped and the citizens of IL need a break.
07/07/26	Brett Studer	60564	X			X	X				Oppose	Tollways were supposed to be free after they raised enough funds to pay for their projects. Instead, you’re now using them to offset your spending incompetence. Continue making Illinois and its roadways unaffordable for citizens and continue to watch our state population shrink. You should be ashamed of this proposal.
07/07/26	Mark Tischler	60189-8102	X		X	X					Oppose	Unless you can provide me with details on how you propose to ease traffic congestion, which I do not see at a glance so far in the proposal, I oppose a toll increase. It seems that, usually, any work on the roads does not improve traffic congestion, because the roads simply fill up with more traffic when lanes are added, for example. Prove to me that the total increase is worth it.
07/07/26	Jordan Edwards	60071	X		X		X				Oppose	We are being squeezed out enough. Please don’t make life even more expensive.
07/07/26	DIANE WALZ	61032-3603	X		X				X		Oppose	We pay enough in taxes and tolls already.
07/07/26	Michelle Nieto	60490			X	X	X				Oppose	We aren't done paying off the current roads and now you want us to continue to keep paying for additional construction. I'm already paying upways of 6 dollars on tolls 3x a week. I oppose tollway increase! Have you not made enough money yet?!
07/07/26	Matthew Stankowicz	60010			X	X	X				Oppose	Tolls should be eliminated not increased. this is not supposed to be a source of ongoing revenue for the state.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/07/26	Russell Cascio	60108	X		X					More lanes	Neutral	More detail plans on exactly what the state is planning instead of just saying that it wants to make sure we can spend more time with our families.
07/07/26		60050	X		X		X				Oppose	I think Illinois has taken enough of my money and hasn't done anything with it but raise taxes and make the rich richer. It's a scam raising the tolls. I thought the tollway was supposed to only be a temporary thing. Apparently not. Just take more money from people who are trying to earn a living. Very disappointing and it's embarrassing to say I live in Illinois!
07/07/26	Calena Terry	60162	X		X		X				Support	I support the proposed toll rate increase for Illinois. Besides the raises, this project will help people who travel most of time for either work, vacation and etc, possibly get to their destinations much faster. As stated, it will also allow individuals to spend time with family more often and less time being stuck in traffic, hopefully. Thanks for allowing me to comment on this particular matter.
07/07/26	Kenneth W Weiss	60046			X	X	X				Oppose	Stop the corruption. Pay for it yourself don't take any more of our money.
07/07/26	Vito Latrofa	60067	X	X		X					Support	
07/07/26	Caleb	60076	X		X		X				Oppose	Literal highway robbery First off you need to lower tolls especially the skyway Then use some of the billions you earn to do the work It's your road so you should pay for it This is criminal Do something for yourselves w the money you make
07/07/26		60074				X	X		X		Oppose	You should fund road projects with the money you're already getting. Toll increases every 2 years is also ridiculous.
07/07/26	Zakary Keesee	52722	X				X			Getting near the city from out of state	Oppose	Tax your citizens more effectively to support public works. Don't outsource taxation to private companies that aren't accountable to voters.
07/07/26	Mike Brophy	60137	X				X			planning that is responsible vs just spend more money.	Oppose	Would like to see an accounting of the current revenue and expenses for the tollway system in Illinois, and these plans seem like pie inn the sky spending without trying to use the money available and not be as aggressive with new plans. Illinois is losing people because the state already spends more than it has, not sure why we should spend more money when we can't effectively use the funds that we currently have. If Illinois was treated like a business, then the Governor should be fired along with the person responsible for the tollways, as neither has a clue about how to do more with less. The answer always seems to be spend more. Go back to school and take an entry level accounting and economics class.
07/07/26	Phillip Nomellini	60136	X				X			STOP THE NOISE . BUILD SOME NOISE WALLS. THE NOISE IS UNBEARABLE.	Oppose	Stop the NOISE it's unbearable. Build some NOISE walls.
07/07/26	Laura West	60126				X	X			Being able to use the tollway & afford it	Oppose	Looking at the toll rates, you are Doubling the cost of the least expensive tolls & it's outrageous. I can't believe this is the best option! This will force me to double the cost to drive on 294 or better yet- cut out the tollway & use the city streets only. I will now have to strategize to use only city streets to drive from Elmhurst to Lemont 3x a week when the cost to use the freeway is more painful than losing the time. Literally doubling the cost of so many tolls. This is disappointing. I can not believe that a 95% increase in independent tollway locations is your best & final option. I hope you feel the personal impact of your actions & your commute is penalized by your actions.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/07/26	Your mom is a hoe	53379	X		X					You don't help anyone at all. And more and more people recognize. Your entire system of money is. Built on "credit" (fake currency). So nobody owes you anything. Ever. Hope you all get what you deserve, and I hope your bloodline punishes you greatly.	Oppose	You asshats are not human beings. Nobody should respect you at all. Your system is corrupt as fuck, and not a soul should pay a fucking dime to you. The time is coming. You will let your guard down at the worst time. You think we ALL haven't been watching? You will learn a giant lesson of this world. And you deserve whichever way the people decide to go with it. Good luck.
07/07/26	Scott Lundgren	60614	X		X	X					Oppose	Tolls are high enough. There is no longer a need for toll takers, etc. due to open road tolling. Also able to collect from toll evaders much more reliably now. Should add ample funds
07/07/26		60517	X			X	X				Oppose	I pay 95 cent to drive 5.5 miles on I355! I think that is already ridiculous! Maybe someone should be looking at miles traveled for dollars charged!
07/07/26	Ivan Rodriguez	60452			X	X			X		Support	Safe and reliable roads do not happen by accident. They require ongoing investment and planning. I support the Driving Connections Capital Program because it helps ensure the Tollway system remains safe and efficient.
07/07/26	Kevin	60477	X			X	X				Oppose	That fat fuck pritzker taxes us enough.
07/07/26	Cal Hopkins	60189	X		X		X				Oppose	
07/07/26	Tim Musial	60126	X		X		X				Oppose	Toll roads were temporary. Stop wasteful government spending of our tax dollars.
07/07/26	Justin Wilke	60439	X				X			None	Oppose	The claim that toll rates have not increased in a decade is categorically false. Toll rates just increased this year. Where is all of this money going?
07/07/26	Sean Griffin	60464			X		X			Stop taxing us	Oppose	Tolls were suppose to be temporary. Yet decades later we are not only STILL paying for them the prices are Increasing. Another example of the incompetence of this state. Stop taxing making us pay through the roof on every chance you have. Limit spending snd overall government in this awful state.
07/07/26	Rachel Hoover	60532	X			X	X				Oppose	The toll roads were supposed to be free. Now you want our permission to cause a massive increase in prices? And all of the construction this causes will be a huge headache. Even if it does improve traffic, it will only do so after many years of incredible delays because of the construction.
07/07/26	Angel Martinez	60085	X	X					X		Support	I support the Driving Connections Program because it creates jobs, supports apprenticeship opportunities, and helps maintain the infrastructure that keeps Illinois moving.
07/07/26	Robert J Yessa	60123	X				X			Lower Tolls	Oppose	The Tollways are way too expensive. Only make improvements with the money you now collect. Don't increase taxes to do more than you need for maintenance. The tollways are Federal roads. Let Congress pay for all these unnecessary improvements. Leave the Illinois taxpayers alone.
07/07/26	Levent Elibal	60194	X		X		X				Oppose	
07/07/26	Laura	60142			X	X	X				Oppose	Can not afford to go to work between gas prices, tolls and parking downtown
07/07/26		60189					X		X	The state not taxing the fuck out of its citizens	Oppose	Illinois proposing even more tax and cost on its citizens?? Color me shocked! You motherf**kers wonder why people are leaving this state in droves. These projects are bull$hit anyway. There is no need for a revamped 355/88 interchange. Why am I even bothering? You coc&suckers will implement this shit anyway. Fuck all of you proposing this with a red hot poker.
07/07/26	DENNIS MCABERY	60101	X	X			X				Oppose	Families are under enough pressure with rising costs. If tolls go higher, they will avoid the toll roads and put more traffice on the streets.
07/07/26	Donald wagner	60304	X		X				X		Support	

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/07/26	Jovena Ward	46409	X		X		X				Oppose	Majority of my commutes is spent in traffic despite paying for tolls as a convience. I am stongly against a toll increase. Maybe consider express lanes for further distances of travel, for example, Indiana going south/east. Local lanes for closer commuters and exits. This idea of a pay increase while drivers are in heavy traffic is obsurd and ridiculous. If anything we should recieve a discount during rushhour traffic and paying a toll is counter productive. Most commutes from Ohare to Indiana is often approx. 2 hours or more between hours 13:00-1800 M-F. Especially during hours of construction. This includes heavy traffic on I-294 and I-80 interchange.
07/07/26	Paul Riehman	60069	X				X			Reduce the agency bureaucracy	Neutral	The note regarding the proposal to adjust rates in accordance with the Consumer Price Index every other year to provide cost predictability for customers is a "stretch". Cost predictability for the customers???? More likely revenue predictability for the Tollway. This will only increase cost of living for residents and is close to the annual gas tax increase. Whatever happened to toll free in '73? Other states maintain, improve, etc. roads without the use of a bloated, inefficient government body.
07/07/26	Steve Weidig	60630	X				X			Less construction	Oppose	Just a scam to steal more money. You have continual construction and repairs. Then you tear it up again and do more. Constant roadwork just a self-sustaining circle.
07/07/26	Lalitharjun Pedaballe	60563			X	X	X				Oppose	Tolls are already high enough. Kindly don't increase the tolls.
07/07/26	Dan	60014	X				X			Get rid of tolls	Oppose	Glad in leaving this shitty state.
07/07/26	Dave Balaskovits	60185				X	X			Cheaper tolls.	Oppose	Ridiculous. Keep taking money to fix the same roads you redue every other year. No other state has tolls like Illinois and somehow they manage their roads. Do you need more money to pay idot and have 20 trucks repair a pothole. 1 guy works others watch or sleep. I do not support this
07/07/26	Lynne Batts	60119	X	X			X				Oppose	
07/07/26	Brian	60403			X	X	X				Oppose	
07/07/26	Kevin Kurry	60418	X		X		X				Oppose	The management of the money from the toll system is completely incompetent. We have been paying tolls since the 1960's and all that has been accomplished is a bloated bureaucracy. CUT Spending on administrative staff & management and put all the savings into the roadways instead of pockets of politicians & their cronies.
07/07/26	andrew schnmit	60005				X	X			Completion on schedule	Oppose	15 year plan in Illinois will take 30 years and 3 toll increases. Please be honest. In addition the traffic congestion for those 39 years will be horrible. Just fill the pot holes and get out of the way.
07/07/26	Dale Anderson	60477	X		X		X				Oppose	If reasonable yes. The numbers you've shown are outrageous. Actually, sounds like another Illinois Democrat money fundraiser for Illinois politicians and unions.
07/07/26	Ryan Shepherd	60084			X	X	X				Oppose	Tax the common man more SMDH
07/07/26	John Pjescich	60561	X				X			None of the above	Oppose	Vehemently oppose any tollway increase.
07/07/26	Brandon Palmer	60050	X				X			Not getting taxed out the rear end	Oppose	The tolls were originally meant to be a sunset clause that would go away after the roads were paid. But Illinois didn't want to lose the money. All you continue to do is raise tolls and in return we get some of the worst roads in the country. Maybe instead of taking more money from the people you should consider all the useless things you spend it on now. This state has a financial problem from careless spending by the government and instead of fixing the issue you continue to put it on every but yourselves. This is ridiculous to ask for more money in one of the heaviest taxed states in the country. I doubt anyone will read this but get bent
07/07/26	Anna L.	60137	X				X			No more tollways	Oppose	Tollways are a scam and must be dismantled. Any project should be taken on by the state funds they send to Israel. We are the United States of AMERICA and we are run FOR the people BY the people.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/07/26	Christopher Bourdeau	60018			X		X			Time is same is close to street traffic on prime time. Not worth the the tollway if it's increased.	Oppose	We already pay taxes on everything we do. As prices of food and goods go up. The price to use a highway should not. It is hard for us common folk to afford a house, food, insurance and a family to raise on a minimum wage. Working all week to provide is hard enough for families.
07/07/26	Dave Lein	53005	X		X		X				Oppose	Failed state already, dont drive away more people by increasing already overpriced tolls. Maybe the state should secede to Wisconsin so it can be ran properly.
07/07/26	James Schmieder	60103				X	X			Lower tolls	Oppose	Toll Free by '73, broken promise. Toll rates should be posted at each toll as they always were prior to ipass. Increase of 45 cents per toll, the current rates are already too high.
07/07/26		60102	X				X			Low cost	Oppose	
07/07/26	Bruce Wiegman	54914	X		X		X				Oppose	Illinois drivers come into WI and use our roads all the time without paying tolls, I do NOT think we should need to pay more to drive on roads in IL.
07/07/26	Gary Kam	60192			X		X			Just be honest and tell everyone you guys just want to scam everyone	Oppose	Just be honest and tell everyone you guys just want to scam everyone, the tolls is already ridiculously high, and highway system is constantly a mess with unending construction all year round. Just be honest that you guys want more money and tell us that you won't do jack. I will feel much better.
07/07/26	John Paul sims	46406	X				X			The roads are substantially bad in most locations and have not improved to the cost and inconveniences	Oppose	Spend the money they have prudently and stop reaching for more, the smallest repairs take entirely to long and the workers are saying job security.
07/07/26	Lori Minson	60107	X			X	X				Oppose	We already pay too much for tolls and taxes. Maintain the roads and bridges we already have.
07/07/26	A Concerned Citizen and Resident	61802	X				X			Stop price increases	Oppose	Criminal to raise and NOT fix any roads
07/07/26	Matthew Larkin	60060			X		X		X		Oppose	Money gets collected from drivers daily to pay for construction crews that close lanes increase congestion and work at a snails pace
07/07/26	DB	60067	X			X	X				Oppose	What a horribly run state. Now you need to gouge Illinois drivers more. This state is so corrupt, need all new leadership with common sense. I thought the tolls were temporary way back when they started to improve and build the tollways. This state is run by a bunch of crooks.
07/07/26	Bill Darby	60543	X		X		X				Oppose	Illinois tollways are inadequately maintained for the money they are receiving currently. No reason for increase
07/07/26	Kristina Olson	53186	X	X			X				Oppose	everything is already so expensive...whyyyy make the consumers pay if you want to do something....
07/07/26	Patrick Nowak	60025	X				X			Eliminate waste & fraud.	Oppose	The Illinois Tollway Authority has spent tens of millions in the past few years. This proposal is excessive and not needed at this time. Thank you.
07/07/26	Matthew Peel	54956	X				X			Low cost	Oppose	45 cents per toll is crazy! You already get so much funding for the roads. I suggest you increase your organizational efficiency so you customers are best served.
07/07/26	Nicole Launius	60487	X		X		X				Oppose	There are always increases for everything in IL! I'm tired of paying for everything and having tax increases all the time! We are not made of money. Find the money somewhere else.
07/07/26	David thompson	60045	X		X		X				Oppose	F that you already have enough money and taxes from us
07/07/26	J S	53110	X		X		X				Oppose	Traffic will continue with congestion no matter what you propose. It's a waste of 27 billion dollars just to increase tollway rates. You already increased it in 2012. No reason to increase more rates when you make more than enough money extra everyday
07/07/26	Jason	60516	X		X		X				Oppose	No thank you.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/07/26	Dom	60506	X		X		X				Oppose	I oppose the proposed Illinois Tollway rate increase. Many Illinois residents are already facing higher costs for housing, groceries, insurance, and other necessities. Increasing tolls would place an additional financial burden on commuters, families, and small businesses that rely on the tollway every day. Before asking drivers to pay more, the Illinois Tollway should demonstrate that current revenues are being used as efficiently as possible and explore opportunities to reduce unnecessary spending. Any increase should be considered only after a clear, transparent justification is provided and the public has confidence that all other cost-saving measures have been exhausted. I urge the Board to reject this proposed rate increase and instead focus on improving efficiency, accountability, and responsible management of existing funds.
07/07/26	Kath	60707	X		X		X				Oppose	While I understand tolls are necessary to help maintain roads and provide services, that is quite an increase. In today's economy every penny counts. That would amount to a drastic increase for drivers that use the toll roads daily.
07/07/26	Nora Lin	60563	X				X	X			Oppose	45 cents of increase per toll is about 60% increase of most of the tolls. That's way too much when people are struggling to put food on the table and roof over their heads. I would support an increase of 25 cents per toll and adjust it based on the consumer price index every 3 years.
07/07/26	Joseph Esposito	60119			X	X	X				Oppose	As a union construction worker, I travel multiple miles to and from work to feed my family. A toll increase of this size would be crippling to my income
07/07/26	Anonymous	60504	X				X			Lower toll fees	Oppose	No new tolls! It will be a disaster.
07/07/26		60452	X		X		X				Oppose	Strongly oppose toll increases!!!
07/07/26	Ellen	60062			X		X			Low tollway prices.	Oppose	No matter how many proposed improvements, you will NEVER alleviate rush hour congestion. During these inflationary time when gas & food prices are so high, why add a .45 increase to fund make work projects? This is a ruse. People are already having problems making ends meet, and now you're adding more expensive tolls? You will accomplish nothing.
07/07/26	clifford Miklos	60439	X			X	X				Oppose	Our governor just raised the rates to support CTA/RTA/METRA, ETC, and i do not even use them. Why you didn't oppose that increase is beyond my belief. now you want another increase for your pocketbooks and projects. does not seem right. Furthermore, when i do drive past construction sites, 1 out of 2 employees are actually doing something and the other is BS's with co-workers. Have your sub's more responsible for hard working employees and not ones that do nothing at all. I do not support this increase and will do all in my power to fight it Sincerely, CLifford W. Miklos
07/07/26	MICHAEL SAGINUR	60044	X	X						cost of using the tollway	Oppose	the roads in the states next door are much better and they don't charge ANY fees
07/07/26	Aimee	60060	X		X		X				Oppose	Taxes are already insane in Illinois. Please do a better job spending the tax money the state already has.
07/07/26	Jeff	60540	X		X		X				Oppose	The proposed increase is very steep. With all the Illinois increases, this is unaffordable. Illinois govt and the toll system need to work together to cut other areas to allow funds to areas of the road systems.
07/07/26	Zachary Frankenbach	60565			X	X	X				Oppose	We do have outdated infrastructure, but tolls are already fairly expensive. I would like to see how much in tolls are collected annually, and how they are spent. I would also need to know the scope of the project, how long it will take, and the traffic it will cause. The construction on 294 has added significant time to my commute to and from work. Time I will never get back. I am not excited to jump right to more road construction and extended travel times. Without more details I am opposed.
07/07/26	Chris Stanaway	60189			X		X			Not getting shot.	Oppose	Most other states have limited or no tollway system and yet are able to maintain decent highways. Illinois overspends, is beholden & run by the unions, and has a massive amount of waste, fraud, and corruption. Illinois does NOT need to take more from the tax payers. Illinois needs to do better with the massive amount of money that we already provide.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/07/26	Jennifer H	60178				X	X			Affordability	Oppose	A .45c increase is insane!! As if those of us that travel through multiple tolls in 1 day aren't paying enough!!!!!!! I will NOT take the toll roads anymore. Which will in turn make me drive longer distance to and from work but I will refuse to pay that much more. I'd rather pay for more gas!
07/07/26	Vladan Obradovic	60608	X		X		X				Oppose	Roads are not maintained at all. Disaster and you want more money,be ashamed....
07/07/26	Juan Carrillo	60140			X	X	X				Oppose	It's to expensive as it is. For people who pay many tolls it adds up at the end of the month. Make a monthly pass option perhaps unlimited
07/07/26		60030			X	X	X				Oppose	
07/07/26	Ryan Bretag	60540			X		X			Constant construction and high levels of debris	Oppose	It is difficult to comprehend such a plan during challenging economic times to propose a change thst will inevitably solve very little. Trust is simply not in place.
07/07/26	Nancy	81506	X		X					No fees	Oppose	This is ridiculous. We've been paying for years. It was supposed to pay for the highway, not keep paying. So glad I moved out of Illinois!!
07/07/26	Joe	60193	X				X			None	Oppose	The increase is too much. Taking 390 just to get to 355 is almost $2 for 3 miles worth of road. We are squeezed everywhere else in IL. Lower the rate increases and you'll have more people support it. Otherwise, you're going to see more people using side roads and more villages requiring more repairs. Also, fix 290 by tower lake. Road is a death trap.
07/07/26	Denise Herriman	60538			X	X	X				Oppose	I am writing to express my strong opposition to the proposed 45-cent increase per toll on the Illinois Tollway. My husband and I have both relied on these toll roads to get to work every day for more than 11 years. Together, we drive approximately 160 miles each day. Using the tollway is not a luxury for us, it is a necessity. We do not have a practical alternative route that allows us to get to work on time. Over the years, we have absorbed rising gas prices, increasing vehicle maintenance costs, higher insurance premiums, and previous toll increases. Adding another 45 cents to every toll may not seem significant on paper, but for commuters who use the tollway multiple times every day, the costs add up quickly. This proposal would place yet another financial burden on hardworking Illinois families who are simply trying to earn a living. Many of us have not seen our wages increase at the same pace as the cost of living. Every additional expense matters. For families already budgeting carefully, this increase means less money available for groceries, housing, healthcare, childcare, and savings. The Illinois Tollway was built to provide an efficient transportation system, but it should not become increasingly unaffordable for the very people who depend on it every day. Before asking commuters to pay even more, I urge the Tollway Board to explore other ways to address funding needs, improve efficiency, and reduce unnecessary spending. Please consider the real-life impact this increase will have on thousands of daily commuters. We are not asking for special treatment, we are simply asking for fairness. Working families should not be expected to shoulder yet another increase just to get to and from work. I respectfully ask that you reject this proposed toll increase. Thank you for your time and consideration.
07/07/26	Bobbi Shaffer	60411				X	X			Affordability	Oppose	1. 294 was supposed to become a freeway BEFORE I WAS BORN. I'm now almost 38 years old. The bonds are more than paid off. 2. In your digital flier, it was stated that tolls haven't increased in a decade. That is also not true. 294 JUST increased Jan. 1 2025. Now, I'm not a mathematician, but 2025 was not a decade ago. 3. With gas prices increasing with no sign of stopping, the last thing commuters need is MORE fees attached to commuting. 4. FINISH THE CONSTRUCTION THAT'S BEEN GOING ON FOR DECADES FIRST BEFORE YOU FLEECE US FOR MORE TOLLS TO FUND MORE PROJECTS THAT WILL MAKE TRAFFIC WORSE THAN IT IS NOW. 5. If tolls increase AGAIN just 2 years after increasing 294 (again, less than a decade), I'll just stick to freeways and avoid toll roads like the plague. 6. If you need funding, maybe you need to evaluate salaries and employees like schools are forced to do when funding is tight.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/07/26	Raymond Hull	60505			X	X	X				Oppose	I have a limos livery service. More fees deplete my earnings. Also the new toll stickers have been a major headache for my vehicles. One vehicle have had 3 stickers and I continue to get video tolls and paying full prices instead of discounted. I was even sent an old unit and still no luck. Another vehicle most tolls I get the discount but others I don't . Please get your house in order before raiding fees.
07/07/26	Demetrio Bahena	53272	X		X		X				Neutral	Is already expensive
07/07/26	Salman Khan	60108			X	X	X				Oppose	Absolutely do not support increasing the tollls. Why? I know you guys dont care what I say. Whats one more whiny commuter, right? First you force us on these tollroads because of lack of public transport. Then you force us to sit in traffic for hours. So why do you eant MORE money now? How are you going to clear the congestion every morning on i-90 to i-294 exit? What choice do we even have? You all are a bunch of greedy crooks looking to line your pockets from our hard earned money, so it doesn't even matter what I say.
07/07/26	Barb Scher	60089	X		X			X			Neutral	I also would like there to be much less construction especially and easier detours. This causes the most stress and delays.
07/07/26	Guy and Ann Vander Wyst	54212			X	X	X				Oppose	Leave the toll pricing alone. We are all struggling with inflation pricing on groceries, gasoline, EVERYTHING!!!!! Now you want to jump in and add another hardship. Trump won't get us out of Iran and we have a President that doesn't care at all what is happening to the "little guy" trying to make ends meet.
07/07/26	Travis Moldenhauer	60175					X		X	Reduced tolls to make commute affordable	Oppose	Why do we pay to get onto a toll, while on the highway and then again when we get off? Tolls should be paid once to access the highway. Additionally, this wasn't meant to be a long-term program. Illinoians are being subjected to covering budgetary issues and then to add insult they are also wanting to increase. Why not work on making things affordable to attract people to the state not keep asking for more because the state cannot budget.
07/07/26	Balagru Veloo	60031	X			X	X				Oppose	This is hideous... IL is a very expensive state to live in as is--- with high property taxes etc. We don't need another hike in tolls.... just follow what WI (our neighbor) does - no tolls and good roads. Strongly oppose... unaffordable for many.
07/07/26	Gretchen	60514	X			X	X				Oppose	This is absolutely ridiculous!! NO ONE CAN AFFORD TO LIVE IN ILLINOIS as it is!!! I strongly oppose this!
07/07/26	Marcie	60004	X		X		X				Oppose	The last thing taxpayer's of illinois need is an additional increase in tolls. Find another way to come up with the funds. How about cutting out wasted spending or cut programs. Do not increase the tolls!
07/07/26	Kathleen Cordova	60480				X	X			Quicker route	Oppose	Insanity to increase by this much!!! 294 has been a nightmare during your construction project!!! No way!
07/07/26	Jerry Ahler	60102	X				X			Zero cost for tolls	Oppose	The syndicate has received more toll revenue than required. When will dividends be distributed?
07/07/26	Gail	60404	X		X	X					Oppose	Toll roads in Illinois started years ago as a "temporary" thing to pay for a road to be constructed. I have always believed Illinois politicians "rob Peter to pay Paul". These new tolls will not end up in the right hands doing what we are told they will do. Tax Tax Tax and pay for Chicago.
07/07/26	John K Dahlberg	60123	X			X	X				Oppose	Enough is enough already with respect to the proposed toll increase.Given the current economic realities facing residents of northeastern Illinois, this proposal is not just tone deaf - it is down right insulting. There won't be any businesses or residents left or able to afford to use the tollway system if you pursue this plan. If this is passed as proposed, I can assure you that I will do everything in my power to avoid using the tollway system whenever possible. It just boils down to principle. You people don't get it at all. Illinois is rapidly on its way to becoming a failed state and endless cash grabs like the one proposed here will hasten the exodou out of Illinois by residents fed-up with the fiscal madness of this proposal.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/07/26	Mike Nissley	60640			X		X			Affordability - no $5.00 trips from downtown to the suburbs pleasee	Oppose	This is all bullshit - another huge boondoggle to rip off money from already struggling people for "SmartRoad" and other bullshit surveillance technology nobody wants and will not solve anything but make huge amounts of money for people who are already rich. This is foolish and wasteful and deceptive and an abuse of the public for private gain.
07/07/26	Kathy Metzger	60031			X		X			law enforcement	Oppose	STOP TAXING US FOR EVERYTHING!!! Enough is enough!
07/07/26	Dean R Martin	60631	X				X			Transparency	Oppose	Our governor just rerouted gas tax money to the general fund. This money could have been used for the tollway system or routed to the portion of our tools that they are rerouting to public transportation. Also there hasn't been south bound access to 294 at Irving Park ever and now that 490 will give southbound access they want to add it. I also want the governor to know I was a supporter but when he didn't give the gas tax windfall from the surge because of the war back to us he became a hypocrite in my book.
07/07/26	Not appicable	60061	X			X	X				Oppose	
07/07/26	Bhupendra Patel	60007	X			X	X				Oppose	It is already hard time with current toll rate. Not to raise toll tax rate.
07/07/26	Ken Pieper	60181	X		X		X				Oppose	If the Tolls increase by .45 for residential I will start to avoid tollways and take alternate routes. For example, I-390 is so expensive that I haven't used it in at least 4 years; I take the main streets instead.
07/07/26	Katherine Murphy	60041	X		X		X				Oppose	I believe this should be on the ballot in November and not just a forced increase. Let the people decide. I have lived here since 2001, and I can't remember a single time that the interstate did not have construction on it. It has had a lot of traffic no matter the season. Making us pay more money will not fix the problem, it will just give Illinois contractors more money to do the same thing. Or maybe this money will go somewhere else instead of the roads, like what I have heard in the past. That is a lot of money you are asking for. Each person pays, and when you total everything together, you would think our roads would be pristine, but history shows differently. Let the Illinois people vote on it. Use some of our lottery money that is coming in. We all know that a lot of that money does not go to the schools, so maybe it can be used for this project instead of another increase on our IPASS. It is like another tax, and IL is already one of the heaviest taxed states in our country. Stop taking more of our money. A solution would be to lower the gas tax, and then maybe this would work. Let us keep some of our well-earned money to eat, clothe our children, and pay our overpriced utilities. Thank you for letting me vent on yet another way to get more money from our taxpayers.
07/07/26	Marcie	60441	X	X	X						Oppose	It is already expensive plus 15 years of construction is just crazy! Since there's no more toll booths with people working them, there's should be plenty of money to do any work without making tolls double in price for drivers!!
07/07/26	Terri McNerney	60453	X			X	X				Oppose	It's going to cost citizens a fortune to use this new plan. I think it took forever to finish 355 and then 294. I'll be gone but my kids and grands will pay dearly for this. 15 years? I say No
07/07/26	Justin Swentzel	46319			X	X				Police who actually pull over tractor trailers in the left lanes	Oppose	Im not paying more since you havent done anything to justify any of the previous increases. The board of directors can take this rate hike and shove it up their ass and fuck off. Thanks

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/07/26	Charlie Barnes	60423	X				X			Relief from constant construction. It's tearing up our vehicles and costing us more to ride on it. We need a break from all the construction. Which years in the past 10 years the tollway was not under MAJOR construction?	Oppose	We need some relief from Construction season. How many years have we endured construction consistently out of the past 10 years? It's tearing our vehicles and travel times are RIDICULOUS because of the massive construction. How about leave giving us a break for a few years from construction? And now we gonna pay more to sit in construction traffic???? For the next several years? The tolls were already raised for this past construction project on 294. When it's done how about reducing the fee back to pre hike levels since the project is already paid for and almost done. I guess we continue to pay for the construction that's done and the construction that's planned with an increase? The math is not mathing.
07/07/26	Peter	60120	X				X			Stop stealing from us!	Oppose	TOLLS ARE THEFT! PURE AND SIMPLE...go ahead keep finding new ways to shake down citizens! After what a cash-cow right? When the Illinois General Assembly created the tollway system in 1953, the tolls were explicitly sold to the public as a temporary measure to pay off the construction bonds used to build the original 186 miles of interstate. The official plan was that once the construction bonds were paid off, the toll plazas would be torn down, and the roads would become free highways maintained by the state's gas tax. BUT, clearly the tollway system is greedy enough to find a loophole again TO EXPLOIT FURTHER! SHAME ON YOU!!!
07/08/26	Mary	60142	X				X		X		Oppose	Do not increase tolls, it's hard enough for people to make ends meet today. Everything has skyrocketed in price and life already isn't affordable.
07/08/26	Dan Kuzniewski	60451	X				X			No more toll increases	Oppose	Enough is enough! Stop screwing us residents of IL. You can't keep passing down cost after cost, tax after tax. Be fiscally responsible with the huge tax bills we already pay! Stop robbing us!!
07/08/26	Gabe Brower	60173				X	X	X			Oppose	It would be nice if they could increase it a smaller amount. It is already painful to pay as much for tolls as I do right now. & I appreciate those who are trying to get things done and improve the roads.
07/08/26	Kelly Devall	62471	X		X		X				Oppose	
07/08/26	David Wheeler	60516			X		X			Why do I have to pick three? I don't want anything that could potentially increase the tolls.	Oppose	These tollways were supposed to go away back in the 1980s when it was all paid for. Everything is so expensive now, I DO NOT WANT ANOTHER TOLL INCREASE!!! The question above is rigged, I have to pick three things? Why? I only want no toll increase. By making me pick three, you effectively make me pick at least one option that could increase the tolls. Everything about this state is corrupt and trying to find a way to get your money.
07/08/26	Algis Mickus	60152	X				X			Connections to Major State Routes I-88 to Rte 47	Oppose	An increase may be warranted, but this is too much at one time. And with the current Tariff and Artificial Intelligence uncertainties amongst many others, should slow roadway infrastructure expansion and concentrate on maintenance and overall efficiency.
07/08/26	Todd Harkness	60115	X		X		X				Oppose	Stop charging more. Don't charge at all.
07/08/26	Karen Tunzi	60068	X				X			There is no other. Where does this money go? Roads aren't improved!	Oppose	Quit taxes us to death. Every time I read someone, it's about how to tax the citizens of Illinois. Take some notes from the best Governor in the country, DeSantis.
07/08/26	Marcus Harper	60119				X	X			Amount of tolls	Oppose	Raising the tolls by 30 percent is absolutely unacceptable and it is an act against the working class. For some, driving through 8 tolls a day can not be avoided and when each toll would be well over a dollar that adds up. Tolls should only be temporary until the project is completed.

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/08/26	Bobbie Lokcinski-Nelson	61115	X				X		X		Oppose	I feel that we already pay too much for a system that was only supposed to be for a limited time when it began. Other states do not have tolls and manage just fine and have better roads than Illinois does. All Illinois is doing with raising tolls and taxes, is pushing the people to move from the state and avoid Illinois as much as possible. I already avoid tolls at all cost and leave earlier to take side roads. I am tired of the Illinois government pick pocketing me and my family!!
07/08/26	Umar Kamal	60126	X			X	X				Oppose	The Illinois tollway pricing is very bloated. Our tolls increase constantly, but do not reflect the services we receive. Why is it that neighboring states can provide similar levels of highway services at a fraction of the cost?
07/08/26	Judith Beggs Wagner	54220	X				X		X		Neutral	Will my current I Pass sticker still be valid for use in the New program? I realize, their will be a price increase.
07/08/26	Mike Bruno	60404	X			X	X				Oppose	Even as a local 150 member who would benefit from the work. I strongly oppose this plan to raise tolls. We pay enough as it is. The tolls were meant to be temporary and the tollway lied to us. You cannot be trusted with more of our hard earned money.
07/08/26	Mary Woltkamp	60451	X			X	X				Oppose	I am opposed to any increase in tolls. The state is not managing road money properly. Give it to RTA ….so Chicago's problem is solved. What about what is good for the state and collar counties roads. To say we will just increase the tolls so now I am paying more. There was money for road improvement that the state took from. Shame on them. ● $860 million from the state motor fuel sales tax and ● $200 million in interest from the road fund Was diverted to other areas to cover deficits. That is money that should have been used for roads. Not an increase in tolls. An increase in tolls and higher gas prices with increase gas tax is making it harder to drive the toll roads in Illinois. My income is not increasing as quickly as taxes making it harder to make ends meet. Why am I being told road money that was there to fund projects is being diverted to RTA….robbery from the road fund. CHicago and users of RTA should be paying for RTA not the drivers of Illinois! Do NOT RAISE TOLLS!!!
07/08/26	Alan Brown	60189					X		X	How about a toll reduction or better yet revert back to being free like we were promised 27 years ago?	Oppose	The reason the toll system was accepted by Illinoisans in the first place was we were told that the tollway system would pay for itself in 20 years and then the roads would be free for everyone to use. After 37 years we never saw "free" anything.And we've watched mid management of governance and excuses as to why it's necessary to raise the tolls on all travelers whenever the they conscience sone grandiose future plans. How about the billionaire governor and cronies pay for the work and donate it to Illinois? Instead of basically what amounts another user vehicle tax to go along with the astronomical fuel taxes we already pay in this state. Stop this proposal from soaking even money out of present residents and out of state road users to fund a tax and spend pipe dream of a non existent future.
07/08/26	J	60061	X				X			Fix potholes immediately.	Oppose	I do not want or need you to communicate with my car via wireless signal nor do I want to be tracked anymore than I already am.
07/08/26	Harry Siavelis	60126	X				X	X			Oppose	This will disproportionally affect people with lower incomes that have to travel for work and cannot use public transportation. The current toll prices are too high for this cohort already. It's not fair to increase toll prices again.
07/08/26	Sarah Generes	60093			X	X				Less perpetual construction causing delays	Oppose	The Tollway has been under construction for years, but you can't seem to get any section complete. I absolutely opppse launching more mismanaged construction until you can complete what is already ongoing!
07/08/26	R. HALSTEAD	60502	X		X					no fees in order to use the roads	Oppose	I believe, as a free people, our government should NOT be demanding payment from us, simply because we travel..... period
07/08/26	Kristen Burns	60178	X		X		X				Oppose	The tolls were initially supposed to be temporary. They obviously were not and now the state needs more money? STOP WASTING OUR MONEY!!!! Enough already.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/08/26	Ralph Scott III	45662						X	X	(The above two boxes were checked because you aren't serious about real answers) You have the most important through roads subject to your unreasonable tolls program.	Oppose	The tolls you collect now are obviously being squandered or pocketed. The past 40 years I've been been driving your toll system has proven time and again that no matter how much money you collect, you aren't serious about providing a decent product. I've seen and experienced much damage to my vehicles because of the "quality" of your highways. It will never been done properly, that I'd bet anything on. Truly, you should just have people with masks and guns robbing us; at least we would have a good story to tell to go along with the injury suffered driving your poor excuse for a road.
07/08/26	Rick Wesley	60050				X	X	X			Oppose	The system works good now you talk about saving time does that include all the delays when all this construction is going on. This looks more like a money grab for the tollway
07/08/26	Keith Pierce	61115	X		X		X				Oppose	Already get a toll every 15 miles out seems. Go thru wisconsin or almost any other state and there's no tolls. We have one of the highest lisence plate fees also. Cut wasteful spending so you don't have to tax us more
07/08/26	Timothy Banach	60102	X			X	X				Oppose	You have gouged us since inception of this tollway. I know, I was born then. Enough, learn to live within your means. Everyone has to budget and properly plan. This proposal is WAY too much.
07/08/26	MICHAEL DARABARIS	60401	X			X	X				Oppose	You saved billions when you went to the I pass. Where is all that money? And now not only a big one time increase but each year a review and potential yearly increases??? This is becoming a typical Illinois waste of tax payer monies. Another reason to leave this state.
07/08/26		60467	X			X	X				Oppose	This is ridiculous. 294 has been under construction for how many years already??!!
07/08/26	Anne Flaherty	60441	X			X	X				Oppose	The tolls were supposed to be temporary, and they have become permanent. Also, tolls have gone up significantly in my lifetime. For the short stretch of 355 that I take a couple times a week—It costs me over three dollars already. I don't think this project should go through with this large increase in tolls, which is very significant, I think a study should be done first for the best road construction materials that are built to last for many years with minimal cost impact first. There are materials out there that can be a long lasting and less expensive in the long run. That being said, I think the best option would be that these toll roads should think be turned over to our state government to run as part of our tax dollars.
07/08/26	Jeffrey Joseph	60047	X		X		X				Oppose	Remind you of the continued B.S. to the Illinois tax payer. Established in 1953, the Illinois Tollway system originally promised residents it would be "Toll free by '73" once initial bonds were paid off. Instead, bonds were routinely refinanced for expansions and the network was heavily expanded, with drivers now facing proposals for the largest toll hikes in state history
07/08/26	Mark	60552			X		X			Not getting scammed	Oppose	This is just another scam by giving BS reasons to take more money us. The rates have increased since I first started driving years ago and there is still traffic, most of which is caused by construction that has never stopped since I was a kid. This state fixes roads that don't need it, don't fix roads that do need it. This is just another money grab to extort more money from us and it won't make anything better. It will still be the same crap only cost us more money to travel. Not that you will actually listen to anyone. You just want to make it look like you are taking the people's input into consideration, but you'll raise the toll anyways and make us pay more money. I just won't take the toll roads and use other roads that don't cost anything to drive on
07/08/26	Glen	60143	X		X		X				Oppose	This is just another scam to rip off drivers in Illinois. The tollroads were built with the promise they would go away when road was paid for.
07/08/26	Carly	60191		X			X	X			Oppose	Numerous states do not have tolls and can keep up with their roads. That is what our income tax and property tax are for.
07/08/26	Constance besancon	60516	X		X		X				Oppose	

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/08/26	Judy	60638					X		X	AFFORDABILITY	Oppose	The State of Illinois needs to learn to live within it's means like the rest of us.
07/08/26	Nicholas Delaquila	60181	X	X		X					Support	Why don't you charge extra for cars registered in Indiana and Wisconsin that use the tollway ?
07/08/26	Sidia Fink	46322			X		X		X		Oppose	I don't understand why raising the passenger vehicles tolls .45 cents more and only .30 for commercial vehicles. If road maintenance is the reason, commercial trucks and vehicles towing RVs, boats or any heavier loads cause more damage than passenger vehicles. If volume is the reason and there are more passenger than commercial then raise it a flat fee for all, not some more than others.
07/08/26		61011	X	X	X						Support	
07/08/26	Alma	60112	X				X			We need someone new to govern Illinois	Oppose	Get rid of Prictster and budget will be solved. Vote RED
07/08/26	Michael Quill	60564	X		X	X					Support	The Tollway is the premier roadway system in the region and my first choice when travelling longer distances. I wholeheartedly support enhancement and maintenance of this vital resource.
07/08/26	Brian Seyforth	60423	X			X	X				Oppose	The proposed increase is an abomination. In a state where taxes are already some of the highest in the nation, this will only further fuel businesses to leave the state for greener pastures. I fully oppose this rate increase and urge the tollway to live within its means under current toll rates, or by the CPI at most.
07/08/26	Melissa Bensel	60143				X	X			The increase cost is too substantial	Oppose	A 30% raise is absolutely insane. Where is the toll money going now and why aren't those funds used to maintain/upgrade the roads etc? A 30% increase suggests that the toll funds are being mismanaged.
07/08/26	Kim Seyforth	60487	X				X			Safety and minimal congestion	Oppose	Tolls were created to pay for the cost and maintenance of the said roads. Tolls have continually increased on all vital expressways around suburban Chicago. They should either put tolls on all expressways headed into the Chicago or increase the public transportation fare back to pre-Covid rates before they raise the existing toll rates.
07/08/26	David Finton	53511				X	X			.95 cents is too much for a 1 way trip to rockford	Oppose	I will cancel my i-pass if you raise tolls too high already
07/08/26	Jason Hopkins	60477	X			X	X				Oppose	This state continues to increase the cost of living to it's residents while maintaining a significantly unbalanced budget. I am looking to leave the state like many others. It is being run horribly, good luck.
07/08/26	Yolanda Hopgood	60443	X			X	X				Oppose	I use the toll Monday - Friday. A 45 cent increase for each toll is too much. I'm a single mother of two please consider a lower increase.
07/08/26	Susan Wilk	60192	X		X		X				Oppose	Please stop the rates. Please stop the taxes. Illinois is out of control. Don't hire union!
07/08/26		60031	X				X			Fewer access points; better traffic flow	Oppose	
07/08/26	Matt Litchfield	60560	X		X		X				Oppose	Illinois charges or taxes everything. Other states have a better standard of living and the residents pay less in taxes and fees. Stop the corruption. No more increases!
07/08/26	Lee LaBine	60126			X	X	X				Oppose	This increase is absolutely ridiculous at a time when affordability and inflation in Illinois are at its worse. Tolls were expected to be eliminated decades ago and now clearly permanent. Worse yet commercial vehicles - the lifeblood of commerce - has been increasing even more. This type of increase is clearly a lack of planning by both the state and tollway.
07/08/26	Debarati Ghosh	60126	X				X			less tolls	Oppose	Absolutely not. You guys have been leeching money from us for years with no great improvements to show for it. Your completed project is confusing and scary to use. We don't need another 10 years of construction for a mediocre solution. None of us will see the "benefits".
07/08/26	Sean Meehan	60093	X			X	X				Oppose	The system I believe has very high margins and generates a ton of cash. Why not issue long dated bonds to address the capex enhancement and then spend more in maintenance so as to avoid long term structural disrepair. Illinois taxpayers have been nickel and dimed for years.
07/08/26	Dan Szczesny	60513				X	X			Not paying increased tolls.	Oppose	Learn how to manage your money better. You do not deserve more tax dollars.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/08/26	Marcie Pedraza	60617	X		X		X				Oppose	DON'T INCREASE THE TOLLS! WE PAY ENOUGH AS IT IS!
07/08/26	Garry Shepard	60453			X		X		X		Oppose	
07/08/26	Daniel	60516			X		X			Toll free by 73	Oppose	
07/08/26	John Holden	60134	X			X	X				Oppose	The tolls for the roads were supposed to go away after they initially paid for them (I heard 10 years). our state charges to much in taxes, including one of the highest gas taxes in America. You should be reducing or eliminating ALL tools not increasing them. Try cost reductions before raising any tolls. The Illinois Tollway group has become to large with alot of waste. Let's see you reduce headcount, costs and still provide decent roads for the taxpayers!
07/08/26	Joseph Graffeo	60950				X	X			This highway was built and wasn't supposed to be funded this way	Oppose	Teachers can't afford driving on 355 - it's ridiculous what you charge already!!!
07/08/26		60607	X		X				X		Support	
07/08/26	Susan	60561	X		X		X				Oppose	
07/08/26	Kaitlyn Szczesny	60513	X				X			Construction completed in timely manners	Oppose	We are already being taxed and seeing financial increases on every little aspect of life in IL. The tolls already collect a lot of money each and everyday and should be able to keep any rise in tolls to a minimum.
07/08/26		61073	X		X		X				Oppose	Stop raising tolls. The tollway was supposed to be free by 1973. The state needs to stop raising the costs for residents and learn to manage its resources more efficiently instead of continuing to increase taxes/tolls
07/08/26	Nick Sabo	60103		X			X			Shorter distance from A-B using less gas since those costs are also out of control	Oppose	Enough is enough. In this world where everything is more expensive and wages haven't increased enough to keep up, the tollway is becoming option B for many because of the cost just to get to and from a job. IL is a very expensive state to live in, every year more leave this overtaxed state. If tolls are increased, then something has to give elsewhere to relieve the millions of drivers that use these roads.
07/08/26	Marsha Childs	60644	X				X		X		Support	Support with less .15 cents on both proposals
07/08/26	Julie Bateman	60642	X			X	X				Oppose	There's a 1.62 BILLION DOLLAR GAP between maintenance/expenses and revenue generated. Where's that money at? Where did it go? IL gas tax is highest right behind CA. Where's that money? Where's the money? Why are stealing from the residents of IL? This is ridiculous. There is no reason to increase the toll. I'm HIGHLY AGAINST this increase. Every Illinoisian should be.
07/08/26		60525		X	X	X					Support	
07/08/26		60525	X		X	X					Support	
07/08/26		60513	X	X		X					Support	
07/08/26	Jim Ray	60004-2954	X				X			toll booths should have a schedule for removal	Oppose	Many states manage the roads without a toll. The toll roads were not intended to be permeant. On an affordability side, the rate to be the same to all tollway customers. Customers without iPass should not be paying more. Here is a real life example. We hosted a young adult would was going to school. They did not have a credit card for iPass at the time and had to pay the higher rate. I believe the discounts are given to people who can afford to pay the toll. It should be the other way around. Rates should not be indexed to cost of living.
07/08/26		60090	X		X				X		Oppose	
07/08/26	david	60451			X		X			no tolls	Oppose	Tolls are illegal under Illinois law. They were there to fund construction and that's it. Eliminate all the tolls and stop wastefully spending taxpayer money. Vote Republican.....
07/08/26	Karla J. Niessing	53120			X	X	X				Oppose	I am totally against this increase. the rates are high enough. We get along without tolls in Wisconsin, I would think Illinois could manage to keep their rates down.

07/08/26	Carol Uhl-Alba	60106	X				X			Low cost	Oppose	We are getting taxed to death in this state. You push this through and it's gonna just lower the population making it more expensive for everyone else. Get the budget in order and stop raising all these fees and taxes!

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/08/26	Angela borror	60046	X		X		X				Oppose	We already pay taxes for the roads and where is the lottery money for the roads go? That's a steep increase for tolls that we already pay
07/08/26	Julie Proctor	61705	X			X	X				Oppose	Illinois has demonstrated that they do not know how and when to spend our money time and time again. Maintaining the roads should already be in the budget. Stop the bleeding PLEASE.
07/08/26	Kevin	60148	X		X	X					Oppose	You haven't even completed the latest over budget half-decade project and now you want more?! Get your sticky fingers out of my wallet.
07/08/26	Thomas Sisto	60446	X			X	X				Oppose	The tolls are already making it hard to use the toll roads and a $0.45 increase will be harder. Tolls are rising faster than purchasing power. The last toll rate increase was done poorly with brand new roads doubling within a couple of years. It is not right that we need to pay extra for roads in the Chicagoland area while southern Illinois gets free roads. The original intent was the tolls would go away but they remained.
07/08/26	Forrest Franks	54401			X		X			I smell a boat load of lies here. Because taxes are paid for toll roads both federal and state at the pump.	Oppose	More lies, Federal and state taxes are paid at the pump. So the idea the toll roads don't get state and Federal funding is an outright lie. Furthermore, Illinois isn't making enough on these tolls is an outrageous claim. I dive truck and I know these claims are a lie, because I am an owner operator. I file my quarterly fuel taxes, and I pay the mileage tax on ALL ROADS traveled non toll and TOLLED roads there is no separation. And the deisel fuel tax for me is approximately 74-76 CENTS A GALLON. The idea that you spent or laundered 26 million dollars on this program is an insult to my cognitive intelligence.
07/08/26	Andres Cerda	60651-2851	X		X					For construction to actually get done for the roads that they start working on actually be finished and not leave it abandoned and destroy more highway and have nothing completed just wasting money on all that rental equipment thay sitting on each construction site. Creating more traffic amd delays. Meaning your are taking from every small business and owner operator in Transport business from feeding g their families and staying in business. How about with all the money Transport business is losing maybe take the funds from the hourly everyone at Idot and contractors that you	Oppose	You guys need prayer, corruption and waste of funds. Roads not completed but contractors, union, and upper management getting rich. And transportation owners are struggling to keep their businesses running, so much loss of income. And all you care about is basically was Illinois is about robbing the people and just putting a title on it.
07/08/26	Tracy Pate	60443	X	X	X						Oppose	

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/08/26	Ken Fanter	60014	X				X			safety, sidewalks to be added	Oppose	prices should remain the same and not increased. prices should be frozen at current levels indefinetly. make due with what you have. tollway money should be used for tollways only please. the state has not demonstrated the ability to manage the peoples taxes. no more free $ for illegals
07/08/26	Karen	60441				X	X			Fix potholes	Oppose	The state of IL needs to stop raising taxes somewhere. We all live in a budget and you do too. Tolls were supposed to go away after a certain number of years. You make enough money and tolls are high enough. Raising tolls will also impact the economy because goods will now be even higher. Stop taxing!! We pay enough
07/08/26	Jason	60148			X	X	X				Oppose	Another reason to move out of this state ASAP! Non stop gouging.
07/08/26	Penny Ward	60560	X		X		X				Oppose	Rates our constantly increasing Illinois tollway is nickel & diming us to death like everything else in Illinois. Stop the increases
07/08/26	Williams	60542	X				X			Well planned construction, not endless and unproductive	Oppose	
07/08/26	Camille Winkleman	60803	X		X		X				Oppose	The proposed increase is outrageous!!! A more gradual increase would make it more palatable.
07/08/26	Piotr Serafin	60004	X		X		X				Oppose	Absolutely not. We have constant construction everyone that doesn't seem to improve anything. Highways are dirty with rocks and garbage everywhere. I've replaced 2 windshields costing me over $4000 dude to rocks flying on the highway. Tax the rich for it.
07/08/26	CRAIG JORGENSEN	53944-9394	X			X	X				Oppose	
07/08/26		60537	X		X		X				Oppose	I strongly OPPOSE any increase in toll rates! If you don't have enough money to fix the roads, then it's because you've been misappropriating the existing funds for unrelated projects. Tolls were never meant to be permanent. They've been around since longer than I've been alive.
07/08/26	Sherrie L Sully	61107	X		X		X				Oppose	
07/08/26	Samantha Burchett	60013	X		X		X				Oppose	Illinois residents cannot afford more hikes!!! We are being squeezed from all directions and cannot take more. Please do not raise this too
07/08/26	Mickster	60148	X			X	X				Oppose	Entire Toll Authority has always appeared to be greedy corrupt thieves and is controlled by Labor Unions. Fee increases never end. Construction work is always slow and never finished.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/08/26	Adam Price	60189			X	X	X				Oppose	This plan appears to be developed backward. It is not a needs based plan by my review. What it appears to me is that the legislature's allowance to increase tolls was totaled up, and then a number of things to bring the "upgrades" to that balance were backed into the "plan." This is not managed stewardship of the tollway funds. This plan does not show respect to the toll farepayers. This is a giveback to special interests since the State siphoned money away from roads to fund public transit. I cannot see how this scale or direction of development on the tollway is justified. The tollway has been taking in more money than ever. Yet the thirst for additional revenue is never quenched. What should happen is a study to determine what (if any) additional funding is required for capital projects on a priority basis: 1) what is needed now? 2) what will likely be needed over the next 15 years; and 3) what would be nice to have but is not foreseen to be a need in that timeframe? Then, a finance plan can be developed around those priorities instead of the other way around. It may be, in fact, that no additional revenue is needed since collected tolls far exceed operational costs on the tollway, and the delta between collections and operations may very well be sufficient to pay down any bonds issued for capital projects. The projected plan is light on details, and heavy on the money--but what is the actual justification for this level of expenditure? I cannot get behind this plan as-is. This is especially so because I do not see any basis by which roadways which have not exceeded their useful life need to be reworked again. We should not construct just for the sake of constructing. Capital development should be targeted on a priority basis knowing that increasing the tolls takes more money out of users' pockets for roads which, thankfully, are already fairly well kept up. All this being said, I'm all for capital expenditures which are justified and would be a net benefit to tollway users. I just don't see that justification being made in this plan. The scale is enormous, and it appears that the capital projects were scaled simply to align with the new law. I find it telling that the tollway thanked the general assembly and then seeks to assess a huge increase in tolls. The thanks should go to the toll payers who would actually be funding this monstrosity. in the end, good management requires making hard decisions and prioritizing. I see none of that here. And I certainly do not see justification for this level of capital development when it is not made plain how it would benefit the users of the system in a concrete fashion. Reworking roadway which has met or exceeded its useful life is one thing. Reworking interchanges which bottleneck traffic now is also good. Any capital projects proposed in any government should set forth with particularity the concrete benefits the public will
07/08/26	David Keenan	60091	X			X	X				Oppose	After reviewing the costs and benefits, I strongly oppose the proposed rate increases.
07/08/26	J. G.	60480	X		X		X				Oppose	Stop increasing tolls. I have suffered through 7 years of the 95th street to O'Hare Plaza construction. It still isn't done; traffic is as bad as ever. Yet supposedly continuing construction projects will improve traffic? In the 30 years I've been driving on 294, that has never worked. Stop price gouging.
07/08/26	J. Sperando	60143	X		X					NO FLOCK!!!!!	Neutral	If you partner with Flock we will stop using the tollways
07/08/26	Maureen	60448	X		X					Better materials and less construction because of the upkeep with inferior products. And especially long drawn out construction projects.	Oppose	I don't know how raising toll rates, aligns with the statement "delivering a more affordable, reliable transportation network"??? Also, there is always construction on the roadways in Illinois. It's almost never ending. It would be nice if Illinois starts using materials that will last longer instead of having to constantly redo the roads. I also don't know how people are to have more time not being on the road, when these construction projects will only increase that. I'm all for making things better, but the way Illinois has done road construction in the past, I don't see that this will end up being that beneficial.
07/08/26		60467	X				X			Invest in More cops pulling over pot heads, speeders, and people on their phones	Oppose	The tollway was supposed to be temporary when it first started and it never went away!

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/08/26	Randall L Patka	60632	X				X		X		Oppose	Going from I55 North it's impossible for me to support more toll increases at the same time as needing to pee into a coffee can in the car because you removed all the oasis plazas. Mega stupid move IMHO.
07/08/26	Tom	60647	X		X					Stop wasteful road projects that are simply there to use up the budget to get more the next year. Illinois is one of the worst with road construction...especially downstate where single lanes go for miles to accommodate a small work zone. It's absurd.	Oppose	Tolls were intended to be a temporary charge when first introduced. Now they seem to be mandatory and forever increasing while other states don't have tolls. I'm sick and tired of the money grab and completely oppose this increase of which I will be sure to vote against every politician supporting it. The state of Illinois is clearly mis-managed when it comes to finances, stop spending so much on favors and/or illegal immigrants who continue to get free handouts which is a major contributor to the fiscal crisis. New leadership in Illinois is required, stop wasting our tax dollars and raising our taxes. Enough is enough!!!!!!!
07/08/26	B Stevens	60506	X			X	X				Oppose	You already get so much money from drivers Use it carefully. You must be wasting it if you need more already I would rather give up the additions instead of paying more - considering I don't think you used the last increase beneficially for the drivers that use the toll road
07/08/26	Richard Lander	60516	X		X	X					Oppose	Since you just raise the tolls a few months ago for help fund the trains, and buses. Why don't you make those who used them pay for it?
07/08/26		61101	X			X	X				Oppose	Tolls have been used/stolen for Illinois pensions and other hidden political crap under Prickster. Roads are horrible compared to, lets say Wisconsin, who have NO tolls. Illinois needs to stop taxing, which a toll is, the crap out of its citizens..
07/08/26	Matt Healey	61103	X				X			No toll increases	Oppose	Do you really think people can afford this high of a toll increase? Of course, you don't care. The Illinois Tollway is built on a lie. Many, many years ago, the premise was once the road is paid for, the tolls will come off. Grifters can't allow that so here we are. Fuck every one of you.
07/08/26	Dante	60142	X				X			The cost of tolls.	Oppose	Illinois should not approve the proposed 45-cent toll increase, which would push the average passenger toll to roughly $1.24 and cost typical commuters about $329 more a year — a real hit to household budgets on top of already high gas taxes, property taxes, and cost of living in this state. The Tollway has collected nearly $20.7 billion more in tolls than it needed for maintenance and other expenses between 1973 and 2024, and 2024 was already the agency's highest toll revenue year ever, with commercial and passenger toll revenue both hitting record highs. Working- and middle-class families who rely on these roads to get to jobs, school, and appointments are being asked to pay more even as the tollway system sits on healthy reserves, and once again it feels like Illinois is reaching into the pockets of everyday drivers instead of living within the revenue it already collects.
07/08/26	Chris Linneman	63376	X		X	X					Support	
07/08/26	James Brown	60140	X				X		X		Oppose	The Illinois toll authority is more corrupt than the state! Take a good hard look at all expenses and salaries of this agency before adding additional burden on toll users. Weren't the roads supposed to be payed for years ago? ENOUGH IS ENOUGH!!

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/08/26	LAUREN WULF	60514	X		X		X				Oppose	YOU HAVE GOT TO BE KIDDING ME, THE AMOUNT OF TIME AND GAS I SPEND ON THE TOLLWAY BECAUSE OF NON STOP CONSTRUCTION IS INSANE. I WOULD NOT BE UPSET IF THE CONSTRUCTION WAS FOR IMPROVEMENTS, BUT IT IS NOT. WHO IN THEIR RIGHT MIND WOULD MAKE THE EXIT FROM I290 ONTO 1294 - 188 A ONE LANE VERY TIGHT RAMP? A SEMI CAN BARELY MAKE IT THROUGH THERE. THE DAILY LANE CONFIGURATION CHANGES ARE SO DANGEROUS I AM AFRAID I AM GOING TO WRECK ON A DAILY BASIS. NOW YOU WANT TO RAISE MY TOLLS 30 CENTS EVERY TOLL? FINISH ONE CONSTRUCTION PROJECT BEFORE YOU START TEN MORE PROJECTS. WHAT DO YOU DO WITH THE TOLL MONEY NOW? THE TOLL MONEY WAS SUPPOSED TO BE A TEMPORARY CHARGE, THAT NEVER HAPPENED. WE STILL HAVE NEVER RECEIVED OUR NEW TRANSPONDERS EITHER. WHAT GIVES IDOT?
07/08/26	Paul	60440				X	X			Less stolen money for you to frivolously spend and complain there isn't enough.	Oppose	
07/08/26	Rich Zenor	60194	X		X		X				Oppose	Where did all savings from the cuts to personnel manning the booths since Covid go?
07/08/26	Jen	60073	X				X		X		Oppose	Instead of continuing to ask residents to fund projects, I think I better look needs to be taken into salaries and spending of the government agencies who are requesting said increase. I bet if there was a crackdown on fraudulent spending and budgeting, there would be no need for a toll increase
07/08/26	Mike Kenny	60655	X				X			Tollway is to expensive now must be poorly managed	Oppose	Why do I have to pay truck rates for a single axle 5x12 trailer
07/08/26	Pamela Owens	60516	X				X			TOLLS TO BE GONE FOREVER! THIS IS THE ONLY ONE I AM CONCERNED ABOUT WOULD NOT SEND WITHOUT CHOOSING OTHER ANSWERS!!!!	Oppose	Tollways are supposed to be made to non tollways when paid for. I am very much opposed to this increase and already avoid the tollways as do many of my friends. By avoiding tollways there is more traffic in local areas and the reason for so many accidents. This state has more than enough taxes. IT NEEDS TO STOP NOW!!!!
07/08/26	G M	60056	X				X			As an Illinois resident, I am sick and tired of footing high property taxes, sales and state tax. Tax raise on and on and on.	Oppose	
07/08/26	Kevin Jones	46562-9510	X		X	X					Oppose	The Illinois tollway is already the most expensive toll road I drive on, and simultaneously the worst maintained. It is not even a close contest in either case. Maybe you should be talking with other states about how to more effectively invest in road infrastructure & maintenance without jacking up rates for travelers. You are already taking more money from travelers than any other state toll road I've been on.
07/08/26	Orion Carey	60115	X			X	X				Oppose	This sounds like another cash grab. I do NOT support an increase in tolls. There are much better roads in states that do not charge to use them. The tolls were supposed to be phased out in the 80s....yet here we are. No, no, and no again!
07/08/26		60443	X		X		X				Oppose	We as Illinois residents pay the highest taxes than any other state and here we are adding more cost to our daily lives. Our Jon economy doesn't support more cost from the Illinois residents. This needs to be funded by the Corporations and big businesses in my opinion.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/08/26	Lori Paris	60448	X			X	X				Oppose	The tollways are always under construction, there are massive delays daily, the tolls are not a deterrent because there are no alternative routes, but the tolls are costly. They shouldn't get an automatic inflation adjustment if workers aren't automatically entitled a mandatory inflation rate adjustment
07/08/26	Bill Tortorello	60525	X		X		X				Oppose	At one point, the tollway system was supposed to be temporarily until the bonds were paid off, and then it would be free. Out gasoline taxes are one of the highest in the land, if not the highest. Reduce the tolls, not increase them!!
07/08/26	Dean Marinakis	60640	X		X		X				Oppose	We are already overtaxed. Cut the budget in to find the funding.
07/08/26	Jeff Webber	60448			X		X			There is no benefit!!	Oppose	This state is corrupt to the core and so is the tollway authority! Pound sand!
07/08/26	Chris Marks	60193	X				X		X		Neutral	Is a B license plate considered commercial, if so, how do you get a smaller pickup truck regular licensing? Big difference $.90 to $4.15 to use the road.
07/08/26	Brittany Roy	60516	X		X		X				Oppose	Where is the money going from the tolls now? The roads have not improveeld in years, and have been unser construction for what seems like always! Feels like the toll road money isn't going towards our roads as is. Illinois is taxing us to death & you want to increase costs to use a road. Doesn't seem beneficial to Illinoisians as well as our already hurting bank accounts. Not like my comment matters and will probably be passed over! An angry Illinois resident who is looking to move out of costs don't go down all around in Illinois
07/08/26	Joseph N	60544			X	X				convenience	Neutral	With the proposed tolls beginning in 2027, it looks as if IPASS no longer saves drivers 50%. The main perk for IPASS has historically been the 50% savings. I drive on 80W from work and connect to 355N at plaza 99. Looks like the new proposed rates are $3.05 with an IPASS and $4.60 without it. Just to confirm, all IPASS passenger vehicles will only be savings 33% as opposed to the 50% that has been in place for decades. I fully understand that tolls increases are inevitable, but it is deeply disappointing that the main perk of IPASS is being eliminated. To be clear, this rate increase is in actuality a double increase, as it both raises tolls and lessens the value of IPASS. For me personally, this would mean a 60.5% increase in my daily commuting tolls ($1.90 to $3.05). That is rather excessive, even without toll increases for 10 years. If it is indeed true that IPASS users would now save only 33%, not 50%, this needs to be explicitly clear on the IPASS website, which it currently is not.
07/08/26	Joe	60440	X			X	X				Oppose	There needs to be public information as to where every tollway dollar that is collected ends up going. No money collected should be used on anything other than transportation projects in Illinois. Any work being performed needs to be documented and independently audited to ensure toll dollars are being appropriately spent. Until all of this is done, there should be no increase in toll collections
07/08/26	Jennifer R Schwarze	61108		X		X				Most direct route to work and back home.	Oppose	This will significantly increase my commute costs and leave less money for food and other necessities for my family and I.
07/08/26	Marin Totev	60008				X	X			Ability to survive and stay in Illinois	Oppose	Trucking business is having hard time surviving and if you rise the tolls 30% for trucks it might be impossible to run a trucking company out of Chicago land area.
07/08/26	Ethan D	60056			X	X	X				Oppose	45 cents per toll is INSANE
07/08/26	Stephanie	61080	X		X		X				Oppose	These rates are ridiculous, especially given the condition of the roads allegedly maintained by the state of Illinois. These rates will be prohibitive for low income drivers like those on disability, social security, and public assistance, making it more difficult for them to get to where they need to go.
07/08/26	Bryan Buck	46373			X		X			Prior notifications on road construction delays	Oppose	Affordability and inflation are at an all time high. This toll increase should be tabled until the economy recovers. The people are already burdened by higher costs of living and high fuel prices. This tax hike will only decrease travel on the expressway. Illinois needs to stop raising taxes on the average citizen. Raise taxes on the wealthy to pay for these projects.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/08/26	B	60120	X			X	X				Oppose	I propose that rate increases should be geographically targeted to the areas directly benefiting from new construction and infrastructure development. Residents in one part of the state should not bear the financial burden of road projects in another region that they will never use. Any statewide rate adjustments should be strictly limited to minor cost-of-living increases to cover employee wages and standard maintenance materials.
07/08/26	Ronald Cooper	60148			X	X	X				Oppose	This proposal does not specifically explain what we get with this change. Sell some of the land you purchased, but not used, with the last rate increase. Control your costs, you are flush with cash. Current 'projects' are part of the reason for slow drive times. Any savings one might get from reduced drive times is completely overcome by the proposed increase in tolls. You need more oversight.
07/08/26	Kathleen Groenhagen	61061	X				X			Reduced time for road construction projects. There are cones and lane closures for weeks with no one working in the area.	Oppose	If you are trying to keep businesses in Illinois, why would you continually increase transportation costs? Also, this may come as a shock, but there is more to the State than Chicago and its Suburbs.
07/08/26	Jonathan Falco	60134	X		X	X					Oppose	We have paid more for years with roads that are jammed packed with traffic due to poor planning and lagging road improvement and design. The pace bus express lane is never used and should be opened as a HOV lane to move traffic along. Many people I speak to think the toll authority is an organization who is stuck in the past and slow modernize our roads. 294 and 88 junction has been a nightmare. During rush hour toll free roads.have been faster at low costs. 88 east in the mornings has lots of chokepoints. Not efficient or effective to upcharge tolls.
07/08/26	Noe Marquez	60133	X				X			N/a	Oppose	We don’t need toll price increases
07/08/26	Anthony J Marsiglio	60585	X				X			Had to put sometning in here for submission to work.	Oppose	Toll collection is extensively automated. Fewer employees are needed. Why are rate increases needed. Live within your budget, just like I have to.
07/08/26	Christina Murray	60051	X		X		X				Oppose	Are there not other ways to raise some money than by always passing it on? How about income from the taxes generated from legal marijuana sales? Illinois is already an insanely expensive state to live in and this just makes it more so. Find another way to raise money. We are tired of always being leaned on.
07/08/26	koushik sriram	60585	X		X				X		Oppose	
07/08/26	Joan	52748	X				X			EV charge access	Neutral	I see it as a user fee to use the tollway and have access to a less busy highway in good condition. In many cases, it is shortest way to get to my desired destinations.
07/08/26	Mark	60655	X		X					Widening I 55	Oppose	I must say the Illinois tollway system is fantastic…but WHY are they not widening I 55. It’s AWFUL
07/08/26	Denise Sanicki	60457	X		X		X				Oppose	Our tollroads are part of the interstate system so we should be getting Federal monies. Second, the construction on 294 has been horrible now for years with it being under construction with no end in sight. Get one thing done first before you start more. I will do whatever to avoid the interstate when the rates go up
07/08/26		60148	X		X		X				Oppose	We already pay plenty for tolls around Chicago, there was already a price increase recently. I do not support increasing prices for tolls, we pay enough taxes already. Also, the tolls were supposed to be “temporary” when they were first implemented and they never went away. Gimme a break.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/08/26		61801					X	X		nothing else matters beside affordability and arriving at my destination.	Oppose	we don't need strategic partnerships. the toll roads work very well as they stand. I oppose any spending that develops new infrastructure to maintain. why are we automating toll collection instead of creating jobs to operate tollways? why are we spending 500 million in administrative overhead? increasing the toll rates every year starting in 2029 according to the cpi is not helpful. we want lower prices, not higher. price predictability means "stable", not constant increase. if the toll rates have been stable since 2012 and the tollway has operated successfully and continued to invest in infrastructure, a one-time adjustment according to recent inflation should be sufficient to continue operating the program, not a blanket check to continue extracting money from a middle class who's wages aren't increasing with the cpi.
07/08/26	Arunas R.	60491	X					X		nothing better	Oppose	I don't know what tollway officials are smoking, but such increase is insane...
07/08/26	Mia Gutsell	60053	X			X	X				Neutral	Increasing the toll rate is necessary. I am concerned about the following part the proposal. "Beginning in 2029, rates would be adjusted every two years based on inflation." Adjusting prices based on inflation does not account for the fact that income and purchasing power in the United States has not risen to match inflation. Adjusting toll rates based on this metric would be determinantal to all users of the toll roads.
07/08/26	lena kreimer	60004	X		X		X				Oppose	The IL tollway collects ~$1.5 BILLION dollars annually, and over its life has collected roughly $65 BILLION from IL toll payers. On top of that the IL residents have approved additional funding in the Billions in 2011 and 2012, all the while the IL Tollway Authority keeps adding more toll stops that residents have to pay. In the last 20 years the roads have gotten worst, way worst. And now, you're proposing to add a permanent raise in toll costs to happen automatically?! Perhaps you can go to TN, IN, WY, MN, FL, KY, or any other fiscally responsible state with no potholes on highways and barely any tolls, and see how they keep the roads working, in all climates, without fleecing their residents to the tune of billions every year. I VOTE HARD HELL NO.
07/08/26	William F Worcester	60505	X	X			X				Oppose	Taxes are too high in this state already. Loading on another toll raise is just making it difficult for people to afford to live in Illinois. Just more government wasteful spending. The funds/tolls already in place are always mismanaged and you keep coming for more, like the citizens of the state have unlimited funds.
07/08/26	Mark	60510	X				X			Toll Free	Oppose	I strongly oppose the proposed toll increase on Illinois tollways. Illinois drivers were promised these roads would become toll-free once the original construction bonds were paid off — a promise that dates back decades and was tied to the "toll free by '73" commitment. Instead of honoring that promise, the Tollway now proposes a substantial rate increase on the very motorists who have already paid for these roads many times over. This comes as the Illinois legislature continues to redirect road funding away from the drivers who generate it, diverting dollars to Chicago-area projects and other forms of transportation rather than maintaining the infrastructure tollway users fund directly. Illinois residents are already facing radical increases in the cost of living — property taxes, fuel taxes, utilities, and everyday expenses — and another toll hike only compounds that burden on working families and commuters who have no practical alternative. I urge the Tollway to reject this increase and instead pursue a path toward the toll-free road infrastructure Illinois drivers were originally promised and continue to deserve.
07/08/26	Andrew Maday	60656		X			X		X		Oppose	Forget it. Find more cost-sharing resources before further toll price-gouging. Other states do it. What's your excuse? PUT BACK the Oasis that you stupidly took out. Revenue-producing restaurants, gas, and emergency services are not needed anymore? What replaced them? Whatever happened to the gas tax revenues?
07/08/26	A C	60068	X			X	X				Oppose	Increase would be less affordable for general public. Tollway is making enough money after privatization. Toll increases will make the managing company richer. As a citizen's service, it should be operated as not for profit.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/08/26	Robert Balogh	60060			X	X	X				Oppose	Looking at the proposed projects they seem to be a replay of the work that has been on-going the last 30+years. There hasn't been a year in the 40+ I have lived in the Chicago area the the tollways haven't been under construction. You have just/are still working on the Tri-state from O'Hare to I-57. Why weren't these issues addressed in that work? How do you coordinate this work with the state work on the non-toll expressways? It seems you both like to work on parallel roads, further congesting traffic and frustrating drivers.
07/08/26	Noah Kadera	60513	X		X		X				Oppose	The tolls were supposed to be temporary when implemented, and now there is a proposed hike. The majority of toll road projects go vastly over budget and over schedule. No more wasted tax dollars!
07/08/26	Donna G	60477	X			X	X				Oppose	If you eliminate all the kick-backs, handouts to your "friends" and "family", you'd have enough money to fix/maintain the road. Waaaaaay back in the late 70's, it was promised that the .40cent tolls would be eliminated after a certain time. Hmmmm. Where did THAT money go? An outside AUDIT should be done BEFORE ONE CENT is issued to the Tollway authority. Let's get some accountability!!!
07/08/26	HERNAN SANCHEZ	60188			X		X			Don’t increase tolls	Oppose	Really you don’t tax us enough. What do you do with all the tax money. Now you want to increase tolls. Oppose find a way with the taxes we already pay don’t increase. Just an excuse to raise the tolls and won’t change anything.
07/08/26	D	60575			X		X			Affordability	Oppose	Illinois is a total joke. Complete money grab against its residents. No wonder why county’s want to break away. JOKE
07/08/26	Pete Abruzzo	60607	X		X		X				Oppose	The Illinois Tollway system was sold to Illinois residents as a temporary tax, “free by ‘73!”, and 50 years later we are still paying, and now it appears we’ll be paying more than ever. It would be so great if lawmakers actually honored their promises. Don’t increase tolls, make cuts elsewhere and use those funds for necessary improvements.
07/08/26	Harry Hartman	60119			X		X			Cost	Oppose	Don’t do it. We are already over-taxed in IL
07/08/26	Meggan Rutledge	60069	X	X			X				Oppose	We pay an astronomical amount in property and state taxes, this is insane to propose increasing already high toll rates.
07/08/26	Kathy	60178	X		X		X				Oppose	It is already very expensive to take the toll way and I can take alternatives to avoid the tolls, but the higher toll will cause for us to have to rethink travel to Chicago as it will be a big burden especially since we are on a fixed budget being in retirement.
07/08/26	Kyle Huiner	60491	X		X		X				Oppose	I'm completely opposed to yet another increase in order to IL to bail out further wasteful spending by our state government. The original intent of the tollway was to phase out tolls once the road was paid for. Instead of becoming free, the system has evolved into a permanent fixture. According to research by the Illinois Policy Institute, Illinois drivers have paid nearly $27 billion in tolls since the original 1973 target date. Moving forward with yet another a major capital improvement program includes these toll hikes and automatic increases is appalling.
07/08/26	Molly Sheahan Hartman	60119			X		X			Low cost	Oppose	Taxes n tolls too high

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/08/26	Michael Polevoy	60004	X				X			Less tollways	Oppose	The Illinois Tollway currently collects approximately $1.5 billion annually from toll payers and has collected tens of billions of dollars over its history. Meanwhile, drivers have already absorbed significant toll increases over the years to support major capital programs and ongoing expansion projects. Yet despite these revenues, many motorists continue to experience deteriorating pavement conditions, congestion, construction zones that seem endless, and the addition of new tolling locations. From a driver's perspective, the value proposition continues to decline while the cost continues to rise. Now the Tollway is proposing not only a substantial new increase, but a mechanism for automatic future toll increases. Before asking drivers to pay more indefinitely, the Tollway should demonstrate measurable improvements in roadway quality, project delivery, traffic flow, and financial efficiency. Many other states maintain extensive highway systems with significantly lower reliance on tolling. Illinois drivers already pay fuel taxes, vehicle registration fees, and tolls. The burden on motorists is substantial and continues to grow. For these reasons, I strongly oppose this proposal and urge the Tollway Board to reject both, the increase and the automatic toll increases - and focus on better stewardship of the revenues it already receives. My vote: Hard No.
07/08/26	Brandon Mahone	60451	X		X		X				Oppose	To the Illinois Tollway Board of Directors, I am writing to formally express my opposition to the proposed toll rate increase associated with the Driving Connections capital program. As a daily commuter traveling between New Lenox and Addison, I already pay approximately $150 per month in tolls. I currently pass through six toll plazas as part of my round-trip commute. The proposed 45-cent increase per toll would result in an additional cost of approximately $54 to $68 per month for my household. This represents a significant, unsustainable increase of 36% to 45% on top of my existing monthly toll expenses. While I recognize the need for infrastructure maintenance, a 15-year project timeline combined with this rate hike—and the subsequent biennial, inflation-based adjustments proposed for 2029—creates an excessive financial burden on working families. I urge the Board to reconsider this structure, explore alternative funding strategies, and phase these costs in a way that does not disproportionately impact daily commuters who rely on these roads for their livelihood. Thank you for your time and for considering the direct economic impact this proposal has on your customers
07/08/26	Michelle Silk	60631	X			X			X		Oppose	You want to increase the tolls so that people can “spend more time with family”, yet the construction runs over time and over budget It’s farcical to think that we drivers get screwed because the planning commissions fail to keep tabs on projects. How about starting to make the construction companies pay for the work that they can’t complete on time
07/08/26	Mario	60477	X		X		X				Oppose	The illinois tollway system has been under constant construction for as long as I can remember and nothing is getting any better. Increasing toll rates so the state can squander more money is not going to help anything.
07/08/26	Brandon Mahone	60451	X		X		X				Oppose	To the Illinois Tollway Board of Directors, I am writing to formally express my opposition to the proposed toll rate increase associated with the Driving Connections capital program. As a daily commuter traveling between New Lenox and Addison, I already pay approximately $150 per month in tolls. I currently pass through six toll plazas as part of my round-trip commute. 2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/08/26		60181	X				X			Less concrete and cleaner buffers	Oppose	This project will cause more congestion due to all the construction over the next 15 yrs. Not reduce. Then, when this project is over, there will be a new one with proposed increases to the public that will create more congestion. This is a dog chasing its tail, no end in sight.
07/08/26	Ronald Simovic	60404	X				X		X		Oppose	Way to go, Governor Pritzker...!!! Just another way to raise taxes for the citizens of Illinois. And you wonder why people are leaving the state...
07/08/26	Lisa	60202	X				X		X		Oppose	It's a hard NO!
07/08/26	Lyndon L Veinot Jr	60097	X				X		X		Oppose	I don't believe the additional revenues will go to the Tollway system. I believe Comrade Pritzker and his sidekick Comrade Johnson will steal it to fund the People's Republic of Chicago instead, since neither Pritzker nor Johnson has any grasp of fiscal responsibility or fiscal management.
07/08/26	L Pickens	60156	X		X		X				Oppose	The Illinois Tollway was created to offset specific cost to Illinois residents which it NEVER was used for. The Illinois Tollway system has continually been under construction for the entirety of my 50+ years in this state-the roads are in poor condition, traffic gridlock is impossible, and simply put-our road system is a mess. Adding more money is only going to be used to provide more money to be ill used and not fix the problems. Workers should be working over night to help ease daytime congestion and they should actually complete road repairs in a timely manner. There is never an end to construction here and its not due to lack of funds. Quit subjecting Illinois residents to higher and higher taxes and fees and do what you were supposed to do originally with the money collected instead of lining pockets of the criminals in office
07/08/26	Nathaniel Isdell	60622			X		X			I check the cost of the time saved equation before choosing to use the toll road.	Oppose	Tolls were designed to pay for original construction, this is another cash grab by the governing institutions.
07/08/26	Andrea Fisher	60103	X				X			Eliminate tolls altogether	Oppose	This toll increase is absurd. In fact, the tollway was supposed to be temporary when the bonds were paid off in 1973. Considering the tolls are no longer manned and the extremely high motor fuel tax the state already imposes there is no reason for this increase. I vehemently oppose a toll increase.
07/08/26	ANNE	60618	X				X			No toll fees like other states	Oppose	STOP RAISING TOLL FEE! GET RID OF THE TOLL FEES!
07/08/26	Karina Bjorklund	60618	X				X	X			Neutral	Flat rate increase is acceptable. I do not accept the proposed future increases every two years.
07/08/26		60098	X		X		X				Oppose	tolls were supposed to be temporary. but are now permanent. the illinois way is to squeeze as much money out of people as possible. ive spent a shit ton of money on tolls. the only road to get maintained is 90. budget better. fix the existing problems. i assume, once the 15 years are done the price will remain $0.45 higher if there isnt another increase in the meantime.
07/08/26	Staley Sarah	60124				X	X	X			Oppose	Tolls were originally supposed to end many decades ago after infrastructure was built and yet have continued all this time while road conditions have deteriorated and traffic remains snarled up. With less manned booths costs should be going down not up for IL residents and platepass holders. Instead any higher toll costs should be passed on to non platepass holders. This money will unlikely make any difference to current conditions based on what I have experienced over the last couple of decades residing along the IL toll corridor
07/08/26	Tamara	60002	X			X	X				Neutral	The toll for tollway 21 catching those coming in from Wisconsin also catches a lot of Illinois drivers and the cost is large. Would recommend not raising this toll too much as it prices out the Illinois drivers.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/08/26	Ryan Macander	60558	X		X	X					Support	The Illinois Tollway has consistently been a dependable transportation resource for our family and is an essential part of our daily travel. Travel times are predictable and significantly shorter than alternative routes, allowing commuters and businesses to move efficiently throughout the region. The Tollway's roadways are well maintained and provide a safe, reliable option, particularly during adverse weather conditions. Continued investment in the self-funded Illinois Tollway is critical to preserving and enhancing this vital infrastructure. These investments support the efficient movement of people, goods, and services, strengthen regional connectivity, and help sustain thousands of jobs that contribute to the local economy. Maintaining and improving the Tollway system will ensure that it continues to meet the transportation needs of residents, businesses, and future generations.
07/08/26	Ellen Nettles	62025					X		X	No rate increase in tolls	Oppose	IL is loosing population because of taxes and soft on crime issues
07/08/26	Jackie Elke	60119			X	X	X				Oppose	I can't financially survive with the cost increase in taxes, prices, and now tolls.
07/08/26	Nancy Stratton	60181	X				X		X		Oppose	NO INCREASES! ILLINOIS is continually gouged enough! The Illinois Tollway system collects billions of dollars yearly since the 1970s. Where has all of that money gone? Why hasn't money been set aside years and decades ago for situations exactly like this? This is unacceptable and we are tired of being taken to the cleaners!
07/08/26	Shane Newton	60174			X	X				No construction	Oppose	Absolutely not. The tolls are already out of control. Also, we were promised that the tolls would go away, and they have only increased. The worst part of my day if having to constantly deal with construction, and not only do you want to waste more of my time, but you want me to pay for it. Go fuck yourselves. All of you.
07/08/26	Brian Kohr	53029	X		X		X				Oppose	Where did all the money collected over the last 20 years go?
07/08/26	Rick	60442			X		X			Not directing selection questions that directly support proposed hike.	Oppose	Why do people who need to use tollway have to keep paying more while daily drivers on congested roads like I57, I94, I55 and I80 pay nothing. Put a fair share toll on these roads.
07/08/26		60415	X				X		X		Oppose	Stop the toll increases.....the tolling was supposed to be eliminated YEARS ago.....but of course, it never happened
07/08/26	Eric Ekstrom	60542			X	X	X				Oppose	Completely against raising rates on a program that we were originally told was temporary!! Many states have great roads without tolls and also lower taxes. Illinois needs to stop taxing our residents into the poor house. All the politicians and state leaders should be ashamed to call themselves leaders!
07/08/26	Kenneth wasiqi	61285			X		X			No pointless construction	Oppose	Our roads are still crap. And the tolls don't do anything besides line the pockets of those in charge. You go to any surrounding state and there roads are significantly better. Instead of patching up roads. Plan for heavy loads. Rain and snow run off. Heavy salt usage and farm equipment. How about more drainage and better quality roads. It's not rocket Science
07/08/26	Lynette Carani	60035		X		X	X				Oppose	Already too high!
07/08/26	Tulicia Edwards	60458	X	X	X						Neutral	When will the new entrance and exit ramps open up in Justice IL. The construction has been going on for a few years now and it looks completed, however, they are still closed off. Is there an ETA on the openings?
07/08/26	Tom	60030				X	X	X			Oppose	
07/08/26	Donnie	60189	X		X	X					Oppose	I don't think more money will solve Illinois' problem of mismanagement of resources and projects. Our roads have been under constant construction since I moved here 10 years ago with no improvements or positive changes. More money won't solve this problem.
07/08/26	Mike	60154			X		X			No tolls.	Oppose	Tolls should have been eliminated decades ago.
07/08/26	Natalia	60455	X	X			X				Oppose	Please finish current project before raising tolls. We are all grid locked on 294 with ongoing construction still in progress. Plus "new" roads already showing wear and tear with multiple large potholes that need to be prepared.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/08/26	Dennis Rabideau	60543			X		X			Tolls already are excessive	Oppose	All Illinois does is increase taxes and fees on us retirees. Nothing is done to reduce taxes. It's always get more revenue from the hardworking citizens. Retirees like myself aren't happy either about real estate taxes. It's insane. You even found a way to tax me when I play golf. Tax the cart rental. Omg.
07/08/26	Jeff Tatarek	62711	X		X	X					Neutral	
07/08/26	Oliver Bailey	60050	X				X			How about web accessible drive time maps	Oppose	Maybe if had built a more "utility like HQ" you wouldn't be asking for more money! Maybe its time time to ask the Federal Government for an audit of IDIOT management. If you want more money, why not offer more technology. I designed a gateway to the facility in Schaumburg in 1983 that allowed real time traffic flow to be displayed on Channel 32. That was 43 years ago and the same system handle SMS texting. What happened to it? How about senior discounts for this absurd tolls rates. You don't consider the impact this has on elderly people who spent their life supporting this country you IDIOT can take it away without consideration of the consequences it causes to retirees. Now you want more money after the IDIOT governor of Illinois spent 4 Billion on the Chicago expressway system. What do you morons do, compete for who can throw away more taxpayer money than the other? You ca display real time traffic on the overheard signs, but you can't post it in a format suitable for a smart phone. Most other states have taken away tools and this state can never pay anything off before going into more debt at every agency. Get real!!
07/08/26	Stefanie Lauren Howard	60169			X	X	X				Oppose	The state taxes us and charges us high enough with everything. The tollway prices were not even supposed to be permanent yet they're not going away, so I am very much opposed to raising them anymore than they already are.
07/08/26	Brian Croix	60451	X		X		X				Oppose	Illinois is already taxed at the highest rate per capital in the nation. This is nothing more than another tax increase! Tolls were supposed to be temporary! Thieves!!
07/08/26	Laurel DiLegge-Castillo	60148	X					X		Connecting with work, family and friends.	Oppose	Why do increases need to be so high? Increases like this move us even more to a state that only the wealthy can afford to use tollways. Hitting the public with more cost increases especially at this time is showing how disconnected you are to what is best for our communities.
07/08/26	Araceli V	61109	X		X		X				Oppose	
07/08/26	Gloria	60438			X	X	X				Oppose	I simply cannot believe that each toll would be over a dollar. I go back and forth to pick up my special needs daughter from her group home very often. This increase will be hard on our family. The proposed ideas sound like what the tollway has and should be doing all along. It seems like an excuse to increase the rates.
07/08/26	Stacy Lanphier	60007	X				X			Laziness	Oppose	A person I lived with who has since moved out. He never updated his address information and the unpaid tolls came to my house daily racking up thousands of dollars. I called your office was put on hold got disconnected called back got disconnected called back got disconnected. Finally got someone told her the situation and she told me to write on the envelopes return to sender when I told her I could give her the information where this person lived. She was not interested nor is your city interested in doing a little extra time and effort. The price of Everything keeps getting raised. And I just one person call to give you access to fees that belong to the city and you ignore it. This might be a good news story!!! I am a tax paying citizen,trying to help the city get their money back, but told that to not hold my breath and to put return to sender on the envelopes. Meaning, I had to do the work not the city. Now that I think about it, it is a good news story. You have millions of dollars of unpaid tolls and or fees with breadcrumbs to the person who owes to you, but you don't do anything about it.
07/08/26	Terri Smith	60451-4806	X			X	X				Oppose	This increase is HUGE!!!! Way out of line. You're basically draining people's pockets who rely and use this tollway daily to get back and forth to work! No one is getting pay hikes to afford this on top of gas, food and clothing. And the 355 tollway is already expensive enough. Where did all that money go over the last couple of years?? Please find another source to fund these improvements...

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/08/26	Steve	60085	X		X	X					Support	I drive I-294 five days a week from Lake County to my job near O'Hare, and the stretch between Balmoral and the Edens Spur is the roughest part of my commute. I support the proposed capital program because it will make my drive safer and more predictable. A modest toll increase is worth it to me if it means fewer lane closures, smoother pavement, and less time stuck in construction zones down the road.
07/08/26	Chris Bauer	60142	X		X				X		Support	
07/08/26	susanne dormann	60517	X	X	X						Oppose	The reason I take the tollway is because it is the best option from where I live to where I work, but that is not to say it would be my first choice if I had another way. The cost has increased 4 time since 2009. The roads themselves are so congested. The roads themselves are in horrible condition given the amount of tolls we pay. The goal of the tollway was to be "Toll free in '73." That was the campaign slogan over five decades ago that promised tolls on Illinois interstates would be a temporary revenue sources. The prices are going up in every aspect of our lives, we cannot afford to have the toll cost increase at this time. We have some of the highest taxes in the country and yet we are not able to fund the road construction. People are barely getting by and to impose an increase is an undue burden that no one can afford right now.
07/08/26	Kelli zawadzki	60439			X		X			Cost 100%	Oppose	I already try to limit my use of the tollways because I think it is extremely expensive. I cannot imagine raising these rates even higher. With the cost of gas increasing, there is no way that average working americans can afford all of these increases. I adamantly oppose this 100%!
07/08/26	Jim Brightmore	60565	X				X			Decrease toll fees	Oppose	Don't increase the tolls, they should be reduced
07/08/26	Luis Moncayo	60441	X			X	X				Oppose	I believe the intent of a paid tollway initially was created to pay for the capital investment and once that was accomplished, it would be no longer tollways. You all had decades of toll collections to save for improvements and investments for the future, instead money was squandered and over paid to contractors. Why we have to pay for your negligence? I oppose this.
07/08/26	Kyle Olney	60914	X			X	X				Oppose	Consumers are being abused with cost increases in every area of life. Please do not raise tolls again.
07/08/26	Brian Nicosia	48025	X			X	X				Oppose	Toll Roads were supposed to pay for themselves and stop collecting tolls decades ago. Previous mismanagement of funds and not taking care of the roads is not reason to raise toll rates now. Increased toll rates makes "roads for the rich" and hurts underprivileged population who cannot afford to travel with increased rates.
07/08/26		60515	X	X		X					Support	I am in support
07/08/26	Dina and Randy Dornink	61064	X				X			Improved rest areas	Oppose	Chicago is the main benefactor. Let them pay for it. Tolls were originally meant to be temporary ! Our governor just wants to run everyone out if Illinois
07/08/26	Eva Alessia	53406	X				X			No more tolls	Oppose	When the tollways were originally constructed, the tolls were only supposed to be collected into the 1980's. Here we are, 40 years later, still collecting tolls and wanting a toll increase.
07/08/26	Mark Binkerd	60555	X				X			Not spending 11 years on a construction project	Oppose	Tolls just went up recently and now you are proposing another large increase. The I294 construction project has been horrible. The intersection of I88 and I294 has been broken for most of this construction project and that is unacceptable.
07/08/26	Danial	60056				X	X			Not being charged to drive	Oppose	How about the state uses its funds correctly instead of lining thieving politicians pockets with money and allocate the funds the state does have to the correct projects. EX: the bears stadium and raising the taxes on stupid things of that nature
07/08/26	Jan	60046			X	X	X				Oppose	I will try even harder to avoid the toll road whenever possible in the future. The cost and increases are ridiculous. I will only use it if absolutely have to.
07/08/26	Jessica L McKean	61614-3519			X		X			ability to get from one town to another	Oppose	Roads are a part of our state taxes. Figure out how to manage the money and the projects. Work 24 hour shifts so projects do not take years to complete. There is so much waste the way you guys currently manage the road conditions that I am pretty confident you can figure it out with the budgets you are given.
07/08/26	Scott Augustine	60062			X	X	X				Oppose	This state is criminal.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/08/26	Joe	60060	X		X	X					Support	Living in the Northern Suburbs, our family relies on the Tollway to get to everything: my commute, my daughter's college in the city, weekend trips to see family downstate. I'm writing to support the capital improvement plan.
07/08/26	Andres Morales	60607	X		X		X				Oppose	chicagoans in particular have the worst traffic nationally in history, city planners and IDOT planners lack a sense of logic, constructions are painfully slow and poorly planned, not to mention low quality patching rather than real repair which begs the question: why does it take so long to get a slight improvement on conditions? what is more money going to do? what is needed is a change in leadership and more competent planners, transparency and engagement.
07/08/26	Jimmy	60002	X	X				X			Support	I-294 is a critical national freight corridor connecting Wisconsin, Indiana, and the interstate system around Chicago. It's essential to our state's economy and should be funded and maintained properly!
07/08/26	Ed	60115		X		X				These aren't optional routes anymore. They are critical infrastructure	Oppose	We were told decades ago these tolls were temporary. You shouldn't exists anymore and the state needs to stop stealing our money. How do you need to increase toll rates when you eliminated hundreds of manual lanes of personnel post Covid? How is all that labor funding suddenly gone and you need more money? You're all corrupt criminals.
07/08/26	Julie Remack	60133	X		X		X				Oppose	We already pay so much money to sit in traffic. I truly oppose these price increases. Give drivers a break everything is going up right now.
07/08/26	Richard Banducci	60194	X			X	X				Oppose	This plan is terrible! In it's inception, the tolls were to have ended long ago. To increase them and to continue to increase them ever other year is a thinly veiled cash grab like the State's gas tax. This negatively impacts those can least afford it at a time when so many are already struggling. This is a terrible plan.
07/08/26	Jake	60616	X		X		X				Support	I use the tollway frequently and although I hate paying tolls, I dont mind if they get me where I want to go faster and safer. I support the capitol improvements and toll increase.
07/08/26	Jose Rodriguez	60410	X		X		X				Oppose	We already pay tolls, fuel tax , plate stickers, it's like you guys never have enough money stop misspending it roads are always crappy anyway
07/08/26	Pam	60060				X		X		No public funding	Support	I support the tolls because tolls are a user fee: the people who benefit from the road fund its upkeep, rather than shifting costs to us taxpayers. If i dont use the road i dont want to pay for it.
07/08/26	Nick J	60014	X				X	X			Oppose	I am already staring to avoid the tollway with the recent rate hikes, and that will only increase. Project mismanagement is squeezing the middle class, and I cannot support endless hikes.
07/08/26	Richard	60089		X	X	X					Support	The toll increase is neccessary for the maintenance of our roads and our state's economy. And only users pay the toll, not every driver in the state. I support!
07/08/26	Jorge Rodriguez	60185	X		X		X				Oppose	These tolls were supposed to be eliminated, the fees are extremely high, as a state the taxes we already pay should cover these cost. The big construction companies are the ones that benefit from the cost of construction, billions???? This is ridiculous!!!!!
07/08/26	Rich L	60126			X		X		X		Oppose	Can you promise another none of the price increase for tolls will be going to the Chicago CTA or Chicago proper please let me know
07/08/26	Kevin	60638	X	X			X				Support	The $25+ billion project will provide thousands of GOOD UNION JOBS over the course of its construction.
07/08/26	Melissa	60545	X				X			Less tolls	Oppose	Always taxing us for their own benefit.
07/08/26	Juan C.	60632	X		X				X		Support	Workers and families use the Tollway everyday. It makes our lives safer and we spend les time on other crowded city streets and highways.
07/08/26	Phil	60631	X	X	X						Support	Our roads and bridges are dangerously outdated. Let's fix them!
07/08/26	Virginia Frazzini	60586	X		X		X				Oppose	Not in favor of that large of an increase. Sounds like it will already include future increases as well 👎

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/08/26		60467			X		X			No tolls. This is stupid. I already pay a stupid amount of taxes in this state. Fix the budget!	Oppose	Do not agree. Fix the roads with the budget and without raising tolls.
07/08/26	Ron Roeder	60047				X	X			No automatic toll increases! Especially, as with the gasoline tax, when Gov Pritzker wants to pretend he is a nice guy by occasionally delaying an increase. Maybe he will put stickers on the toll readers like he did on the gas pumps, forgetting to say that it was his tax increase. Set a rate, higher if needed, but cut the automatic increases.	Oppose	A 50% increase in one gulp. Wow!
07/08/26	Amanda	53214			X	X	X				Oppose	There is still too much traffic. I don't think it's right for people using the tollway to have to pay tolls during construction periods. If there is construction going on that causes delays then drivers shouldn't have to pay these tolls.
07/08/26	Bonnie Mattson	46323	X			X	X				Oppose	After reviewing this proposal, my honest conclusion is that it benefits the Tollway system more than it benefits the average driver. The individual projects seem legitimate — the interchange work and deferred maintenance are real needs. But structurally, the Tollway is the same entity setting the toll rate and benefiting from that rate being higher, with no independent party negotiating on drivers' behalf beyond public comment. The toll increase is permanent and compounding, while the promised congestion relief is delayed and difficult to verify years from now. There's no mechanism to walk the toll back if the relief doesn't materialize as promised. This isn't a scam, but it isn't a neutral deal either — and I think that distinction matters."
07/08/26	Jake	60622	X	X			X				Oppose	I support safe roads and creating and maintaining blue collar work.
07/08/26	Terrence Madden	60126	X	X	X						Support	In my view, the Tollway is the best maintained, safest system of roads in the area. I use the Tollway everyday and a toll increase is worth it to me if it will reduce congestion and increase access. The Tollway's construction program will create jobs in the area, which is important for our local economy.
07/08/26	Pam Beer	60193			X		X			Less construction to reduce traffic problems.	Oppose	Enough already.
07/08/26	Steve Schuessler	60174	X			X	X				Support	Transportation infrastructure is the lifeblood of the economy in NE Illinois and the Illinois Tollway's system is a very important aspect. I am in support of the Tollway's Capital Program. I appreciate the fact that the Tollway is completely toll funded and that the agency does not receive any tax revenue. As a result, tolls being a user based fee structure, do not impact motorists that don't use the system and the user fee system gives motorist a choice.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/08/26	Paula Barwacz	60540			X		X	X			Oppose	There are too many tolls already & I don't trust the additional money will go towards improving the roads. Other states manage their roads//highways with no tolls. IL finances are deplorable! I'll start avoiding tolls with an increase, the few extra minutes won't matter
07/08/26	Chris	61080		X			X			No rate hikes since the tollway is owned by a foreign country	Oppose	Is this the foreigner that owns the tollway requesting more money?
07/08/26	Steven Weber	60123	X				X		X		Oppose	As it stands now. Have seen to much waste in the pass. Toll booths removed(I'm pretty sure out of state people don't pay their tolls. The whole Bogojevic mess really hurt drivers. Is the cost going to be the same on each toll? Look at 390 you have many tolls at all different prices. Adding .45 to a .15 toll is nuts. Perham a percentage even to all tolls. Looking at one toll that was .15 vs one that's 1.80 and placing a .45 on each is not fair.
07/08/26	Matthew	60169				X	X	X			Support	We need better, faster-moving roadways in Illinois. I support affordable increases to keep modern, efficient road travel.
07/08/26	Julie Cwik	60175	X				X			All of these should be already be included in what we pay	Oppose	We deserve transparency with current spending. The amount of money that is currently charged for tolls (which by the way was supposed to be a temporary measure when instituted) should be ample for any necessary improvements. When will Illinois stop gouging its residents? This is just ridiculous. Stop the nonsense and cut the graft before you charge any of us a penny more.
07/08/26	Todd U	60189	X			X			X		Support	It's great that Illinois Tollway has a finite, defined mission: to deliver expressway travel in NE Illinois. It allows Tollway to focus, and do the great job they do delivering on it.
07/08/26		60203			X		X			A free way to bypass Chicago which sucks.	Oppose	You should not need to raise tolls to maintain the road. You should already be maintaining the roads with the huge toll revenue you already collect. Where did that money go? Raise taxes on Illinois residents instead if you need money you brokies.
07/08/26	Mitch Johnson	61107	X		X		X				Oppose	I like the idea of less traffic, but at the expense of greater tolls when they are already quite large (especially if driven through often), is a net negative to me
07/08/26	Vanessa P Williams	60617		X	X		X				Oppose	Why is the toll on 83rd Anthony the highest in cook county. And every 2 years is has gone up by over a $1.55 but other places are under $4.00.
07/08/26	Joe Biden	60045			X		X			No more tolls to fill prickster pockets	Oppose	Fuck all of you communist shitheads
07/08/26	W P Hoyne	60452	X				X			Lower tolls	Oppose	When the tollway was originally built in 1958, consumers were assured by the lawmakers that the tolls were temporary and once construction was completed, the tolls would be eliminated. The lawmakers seem to have a short term memory loss of their promises to the residents of Illinois.
07/08/26	J Sciarabba	60142	X		X		X				Oppose	HELL NO! Way to big of an increase
07/08/26	Wauchop	60417	X		X		X				Oppose	No toll increases. Solve your budget issues without tax increases. 80/20 issues, stop funding pet projects and redirect funds to issues effecting the majority.
07/08/26	Deborah Chika	60559	X				X			Fewer tolls	Oppose	I'm old enough to remember when tolls were supposed to end when the road was paid for; I'm still waiting. Find some other way. Make I-55 a tollway. Northern Illinois has too many tollways already
07/08/26	Jim C	60464	X			X	X				Support	As a regular user of the tollway a. It's reliable, b. it saves time so I can help coach my children's teams on time, c. More access points but most of all it's safe traveling. Thanks for extending this to other suburbs.
07/08/26	Constance Stepanek	60660	X					X	X		Oppose	The increase is too much. Another lower amount would be more acceptable.
07/08/26	Roxanne Vendegna	60140-8693	X				X		X		Oppose	Please do not raise the price of tolls. I cannot afford anymore. And really a reason being to spend more time with your families!!
07/08/26	Quentin Beard	60467				X	X			N/A	Oppose	I commute daily on the tollway at over 3 dollars a day. From Orland Park to Chesterton, Indiana , this increase would bring the tollway out of my budget and I will have to avoid it entirely.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/08/26	Frankie	60175	X			X	X				Oppose	Raising the tolls to generate more revenue should not be the answer to fund the improvements. What happens to the aggregate revenue being collected over the last several years, does that not fund this work? Why is the increase needed and why are there not accrued funds that were reserved or this work?
07/08/26	Larry	60171	X	X	X						Support	They should have put in the Irving Park interchange both ways a longtime ago.
07/08/26	Christopher Henao	61115	X	X		X					Support	I support the proposed Illinois Tollway rate increase because it is a necessary investment in maintaining safe, reliable, and efficient transportation. Toll rates for passenger vehicles have remained unchanged for many years, while the costs of construction, maintenance, and operations have continued to rise. The additional revenue will help fund critical infrastructure improvements, reduce congestion, enhance safety, and ensure the Tollway remains reliable for commuters and businesses. Investing now will help avoid more costly repairs in the future while supporting the region's long-term economic growth.
07/08/26	Matt	60601	X	X				X			Support	
07/08/26	Joseph Lemire	60511	X		X		X				Oppose	The tolls were supposed to be terminated once the roads were finished, yet you continue raising the tolls while the tax payers are already struggling. Taking more money from the tax payers is absurd when we already have some of the highest taxes in the country. Please vote NO!!!
07/08/26	Dominic House	46303	X		X		X				Oppose	Don’t think that the 30% increase for commercial traffic won’t be passed on to their customers. That means a. Increase into things like groceries.
07/08/26	Daniel Bourgeois	60304					X		X	Low cost transportation	Oppose	No toll increase! It is a regressive tax on workers.
07/08/26	Vincent Bertucci	60453	X				X			No increase in tolls	Oppose	I oppose the proposed Illinois Tollway toll increase. Illinois drivers have been told repeatedly over the decades that tolls were intended to finance the construction of the tollway system and would eventually end once the original construction bonds were paid. Instead, tolls have become a permanent and ever increasing source of revenue. Before asking Illinois families and businesses to pay even more, the Tollway should explain why this original promise has never been fulfilled and why permanent toll increases have become the default solution. Historical records show that the original Toll Highway Authority legislation contemplated the removal of tolls after the initial bond obligations were satisfied, yet that transition never occurred. The current proposal would increase passenger tolls by approximately 45 cents per toll beginning in 2027, increase commercial tolls by 30 percent, and then automatically raise rates every two years based on inflation. This creates a future of continually increasing costs with little direct accountability to the motorists who pay them. If additional revenue is truly necessary, taxpayers deserve legally enforceable protections ensuring that every dollar collected from tolls is used exclusively for the operation, maintenance, reconstruction, and improvement of the tollway system. Toll revenue should never become a funding source for unrelated transportation projects or other government priorities. Any increase should include strong statutory safeguards, independent financial audits, and regular public reporting so motorists can verify exactly how their money is being spent. Illinois drivers already contribute through state and federal fuel taxes, vehicle registration fees, and other transportation related taxes. Any increase in tolls should be considered only after demonstrating that existing revenues are being used as efficiently and transparently as possible. Until the Tollway can demonstrate greater fiscal accountability, honor the original intent behind the tollway system, and guarantee that toll revenues remain dedicated solely to tollway purposes, I urge the Board to reject this proposed toll increase.
07/08/26	V neels	61244				X	X			Traffic flows	Oppose	Fixed incomes cannot absorb this! The increase, depending on the current toll, is a 10-25% increase. Who gets that kind of raise?
07/08/26	JoeKinzer	61375	X				X			Lower registration fees	Oppose	We get all the new features you propose from other apps. Illinois is already one of the worst taxed states in the US. No more tax hikes!

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/08/26	Dan	60467			X	X	X				Oppose	Tolls are already too high. Why can't you use existing toll revenue to fund?
07/08/26	Juan	60634	X				X		X		Oppose	As prices continue to rise and household budgets become more constrained, the Tollway system should operate within its existing budget without increasing costs for users.
07/08/26	Adam	60532	X	X			X				Support	I am proud to support the Driving Connections Capital Program. Strong infrastructure is essential to a strong economy, and this program will help ensure that Illinois remains competitive and prepared for future growth.
07/08/26	Francie	60516	X		X	X					Support	Infrastructure projects create family-supporting careers while delivering long-term benefits for the public. I support the Driving Connections Capital Program because it invests in both workers and the future of Illinois.
07/08/26	Brandon D	60647	X		X	X					Support	I strongly support this investment because well-maintained roads are important for me and my family's safety. I support the Driving Connections Capital Program because it helps ensure the Tollway system remains safe and efficient and can get me to where I need to go on time. Thank you for listening.
07/08/26	Emily	60012	X	X			X				Support	Safe and reliable roads do not happen by accident. They require ongoing investment and planning. I support the Driving Connections Capital Program because it helps ensure the Tollway system remains safe and efficient.
07/08/26		60002	X			X	X				Oppose	We already pay the highest tax rate in the country for gas and housing, increasing the toll rate doesn't help the market inflation that consumers absorb, even when the minimum wage is below $10. We are struggling as a state entirely from debt, low wages, and high costs for everything, including gas, so increasing the tolls on the main highways will increase the number of people to leave the state and use other roads to avoid them. DO NOT RAISE TOLL PRICES
07/08/26	John	60601	X	X			X				Support	As a member of IUOE Local 150, I support the Illinois Tollway's Driving Connections Capital Program. These investments help maintain and improve the roads and bridges that millions of people rely on every day while creating opportunities for skilled construction workers.
07/08/26	Allison	60440	X	X	X						Support	I support the Driving Connections Program because it creates jobs, supports apprenticeship opportunities, and helps maintain the infrastructure that keeps Illinois moving.
07/08/26	Tommy Carrato	60004	X		X	X					Support	The Tollway's robust system makes commuting easier with less traffic and better maintained roads. I support the toll increase to further improve the system.
07/08/26	Robert	60525	X	X	X						Support	The projects included in Driving Connections will help modernize aging infrastructure and improve the transportation system that so many Illinois residents and businesses depend upon.
07/08/26	Lisa	60617	X	X	X						Support	I cant imagine getting anywhere around Chicago's suburbs without the tollways.
07/08/26	Bob	60139	X		X		X				Support	The Tollway is a vital part of our regional economy. Continued investment through the Driving Connections Program will help support businesses, commuters, and working families across northern Illinois.
07/08/26	Marcus	60106	X	X	X						Support	As a skilled trades worker, I support the Driving Connections Capital Program because it creates opportunities for construction workers while improving critical public infrastructure.
07/08/26	Mike D	60415	X	X	X						Support	
07/08/26	Gabby S	60007	X	X			X				Support	Reliable infrastructure is essential for commerce, public safety, and everyday travel. I support the Driving Connections Capital Program because it prioritizes long-term improvements that will benefit the entire region.
07/08/26	Michael	60174		X	X				X		Support	Investing in infrastructure is investing in our communities. I support the Driving Connections Capital Program because it will improve safety, strengthen our transportation network, and create good-paying jobs.
07/08/26	Jake H	60126	X	X	X						Support	The Driving Connections Capital Program will help address critical infrastructure needs while supporting thousands of hardworking men and women in the construction industry. I encourage the Tollway to continue moving this program forward.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/08/26	Josh W	60302	X		X		X				Support	A modern transportation system benefits everyone. The Driving Connections Capital Program will improve travel, reduce delays, and help keep northern Illinois economically competitive for years to come.
07/08/26	Darien W	60645	X	X	X						Support	As someone who values safe and reliable transportation, I support the Driving Connections Capital Program. Investing today will help ensure future generations have the infrastructure they deserve.
07/08/26	Sarah G	60004	X			X		X			Support	The Driving Connections Capital Program is an investment in Illinois workers, businesses, and communities. Strong infrastructure supports economic opportunity and improves quality of life for everyone.
07/08/26	Taylor P	60193		X	X		X				Support	Every infrastructure investment creates lasting value. The Driving Connections Capital Program will improve transportation while creating careers and supporting local economies across northern Illinois.
07/08/26	Renee	60543	X		X		X				Oppose	I believe that when the tollway system for Illinois was implemented it was supposed to be temporary. We are one of the few states that still has a tollway system and the cost of tolls has become outrageous! I would love to see how the money from the tolls is being used and allocated. We need to budget more responsibly and get rid of the tolls!
07/08/26	Tom	60803	X	X				X			Support	
07/08/26		60544			X	X	X				Oppose	
07/08/26	Madeline	60448	X		X		X				Oppose	The tolls are already too expensive to afford. Our bosses will not cover tolls to get to and from work. Until wages increase, commute expenses need to decrease.
07/08/26		60174			X		X			LOWER COST!	Oppose	And you wonder why no one can afford today's prices!!!! 😵
07/08/26	Tamara	60617	X		X	X					Support	The Driving Connections Capital Program demonstrates a commitment to improving mobility, supporting the workforce, and investing in infrastructure that will serve Illinois residents for decades.
07/08/26	Melissa B	60404	X		X		X				Support	Investing in roads and bridges today helps prevent more costly repairs tomorrow. I support the Driving Connections Capital Program because it takes a responsible approach to maintaining our infrastructure.
07/08/26	Karolina S	60440		X	X		X				Support	Illinois depends on safe, efficient transportation infrastructure. The Driving Connections Capital Program will help modernize our system while creating good jobs and supporting economic growth.
07/08/26	Mike B	60510	X	X	X						Support	The Tollway connects people to jobs, businesses to customers, and communities to opportunity. Continued investment through the Driving Connections Capital Program will help keep those connections strong.
07/08/26	Ella G	60563	X	X	X						Support	I support the Driving Connections Capital Program because maintaining and improving our transportation system is one of the best investments we can make for Illinois' future.
07/08/26	Caitlin Smith	60451	X		X		X				Oppose	Take this road daily for work and it is way too expensive already
07/08/26	Frank F	60451	X	X	X						Support	Supporting infrastructure means supporting the future of Illinois. I encourage the Tollway to continue investing through the Driving Connections Capital Program to keep our transportation system safe, reliable, and prepared for future growth.
07/08/26	Steve	60532	X			X	X				Support	As an Illinois resident, I support the Driving Connections Capital Program because reliable transportation is essential for families, employers, and the continued growth of our economy.
07/08/26	Maren	60532	X		X		X				Support	Strong infrastructure makes our communities safer and more connected. The Driving Connections Capital Program is an important investment that will benefit workers, businesses, and travelers alike.
07/08/26	Rachel	60190	X	X	X						Support	Construction investments create lasting improvements that everyone can benefit from. I support the Driving Connections Capital Program because it strengthens our transportation network while creating quality careers.
07/08/26	Tom H	60106	X	X	X						Support	The Driving Connections Capital Program will improve critical infrastructure, reduce congestion, and help keep people and goods moving efficiently throughout northern Illinois. I fully support this important investment.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/08/26	Soren Wiberg	60025			X		X	X			Oppose	What a terrible idea. They are expensive enough.
07/08/26	Wes	60438	X		X		X				Oppose	When was budget efficiency last reviewed? How much will the feds contribute? Why such a large per toll increase? Inquiring minds want to know.
07/08/26	Robert & Gloria Johnson	60010	X		X		X				Oppose	
07/08/26	Galen	60506			X	X	X				Oppose	No more spending money, already too expensive
07/08/26	Sue L	60482	X				X			Do not add increased prices for tolls.	Support	I think it's ridiculous that we were promised a while back that we were going to not have to do tolls after a certain amount of time with this new towing system. It's gonna be even more tolls and I'm sure you guys are going to continue adding and adding and adding, and adding more more money to be used to tollway. Why don't you live up to your agreement before instead of making more tolls and more prices increasing?
07/08/26	Maggie	60462			X		X	X			Support	I take the tollway often and it still backs up sometimes, but imagine how bad congestion in I-55 or the Dan Ryan or Lagrange Road would be if we didn't have it.
07/08/26	Kathleen Klok	53125	X		X		X				Oppose	What a money grab!!!! A .45 increase or more per plaza. There certainly will be less trafffic when people can't afford to drive on the road. You have aplenty of money already, stop the greed.
07/08/26	J Olson	60119	X				X			Monthly bills are increasing enough each month, I don't have the funds to keep the state of Illinois getting wealthier. Bad enough with the High Property Taxes we pay.	Oppose	See above
07/08/26	Greg	45236	X				X			A complete end to collection, as per the proposed intention decades ago, once the project was payed for.	Oppose	Collections were supposed to end decades ago, once the project(s) was payed for. What a racket.
07/08/26	Joe	60464	X		X		X				Neutral	I want to know exactly where the budget is going. Large "pie in the sky" concepts scream corruption and just seems like a poorly thought way to raise toll fares again. In order for me to support the initiative, I want to see transparency on where the majority of budget is going, in what areas, and measurable predictions on what the outcome of the spend is. This seems like common sense and most people do this for every business proposal, but somehow Illinois toll payers never get that access for these jobs. Also, I would want conditions baked into the contract that restrict the contracted businesses from delaying work and getting paid for it. There should be little to no scope creep, and the final payout should be within 5% of the estimated cost. After that, you have my support.
07/08/26	39-Year Illinoisan	60451	X				X			lower toll prices	Oppose	tolls always seem to increase in price while the quality of our roads stays the same or gets worse. Illinois ranks 5th in the U.S. for its overall toll burden, which costs drivers an average of $15.19 per 1,000 miles. Road construction contracts disincentivize efficiency. I agree the Illinois Tollway needs massive overhauling - overhauling where the state is less involved - not more - and where prices decrease.
07/08/26	Anna M	60124-8064	X		X				X		Oppose	Absolutely nit agreed
07/08/26	Vince S	60616	X		X		X				Support	
07/08/26	Jack Berens	60099		X		X	X				Oppose	This is a blatant cash grab without real, independent, voter-elected oversight.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/08/26	Mary Kelley	49920	X		X		X				Oppose	The toll system was supposed to be a temporary system for funding roads. The price of tolls is ridiculously excessive and out of control. You need to change how you fund road maintenance and improvements. The funding should be part of the budget and needs to be better managed. If Illinois would stop diverting funds to supporting illegal aliens they would have ample funds for the roads.
07/08/26	Zach Herrera	60126			X	X	X				Oppose	My annual spend will increase nearly $200 a year with just my commute alone without a materially better driving experience with this proposal for the rate increase. Please considering a phased approach for increasing these rates considering the inflationary environment all Illinoisians are currently living through.
07/08/26	Michael Butz	60089-1347			X		X		X		Oppose	Pay enough in tolls.
07/08/26	Andy Mpistolarides	60120				X	X			Remove tolls	Oppose	Can't keep raising prices in Illinois all the time. Someone needs to stop this.
07/08/26	Lisa	60423	X		X		X				Oppose	Don’t we pay enough in taxes??? Now you want to raise tolls? People can hardly afford to live now. This is ridiculous.
07/08/26	MARK BROWN	60540	X				X			All of the above - but the money paid for Tolls is not being used properly - we don't need to raise tolls - we need fiduciaries who don't misuse the money collected	Oppose	All of the above - but the money paid for Tolls is not being used properly - we don't need to raise tolls - we need fiduciaries who don't misuse the money collected
07/08/26	Jeanne	60631	X		X		X				Oppose	Do NOT increase tolls!
07/08/26	Evan M	60102	X	X			X				Oppose	We already pay too much.
07/08/26	Muniz	60176					X		X	I live out my car and sometimes sleep near the 294	Oppose	I’m already homeless and live out my car with all the taxes and fees here ln Illinois. Maybe the migrants and people who get fee money might be ok with this. But this increase will continue make it harder to get back on my feet.
07/08/26	Shirley Farrell	60526			X	X				Less construction delaying traffic	Oppose	
07/08/26	Edward Farrell	60526			X	X				Less delays due to construction	Oppose	
07/08/26	Patrick Kerrigan	60491-9187	X			X	X				Oppose	Revenue collected should be used for maintaining and building new infrastructure for the toll system only! funding is being diverted to fund other programs money diverted to non toll road programs should stop. we have the highest gas tax in the Midwest and collect the most in tolls.
07/08/26	Ms Jay	60425	X		X		X				Oppose	Everything sounds corrupt! More money for what when you all are eliminating jobs for people
07/08/26	Beverly	60561	X		X	X					Support	Happy to support this small increase to keep the Tollway in tip-top shape and drive further economic development in our communities!
07/08/26	Lawrence	60527	X	X				X			Support	
07/08/26	Joseph	60118	X				X	X			Oppose	I wouldn't approve any sort of increase until there's an itemized list of how that money is going to be utilized. Without that there is no visibility into my increase which for all I know is just wasted on gouged contracting rates.
07/08/26	Ronald Marshall	60467	X		X	X					Support	We need to spend on infrastructure in Illinois. It increases desirability and creates jobs.
07/08/26	Perry	53406			X	X				Less bottle necks.	Oppose	For out of State residents who drive to Illinois to spend money on dining, entertainment and shopping etc. We should be waived of any toll. Your sales tax is already high, this is the nail in the coffin to stop people from going to Illinois.
07/08/26	Rebecca Dietz	61201			X	X			X		Oppose	It seems completely mindboggling to me that someone should have to pay to use an interstate. Plus, it seems the tollway is consistently doing repairs individually that should have been done at the same time.
07/08/26	Eileen Weber	60045	X		X			X			Oppose	Way too expensive

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/08/26	anthony bialek	60142	X		X				X		Neutral	The 294 is always a mess. Just when construction is completed, it starts all over again. The road material is always rough, especially connecting to bridges. It has been this way for at least 20+ years and continuing. The speed limit is mostly 60 for trucks but pass cars doing 70 all the time.
07/08/26	Michelle Garrigan	54313	X		X			X			Support	I support the new capital program so that I can get to where I'm going faster.
07/08/26	Kevin	60014	X		X		X				Oppose	One, Illinois residents pay way too much in taxes for this kind of rate increase. Illinois FOR MANY YEARS has led the nation in outmigration because of it. Two, millions of dollars of this windfall will be wasted by good old-fashioned Illinois corruption. You folks can't help yourselves. You won't listen to me, though - you'll listen to the union workers who will get these contracts (in exchange for some hefty campaign donations, of course.) Do what you will - when my kids graduate high school, I'm outta Illinois for good. Good luck finding people willing to stay to pay for all this. So if you're not gonna listen to me, I at least humbly request that the Tollway executives who inevitably get indicted for skimming the take to line their pockets, just for once, get the book thrown at them instead of six months at Club Fed.
07/08/26	Karen Regan	60452	X		X		X				Oppose	It's a disgrace the way tax payers are being robbed.
07/08/26	Maggie Diaz	46383	X		X		X				Neutral	Will this increase also affect EZPass Indiana drivers?
07/08/26	Citizen	60614	X		X		X				Oppose	Stop robbing funds that were intended for roads only to come back and increase tolls because there's no money
07/08/26	Jerome Dwojak	47630	X		X		X				Oppose	Governor Pritzker is a thief, Illinois has plenty of revenue. Stop wasting it on the illegals in your state and the ones that dont want to work. And quit putting the burden on working people.
07/08/26	Rafal Kuchyt	60108		X					X	None off this is true	Oppose	Tolls are just taking money from people. I 294 is build for many years and still they are typo many traffic. New roads are worst than old. No road are even and line are with holes in it. How much more you can increase if every year you do that. The tolls are full of traffic and you just wasted your time and money. Tolls are not good.
07/08/26	B Peters	61748				X	X			Lower Tolls	Oppose	I live within a budget. You (IL) should try it.
07/08/26	Joshua Anderson	61254	X		X		X				Oppose	The state taxes are already too high. Toll roads are just another tax. Enough is enough.
07/08/26	Kevin	60423	X		X		X				Oppose	I'm tired of being taxed to death!!
07/08/26	Alfonzo. Sacramento	60634	X		X	X					Support	Il toll roads need to improve it's very important the maintaince of roads and bridges to secure a safe and effective tollway system. There are areas within the toll system are in dire need repair. Please do what's had to be done. To maintain a safe system. Ty
07/08/26	Kenneth Baggio	60188	X			X	X				Oppose	
07/08/26	Barbara D Kramer	53181			X		X			No cost roads	Oppose	I refuse to drive on tollways! Illinois should find another way to fund the roads with government funds. Just because the state is irresponsible with funds doesn't mean the people should cover the costs we already cant afford to drive to work!!!
07/08/26	Jane O'leske	60133	X			X				Charge less for tolls the Elgin ohare 390 is ridiculous!	Oppose	
07/08/26	Steven Mikottis	60181	X		X	X					Neutral	
07/08/26	Joe Riefski	60193		X	X					More highways (extend 390 much farther west, extend 355 north and west and connect to RT12 HWY in Wisconsin)	Neutral	THERE IS NO STATED PLANS (PROJECTS), just a lot of words describing strategy framework. I would support if listed potential projects and ranked in importance. For example if you listed more access entry/exit ramps to be added, extensions of tollways to new areas I would support toll increase. If the increase is just to maintain, add lanes to a few areas, perhaps some rest areas…well I would oppose increase. This is just normal expectations for which we pay tolls already.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/08/26	Craig Fisher	60118			X		X			Lower rates	Oppose	I am vehemently opposed to any toll rate increases. The Illinois Toll authority dramatically raised our rates in 2012 and now are proposing another massive increase. Let's look at some of the facts. The tollway managers 294 total miles of roads in the state. Their current budget is $1.8 Billion, or $6 million per mile per year. They employ 1356 people, which equates to 4.6 people per mile of road. The engineering department alone employs 531 people, which is almost 2 people per mile. Are you kidding me? This is a classic boondoggle. The toll authority has been involved in patronage, reckless spending, and inept IT platforms leading to several Phishing scams over the past decade alone. Please put this up for vote with the people that travel these roads, not the politicians that are being greased by the tollway.
07/08/26	Katherine G Hernandez	60165	X		X		X				Oppose	Our roads are always in bad shape no matter the cost of the toll ways. With so many people that use and visitors pass thru no need to increase the price . Or increase prices for non residents.
07/08/26	C. Parkinson	53110	X			X	X				Oppose	
07/08/26	Laurie Franz	60133	X	X			X				Oppose	
07/08/26	Steven walus	60140	X		X		X				Oppose	Stop raising tolls! Tolls were supposed to be temporary, not a revenue stream.
07/08/26	Nichols	60124				X	X		X		Oppose	The tolls were to go away when the tollway was paid for many years ago. It is getting outrageous for how much money you collect and then give it to Chicago. Stop the crap and start using the toll money for tollway repairs rather than Chicago throwing our money away!
07/08/26	Abbie Hernandez	60123	X				X			None of these should justify a rate hike	Oppose	
07/08/26	Jennifer McNaughton	60558	X		X				X		Support	
07/08/26	Katrina	60520	X		X		X				Oppose	The toll road was supposed to be abolished back in the 1970's and it never has been. Since the Illinois Government can't figure out how to manage money the tollway just stays and tolls keep going up and up. Here's a thought....stop giving my tax dollars to illegal immigrants then maybe there would be money for the roads.
07/08/26	Alexis	60110			X	X	X				Oppose	Prices are insane already and to keep increasing AND ADDING more toll ramps is ridiculous! Always traffic with “fixing” the roads but just causes more stress to everyone on the road!!
07/08/26	Pat OBrien	60143	X		X		X				Oppose	390 Being the most expensive Tollway $/Mile is in deplorable shape. Ruts, Potholes, massively uneven overpassed, generally poorly maintained. Clearly Tolls already are not put to maintenance of existing roadways.
07/08/26	Mike Dancy	60030	X				X			Less construction	Oppose	The Tollway Authority spent tons of money to pour concrete some years ago. Then spent MORE money to pave over the concrete with asphalt. Who makes these idiotic decisions??? Why would I support even more wasteful spending at the drivers' expense? Raise the tolls and I'll cancel my account. It's ridiculous.
07/08/26	Janixa	60120	X		X		X				Oppose	Everything in this damn state keeps costing more and more. Enough already!!!! Our tolls are high enough as it is since most states don’t have any at all!
07/08/26	Brian Sullivan	60123					X	X		Safety	Oppose	Citizens of Illinois cannot afford another rate increase.

07/08/26	Will Jennings	60432	X	X		X					Support	
07/08/26	Evelyn Trujillo	60140	X		X		X				Oppose	Gas is already high plus paying more to drive through the highway is not ideal.
07/08/26	Ricardo Romero	60103	X				X		X		Oppose	Please do not raise toll fares
07/08/26	Susan Doyle	60123				X	X	X			Oppose	I’m very concerned with the increase due to funds taken from the system to fund the regional transit mismanagement. Why should drivers have to fund trains and buses especially around Chicago? This is another way to take money from residents and increases the cost of living in IL. It’s no wonder that some counties want to move away from IL. Why not solve some of the problems causing these excessive taxes and ways of funding projects that have nothing to do with the affected people? Don’t know how to fix it? You always reach for ways to tax us!!
07/08/26	Lynnette Pagan	60123		X		X	X				Oppose	

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/08/26	Patty	60123	X			X	X				Oppose	Pritzker, is money grubbing he doesnt use the tolls for his personal use, i dont feelhe uses the toll money to fix the roads, some are in preety bad shape
07/08/26	Jon McDonnell	60586	X		X		X				Support	
07/08/26	Allan	60062	X		X		X				Oppose	What are you doing for the average American? Lotto, casinos, satellite casinos and such - what the hell are you doing with all of that money? I hope to God you're NOT spending it on illegals! Stop spending money on 90/10 (you being on the 10) idiotic proposals. Let's use common sense!
07/08/26	Kim Norwood	60120	X		X		X				Oppose	This is going to hurt IL families and and the truckers that work hard to move our goods. That cost will then go back onto the consumer
07/08/26	William Koehler	60010	X	X	X						Support	
07/08/26	John George	60120	X	X		X					Oppose	
07/08/26	Karina	60172	X				X		X		Oppose	
07/08/26	Alex Gasbarro	60451	X	X	X						Oppose	
07/08/26	Sherry Hagerman	60585	X		X		X				Oppose	We are consistently being told how this work and funds improves our commute. However, the construction and commutes consistently keep getting worse and worse. I am of the final belief that no matter the funds these areas will never be fixed properly. Shut the tolls down and find another way to fix these roads. Other states have nice roads and easy commutes. What is our problem. No more construction! We are wasting money!
07/08/26	Samantha	60120	X		X		X				Oppose	
07/08/26	Jonathan Wright	60177	X				X			Faster Construction	Oppose	This is more robbery by the state of IL in the hardest economic times we've face in 2 decades. Why don't you just tax us all out of the state. What a joke
07/08/26	Robert Hillgoth	60543	X		X		X				Oppose	Stop raising taxes!
07/08/26	Cheri	60120	X				X		X		Oppose	Enough with toll increases. The tolls were never meant to stay in place. Look it up.
07/08/26	Jean Tantsman	60107			X		X		X		Oppose	Tollway is already too expensive.
07/08/26	Jeffery	60177		X	X		X				Oppose	Get more funding from the gov NOT THE PEOPLE THE GOV IS THE PEOPLE already you wanna tax us TWO time basically
07/08/26	Scott H	60120	X		X		X				Oppose	Tolls are too high as it is, tolls should be increased in small increments.
07/08/26	Taylor Roche	60118			X	X	X				Oppose	All yall do is raise things up and we can't even afford to go to work anymore! Stop raising the toll rates!
07/08/26	Scott Hayden	53184	X		X		X				Oppose	
07/08/26	K McGuire	60419	X		X		X				Oppose	
07/08/26	Robert Krug	60189	X		X	X					Support	
07/08/26	Jennifer Hahn	60123			X		X			Make it affordable	Support	I'm assuming this increase is in addition to Pritzker's increase to pay for Chicago CTA, etc. So with your proposed increase one toll will be $1.35. That's nuts. No thanks. I'll go back to taking routes that may take longer but save me money. After the tollways were built we were told they would be free after they were paid off. What an outright lie.
07/08/26	Rosie	60123	X				X			Organization	Oppose	Tolls prices change but nothing is changed or fixed
07/08/26	Katarzyna Buczek	60103	X	X						No toll at all	Oppose	We should be phasing out tollways as they are a temporary measure to fund creating them (from what I understand), not increasing the cost to use them! It's getting more difficult to get to work without spending $5+ each way, that's absurd! And what do we pay taxes for twice a year? Shouldn't those funds go to the roads too?
07/08/26	Allen Ashley	61108	X		X		X				Oppose	I spend my entire daily commute on I-90. I feel as though it has been maintained quite well road work wraps up quickly. What additional benefits would I realistically see when my toll cost goes from ~$1350 to ~$2150 a year? Aside from heavy traffic, the other toll road appear well maintained too. It seems like a pretty significant price increase without a thorough and detailed plan of action for us, the end user, to look over and review. I oppose such an increase.
07/08/26	Sergio santoyo	60123			X		X			Lower prices.	Oppose	Already paying alot for tolls. No need to raise prices.
07/08/26	Bret Johnson	60126	X		X		X				Oppose	Is this for real? When citizens of Illinois are struggling with higher property taxes, higher income tax, grocery and gas prices, you are now proposing a massive toll increase? What a heartless action and no wonder this state has the image that it does.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/08/26	Monica smith	60140	X			X	X				Oppose	Stop raising this is getting out of hand.
07/08/26	Natalia Kramer	60067	X			X	X				Oppose	
07/08/26	Denise Rosenthal	60565	X		X		X				Oppose	
07/08/26	Jen	60192			X	X	X				Oppose	You want to raise the toll rates by $.45 per toll?! Are you crazy? The people that use the tolls have no other alternatives other than side streets. The screams of severe mismanagement to raise the tolls by 50 to 100%. Nobody wants more construction, I don't even take the tollway anymore because of the congestion and chronic construction, putting my life in danger. Stop nickel and diamond us to death and your constant construction projects. It benefits a small handful of people and disadvantages every single person on the tollway. In case you hadn't noticed people can't afford housing and food, but sure go ahead and raise the toll rates. Absolutely stupid and incompetent. You must've voted for Trump.
07/08/26	Debra Culbertson	60706			X	X	X				Oppose	It's getting too expensive for daily commute for people going to work and home !!
07/08/26	Willie Fair	60409	X		X	X					Oppose	Maybe in the future because times are tough with the price of gas, food, medicine, insurance and many other items, especially for people with kids.
07/08/26		60120	X	X			X				Oppose	
07/08/26	Javier Guevara	60657	X		X		X				Oppose	
07/08/26	John Roorda	33706				X	X			You spending money on something else!	Oppose	How about you improve the toll road then raise the toll. The money will get lost before you fix it.
07/08/26	Jeff Worth	60046-8597				X	X			I don't want to chose 3 from above. These "tolls" were supposed to go away many, many years ago!!	Oppose	Again, the tollway system was supposed to go away after the original loans were paid off. It was not supposed to become a "life-time" employment agency to go on in infinity!!!
07/08/26	Susan Corral	60192	X		X				X		Oppose	Between property taxes, sales taxes, gasoline taxes and toll fees we pay enough! Enough is enough!
07/08/26	Joe	60103				X	X		X		Oppose	Toll free by 73
07/08/26	M. Glazer	60077					X		X	Raises at this time is ill advised	Oppose	Ill timed when wages not keeping up with increased expenses.
07/08/26	Jennifer purpura	60124	X	X		X					Oppose	Where is all of the toll money going currently?!?! Trucks can not take side roads which means everything I purchase from a grocery store increases! Enough already!
07/08/26	Sheila Angel	61201	X				X		X		Oppose	Everything's going up except for the cost of living wages

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/08/26	Randy Sautel	60803	X				X			Its practically my only way to work.	Oppose	The Illinois tollway was supposed to be free by the year 1973. By then it was meant to have paid itself off and Chicagoland drivers wouldn't have had to pay anymore at all. In my time of driving alone (about 17 years of driving 294), ive seen 2 or 3 maintenance depots built. I've seen the Hinsdale Oasis (an actual good way to generate revenue for the tollway) get downsized to essentially a gas station on either side of the highway with a little truck parking. I've seen the Oasis in South Holland become a shell of what it once was. I've seen a connection made with 57 that you can only access if youre headed north from 57 or if youre headed south onto 57. I've seen absolutely zero care taken to ensure that the million trucks per day are driving safely and within the confines of the law. For example, because no one enforces the lane restrictions, it's often faster to drive in the right lane than the left because semi trucks will make moving walls. I have an Ipass for both of my vehicles but oops because one of them is a motorcycle, somehow none of the equipment works so i inevitably end up charged the full toll rate for trying to take a more efficient vehicle to work. I drive 294 every single day and I have never ONCE seen it not under construction in some way. There are sections of it that have had 3-4 lanes worth of median dug up for over a decade. Try getting better contractors and stop allowing projects to go over budget. Budget better. Since 1973, you have been violating the public trust by continuing to charge tolls in spite of the fact that it was very plainly stated that tolling would stop. Why would any commuter support more tolls when the tollway has done nothing to actually improve how traffic flows in decades?
07/08/26	Steven Vega	60120	X				X		X		Oppose	Why everything is already expensive as it is.
07/08/26	Dwayne Killian	60447			X		X			Less construction	Oppose	When is enough, enough. Didn’t they just raise the tolls less than a year ago. Maybe commercial but definitely not passenger vehicles.
07/08/26	C	60490	X		X		X				Oppose	While enhancements are great the tolls are expensive enough and gas prices are crazy. If things keep increasing we won't be able to afford to drive.
07/08/26	Kristina Kolo	60120			X	X	X				Oppose	
07/08/26	Sue Shaughnessy	60177	X				X		X		Oppose	I'm sure some salaries could be reduced. Or a bonus or 10. Stop charging everything to the driving public. Absolutely ridiculous
07/08/26	Focuson Revenues	60447			X	X	X				Oppose	How about you stop the completely unnecessary construction you constantly do. Reduce your budget to not pay so much to retires while screwing over drivers, vendors, and make commutes horrific with traffic. Increase the speed limits. Reduce your budget and learn how to flow traffic.
07/08/26	Debra Vowell	60468	X				X		X		Neutral	I’m ok with an increase, however I think Ipass holders should get some sort of a discount on that increase. Maybe $0.40 instead of the full 45 cent charge. Approximated, I’m guessing. Or will that be the new amount regardless. I agree that anyone using the toll roads should help maintain them, but why don’t our taxes help with any of that? Doesn’t the tollway get any money from out state taxes? Just putting my opinion out there.
07/08/26	Tom	60030	X		X					Less corruption. Stop the lies and the tolls.	Oppose	Come on. No comments will change anything. Can you figure out what the following have in common: Olympic committee, FIFA, Chicago politics, Illinois Tollway???
07/08/26	Lana	60123			X		X	X			Oppose	Find something else to cut from the budget. Maybe abortion funding?
07/08/26	Linda Boyer	60423-9432	X						X	Seniors should get a discount. Prices in illhave got up on everything but air...social security pays very little. Biden had 9 5% inflation but SS rose very little	Oppose	Seniors need a break

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/08/26	O	60016	X				X			Highways are always under construction but never fixed	Oppose	OPPOSE! The problem is we are a high taxed state and one of the highest with tolls. WHERE IS THE MONEY GOING? The roads are shit! And the proposal states less time on the roads more time spent with families??? HOW? This corrupt state keeps charging residents so we have to work more! This is why people are moving to red states! They are well maintained, budgeted and managed. Disappointing.
07/08/26	Suzanne Rickman	60430	X				X			Better materials used, which would mean less frequent need to try things up with construction.	Oppose	The amount of money taken from the citizens to drive the toll roads is already too high. It should not be owned by a private for-profit company. We are being sucked dry.
07/08/26	Beata	60172	X		X		X				Oppose	
07/08/26	Mariia Grinberg	60015	X		X		X				Oppose	As a person who commute to work on daily basis using tollways both ways for many years I find it pretty disturbing that the rates can go up making it even more expensive, I spend around $100-$120 a month just for a short (up to 10 miles) tollway drive.
07/08/26	Mark	60123	X		X		X				Oppose	The governor needs to learn how to spend our money wisely
07/08/26	Lloyd Fleming	60473	X		X					Extension of I-355 south southeast to I-57	Neutral	I'd like to see an improvement in amenities for parking like at Oasis, extension of I-355 south southeast over to I-57 to ease outbound and inbound traffic at the east and west bound I-80/I-57 junction. Furthermore, collaborations with Indiana for them to connect a corridor from I-65 westward to that extension at I-57 to ease the I-80/94 traffic east and west bound across the Indiana/Illinois state line.
07/08/26	Denise Fullerton	60046	X				X		X		Oppose	If memory serves, the tolls charged in Illinois were supposed to be temporary. How about a historical audit of how the toll money has been spent, thus far? Most important question...how is it that our neighboring state, Wisconsin, can maintain their expressways without charging a toll? After all, we share I-94. Why can't Illinois do the same?
07/08/26	Leen Mahasneh	60103	X		X		X				Oppose	
07/08/26	Kevin	53406	X			X	X				Oppose	Illinois already makes more than enough money to maintain and afford any upgrades. Increase prices are not needed.
07/08/26	Mark Margiel	60047	X		X		X				Oppose	NO to destructive JB Pritzker economics and politics.
07/08/26	Isabelle	60188	X				X		X		Oppose	
07/08/26		60634			X		X			More public transportation	Oppose	Why not invest in more public transportation systems, instead of expanding roads? Why give people viable options other than driving? Bike roads, high speed rail, electric light rail. We don't need more cars and pollution.
07/08/26	Carlo Lorretto-Watson	60016	X		X		X				Oppose	I opposed it because as it is we have some of the highest taxes in the nation, along with some of the worse maintained streets and highways. No one is paying for what it costs residents for suspension repairs of n our cars everytime we hit a pothole.
07/08/26	Audrey Hinchley	60123	X			X	X				Oppose	
07/08/26		60409			X	X	X				Oppose	
07/08/26	Cynthia Snedeker	60510	X				X		X		Oppose	Only because it won't be used for the toll way roads. Taking money from one entity to pay for another is wrong.
07/08/26	Miriam	60110	X		X		X				Oppose	
07/08/26	Dessteny lara	60110	X		X		X				Oppose	
07/08/26	Greg Hulst	60174	X		X		X				Oppose	
07/08/26	Laura Herrig	60142				X	X	X			Oppose	I am against a 30% increase for commercial vehicles. Cost of gas that contributes to the price of goods is too high already. Now you want to charge more to these drivers? NO.
07/08/26	Jose D Perez	60140	X	X			X				Oppose	We pay enough in tolls already in Illinois. The tax paying citizens are tired of increased tolls and overall Illinois high tax rates. Enough is enough is enough.
07/08/26	Violeta	60177	X		X		X				Oppose	

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/08/26	Judith Reilly	60098	X		X		X				Oppose	Illinois already has too many toll roads and collects billions in tolls every year. They were supposed to become free in 1973, but have since cost drivers 27 BILLION. If this new capital campaign goes through, it will be the largest in Illinois history. They collect more in tolls than they need to maintain the roads so where is the rest of the money going? In the pockets of the union bosses, state politicians?? Two Transportation Board members hold leadership positions at labor unions that work on large scale road projects in the state- big time conflict of interest! We should reject this toll hike proposal!
07/08/26	Jesus Bribiescas	60123	X		X	X					Oppose	
07/08/26	Mark Sniegowski	60439	X			X	X				Support	So important for the safe travel at higher speeds!
07/08/26	Dragan Djordjevic	60465	X		X		X				Oppose	Increase in tolls is 50% which is to high of an increase. I also am opposed to raiding toll rates every two years!
07/08/26	Dafne	60123	X		X		X				Oppose	Tolls are high enough already.
07/08/26	Daniel A Gutstein	60712	X				X			Faster route at times	Oppose	This state seems to have no respect for the wage earners, finding more ways to separate us from our earnings leaving us less to spend on our own families. Adding the automatic increase is just insulting. I yearn to move out of Illinois.
07/08/26	Anne L Barth	60123	X			X	X				Oppose	I thought tolls were supposed to be temporary when they were enacted years ago? Please do not raise them, it only adds to the cost of goods and services because trucking companies pass along the increase to consumers.
07/08/26	Rob	60123	X		X		X				Oppose	Absolutely ridiculous!!! People of this state are tired of being continuously taxed!! Enough is enough
07/08/26	Lori Bobisuthi	60277	X		X		X				Oppose	Illinois already has the highest everything! We cannot handle another price increase!
07/08/26	James Wakeford	60050	X		X		X				Oppose	Nope....cash cow for illinois...no...no...
07/08/26	Mohan	60490	X				X			Special pricing for Senior Citizens	Neutral	Different Rates for 1. Heavy Vehicles 2. Out of state License Plates different rates 3. In state Truckers Rates 4.Luxury vehicles Higher Rates 5. Luxury Cars higher rates 6. Non Luxury Cars lower rates 7. Senior citizens bare minimum rates 8. Any of the above violations heavy penalty on spot I hope you will consider these options all Illinois Citizens Thank you
07/08/26	Ali Khalifa	60467	X		X		X				Oppose	We've been paying tolls forever for this exact reason to improve the roads. Why now is it proposed to increase increase and we still need more work that means the money is being mismanaged
07/08/26	Richard Kish	60505	X		X				X		Support	Some road surfaces are deteriorating. I saw a car blow two tires on 294 due to a pothole (sharp concrete hole). No one wants their costs to go up, but with no increases since 2012, it needs to happen. In winter, I always head for the Tollway; if I can make it there, I'll get where I'm going.
07/08/26	Laura Flaherty	60467			X	X	X				Oppose	If you raise the rates, many will avoid using the toll way system and there could be a loss of revenue instead of expected increase. Money going to the government is already excessive and many people are leaving the state, let's not give them one more reason to head somewhere else. Thank you for hearing the voice of the people.
07/08/26	Natalia Woody	60123	X				X		X		Oppose	We are still dealing with insane traffic and the roads are forever in construction , it seams like we are paying for promises that are never delivered.
07/08/26	Tracy johnson	60175	X		X		X				Oppose	It's really ridiculous the cost when this was supposed to be temporary back in the day. I know costs have gone up so do what every local government does, get funding. Quit using the drivers. The nickel and diming is getting to everyone these days
07/08/26	Donna	60459	X		X		X				Oppose	We pay outrageous taxes in Cook County and Illinois, driving should be free! Taxes already go to improvement. Stop taxing on tax. Taxed out! Barely surviving!
07/08/26	Peter Johnston	60004	X			X		X			Support	The Tollway system is critical to regional traffic in northern Illinois. Their well maintained highways are the primary mode of interstate travel in this part of the state.
07/08/26	Laura Raucci	60142			X		X			Affordability	Oppose	Ridiculous to raise tolls. Illinois has a spending problem. Get rid of the waste that plagues our state.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/08/26	SAJIT K	61265	X				X			Lower Tolls	Oppose	I am a 30 year illinois tax payer...I am tired of paying these higher gas taxes, tolls, property taxes and sales tax. Find a way to fund these runaway pensions and unnecessary employees in another way. Run a more efficient government, enough with these taxes. Even the UI fees for instate is among the highest in the nation. Stop crushing us the citizens. I am forced to consider leaving this state I cherish.
07/08/26	Andrea Fisher	61108	X	X			X				Oppose	
07/08/26	Mj Bovy	60148					X	X	X		Oppose	When the roads are done tolls will be gone. Well that's a lie. Now more money - they have made so much money to more than pay for this without paying more. Just keep the money where it should be and not in pockets. I'll be taking more side streets.
07/08/26	Kasia Brzozowska	60715	X				X			We are doing something wrong look and take example from Europe	Oppose	Really we are so far behind Europe, withdraws, trains, and almost everything else. People wake up.
07/08/26	Susan Galbraith	60187	X		X					stop constant construction!	Oppose	
07/08/26	Lisa Button Garig	60194			X		X			Stop raising the tolls	Oppose	This is ridiculous! Tolls are not affordable!
07/08/26	Amy Jandek	60103	X		X		X				Oppose	I will start to avoid all toll roads. It's cheaper to not use them.
07/08/26	Vicki Rossing	60097	X		X		X				Neutral	
07/08/26	Charmaine Beach	60107	X		X		X				Oppose	How much more are you going to continue to expect the people of this state to continue to pay? I have to take the 390 for 5 short miles and go through at least 3 tolls. Ridiculous!!!!! We are taxed to death!!!!
07/08/26	Elizabeth M Niziolek	61008-3218			X	X	X				Oppose	You have been increasing these for years and it's ridiculous. No one should have to pay to drive on the highway. The governor must been a new Masion or car as Illinois has been ripping off tax payers for years
07/08/26	Dennis Beach	60107-1266	X	X			X				Oppose	We citizens of this state are tired of the constant increases. It's sales tax, gas taxes, property taxes and now an increase for the tolls. Stamps are going up. Yet our paychecks or SS we can barely live on!! ENOUGH!!!
07/08/26	jdavid pugh	60439					X	X		I take the tollway when I want to sit in construction traffic.	Oppose	Why hold public hearings? Just like the last time...it's already "a done deal". I am a senior...77 years old. Seniors will get hammered with the toll increase. We seniors get a 2.8% COLA increase in SS. Is your $0.45 toll increase within +2.8%? Hardly. Your proposed increase is already a done deal and probably already "baked into the books". Save the money. No sense in public hearings.
07/08/26	Jeff Naylor	60103	X			X	X				Oppose	We pay way too much to this state for minimum things . The state needs to do a better job with the money it has . Other states do not charge the tolls IL dose .
07/08/26	Brian Leidlein	60103	X			X	X				Oppose	Tolls can't rise continuously. Budgets need to be managed and plan needs to be made to live within current limits.
07/08/26	M. Roth	60177	X				X		X		Oppose	No more rate increases!
07/08/26	Keith Schott	60123	X		X		X				Oppose	The proposed increase is most definitely going to negatively affect just about every industry in northern Illinois. Should this increase happen at the rates that have been published for the I88 corridor, there will be a massive increase in freight cost... with that increase comes a major increase in consumer goods and quite possibly a massive loss of major contributors to the Illinois economy.
07/08/26	Tony	60487	X		X		X				Oppose	This is absurd. How about putting effort in cutting the cost that it takes to maintain roads vs just spending non stop.
07/08/26	Don Cox	60102	X			X	X				Oppose	The taxpayers of IL and especially in & around Chicago cannot afford higher fees & taxes to do everyday things. Our government MUST find ways to eliminate costs while maintaining the infrastructure. Government waste is rampant. We need to clean house with a DOGE like effort to cut out the slack & abuse to afford the costs like you want in this proposal. IL MUST do more with less! The people can't & won't stand for this. The population is already shrinking & businesses & jobs are moving out of the state. Don't push us past the tipping point!

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/08/26	Jeremy Perry	61055	X		X		X				Oppose	We're already taxed, and nickle and dimed to death in this state. In a state that is irresponsible with tax payer funds.
07/08/26	Julie Roman	60192	X				X	X			Oppose	I am writing to formally oppose the proposed 45¢ toll rate increase. As an Illinois resident, I am already burdened by some of the highest property taxes in the nation, and this latest hike feels like yet another financial blow to families who are already struggling. With our state unemployment rate sitting at 5.1% and rising, now is not the time to increase the cost of commuting. Furthermore, these increases come at a time when we see little meaningful improvement in public transportation options—which could alleviate road congestion—or in addressing long-standing public safety concerns on existing transit. Finally, residents continue to deal with persistent road maintenance issues that contribute to the ongoing frustration with our infrastructure. Rather than relying on increased tolls, I urge the Tollway to reconsider the scale of this project and look for greater efficiencies.
07/08/26	J	60630	X				X		X		Oppose	Crooks
07/08/26	Patty c	60140	X		X		X				Oppose	Fees are high enough already
07/08/26	Dawn Sohr	60542	X			X	X				Oppose	NO to proposed toll increases! I have 4 tolls in my daily commute already! During this economy I am NOT in favor of spending more for my commute and will start using the tollway less often.
07/08/26	Jennifer B	60236			X		X			Not raising tolls for commercial & passenger vehicles	Oppose	Our family doesn't support this as prices for everything is way too high. We can't afford paying more in tolls to o & then have it increase every other year.
07/08/26	Joy Jensen	60102			X		X			Less tolls	Oppose	These tolls were set up initially to be temporary so there should be no need to increase the amount. Thank you
07/08/26	John	60120	X			X	X				Oppose	Oppose
07/08/26	Arianna Summa	60005	X		X		X				Oppose	Illinois drivers do not want toll increase!!!!!!!!!!
07/08/26	Gia	60004	X				X			It's already expensive	Oppose	
07/08/26	Janet Hernandez	60123	X				X			No tollways	Oppose	Please don't raise tollway price again.
07/08/26	Kristal Johnson	60033	X	X			X				Oppose	The cost should be paid through appropriate taxation on businesses getting tax breaks.
07/08/26	oscar	60110	X		X		X				Oppose	
07/08/26	Richard Gruner	60169			X	X	X				Oppose	
07/08/26	Jim MCGUIRE	60033					X		X	Affordability which is no longer	Oppose	The original purpose of the toll was once a toy was paid for it would end well it's never ended and it's only quadrupled times over and over again in this state's got to stop it because the more truck pays to go through a tollway to more our goods cost The new people in control need your get your heads out of your ass
07/08/26		60142	X		X		X				Oppose	Illinois is literally driving people out with costs and taxes going up. This just seems like another way to hurt the hard working people of Illinois and making it even more difficult to have a decent living.
07/08/26	Roland	60515			X	X	X				Oppose	
07/08/26	adam	60188			X		X			no toll hikes	Oppose	this is ridiculous i'm so tired of pritzker and his bullshit hikes on everything, the tollway was suppose to be temporary!!! enough is enough no more toll hikes manage the money better!
07/08/26	Marissa Mikos	60169	X		X		X				Oppose	We already pay enough and the roads and traffic
07/08/26	Gina	60110	X				X		X		Oppose	Please stop taking more money from us!! Gas is bad enough. You don't seem to maintain the roads anyway
07/08/26	eileen	60008			X	X				put the L trains underground and widen the highways	Neutral	not much to oppose, progress has to go on. look at what china has done. everything else is getting more expensive.
07/08/26	Matthew Schneider	60188			X	X	X				Oppose	Literally highway robbery. Shame on this system and a blight to all Illinoians
07/08/26	Dragoslav Ignjatic	61107	X				X			Stop nonsense anymore	Oppose	It's joke every year same thing it's insane what you people doing
07/08/26	Mark	60441	X			X	X				Oppose	Tolls are already high. Make do with current revenue like everybody else who has to run a household or business.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/08/26	Luis medrano	60123	X		X		X				Oppose	As a truck driver we already pay high margins on everything diesel, insurance maintenance and now toll rates increasing. I think we already pay enough In highway taxes and taxes for roads on diesel not to include as an Illinoian taxes for property don't stop increasing.
07/08/26	Gordon Bayless	42303				X	X		X		Oppose	The increase of $0.45 I feel is to high $0.35 would be more reasonable!!
07/08/26	Grace morgan	60123	X				X			It's the only highway that connects where I am and where I need to go	Oppose	I thought the whole purpose of a tollway was to pay for work being done and then the toll goes away once said work is complete. Why do the toll roads never go away? And the roads aren't particularly well cared for either. Just feels like a frustrating scam and I oppose the toll increase.
07/08/26	Neomy Ramos	60120	X	X			X				Oppose	
07/08/26	Scott J	60123	X				X			Clean landscaped roadsides. No trash and native plants well maintained	Oppose	It doesn't seem like we get value for our money as it is. Response times are slow, trash is not picked up, off/on ramps take months to repair.
07/08/26	Christina Parker	60014	X		X		X				Oppose	We need to add tolls to more than the Northwest suburbs. To pay for all of the work. Add tolls to Chicago exit and entrance ramps. Does Illinois even own the toll system anymore? Is there a profit made on this system? When was the last audit done? What roads does the toll system pay for and is there tolls on every exit and entrances of those roads? This system needs to be equal across the state.
07/08/26		60103			X	X	X				Oppose	Where is this money going? The tolls are already expensive, and the roads are not maintained. Specifically 290, and most parts of 355 have horrible pot holes.
07/08/26	Carrie	60142				X	X			Low cost	Oppose	We had enough of a surplus your lent funds to chicago for their transit. Tolls are not illinois piggybank..taxs here are never temporary and never go down. You are not helping the average person driving. Gas tax for road maintenance, tolls for road maintenance enough is enough!
07/08/26	Beenish Khurshid	60126	X			X	X				Oppose	
07/08/26	Heather Cherek	60152-2106	X				X			Saving time	Oppose	This new proposed tax would force me to start taking the side roads to work. Doing this will double my drive time causing me to spend more time in my car than with my family.
07/08/26	Agnes Gomez	60505	X				X			Accessibility to individuals who are not tech savvy	Oppose	It is absolutely not ok to increase the toll cost in this economy.
07/08/26	Murphy	60120			X	X	X				Oppose	Just one more barrier for getting to my job.
07/08/26	Karen Coulman	61039			X		X			You do not have my vote. Pritzker is killing the people ofillimoisbwith all the tax hikes. And we're all sick of it	Oppose	Ready to leave this crocked state
07/08/26		60123			X	X	X				Oppose	
07/08/26	Jeff	60640		X	X					Bc you're a fucking monopoly and I have no fucking choice.	Oppose	You're ridiculously expensive and sorry your roads often suck too. You
07/08/26	Spenser Richard Boucher	60083					X	X		"Toll free in 73"	Oppose	Stop taxing the living dick out of us. What about "toll free in 73?"
07/08/26	Stoyan N Georgiev	60169	X		X		X				Oppose	This is a daytime robbery . Your toll rates are high as they are now . You just seek exuses to increase toll rates . And we have to suffer long contructions and our life jeopardy because of your greed .
07/08/26	Marcia Brown	60555			X	X	X				Oppose	If Illinois gas prices were not the second highest in the nation, I would consider supporting this. Perhaps we can ask for donations before hiking up tolls for everyone. Some people who can afford to pay more could have the option to elect that their transponders be linked up to a higher rate. Probably not though which is why socialism may sound good in theory but will never work.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/08/26	Chris solomianko	60005				X	X			Reasonably low cost of tolls	Oppose	Don't allow Chicago politicians to hijack tollway funds. Don't increase tolls to compensate for revenue given to Chicago public transit - that's illegal!
07/08/26	St	60173			X		X	X			Oppose	
07/08/26	Steve Pappageorge	60423	X		X		X				Oppose	
07/08/26	Liliana	60177			X		X			Affordability	Oppose	It's already expensive and the toll roads are everywhere! It's hard to choose a route on a regular expressway where you don't have to pay.
07/08/26	Deb Kolo	60120	X			X	X				Oppose	
07/08/26	Ron skalski	60103	X			X	X				Oppose	
07/08/26	Steve	60123			X	X	X				Support	Stop taxing us. You have enough money in the coffers. Just stop this nonsense
07/08/26	Kerry	60123			X	X	X				Oppose	JUST STOP THIS B.S.
07/08/26	Stephen	60123				X	X			Safety	Oppose	Stop this taxing the crap out of us
07/08/26	Brian Surkan	60077	X			X	X				Oppose	I've driven in other states that have better roads and spend less money on them. I believe that Illinois should focus on using existing funds more effectively before raising tolls. When governments remove the red tape and bring in private companies to make improvements (large or small), as happened in LA after the earthquake, work can be both effective and efficient. I can see little evidence of funds being effectively managed right now, so more funds would simply allow for more inefficiency.
07/08/26	Zack Young	60124	X		X	X					Oppose	Until the tollway and the State of Illinois can show that they can maintain roadways and have them repaired in a timely manner, at budget or under budget, then I am against any increase in tolls to continue funding the broken City of Chicago and Cook County for services I do not receive.
07/08/26	Law abiding citizen	60053	X				X			No tolls	Oppose	All this bs is just another phrase for a tax hike. This has been done before by IL politicians and we never saw any improvements. Why should we trust you now? All this does is increase an already high toll tax. Why don't you start taxing the billionaire governor first before hard working Illinoisans. We are the top 3 highest taxed state in the country. What more do you people want? You do not know how to handle finances and we the people suffer the consequences. I ABSOLUTELY OPPOSE another bs tax hike.
07/08/26		60062	X		X		X				Oppose	I believe there should be a toll between Dixon and Davenport on I88. Additionally, there should be a toll at all entrances to the state for out of state travelers to enter Illinois. The burden should be shared across the State and can differ by license plates to make those from outside Illinois pay to travel in Illinois. Illinoisans already have exorbitant taxes, notably property taxes, making staying in Illinois cost prohibitive. After 4 generations of Illinois residence, we are genuinely looking to move due to the Illinois tax burden. Yet every state agency attempts to nickel and dime residents to make up for the shortfalls. Here's an idea, have every state employee contribute 10% of their salary and forego raises until the state gets it's finances in order.
07/08/26	Mason	60123	X		X		X				Oppose	Our tax money goes to whats not even given back, so building roads with that doesnt coerce us or gives us free highway systems
07/08/26	Jeanine Kirpec	60477	X		X		X				Oppose	I do not believe your Driving connections Program justifies another toll rate increase. 294 has been under construction for the past 3 years and features newly rebuilt roads and bridges from Tinley Park to Huntley, approx 60 miles, and 355 is newly rebuilt. Given these facts, i do not see the need for a rate increase. The 6 proposed project categories are presented as broad aspirational goals without providing a meaningful breakdown of the specific projects, costs or priorities. Before asking motorists to pay more, the Tollway should provide greater transparency and detailed justification for how these additional funds will be spent!
07/08/26	Vince Valentino	60103	X		X		X				Oppose	Tolls prices keep rising and the quality of roads are of not getting any better. The tolls were designed to be removed after toll was was pay for and that's has never happened.
07/08/26	jason Schockman	53066					X		X	gas mileage	Oppose	as much as possible I'll be taking non toll roads through chicagoland. thanks for reaffirming that choice for me with this rate hike. All of the things I value I can map for without having my travel budget (time and money) adversely affected.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/08/26	floramo	60448	X		X	X					Support	every day is a choice, it is an easier choice with greatly maintained roads using the tollway system no matter what the cost - (within reason)
07/08/26	Letara Arthur	60123	X			X	X				Oppose	
07/08/26	C Walden	60120	X			X	X				Oppose	Really? Another hike? If the repairs didn't take forever, it probably won't cost so much for tolls. Every man hour for repairs cost each driver money. Other neighboring states (with big cities too) take about 1/2 - 3/4 of the time Illinois does to repair roadways, then they have to be replaced again WAY too SOON!
07/08/26	Osama kamal	60101	X		X		X				Oppose	This proposal is ridiculous and I strongly oppose
07/08/26	Jeanine Kirpec	60477	X		X		X				Oppose	
07/08/26		60123					X		X	Safety	Oppose	
07/08/26		60142				X	X			Safety	Oppose	Too many necessities have increased in recent years and salaries have not. I am happy with the roads as they are and do not want to pay more in tolls.
07/08/26	R. Smith	60646			X		X		X		Oppose	Who are you kidding. The legislate passed a bill that would raise the tolls 45 cents to pay for for the support of the Chicago area mass transit system. Saying that raising the tolls is for the upgrade of the tollway is a bunch of crap. Raising the tolls to 45 cents is an outrage. We have no idea how much the tollway is making now.
07/08/26	Laura Gonzalez-Ambriz	60419	X				X		X		Oppose	
07/08/26		60563	X				X		X		Oppose	Who asked for the IL tollway to be improved? COMPLETE transparency regarding proposed ‘improvements’ is something the people have the right to know if they’re going to be paying for it. Why ‘fix’ something that’s not broken..
07/08/26	Bradley Henkin	60185			X	X	X				Oppose	As a commissioner, more is not better. You have automated tolls so no need for toll booth people, and yet as an automation you need more money?? Not the amswer!
07/08/26	LA Shade	60475	X				X		X		Oppose	
07/08/26	Theresa Schiefelbein	60522	X		X		X				Oppose	I try my best to avoid the tollway because of the tolls as it is; however, when I need to take it, I don't feel that I should be paying even more than I already am. Many times I am paying a toll when I am on the highway for a limited period of time just to get from point A to point B. The tollways would do better to target speeding and reckless vehicles that cause accidents, particularly on 88 around the Naperville area. Also, targeting and ticketing trucks that refuse to obey the 'no trucks' signs in construction areas. They can be dangerous. About a month ago a semi trailer lost a dual set of tires on the rear driver side. Fortunately no one was injured or hit; but I had to slow to a crawl as I watched the tires bounce from one side of the highway to the other before the truck exited at an Oasis without those 2 tires. Perhaps trucks to carry any increased fees. The weight of the trucks causes more damage to roadways then cars do.
07/08/26	Dan Obert	53576	X				X			Snow removal	Neutral	Illinois tolls are some of the cheapest per mile in the nation so I understand needing to increase the fees. In general I support the tollway because I think those who are using the interstate the most should pay for it. I like how the Tollway doesn't receive IL tax dollars. My only opposition is to tie future increases automatically to CPI inflation. We don't want an IL gas situation down the line where IL gas is nearly a dollar more than surrounding states. If you need the funds to do these improvements fine, but let's reevaluate in the future rather than continually spend spend spend. Google maps has helped tremendously in determining route times, fuel efficiency and seeing if taking the tollway is worth it as a cost/gas saver. Don't make the tolls too high so you become uncompetitive and people choose other options. Having an automatic increase every two years would hurt the tollway in the long run.
07/08/26	Carter	60565	X				X			Nothing tracking me or my vehicle	Oppose	I think they should stay as they are the roads are decent and I feel as though the price paid currently is adequate, especially when the roads aren’t perfect and never will be with the amount of construction

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/08/26	DeNarrard Gipson	60620	X			X	X				Oppose	Tolls are too expensive already. The roads are horrible especially the Bishop Ford and that highway has been neglected for decades. The Kennedy expressway was just repaired and has pot holes already. The Dan Ryan is filled with trash and debris. The Stevenson is congested all the time. So where does all this money actually go? Drivers already pay for vehicle stickers and we already pay gas tax and we pay tolls. Enough is enough.
07/08/26	Maricela Garcia	60133		X	X		X				Oppose	
07/08/26	Trevor	60033	X			X	X				Oppose	I will not be able to afford to drive the toll way with this increase. The economy's already tough enough.
07/08/26	Erick Pawlak	60123					X		X	It’s getting to expensive to travel the tollways now.	Oppose	We already pay the most in the country or close to it. Find another way other than increasing the tolls.
07/08/26	Jerry Reed	61373			X		X			Making me answer 3 is stupid. Affordability is the most important	Oppose	Tolls are high enough, especially with everything else going up. The roads don't seem to be getting any better or any faster with all of the toll increases over the years. Why would I think this was going to cure any of the problems with the toll roads now.
07/08/26	David Nickles	60085	X	X			X				Neutral	I support the one time increase of the 45 cents for passenger cars and 30% for commercial. I do not like the automatic inflation adjusted rate increases after. That sounds like a sneaky way to keep increasing the cost of the toll roads without notifying the public and holding hearings.
07/08/26	Kate	60102	X	X			X				Oppose	The current toll rates are already a significant expense for many Illinois residents. A proposed 30% increase is difficult to justify at a time when families are facing higher costs for housing, groceries, utilities and nearly every other essential expense. Illinois taxpayers already shoulder a substantial tax burden, and adding yet another financial strain is hard to support. Rather than asking residents to pay more, the focus should be on responsible management of existing revenue and ensuring taxpayer dollars are being used efficiently. This proposal places an even greater burden on working families and commuters at a time when many can least afford it.
07/08/26	Liz	60107			X		X			Ridiculous expense as it is	Oppose	
07/08/26	Grisel Moreno	61109			X	X	X				Oppose	We pay enough in taxes let alone more in tolls.
07/08/26	keelan lang	60640			X	X		X			Support	
07/09/26	Cesar	60120	X			X		X			Support	I think the hike is reasonable given that if you were to extrapolate the price of tolls if they had been adjusted to match inflation theyd need to be nearly $3.50 in 2026/7 (0.30 in 1959)
07/09/26	Jennifer Mccarrel	60142	X		X		X				Oppose	Huntley taxes are high enough. There should be ways for you to allocate within the budget without taking more from the residents.
07/09/26	Kevin	60016			X		X			Not having to mount my transponder to my windshield or place an adhesive sticker up there on the window. What is wrong with billing by license plate?	Oppose	This is not what we need right now. We need cost reduction. Also, (that traffic system, with the caution arrows for each lane are a waste of money.
07/09/26	Kimberly	60021	X				X		X		Oppose	No automatic periodic toll increases. No rate increases for Illinois resident owned non-commercial vehicles. Use increased rates for commercial vehicles, out of state vehicles, and trailers. Implement traffic law enforcement and use traffic fine revenue for road improvements and maintenance costs.
07/09/26	Rob McNeilly	60014			X		X			LESS TOLLS!!!	Oppose	You take enough of our money. Maybe try budgeting, spending and electing a little different instead of continuing to f**k up and try to fix it by taking MORE of our money. This is absolutely ridiculous. Ask fat f**k governor for the money. He has enough after using billions of taxpayer money to preserve his worthless hotels.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/09/26	Frank	60099				X	X			Cheaper tolls	Oppose	Hosting public hearings and seeking feedback is just lip service and smoke and mirrors. You don't care what the public says or wants. You have already decided exactly what you want and what you are going to do.
07/09/26	Jaquelyne Smith	60175				X	X			LESS COSTS OF TOLLS	Oppose	Thieving politicians stealing more from commuters!!!! Politicians get driven around! Politicians don't have to pay tolls! No more tolls!!! They were originally supposed to be temporary!!! Taxes pay for roads and construction!!!
07/09/26	Haley O'Leary	60123	X				X	X			Oppose	Tolls are already high enough. The tollway is fast and well maintained. Let's just maintain without making too many more changes.
07/09/26	KEN RIGAN	60447-9917			X	X				Less delays and current construction projects and proper management of these projects. To not be extended or go over budget.	Oppose	If projects were properly designed. And properly checked. And contractors held. To timelines. We wouldn't have issues. Like Walsh construction being. Three years behind. On their 490 connector project.
07/09/26	Syed Hoda	60490	X		X	X					Oppose	
07/09/26	Jeff Willis	60491	X	X	X						Neutral	
07/09/26	Jon	60525			X		X			Removal of all tolls	Oppose	The tolls began in 1947 as a trial for 5 years. The 5 years are over. Remove all tolls.
07/09/26	Chet Matysek	60102	X			X	X				Oppose	
07/09/26	Darla Tolva	60103				X	X	X			Oppose	
07/09/26	Laina	60102	X		X		X				Oppose	This is too much how do you expect people to live anymore evough with the the increases
07/09/26	Ryan Burdick	60401	X	X		X					Support	
07/09/26	Amanda Hofmann	60133			X	X	X				Oppose	Already high rates. We will no longer use them if increased.
07/09/26		60062	X		X			X			Support	
07/09/26		60606			X			X		Busses on shoulder	Support	
07/09/26	Ray OConnor	60142					X		X	None, more cost money	Oppose	We are taxed too much already, people are fleeing state. Businesses are fleeing the state
07/09/26	Brittany Terry	60653	X		X		X				Oppose	We are already taxed to death in IL, to pay even more just to get to work would make me consider moving out of state.
07/09/26	Knight	60140	X				X			Safety	Oppose	We pay enough
07/09/26		60156	X	X			X				Oppose	
07/09/26	Ed Formosa	60101			X	X	X				Oppose	Proposed toll increases are completely unacceptable. Being paying high tolls for years on I-294 that has been under construction forever and traffic is horrendous. Tolls should be suspended on roads that are under construction.
07/09/26	John eickholt	48059				X	X			Stop people from speeding	Oppose	Take the time and place where toll is started then when the vehicle goes threw and ends at next toll if the vehicle gets there over the speed limit the vehicle gets a fee charged to that vehicle if not paid that vehicle will not get its plate renewed
07/09/26	Mary	60123	X		X		X				Oppose	Can't afford now
07/09/26	Margaret Brown	60152			X		X			Your potential answers are 'leading' answers that point directly to your goal of expanding the tollway.	Oppose	I'm already using local roads to avoid paying tolls when I leave my immediate area. I don't see why this is needed. We are being taxed to death in Illinois. IDOT is part of the problem. Get in touch with regular people. Who can afford this astronomical increase just to get from Marengo to Schaumburg (as one example.) No thanks. I will drive straight through the suburbs and save my hard earned money.
07/09/26	Sandra Eberly	60140	X			X	X				Oppose	Tolls are already costly. As a senior citizen it is getting difficult to keep of with how costly it is to live in Illinois. We are going to be forced to use alternative routes rather than the tollway if this increase happens. When pulling a trailer we already do that because of cost.
07/09/26		60140			X	X	X				Neutral	
07/09/26	Corey R.	60140	X		X		X				Oppose	

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/09/26	Ken Kolinen	60491				X	X			Money is applied where it should have been! Complete public audit and disclosure!e	Oppose	Prickster will just give to Chicago or spend it where it doesn't belong! he just raised rates. All this fucking asshole knows how to do is raise and invent new taxes!
07/09/26	Gladys	60120	X	X			X				Oppose	A lot of us live paycheck to paycheck. This increase in toll will affect our finances/budget and cause people to take alternative routes that will create traffic elsewhere (I.e 290)
07/09/26	Peggy Schiesher	46373	X				X		X		Oppose	It will cost me $3.00 more to travel to Wisconsin with the proposed toll hikes. Most of the tollway I drive on is new roads. Tolls should go up no more than $.20. Is the money you receive in tolls really being used in the most efficient way possible?
07/09/26	Arthur Braune	61114					X	X		Both major East-West thoroughfares are tollways - I-88 and I-90. What choice do we have as drivers?	Oppose	Do more with what you are already collecting from drivers today. Make more intelligent spending decisions.
07/09/26	Magen Berg	60140			X	X	X				Oppose	
07/09/26	Jeannette Perreault	60142	X			X	X				Oppose	Our tills are already too high. Do not raise our toll rate.
07/09/26	Wayne Kantarek	60148	X				X			Build roads more reliably and longevity.	Oppose	Stop extra spending and focus on the road maintenance only.
07/09/26	Tracy M.	60618	X			X	X				Neutral	Road road tolling on and off The Skyway. Route 90 (near Elgin and near O'Hare) has it. What not The Skyway???? PLEASE Thank you

07/09/26	Andrew Allabastro	60565			X	X	X				Oppose	
07/09/26	Suzanne Holbrook	60450	X		X		X				Support	
07/09/26		60487					X		X	Quickest Route to Destination	Oppose	If the tollway was able to be maintained without a toll increase for 10 years, then the tollway should be able to continue to be maintained with a singular toll increase. The proposal to adjust the toll every 2 years based on inflation leaves the average worker vulnerable and may cause them to be unable to continue to use the toll road to get to their place of work. With the removal of multiple oases, which I admit seem obsolete in the current era, it appears that the tollway system had decreased the cost of upkeep. A toll increase now appears to just be a method to extract more money from the already struggling people of Illinois and their out-of-state visitors.
07/09/26	Derek Corr	60559	X	X	X						Support	
07/09/26	Alexandria Arnette	60613	X		X		X				Oppose	How about we start taxing these damn millionaires and billionaires instead of yet ANOTHER increase for the working class. OPPOSE OPPOSE OPPOSE!!!!!
07/09/26	Edward Saunders	60178	X	X		X					Oppose	Enough is enough, period. Stop the increase push.
07/09/26	Sarah	60630			X		X	X			Oppose	Tolls were suppose to be temporary. This is yet another way to make the people of Illinois pay for something. Why arent we charging vehicles, like trucks or people from out of state, that use our roads more than we are charging folks who live here? Who is deciding the inflation rate increase? I dont even get a proper income inflation adjustment every year, how am I going to be able to afford to get around the city/state I live in now? We have paid 27 billion in tolls over the years. This increase is outrageous. Toll free in '73 was a lie. Illinois taxes its residents the most of all states. What happens when people leave and you have no one left to tax? I opose this increase on the residents of illinois. Please be more creative and smarter when it comes to who you are taxing in the future because peopke are leaving this state and more will follow.

07/09/26	Diana	60146		X		X	X				Oppose	WE ALREADY PAY ENOUGH!!! Stop stealing our money

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/09/26	Valerie Dohrn	60142				X	X			Stop increasing our rates all the time!!	Oppose	You would think the massive amounts of taxes we already pay on a regular basis would be enough to maintain highways. Seriously there's big taxes on gambling, alcohol, and cannabis. Not to mention property taxes, sales taxes, gas tax, etc. find a different way to get money. This is crazy. How are we one of the most heavily taxed states but yet there's never enough money. All this state does is take and increase the amount of money us regular everyday people have. Stop this madness!
07/09/26	Michael Giese	60142	X		X	X					Support	
07/09/26	Rachel Baranski	60193			X	X	X				Oppose	I think as a resident in which I use the highways to get on and off this is absurd to hike rates. I thought it was toll free by '73. So many failed promises & continually making it unaffordable to live in this state is frustrating. My pay doesn't increase enough. Gas prices have increased and that is getting hard enough to cover - now when I travel to visit my friends I either have to take side roads and spend twice as much time getting there or a ridiculous amount in tolls thanks to all the on and off ramp tolls added over the past 10-20 years. The roads aren't that great that clearly the money is helping.
07/09/26	Jim	60451			X	X	X				Oppose	Forty five cents is a hefty increase to the tolls that were suppose to be temporary back years ago. 10 cents would be sufficient
07/09/26	Vickie Hoffman	46321				X	X			Safety and flow of traffic through Oversight of 18 wheelers riding in 3rd and 4th lanes	Oppose	The 45 cents reflects a sudden 60% increase in passenger tolls, hardly a small thing, and the commercial rate increase of 30% does not seem to carry the greater burden of wear and tear that commercial vehicles cause. If the project is 15 years, then rate increases should also be spread in smaller increments across time. Are you guaranteeing the new rates will remain static for the projected 15 years to project completion? No, you're not, you're saying adjustments will now be made every other year. The "flowery" language used to describe these projects and benefits is frankly absurd and says very little to exactly how these funds are going to make my travel 60% better. I couldn't find a definition of what ATMS or ITS exactly means, and to simply say the plans will alleviate traffic is not enough for the years of slow downs and delays these projects will undoubtedly bring. If these design plans are anything like the terrible and dangerous configuration of the split going west on 80/94 into I-80 and 294, no thanks.
07/09/26	Andrew P Diamond	60140	X		X		X				Oppose	Raising toll rates is not the answer to the solution. Illinois has a long standing history of high taxes/fees with low return. Corruption and allocations need to be addressed first. Wisconsin could provide insight on how to pay for a maintain roads. They have far superior road quality and manage to do that with out tolls.
07/09/26	Jon Karn	60515	X	X	X						Support	
07/09/26	Denise Allen	60463			X		X			I would like to enjoy less construction projects which take YEARS to complete and never actually improve those highways.	Oppose	I am vehemently opposed to the recent toll 2026 toll increase! Tolls on Illinois highways are already at a premium. In the 1950s, many of you may remember that our Illinois politicians famously promised that our tolls would be temporary. There was a "toll free in '73" slogan. Tolls were to stay in place long enough to pay off the construction bonds. Well, the bonds were paid off in the early 1980s. I invite you to a drive today on Interstate 294, which has been under construction since 2020 (a ridiculous 6-year plus project). Interstate 294 is a major artery from the southwest suburbs to Chicago O'Hare Airport. It is still under construction and an absolutely nightmare to navigate! I refuse to drive it, as do others. Shame on the assembly for voting yes on this toll increase. It is just another money grab which will burden already struggling Illinois residents because of our state's high taxes. The increase is egregious. Why do Illinois politicians continue to increase taxes like this across the board? We would be better served by demanding that our Illinois politicians focus instead on balancing the budget and stopping wasteful spending across Illinois. Stop trying to generate unnecessary and extremely costly road construction jobs. I urge the assembly to reconsider and retract their toll increase. I'm sure my sentiments are shared by a majority of Illinois residents.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/09/26	Nicole Endres	60142					X	X		No Tolls! They were supposed to be temporary.	Oppose	For something that wasn't suppose to stay you're looking to "improve" it. This is just another way to gauge and tax Illinois residence that are already over taxed and one of the highest in the country. Stop! It forced me to choose 3. Affordability and no tolls is where I stand. This state is taxes enough. There's no way all that toll money is solely being used for the roads. Get your corrupt budget in order.
07/09/26	Pete Linton	60419	X				X		X		Oppose	"I am writing to express my strong opposition to the proposed toll price increases. In the current economic climate, families are already operating under extreme financial pressure due to persistent inflation. When you combine the skyrocketing prices of fuel, record-high grocery bills, and increased costs for essential services, another toll hike is not just a line-item adjustment—it is a significant blow to the household budget. Our community is being subjected to 'death by a thousand cuts,' and this move demonstrates a clear lack of understanding regarding the financial reality of the constituents you serve. I urge you to reconsider this increase and find a more sustainable way to fund infrastructure without further burdening those who can least afford it."
07/09/26	Jim M	60067	X	X	X						Support	As a member of IUOE Local 150, I support the Illinois Tollway's Driving Connections Capital Program. These investments help maintain and improve the roads and bridges that millions of people rely on every day while creating opportunities for skilled construction workers.
07/09/26	Frank M	60525	X		X		X				Support	I am proud to support the Driving Connections Capital Program. Strong infrastructure is essential to a strong economy, and this program will help ensure that Illinois remains competitive and prepared for future growth.
07/09/26	Dominic	60120	X	X	X						Support	As a Local 150 member, I know firsthand the importance of investing in transportation infrastructure. The Driving Connections Program will improve mobility, create jobs, and strengthen communities throughout northern Illinois.
07/09/26	Jose G	60630	X		X		X				Support	Infrastructure projects create family-supporting careers while delivering long-term benefits for the public. I support the Driving Connections Capital Program because it invests in both workers and the future of Illinois.
07/09/26	Johnathan B	60804	X		X			X			Support	The Tollway is a vital part of our regional economy. Continued investment through the Driving Connections Program will help support businesses, commuters, and working families across northern Illinois.
07/09/26	Emily	60131	X	X	X						Support	Safe and reliable roads do not happen by accident. They require ongoing investment and planning. I support the Driving Connections Capital Program because it helps ensure the Tollway system remains safe and efficient.
07/09/26	Tramaine B	60657	X		X	X					Support	As a skilled trades worker, I support the Driving Connections Capital Program because it creates opportunities for construction workers while improving critical public infrastructure.
07/09/26	Jordan	60620	X		X	X					Support	This program represents a smart investment in our state's future. It will strengthen transportation infrastructure, reduce congestion, and support economic growth throughout the region.
07/09/26	Craig	60139	X		X	X					Support	The projects included in Driving Connections will help modernize aging infrastructure and improve the transportation system that so many Illinois residents and businesses depend upon.
07/09/26	Charlotte M	60559	X	X		X					Support	I support the Driving Connections Program because it creates jobs, supports apprenticeship opportunities, and helps maintain the infrastructure that keeps Illinois moving.
07/09/26	Melissa	60142					X		X	Stop the increase.	Oppose	Figure out how to better allocate Illinois funding&spending. This is not right. Enough is enough already.
07/09/26	Matthew B	60609	X	X	X						Support	The Tollway connects people to jobs, businesses to customers, and communities to opportunity. Continued investment through the Driving Connections Capital Program will help keep those connections strong.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/09/26	Katie S	60043	X		X	X					Support	I'm a stay at home mom and am always lugging my kids around the state to sports, events, and to see family and friends. I use the Tollway pretty frequently and always appreciate the nicely renovated and maintained roads. I also always notice a different in traffic congestion. There seems to always be better movement on the Tollway. I think part of that is because they are always reinvesting in the system and trying to make it better. I support the new capital program.
07/09/26	Judith P	60056	X		X	X					Support	My husband is a union construction worker and has worked on numerous Tollway projects throughout his career. While I support the Driving Connections capital program because of all the local jobs it creates for my husband, his trade, and others, I also support the program because it helps our local economy by making it easier to move goods and people, which in turn helps businesses. I think investing in infrastructure is good for a lot of reasons: local construction jobs, local investment by businesses, and growing the economy. Thank you to the Tollway for continuing to look forward and update and grow our transportation systems so Illinois can thrive.
07/09/26	Butch	60440	X		X	X					Support	Every infrastructure investment creates lasting value. The Driving Connections Capital Program will improve transportation while creating careers and supporting local economies across northern Illinois.
07/09/26	Tricia	60622	X				X	X			Support	A modern transportation system benefits everyone. The Driving Connections Capital Program will improve travel, reduce delays, and help keep northern Illinois economically competitive for years to come.
07/09/26	Ryan G	60607	X	X	X						Support	The Driving Connections Capital Program is an investment in Illinois workers, businesses, and communities. Strong infrastructure supports economic opportunity and improves quality of life for everyone.
07/09/26	Margo M	60050	X		X	X					Support	I live in McHenry and have no access to the Tollway in my county. I wish the Tollway would expand to McHenry County because I always find less congestion, better road quality and maintenance, and fewer car accidents on the Tollway when I take it to visit my children who live in DuPage County. I know people are always afraid of paying more in tolls, but I think it's nice that the money from tolls goes directly back into the Tollway and long-term maintenance and necessary projects are not kicked down the road due to lack of funding. I support the Driving Connections capital program.
07/09/26	Kurt R	60176	X		X		X				Support	Supporting infrastructure means supporting the future of Illinois. I encourage the Tollway to continue investing through the Driving Connections Capital Program to keep our transportation system safe, reliable, and prepared for future growth.
07/09/26	Greg G	60101	X	X		X					Support	The Driving Connections Capital Program will improve critical infrastructure, reduce congestion, and help keep people and goods moving efficiently throughout northern Illinois. I fully support this important investment.
07/09/26	Nick M	60532	X		X	X					Support	Construction investments create lasting improvements that everyone can benefit from. I support the Driving Connections Capital Program because it strengthens our transportation network while creating quality careers.
07/09/26	Lydia S	60441	X		X	X					Support	Strong infrastructure makes our communities safer and more connected. The Driving Connections Capital Program is an important investment that will benefit workers, businesses, and travelers alike.
07/09/26	Mary T	60409	X		X		X				Support	As an Illinois resident, I support the Driving Connections Capital Program because reliable transportation is essential for families, employers, and the continued growth of our economy.
07/09/26	Kara P	60611	X	X	X						Support	The Driving Connections Capital Program demonstrates a commitment to improving mobility, supporting the workforce, and investing in infrastructure that will serve Illinois residents for decades.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/09/26	Rick	60077	X	X	X						Support	Investing in roads and bridges today helps prevent more costly repairs tomorrow. I support the Driving Connections Capital Program because it takes a responsible approach to maintaining our infrastructure.
07/09/26	Gavin P	60202	X	X	X						Support	Illinois depends on safe, efficient transportation infrastructure. The Driving Connections Capital Program will help modernize our system while creating good jobs and supporting economic growth.
07/09/26	Wendy	60527	X		X		X				Oppose	In a time when people are paying higher gas taxes in IL, and other prices are insane, we can't afford this much of an increase. It's crazy.
07/09/26	Amy Kindness	60142	X		X		X				Oppose	I will personally see an immediate 60% increase in my toll costs. I understand that periodic toll increases are necessary to maintain and improve our transportation infrastructure, and I support reasonable adjustments over time. However, a 60% increase all at once is excessive and places an unfair burden on the thousands of commuters who rely on the tollway every day. If this proposal is approved as presented, I will seriously consider using alternative routes, even if it means spending more time on the road. I can't justify absorbing such a significant increase without first exploring other options.
07/09/26	Steve	60527	X			X	X				Oppose	The tolls were supposed to end years ago!
07/09/26	Jack Taylor	60142			X		X		X		Oppose	The tolls are high enough period. Raise the tolls for commercial trucks and large vehicles which cause more damage to the roads, not small commuter cars. Find other ways to fund the maintenance.
07/09/26	Carissa	61072	X		X		X				Oppose	I oppose as the IL budget should be redone in a manner that decreases our high taxes. The amount of money that goes to Chicago vs the rest of the state is ridiculous.
07/09/26	Max Popil	60630	X		X					no tolls	Oppose	There are states with no tolls and much better roads. We need audit to find-out what's going on in IL and where money go.
07/09/26		60466	X		X		X				Oppose	Our gas prices and property taxes are high enough!!!!
07/09/26	Terria Ray	60177	X		X		X				Oppose	
07/09/26	Alexus	60120	X		X		X				Support	
07/09/26	Becky Miller	51002				X	X			No corruption	Neutral	Sounds like Illinois. Glad I live in Iowa and rarely go to Illinois anymore.
07/09/26	Chris Leone	60098	X			X	X				Oppose	As a member of IUOE Local 150, I support the Illinois Tollway's Driving Connections Capital Program. These investments help maintain and improve the roads and bridges that millions of people rely on every day while creating opportunities for skilled construction workers.
07/09/26	Brianna	60123			X	X	X				Oppose	
07/09/26	Michelle Moeller	62650	X				X		X		Oppose	
07/09/26	John Lavallee	60033	X				X		X		Support	Like the fact that the construction funds come from tolls and are a user fee! Unlike IDOT, if I don't use it, I don't pay for it.
07/09/26	Chris Leone	60098	X		X	X					Oppose	I work for K-Five Construction. I am proud to support the Driving Connections Capital Program. Strong infrastructure is essential to a strong economy, and this program will help ensure that Illinois remains competitive and prepared for future growth.
07/09/26	Karen Jefferies	60652		X	X		X				Oppose	You are not even finished with the current construction and want to add more? Finish one thing first. Same applies to all the other projects you have ongoing. Makes me want to leave Illinois permanently.
07/09/26	Gina Portschy	60126	X	X	X						Support	
07/09/26	Patrick Keller	60142	X			X	X				Oppose	The price is already too high. Why is this needed? Where is all the money going from the existing tolls? You keep raising the tolls and doing construction, explain why the existing funds can't be used for this long term plan? Stop overpaying executives and board members and put the money toward the roads.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/09/26	Jihad Abdus-Salaam	61108	X				X		X		Oppose	If you can't figure out how to make improvements with over a billion dollars in revenue already, I don't see sucking another billion out of the public is going to make anything better for us. It's just more inflation to the public. We don't get paid more for the valuable work that we do at our jobs, but year over year, we pay more for everything in life. Is the ever-increasing tension on the average American household budget sustainable? Do you care? With $1.79 billion in total revenue per year, $4.6 million per day, surely you could buy enough creativity to figure out how to make improvements to the tollway without further cost to the public. That, at least, would be impressive.
07/09/26	Pat Gilmore	60901	X				X		X		Support	Illinois residents pay significant taxes and expect safe, well-maintained roads in return. Instead, many of us are forced to drive on roads that damage our vehicles and put our safety at risk. Every time I hit another pothole, I wonder why basic road maintenance is not receiving the attention it deserves. JB's administration has a responsibility to ensure that taxpayer dollars are used effectively to maintain the state's transportation infrastructure. The current condition of many Illinois roads falls far short of that expectation. Vehicle repairs caused by neglected roads represent an unfair financial burden on hardworking families who already pay enough in taxes and fees. I also want to address the prolonged closure of the northbound Interstate 57 rest area near Mile Marker 333. For at least three years, travelers have been met with portable toilets instead of a functioning rest area. This is unacceptable. Illinois motorists, truck drivers, and visitors deserve clean, safe, permanent facilities—not what appears to be a temporary solution that has become a years-long inconvenience. If the project has been delayed, the public deserves a clear explanation. If funding, permitting, or construction issues are responsible, communicate them openly and provide a realistic timeline for completion. Taxpayers should not be left wondering why a basic public facility remains unfinished for years. Illinois can and should do better. We deserve roads that do not damage our vehicles and public facilities that are maintained and restored in a timely manner. I urge you to make infrastructure improvements, road maintenance, and the completion of long-delayed projects a top priority. The people of Illinois deserve accountability, transparency, and results.
07/09/26	Ryan R. Sinwelski	60426			X		X			use tollway funds to improve PUBLIC TRANSIT to reduce traffic	Oppose	We are already overtaxed in Illinois. Stop the increase in the toll! Instead, cut waste and divert more money to public transportation so we can rely less on automobiles.
07/09/26	Rick Sniegowski	60439	X		X	X					Support	
07/09/26	james pierzynski	60453				X	X			Affordable roads	Neutral	This should be a public voting issue with I pass holders./ the users of the tollway!
07/09/26	Joseph Hahn	60025			X	X	X				Oppose	you haven't even finished the current round of upgrades. The backups I encounter are destroying the two main reasons I take the tollway, less traffic and more predictable drive times. Traffic is tightly backed up in many areas. I travel to and the drive times very widely.
07/09/26	William R Redig Jr	61107	X		X		X				Oppose	You government leaders are worthless. How about you use the millions or billions of dollars you already collect in taxes to do this type of work to begin with. Where are all our toll dollars, intended to repair roads to begin with, going? You should all be ashamed of yourselves, especially you JB. Nothing but poor decisions and tax after tax after tax. Corrupt thieves.
07/09/26	William Mosconi	60048			X		X			No more endless construction delays	Oppose	You should not be managing the Tollway or any other business. Illinois has some of the worst roads in the nation and the highest Tolls on record. This is just one example of many as to why I am moving out of Illinois. You all seem to think there is endless money from taxpayers. YOU ARE WRONG!
07/09/26	John Nelson	60564	X		X	X					Support	I am very pleased to see the plan to index periodic toll increases to the Consumer Price Index (CPI), ensuring that purchasing power is maintained over time. This forward-thinking strategy promotes long-term financial stability and should help avoid the need for more significant, infrequent increases that require legislative approval.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/09/26	Jeff Boncosky	60047	X			X	X				Oppose	The tolls are high enough as it is with no perceived improvement in numerous years. Raising the rates is merely taking advantage of the people that need to use the toll roads as the benefit that would be gained would be minuscule to the amount of income due to the rate increase.
07/09/26	Neil	60140	X				X			None	Oppose	The tollway is a scam, it was supposed to be free after awhile. It's a road for Christ sake not the runway of an airport. The proposed increase is laughable because there was an increase not even a year ago. The app is horrible, doesn't work. Even the transponders don't work and don't track your car and end up having to get fined because you just get sent bills in the mail.
07/09/26	Steve	60655			X		X			Less tolls	Oppose	Only in illinois always raising never lowering thats the democrated way I guess can't wait to get out of this state
07/09/26	Paul Wanthal	60103	X			X	X				Oppose	The toll rates are already high. Don't give people yet another reason to leave Illinois.
07/09/26		60487	X				X			Eliminate the Tollway Authority	Oppose	When the tollway was originally built, the tolls were supposed to go away when the bonds were paid off. Guess that never happened. Get rid of government waste and paying billions to illegal aliens and you would not need these increases. Illinois is taxing everyone out of this state. Did cutting expenses ever occur to anyone? Illinois already has some of the highest gasoline taxes which are supposed to fund road construction and maintenance. The Tollway Authority is just another government agency that will do anything for self-preservation.
07/09/26	Donna Wirta	60487	X			X	X				Oppose	ABSOLUTELY NOT! Where does all the money go now?? We are ridiculously taxed for everything and no results
07/09/26	Ken	60451	X			X	X				Oppose	What happened when back in the day? It was only supposed to be for a couple of years now. It'll probably be forever. Probably pritzker idea. Get him out then, stop raising everything for people that live in illinois
07/09/26		60135					X	X		Traffic safety. Put in traffic cameras that monitor the speeds much like what Florida did years ago, or mark the time a person enters and exits the tollway and issue tickets for speeding	Oppose	Don't add another cost to those of us living in Illinois. This is effectively another tax. How about we leave rates the same for drivers with Illinois plates and raise the rates for non residents more
07/09/26	Mary Ann Cody	60611	X				X			Coordinate projects to lessen impact to the traveler's alternative routes. We are getting hit with construction from every direction we turn. Aim to get one project done ASAP, three shifts, every day. And shorten the construction zone, no need to block areas that are not going to be addressed for months...	Oppose	Balance the budget with the $ you already have. Stop raising the fees and blowing our hard-earned money.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/09/26	Nazera Chartouni	60056	X				X			While a part of affordability, no new fees	Oppose	Honestly the increase SEEMS small but for many of us it adds up quick and is another cost we have to budget in an already expensive and heavily taxed. No more add one or fees the new connections are NOT worth it
07/09/26	Mark	6043	X	X			X				Support	
07/09/26	Stephen Gaudette	60134	X	X	X						Support	
07/09/26	Scott Mack	60051	X		X		X				Oppose	STOP ROBBING US!!
07/09/26	Eric	60129	X		X		X				Oppose	Illinois has some of the highest taxes already of any state, adding higher tolls will push anyone who can leave to go.
07/09/26		60172				X	X		X		Oppose	You greedy bastards. Learn to budget. This state sucks the life out of people
07/09/26	Brian Larkin	60446					X	X	X		Oppose	What are you doing with the money you have already collected for decades ,tolls were supposed to end after it was built. We already paid for it and pay for it with every use . Give it back to the taxpayers instead of a private corporation . Thank you for asking
07/09/26	Kim Scarano	60505				X	X		X		Oppose	The state needs to live within its means. We already have the second highest gas taxes in the country and high property taxes. The gas taxes are supposed to help fund road improvements and infrastructure. People are moving out of Illinois due to everything costing way too much for the average family to afford. I am a senior on a fixed income and live alone. The state should learn to live within the budget that exists. We cannot tolerate any more additional increases! Please consider my views.
07/09/26	David Burke	60103	X		X		X				Oppose	I am writing to express my strong opposition to the proposed $.45 toll rate hike. As an Illinois driver, I find this rate increase to be an unfair and excessive financial burden on working-class families, daily commuters, and local businesses who already face a high cost of living.While the Tollway outlines ambitious infrastructure plans under the "Driving Connections" program, increasing user fees by this margin disproportionately penalizes the people who rely on these roads every day to get to work, school, and essential services. Tolls were originally presented to the public decades ago as a temporary measure to pay off construction bonds, yet drivers are continually asked to pay more to maintain the same basic infrastructure.Before asking drivers to dip deeper into their pockets, the Illinois Tollway Authority should prioritize optimizing its existing multi-billion dollar budget, curbing administrative costs, and exploring alternative, more equitable funding models. I urge the Tollway Board to reject this rate hike and seek solutions that do not penalize Illinois commuters.
07/09/26	William	60657	X				X		X		Neutral	
07/09/26	Vicki Comerford	60030	X			X	X				Oppose	The tollway wasn't built to pay for illegals. Find another way to balance the budget in IL and stop taking my money to pay to drive on the roads I paid to build. Also, there should be discounts for people who live in IL and take the tollway. People who live in IA, IN and WI should pay a higher share. If you keep increasing tolls, people like me will just stop using them, causing other issues.
07/09/26	Leticia Esparza	60048	X		X		X				Oppose	We already pay an enormous amount of toll to get to work and return home and roads remain the same. How is it going to help increasing the toll cost and making it more expensive for people. Adding more tollls booths will not decrease traffic, it will increase it. Tolls were meant to be used for only a short period of time 30 something years later they're still here and roads are still crappy. I myself am against this new Increase.
07/09/26	Emily	60450			X	X	X				Oppose	As a commuter who regularly commutes over 50 miles a day to get to work this is a huge additional burden. The cost of living in IL is at an all time high and now this would take even more money out of my pocket. No tollway cost increase!
07/09/26	Carmella Fauber	60502	X		X		X				Oppose	I fully understand an increase especially after 10 years, but to hit drivers with a 60% increase is just too much at once! We are 2 car household that each uses 4 tolls a day just to get back and forth to work. Currently we pay $60 a month in tolls. This increase will cost us $96 a month ! I can understand a 20% increase but 60% increase is just too much!! Please reconsider adjusting this rate .. with inflation and gas what it is people are not going to be able to get to work..

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/09/26		60107	X		X		X				Oppose	Other states have great roads without charging a dime. Figure it out
07/09/26	Spencer Frech	60558	X				X	X			Support	
07/09/26	Stanley Lowe	53132	X		X		X				Oppose	I oppose this because of the proposal it increases commercial rates by a flat 30% while increasing passenger rates by as much as 90%. The shift in toll burden from businesses to individuals is patently unfair.
07/09/26	Nancy Krull	60439			X	X	X				Oppose	The tollway was never supposed to be permanent and it's already doesn't supply the needs. I was rerouted to take Rt 53 from Schaumburg south because of traffic on the "expressway". Ridiculous and you want to charge us more money. We pay enough it property and gas taxes!!!!
07/09/26	Marty	60014	X		X		X				Oppose	STOP RUINING ILLINOIS WITH INCREASED PRICES.
07/09/26	Fontana Tony	60018-4357	X		X		X				Oppose	I remember when tolls used to be $.25 and the tollway commission told us it eventually would be eliminated but over the years all the tolls have been increased. Why do they keep lying to us? The tolls are too high as it is please lower the rates not raise them. Thank you.
07/09/26	Jeff C	60010			X	X				Not adding tolls or raising toll prices	Oppose	Weren't tolls supposed to be temporary? Why are they still here?
07/09/26	Ralph Foster	60622	X		X	X					Oppose	
07/09/26		60459			X		X			Cost	Oppose	Take More money more money from taxpayers and more FUCKEN MONEY that's all the state knows what to do effen crooks
07/09/26	Keegan Goss	60162	X		X	X					Support	
07/09/26	Josh Stell	60447	X			X	X				Oppose	Residents should not be bearing the burden of a 45c increased toll while commercial goes up less than ours. Their vehicles place significantly higher burden on the roads and their toll should go up more.
07/09/26	THOMAS LAND	60526	X		X		X				Oppose	I strongly oppose the toll increase. 45 cents per toll is excessive, especially when most routes have multiple tolls. This is going to be another burden to bear for working class families whom are being hit by record inflation and gas prices as it is.
07/09/26	Mary Kay McCann	60527			X		X			No other options available.	Oppose	Have you done ANYTHING to reduce costs? Doubtful. Your projects take YEARS to complete and the last time I was forced to drive through a construction area I got a flat tire and had to buy new. NO TO THIS. ILLINOIS NEEDS TO START RESPONSIBLE SPENDING. The citizens are not your bank. Stop it.
07/09/26	Thomas Payton	60706		X			X			Cost.	Oppose	Layoff bloated overhead employee count and cut expenses. No way you deserve automatic toll increases tied to inflation. Typical automatic tax and spend politicians. Live within your means like the rest of us.
07/09/26	Paige	60418	X			X	X				Oppose	This is way too large of an increase, it is too expensive as it is. I expect that, as always, the public will be promised a lot and delivered very little with little accountability on those who promise it.
07/09/26	Andrew Hayes	60491	X	X	X						Support	
07/09/26	JC	60142		X			X			No tolls at all	Oppose	Get rid of the tolls altogether. It's a big slush fund
07/09/26	MC	60134	X			X	X				Oppose	This is theft. Call the states that have "free ways" ask them how they do it. Stop stealing from the taxpayers.
07/09/26	Dominique Hamilton	60617	X		X		X				Oppose	
07/09/26	Suzanne Farr	60126	X				X			Safety!	Oppose	I travel I-88 both ways West and East everyday. Wouldn't it be better to put one earlier train on UP West and keep me off the road completely? My point? Less people need to be on the roads. Less commuters and less trucks. Also, more safety. A truck lane? Trucks drove unpredictably. Motor cycles weave on and out. No one heeds the speed limits. The tollways are super nice, but adding more lanes doesn't reduce traffic. They will always fill up! Have a great day. I live my I-88 but dang, if I could avoid driving 84 miles per day on I-88, I would avoid all the chances to die. That's what it feels like to drive!

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/09/26	michael kern	61111				X	X			The most direct route to where I need to go	Oppose	There is nothing wrong with the toll system as it is any changes will make it worse obviously, when you raise the rates, there will be less people on the toll road, including me I 90 has been totally repaved over the last few years limited entrance and exit is the way it has to be to keep traffic moving efficiently This is obviously nothing more an excuse to keep the toll authority in business it could be totally disbanded except for a skeleton operation, which it actually is right now except for all the big shots in the office on Ogden Avenue making huge salaries they need to be eliminated
07/09/26	Timothy Woerner	60123	X		X		X				Oppose	The State of Illinois collects plenty of taxes already, and you get tolls on top of that. You have plenty of money. $0.45 per toll works out to more than $200 per year in increased costs for me just to get to work. Operate more efficiently if you need more capital. Don't take the equivalent of 3 little league seasons for my kids out of my pocket just because you want to pay your managers six figures.
07/09/26	Kassie Saeger	53558	X		X		X				Oppose	
07/09/26	Edward Hartgraves	60140	X			X	X				Oppose	Illinois tolls prices are already to expensive. Wisconsin has no toll charges at all, yet their roads are always in great condition. Please find out how Wisconsin finances the maintenance of their roads, without road tolls!
07/09/26	Mv	60803	X		X		X				Oppose	45 cent increase is way too much.
07/09/26	Hugo Ley	60133	X		X		X				Oppose	Tolls are becoming excessive and we don't see any actual benefits. Construction is never ending and only lasts a short time once it is done before you close it down to do it over again. No accountability for the spending. More money for who/what?
07/09/26	C.Tate	60409	X				X		X		Support	I like using the tollways. I assume the increase is needed because the cost of everything is going up. However, I personally may not be able to afford to use it as much anymore. So I'll have to revert back to the "free" streets/expressway system -- adding more wear-n-tear on that end. Thank you.
07/09/26	Jeanette D	34433	X		X					Nothing	Oppose	Illinois is making new laws and rules, when is Illinois going to learn to stop. Enough of this, when are the people in office going to understand the money tree is stopping. Everyday Illinois is charging everyone more money, where is it coming from??
07/09/26	Brent Bozeman	60586	X		X	X					Support	
07/09/26	Daniel	60053	X		X		X				Oppose	Work within your budget. The fees and taxes paid by the residents are enough for everything. Misuse of funds should be made up by additional tolls.
07/09/26	Patricia Paz	60630-2609	X			X	X				Oppose	Public Comment: Opposition to Proposed Toll Rate Increases Subject: Feedback on the Proposed Driving Connections Capital Program and Toll Rate Adjustments I am writing to formally express my strong opposition to the proposed toll rate increase of approximately 45 cents per toll for passenger vehicles, the 30% increase for commercial vehicles, and the plan to tie subsequent rate hikes to the Consumer Price Index every two years. Implementing these hikes will make traveling via the Tollway system extremely expensive for regular commuters and businesses alike. Families and drivers are already stretched thin by outrageous gas prices and the general high cost of living; adding a compounding toll increase only worsens this financial burden. Instead of placing the entirety of this $26.5 billion capital program on the backs of drivers who rely on these roads daily, the state and federal governments need to step in with alternative funding structures: Local and State Revenues: The government should reallocate existing funds already collected from motorists—such as revenue from license plates and city stickers—to directly fund these infrastructure projects. Federal Allocation: The federal government should allocate a larger share of infrastructure funding to support this program rather than forcing local drivers to absorb the cost. It is already too expensive to travel and commute. I urge the Tollway Board of Directors to reject the proposed rate hikes and explore equitable, tax-based, or existing revenue funding solutions.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/09/26	Tim A French	61109	X			X	X				Oppose	The tollway was supposed to go away in 1973. Now over 50 years later its still here and has IL as the 5th most expensive toll state in the country. My suggestion is to stop wasting money and figure out how 44 other states have better roads than IL and do it with lower tolls or no tolls. Politics in IL always seem to include raising taxes, tolls, etc instead of exploring new ways to cut spending. I noticed that when roads are improved, they do a very poor job and require being redone within a few years. This should NOT be acceptable. If IL requires union road work, maybe that's the problem. Find the person who can do the best job at the best price because the people currently doing road work, are doing a very poor job and I suspect are doing it at top dollar. It almost seems fraudulent or criminal the taxes and tolls we pay and the poor return IL residents receive.
07/09/26	C	61008					X	X		more speed limit enforcement from police	Oppose	You collect plenty of money in tolls currently. Manage your toll income better. I do not support increasing the tolls now or adopting a formula to regularly increase the tolls over time.
07/09/26	Tom Considine	60657	X		X		X				Oppose	
07/09/26	Khwaja Ahmed	60192	X		X		X				Oppose	IL already has so many toll roads, as compared to many other states, the last thing we want is any toll increase.
07/09/26	Ken ciesla	60641	X	X			X				Oppose	The tollway was never meant to be permanent, its ridiculous that we all pay road taxes fuel taxes, The roads now run by the tollway was originally funded with federal money, the toll way was created for additional improvements never meant to be permamant. It has now became a slush fund and political jobs mechanisim. We pay enough already and the tollway should be abolished.
07/09/26		60025	X			X	X				Oppose	
07/09/26	Joyce Baumgartner	60030	X			X	X				Oppose	Other states manage just fine without all of these tolls. Always increases, do not benefit from these. Gas tax was suppose to help roads, that is still in place
07/09/26	Nicole Kaleta	60126			X	X	X				Oppose	This is just plain robbery of citizens at this point. These tollways should have been abolished completely nearly 50 years ago. I don't understand how anyone could be in favor of these huge increases.
07/09/26	Jake	60134	X		X		X				Oppose	When do the increases stop? The day you lower the fee will be the day pigs fly. You are just begging for people to find ways to work around the toll system. Shame!
07/09/26	Nancy	60102	X			X	X				Oppose	I am tired of funding everything for this state. While I love living here and generally have few complaints, I cannot understand why we keep having to pay more in taxes and fees than many other states. Where are the funds from the online gambling, marijuana sales, lottery sales all going? We're constantly being asked to pay more in taxes for schools, roads, pensions, etc. It appears to me that the more we give the state, the more they spend and don't look out for the residents. We are not an unlimited source of funding - please learn to stop wasting our hard earned money - I'm so tired of this. Please be responsible in the offices you are elected to.
07/09/26	Katherine Scott	61114					X	X	X		Oppose	Illinois tolls are terrible. So many states have freeways which is so nice. They’re not so deep in corruption so that taxpayers aren’t burdened by the gargantuan amount of it. Please start looking out for the taxpayers. It’s why so many people are moving out of Illinois.
07/09/26	William Perakis	60914	X			X	X				Oppose	When the tollway began in the 1970's, it was sold to the public as temporary. Instead funding for the roads was diverted similar to many other programs such as the Illinois lottery and casino profits. Between property taxes, sales taxes, tolls, taxes on license and registrations, supplemental taxes on alcohol and liquor I vehemently oppose any increase in tolls and vote to repeal the Illinois tollway collection altogether. Thank you.
07/09/26	Warren Gerring	60442		X			X			Lower toll prices	Oppose	People are already having a difficult time making ends meet, and now is not the time to be adding to that burden. People are losing jobs, the prices for fuel, and groceries already have us at a point where it’s difficult to pay rent, and now the price to get to a job that already doesn’t pay enough will be that much more difficult to get to. NO INCREASE!
07/09/26	Robert Silva	60803		X		X	X				Oppose	I will stop using Toll road with a cost increase. Illinois is bleeding the residents dry.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/09/26	Dana sanzeri	60103			X		X			No more tollways. Toll free in 73	Oppose	Please stop. The side streets are jammed because of the high cost of the tolls. We pay enough in this state. The roads budget has a surplus. It's all corrupt.
07/09/26	Craig Tenuto	60103			X	X	X				Oppose	I cannot believe how expensive you want to make driving on the toll roads. It is becoming where the majority of drivers cannot afford to drive on them. I will make sure I use as little as possible and avoid at all costs. You will not make as much as you think on them because more people will avoid the to roads. We are taxed on EVERYTHING in this state. This is the last straw
07/09/26	Hendryk Rieck	60174			X	X	X				Oppose	In the present, the time savings when using the tollway during peak hours are minimal. I often feel like I'm paying to save 5min at best. When heading into the city, it usually feels like a parking fee before arriving. In my opinion, there is no justification for a rate increase and to open the door to do this every few years. As self-stated, operations have been fine without any adjustments for more than a decade. A functioning road system is a basic that should be covered through taxes without additional fees to begin with.
07/09/26	Teri Uhlean	60487	X		X		X				Oppose	They are already too expensive. I avoid them when possible but it also increases my travel time. Sometimes you can't avoid them and it's just too expensive. Also, my spouse needs to drive it daily now that his job moved locations and it's expensive & it's still a long commute. And to add insult to injury you want to add automatic increases. I dont get automatic increases in my paycheck and most people do not. If I did I wouldn't want it eaten up by more tolls!! And the increase to support more jobs is insulting to everyone that has to pay constantly for your union support.
07/09/26	Thomas Losiniecki	60511	X				X			well DESIGNED roads	Oppose	A 60% increase in tolls is excessive. The fact that "tolls haven't increased in a decade" is not a justification. A lower request and a more detailed reasoning on the use of the funds would be better served. The prior increase was meant to cover all the extra costs for extensive upgrades to the system, and yet somehow those upgrades don't seem to be lasting as long as they should. Or there's a great deal of "wouldn't it be great if..." planning going on here. The rate is too much and needs to be reduced. I would expect no more than $0.15 base and then every other year based on inflation.
07/09/26	Keith Kolar	60189	X	X						See comments on sound barriers	Oppose	I'm old enough to recall IL Tollway tolls were to expire decades ago and roadways were to be securred by the federal highway system. Years latter make work road projects continue and cozy relationships with contractors exist. I for one would like to see more accountability & financial discipline vs political entanglement. On physical fixes, the tollway should spend more on sound barriers in and along I-355 & 88 from that interchange west to Naperville Rd. Decibel levels have been off the scale since renovations were made to IL Rt 53 - Arboretum Lisle interchange years ago.
07/09/26	Chris Bradford	60188	X		X	X					Oppose	A drastic increase when we still endure the pain of elevated fuel prices and mega inflation in all parts of our lives. Then it will take years of painful construction and more commuting delays until drivers see any benefit of decreased commute times. Perhaps only increase the tolls on roads once improvements are completed...then we would be happier to pay a higher toll for a job well done on a completed project.
07/09/26	Julie Aubry	60076	X		X		X				Neutral	I'm all for innovation, but I don't think that's what's been happening or what's now being planned. Otherwise, Chicago tollways wouldn't constantly being under construction. I don't think rates should be raised if we're using the same materials and technology to build and maintain roads. It feels like wasting money without actually improving the situation.
07/09/26	A. McKay	46307			X	X	X				Oppose	With the high cost of tolls already, it is absurd to to put the cost of this project on the daily drivers vs using the high taxes already paid each month to the state. With the thousands of drivers every day on these roads, it seems illogical that costs can not already be covered with the amounts currently being collected. People use these roads to go to work to provide for their lives and families in an already unaffordable economic climate. While seemingly small, this rise in costs will only put further burden onto everyday people who are just trying to make ends meet.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/09/26	Linda Zimnicki	60169-3525			X	X	X				Oppose	Scale back the plans and live within your current budget.
07/09/26	Jeff Hicken	53575	X		X	X					Oppose	As a Wisconsin resident who frequently uses the toll roads I find them ridiculous. We don't charge you to drive on our roads! Fund your crappy roads some other way like a normal state or at least make them worth it. I'm on the Lake Express right now so I can avoid the hassle of driving through Chicago. No wonder the Bears left!
07/09/26	Rich K.	61108	X			X	X				Oppose	The state of Illinois 2027 budget deficit is projected to be $2.2 to 3 billion and is expected to increase every year. A well managed, self sustaining fiscally responsible state would have reduced spending and not relied on outside federal revenue to bail them out for unwise spending habits. Had that been done, there would have been no need to increase taxes / fees as much and or tie them to the inflation rate such as the Illinois gas tax and this outrageous Toll increase proposal. In the real world, a wise legislature would realize that you cannot continue to spend more than you have without adjusting priorities. If they somehow expect to maintain or increase that spending level and let hard working families and businesses absorb the cost of Illinois malfeasance, those that have the ability, will leave the state. Those that remain, only wish they could.
07/09/26	Anon	60515	X				X			Distance traveled + time saved compared to cost	Oppose	A flat increase to every toll accross the board is not logical at all. It should be a percentage-based increase accross the board. In addition, IPass users should still get the promised 50% discount on any increase, period. Drivers using the tollway should also not have to pay for a service they don't use. Tolls should ONLY pay for tollway, while public transportation costs should be paid for exclusively by those who use public transportation. One more thing is that such a large increase in the cost of tolls should not be done all at once. It should be increased in small increments over a period of years so that people are not deterred from using the tollway. The higher the increase, the higher the percentage of drivers that will likely choose not to use the tollway much or at all. Drivers who choose not to use the tollway will make the tollway less busy but divert traffic elsewhere. If a lot of traffic is diverted elsewhere, it will obviously make traffic worse elsewhere along with creating more wear and tear on the roads where the traffic is diverted to. If this proposal goes through, I, for one, will very rarely use the tollway. If enough people do this, the proposed price increase will not result in the amount of funding you might think it will. It will simply divert traffic and wear and tear elsewhere. The only good thing about that is the tollway would become less busy, so the people who do choose to use the tollway would be more likely to "get their moneys worth," so to speak.
07/09/26	Michelle	60442		X		X	X				Oppose	Toll road we're suppose to be temporary. Here we are with rate increases. Tolls are already to high on 355 and now you want to increase them more. No way.
07/09/26	James Karon	60189	X			X	X				Oppose	I am against giving any taxing body the ability to automatically increase taxes or tolls without public input. While I understand the need to increase this time, every other year automatic increase is reprehensible. And wondering why collar counties are paying such a big portion of the regional transportation expenses. Get fairer share of statewide revenues paid to Illinois Tollway authority.
07/09/26	Janet	60544				X	X			Stop wasting money! What do you do will ALL the money you collect DAILY! Shame on all of you	Oppose	Manage the millions of dollars you collect daily! Shame on all of you for even proposing this!
07/09/26	Gary Petracek	60457			X	X	X				Oppose	You probably really don't care, but with that ridiculous rate increase, I will not be using the tollway when you raise the rates so much !
07/09/26	Brianna W	60585	X		X		X				Oppose	Tolls are already too high right now. A 45 cent increase is out of hand. I strongly oppose the toll increase.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/09/26	G. Larson	61065	X		X		X				Oppose	What happened to the original idea that once the tollroad was paid for, it would be free. Unfortunately, an empire was built and we will always be paying for it. Now, it's another source for revenue.
07/09/26	Marc Hanger	60126	X				X		X		Neutral	While I understand the need to raise the tolls and support a one-time increase, I am not in favor of the CPI increase, as it will only cause runaway increases with no justification and lack of accountability.
07/09/26	Matthew Letourneau	60607	X		X	X					Support	
07/09/26	Douglas Comerford	60030				X	X			Speed limit is higher than surface streets	Oppose	
07/09/26	Gerard Heglin	61821		X			X		X		Oppose	Illinois has the highest taxes by far. The tollways are already to high for people, especially for people like me who are on Social Security. Does constant repairing of the expressways is ridiculous when there are better methods that are used in other countries which don't need Repairs yet the constant excuse of raising the tolls for Repairs is ridiculous instead of sitting here thinking of how to raise our tolls think of a better way to maintain the roadways that would last longer
07/09/26	Gary Jacobsen	60647	X				X			Just another way to bleed the taxpayers!!	Oppose	When I was a young boy my Dad and I went on the tollway for the 1st time, He had to stop and pay a nickel to get through the toll both. He explained why and said that those in charge told the public that as soon as the original cost of building the toll way were recovered, the roads would turn into freeways. HA,HA. another politicians bold face lie!! It is 77 years later and they are still tollways, and, in my opinion, will never turn into free ways. Just another excuse for politicians to get deeper in the the taxpayers pockets with more empty promises, Gary Jacobsen.
07/09/26	Laura	60107	X				X			CLEAN UP THE POTHOLES FIRST	Oppose	ILLINOISANS CAN'T AFFORD ANY MORE INCREASES. WE ARE ALEADY TAXED TO DEATH. WE ALL WILL BE LIVING ON THE STREETS SOON.
07/09/26	Gary Katz	60047			X		X			Safety	Oppose	The public hearings are a legally required formality. If 100% of the public opposed the proposed toll increases, they would go forward, regardless. Drivers will still suffer through the inconvenience of construction, which is worse than the traffic delays caused by doing nothing. Yes, there may be some particular bad trouble spots and bridges/ramps which require maintenance. However much of what has been proposed can be delayed or cancelled, or scaled back. And most importantly, all tolls collected must be used on the toll roads, not diverted to Chicago pubic transportation or other expenses.
07/09/26	Adam Hamiel	60119	X				X			Dismantlement	Oppose	The Illinois tollway was meant to be a temporary solution and has since been a cash grab. I oppose the 26.5 billion plan and see it as the theft that it is.
07/09/26	Stephanie Morgan	60542	X			X	X				Oppose	I don't believe that passenger vehicles should be fielding this increase at all. Keep it to commercial, the businesses use their tax magic and brute force to offset the cost anyways. For people trying to go about their days who are already hurting financially this does not make sense.
07/09/26	David Vaughn	60162	X			X	X				Oppose	How much do you need? Get your house in order first.
07/09/26	Cassie	60074	X		X		X				Oppose	I am all for better roads but the proposed increase is too much per toll. That increases a daily commute to almost $6 which is about $1,500 a year just to get to and from work. Insane.
07/09/26	Shawn	60010			X		X			More public transit, less roads.	Oppose	We were promised tolls would be eliminated in - wait for it - 1973. Yet here we are over 50 years later and we're still paying them. Say no to additional fees, and how about a refund for everything we paid post-1973? Your inept mismanagement of funds is no excuse to extract more from us.
07/09/26	Jennifer Carlson	60014	X		X		X				Oppose	Do not raise tolls. The money already collected needs to be better managed.
07/09/26	Eric Canales	60646	X				X			Price	Oppose	We've already paid for these roads 1000 times over. Get rid of the tollways. We don't need ISHTA.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/09/26	DT	60563			X	X	X				Oppose	Compared to so many other states, we pay far too much already for tolls when there is constant long term construction resulting in delays and lack of affordable car ownership anyway, including cost of license plate renewal. It should NOT be this expensive to own a car and travel within the state. I fully support infrastructure maintenance but when it comes to the costs falling on residents that have already been paying far too much so long anyway, there needs to be a better solution. With the cost of everything increasing already with no time frame of it balancing out, this is not the time, and I hope Illinois recognizes what it's doing to its residents and how many are leaving due to these random increases.
07/09/26	Bryan Todd	69136	X			X	X				Oppose	Whether it's our real estate taxes, the gas tax, or another toll increase. Illinois is constantly dipping into the well to collect extra funds. Everyone knows it's a black hole and what goes in never returns, it's time to tighten your belts, end waste, and find a way to live within your means. The well has run dry, stop dipping!!
07/09/26		60143				X	X			Less stupid drivers on their phones.	Oppose	Originally, toll roads were supposed to help cover the cost of building the road. Now it's a profit generator. We're being hit with enough taxes in Illinois. Enough is enough.
07/09/26	Dan Vallaro	60555				X	X			Safety is #1	Oppose	My income cannot keep up with all of this. Wasn't the tollway supposed to be temporary when it was first unveiled?
07/09/26		60015	X		X		X				Oppose	Are you crazy? The continued price increases are getting out of control. The toll roads are not well maintained, projects do not get finished on time or in a timely manner. Get your house clean before you raise rates on everyday working people. Absolute none sense
07/09/26	Anantha C	60503	X			X	X				Oppose	The said increase by 45 cents is way too high per toll. While a nominal increase of 15 to 20 cents per toll makes sense the drastic increase will create a financial strain on drivers.
07/09/26	Maisie S	60110	X		X		X				Oppose	Tolls are already so expensive. I do not think they should increase at this time especially by .45 PER TOLL!! That is a little ridiculous. Everything else is so expensive, this is the last thing that should happen.
07/09/26	Michael Zolvinski	60440	X			X		X			Support	No one wants toll increases, but improvements are needed and provide value to the greater community.
07/09/26	B.	60120	X				X			For the tollway to vanish like it was supposed to decades ago.	Oppose	The fact that Illinois tollway has the balls to propose an increase in tolls to the residents of Illinois when the tollway was supposed to be a temporary placement is laughable. The amount of corruption and bullshit in this state continues to grow and this is just another example. With the amount of money created from the tollway currently one would think that they would be maintained and in good standing condition however this is not the case. It is amazing that people pull the wool over their eyes to the corrupt agencies such as the tollway.
07/09/26	Jim Bellavia	60142	X				X			More police to monitor reckless drivers	Oppose	Better budgeting of all the money taken in from the tolls. Eliminate wasteful spending
07/09/26	John	60706	X		X	X					Oppose	I think we overpaid, money should be spent well on specific projects, where will be time schedule instead open construction and stay there forever, allow more companies to bid without favoring other
07/09/26	David	60467	X		X		X				Oppose	The 45 cents increase for passenger vehicles ranges from a 30% increase for the highest existing tolls (from what I can tell $1.50) to 150% increase for the lowest existing tolls (from what I can tell $0.30). Unfortunately, the money collected from tolls is used other than maintaining our roads. The toll money should only be used for road maintenance. If there is excess money, then reduce the tolls.
07/09/26	Tony P.	60137				X	X			Affordability again	Oppose	Raising the toll and then building in an "inflation adjustment" is theft. OPPOSE.
07/09/26	Noah	60030			X	X	X				Oppose	
07/09/26	Douglas Lawson	60073	X				X			Better safety (i.e. law enforcement)	Neutral	Tolls keep going up, but results seem negligible. Improvement projects take forever. Lighting (if present) is often not working. Signage is often confusing or insufficient. Speeding and reckless driving is rampant, with little law enforcement. Driving the tollways is something I try to avoid because it's not easy or enjoyable.
07/09/26	Ann Loftus	60418	X		X		X				Oppose	That increase is way too steep!

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/09/26	Slor Slorinsky	60156	X			X	X				Oppose	Not one more dime should be spent until a full review and audit of the administrative costs of the Tollway system is reviewed. This is getting ridiculous.
07/09/26	Jenni Winterland	61015	X			X	X				Oppose	Tollways were meant to be temporary yet here we are, still paying for roads that are never repaired! Another thing for Pritzger to take our hard earned money and receive nothing in return!!
07/09/26	James allen II	60442	X			X	X				Oppose	With governor pritzker sucking the life out of the rest of the state to fund cook county, we can not afford more road tax knowing 85% is getting funneled to chicago
07/09/26	S Johnson	60614	X				X			Low toll fees.	Oppose	I'm not for increasing costs for Illinoisans. The toll charges are already high. Illinoisans are strapped with the highest property taxes in the entire USA. Chicago has a 10.25% sales tax, big gas tax, various Uber fees/taxes, cable TV taxes, estate tax, and on and on. Governor Pritzker has signed into law automatic increases in fuel and other taxes -- a quiet way of burdening citizens with less bad press for him and the other politicians. So no, I am not in favor of any increase in tolls (and I read all of the "benefits" this huge spending will have). Thank you.
07/09/26		60526			X	X	X				Oppose	Continuous development has only resulted in increased traffic congestion, road accidents and additional toll costs. Use the funds for mass transit improvements instead.
07/09/26	Margaret	60154	X			X				Safety	Neutral	I am all about improving the roads and creating better infrastructure. I am glad to see that we are working on that. I think that $.45 per toll is a lot for a family of someone who has to drive regularly into the city. Depending on what the burden is, it could increase their commuting cost tremendously. I would like to see more of the burden placed on the corporations that transport their goods so that the cost is distributed more evenly. Let's go back to taxing corporations instead of the little people. I know that they will only pass those costs to us, but at least it will be shared. Thank you for giving us an opportunity to voice our thoughts!
07/09/26	Rae Bolender	60085			X		X		X		Oppose	That's crazy you guys take for ever to fix something. Collect from the people that don't pay. We were told in the beginning only paying for a short time. You have signs up construction by route 176 and 90 Percent of the time know one is there . You don't need five trucks to fill a pot hole. This is insane and all the side streets will be jammed if this goes through.
07/09/26	curtis Conway	60181	X			X				Stop the speeders flying over 75 mph	Neutral	Only if needed for road improvements not salaries
07/09/26	Chris Horton	49418	X	X		X					Support	I am fine with this. Please proceed.
07/09/26	Robert Forbis	53191	X	X	X						Support	It's about time. The highways in the Chicago area are a disgrace! When you travel the world and see how other countries like Germany have perfect roads everywhere you really see how bad our roads are. We are like a third world country compared to them.
07/09/26	Michael Korhorn	60657	X		X		X				Oppose	
07/09/26	bill barry	60517	X				X		X		Oppose	I am old enough to remember that when the original tollway was built & it was said to have been paid off in full in 1973 Well he we are 53 years later & now they are asking for much much more for an even longer period of time & reports say that the tollway system has had several years of good size profits & yet they still want a huge chunk of cash & more every other year still when will this ever end Just remember that pigs get fat & hogs get slaughtered & if enough people feel the same way there might be a pretty good size BBQ with all the tollway officials being the main coarse
07/09/26		60543	X		X		X				Oppose	
07/09/26	Janine Sobin	61362			X		X	X			Oppose	If you raise it by 45% you're essentially eliminating the discount for I-Pass. I don't often use toll roads but I have the I-Pass for the cheaper rate. I'll most likely avoid toll roads in Illinois altogether if this goes through.
07/09/26	Gino Gapastione	60177	X				X		X		Oppose	Strongly oppose this proposal for 45 cent increases in passenger vehicles and 30% for commercial!! This is ridiculous and another fee imposed on Illinoisians that is unnecessary. There is little to no need from anyone I know to perform this project. Stop taking from us and simply use the tremendous amount of money collected to perform the needs of the tollways. This is ludicrous and needs to be shut down.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/09/26	Chris Matheny	60007			X	X	X				Oppose	Spending more to expand tollway infrastructure is a waste of money. More lanes means more future construction needs. It will only induce more demand, which will immediately eliminate any potential benefit from increased capacity. We should be spending more on public transportation. That would have a meaningful impact on traffic. All this will do is line the pockets of Illinois Tollway.
07/09/26	Mike Walsh	60014	X		X		X				Oppose	Another TAX increase while EVERYTHING is out of control! Gas prices, Pritzker adding more taxes, gas taxes on top of the gas tax!!! The state sucks and I can't wait to get the fuck out
07/09/26	Elle Bakke	52302	X			X	X				Oppose	The tollways have been mismanaged since its inception. The program needs to figure out ways to be sustainable without passing on costs to drivers. Tolls are already prohibitively high.
07/09/26	Mari	60634	X				X		X		Oppose	IF YOU ARE GOING TO INCREASE THE PRICE - the streets better be prestigious. More plants should be planted. More trash bins should be placed so people have a place to throw away their trash, more bus stops should have overheads. Should be obvious since rain is unpredictable. The potholes SHOULD be neatly repaired, not a hard thing to do. Construction should be done within a month or less, not that hard to do! IF THERE WILL BE AN INCREASE, MY MONEY BETTER BE PUT TO GOOD USE!
07/09/26	Matt	60538	X		X		X				Oppose	Stop taking more of my money. Stop the theft and use my money wisely. I am tired of every time I turn around to people are always asking for more money and taking it out of my pocket. Take a pay cut.
07/09/26	Charles	60564	X		X		X				Oppose	Please don't sugar coat it that you're going to improve the roads, reduce traffic, etc. Tolls are already high. You just want to waste more of our hard earned tax payers money by increasing tolls. Goodness gas prices are going down, so what does our State Government do. They increase the gas tax! Ridiculous 🤬
07/09/26	Angelina Weather	60130		X		X				I don't have an option the only express way for me to access	Oppose	Everything is already too high.
07/09/26	Robert L Derry	53590	X				X		X		Neutral	
07/09/26	Justin Hassert	60439	X	X	X						Neutral	Construction projects take too long to complete. By the time one section is finished you're starting another. I294 perfect example under construction on a yearly basis. Too much government red tape and waste.
07/09/26	James Ahlborn	60555	X	X			X				Neutral	Being a Senior Citizen and working with a fixed income, with all costs going up from medical bills to everything else, I Believe Seniors should be given a special rate for tolls. The tollway takes in more than enough money to give the Seniors a Break.
07/09/26	Jennifer Flynn	60047		X		X	X				Oppose	I can barely afford to eat and go to work now. There's no other way for me to get to work and I'm already living way outside the community work because I can't afford to live there. I'm literally going to be living in my car if you guys keep passing increases and everything it's just unsustainable.. I am already spending over half my paycheck on rent and that is with a roommate
07/09/26	Jeremy Z	60192	X			X	X				Oppose	I find it interesting that other states can do exactly what we do better and at a lower cost. the Tollway authority is a ponzi scheme!
07/09/26	Shane Workman	60050	X				X			No extortion.	Oppose	It already cost to much. Be more efficient with the funds you already collect. You would be fired and removed had you had to go by the same standards as the rest of the world. Stop sucking.
07/09/26	Jon Ryk	52227	X				X		X		Oppose	I could understand a small increase in the tolls for capital improvements. However, not the amount proposed. Maybe half that amount. Reason being is that a good portion of the already collected tolls should be allocated for that. I am also strongly opposed to an automatic increases every two years tied to the consumer price index, largely due to consumer prices being drastically increased over the last year and a half.
07/09/26	Marge	60655				X	X		X		Oppose	ABSOLUTELY NOT! That's not good to raise tools!
07/09/26	Kayla	60067			X	X	X				Oppose	Please stop raising costs. Illinois already takes enough of our taxes in every other aspect of driving. Fuel, registration, car purchase. Etc..

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/09/26	Sharon Leach	60188	X				X			an elimination of Tolls	Oppose	The Tollways were to be paid off in 1973! We the public, need a public audit of where all the money has gone and proof no fraud exists! It's time to get an efficiency expert in the Tollway offices to streamline operations and cut redundancy. If Toll booths and related infrastructure were removed, what are the savings? Why is it that other states can manage their roadways without tolls?
07/09/26	Brian Toth	60440	X		X	X					Oppose	Tollways are already congested and always under construction. Maybe spend the existing budget more efficiently, instead of reconfiguring highways to be equally unusable after redesign. An approximately 50% hike is outrageous - not even considering the additional increased every two years thereafter. One more reason to leave Illinois.
07/09/26	Heather Fagan	60103	X		X	X					Oppose	For those of us at the end of the Elgin Ohare in Hanover Park we already pay too many tolls to use a road we have used for many years. Our end got tolls before the other end was even finished. I feel there is an excess of tolls for that road. An increase would be a hardship on people who just need to get to work each day
07/09/26	Nicholas Gabriel	48093	X	X	X						Support	
07/09/26	Kris Smith	60914	X			X	X				Oppose	
07/09/26		61114	X				X			Isn't always under construction	Oppose	No automatic toll increases.
07/09/26	Shannon Schewe	60515			X		X			Should be treated just like 90 and 58. Free. Paid for by all tax payers.	Oppose	Tolls were supposed to be a temporary thing in the 70s. How is Illinois able to pay for other roads but the toll roads I pay for. I can't avoid them because they are the only way to get to Wisconsin. This is unfair. Unacceptable. And should be illegal
07/09/26	Joseph F Tonti	60108					X		X	tolls seem to be veryhigh plus waht are the Gasoline taxess for	Oppose	why is it other states don't charge as much as Illinois is it because Illinois just likes to waste money and do to the fact people are leaving the state because Illinois doesn't know how to manage income
07/09/26	Jorge	60016	X	X			X				Support	
07/09/26	Matt Palys	60156					X		X	I've answered with affordable but it won't accept my answer	Oppose	I remember being told that the tolls were to be removed once the roads were paid for. I went along with one or two of the toll increases to help maintain the roads. But it seems now that this is turned into a cash cow for everyone! Look at the fees you are charging!! It's ridiculous and you don't care!! I would love to see a boycott of the tollway system. But you can't move around northern Illinois without them. So basically you put on a mask and just rob us!! Seems like you are just theives!!!
07/09/26	Ross	60712			X		X			no toll increases	Oppose	no toll increases
07/09/26		60532			X	X	X				Support

07/09/26	Brad	60177				X	X			Construction that doesn't drag their feet	Oppose	The tolls have already increased multiple times they initially were meant to be temporary not a long term funding for Illinois it's quite ridiculous the cost to take the toll roads state and local taxes are enough as it is
07/09/26	Jeremy	60074				X	X			Less tolls	Oppose	Stop raising toll prices. Tolls were supposed to be temporary and instead you keep adding cost for little reward. Enough is enough.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/09/26	Justin Hesek	60148	X				X			Waste. You repair roads with inferior products compared to the rest of the world and your repairs ensure headcount. Tolls should have been abolished ages ago as was promised. Do better Illinois.	Oppose	You'll waste so much time and money. Your repairs of patch work not tamped damages vehicles. This entire organization needs auditing.
07/09/26	Cem	60202	X		X			X			Support	Raise the tolls even more to encourage more public transportation instead.
07/09/26	Javier	60652			X		X		X		Oppose	Tolls are privately owned, how about the greedy investors cap their profits in order to help build the roads. Greed is ruining this country, look at who sits in the White House. I'm tired of the government and its programs milking us for every last cent. You have enough money already.
07/09/26	Patterson	49002	X			X			X		Support	We appreciate the tollway and support the increase
07/09/26	Jim	54501	X		X		X				Oppose	Get the hell Out of here with 45 cent increases. Why's the consumer funding this. Fund it some other way.
07/09/26	Artur Sciborek	60031	X			X	X				Oppose	Commercial vehicles already pay thousands of dollars in tollways. Increase of 30% will result result in business going elsewhere people moving out of state and in results more taxes and more fees because you have poor spending habits and everything is pushed onto the people everything and everyone has its limit that's why we pick people we leave the state and you will increase more taxes and fees that will result in more people living the state it's a deadly spiral people with common sense would never do allow their State.
07/09/26	Eamonn O'Connor	60646	X		X		X				Oppose	One simple question: Why does everything seem to be going up in costs these days and with no end in sight? Additionally, "The Tollway is proposing to adjust rates in accordance with the Consumer Price Index every other year" is ridiculous. I oppose the increased toll rate proposal.
07/09/26		60164	X				X		X		Oppose	
07/09/26	Erick	60025	X		X		X				Oppose	
07/09/26	Danett Martinez	60457	X				X	X			Oppose	Please don't raise toll prices

07/09/26	john wood	60137	X			X	X				Oppose	Keep the tolls down!
07/09/26	Walt Sandine	60516	X				X			Additional Tollways to the west and south and those areas continue to grow!	Neutral	There seems to be a growing administrative structure and committees, which can add significant costs and overhead!
07/09/26	Nichole Meister	61108	X		X		X				Oppose	With an increase in pricing on everything else, this is not necessarily a good time to increase this. Roads are getting what they are getting when it's convenient for whomever to decide to do it. I'm against it.
07/09/26		60439			X	X	X				Oppose	The price of traveling the tollways in Illinois are astronomical and are not worth any quicker route. The recent hike caused my family to only use the toll when necessary and any additional increase will stop my use completely.
07/09/26		60563					X		X	Zero cost tolls	Oppose	Illinois families need LOWER costs. Illinois families need costs that remain low and do NOT increase every year thru CPI indefinitely!

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/09/26	Madison Foley	60618			X		X			Not getting backed up at toll booth	Oppose	I strongly oppose the toll road increase. The state of Illinois needs to learn how to manage their money better. We already have the highest property tax rate in the country and pay absurd amount of sales tax. The continued tax increases is what will drive people out of Illinois, including my family and I.
07/09/26	Cole Demet	60544			X	X	X				Oppose	WE PAY ENOUGH.
07/09/26	Monica Fazekas	60056					X		X	Minimal construction Finish the current projects	Oppose	I am not interested in paying more fees nor increase cost to use the roads that should be free in the first place." The answer is not to continue to use the tax payers as an unlimited revenue source but to be fiscally responsible. Work on the projects and infrastructure as the funding supports but I am not interested in paying more. The roads are constantly under construction with minimal work done year over year. Finish the projects you have already started which will help traffic flow. Keeping the status quo will not hinder my ability to reach my destinations. Vote NO!
07/09/26		60656	X			X	X				Oppose	That increase is ridiculous, it averages about a 50% increase! And then you propose ongoing CPI increases. It's bad enough the system no longer posts plaza toll rates but now you will arbitrarily raise rates without the average Joe being aware of such. I would think a 10% increase would be more acceptable. And what does "around 45 cents" really mean since current plaza rates vary.
07/09/26	Joanne Rancich	60540				X	X		X		Oppose	The Tollway was designed to be paid off in 1973. That's 53 additional years off collecting tolls. I appreciate roads being well maintained, but when I am driving the toll roads, there are numerous construction zones where nothing is getting done. Or, in other cases, work is being done on roads that are not in need. Let's start controlling the costs involved with running the Toll Authority and open the books on revenue and expenditures.
07/09/26	Jim H	60453			X		X			ease of use, steady toll prices	Oppose	The tollway was never supposed to be permanent, now you are raising the toll prices. Completely backwards. Keep the IL Tollways affordable and usable.
07/09/26	John Q Public	60448	X		X	X					Oppose	People are struggling at the moment and jobs have not kept up with inflation. A price surge like this along with the already uncertainty to rising gas prices would crush the average commuter.
07/09/26		60601		X	X	X					Support	Happy to pay tolls as long as it means less traffic.
07/09/26	Matt wilkes	60651-2813	X			X	X				Oppose	Tolls are very high at the moment and way too many of them
07/09/26	Jesus Rodriguez	60623			X		X		X		Oppose	We already paid to much for tolls
07/09/26		60143	X			X	X				Oppose	The "Passenger toll rates will increase approximately 45 cents per toll, starting January 1, 2027." under the "Proposed Toll Rate Increase" title in the Illinois Tollway home page is incorrect/false. Upon checking the toll rates tables for all the tollways, the rate increase is 50% across all toll stations for passenger cars! It is a 50% rate increase per toll for all passenger cars, not the "approximately 45 cents" increase. Just tell the truth, don't try to hide it. I'm okay with reasonable rate increase but not okay with this much, especially for being lied to about the actual rate increase!
07/09/26	Cindy Shelton	60513			X	X	X				Oppose	When the tollway roads were built in the 1950's everyone was told the tolls would be temporary and would end in 1973. Now here we are in 2026 and still paying tolls. Why can't these roads be maintained by the Federal and/or State government instead of on the taxpayer's backs? I am a hard NO on this proposal and if it is passed it will likely result in my taking alternative routes to avoid the tolls which are already way too steep in my opinion.
07/09/26	Rich Homburger	60630		X	X		X				Oppose	At over $8 I try to avoid the anyway at all costs. Add in the Indiana tolls... will drive an extra 25 minutes to not pay $30 one way to MI. It's literally highway robbery. Maybe manage your budgets better.
07/09/26	Jackyn	60181				X	X			Nothing stop increasing	Oppose	Don't want anymore raises. Illinois is so expensive as it is already. Stop raising!!! Can't afford anymore!
07/09/26	Scott Payan	60641	X				X		X		Oppose	Terrible roads, awful transponders . Constant overcharging with bad website/apps as well as customer service that isn't helpful. How can you justify raising prices again when last time you raised them the public saw no difference.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/09/26	Linda Hadley	60050			X	X	X				Oppose	Is it absolutely necessary to raise tolls on the tollway period is there a deficit in the tollway system currently? and are we overpaying administrators and other people that work and the toll system , can we decrease that amount of money to fund the future? The tall way system was supposed to be completely done by nineteen seventy three , with no more tolls , what happened with that deal?
07/09/26	Jeff Kachlik	60115-5329	X						X	Really only have to drive on a few of them and all I have to pay to use them	Oppose	Enough is enough, neighboring state roads are so much better without paying a toll. Use some of the 3 billion in the fund for once. Darrin Bailey has a great plan.....let's us it and quit with the over taxing of the Illinois people
07/09/26	Janusz Laba	60455	X		X		X				Oppose	We already paying well too much in tolls on the top of other taxes(Federal, Illinois, property , county , city and thousands more taxes). I am not getting any pay raise at my work , money is worth less every year and I have to work longer to stay afloat. No, no no!!!!
07/09/26	John	60451			X		X			Fastest route	Neutral	Supposed to been paid for a long time ago tolls were supposed to be removed
07/09/26	NN	60177	X		X		X				Oppose	If tolls go up might as well not use the tollway and just clog up arterial streets.
07/09/26	S. Jones	60586				X	X			Untolled well maintained roads, which MANY States manage to provide	Oppose	Ridiculous. Because tolls are so closely spaced, and often commuters pay 2+ tolls EACH WAY, they are soon to be burdened with an additional $2 EACH WORK DAY for even the "minor" toll collection of 2 "booths" each way, if this passes. And of course it will. That's what Illinois government does. The Lie of "temporary" from decades ago is still remembered... This is yet ONE MORE TAXATION upon the people. Shameful. Roads have stunk many times, for YEARS, while drivers still are paying for the "privilege" of driving on them -- also while still paying the heftiest gas taxes, property taxes, sales taxes in the 48 contiguous states. God have mercy on the greedy cold souls that run this state.
07/09/26	John Tabares	60617	X		X		X				Oppose	Absolutely not. The Illinois state plate fee was doubled in 2019. It went from $98 to $151. That was supposed to pay for infrastructure improvements & repairs. 45 billion dollars! Where is the money?????
07/09/26	Andrew Barys	60077	X				X			Safety from crazy and unlawful drivers. We need more police presence and enforcement of the laws. None of these proposed increases say anything about state police funding. Of course all your hear about from the left is "defund the police".	Oppose	I've been driving Illinois tollways since 1969. When the tollway system was originally created we were told the tolls were temporary. They were not. It was a lie. We were told again the tolls would end sometime in the 70's. Lie. Now the tolls are going up again and I remember when they went up last time. Yes, it's been a while, but every time they go up, the roads do not improve. I have driven all over this great country of ours and I have to say, Illinois roads are one of the worst. The money goes to the CTA or elsewhere, NOT to where it's promised. We are one of the highest taxed residents in the USA and now Springfield wants more of our hard earned money. I'm confident most of these tolls will not go to fixing the roadways no matter what Springfield claims.
07/09/26	Linda White	61108	X		X		X				Oppose	So sick of everything in this state increasing. Not using tolls anymore 😖 😖 😖 😖
07/09/26	Meg	60068	X		X		X				Oppose	Already pay an arm and a leg for tolls. Roads are constantly being worked on and not completed. I will avoid the tolls at all costs if this passes
07/09/26	Janice Sanes	60048	X				X		X		Oppose	When the tollway was built the promise was that the tolls would end in so many years. That has not happened. For those who use the tollway everyday, the tolls become very expensive. I don't see the necessity for raising the tolls based on the projects and the impact on commuters would be prohibitive.
07/09/26	Bill Stack	60193					X		X	Snow removal	Oppose	Toll free by 73.The toll fees should never have gone to fund anything but the tollway

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/09/26	Theodore	60505		X			X		X		Oppose	Charging me to drive on a road is fucking crazy and then saying it's going to be safer but only if you pay more is even crazier...not one person hey I'd need to get to there faster maybe if I paid an extra 45 cents they build another road/exit with an extra tollway I'd rather drive farther then to pay more Fuck ya
07/09/26	Denise Anderson	61107	X		X	X					Oppose	Tolls are already high priced and raising them will only make people use the local roads more which means more wear and tear on the local non-toll roads and more traffic. People who have to use highways with tolls to get to and from work use up plenty of $'s on those tolls already. I cannot imagine that maintenance on the roads is more than what $'s are coming in already.
07/09/26		60459	X		X		X				Oppose	Drivers are already hit with skyrocketing gas prices. This makes commuting to work more of a financial burden to employees. Income isn't increasing at the same rate as expenses and it's leaving people in tough positions to put food on their tables and a roof over their heads. Illinois residents already pay high taxes and tolls should be included in that. If you want to take people who live out of state to use Illinois roads, then do that, but protect your own residents by not raising another expense.
07/09/26	Alex Vargas	60559	X		X		X				Neutral	
07/09/26	Forrest Bittner Chambless	60510	X		X		X				Oppose	Especially in these times of high inflation and constrained paychecks for 60% of the people using the tollways, any increase should be absolutely limited to 10% or less, preferably 7%. It is unconscionable to impose anything more than that right now. Focus on reconstructing failing structures. Get federal & state funds to do any improving.
07/09/26	James Roesel	60417	X				X			Competent agency management	Oppose	I understand that the value of the dollar is being steadily reduced, driving up apparent costs. However, the magnitude of the increase in this proposal indicates that the toll authority suffers from a disease that is almost universal in Illinois. Kick the cost of not properly managing finances down the road for decades and then compensate for past mismanagement by significantly raising the cost to citizens who are facing the same cost squeeze in every area of their lives. Unconscionable! I am particularly opposed to the proposed indexed automatic increase in tolls. Automatic increases enable continued incompetence and mismanagement without accountability.
07/09/26		60004	X		X		X				Oppose	no more toll increases, no noticeable improvements have been made, enough is enough, manage the money better
07/09/26		60538			X	X	X				Oppose	
07/09/26	Katie W	60015				X	X			Signage	Oppose	I don't mind toll increases but the increase amount proposed is INSANE
07/09/26	Jennifer braun	60169			X		X			Stop taking our money	Oppose	Increasing tolls by 50% is an unacceptable amount. Citizens are taxed to death for everything in this state. Figure out your budget like I have to do within my household to cover the expenses as I don't get a raise Of 50% From my employer. Stop nickel and diming the citizens of this state. A toll charge of almost 4 bucks to travel on i90 is pathetic. Then to even propose another increase based on inflation. Does your paycheck increase due to inflation? Mine doesn't. Do better for the people of this state!!!

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/09/26	James Harrell	61802				X	X			Not spending more money when I have to go back and forth to chicago	Oppose	I know we are pretending to hear public comments but you guys are gonna do this anyway because you got payed off by the private toll company, but this is proposal gives a blank check to raise tolls every 2 years for no reason (we had 12 years of "price stability" for people to plan around when you weren't jacking rates up every other year), it will not improve road conditions because all your toll roads are under constant construction anyway and its just a dozen miles of cones for 2 years for them to fix 1 pothole. An extra "just 45 cents" is not the true increase because on the toll road you have to go thru about 4 or 5 of them to actually get anywhere so really its an extra ~$2 per trip, really cool you guys wanna charge us an extra half gallon of gas per trip to chicagoland. How about make the commercial vehicles take the entirety of the toll increase? since they are the ones causing the overwhelming majority of actual wear and tear to the road and the way this proposal is now worded for the lower fare tolls adding 0.45 cents represents a 50% increase in tolls (while commercial only gets 30%). The deception in representing the rate increase 2 different ways (dollar amount for normal people vs percentage for commercial) is painfully obvious, everyone knows what you are doing. Also very cute forcing you to pick 3 "most important factors" when all of the options except other and affordability are +1 point to the pro-rate hike agenda, nice way to manufacture consent and public support.
07/09/26	sebastian perna	60564	X		X		X				Oppose	Tolls high enough already.
07/09/26	John Whalen	61008	X		X		X				Oppose	Don't taxes already go to the highway? Weren't tolls supposed to end, but they were kept because of the income?
07/09/26	Jamie Pearlstein-Marion	60002			X		X			Not raising tolls	Oppose	Do not raise the tolls. They already cost too much. I will absolutely avoid the tollway if you raise the tolls. Better manage the money already collected.
07/09/26	RS Ryan	53534				X	X			less construction. build to last longer	Oppose	No need to push this on consumers. Plenty of federal and state funds. That's what taxes are for.
07/09/26	Heather Dite	60641			X	X	X				Oppose	Illinois does not need another tax on everyday individuals. or more traffic. Tax the wealthy. it's already too expensive for us.
07/09/26	wanda	60459	X				X		X		Oppose	Illinois drivers pay enough in taxes. Government just keeps asking for the middle class to pay more and more. Enough already. You're driving everybody out of Illinois, including me.
07/09/26	Name	54234	X				X			Prices too high already	Oppose	This is corporate robbery and you are taxing people to death… your wording isn't genuine. The prices are already too high I will avoid take the toll road!!!
07/09/26	Jason	60185			X	X		X			Neutral	What is your problem with expanding train services in the area? Widening the highways does nothing significant and you know this because it's been done in other major metropolitan areas. Do you know what actually helps though? Expanded train service and public transportation. Why are you so against that?
07/09/26	Kurt	60187	X			X	X				Oppose	No increase. When the toll road first opened, the tolls were meant to be temporary. Then what happened? $$$$
07/09/26		60102	X	X	X						Oppose	Just stop. Find it elsewhere.
07/09/26	Matthew McCormick	60177	X			X	X				Oppose	Increase appears excessive.
07/09/26	RICHARD R ZDUNCZYK	60060	X				X		X		Oppose	It's nice to have a Cathy name to a proposal but please explain what the purpose of it is Using the illinois toll road system al I see is a reduction in rest areas and poor road conditions. Tolls have been raised before to improve things but all I see is an effort to shore up the city of Chicago's transit system without having the people who use it pay to support it . Than turning around taking road funds from the rest of the state to support a system we don't use so we can pay " our fair share ". I see the raised tolls you are asking for not going to the projects for the rest of the state but going to Chicago in an effort to buy votes by saving the failed Chicago transit system .
07/09/26	Ellen	61108	X			X	X				Oppose	Stop the frivolous spending on unions and woke projects and there will be no need to soak the hard working people and business in Illinois for the state's financial ineptitude.
07/09/26	Ray	60119	X			X	X				Oppose	If the money wasn't squandered there would be plenty to do everything.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/09/26	David Kuhnau	46033	X				X			Stop using this as the money grab	Oppose	This is nothing more than a money grab disguised as a capital campaign. The toll roads were originally designed to pay for the construction of the road. Instead, they have become money, grabbing revenue generators, which never see a decrease but only increase. The toll road system should be audited. Let's see where the real money is going.
07/09/26		60625	X		X		X				Oppose	We already PAY the highest or close to the highest in TAXES and FEES in this state. For something that SHOULD be covered in our income taxes that we pay the State, its unfortunate that this body ALONG with EVERY governmental body keeps finding ways to NOT ONLY RAISE our fees, but to make then now automatically increase every year.
07/09/26	Mr. H.	60062				X	X			tolls to high	Oppose	there shouldn't be any tolls by now !!!
07/09/26	Rob Zaremba	60005			X		X			More affordable!	Oppose	Strongly oppose. $0.45 increase per toll is absolutely ridiculous. This is already on top of our astronomical gas tax, property tax, sales tax etc. etc. You do what Illinois does best, drive (literally & figuratively) residents of Illinois out of this state!!!!!! TAX, TAX, TAX, TAX. That's all Illinois knows. Maybe cut spending?!?!?! Just a thought! Stop penalizing residents!
07/09/26	Michael Houston	60653	X		X	X					Support	
07/09/26	George Ajazi	60510	X		X		X				Oppose	The Illinois Tollway was supposed to be temporary, now we spend billions. Stop the insanity.
07/09/26	K.Brooks	60620	X		X				X		Support	I'm a veteran and like thousands of other veterans we not only travel the toll roads we helped make them safe when we served our country with labor and life. I feel all we should get a discount on the Ipass! I'm also a senior citizen and we should have a discount for the Ipass as well.Leave the rates for car/ SUV's the same for the next few years and apply the increase to commercial vehicles and campers, heavier weight vehicles. Provide onsite assistance in the Rest Stops for those who may require a safe place from the elements. I also think having a rotating staff and security guard or law enforcement on site or at least within a reasonable response time distance. These personnel should be trained in trauma and first aid thereby ensuring basic medical assistance in nearby. Lastly I am available for immediate hire!
07/09/26	Richard Bruyere	62526			X	X	X				Oppose	I have lived in Illinois most of my life. I remember when the toll roads were originally put in. It was sold as something that you would only charge for until the roads were paid for and then the tolls would go away. Now 60 years later, the tolls are higher than ever and the state can't seem to manage a budget. The taxes are out of control. I would love to vote the entire legislature out of office but in today's political world, we could end up even worse with someone like Trump. Please figure this out and become fiscally responsible instead of taking more money away from us because you can't manage a budget.
07/09/26	Lysa Mercardo	60140	X			X	X				Oppose	EVERYTHING is extremely expensive in Illinois. You keep raising costs and more people will leave Illinois!
07/09/26		60707	X		X		X				Support	
07/09/26	Jeff	60585	X		X		X				Oppose	Why is it that Illinois continues to charge excessive tolls when almost every other State you through has either no tolls at all or a flat rate fee for all tollways being used. The taxes we pay each year should more than cover any infrastructure improvements or maintenance so where is all this money going Mr JBP? This is just another reason people are moving out of Illinois in hoards.
07/09/26	Suhas Mahadik	60124	X				X			You are forcing the answers... what I care about is affordability.	Oppose	With all due respect, first show us where and how all the money is being utilized. We already pay hefty state and federal taxes, and on top of that, these tolls are an additional tax. Maybe you want to follow the southern states. They don't have any tolls.
07/09/26	Christopher Gehrich	46107	X				X			Minimal new construction. Only maintenance of existing infrastructure.	Oppose	The Illinois Tollway system is currently well established to meet the needs of drivers. Additional toll increases are not necessary.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/09/26	Debra Kleeman	60089	X				X			Quickest way between two points	Oppose	A 45 cent increase is too much. Every other year is also too much. Maybe 15 cents and every 5 years.
07/09/26	Larry	60714			X	X	X				Oppose	We are already paying for road upkeep and maintenance!
07/09/26	Edward Pacilli	60101	X				X		X		Oppose	No! When the IL tollways were originally proposed it was just supped to be until the original costs were payed off. Then that turned into a lifelong tax. Now you want to take the rails completely off and let the Tollway re-asses and raise tolls yearly ? No. Absolutely not. Here an idea, how about raise commercial tolls 50% and leave the rest of us taxpayers alone. Yeah know, all those companies you already give massive tax breaks too. Let them pay for it. We already pay the highest taxes in the nation. I don't need my daily commute to work to being even more expensive for some program that, let's honest, I'm probably going to see zero benefit from. I'm not part of the "beneficiaries" of the state of IL. It's just a supporter of it all and I'm tired of paying.
07/09/26	Richard Davis	60435				X	X			Affordability again! Lower tolls don't raise them!	Oppose	Make it work with the money you have. 294 seems like it is under constant construction and never gets any better.
07/09/26	Mr Marzano	60120			X		X			By the time you complete a project it's already obsolete pay it off and let the state take care of it	Oppose	294,390,and 490 have gone on way to long we waste so much time and fuel it's beyond ridiculous time to give it up
07/09/26	Bob	60634	X	X	X						Support	Can't wait for the Irving Park Interchange.
07/09/26	John Pentz	60630	X			X	X				Oppose	This is absurd. The proposal represents a 60% increase in toll fees. There is no commensurate increase in income. Given the current economic climate, you are insensitive to the impact on the tollway users. What can you be thinking?????
07/09/26	Joan Y Harris	60070	X		X		X				Support	Probably needs it. Way over due since 2012.
07/09/26	Tina	60177	X		X		X				Oppose	Illinois loves finding new ways to take their people's money. Nothing has improved on the tollways to increase these fees. I will continue to avoid tollways at all costs.
07/09/26	Steve	60506	X	X	X						Support	More lanes on 88
07/09/26	Arthur Noparstak	60061	X			X	X				Oppose	A 50% increase? That is ridiculous!!!!
07/09/26	Jeanne M Raczon	60194-2553				X	X			There is truly only one answer = price. There shouldn't be a requirement of 3 as it gives false data. so anything other than affordibility/price is a lie and shouldn't be counted. no one can afford the tollway anymore. it should be abolished	Oppose	This is ridiculous. More bloat to the tollway employees. You've done nothing worth anything. As soon as one part finishes, you have to go back and redo what you did. Stop the insanity. Fire everyone at the tollway and start over. The tollway wasn't supposed to be a cash cow for the state. I mean how many times has route 53 been torn up in the last 5 years... 5 .. once each year it's never ending with you. I strongly oppose raising toll rates. I will leave early and go back roads and avoid all tolls.
07/09/26	Michael	53217				X	X	X			Oppose	Tolls already impose in harmful tax on drivers who are forced to commute due to high cost of living in certain areas. Increasing the tolls would further increase that burden on lower income communities. If tolls must be raised I propose that they be increased for commercial vehicles only. If I chose to use public transportation, my commute time would be nearly triple, further, the train times and number of stops makes it entirely prohibitive some days.
07/09/26	Quinn Schwartz	60074	X			X		X			Support	If you want the roadways to be less beaten up, give people alternatives to driving.
07/09/26	Luis Chavez	60411			X		X			a	Oppose	N/A

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/09/26	james devidts	48138					X		X	Nothing no better then anywhere else for exceedingly high rates for the midwest	Oppose	30 percent increase is absurd for commercial vehicles stop using interstate commerce to fund your local roads any stretch of I 80 should be toll free as part of the federal highway system. Won't be using your roads if this is approved
07/09/26	Sarah	60406	X		X	X					Neutral	commercial vehicles should have an even larger increase than standard passenger drivers to discourage semitrucks during hours of high congestion. there's way to many semitrucks causing accidents and traffic during evening rush hour especially.
07/09/26	Prince	60618					X	X		Affordability	Oppose	I hope you're kidding
07/09/26	Dan SEDORY	60632	X			X	X				Oppose	Please don't sell this any way but a tax . You have plenty of money (spent properly) to complete any improvements you need . It's nothing more than a money grab. I oppose
07/09/26	Dave Zelasko	60046					X	X	X		Oppose	How much money do you need to get from us
07/09/26	Tan	60053	X		X	X					Oppose	Tolls are already high and many toll road and exits. Can't afford with my salary right now
07/09/26	Samaneh	60532			X	X	X				Oppose	
07/09/26	Matt Crocker	60430	X			X	X				Oppose	I believe that with the current state of the economy this will put a big burden on most working class people and cause most people to avoid using the tollway as much as possible.
07/09/26	rob goldsmith	60035	X		X		X				Oppose	just another tax, need to escape this state. dont trust the funds will be spent properly.
07/09/26		48371	X				X			Absence of construction	Oppose	Pure B.S.
07/09/26	Lori Board	46237	X			X	X				Oppose	I think this is garbage. There is always work going on so this feels like a new money grab. I can drive in other states without having such high prices. It already costs an arm and a leg to drive through and around Chicago!
07/09/26	Ronnie	60563	X				X			Less government administration and bureaucracy	Oppose	Your desire to increase costs is ill-timed. Recommend holding off until the economy stops slapping everyone in the face (cost wise). Plus, tollway costs never return to original price after improvements are made and your proposal is yet another hardship that penalizes movement to see family and friends in the chicagoland area and beyond. Consider not adding onto the pile of unsound hardships/taxes the state has become synonymous for; rather, help Illinois 'retain' residents instead of goading them to relocate. In summary, just chill for a second...consider moving forward with the proposal two or three years later than planned.
07/09/26	Louis Salgado	60647		X			X			Stop taxing me on something my taxes already payed for	Neutral	STOP TAXING THINGS THAT WHERE ALREADY PAID FOR WITH MY TAXES. Fuck you and this plan
07/09/26	Yvonne	60004	X		X		X				Oppose	
07/09/26	Will Lindberg	60013	X				X			Timely construction projects (ie: 53 and 90 area at the moment)	Oppose	You can't expect in today's economy to expect the average Illinois driver to pay an additional 45 cents per toll. I've defended the needs for tolls in the past but this is just wrong. We are all struggling to make ends meet and now my commute will not only increase costs due to rising fuel costs, but now im going to almost double my toll costs. Absolute insanity. What this will do is cause people to travel on state routes and take back roads, causing massive congestion and traffic in small towns. You're going about this the wrong way.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/09/26	Linda	60124	X				X			Proper Left Lane Usage	Oppose	I am opposed to the proposed toll increase. Illinois residents and commuters are already facing significant financial pressure from rising costs of housing, groceries, insurance, utilities, and other everyday expenses. Increasing tolls yet again places an additional burden on working families who rely on these roadways every day to get to work, school, medical appointments, and other essential activities. While I understand the goal of improving roadway infrastructure and reducing congestion, I do not believe increasing toll rates is the only or most effective solution. Many congestion issues stem from traffic flow and driver behavior rather than a lack of funding alone. Greater enforcement of existing traffic laws, particularly left-lane usage laws, could help improve traffic movement without requiring commuters to pay even more. The left lane is intended for passing, yet it is frequently occupied by vehicles traveling below the flow of traffic, creating bottlenecks and unnecessary congestion. Residents are already paying substantial tolls throughout the region, often passing through multiple toll plazas within relatively short distances. For many families, these costs add up quickly and have become a significant part of their monthly transportation expenses. The idea of paying increasingly higher tolls year after year is difficult to justify when many households are working hard just to keep up with inflation and rising living costs. Before implementing another toll increase, I encourage the Illinois Tollway to explore alternative traffic-management strategies, improve enforcement of current roadway regulations, and provide greater transparency regarding how existing toll revenue is being used and why additional increases are necessary. I respectfully urge the Illinois Tollway to reconsider this proposal and prioritize solutions that address congestion without placing additional financial strain on Illinois residents and commuters.
07/09/26	Timothy Lafond	60554	X				X			Catch reckless drivers and speeders	Oppose	The unbelievable cost over runs and delays have proven the Tollway cannot just keep asking for endless money. Stop and audit your processes and streamline to save time and user monies.
07/09/26	Dan Servi	60069	X				X			Affordability get two of my votes	Oppose	Everything is going up and people are struggling. Please scale back your proposal to keep rates the same. The toll on the roads was supposed to be temporary back when they started.
07/09/26	Mary Magnuson	60030	X	X						The toll money actually FUNDING the infrastructure and NOT unrelated pet projects	Oppose	Remember it was supposed to be temporary. There has been no accountability of toll money income and where the money has been going to. I would lije to see income expense tollway fund balance sheet
07/09/26		60532	X		X		X				Oppose	WTF all tolls were suppose to be temporary
07/09/26	SUSAN GAYLE WARSO	60025-4145	X			X	X				Oppose	We pay enough as it is. Considering we are not paying for tollway attendants, everything is digital for payments, etc it is a lot to ask in these economic times to increase tolls. We pay enough for gas and taxes. How about removing a gas tax, how about stopping with the politics involved with the bidding process for construction jobs. Its all about the favors extended to vendors and we pay for it. Figure it out another way.
07/09/26	Lynette	60636	X		X		X				Oppose	Why is it that the taxpayers are always paying for the cost of everything while the government steals all our money and gives it away? What the hell are we paying taxes for if the government doesn't fund or fix our economy or do anything about anything. Our taxes we are paying should fund this so called proposal we the people pay enough!!
07/09/26	Sarah Holic	60118			X	X	X				Oppose	If this is approved my concern is they will continue to raise them by large amounts and it will end up costing me thousands of $ to get to work but the roads will be no better and traffic will still be horrible. The money will be spend elsewhere.
07/09/26	Freedom Liberty	60187	X				X		X		Oppose	There is already TOO MANY TAXES and HIGHER COST OF LIVING IN ILLINOIS!! NO MORE HIKING FEES!! ILLINOIS GOVERMENT GIVES ALL THE MONEY (CONTRACTS)TO THEIR FRIENDS BUSINESSES AND TAKES KICKBACKS!!

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/09/26	Scott Janus	60502			X		X			Reasonable toll rates	Oppose	No increase. We can hardly afford to drive to work or other places in this economy and everyone raising prices. Illinois is one of the most taxed states. We need smaller government and less greedy politicians. Make cuts NOT raise toll rates!
07/09/26	Andy	60439	X			X	X				Oppose	Proposed increases for passenger vehicles at $0.45 while commercial vehicles at $0.30! So the public with vehicle weights 10 percent of commercial vehicles pay 1 1/2 times the rate! I strongly oppose the public subsidizing commercial entities!
07/09/26	Adrian Gurgul DDS	60192	X			X	X				Oppose	
07/09/26	Dana M Wilson	61375			X		X	X			Oppose	I truly don't get why Chicago area has to have tollways to get to many of the places people need to go I feel it is a waste of money for residents and just a way to line politicians pockets. There are no tollways down by me and the roads mainly fine to drive on and yes we have heavy traffic on the FREEWAYS and other county roads More ways for democrats to take advantage of the public
07/09/26	Loos	60137	X		X		X				Oppose	Tolls are too expensive now
07/09/26	Barb Mills	60154	X			X	X				Oppose	That increase is way too high. There are many commuters that use the tollway. 45cent increase per toll is way to much for commuters that are just making with their current saleries.
07/09/26	Roger K Luchene	46356			X		X	X			Oppose	Just another reason to Bring the Bears to Indiana, and another reason not to visit Illinois. Over taxed over charged to support a bloated put of control liberal government!!!
07/09/26	Jennifer Hanson	60103	X			X	X				Oppose	
07/09/26	Sally Scheib	60162-1213	X				X		X		Oppose	I find it difficult to support another capital fund when the tristate tollway has already been torn up for several years with no end in site. You talk about the need for more funds, but you are already costing drivers more money through time lost due to slower traffic due to construction. Having lived with the problems caused by current construction, I do not favor still more problems. Your credibility has already been compromised.
07/09/26	Erik Llewellyn	60005	X					X		Transit supportive infrastructure	Neutral	As part of Driving Connections, would encourage and support any multimodal investments, especially for transit, that can be made/accommodated as part the Tollways capital program.
07/09/26	Be gray	53222				X	X			Cheap rates	Oppose	This really feels more like a for-profit company than public roads funding
07/09/26	Michael R Sleboda	60458	X			X				less construction	Oppose	I'm neutral to opposed for the plan. You're not yet finished with the projects already started. There is a lot of work going on. I understand it takes time. Now you're considering the next large project. Will there be a time in the near future where we'll be able to travel the toll road with no construction? I live in an area right off the toll road, we have experienced local traffic disruption for a long time, and when we use the toll road, we go from construction area to construction area. It has not been pleasant at all. For once it would be great to use the toll road without the constant construction.
07/09/26	Jorge De La Vega	60639	X		X		X				Oppose	Stop raising prices or I will drive elsewhere!!!
07/09/26	Jacky Juarez	60073	X			X	X				Oppose	Tolls are expensive to begin with and now making them more expensive will put a strain on my commute. In any case charge trucks more because they damage the road the road more.
07/09/26	Colene	60068				X	X			Being able to get home and afford food to put on the table	Oppose	Please do not consider hurting your constituents again with an increase in tolls. Many/most of us are struggling to put food on the table. Again, please think of the general population and do not increase the tolls.
07/09/26	Chuck Phillips	60491			X	X	X				Oppose	In 1960 when you were building the Tri-state you promised us that the tolls would be temporary! What happened to that promise? Do your maintenance with the current tolls being received or discontinue the tollroad and apply for federal funds.
07/09/26	Mary Juns	60070				X	X			Eliminate all tolls in Illinois	Oppose	Eliminate ALL tolls in IL. Cut spending and fraud. Illinoisians are already way overtaxed on everything. This is blatant money grab & I strongly opposed it!!!!
07/09/26	Philip Kalas	60646	X				X			As usual Democratic TAXES	Oppose	You could fu d it by eliminating Democratic corruption!!!!
07/09/26	John juns	60070				X	X			Eliminate all tolls	Oppose	Eliminate all tolls in IL. We are overtaxed already & the roads are not in need of repair over & over. This is just another money grab. I OPPOSE any tolls in IL.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/09/26	Christian Thomas	60618	X		X		X				Neutral	In support of a fair increase of tollway fare. Not in support of fares going up every 2 years based on inflation. Taxpayers in this state are already burdened. A 4 or 5 year inflationary raise seems much more reasonable as the cost of living and taxes on the everyday person are going everywhere but up. While improvements and upgrades are nice, this comes at a time where more people/drivers are financially burdened than not. I support an inflationary increase starting in 2029 that is then reviewed at the very least 3-5 years.
07/09/26	Nick Schenk	60142				X	X			Less taxes and fees	Oppose	The cost to benefit ratio does not make sense.And we are looking at increased cost of living as it is transportation with gas tax hikes in illinois and there is low confidence in illinois leadership.
07/09/26	Anna	60191	X		X				X		Oppose	I already pay such high taxes it should cover my part of tollway remodeling. I say NO.
07/09/26	Megan Baum	60142	X		X		X				Oppose	We literally can't afford this. Why would you even consider doing this... we are drowning here in Chicagoland and are barely making ends meet. Please don't increase rates!
07/09/26	Suzette Padilla	61265	X				X			Free Access points	Oppose	We are already taxed for everything we earn and buy-the rich could fund it alone and still have billions to live on vs the middle class!!free
07/09/26	John starks	61072			X		X			Costs to much	Oppose	Illinois and this liberal democrats run state has taxed us so much it is becoming unaffordable for us seniors on fixed incomes.
07/09/26	Louis Simoneschi	60004	X		X		X				Neutral	Commuters already pay more than they should to travel on IL roads. The tax burden should be put entirely on the companies who actually stand to gain from using the roads. Who does more damage to the road, a 55' 18 wheeler or a Honda? Not only that but the flat rate people are charged does not account for anyone's wealth. I've had 2 flat tires this year alone from construction on 53 that costed me over $600 and you want me to pay more for the privilege to go make somebody else more money than I earn for myself. Make it make sense.
07/09/26		60950			X		X		X		Oppose	We will find a scenic route
07/09/26	Maria Issa	60162	X			X	X				Support	
07/09/26	Jim	53147	X		X	X					Neutral	
07/09/26	Mary hernandez	60124	X				X		X		Oppose	I need to use the tollway to get to work everyday. My pay does not increase but everything else does!!! Illinois drivers pay enough for the tollway!!!!!!
07/09/26	Dee	60451			X	X	X				Oppose	It's already too expensive on the toll road and with other increases to gas and taxes this is really extreme. People that need to use the toll road daily to get to work will be impacted negatively by this. It's going to contest other roadways and side street while people avoid the toll road and then you lose a ton of revenue. You'll have even less funds for maintenance if the established roads.
07/09/26	Steve Witt	60544	X			X	X				Neutral	Improvement Costs and increase in tolls seem excessive. Maybe extend some upgrades further out to stagger the increases.
07/09/26	Maura Capiak	60441-3827	X				X		X		Oppose	We are being killed in taxes already. When is enough going to be enough. This is B S
07/09/26	Mohammed muneam	60031			X	X	X				Oppose	Too expensive for normal daily use
07/09/26	ERIC MAUL	60643	X				X		X		Neutral	Extend 355 south to 57 south
07/09/26	Karen Schultz	60103	X			X	X				Oppose	Everything thing else in this state is extremely high. We pay enough taxes!!! Raising tolls is ridiculous!!
07/09/26		60089			X	X	X				Oppose	
07/09/26		60193	X		X		X				Oppose	
07/09/26		60056	X		X		X				Oppose	
07/09/26	Mark Lofquist	56623	X		X		X				Oppose	Another Illinois money pit, reason to get the h... out of Illinois
07/09/26	Scott W	60015				X	X			Cheaper tolls	Oppose	Tolls are high enough. Manage and utilize the current funds more efficiently and effectively
07/09/26	Vasia Manetas-Gouriotis	60515		X			X			Electric car superchargers	Oppose	A few years ago there was a referendum on whether or not the surplus of Toll money should be used in other parts of Illinois. It was voted down. Where did that surplus go? Also, there is a dire need for superchargers along the Tollroads. I don't see this included here. I oppose any increase in Tolls until these two points are answered. Thank you.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/09/26	James Robison	60656	X	X			X				Oppose	The Illinois tollway system was supposed to be temporary and yet here we are decades later still getting screwed by you politicians. Instead of raising toll rates you should be reducing wasteful spending and use that money to pay for better roads that last longer than a couple years and build new roads. Between the gas tax and the current toll rates you have plenty of money but bad fiscal management. I don't think putting these upgrades ln the backs of all Illinois taxpayers, rich or poor, when you mismanage my the funds is "working for the little guy." Raising taxes and tolls is never "for the little guy." I oppose these rate increases and so should you. Cut wasteful spending to get the funding you need. Be better managers and not corrupt politicians.
07/09/26	Mike Peters	61021	X		X		X				Oppose	Nothing new in IL. Pay more for less or less than nothing
07/09/26	Anonymous	60618			X	X	X				Oppose	A 45 cent increase is ridiculous. I already pay $2 per day just to get to my work and back for a total of ~$700/year in toll charges. Raising that nearly 50% is ludicrous. I will gladly stop taking the tollway altogether and add the 5 minutes to my commute in order to avoid spending over $1000/year just to drive on a road.
07/09/26	Alex Keating	60097				X	X	X			Neutral	Our communities continue to grow, but there is only so much space available for transportation infrastructure. Cars are a wonderful convenience, but other forms of travel, bikes, buses, and trains lead in terms of space efficiency, cost, and safety. I support directing funding toward these alternatives to help tip the convenience scale away from single occupancy vehicles. As the Chicago regional transit authority works to modernize CTA and Metra, drawing on lessons from regions with more successful public transit systems, this toll increase is a perfect opportunity to invest in new connections and reduce reliance on personal vehicles.
07/09/26	Paul Sierzega	60060	X	X		X					Oppose	A cap could be placed on tollway I Pass users in a full months use.
07/09/26	Mark Daszkiewicz	61310-9727				X	X			Fewer construction delays	Oppose	The tollway system was intended to be a temporary system to create the original infrastructure and then removed. The State of Illinois has mismanaged tax payer funds for generations and I see no reason to supply the state with more of my hard earned money!
07/09/26	David Klopp	60465	X		X		X				Oppose	There has been too much road construction particularly on I-294. That road has been under construction for years. I'm starting to believe it will be an ongoing construction project forever. Maintain the current roads and stop the large construction projects. The tolls are a form of taxation and we are already taxed too much in Illinois.
07/09/26	Janet Miknaitis	60126	X			X	X				Oppose	The TollRoad is already wasting the money we have given them. They were to faze out the tolls and have instead increased them time and again. Even with automated tolling which supposedly cut out a huge number of necessary toll collectors, the price still went up. Be responsible and use what you already have wisely.
07/09/26	Rita Ded	60586		X			X			You forced me to choose 3.	Oppose	Tollways were originally supposed to be temporary. Money from tolls is used to line the pockets of corrupt politicians and their pet projects, not the roads. I can't wait to move from this garbage state.
07/09/26	Tom Rottman	60656	X	X	X						Support	Safe roads should not be overlooked.
07/09/26	Anna	60618			X	X		X			Oppose	I-90 has been under construction for four years and is not letting up anytime soon. It's caused headaches throughout Chicago and the Chicagoland area. What on earth will this proposal and plan do on what is already a major multi-million construction on I-90?
07/09/26	Thomas Rottman JR.	60656	X		X			X			Support	I support the Driving Connections Program because it creates jobs,supports apprenticeships opportunities,and helps maintain the infrastructure that keeps Illinois moving.
07/09/26	Priscilla	60641	X		X		X				Oppose	With so many expenses that have risen and taxes IL residents already pay, I believe this is a burden on many residents.
07/09/26	David Frey	60124	X				X	X			Oppose	
07/09/26	John Lewis	60542	X			X	X				Oppose	

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/09/26	John Lewis	60542	X			X	X				Oppose	Our tolls are already too high. We don't need more toll roads we don't need more ramps. We don't need accessibility to buses. We're driving governor pritzker is already allotted enough money for public transportation on our gas tax. We don't need to a lot money from our tolls, that we pay to pay for that enough is enough
07/09/26	Dan O'Donovan	60565			X		X			Stop asking for more money	Oppose	STOP raising prices in IL!!!!! Before you ask for more money, present the future budget as well as the past accounting for what you have done with all the toll money over the last 10 years?
07/09/26	Paul Chris	60004	X				X			Better planned construction	Oppose	
07/09/26	Greg	54235	X				X		X		Neutral	I call BS. Claiming no rate increase in decades is not accurate, as increase of volume of vehicles consistently using toll system has increased your revenue substantially. As with all govt programs with no accountability, your costs are not monitored and fraud is inevitable and dollars are far from beneficial to any highway program. Though not living in IL, I do use your toll roads often so I do have thoughts on this matter. An increase is inevitable but an annual increase is ridiculous. Be accountable. Cut the waste. Stop lining your pockets.
07/09/26	William Brennan	60418		X	X		X				Oppose	Still under construction from last increase. Always under construction ALWAYS! Nothing has ever been improved
07/09/26	Laura Meagher	60451	X				X	X			Oppose	Illinois government is ridiculous. You guys and pritzker are crooks!
07/09/26	Janet Shy	49341	X				X		X		Oppose	While I fully understand the need to upgrade roads, I feel like I am constantly driving through constructions zones on the tollway as it is. I have to admit that I will often choose to avoid the toll road because the cost already feels like a significant amount toward my travel budget when I do make the choice to travel, which is becoming less with the cost of transportation overall.
07/09/26	Axl Sodi	60641			X	X	X				Oppose	I'm completely opposed to toll roads all together. I feel that it's a ponzi scheme for crooked politician to enrich themselves at the expense of the hard working communities. Illinois is the highest taxes state in history and this toll hike would make groceries and anything delivered to this state even more expensive as working families struggle to pay their bills. Salaries are abysmal and we can't keep up with this anymore.
07/09/26	Gaspar Castro	60634				X	X		X		Oppose	I say absolutely not to any toll increases. Everything in Illinois is increasing. 30% increase is astronomical. This will surely make it more expensive for families that commute for work. You are driving citizens out of this state with the constant mismanagement of funds. NO!
07/09/26	Anonymous	60156	X		X		X				Oppose	Noooo!!!
07/09/26	Ton Geo	60435	X				X			Less toll fees. Toll fees and admistrative fees keeps going up.	Oppose	Not good enough. Designed to fill pocket of donor and special interest group
07/09/26		60451			X	X	X				Oppose	Quit taxing Illinois citizens every chance you get. This why people keep moving out of Illinois!
07/09/26	Crystal Price	60647	X		X		X				Oppose	It’s already expensive enough with gas, now this? I just won’t take the highway as often.
07/09/26	Kim Habel	60302	X				X			LESS CONSTRUCTION!!!!!!!!!	Oppose	Gas is High, Food Cost is High…and Now you want to raise the tolls…NO THANKS-I spend 600-800 a year in tolls isn’t that enough???
07/09/26	Wanda Rottmann	60099	X				X			No tolls	Oppose	
07/09/26	Michele	60805			X		X			More police presence	Oppose	No more TAXES!!!!!! We've had enough of the increases in Illinois. No wonder people and businesses are fleeing this state in droves. Add our family to that list because we have had enough. We can not wait to get out of this state.
07/09/26	Brian Winter	60140	X		X		X				Oppose	
07/09/26		60123	X		X		X				Oppose	Its too large of an increase. Tolls were supposed to be temporary, and we already pay too much in property and sales taxes in IL.
07/09/26	Eric	61350	X		X		X				Oppose	Would only support if law prevents politicians and/or lawmakers from allocating funds away from road maintenance/Construction projects

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/09/26	Denice D Shuty	60139	X		X		X				Oppose	Although we all want better roads and less traffic, the rate of inflation over the last couple of years has left many of us cash strapped. Gas prices under Trump are at a record high, as is our national debt. Without a rise in wages, we cannot afford to increase expenses at this time. We've all had to tighten our belts and so does the State. These increases should be put off for another year and reevaluated in 2028.
07/09/26	Nick Varichak	60451-2016	X		X		X				Oppose	Mismanagement is all I can say. The toll costs are already insane. Especially 355. Completely unaffordable and clearly mismanaged if you don't end up with a massive surplus every year!! Shameful
07/09/26	Matt Furton	60093	X		X		X				Oppose	Tolls were supposed to be temporary. Don't raise tolls. Get the money from other programs. We waste billions. Cut fraud and waste. Use the savings to improve the roads.
07/09/26		60714	X		X		X				Oppose	
07/09/26	Robert Przybyla	60477	X	X	X						Oppose	In 1973 we were supposed to stop paying tolls what happened?
07/09/26	Robert Evans	60458			X		X			MoreTroopers	Oppose	This increase proposal is outrageous.
07/09/26	james tillman	61008			X		X		X		Oppose	This thing was supposed to be paid off 50 years ago. Nothing but a money grab. How come the free part of I-90 from the Wisconsin state line to Rockton Rd. is 10,000 times better than Rockton Rd. south? Just more funneling of our money, as you provide no service anymore. My vote is for Bailey just on the fact he wants to abolish the tollway.
07/09/26	Michael Lloyd	60462	X				X			Convenience	Oppose	I think it is unfair that tollway users have to face increasing tolls tied to inflation while mass transit got a bailout by taking money from the road fund and mass transit users won't have to experience fair increases tied to inflation. This is another example of how special interest groups that don't like cars or the people who drive them get their voices heard despite the vast majority of Illinoisans depend on travel by car.
07/09/26	Deandrian Dently	77338	X				X		X		Oppose	
07/09/26		60098	X			X	X				Oppose	People avoid taking the skyway because of the astronomical cost of tolls. Increasing tolls elsewhere will not help alleviate traffic, but will only put strain on families in already tight economic times. An increase of 45 cents per toll is astronomical and is not keeping pace with general inflation and wage stagnation. Our taxes are already high enough, we should not need additional revenue at this pace to provide infrastructure
07/09/26	Karla Perez	60123	X			X	X				Oppose	I need to be able to get around without breaking the bank. Between this and gas prices just going to work is becoming a significant cost.
07/09/26	ANDREW I RYOU	60016			X				X	sound wall for southof golf road in Des Plaines	Neutral	I live on 75 S EAST RIVER RD DES PLAINES IL 60016 NORTH OF GOLF RD ON I-294 INSTALLED SOUND WALL BUT SOUTH OF GOLF ON I-294 DOES NOT . I CAN NOT SLEEP BECAUSE OF TERRIBLE TRAFFIC NOISE (semi truck)
07/09/26	Birgit Gottelt	60056	X				X			No construction closures	Oppose	Tolls are already too high and I regularly take routes that avoid the tollways now. On the rare occasion that I do use the tollroads, they're so congested due to construction that I'm not receiving any value for the tolls paid. How does 15 more years of construction improve the road conditions during that time? What are you doing to reduce costs to the user and reduce expenses throughout the system? I strongly oppose toll rate increases - especially the baked-in ones tied to metrics that may or may not be reflective of economic conditions. How is this any incentive to be good stewards of revenues collected? Regular increases only lead to ballooning, out of control budgets, such as the one for the state of Illinois. IMO - there is no need for a 490 extension project.
07/09/26	Shawn Bowden	60175	X			X	X				Oppose	Budgetary mismanagement is not a reason to raise tolls, especially this progressive . Illinois tollways were supposed to be paid off 53 years ago. A ~50% jump in the price of tolls is rediculous. if Illinois roadways need more money, there is plenty of slop in the Illinois state budget for adjustments to be made in Springfield
07/09/26	Sherri Peterson	60103	X		X		X				Oppose	Too many tolls already especially on 390.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/10/26	Nick	60645			X	X				I travel on the tollway for shorter travel times versus side streets.	Oppose	The money that is being taken in as revenue is currently not being spent in a thoughtful manner due to lack of efficiency and overall project bloating. Why should I as a tollway user continue to subsidize price gouging by contractors and partners in business?
07/10/26	Patricia Allen-Stewart	61036					X	X		I would rather have my tax dollars support improved public transportation! Fossil fuel is damaging our environment and our health. We need more charging stations for electric vehicles!	Oppose	For commercial vehicles the 30% increase is too much. Fuel prices are already high, and we don't want to "drive" companies out of Illinois!
07/10/26	Jennifer Colleen Barber	60302			X	X	X				Oppose	You have been charging tolls that were supposed to stop as way of funding years ago. I have recently gotten a job that REQUIRES me to travel thru 4 tolls back and forth per day; I have no choice; its totaling 10.00 in tolls weekly. That is a lot already. The economy is already too difficult, now is NOT the time to be raising prices.
07/10/26	Rod Troutman	33573	X			X	X				Oppose	NO, NO NO to the proposed increases. We do NOT need another tax increase from the government. There are many programs you could cut to get the money your seeking to bilk from working men and women. This is an insane proposal considering the ever increasing cost of living. CUT PROGRAMS, stop the fraud, do ANYTHING you have to do but tax the citizens more.
07/10/26	German	60018			X		X			Quality Construction. Roads need to last longer.	Oppose	The Tolls are already very high and is not affordable for our daily commute. The road repairs is not good quality. The contractors should offer a warranty for the materials use.
07/10/26	Yesenia Alvarez	60192	X		X		X				Oppose	We pay enough in tolls. I usually have to pay 2-3 tolls on a commute within the local suburbs. I oppose any increases to tolls.
07/10/26		60067	X			X	X				Oppose	This is not appropriate time to increase toll prices for personal travel
07/10/26		60173	X				X		X		Oppose	Before proposing price increases what cost optimization and unnecessary wasteful expenditure has been reduced in the last 5-10 years! What are the costs saved?
07/10/26	Jay Stills	60107					X		X	less I-PASS toll fees; how about that?!	Oppose	At a time when consumer dollars are increasingly being impacted by inflation and rising costs, I-PASS has the bright idea to send Illinoisans a 'proposed' toll increase. Where is the money supposed to come from? Motorists are already burdened with increased toll fees and gas taxes. Personally, I am nearing retirement age and I am sick and tired of the money grab to drive in this state. I will not support funding a 15-year I-PASS project; it's cheaper (and smarter) to just move to another state. I do realize that I-PASS will probably not even review or consider this comment, or others expressing opposition, and will likely go forward on this 'proposed' plan, but at least my position is on record. The irony is that at the end of the 15 years, there will be another I-PASS ask for more funding on the back of Illinois motorists.
07/10/26	Robert J. Wagner	60481-9197				X	X			Less tollways like Wisconsin	Oppose	That's all this state does is tax tax tax. You know you won't use this money to repair the roads and bridges. You will once again misappropriate the money and allocate it somewhere else. In 2 years you will want to raise the taxes again.
07/10/26	Steve Oh	60185	X		X		X				Oppose	The rates are already high and the number of toll spots have increased. I don't agree with constantly hiking up the toll rates. It's going to drive more people to find non-toll roads to get where they are going.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/10/26	Mitch	53404			X	X	X				Oppose	Things are already too expensive and taxes are too high. You've removed your physical toll workers/booths to "save money". What is the point of bleeding motorists for more money when the system seems to be mismanaging their budget. The roads aren't any better than they were since the last price increase and people lost their jobs in the process.
07/10/26	Kathleen Anderson	60142	X				X			No toll	Oppose	We were told we would be "toll free in 73" 53 years later the tolls keep increasing. The state needs to do better job managing it's money!
07/10/26	RICHARD FORD	60510				X	X			No endless construction which creates endless traffic jams	Oppose	We the people are tired of the “temporary” tollway system. Numerous cities have better expressways without tolls. We already pay the highest property and gasoline taxes. We are being double taxed. If this passes we will cut our % use of the tolls by the same % as the increase. Lookout county roads...Toll traffic will be reduced becasue the poor wont be able to afford it.
07/10/26	Charles Utt	60616	X		X		X				Oppose	Hell no. We already pay excessive amounts with gas tax and current tolls. Tolls are already never ending. Fund it through existing budgets and reduce spending elsewhere. Will lead to another excuse tomorrow for further increases.
07/10/26	Marlene Vick	60644	X		X	X					Support	Other states are much more expensive than IL. I also appreciate the excellent road conditions and maintenance, especially during the winter.
07/10/26	Todd Behme	60517			X	X	X				Oppose	I strongly oppose the proposed increase. It would have a direct effect on my family, costing us possibly $3 extra per day, at least for a very short time and maybe longer. Raising toll prices is not a move to improve affordability in Illinois.
07/10/26	Kristen Ford	60510				X	X			minimize construction delays	Oppose	We pay the 3rd highest gasoline tax in the nation and only 13% of the expressways in Illinois are tollways but the tollways are all concentrated in Northern Illinois and you are therefore double taxing us. Use the $3.3 billion in the road fund to transition the tollways to freeways! We’ve had enough!
07/10/26	Kelly J Demma	46375				X	X			Safety, no illegal drivers who don't have a legal license and don't know how to speak English or read signs on the roads	Oppose	Illinois tollways (primarily in the Chicago area and northern Illinois) were established in the 1950s, with the original system opening in 1958. They were initially promoted as temporary, with a well-known promise of being removed by 1973 ("Toll free in '73"), but the authority was made permanent in 1968 and the tolls remain in place today. Key Timeline and Details1941/1953 establishment: The original Toll Highway Authority dates to 1941, but construction was delayed by WWII. In 1953, the Illinois General Assembly created the Illinois State Toll Highway Commission to borrow money (via bonds) to build highways. Tolls were intended only to repay those bonds, after which the roads would become freeways funded by gas taxes. 1958 opening: The first three major tollways (Northwest/Jane Addams, Tri-State, and East-West/Ronald Reagan) opened in 1958, forming an initial ~187-mile system. "Toll free in '73" promise: Officials, including then-Governor William Stratton, sold the tollways as temporary. The slogan referred to 1973 as the target date when bonds would be paid off and tolls removed (after roughly 15–20 years of collection, or up to ~40 years in some statements). The original bonds were eventually paid off in the early 1980s. 1968 permanence: Before the 1973 deadline, the General Assembly made the Illinois State Toll Highway Authority (ISTHA) permanent, shifting it from a temporary commission with no expectation that the roads would become free. What Happened AfterwardTolls were not removed. The system expanded (now ~294–306 miles across multiple routes), new bonds were issued for maintenance, upgrades, and expansions (e.g., major programs in the 2000s–2010s), and toll rates have increased over time. Later governors (e.g., George Ryan in 1999) discussed removing tolls, but it never happened. Current bonds extend obligations well into the future (e.g., to the 2030s) This is a common point of criticism in Illinois politics, with the tolls viewed by many as a broken promise that became a permanent revenue source (no state/federal gas taxes directly support the Tollway's operations and maintenance).

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/10/26	Steve	60431	X		X					Safety!	Oppose	Sounds like just another Illinois tax.....and you wonder why people are re-locating out of the State. How about starting out with more troopers cracking down on all the aggressive drivers!
07/10/26	Jeanine	60175	X		X					Less expensive	Neutral	Illinois is squeezing the tax payers out of the state! Always wanting more money from us. Many are moving out of the state, which leaves the remainder of us picking up the tab.
07/10/26		60020	X		X		X				Support	
07/10/26	Adam Vollmers	60544	X		X		X				Oppose	I understand the importance of financing to maintain the roads, but we have decades of experience showing that the funding is never enough, every project appears to be overbudget, while the road are constantly being worked on and traffic is always bad. Some of that is to be expected for a large urban area, but when it's every time the system is broken and we're stuck paying for it.
07/10/26		6151	X	X	X						Support	
07/10/26	Jennifer Baron	49127	X				X		X		Oppose	I will STOP using the toll way if you raise prices any further.
07/10/26		60516	X		X		X				Oppose	I particularly oppose the proposal to raise toll rates every two years. This eliminates public participation and engagement in the process for tollway improvement - similar to the process the tollway is engaging currently. These projects are intended to be funded by bonds which have fixed repayments and should not need tolls to increase biennially.
07/10/26	Kim Fako	60462	X	X			X				Oppose	Concerned about every two years adjustment based on inflation. Inflation goes up. So every two years there will be an increase. Beginning in 2029 rates would be adjusted. Is there an end date on rate adjustment? The proposal reads open. No end date.
07/10/26	Barry Pilkington	60185	X			X	X				Oppose	Vehemently opposed to any increase
07/10/26	Brittney Mallen	60174	X	X	X						Oppose	I understand the need for improvements and continued development, but it’s incredibly tone deaf to propose more fee increases when the prices of everything have gone up so high and people are struggling to stay on top of their bills. Would I be just fine with this increase? Yes. Do I know a lot of young teachers and people who couldn’t afford this? Yes. Wait until it is not added to the crippling increases we are all currently facing.
07/10/26	Carl	60559			X	X	X				Support	
07/10/26	Rod McLeod	48101	X				X			Better iPass stickers	Neutral	I live in Michigan, but travel to Illinois frequently. I used to have the iPass transponder device, and it worked 100% of the time. Ever since you switched to the small window sticker, it never works 100% of the time, I am always missing tolls from one or more tollways, I usually have four that I pass under traveling to my destination and traveling back home again. It never fails now that I am always missing 2 to 3 of them with the sticker. And I put the sticker in numerous places and it never seems to properly read it. Something needs to be improved.
07/10/26	Rich	61054	X		X		X				Oppose	Tolls are already too high. The money never seems to directly benefit Illinois drivers. Reduce government waste, overspending and fraud first. Just one more reason to leave Illinois.
07/10/26		60655	X		X		X				Support	
07/10/26	Thomas Thornton	60089	X		X	X					Support	
07/10/26	John	60510	X		X	X					Support	
07/10/26		60487	X		X		X				Oppose	
07/10/26	Jim McDonough	60515	X			X	X				Support	I recognize that improved and well maintained roads comes with a cost and if that requires a toll increase, I think it’s still a good value.
07/10/26	David Cedeño, Sr.	60647-1065	X				X		X		Oppose	The Tollway was supposed to be “free in ‘73.” Bonds were paid off in the 1980s. Instead of increasing fees that Tollway should better manage the funds that they already have.
07/10/26	Dan Weberski	60175			X		X			less costly	Oppose	I am very much against and oppose this propsed toll increase. Enough is enough, taxes, tolls and expenses in Illinois are already too high for the average citizens. This increase is unnecessary and I am strongly AGAINST any this and further toll increases.
07/10/26	Claire	60626	X			X	X				Neutral	I am primarily frustrated that these costs are being passed on to average citizens when, instead, they should be covered and supported by our already expensive tax dollars. I wish we could see more money moving from the military industrial complex into our communities.
07/10/26	Kwame Adu-Poku	60417	X	X	X						Neutral

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/10/26	Nancy Motz	61088-8637			X	X	X				Oppose	
07/10/26	Kelly	60510	X		X	X					Support	Being able to transport my family safely using tollways is very important, maintaining the state of the roads and less traffic will help ensure everyone stays safer while driving.
07/10/26	Edward Kurpieski Jr.	60192	X	X			X				Oppose	This state already collects enough taxes to pay for these improvements. Spend the money you have properly and you won't have to keep increasing pricing.
07/10/26	Joshua	60187	X				X			High cost of tolls	Oppose	Please do not increase the already crushing financial burden on working families in Illinois.
07/10/26	Jack Thomas	46375				X	X		X		Oppose	The tolls were supposed to be gone once the initial investment was paid off. A 45 cent increase isn't much, but I feel I'm getting nickel and dimed to death. My main use of the toll road is to get to Midway from Indiana to serve with Honor flight. This increase will make it more difficult for me, a senior citizen on a fixed income, to support our Veterans.
07/10/26	Cathy Mekel	60074			X	X	X				Oppose	They are charging way too much now! I don't know of any tollways that charge as much.
07/10/26	John Jones	60403	X		X		X				Oppose	The Illinois toll system takes in 1.4 to 1.7 billion dollars per year already. I'm 67 years of age. I 294 has been under construction since I was a young man. Raising tolls is not going to help alleviate more traffic thru specific projects. The real task at hand is the quality control on the contracts doled out to fix our roads and getting them done on time.
07/10/26	Mario Gracia	60452			X	X	X				Oppose	Toll prices are already expensive
07/10/26	Denning, Gene	60477				X	X		X		Oppose	This is a joke. Just take our money and it goes to the scam politicians. Construction projects by my house ... sit their literally for weeks at a time... with not a single worker around.
07/10/26	Tobin Carol	60655	X				X		X		Oppose	All of you need to tighten your and stop all your spending!!
07/10/26	Maame Afua Poku	60449	X		X		X				Neutral	
07/10/26	Tara Walsh	60561	X		X		X				Support	
07/10/26	JoAnn	60439	X				X		X		Oppose	If you have to raise passenger car rates do not go more than 20 cents per toll especially if you r raising the cost every other year. Money is put into road accounts then used for other items. You are running a business and you need to start balancing the budget. If you do not have money for social items then don't spend it!
07/10/26	Sindy Micho	61111	X				X		X		Oppose	I don't mind an increase every few years of 5-10 cents, but 45 cents is ridiculous! Remember, the tollway was initially supposed to be temporary... Also remember the average Illinoisian's income. They would like to visit loves ones without sacrificing their hard-earned income.
07/10/26	Sharon Kukis	60514	X		X		X				Oppose	A better alternative would be to start collecting from those that don't have I Pass and don't bother to pay the tolls. An increase of the suggested amount will cause me to use the tollway less.
07/10/26	Mike Bang	60510	X		X	X					Oppose	We already pay some of the highest gas taxes in the country. You should not be increasing tolls while the governor is sweeping money from the road fund to bail out a failing mass transit system in Chicago.
07/10/26	John Q Public	61008	X			X	X				Oppose	The Tollway operates without truly being accountable to the public. There shouldn't be tolls anymore period, much less another significant increase on top of the high rates that already exist. The federal gasoline taxes that the public already pays for maintenance of roads shouldn't have to paid TWICE by drivers. There have been numerous instances of waste by those in charge such as taking expensive helicopter rides for lunches, and the public shouldn't have to foot the bill for it. Do the right thing and make travel affordable for the average person. There's little doubt that those in charge are going to do whatever they want no matter what the average citizen says. What more can we do to prevent your insatiable appetite for fleecing the public while being corrupt and wasteful and unaccountable?
07/10/26	Mary Degeneffe	60014	X		X		X				Support	Please look at addressing the 80/90/94 confluence that makes going around the bottom of the lake so difficult.
07/10/26	John Scanlon	60565	X			X	X				Oppose	Lord nose how much time, energy and money you all spent putting this voluminous report together. Road construction and maintenance are one thing but way too much verbiage has been spent on DEI initiatives. Make concrete proposals as to what actual road work will take place, the cost and how long until that debt will be paid off.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/10/26	James Lucas	60185	X		X		X				Oppose	We are already one of tue highest taxed states in the union. This state and all its taxes are driving residents out at an alarming rate. No more toll increases.
07/10/26	William Johnson	62629	X				X		X		Oppose	Enough. Taxes and users' fees already too high in IL. If you are looking to increase fees, look to commercial drivers first. They profit from using the toll roads.
07/10/26		60515	X	X					X		Support	
07/10/26	Jennifer Tallant	60401	X			X	X				Oppose	Don't you dare raise these tolls again! There were originally supposed to be temporary! I'm tired of paying to drive on the roads that MY TAX DOLLARS already support! NO NO NO!
07/10/26		60515	X		X		X				Oppose	Tell the IL government and Governor JB that we are already being taxed and squeezed enough as citizens of IL. How about we stop misappropriating funds and making things more expensive for the citizens and continue to keep the roads of IL safe and reliable. I'm sure there are plenty of other programs and systems that do not affect the majority of citizens that would have cash flow that can support the roads without taking more from us.
07/10/26	Allan Briggs	61071	X		X		X				Oppose	What happened to our lottery money.
07/10/26	Jean	60534	X		X		X				Oppose	Just more Illinois taxes. Thats all this administration does, tax, tax, tax . Were moving out of here.
07/10/26	Matt	60450	X			X	X				Oppose	How much more money can you possibly take from drivers? Where has it all gone over the years?
07/10/26	Margo Castelli	60614	X		X		X				Neutral	Traffic on the tollways here is ridiculous. Between the huge semi's that never drive in the proper lane, and the ENDLESS construction projects, it is never a pleasant trip. I doubt raising the toll price will improve any of this.
07/10/26	Paul Ng	60060	X				X		X		Neutral	While understandably it needs money to maintain the roads and its accessories, the rate increase will impact us retiree with almost a fixed annual income.
07/10/26	Jeffery Webb	46383	X				X			Operational ease (boothless tolling?	Oppose	Absolutely ridiculous. You've raised the rates over the last decade to a ridiculous degree to the point to where I've now chosen to use freeways the majority of the time. At a certain point, people will choose to stop using the toll road because of your ridiculous greed. It's already pushing $8 for the Chicago skyway. This is pathetic and corrupt.
07/10/26	Lou	60137			X	X	X				Oppose	You people already charge way too much for tolls as it is with no improvements to the roads, traffic, economy, NOTHING over the years. Just more money out of our pockets. Shove the proposal in the trash and figure out a way to actually use the millions you're already getting from us.
07/10/26	Sungyoung Kim	60540		X		X	X				Oppose	.45 per toll change is abrupt and steep
07/10/26	Matthew Brosseau	60101	X		X	X					Oppose	Our roads are already poorly maintained and construction drags on without end. These are not problems that can be solved by throwing more money at them. We have systemic issues that need to be evaluated and addressed before Illinois residents should be expected to foot the bill of another mismanaged set of programs.
07/10/26	Maggs	60451	X		X		X				Oppose	We already pay taxes and tolls are outragious.
07/10/26	Beth Johanson	61114	X			X	X				Oppose	Why are you increasing the tollway cost when this system was supposed to end in the '70s. I know, the almighty dollar!!!
07/10/26	Dan M	60014	X				X			Fiscal responsibility of leadership	Oppose	Where are all the billions of dollars you have already collected in tolls? Yet another price increase with slow/no results is unacceptable. How much tax, fees, tolls are we Illinoians supposed to absorb with falling job makets, unemployment and small/no pay raises. We are all at a breaking point. Enough is enough. Opposed to this wholeheartedly.
07/10/26	Diana	60192			X		X			Overpasses and underpasses to prevent backups due to construction and accidents	Oppose	45 cent increase on a 95 cent I-pass toll is a 50% increase! A 10 cent increase for I-pass holders is a 10% increase and reasonable. Our taxes are so high in Illinois that new roads won't spur economic development. Why not limit the free food stamp debit card program for people after 5 years of being in program and no increases as they have more children (as well as free cell phones, internet, healthcare;etc.)? The drivers, not the poor, use the tollways and pay exorbitant real estate and 5% sales taxes already and are constantly forced to support 100% of the funding for Illinois.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/10/26	LEE PADGITT	60093	X			X			X		Oppose	Toll roads were promised to be free once paid for, now they are eternally and increasingly expensive. The Toll authority built a deluxe, expensive "taj mahal" headquarters and is run by a corrupt body. Make tollways free
07/10/26	Dustin	60618	X				X			HOV lane that is highly regulated	Oppose	I've clicked on 3 links and there is no information on how or where this $26.5 billion will be used. How can you send this out and then provide no minor details. That's crazy. That information should be in the email. It goes without saying that these toll roads were supposed to be temporary. Now they are permanent with CPI adjustments proposed every two years. Figure out a way to be good stewards of our state.
07/10/26	Al Lucht	53051	X		X		X				Oppose	While I would be opened the idea of raising tolls for individual cars as proposed because the rates have not gone up since 2012... Which of course is a huge error in judgment. I am not however in favor of increasing tolls for commercial vehicles by 30%! And I find it very dishonest and anything except transparent for the tollway system to try to imply that they're creating all this economic benefit when in fact they are crushing economic benefit by slapping a 30% increase on the backs of the businesses of the state of Illinois! And do you think those companies are gonna simply "eat those costs"... As our current president try to fool the American people with his now outlawed by the Supreme Court ridiculous tariff scandal? That 30% is gonna also be thrown onto the consumers of all products in the state of Illinois because everything gets transported it doesn't it? So we're paying on our private vehicles by $.45 per ride and we're gonna have a 30% additional cost for all of our items because those companies can't afford to eat that huge increase and it will simply be passed on to literally anybody who buys products that travel through the state of Illinois. I know you're going to railroad this thing through anyway it's just disappointing that you are doing it in such a dishonest and underhand way by not pointing out that this is actually a double tax on the drivers of Illinois as well as Wisconsin and any other state adjacent to Illinois.
07/10/26	Paul Newell	61061	X			X	X				Oppose	Highway maintenance and improvement should be paid for in the state budget. I moved to Illinois 50 years ago and learned the tolls would be collected only until the road debt was paid. Then the tolls would go away. Illinois, of course, is not going to give up an existing income stream. So the tolls stayed and increased. Now you want to put the tolls on "automatic increase". I'm not surprised. After the success of the Governor's automatic gas tax increase. The tolls will increase and no one has to propose it or vote for it. "Hey, not my fault. I didn't propose it or vote for it." I am opposed to the toll increase, and the automatic future increase.
07/10/26		60134			X	X	X				Oppose	
07/10/26	Gary Haman	60060	X				X			less construction	Oppose	Totally opposed to toll increases. The tollway should work within its current revenue stream. The tolls are already too high.
07/10/26	Donald	60164	X				X			Timely completion of EXISTING roadwork and less ONGOING disruption of road use.	Oppose	"New and Improved" is a big scam. Complete and maintain should be the goal, especially in cost sensitive times. There have been NUMEROUS projects that were done that did not really solve a problem (and take endless years, if completed). Plenty of money, time, equipment was utilized on big, multi-lane toll collection plazas that miraculously, in one day, were no longer manned and now sit obsolete. Research, studies, and engineer planning are poorly done for value and viability...if worthy, they are often outdated or meaningless before the pavement cures. It does not appear that we are ever getting the value and benefit for OUR toll, gas tax, and road dollars.
07/10/26	Pat Evans	60448	X				X			NOT BAILING OUT CHICAGO	Oppose	The tollway fund was raided by the governor to bail out Chicago. Now every day Illinois citizens are being asked to pay for their financial malfeasance. That is beyond unacceptable. The tollway should look to do more with less like the rest of us have been asked to do for the past several years. Furthermore in no way should the tollway get to enact yearly increases on the citizens. These tolls were already supposed to be done away with years ago when the system was paid for. Now the tollway uses these funds to bankroll a bloated tollway authority and bail out other government entities.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/10/26	lyric bell	38632	X	X	X						Neutral	I would like to support continued investment in safe roads, reliable transportation, economic development, and good union jobs. many families depend on this income to live.
07/10/26	Tricia Doyle	60515	X	X		X					Support	
07/10/26	Carmen	60629	X		X		X				Oppose	The cost to live in Illinois has been steadily increasing and most tollways do nothing to actually put money BACK into our city's economy beyond seemingly being an easier means of transportation (not even guaranteed to cut down time). Any "improvements" made to these tollways just seems like another excuse to raise the prices. It is sick and disgusting to see how much the government despises it's lower class citizens and the people who rake in the money from collecting these tolls are cruel and unjust towards those who have a hard time thriving in this Capitalist society. As everyone keeps turning a blind eye I hope you remember that the money you bleed from the people the more our hunger increases.
07/10/26	Ta-Shira Miday	60153	X	X			X				Neutral	The tolls you guys are collecting on the 294 when you get on at Irving parkway going northbound this big old potholes so I don't know what you guys are fixing and it's been there for a long time but if you're going to raise prices actually fix what you're saying
07/10/26	Michael Petersen	61065-9000	X				X			Way to high of a cost already.	Oppose	If the issue of traffic is in Chicago fix Chicago. I don't see why the rest of Illinois drivers should pay for improvements to Chicago's infrastructure. Limit the tax to people in the Chicago zip codes.
07/10/26	Kenneth W Richardson	60402	X		X		X				Oppose	The plan is okay, but the state should pay for it not the taxpayers. It's the states job to maintain its roads. They decide to do their job and expect for Illinoisans to pay for it.
07/10/26	Melvin Bailey	60506	X				X		X		Oppose	The proposal is extreme. Review problem areas of tollway, plan to eleviate. Evaluate future issues that may arise from past corrections. Example the I88/290 bottle neck. Put in play to siphone N/S 294 traffic towards downtown. But not wide enough. Mistake. Like this too early over priced proposal. Thank you.
07/10/26	Jason Maxwell	60517	X				X			Abolish tolls	Oppose	Abolish the tollway system and all its bureaucratic bloat. We don't need to pay tolls to drive on the roads that we already paid taxes for. The State is in an affordability crisis and the tollway system is a perfect example of why it's unaffordable.
07/10/26	Nathan McCullough	60118	X		X		X				Oppose	I am writing to log my absolute opposition to the Driving Connections capital plan and the accompanying toll increases. The consumer is entirely maxed out. Northern Illinois is already a highly burdensome place to live due to compounding taxes and an overwhelming cost of living. Forcing residents to bail out another 26.5 billion dollar capital program is an unacceptable shift of financial strain onto regular commuters. Using these roads is a daily necessity for work and family life, not a luxury. The Illinois tollway system was built on an explicit historic promise to the public: once the original construction bonds were paid off, the tolls were supposed to go away entirely. Instead, the system has been used as a permanent financial crutch, and the agency continues to mismanage its massive existing revenues without real accountability. Furthermore, implementing automatic inflation adjustments every two years is a blatant attempt to bypass future legislative votes and public oversight. The Board of Directors needs to stop treating drivers as an endless cash reserve. I demand that you reject these rate hikes, eliminate the automatic inflation triggers, and enforce strict internal oversight into how existing funds are spent before asking the public for another dime. Come on folks. We can do better!
07/10/26	Mr. Thembolt	49120	X			X	X				Oppose	Sounds like another way for Illinois to pocket our hard earned money.
07/10/26	Rich Lencioni	60192	X		X			X			Support	keeping roads safe
07/10/26	Peter Bartos	60007			X		X			No tolls ,is to much in Illinois for people driving to work	Oppose	I think is already so high, that any increase is absolutely unacceptable. Hope this never come to in effect as we peaple of Illinois do not wantit, is only in Illinois you pay tolls everywhere you move from hwy and on. Why oder states do not need this and streets are better than her. NO TOLL INCREASE!!!

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/10/26	Bonita Wedekind	61107					X		X	More police patrols to enforce speed zones. I drive I-90 regularly and tge complete disregard of the speed zones are appalling	Neutral	Better patrolling and enforcing speed zones are a huge need. I travel 90 regularly and RARELY see it patrolled. Speed more on the basics first. Chicago area gets all our money now!!! How about spreading the money more evenly and maybe people would be willing to accept an increase in tolls.
07/10/26	Brad Sharp	60482	X		X	X					Neutral	
07/10/26	Brent West	53140	X		X		X				Oppose	I am not opposed to a general increase. I am opposed to the open ended every two year automatic increase "based on inflation". Inflation us already murdering us financially in every aspect of life, are tolls eventually going to be $10+ each by 2040?!
07/10/26	D'Arcy Ballinger	60964	X		X		X				Oppose	Hell yes. Get us all. Get us all until we can't take it any more. BOHICA
07/10/26	Gail Shannon	60467	X				X			Just maintain and keep affordable	Oppose	It’s already too expensive to drive on!!!
07/10/26	Rafael Herrera	60137	X	X	X						Support	Transportation infrastructure is the lifeblood of the economy in NE Illinois and the Illinois Tollway's system is a very important aspect. I am in support of the Tollway's Capital Program. I appreciate the fact that the Tollway is completely toll funded and that the agency does not receive any tax revenue. As a result, tolls being a user based fee structure, do not impact motorists that don't use the system and the user fee system gives motorist a choice.
07/10/26		60102	X		X		X				Oppose	This is absurd. This is a slow creep that increases taxes on those who need the tollroads daily. The supposed "temporary solution" to paying for the tollroads has been a way to siphon money from the working people. It truly takes some criminal behavior to act like the current amount taken in daily is not enough to cover the proposed changes. Take the tollbooths down. Truly asinine.
07/10/26	John Antos	60586	X	X			X				Neutral	I have been an IUOE Local 150 member for 11 years and live in Plainfield. I regularly use the Tollway system and understand how important these investments are to our communities, our economy, and working families. I rely heavily on the use of our tollways and highway infrastructure, a safe and well maintained road is imperative for everyone. This infrastructure bill would not only provide much needed funding for the roadwork but also provide jobs for skilled tradesmen like myself. It will also provide more opportunities for local economic growth in areas where there previously was little. The necessary upgrades with also facilitate a higher level of interstate commerce making Illinois one of the great crossroads of our nation. I believe this will be a net positive for everyone
07/10/26	Rachael	60502		X	X	X					Oppose	There is plenty of money going somewhere now...and it is not to the roads as it should be. Maybe let's redirect some of the tax dollars into funding this instead of raising tolls again....
07/10/26	Bryan	60056	X		X		X				Oppose	I oppose the proposed toll increase. I understand that the cost of maintaining and operating the Tollway increases over time, and I recognize that rate increases can sometimes be necessary. However, before asking Illinois residents to pay more, I believe the Tollway should first demonstrate that it has taken every reasonable step to reduce unnecessary spending and improve efficiency. Illinois families are already dealing with higher costs for housing, groceries, utilities, insurance, and other everyday expenses. Another increase in transportation costs would place an additional burden on people who rely on the Tollway to commute to work, visit family, and travel throughout the state. I encourage the Tollway to prioritize responsible spending before passing additional costs on to drivers. Please carefully consider the financial impact this proposal would have on hardworking Illinois residents.
07/10/26	Don Bodziak	60174	X		X		X				Oppose	Proposed increases are too much and I would likely avoid using the toll roads where possible.
07/10/26	ANTHONY f MAAS	60546		X		X	X				Oppose	I can see an increase of up to 10% but no more...not %50
07/10/26	Bill Kavouriaris	60478	X		X		X				Support	
07/10/26	Richard D. Basile	46322	X		X		X				Oppose	

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/10/26	Joe	60048	X		X		X				Oppose	The entire tollway system was put in place to be temporary "Toll Free in '73" , with rising gas prices why on Earth would we spend more money on this!
07/10/26		60026		X		X	X				Oppose	
07/10/26	Joseph Ruebensam	40353	X				X		X		Oppose	Tolls were suppose to end in the 70's but politicians just want to keep lining their own pockets and make us keep paying more for something tjat was suppose to end
07/10/26	K	60056	X				X		X		Oppose	Always increasing prices at Illinois is really tough on us. You're crushing us with hikes... stop it —- please
07/10/26	Dave	60502	X		X		X				Oppose	How about show Illinoisan's where toll money really goes and cut spending before you tax people again and again!
07/10/26	Heike Pfeiffer	60659	X				X			Lower the cost of driving on the Illinois Tollway	Oppose	I don't believe this project is necessary. It feels more like a political project than one that will actually improve traffic. Illinois has a long history of road construction projects taking much longer than expected. In the meantime, drivers and businesses deal with years of delays, traffic backups, and rising costs. At some point, people simply look for other routes instead of paying more to sit in traffic. The original tollway system was supposed to stop charging tolls once it had paid for itself. That was decades ago, yet we're still paying. Instead of starting another major project, IDOT should focus on finishing the ones that are already underway. Traffic around Chicago is already a daily headache, especially near the Indiana border. Commuting from the North Side to the South Side has become even more difficult because so many projects seem to drag on for years. The Foster Avenue entrance and exit ramps on I-90 are just one example—they've been under construction for more than two years. Projects like that should be completed before new ones are added. I also don't think IDOT has clearly explained how this project will improve traffic enough to justify the cost and disruption. Finally, Illinois should invest in road materials that last longer. Wisconsin has completed major highway projects using durable concrete, and their roads seem to hold up much better without relying on tolls. There have to be better ways to improve our roads, reduce congestion, and create jobs without putting even more of the burden on taxpayers. I hope IDOT will focus on practical solutions and finish existing projects before taking on another expensive one.
07/10/26	Jacob Patterson	53142	X				X	X			Oppose	I understand the 45 cent increase is tied to legislation but the automatic increases starting 2029 tied to the CPI is unacceptable for auto rates. For the increases starting 1/1/2027 Plaza 21 is going from $1.40 to $2.25, that is more than 45 cents.
07/10/26	pat e cummings	49079			X		X			not being ripped off	Oppose	start being more efficient.
07/10/26	Wayne Gray	61607	X		X		X				Support	With the price of everything going higher and higher, the toll increase is not so bad. I'm for it.
07/10/26	Sarah Hall	61107	X			X	X				Oppose	Our tolls are already high. Often the highway is the fastest route for me to get to places and cities near Rockford, but that means I'm paying extra to travel that way. And some places I'm paying just to get on or off the tollway which is ridiculous. Rockford attracts a lot of tourists from areas that do not have tolls and don't have the EZ Pass toll discount. I hear their frustrations at the extra cost to travel the tollway. Do not raise tolls.
07/10/26	Sara	61745	X				X			None of the above, because none of the above are true statements.	Oppose	The tollways were supposed to be a temporary fix. We pay astronomical tolls already, for horribly maintained roads. We already pay enough taxes in Illinois that the roads were supposed to be covered by the tax increase. Where has the money from casinos and Marijuana sales gone?? And Illinois wonders why it has record numbers of people and businesses leaving the state.
07/10/26	Heidi	60115	X			X	X				Oppose	Tolls are already too high. Use the money you already get wisely and stop price gouging people. If toll prices continue to increase, I will continue to find alternate routes, as will many others.
07/10/26	Nicholas Wellenstein	60046	X	X	X						Support	The Tollway is an important aspect of this community
07/10/26	Ethan	60134	X			X	X				Oppose	The tolls for medium vehicles is already too much. Balance your budget and stop asking us for more money.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/10/26	Brian Weidner	53150			X	X	X				Oppose	
07/10/26	Anna Marie Di Silvestro	60173	X				X			HIGH COST OF TOLLS WHICH ARE NOT BEING USED FOR TOLLS	Oppose	This Illinois government is so CORRUPT. PLEASE EXPOSE THE FRAUD AND CORRUPTION. I TRAVEL TO WISCONSIN AND IOWA OFTEN. THEIR roads are better kept and no tolls. Get rid of this democratic group of EVIL money hungry people. I will be leaving my hometown to move to a better state. This state is not a place to retire in. I sold my home as taxes were over $15,000. And now after proposing recently that TOLLS WOULD BE GOING away and now they never went away and they claim they dont have enough money. My partner lives in Huntley and its only 26 miles away and I pay over $10 to get there. THIS IS RIDICULOUS - I OPPOSE THIS INCREASE . PLEASE REMOVE THE EVIL GOVERNOR AND THE PUPPET WHO IS RUNNING SUPPOSEDLY THE BEAUTIFUL CITY OF CHICAGO THAT I NO LONGER VISIT. SAD PATHETIC AND PLEASE HAVE NEW PEOPLE BRING THIS STATE TO THE BEAUTY THAT IT IS.
07/10/26	Kevin Robinson	61611	X		X	X					Oppose	State of Illinois has to live within its budgets.
07/10/26	Dennis Andrew	60015	X				X			Too much noise nearby, Enforce the speed limit. Trucks do 70+ in a 60 zone, drive in the two left lanes too, motorcycles and Performance cars race by every night	Oppose	Tollway gets increases already, I remember when it was 25 cents, plus so many more cars and trucks are out there so it doesn't cost you more for more traffic but you get more tolls, why the need for increase? Potholes are caused by trucks running over joints, you haven't figured a way to stop that?
07/10/26	Carrie	61065	X		X		X				Oppose	Stop raising tolls/taxes. Figure out where the leak is and fix it without hiring overtime workers who sit around and do nothing!!
07/10/26	Gabrielle Nicastro	60175	X			X	X				Oppose	
07/10/26		60185	X		X		X				Oppose	It's always more more more with officials. Get the money elsewhere and stop taking it from people. We are already taxed enough. I just assume drive through local roads and take longer before paying higher tolls. Tolls, I MIGHT ADD, were supposed to be temporary when the expressways were built.
07/10/26		61114	X			X	X				Oppose	
07/10/26		60631	X		X	X					Neutral	What traffic improvements would the tolls actually fund? It is impossible to weigh in on paying more money without knowing what we will actually be funding. Please provide a plan of the proposed roadway improvements.
07/10/26	Alex Tietz	60177	X		X	X					Oppose	Illinois needs to fix it's spending problem first and not re-direct existing funding to other projects... specifically Chicago transit. It's a shame to ask the taxpayer to take on more of the burden when the State's management has been in a long-term disarray.
07/10/26	MECC ALTE	60051	X		X		X				Oppose	Absolutely not. This proposed toll hike is a blatant money grab that will directly hurt working-class families and cripple local supply chains. A 45-cent increase per toll and a staggering 30 percent hike on commercial vehicles will drive up the cost of everyday goods and commuting to work. To call biennial CPI adjustments 'cost predictability' is a deceptive spin on what is actually a permanent, automatic tax hike on drivers. We reject this proposal in its entirety and demand the Board of Directors immediately halt any plans to increase rates in 2027.
07/10/26	Terry Fitzgibbons	60031	X		X		X				Oppose	An increase in this amount is outrageous, the people of Illinois are among the highest taxed and pay some of the highest tolls in the nation. We regularly drive to Iowa to see our kids and pay close to 30 dollars round trip and to be honest some of the roads suck. It’s the billions that come in already and do not raise the toll on Illinois residents. ENOUGH IS ENOUGH ALREADY! FIRE JB

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/10/26	Bryan	60563	X		X		X				Oppose	Between our property, sales, income and other taxes that we're already paying almost the highest in the country... The last thing we need is an increase on tolls for working people having to foot the bill for fund mismanagement. We pay high in tolls as is and the roads never improve. The tollway was supposed to be a temporary program. Instead of taxing more and increasing cost on average, working people, you need to increase taxes on the wealthy and corporations. Do better.
07/10/26	Daniel Broadfoot	60169	X		X	X					Oppose	If the rate increase that much I'm not taking the tollway, this project is a waste of time and money and the result will be the same bad roads with the same traffic
07/10/26	Kimberly McCauley	60446	X		X		X				Oppose	It wouldn't be bad of it was an increase of maybe 10 cents but 44 is a lot. For poor people who are already struggling and unfortunately the interstates are the only way to get to work for most people. Side roads are not options.
07/10/26	Tim Burton	61745	X						X	I disagree with forcing 3 answers to this question. I only care about one, this is a trick question that will likely be used to call people ill informed that they want the services but don't want to pay for them— where if funds were used appropriately there wouldn't be an issue.	Oppose	This makes no sense to increase these tolls when IL has the funds but chooses to be a sanctuary state and fund the lives of undocumented people in our country illegally.
07/10/26		60586				X	X			Less lane closures during rush hour traffic	Oppose	
07/10/26	Joe	60187			X	X	X				Oppose	This is absolute bullshit! Increasing more taxes, tolls, charges to people that pay dozens of tolls everyday will cause people to chose whether to go to work or eat.
07/10/26		60031	X		X		X				Oppose	Prices keep going up. Tolls were supposed to be a temporary charge yet they never ever went away. Now we are being notified they are yet again being increased. Enough is enough. The government should cover these costs from our tax money.
07/10/26	John Kator	60102	X			X	X				Oppose	Stop spending money you do not have or need to spend. Live within what the checkbook actually has like the PEOPLE you are supposed to be serving.
07/10/26	Danna	60174	X		X		X				Oppose	
07/10/26	Dave Podgorski	60004			X	X	X				Oppose	We already pay enough in tolls and this will make it much harder for middle class families to travel our roads. The state needs to stop wasting money and concentrate on the people of Illinois.
07/10/26	Lukasz J	60610	X		X	X					Oppose	We already pay a ton in tolls and there has been 0 improvement in traffic after a 3 year project on 90. More money for what??? Lol
07/10/26	Charles W Brahmstedt	61008	X			X				Control of speeding.	Support	I realize that updates and maintenance are necessary. But the timing and optics of this are not great. Commercial traffic will simply pass on the costs to consumers. Inflation, fuel and most other costs are rising faster than income for most consumers. I believe this will force some consumers back onto non tollway roads. My only advice is to scale back some new projects but not maintainance. Or possibly freeze labor and administrative costs. And steel yourselves for backlash. Can you somehow get federal funding for these projects, especially on interstate portions of the tollway system. This will not be popular either, but how about establishing rural highways as tollways? Four lane divided highways. Good luck.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/10/26	Lauren	60417			X	X	X				Oppose	The tolls were originally designed to pay for the construction of the roads. The roads are constructed and Illinoisians are already outraged that we're STILL paying. It's insulting to propose an increase. My accounts will be deleted and I will never pay tolls again if that happens, despite the workers being completely incompetent and overcharging as is. What a joke. Do better.
07/10/26	Jeffrey Yersich	60638	X		X		X				Oppose	No annual toll increases. Tolls are high enough.
07/10/26	Patricia Fisher	60115	X			X	X				Oppose	Thought tolls were supposed to be temporary! We have already started taking the back roads more often. Too many crazy drivers on the toll roads. The daughter is the one who uses the ipass the most. And if she changes jobs, she too can stay off the tollway.
07/10/26	Michael Fujii	60010	X				X			Less Spending	Oppose	Illinois wastes so much money, makes such poor financial decisions, charges so many taxes and has driven out so many high income residents and businesses. Now, of course, a higher toll. Illinois needs to figure out a way to do more with less for its own sake and the sake of the people who still live here before the decline is irreversible.
07/10/26	Kafui	60458	X	X			X				Neutral	
07/10/26	John Collier SR	60441	X	X	X						Support	
07/10/26	James Lithas	60126-3725	X	X	X						Oppose	I Have Been A Local 150 Member For 40 Years And Live In Elmhurst Illinois And Support The Tollway Improvement Project.
07/10/26	Angela Valentin	60634	X		X		X				Oppose	Weren't the tolls supposed to be temporary? They are just too expensive as it is.
07/10/26	Leah	61701	X			X	X				Oppose	
07/10/26		60431			X	X	X				Oppose	Tolls were supposed to decrease and eventually go away. That was the original proposal for tollways and now instead of this, this proposal wants to increase the tolls. That is not to fair to the average person. The tolls are already high enough and those of us that have to use these roads regularly cannot keep up with an increase in tolls. Many people are not able to live within their means and this is just another tax increase. This will lead to other roads being utilized more that are not taxed and then there will be more roads needing to be fixed overall. I am strongly opposed to this idea.
07/10/26	Shaun Wood	60657	X		X					Traffic jam reduction	Neutral	Other than making improvements that are probably necessary with bridge rebuilding or reconstruction of other roadway necessities there's a lot of fluff in what you're saying and there's very little specific information. It would be particularly nice if you could explain how you propose to reduce congestion i.e. traffic jams.
07/10/26	Martin Rafacz	60451	X		X		X				Oppose	These increases are out of control. We pay some of the highest taxes and commuting throughout the Chicago area is bordering being unaffordable. This will be another reason why people leave this state.
07/10/26	Dennis Shaughnessy	46303	X		X	X					Neutral	I work in the city of Chicago and I'm a member in good standings of the IUOE Local 150. I commute from Indiana to the city 5 days a week. And the amount of abuse my personal vehicles take driving on these toll ways is absurd. It's more wear and tear on our vehicles. Which ends up hitting us in the pocket. I think improved Roads and better travel times will greatly benefit the hard working people of the Region that travel these roads on a daily basis, secondly it would be great to see our tax money going to something that will actually benefit everyone!
07/10/26	Bob WILSON	60101	X			X	X				Oppose	I've already greatly curtailed my traveling do to the cost of fuel. Now we got an increase in gas tax and an increase in tolls to go along. How much money do you plan to squeeze out of people. 45 cent increase is criminal.
07/10/26	Bryan Herweg	60016	X		X		X				Oppose	Does anyone actually believe this increase is going to benefit Illinois drivers? The tolls are already out of control. Between license, registration and gas prices we are being ripped off at all ends. Meanwhile the roads are in horrible shape everywhere in this state. I've been driving for 30+ years and have watched the roads get worse and the tolls go up exponentially. I travel by car all over the country and frequently drive in states that have no tolls at all and their residents enjoy a quality of driving that we have never had here in Illinois. This is corruption pure and simple.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/10/26	Fran	60062			X		X		X		Oppose	A $.45 increase per toll??!!! Another increase that will never go down... only routinely increase! 🤬 NO!!!!!!!!!!!!!!!!!! 😖😣😤😫😣😖😣😫😤😫😣
07/10/26	Thomas William Van Vossen Jr	60438	X	X	X						Support	The Toll Increase just makes the tollway a better road for everyone who drives
07/10/26	Alex Jacobs	60563	X		X	X					Oppose	Three things I think the proposal needs to provide more data on - 1. What are the Key Performance Indicators of success of this program, how will they be measured and where does accountability lie if they are not? 2. How do the costs of tollway system changes compare to comparable systems? Overall, Maintenance and these proposed capital expenditures. 3. How has the cost structure of the Illinois Tollway system changed with time? Has it become more efficient, less efficient, the same?
07/10/26	Justin Berger	60546			X		X			Efficiency	Oppose	We already pay more than most other state residents to drive. I avoid our toll roads even though using them would decrease CO2 output because of the extra expense. I strongly oppose any additional taxes or toll increases.
07/10/26	Lorie	60175	X		X		X				Oppose	Ridiculous! Illinois is taxing and regulating us death!!!
07/10/26	david maxwell	65605					X		X	Toll cost	Oppose	This increase is going to hurt already struggling independent commercial owner/operators and small fleet owners who are already feeling the pressures of low rates and high fuel costs. We are barely keeping our heads above water and this increase will push some of us out of business. Please take this into consideration when suggesting that we pay another 30 percent on top of what we are currently paying.
07/10/26	C Pope	60101					X		X	Lower tolls	Oppose	Ridiculous to raise tolls .45 cents. Another cash cow for the State of Illinois. Cut staff and bureaucracy not raise tolls. Illinois answer raise taxes.
07/10/26	Owen Youngman	60015	X			X	X				Oppose	These toll increases at a time of higher gas and grocery prices will force drivers to abandon the Tollway in favor of surface streets, making traffic worse for everyone—no just Tolmway users. The project benefits are vague and full of doublespeak.
07/10/26	Mike Nan	60077	X				X			Cost	Oppose	At a time when the average household is getting squeezed with higher costs from property taxes, groceries, utilities, etc. Now is not the time to ask for an increase in toll system.
07/10/26		53507	X		X		X				Oppose	I only come to your State when I have to work there. I try to avoid States at all costs that find new and creative ways every day to tax or fee us out of existence. Shame on you Illinois!
07/10/26	Daniel Charlton	60076	X				X			Open road tolling	Oppose	The tolls were ALWAYS meant to be a temporary toll. That long since changed. And the tolls have only increased. This proposal and the “community benefits” are old talking points (spend more time with family. Create jobs) and quite frankly bs. Stop fleecing the people of Illinois. We pay taxes for ROADS! And now you’re charging us again!
07/10/26	mark kosevich	60558	X		X		X				Oppose	What is the state of Illinois doing ? Where are they now in this proposed “Road usage tax”. The state already taxes the living hell out of us, how can you even think about more taxes. Pritzker has turned out to be a really bad Govenor for Illinois and I hope this proposal gets him voted out of office! Please tell me that you will listen to the average people of Illinois for once.
07/10/26	Car Owner	60118	X			X	X				Oppose	Tolls were supposed to be temporary. Ever since the agency abandoned the pledge, the Illinois gas tax went way up. Report in the failure of the government to fund the Department in charge with the roads so that the taxpayers and consumers bring them to the level of accountability the laws and the Illinois Constitution imposes. Enough with stealing from the Illinois citizens! Enough with the corruption in the tax paying services and the government in general.
07/10/26	francisco gonzalez	60803	X	X	X						Support

07/10/26	Ivan	60015	X			X	X				Oppose	

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/10/26	Kevin Mehnert	60585			X	X	X				Oppose	When all of the toll roads were constructed there was a fixed time before tolls would be removed. To date none of them have been converted to tollless so an increase is not something I'm interested in. The drive times are all over the place with the ongoing construction. There has been an approvement up and down 294 between 55 and the airport but when my commute fluctuates between 45 minutes and up to 3 hours without an accident I wonder why there again continues to be payment required?
07/10/26	David Aumiller	61102	X			X	X				Oppose	We pay a lot on the toll roads already. A toll system that wasn't suppose to last forever. I find it so frustrating that we are paying tolls to sit in traffic. If the toll ways are slow we shouldnt be paying a full toll. Illinois has demonstrated a consistent pattern of construction in rhe same spots over and over. Additionally, the construction barriers and staff seem to also do repetitive work on a regular basis all of which is costing us money. We need a new way of lookinf at toll way and high construction. Costs need to come down. OUR state has become a national punch line snd we are loosing residents, jobs and businesses. Time to make a change and i say that as 99% Democrat. Please do better
07/10/26	Christopher Batty	60174	X		X		X				Oppose	What safeguards are in place to make sure this fund is not raided by JB Pritzker and his corrupt cronies in Springfield? How much of this money will actually go to road improvements vs other democratic pet projects? How can we ensure that Mike Madonna cronyism isn't front and center with these taxpayer dollars?
07/10/26	Barbara Mulcahy	60025	X				X		X		Oppose	truckers should pay a higher rate than cars
07/10/26	Jameelah Williams	60643		X			X		X		Oppose	I'll take the streets if the prices increase, we the people can't afford an increase
07/10/26	Big Pappa	60503				X	X			IL has the some of the highest gas tax rates in the country. Use those tax revenue dollars for these improvements.	Oppose	I vehemently oppose this proposed toll increase. In a state where we are taxed for everything we do there should be plenty of money to repair and maintain our infrastructure. We have some of the highest gas tax in the country. Where does all of that money go? Use that money for the infrastructure. It's no coincidence that large companies that have been in this state can't leave fast enough. It's idiotic ideas just like this that push them over the edge.
07/10/26	Christian Simpson	60136	X		X	X					Oppose	Illinois does not need higher tolls, tolls create so much money as it is, if you can fix the roads with that, thats a budget issue not an insufficient fund issue
07/10/26	Peter Mueller	60045	X		X	X					Neutral	Just don't let Donald Trump near it!
07/10/26		60189	X		X		X				Oppose	Raising tolls by 45 cents across the board for every day Illinoisans while only raising it by 30 for commercial vehicles (many of whom are making billions and causing the majority of wear and tear on our roads) is ridiculous. As a resident of the west suburbs, it is impossible to get anywhere in a timely manner without paying a toll. I already pay $4 for each round trip in tolls driving to and from my parents home in Schaumburg to my home in Wheaton. These tolls should be decreased, not increased— especially at a time when gas is at record highs and the cost of living has never been higher!
07/10/26	B Baumann	60093			X	X	X				Oppose	No more tolls! Already feel toll roads are bad investment.
07/10/26	Gloria Carlson	54757	X			X	X				Neutral	I have traveled the Illinois Tollways from WI for 50 years and appreciated the many improvements that have been made. The only issue I see is how the cost is going to be issued. I think the toll cost should be 30 cents for passenger vehicles and 45 for commercial. I have read several articles that state semi vehicles cause the most wear and tear on the roads. They should pay the higher cost.
07/10/26	Jeaniene W Butler-Eubanks	60546		X		X	X				Oppose	With increasing prices on everything this is out of hand. It ridiculous. These tolls were not originally implemented for long term. People can barely afford groceries. These tolls will be for the rich and the poor will suffer as usual. Also there is Not less traffic on the toll roads. If anything there is more.
07/10/26	Howard Koster	60069	X				X			Plans to reduce operating costs or at least hold FLAT.	Oppose	I understand the need for a toll increase, but first I want to know what is the Tollway Authority is doing to decrease operating costs, or at lease hold operating costs FLAT?

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/10/26	Matthew Kooperman	60659	X			X	X				Oppose	Price gouging. Do not increase prices. Raise funds to pay for your capital improvement projects some other way. Do not raise prices to the residential consumers. Make commercial users who damage the roads pay more. Get more federal and state funds or don't do the project.
07/10/26	Jeremy	60423			X		X			Higher speed limits	Oppose	We live in the highest text state in the country and now you wanna add more to it. Toys were not invented to continually take peoples money.What a scam
07/10/26	nyles hofmann	61109	X			X	X				Oppose	With gas prices at all time high, don't think this is a good time to up the tollway. There is no more room to pay extra. Instead of raising rates, try to cut back spending and save up.
07/10/26	Dan Hanley	60071	X			X	X				Oppose	While an increase may be warranted this is beyond ridiculous. The toll way was supposed to not have long term fees associated with it but now the fees remain and your increasing cost. It should not require several dollars extra in expense to go to and from work. Will seek alternative travel options. Have avoided the toll road for years and only started recently using it due to construction on normal routes. Added expense is not worth it. Will seek other travel routes of expenses continue to climb. Toll road is a headache anyway with constant construction with no improvements to congestion
07/10/26	Jeffrey	60099	X			X	X				Oppose	For the last 30 years you've cut at least half of your staff and everything that you talk about what you're going to do sounds like a campaign for "joy". You actually don't say anything. Just say we're going to add a lane keep repairers up to a certain standard, but it doesn't say that. It sounds like a bunch of pretzel logic and circle talk. Thank you for keeping us captive to your increases. Cuz his voice doesn't mean anything!
07/10/26	Shirley A. Thompson	60478	X				X			Better road materials that last.	Oppose	It seems as though every establishment thinks the consumer has an endless supply of money. We're struggling to put food on the table, pay utilities and other expenses that we need to just keep our heads above water. We need a break. Everything is going up at the same time. Enough is enough!
07/10/26	alexey bobov	60110	X		X		X				Oppose	Would be nice to find ways to reduce the tolls instead of forever increasing them and getting less and less for more money.
07/10/26	Jim	60558	X		X	X					Support	Jobs for hardworking tradesmen and women.
07/10/26		69453	X		X		X				Oppose	Too high an increase all at once. Why can't it be incrementally less? A big financial burden to those who use it daily
07/10/26	Karen	60448	X		X		X				Oppose	We are taxed enough.
07/10/26	Cindy Smith	60543	X			X	X				Oppose	Respectfully, this proposal seems like a huge increase in the rate per toll station. Break this project into shorter time spans and link the rate increases to the same cost-of-living (COL) rates that the government uses for social security benefits. If the federal government determines our COL rates, the Illinois Tollway System should be adjusted within that framework. The projects are important. My opposition is to the funding structure. Given the recent incidents of fraud and lack of oversight, the project needs to audited financially and from the perspective of efficiency. There will be greater support for the project if those requirements are included in the plan.
07/10/26	Hunter W Dodge	60013	X		X		X				Oppose	I disagree with the toll increase Illinois is already expensive to live in with the higher gas prices and high cost in Chicago I already spend on average $30 a week on tolls which comes out to 1560 a year so the fact that Illinois needs to raise the toll cost to fund a project is not recommended I feel Illinois needs to focus on where they are using are current tax money
07/10/26	No Name	60623	X				X			I can only pick 2	Oppose	not supporting this proposed till increase
07/10/26	Jeff Schultz	60540	X				X		X		Oppose	100% opposed to this idiotic proposal we are taxed at one of the highest rates in this country and already pay an insane amount of money to drive on "toll ways" I dont think you will find one sane person in favor of this, please use some common sense, this state is so corrupt all you can do is keep increasing the cost to live here because this states administration is so unqualified, its laughable that this is even a thought
07/10/26	Dennis Neumann	60565	X	X			X				Oppose	This rate increase is too high given the higher costs consumers have to bear.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/10/26	Steve Smith	60142	X		X		X				Oppose	Roads are always under construction in Chicagoland I don't know if area. Roads are dirty and not well maintained. Increasing tolls will only cause more frustration and exodus from traveling in Illinois. All this extra cost will go back on the people who live in Illinois, rise of goods and services due to rise in tolls. The money raised by tolls currently is obviously mismanaged otherwise the need to raise tolls would not be necessary.
07/10/26	Jocylen Myles	60637	X	X			X				Oppose	
07/10/26	Eric Pancer	60607			X	X	X				Oppose	Tax commercial vehicles that are using our roads for nearly free!
07/10/26	Sherry Harper	53511	X				X			Less construction	Oppose	Why does Illinois rely on tolls but at Wisconsin border same I90 no tolls and roads are in better condition? Please figure this out and start having road construction by reliable companies that can do the job once and for all, the correct way
07/10/26	Corey	60560			X	X	X				Oppose	Its to expensive already
07/10/26	Juan	60175			X		X			Stop yearly construction by using better road pavement material	Oppose	Tolls were supposed to be temporary and here we are many years later
07/10/26	Scott Schmied	60565	X	X	X						Neutral	I have been an IUOE Local 150 member for 38 years and live in Dupage County. I regularly use the Tollway system and understand how important these investments are to our communities, our economy, and working families." Scott Schmied
07/10/26	Arlene Freeman	60473	X		X		X				Oppose	The proposed toll increase appears to be driven by the propensity of politicians to jump towards charging more to the general public as the only viable solution. I'm not convinced that an increase is needed.
07/10/26	Ben Aldridge	60074	X				X			Lack of tolls.	Oppose	How about removing the toll booths all together which is how the tollway was sold to us in the first place. You are already stealing enough money from us.
07/10/26	Sarah	60506	X		X		X				Oppose	It's already getting to be too expensive. Other states manage to have well maintained roads without tolls at all. Why can't Illinois get finances figured out without hurting the everyday working man?
07/10/26	Joseph Mateja	60950-3795	X				X			Value for tolls paid	Oppose	Tolls are already ridiculously high.
07/10/26	James Wengerd	60586-6501	X				X	X			Support	Hope you would consider lower rates for seniors on small fixed incomes.
07/10/26	Martin Barrett	60451	X	X		X					Neutral	The projects included in Driving Connections will help modernize aging infrastructure and improve the transportation system that so many Illinois residents and businesses depend upon.
07/10/26	Matthew Punter	60506	X		X		X				Oppose	I should NOT be paying to drive on public roads, it's already too expensive. I do not think you guys need even more of my money when you already do NOT maintain the roads as it is. Illinois roads are terrible and not maintained in the slightest. The audacity you have to propose higher tolls is asinine, Illinois residents already are suffering from the cost of living crisis. Expecting more money out of us is the opposite of what is needed.
07/10/26	Tim klein	60005	X				X			Sno removal	Oppose	The proposed project is a waste of money. A 45 cent toll hike is outrageous. Plus, I would be paying 45cents extra and be subject to years of messed up roads from this project. Absolute opposite if what should be happening. Try msintaining the roads better and keeping them ice free in winter. I would pay a small increase for better roads. I wont oay anything for the 20/7 boondoggle. I will stop taking the tollway if you raise the rates
07/10/26	Richard Perales	60131			X	X				None	Oppose	
07/10/26	Mike Van Heel	60438	X		X				X		Neutral	

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/10/26	linda bishop	60634					X		X	don't need more tool increases or technogogy. Was supposed to be paid off years ago. to be paid of	Oppose	stupid! don't need more garbage on line.
07/10/26	Gabriel Flores	60103	X		X		X				Support	
07/10/26	Linda Fay	60641	X		X		X				Oppose	As a retiree on a fixed income who owns a 2018 vehicle with 35K miles, I don't like the increase. How do you justify that rates will increase every to years? Seemngly everytime I use the tollway there is construction. I am not a regular user..
07/10/26	Elise	60202	X			X				No back-ups!	Support	Seems like a reasonable amount to pay for improvements!
07/10/26	Bill	61350				X	X			Don't charge us	Oppose	Aren't the people of Illinois already paying WAAAYY TOO MUCH in taxes and increases already??, How about some financial relief for us.
07/10/26	Howard Koster	60069	X				X			See below	Oppose	I understand the need for a toll increase, but first I want to know what is the Tollway Authority doing to decrease operating costs, or at lease hold operating costs FLAT? That is an important piece of information to have. Private industry always lets the stock holders know what is being done to optimize the ROI before asking for more money.
07/10/26	Colleen Lewis	60136				X	X			less tolls	Oppose	Ridiculous to have tax payers pay for an increase, address the pensions. I hate living here, will move soon.
07/10/26	Brian Gormsen	60110	X	X	X						Support	
07/10/26	Nicholas Valenti	60423	X		X		X				Support	
07/10/26	Dick Flowers	52732				X		X		The only option	Oppose	Tell your governor to stick it up his fat ass!!! Get the profit from taxing his hotel chain instead.
07/10/26	SUSAN KOPACZ	60041	X		X		X				Oppose	The tollway has become a cash generating machine. Raising tolls when the system is broken is not responsible. Fix your spending problems first. The toll system originally started as a temporary way to keep roads in shape. It has become and out of control spending machine and we pay the price. Stop the madness and put existing money where it matters most. Oppose any toll increases!
07/10/26	Adrian	60706			X		X			This is bullshit illinois!!!	Oppose	This is bullshit! I complete oppose the state getting richer while people like me pay for your bullshit!!!
07/10/26	Kassidy	46311			X	X	X				Oppose	It’s ridiculous to charge more for something already kinda expensive. Why can’t they pull funding from something else, or not do it at all?
07/10/26	Gino Simone	60188		X	X		X				Oppose	Tolls are too high already!!!
07/10/26	John	60007	X			X	X				Oppose	The rates are .very high now. To increase them would cause additional burden on my family. This feels like another tax increase and we pay so much already in Illinois.
07/10/26	David Kukulka	60134	X		X		X				Oppose	Outraged Driver: Strong Opposition to Toll Hikes for Chicago Transit Bailouts Dear Members of the Illinois Tollway Board of Directors, I am writing to express my absolute outrage regarding the proposed 45-cent passenger toll increase and the 30% hike on commercial vehicles.As a motorist, I pay tolls under the explicit agreement that those funds maintain and improve the roads I actually drive on. Forcing drivers to bail out Chicago mass transit—a system I do not use and derive no benefit from—is fundamentally unfair.Subsidizing the CTA, Metra, and Pace with highway tolls amounts to an unjust double tax on drivers. It is not the responsibility of motorists to fund the financial mismanagement or structural deficits of Chicago's transit agencies.I strongly urge the Board to reject these hikes and protect Tollway revenue for its intended purpose: maintaining safe, efficient roads for the drivers who pay for them.
07/10/26	Theodore Vatch	60126				X	X		X		Oppose	Increased toll rates are unacceptable in a State that already taxes it's residents more than most States. In all the online information, there is no mention of spending cuts or increased financial stewardship. When the Illinois Tollway began, decades ago, tolls were temporary and were scheduled to end once the system was built. Increased tolls will force folks like me to seek alternate routes. The politicians and non-elected tollway officials need to manage this better.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/10/26	Rosemarie Allen	60657	X				X			Too expensive	Oppose	I thought when tolls were put in they were to diminish payment except a low chage for maintenance. The increases will especially hurt people on fixed incomes & families who are already living paycheck to paycheck
07/10/26		46322		X		X				Easy routes	Oppose	I can barely afford groceries. This is not the time for toll increases.
07/10/26		60532	X				X		X		Oppose	I thought the institution of IL toll roads was to fund education. There is no accounting that education was funded. Plus, IL roads are in terrible shape while WI and MI roads are in top condition. Toll rates continue to rise and IL roads are not improved. I do not support this toll increase!
07/10/26	MaryBeth Crum	60004	X		X		X				Oppose	I understand that the monies are needed to repair the roads. But the original purpose for the Tollways was to use those funds until the roads were built and then to stop. We have very few freeways in Illinois. You've taken most of those away. A raise in the tolls is fine, but a raise every year is ridiculous. I would like to see exactly where those funds go? We are not provided with that. And our roads are constantly under construction. One project finishes and another one starts. It's difficult for me, on a fixed income, to keep justifying these large increase with them going up annually.
07/10/26	Molly Meade	60014	X		X		X				Oppose	Please don’t make this more expensive than it already is.
07/10/26	Brenda Moore	61016	X	X		X					Oppose	Do not raise the tolls! They are too expensive already!
07/10/26	L. Gade	60487	X				X			The toll road was supposed to go to freeway after a period of time but all the counties have done is continuous increases.	Oppose	I believe you should keep the rates where they are. It is not very affordable for most families as it is.
07/10/26	Dan Pianetto	60540			X	X	X				Oppose	I feel like I should get full speed limit driving for what I pay. There should be NO traffic, NO years of constant construction, just driving at the speed limit. In 20 years in Naperville I haven't experienced a single delay free trip. I haven't ever avoided traffic. This is as a daily driver. It's ridiculous.
07/10/26	Greg Reilly	60601	X			X		X			Support	
07/10/26	SARKIS YACOUB	60016	X				X			Saving money	Oppose	No more toll increase! You’re making enough money now to pay for anything you need to fix. People are tired are getting nickel and dimed. Stop it!
07/10/26	Juan Reyes	61109				X	X			To know the tollway is always there when i need it but can use all the time because of high tolls.	Oppose	People are struggling already to make ends meet. Its hard to pay tolls already as it is. Gotta choose whether its worth using the tollway system everyday or not. Those 45 dollars a week could be going towards my kids education, food , or rent. Hate to ask myself everyday if I should use the tollway system or not.
07/10/26	Ben Pearthree	60615			X	X		X			Oppose	This project highlights the benefits of reducing congestion and improving drive time. Given that the tollways in Illinois are outside of the city of Chicago, how does this project improve conditions inside the city to prevent bottlenecking traffic at the city line?
07/10/26	Joanne Meier	60423	X		X					I only had 2 choices but survey is requiring 3, and I don't really believe the ones I picked.	Oppose	It's absolutely ridiculous that you want to increase fares. They are already pretty high for roads that are constantly under construction and dangerous, and I think a lot of people will start looking at alternate routes that do not involve tolls. I already do that somewhat, but will be much more conscious of it in the future.
07/10/26	Heather Weigel	60477	X			X	X				Oppose	
07/10/26	Margaret	60006	X			X	X				Oppose	Wisconsin has no tolls and better roads. How much more pain Illinois is going to impose on people. There is no end.
07/10/26	Teri	60073		X	X		X				Oppose	The rate is already too high. No increases. The tolls were suppose to only be temporary!!
07/10/26	Rachel Phelan	60124			X	X	X				Oppose	It's already too expensive with gas prices, and it is highly unlikely you will ever complete the current projects within a timely manner, let alone that this will be a worthy investment.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/10/26	Aaron Rose	60462	X		X					Not getting stuck in construction.	Oppose	There is not enough pressure to force construction to finish faster. I don't mind paying more for tolls, but construction adding an hour to my daily commute is ridiculous. I feel that if we restricted the tollway to not charging tolls within a certain distance of construction (3 miles?), it would motivate them to speed up construction.
07/10/26	Michael Lazzaretto	60025	X		X		X				Support	Our tollways are great compared to others and we should keep it that way. Investing in roads and bridges is an investment in Illinois' future. The Driving Connections Capital Program will improve safety, strengthen our economy, and create opportunities for hardworking Illinois residents.
07/10/26	James Norwood	61073	X	X		X					Support	
07/10/26	Shafiq Rehman	60440	X				X			NO TOLL	Oppose	The rates are very high now for people who are retired and on fixed income. These tolls were supposed to end after the cost was recovered. but you keep increasing the toll which was supposed to end. I OPPOSE.
07/10/26	Martin Williamson	60475					X		X	Use better materials when rebuilding roads.	Oppose	Tolls should be higher for commercial vehicles, especially semi trucks. Tolls are high enough already.
07/10/26	Denise Tibbetts	60033	X				X		X		Oppose	The cost of driving on the toll roads is already too high. You need to stop the wasteful spending in government. I don't think the people making 6 figures need more raises, in government. People on disability, that need to take the toll roads for doctor appointments, can barely afford it now. This is greed
07/10/26	Travis Tyrpal	60189	X			X	X				Oppose	You guys as a state already screw us on property taxes and gas, and now you want us to pay more to use tolls, which are already some of the highest in the nation. Every highway is always under construction, traffic sucks no matter where you go. Absolutely not. Do not increase our tolls. Fix the roads that already are under construction and then maintain the pot holes. We do not need a huge project that will take decades to finish and screw us more.
07/10/26	Jayne Stabenow	60525	X				X			The increases are not needed	Oppose	No new increases to tolls.
07/10/26	Jimmy Gholar 60649	60649	X		X		X				Neutral	I agree with local 150
07/10/26		60126	X			X	X				Oppose	
07/10/26	Emily Rodriguez	60188				X	X			These are leading options. Only allowing the user to select 3 option purposefully imposes a “supportive” response.	Oppose	I-pass was supposed to be a temporary measure. To say that our taxes does not support “improved roadways” is a lie. Paying more for the same roads, that are in fine condition, to be redone year after year is a scam. Paving a road in asphalt instead of concrete is a form of planed obsolescence and should be outlawed. It is absurd to even suggest this.
07/10/26	Corey Pomon	60046	X				X			If fixing roads do it right. Same sections always seem to be under construction.	Oppose	You wonder why people continue to exit this state? Mismanagement and corruption continue to plague many facets of Illinois government. Shame on you all for even considering this proposal. Vote No!
07/10/26	Sam M.	60540	X		X		X				Oppose	With thousands of cars constantly on a daily basis going through the toll booths daily, every sing one of the proposed raises should be opposite, they need to go down, just like everything else, there is no call for an increase except for monetary greed. All of this is un needed. Just fix the roads and lower the tolls, it can be done.
07/10/26	Bruce Reynolds	61761	X				X			Enforcement of traffic laws.	Oppose	I SRONGLY OPPOSE and automatic increase or cost of living increases. I believe each increase needs to be justified and communicated to the users. In nearly every case your customers have no choice but to use the tollway and will be held hostage to pay more without recourse.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/10/26	Ann Schlott	60423				X	X		X		Oppose	
07/10/26	Steve Holowicki	60148	X				X			Keep toll costs at same level. Use AI to streamline costs of Illinois Tollway.	Oppose	
07/10/26	James Vercillo	60137	X		X	X					Support	I feel it is very important to keep our tollways and roadways maintained and up to today's standard of driving.
07/10/26	DONALDSON	46375			X	X	X				Oppose	When these first started, you said after the construction costs were received, the tolls would go to education. What ever happened to that promise?
07/10/26	Lisa Mikita	60120	X				X		X		Oppose	I drive the Illinois Tollways every day. The proposed increase will more than double what I am currently paying. Gasoline is already way too expensive, as well groceries and every day items. I cannot see any reason to raise the prices other than greedy politicians and toll authority personnel. The price increase is way too high. DO NOT INCREASE THE TOLLS.
07/10/26		61615	X		X		X				Oppose	Demonstrate good fiscal discipline, balance a budget, and stop taxing Illinois residents to death.
07/10/26	Dave Odman	60177	X		X		X				Oppose	Tired of people making millions of dollars each year. Illinois tollway pays way too much money to upper management
07/10/26	Vicki Thome	60656		X	X		X				Oppose	We are already paying way too much for our tollways. Shouldn't commercial vehicles pay more than passenger vehicles?? Large companies who are using our roadways to move of their goods should be paying more than every day people who are using it to get back back-and-forth to work.
07/10/26	Lamar Smith	60654	X		X		X				Support	We need to maintain and continue to make roads safe
07/10/26	Denise Rosby	53704-1469			X	X	X				Oppose	
07/10/26	Jose Escamilla	60459	X		X		X				Oppose	There is always an increase results come in for never
07/10/26	james slenk	+60542	X			X	X				Oppose	Are we not taxed enough in this damn state, no more taxes. How about you politicians stop spending so much on stupid stuff and deal with what average people deal with.
07/10/26	Bri	60108	X			X	X				Oppose	Tolls are already too high!!!
07/10/26	Astrid	60126	X		X		X				Oppose	Poor timing given fuel pricing right now already strapping many people. Toll roads aren't that great in my opinion anyways compared to other states our system is terrible and expensive.
07/10/26	Mary Kay Oldendorf	60491	X					X		Time savings-shorter drive	Oppose	With gas being so expensive and cars being expensive and insurance being expensive I really don't want such an increase in tolls on top of everything. Is t there a way to get the information needed by looking at traffic flow patterns and tracking toll booths and how they are being used and how often. It's great that you are increasing jobs for engineers and other divisions but I really don't want the added expense. I drive the toll ways to save time and gas by driving more direct. I may look for alternate routes if the tolls are going up as much as .40 a toll. I may not save on time but I will save on money. I am taking the toll roads for shopping and visiting not for work.
07/10/26	Timothy Mengler	60014				X	X			lower tolls	Oppose	Don't you dare raise the tools again!! The tolls we currently pay were supposed to go away once the roads were paid for, and yet they linger on decades later. Fix the roads with money from the pocket of that fat ass governor of ours. He is a billionaire, take his money to fix the roads. Don't you dare raise the tolls again!!!
07/10/26	Amir Kalamperovic	60659	X		X		X				Oppose	Oppose. Gas tax is enough. Balance your budgets properly. Reduce your unnecessary spending elsewhere.
07/10/26	Iris Martin-Morris	60446	X		X		X				Oppose	We pay enough. Where is all that Money going is the question I ask. Just that simple. Sometimes you got to go to the drawing board and decide on what needs to be cut be still maintain safe roads. No more money from tax payers.
07/10/26	Gary Russell	53104	X	X				X			Neutral	Safe and reliable roads do not happen by accident. They require ongoing investment and planning. I support the Driving Connections Capital Program because it helps ensure the Tollway system remains safe and efficient.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/10/26	Don	60510	X		X		X				Oppose	MY God we pay the highest per gallon gas tax on Earth, whats that money going to if not the roads of Illinois. Lining the pockets of the idiots who rob this state. What do our gargantuan property taxes fund? Certainly not the roads. You want to raise tolls for the love of God we arent overtaxed enough????? You have to be brain damaged to ask for comments about this.....we are taxed enough how about giving us a break for once....oh right we dont live in fantasy land...
07/10/26	Raj patel	60016	X		X		X				Neutral	
07/10/26	Karen Mansfield	60123	X		X		X				Oppose	There needs to be accountability for the fees already being paid and a strong explanation as to why they are being raised. Are the moneys being used just for the tollway system or are they being transferred to other systems like Metra to meet their budgets?? No increase on tollway fees to support other systems/projects!!!
07/10/26	NOE CHAVEZ	60403	X		X	X					Support	Infrastructure projects create family-supporting careers while delivering long-term benefits for the public. I support the Driving Connections Capital Program because it invests in both workers and the future of Illinois.
07/10/26	Gary Ottaviano	61008	X	X			X				Oppose	45 cents increase is way to much per toll I feel it should be.20-.30 cents to make it more affordable.The state should have to pay way more and the residents should only pay the bare minimum,a lot of people won't be able to afford a .45 increase at each toll.maybe the state should let tolls be deductible on taxes to offset the cost
07/10/26	Maisha Carter	60546	X		X		X				Oppose	I've traveled the toll between Chicago and Cleveland for years...as well as using the toll around the city. I have I-Pass and don't always feel the benefit or having a lower rate. The rates have climbed exponentially over the years. That particular trip used to cost me $13 total in toll fees. Now $13 barely covers 2 tolls. I am not in favor of ANY increases. Please find the money elsewhere. There is a lot of government waste on the state and local level. We don't need to carry anymore burden especially when money is there but wasted and not managed efficiently.
07/10/26	Philip Doyle	60010	X		X		X				Oppose	when i moved to Illinois in 1976 the tolls were in most cases suppoused to be temporary,that was bogus and they have only gone up in price . Our corrupt pollitions in action!
07/10/26		60115	X		X		X				Oppose	
07/10/26	Thomas	60451	X	X		X					Support	I am proud to support the Driving Connections Capital Program. Strong infrastructure is essential to a strong economy, and this program will help ensure that Illinois remains competitive and prepared for future growth.
07/10/26	alfred Charles petersen	60089		X			X			no tolls	Oppose	no more tolls shut down the toll collection
07/10/26	Thomas	60481		X	X	X					Support	The Tollway is a vital part of our regional economy. Continued investment through the Driving Connections Program will help support businesses, commuters, and working families across northern Illinois.
07/10/26	Aliya Hasan	60123					X		X	NOT EXPENSIVE TOLLS	Oppose	The tolls were supposed to end when construction is paid off. At this rate, that will never happen bc IL is taxing the pants off its residents. No one will use toll roads anymore if this goes on. Already Elgin OHare is avoided by most people. Do not raise the toll prices. The average IL resident is struggling to pay their bills with inflation, you want to add tolls? Then they'll stop leaving the house too. Good luck on your economy IL
07/10/26	Jeff	60004	X			X	X				Oppose	Smaller increase
07/10/26	Geno Savegnago	60188	X		X		X				Neutral	
07/10/26	Dan Indelli	60538	X		X					You people keep losing taxes that's it	Oppose	One for you nineteen for me , cause I'm the text man !! 🎶 🎶
07/10/26	Tina Milianti	60451	X	X	X						Support	I am proud to support the Driving Connections Capital Program. Strong infrastructure is essential to a strong economy, and this program will help ensure that Illinois remains competitive and prepared for future growth.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/10/26	Lisa Maxwell	60305	X		X	X					Neutral	There is not enough information provided at this time to provide any valuable feedback. I only see a bunch of wish list items/recommendations from SAT. The only specific detail I see is the anticipated toll amount increase. I'm not sure how you can set a new rate when the details of what changes at what cost those increases will be funding. Sure would have been nice to have a link to a summary of the plan with details to evaluate.
07/10/26	Brian Stapleton	60565	X		X		X				Oppose	before you ask for more money how about you first provide a clear picture of where current toll collections are being spent? please show a detailed balance sheet for all funds collected since induction of the “temporary” toll system.
07/10/26	Christina Dabros	60442			X		X			Not paying to drive on a road	Oppose	I think it's ridiculous.
07/10/26	Cheryl Cho	53092	X		X		X				Oppose	I'm from Wisconsin....how much do Illinois residents pay to drive on our roads??? Nothing! Would love to have that courtesy extended to us as I see tons of IL plates on our roads.
07/10/26	Cynthia Galarza	60439	X			X	X				Oppose	With higher than normal inflation, with no end in sight this will put more of a strain on working Illinois families. Please stop increasing and passing charges to the tax payers of Illinois, we pay enough
07/10/26	Michael Skwira	60459	X		X		X				Oppose	Will you be providing Vaseline before you slip it in this time?
07/10/26	John Witruk	60126	X		X	X					Support	The constant upkeep and repair to our roads and bridges is the most important thing in Illinois right now
07/10/26	Jay patel	60016			X		X	X			Oppose	$0.45 per toll is very high increase as income hasn't increased by that much.
07/10/26	Ron & Brenda Hershberger	61101	X		X		X				Oppose	First, I feel that any tax (toll) should be on a ballot put to the vote of the citizens, not determined by a board that does not represent the view of all people. Second, the toll proposed for autos, 45 cent increase per toll collection point is too high and it penalizes commuters who must drive the toll road regularly. I would suggest that IPass holders, which in most cases would be commuters, continue the current toll cost, and not be charged an IPass enrollment fee. Finally, all fee increases should be paid by non-Illinois travelers who use the roads, with 18-wheelers fees increased 40% rather than 30%, since they cause much more destruction to the road surface.
07/10/26	Armando H. Cazares	60033	X		X	X					Support	As a Local 150 member, I know firsthand the importance of investing in transportation infrastructure. The Driving Connections Program will improve mobility, create jobs, and strengthen communities throughout northern Illinois.
07/10/26	S. R.	60456-1145	X		X		X				Oppose	Quit passing the burden on the already over-taxed citizens. It's way too much of an increase in tolls.
07/10/26	Vlad Kleper	60062	X				X			Frugal use of the available resources	Oppose	The amount of money already being collected + prudent use of the available funds is all that is needed for well maintained tollways. Other states can do this, why not Illinois?
07/10/26	Jennifer Houlne	60148	X				X			Affordability of major roadways	Oppose	They promised we’d be 'Toll-Free by ’73.' Instead, Illinois drivers have paid billions. Stop the historic toll hike and honor the original intent of our highway system.
07/10/26	John Bellandi	60554	X		X		X				Oppose	Love how you omit the percentage increase for passenger vehicles when its in the neighborhood of 60% How do most of the other states maintain much better roads with no tolls???
07/10/26	Ken Mihavics	60010	X				X			Less days of construction.	Oppose	Outrageous. We already pay sky high taxes here in Illinois. Income taxes, sales taxes, real estate taxes, utilities taxes, etc. People are voting with their feet. Another problem: we drive for miles through construction zones and typically see one or maybe two groups of workers. Horribly inefficient and maximally disruptive way to run these projects.
07/10/26	Jeanette Ray	60542	X		X	X					Neutral	The IL Tollway should publish actual and estimated cost and revenue data for public viewing in order to provide complete transparency. This data should be published for the past several fiscal years and for the proposed capital plan. Without this information, how can the public support or oppose the proposed plan? How has the Tollway been able to solvently operate for the past 10 years without toll rate increases? Did the capital plan consider phasing in the toll rate increases over time and if no, why not? Is the addition of carpool lanes being considered in the capital plan and if no, why not.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/10/26		60423	X		X		X				Oppose	Illinois is robbing me blind. Please stop taking my hard earned money!
07/10/26	Amber Story	60656			X	X	X				Oppose	Stop messing with the roads. you just need to be focusing on making sure that the road staying good conditioned by doing repairs. enough, with the giant construction that lasts for years and causes so much traffic and costs us so much money in gas and tolls. the past 6 year has been awful. and the jobs are not even done yet. traffic is Horrible because of it and tolls are already too expensive. Just STOP messing with things and just maintain!
07/10/26	Guy Monteleone	60101	X				X			more state police on the highways	Oppose	you people are taxing Illinoisans to death. this is upright fraudulent to the American taxpayers. You want to raise money? get rid of the illegals and save 14 billion a year. You are driving us from our homes and we can longer afford to live in Illinois. 90% of my family left and I will be leaving soon too. This is communism at its best. This is the worst corrupt state in the country.
07/10/26		60124	X		X		X				Oppose	Tolls are intended to function as a user fee, not a general tax. Drivers who use toll roads already pay extra for those specific roads, while motorists on non-toll roads do not. Raising tolls across the board to fund unrelated statewide road projects effectively requires one group of drivers to subsidize infrastructure used by everyone else. If additional funding is needed for the entire Illinois transportation system, it should come from broad-based revenue sources that distribute the cost more equitably among all taxpayers and road users, rather than placing a disproportionate burden on toll road users.
07/10/26	Matt Walick	60447	X		X	X					Support	I support the proposed rate increase. I drive the tollway every day and it is important to me that the roads are safe and maintained
07/10/26	Monica	60103	X				X			FREE	Oppose	This state is outrageous with the amount of toll locations it has in Illinois. Many people including me hate it. I avoid the highway as much as possible where there are tolls and there are many, many people that do that. I use the google maps feature of always avoiding tolls. I don't mind driving the extra 5-15 min just to avoid the tolls. People are over it already, constant increases in tolls and the roads are no where near perfect as they should be with all the toll money they receive. Roads/highways are bad, with pot holes or patches everywhere. Look at Wisconsin, they have better highways and NO tolls. I travel there frequently. How do they do it? Maybe Illinois should take some pointers from them. Semi-trucks and cars drive there everyday, so blaming them makes no sense. IL has a spending problem. Where has the money gone from all the tolls they've collected over the years, no one knows, but definitely not into fixing or repairing the roads. I oppose this proposed toll increase. All we ever hear is increase, increase, but never decrease in spending. More and more people will avoid the highways, we pay enough as it is already. This needs to stop. I live by route 390 (the most expensive 9.8 mile tollway in America) and every year come January 1st the tolls have gone up. Signs would always be put up in December of the previous year to inform of the changes coming January 1st. I have completely stopped travelling there for this reason. This has gotten out of hand already. Stop the increases.
07/10/26	Chris Schultz	60050	X	X		X					Neutral	
07/10/26	Dominick Vespo	60140	X			X	X				Support	Hello, I drove on theJane Adam's tollway since 1979 from #47to airport area through multiple constructions. The best one being About 15 years ago when they expanded the lanes east and west of the Fox River. It's a privilege to drive on that tollway. Especially in the wintertime, you could almost eat off of that road it was so clean I didn't have to worry about getting an accident stopping every mile for a traffic light. It's wonderful, I retired six years ago, but I still use the tollway keep up the good work.Yeah you guys are doing awesome
07/10/26	Jon	60074		X	X		X				Oppose	Tolls and taxes are too much in illinois
07/10/26	Jon	60074				X	X		X		Oppose	No toll increase

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/10/26	Gina Ahern	60137			X	X				No more horrific construction clogging every road in the Chicago area	Oppose	Stop raising tolls and start managing the money you already collect. Illinois residents already pay high income taxes, property taxes, sales taxes, gas taxes, vehicle registration fees, and countless other taxes and fees. The cost of living in Illinois is already too high, and higher tolls are another regressive burden. Our reward for paying more every year seems to be endless construction, dangerous work zones, stressful commutes, and countless hours of lost productivity. Balance the budget, cut unnecessary spending, and maintain the roads we already have before asking drivers to pay even more.
07/10/26	Robin Cichy	52002	X			X		X			Support	Maintenance of roads and bridges is critical, so it makes sense that rates will be increased.
07/10/26	sandy	60634	X	X					X		Oppose	they always say that these increase go to repair roads then how come our roads are so bad. it was also supposed to help the education funds neither are happening
07/10/26	Mary BrowningSmith	60067	X				X			Clear roads - no forever construction	Oppose	Our tolls have been raised too often and I don't see the roads getting completed.
07/10/26	Cary Estes	60554			X	X	X				Oppose	A huge factor on whether or not I can keep my job is the amount of money that I spend on gas and tolls a toll increase would significantly hurt my families already strap budget. It is very expensive for me just to travel to and from work and if the toll price goes up much more, I don't think I could continue to take the tollway. I would have to take other routes to avoid this increase. Families are struggling so much with high gas cost, and tolls that this would be devastating. I also really worry about the extra cost for all the trucks that are on. We'll just end up never absorbing that extra cost. They will pass that on to goods and services that all people in America that are coming to Illinois are using.
07/10/26	karen reynolds	60120	X			X	X				Oppose	Elgin O'Hare now 390 is the shortest road yet most expensive! I 90 is forever under construction! Salt erodes the pavement! Never ending cycle. We use sand out west in the mountains! Guess what are roads are always passable and FREE
07/10/26	Terry Haars	61254	X				X		X		Oppose	It was stated less drive time and get to designated destinations faster. The speed limit is still the speed limit.
07/10/26	Robert Buchholtz	60124			X		X			Not paying tolls and less illegals with CDLs	Oppose	We were promised that the toll way system would be temporary when first implemented and here we are facing nothing increase. It has become a massive bureaucracy that needs to be ended. I'm currently paying 5 tolls per day when traveling to work and have reached my limit financially. If this increase is implemented i will discontinue use and extend my drive time as i simply can't afford this state anymore. This is ridiculous. Do not increase the tolls!!
07/10/26	KaRon O'Neal	60620	X				X			Nor being railroaded into paying for streets that aren't really better	Oppose	This is ridiculous!! Stop trying to squeeze every penny out of Illinoisans in the name of "upgrades". The corruption in this state is the reason why so many are leaving!!!
07/10/26	Tim Brown	60447				X	X			Affordability	Oppose	STOP RAISING RATES!!!!
07/10/26	Debra Salvi	60047		X	X					This survey is designed for skewed data	Oppose	I wouldn't mind paying for road improvements if I could trust Illinois politicians to spend wisely
07/10/26	John Dierberger	53209				X	X			Lower tolls	Oppose	At its inception we were told the tollway would pay for itself (wink, wink, nod, nod) in a few years....Since it paid for itself where has all the money gone since? Seems it's been under construction forever. Road seems fine now. Let's leave it for a while and reduce the tolls to help the users. Learn from Wisconsin...great roads & never a toll !
07/10/26	B Themanson	61462	X		X		X				Oppose	The state of Illinois is all about raising taxes for everything. When does it end! The average person will not be able to afford to live in this state. No wonder people are leaving. Politicians needs to get their act together and stop wasting the taxpayers money and stop raising taxes.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/10/26	Laura Kevin	60638	X				X		X		Neutral	I understand that tolls fund Illinois roads, along with federal $. We get what we pay for. However, the historic & unaddressed corruption & nepotism in Illinois, Cook County, & Chicago has led to excessive taxation for decades vs common sense governance. Understandably, Illinois residents are sensitive to more taxes & increases in fees. Government agencies typically overspend & don't find critical efficiencies to protect taxpayer $.
07/10/26	Bc	60410	X		X		X				Oppose	I oppose the increase it is not needed. How much more money do you need to steal from hard working people? This is ridiculous
07/10/26	A Warnock	60152	X			X	X				Oppose	This is a ridiculously high increase for tolls. Illinois continues to tax higher and higher on every front. One more reason to want to leave the state
07/10/26	Amy Lashuk	53593	X		X		X				Oppose	The prices are ridiculous to begin with and to raise them again is asinine!
07/10/26	Allen Stultz	61068	X				X			Less tolls	Oppose	As a tollway user I feel the amount of tolls charged ipass users and other vehicles is excessive as is. I oppose any increases. Its time to stop trying to milk people more and more in illinois. Taxes are expensive enough in this state one of the highest taxed states in the country and they always want to increase everything they can. I say enough is enough. Use the money wisely you are collecting. The solution isn't increasing tolls more and more. No wonder people are leaving this state with these increases in tolling and taxes. This plan thats proposed is ridiculous Dont Raise Tolls.
07/10/26	Eric Langer	60067	X				X	X			Oppose	It's hard for me to understand how we got here. The tollway was supposed to go away once the roads were paid for. How many times over have we paid for these roads? Now we are paying for a bloated system? I work 3 jobs, rent, and barely make enough money to break even. I'll be in support of toll increase when everyone outside of the essential workers are volunteering their time. Pay the construction crews living wages. Administrators taking home multiple six figure salaries? You are criminals, you should be jailed. Let me know when this happens, and if there still needs to be a toll increase. Until then I do not support a toll increase that is basically to pay for bloated administration. Disband / trust bust the tollway.
07/10/26		Y	X		X		X				Oppose	It would be highly beneficial to implement open road tolling for ALL tolls. Toll booths cause immeasurable issues, delays and frustrations, not to mention an increase in need for additional attendants and wages. I travel between Indiana and Illinois 4-6 times per month but due to the inefficiency of the existing tolls booths between Illinois and Indiana and the increasing rates, I have completely avoided the toll road. If the increased rates supported the implementation of open road tolling, I may reconsider taking this route again.
07/10/26	Charles	60051			X			X	X		Oppose	This is unconstitutional illegal and unenforceable the constitution states that every citizen has the w to TRAVEL WITHOUT FEES DELAY INTERFERENCE OR INFRINGEMENT
07/10/26	Michael Wilson	60525	X		X		X				Oppose	
07/10/26		60123				X	X			99	Oppose	It's a bit crazy to keep raising prices. What ever happened to the plan to eliminate tolls after a period of time?
07/10/26	Laurenne Arnold	60586	X		X	X					Support	Safe and reliable roads do not happen by accident. They require ongoing investment and planning. I support the Driving Connections Capital Program because it helps ensure the Tollway system remains safe and efficient.
07/10/26	Prentice Arnold	60586	X		X	X					Support	As a member of IUOE Local 150, I support the Illinois Tollway's Driving Connections Capital Program. These investments help maintain and improve the roads and bridges that millions of people rely on every day while creating opportunities for skilled construction workers.
07/10/26	Robert Fanelle	60803	X		X	X					Neutral	
07/10/26		60660	X				X		X		Oppose	
07/10/26		60103	X		X		X				Oppose	How about lowering the tolls instead? Increasing the toll fee will definitely decrease the traffic and reduce wear and tear from vehicles.
07/10/26	William Beckman	60477				X	X			not always under construction	Oppose	raising tolls to continue perpetual construction projects is unacceptable! Why is it that non-toll roads need maintenance less frequently than toll roads? Now that you have substantially reduced payroll costs at toll booths, you should be lowering tolls.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/10/26	Lolita Del Vslle	19154	X				X	X			Oppose	
07/10/26	Ronald Duoss	47356	X		X		X				Oppose	Living in Indiana and traveling through your state I will do everything possible to avoid your state as possible!! I don't trust it to even stop for gas because of so many Illegal undocumented aliens that reside in your state!!!! You keep Raising the price to other individuals because your governor has given all your money away to illegals!! All prices are bad enough as it is now-but now you want working class Americans to pay for your illegal welfare aliens!!! All the while they get free what we have to work for!! What a-shame cannot submit a comment because triangle that doesn't exist , keep up the great work govenor!!
07/10/26	Robert March	60453	X				X			I mean really what's the point of even putting an opinion out there because you're going to raise the tolls regardless the toll road makes plenty of money to maintain the roads you go to any other of these states like Kentucky. They build the roads they take down the tolls not Illinois you crooks just can't get enough money in your pockets. this whole state is corrupt a bunch of crooks. The toll road is corrupt along with the state of Illinois.	Oppose	The amount of money you make in a single day on the toll road just from commercial vehicles is absolutely ridiculous and then you wanna raise the tolls for the cars. Do you think people are stupid you people cannot get enough money. It's all about money money money you got rid of all the toll boots yet every single year in January you raise the tolls for commercial motor vehicles and you can't even ship anything cause it's so goddamn expensive yet you want to raise tolls bullshit.
07/10/26	Brian Hendricks	60103	X		X		X				Oppose	Stop easing everything
07/10/26	Todd	60073	X			X	X				Oppose	Increasing tolls will further contribute to the financial burden citizens must pay and will lead to drivers avoiding toll roads, further reducing revenue for Illinois, or worse, moving out of Illinois, bankrupting the state. Illinois residents and drivers already pay too much in taxes and tolls! Stop the financial mismanagement!
07/10/26	Pamela Knowski	60491			X	X	X				Oppose	In a world where nothing goes down in proce, just no
07/10/26	Jeffrey Simmons	61032	X				X			I'm a truck driver as well as an I pass user on personal vehicle	Oppose	Not interested in being robbed while driving semi for work. Or being robbed while driving my personal vehicle
07/10/26	Dale Majcina	60441	X		X		X				Oppose	I only oppose not because of the rate increase to the tollways but just the excessive cost to live in this state from real estate taxes to tollways. I'm in a small townhouse and I'm I'm paying over $14000 in taxes. I have a small retirement program on top of my SS but it's still hard to save for these taxes. It also takes away from things we could do now that we have retired. I know that this won't get read as well as non commented on. It has to stop somewhere and sometime. I am not earning money now but do I go back to work now that I'm retired and 70 years old?

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/10/26	JAYE L SUTPHIN	60510	X				X		X		Oppose	Sometimes these "improvements" take too long. Creates backed up traffic. Delays, more time to get to work, to get home... quite a different picture than you're trying to sell us. Yes - it does keep K5 busy, and the usual contractors, Im pretty sure we've funded their pensions. Holes in the road Has to be kept up with... and the rich drivers in their fast cars need to go to jail. The ones who are not in your rear view mirror one nano-second and then practically out of nowhere are taking off your front passenger fender... we need more cops... not more exit ramps...
07/10/26	Thomas Yun	60016	X		X		X				Oppose	
07/10/26	K g	60103	X				X		X		Oppose	The increase is significant and the roads are not maintained as you would expect them to be
07/10/26	Bob	60440			X		X			Stop leaving construction horses and other construction material in areas if you aren't going to work on stuff for months. It causes more traffic	Oppose	I pay too much to live in Illinois. This sounds like a ploy to just raise rates. I'll probably be dead by the time it's even close to finished and I'm not that old. All construction projects in Illinois somehow take way longer and end up costing triple than the proposed price and who foots the bill then? It ends up coming from the residents. Tired of money mismanagement.
07/10/26	Thomas Van Cura	60450	X		X	X					Neutral	As a member of IUOE Local 150, I support the Illinois Tollway's Driving Connections Capital Program. These investments help maintain and improve the roads and bridges that millions of people rely on every day while creating opportunities for skilled construction workers
07/10/26	Chris	60561			X	X	X				Oppose	We pay too much already as Illinois residents. Stop trying to come up with creative ways to raise rates and make us pay more. I don't trust any construction projects in Illinois. They never go as planned. Delay after delay and always never close to the initial amount of money.
07/10/26	Greg Smith6	60074					X		X	Lower tolls	Oppose	A 30% increase at a time when gas and inflation are really high is a horrible idea. It's so wrong. A mandatory tax increase is not respectful, and will increase congestion on un-tolled roadways.
07/10/26	Aaron Ocana Duran	60073	X				X		X		Oppose	Better road conditions and fix all pot holes before asking for an increase.
07/10/26	Omar	60133	X				X			Stop using money for other stuff than the roads	Oppose	Just because y'all have bigger plans to make it don't mean the ppl should pay. Ask Chicago's ORD airport that's why you made it.
07/10/26	Elizabeth Probst	60005					X	X		None of the above	Oppose	Oppose! This is unnecessary. I use I-390, I-355, and I-390 all of the time, there's no congestion at the iPass areas. Any traffic is due to other reasons (e.g., airport) that these measures would not influence.
07/10/26	Linda Sherony	60031	X			X				Is the tollway owned by the USA?	Oppose	Is the tollway owned by the USA?
07/10/26	B Gallic	60586	X				X			Less toll prices	Oppose	Absolutely not! What, so we pay more for more construction to not be completed for another 15-20 years? This state and government is so corrupt it's disgusting. "Help maintain roads" you haven't done that in 40 years and have raised the tolls since then, so what's going to change now? How all of a sudden are they going to do It?
07/10/26	Lady Tricia Dieringer	60120				X	X			I can only select one.	Oppose	It is hard enough to try to make ends meet without increases everywhere in Illinois. Increasing the tolls makes it more and more expensive for me to visit my relatives in Wisconsin. I do not see where all the toll money has gone. It doesn't appear to ensure a more drivable tollway.
07/10/26	Thomas A Credit	60181	X	X		X					Support	As a Local 150 member, I know firsthand the importance of investing in transportation infrastructure. The Driving Connections Program will improve mobility, create jobs, and strengthen communities throughout northern Illinois.
07/10/26	Michelle	60142					X		X	Affordability	Oppose	Just stop with all the rate increases, new taxes etc.. this state is bleeding everyone dry. No wonder so many are fleeing IL, it's not affordable to live here.
07/10/26		53718	X			X	X				Neutral	For passenger vehicles, the increase in toll should not be a flat rate increase. Instead, it should be a percentage based increase.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/11/26	Vijay Rochwani	60016	X		X		X				Oppose	I think our roads are better than other states. I don't think we need to improve them. I oppose this plan and increasing the toll price.
07/11/26	David Librandt	60103	X				X			No more tolls	Oppose	The state has raised enough with taxes on gas for the roads and now your trying to raise the toll rates and say it going to be used for roads to. When is enough is enough. You are just killing the middle class with all of this
07/11/26	Michele Krafve-Jones	60490		X	X		X				Oppose	I cannot afford to live anymore.... Electricity, water, food, gas, and now toll!!!!
07/11/26	Cathy W	60084	X				X	X			Oppose	You can keep costs in check and still keep the roads well-maintained. It takes some effort. Please make that effort. It's easy to kick the accountability down the road for someone else to deal with. Please do the work now to keep the budget in check.
07/11/26		60053	X	X		X					Oppose	I like many others will look for alternate routes to avoid the tolls. Terrible for big business.
07/11/26	Antoinette	60305	X				X			Construction project that do not linger & constantly disrupt the flow of traffic	Oppose	15 years is a long time especially since some of the tollways already have large projects going that never seem to end. So while the idea is to save time in traffic for 15yrs± traffic will be a mess making travel times longer. Also to make the consumer pay for this that I am sure no consumer asked for is unacceptable. Maybe the focus should be on completing the current projects & using quality materials so the roads do not need to be repaved so frequently. An increase of .45 will significantly impact my travel cost as most of my tolls now are $1.90 - $3.00. So no with an increase, I will find other ways to get where I need to go.
07/11/26	Kevin g owens	60477-3615	X	X	X						Support	This will be a great help with congestion and creating more union jobs and helping everyone get home safer everyday
07/11/26	Paul Beierwaltes	60517	X		X		X				Oppose	The increase proposed at basically 50% per toll is completely out of line. Based on the surplus that's been accumulated for years no increase should be needed nor is wanted. However, an increase around 10% at most would be acceptable.
07/11/26	John	60110			X		X			Go fuck yourself	Oppose	Go fuck yourself, we pay enough already.
07/11/26	Theresa M	60451	X		X	X					Support	I am proud to support the Driving Connections Capital Program. Strong infrastructure is essential to a strong economy, and this program will help ensure that Illinois remains competitive and prepared for future growth.
07/11/26	Adrian Rivera	60124			X	X	X				Oppose	This is getting out of hand with how much we're paying to use these damn highways, about to start planning better and use alternate routes. Yall gotta do better!
07/11/26	Michael Scheffler	60124	X		X		X				Oppose	JB Pritzker and the Dems of Illinois are all ready taxing everyone to death now. We don't need anymore new increases.
07/11/26	Gary Gray	61021	X	X		X					Oppose	Increasing each tollway by $0.45 is unacceptable to me. I will plan accordingly time wise and use back roads for my travel instead if this proposal passes.
07/11/26	James Cornelison	60515	X		X		X				Oppose	Rates are already excessively high without any visible improvements to road conditions or traffic congestion.
07/11/26	Jackie	60188	X		X	X					Oppose	
07/11/26	Ray Hunt	60175				X	X			No tolls. The bonds were supposed to retired years ago.	Oppose	More Illinois big government thievery from taxpayers. The money laundering scheme continues.
07/11/26		60404	X		X		X				Oppose	Illinois residents are already heavily taxed and the state can't seem to manage their budget without continual tax increases.
07/11/26	Tom Schwandt	30639			X		X		X		Oppose	Not in favor of an increase.
07/11/26	Phillip	60563			X	X	X				Oppose	We are one of the highest taxed states in the country how have you failed to maintain roads and other infrastructure when others have made due with less tax revenue? The Illiana expressway would have solved a large number of traffic issues that now exist.
07/11/26	Laurie	60062	X			X	X				Oppose	Driving in Illinois is already expensive. Between gas increases and now proposed toll increases getting to and from work has become prohibitive.
07/11/26	Andrew Boehm	45881	X			X	X				Oppose	Use the current toll money amounts to fun this project or don't do it.
07/11/26	Asif Baki	60137	X		X		X				Oppose	

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/11/26	Hunter	61065	X				X			That's it	Oppose	Raising the price. Won't change anything it will just take more money away from you because I will move if you raise this
07/11/26	William Brown Caton	60468	X		X	X					Support	Congestion in the metro area is an ongoing problem. If this proposal will help elevate the problem, I'm all for it.
07/11/26	Mark	53532	X			X	X				Oppose	Paying for Illinois road tolls is one reason why we moved fro Illinois. Perhaps Illinios state officials should look at other cost cutting measures.
07/11/26	Keith Pruchnick	60008	X	X			X				Neutral	
07/11/26	Mary	60518	X		X					No tolls	Oppose	I was under the understanding that at some point this would no longer be a toll road.
07/11/26	Loretta Fry	53221-1623	X		X		X				Oppose	30% plus increases every 2 years is a huge increase that is unaffordable to many people. Guess I'll be taking the long way around to avoid these costs.
07/11/26	Judy Huguelet	60805		X		X	X				Oppose	Are you kidding me ? This rate increase is ridiculous
07/11/26	Lawrence Kanta	60431	X			X				Only option to get where I am going	Oppose	This is the marketing job to sell the 1.5 billion dollar transit funding bill which redirected road funds to transit basically leaving the collar counties with the bill for public transit in Chicago and no representation on the new regional transit authority, The bill was passed in the dead of night by politicians who knew the RTA was on a financial cliff for years but did nothing to fix it. Politics as usual in Illinois and we are all supposed to be happy we are stuck with the bill?
07/11/26	Liane Bania	60561	X			X	X				Oppose	We pay enough taxes. The gas tax is supposed to assist the infrastructure. The trucks destroy the roads. Limit their drive times during rush hours and it would assist in travel times. If you increase the tolls, which originally were supposed to be temporary- you'll flood the other roadways. Fully oppose
07/11/26	Wayne Van Beveren Jr	60451	X		X				X		Support	I have been an IUOE Local 150 member for 29 years and live in New Lenox. I regularly use the Tollway system and understand how important these investments are to our communities, our economy, and working families." As a member of IUOE Local 150, I support the Illinois Tollway's Driving Connections Capital Program. These investments help maintain and improve the roads and bridges that millions of people rely on every day while creating opportunities for skilled construction workers.
07/11/26	Renee Hill	60451	X			X	X				Oppose	By raising passenger rates by .45 per toll you are making it unaffordable for people to drive on the tollway.
07/11/26	Jim Novak	60068	X		X		X				Oppose	I live in park ridge and work near ohare, only 7miles. I take the tollway home everyday to avoid lights and traffic. It saves about 4 minutes. I pay a toll everyday but if it goes up 45cents a toll I'll start going local because 150 daily is ridiculous. You no longer pay attendants at the gates and the tollway was supposed to be temporary and it's now a permanent fixture in Illinois. The tollway department has enough money to pay for the construction project. You shouldn't ask the public to pay more. There's plenty of travelers everyday. Maybe the bigwigs should take a salary cut to pay for this project.
07/11/26	Luanne	60441	X			X	X				Oppose	While a well maintained roadway is always optimum I can't say I support another rate increase. This is making it feel like the tollway is for the privileged! My routine trip from Lockpock to Naperville round trip is over $15. That ridiculous! I can see where the average or lower income could not pay this!!!
07/11/26	Bill Huchthausen	60126	X				X		X		Oppose	My fear is an increase will push more traffic to other non-tollway roads, causing more congestion. I travel Rt 83 and have noticed more truck traffic with all the current construction. Making taking the tollway more costly will cause more congestion on arterial roads. Also, what happens if the increase doesn't cover the costs? Will the Tollway Authority need to issue bonds?
07/11/26	Karen Lentini	60459	X		X		X				Oppose	I think tolls right now are absolutely too high and a $.45 increase is ridiculous. People that live in Illinois are consistently being robbed and taken advantage of and the poor people driving through Illinois without an Ipass are definitely being robbed.
07/11/26	John Stanwick	60181	X	X	X						Support	The increase is well justified and needed.
07/11/26	Joel Eickemeyer	60126	X		X	X					Support	Please take on the flyover from NB I290 to WB I-90. That interchange needs an update.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/11/26		60123				X	X			Ease of travel	Oppose	Everything else is high right now, please don't increase tolls too. That's just another thing to worry about
07/11/26	Martin Durkan	60631	X				X			Safety	Support	Real investment will separate us from our competing states
07/11/26	Robert Martino	60622	X				X			Not having construction last YEARS while 40 state workers stand around like they a mafia "no show" job	Oppose	The Tollways have remained generating revenue far beyond the need to cover the creation of roads, its expansions and its up keep. They have all but eliminated human jobs from the operational stand point which should equate to money saved. It'll pass for sure, because if voicing public opinion actually matter and votes where taken there is no shot as a collective majority the IL resident public would ever agree to yet another increase in the cost of BEING ALIVE. Sleep tight
07/11/26	Phillip Hass	60134				X	X			No automatic increases	Oppose	You people are out of your freaking minds! You are screwing the people who drive on the tollways who are just trying to get to work and keep a job. And then you decide to set the tolls to increase automatically to screw people again and again without having to take responsibility. The governing bodies of the state of Illinois are run by the worst of humanity.
07/11/26	Jeremy	60067	X		X		X				Oppose	All Illinois does is increase taxes and this is simply another tax increase. If you can't make the money these roads earn today work, then perhaps you need to look for cost cutting and cost savings because I sit in traffic everyday and you are making hundreds of millions of dollars already. Other states have better roads and no tolls - somehow other states have figured it out, but Illinois is corrupt and allows for huge amounts of waste. If Illinois was a company it would have long ago gone out of business due to terrible mismanagement. Pritzger needs to be removed from office.
07/11/26	Jorge Arteaga	55902	X						X	I would like to see more US states involved with the system !	Support	We really like the Illinois Toll way system, we welcome any improvement !
07/11/26	Philip G Stack	60098	X		X		X				Oppose	Then toll way was payed for once and no money was put aside to maintain the system. Rather our politicians just keep raising tolls and taxes to full fil their desires
07/11/26	Roselle Goldstein	60640	X				X		X		Oppose	I believe the increase is too drastic, during a period when gas is extremely high. I would support the increase, if it was smaller.
07/11/26	JOSE CRUZ	60445	X			X	X				Oppose	This will increase my current monthly toll bill of $72, by approximately $44 extra per month (61% increase) to a total of about $116/monthly for a 50-mile round trip ride. Considering how high gasoline, property, sales and other IL taxes already are, I consider this to be overly excessive and ridiculous. Illinois loves hurting the working class.
07/11/26	Charles	60115	X			X	X				Oppose	You people have enough money. The tollways are supposed to go away. You are illegal theft program. You wanna raise our tolls even more you're gonna kill the state thank you governor prick head.
07/11/26	Chris Lincoln	60612				X	X			there is no other reason I feel is needed	Oppose	I am absolutely opposed to any toll increases. They are already too high now.
07/11/26	CW Quanstrom	61443	X				X		X		Oppose	The tollway is already inaccessible to many Illinoisans, making it even more expensive will put an even stronger gate around the region, separating Chicago from Illinoisans even further.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/11/26	Curt Riemer	60564	X		X		X				Oppose	In an effort to control my anger at this issue, I will try to be careful with my comments!!! Those of you who are trying to make this project become a reality, shame on ALL of you, you are sick in your minds!!! You want more money from everybody using the toll roads which were supposed to be paid off many years ago. You are effectively involved in raising consumer prices by raising toll rates, and companies who need to the tollway to deliver consumer goods pay more. And what does our jolly, evil governor do? He plans to divert road money to bail out Crook county transit systems, not fix roads!!! How can you even contemplate taking more money from us? How do you sleep at night, knowing what you are doing is wrong??? NO IS OUR ANSWER, but I already assume you demoncrats are going to follow through no matter what people say!
07/11/26	Michelle Giannetti	60012	X			X	X				Oppose	Another price increase will keep me off the tollways even more. I'd rather stay in the suburbs. The city expenses related to driving are already much too high and traffic is unbearable at most times. I am opting out.
07/11/26	Dave S	60126	X		X		X				Oppose	We want to see a plan to eliminate tolls altogether.
07/11/26		60015			X	X	X				Oppose	
07/11/26	Kristopher Begley	60612	X				X			Tolls were originally created to help spear the projects. Not something that would continue for 30 years. Everywhere you go in Illinois. There's a toll ridiculous.	Oppose	Illinois is a shit state and just another way to exploit it's population. Everywhere you go in Illinois. There's a fucking toll. Ridiculous, but expected from this shit State.
07/11/26	Lisa Behm	60012	X		X		X				Oppose	How utterly tone deaf of you to propose ANOTHER rate increase. Why don't the repairs ever last? You resurface the same roads constantly. Illinois is a hellscape that I cannot wait to leave and that's really sad
07/11/26	CHENGUTTUVAN SURENDRAN	60154	X				X		X		Oppose	I do not want toll increases. We pay enough in Tolls already.
07/11/26	Michael	60047			X	X	X				Oppose	Illinois is already the most taxed state in the country and adding more is a slap in the face to our community. I FULLY OPPOSE this proposal and SHAME ON OUR LEADERSHIP for allowing this to happen
07/11/26	William Verburg	60462					X	X		You slimebags force us to select three choices here knowing only AFFORDABILITY is our concern. NO MORE INCREASES!	Oppose	Illinois Socialist/ Democrats are engaged in Theft and Decrepit.. Pritzger deserves Punishment and Abolishment. NO MORE INCREASES!!
07/11/26	Viann henry	61008	X				X			More affordable tolls	Oppose	You said you have not had an increase in a decade Which is incorrect you have raised tolls to ridiculous prices already ..... where did all that money go ? Oh wait you re allocated the funds to be shifted somewhere else ? And now you're increasing our tolls yet again !!!!!!!!! You have added a toll at every exit !!! How long is a decade to you ? Cause it's not every other year .... They were just increased last year .
07/11/26		60540				X	X		X		Oppose	Tolls are already ridiculously high with some being $2 for Ipass users. This will make Illinois toll roads inaccessible if I have to pay $10 to get anywhere for just one direction. You have plenty of money but spend way to long on current projects and go over estimates times to complete
07/11/26		60148	X		X	X					Oppose	Not paying more taxes for roads that will never get fixed. Use our current taxes towards it. I'll pay extra tax for a Bears stadium but for roads that will never be completed, no thanks.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/11/26	Kathy Schmidy	6-270	X				X		X		Oppose	You realize that local communities will now have increased traffic, road wear and tear and expense of maintaining them because nobody wants to or can afford the cost of and additional.45 PER TOLL. Route 30 is already used frequently by those opposing existing costs of tolls. Many trucks also use route 30. What happened to all the gas tax and the casino income and slot income? While I appreciate roads that are well maintained, I ask you to Find another way to do what you are proposing without raising the tolls. Thank you
07/11/26	Roberta Fox	60069			X	X	X				Oppose	
07/11/26	Nathaniel Gainer	60013			X	X	X				Oppose	How about you don't fucking raise rates? Is this ever a thought that runs through anyone's minds in this goddamn state? How about you live within your means like everyone else? You are literally sucking everyone dry. I've never been involved in a greedier damn state government. It's never ending.
07/11/26	Bill Mitchell	60482-1433	X			X	X				Oppose	Tolls were initially proposed to pay for the tollway. Repairs paid for by grants (tax money). This is theft of taxes in my opinion and I am against the continual fleecing of our hard earned money
07/11/26	ATHENS SPRINGER	60565	X				X			Value for the cost	Oppose	For years the tollway has run a surplus yet roads have been poorly run. There is too much traffic, too many construction zones, and the cost is vastly too high. The tolls were meant to cover the cost of the road, yet we are far beyond that point for decades and there is no value in taking the tollway, especially in tying the cost to the CPI. Are you going to lower cost when people have fewer resources? You should yet you won't. This measure is absurd. Your prices are unjustifiable. Your roadways are poor and quality of service is worse. Illinois greed is all this is. Eliminate the authority and bring in a technology company to manage this efficiently.
07/11/26	Abhishek Rishi	60195	X		X		X				Oppose	
07/11/26	Michael Welch	60515	X				X		X		Oppose	I understand the need to increase tolls to perform capital improvements, but I strongly oppose the automatic yearly increases that will follow. I believe that it is the responsibility of the tollway board to evaluate revenue and expenditures regularly and annually at a minimum. After evaluating revenue and expenditures it could well be that an increase is needed in any given year, but it could also be that no increase is needed or that rates could decrease.
07/11/26	pamela catt	47546	X		X		X				Neutral	I don't use the tollway very often, but yikes on the price increases forthcoming. Glad I don't have to use the tollways much.
07/11/26		60514	X		X		X				Oppose	So disappointing. The tollway program was instituted as a temporary measure to construct the road before becoming part of the roads maintained by IL taxes, among the highest in the nation. Even with the significant existing tolls, 294 is regularly disrupted by construction, lane closures and spots of poor road quality.
07/11/26	Andrea Shivers	60629	X		X		X				Oppose	This is ridicoulous.. Pay more but no human interaction when going through most tolls. The roads are not be upgraded nope so where is this money going towards because it's not the roads and it is definitely not towards an employee salary...
07/11/26	David	60441	X		X		X				Oppose	Tolls are already too high
07/11/26	Sergio G Arreola	60617	X	X						double-deck design (also known as double-decked or double-decker), that carries two decks on top of each other.	Support	New expressway double-deck design (also known as double-decked or double-decker), that carries two decks on top of each other. Chicago to Indiana and Chicago to Wisconsin, Chicago to Aurora
07/11/26	Denise	60154	X			X	X				Oppose	Such a dramatic increase is outrageous. Maybe increase gradually to achieve the 45 cent you ultimately want. A starting point of 15 cent then increase by 20 cent every two years. You need to soften the blow, or drives will stop or reduce the frequency of taking the toll road.
07/11/26	Sarah	60803			X	X	X				Oppose	$.45 added to the already high cost of tolls isn't financially sustainable.
07/11/26	Chris Adams	60431	X		X		X				Oppose	yes, people are still alive that remember the toll roads were supposed to be free once bonds were paid off. Trucks should pay 99 % of any costs since they do the most damage and create rush hour traffic nightmares . Senior citizens driving passenger cars should pay next to nothing . A special transponder could be created for this .

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/11/26	Arnie Herrero	60142	X		X	X					Oppose	
07/11/26	S PATEL	60091				X	X			Affordability	Oppose	Now is not an appropriate time for a major increase. Consider variable rates based on time of day instead. Capping future increases at a set dollar amount is more predictable than indexed to consumer price index. Index to CPI is essentially a blank check. If it must be indexed consider wage growth index not CPI.
07/11/26		60450	X		X		X				Oppose	The proposed toll increase for 2027 is just another tax on an already overtaxed public. Gasoline tax is already outrageous & road conditions are slow to improve if at all. The current administration in Springfield wastes more than enough taxpayer funds to maintain the infrastructure. No toll increase is needed.
07/11/26	Jim	60440				X	X			Less construction	Oppose	How many times have you tried to fix this is issue. Creates more of an issue while under construction. Never solves the issue. Give the people a break.
07/11/26	Gretchen K Sampson	60073			X	X	X				Oppose	Where did all the savings go when you laid off all the tollway workers? You need to relook at your budget and cut expenses before you increase the rates and put more burden on the state
07/11/26	Beth Gordon	60091	X		X		X				Oppose	Tolls were initiated many years ago and were supposed to be “temporary”, according to the legislature. The toll charges have ballooned over the past 40 years. There should be plenty of money from our tolls over the years to fund improvements. Pensions should be ended instead of raising tolls.
07/11/26	Bryan Hamm	60148			X		X			Price	Oppose	As a daily driver the bill at the end of the month is already large. This increase is 60%. I oppose more toll fees
07/11/26	Scott Serritella	46342	X				X		X		Oppose	The Illinois tollway system was supposed to pay for itself many years ago, yet it never did and you even are increasing toll costs once again. Illinois you are really something! That's way so many people like me have left and are leaving. You better wake up and get fiscally responsible before it's to late.
07/11/26	Sean O’Brien	60542	X			X	X				Oppose	Absolutely against this. We are already being bled dry in tax increases and utilities increases. Coming from someone who drives a lot every day for work, and who is already avoiding tollways whenever possible due to the cost, I find the request for more public money to be out of line. So many people are already considering leaving the state, and so many more have already left. If your goal is to reduce Illinois’s population and the tax money available to serve the state, then by all means, go ahead and do this. If you do, I’m out and I’m a progressive, not a conservative.
07/11/26	Jason	60558	X	X	X						Support	ISTHA has done a great job of modernizing their infrastructure over the last 10-20 years. If a small toll increase allows them to continue that on other parts of their system I fully support that.
07/11/26	Robert Chana	60527	X		X		X				Oppose	Tollway fees are already out of control. I believe when the tollway was first completed, it was estimated/stated that the tolls would go away in about 10 years. Current costs are too high and construction WAY too long. I oppose any toll increases!
07/11/26	Kevin Corley	60655			X		X			Toll free routes	Oppose	Remove the tolls. They were suppose to be temporary
07/11/26	Robert Imbordino	60505	X		X				X		Oppose	The highway system needs major improvement without charging us taxpayers more. I don't see any improvements on the roads (highways & state/us roads) as is currently let alone being charged more. Also construction takes to long now. A 12hr job shouldn't take 6 weeks & the roads are still falling apart.
07/11/26	Michael Ruddick	60016	X				X			noise	Oppose	The toll roads have recently been significantly upgraded and expanded. This is a perennial feature in Illinois. We have had enough for a while. This sounds like a proposal to make work to keep politically powerful construction industry constituents happy. Plans should be scaled back to more mirror commuters' needs rather than the construction industry. Given the influence of the road construction industry in Illinois, I fully expect my comments to be completely ignored.
07/11/26		60188	X				X			No tolls since we pay too much in taxes.	Oppose	You have lost your damn minds.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/11/26	JT	60005	X			X	X				Oppose	Passenger Toll increase of $0.45 is way too much! And needs to be in the $0.05 to $0.10 increase range. Also consider your spending cutbacks where appropriate. Thank you
07/11/26	Stephen Pavlick	60459	X		X		X				Oppose	I really don't think it's a good idea to impose more taxes on the average taxpayer at this time, we should actually wait to get a new governor to make sure our money is going to be to good use, i do not trust our governor. Wait until after elections and see what changes if anything.
07/11/26	Steven J. Alban	60050					X	X	X		Oppose	I am old enuf and been driving before there were tolls or tollways. I seem to remember discussions on paying off the tollways. Where did that go. Now you wish to advocate higher tolls. For longer durations..... tolls forever..... No. No more tolls. I am leaving the state. Enjoy a higher toll until the last vehicle pays a toll for everyone. No more tolls. Starting now.
07/11/26	Bryan Thalin	60025	X		X		X				Oppose	How about conducting an independent audit of the toll system in its entirety? I hate the thought of taking on a huge capital improvement project where politicians are not held accountable to cost overruns, fraud, or corruption improprieties with prosecutions to the full extent of the law. I'm all for paying a fair share to make IL a better state but not about to support monies being misspent or misappropriated due to incompetence and lack of oversight.
07/11/26	Maria Sanchez	60123	X		X		X				Oppose	You say this project has to be funded somehow, but why does that always mean asking hardworking people to pay more? We already pay taxes out of every paycheck, and many of us have no choice but to use the tollway every day just to get to work and provide for our families. At what point is enough, enough? The cost of living keeps climbing, groceries are more expensive, rent and mortgages are higher, utilities cost more, and wages haven't kept up. Families are being squeezed from every direction, yet the solution always seems to be to take even more from the people who are already carrying the heaviest burden. If this project is truly necessary, why aren't you fighting for state funding instead of treating commuters like an endless source of revenue? Working people should not be expected to bankroll every new proposal while struggling to make ends meet. Stop balancing budgets on the backs of everyday families. We are tired of paying more while getting less. It's time for our leaders to find solutions that don't require asking the people who are already struggling to sacrifice even more.
07/11/26	Frank	46368		X			X		X		Oppose	You're raping the consumer already and you want more money? Seriously
07/11/26	LINDA MCWILLIAMS	60540	X			X	X				Oppose	We have continuous construction on the tollway causing more traffic delays than improvements. Takes so long to complete large projects you never get a break.
07/11/26	JB	60115					X		X	More law enforcement	Oppose	poorly managed state finances should not flake on to the people through toll systems... The toll employees (Chicago Lighthouse) and state troopers are not benefiting from the increase. Independent contractors will be the builders, therefore it is a moot increase and everyone running the toll road is underpaid. Speedsters are the main issue on the interstate! There are casualties yearly, one is too many! Fix that!
07/11/26	Ted McCleery	60137	X		X	X					Oppose	Concerned the 2029 CPI auto-escalator removes future toll hikes from public review permanently. Please add a periodic public review requirement (every 5-10 yrs) instead of an indefinite, unreviewed increase. - Ted McCleery, Glen Ellyn
07/11/26	Matthew Foerster	53046	X				X			Transparency in how funds are used.	Oppose	What are you planning to pave with? Gold? 26 billion is a large goal and the percentage increase will be burden felt most by the working class. I'm sure you can scrape maintenance and improvement funds from what I'm already paying. And your "choose three" questionnaire is weighted to make me choose options which you will only use to support the "need" to raise tolls. Affordability is option 1, 2, 3 for me.
07/11/26	Liam kondelik	60423			X	X	X				Oppose	The expressway fee was only supposed to be in place until the cost of building it was recuperated. Not only was that said multiple years ago but this is a blatant form of taxation without representation and impeding my god given right to travel.
07/11/26	Heffernan	60154	X			X	X				Oppose	Unless this will finally fulfill the promise that the tolls would be eliminated. I'm tired of watching the toll roads build something and then read it right down

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/11/26	Charles Carpenter	60137			X		X			Cost	Oppose	IL already has the highest net tax rate, so it makes sense to raise them! No wonder everyone is leaving this horribly run state!
07/11/26	Theresa Schmidt	60638-4405	X				X		X		Oppose	Not everyone gets a cost of living raise every year!. The price of gas is gone up so much on top of toll increases? There is no problem with the tollway like it is. I will not be using the tollway if another increase takes affect. Thank you
07/11/26	Angela Tate	46410	X	X			X				Oppose	No more increases in rate. We're already suffering economically! You're taking more money out of our pockets to travel to work and feed our families.
07/11/26	Diana	60076	X		X		X				Oppose	Tolls already too high especially for road conditions
07/11/26	Adrian Hernandez	60188	X		X		X				Oppose	I drive from Carol stream to the north side of Chicago and I avoid the toll way as much as possible if not every day. Toll prices are okay but when you add the fees and fines it adds up and makes you not want to pay the tolls anymore. Increasing them will just put more people in debt. Having high taxes, high tolls and congestion and construction every time of the year is making me just move closer to my job. 294 by O'Hare is not properly repaired and so many potholes have been messing up cars for years.
07/11/26	Michael Sund	60175	X			X	X				Oppose	This is a joke. We already pay some of the highest property taxes and gas taxes in the country. The roads should be freeways like they were originally intended to be in 1973. The Illinois state government is irresponsible and should not ask for any increase to tolls or taxes. Citizens are burdened enough already from this states fiscal irresponsibility.
07/11/26	Michael Czipo	60014	X			X	X				Oppose	The tolls were supposed to stop in 1973. The current charges should cover up keep only!!!
07/11/26	Brad Delaney	60062	X		X					Reduce and remove tollway costs	Oppose	The Illinois Toll system was originally implemented as a temporary tax. They were never meant to be permanent. Raising tolls, in my opinion, is an unsustainable burden on Illinois residents. In addition, the tollway budgets should reflect what money is currently collected and any new programs should be managed accordingly without having to increase rates.
07/11/26	Paul Oddo	T	X				X			Stop the increases. Find another way I just watched a road construction on Roosevelt Road in Glen Allen and you spent a month fixing curbs and nothing on the streets. Piss poor management.	Oppose	Unfortunately, you guys are getting crazy with tolls. I cross state lines to Wisconsin and it doesn't cost me a dime and I never hit a pothole. Our politicians are crooks and we are a broke ass state. Time to clean house. Thieves.
07/11/26	Jane Schutte	34285		X			X		X		Oppose	I was a young child and lived in Illinois when the toll road was in its infancy stages. We were all told the tolls were temporary. What a joke, over 60 years later and the tolls keep going up and up and up. I want to know who's getting the kickback from all the construction.
07/11/26		46368			X	X	X				Oppose	

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/11/26	Rafal	60018	X		X		X				Oppose	I am writing to strongly oppose the proposed toll rate increases (approximately 45 cents per passenger toll starting January 1, 2027, 30% for commercial vehicles, plus future inflation adjustments) to fund the $26.5 billion “Driving Connections” capital program. While I support maintaining and improving our roads, this plan places an unfair burden on everyday drivers and businesses at a time when many Illinois families and commuters are already struggling with high costs of living, inflation, and stagnant wages. Key concerns include: • This would be the largest passenger toll hike in Illinois history, coming on top of existing high tolls and other taxes/fees. • Frequent commuters and commercial drivers will face significant annual cost increases, which will likely be passed on to consumers through higher prices for goods. • The Tollway already collects substantial revenue. Before raising rates again, there should be greater transparency and scrutiny of current spending, debt levels, and alternatives like efficiency improvements or public-private partnerships. • Many drivers have limited route options in northern Illinois, making tolls effectively mandatory for many. I urge the Board to reject or significantly scale back the proposed increases and explore other funding mechanisms that do not disproportionately impact working families and the economy. Thank you for considering my input.
07/11/26	Victoria Bradley	60620			X		X		X		Oppose	An increase of the requested amount is not reasonable for consumers nor should be required. Better management of funds is needed
07/11/26	D	60304	X				X		X		Oppose	The Tollway has become a road run by rich people for rich people and this just makes it worse. I’ll bet an independent assessment of how the Tollway spends its money would identify plenty of sources to reduce costs. I think the public would be appalled if they saw how much went to things like the Tollway’s ridiculous boardroom.
07/11/26	Charles	60503	X		X		X				Oppose	The roadways are horrible ! The Illinois tollway has been in place for many years and I haven’t seen any major improvements . And I truly believe an increase of the tollway will not help the roadway. Let’s cut out the BS we all know only a small percentage of the money is actually going towards the roadway..
07/11/26	Jim Burns	60564				X	X			Lower cost.	Oppose	A 57% increase is outrageous!!!
07/11/26	David Wisnowski	60119					X		X	Less tolls. We pay too much right now!	Oppose	We pay too much as is. There are no rest stops and the roads are junk. Other states that don’t have tolls have much better roads and include rest stops.
07/11/26	Michele	60133	X				X		X		Oppose	You’ve charged taxpayers enough. Budget better, stop stealing $$ and do your damn job
07/11/26	John	60133			X		X	X			Oppose	I understand the need to maintain our roads, but another toll increase is difficult to support when Illinois residents are already dealing with higher costs for just about everything—housing, groceries, gas, insurance, and other everyday expenses. For many of us in the suburbs, driving isn't a choice. We don't have a comprehensive public transportation system that lets us realistically avoid the tollways. We're dependent on our cars 100% of the time to get to work, school, appointments, and everyday errands. It's also hard to get excited about funding more construction projects when Chicagoland has spent decades living in what feels like a constant construction zone. Too many projects run behind schedule, take years longer than expected, and create ongoing traffic headaches. People are simply fatigued. The Illinois Tollway was originally presented as a temporary, self-funding system, with tolls ending once the original construction bonds were paid off. Instead, the toll system became permanent and has continued expanding through new bonding and capital projects. Before asking drivers to pay even more, I think many residents would like to see greater accountability, stronger project management, and clear evidence that existing toll revenue is being used as efficiently as possible. Instead of using fun jargon to explain what you are proposing to do, show us what you want to do before raising rates. and if anything, PLEASE FINISH THOSE PROJECTS YOU HAVE ALREADY STARTED
07/11/26	Ruchir Patel	60103	X			X	X				Oppose	No more toll hikes. We will make sure none of you ever get elected again. You don’t work for ordinary citizen. Find cost savings to fund it. NO increase

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/11/26	S Walker	60516	X				X			the tollway system to quit paying their directors and use the funds on our roads!	Oppose	IL has had decades of command to collect tolls and keep our roads in top order. Currently, staffing has been cut, and roads have deteriorated so badly. IL tollway system has more traffic, more increased toll collections, and less staffing costs. Yet, somehow, they NEVER have enough money to maintain what we Illinoisans already suffer with in as far as road use taxes and tolls, and bad highways. Maybe we need new political personnel that will spend money on the state and highway systems as opposed to raking in the pay raises for themselves! Last jobs I've had, I had to be successful and productive in order to obtain a pay raise! I oppose this increase until the state of IL can find the ways to better use the monies that are already given to those in command!
07/11/26		60081			X	X	X				Oppose	Illinois does not need a toll hike, what we do need is more responsible spending. Illinois has a severe spending problem and raising the tolls or introducing new taxes won't fix anything. Fix the spending problem, democrats
07/11/26	Mike Rivero	60030	X		X		X				Oppose	I support a smaller increase in tolls I think .45 is too much to start. .15 initially be acceptable. And increase .05 every 3 years
07/11/26	Neil Turecek	60563	X			X	X				Oppose	Nobody can afford this!!!!!!! 45 extra per toll!??? Are you high? Tolls already cost more than fing gas! Granted. Current tollways are excellent when not under crushing construction for Years. I haven't taken 294 by choice in a decade. Still not done. 290 Mannheim strangler is exactly the same. 294 ramp to 55. Same horrible design. 290&55. Still garbage. Chicago still top of list of worst traffic. People work 4 days a week now . Traffic is not better. You have lost your God damn minds if you think we're ok paying for this. More than happy to explain this to your face.
07/11/26	Donna Banovich	60445-2716	X		X				X		Oppose	
07/11/26	Joann Power	53590		X		X				Ease of getting from Wisconsin to Illinois	Oppose	It sounds like Illinois doesn't care about its residents or visitors from another state. I remember when the toll roads were built, they said they would be paid off and tolls dropped by a certain date.
07/11/26	James Stricker	60010	X		X		X				Oppose	The tolls were supposed to be temporary. Now an average commute will be some of the highest rates nationwide. This state is so piss poorly managed they have to take every opportunity they have to dig deeper into residents pockets. Won't be any residents left at this rate.
07/11/26	Charles Stevenson	60805	X			X	X				Oppose	The information is misleading. The increase is stated in cash at 45 cents on the average. In reality, this is a 100% increase. Trucks and commercial heavy vehicles cause more damage to the roads and that is only a 30% increase. It appears the burden is placed on the average driver during a vehicle with two axles. I am opposed to the current rate increase structure.
07/11/26	F Nicholas Bogden	60554	X		X	X					Support	The tollway is vital to Illinois around the Chicago and surrounding area to move everything. The roads are maintained and safe. Thanks to all of us. Regards F Nicholas Bogden
07/11/26	David Pearce	61111	X				X		X		Oppose	You can spin it any way you want but an increase is an increase....what happened to free roads after it was paid for intially?
07/11/26	Kingsbury	60005	X		X		X				Oppose	I am 1000 percent in complete opposition to this proposal. We all know that none of this money will go towards improved roads. Illinois doesn't know how to allocate funds properly. There's already too much road construction in the Chicagoland area. In addition, the cost of living has become astronomical and raising tolls will only further burden commuters who need to utilize the tollroads daily for getting to and from work. I say leave well enough alone and stop trying to rake more money from Illinois residents.
07/11/26	Aaron Greg Miranda	60707	X		X				X		Oppose	We can do it with the budget we have now, it just requires timely and creative planning. Use more of what you got instead of passing the cost down to the consumer, that's the easy way out.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/11/26	Laura Novick	60467	X				X			inconvience.	Oppose	As customers we travel the toll road to get somewhere faster, however everywhere we go there is construction and massave slowdown. Gess what we are paying for this inconvience. I find it is sometimes faster to take the side roads. So should we pay more? maybe a nickle more will help pay for roads.
07/11/26	Rhonda Hill	60430	X		X		X				Oppose	This is basically another increase to fund this poorly run democratic state!!! Raise taxes, raise tolls, it never ends!!!
07/11/26	Laura Delagrange	53142	X		X		X				Oppose	The current toll rates are outrageous. Find better ways to manage state money and fund the roads as other states have done as opposed to continually punishing residents for getting to where they need to go- often work. I was born in Chicago and until marriage lived in IL most of my life. The tolls were supposed to be short term. Now it's never going away and is actually gauging people's pockets. Find a new solution.
07/11/26	Eric Shapiro	60103		X	X	X					Oppose	A vote in favor of the proposed increase in tolls will be a vote against all in November.
07/11/26	Joe Grebener	61101	X	X			X				Oppose	Just curious what has been done with funds already received. The tollway was originally proposed as a temporary device to fund repairs and upgrades and once the dollar amount was met it would be ended. It was never ended as originally proposed. So it has been funded since inception and should have a surplus of funds by this time.
07/11/26	Matt O'Brien	60201	X		X		X				Oppose	This is a horrible time to impose increased toll prices. Many consumers are feeling squeezed by the significant increases in gas prices, which show no signs of relief with a highly unpredictable war in the Middle East. Many consumers will not be able to afford both increases in gas prices and tolls at the same time. I strongly encourage delaying this toll price increase until after the Iran war ends and gas prices stabilize.
07/11/26	Mary Ann Field	60532-3363	X		X		X				Oppose	
07/11/26	Henry Miller	61115	X				X			The toll authority must finds cost savings	Oppose	Illinois must find ways to work with funds they have. We pay one of the highest gas taxes in the nation. The tolls collected were not to be permanent but they have become such. With all of this revenue Illinois roads are in some of the poorest condition possible compared to other states that work on smaller budgets. There must be accountability for where and how the money is being used.
07/11/26	Pete Noel	60451			X	X	X				Oppose	You have enough money. There aren't even people working in the booths anymore! Greedy
07/11/26	Dale Gomez	60007	X		X	X					Oppose	Our roads are under construction 12 months out of the year. Pouring more money into them seems like a total waste of money and time as it is. When will you ever finish the projects you've already started. I'm sick and tired of driving on miserable highways in IL!
07/11/26	Noe Alejo	60617	X		X		X				Neutral	I support the Driving Connections Program because it creates jobs, supports apprenticeship opportunities, and helps maintain the infrastructure that keeps Illinois moving.
07/11/26	Tim Jarzemsky	60136	X				X			Fair price for tolls	Oppose	Do not raise tolls. If tolls go up more vehicles will avoid the tollway and cause more damage to local and state roads. No more expansion just maintain what you have - no increase.
07/11/26	Robert Shor	60169	X		X		X				Oppose	When will this ever end. You will always need more money no matter what. this is the same tollway that was supposed to have tolls only until it was paid for and here we are. You guys are either not spending OUR money prudently, or you are not planning well. Either way NO way!
07/11/26	Jim L	60453				X	X			This site will not accept my answer of affordability so let me say cost	Oppose	You Public Hearing are a joke. Your going to do whatever you damn well please no matter what the public has to say. Plus what is your point by point plan to use this windfall on? Tipical political spin. 45 cent increase per toll is robbery without a gun. You can say no one is forcing me to take the tollway. For many there is no other option. Or if there were an option, that travel time my be three, four or five times longer. Two of my eight hours pay will go to gas and tolls just going to work and home.every day. And this sight will not accept my possition of Opposed

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/11/26	Dawn L Harry	60002	X			X	X				Oppose	Drivers already pay too much to drive on the tollway. These roads was not intended to be a permanent toll road. They should have been converted to a freeways maintained by the gas tax long ago. I don't see gas taxes being reduced or eliminated & I only see tolls increasing. It is no wonder why people are leaving the State of Illinois. Other States manage to maintain freeways. Illinois chooses to rip off working people who need to get to work.
07/11/26	Pete Buffington	53189	X				X			Lower Fares. Busting those drivers who alter their plates to avoid paying fees!!!	Oppose	If you dealt with those who alter their license plates to avoid fees, that alone would cover your proposed rate increase. Also, I've asked for the huge concrete buckle and potholes to be fixed at mile marker 6 southbound lanes on I-94 for over 6 years and to this day the buckle is still there. Why do I pay fees if you can't fix this terrible highway damage??? Outrageous.
07/11/26		60487	X		X	X					Oppose	A 0.45 cent increase seems like a lot. For my daily commute, that's a 0.90 cent increase round trip to a toll that already cost $1.50 round trip. Just adds up over time to a society that is already increasingly expensive.
07/11/26	Meghan Mileski	60067	X		X		X				Oppose	DO NOT RAISE THE TOLL PRICES!!!! They are already a ridiculous cost and do not need to be raised.
07/11/26	Sara Anderson	61281			X		X			No tolls	Oppose	Thanks for the heads up. Will do everything possible to avoid the tolls.
07/11/26		60118	X		X		X				Oppose	
07/11/26	Jesse Self	60659					X	X		Safety	Oppose	A 60% increase in tolls would have made it prohibitively expensive for my last job in Naperville, commuting from Chicago to Naperville every day. Many people do this commute and the gas prices are already killing us. Most Chicago commuters with go through at least 4 tolls round trip, which is an increase of about $2/day or $10/week. Over the course of a year, that's an extra $500 I don't have, a full 1% of my and others' salaries. I will never be able to convince others to seek employment at my former university (North Central College) with these increases.
07/11/26	John M Brusveen	61822	X				X			Better quality roads would prevent so much construction for repairs to the roads.	Oppose	If the money hadn't been stolen from the road funds there would be plenty to maintain our roads and REDUCE tolls. This is just one more incident were the crooked politicians steal from their constituency, and we have absolutely no recourse.... F ALL Illinois Politicians, Especially Fatass Pritzger.
07/11/26		60606	X		X				X		Support	I support this increase knowing it will be put back into the roads and services provoded I drive each day
07/11/26	Lailah R Reich	60622	X					X		Less roadway infrastructure, which doesn't actually solve traffic	Oppose	Building more roads fails to solve congestion due to induced demand. When road capacity increases, driving becomes seemingly faster and cheaper, prompting more people to drive, travel longer distances, and choose personal vehicles over transit, which quickly fills the new lanes. I think the Tollway needs to think long-term and stop pretending these so called "solutions" actually solve anything. Instead, they present more problems and costs in the future. How can we do things smarter? How can a huge urban area think outside of these constructs and begin to build for a real sustainable future?
07/11/26	Laura Traviolia	60056				X	X			Get rid of tolls. Enough already. Stop the corruption.	Oppose	

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/11/26	Ann Hanson	60060			X	X	X				Oppose	The tollways already make millions of dollars daily & are always under construction, even though they don't need it, whereas other major roads in Illinois that need help (like I57) remain rutted & under maintained. Where is the money going that is currently made daily? Where are the financial records & the budget? Where is the transparency? I believe I am already paying a premium, just to drive to OHare from Mundelein. It probably costs me $20 round trip. I don't even know how much I'm paying, because there are no signs indicating how much it costs. That is not transparency. You could be charging me $10 a toll & I wouldn't 't know it. When 294 was originally built as a toll road, with the understanding, when it was paid for, it would no longer be a toll road. We have paid for that road hundreds of times over & yet it is still always under construction. It is my understanding that the tolls paid on that road can only go to maintaining that toll road & no other non toll roads. Some construction company is making a lot of money on the backs of Illinois drivers.
07/11/26	Travis	60516			X		X			How about making your construction people work faster besides milking the job	Oppose	The Illinois tollway is full of corruption and political hacks
07/11/26	Suzanne Poisl	60402	X				X		X		Oppose	The construction seems never ending, always a back up everywhere I drive... what is all the existing construction for?
07/11/26	Michael Fries	60118	X				X			No cost increases.	Oppose	I strongly oppose the Illinois Tollway's proposed toll rate increase to fund the $26.5 billion "Driving Connections" 15-year capital program. This includes the ~45-cent per toll hike for passenger vehicles starting January 1, 2027, the 30% increase for commercial vehicles, and the planned CPI-based adjustments every two years thereafter. The Illinois Tollway system is already getting worse and worse for everyday drivers and families in the suburbs like West Dundee. Tolls were originally supposed to be temporary, yet here we are with yet another permanent increase layered on top of years of existing burdens. This proposal essentially admits the Tollway plans to rely on endless rate hikes to fund operations and projects instead of getting its finances under control.7 Who is even asking for this massive project right now? Illinois drivers and businesses are already struggling with high costs of living, inflation, and traffic congestion. A 15-year construction timeline doesn't sound like relief—it sounds like 15+ years of increased traffic disruptions, lane closures, detours, and frustration across the system. We don't need more toll-funded mega-projects that prioritize expansive rebuilding and modernization over practical, cost-effective maintenance. The Tollway should focus on operating more efficiently, reducing waste, and controlling costs before coming back to drivers for more money. Continuous toll increases—especially with automatic inflation adjustments—hurt families, commuters, and the economy. They raise the cost of goods transported on commercial vehicles and make daily travel more expensive without guaranteed improvements in reliability or reduced congestion. I urge the Illinois Tollway to reject this rate increase and the associated capital program as proposed. Prioritize fiscal responsibility and find better ways to maintain the system without burdening Illinois residents further. Michael Fries West Dundee, IL
07/11/26	michael a tanzi	60646			X		X			No tolls	Oppose	Tolls were supposed to be temporary and you clowns just keep raising them
07/11/26	nichoals luce	60441			X		X			Low pricing for state residence	Oppose	Tolls are already way too expensive. Increasing them will now be a deterrent to take the highways. I will happily add time to my commute to avoid these prices.
07/11/26	Sameet	60080	X		X		X				Oppose	
07/11/26	Brad Traviolia	60056				X	X			Accountability	Oppose	Huge lack of trust with tollway authority managing money allocated to it.
07/11/26	dalia	60120	X		X					yall take forever to work on this	Oppose	yall crazy with this increase

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/11/26	Carol Riesterer	54303	X		X		X				Oppose	We pay enough taxes and enough for tolls already! No one deserves to have to pay more. Tolls are ridiculous to begin with. No one should have to pay to drive on a road to begin with.
07/11/26	Adrian Guzik	60513	X		X		X				Support	I support the initiative highly but I think 45 cent increases per toll is a little high. Would these tolls come back down once the project is paid for? If so, that's fine. If not, maybe we can perform some of the major portions of the project now at a smaller increase and the rest later with another increase. Thank you.
07/11/26	Brian kelly	60112	X			X	X				Oppose	Raising toll fees only hurts Illinoisans. We are already struggling under debt of our own. increasing tolls takes more money from our families. the toll company already makes enough money. It's not managing it properly. The toll company should have repairs factored in their budget and should help Illinoisans reduce toll cost by reducing the toll fees and reducing its own inefficiencies the toll companies would truly help Illinois residence by reducing costs not raising.
07/11/26	Linda S Johnson	60142		X			X		X		Oppose	You forget, the toll road was to be temporary not forever. You just keep wanting higher and higher tolls to pay for repairs. It should be budgeted for like everything else we pay taxes for. This is ridiculous STOP increasing tolls! I just retired, it's not in my budget.
07/11/26	Erik	60446			X	X	X				Oppose	Enough is enough. It is too expensive and I will be actively avoiding the toll roads. It costs me $20 per week to use 355 and it doesn't always save time. Not worth it.
07/11/26	Prakash Patel	60120			X	X	X				Oppose	An almost 100% toll increase with vague promises that sound like generated by AI. Please share what specific actions will be undertaken for $26B... we are looking for actions by specific IToll roads such as added lanes, traffic management, reckless driving control , dedicated lanes for passenger vehicles can commercial etc
07/11/26	Will Mix	60101	X		X		X				Oppose	This same goal can be accomplished over time without fare increases. It should be the goal of the tollway to not raise rates and work within the constraints
07/11/26	Wendy Arnold	61008	X		X		X				Oppose	It's getting to damned expensive like everything else except our wages.
07/11/26	Vickie	61031	X			X	X				Oppose	When is Illinois gonna stop killing people with their increased charges? I have yet to see where all the current tolls are going why would I approve raising them?
07/11/26	Leon Feltes	60510	X		X		X				Oppose	We already paid too much for tolls. We don't need to pay more. I may not use the road if the rates keep going up and I definitely don't want you to be able to raise the rates every other year. $.45 is too much of a race and why is commercial vehicles only 30 should be more than personal vehicles. Usually commercial vehicles are bigger anyway.
07/11/26	Rick Willing	60103	X			X	X				Oppose	I am opposed to the proposed toll increase. As a senior, we are getting hit with tax increases everywhere. This is just another burden on our budget. This state never can do anything that doesn't end up over budget and revenue short. This project will follow the same old playbook.
07/11/26	Timothy Pearce	60175			X		X			Higher speed limits	Neutral	Nothing I read through all your links specifically tells us what you plan on doing. Are we adding more lanes? Are we expanding the toll system? How are you going to reduce travel times? This may come as a shock but Illinoisans are tired of MORE taxes. It's too much, businesses and people are leaving. Additionally, everything I read spends about 30% talking about diversity. I'm not against diversity, but I think the toll systems responsibility to hire good firms and crews that have provided a competitive bid. Good firms hire good workers, which should represent a broad diversity. And one final note this will come way over budget because there is a clear pattern and practice of that happening in Illinois. So what's the true cost?
07/11/26	Doug Richwine	60103	X				X			No tolls	Oppose	The tollway was supposed to be paid for years ago. We were told tolls were temporary. You lied then, you're lying now. We will continue to avoid toll roads.
07/11/26	Roy Post	53711	X			X	X				Neutral	I am Neutral to Oppose as I remember when I lived in the area (55 of my 64 yrs) and the tollways were proposed, we were told they would go away. I understand the expense of maintenance, so keeping the tolls is needed, but the tolls should increase MUCH more on commercial vehicles as they pound the road more than cars. Senior citizens should get a break as we are on fixed incomes.
07/11/26	Paul Schippers.	54646	X	X						Minimal construction delays.	Oppose	The tollway system is a money laundering machine that's poorly managed and a major scam.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/11/26	Isaias	60014			X			X	X		Oppose	I must respectfully say that any toll increase, however small, is a hard blow to the wallets of Illinois drivers. I disagree.
07/11/26	Matt	60004	X				X			None.	Oppose	The tolls are already expense. The money should already be going towards improving the roads. An increase to maintain the what should have already been included within the current funding is kind of ridiculous. This is the equivalent of me asking for a promotion (more pay) with the same level of responsibility. If you can't be responsible with your current funds, why should you have more? Just another reason to leave Illinois.
07/11/26	larry sladek	60554	X				X			safety. Sometimes it feels like a racetrack out there.	Oppose	Increasing toll rates like this will drive more people off the toll road and onto secondary streets. The toll roads are already too expensive and for people on fixed incomes raising the rate becomes problematic. Then on top of that, you are planning built in increases every two years without any input from the people who use it. 30% increase for commercial vehicles is absurd. Gas is expensive enough without putting an additional burden on businesses. And who do you think will be charged an additional 30% in products when we go to the stores? You guessed it - us. I suggest you rethink your proposal and maybe learn to do more with less.
07/11/26	Chris Bockay	60544		X				X		Actually most of the choices don't apply to Illinois roads	Oppose	How about cutting wasteful spending for illegals and give us a break in this corrupt state!
07/11/26	Courtney	60047	X		X	X					Oppose	This project just means tons of road construction that takes years longer than it should and an increased financial burden on Illinois citizens who commute, when residents already live in one of the least citizen friendly states in the country. Thank you.
07/11/26	Branty Harris	61078-9389					X		X	Affordability not paying for Chicago to redo it's tollway again. Affordability no increase.	Oppose	If you want to improve the roads in Chicago charge the ones that use them. Since I don't live in Chicago I don't think I should be charged what you are proposing. Since the tollway is benefitting Chicago let Chicago pay for it. We as tax payers who do not live there do not feel we should have to be paying more than we are. Maybe you should learn to use the money you get wiser. I don't think we should have to pay for roads that have been paid for 100 times over or just because you want to improve Chicago tollways. Take your tollway increase and we'll you get the idea.
07/11/26		60123	X			X	X				Neutral	Construction creates traffic and bottlenecks. It makes for an unpleasant drive as well. Most of us avoid 294 as much as possible right now with that massive Construction project and constant changes in traffic patterns which have proven to be quite dangerous. If the roadways and especially bridges are beginning to fail or will fail, then obviously corrections need to be done. It just seems like every summer roadways are just being repaved all over that weren't all that awful to begin with. Repave 294 north by Balmoral where the pavement actually is crumbling. Maybe use tried and tested materials that won't degrade so quickly and that can hold up for extensive periods of time to the amount of traffic it sees. Maybe not have a project so larhe that it takes years to complete. Instead do smaller areas to not disrupt such long areas and wreak havoc on traffic and the traffic patterns. Decreasing traffic by means of increasing tolls. Trucks and their companies will reroute to avoid the tollways which I'm sure will be a substantial decrease in revenue and even potentially a goal to have less wear and tear on the roads. Im in the trucking industry and I hear lots of chatter of trucking companies talking about doing just that with any more increases. They're already badly affected by the fuel prices. This all will in turn then raise the process of the goods they tranport even more. Everything has far reaching effects beyond just the "project" that need to be considered.
07/11/26	Hackworth	61084	X				X		X		Oppose	

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/11/26	Gordon Soderlund	46074	X				X			Toll decreases	Oppose	The governor blames the president's tariffs for inflation, but tolls are a very direct cause of inflation. The system is collecting more toll revenue than ever before and the gap between it and operating and maintenance expenses has never been greater. Oh, and remember when the tolls were a temporary solution, and the roads were to be free starting in 1973? Yea, I do. Spend more efficiently and stop gouging the commercial vehicles. You all should be embarrassed by the waste and inefficiency and the false promises. DO NOT increase toll charges that are already way too expensive.
07/11/26	Kathryn Horn	60002			X	X	X				Oppose	The state needs to figure out how to fix everything without putting it on taxpayers backs. Increasing Kohl's is just another way for taxpayers to pay for the things that the state needs to take care of.
07/11/26		60007	X		X		X				Neutral	Don't always use tollway but when necessary it's nice to have a reasonable rate and not an adjusted one just to make up for a market.
07/11/26	Dmytro	60176	X				X		X		Support	Good
07/11/26	Lisa Henninger	60056	X				X		X		Oppose	We shouldn't bail out something most of us don't use. Its like robbing Peter to pay Paul. Raise the rate on the items that need the money and like almost everywhere watch and cost of pay.
07/11/26	Greg Honeycutt	60463	X				X			No more Increases.	Oppose	The people can't financially have any more increase cost, taxes, and everything that drains the people. It is too much that the toll road executives to make millions in profits and the elected official to sell us out. There needs to be a change. Stop taking advantage.
07/11/26	Lisa Henninger	60056	X				X		X		Oppose	I don't think I should pay for something I don't use and if I need it I will pay more to do it.
07/11/26	Susan Lund	60177	X			X	X				Oppose	I am a tollway user for 40 yrs to get to my job. If there is a toll increase that's another five dollars added to my ride that is $20 dollars a week $80 a month if you're going to increase this toll it should be tax deductible. This is so unfair that I have to use the Tollway otherwise it increases my anger and drive time from work by 45 minutes this Tollway should've been taken down years ago. This Tollway was made to pay for the roads and not Pritzker's extra fun life. We don't need the toys are fine right now. Leave them alone and leave our money alone.
07/11/26	Mark Berry	46311	X		X		X				Oppose	While I understand a small increase of toll amount, I oppose the rate at which you are doing so. That is way too much of an increase! Find subsidies elsewhere!
07/11/26	Jennifer	53221	X		X		X				Oppose	Already very expensive
07/11/26	Victoria Jurkovic	60540				X	X		X		Oppose	More than 20% of your budget goes to consultants. That is a ridiculously high percentage.
07/11/26	William Johnson	46368		X	X		X				Oppose	No way!!!!! I want more accountability, a independent investigation to where all the toll money is being DISTRIBUTED!
07/11/26	Anas Sami	61107	X		X			X			Oppose	An increase in tolls will increase overall costs for me as a driver. I would instead prefer increased public transportation options. The number of people on the tollway will likely remain unchanged or increased. Statistics and studies show improving lanes or increasing number of lanes do not reduce traffic. What does work is an increase in alternative transportation methods, or surge tolling. Instead of a flat toll rate increase, I would support a surge pricing model where rush hour traffic is paying a significantly higher rate, and off peak hours pay a lower toll than currently implemented.
07/11/26		60134	X				X			COST	Oppose	THIS IS COMPLETELY RIDICULOUS! THE STATE OF ILLINOIS DOSE NOT KNOW HOW TO MANAGE MONEY. YOU INCREASED THE TOLLS IN JANUARY 2026 AND NOW YOU ARE GOING TO INCREASE TOLLS AGAIN BECAUSE OF SOME VANITY PROJECT FOR JB. SHAME ON YOU ILLINOIS FOR SCREWING THE TAK PAYERS OF IL AGAIN!!!!!!!!
07/11/26	Alexis Floyd	60056			X	X	X				Oppose	
07/11/26	Carolyn Beranek	60142	X				X			Truckers not obeying the lane use signs. Should be more noticeable.	Oppose	Being a senior citizen on a fixed income, raising the price would but a huge dent in my income. Rent, groceries, gas. It's got to end somewhere, why not with the State of Illinois.
07/11/26		60007		X			X			Less miles traveled	Oppose	Those of us on a fixed income can't keep up with the rising costs of everything. The way things are now, it's difficult to avoid toll roads because there are so many of them.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/11/26	Paul Grimyser	60187	X				X	X			Oppose	Too much, tolls are already high enough and going up almost $.50 er till is too much! While I support maintaining roads, what is happening with all the money already collected, not to mention federal highway money. I can't support this request.
07/11/26	T	60189	X			X	X				Oppose	Pricing people out of using the public roadway is wrong. Tolls were originally supposed to be temporary. We don't trust you to be good financial stewards.
07/11/26	Sarah	60803			X	X	X				Oppose	Raising an already high cost toll by $.45 is not financially sustainable.
07/11/26	Mike Rivero	60030	X		X		X				Oppose	.45 cents is too much to start. I think .10 or .15 to start. And then after 2 or 3 years. Increase again similarly. And again 1 more time and see how the effect is.
07/11/26	Joseph kouba	60804	X				X			No tolls	Oppose	I spend enough as it is! The tollways were supposed to be temporary!
07/11/26	Scott Evers	60411	X				X			Being able to afford to live	Oppose	Leave it to the Democrats that control Illinois to talk about cost of living, while they continue to raise taxes and increase the cost of living. Good luck at the midterms.
07/11/26	Jeff olman	60120			X		X			Less road construction	Oppose	The toll way collects ridiculous amounts of money already to say you need to increase the tolls is ludicrous and greedy,how do are other states without toll collection able to build and maintain their roads ?
07/11/26	Talha	60148	X			X	X				Oppose	Stop sending our tax dollars to terrorist countries and spend them on the roads instead of increasing the tolls
07/11/26	Jenhsiang Hsieh	60626			X	X		X			Support	I support to increase toll to make traffic less. The only way to solve traffic problem is to invest in public transit and make less traffic on highway to give the space to those in necessary need of driving. Please make the right path to solve traffic problem here is Illinois by building a better transit.
07/11/26	linda	60142			X	X	X				Oppose	tolls are too costly already. find other ways to fund the road construction
07/11/26	Dr. Raj Selladurai	46375	X		X		X				Neutral	I would support it more if you offer some sort of tiered system options /rates based on frequency of use of the toll. It is not fair to increase rates for citizens who use it less frequently than those who use it more frequently. This is logical and reasonable. The more we use it, the more we should pay for it. Thanks! Appreciate you giving us the opportunity to share our opinions!
07/11/26	Jesse Luhrsen	60118	X				X			Nothing else	Oppose	Raising rates, especially commercial rates, will increase the cost of living statewide. Commercial goods will cost more to transport and prices will rise even further than they already have.
07/11/26		60016	X		X		X				Oppose	You should consider eliminating waste, and fraud before charging more money for consumers. The proposal does not justify the massive increase in tolls for every person, especially when fuel taxes are already among the highest in the nation.
07/11/26	Gene L Green	60010	X			X	X				Oppose	The lack of detail about the proposed program is genuinely surprising. Clicking through the links, there were value statements, but no concrete information about what the Tollway Authority wants to do with the additional funds. Therefore, I oppose the rate increase. Please just finish the existing projects and give us a break from the rate increases.
07/11/26	DANIEL BIERNAT	60706					X	X		Affordability is first and foremost	Oppose	In my opinion, the toll road are well building and that any additional toll increases are not needed to pay for unnecessary additional roads or lanes. Over the years, I believe that the main objective of the toll authority is to provide unnecessary construction and consultant jobs. It is my experience in driving the toll roads the with rare exception of traffic near O'Hare Airport or because of current construction, I never have a traffic issue with the current system. The tolls roads that I drive do not have traffic problems and these roads travel at the posted speed limits and then some. Again, I believe that any additional construction is only being proposal to either provide jobs or to build unnecessary addition unneeded roads.
07/11/26	Toni R Lieteau	60544	X		X		X				Neutral	I understand the need for funding to maintain roads, however, right now with costs continually increasing, it will be hard on many commuters. But, may not have many drivers on the road if gas prices continue to rise.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/11/26	Christy Hoff	53144	X				X			There is no other - but you insist on 3 choices. Here it is.	Oppose	The introduction of a new system to support infrastructure sounded intriguing. And then the hammer drops. This is simply a ploy to raise tolls. When you raise tolls, folks will divert to non-toll roads. That will increase traffic on local streets that are not meant to handle the traffic and increase detrioration (and cost to local people). The only benefit I see to this package is that an out of state (and possibly out of the nation) entity will reap bigger profits, enhanced by lower traffic volume. Of course, lower traffic volume on the toll roads will also decrease deterioration for the entity running it. Wow! Win-win for you. Lose-lose for Illinoisians and toll road users.
07/11/26	Barb	46373			X	X	X				Oppose	It’s too expensive already to travel daily to work
07/11/26	Jeffrey L Goings	61065	X				X			Clean roadways from debris	Oppose	Illinois keeps passing the buck to the people of Illinois!! When will it stop?? Why are your tollway board members paid so much?? Stop sticking it to the people and start having accountability for your sleeping employees on the side of the road and hiding at truck stops and shopping centers!! The tollway is a money machine and a scam!! Elect a person who isn't all about the money!! Thank you!!
07/11/26	Nate	60452	X				X			No raise of toll price	Oppose	Tolls were temporary. Somehow they are permanent and illinois can't seem to survive without them.
07/11/26		60893				X	X			Less construction	Oppose	.45 is a huge amount and then it's going to increase every two years. When will it stop?
07/11/26	Mary Rose OBrien	60448		X	X					Less toll plaza fees. $20 a week $80 a month.	Oppose	What happened to the road funds that these Governors get? Oh yeah, it went to sanctuary City to feed, house Illegals.
07/11/26	Cristina Diaz	60516	X		X	X					Oppose	
07/11/26	Dan Youngberg	61114	X			X	X				Oppose	Think current 12 mile road to Beloit is already more than necessary
07/11/26	Patrick N	60659					X	X		Improved pay by mail for non-iPaSS	Oppose	Plainly: the money generated by the millions of cars that travel via the toll roads weekly should cover the cost of your project without an increase. If it cannot it isn’t because of increasing costs it’s because of graft, bribery, and theft by the Illinois Tollway and their cronies.
07/11/26	Andrew Moore	60120			X	X	X				Oppose	
07/11/26		62301	X		X			X			Support	I support the people who use the roads paying for some portion of the roads, such as foreign corporations and individuals outside our state.
07/11/26	Brendan Walsh	60513	X		X		X				Oppose	
07/11/26	Miguel	60087	X				X			No potholes	Oppose	I think it’s ridiculous to increase the tolls we already pay a lot.
07/11/26	AD	60014	X				X		X		Oppose	
07/11/26	Jock cameron	60510				X	X			Consistant fees	Oppose	Do not increase the rates You folks need to spend the money you have The toll way was suppose to be free after a certain number of years Do not increase our rates
07/11/26	Khalid siddiqui	61109	X			X	X				Oppose	it is already too high
07/11/26	Robert Sinclair	60510	X			X	X				Oppose	If the rate hikes happen I will avoid the toll road as much as possible
07/11/26	Paul Pisarczyk	60136	X			X	X				Oppose	Toll way is expensive already!!!
07/11/26	Jasmine Brown Watkins	53168			X	X				Na	Oppose	
07/11/26	Joel	63701	X			X	X				Oppose	Just another excuse to steal more taxpayer money.
07/11/26	K Schneifer	61068	X			X	X				Oppose	Illinois residents pay enough taxes that an increase in tolls should not be necessary. Many states have interstates and highways that are toll-free. Why does IL feel the need to dd an additional charge for every improvement that is made in the state.
07/11/26	Madelyn Null	61820	X				X		X		Oppose	
07/11/26	KJ	61008	X				X			No tolls	Oppose	The tolls were supposed to be temporary to pay for the highways & be toll free in 1973. Eliminate all tolls & the bureaucracy associated with them. No wonder people are leaving this state in droves.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/11/26		53072	X			X	X				Oppose	That is a ridiculous increase. You don't need more money you need to better manage the money you already receive. Where are the guarantee's the money is not going to be wasted or misappropriated? Your roads have never been in good shape so throwing more money at them isn't going to solve the problem without visable and public accountability daily, monthy, yearly. A consumer protection board established to ensure public safety and project goals and milestones are met, with power to hold contractors and state officials jobs on the line if goals are missed, money is mis-appropriated etc. Asking for this outrageous initial increase and ongoing increases is not sustainable without public safety nets are included in the proposal to monitor and ensure honesty and project goals and milestones are met.
07/11/26	Donna	60124			X		X			What happened to no tolls after 20 years?	Oppose	Vehemently oppose. This state is bleeding us dry. Not another dime.
07/11/26	Linda	60516	X		X					Safety	Support	While no one wants to spend more money, it is critical to keep our roads well maintained. Therefore, I am in favor of the proposed increase. In addition to maintaining the infrastructure, I am deeply concerned about safety. As is the case with all the local roadways, speeding is rampant. I've traveled on I-88 even on a Sunday morning when traffic is relatively light, and it's like driving on a NASCAR course with cars speeding at very high rates, cutting very closely and unexpectedly in front of other cars, and weaving in and out of lanes. At night, it's much worse and has gotten out of hand. With the increased tolls, hopefully technology can be implemented to help identify the culprits and work in conjunction with the Secretary of State to take away their licenses before they kill someone. Thank you.
07/11/26	Jo ko	60014	X				X	X			Oppose	Can not afford anymore out of my check. I need to get on welfare or become homeless because of all these taxes. Salaries do not keep up with corps business and government taxes
07/11/26	Ilp	60004			X	X	X				Oppose	If the person travels a toll road every day. This is quite a punch to the pocketbook. Asking to pick three does not force wilhat the actual is to opposition-/affordability. Money. Not having much of a choice to figure out how to get to work.
07/11/26	Dave	60156	X		X		X				Neutral	While this sounds great in theory, some asshole in charge will take the funds and the roads will stay poorly maintained.
07/11/26	Boualem kirour	60014			X	X				None of the above, making the politicians more rich, stop this stupid nonsense rising	Oppose	I will take the free toll roads, more time in the road less time with family better then giving more money to the government.
07/11/26	Melissa Arellano	60140	X			X	X				Oppose	I would support a toll raise if Illinois could balance their budget. It seems that Illinois has some of the highest taxes, property taxes sales taxes, income taxes of the country. Yet we still fail to balance our books. What happened to the rise in gasoline taxes 5 ish years ago that was supposed to go to road maintenance. Give me a break! Until Illinois can learn to budget their money, quit nickel and diming the residence. Get your heads out of your ass.
07/11/26	David T Lawson	60050	X		X		X				Oppose	I've lived in this state all of my 70 years, and the tollways were supposed to be TEMPORARY!! That being said I'm not totally against some kind of rate increase, but I believe what is proposed is too high, and the language "In addition, the Tollway is proposing to adjust rates in accordance with the Consumer Price Index every other year to provide cost predictability for customers" is BS! Predictability?!? Come on, you just want to pass that so you don't have to go through this process again, just like the gas tax going up 1% every year. Come on, do you think we are all idiots?!? That language guarantees that there will be an increase every year. That's not predictability, that's just another tax increase every year. Ridiculous! And public hearings?!? This is a done deal, and everyone should know that. Period!
07/11/26	Kathy Kirk	60657	X			X	X				Oppose	Please do not raise the toll rates. They are high enough. Please discount senior citizen rates. Other states such as Michigan do quite well servicing their roads WITHOUT having toll roads, look to them for answers on improvements without tolls.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/11/26	Renee Nolan	60446-4127	X		X		X				Oppose	No increase!!!!!! Travel is already expensive enough with gasoline prices, insurance costs, vehicle maintenance etc. Illinois needs to learn how to budget their money better. With the tons of dollars coming in currently with the thousands of tolls a day, there surely is enough funds to maintain roads. This increase is ridiculous to push on Illinois commuters along with businesses.
07/11/26	Kelly	60169		X	X	X					Oppose	I will no longer drive the tollway of the requested toll increase goes through. It will Double my cost to commute to work taking a larger part of a very tight budget
07/11/26	John Jacob Jingleheimer Schmidt	60134			X	X		X			Support	Is there a way to make giant heavier cars that do more damage to the roads like pickup trucks pay more? I'd support the tolls even more if that were possible
07/11/26	William Thatcher	60504		X			X		X		Oppose	We've been paying for DECADES on these toll roads and it seems like a huge misappropriation of funds if you want to increase toll rates yet again. We need a full audit done before any such increases are to be made.
07/11/26	Michael Hollis	60506	X				X			Stopping the never ending toll projects	Oppose	I loathe paying tolls. The toll system was promised to be temporary and every year it is continued is a failure to uphold that promise. I have a very skeptical view of the budgeting, contracts and conflicts of interest in the tollway authority. I strongly oppose any new capital programs. Every time I drive by useless and obsolete toll plazas I'm reminded of how much money the tollway authority and state of IL has wasted. As if more money for more projects won't be more of the same.
07/11/26	Brett	61101	X				X			Affordable	Oppose	You charge too much allready. Use the millions etc... you are allready collecting
07/11/26	Jack Sprat	60439				X	X			govenment funding subsidized	Oppose	
07/11/26	Paul Evanoff	53121	X		X		X				Neutral	If you're just gonna jam up the road for another 15 years and then it may be better I would rather not
07/11/26	Ryan	60178		X		X				None	Oppose	I avoid the toll way when possible due to the high price.
07/11/26		60805	X				X	X			Oppose	Stop out of control spending in Illinois. Use the money Illinois has more wisely and efficiently.
07/12/26	Kendal	61115	X		X		X				Oppose	
07/12/26	ALVARO GIARRUSSO	60640	X		X					Prioritize completing road construction projects faster and at lower cost	Oppose	I oppose the proposed toll rate increase. Before asking drivers for more money, the Tollway should demonstrate rigorous, transparent accountability for how existing toll revenue is spent — the same standard any household or business would be expected to meet before requesting an increase in its own budget. I'd like to see independent, itemized justification for the $26.5 billion program and clear reporting mechanisms for how funds are tracked against outcomes. Drivers already fund this system fully through tolls; any increase should be a last resort after full transparency and demonstrated cost discipline, not a default response to funding gaps.
07/12/26	David Mahler	60647	X	X	X						Oppose	Thank you for increasingbtolls every other year to provide customers price stability. That's exactly what people want, prices to go up every 24 months, instead of to stay the same. That's stability. Get fucked
07/12/26	Jim Oliver	60616	X		X		X				Oppose	294 has been under various stages construction for 5+ years and just starting to get better and you want to do MORE construction? And in the middle of inflation outpacing the growth inincome of working people y out want even MORE money than it costs already? That's pretty obtuse on both IDOT and the Illinois Tollway's part.
07/12/26	Tom	60561			X		X			Using the tolls for good	Oppose	You know this is a bunch of bull shit.
07/12/26	Uturn	60107	X		X		X				Oppose	We pay enough already. The increase would need to eliminate traffic congestion and backups.
07/12/26	Karin Velasco	60090			X		X			Less construction	Oppose	This kind of price hike at this time when the economy and our citizens are suffering financially will make it very difficult for people to afford to drive to their destinations. They will choose to use side-roads instead of the tollway, and increase time and gas consumption. Maybe after the economy settles down would this be a good idea. At this time this will just be another financial pain point.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/12/26	ARTHUR GEORGE	60429	X	X					X		Support	As a member of IUOE Local 150, I support the Illinois Tollway's Driving Connections Capital Program. These investments help maintain and improve the roads and bridges that millions of people rely on every day while creating opportunities for skilled construction workers
07/12/26		60056	X		X		X				Oppose	
07/12/26	Zeki	46307	X	X	X						Support	Do what you have to make it better
07/12/26	Don Guinter	60047	X			X	X				Oppose	It's hysterical that you are suggesting that the public comments matter. No one wants another increase.
07/12/26		60012			X	X	X				Oppose	Illinois is one of the highest taxed states already! It's difficult to understand how this can even be a consideration during an already difficult economy and $.45 increase per toll sounds ridiculously high!
07/12/26	ralph waters	60163	X			X	X				Oppose	you don't need any more money
07/12/26	Paul Bubinas	53140	X		X				X		Oppose	I 294 has been under construction for years. Finish the job. Also I never see police patrolling. Stop excessive speeding and dangerous drivers.
07/12/26	don Regan	60002					X	X		Affordable travel	Oppose	Why are you making it more difficult for people to travel the roads. The Toll Authority has been a cash cow for who ever profits from it FOR EVER!
07/12/26	No Name	60025				X	X			Cost	Oppose	I will not use the toll ways with a price hike
07/12/26	Annie F.	60130	X		X		X				Oppose	This is literally highway robbery! We are overtaxed and now over tolled. People have to lose money just to go to work, shopping, or visit family. This is absolutely ridiculous that budgets continue to be balanced on the backs of hardworking Illinoisans. Where is the money going that's collected every day?? These changes will only serve to oppress people further and flood neighborhood streets with people who simply cannot afford to take the highways. So where does this price gouging of consumers and residents stop. People barely can pay for gas in this current climate so the timing is horrible to add to people's burdens. I oppose these increases. It further increases economic disparity and inequity.
07/12/26	Elsa Yee	60074	X			X	X				Oppose	
07/12/26	Steven J Coryell	60502			X		X			Fewer construction zones	Oppose	Illinois road construction projects seem to be never ending and take far too long to complete. Perhaps instead of raising tolls, you should negotiate tighter contracts to secure cheaper costs, faster timelines, and penalties for missing completion dates. Illinois taxpayers are tired of the higher taxes already and now you add significantly to the tolls. It's unacceptable. Be more efficient with your projects and manage your significant budget better.
07/12/26	Sandra Bazeluk	60517	X				X			Safety	Oppose	The tolls are already high enough. What are you doing with the money you have collected all year? The last thing the state of Illinois needs is another toll increase. Shame on you for increasing the tolls by .45!!! Between tolls and taxes, people don't want to stay in Illinois and I don't blame them!
07/12/26	J McClowry	48154	X		X		X				Oppose	Rates are already too high.
07/12/26	Richard Rhoden	60425	X		X		X				Oppose	
07/12/26	PI	60142	X		X		X				Oppose	
07/12/26	John Harrison	52001	X				X		X		Oppose	Gas prices going up now the toll is going up. You're making it hard on a general public. Don't raise the prices
07/12/26		60654	X				X			Exhausted by NON-STOP construction	Oppose	Exhausted by NON-STOP construction.
07/12/26		60053	X		X		X				Oppose	Already high tolls.
07/12/26	Mary Hladovcak	60544	X				X			Affordability	Oppose	It's already unaffordable in Illinois!
07/12/26	Anjanette wordlaw	60411	X				X		X		Oppose	
07/12/26	Jennifer	60302			X	X	X				Oppose	It's always were originally supposed to not be permanent and now the prices are getting absolutely ridiculous for just being able to use a road. They are still in bad shape and potholes everywhere so where is our money going and now you wanna take more. Why can't you use some money that you're already getting to fix these problems $.45 more per total seems a little excessive maybe try $.10 increase instead of making it so hard for everybody to just get to where they wanna go without having to pay.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/12/26	Joe M	61021	X		X				X		Support	The Tollway has always provided me with reliable drive times and the cleanest roads in winter.
07/12/26	Paul Diskant	60007	X		X		X				Oppose	Charges for road use are already too high.
07/12/26	Aaron Grandgeorge	60552	X		X		X				Oppose	Any toll increases is unacceptable. Can we have anything in this state that doesn't tax us or fee us into the ground
07/12/26	Rebecca	60614			X	X	X				Neutral	The toll atms going to Indiana / Michigan are dangerous and out dated. Prioritize getting rid of them
07/12/26	Mary Jo Thelander	60056	X				X		X		Oppose	The tollway system is convenient. Chicago doesn’t need any more funding from the tollway users. Massive increases in tolls for trucks, transportation, etc only increase the costs that are passed down to consumers.
07/12/26	Lacey Wagner	60545	X		X		X				Oppose	Tolls are already outrageously expensive and roads are not maintained. And when construction does take place, it takes years to complete. Which makes traffic even more congested. Other states without a tollway, have great roads and dont charge their citizens money for driving on them.
07/12/26	Dorothy Bolton	60031				X	X		X		Oppose	The people of Illinois cannot handle any more price increases. We are bombarded with tax increases all around our property or gas everywhere. So no more increases for the tollway. It’s so nice to go through a state that doesn’t require a toll and we have so many and too many.
07/12/26	james kruse	60010	X			X	X				Oppose	Traffic is really bad as soon as you get close to the city on I-90, the ike is terribly congested and it seems like the tollways are constantly under construction. Plus if I"m an everyday commuter from the suburbs to the city, I'm spending at least $20-30 a week on tolls, now you want to charge more? Illinois already has extremely high gas taxes than neighboring states. That money is supposed to fix our roads and schools, but roads are full of potholes and schools face teacher shortfalls.
07/12/26	Ivette Laluz	60165			X		X			No more increases	Oppose	We have so many increases we are dealing with already, barely able to make it as it is, this will be another add on to already high debt for many, not just myself
07/12/26	Margaret Ryan	60185	X				X			More control of reckless and speeding driving habits.	Oppose	I am not opposed to an increase, just to a 45 cent increase. That is a steep increase. I would be happy to see state police on our roads ticketing speeding and reckless drivers to raise funds for the tollway. Accident prevention and fundraising at the same time. I would rather see more money put into state highway police to accomplish greater safety on the roads. Margaret
07/12/26	Thomas Keenan	46311	X			X	X				Oppose	The Illinois governments merciless taxation never ends.
07/12/26	Julie Rodriguez	60187					X	X		I have to use toll way! No increase $	Oppose	For those of us who have to use tollway it is expensive and the increase in gas prices can’t afford!$$ vote no on increase!!!
07/12/26	David Kopka	60035	X		X		X				Neutral	Just follow the money please choose responsible companies that do the work correctly and take some pride in their work and hire in Illinois
07/12/26	Jim Gondeck	60047	X		X		X				Oppose	
07/12/26	GERALD M AHERN	60521	X				X	X			Oppose	It's truly criminal to hike tolls to cover this ridiculous spending. Use your current money to pay for any additional projects. I could not be more against this boondoggle.
07/12/26	Christa Selig	60174	X		X		X				Oppose	Did I VOTE for this increase? Why are you increasing MY financial burden while you are opposing our democratically elected President, sheltering illegal criminal aliens, and handing out freebies to them??? Illinois is shamefully corrupt, and I would flee if I could, as so many have, despite the fact that my family settled Chicago in 1843, built the city, rebuilt it after the Great Chicago River, and reversed the Chicago River to bring clean drinking water to Chicago. You are like Pharaoh to the Hebrew slaves, increasing their burdens, and you will meet the same end as the Egyptians did. I can't even find affordable housing or obtain a housing voucher because it's all taken by illegal aliens.
07/12/26	Jefferson Darby	61101	X				X		X		Neutral	Tolls should remain the same for people living in counties where toll roads exist. As we are required to use them every day to travel to and from work, where everyone else only use them for pleasure. All other interstates are free to them. Northern Illinois is more expensive to live because of toll roads. I know we should pay tolls just as everyone else, but it shouldn't be increased.
07/12/26	Wendy Klausen	60103	X			X	X				Oppose	Avoid tolls due to costs

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/12/26	Keith Moran	60156	X		X		X				Oppose	We are already taxed to the gills in this state. Where is the money from gambling and pot going? Ours roads should be pristine in all the tolls we pay! I55 is a train wreck along with i80 ! It never stops ! Find a way to pay for the roads out of the resources that we already have! Tell these politicians to stop filling their pockets with the easy money, scumbags !
07/12/26	Chuck Hamilton	33946		X				X	X		Support	Great tollway, we need to pay more to keep the roads maintained! Great job to all the workers, they deserve a raise 😎
07/12/26	Marie Toalson	60143			X	X	X				Oppose	
07/12/26	Welton moss III	38643	X				X			I think that the toll ways are wrong in the first place by charging the citizens money in the first place unless the money is put back into every Citizen streets and city's roads and sidewalks in order to give back and also to give back to the peoples who have a ipass to travel. You are not God and whoever own the toll ways should have gotten permission from the United States citizens and if the money is not used like I said then I believe the toll ways should end because I can see that you never had a plan from the beginning if you are planning to raise the prices just like the Government.	Oppose	Read what I said from the beginning
07/12/26	Joanne Portanova	60010	X			X	X				Oppose	The increase on the tolls is outrageous. When I currently live, I only had to pay one toll to get on and off the toll to go only 5 miles. Now I have to pay two tolls and that's each way. With the increase, I would have to pay an additional $54 a month or over $648 a year to get where I need to go. That's substantially high. I'm not getting any additional services or saving additional time. Look at the numbers....it is too high!!!
07/12/26	Henry Topczewski	60194	X			X	X				Support	I support an increase but not as much as proposed. If increased maybe .25 max initially. Then maybe gradually increase.
07/12/26	Mary McCann	60005	X		X		X				Oppose	We are being taxed to death in Illinois with no relief. The combination of Pritzkers never ending gas and other taxes, toll increases and now these proposed increases for 15 years (!) is unacceptable and make it very difficulty for the average resident to afford to live. Aren't some of the proceeds from the Illinois state lottery supposed to fund projects like this?
07/12/26		60477				X	X			NO MORE TOLLS	Oppose	Screw your increase on tolls that were supposed to never be permanent!

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/12/26	Neal Shah	60189	X		X		X				Oppose	When is it enough? The original intent of the tollway system was to build, collect enough money to pay for the roads and make it a freeway. It seems like ISTHA continues to increase tolls and every project is over budget. Please find money elsewhere. There is enough waste in the Illinois Budget to pay for these projects without increasing tolls.
07/12/26	Jay Seyller	60151	X			X	X				Oppose	This is an insane increase and the inflation adjustment sounds like it came right from Pritzkers play book. Pair this with all the new state taxes and Chicago city taxes then sit back and wonder why businesses and residents are leaving Illinois in droves. Keep up the good work.
07/12/26	Julianne Sommers	60045	X				X	X			Oppose	The money is never spent on intended projects. Always diverted to something else. You must be kidding! Again!
07/12/26	Judy McDermott	60631	X		X		X				Support	I support anything that will improve our roads and traffic. However, being a resident of Illinois all my life, the only sure thing about any of the proposals is that tollway rates will be increased.
07/12/26	Ruben Perez	60505	X				X	X			Oppose	As inflation has been hitting everyone's financial well being, an increase in toll fees would be an ever bigger financial burden on the already struggling everyday consumer. If you plan on raising the tolls, to help offset the cost on that end, eliminate the tax on groceries and gas until this project is complete or for the rest of life. As a lifetime Illinoisan, the burden of funding everything by taxing and raising costs on all of its residents is by far ludicrous. If you had the funds in courting the Chicago Bears football team from leaving Illinois then you have the finances to fund this project without creating a financial burden on the people of Illinois who use the tollway system daily to work, visit loved ones, travel to airports and it"s other uses. Please do not raise the tolls as we are already in a financial crisis as people of this great state. Thank you for your time.
07/12/26	Patricia Howell	60126	X		X		X				Oppose	The original tollway plan called for tolls to end when construction costs were paid. Over the years the commission has made sure this would never happen. This new proposal is just another way to ensure that high paid commissioners keep their jobs and the costs of the system are never amortized.
07/12/26	David Moyer	60085	X	X			X				Oppose	I believe that an additional 45 cents per toll is quite excessive. I could accept 25 cents, but 45 cents is really out of line. Also, making it so that the rates can be changed every two years is inappropriate, maybe every 5 years but not 2 years.
07/12/26	Bill Hoogland	60563	X						X	It provides the expected service as all highways do.	Oppose	The Tollway Authority is a self perpetuating system that was supposed be dissolved by this point in time. The continuing building of new roadways is unacceptable! Maintenance should be preformed by IDOT & phasing out tollway operations. This highway system should be maintained by our tax dollars that already the highest in the Nation. Tollway system needs to dissolved, it has served its original mission. The rate hike is completely ridiculous & is only justified by the elaborate plans that are outlined. The rate hike should NOT OCCUR. Continuing this constant expansion will only create additional expenses for the motoring public.
07/12/26	Robert Reiff	53029	X		X		X				Oppose	The cost of buying and operating a vehicle has increased dramatically in the past 15 years. Added costs for tolls only hurts the user's pocketbooks more. It reminds me of the USPS keeping on increasing postage rates for no real added service. We are retired, and increases like these consume money for required necessities.
07/12/26	Joshua Ferguson	60543	X			X	X				Oppose	Absolutely not, I already pay a ridiculous amount for tolls to and from work every single day. This will increase my expenses 30 more per just to travel back and forth to work. I strongly oppose this increase unless you can include discounts for residents or something along those lines.
07/12/26	Jeff Meindl	60124	X			X	X				Neutral	I am not opposed to a toll increase in general, but I would like to see a reduction on the price for a passenger vehicle towing a trailer. Several years ago when it cost half the toll rate for each extra axle, it seemed fair. Now that the rate is charged as a medium truck (5 times the passenger car rate) I feel we are being overcharged for a mimimal amount of wear and tear on the roadway.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/12/26	Randolph C Day	60586	X		X	X					Oppose	As you raise the prices of tolls, many people decide to take the side roads and not take the toll roads. The side roads are having more and more cars on them and these roads are in need of repair. Many of the toll roads do not need repair. And it comes down to saving money and adding 10 minutes to my drive to NOT take the toll road for me. We pay far too much for tolls now. Please find a better way to "fix" the roads. thank you
07/12/26	Scott Larson	60586			X	X	X				Neutral	You are neglecting a very important area: the Southwest Suburbs (beyond Will County). Any drive along south 355, 55, or 80 will show you the explosion in number of warehouses. The Northwest suburbs are served by the “Cadillac” of highways, Route 90, and yet the Southwest is barely served at all, by Metra or by wider, better, faster highways. Still, truck traffic grows thicker by the moment. Why not concentrate efforts on finally extending 355 to I-57 and to I-65 in Indiana? It is the Southwest Suburbs-to-Chicago and the Illinois-Indiana corridor that need more work, NOT DuPage County northward.
07/12/26	Amjad Muhamad	60632		X			X		X		Oppose	We need a break in this city , this I consider highway robbery , people are running away from Chicago because of these types of increases .
07/12/26	Darlene Cadore	46373	X				X	X			Oppose	This is exactly why I moved to Indiana. Raise your rates, democrats. It doesn’t affect me.
07/12/26	Roman	60106				X	X			Not paying higher tolls	Oppose	Tollways are a scam and do nothing to help the highways. I’ve yet to see any improvements on the road we drive on and I really don’t thing I price hike will improve anything.
07/12/26	Roland Bellington	60707	X				X			None	Oppose	I dont see anything other then a rate increase.
07/12/26	John Alvarado	60432	X				X			The most important factor is affordability.	Oppose	Do not raise the toll rates that are already too high. It is just one more reason why I am leaving this state...OUTRAGEOUS TAXES!!!
07/12/26	Bill	61108	X				X			The money received from tolls goes back into the rodes	Oppose	An Illinois tollway system should no longer exist. It has served its purpose. There's more money collected than can ever be spent repairing existing toll roads. There's more money being collected from Illinois residents going to and from their workplace, than from any other demographic.
07/12/26	Sue Dohrn	60143	X	X			X				Oppose	When are these tax increases going to end. The roads aren’t ever fixed.
07/12/26	Doug Dohrn	60143	X	X			X				Oppose	
07/12/26	Jake	61021	X				X		X		Oppose	Don’t you think in the right of common sense, that increasing tolls is one of the worst things we can do right now with this economy? What the heck? The governor already raised our damn taxes and gas tax. Now tolls? Why do we think people are moving out of Illinois? I mean come on! Let’s give our tax payers and hard working Illinoians a damn break. My lord. When is our state going to figure it out? This is a disgrace and just another reason we as many others are working on leaving this state in the near future if this gauging doesn’t stop! Where the hell is all the gambling $ going? Because I damn sure know its not being won by us people that do it. Use that money to make improvements instead of putting it in the heads pockets! Enough is enough! Hell, we can’t even keep our beloved Bears in our own state because of the state/Chicago leaders. Pretty sad I and many others will probably have to leave our own state to watch our favorite NFL team! GO BEARS!
07/12/26	Alexander Lopez	60657	X		X		X				Oppose	I am concerned about the cumulative cost of these toll increases as I am not sure it will address some of the major issues facing the Illinois tollway system. Despite perpetual construction, heavily used toll roads seem to constantly be in poor condition. Also, there are major bottlenecks when going into Chicago, and it is my understanding the toll roads cannot be expanded to accommodate higher levels of traffic. Therefore, these bottlenecks will continue to occur and only get worse with population growth. I fail to see how the increase in tolls, especially so dramatically will lead to a benefit to the general public. I would not support a near doubling of the tolls, especially as most residents struggle to support the living costs associated with the state.
07/12/26	Jeffrey Ostro	60645			X	X	X				Oppose	

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/12/26	Paul W Thompson	60559-1922	X				X			The promised removal of tolls from the state back in the last century	Oppose	Dear Members of the Illinois Tollway Board, I am writing to express my strong opposition to the proposed toll rate increase that would raise passenger vehicle tolls by approximately 45 cents per toll beginning in 2027, increase commercial vehicle tolls by 30 percent, and establish automatic inflation-based increases every two years thereafter. Illinois drivers already bear a substantial financial burden through tolls, fuel taxes, vehicle registration fees, and other transportation-related costs. Adding another significant toll increase—especially one that would continue to rise automatically with inflation—places an unnecessary burden on commuters, working families, and businesses that rely on the Tollway every day. Research published by the Illinois Policy Institute raises serious questions about whether this increase is financially justified. According to its analysis: Illinois drivers have paid nearly $27 billion in tolls since the Tollway system was originally expected to become toll-free decades ago. The Institute reports that from 1973 through 2024, the Tollway collected approximately $20.7 billion more than was required for maintenance and operations, including roughly $1.28 billion in surplus revenue during 2024 alone. The proposed increase would also establish automatic inflation-based toll increases beginning in 2029, creating an open-ended financial obligation for motorists without requiring future public approval. The Illinois Policy Institute further estimates that the proposed increase could cost a typical commuter hundreds of dollars more each year, while higher commercial vehicle tolls would likely increase shipping costs that are ultimately passed on to consumers through higher prices for everyday goods. While I recognize the importance of maintaining and improving Illinois' transportation infrastructure, I believe the Tollway should first demonstrate why existing record revenues and available resources are insufficient before asking motorists to pay substantially more. Greater transparency regarding current reserves, long-term financial projections, project prioritization, and operational efficiencies should precede any rate increase. The Tollway has stated that this proposal would help fund its long-term capital program and notes that passenger tolls have not increased since 2012. However, the existence of infrastructure needs alone does not automatically justify the largest passenger toll increase in the agency's history, particularly when there are competing analyses questioning whether current revenues are already adequate. I respectfully urge the Board to reject the proposed toll increase, reconsider automatic inflation-based adjustments, and instead pursue cost-saving measures, operational efficiencies, and greater financial transparency before imposing additional costs on Illinois residents and businesses.
07/12/26	Kyle	60102	X		X		X				Oppose	Abolish the tollway. Fire Pritzker. Stop paying useless politicians so much money. Bring in the national guard to clean up the hell hole Chicago has become. Bring in ICE and deport ALL illegals.
07/12/26	Phillip Stice	60404	X				X			Less tolls!!	Oppose	You tollway guys are a crock...you operate in the net positive every fiscal year yet want to raise rates. You should freeze rates or decrease them.
07/12/26		60193				X	X			No tolls	Oppose	Your increase plus a PERMANENT forever increase every other year is evil. All those who proposed this should be in jail. Government gets way too much as is. Slash your spending by 95%. We're all better off with less government

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/12/26	Paul W Thompson	60559-1922	X				X			Fairer tolls for recreational vehicles	Oppose	Dear Members of the Illinois State Toll Highway Authority Board, I am writing to express my opposition to the proposed toll increases and to request that the Illinois Tollway conduct a comprehensive review of how it classifies and charges recreational vehicles (RVs). Illinois motorists already face significant transportation costs through fuel taxes, vehicle registration fees, insurance, and existing tolls. Increasing toll rates—particularly while establishing automatic future increases tied to inflation—will place an even greater financial burden on commuters, families, retirees, and businesses that rely on the Tollway system every day. I also ask the Board to review the Tollway's current toll structure for recreational vehicles. Many RV owners use their vehicles only occasionally for vacations, camping trips, or seasonal travel. Unlike commercial trucks, RVs are not engaged in freight transportation or revenue-generating activities. Yet many RV owners pay substantially higher tolls simply because of their vehicle's size, number of axles, or because they are towing a camper or trailer. The current classification system does not always reflect how recreational vehicles are actually used. A family traveling a few weekends each year should not necessarily be treated the same as a commercial carrier operating daily for profit. I encourage the Tollway to evaluate whether a separate recreational vehicle classification or reduced toll structure could better balance fairness with the need to maintain transportation infrastructure. As the Board considers future funding needs, I also encourage greater transparency regarding current revenues, operating costs, capital project priorities, and available reserves before imposing additional costs on Illinois motorists. Many residents would appreciate a clearer understanding of why additional toll increases are necessary and what alternatives have been considered. The Illinois Tollway plays an important role in maintaining safe and reliable highways, and I appreciate the work required to operate such a large transportation network. However, I respectfully urge the Board to reject the proposed toll increases, reconsider automatic future toll adjustments, and undertake a thorough review of recreational vehicle classifications to ensure they are fair, reasonable, and reflective of how these vehicles are actually used. Thank you for your time and consideration of these comments. I hope the Board will carefully consider the impact these proposals will have on Illinois residents and visitors alike. Sincerely, Paul Thompson Westmont, IL
07/12/26	Louise Handel	60185	X			X	X				Neutral	I think it is unfair for the toll increase for passenger vehicles to be more than commercial vehicles who contribute more to the wear and tear costs of maintenance and replacement. I would also support a way to isolate or enforce truck traffic to its own lane or at least to the right. Navigating both slower and speeding semis has become its own hazard.
07/12/26	Amanda Jacobs	60657	X		X		X				Oppose	This is almost a 50% increase, which is way more than inflation.
07/12/26	Cathryn Kehr	61412	X			X	X				Neutral	30% increase seems a bit high, possible 15% increase
07/12/26	Resident	60563					X		X	Speed limit enforcement	Oppose	B.S. How about we invest some of our already collected tax dollars into enforcing the speed limits? No to increased tolls!
07/12/26	jodi moran	60148			X		X			The cost of tolls	Oppose	100% NO!!!!!!!!!!!!! Tollway was supposed to be temporary.
07/12/26	Luke	60532			X		X			Finish never complete 294 construction	Oppose	Toll is supposed to end from last time
07/12/26	Cary Tatkin	60069	X			X	X				Oppose	Absolutely no toll price increases are to occur at this time. A time when people's budgets are already in shambles from inflation and corporate greed! Furthermore, affordability issues will cause traffic volumes to increase significantly on arterial streets and non-toll expressways, making commute times in this region even worse than they already are. Approve your proposal and I guarantee that after toll traffic is siphoned off to other routes, the Chicago Tri-state area will then be awarded the shameful honor of the most congested highway system in the United Sates, giving us the LONGEST commute times, which in turn, will destroy the local economy even more. Think about it carefully before you act.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/12/26	William	61283			X		X			Roads are good for another 20 years	Oppose	Roads are fine, no increases needed
07/12/26	Isabella Rios	60106	X		X		X				Oppose	Can barely afford the toll prices now. Do not increase
07/12/26	Maria Rios	60106	X		X	X					Oppose	
07/12/26	Gabrielle Halpin	60154			X	X	X				Oppose	We pay too much for everything in Illinois now. Construction lasts 3-5 years because there are multiple projects with no completion in sight. Projects recently completed already show poor performance/conditions. So is it poor quality material labor etc.
07/12/26	Regina	60827			X	X	X				Oppose	We can barely afford gas and now you want to increase the tollway. I vote no.
07/12/26	Chris	60093				X	X			Dissolve tollway board and have idot manage using one of the highest fuel tax in the country	Oppose	Are you people nuts? Nearly 50 cent increase on a toll road that had a limited time of collection when it was conceived. I think the tollway system should have elected officials so we can vote them out of office. Instead, I will have to vote against the governor who nominates the tollway members
07/12/26	Adam west	60148				X	X			No Tolls!!!!	Oppose	Please don't raise tolls. Families are having a hard enough time making ends meet. People are leaving Illinois and you want o give them another reason. Politicians got Illinois into money trouble. Stop making the tax payers pay for their mistakes. I strongly oppose this.
07/12/26	Alan	60446	X			X	X				Oppose	Government officials keep saying affordability is a big problem now yet government officials keep raising fees and taxes. The 45% increase is ridiculous . I will avoid using the toll road as much as possible if the tolls go up that much.
07/12/26	Michael Jurgens	61462	X				X			Good roads at a lower cost- do away with ridiculous “prevailing wage”	Oppose	Our costs are already to high and gasoline taxes should be shared to pay for tollway upgrades not higher tolls.
07/12/26	Ed	60151			X	X	X				Oppose	This is BS thought it was to be free eventually. I guess I won’t be using the tollway anymore!!!!!
07/12/26	Megan Wood	60545	X				X		X		Oppose	This state already taxes us way too much and the Toll system was supposed yo end and yet IL has kept it going. To raise the toll prices is a direct hit on us and our pocketbook. To make us pay more is because the government can't handle money correctly. This will drive people and businesses out of IL. You are getting ridiculous.
07/12/26	Nancy Kwiek	60546	X		X		X				Oppose	Where is all the “gambling” money going? Weren’t those funds supposed to be used towards roads/expressways & toll roads? You mean to tell the people of Illinois that Pritzker’s $52+ billion budget “still” won’t have enough money? His so-called “balanced” budget is on paper only.
07/12/26	Jason B Taylor	53051			X		X			Waste of spending on toll money	Oppose	The interstate road conditions are rarely/almost never poor. It is dishonest to state a toll increase is needed for poor road conditions. So much money is wasted on repaving interstates that have so much life left. If anything there should be a decrease in toll rates.
07/12/26	Robert Cortright	60565	X		X		X				Oppose	Sick and tired of all the taxes and tolls. Tollway and State are milking the citizens to death.
07/12/26	Diane Hendrickson	60451	X			X	X				Oppose	There has got to be a better way for you to come up with the money to maintain these roads. A lot of these tollways had a timeline as to how long there would be a toll to cover the cost of making the road. The fees never go away. Please try to find money in the budget to cover these costs to help Illinoisans live a better, sustainable life.
07/12/26	John Genau	60586	X		X		X				Oppose	I do not support increasing tolls for private, in-state vehicles. Commercial vehicles are the primary cause for roads breaking down and should take on the primary financial responsibility.
07/12/26	John hawryszko	60482	X	X			X				Oppose	THE TOLL RATES HIGH ENOUGH AS IT IS.THAT TOLL SYSTEM RUNS 24 HOURS A DAY WITH OUT A DAY OFF COLLLECTING MONEY. 2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/12/26	Luke Keltner	60013	X			X	X				Oppose	The blatant disregard for the cost of living in illinois for average citizens is completely and utterly shameful. The government and it's supposed "leaders" need to look inward and practice restraint as it "budgets" it resources. I am sick of my hard earned tax dollars being squandered by bureaucrats. Get your hands out of our pockets, make better use of the funds you are have, and stop telling us, the tax payer, and your bosses that you need to take more. You have squandered millions, if not billions on non tax paying undocumented and illegal immigrants, perpetually bail out Chicago and its abhorrent management, and continue to take from hardworking citizens. Enough is enough. Keep your hands off of my paycheck and out of my pockets. We the people are fed up.
07/12/26	Mirza	60139					X		X	Affordability	Oppose	Stop squeezing the Illinois residents for more money and the 2020 6 figures wages cannot continue to handle this level of inflation. Every god damn commodity is expensive. The second i get some room to breathe the government goes and hikes the price of something in the guise of improvements. You are fooling no one. Enough is enough stop with this administrative hikes, if it is not sustainable for you to plan this improvements under the current tolls then you need better management and planning. No one is paying us extra because Illinois tollway decided to hike tolls or the utilities decided to charge more or the gas prices are at an all time high. We are still expected to show up to work on the dot like robots with the same 6 figure wage from 2020. I cant take it anymore. Just stop
07/12/26	Debra Salerno	60446	X		X		X				Oppose	Tolls are too high now. People drive out of their way to avoid them now. We were told many years ago the tolls were for a short time and all you do is keep increasing them. That's why there isn't much traffic
07/12/26	Stu Vass	60062			X	X	X				Oppose	This state is already too expensive to live in. Stop spending
07/12/26	Michael A	60646	X				X			Speed limit enforcement	Oppose	It's a scam!! to raise toll fees, typical BS to squeeze more more out of the state residents and of course the shipping fees will be more to follow, groceries, fuel and more.
07/12/26	Svihlik	60513		X			X			Enforce speed limits	Oppose	Historically, the toll way has always increased its fees till finally I believe the consumer has had enough. People will just take alternate routes and clog up other roads because they don't wanna pay the tolls. Those roads will need more repair in the future.
07/12/26	Margarita Garcia	60061	X		X		X				Oppose	Tolls are expensive already. The burden shouldnt be placed on commuters.
07/12/26	Scott M Larimer	60014				X	X		X		Oppose	For years we keep being told that the tolls charged to use Illinois tollway are needed and will be kept affordable. These proposed rate increases will not make them affordable and the upgrades to the system will not make driving easier. Jobs are not the reason to have tollways and should be replaced by more freeways. Tollways are not a cash cow waiting to be milked again.
07/12/26	Kailin Virden	53105			X	X	X				Oppose	The toll does not need to be increased every two years for inflation. Also the current construction around Chicago has been going on for years and never goes away. You are just adding to the back ups and traffic. Things aren't done in a timely matter when it comes to construction. They plans don't address the actual traffic concerns on 294 and 94 going through Chicago.
07/12/26	Stuart Brown	60102	X			X	X				Neutral	The governor doubled the gas tax and tied it to the Consumer Price Increase for road infrastructure. My understanding billions of the dollars collected are not spent sitting in state account. Why can't dollars from the gas tax increase be used? It just seems like the answer to every problem in Illinois is to increase taxes.
07/12/26	Benjamin John	60067-1845	X		X		X				Oppose	Increase toll for those living outside Illinois.
07/12/26	Ed	60185			X		X			Better road conditions	Oppose	State of Illinois has one of the highest rates in the country, due to criminal politicians. Politicians and private entities made promises to repair the roads but very little has been accomplished since then. This is because of corrupt politicians and private companies that continue to bleed the citizens of their hard earned money.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/12/26	Paul	60107	X			X	X				Oppose	The tolls were only supposed to be temporary and gone by 1973. Yet they are still here, and more expensive then ever. In a state where it's government is already sucking the last penny out of hard working citizens, you want more money. Where do you expect us to come up with this money?? How about you tell governor pricker to stop wasting money, and stop paying for illegal immigrants to get free school, medical, housing, food, cell phones, allowances, and more. There's your money. Stop squeezing the hard working citizens of Illinois.
07/12/26	Zachary Gooding	60108	X	X			X				Oppose	At a time when most people are struggling with cost of living increases while wages stagnate, the proposed toll increase is a de facto tax increase, by an unelected body not accountable to the taxpayers, on top of Illinois' already high tax burden.
07/12/26	MICHAEL CZERNIA	60020			X	X	X				Oppose	Tolls are high enough stop tearing up perfectly good roads just to repave them I see it all the time. If tolls increase I will just take a normal route outside the toll system might take 10 minutes longer but in the long run it will save me more money. That's all this state knows how to do is tax tax tax quit spending so much money.
07/12/26	Mike W	60563	X		X		X				Oppose	
07/12/26	Ricky Reneau	54555	X			X	X				Oppose	The roadway is constructed with tax dollars. Why should anyone then have to pay to use them?
07/12/26	James Vetro	53072	X	X	X						Support	I fully support the toll increase and construction projects for the long term infrastructure investment and long term driver benefits.
07/12/26	Mary	60062		X			X		X		Oppose	I am against raising the toll rates
07/12/26	Shirley May Byrnes	60123	X		X			X			Oppose	
07/12/26	Swacha family	60007	X				X			Let people make their decisions!!	Oppose	Illinois is Taxed enough in every direction. We don’t need any more Tax increases.
07/12/26	Maxwell	60005	X				X			Responsible spending by tollway authority	Oppose	I don't understand what is done with the billions already collected. Maybe cut some spending ? We must stop , just taxing. This increase is just another form of tax. Make the budget work. Wisconsin seems to manage their roads under budget.
07/12/26	Loretta B Wheeler	53959					X		X	we pay enoughto use the tollway without raising fees	Oppose	there is always going to be traffic even with the proposed plan
07/12/26		60162	X			X	X				Oppose	It's already expensive to travel the toll roads. Increasing prices hurts lower income Americans
07/12/26	Teri Bartholomew	60142	X		X		X				Oppose	We pay enough. Illinois taxes are high enough. If you already have license plate readers why not charge the out of state plates an increase. They're just using our roads and residents are having to pay. Double the current amounts for out of state plates and leave the Illinois people alone
07/12/26	Kurt spooner	60467			X		X			Not closing lanes when no construction being done	Oppose	Consumers are faced with everyone increasing prices and with the economy we do not need anymore price increases.
07/12/26	Jeff Peterson	60491				X	X			Affordable	Oppose	Tolls are already too expensive and the roads are fine.
07/12/26	Mary Anne Siewerth	60005-3508	X			X	X				Oppose	Illinois needs to cut the wasteful spending and fraud instead of taxing the people more.
07/12/26	Scott	60142			X	X	X				Oppose	Illinois taxes are already out of hand.
07/12/26	Eric	60406				X	X		X		Oppose	There's not enough oversight on the toll road and how money is spent. This is a massive increase to individuals.
07/12/26	Dawn	60438	X				X			Ohh did I mention affordability	Oppose	You jerks were supposed to pay off the tollway bonds about 50 ago when I was born!!! You're making ot unaffordable for people to even DRIVE to work, get bent!
07/12/26	Kim M Bickler	60120	X		X		X				Oppose	As a senior citizen on a fixed income our family cannot afford anymore fees or taxes imposed in Illinois.
07/12/26	Julie	60081	X		X	X					Oppose	I remember when "tolls" were originally initiated to do maintenance on the current roads and once that was completed the tolls would discontinue. Look where we are now!

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/12/26	Matthew Edstrom	60010	X			X	X				Oppose	It would appear that the "Free by 73" slogan used to justify the tolled roads was never the actual intent. Today the revenues of the Illinois tollway system has never been higher, and far outpaces the cost of maintenance and expenses. It would seem that the revenues that drivers have already paid should be used to make the suggested updates, and not an increase in the tolls. Thank you.
07/12/26	Catherine Gerardi	60142	X		X		X				Oppose	As a self employed gig worker, I cannot afford any more taxes, especially for a system that was to be abolished in the 70's. It's already super difficult to afford living here in IL. Illegals and immigrants are getting my tax dollars that u don't approve of and I can't even afford to carry health insurance at 55 years old! $1300/mo for single self employed gig worker is NOT AFFORDABLE and now you as y to add more taxation to those of us busting out tails to afford to eat/live/drive. If it wasn't for my aging mother I'd be moving out of this state. Can't afford housing aor renting even with the amount of taxes we pay that are way over inflated.
07/12/26	Christine	53158	X		X		X				Oppose	The roads and traffic are not an issue, I was forced to choose 3 answers. How is this “more affordable” by raising toll prices?
07/12/26	Ron	60002	X			X	X				Oppose	Illinois residents are already carrying one of the heaviest tax burdens in the nation. Between high property taxes, fuel taxes, sales taxes, vehicle registration fees, and the rising cost of housing, groceries, insurance, and utilities, another toll increase places an even greater strain on working families and retirees. Instead of asking residents to pay more every time the state needs additional revenue, lawmakers should focus on controlling government spending, improving efficiency, eliminating waste, and ensuring taxpayer dollars are used responsibly. Illinois cannot continue pricing its own residents out of their homes and communities. Families are expected to balance their budgets, and state government should be held to the same standard. If additional infrastructure funding is needed, Illinois should identify alternative ways to support those projects using revenues that are already being collected before asking residents to pay even more. The state should prioritize existing funds, improve budget management, and ensure transportation dollars are being spent efficiently. Residents should not be expected to shoulder an endless series of higher tolls, taxes, and fees while government spending continues to grow. Before imposing additional costs on the people who live and work here, Illinois should demonstrate that it has made every reasonable effort to manage its finances responsibly and make better use of the resources it already has.
07/12/26	Sandie Toms	37087	X				X			Fix the roads!	Oppose	Once again Illinois is making living in Illinois financially impossible!! That’s why I moved to Tennessee. I still do come to visit and travel the high over priced - bad roads- Illinois Toll Roads!
07/12/26	Crawford	53147			X		X			Less expensive	Oppose	Times are tough now. Do not make them worse!
07/12/26	Joshua Margaritondo	60645	X			X	X				Oppose	The tolls are already quite high. It costs nearly $20 to get over the bridge into Chicago. It seems with the income from curtent tolls funding should already be available for improvements, hich speaks to mismanagement of funds. Pouring more money at the public’s expense for ongoing mismanagement seems inappropriate. I am strongly opposed to this plan.
07/12/26		60517				X	X	X			Oppose	
07/12/26	Bret Kleinert	60964	X				X			Not a 30% increase	Oppose	As an owner of a commercial vehicle 30% is a bit ridiculous of an increase. We have families to feed too.
07/12/26	NoelAnn King	60475				X	X			AFFORDABILITY!!!	Oppose	I am absolutely against an increase in toll costs! Toll free in '73 implied the toll costs would only be temporary. Now you are talking about linking toll costs to the inflation??? At what point is enough enough? I purposefully avoid the toll roads while traveling for work as often as I can because it's just too expensive.
07/12/26	Marco Dominguez	60435	X		X		X				Oppose	Don't increase the cost of the tolls, and perform maintenance at nights and weekends. Thank you
07/12/26	Nadine S Kramer	60544			X	X	X				Oppose	Retirees need to receive senior discounts. We have paid are dues. Better yet no cost .....ok 1/2 of the full cost.
07/12/26	Lisa	46375	X	X	X						Oppose	It’s crazy that I have to pay.75 when traveling North and existing at 159th street

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/12/26	Joseph Bancsi	60061	X		X		X				Oppose	I understand the needs to maintain the roads BUT when tolls were instituted… Original Intent: The initial campaign slogan was "Toll free in '73," as state officials promised the original 187 miles of tollways would become free public highways once the bonds were retired. The Reality: That promise was never kept. The Illinois General Assembly made the Illinois Tollway Authority permanent in 1968. The system continued collecting tolls to fund continuous expansions, major rebuilds, and ongoing maintenance. I now am so tired of constant of repair construction, toll increases, and feel betrayed! Thank you for your consideration of my comments. Joseph Bancsi
07/12/26	Lamberty Willam R	60446	X				X			No tolls, freeway	Oppose	The tollway should have been paid for by now but you keep raising the tolls despite the high taxes we pay. Put it on the taxpayers of Illinois
07/12/26	Vernon Fatima	60560	X			X	X				Oppose	Every time rates are increased, it's working families who bear the burden. Our household income hasn't increased by 30%, yet we're expected to absorb costs that continue to rise at that pace. These increases have gone well beyond what is reasonable and place an unfair strain on ordinary people trying to make ends meet.
07/12/26	Thomas Smith	60481	X	X	X						Oppose	I believe that as an Illinois tax payer who uses the Illinois Tollways that we should be able to write off our tolls especially if we as taxpayers are being charged to use these roads and we have to pay for this benefit/service.
07/12/26	Bob Warren	60565	X				X			They Are Already Maintained Well Enough	Oppose	This is such a huge waste of money. For that not to be recognized is beyond me. You guys need to stop!
07/12/26	John Turrentine	60403	X		X		X				Oppose	I am 100% opposed to this proposal. If the state was governed properly and more accountable to its citizens it would be able to find the funds needed for the so called improvements. Illinois is already one the highest taxed states in the Union. Rsdients are burdened daily by the high cost of living and the wasteful spending of the state. There are other ways to gain the revenue that it seeks. Try collecting back taxes that have gone unpaid for years and stopping the exorbitant pension scam that the state and Chicago perpetuates daily on the citizens. A full audit of the States finances needs to be completed along with a full audit of Chicago's finances. The truth will come out if and when both parties are held to the standards that are set.
07/12/26	Beata Nowak	60172	X		X		X				Oppose	I strongly oppose the proposed toll increase. Illinois Tollway users are already paying some of the highest toll costs, and there are toll collection points far too frequently—at many exits and throughout the tollway system. Drivers are already contributing a significant amount, and another increase is difficult to justify. Despite previous toll increases, the overall condition of the roads does not appear to be improving. In many areas, road surfaces continue to deteriorate, and maintenance does not seem to match the amount that drivers are paying. In addition, the sides of the tollways are often littered with trash, creating a poor impression and raising concerns about how existing revenue is being used. I am also concerned about the way the public hearing process has been scheduled. While the Illinois Tollway is offering opportunities for public input, many of the hearings are being held around noon on weekdays, when most people are at work and unable to attend. If the Tollway genuinely wants to hear from the public, hearings should be scheduled during evenings or on weekends so that more residents have a fair opportunity to participate. Before asking motorists to pay more, the Illinois Tollway should demonstrate that current funds are being used efficiently by improving road conditions, increasing maintenance, keeping the tollways clean, and making the public engagement process more accessible. Raising tolls without noticeable improvements places an unfair burden on Illinois drivers who already pay substantial fees to use these roads. For these reasons, I urge the Board to reject the proposed toll increase.
07/12/26	Raymond Strom	62711-7148	X		X		X				Support	

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/12/26	Jean Hee	61021	X				X		X		Neutral	During the 40 yrs I have lived in Illinois I have seen quite a bit of wasteful spending, example $300,000 Christmas parties by the toll way, reckless spending, funding slandered. What is different this time!!!
07/12/26	Joyce Yimbu	60466	X	X				X			Oppose	No toll increases
07/12/26	Helen Schafernak	60175	X			X	X				Oppose	Outraged at this! Illinoisians are sick and tired at being taxed and taxed to death with nothing to show for it. Drive in Wisconsin and see what well maintained roads look like with no tolls!
07/12/26	Darien Williams	60543	X		X		X				Oppose	Illinois drivers already have to pay for every driving service there is. I do not support increasing tolls. Thank you 😊
07/12/26	Pritzker for jail	60140					X		X	I don't travel on the tollway if I can help it. The only thing it has going for it is that it apparently doesn't have flock cameras on it yet.	Oppose	The tolls right now are cost prohibitive. With this latest price hike I'll be penalized even more if I ever have to use the toll roads. You added an entrance/exit near my house on RT 23 and it costs $1.50 to supposedly save me 1 minute of driving time and one tenth of a mile in distance if I use that entrance/exit instead of using the Hampshire entrance/exit. The road is always under construction and the road quality never improves. I had to drive to O'Hare today and I couldn't believe the amount of debris that is on the shoulders. All of this is indicative a corrupt, dying, government that mismanages everything and steals money from citizens.
07/12/26	John Basile	60561	X				X			Illinois is corrupted	Oppose	Illinois democrats are sick. Government is a fat pig
07/12/26	Ryan	60101	X						X	Oppose	Oppose	Oppose
07/12/26	Alvin G Davis	61109	X		X		X				Oppose	That is enough on stealing the taxpayer's money, absolutely no more creases in tolls. I don't care about your program that you're trying to steal more money. From honest taxpayers, you use the money that you already have.Use the money that you've already stolen.Use the money that you gave to the illegal aliens without consulting the american taxpayer.Illinois needs a forensic audit to go through all the slush funds and all these unnecessary programs that we, the taxpayers are paying for that.We can't even benefit from so no no more creases in anything.Do it with the money you already have.Besides, even if we did vote for the money wouldn't go for where it's supposed to.Anyway, we're paying enough in tolls, and the roads are still bad to hell with all of you.No more taxes
07/12/26	Kyle MacDonald	60554	X				X			I want affordable tollways with no potholes.	Oppose	
07/12/26	Lynn Hopkins	60525	X		X		X				Oppose	I avoid using tolls because I'm tired of everything going up - like the cost of stamps. I find alternate ways of getting to my location. The tollways are ALWAYS UNDER CONSTRUCTION AND BACKED UP!!!!!!
07/12/26		60031	X		X	X					Oppose	A toll increase is inevitable. You should cut your proposed increase by 1/2.
07/12/26	Gulzar Ahmed	60187			X	X	X				Oppose	
07/12/26	Carly Book	60559	X		X		X				Oppose	Tolls were supposed to be temporary, not ongoing.... maybe build the roads better from the start like Wisconsin which doesn't require tollbooths to maintain their roads
07/12/26		60516	X		X				X		Support	Keep the roads well maintained!
07/12/26	Donna berndt	60194	X		X		X				Oppose	It's really disheartening to hear this. That is a huge jump in rates that will definitely have me avoiding the tollway any chance I can. I have driven in other states with beautiful roads that don't have tolls.
07/12/26	Ted	B0R 1C0	X		X		X				Neutral	50% increase seems pretty steep for passenger vehicles plus the increase due to inflation - ouch!
07/12/26	Sonny Trosper	60440	X			X	X				Oppose	Tolls are already too high for the value being given. Stop trying to squeeze every last cent from the citizens.
07/12/26	Rick marzec	72019	X		X	X					Oppose	Haven’t we had enough construction on the tollways for the last 2 decades. When are you planning on finishing? We don’t need another 15 years of construction and backed up traffic!!
07/12/26	Jessica LH	60119			X	X	X				Oppose	Residents are already struggling to pay bills, and Illinois taxes are already far above the national average. You cannot keep squeezing people or you are going to have entire households living in their cars. This request is breathtakingly out-of-touch.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/12/26	STEVE WIESKA	60142	X				X			Don't believe for a second any goal you propose will happen.	Oppose	We were all lied to when politicians claimed the tolls were temporary. Because this state is financially run into the ground, you want to add $100's of dollars more per year onto people's commutes?
07/12/26	Jackie	60423	X		X		X				Oppose	We aren't "customers". We're citizens, and our taxes have built and maintained the highways. Or, at least that's what we were told. However, our roads are garbage. For us to be expected to pay more to drive the streets that we built is outrageous, and yet another reason on the endless list of why people leave this state. This is an abomination, and the only people who would approve this are those who continue to profit off of the corruption. Hard no.
07/12/26	Loretta Stocke	60008	X		X		X				Oppose	myself and many others can barely afford to pay the tolls at the current rates.
07/12/26	Kat Kung	60438			X		X			No tolls	Oppose	Stop Robbing us! There are states that maintain their roads without tolls, yet Illinois keeps raising them large amounts. Start spending money wisely instead of stealing it from the people who are already getting taxed out of this state.
07/12/26	Cole Messutta	60077	X				X			Tesla issue with Illinois Tollway	Neutral	Please fix the flaw with Illinois tollways interfering with Tesla software that can not determine the vehicle going through the toll and having issues capturing.
07/12/26	Williams	60504	X				X			Transparency of money distribution	Oppose	Illinois needs to manage their money wisely. This has not been the case over the past 50 years. Until they do they need to pull this money from other places in the budget like cutting moneys spent on illegal aliens!!!!!!!!!
07/12/26	Deborah Fear	61729	X		X		X				Oppose	I think that all of the tolls are high enough and they do not need to be increased.
07/12/26	Raymond Lang	60655	X			X	X				Oppose	There does not appear to be any accountability for the Tollroad Authority. Who's overseeing the money? Where's it all going ? Wasn't the last increase promised to fund everything in the future? I've been battling with 294 for too long. Wasn't that a three year project that is now in its 5th or 6th year ? All these tollway road projects and is it really helping the driver? Or are we keeping construction companies rich ?
07/12/26	Donald Witte	61019	X				X			Toll Free by 1973	Oppose	Toll Free by 73 was the promise! PS 1973
07/12/26	Fred J Dery	52241	X				X		X		Oppose	Before raising tolls, I would strongly encourage the state of Illinois to do a deep dive into fraud, waste, and abuse at the state and local levels. F/W/A is rampant in all states, and drivers could be spared unnecessary toll increases if the state of IL, and especially Cook County which is notorious for the above, did a little due diligence with an investigative accounting review. Recouped funds very likely could be used to support that vast majority of this intended project and, in turn, could save drivers an increase in toll fees.
07/12/26	Rich B	53548				X	X			projects that don't take 10 years to complete	Neutral	I'm glad I Don't live in Illinois anymore, unfortunately I use the toll roads sometimes. It boggles my mind that you will need to raise tolls to do this. How many millions of dollars a day do the tollways make?
07/12/26		60091			X		X			Only affordability	Oppose	None, only affordability
07/12/26	Cheryl Terdina	60103	X		X	X					Oppose	I'm most concerned with the effect of the price increase on the Elgin O'Hare Expressway since that's what I use most. Right now it is $1.90 to drive from end to end and with the increase it would rise to $3.00. I am retired and find that will be hard to justify using it with any regularity and isn't that what the road is for??? I've read that the rates will increase every 2 years and I just think that is beyond reasonable. I hope you consider my comments and find a way to cut back in other areas rather than raising money on us.
07/12/26	Margie Schulz	60031	X			X	X				Oppose	I feel the increase is too much — especially at this point in time. Also, over the years there has been so much corruption within the tollway authority. Hard to believe that the current price of tolls doesn't generate enough money. If there has to be an increase, maybe an increase of 10 -15 cents per toll would be easier to swallow.
07/12/26	James mandernach	60442			X		X			How about safety like police pulling g people over riding the shoulder or trucks in the left lane	Oppose	NO WAY! It's way to expensive already and the roads suck. The drivers are dangerous and there are no Police. Semi trucks cruise the left lane at 80mph. The toll way supposed to be temporary! Stop spendimg money and make cuts. We have a surplus until the state tool to pay for pensions. STOP ALREADY. WE WORK HARD FOR MONEY AND YOU WASTE IT

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/12/26	Ken Castleberry	60505	X				X			Lower cost to use the toll roads.	Oppose	The cost of living is to great as it is now. And you want to charge MORE for working class families to get to work/school? This is NOT the time to seek more money from tollway users. Please cancel this proposal and help working families and student afford to live, work, and go to school in Illinois.
07/12/26	Sue burke	61015	X			X	X				Oppose	The fuel gas tax just went up. Now the tolls are going up. Our roads are in terrible condition with no repairs done except patching. What are you doing with the money we are paying now let alone the future.
07/12/26	Wesley Martz	60477	X		X		X				Oppose	Illinoians pay enough to drive on our roads. It won't effect me much financially, but will effect those with lower incomes that need to use the tollway make a living. It isn't living if they constantly have to pay more to the state.
07/12/26	Sharon Fahey	60067	X				X	X			Oppose	Increase in toll is too high
07/12/26	John Weiss	60126	X				X			The tollway should be abolished	Oppose	You can absolutely go fuck yourselves. All this will do is have us start funding CTA shortfalls and other various upside down financial services. FUCK JB Phatzker and fuck the Illinois tollway authority.
07/12/26	Kunj Patel	60540	X		X		X				Oppose	
07/12/26	Cindy	60431	X	X			X				Oppose	Between rising gas, car,vehicle maintenance, and lic plate stickers, those on fixed incomes can't afford more and more increases
07/12/26	Nicole Palmer	60484-3188		X	X		X				Oppose	
07/12/26	Richard Cochara	53181			X		X			Bull shit get rid of tolls. We pay to much in tolls. What happen to get rid of tolls. Illinois needs to get there shit together. See	Oppose	Fire the governor
07/12/26	Ashok Patel	60523	X				X			Good quality road work , so frequent repairs are not necessary within six months the of the completion of work the roads are not required to repair !!!! !!!	Oppose	Need to manage the work and expenses.
07/12/26	Brandon Ecton	60655	X		X		X				Oppose	This is BS. Stop taxing drivers you already don't take care of the roads.
07/12/26	Steve Moszczyc	60622	X			X	X				Oppose	stop the over paying of executives and crazy fees that the union charge per person. I think enough autos and trucks drive and pay their share, and have better budgeting of finances of projects. just saying
07/12/26	Kristin	53168	X				X		X		Oppose	Please don't higher travel rates anymore
07/12/26	Gonzalez Paul	60067	X		X		X				Oppose	Make public a line item document showing how much money goes to actual tollway work and how much is spent on administration
07/12/26	J Halper	60441	X			X	X				Oppose	It seems this Governor who has NEVER had a REAL Job his entire life, just knows how to raise everyone's costs to make it look like he can balance a budget. Had to sue his own family to get more money! Parasite! Wants to be President! OUCH!

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/12/26	Sarah Beatty	60613		X	X		X				Oppose	Inflation is at a high point over the last 3 years and the proposed hike would ultimately raise the price of everyday items. Over 70% of goods in the US are transported by trucks and since Illinoisans get most of our stuff by trucks, we are the ones having to pay the final price. We are already tired of all the recent price hikes on gas and grocery store items, and we don't need one more thing to have a large ripple effect on our cost of living. Please do not pass this proposal!
07/12/26	Mary Flowers	60007				X	X			Senior citizen, and retirement prices	Oppose	We already pay too much
07/12/26	Dan Callistein	60015			X		X			I do not have a third reason for choosing the tollway	Oppose	I remember when the tollway was supposed to stop being a tollway. And then it was voted to continue to remain a tollway. There is no need for tolls! And to increase them again is outrageous! I do not support this to increase at all. Traveling on the tollway is really no better than traveling on other highways in the Chicagoland area. There's no need to pay extra for that.
07/12/26	Harsh	60177	X		X		X				Oppose	
07/12/26	Ryan	60156	X		X		X				Oppose	
07/12/26	Michael	60540	X				X			None	Oppose	Oppose any additional toll increases.
07/12/26	Jodi Hernandez	60060	X		X		X				Oppose	We have paid enough in tolls. We have some of the worst roads in the country and we have paid enough. Wisconsin does not pay tolls and their roads are great. Quit squeezing the tax payers.
07/12/26	John S Hart	60137			X	X	X				Oppose	No new taxes, inflation rates are killing the middle class.
07/12/26	Amy Zemnick	60614	X			X	X				Oppose	The cost of tolls is already outrageous. It can cost me over $30 a day to commute on the tolls which is outrageous. I hope you will consider the impact.
07/12/26	Charles klemmer	60173	X				X		X		Oppose	We already are taxed too much. You need to find a way to become more efficient. There is too much spending and waste in Illinois. No to increase in taxes, figure it out, that is what you are paid to do.
07/12/26	Jay Klosinski	60002		X		X				Reasonable pricing	Oppose	I oppose to rate increases with no new roads. The toll roads are already always under construction with services being removed by removing the oasis'
07/12/26	Sebastian	60107		X					X	lower toll rate !!	Oppose	Taxes, fees, tolls, hikes, hikes!!! When will it end? We live in the most expensive city in the States! Where are we supposed to get the money for this crap of yours?
07/12/26	John Huber	60561			X	X	X				Oppose	
07/12/26	Michael Longo	60007				X	X			Already have high per mile pay	Oppose	Already increased the tolls to fund a poorly managed transit system and as far as I have seen a want to increase a poorly managed tollway system on the backs of already overburdened tax payers
07/12/26	David Wyman	61021	X			X	X				Oppose	If the increase mentioned per toll is correct and on the parts of I-88 I use between Dixon and Chicago then it seems high, about 23% on a current toll of $1.80. My question is why such an increase is required. Illinois already has the second highest gas tax in the country. The vehicle registration fees we pay of $151 per year, the title fee of $165 and the sales taxes on vehicle purchase are exorbitant. To the average citizen the proposed increases given the already absurd amounts we pay for vehicle-related charges already seem totally too much.
07/12/26	William Kuban	60475	X	X			X				Oppose	The Tollway was supposed to be free to all back in the 70's-80's!! Never happened!! Now you want to double the tolls accross the board!! No Bueno!! I believe that a reduction in all of the Tollway Board and Senior Management is due for a serious reduction!! Before you raise rates just because you need to do your due diligence and reduce costs!!
07/12/26	John	60087			X		X			What we were promised when this started.	Oppose	When the tollroad was created it was supposed to pay for itself and tolls were to be ended. That was decades ago. The traffick gets worse and the tolls keep increasing. I'm looking for other ways to travel other then the toll road. Even if it ads hours to my travel time. You and this Governor are draining us of everything you can.
07/12/26	Shirley Freeman	60431	X			X	X				Oppose	The tolls were originally ser up to support the roll roads. Atop increasing the rolls and start cutting the administrative costs of this. Enough is enough!!! Stop spending more than you have.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/12/26	Sal C	60625	X		X		X				Oppose	The Illinois Tollway was supposed to be temporary to fund our roads, the state must look elsewhere and fulfill its promise to lower/remove tolls
07/12/26	Jim	60156	X		X		X				Oppose	Keep running your state to the ground me and my business are relocating within 1 year
07/12/26	Niel Hutchison	60543	X		X		X				Oppose	
07/12/26	Pavel Avrakhov	60540	X			X	X				Oppose	The Midwest's worst highway network, despite high public taxation and toll rates.
07/12/26	Rick Goldschmidt	60453	X		X		X				Oppose	Tolls were supposed to be temporary..never permanent. Raising them now in this climate is a terrible idea.
07/12/26	Zachary Johnson	60189	X				X			I don't want tolls, it's too expensive	Oppose	The tollway was created 1953, state leaders promised it would be "Toll free by '73 This is a farce, there is more than enough funding (Federal, State, etc.) for the road ways without the tolls. Illinois is already one of the most expensive states to live in, please don't make it more expensive. This is why so many people are leaving our great state
07/12/26		60651	X		X		X				Oppose	The tolls should be abolished, not increased! I am highly opposed to increasing the tolls, as any maintenance/improvements should be funded through state and federal funds as done in most other states!
07/12/26	Ken	60148			X	X	X				Oppose	As many will comment , tolls were promised to be removed after the initial payment. When it came up for a vote to increase the last time, we voted no. Now you want more money and sneakingly have it adjust like our gas tax. Our Gov also has taken the current surplus and moved the money for Chicago. You cant be trusted with this as we already have 65 new taxes under this Gov
07/12/26	Ron Manderschied	60563	X				X			Keep roadways and shoulders clean.	Oppose	I am very opposed to the requested increase and even more opposed to then creating system for automatic future increases. When toll roads were originally created I thought concept was to pay off the cost and then reduce or eliminate the tolls. I can understand maintain some level of reduced tolls for ongoing maintenance but strongly object to what is being proposed.
07/12/26	Cheryl Balthazar	60515	X				X			Unlicensed, uninsured inexperienced drivers who don't read or English. Distracted drivers and the behavior to others	Oppose	Where is the money that been collected for decades? Where is the audit of spending for infrastructure and what technology is needed while driving? The last minute notice of this bill is nefarious and sneaky you ask for comments but it is already decided so why even bother asking. IL is one highest real estate taxes in the country and companies have left and leaving in droves taxes are not revenue how about cutting benefits and a balanced budget. Wisconsin looks more appealing than ever. Not that you politicians care but I will not be part of the criminal enterprise.
07/12/26	Terrence Foote	61821	X		X		X				Oppose	I suggest that future toll increases be the same percentage amount as the Concumer Price Index.
07/12/26	Concerned Citizen	60193	X		X		X				Oppose	I am writing to voice my strong opposition to the proposed 2027 toll increase and the automatic hikes planned for the years following. Illinois drivers are already stretched thin, and this proposal is a bad deal for working families. Let’s be honest, the tolls were supposed to end over 50 years ago. The original promise was that once the roads were paid for, they would become free public highways. Decades later, we are still being charged with no end in sight. Instead, the state needs to fund a private oversight board to investigate spending and see if we have any tax dollars going to fraudulent businesses/organizations within the state. We are already the most taxed citizen bases in the US, there needs to be a time to hit the brakes and reevaluate why we get less accomplished with more funding than neighboring states. Illinois ranks as the #1 most expensive state in the nation for the average family’s tax bill, I ask that you do not add to this burden any more.
07/12/26	Melinda Ryan	60586	X				X			Low cost	Oppose	No!
07/12/26	BRIAN HARRIGAN	60193	X		X	X					Oppose	I used to take 390 every day. Since the tolls were added, I find other ways to travel. However it is still the fastest route. To increase these tolls again would be detrimental to going this way. Most of the roads in Cook county and Dupage are not maintained good enough. The upgrades take way too long also.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/12/26		60004	X			X	X				Oppose	The tolls were designed to be removed when it was paid off, like the 400 in GA. But it doesn't appear to be ever going away. Another reason to leave this state and its inability to keep promises
07/12/26	Ed Redford	60031	X		X		X				Oppose	How about 5 or 10 cents? 45 is too much. All of the taxes and expenses are forcing us to leave Illinois.
07/12/26	Julie Strauss	60201	X		X			X			Neutral	I appreciate the opportunity to comment. I would like the Illinois Tollway to strongly consider a pricing model similar to NYC and London which charges more for vehicles with a single passenger; perhaps adopt lanes for vehicles with multi-passengers like in Washington DC and absolutely set up a range of tolls that favor fuel-efficient and electric vehicles, that emit fewer emissions and those that have multi-passengers. I would also urge the Illinois Tollway to consider adding solar panels on the roads and for all signage--we must move into the future and consider any and all methods to reduce congestion as well as emissions. Thank you for your consideration.
07/12/26	Lukas Pawlik	60465				X	X			No increase in cost	Oppose	I vehemently oppose the increase. As already the tolls are very expensive. I will not use the tollway anymore if the increase happens.
07/12/26	Douglas Yeo	60188	X		X		X				Oppose	I am willing to pay my fair share of taxes and fees to support governmental programs. However, Illinois is now proposing a massive toll increase that has not been well-explained. One of the problems we have in Illinois - particularly the ChicagoLand area - is that construction projects - so-called "improvements" - have been going on for years with no tangible result or completion timetable. Drivers are subjected to endless, multi-year projects that never seem to get finished. The money required for the current projects has been spent with no public accountability. Work continues, workers continue to be paid, drivers continue to be inconvenienced, and Illinoisians are inconveniences. I cannot support yet MORE work on roads when the way current work is being done is inefficient and does not result in finished products. I will not comment on rumors of corruption, overcharging by unions, etc. I leave that to the state to sort out. But as a tax payer and resident of Illinois, the idea of a HUGE increase in tolls rubs me the wrong way at this time. I am opposed until a clearer program of improvements is produced.
07/12/26	Brian	61111	X				X			The dollar's are the only important thing.	Oppose	With the amount of traffic on the tollway, and the quantity of money collected at each toll station, there should be more than enough money for repairs. It sounds like mismanagement of funds. You already removed all employees and cash booths to make salaries irrelevant.
07/12/26	Jared	60452	X		X		X				Oppose	
07/12/26	Zachary Williams	60438				X	X	X			Oppose	Do not raise the toll rates. Make due with current revenues.
07/12/26	Daemon Woods	60002	X		X		X				Oppose	No more fucking toll increases! I can barely afford to live in this fucking state as it is!!! For something that was upossed to be temporary, these fuckong tolls sure are financially raping every illinoian!
07/12/26	Nicholas D'Onofrio	60131			X		X			See above	Oppose	There's no point in increasing toll costs to improve the roads and make everything go smoother and faster if the construction never ends and there is constantly traffic because of it. I can't think of a time since I've been driving (17 years now) where there hasn't been construction. It seems as though it never ends and increasing tolls will just make me want to move my family out of Illinois faster.
07/12/26		60462			X	X	X				Oppose	
07/12/26	Anonymous	60462	X				X			Affordable	Oppose	Illinois rapes us with taxes already.
07/12/26		60623	X		X		X				Oppose	Do not increase tolls. Max increase should only be $0.05/year after multiple 100% transparent audits. Your goal should be to make it less expensive for everyone to use, maintain, and innovate the illinois tollway.
07/12/26	Deanne	60046		X	X	X					Oppose	We already pay tolls and taxes to maintain the roads. Our tolls are already some of the highest in the country. Where is all of that money? Raising the tolls would prevent me from using those roads and I would find alternative routes.
07/12/26	Paul Patricoski	60505	X				X		X		Oppose	I oppose any increases in tolls.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/12/26	Troy Johnson	60542	X				X			Stop skewing the data by forcing three choices	Oppose	When is enough enough? Stop gouging citizens. What you are doing is thr opposite of helpful.
07/12/26		60089	X		X		X				Oppose	
07/12/26	Greg ochab	60185			X		X			Affordability	Oppose	If you raise the rates you will lose many customers including myself.
07/12/26	Kirsten Bollenbach	60440	X			X	X				Oppose	EVERYTHING is SO expensive right now. can't we wait until the economy is better and stable to raise prices on yet ANOTHER thing people have to pay to even GET TO WORK! Use your heads people! NOW IS NOT THE TIME!
07/12/26	Carl A Winchester	60448	X			X	X				Oppose	the tolls we pay, in addition to gas taxes are already much higher than they should. The tolls were supposed to be removed years ago. You have fewer workers and record toll income already - we must stop assuming Illinois drivers and be the piggy bank for other areas of government and that we should shoulder so much of the costs for base services. I vote a full throated no to any additional increases.
07/12/26	Frank Olson	60071	X		X					More Police on the road	Neutral	I support to a point but there is not a day that from Richmond IL to Lake Forest there are no police. People speed, erratic driving not to mention the trucks.
07/12/26	Christine Bernstein	60439	X	X	X						Oppose	I live in Lemont. The toll on I-355 was raised one year ago. Are they proposing to raise it again? Instead of widening the toll roads why doesn't IDOT consider putting express lanes down the center (maybe for fuel efficient vehicles only?) or rail/public transit lanes? Making the roads wider will ease congestion only for a short time because if you build it they will come and next thing you know it's bumper to bumper again.
07/12/26		60193	X		X		X				Oppose	45c increase is quite a bit in terms of percentage given that most tolls in IL near Chicago suburbs is 50c to $1.25. Could it be more gradual. Also, driver services, more access points and traffic are not a huge problem in my area, so don't feel like solving the problems that we don't have. Only quality of roads need to improve in some areas.
07/12/26	Ryan	60140				X	X			affordability	Oppose	I strongly oppose this proposed toll increase. A 45-cent increase per passenger vehicle and a 30% increase for commercial vehicles will further strain Illinois families and businesses already facing rising costs. Higher commercial tolls will ultimately be passed on to consumers through increased prices, while many commuters have no realistic alternative to using the Tollway. The Tollway should focus on improving efficiency and controlling spending before asking drivers and businesses to pay more. I urge the Board to reject this unnecessary increase.
07/12/26	Amara Lowe	60410	X			X	X				Neutral	While I don't like paying more in tolls, I recognize that the roads need major upgrades. Widening I-55 to three lanes from I-80 to south of Arsenal would help. Another east-west major highway would alleviate all too typical backups on 80/94 and 90. That is a major bottleneck that at this point needs another option further south rather than additional widening of 80/94 and 90.
07/12/26	Christopher Leeson	61115			X		X	X			Oppose	The last thing we need in Illinois is higher taxes. Other states have interstate highways every bit as good as Illinois has with no tolls. The rate increases are dramatic and the linking to inflation is a never ending money grab that reduces Tollway Authority oversite even lower than it is now.
07/12/26	Aj	60950	X		X	X					Oppose	It's already too expensive to live here
07/12/26	Thad Williams	60451			X	X	X				Oppose	Enough! Cost of living is high enough in this state.
07/12/26	Jon	69148				X	X			Avoid tolls and don't use them.	Oppose	Toll are already too high. No more increases, this is just more taxes for the use of roadways that already are funded by high taxes. NO
07/12/26	Travis Lang	60174			X	X	X				Oppose	No more increases. Need to decrease!!
07/12/26		60440	X		X		X				Oppose	I do not support a toll increase. Instead, I would suggest exploring ways to generate funding from higher-income individuals or seeking their support for these projects. Continuously placing the financial burden on everyday people is not a sustainable or fair approach.
07/12/26	Sara Gummersall	60048			X	X	X				Oppose	Enough! This is a ridiculous burden. The tollway system was never meant to collect tolls in perpetuity, Fix yourselves. I've had enough

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/12/26		60181	X		X	X					Oppose	You need to address wasteful spending before you burden tollway users with higher rates. All toll areas are now unmanned so there should have been a huge cost savings there alone. Where has all of that revenue gone? Also, when the tollways were built, we were told they would be temporary. Here we are decades later with the promise that tolls will now increase every other year! How do other states run their highways without tolls and the high gas taxes we pay in Illinois? This doesn't add up. Look into your spending before punishing the people of Illinois further.
07/12/26	Larry Rochacz	60439		X	X		X				Oppose	We already have some of the highest toll rates in the nation. All you are doing is forcing people off the toll roads and back on the secondary roadways causing more & more traffic congestion.
07/12/26	David Moore	49453	X			X				Working toll booths and assist with stalled cars in auto lanes	Oppose	I drive the Indiana tollway, which is usually under construction for the past 10 years I've been driving it. What would change for me? It appears the only definite is higher tolls with NO clearcut changes that will enhance my experience. The VAGUE mention of improvements indicates we'll get to pay more for some unknown "benefit" which I'll likely never see. What CEO will make out in the interim?
07/12/26	Gary Meyers	60005			X		X		X		Oppose	Automatic increases every 2 years! A corrupt money machine!
07/12/26	Matt Reed	60101	X			X	X				Oppose	The excess gas tax collected should be used instead of transferring the surplus to the general fund
07/12/26	Gaetano Di Cosola	60151-7311	X			X	X				Oppose	It is too expensive to live right now. Any more money out of pocket for me is making it harder to live and this proposal makes more money I have to spend that I don't have. I'm on a fixed income and 45 cents a toll is too expensive. Please don't do it. You should be able to handle the roads with the money you already get
07/12/26	John Kozlowski	60503			X			X		No tolls	Oppose	The tolls were supposed to be temporary in Illinois other states do not have but Illinois does now you want to increase by 30%! Where does all the money go politics mob or congress corruption BS. I don't use the tolls that often with all the money coming in someone is taking to use for own benefit not the actual roads!
07/12/26	E star	60803		X	X		X				Oppose	Stop making us pay for your salary increases. We all know all that money is not going to improve traffic only your wallets.
07/12/26	Illinois citizen	60462			X	X	X				Oppose	294 has been under re-construction it seems for a decade. Traveling the roadway is consistently frustrating and after all these years of rework, I have seen 0 improvement in quality of life as far as it comes to my travel times. They are only worse. And now I'm being told rates are going up and there's more work to do. I may have only 1 vote but after such egregious ignorance for the citizenry, our dependence on these roadways hits home every day - and our quite reasonable compromise for paying for this roadway all these years with our tolls, I feel quite justified in declaring the current situation untenable with the current slate of Illinois representatives. And that goes for across the board. Gross mismanagement for critical infrastructure while my tax dollars continue to go up. Enough is enough.
07/12/26	schmitt	60502			X	X	X				Oppose	
07/12/26	Bhupesh Saini	43537	X				X		X		Oppose	This will make travel to Chicago more costly at a time when gas prices are already high and making travel unaffordable.

07/12/26	Amy Elliott	60463			X		X			Tolls are a rip off	Oppose	Illinois is pricing citizens right out of the state. Tolls were originally installed and meant to be temporary. Instead, they have only increased in price.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/12/26	GC	60118	X		X		X				Oppose	I strongly oppose this Illinois Tollway project. The Illinois Tollway continues to increase toll rates year after year, while many Illinois workers have not seen wage increases that keep pace with inflation or the rising cost of living. For many residents, these recurring increases place an additional financial burden on households that are already struggling. At the same time, many drivers question whether the condition of Illinois roads justifies these increasing costs. Other states have demonstrated that it is possible to maintain transportation infrastructure without placing such a significant financial burden on residents through high tolls and taxes. Illinois should evaluate those models and consider more efficient, cost-effective approaches. Illinois residents already face some of the highest tax burdens in the country. Adding higher toll costs effectively increases the financial pressure on people who rely on these roads to commute to work, attend school, and support their families. In 2026, many households have less disposable income than previous generations despite working just as hard. If the goal is truly to improve the quality of life for Illinois residents, policymakers should focus on reducing the financial strain on working families rather than creating additional costs. Keeping more money in residents' pockets would help strengthen communities, improve financial stability, and better support the people who fund these public systems.
07/12/26	Naim	60527			X	X	X				Oppose	The toll is been collected to maintain the road and it is already generating a enough surpless money. If that not enough the solution to cut the projects not to increase the toll
07/12/26	Thomas Mangan	60018	X		X		X				Oppose	All this state wants is to rob citizens and pocket the money in their pockets and keep asking for more.
07/12/26	Todd	60060	X				X			Less tolls	Oppose	State of Il is expensive as is now adding more money to everyone that makes less than inflation my step kods are new high school graduates making more than i am how am i to survive in an economy that all it does it take from the working class
07/12/26		60409	X		X		X				Oppose	Stop ripping off the people of Illinois. We pay too much tax and see no improvement in traffic
07/12/26	Crystal Bartel	60435			X		X			Getting rid of paying tolls	Oppose	I don't know how increasing rates is helping anyone. The majority of people who live in Illinois are middle class or low income so making them pay more isn't helping them. Maybe Illinois needs to hire a financial advisor and learn how to allocate funds better and morally instead of putting pressure on the people that are already struggling financially.
07/12/26	Taras Hryniw	60089	X		X		X				Oppose	Enough with the toll increases. I don't believe the comments of the tollway that toll increases will lead to less traffic - the construction takes forever (you guys can't even manage that well), the tollway wastes money on things like digital signs, and increased tolls will just lead to increased waste... not better travel times.
07/12/26	Sara Cales	60618	X		X		X				Oppose	The toll roads especially the skyway is costly enough. So costly that it already deters drivers from taking it. Increasing cost is counter productive strategy for creating more time at home through shorter commutes as drivers are already skirting around these roads opting for more cost effective routes
07/12/26	Mark Gilhooley	60925				X	X			Higher speed limits. Less aggressive truck traffic	Oppose	I've traveled the IL toll system as a salesman for 40 years. It was never convenient nor time efficient. It was not maintained and just a dangerous everyday commute no matter what part you traveled. You can't make it any better. It started out under the needed captivity and truck traffic is just deadly and confrontational. They think they own the road and right of way. Its land mass and undeveloped areas are not nearly enough to accommodate current traffic and transport capacity let alone more or provide safe travel while you tear up and replace sections without adding any additional infrastructure. It's a no win. Higher fares, 15 years of congestion and constant construction resulting in exactly what we have now. Only the most remote areas may benefit but that will only add even more volatility and dangerous situations to the already congested areas. Just my opinion, I already know this is a waste of time but you asked so I delivered.
07/12/26	Kathleen Ruscitti	60585			X	X	X				Oppose	No Expensive
07/12/26	Xhavit Sejdiu	53221	X			X	X				Oppose	This is outrageous a fricking highway robbery

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/12/26	Joe	60062	X		X		X				Oppose	You have lied to us since the 70's. Where is all your money going? I will boycott any toll road and tell everyone else to also and you can lose the money you already steal.
07/12/26	Victor	60436			X	X	X				Oppose	
07/12/26	Christina Lopez	61102					X		X	Safety	Oppose	We as Americans are already overwhelmed with the cost of living, taxes and other needs. Many of us are barely getting by. We cannot afford any more cost increases at all, in any area of our lives. Everything goes up except for the income of average people. "Let them eat cake" doesn't work anymore. We see through all the pretty words, the bottom line is always less for the people! I oppose the new toll fees! My opinion.
07/12/26	Doug	60451				X	X			Affordability	Oppose	As someone that travels quite often, this proposal will push me off of tollways and stick to county roads and major routes like Rte. 53. This state is squeezing every possible dime it can out of the people and let's face it, we're tired of it. The tolls were supposed to be temporary anyway. I am at the point where traveling through towns is much more enjoyable than shelling out almost $100 a month just to get to and from work. How about this instead. Tolls for commercial and government vehicles only, paid for by their employer and governmental districts they work for. And free to drive for everyday commuters using their personal vehicles. Stop nickel and dime-ing us. All of those "tiny little" hikes and tax raises add up in the long run. Be more like Wisconsin. Not a toll in sight and the roads are almost perfect.
07/12/26	Denise	60560			X		X			Less semi	Oppose	We pay so much already in Illinois gas tax and tolls are making it diff to make ends meet I drive 60 miles ea day to work schoolteacher can't afford more taxes that is why I thought we had gas tax for roads
07/12/26	MELONIE ALLEN	60620	X		X		X				Oppose	
07/12/26	Rich	60431	X			X	X				Oppose	How can a state like Wisconsin not charge tolls and have great roads to travel on while Illinois continues to gouge people with increase rates of tolls every four or 5 miles You drive. Tolls are just a money pit for the crooked politicians involved in this scam. We all know no matter what you do to the roads you are not gonna make them any better than they are now especially during rush-hour. It's just a waste of money, a waste of time and more money for politicians pockets.
07/12/26	Michael	60610			X	X	X				Oppose	I am vehemently opposed to any further toll increases, especially while fares for public transportation remain artificially low and continue to receive increased levels of subsidies and financial support by the State of Illinois. To deal with this funding shortfall, I would propose diverting funding from the RTA/NITA into the tollway and road network in general to better serve the hundreds of thousands of people who use the tollway across Illinois on a daily basis. Furthermore, I think it might be possible to mitigate the financial impact by only raising tolls on commercial vehicles.
07/12/26	Stein Andersen	60123	X				X			No increase in tolls. Enough already	Oppose	Enough with the damn toll increase
07/12/26	john e peoples	60640				X	X		X		Neutral	The original plan was for the toll to be temporary and many years ago we bought the proposal and the promise. Gee what happened. Lies and corruption and a broken promise.....
07/12/26	Debra Borowski	60134	X				X			Free travel!!!	Oppose	Taxes in Illinois are already the highest in the nation and now you want to increase tolls? Seriously? Stop spending my hard earned money on useless things that won't work anyway!!!!!
07/12/26	Jessica	60107			X	X	X				Oppose	You already squeeze every penny out of illinois residents. Other states can figure out how to uphold roads without tolls. Why cant you. It seems to be a government issue with spending more than expecting citizens to pay. Where is the legal Marijuana taxes going? How about all the other taxes we pay? I can barely afford to live in this state as is. I wont be able to live in it much longer if everything constantly increases.
07/12/26	Sandra Liedtke	60516	X		X		X				Oppose	I think it's too much. I would hope they can find a way to make a smaller increase and make some adjustments and some improvements.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/12/26	James Mesterharm	60022	X		X					More express lanes	Oppose	While I would like to see improved roads, I would like the state to use the funds they have already raised for transportation from the special assessment which apparently haven't been used.
07/12/26	Mike	60638			X				X	Middle class is already strapped for cash. Why not eliminated some higher up positions.	Oppose	Maybe think about less men on a truck sitting around doing nothing all day. Also, instead of laying off workers, trim the fat starting at the top.
07/12/26	Dennis Andrew	60015	X		X					You won't do a damn thing for the people who suffer living next to your road. There is no enforcement of speed or mufflers. I'd support increased tolls if you'd build a sound wall that is high enough to work or enforce the speed limit which would lower noise. Trucks run loud mufflers and run 12-15 over the limit. Traffic has increased in the 40 years I've been here. You are automatically getting more money because of this traffic. Help the neighbors of the tollway. I suggested years ago use speed and noise cameras. What ever happened to that? Nothing that's what happened.	Oppose	I made my comments in the other. But I fell it's a waste of time. Things are good for you and there is no way for citizens to fight you guys. Except maybe if we band together and get a lawyer to do a class action lawsuit. You guys make money at out expense. You let the cars speed and that means you get more cars to pay tolls and so you collect more money.
07/12/26	Kenzie roman	60124		X	X		X				Oppose	As someone who commutes downtown the tolls are starting to affect my life, it truly is becoming a bill that my family can't afford, they shouldn't legally even be there anymore let alone be increased. Illinois resident already pay the highest taxes in the country. Please leave us alone, truly the taxation is so egregious it's starting to create genuine struggle
07/12/26	Ryan	53158		X		X	X				Oppose	I will stop using the tollway after this rate increase.
07/12/26	Al Sarno	60069	X				X			None of the above	Oppose	Stop texting us to death.
07/12/26	Ma'Linda Smith	46368	X		X		X				Oppose	This increase will adversely impact commuters. The cost of living is exceptionally high. Use the existing budget and only fix what is necessary to save cost. Slow down on adding more bridges and overpasses, those can wait.
07/12/26		53027	X				X			Affordability	Oppose	You gotta be joking about that increase. How about better accountability from the contractors that get awarded current or past projects?!!!?

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/12/26	Eric	60301					X		X	Clean highways	Oppose	Just stop it. First the toll was to pay for the new highway. Later the toll remained but was cheaper if you had a toll tag. Then it became one price but higher. Now you give more reasons to increase price which is likely for salary and benefits increases. No.
07/12/26	Michelle Sandstrom	60077			X		X			Senior discounts!!	Oppose	Even if I oppose it, nothing's going to happen. I am a senior and I would really appreciate some kind of discount for someone who's been driving for over fifty years paying these tolls. All this is going to do is make more people avoid tollways and take long ways to where they need to go. Making the traffic on those roadways heavier. I already know so many people who don't use the tollway because they're sick of how expensive it is. Very disappointing.
07/12/26	Brian Durlak	60002	X		X		X				Oppose	We already pay enough money in tolls already and I don't think there should be an increase in order to fund this project. Where has all the money from tolls gone anyway?
07/12/26	James Brannan	60142	X				X			No tolls.	Oppose	Before raising tolls (again) confirm there has been an independent audit of all tollway spending justifying it and looking for cost savings measures and other opportunities. There needs to be total transparency in where all the tollway revenue is going.
07/12/26	Melissa Jane	60137	X				X		X		Oppose	The highway I frequent every day is 294 and it has been under construction for 7 years and it has been a nightmare. What they have supposedly fixed is not any better. And tolls already went up for that. Tolls in Illinois were never suppose to be permanent. That has changed and we've been take advantage of. The funds need to start coming from the federal government again
07/12/26	Geoff Weck	60098	X			X	X				Oppose	I typically try to avoid driving on the tollway because of the current cost of tolls and especially during rush hours due to traffic congestion. Tolls are already too expensive.
07/12/26	Victoria Scott	60630	X		X		X				Oppose	
07/12/26	Cheryl Baker	60586			X		X		X		Oppose	
07/12/26	Ana Luz Hernandez	60124	X				X	X			Oppose	It is a wonderful project. Ask the government to cover the expenses. That's why we are paying taxes for EVERYTHING. You should implement a discount for seniors, or people that we use those kind of roads constantly.
07/12/26	Ted R Gill	60546	X		X		X				Oppose	Working people are being squeezed with costs from the tollway. Oh the tollway that costs were to stop after it was paid for? This sounds more like a horribly bad idea that will hurt the average person needing the toll road each day.
07/12/26	Anderson	60605	X		X		X				Oppose	Do not go up .45 each toll. That's ridiculous!
07/12/26	Mike Lupa	60134			X	X	X				Oppose	Hell no!
07/12/26	Siobhan Cogswell	60143			X	X	X				Oppose	Toll rates are already ridiculously high, especially 390. Manage funds and projects better rather than increase prices. There are a lot of inefficiencies in the way that the work is done, and obviously a lot of grift in the contracts.
07/12/26	Karen Positano	60441			X	X	X				Oppose	It's too much. You just raised them recently.
07/12/26	Steve Kerchner	61010					X		X	None	Oppose	Costs are too high
07/12/26	Janice Ereth	53211		X			X			tolls for commercial vehicles should be higher than passenger cars not lower	Oppose	I don't oppose the increases but I do oppose that passenger cars have to pay more than commercial vehicles. It should be just the other way around
07/12/26	Jeff Hughes	60048			X		X			Projects that take less than multiple years to complete.	Oppose	Individual comments do not matter in the "People's" Republic of Illinois. You will increase tolls and taxes despite the voice of the people.
07/12/26	Jared A. Grosser	46545	X			X	X				Oppose	Like every other business you guys need to learn to budget and save up money for these kinds of projects. Instead of increasing rates on everybody to make it more unaffordable to travel.
07/12/26	Bonnie Layman Kennelly	61065			X	X	X				Oppose	This is a serious problem for people who have to travel for work. And I guarantee my family and myself will be making less trips to Chicago.
07/12/26	Molly	60146	X				X			Honest use of funds	Oppose	The toll budget is already massive. Use the funds for what you promised in the first place. The toll prices never drop after. Stop scamming your constituents.
07/12/26	Barbara Moss	60645	X				X		X		Oppose	No more in Illinois we know the increases are not being used to improve streets NO to this bill

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/12/26	Brian	61111	X				X			No tolls	Oppose	Are you kidding me? I strongly oppose this increase. Tolls are out of control already. I do my best to avoid your outrageous toll roads. What about the rest of the taxes that we pay? Where does that money go? Tolls didn't go down when you removed the attendants did they. Since you removed that expense, where did the extra money that you made go? Your toll system already makes thousands of dollars every day! Why don't you be more efficient with the money that you are already making and not squeeze more from the motorists.
07/12/26	Adrian C	60194	X		X		X				Oppose	Too expensive
07/12/26	Tom McHale	61107	X		X		X				Oppose	I understand the the need for increased tolls to fund improvements,but the increases are much too high.
07/12/26		47944				X	X		X		Oppose	You have been raising the tolls for over 50 years and the pavement only lasts for a year or two. Take your increase and shove it!!
07/12/26	Paulsen	60188	X			X				Keep road in good shape and clear of snow	Support	You are doing a great job. Keep up the good work. Increase the tolls as needed.
07/12/26	Madan Ramineni	60169	X			X	X				Oppose	$0.45 increase per toll is very high.
07/12/26	K	60148	X		X		X				Oppose	No increase.
07/12/26	Karen Van Buskirk	62966	X				X		X		Oppose	We are happy NOT to have to use a tollway very often. As usual, the residents in tollway areas have no real say in toll increases.
07/12/26	Coletta Black	60477			X	X	X				Oppose	Absolutely not! The money from tolls hasn't been used for what it was suppose to be for. I can not trust any money made would be used for what they are saying it will be used for!!! Hard no on raising any tolls!!!!
07/12/26	Dennis Couwenhoven	60174					X		X	Technical Assistance	Oppose	I feel the tolls should remain the same price
07/12/26	Eugene Lerner	60062	X			X	X				Oppose	I am writing to express my opposition to the proposed toll rate increase beginning in 2027. An additional 45 cents per toll for I PASS passenger vehicles represents a very steep jump compared to today's costs. This level of increase is not reasonable for everyday drivers and will create a significant financial burden, especially for those who rely on the tollway for daily commuting. While I understand the need to fund capital improvements, such funding should be implemented at a slower and more measured pace. A sudden increase of this size is excessive, and I do not support it. I also have concerns about tying future increases to the Consumer Price Index every other year, which could create ongoing, automatic cost escalation without adequate public review. For these reasons, I am against the proposed toll increase and urge the Tollway Authority to consider a more gradual and balanced funding approach
07/12/26	M Morales	60657			X		X		X		Oppose	Tax. The. Rich. It always falls on the people. Try something new.
07/12/26	Patrick Pierce	60050			X		X	X			Oppose	The tollway does not need to expand. It does not need to have automatic toll increase which requires no accountability.
07/12/26	Thomas Lahart	60191			X	X	X				Oppose	When the tollways first opened, the state promised the tools would be removed as soon as the roads were paid for (5 years). The current proposal I believe is insulting. Another reason to move out of state.
07/12/26	Rico Vanderheyden	61073				X	X			Less tolls	Oppose	Enough is enough, we are already taxed to death, and now increase the tolls... there are a lot of states that don't have tolls and maintain highways without gouging its residents
07/12/26	Martha	60181	X		X		X				Oppose	Why is this proposal not included in the taxes we already pay for? I feel like every single company is always looking for ways to take away from us consumers.
07/12/26	Ana L Barragan	61102	X				X		X		Oppose	I avoid tolls sometimes because of the cost. Now they want more money. NO
07/12/26	Robert Sullivan	60451	X		X		X				Oppose	You're going to stick it to us anyway. No comments will change anything. The Illinois way is to just keep taxing more, keep raising tolls etc.. How about balancing the budget! Oh yeah thats only for Republican run states... I have 1 positive thing to say: the workers who clear snow do a great job on that! Anything else Illinois does is a train wreck.
07/12/26	Roberta Marks	60135	X		X	X					Oppose	The tollway was supposed to be temporary. Poor mismanagement of funds!

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/12/26	Rudy D Carlson	61517	X				X		X		Oppose	I don't agree with setting up future rate increases automatically based on inflation. This makes rate increases to automatic without management making a conscious decision to raise rates. Rate increases should only be applied when there is a cost reason to do so based on a cost versus revenue decision. This is the same problem with the state's gas tax that has an inflation adjustment applied automatically. This automatic inflation increase eliminates any responsibility by management to make tough decisions.
07/12/26	Anne Dignan	60525	X		X				X		Neutral	STOP BUILDING THE Diverging Diamond Interchanges! For 15 seconds you drive on the left side of the road, cars are merging from the left, etc. Since I have driven in Europe my brain goes there and tries to adapt to being on the left, then I am back on the right side readjusting. It is way too confusing. I don't want my toll dollars creating more of that silliness. Lets work on longer-lasting well-maintained roads that tolerate our weather conditions.
07/12/26	Thomas Coyne	53711	X		X	X					Neutral	The South and/or East bound traffic to O'Hara needs to be addressed.
07/12/26	Jennifer	56537	X	X			X				Oppose	As usual, it's not enough politicians in office are trying to raise taxes more keep making everything more expensive. It's not TRUMP, it's the governing bodies in your state doing this and EVERYONE knows. I wish I didn't have to drive through Illinoise when visiting relatives, I'm disgusted by it.
07/12/26		60136			X	X	X				Oppose	There is always constant construction blockages with what appears to be no work being done. Tolls are already ridiculously expensive & these new increases make it prohibitive to use the tollway. I don't know why I continue to live in a state that has no real concept of cost to the consumer.
07/12/26	John	60060	X			X	X				Oppose	Hard no. The tollway is the definition of ".bad government ".stop the gouging and work smarter. Improvements are of no use under the conditions of chronic near full-time construction. Give us a breather.
07/12/26	Judith Paz	53129	X						X	Well plowed in winter and lower prices for I pass	Oppose	
07/12/26	Harley2002	46532	X				X		X		Oppose	With all the other tax hikes in Illinois it a wonder why big cooperation and people are moving out of state. Enough is enough
07/12/26	Stacey Zapalac	60558			X			X	X		Support	The rush hour traffic is horrible. We need to have infrastructure changes from the ground up that address this issue. The IL Tollway needs to think about committing to the mission of this new project to reduce traffic congestion so drivers are not spending so much time behind the wheel.
07/12/26	John W Joanis	60175	X				X			Reduced accidents	Oppose	When the tollway was initially constructed, the tolls were to be temporary. Just to cover construction costs. Here we are some 60 years later still paying. Charge the truck and construction traffic more. They create most of the issues.
07/12/26	Maria	60101	X		X		X				Oppose	Im on the tollway every day for work. I pay for 4 tollways coming and going to work. With inflation including gas costs rising increasing the tollways would create more of a hardship.
07/12/26	David Bertram	60561	X			X	X				Oppose	Historically, tollway funds have been lost to executive abuses, such as top executives skimming from tollway land deals and officials misusing agency resources.State Revenue Diversions: The state legislature and governor's office have frequently redirected transportation and road funds to prop up other unrelated state budgets, balance deficits, and fund employee health benefits. Tollway revenues have been utilized to subsidize fares and underwrite transit costs for suburban and Chicago regional public transit systems, such as the CTA, Metra, and Pace.Local Municipal. While not the Tollway Authority itself, state courts have previously ruled that local entities, like Cook County, improperly spent millions originally designated for transportation projects. To support a toll increase as proposed would only exacerbate the misuse of tollways funds!

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*

07/12/26	Paul Wittig	60564	X				X			Reduce extensive commute time	Oppose	A $.45 increase in tolls is disturbing, it's a huge % change. No adjacent states have toll roads, why do we. And, our gas tax is high compared to many other states. This is one more reason the Chicago area is losing population.
07/12/26	Michael Ament	54303	X		X		X				Oppose	This is bullshit. The roads in Illinois are complete crap. You take in all this money for tolls and the roads never get fixed. This is the biggest scam.
07/12/26	Scott Passman	60510	X		X		X				Oppose	I strongly opposed raising the tolls. The issue is t the money coming in, it's all the wasted money going out by our state government. Once they can finally get their spending under control, then maybe I would be amenable to a proposed increase. But that is highly unlikely.
07/12/26	Brent Angelo	61523			X		X			Police presence for speeders.	Oppose	This is literally "highway robbery!" I strongly oppose this increase, as Illinois residents that commute, and even those who do not, already pay a substantial amount in taxes and fees so many other services. The state grossly misuses and spends our tax dollars and thinks that charging its residents extra in other areas will make up for their negligence and incompetence. So sick and tired of the politics and antics of this state!
07/12/26	MoniqueCasey	60649			X	X	X				Oppose	They're already charging tooo much so any increase would be more awful!
07/12/26	Mike janowiak	60194	X		X		X				Oppose	Considering the toll was supposed to be temporary, I don't believe people make the kind of money to afford another price hike.
07/12/26	Tom	60565			X		X			Cost	Oppose	Fuck off
07/12/26	Jacob Gilmore	60174	X			X	X				Oppose	Don't charge more just because you designed roads inefficiently
07/12/26	Fren Franklin	60714			X		X			Price	Oppose	Please do not raise toll rates
07/12/26	G	60108			X	X	X				Oppose	No new taxes. Better spending and less government waste, not increased spending
07/12/26	Jason	60532	X		X		X				Oppose	Stop increasing tolls! Roads always under construction. Traffic everywhere.
07/12/26	Citizen	60604			X		X			No taxes	Oppose	I'll leave Illinois and take my tax dollars with me if this gets approved
07/12/26	Melanie Cosgrove	60148	X		X		X				Oppose	I do not support toll increases.
07/12/26	Parul Patel	60523	X				X			Construction should be of high quality so the repairs are not required within six months!	Oppose	
07/12/26	Jay	60446	X				X		X		Oppose	
07/12/26	Valorie Cosgrove	60148	X			X	X				Oppose	I am strongly opposed to toll increases.
07/12/26	Robert Kendall	60140	X		X	X					Oppose	The increase is just too aggressive. It seems like you can raise the tolls so you're doing it and trying to find a way to spend the money. In the meantime, the Jane Adams is backed up every morning
07/12/26	Sarah Y	60148	X			X	X				Oppose	The toll roads generate a surplus of money that is being held for educational purposes... why are they further increasing? When will my salary increase to match the consumer price index? Or my property taxes? Thank you for your consideration as all these things are connected.
07/12/26		60616	X		X		X				Oppose	
07/12/26		60957			X	X	X				Oppose	This is ridiculous Keep rates high for out of state people and leave us alone I can barely afford my property taxes
07/12/26	James Cosgrove	60148			X	X	X				Oppose	This will be another reason to leave this state! We are taxed to death and affordability in this state is a joke. I am opposed to any increase in tolls!
07/12/26	Charles jaeggi	60008			X		X			These roads are already to expensive to drive on. And the tax payers are paying twice!	Oppose	The tax payers pay for roadways and then have to pay to drive on them! That's crazy! It was supposed to be a temporary solution and now it's permanent. Completely wrong!!
07/12/26	Joe	60103	X		X		X				Oppose	You guys are clowns. Roads are always under construction. Always! The same roads just at different points! And now you want more money! We pay out of our asses for everything in this state! Go F yourselves.
07/12/26	Roman Zawisza	60101	X		X		X				Oppose	

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/12/26	James Cosgrove	60517				X	X	X			Oppose	Do you remember the tolls were "suppose" to be temporary? Now they will increase, what a joke of a state we live in.
07/12/26	Jeff Sorenson	69554	X		X		X				Oppose	Disappointing large percentage increase toll way Do not agree with it
07/12/26	Russell Foxworthy	60647			X			X		Carpool lanes!	Support	Offer discounts for carpoolers!
07/12/26	Terrance DuMont	60517	X	X	X						Oppose	How about instead of continuously increasing taxes and tolls in the state, you fight spending fraud! I am opposed!
07/12/26	Bret	60491			X		X			Of the 2 I selected above none of them exist, pricing is through the roof, and traffic delays are ridiculous! It's BS and the consumer and taxpayer sees no benefit except the fat cats at the top! Personally the toll road should be eliminated and our tax for gas and property should be more than enough to pay for the roads! It's a joke how you spin your assessment of what we need but yet you can't show us where all that money goes!	Oppose	To say that you are proposing rate hikes while everyday Americans are suffering at the gas station, grocery store, property tax, housing etc. and you ask us to pay more is absolutely absurd, you cut all the jobs with open tolling and have no one to pay but your own pocket books!!the toll system is a joke, it's an unnecessary cost to Illinois taxpayers and a money grab by the greedy politicians and millionaires who sit on the board and fill their pockets! You are irresponsible tyrants who live in bubbles! It's the biggest grift in America and should be eliminated! I hope you look at yourself in the mirror and realize you are ripping off average Illinoisans everyday and it's sickening! Hope you rot in hell!
07/12/26	Clay ladd	60202			X		X		X		Oppose	Everyone increasing prices just to increase.
07/12/26	Jeff Burgess	60015	X		X	X					Support	I think that the requested passenger increase is more than fair.
07/12/26	Alan Cruz	T	X		X		X				Oppose	Tolls in Illinois was initially created for the road systems to upgrade and eventually remove the tolls system entirely. Why did this change? I am opposed. Find a better set of road materials, charge tolls on heavier cars and trucks for their destructive nature, remove the tolls system like they were intended to.
07/12/26	Nakesha Hammonds	60484			X	X	X				Oppose	ABSOLUTELY NOT!!! Toll roads have always been for convenience and increasing the price will make this an inconvenience for commuters like myself who unfortunately rely on toll roads due to location. I understand wanting to decongest traffic, but find another way to fund it.
07/12/26	Faraz Akram	60110	X		X		X				Oppose	I strongly oppose the proposed toll increase and any automatic increases tied to inflation. Illinois drivers already pay enough in tolls and taxes. Before asking the public for more money the Tollway should prove that the money it already collects is being spent efficiently and only on necessary road maintenance and improvements. There should be a full independent audit and clear public reporting showing where current toll revenue has gone and why existing funds are not enough. Raising rates without first fixing wasteful spending and improving accountability will only place another burden on working families. The Tollway should reduce unnecessary costs and manage its existing revenue responsibly instead of continuing to take more money from drivers.
07/12/26	Joe Ogielo	60188	X				X			Less tolls	Oppose	The original promise was tolls would be temporary. Cuts should be made in the administration

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/12/26	Scott Olson	60103	X		X		X				Oppose	Literal highway robbery. Considering the tolls we were once told would he phased out so 40 plus years ago. It's just another example of theft from the hard working people of Illinois. Perhaps there is someone in any government body in Illinois with fiscal integrity? Apparently not. Again literal highway robbery.
07/12/26	Abby	60060	X		X		X				Oppose	
07/12/26	Patricia Brannan	60448	X				X			Just an alternative to local routes.	Oppose	Illinois has one of the highest gas taxes. And we spend millions literally supporting illegal immigrants who are draining dollars that could be used for Illinois citizens. Reallocate that money to the tollways.
07/12/26	Rene	60047	X				X			Cost is important, safety in getting to intended destination also important	Oppose	Why don't use road materials that don't deteriorate in cold and warm climates? That would make sense economically and financially. There is definitely a need to Identify another source for funding the $26 billion project other than the IL tax payers who are already taxed way too much in taxes. We should all find alternative fast routes other than the IL tollways.
07/12/26	Loretta Spesia	60431	X		X	X					Support	We need safe, well maintained roads. I'm in favor of increase in charges.
07/12/26	Robert Ditta	60452	X		X		X				Oppose	Please don't raise the tolls! With the costs of everything going up I just can't afford to pay more for every toll!
07/12/26	TFW	60093				X	X			Road safety (no potholes, risk of falling debris or bridges)	Oppose	The cost exceeds what most people can pay. Prices for basic goods and services have shot through the roof since Covid. Please prioritize minimal increases for repairs/maintenance.
07/12/26	MB	60622			X		X			Start ticketing drivers riding on the shoulder and driving dangerously.	Oppose	Yall haven't even finished previous projects you started. The roads are always dangerous and now you want us to pay more when we're already risking our lives because you can't maintain anything. Driving on any of our tollways is so dangerous due to other drivers and construction but you do absolutely nothing about it. Every single day, we hear about casualties on one of the toll ways. Every single day and yet nothing has changed.
07/12/26	Todd Ellefson	60142		X			X			No tolls! Eliminate tollway authority which is government within the state of illinois self governed. Illegal and when 1st created, all illinois tollways were suppose to be temporary and the crooks out there are ripping all illinois and non illinois residents off?!	Oppose	No tolls! Eliminate tollway authority which is government within the state of illinois self governed. Illegal and when 1st created, all illinois tollways were suppose to be temporary and the crooks out there are ripping all illinois and non illinois residents off?!
07/12/26	Richard Millspaugh	60014			X		X			Illinoisians should not have to pay twice to drive on the highways. We pay enough in for gas and taxes.	Oppose	I think Illinois pay enough money for tolls as it is. Other states don't have tolls and they're fine. I think they need to do away with the tolls all together.
07/12/26	Tina Waterdown	60451				X	X		X		Oppose	The toll roads are already expensive for an everyday user. To raise the rates would cause people more financial hardships. Everything that is delivered from semi trucks would cause a rise in cost on those products a well. So, NO. Completely oppose this program
07/12/26	Gloria Bauer	60156				X	X		X		Oppose	Maybe look at Wisconsin somehow they have MUCH beater roads than Illinois and are shockingly able to do it without charging people to drive on the roads.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/12/26	Galina Kolodyi	60101	X		X		X				Oppose	With prices for everything going up, I oppose the toll increase. Can there be other solution to this improvement. Thank you.
07/12/26	Martha VanGeem	60056	X				X		X		Oppose	It is not clear what the specific benefits are. I support maintaining the roads and bridges, but not all the extra bells and whistles.
07/12/26	Marc Alexander	60061	X		X		X				Oppose	Wisconsin, Iowa, and many other states have no tolls. They pay out if the general fund. I strongly oppose the tax increase!!
07/12/26	Jackie Secret	60440	X		X		X				Oppose	I oppose increased toll rates because they are already too high. The origin of the tolls ended years ago but instead of stopping them, they've continued implementing them and increasing them.
07/12/26	Debbie	61353	X	X			X				Oppose	This is a hard NO. Our money is going to Chicago and not tollway roads!!! I will get rid of my ipass and never take a tollway again!!! All lies just like no more tolls after the 355 extension
07/12/26	Dan	60515			X			X		Takes too long	Neutral	Start to go vertical with the highway system, Mexico City has a good example of this. Also, consider 6 major entry points that have their own lane and you are unable to get into or out of the lane until you hit Chicago. For example, an Eastbound entry point in Aurora, then maybe Naperville, Oak Brook, Oak Park, etc.
07/12/26	Katie	60630	X		X					I feel safer on the tollways	Support	
07/12/26	Kal	60515			X	X	X				Oppose	Please stop the taxes!!!!! You're driving me out of Illinois due to affordability issues!!!
07/12/26	Carla Lenart	60548-1476	X		X		X				Oppose	I'm opposed, however you will probably move forward regardless of what any of us say.
07/12/26	Mike Jensen	60441			X	X	X				Oppose	Stop fucking us by continuing to raise prices, you're all killing the middle class with your unnecessary increases.
07/12/26	Erich Horton	60099			X		X			Take away the tolls. We pay a fortune in gas tax already!!!	Oppose	No more fees, taxes or increased tolls, We're already taxed and fee'd to death in this state. Figure out how to fix the spending problem. It's already to much money to pay for sitting in traffic anyway. Enough is enough already!!!!
07/12/26	Snehal Patel	60007	X		X		X				Oppose	We all know the hike in tolls has nothing to do with the tollway conditions... so please for god's sake, stop spending taxpayers money behind something absurd and start spending money for things that improves the quality of every legal residence.
07/12/26		60516	X		X		X				Oppose	No
07/12/26	Tess Boghossian	60074			X	X	X				Oppose	Do NOT raise prices!
07/12/26	Howard J	60123	X		X		X				Oppose	The State has available money that can be used to support this (motor fuel tax). To say that all the money collected by this tax has been used would be a lie. Use a percentage of this instead of so drastically increasing the tolls. The proposed 30% commercial use increase will only be passed on to us.
07/12/26	Gloria	60123	X				X		X		Oppose	This act was passed already and NOW you ask for my feedback? Once again, this is Illinois' mismanagement of funds. Give me a break! You know very well that any commercial toll increase will be passed onto us. This is outrageous!!! I am against this.
07/12/26	Betty Benda	60462	X			X	X				Neutral	While the roads clearly require maintenance and upgrades, five decades of broken political promises and bureaucratic errors give drivers every reason to remain deeply cynical. Is this rate hike just a money grab to fund failing services elsewhere, or will this revenue explicitly be locked into tollway improvements? As a working taxpayer, it feels like public input is ignored and the agency/governor will simply do what they want anyway.
07/12/26	Greg Mieczynski	60191	X				X			Getting to where I want to go without being gouged by the Authority	Oppose	I think you guys are living in an alternative world. For most people, the economy is not good. Inflation is increasing in almost all consumer goods and services. Despite that you're proposing an almost 50% inflation adjusted increase. Do you realize not everybody who needs to go somewhere can afford these crazy prices? I'm retired and there's no way I've received an almost 50% increase in my income. In many aspects, there are no convenient alternatives to driving on the tollway. I feel like we are being taken an advantage of by the state. I plan to write to every available public representative and news source to let my feelings be known. Your proposal is absolutely crazy. So yes, I strongly oppose your proposal.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/12/26	Amy ost	53713				X	X		X		Oppose	You are making it difficult to visit family that live throughout Illinois and loved ones that live in other states where driving through is a requirement. I already have to save up when im planning on driving through, this makes it worst. Poor choice to choose to increase the toll cost.
07/12/26	Tim craine	53546			X		X		X		Oppose	I definitely would be traveling less to Rockford and O'Hare flying out of Madison from now on. I think it's way too expensive as it is.
07/12/26	Taylor Johnson	60140	X		X		X				Oppose	
07/12/26	Michael Lampson	61401	X		X		X				Oppose	We were promised many things when the tollway was built and they were not fulfilled.
07/12/26	Janice Bartik	61111	X			X	X				Oppose	We do not need a new program and increased tolls. The tollway was only supposed to be temporary and now it is costly. The increase will effect all people not just those using the tollway. Trucks also will have an increase which eventually will be passed on to us. We are already stretched thin. Not a good time for this!
07/12/26	Mary	60467	X		X		X				Oppose	We're already seeing neighbors move out of Illinois. You're just giving Illinoians one more reason to go out of our state! Real estate taxes and tax after tax are forcing people to make some serious choices. I'm so disheartened! Lived in Illinois (cook county) for all of 72 years of my life!
07/12/26	David Korsky	61102	X				X			A break from the increases.	Oppose	Our governor likes spending our money and the biggest share is to help the Chicago area. If he controlled his money like he does ours and was honest, his fortune would be smaller. He's a crook picking our wallets. He should be investigated and prosecuted for his lies and corruption. Take care of his constituents, not aliens that haven't earned any of our state money provided by us taxpayers. Seems that we are just a bank and nothing more.
07/12/26	Kenneth Clymer	60435	X				X		X		Oppose	Increases are too high. I will avoid using the system whenever possible if the increases are implemented
07/12/26	Lisa	60156	X		X		X				Oppose	Absolutely not! We already pay enough and the money it never used for what they say it will be used for. With how much has been collected for roads and our roads are in horrible shape there is no way I will pay more for tolls. They already took money that was for the roads and used it for the train and cta which I DO NOT USE! Stop the bleeding on Illinois residents. If this passes, you will lose yet another resident of the state to WI!
07/12/26	Janet Cowhey	60154	X				X			Did it right the first time instead of over and over and over!!!	Oppose	All Illinois knows how to do is Tax, Tax, TAX! I remember sitting around the dinner table as a child in the 60's and my father complaining about the tolls, saying they were only supposed to be for a short time, wee 65 years later they're still around and 10x more expensive! When will Illinois learn how to balance the budget and pay for what they can afford and quit wasting our tax money on there pet projects!?! Very discouraging!!
07/12/26	Jessica Anderson	61073	X			X	X				Oppose	Raising the cost by $.45 per toll is out of control. The tollway was supposed to be fully funded years ago. If this state wasn't so concerned with caring for illegal aliens it would have money for improvements instead of making the users of the tollway pay for the governor's bad policies!
07/12/26	Jim	60042	X				X			Current funding accountability.	Oppose	Yet another tax increase proposed by the Democrats. All of the improvements were supposed to have been paid for by now!
07/12/26	Alina Katerinitch	60172	X		X		X				Oppose	I oppose another increase on already expensive tolls!
07/12/26	Denna Carroll	60148	X			X	X				Oppose	Given how many vehicles currently use the tollway I think the increase is too much and I feel commercial vehicles should pay more than standard vehicles! Ridiculous
07/12/26	Nina	60090	X				X		X		Oppose	I don't think the idea of is good we have more than we can handle taxes and the money are not being used for us
07/12/26	Roy Dyson	53403	X	X					X		Neutral	I want to renew my ipad
07/12/26	joe fuckin biden	60085	X				X	X			Oppose	fuck the shit hole state of chicago
07/12/26	Glenn Wera	60107	X		X		X				Oppose	I'm still waiting for the promise of eliminating the tolls once the toll road was paid for

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/12/26	George Laica	65714	X				X			Affordability is my main concern hands out of our pockets please!	Oppose	Raising taxes/tolls is the only answer you people ever have. Will the last citizen leaving Illinois please turn off the lights? From a former lifelong citizen of the of the once great state of Illinois! 🤬🤬🤬
07/12/26	Maureen Rosner	60655	X			X	X				Oppose	&0.45 each toll seems excessive after the increase from $0.40 to $0.75. The tolls are unmanned so less employees, I think a modest increase if $0.10 per toll would be more reasonable
07/12/26	Patricia M Russell	60505	X			X	X				Oppose	An extra $0.45 per toll is rediculous. It would have been better to slowly raise them over time like cost of living. Make the gas companies contribute since they're making record profits!!!!
07/12/26		60152	X				X			No tolls	Oppose	
07/12/26	Sandip Paul	60061			X		X		X		Oppose	This proposal to increase toll is more money in the pockets of corrupt IL politicians. I strongly oppose to any increase
07/12/26	Elisa Kelly	60193	X	X	X						Support	Happy to increase tolls for better future of roads for myself and my family.
07/12/26	Paul Spinner	63129	X		X		X				Oppose	
07/12/26	Joe	60013	X	X	X						Oppose	It really doesn't matter because you've already made up your minds. The tolls were supposed to be eliminated in the 50's after they were built.
07/12/26	darrin bourret	60638	X		X		X				Oppose	I strongly oppose and rate increase
07/12/26	Keith Wrzala	60140	X				X			Remove the tolls	Oppose	Use the money from our excessive gas tax to fix the roads. Clean up the fraud in our state and use our taxes effectively.
07/12/26	Jessica Houde Koch	60586	X		X		X				Oppose	No! Finish a project before you start another one. The whole state doesn't need to be tore up at the same time.
07/12/26	Kenneth Edwards	60625	X	X	X						Support	I fully support this proposal. We need to spend a little bit of money to make our roads better. Totally worth it.
07/12/26	Brian Savage	47909			X	X	X				Oppose	Here's a thought maybe you should do a full audit of all your departments and stop pissing away taxpayer money! I don't understand how you cannot balance a budget so instead of fixing the problem you just raise taxes on people. It's your own mismanagement of funds which is the real reason your increasing tolls. This is why more and more people will either stop using toll roads and go around or move out of the state that is so poorly managed anyway.
07/12/26	John Franklin	60516		X	X		X				Oppose	I understand this is the definition of an excercise in futility but this, along with the tollway tax just signed into law, is going to change this man's behavior and I will happily avoid the tollway whenever possible.
07/12/26	Neal	60069			X		X			I want non-tollway options. Those are gone!	Oppose	Tolls are already too expensive. I cannot stand the tollway and you should give us a discount for all the disruption on the Tri-State over the last several years. I pay the highest tax burden in the country and now you want to increase my tolls at a rate past inflation and then have it automatically increase every 2 years! What a cop out that keeps the tollway authority from actually managing expenses. Instead they can just increase spending every year, knowing their revenue will increase. And because of the number of tollways, there is no way to get around Chicago without using a tollway. If this goes through, we are moving out of state. This is completely ridiculous! I know people say that but we are currently reviewing options. So keep on spending and watch your tax base leave!
07/12/26	Candice Ernsberger	46516-2504	X	X			X				Neutral	
07/12/26	Ty Livingston	61611	X			X	X				Support	While I can appreciate the need for additional revenue, how about a phased approach instead of such a big hike next year?
07/12/26	A concerned citizen	60177	X			X	X				Oppose	Why increase the tolls? I am already taxed when I get paid, when I spend the money I was already taxed on and when I live in my own home. Now you want to increase the price of driving my car to work every day so I get taxed on my way to getting taxed? Why not take money from all the data centers in itascia? They are not hurting for anything, other than destroying our water and raise the price of electricity.
07/12/26		60056	X	X	X						Oppose	

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/12/26	Adam Surowka	61850	X		X		X				Oppose	Until mismanagement and waste at the state level can be addressed, a fee increase would simply be wasted on administration and not directed toward actual road improvement. Meaningful spending reform and cost reduction should be the goal.
07/12/26	Andrew Golabek	61065-8915	X		X		X				Oppose	Enough already we weren't even supposed to have theses tolls your using this money more than for.roads
07/12/26		60016				X	X			Don’t raise the toll. Tax the rich more money or raise the minimum wage to living standards.	Oppose	The state is scamming people and giving high hopes of fixing the highways. This will never happen.
07/12/26	Michael	61114	X			X	X				Oppose	45 cents is too much of an increase for every single toll. I would be ok with less of a total investment and a lower increase to the per toll costs. As a commuter that passes 6 tolls each way to work, I am a heavy user and deserve to help fund improvements, but at 27 additional dollars a week in tolls I do not believe I would see a good return on investment.
07/12/26	Jason	60010			X	X	X				Oppose	I will 100% stop using the tollways if the tolls are increased.
07/12/26	Paul amoroso	60435	X	X			X				Oppose	The proposed 2027 rate increase is fine. Basing future increases on the consumer price index is hot trash. We’re already hammered on fuel tax increases and wages not keeping pace.
07/12/26	rick squires	49534	X		X		X				Oppose	My income is not tied to the CPI or other inflation measures, why should you get rate increases to keep up with inflation. I have to tighten my budget why should you be free from the burden. Having future increases solely based on inflation breads waste.
07/12/26	Justin Jessogne	60156			X	X	X				Oppose	The state adding a tax recently and now this. When does it stop Illinois? People soon won’t be able to afford to drive to work anymore with all these increases and endless construction. Decades to complete a project is insane. Endless construction all the time and massive traffic never ending ridiculous.
07/12/26	JASON C KENDALL	60411	X		X		X				Oppose	They've been fixing and re-fixing the same stretches for the last 23 years
07/12/26	LZ	60527	X		X		X				Oppose	I want to be clear that I am sympathetic to the needs of the roads in Illinois, and understand that improvements cost money. However, I fail to understand that with the amount of taxes I currently pay to the state of Illinois, and the tolls that are collected, how even more money is being asked of me to improve the roads. Other states are able to maintain their roadways without tolls, so I am opposed to toll increases when I already pay enough in taxes that should cover improvements.
07/12/26	John Vaca	60110	X			X			X		Support	Support idea but do not support the plan to raise toll rate every two years per inflation. We have not had a toll increase in many years. Continue to manage the system as before and toll increases will not be required every two years. Don't make it like the state fuel tax increases. Manage the process. Regards John
07/12/26	John	46373	X		X		X				Oppose	IL is so crooked, you all should be thrown in jail! Stop stealing our money and doing NOTHING with it
07/12/26	Sergey	60047	X			X		X			Support	This proposal makes sense to me as well all other corridor related improvements. The roads infra is heavily underfunded now.
07/12/26	Stefan	60004	X		X		X				Oppose	Stop increase the toll prices. We already pay so much money for these tolls and now you are increasing it again.
07/12/26	Steve P.	60123		X	X	X					Oppose	It is a rip off. Illinois has the highest tax rate all the way around. Half on our income goes to taxes and fees. It is Hellinois. It is hell living in this state.
07/12/26	Brian bero	60156	X		X		X				Oppose	I am against this price increase. I have a hard time believing that the proposed plan will add any real change in spending less time in traffic. I think its just a way for the state to make more money. When the tolls were first put into action many years ago we were told they were temporary. Well obviously that was a lie. Look at states like Wisconsin, they have wonderful roads with absolutely NO tolls.
07/12/26	M	60625	X				X		X		Oppose	

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/12/26	Mary	60442			X	X	X				Oppose	This state is ridiculous. You are making tolls unaffordable and this makes me very irate. You are driving people out of this state.
07/12/26	Anthony	60174			X	X	X				Oppose	Having driver's pay more to access parts of the state where it would take them longer to not take the toll lends to people who are privileged and make more money to take the toll. Increases in tolls hurt people who take toll roads for opportunities they otherwise would not have and those who are less fortunate.
07/12/26	Dennis	46307	X		X		X				Oppose	The amount of 45 cent increase is too much at a time of the high price of items. A lower amount like 20 cents would be exceptable
07/12/26	jeff mendenhall	60148	X			X	X				Oppose	How do I know the money will be spent efficiently? The state raises the gas tax already every year. I am delivery driver, my company does not reimburse tolls. This bill will raise food prices. I thought the democrats were about the affordability issue. Do more with less money. I do not trust the government of either party to spend tax efficiently. The public doesn't want the toll increase.
07/12/26	Mark Gillespie	60004			X	X	X				Oppose	With, Municipal, State, and Fed Government digging into our pockets with higher taxes, and with consumer prices through the roof due to Trump and Stephen Millers nonsense, if you raise the toll rates that much, I won't be using the tollway, I'll map out the back roads, even if it takes a few minutes longer, I won't be stuffing even more of my hard earned money into the government coffers!
07/12/26	Rick Ruffie	60540	X				X		X		Oppose	Illinois will now have the highest tolls in the US and the worst maintained roads on the tollway system. The increases are over the top. How are people to afford them. Hopefully avoid the system but that puts more traffic on the interior system. Typical government projects which will be over budget and never meet deadlines.
07/12/26	Matthew Strohmeyer	60914	X				X			Fiscal responsibility	Oppose	You get enough money. Manage it better.
07/12/26	Paul Wiercioch	60517			X		X			Cheaper	Oppose	Make due with the insane amount of money you already take from us
07/12/26	Dawn	60447	X		X		X				Oppose	The tolls were supposed to be temporary, here we are 20 years later and they just keep going up. People are now avoiding tolls if they can
07/12/26	Louis Davis	60542				X	X			***See my comments in the comment section***	Oppose	Lets be honest part of this enormous toll increase is being used to support the mass transit bail out. The vast majority of the mass transit ridership 80% (CTA)is within the city of Chicago limits while zero miles of the IL tollway are within the city of Chicago city limits. I suggest numerous new toll plazas be added with city limits to support the needs of the city mass transit shortfalls. And adding a modest increase to the suburbs toll plazas to support upkeep. It is absolutely absurd that toll plazas out in Aurora and Dekalb would be taxed for the miss management of the CTA. Let the taxes come from the area where the problem stems from.
07/12/26	Laura Sawicki	60172	X				X			Just the above two factors are important to me	Oppose	We don't even know where the current toll money is being spent, much less increasing the tolls to these excessive amounts. The Tollway Authority needs to provide more transparency to the public regarding the amounts currently collected and where they are spent before the pull more money out of taxpayers pockets, which are already stretched past their limits. I strongly oppose any toll increases until this occurs and the Authority proves the need for more funds. This is ridiculous!!!!
07/12/26	Zhavlonbek Akhmadaliev	60090			X		X		X		Oppose	It is already expensive toll roads with less alternative no-toll roads in Chicagoland area. I strongly against 30 percent toll increase for commercial vehicles. Never ending construction of toll roads are not fair for Illinoisans.
07/12/26	Branden	60192					X		X	Less tolls	Oppose	IL residents are the most taxed in the nation. The tolls were supposed to removed once the road was paid for. I am so strongly opposed to more toll increases. Where has all the toll money been spent so far? IL politics is just a bunch of lies upon lies. Fix the roads with the current funding, not by taking more money for residents.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/12/26	KS	60133	X				X	X			Oppose	We already pay the highest taxes across the board in Illinois, and I am in NO WAY in agreement with paying higher tolls!! We taxpayers have had ENOUGH of the high taxes we are already paying!! GIVE US A BREAK!!!
07/12/26	Geralynn Burns	60656	X				X		X		Oppose	When the toll roads were originally built the tolls were supposed to be temporary and eliminated when they were paid for. I believe if you increase the tolls there will be less traffic because of the increases. I for one can barely afford to use them now and if increased I will most likely avoid the tollway as much as possible. I'm sure the majority of daily drivers will not be happy with an increase. I think greed is a big part of the proposed increases!
07/12/26	Paige Rochetto	60148	X				X			Areas to pull off in case of an emergency	Oppose	In some instances you're proposing over 60% of an increase versus today's cost. That's a ridiculous jump. Tolls are already extravagant in Illinois.
07/12/26	Gary Voss	60002					X	X		Driveabilty without constant construction. Your not going to get me to answer the third to justify and support your basis claim to toll increases!	Oppose	You have completely ignored the original objective of the tollway system to stop toll collections once the system is paid off. Now you use it as a revenue source and justifying unsubstantiated upgrades to the roads. The system is a joke! 294 between Ohare and south has been under construction for years. The Ohare toll collections from southbound 294 and Int 90 is down to one single lane with no reason- there has been NO CONSTRUCTION AROUND THE LANE THAT IS CLOSED! How incompetent is that!!!! The whole system and administration needs to be defunded!
07/12/26	S	60060	X				X		X		Oppose	Ridiculous; the tolls were supposed to go away by 1973. Illinois has more taxes and fees than almost any other state and they just keep going up with little to show for it!!!!!!!!!
07/12/26		61270	X				X			no tolls	Oppose	
07/12/26	Tom Stano	60193	X				X			No increase	Oppose	No rate increase, when tall ways were created they were supposed to go away and here we are not only they are here but now rates are going up. NO Increase
07/12/26	Cindy Wulbert	48430-3012			X	X	X				Oppose	Politicians always state the roads will be better. They are in a constant state of repair when I come down to Illinois. The government wants more money to pay for more people they would like to let into the country while screwing citizens. Tired of paying more and never getting improvements. Tired of paying for people after working hard and not being able to retire. Take care of the people you have. Nothing against the people coming in but we do not have enough money and you spend more on them than you do the people who live in middle class and poor communities.
07/12/26	Laurie Maniglia	60185	X			X	X				Oppose	We already pay alot in tolls. You've gotten rid of manual tolls, the people who work them and automated everything. Figure it out with what you have already.
07/12/26	Robert W Kaczmarczyk	46311	X		X	X					Support	I support an increase as long as we are given detailed information about exact what is being done over the next 15 years to improve the roadways and traffic.

07/12/26		60005			X	X	X				Oppose	
07/12/26	Brandon Redweik	60148	X		X		X				Oppose	The percentage increases that are being proposed are astronomical. These are going to affect a lot of people negatively. It’s too large of an increase for a single increase
07/12/26	Richard racila	60142	X				X			less toll booths	Oppose	I live in Huntley, IL. The fact that I have to pay a toll at Randall Rd. and then another at 47 is ridiculous. My wife and I took a trip to Yellowstone National Park. We paid our toll at Beloit and the next toll we paid was on I-88 back in Illinois 10 days later. How do these other states have decent roads and no tolls and we are getting increases all the time? The toll roads were supposed to become free in 1973. Here we are 53 years later still paying. Crooked.
07/12/26	Scot sevedge	60101	X				X			To save on gas	Neutral	During these economic times please only raise toll 25 cents instead of 45 cents. I agree the tolls have to go up BUT not a 45 cent boost. Thank you for accepting my comment.
07/12/26	Jean Polk	60008	X			X	X				Oppose	Several years ago the taxpayers were told the increase in tolls was to Improve the roads. The road are in Bad shape all over the Cook County area with pot holes. It is something out of towners have noticed and complained to me about.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/12/26	Jen	60142	X		X		X				Oppose	The toll already cost way too much money. They say they will fix the roads and do better but all the politicians do is pocket the money and not make it better.
07/12/26	Ron Major	60169-3138	X				X			Taxation without representation	Oppose	What did you do with the last zillion dollars we gave you?!
07/12/26	Brian Crowley	60517-3991	X		X		X				Oppose	Give me a break, with all the money this State wastes on fraud, illegals and general abuse...and you cannot find the money for this supposed improvement?? Why are we paying high tolls now, the roads are awful? This is why everyone productive is leaving the State. Honestly, so despicable.
07/12/26	Michael McLaughlin	60031	X	X			X				Oppose	This increase is absolutely insane. If you wanted to raise it 5 cents that would be okay, but to raise it the amount you are proposing here is absolutely ridiculous. Do not do this, especially in a time a economic uncertainty
07/12/26	Justin Patanella	60119	X		X		X				Oppose	Too much
07/12/26	Paula	60645	X			X	X				Oppose	It’s getting too expensive to travel! This affects how often I can travel into the city to see my kids, and grandson
07/12/26	Good citizen	60008	X				X		X		Oppose	stop legally stealing from public
07/12/26	Csrolyn	60423	X				X			Less taxes, less costs	Oppose	We don't need this. This is ridiculous. Greedy money grabbing state. I'll be moving. We already have the highest property taxes, highest gas taxes, and now increased tolls- thanks for nothing Pritzker.
07/12/26	Carl L Faldetta	60042	X		X		X				Oppose	No more hidden taxes.
07/12/26	Andrew S.	60107	X		X		X				Oppose	No !!!
07/12/26	Barbara Kompare	60647	X				X		X		Oppose	
07/12/26	John Coutre	60189	X			X	X				Oppose	With the rising prices of everything, we cannot be increasing tolls for individual cars by 45 cents. This is holding us hostage and will push me to take off highway paths (Butterfield, Roosevelt) adding just more traffic to already busy roads to avoid the high toll. Please do not increase!
07/12/26	Evabs	60126	X		X		X				Oppose	Everything going up I think .45 is way to much
07/12/26	Sandra Hock	60431	X		X		X				Oppose	
07/12/26	Bill Herman	60044	X		X	X					Oppose	This system was supposed to eliminate tolls within 10 years of its formation. Ha! What a joke. Nothing but continuous construction for 60+ years, 294 is hazardous driving and construction just moves from one end to the other every year (or 5 years based on recent construction from OHare to 55. Make it free!! I have out of state friends ask me why they have to pay tolls, I said so the users pay. They say they do t have any tolls and the Fed’s help pay for interstate highways. Why can’t IL be like that everywhere, like 55, 57, 90/94 through Chicago?
07/12/26	Rick Veldman	60448					X		X	Low toll rates.	Oppose	ABSOLUTELY NOT AN INCREASE in toll rates!!!!!!!
07/12/26		60517		X	X		X				Oppose	They are already crazy expensive, this would kill my family.
07/12/26	James Targosz	60631	X				X		X		Oppose	With so much traffic traveling on the Tollway, why does the increase have to be so large? Can’t it be a smaller increase.
07/12/26	Lynn Provan	60067	X				X			Safety in regards to road rage incidents or aggressive drivers	Oppose	I calculated one short route on I88. The increase will be nearly 60%. In a time when the price of goods and services is outpacing people’s wages, a 60% increase in one year is too high. Astronomically high. I know we can do a better job in Illinois by looking at ways to cut costs and waste, combined with a reasonable (5%) toll increase to maintain the roads.
07/12/26	Blue	60504	X		X		X				Oppose	Stop your unnecessary greed...people are already struggling to pay just to live .
07/12/26	Justin Case	54914-5127	X				X		X		Oppose	How 'bout a BIG FUCK YOU Illinois?!! 😷
07/12/26	Alan Czarnecki	60462	X			X	X				Oppose	There is nothing that can be done to tollroads that would make me ok with paying an extra 45 cents per toll when I’m paying at minimum 4 tolls every day. It says this program will make tolls more affordable while telling me it’s going up 45 cents then inflation adjustments after that will just make it go higher. Not to mention the traffic it’ll cause, making it not only more expensive to travel but will impact everyone’s travel time. Find another way to help the people in Illinois without making all of its people pay more and more every year

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/12/26	Lance Laureys	60012	X			X				Congestion	Oppose	I am deeply concerned that the proposed $25.6 billion transportation program, as currently presented, does not include meaningful improvements to the Kennedy Expressway. The Kennedy Expressway—from the Des Plaines and O'Hare area, through the I-90/I-94 corridor, and into the I-290 interchange—is one of the most heavily traveled and chronically congested transportation routes in Illinois. For commuters, businesses, commercial vehicles, visitors, and residents throughout the state, this corridor has become a daily nightmare. When we say this affects Illinois, we mean everyone. The Kennedy is not simply a Chicago roadway. It is a critical regional and statewide transportation artery connecting communities, airports, businesses, freight routes, suburban residents, and travelers from across Illinois. It is unacceptable to propose spending $25.6 billion on transportation while continuing to overlook one of the state's most visible and persistent infrastructure problems. Illinois residents have endured congestion, unsafe merging conditions, deteriorating roadway conditions, outdated interchange designs, and excessive travel delays on this corridor for far too long. This project should include a comprehensive plan for Kennedy Expressway improvements, including congestion relief, interchange modernization, pavement and bridge rehabilitation, improved entrance and exit configurations, public transportation integration, and long-term capacity and safety solutions. The public deserves to know why the Kennedy Expressway was not made a major priority within a transportation program of this size. I strongly urge the State of Illinois and the responsible transportation agencies to reconsider the current plans and dedicate meaningful funding to improving the Kennedy Expressway corridor. Continuing to ignore this roadway is not a solution. It is simply asking Illinois residents to continue living with a transportation failure that affects their time, safety, productivity, and quality of life every day.
07/12/26	Blue	60504	X		X		X				Oppose	Find the money elsewhere and not from the families you want to spend more time together.
07/12/26	Linda	60564	X		X		X				Oppose	When toll roads began, the tolls were to pay for maintenance of the toll road. Now, we are paying for future development and not maintaining our existing infrastructure. I want roads that are free of construction and traffic jams. It sounds like we will be under construct until 2042 and we will be getting price increases along the way. This is not helping the average person, it is lining the pockets of construction companies goe the next16 years.
07/12/26	Dea Evans	60585			X	X	X				Oppose	Irresponsible spending to raise it. It was only supposed to be a temporary fee when they introduced the tollway remember??
07/12/26	Michael Bower	60542	X		X		X				Oppose	I thought the tolls were supposed to be temporary, DECADES AGO. People are leaving Illinois because of a lack of fiscal responsibility.
07/12/26	Erik	62010	X			X	X				Oppose	Taxes in Illinois are already too high. I may live in the southern part of the state, but I have family in the Chicago area. Raising tolls $.45 is ridiculous. Besides, what ever happened to "Toll free in 73"? Stop taking our money.
07/12/26	Mike Koumantos	60004	X		X		X				Oppose	The tolls were to be eliminated by Governor George Ryan when he increase the license plates at that time to double and he promise you'll eliminate all the tolls what happened what all that money have gone government waste again
07/12/26	Joanna Hebgen	53508-8700	X		X		X				Oppose	45 cent increase is too high. You are asking too much.
07/12/26	Patricia Yard	60504	X		X		X				Oppose	I especially oppose the commercial increases. This is all contributing to inflation. Be more judicious and effective in quality, long-lasting improvements like other parts of the world and less quick to spend spend spend.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/12/26	Leslie Burrell	60515			X		X	X			Oppose	The Illinois Tollway in its current form is ridiculous. I have lived in 4 different states, and never before had to deal with so many tolls just getting around my own local area! It's caused massive problems for visitors, who don't have a transponder and must pass through transponder-only checkpoints. The Illinois Tollway was never supposed to be permanent and shouldn't even be operating anymore, let alone RAISING its prices! I vehemently oppose the price increases and associated plans. Leslie Burrell
07/12/26	Charlene	60419	X				X	X			Oppose	
07/12/26	Mock	60187				X	X			Actually being able to afford to drive to work.	Oppose	You all are fucking crazy. Try to learn how to manage what you have first. I cannot believe in a state that boasts the highest tax rates in the entire country cannot find a way to maintain roads and wants to gouge its people even more. There is a special place in hell for the people that have run this state into the ground.
07/12/26		60647	X		X		X				Oppose	We've got no choice but to pay more. The roads will still be in horrible condition. Traffic will still be ridiculous. Other states don't need tolls to maintain their roads. This is a scam. Get a real job.
07/12/26	Sav	60172	X				X			Pick up after accidents I've been through 5 tires in two years	Oppose	Cut somewhere else. Illinois can't cut they just up things. Driving people out of the state. It costs me ten bucks daily to go to work
07/12/26	Daniel Rosenthal	60053	X		X		X				Oppose	I understand the need to maintain and improve our infrastructure, and I appreciate that these projects require funding. However, this proposed increase feels excessive. Illinois drivers have already seen tolls rise significantly over the years. At some point, it begins to feel like residents are being asked to shoulder an unfair burden. Many families commute every day, and these costs add up quickly. I'm also concerned about the broader impact. Higher tolls encourage local drivers to avoid the tollway altogether, increasing congestion on surrounding roads. Visitors who travel through Illinois are left with the impression that they're being charged an unreasonable premium just to pass through our state. Neither outcome is good for our communities or our economy. Investment in our transportation system is important, but it should be balanced with affordability. A 45-cent increase per toll, followed by automatic CPI increases every other year, places too much of the financial burden on the people who rely on these roads every day. I encourage the Tollway to explore ways to reduce costs, improve efficiency, or phase in any increases more gradually. Illinois needs modern infrastructure, but it also needs transportation that remains affordable for the people who pay for it.
07/12/26	esther williams	60491			X	X	X				Oppose	I will try to use local roads more if rates go up
07/12/26	Alex Sebastian	60564			X	X	X				Oppose	

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/12/26	Suzanne Dwyer	60124	X		X					Safety	Neutral	To the Illinois Tollway Board of Directors, I am a resident of Elgin and a regular user of the Jane Addams Memorial Tollway (I-90) corridor. I am submitting this comment in response to the proposed Driving Connections capital program and associated toll rate increases. I support prioritizing infrastructure that has reached or is approaching the end of its useful life, particularly bridge reconstruction. Deferred maintenance on aging structures poses a genuine safety risk, and I would rather see proactive investment now than reactive emergency repairs later. I also support the inclusion of roundabouts where they can be shown to reduce collision severity and improve traffic flow at appropriate intersections, and I'd encourage the Tollway to expand their use wherever engineering studies support it. I do not support the proposal to tie toll rates to automatic, recurring CPI-based adjustments beginning in 2029. Locking in future increases removes the public accountability and review process that should accompany any rate change. If future increases are warranted, they should go through the same public hearing and comment process this current proposal is undergoing — not an automatic formula. Given that the Tollway has reported record net revenues in recent years, I would ask the Board to provide a more detailed public accounting of why $26.5 billion in additional funding is required at this time, beyond the general maintenance and expansion rationale already provided. Specifically, I'd appreciate clarity on how much of this program addresses genuine state-of-good-repair needs versus expansion or new-access projects, and how existing reserves or revenue growth factor into the calculation. A commitment spanning 2027 through 2042 is a long horizon over which costs, priorities, and leadership will inevitably shift. I would ask that the Board build in regular, public checkpoints throughout the life of this program to reassess scope and cost against actual need, rather than treating the full 15-year plan as fixed from the outset. I am not opposed to thoughtful, well-justified investment in this system, and I recognize that safety and reliability require ongoing funding. However, the scale of this increase — the first in 15 years, compounded by future automatic adjustments — comes at a time when many households, including mine, are already managing rising costs across the board. I would ask the Board to weigh affordability more heavily in its final decision, and to consider a phased or more moderate rate structure that still funds priority safety work without imposing the full increase at once. Thank you for the opportunity to comment. -Suzanne Dwyer-Doruff Elgin, IL
07/12/26	Jeff Steele	60630	X				X	X			Oppose	When the Illinois State Toll Highway Commission was established in 1953, a promise was made to Illinoisans. "Toll Free by '73" was that solemn vow. Instead, between 1973 and 2024, drivers paid $27 billion. Enough! Stop the robbery of Illinois drivers by halting yet another huge increase!

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/12/26	Sue Blackwell	60148	X			X	X				Oppose	I am writing to strongly oppose the proposed Illinois Tollway rate increase. Illinois residents are already facing higher costs for housing, groceries, utilities, insurance, and fuel. Another increase in tolls places an additional financial burden on working families, seniors on fixed incomes, and people who rely on the Tollway every day to get to work, medical appointments, and care for their families. The Illinois Tollway has raised tolls before with promises of improving infrastructure. Before asking drivers to pay even more, the Tollway should demonstrate that existing revenues are being spent efficiently and responsibly. Taxpayers deserve transparency, accountability, and a clear explanation of why current funding is not sufficient. Many Illinois residents feel that every year they are asked to pay more while receiving little relief from the rising cost of living. Increasing tolls during a time when so many families are struggling financially sends the wrong message. The burden should not continue to fall on the people who have no practical alternative but to use the Tollway. I urge the Illinois Tollwaay Board to reject this proposed rate increase and instead explore ways to reduce unnecessary spending, improve operational efficiency, seek alternative funding sources, and prioritize projects without placing additional costs on Illinois drivers. Please consider the financial impact this proposal will have on the millions of residents who already contribute through tolls, taxes, registration fees, and fuel taxes. Illinois families deserve responsible fiscal management—not another increase in the cost of simply getting to work. Thank you for considering my comments. Sincerely, Susan Blackwell Lombard, Illinois
07/12/26	Kelley Garrity-Uyechi	60107	X				X			safety	Neutral	I think this is bad timing for this increase while most people are struggling to get by the additional cost if they need to take the tollway is not right. The rich can afford it due to they write it off. Truck drivers can write it off as well. Maybe add a tax deduction for what Illinois citizens can write it off. It is getting unaffordable for citizens between property taxes, and additional rising cost while pay remains stagment.
07/12/26	Abigail Bowers	60532	X				X			Safety	Oppose	There are already so many tolls, to increase it by .45 cents a toll would increase how much I have to spend on tolls yearly significantly. It's not .45 cents a drive. It's per toll! Sometimes I have to pay three of those just to get to work. These proposed "changes" are not necessary. Upkeep of course as needed, but not to the point that drivers cannot afford to drive there. Other states don't do it this way. There have to be other solutions.
07/12/26	Paulette Doogan	60481	X		X		X				Oppose	I think it's ridiculous we have to pay to drive on our roads that we've paying for years on, and they still are not maintained properly! Our state is probably the only one that keeps raising our tolls and not repairing. This is supposedly why we pay these tolls, so why? Less employees since automated toll system, but increasing constantly!
07/12/26	Wendy Roberts	60008	X		X		X				Oppose	Corrupt system! Rip off! Tolls were supposed to end years ago!
07/12/26	Joe Gentile	60439	X		X		X				Oppose	You already imposed a big increase this year so another is not appreciated.
07/12/26	John Muir	60532	X		X		X				Oppose	
07/12/26	Ed	60137	X			X				Safety services/plows	Support	Untolled roads are aging and falling apart. It's clear to me that the money we pay for the toll roads goes right back into keeping them safe and helping them keep up with demand. When the weather is bad in the winter, I'm always glad to be on the tollway. Approve it.
07/12/26	Tara Pinter	60068	X		X		X				Oppose	Stop increasing everything you possibly can. Stop wasting the money you get from the government
07/12/26	Anonymous	60016					X	X		I hate this	Oppose	The increase of everything in this country is going to cause a recession. IL is ALREADY one of the most taxed states in the country and now we have to deal with an increase of tolls?! Is food increasing not enough?! Is gas increasing not enough!? When will the average American be able to live an AVERAGE LIFE. I guarantee this comment won't even matter, won't even get read.
07/12/26	Greg Umland	61725		X			X			Low toll price	Oppose	What happened to all the windfall gas tax money??!!
07/12/26		60004	X		X	X					Oppose	
07/12/26	Ellen	60115	X		X		X				Oppose	Now is not a good time for this. Could you postpone this project for a few more years?
07/12/26	Mike Grzesiak	53029			X	X		X			Support	If higher toll rates reduces congestion, go higher.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/12/26	Jeff C	60487	X		X		X				Oppose	Tolls are already outrageous. They also were never supposed to be a long term thing. Illinois just loves the screw over it's residents.
07/12/26	Adam B	60634			X		X			Only affordability	Oppose	No wonder people move out from Illinois
07/12/26	Randy L Blair	87002	X		X					I always like the over the road Oasis that had food shopping gas maybe with ample parking. If you could extend that throughout the interstate system, not just on 294I94, but 80 and west, maybe one on Fifty five and to the airport. Yes , I know you were talking about the four girls , but it would still be nice to have more of them.	Support	Yes do it
07/12/26	Virginia Aguirre	60505	X		X		X				Oppose	I feel that we here in ILLINOIS already pay enough for each time we use The Tollway System. Around Chicago some Toll Roads are ridiculously high! Now you want us to pay more? Where do you propose that we get this extra money that you want? Everything is so expensive! I feel that if you want more money you put this whole idea on hold for at least 2 years. See with Trump in office the ordinary person cannot make a decent living. He is pulling away all programs that were helping the American People. And he is making everything SO EXPENSIVE! So I don't understand how you people think that we can pay more than what is already being paid? Example: Living in hell and wanting ice water! NOT GOING TO HAPPEN!
07/12/26	Victor Polites	60302	X			X	X				Oppose	Raising commercial prices by such an exorbitant amount is greedy and unreasonable. Especially in a time of unstable and uncertain fuel costs, though I would oppose these hikes regardless. The system pulls in enough revenue, it doesn't need to gouge for more.
07/12/26	David Kosik	60928	X		X		X				Oppose	Pritzkers plan sucks
07/12/26	Matt Quinlan	60440			X	X	X				Oppose	The tollway is something I try and avoid but I do use it frequently. I avoid because of the already high toll prices. My eyes widened when I saw a proposal for 40 cent toll increases. This is absurd, we are taxed enough with the current tolls, where's all that capital going? VOTE NO!
07/12/26	Philip Clarke	60477				X	X			Enforcement of CDL laws, NO Semi's in Express Lane!	Oppose	I WILL stop driving IL Toll Roads, if tolls go up by even ,25 cents
07/12/26	Andrew	60480			X	X	X				Oppose	The Illinois money grab has to stop. Illinois is not affordable and I will be looking to leave; and will be leaving on toll free roads. Roads should be free as promised by Illinois government in1973!
07/13/26	Chad	61108	X				X		X		Oppose	Tolls are already too expensive and we're supposed to end a long time ago. Other states don't rip their citizens off.
07/13/26	McClain Calli	61021	X			X	X				Oppose	
07/13/26	Rutul Parekh	60193			X		X	X			Oppose	Illinois residents are already paying quiet a bit of tolls
07/13/26	Lissette Valentin	60651	X		X		X				Oppose	We are taxed enough in Illinois

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/13/26	Markus Fogle	61738	X		X		X				Oppose	This is typical IL- the tollways are constantly under construction yet the budget and funds are not properly managed. I oppose this because I have been traveling for over 25 years across Chicagoland tolls and never does it feel like construction works and rates always go up, with no clear implementation of what you say you. Will do. I oppose.
07/13/26	De casey	60585	X		X	X					Oppose	This is a huge added burden to working people
07/13/26	George Katsambas	60706	X		X	X					Oppose	This is a joke right?
07/13/26	Hector Rivera	60804	X			X	X				Oppose	Tollways were originally design to raise money to pay for roads, then be freeways. Instead, it has increased and now another increase is proposed. We pay way too much in gas taxes in Illinois and you still want more. Same funds used for freeways should be used for tollways.
07/13/26	Tom Splayt	60477			X	X	X				Oppose	Originally tolls were promised to end some day. Now they want to increase them, and be able to adjust them every couple years, which I'm sure means they'll continue to go up. Ridiculous. They need to show better responsibility with the money they already get.
07/13/26	Annette L Ferek	60403			X		X			Get rid of Prickster. He is draining us with the unlimited taxing of hard working people. Stop this taxing. He must be voted out of office in November.	Oppose	Gas tax now tollway tax. Next thing he will be taxing us to breathe air! Time to go Red!
07/13/26	David Kobes	61063-9576			X		X			No, affordability is my only concern now	Oppose	Are you fucking kidding, Illinois is already milking taxpayers dry and you want more How the hell are tax payi, law abiding, voting citizens supposed to survive like this? Fuck Chicago and their fucking tolls.
07/13/26	Kris Cresco	53158			X		X			Less hazards/dangerous roadways due to no police presence on tollway	Oppose	Frustrating that Illinois (Mainly Chicago) continues to raise fees on people in and around the area. Maybe use your funds more appropriately. Wisconsin has NO tollways on any of their roads/highways and the roads are better taken care of, do not cost money per trip and are far safer than Illinois. You have very little to NO police presence on your roads, specifically surrounding and in the Chicago area. Therefore you have drivers racing through the Chicago tollway putting everyone in danger. Do Better Illinois!
07/13/26	Beth Wagner	60608				X	X			Millions collected and you want more?	Oppose	How much more can we pay for everything without raising wages? What good are roads that you can't afford to drive on? Are you adding gold toilets in your multi million dollar conference room with your billion dollar increase? You are a privatized company and you care nothing for the citizens that need your roads to get to their lousy little jobs. This is a money grab. Stop it now!

This is why so many people left the state.I55 the main road to downtown is terrible.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/13/26	Steven Richardson	48103	X				X			I don't have others, yet I am forced to have three choices. If I say less traffic, that means you should increase the tolls exorbitantly, in order to make tollways a rich person's domain. Let people put what they want. I don't want higher costs. Time to look for a different I-Pass provider.	Oppose	This is one of the dumbest sentences ever written: "In addition, the Tollway is proposing to adjust rates in accordance with the Consumer Price Index every other year to provide cost predictability for customers." How do consumers know what the CPI is going to be, in advance? This only means the tollway cost will ALWAYS be going up with the standard "basket" of goods used by the Federal government to gauge the CPI, regardless of the actual costs of road maintenance, a category not in that basket. This price boost is not based on the actual costs, but it *will* contribute to price inflation. That makes this pricing part of the problem and not tied to costs in this sector. I guess it is time to develop robotic road repair equipment to save on all the crew costs.
07/13/26	Norman Herzog	68131				X	X		X		Oppose	My rate increase is 64% - too high!
07/13/26		60441	X		X		X				Support	Decrease the proposed amount to $.25 by shifting funds from something else. Is state money being used wisely across the board? Too easy to just keep increasing. Is money available anywhere else?
07/13/26		60506	X		X	X					Oppose	I'm not paying more for no noticeable improvement. Every project and increase yielded no benefit. I will avoid the tolls and advocate very loudly and persistently for everyone to do the same. And I will be heard.
07/13/26	Karen Jones	60504			X	X	X				Oppose	I'm sure you have enough money to complete this project. Why is it always the little people who have to pay for these things. We already pay taxes on top of taxes without companies giving us a reasonable wage to help the toll road. When are the tax payers going to get a break. I'm so tired of living pay check to pay check and can't even afford a loaf of bread. Now here goes more money going out of my paycheck than I have coming in. WHEN WILL IT END. I'M TIRED OF STRUGGLING.
07/13/26	Kenya Hicks	60085	X				X		X		Oppose	The tollway was presented to the people as a temporary solution to subsidize costs that became permanent. We can't afford the 45 cent increase. We can barely afford gas! The American people are hurting financially to keep up with daily living costs. This increase would be an extra burden you want us to shoulder trying to get to our jobs on time just to stay above the water so to speak! Stop gouging the American people!!!
07/13/26	Donna	60148			X		X	X			Oppose	
07/13/26	Dale	60073			X		X			No tolls	Oppose	where is all the money you collect daily going? Why do you need to increase tolls again?
07/13/26	April Carvelli	60554	X				X			Cost	Oppose	Tolls and taxes are expensive as is, increasing the tolls will take more money out of our pockets. Take food out of our mouths.
07/13/26	PATRICIA A STRONG	60107	X				X		X		Oppose	
07/13/26	Jeff	60056	X		X	X					Oppose	I'm off improving the roads, but I feel toll prices are high enough. Would love to have an accurate accounting on where toll money goes now
07/13/26	Erica J Granath	61084-	X				X			No more tax and fee increases in ILLINOIS	Oppose	.45 cents per toll, plus additional yearly increases is out of the question for a state and a tollway system that has historically made promises regarding tolls that it has never kept. This increase is far too much for an already overtaxed population. Furthermore, FORCING people to select 3 options from the above list, that is skewed towards getting the answers YOU WANT instead of the ones you don't is misleading and fraudulent. Which factors IS MOST important to you grammatically implies you're looking for ONE answer. MOST important. Not THREE. And all the options basically skew towards things that would require an increase. Shady. You should be embarrassed that you have to cheat to get the approval you want

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/13/26	Richard Shroyer	60517					X	X		not having to pay tolls	Oppose	not acceptable to raise rates like this
07/13/26	Anonymous	49056	X		X		X				Oppose	I come from Mi very often and it's just getting terrible all the tolls. You keep raising and raising just like taxes. Manage my money better. Going to start mapping out No tolls and avoid them. unfortunately you have tolls everywhere! I have to pay to drive on roads and pay to get off on ramps! WTH
07/13/26	Jonah Rafferty	61080	X			X	X				Oppose	In Rockford, the threshold for a livable wage is about $49.81 an hour. Considering gross pay, that is just above six figures. In today's sociopolitical climate, Americans are expected to pay more for groceries, more for fuel, more for housing, more for health, and now more just to get to where we need to be? This proposed toll increase is just another slap in the face to hardworking Americans that are just trying to make it. We see the figures, we see the numbers. We all know that you don't need to increase tolls. Roadwork is funded by our tax dollars already, so let me ask you, are you willing to fork over the extra money on top of your tax dollars? If the answer is no, then why would you ask your neighbor to pay more. And if the answer is yes? How shameful.
07/13/26	Q	61020				X	X			No reason to increase toll rate	Oppose	Pritzker's greedy mind! All toll roads should be freeway by now.
07/13/26	Jennifer Majka	60467-8852				X	X			Not increasing tolls	Oppose	1. This tollway system was originally supposed to stop collecting tolls over 50 years ago. 2. Funds have already been diverted away from the intended purpose to help balance the budget. Why would we think this is not more of the same? 3. Here's a thought. Why wouldn't our states business men who are running these analyses figure out why 36 other states have better best practices than ours do for infrastructure spending and 43 other states that handle property, income, and sales taxes better than Illinois. Try pulling from their best practices for ideas. 4. Why is Illinois looking to implement this now when so many are suffering financially as it is? 5. Now Illinois has made cannabis and gambling a regular thing and large tax increases on gasoline usage. Seriously how many other income streams do you need and we can't get our act together yet? How about figuring out the old fashioned way of cutting costs instead and getting our shit together as a state instead of spending more money? Have the states largest freaking bake sale. 6. I thought Illinois was funding things through their $1.5 billion bond sale. Not going well? 7. I thought Gov Pritzler had increased budget reserves under his tenure. Why are we needing yet more money? Our roadways are constantly under construction. Seems to me that money is already there to fund those projects as it is. 8. we already have well maintained roads...see question above. We dont need higher tolls.
07/13/26	Peter	69193	X		X		X				Oppose	With increase cost of living and cost for commercial wehice be forcing higher cost of the transportation services and lower profit
07/13/26	Theresa Nicchia	60175	X		X		X				Oppose	Toll roads in IL were supposed to be temporary. The road conditions are horrible with all the pot holes and patches. Where is all the toll $ going? Spending from the toll budget should be made public. You don't have to pay attendants anymore so why can't you do the upgrades with all the $ you have now? Ridiculous to increase the rate at a time when families are struggling. SAD
07/13/26	Michele Hensley	60074	X		X		X				Oppose	The rate hikes are astronomical in a state that already taxes its citizens to a higher degree than other states. Why does Illinois keep asking for more? I am not saying to not repair roads but I am wondering why this cannot come from a lower increase. .45 per toll is doubling (sometimes) more the current rate. It is too big of an increase on taxpayers that are already struggling.
07/13/26	Mike R	60015				X	X			When will the tolls actually go away	Oppose	Enough with keeping the tollway and its managers in business there are much better roads all over country without tolls
07/13/26	Steve	60047	X		X		X				Oppose	Roads should be free. Toll is a burden as it is. NO MORE TOLL INCREASE!!

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/13/26	Cheryl Dasher	60452-1501	X				X			Police monitoring	Oppose	The open tollway works fine. What doesn't work fine is the way people are allowed to drive 90 mph and cause accidents. What we need are actual consequences for speeding and road rage. Invest in that. Twelve years ago when I used the tollway for work there were coworkers who said they couldn't afford to work because of the cost coming on the tollways. Yet here in Illinois politicians pad their pockets and their buddies pockets at the detriment of average working citizens and tell people it is so they can spend more time at home with their families. That is laughable. It's disgusting. They will make it a 15 year nightmare for anyone traveling the tollway. Leave it alone.
07/13/26	Eric Lund	61008-8968	X				X			Less potholes	Oppose	If approved this will cause my family undue financial hardship.
07/13/26	Matt	60143			X		X		X		Oppose	
07/13/26	Kevin Donnelly	60631	X	X	X						Support	We need toll increases to rebuild existing and expand the best roadway system in illinois
07/13/26	Steven Fenske	60070				X	X			No increase	Oppose	Illinois is the most expensive state to live in. This is insane that you are even discussing raising another form of tax. My family and I are heavily deciding to leave the state. I will say that I am a $200k income household. I have many friends in the same income bracket or higher considering the same.
07/13/26	Anthony martoccia	60634	X	X				X			Support	As a member of IUOE Local 150, I support the Illinois Tollway's Driving Connections Capital Program. These investments help maintain and improve the roads and bridges that millions of people rely on every day while creating opportunities for skilled construction workers.
07/13/26	Kelly Yamakawa	60056	X				X	X			Oppose	Illinois already had some of the highest taxes. I have to find a way to live within my means and so should the state of Illinois. Neighbors have already moved out of state because of this. If rates keep rising, I will likely consider following them. I oppose this toll increase
07/13/26		60048	X		X		X				Oppose	Most states without toll roads actually have far better interstate systems. Just look north to WI. This is a failed system that keeps charging more for the worst gridlock in the county.
07/13/26	Jose	60459			X		X		X		Oppose	The Tollway system already generates above and beyond what is required to maintain the system. Further increases will cause people like myself, to use alternate non toll roads.I picked less traffic was one the above answers, but at this point and time, traffic is worse than ever on I294 south.
07/13/26	Jean Lazowski	60504	X		X		X				Oppose	Illinois tolls are already pulling in enough money, especially for something that was originally created as "temporary". At a time when gas prices are high, grocery prices are high, people are barely getting by, such a large increase is a crime. The people in charge need to use the funds they are already getting and cut some of the fat from the top. I don't believe that the proposed projects cannot go forward without an increase. The tollway already pulls in enough money.
07/13/26	Tanya	61115	X				X			None	Oppose	We pay enough plus all the taxes, vote NO

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/13/26	Jeff Karson	60193				X	X	X			Oppose	I oppose the proposed Illinois Tollway rate increase and the plan to automatically tie future toll increases to inflation. Tolls should be based on actual usage of the tollway system. Drivers should pay only for the miles they travel, not a flat rate that can result in some users subsidizing others. The Tollway should invest in a true mileage-based system with toll readers located at all entrance and exit ramps so that motorists are charged fairly based on the distance traveled. I am also opposed to automatic inflation-based toll increases. Illinois motorists are already subject to a motor fuel tax that increases with inflation. Adding another transportation-related fee tied to inflation creates a double burden on drivers and businesses during a time when affordability remains a significant concern. The proposed increase would add approximately 45 cents per toll for passenger vehicles and 30% for commercial vehicles, while also tying future toll increases to CPI every other year. At the same time, Illinois drivers already pay a Motor Fuel Tax that is adjusted annually based on CPI, with the July 1, 2026 adjustment based on a 2.68% CPI increase. In addition, beginning July 1, 2026, a portion of the 6.25% sales tax on motor fuel will be directed to public transit, generating approximately $860 million annually, including $731 million for NITA operations. These facts show that motorists are already carrying multiple transportation-related cost burdens. Any toll increase should be rejected unless the Tollway first implements a fairer, mileage-based tolling system and demonstrates that toll revenues are used efficiently and directly for Tollway users. I urge the Tollway Board to reject the proposed toll increase, reject automatic CPI-based increases, and instead pursue a user-pays model that charges motorists only for the actual miles they travel on the tollway system.
07/13/26	Kyle Schultz	46765	X		X		X				Neutral	What happened to the tolls being discontinued once the roads were paid for? I guess that was never part of the plan was it? Chicago and the state of Illinois need to have their budgets reviewed and be held accountable for fiscal responsibility. I doubt very seriously if that is the case today?
07/13/26	Stan Olejniczak	60084	X		X		X				Neutral	
07/13/26	Gessner	60431	X		X		X				Oppose	The toll are already at an above average cost. We don’t need more of fee/tax burden on Illinois citizens.
07/13/26	Stan Olejniczak	60084	X		X		X				Oppose	
07/13/26	KATHLEEN KLIMO	60062					X		X	No toll increases	Oppose	Very poor timing. 76,000 people have left Illinois because of the cost of living in this state. To increase yet another cost, especially tolls which were intended to be a TEMPORARY measure is a poor idea. Increasing commercial rates by 30%???? Simply ridiculous. As a widow struggling to stay afloat, paycheck-to-paycheck living to cover my property taxes, I will be forced to join those who have left Illinois for a more affordable life elsewhere. There is no room in the budgets of the Illinois residents to pay more for anything. And adding in increases down the road after this toll increase proposal??? Absolutely not. Why are you scheduling some of the sessions in the middle of a work day? North Cook on a Tuesday morning? A ploy to prevent the working people from attending? Put this proposal on the next ballot so we can vote on it. I simply cannot afford it.
07/13/26	Carmen I Monet	60625		X	X		X				Oppose	We pay enough to keep these tollways up to date, and with the gas prices we can't even afford to use these toll ways, and you think that it is good to raise the price. Money hungry people.
07/13/26	Anita	60016	X				X			Tolls are too high already	Oppose	Our tolls are already too high
07/13/26	Angela Rakoczy	60441	X		X		X				Oppose	The roads are not the best with the high tolls we already pay. What is more money going to do besides hurt the people in Illinois traveling the toll roads. Be like Wisconsin and not charge tolls and they have beautiful roads
07/13/26	Christian	60440			X		X			Get all the construction out of the way	Oppose	The tollways rates have been going up for a while now. This is just another scam to take more money out of the average broke Illinoisian which is unfair. All these tollways have been worked on for about five years nothing has changed.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/13/26	Nathan Thompson	61073	X			X	X				Oppose	My comments are referring to I-90 between Rockton Road and I-190. 1. There should be overpass full reconstruction/replacements on Rockton Road (ramps should be in the same footprint/traffic signals should be the same), Elevator Road, Belvidere Road, Swanson Road, Harlem Road, Spring Creek Road, Rote Road, State Street Ramp Overpass, US 20 overpass in Belvidere. 2. There should be a full resurfacing project between Rockton Road and the Kishwaukee River. 3. There should be a flyover (I-90)/fly - under (IL-53) hybrid ramp at the 290 interchange. The other ramps are fine the way they are but the overpass should be replaced. The interchange should not take a large footprint to replace the Meecham Road bridge. I think the Meecham Road bridge should remain in place. 4. The Lee Street interchange should remain a half interchange. 5. I think the smart road should remain from IL-59 to I-294 and should not extend west of IL-59. Those are my comments about I-90
07/13/26	Debbie Taylor	60640	X		X		X				Oppose	
07/13/26	Mary Spiros	60446	X				X		X		Oppose	Increased gasoline cost already make it difficult on working people, adding additional costs for them to get to their jobs at this time is an irrational request right now. The state of Illinois has the highest taxes and some of the highest toll rates in the Midwest. When 355 was built, we were told it would be totally paid for within 10 years and the tolls would be removed now all you wanna do is increase our costs more. My comment is to say no don't do it. I completely oppose this.
07/13/26	JAIME MALISZEWSKI	53132				X	X			faster speed limits	Oppose	this becomes a financial burden to our employees that come to work and our trucks. Many of our Employees may need to find new jobs closer to home or take unemployment. Spending in IL is out of control and someone needs to look at the budget and eliminate ALL the waste and programs that should NOT be on the voters/wage earners bill!!!
07/13/26	Deborah M	60106	X		X		X				Oppose	I really don't see how Less traffic can be achieved on our Illinois highways, especially when getting on Ramps to change highways, such as 90 east to 290. It's always backed up and takes forever. People's budgets are already stretched and raising rates and doing this every 2 years with no changes really evident after billions have been spent on projects doesn't make me want to throw more money your way. Other states don't have tolls and seem to have nice roads, I wonder how they accomplish that.
07/13/26	C.F.	60542	X				X			More police presence.	Oppose	These rate increases are going to hurt all people that just need to get to work. This money will do nothing for our roads. Probably won't even be used for our roads.
07/13/26	Michael Diernfeld	46322	X	X	X						Support	
07/13/26	James Bergagna	61088	X				X			None	Oppose	We've had enough increases in Tolls over the past 5 years. There should be plenty of money generated by current toll revenue if managed correctly. No more taxes!
07/13/26	Andrew Jones	60142	X				X		X		Oppose	I am opposed to permanent toll increase to fund a single project and also opposed automatic increases tied to inflation. Once enough tolls have been collected to fund the project the toll rates should be reduced to prior levels.Tolls should be raised when necessary not just because there is inflation.
07/13/26	Nicholas Eminoski	60534	X		X	X					Neutral	Illinios in general has some of the worst roads. Tollways are the only roads that seem to be maintained. I strongly agree to continue to improve on roadways across the entire state, especially when approaching the city of Chicago. Some expressways are in terrible shape and dangerous to travel.
07/13/26	Scott Reed	60401				X	X			Less construction	Oppose	I strongly oppose this proposition and am deeply saddened this administration is even considering this in this economy.
07/13/26	JoAnn Kennedy	60012		X	X		X				Oppose	I used to use the tollway regularly years ago. I almost never use it now because of the high tolls. I have travelled all over the US and these tolls and the proposed increase is extreme. I remember when they started the tollway - we were only supposed to pay tolls for a short time and then it was to be toll free. I strongly oppose the increase
07/13/26	Caitlin Benson	60103	X			X	X				Oppose	Tolls were supposed to be temporary and make the roads nicer. Illinois doesn't have very nice roads and the toll prices just continue to increase.
07/13/26		61230			X	X	X				Oppose	Fuck your increase. Keep prices the same or lower.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/13/26	Kevin Skarin	60448	X			X	X				Oppose	The tolls are a tax on everyday citizens. It drives the price of our goods up. It is a cruel tax to the working class. I strongly oppose the proposed toll increases.

07/13/26	Kieya Burns	60440	X		X		X				Oppose	The tolls are already way too high which is why so many people are on payments plans . It is inhumane to charge people to drive on the highway like we already don't have to pay car notes , car insurance, maintenance fees and gas. Thank you
07/13/26	Carlos Dominguez	60453	X		X		X				Oppose	No more hikes!!
07/13/26	Mark clouse	60014	X				X			Use money from taxes we already pay	Oppose	This state needs to use existing funds appropriately. Between taxes and this you are driving people to leave the state. Do not raise the tolls!!!!!
07/13/26	Earl Clement	60559	X				X	X			Neutral	No additional comments at this time
07/13/26	Eugene	60465	X				X			Toll rates are too high now, need to go DOWN !	Oppose	NO MORE TOLL INCREASES !!!
07/13/26	tim gawley	60462	X		X				X		Support	
07/13/26	Chuck Pepe	60047				X	X			Construction during peak hours	Oppose	When first built the tolls were suppose to be temporary. It's become a income source for political gain
07/13/26	Karen L Hayes	60137			X		X			Less construction	Oppose	Over the past 30 years, not once have I taken the tollway and had a clear - construction free ride to my destination. And it appears that not long after a construction project has been completed, that repairs to the area start within five to ten years. Illinois by far has the worst roads in the country. Money hasn't solved our traffic problems in the past. More money just give more funds to waste. I vote NO.
07/13/26	Michelle	60175				X	X			Less cost	Oppose	Traffic to the city is awful. Unless you tear down homes to make room for more highway, I really don't see how your tollway increases will help to alleviate this. You are ridiculous for charging more when cost of living here is high and our hourly pay hasn't increased. Why not work on increasing pay for Healthcare workers first and reduce the cost of healthcare? Your stupid repairs on the roads will do nothing to help hardworking single parents to support their children.how about decrease the cost of education? Or help fund college for kids whose single parent already works overtime and still cant afford for them to go?
07/13/26	Dana McCready	60440-1590	X				X			Reduced rates for retirees/fixed income consumets	Oppose	I'm all for having the roadways and bridges serviced and upgraded. However I'm opposed to blanket upgrading tolls as part of the project. Cpi increases would effect senior who don't get increases enough to keep up with all the other cost increases. The tollway authority should implement the same process the counties due where people on fixed income can freeze their property taxes based on their income. You already have a system in place for people of lower means to assist in transponder costs. Implement a program that retirees get reduced rates. If this were available then I'd vote to allow such a significant increase. Otherwise my vote is no on this proposal. It's simply to costly in the long term for those of us on fixed income. I could also see a fixed upgrade to toll prices rather than tied to cpi. What happens when you get a year when there is hyperinflation. Then things get corrected. Are you going to reduce rates. I highly doubt it. Instead have a fixed schedule for rate increases. Say every ten years the fee increases by 10%. That would allow for future projects and less impact on the consumer

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/13/26	Julio Rodriguez	60061	X			X	X				Oppose	To the Illinois State Toll Highway Authority Board: I respectfully oppose the proposed toll increase and the automatic inflation indexing of future toll rates. Illinois residents continue to face rising costs across nearly every aspect of daily life. Property taxes, insurance premiums, utility costs, groceries, healthcare, vehicle expenses, and numerous state and local taxes have all increased substantially in recent years. For many families, and especially for retirees living on fixed incomes, these cumulative increases are becoming financially unsustainable. The Illinois Tollway's 2026 Budget projects approximately $1.79 billion in annual revenue, with approximately $1.73 billion generated from tolls and toll-related collections. Before asking motorists to pay even more, the Tollway should clearly demonstrate why existing revenues are insufficient and why a new $26.5 billion capital program is necessary in its current form. I support maintaining safe and reliable highways. However, every major project should be prioritized based on necessity, safety, and measurable public benefit. Before increasing tolls, the Board should demonstrate that lower-priority projects have been deferred, operating efficiencies have been maximized, and existing revenues have been fully optimized. I am particularly opposed to automatically indexing toll rates to inflation. Automatic increases remove an important layer of public accountability. Every future toll increase should require a public justification, public hearings, and a Board decision based on demonstrated financial need—not occur automatically because of an inflation formula. Illinois motorists already contribute significantly to transportation funding through state gasoline taxes, federal gasoline taxes, vehicle registration fees, and tolls. The combination of these costs places an increasing burden on working families, retirees, and small businesses. I respectfully ask the Board to reject both the proposed toll increase and the automatic inflation indexing provision. If additional funding is truly necessary, the Tollway should first demonstrate that existing resources have been used as efficiently as possible and that every proposed capital project is essential before asking Illinois motorists to pay more. Thank you for considering my comments.
07/13/26	Michael Bilskyi	60544		X	X		X				Oppose	I'm operating small fleet of trucks, tolls already high, Fuel and maintenance is going up, and cost of living too
07/13/26	Duane Nerge	60033				X	X		X		Oppose	
07/13/26	Richard Reder	60089	X			X	X				Oppose	I travel on the Tollway every week between going into Wisconsin! I will stop using the Tollway if any more taxes are imposed! There are other routes I could take and if it takes a little longer I have no problem with that! I'm tired of being over taxed on basically everything in Illinois! Explain why Wisconsin has beautifully maintained roads and absolutely no tolls aka taxes? Enough is enough with the taxes! If I kept on raising the prices in my business like you do I would have less or possibly no customers! This is not a solution! Please do better for the people who use the Tollway! Thank you! -Richard I. Reder Buffalo Grove, Illinois
07/13/26	Kim Northcutt	60188			X	X	X				Oppose	No more increases to Illinois families. Illinois has a spending problem. Crooked politicians and this is just another tax that is not solving anything.
07/13/26		60477			X	X	X				Oppose	
07/13/26	Nicolas Reese	60142	X		X		X				Oppose	Costs are already rising across the board. Many of us rely on the tollway for commuting to work since we are in an area that does not have many public transportation options. A 45 cent increase per toll will easily add up over a week's worth of commutes.
07/13/26	Michelle	60506	X			X	X				Oppose	
07/13/26	Bob Kammer	61107	X				X			Controlling speeders	Oppose	Since the revenue appears to be much higher than the maintenance cost, where does the money go? We, who live in Illinois, are already one of the highest taxed people of any state.
07/13/26	Christine	60633	X	X			X				Oppose	Not enough justification for the hikes. Cost of living is going up but our income is not. People take tolls daily and this doesn't make sense when you have over a billion dollars worth to pay employees and work on the toll bridges. Sounds like Illinois politicians are being greedy and more money for themselves.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/13/26	William law	60481			X	X	X				Oppose	Ridiculous. $0.45 per toll? No creative funding options for high use users? What about Pre-pay monthly with discount for commuters, additional toll cost if you exit beyond your pre-paid entrance/exit locations? How about premium exit toll costs at specific high value community on ramps ? How about sliding scale pricing dependant on time of day usage of the toll system? Put trucks on the tollway at a discount during off hours to level out congestion. Your whole generic highly polished proposal says nothing other than 'why is the tollway not doing all these things now with the rates we are currently paying'. Your report fails to Show value to the commuter and pitches No specific value for this increase and offers no help to change the usage/loading nor any assistance to drivers using the system as a daily commute route. I am completely disappointed in the generic results from these guided meeting. The high costs and no options presented to actual users of the system is beyond disappointing. How can we vote these directors out of their roles? Oh, we can't. They are appointed. Ridiculous
07/13/26	Frank Yavaraski	60439	X				X			Tolls are already to high stop with the increases	Oppose	The current rates are to high and another increase would hurt the mid class individual. I am against the toll increase, we are handcuffed when traveling in this state with the current rate structure. Another increase should not be proposed. manage the budger properly, there is fortune being made daily with current price structure. People will be forced to use alternative routes whenever possible, I travel to indiana and Wisconsin frequently and avoid the tollway as much as possible already. The small trailer rates are aburd and need to be reduced
07/13/26	Marge Carmody	60482			X	X				Stop all construction	Oppose	I remember when 294 was built and we were told once the bond was paid off, the tolls would go away. There is so much unnecessary construction done which kills travel time. You are just keeping the unions happily employed. STOP
07/13/26	Chuck Van Hyning	60563	X		X	X					Oppose	The announcement of proposed increased spending & raised taxes/tolls is disappointing to say the least. Roads outside of Cook County are in disrepair, and those in Cook County are constantly under construction with little relief for traffic and congestion. When will the Democratic Party running the state of Illinois realize that they can't keep piling taxes and fees on people and businesses? Stop adding new costs/spending/taxes/tolls and start belt-tightening from other parts of your budget to address these issues.
07/13/26	Sarah	61085	X				X		X		Oppose	In IL in general, we have high gas prices that effect already daily travel to work and commutes to schools. These increases have shown time again that it does not actively go to roadwork improvements. Other states have better roads compared to IL and we are charged the most for our roads. As a consumer, this is not going to benefit the state in the ways promised let alone help any IL resident with increase of tolls.
07/13/26	Dawn Elizabeth Hilliard	60164			X	X	X				Oppose	
07/13/26	Henry	60124	X				X			Sign for truckers to drive in right lanes	Oppose	45 cent increase in toll is too much and will hit hard for daily commuters. Gas prices are already high. Everything is getting expensive. For a daily commuter, oil change for call used to be $20 five years back which is $40 now usually and synthetic oil is more expensive. Vehicle repair labor rates are sky rocketing $140 an hour.
07/13/26	Jonathan Gagliardo	60446	X		X		X				Oppose	
07/13/26	Alexander Tremud	61111	X			X	X				Oppose	Too expensive
07/13/26	Kendall Ehlert	60083	X			X	X				Oppose	The toll system already takes in more than is needed for maintenance of the roads and should not be increased. More so, the law should not be changed to allow automatic increases in the future.
07/13/26	Dan Calamari	60068			X		X	X			Oppose	Taxes in this state are out of control. Do not make it worse. Elderly man here living on SS. Just stop. Pritzker is killing us.

07/13/26	Jason Hartzell	60101	X	X	X						Support	
07/13/26	Michelle Taras	60073	X				X			Saving money	Oppose	The tollways definitely are not worth the cost.
07/13/26	Steve Collins	60565	X		X		X				Oppose	Stop raising tolls, this only hurts the working man!
07/13/26	Dannys	60070	X		X		X				Oppose	Illinois taxes and fees are so high and it never stops.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/13/26	Dan Calamari	60068			X		X	X			Oppose	Where does a Cook County Park Ridge resident ho to attend meeting on toll increase? I saw the schedule.....nothing close
07/13/26	William Struse	60451	X				X		X		Oppose	Bureaucrats are definitely lining their pockets at the expense of Illinois residents. Illinois is a state full of corrupt politicians and one of the highest taxed state in the nation next to California. These tolls in this state was to be ebolished in 1973 or 74. And then you have the balls or ovaries which ever it may be to state the tolls may be going up indefinitely from year to year to that I say go fuck yourselves!
07/13/26	Merrie Schyvincht	60178	X		X		X				Oppose	Historically the funds allocated for tollway improvements have not been used properly. Illinois tolls are out of line compared to other states who do not even impose tolls on their highways and manage to maintain them better. As an example driving through Michigan where their roads are far better maintained than Illinois without tolls of any kind. The State of IL is being destroyed by liberal politicians who line their pockets, use our tax dollars irresponsibly for illegal immigrants, and other nonsense. Chicago politicians and our disgusting governor waste tax dollars on their political advantages. NO MORE!!
07/13/26	Gary Schele	53511					X		X	Safer drivers	Oppose	This much of an increase is ludicrous. I am a business owner & 30/40% increases are not justified. It is already far too expensive to travel in Illinois, add that to the unfair gas taxes & it's just not fun traveling in Illinois anymore. If Pritzker could manage a budget, put money where it needs to go these increases would not be necessary. We as citizens have to live within our means so why can't the state of Illinois? I travel constantly through Kentucky, Indiana, Tennessee & Florida. They all have beautiful roads & highways & do it without tolls. So could Illinois. We need a new governor in Illinois.
07/13/26	Anne Smith	60632			X		X			an end to endless construction! you mother fuckers.	Oppose	You are a fucking scam. the roads are, have been, under constant construction. I-294 for ten years. Third world con artists, hiring third world friends and family to do third world work at the cost of first world workers. fuck you!
07/13/26	Thomas Webb	60532	X			X	X				Oppose	I oppose a plan that will drive automatic increases at a time where current toll revenues aren't spent. This is another way to build pots of money the state can then raid to support out of whack budgets.
07/13/26	Patrick Feeney	60640	X	X	X						Support	As a member of IUOE Local 150, I support the Illinois Tollway's Driving Connections Capital Program. These investments help maintain and improve the roads and bridges that millions of people rely on every day while creating opportunities for skilled construction workers.
07/13/26	David Nedoss	60077	X			X				Safety. Crazy Mario Cart driving is way too prevalent. More State Police or automatic violations . should be	Neutral	More should be done about safety. Crazy drivers on all toll roads. More police presence is needed. I have to travel a minimum of 10 to 15 mph over limit to just keep going along with flow that is not fast enough for some who Mario Cart their vehicles through traffic. It's really a nightmare sometimes.
07/13/26	Mary Jane Heid	60060	X		X		X				Oppose	The Illinois Tollway was supposed to "pay for itself " after initial tolls at its inception. The Illinois Tollway never seems to be solvent and it is not surprising that the cost is rising once again. This is difficult for Seniors in particular. I'm going to avoid the Illinois Tollway if I can and use my RTA reduced fare permit. The Illinois Tollway should look to Wisconsin as a better example on how well roads are maintained within their budget. With property taxes being the highest in the nation, toll increases will only increase the exodus from Illinois to more affordable states that do not have a tax and spend mentality.
07/13/26	Natalie Lewis	60101	X			X	X				Oppose	I oppose automatic increases of tolls. 1. The tollway was supposed to be free and paid off. Another political lie. 2. Tolls should cover maintenance, repairs and scheduled capital improvements and there needs to be a realistic budget every 2 years minimum. Accountability is imperative. Sorry but Metra and Pace need to raise fares and/or reduce services rather than rely on the tollway fares to subsidize their operations. Thank you

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/13/26	Zbigniew Matyjaszczyk	60459-1026		X	X	X					Oppose	
07/13/26		61108	X			X	X				Oppose	This increase is unnecessary and will personally give our family one more reason to leave Illinois!
07/13/26	Emily Alexander	60025	X		X		X				Oppose	Keeping tolls affordable for individuals of all income levels allows us extremely important to assure they can get to work, school, medical appointments etc in appropriate time frames and not have to make a financial decision on whether or not to drive the highway. The tolls are already significantly high and cost a family multiple dollars just to go so where each day. I strongly oppose this increase.
07/13/26	Jennifer White	60074			X		X			Less tolls	Oppose	It is absolutely ridiculous to keep increasing on tolls that were never even meant to be permanent. I am 100% opposed.
07/13/26	Lisa Kuykendall	60068			X		X			It doesn't matter what you do traffic is going to stay the same. The roads will not be improved anymore than they already are which just takes years and causes more congestion. This is just another text on hard-working Illinois citizens. They already are increasing our gas tax which is the second highest in the nation for gasoline and diesel fuel and they say that is for the roadways but it's actually to bail out the failing CTA system why don't you learn to fix your budget and stop over spending and stop texting the hard-working people of this state by nickel and diming us to death.	Oppose	It's just another way to steal money from taxpayers and citizens and people that need the road to commute to and from work. Why don't you fix your budget and stop over spending on stupid things for once and leave our pockets alone
07/13/26	Blake Bialas	60520	X			X	X				Oppose	
07/13/26	William Gaffney	60430	X		X		X				Oppose	I am thoroughly disgusted with this increase. You show the public comment sessions that are within a few days. The lead time should have been at least a month or longer. Poor planning....
07/13/26		60659	X		X				X		Oppose	I'm all for maintaining our roads and tollways but not at Joe Public's expense; those in power really will do just about anything before taxing the mega-wealthy, huh? Why are you nickel and dime-ing the average taxpayer? TAX VERY WEALTHY PEOPLE ALREADY!! LEAVE US REGULAR FOLKS ALONE!!
07/13/26	Ron Pomagier	60142	X			X	X				Oppose	a 60% AVG increase for my usage, That is RIDICULOUS! What do I pay gas taxes income taxes and sales taxes for. Mr Billionaire Pritzker don't care he has all the money in the world!!

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/13/26	Laurie Maurer	61084	X				X			Less cost in tolls. Its already highway robbery! We should not have to pay more. The toll system was originally set up to be temporary and now its not?	Oppose	We Illinoisians already pay one of the highest in real estate taxes in the nation. Take out the money for roads from that money!!! I own 2 properties of the same assessed value. One in Illinois and one in MN. The home in Illinois is taxed 3 times more than the home in MN. Illinois is driving people out of the state! The first home I sell will be the one in Illinois!!!
07/13/26	jeffrey wallk	60015			X		X			Reduce the need to travel to work.	Oppose	We need to use the money to repair the social fabric before allocating monies for roads. Enough of the austerity measures.
07/13/26	Calliope Paraskevopoulos	60005		X	X		X				Oppose	I pay 6 tolls a day. This increase will definitely affect my pocket book. I'm tired of Illinois raising taxes on everything including roads. This needs to stop.
07/13/26	Cathy Thirnhill	60660				X	X	X			Oppose	
07/13/26	Thomas Doyle	60514	X		X		X				Oppose	There is already a surplus in road and infrastructure funds. There is no need to increase tolls. Let us find some ways to reduce spending instead of passing unnecessary taxes onto Illinois residents. We already pay enough taxes (property taxes, income taxes, sales taxes, gas taxes). Let's find ways to reduce taxes instead.
07/13/26	Kim	60187	X			X				It is the fastest route to where I need to go.	Oppose	The toll roads are already maintained by the current toll. There is no justification for raising prices. We already pay enough to use the roads.
07/13/26	Mark Brumwell	60657	X			X	X				Oppose	Do NOT approve automatic toll increases!
07/13/26	John Zaucha	60714	X	X			X				Oppose	
07/13/26	William S Engelhart	60076				X	X		X		Oppose	
07/13/26	Victoria Lyons	60480				X	X		X		Oppose	Everything is so expensive now and now the tollways will be expensive. I need to travel on the tollway to get to work. I live where I live to help take care of my senior dad. My raises at work barley help with cost of living increases. From increased gas prices and electricity and even public school fees for my kids, how does a middle class family survive. And the toll amounts will increase with inflation, what! It will be so expensive to drive on a road that I have to take in order to get to work. I thought the tollways were only a "temporary" thing when they first started. Again Illinois is nickel and diming it's residents to pay for political promises made to unions & business. It's so expensive to live in this state and here's another example. The amount of the increase(s) is way too much. Please, please do not pass this tollway rate increase.
07/13/26	Ellen Svehla	60554-9499			X		X			Cost	Oppose	This would raise our costs over $300. I clicked multiple places on your website, and was able to see NO place that even explained how this would improve my roads on I88 which I use daily. This is unacceptable.
07/13/26	Donna	60451			X	X	X				Oppose	The tollway is already so expensive. The original proposal for a tollway was to take tolls until the initial cost was paid off, and yet we've just accepted tollways as the norm. We should not have to pay to use the roads to get to work. I hardly have a choice but to take the tollway. And when I have issues, customer service takes entirely too long to get back to me, with poor advice and no solutions. Tollways are a scam. We shouldn't have to pay to use a road.
07/13/26	Christine Seaver	61008	X				X	X			Neutral	I understand costs go up so I agree that tolls have to go up. I wish they wouldn't go up so much at a time. A regularly scheduled slight increase would be much easier to accept. I don't trust that a recalculation won't require another increase and I have to believe you whereas if a regular increase is implemented I then trust that you have a set amount to money to work with and have to choose projects based off that, not go get more money at any time. It seems less trustworthy and punitive to have increases for big projects. Have steady increases and work big projects within that budget. Break the projects down into smaller parts. I don't have endless money to spend to get where I need to go and if I can't afford the tollway, I won't use it and you will have less money, not more, to work with.
07/13/26	Mark Siamis	69558	X			X	X				Oppose	Please do not increase the tolls. I'm retired and on a fixed income

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/13/26	Lisa C.	60443	X		X		X				Oppose	Seniors in a category of (60+) who have IPass accounts should have a 20% discount on tolls & responders!
07/13/26	John Dykema	60654			X	X	X				Oppose	Other states get by without excessive taxing. The tolls are already too high. While other states are talking tax reductions Illinois is talking about increasing theirs?
07/13/26	Bryan Majeski	60417	X		X		X				Oppose	This is our piece of shit governor who never worked a day in his life making our lives harder.
07/13/26	Bill & Kathy Calliigan	60025	X		X		X				Oppose	
07/13/26	Mary Ann Gorodiski	60056	X		X					None of the reasons are really valid for me I take the toll road of if I have to.	Oppose	We have driven to states that have no tolls (Wisconsin, Minnesota,Iowa, Missouri just to name a few.) Their roads are well maintained and better than the toll roads. Why do tolls always go up but the roads are no better. On numerous occasions I will take alternate routes to avoid paying tolls even if it takes a little longer. Tolls go up but the roads are not better or safer.
07/13/26	Jeffrey	61102	X			X	X				Oppose	We pay more then enough in taxes and in tolls already. There is plenty of money for the roads if Illinois would stop wasting money on everything. Its time for new leadership not new fees
07/13/26	Quinn	60188	X		X		X				Oppose	Stop taking our money.
07/13/26	Jennifer Clauson	60002			X	X	X				Oppose	Years ago we were told that tolls were temporary. Now we are being told that you want to increase them again. This state continues to buckle and dime people to a point where people will not be able to afford to live here! Enough is enough already! Cut back on the pay increases for the government people! People need to be able to afford to go to work to pay their bills. Gas tax is ridiculous. Now you want to hike the tolls too!?
07/13/26	Christopher Pielich	60067	X			X	X				Oppose	Fact that maintenance costs are far less than the proposed toll increases. There is also a downstream impact to costs of goods delivered. This is purely a revenue increase to the state with no additional benefits to drivers and money that won't all be used for maintenance and infrastructure.
07/13/26	Marty Murphy	60026	X		X		X				Oppose	Start spending the money correctly instead of giving it to the rich. Bring the police back to the tollway. People out their are driving at extremely high speeds with no regard for others. Ticket them and make your money.
07/13/26	Michael Lisek	60544	X		X		X				Oppose	The fees and all Illinois taxes are completely out of control. I absolutely OPPOSE of any additional monies or fees being added. Years ago there was a promise to fully remove tolls and that was a lie to the people. NO INCREASES!
07/13/26	Julie Shawback	61068	X				X		X		Oppose	This is ridiculous. Another way to drive even more people from the state of Illinois. I have no faith in the continued corrupt leadership. We are taxed to death.
07/13/26	Sam	60103	X			X	X				Oppose	We are already taxed out. Please no futher increase in tolls and taxes.
07/13/26	Matt Cozzolino	60440	X			X	X				Oppose	
07/13/26	Karla Bautista	60626	X		X		X				Oppose	We do not need another tax in this city. Our citizens are barely making ends meet from all the different taxes that has been rising. The tollway does NOT need to increase.
07/13/26	Ina	60586	X		X		X				Oppose	
07/13/26	Susan Morphew	60139	X			X		X			Oppose	It is one thing to raise tolls but to be able to raise them yearly is totally unacceptable and unaffordable. I will avoid using tollway if this should pass.
07/13/26	Diane Acton	60452		X	X				X		Oppose	I pay over $100 a month to get back and forth to work. Increasing the toll by $.45 will cause me to look for another job probably making less then I am now. I am not going to be able to afford a rate increase of $.45. This is why people want to move out of Illinois. Government doesn't care about the people just how much they can fit in their pockets. You can get creative and find another way of paying for the roads besides making the people of Illinois pay for everything. It seems like you tear up the same roads over and over and over again. You all make the big bucks figure over how to pay for it without an increase.
07/13/26	Kevin Smith	60045			X		X		X		Oppose	"Free in 73" Illinois has a spending problem. We have the 2nd highest gas tax in the nation and yet you want more taxpayer money?
07/13/26	Lori Kerrick	60585	X		X		X				Oppose	This increase will cost me an additional $36 a month equal to $432 a year.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/13/26	David Hermsdorfer	60014			X		X			IDOT maintained road	Oppose	The toll was created to build the initial road and was supposed to last for only about five years. And then the state would maintain it. My opion, those in charge of that money coming in got real comfortable with it and decided like typical Illinois politicians (you can't deny a lot have gone to jail) to keep that money rolling in getting richer off the working class. When will it stop Il. is taxing , tolls fees it's citizens out of the state.
07/13/26	Ruben	60402	X		X		X				Oppose	No Thanks. It’s great the way it is currently.
07/13/26	Margaret Hopkins	60187	X		X		X				Oppose	
07/13/26	Gabe S	60042	X		X		X				Oppose	Don’t raise our toll prices!
07/13/26	Ben Belcaster	60187	X		X		X				Oppose	This is just another way for Illinois to avoid its spending problem and not reform in any way. They will increase revenue off the back of its hard working residents and push more people out of the state. Like everything the state does, it is unnecessary, excessive, and will hurt residents by increasing the costs of travel and goods.
07/13/26	Bob Smith	60007	X		X	X					Oppose	This is absolutely ridiculous. The Tolls were a TEMPORARY revenue source to build the tollway. Now you continually raise the rates and the roads are the worst in the nation!
07/13/26	James Thurber	61021	X		X					Fastest way to work!	Oppose	Over charging for the service provided. What happened to being free after 73? Crooks!!!!
07/13/26	Christine Hopkins	60187	X			X	X				Oppose	
07/13/26	Kirk Larsen	60048	X			X	X				Oppose	
07/13/26	Evan cuatt	60084	X		X		X				Oppose	Stop robbing people who drive on your roads. We are paying too much already. The commercial tolls are incredibly high and create more than enough revenue to sustain the FIB Tollway.
07/13/26	lesley Casas	60110-1147				X	X			affordability	Oppose	As someone who commutes for work five days a week, an increase in toll prices would be extremely disappointing.
07/13/26	Savit Pirl	60490	X		X	X					Oppose	The tollway authority is already collecting more money than ever and is collecting far more than it needs to operate. At the same time it appears to be running multi-year massive construction projects that are causing severe driver impact with almost no end in sight. This means that we, the road consumers, are paying more for degraded services. I respect that there has been some impacts due to inflation and I can stomach some form of a one time increase but to create an automatic plan that increases rates from here to eternity without the need for review is foolish and greedy.
07/13/26	Belinda Mahon	60137		X		X	X				Oppose	Quit taking our hard earned money. Do what u originally planned to do and stop changing the game plan on revenue. Reduce expenses!
07/13/26	W J Kupka	60162	X				X			Quit stealing road funds for public transportation. Raise fares!	Oppose	Another scumbag move by scumbag parasitic democrat politicians led by the filthy animal in the governor's mansion.
07/13/26	John Harrington	60487	X	X					X		Support	The Illinois tollway is hands down the most well maintained, updated, efficient and drivable roadway I’ve been on. I travel all over the country for work, pleasure and racing motocross. And have spent quite a bit of time overseas as well. The Illinois tollway is truly the best. Seeing the investment and preparing for growth in the Chicagoland area is the most forward thinking thing they can do. Not only for keeping the motoring public moving but keeping local residents working and pumping more money into the local economy.
07/13/26	Kevin Alvarez	60538				X	X			Reconsider the charge for daily users	Oppose	It is already to expensive to use on a daily basis will affordability is becoming a challenge!
07/13/26	Bob Gath	60516	X		X		X				Oppose	enough is enough how about an auditing since the 1970's
07/13/26	Joe Mayer	60008	X		X		X				Oppose	Why not make the Edens a Toll road? Certainly the North shore demographic can support to pay tolls like the rest of us in Cook county. Shame on you all for boosting the rate for something that should have been free to the public since 1973. As a retiree, this state is taxing us to death with increased tolls, taxes and fees. No wonder people are leaving this state... How many more billion dollar road projects do we need. The roads suck here in Illinois and the Governor keeps raiding the road fund? Shame on you all!!!

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/13/26	Roy Quintanilla	60103	X		X		X				Oppose	
07/13/26	Mike Williams	60174				X	X			Speed Limit Enforcement	Oppose	I've been a resident of this state for 35 years, originally from NY. I don't understand why other states, such as NY, continue to eliminate tolls or reduce them, while Illinois expands and increases. Something seems very wrong here. All this in addition to one of the highest property, income and sales taxes in the country. I am quickly approaching retirement, this is just one more reason why it makes financial sense to leave Illinois for a more affordable state, as so many of my friends and work peers have already done. Please do not impose yet another toll increases...this is getting laughable. Also, congrats to our politicians on losing a historic Chicago franchise to our neighbors in Indiana, and then having the audacity to ask for more tolls...making it even that much more unaffordable to travel to Hammond to support OUR team.
07/13/26	Angel	60202	X		X		X				Oppose	Do not support the increase in cost as we already have really expensive tolls. Especially the skyway!
07/13/26	Evan Small	60540	X		X		X				Oppose	We are taxed enough as it is
07/13/26	Matthew Skinkis	60423	X	X			X				Oppose	
07/13/26	Jeff Lindstrom	60152-3385				X		X		I avoid it when I can	Oppose	This proposal reads like a DEI boondoggle. Another slush fund like Pritsker's ever increasing gas tax. How is this "affordable for low income users". The toll way will become a private roadway for the rich and politically connected. Just another reason to get out of Illinois. Maybe I'll use the toll way for that.
07/13/26	Garth Taylor	60106	X				X		X		Oppose	
07/13/26	Balbina C Balinski	60103	X				X	X			Oppose	NO More taxes., wepay enough taxes.
07/13/26	Hannah Gilk McClellan	62058	X				X			easier to pay tolls	Oppose	Citizens in Illinois were promised more than 50 years ago that the toll would be temporary. That promise was broken. People in Illinois - and indeed the region - are already struggling with high prices at the pump, at the grocery store and virtually every place else. Tollway revenue in 2025 greatly exceeds tollway expenses. There is no reason for a toll increase - further squeezing everyone (even if they don't travel the tollway because we all purchase goods trucked across the state) - other than greed and waste. The tollway broke its promise more than 50 years. For once it needs to do the right thing and rescind the toll increase.
07/13/26	Melissa Bulicek	60103	X		X		X				Oppose	How come other states can manage their roads without tollways, let alone increases??
07/13/26	John Diamond	60805		X		X	X				Oppose	Endless travel
07/13/26	Maria Irene Rosas	61107	X				X			clean express during snow days. It's always a long delay.	Oppose	I live in Rockford and travel the tollway daily to get to work by O'hare Aiport. I spend $6-10 daily already- It's too expensive to use the tollway as it is. We pay to enter the tollway but WHY DO WE HAVE TO PAY TO EXIT?? That there is already stealing from driver's pockets. We are already paying each passing toll but to pay to have to exit? That's very unfair. Both my husband and I are already considering taking side roads to get to work even if it takes us longer to get there- I spend more gas on the express than on the side streets anyway so that's a win.
07/13/26	Marco Andreuccetti	60148			X	X	X				Oppose	The IDOT has to take a look around. We have been subjected to roadwork continually for years with almost no improvement to traffic or roads and now you want more? First finish the 294 stretch from Cermak to O'Hare and then I would consider it. Not to mention every time I am driving I see no crews actually working, however the flag person is still out there making $40/hr. Lets get real here.
07/13/26	Raj Parekh	60076	X		X		X				Oppose	This is not a good time to add more burden as people are already suffering from worse inflation of their life time. Right now almost all the agencies are heating hard to the middle class public at the same time.
07/13/26	Doug	60107	X				X			Remove all Tolls	Oppose	Tolls will be free in 73...lies. Elgin-Ohare will never have a toll (that is how it was sold to the people)...lies. Remove all Toll fees! Do what yall promised and stop gouging the taxpayers for your lack of budgeting. If my household budgeted like Illinois I would have been bankrupt 100X over. Pathetic!

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/13/26	Michael J. Longeway	60634	X				X			LOWER prices (or NONE like Wisconsin and Missouri)	Oppose	I feel that we are ALREADY PAYING TOO MUCH!! I would like to see a release that compares prices from ALL the OTHER STATES.....like Wisconsin. Oops!!....Wisconsin's Interstate highways are FREE!!! Maybe Missouri? Oops...Missouri's Interstate highways are free too!!!
07/13/26	Samantha	46410				X	X			Toll booths that actually work for cash users.	Oppose	The skyway alone is already more than a McDonald's meal. This is grifting at its finest.
07/13/26	Kevin O'Connor	60631	X						X	Responsiveness when problems arise	Oppose	Tolls were never intended to be an ongoing perpetual fee subject to inflation or a long term mechanism to fund expansion. It's clear that raising taxes has not made a problem go away and this initiative is not just an increase in the tolls it sets the precedent for bi-annual increases without oversight. Absolutely not. Work within the budget you have. There is ample in the current allocation to continue to build and maintain - this is unacceptable.
07/13/26	Kristen Hansen	60302	X			X	X				Oppose	In the fall, I volunteer with citizen science in the Indiana Dunes, which means I drive the Indiana Tollway twice a day, daily, for about two months. If there was a discount program for seniors or for people who are volunteers, I would be more likely to support this proposal.
07/13/26	Adrian T Rykala	60457			X		X			Cost	Oppose	
07/13/26	Tim Lewinski	60185	X		X		X				Oppose	We have some of the highest tolls in the country and are one of the worst states for traffic congestion. I beleive that the tolls are a large source of revenue for the state so I don't understand why we would need to pay more than we already do. Many toll booths were put on I-390 and increasing each of these by $.45 would make an already expensive roadway very cost prohibitive. It seems like this increase should either be lowered substantially, explained better, or be given more consideration versus a blanket amount increase per toll.
07/13/26	Nadine Terry	60440	X				X	X			Oppose	The tolls keep going up, and I have not seen any improvement on the roads. Figure out whose pockets are being lined and solve the problem.
07/13/26	MANUEL ACEVEDO	60134-1473	X		X		X				Neutral	I support an increase but $.45 per toll seems steep. A smaller increase is more palatable.
07/13/26	Karen butler	60805	X	X	X						Oppose	Find the fraud money and use that. Stop paying for illegal aliens.
07/13/26		60610	X			X	X				Oppose	This toll increase would hurt Illinois citizens at a time when the prices are gas and other goods are at high levels.
07/13/26	Edgar Jimenez	60174				X	X			Remove board members that want to increase tolls	Oppose	I disagree with the inflation increases.
07/13/26	Clinton Lee	60120	X		X		X				Oppose	Illinois tollway has been driving up what should have been free for over 50yrs. Stop making this state harder to live in and make it easier on the residents.
07/13/26	Jeff White	60188	X				X		X		Oppose	I oppose such a large increase, especially when are already running a surplus. Why not just increase the tolls on January 1st, based inflation, then have automatic adjustments every two years
07/13/26	Terri H	60548	X				X			No money going to support the Democrats in Chicago. This money is supposed to go to the TOLLWAY	Oppose	Tell Pritzker and all his cronies to SHOVE IT... YOU KNOW WHERE!!!!!!
07/13/26	gino angelini	60626	X			X	X				Oppose	I'm opposed because these were supposed to turn in to freeways long ago. This is a huge increase and making increases tied to inflation is crazy because peoples salary's are not tied to inflation
07/13/26	Nader Haddad	60452	X		X		X				Oppose	Good morning. I am opposed to the increase because I am a professional truck driver and I believe that our industry runs America and should not have to pay high tolls. Thank you.
07/13/26	Kevin	60185	X				X			THAT THE MONEY IS REALLY SPEND ON THE ROADS	Oppose	You ought to be ashamed of this organization!!!!! Do you remember the slogan "Toll-Free in 73"

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/13/26	June Stoos	60115	X			X	X				Oppose	I am a retired woman living in DeKalb. If I want to take the tollway to Lombard I have to pay three tolls. This I cannot afford so I take the free roads. It takes a little longer but I can deal with that. Gives me money for a coffee. If you keep raising tolls to pay for Chicago's mismanagement of their taxes there will be a price to pay one day. The rest of Illinoisans should not have to pay for Chicago.
07/13/26	Joseph Wilhelmi	60544-3703			X	X	X				Oppose	The tollway is top heavy with employees with no live toll takers any more
07/13/26	Vickie Elder	60453	X			X	X				Neutral	I am 65 years old and have lived in the Chicago suburbs all my life. I cannot remember a time when the tollway has not been under construction and I am not senile! I will probably not be driving any longer when this project is finished and another one is proposed. The cost per toll is already outrageous so any increase is absurd.
07/13/26	Kyle Archer	60142	X			X	X				Oppose	The tollways were supposed to be temporary. The road fund is excessively overfunded as-is and needs no additional funding. The original purpose was supposed to be temporary AND PROTECTED. These funds are now being pillaged to be used for NON-ROAD uses which is a violation of the intent and purpose. The road funds are already being heavily redirected to Cook/Chicago as of the most recent changes which means that the VAST MAJORITY of people paying into these system GET NO VALUE from what we are paying for.
07/13/26	Catherine E Link	60115	X		X		X				Oppose	This seems like alot of money for an increase. The costs of the tolls keep rising and there's less road maintenance. Whatever happened to the tolls being a temporary measure as stated in the 60/70's era. And why did the state privitize the tollway system? Enough is enough...between taxes and rising costs, this is why people are leaving IL in droves. Do Better!
07/13/26	Rebecca S	60950	X				X	X			Oppose	I live down state and most of our road funding just shifted to Chicago, now the event I have to go to the city I have to pay additional toll money. Please explain why we have to pay again? those jobs will only be for short timeframes and will be limited to select companies. Please stop punishing everyone for Chicago's inability to control its spending.
07/13/26	Robert	60404	X			X	X				Oppose	$800,000 office redo in past .System was supposed to phase out.Don't trust people running the system.
07/13/26	CRAIG ZURKO	60465-2414			X		X			By forcing people to pick 3 you are creating survey results that are biased to proving the extra funds. You guys are worse than politicians..	Oppose	To go from Bolingbrook to Schaumburg round trip will cost $6 x 5 days a week x 52 weeks a year is $1,560. On top of gas, brake jobs, and tires. And the average-sized house pays $10,000 a year in property taxes, most of which go to schools. Are you out of your minds? And to top it off, you are going to increase every 2 years based on inflation. lol. My job doesn't give me an increase based on inflation. So you are proposing that every year we all effectively have less take-home pay year after year? That is what you are saying. "...in the 1950s, the state promised residents they would be "Toll Free in 73," meaning tolls would be removed once the initial bonds were paid off by 1973". So you lied.
07/13/26	Katie	60007			X		X			Affording life. So many other states don’t have tolls. Stop increasing rates!!	Oppose	Illinois is so expensive to live in. Increasing the toll by 45 cents for us daily commuters will HURT. Hard no.
07/13/26	Lourdes R Galvez	60073	X		X		X				Oppose	Stop taxing us out of Illinois.
07/13/26	Jon	60148	X				X			Not burdening the citizens with unnecessary toll increases. The form is requiring me to select 3 options when affordability is the only one that matters to me.	Oppose	I'm strongly opposed to increasing the price of tolls. They were originally intended to be temporary and were never removed. Proposing to increase the tolls is doing a disservice to the citizens who continue to pay too much for these roads.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/13/26	Frank Snow	60187-3616	X			X	X				Oppose	If the tollway already has more money than it needs to maintain the system there is no need to raise the rates. The only thing raising the rates is going to do is give politicians more money to spend on their pet projects.
07/13/26	david m galvez	60073	X		X		X				Oppose	Stop taxing us out of Illinois
07/13/26	Matthew Slaughter	60548	X		X		X				Oppose	
07/13/26	gregory zarifian	60020	X		X		X				Oppose	Stop taxing us out of Illinois
07/13/26	Helen Robles	60007	X		X		X				Oppose	Absolutely not!!! Drivers can pay $5 per toll and the roads will still be crap, there will still be traffic and backups, construction will continue to be the bane of our existence as it will still take FOREVER to complete. Sick and tired of you raising tolls and acting like it's going to somehow benefit drivers.
07/13/26	Kenneth E Mateas	60515	X			X	X				Oppose	
07/13/26	Diane LeClair	60031					X	X	X		Oppose	For a tollway that should have been FREE since 1973, why do you need more? DO NOT RAISE THE TOLLS!! My goodness, look what excess money is in your coffers now compared to what you have spent on maintenance! Absolutely NO REASON to up the tolls.
07/13/26	Jennifer Becker	60542	X				X			Stability in toll increases that are affordable and sustainable	Oppose	The proposed increase of 45 cents per toll will break my family's budget. We have no choice but to utilize the toll roads for our commute to and from work each day. If passed, the toll increase will cost our household an additional $90 per month, just to commute to work, as my husband goes through 3 tolls each way and I go through 2 tolls each way (10 tolls a day times 20 work days per month = $90). That increase will break our budget and force us to choose between groceries and our toll bill. There are no other non-toll roads that we can reliably use instead, so you will break us with this toll increase. Please oppose the exorbitant raise in toll cost and instead consider a 5 or 10 cent increase to ease the burden over time. Thank you.
07/13/26	Christine	60660			X	X	X				Oppose	No price increase !!
07/13/26		60203	X		X	X					Oppose	
07/13/26	cynthia puma	60645	X		X		X				Oppose	
07/13/26	CJ	60110	X			X	X				Oppose	$.45 per toll increase is wild. The tollway is not a premium experience and we are paying for it like it is. Oasis locations are not premium stops. Half of entrance and exit ramps are closed. The increase proposes we pay more but don’t get anything additional. Figure out how to improve the financial life of the daily driver, not wreck it.
07/13/26	Brandon James	60137		X		X	X				Oppose	
07/13/26	michelle piekosz	60491	X				X	X			Oppose	Tolls were suppose to only finance the building of the roads. It seems that the money is only used to line politicians pockets. You no longer pay employees to collect tolls, therefore there should also be less payroll. There is no justification for continually raising tolls rates.
07/13/26	Michael Nordlander	60074				X	X			Because of cost I hardly travel the tollway	Oppose	I already avoid the tollway because of the cost, this will make me never travel it
07/13/26	Thomas L Negele	60124-8547	X			X	X				Oppose	Between the original promise to remove any tolls whenthe original construction bonds were paid off some 60 years ago, to increasing tolls, and the more than doubling of the gas tax, billions have collectively been gathered for our roads, and then is gets redirected, squantered, and then we get hit with more increases. Tollroad authority and IDOT have proven to be not trustworthy with our collected funds, we should be provide more to be squandered and wasted.
07/13/26	Mallory Mathews	60148			X		X			Efficient Construction	Oppose	None of these improvements seem to drastically reduce the real issue at hand. Illinois has the worst traffic across board. Repairs to bridges will not fix it. You have been doing construction on 294/88 for 4+ years, it has done nothing but increase traffic and make it a truly awful commute. I'm not sure who approves the temporary lane traffic but the one on 88/294 is the worst temporary construction lane i've truly ever seen. Increasing tolls will improve traffic because it will cause people to completely stop utilizing these toll roads. I would suggest our leaders figure out a better way to manage the budget without punishing already frustrated commuters.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/13/26	Athena Erbs	60640				X			X	Modernization	Support	Please consider adding level 3 EV chargers all around the Tollway system. One of the pillars of this plan is "sustainability" yet there are no meaningful initiatives to reduce emissions from the Tollway system. The Tollway has a lot of land available for this purpose at oases, abandoned toll plazas, and parcels along the system. The Tollway has a unique ability to install these on their facilities per their charter, as IDOT and other transportation agencies cannot. This can also be a means for equity by offering discounted rates for SNAP and other low-income drivers.
07/13/26	James Michaels	60134	X				X			Where is money going	Oppose	This is a gross abuse of tollway users. The state and the board needs to figure out another way to budget for maintenance.
07/13/26	Michael Rizzo	46534			X	X				Safety and Speeding/Traffic Backups	Oppose	Ever since Covid drivers are driving recklessly and more than 20-30mph over posted limits even through toll units. They should be sent moving violations fines via mail. After two they should have to report to traffic court or forfeit their license. This will decrease accidents and bottleneck traffic jams which will even save fuel.
07/13/26	GeorgeneHawkins	60970	X		X	X					Support	Do it!
07/13/26		60135	X			X	X				Oppose	
07/13/26	Bill Hoogland	60563	X						X	The tollway operates in the same fashion as all interstates in the Country.	Oppose	The Tollway Authority is a self perpetuating political system. The system promised to Illinois taxpayers with an end date once the construction was paid for. The Tollway keeps creating new projects in order to justify its existence. The rate hike is ridiculous & should not occur. Creating new projects that are not needed, except by your selective surveys shows that the tollway system needs to be eliminated. The current system of maintaining the roads should be taken over by IDOT. Allowing for the system to be paid off completely. Keeping the costs for toll at their current level to eliminate the debt of the authority with a very specific end date. The tollway authority is acting like big pharma always creating new projects in order to justify taking more money from the working people in Illinois & around the Conutry. Rates should not go up for new projects. the Board of Directors needs to be replaced & a bean counter not a political appointees should run the operation, with the objective of dissolving the authority. There should also be a forensic audit of the tollways budget available online for taxpayers showing EVERY expenditure in detail. We have a right to know where our money goes.
07/13/26	Tim Baynon	60050	X		X		X				Oppose	More money!! Total joke. It's called managing a budget and being fiscally responsible. It's like the pension crisis all over again.
07/13/26	Matthew Dwyer	60175	X		X		X				Oppose	Find a way to maintain roads like Wisconsin with out use tolls. I don't believe government uses the money for roads but rather "borrows" for use on other budget shortfalls. Illinoians are being taxed out of the state.
07/13/26	Brian Rogala	60440	X				X			Quality maintenance and construction	Oppose	
07/13/26		60126	X		X		X				Oppose	
07/13/26	Gabrielle Garcia	60475	X			X	X				Oppose	The toll way has paid for itself time and time again. We all know this is going to pass regardless of what our options are. 07/13/26	Cade Neubauer	60561			X	X	X				Oppose	

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/13/26	Nathaniel Lawson	60436	X			X	X				Oppose	Stats show the tollway already takes in enough for maintenance and repairs. This is a money grab by the unions at a time when most households are struggling to make ends meet. This is besides the fact that illinoisans already pay some of the highest road taxes in the NATION! Strongly oppose!
07/13/26	Robert J Larem	60163	X			X	X				Oppose	This is nothing more than a money grab the same as raiding the fuel tax
07/13/26	Nathan Thompson	61073	X			X	X				Oppose	This comment is regarding I-294/I-190 Interchange area. I think the footprint should remain the same with the following overpasses being replaced, I-294 mainline over I-90, I-190 over I-294 and I-90. Since the flyover ramps were worked on at I-90, I think those structures should remain untouched. I think the color of the steel girders should be the same color as today. Those are my comments on the 90, 190 and 294 interchange area.
07/13/26		60532	X		X		X				Oppose	I strongly oppose the proposed 2027 toll increase for passenger and commercial vehicles. I use the Illinois Tollway regularly and do not believe this massive construction investment will actually reduce traffic congestion. Drivers should not have to pay higher rates for projects that will not solve our daily commute delays. Furthermore, the Illinois Tollway is already bringing in record-breaking net revenues, extracting over $1.4 billion annually from drivers. This agency has collected more than enough money to safely operate and maintain our existing roads without taking more money from working families. It is unacceptable to demand higher tolls when the state has failed to honor its decades-old promise to make these roads free.
07/13/26	Brent Bryan	61038	X	X	X						Oppose	I can't wait to move out of IL. Between our idiot democratic leadership in this state and the rising taxes and fees like the one you are proposing is making IL unaffordable to average citizens! For folks that commute daily for work this is a massive additional financial burden.
07/13/26	Laura	60646	X			X				Affordability for lower income users	Support	Having lived in other cities and states, I appreciate how well maintained the tollways are! I support increasing user fees if needed to keep the tollways in excellent condition. As tolls increase, I would promote I-PASS Assist to help minimize increase on lower income users.
07/13/26	Kathleen Williams	60152			X	X	X				Oppose	Governor Pritzker campaigned on a promise of affordability for businesses and taxpayers. This increase is anything but affordable. In addition to taking the tollway as a private citizen, we own a trucking company that uses the tollway routinely. One semi incurs tolls close to $1000 per week. This is not affordable or sustainable. The tollway does not need more money: Toll revenues have exceeded operating and maintenance costs for decades. In 2024 alone, the tollway collected nearly $1.44 billion — the most in its history.With cost of living a top concern in Illinois, residents and businesses do not need something disconnected from necessity or announced projects. The Illinois Tollway board has a choice. It can approve a record-setting unnecessary increase that drivers and businesses cannot afford, or it can decline the increase and recognize that Illinoisans already pay enough. Nothing will change; the state still has enough money to run road projects and has a surplus sitting in tollway reserves right now. Since 2019, Illinois drivers have paid roughly $1,500 more in gas taxes and vehicle fees. Higher tolls would affect not only commuters, but ripple through the broader economy. Commercial tolls are set to rise by 30%, and those costs will be passed on to consumers through higher prices on everyday goods. Nearly everything purchased in Illinois travels by truck at some point, making this toll increase a broad, indirect tax on households statewide.
07/13/26	Michael De Marte	60647	X		X		X				Oppose	
07/13/26	Kelli R Van Antwerp	60008	X		X		X				Oppose	Why are we not expanding the tollway into the South so other people can share in the cost of upkeep. People from Chicago are not the only people that take these roads and we are being forced to pay for everyone else's maintenance. I should not have to pay to leave the city of Chicago in a timely matter.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/13/26	Sandy Spraggs	60061				X	X			proximity to my home	Oppose	Enough with the constant increases. I am forced to use the tollway twice a day 5 days a week. The tolls have increased exponentially since I began using them more than 20 years ago. Illinoisans are already taxed heavily for infrastructure which is "lock boxed" for said purpose. This has been a windfall for the state. Northern Illinois is heavily taxed, and the burden is running businesses and upper-middle class taxpayers out of our state. Let's think of ways to appeal to people rather than the constant tax and spend. Please stop this, it's just enough.
07/13/26	Rose Jones	28504				X	X			No more taxes on people. Get the money from the state lottery of your smoke shops.	Oppose	Always the answer is to tax people to death. Just stop.
07/13/26	Mary Elsesser	60118	X		X		X				Oppose	Illinois has a knack for nickel-and-diming its citizens into other states. We are looking at one more paper cut in a line of many. Study states that do finances well and implement similar practices.
07/13/26	Terry Silis	60646					X		X	Keeping tolls affordable wuthout constant increases.	Oppose	What is wrong with you people? Are you that obtuse? You can't see people are struggling and these toll increases impact those that need to pay a toll to get to and from work. The cost of transporting goods increases and ultimately gets passed to us. STOP ALREADY! The tolls were supposed to be temporary. Illinois sees it as their personal piggy bank. Our poor excuse for a governor is out of touch with reality! He is a billionaire and the governor. Bet his State of Illinois limousine doesn't even have to pay for tolls. And he wants to be our President? Further proof he is out of touch with reality. VOTE NO! No further increases to Tolls, Taxes or taxes disguised as Fees!
07/13/26	Connie	60061	X		X		X				Oppose	To the Illinois State Toll Highway Authority Board: I respectfully oppose the proposed toll increase and the automatic inflation indexing of future toll rates. Illinois residents continue to face rising costs across nearly every aspect of daily life. Property taxes, insurance premiums, utility costs, groceries, healthcare, vehicle expenses, and numerous state and local taxes have all increased substantially in recent years. For many families, and especially for retirees living on fixed incomes, these cumulative increases are becoming financially unsustainable. The Illinois Tollway's 2026 Budget projects approximately $1.79 billion in annual revenue, with approximately $1.73 billion generated from tolls and toll-related collections. Before asking motorists to pay even more, the Tollway should clearly demonstrate why existing revenues are insufficient and why a new $26.5 billion capital program is necessary in its current form. I support maintaining safe and reliable highways. However, every major project should be prioritized based on necessity, safety, and measurable public benefit. Before increasing tolls, the Board should demonstrate that lower-priority projects have been deferred, operating efficiencies have been maximized, and existing revenues have been fully optimized. I am particularly opposed to automatically indexing toll rates to inflation. Automatic increases remove an important layer of public accountability. Every future toll increase should require a public justification, public hearings, and a Board decision based on demonstrated financial need—not occur automatically because of an inflation formula. Illinois motorists already contribute significantly to transportation funding through state gasoline taxes, federal gasoline taxes, vehicle registration fees, and tolls. The combination of these costs places an increasing burden on working families, retirees, and small businesses. I respectfully ask the Board to reject both the proposed toll increase and the automatic inflation indexing provision. If additional funding is truly necessary, the Tollway should first demonstrate that existing resources have been used as efficiently as possible and that every proposed capital project is essential before asking Illinois motorists to pay more. Thank you for considering my comments.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/13/26	Scott Swidler	60136	X		X		X				Oppose	These democrats continually talk about affordability, but yet they are always increasing costs on us without a care in the world. This increase is not only going to put more money into a system that doesn't need it, but will make commuting way more expensive. This will increase the cost of goods and then the poor and middle class will have to reconsider what is important to purchase to keep themselves afloat financially. Please DO NOT pass this toll increase plan.
07/13/26		60022	X			X	X				Oppose	It's already too expensive. OK with CPI increases but not massive increases. Save up funds from current revenues, do smaller projects instead.
07/13/26	Sarah Roti	60430	X		X		X				Oppose	The tollways were supposed to become freeways once the initial bonds were paid. Now the politicians want to keep us paying for them forever, for higher and higher costs. I do not support any raise of these tolls in perpetuity, and certainly not tied to inflation. The minimum wage should rise with inflation before any taxes, tolls, or fees. We already pay taxes to maintain the bridges and roads.
07/13/26	Ron Ciombor	60142	X				X	X			Oppose	
07/13/26		60646	X		X				X		Oppose	One more thing to add to the list of reasons to leave Illinois.
07/13/26		61820			X	X	X				Oppose	Illinoisans are already paying some of the highest taxes in the county and our transportation funds have been misused for many years. We can't afford more increases in our daily commutes. The toll road has been under construction for all 16 years that I have lived in this state and yet you somehow need more.
07/13/26	Christina Drejcek	60190	X		X		X				Oppose	
07/13/26	Miguel	60124	X				X			If such program takes places it better happen	Oppose	
07/13/26	Peter Bekas	60188	X				X			Safety	Oppose	IL Tollway Operating revenue has been exceeding maintenance and expenses for years (by more than $1B a year recently). Given the average consumers affordability challenges, this rate increase should not be passed! Additionally, it is ridiculous to also want to include an automatic inflationary rate increase too; just as the automatic gas tax inflation increase was slipped in to continue feeding a bloated IL government instead of looking at how to reduce the amount of unnecessary government redundancy and expense there is in IL.
07/13/26	Mary Miller	60067	X				X	X			Oppose	Illinois wants to treat tolls as their gravy train. At our expense. This takes a LOT of nerve.
07/13/26	Teresa Gormsen	60110	X	X	X						Support	
07/13/26		60148	X		X		X				Oppose	The IL tollway already has plenty of funds. There is no need to raise tolls, and especially no need to tie it to an index to automatically increase every year. The tolls are already predictable at their current amount.
07/13/26	Angelo	60120	X				X	X			Oppose	With the current economical state that we are currently facing, an increase in the tolls pricing is the last thing we want to hear
07/13/26	Thomas Maurice	60157-0408	X				X			budgets based on the tollway's needs, forever tolls linked to inflation do not reflect the needs of a department as inflation does not reflect actual operations cost	Oppose	
07/13/26	Sandra	61102	X		X		X				Oppose	I think it stinks,,, we in Illinois know that the funds always go to Chicago. It's bad enough that our taxes are constantly being raised and now you want to raise the toll prices every other year... again .... and 30% on commercial vehicles means the cost of whatever the product is that the commercial vehicles are carrying the cost goes up for the consumer of that product. enough is enough... we are sick and tired of the constant increases the democrats keep imposing on the people ...especially when we know the money always ends up in Chicago...

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/13/26	Jean	61333	X		X		X				Oppose	
07/13/26	Michael Longo	60134	X				X		X		Oppose	This proposed increase is excessive and would really impact drivers budgets as they strive to keep their heads above water financially. This is not a good idea! Please do not pass this plan and fare increase.
07/13/26	Lyn Kiley	53404	X				X		X		Support	I support the initial increase for upgrading the system. However, after it's done, increasing the fee "just because" other prices go up is, to me, taxing for the sake of taxing. It won't change the upgrades so, at that point, nothing changes requiring a fee increase. IMO
07/13/26	MJ Hodgins	61036	X				X			I pass usage in other states	Oppose	The 45 cent increase per toll is too much. It might cause me, and others, to go another route, which would reduce the income needed to sustain the plan. Please reconsider that amount.
07/13/26	Louise Venne	53925	X		X	X					Support	I agree and acknowledge that a toll increase is necessary. However, a 45 cent increase for passenger vehicles which is typically much more than a 30% increase (at many plazas a 45 cent increase is close to 45%) is not right nor fair if commercial vehicles which are substantially heavier than passenger vehicles, even if more numerous, only get a 30% increase in their tolls. A more even increase across passenger and commercial vehicles should be sought, particularly in light of the amount of wear and tear heavy commercial vehicles cause on the roads relative to passenger vehicles. For example, if a 30% increase for commercial vehicles gets you close to the budget you need for repairs, then increase passenger vehicles somewhere in that 25 to 30% range. In addition, a toll increase based on consumer price index every two years seems like a lot. This feels like a high frequency of price changes. I recommend a lower frequency of price change such as 5 years (or maybe 3 years). Finally, a number of interchanges need to be reviewed and updated. On major, heavily traveled interstates, a one lane only exit/entrance ramp regularly causes major traffic back-ups. This is not conducive to traffic flow, fuel or time efficiency, predictable drive times, content drivers, or anything else.
07/13/26	Jonathan M Miller	60087			X		X	X			Neutral	While I am not happy about the toll increase, I understand it and it is probably appropriate. What I don't get is the lower raise in tolls for commercial vehicles. From what I understand, commercial vehicles especially those big trucks are what cause the most damage to the roads. They should pay more. (An aside, back in the 50s when they started building the interstates, they should have built two next to each other, one for trucks for which trucking companies would pay the upkeep, the other for every one else). Anyway, increase the rate more for commercial vehicles.
07/13/26	Xavier Hernandez	60608	X		X			X			Support	Local 150 will get the job done right. My personal opinion I'm not a big fan of traffic but the investment is worth it
07/13/26	Lisa	60089	X			X	X				Oppose	Too expensive always being repaired so never being fixed correctly in the first place. Too many top dogs paid too high salaries
07/13/26	George Shemon	60191	X	X		X					Support	I support the Driving Connections Program because it creates jobs, supports apprenticeship opportunities, and helps maintain the infrastructure that keeps Illinois moving.
07/13/26	Danielle Moore	60543			X		X	X			Oppose	Please reconsider raising toll rates this high.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/13/26	Fran F	60656	X		X		X				Oppose	This is the first I'm hearing of this increase maybe you should have announced it better before the public hearings. The majority of public hearings are held during the day when the majority of people that use the tollway are working. I would like better and larger signage at the tollbooths of what I'm paying at each tollbooth. I don't like and agree with it with the consumer price index clause because that is never in favor of the public. I think the airlines should pay for the tollways you are building to benefit their businesses. I'm sick of the general public getting nickel and dime with no accountability from your agency. I always heard that the tollway has a surplus that is why they continue to come up with new construction projects. How about put a rule in place when you have a surplus you share it with non-tollway roads and fix those. I'm going to share this with everyone I know so they can attempt to make a public comment even though I don't believe it will make a difference because you will do whatever you want.
07/13/26	Tim Bouse	60142	X		X		X				Oppose	You are stealing from the public!
07/13/26	Paul J Fitzpatrick	60510	X	X		X					Support	My name is P.J. Fitzpatrick, and I am here today representing ACEC Illinois, the American Council of Engineering Companies of Illinois. ACEC Illinois represents more than 220 engineering firms across the state. Our member firms help plan, design and deliver the roads, bridges, interchanges, drainage systems and transportation infrastructure Illinois residents and businesses rely on every day. I am also here as Vice President with HR Green, where our team focuses on the planning, design and construction of a variety of infrastructure solutions, including water, drainage, broadband, bridges and transportation projects. I want to speak in support of the Illinois Tollway's proposed Driving Connections capital program. This 15-year, $26.5 billion program is a major long-term investment in the transportation system serving northeastern Illinois and the broader regional economy. It focuses on strengthening the existing system, reducing congestion, improving safety, expanding regional access, supporting economic growth and integrating new technology into the Tollway system. While I work in the engineering industry, I want to take a moment to speak not as an engineer, but as an Illinois citizen and a user of the Tollway system — and as someone who, like many of us, has had more than a few days where the commute felt longer than the event I was driving to. That is why infrastructure investment is not abstract. It affects people's lives every day. A better transportation system means parents get home sooner, students and workers travel more safely, commutes become more reliable, and businesses can move goods and services more efficiently. The Tollway's materials note that Chicagoland drivers spend more than double the national average amount of time stuck in traffic. Poor road conditions can cost drivers an average of $725 per year, and stop-and-go traffic adds fuel costs, vehicle wear and lost time. Past Tollway investments have produced real results, including I-90 corridor improvements that saved drivers more than 25 minutes and the new I-294/I-57 interchange, which saved drivers up to 13 minutes. In other words, if those one-way time savings were applied to a daily round-trip commute, a driver could save more than six hours a week — or more than 300 hours a year. That is nearly two full weeks of time returned to families, work, school and community life. This program is also about safety, reliability and economic growth. Stronger bridges, better pavement, safer interchanges, improved drainage and smarter traffic management all help protect the traveling public and prepare the system for future demand. As engineers, we know it is far better to invest before problems become emergencies. Long-term capital planning helps reduce disruption, avoid higher future costs and keep this critical system moving. And by improving access
07/13/26	Deborah Laschiazza	60804	X				X	X			Oppose	If you want to raise tolls for specific projects it should be voted on every time with the public allowed to agree or oppose. Hikes with no limit or accountability are not fair.

07/13/26	Steven Galle	60505	X			X			X		Oppose	

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/13/26	Judy Albano	60010				X	X			Efficient, long-term projects that do not require a revamp a few years later	Oppose	This is NOT the time to be raising tolls. The average American is already burdened by Trumpflation with no end in sight. The elderly on a fixed income are especially hit hard and my daughter, who cares for me, cannot work full time in order to be available for the care I need being disabled. You need to think about everyone impacted, not just what you believe you want Illinois should be able to boast about. PLEASE hold off on any increases until affordability is more attainable.
07/13/26	Diana L Smith	60610	X			X	X				Oppose	The tolling already provides more revenue than needed to maintain the system, and these roads were supposed to be paid for years ago. I understand that we are now in a situation where tolling brings in important revenues, but it should not be exploited for additional funds that could be gained by increasing tolls. Roads need to remain available to all and should be reasonable and affordable for everyone. These increases are excessive and should not be implemented with a long term expectation of constant fee raises.
07/13/26		60004	X		X		X				Oppose	
07/13/26	Mary Drey	60453	X		X		X				Oppose	The commercial vehicles should be charged MORE not less than personal vehicles. Trucks are clogging the roadways, drive at high speeds, and cause many accidents. What happened to keeping them out of the innermost lane of the highways? Pickups pulling trailers, boats, etc. should also be charged higher tolls, and kept out of the innermost lane.
07/13/26	Dr Dann Spader	61761	X				X			No more taxes and less spending wastefully	Oppose	Tax increases are NOT the issue... WASTEFUL spending is the issue. You are NOT us using the funds we already give you WISELY... why should we give you MORE.
07/13/26	Claude Tisdale	60652	X				X			In this day and time , the toll system should be self sufficient and not need any more rate hike s , like so much more is going on in our state	Oppose	our toll road system has already been paid for , and should be self sufficient ,
07/13/26	Lui	60190	X		X				X		Neutral	Increase less. 45 cents too much.
07/13/26	LOUIS VIECELI	60491	X		X		X				Oppose	YOU GUYS MAKE ENOUGH MONEY TO TAKE CARE OF OUR ROADWAYS NOW AND BLOW THE MONEY ON ILLEGAL IMMIGRATION ENOUGH WITH THE HIKES IN TOLLS. WHAT'S NEXT: TAX OUR MILEAGE WE DRIVE... GETTING A LITTLE CRAZY WITH ALL THESE RATE HIKES

07/13/26	Sam Passarelli	60016	X		X		X				Oppose	Surplus funding revenue vs operating expenses to bail out other failed Illinois and Chicago projects should not be passed to passengers above expected maintenance. A tax on top of a tax on top of a tax etc.

07/13/26	Gary Siatka	60586	X			X	X				Oppose	The rate increase is to large for a one time event. The large increase may push traffic off the toll roads onto local streets. This would create more traffic bottlenecks on local streets. The increase should be phased in over a number of years.
07/13/26	Sue longo	60142	X			X	X				Oppose	Greed
07/13/26	Allen m	60004	X		X	X					Oppose	People still making same amount of money and you guys want to raise the toll cost and still be stuck in traffic for hours because of the construction that never end in Illinois,
07/13/26	Jan McElmeel	60510	X			X	X				Oppose	Your revenue far exceeds your maintenance costs. In a time where many are struggling, those using toll roads to get to work will simply have to take longer routes to work yo avoid toll fees which increases pollution and traffic on surface streets that may be unintended. I for 1 will not drive the toll roads if these increases go into effect. I have other routes I can use so I will not pay for so-called convenience. Piling on when Illinois is just about taxing us to death is unfair. I can't wait to leave this state.
07/13/26	James Longo	60142	X			X	X				Oppose	Other states maintain and improve at lower costs

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/13/26	Gerald March	61111	X				X			Convenience	Oppose	This appears to be a new way of increasing “taxes” without public approval, and making “downstate” pay for Chicago mismanagement. Springfield should never be allowed to have automatic increases since it creates more uncontrolled waste. When Covid eliminated all the toll collector positions, the state received a windfall of decreased salaries, yet tollway users did not get a reduction. The state kept the money and users received no benefit.
07/13/26		60515			X	X	X				Oppose	
07/13/26	Adriana Aguirre	60191	X			X	X				Oppose	No increase
07/13/26	Frankie Albert	60411		X	X		X				Oppose	Considering the cost of living increase, this toll increase can add to the hardship of families that are required to use the tool to get to and from work.
07/13/26	Margaret Reiland	60014				X	X			The original tollway project was supposed to be a one time thing. IL needs to save money and not ask the residents to pay more. I am vehemently against this project	Oppose	I am vehemently against this project. The original tollway project was supposed to be a one time thing, but it obviously wasn’t as it have been in place for decades. IL needs to save money and not keep making the tax payers keep footing the bill for their blank check mentality, out of control spending.
07/13/26	Don Funk	60005	X	X			X				Oppose	I don't understand the reason that the suburbs are the only places that there are tolls. There's no tolls on the Edens, Kennedy, Eisenhower, or Dan Ryan. So why are there tolls on other highways. That's what the gas tax pays for. And this idea of an automatic rate increase every 2 years is sickening. I strongly oppose the tolls increase. Don Funk
07/13/26	Ricardo Sanchez	60453	X			X	X				Oppose	What have we actually obtained with all the revenue put into the toll roads, other than occasional maintenance? We have gotten construction projects that take SEVERAL YEARS to complete, rerouting everyone and increasing drive times or making way finding more confusing! There are several locations that have been completed which appear as though the were just slapped on, with divots, bumps, or other weird road anomalies making driving cumbersome. Maybe instead of raising it even MORE and at such a high rate, maybe increase it by a couple cents - $.05 or less, every other year. While we do need well maintained roads, we certainly DO NOT want to keep paying higher and higher fees all the time! This will increase trucking costs which will increase all supplies we receive!
07/13/26	Rudy Wulf	60187	X			X				Safety	Oppose	I don't oppose increases that are necessary to maintain safe and adequate roads. I'm not in favor of increases tied to cost-of-living adjustments. Automatic increases tied to an index allows the tollway to enjoy the benefit of increases without public scrutiny of the actual need. I think it's just bad policy; easier for the tollway administration, but potentially harmful for the public. Take your "lumps" with a vigorous debate if you need additional funding and don't insulate yourselves with automatic increases. One additional comment. With additional funding I would recommend a review of current speed limits and enforcement practices. Trying to maintain the posted 55 mph speed limit in the Chicagoland area is impossible. It's simply dangerous. If you travel at 70 people still pass you. Reevaluate the limits and them enforce them. Thank you for allowing me to comment. By the way, your maintenance of the system is excellent!
07/13/26	David stackhouse	60064	X	X	X						Support	I drive in several states a year and illinois needs to keep it highways up to have well maintained roads to drive on.
07/13/26	Patricia Hickey, MS, RN	60641	X				X	X			Oppose	This is an unjustifiable attempt to collect unneeded funding for tollways already “in the black”. Stop penalizing the people of IL who are already way overburdened with taxes!!’
07/13/26	jeff slattengren	62068	X		X		X				Oppose	Need to abolish tolls
07/13/26	Charles Hinds	53511	X			X	X				Oppose	the increase that is wanted is too much by half.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/13/26	Randall Martin	60004				X	X		X		Oppose	The cost increase is not sustainable for households. The tollway has operating revenue of $1.8B that far exceeds operating expenses of $443M. Cut back in other areas of spend in the state not related to Tollways. The approach should be to fund capital improvements from net revenue already received. The funding and projects you do have are not well documented with regard to progress. Highlighting lane closures is not even a baseline attempt to inform. It is clear that the state is pathetically poor in management of the system, ability to communicate. DO NOT RAISE MY TAXES AND COST OF LIVING!
07/13/26	Ricky Welch	60544	X	X			X				Oppose	This is just one more tax added on because the governor doesn't know how to run a business let alone a state. Toll roads were supposed to be free after they were built but another lie. Fred Flintstone came in and gas tax raises every year. Illinois is a joke of a state no wonder people are leaving
07/13/26		60140	X		X		X				Oppose	The cost of living is already too high, we don’t need to pay more just to drive. This will hurt Illinois families more than help. The tollway brings in enough revenue to maintain roads—learn to budget and work within the state’s means like Illinois families have to do.
07/13/26	Alexander Kailing	60640	X				X		X		Oppose	It's just another cash grab by politicians
07/13/26	Mel Barr	60154	X		X		X				Oppose	The more money you get the more you want.
07/13/26	Joe Wroblewski	60521	X		X		X				Oppose	I am for eliminating the toll authority and using federal funds to maintain the roads
07/13/26		60430				X	X			All of the above.	Oppose	There’s always road construction going on in and around areas of Chicago, yet, there are NEVER any lasting improvements, especially South/Southeast areas of Chicagoland, solely patchwork … regarding all roadwork. As for the toll roads, if repaired properly, there’d be no need for constant repair, just upkeep of work & product well done. And the government can well afford payment for America’s infrastructure … get priorities straight & fair.
07/13/26	Anthony Drudi	60505	X		X	X					Oppose	Until the 294 South interchange at 88 is fixed I am strongly opposed to this increase. This traffic from Irving Park Road to I-88 West is horrible for the last 18 + months.
07/13/26	James Mattox	60123	X			X	X				Oppose	The cost of living is very high. I can barely afford to buy groceries. Increasing the tolls puts additional strain on the working class. My paycheck can only stretch so far
07/13/26	DESTEFANO,JOYCE M	46804-6539			X	X	X				Oppose	Your incompetence in financial matters in Illinois is robbery of the people. I am from Indiana and want to avoid your toll roads
07/13/26	Cliff	60035	X			X	X				Oppose	You provide many platitudes on the benefits of the toll increases. You need to provide specific features and benefits of the plan in a short, bullet form. Other than necessary repairs that often take an extensive amount of time and disrupt traffic, I believe the toll road is efficient at the current cost. You need to tell me where the system is broken, what is the plan to fix your perception, and what is the cost / benefit of why the cost is increased. Looks like your administration wants to build an empire where none is needed!!!
07/13/26		60068			X	X	X				Oppose	A slight increase of 10 cents is acceptable, but 45 cents is too much, especially as a driver who pays several tolls on my route. This proposed increase would double the total of what drivers currently pay.
07/13/26	Joe smith	60433			X		X		X		Oppose	The infastructure improvements aren't even needed. You are replacing perfectly good concrete pavement in most spots.
07/13/26	Mark Wozniak	60516-1403	X				X			No tolls	Oppose	Move to Wisconsin, GREAT ROADS AND NO TOLLS!!!

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/13/26	Alex Nofal	60076	X		X		X				Oppose	The State collects a ton of money from gambling and casinos! Some of that money should be used to cover expenses to maintain the Tollway instead of hiking the toll fee. It is very obvious that this will happen more often in the future.
07/13/26	Charles R DOUBRAVA	60563	X			X	X				Oppose	Many tolls like 355 army trail is increasing 58%. I390 would be 33 cents per mile.
07/13/26	Glenn	60145	X		X		X				Oppose	How many more taxes and increases can this state put in its residents? We are already one of the most taxed states!
07/13/26	Mary	60544			X	X	X				Oppose	
07/13/26	John	60446	X		X		X				Oppose	
07/13/26	Dennis Schulkind	60126	X		X		X				Oppose	Roads should be well maintained using existing tax dollars and past tolls collected. Tolls have gotten outrageously expensive and this increase would be a significant burden for commuting to work. These tolls were never intended to be permanent.
07/13/26	tprudent01@gmail.com	53151	X		X		X				Oppose	After seeing the proposed toll increase from Wisconsin border to Midway airport, I am absolutely opposed to the increase. It's too substantial of an increase. Pare back on projects that have very little impact to economic development (very nebulous statement) and other projects unrelated to improving the tollway system. This increase seems like a "let's spend some money to keep the construction companies in business" project (again nebulous statement).
07/13/26	Nadine Sweeney	60068	X			X	X				Oppose	It is not fair to penalize the people who use the tollway system for work or going to medical appointments the large increase in tolls. It does not need to be increased to such an extent, and I'm against the ongoing yearly increases. Let public transportation have increases , and not unfairly charge the tollway users.
07/13/26	Jose Mendez	60453	X		X		X				Oppose	
07/13/26	Ze	60073				X	X			DO NOT WANT PRICES TO RISE	Oppose	VERY STRONGLY OPPOSE!!! Stop these corrupt leeches!!!
07/13/26	Rosemary Jarrett	60638		X			X		X		Oppose	
07/13/26	Al Olson	53511-5526			X	X	X				Oppose	This us a cash grab without end.
07/13/26	MYKHAYLO MYTROFANYUK	60656	X				X			None	Oppose	They make enough profit to maintain road properly.

07/13/26		60630		X	X		X				Oppose	294 was funded by tax payers dollars already when it was 1st built. Also, if this does pass it should NOT be tied to inflation but rather a metric that follows wage growth.
07/13/26	JAY J TREPANIER	60559	X		X	X					Support	
07/13/26	Timothy A Heintz	60441	X				X		X		Oppose	Another blatant attempt to extort money from citizens to fund anything but what it promises. See: Lottery. See: pritzker gas tax to fund infrastructure (bail out for mismanagement of the CTA).
07/13/26	Vj Thakkar	60565	X		X		X				Oppose

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/13/26	Dan Hart	60074	X		X		X				Oppose	Tolls have continued to be collected long after the initial time frame they were proposed. Rather than using these funds for the roads as they should be our state led by a democratic super majority diverts these funds to other areas such as a CTA bailout. Instead of continuing to price us out of this state, start mantaining your fiscal house responsibly like the rest of us residents are required to do. We do not have a cash problem in this state, we have a spending problem.
07/13/26	Tony	60067			X		X		X		Oppose	We should not pay Toll @all we pay already a lot Tax on everything we don't receive rase on pension and we can not afford the spiking cost I will ban Tollway
07/13/26	Brenda Schurrer	60115	X				X	X			Oppose	I strongly oppose the proposed toll increase. Illinois drivers were originally told that tolls would pay off the bonds used to construct the Tollway system and that the roads would eventually become freeways. The original system, including the East-West Tollway that is now I-88, opened in 1958. Instead of honoring that promise when the original construction bonds were paid off in the 1980s, the state made the Tollway permanent and continued issuing new debt. I-355 opened later, in 1989, but it has followed the same never-ending cycle: toll revenue supports additional borrowing and expansion, which is then used to justify keeping and raising tolls indefinitely. Under this proposal, passenger tolls would increase by approximately 45 cents per toll beginning January 1, 2027, raising the average I-PASS rate from about 7 cents to 11 cents per mile—roughly a 57% increase. Commercial rates would increase by 30%. Beginning in 2029, tolls would then be adjusted for inflation every two years, effectively creating automatic future increases without the same level of public scrutiny. I understand that roads and bridges must be maintained and that certain congested interchanges need improvement. However, this is not merely a maintenance plan. It is a massive, 15-year, $26.5 billion capital program that includes widening, new access points, airport-development projects, technology initiatives and additional borrowing. The part that concerns me most is the $5.57 billion “programwide” category—more than one-fifth of the entire plan. It is not attached to a clearly defined list of specific projects or measurable deliverables. Instead, it broadly includes money for “new challenges and opportunities,” interagency and local-government partnerships, sustainability and innovation projects, maintenance facilities, and upgrades to I-PASS and other internal computer systems. That is an enormous amount of vaguely described spending to ask motorists to fund without far greater detail, accountability and firm spending limits. Before demanding substantially more from drivers, the Tollway should identify exactly how that $5.57 billion will be spent, prioritize essential road and bridge maintenance, reduce administrative and project costs, reconsider the size and scope of the program, and provide a credible plan for controlling debt. Illinois motorists already pay fuel taxes, vehicle-registration fees, sales taxes and existing tolls. Temporary tolls have effectively become a permanent and continually increasing charge on northern Illinois residents. Enough is enough. Reject this increase and the automatic inflation escalator.
07/13/26	Brian Donnelly	60638		X		X	X				Oppose	When the gains outpace the maintenance costs by almost 200% and are being proposed to increase, this is less about well maintained roads and projects and more about for-profit. On something that was initially supposed to be reduced, it makes no sense. A few cents here or there would be fine, but leaps and bounds to "keep up with inflation" is a manipulative excuse belaying the real reasons behind why the prices keep going up.
07/13/26	HA	53092	X				X			Higher speed limits	Oppose	Too expensive for what we get.
07/13/26	Ezequiel Mendoza	60435	X		X		X				Oppose	
07/13/26	Darick Naumowicz	60192	X				X			Responsible spending and accountability on behalf of the tax payer.	Oppose	

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/13/26	Brian Ilic	60560	X				X			Reduce costs	Oppose	When tolls were first imposed, we were told that they were temporary. Illinoisans are now being charged the highest tax rates in the country and we continue to get nickel and dime to death. In all honesty. We need to vote a majority of these people out of office and get real people who care about real working people in office. This country fought for taxation without representation yet every corner we turn in Illinois tax on fuel tax on tires tax on the food we buy tax on the money we make tax on the home we own, which we won't really own once it's paid off because we still have to pay more taxes. You wonder why people are leaving the state it's because it's not sustainable or affordable anymore. You need to figure a way to make corporations in these data centers. Nobody wants to flip the bill they want to do business in Illinois then they need to pay the piper not at citizens. We're tired and we carry everything on our backs financially.
07/13/26	Kay Vanasco	46385	X		X					Toll booths working properly.	Oppose	I'm opposed to a rate hike because I travel on the tollway about 4 times a month. Invariably the toll booths are in disrepair with broken or missing gates, lights not working, and missing instructions. I have an iPass and it's great but it's a shame that the conditions of the toll gates are not kept up. Are they arresting people who ram the gates? If so, what are the fines? We need to hold drivers accountable.
07/13/26	Ed Millard	60193	X			X	X				Oppose	Illinois Tollway Increase 2027 and beyond Thank you for giving us the opportunity to voice our opinion on this subject. My objections are being only focused on the initial and the automatic subsequential CPI related set of toll increases. My disapproval of this rate increase is centered more on the individual passenger car toll rate. As an individual, I see the toll rate system as a double fee for the individual consumer. The individual consumer pays for this toll rate through the direct tolls of passenger vehicles using the system, and an indirect charge from the commercial vehicle toll. My view is the individual consumer can only absorb that toll cost and has no way of passing that cost on, thus impacting affordability to the families of Illinois. While the commercial business can pass that cost onto their customers as they adjust their cost models and pricing for services to their customers. This being an indirect toll cost to the families of Illinois. I also do not believe that all the money collected will be used on the Illinois Tollway system. We have seen that moving funds between state entities occurs, as loopholes are found. So, I say no to your toll increases, and especially the automatic CPI increases without any public saying. It is good to dream of better services, however, the people of Illinois have been taxed (tolls), double taxed (Illinois Sale Tax, Federal Excise Tax Municipality Gas Tax), and tripled tax (Rebuild Illinois Gas Tax). So, no you do not have my approval, as I told the State Legislature and Governor this also. Ed Millard - Cook County Illinois resident
07/13/26	Marie	60185	X				X			Try overnight road repair/construction. Maybe a few more roundabout's would cost less, save drive time & less engine idle time is better for everyone.	Oppose	What happened to "toll free by 73?" Billions of dollars later and the cost hikes keep coming. Another revenue stream for a state that desperately needs more control over spending - maybe start with the bloated pension fund in Illinois. In addition to folks just trying to get to work to feed their families, don't forget the private businesses state wide that rely on our roads to reach their customers - the financial squeeze is felt from more directions than anyone can count. Do better Illinois Tollway.
07/13/26	Curt Bagnall	60514	X				X			cost	Oppose	Should study removing tolls in general and pursuing federal funds. This has been done successfully before in other states, e.g., I-95 in Connecticut.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/13/26	Luis	60026					X	X	X		Oppose	a financial burden that I strongly oppose. This decision overlooks the crushing financial strain on working families and commuters who are already dealing with inflation and high costs. Raising tolls is a regressive tax that will hit those who rely on these roads daily the hardest, increasing the cost of getting to work and managing essential travel. Instead of increasing the burden on drivers, the Tollway should first exhaust all other options. This includes aggressively auditing internal spending to improve efficiency and identifying other funding sources before coming back to the public with a more justified plan. We urge you to reject this proposal.
07/13/26	Mark Couzin	60803	X		X		X				Oppose	The cost to drive our roads is crazy compared to other states. I avoid the tollroads at ALL COSTS--PUN INTENDED!!!
07/13/26	Reid Spears	60585			X	X	X				Oppose	I am old enough to have parents who remember when the original toll roads were first built, and it was sold as being that the tolls would be charged to build the roads and once they were paid off, they would become freeways. Instead, over the ensuing decades, it has only become more expensive to drive on these roads. The solution has never been to live within your means and plan accordingly when preparing future projects. It has always been to just raise rates and charge people more money. Get your act together, figure out a long-term plan that is created and implemented by something besides "just charge people more money", and keep these roads affordable.
07/13/26	Elizabeth Sherrow	60564	X			X	X				Oppose	Tolls are extraordinarily high currently. I propose raising tolls on out of state drivers and increasing fees for people with out of state license plates who live in Illinois >4 months of the year. The roads are filled Texas, Florida and Tennessee plates. Tax payers are already stretched thin. Those of us who rely on toll roads to get to work get punished.
07/13/26	Sukhdev Soni	46060	X			X	X				Oppose	This is increase is completely unfair and ridiculous!

07/13/26	Ryan Brown	60074	X		X		X				Oppose	STOP WITH THE NON-STOP TAX INCREASES IN THIS STATE! I CAN'T WAIT TO LEAVE THE STATE
07/13/26	Pragnesh Patel	60089	X		X		X				Oppose	I see PACE buses running without passengers. The state should save money by replacing these big buses with minivans. There are many such ways the state can save money and keep the toll lower.
07/13/26	Jeff LaBatte	60618	X		X		X				Oppose	Greed. When will enough money ever be enough for you guys? Anything above a 10 cent raise is thievery. Disgusting.
07/13/26	Sharon Bouchard	48130			X	X	X				Oppose	How about the politicians who take payoffs and donations fund your improvement instead of continuing to rape my aging, fixed income parents!!
07/13/26	Russ. Windelborn	60124	X				X		X		Oppose	Why are we still paying when it first started they said no tolls after 1965. I do not want to use the tollway if at all possible. They got enough money out of me for the16 years I commuted from South Elgin to Franklin Park. Totally ridiculous what they want for an increase

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/13/26	Ronald Regnier	60544			X	X	X				Oppose	All state agencies have fat and costs that can be avoided or reduced. Business as usual is not efficient. Streamline the processes, cut staff across the board, take away government vehicles and aircraft (drive your own car on the same roads we do) and provide minimal mileage reimbursement for personal vehicles used for official purposes, lean and mean policies, and other cost saving measures to drive down the costs and expenditures of the agency need to be done before any cost increases are proposed. A bothersome item is that salaries of agency employees should be reflective of the constituents' salaries. State employees already have decadent retirement benefits that the taxpayers are paying for, so another area for cost savings. From what we see, state employees receive more generous salaries than the people they represent or work for. And we see so many road and infrastructure projects that start out at a certain level and almost always take considerably longer and need to ask for more money to complete than they were proposed at- that needs to be corrected. The agency needs to operate like a business where the profit margin is service to citizens. Performance guarantees during the open bid process should be required. If it isn't done on time, it costs the contractor. If they give a cost and then come back and ask for more, the answer should be no and the performance guarantee kicks in. The contractors today make huge profits on the people's backs and we see how projects seem to go on and on for 2 or 3x as long as it was projected to take and the cost rises commensurate to that.
07/13/26	tyrone scruggs	60429		X	X			X			Support	
07/13/26	Alexa	52003			X	X	X				Oppose	I commute through Illinois often for personal and work purposes, and have been paying via I-pass for many years. As an out of state individual paying to fund Illinois' roadways and people working on them, I feel my financial responsibility should not be increased to support continued work on Illinois' roadways. My current contribution is more than sufficient and the dollars needed to fund this new venture should come from other, bigger financial pockets. Other states have figured out how to maintain roadways and pay workers appropriately without having to take dollars from individual families each time they drive the roadways.
07/13/26		60451			X		X		X		Oppose	It's already too expensive and we avoid using it if possible so this will make it even less attractive to use
07/13/26	Lynn Schones	60506	X				X		X		Oppose	This proposal is outrageous!! I understand slightly increases in tolls occasionally, but this proposal is crazy. The tolls are high enough especially since there is such excess in monies received already. Tolls were supposed to end in the early 70's and here we are with very high tolls. Many drivers may not be able to afford tolls much higher. For trucks, higher tolls means higher costs for products for everyone. Please don't pass this burden which hurts people.
07/13/26	Cathy Siarny	60169	X				X		X		Oppose	No more taxes !!!!!!! Enough is Enough already!
07/13/26	Judy	60586	X			X	X				Oppose	You need to manage the money you receive now; government needs to learn how to budget and live with those numbers. I use 355 each day to get to and from home and it will cost me a lot more with this kind of increase; and salaries are not going up but cost to get their is large. Plus the road are not improved as you said when the last increase came up. What are you doing with the $$$
07/13/26	Lillian Tarnow	60618	X				X			reasonable pricing	Oppose	Better managment of the toll money that has been and is currently being colllected should be enough to fund ongoing maintenance and necessary improvements.
07/13/26	Robert Moss	60067			X	X	X				Oppose	Tolls were supposed to be a temporary cost. Now it is a cash cow for the County and State to take our money whenever they feel like it. This has to eventually stop, or are you going to keep increasing the charges until it is $8.50 like the SkyWay????
07/13/26	John	60451			X		X			Less tolls not more	Oppose	Tolls were first created to be temporary to "fund improvements" just like this scam claims. The roads have never been maintained worse than now, the "improvements" have never existed just corrupt politicians gouging citizens for driving. Now yet another increase in the name of supposed "improvement." Do everyone a favor and stop "improving" the roads and let us keep our hard earned money. Nothing but a con by a bunch of blood sucking vampires

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/13/26	Edna Jones	61109				X	X			Build a rail line enough with the tolls. There weren't meant to be permanent to begin, yet have never gone away and prices just keep rising.	Oppose	Build the dang train. The tolls were never supposed to be permanent and you keep raising the price? Build more trains connect the state this way. Climate change is becoming worse, the last thing we need is more highways and higher tolls. We have little to no funds as it is, especially in the fascist country.
07/13/26	Peter	60805	X				X		X		Oppose	Let's do a deep financial dive on where all of the they collect today goes before we increase the rates, but of course that is not going to happen.
07/13/26	Nancy Tomazin	60060				X	X			Toll FREE	Oppose	The tolls were supposed to go away in 1973. We are 53 years on and you just keep raising them. Illinois needs to figure out how to manage its money better and without taking more from its residents. Tax & toll increases are a major factor in the population decline of the state.
07/13/26	Roger	53108			X	X	X				Neutral	I think the toll increase should be higher for commercial vehicles than passenger vehicles. Commercial vehicles are profiting by using the tollway. They can pass the increase on to their customers. Passengers going to work or visiting family or the city have no place to get the additional money from.
07/13/26	Angel Hernandez	60098	X		X		X				Support	The Tollway is a vital part of our regional economy. Continued investment through the Driving Connections Program will help support businesses, commuters, and working families across northern Illinois.
07/13/26	Rob L	60056	X		X		X				Oppose	The roads are always under construction, never seem faster or better and cost is already high. Do better with what you have. Work to reduce your expenses or show concrete numbers for how this helps economy. You can't always trot out it creates jobs during project.
07/13/26	Christine	60629	X			X	X				Oppose	It seems when construction is done around Chicago and suburbs finding another route to go to a destination is almost impossible because work is being simultaneously on all roads. Citizens cannot get to their destination in a timely manner. Think of the drivers please! Illinois likes to spend, spend and assess costs to citizens who are overburdened already with all the raise in costs.
07/13/26	Joel Cornfield	60654-7248	X			X	X				Oppose	Toll Rates are already exorbitant - especially given that these fees were originally meant to be temporary. Without knowing budgetary details it's impossible to propose alternatives, but I would guess there is plenty of income to accomplish what needs to be accomplished without an egregious increase in an already out of line fee.
07/13/26	Matt	60119	X				X			Poorly budgeted tollways	Oppose	What happened to all the tolls you currently collect? Why should my money be diverted to Chicago? Better budgeting is needed, not increased fees or tolls.
07/13/26	David Disrud	60563	X			X	X				Oppose	Way too extreme and does not explain where the money is going. The toll roads are self sufficient entities and already bring in enough revenue
07/13/26	Emily L	60118					X	X		Cost should be paid by government	Oppose	We shouldnt have to fund this supposed "transformation" let's pigster pay for it out of all the money he has fraudulently took from WE THE PEOPLE!
07/13/26	Mike K	46373	X		X		X				Oppose	This is absolutely ridiculous! The Tollway needs oversight to account what they are currently spending per year against what they collect.
07/13/26	Joe	60442			X		X			More policing of roads	Oppose	Illinois needs to stop constant blanket tax increases from Democrats and assess cost improvements/reductions by cutting waste!!!
07/13/26	Bryant mincy	60160			X	X	X				Oppose	The tolls have risen dramatically over the past few years. Honestly every toll collection area has a different toll. I 390 has ridiculous tolls. The state of Illinois continues to tax and increase fees to its population. Where does it end? The tollways are fine. I know they need to be resurfaced but cmon enough is enough. The shrinking population of this state is testament to the ever increasing unavailability it is too live here

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/13/26	zachary wong loi sing	60451	X			X	X				Oppose	Previous projects have not accomplished their economic projections, and additional projects should be tied to economic performance. Toll increases should be tied to each tollway's proposed project cost. (If i355 costs 6.5billion, the rate should go up more than another peoject with less cost) Grouping all of the projects under one proposal appears too ambitious. Previous construction mismanagement led to increased costs. I do not believe the Illinois Tollway has the capacity to manage all of these projects appropriately.
07/13/26	Norman F Spielman	60642	X		X		X				Oppose	Toll increase seems very high.
07/13/26	Jennifer Muehl	62065				X	X			Roads are fine	Oppose	Pay enough in taxes. Roads are fine.
07/13/26	Callan Broos	61073				X	X			Best route and time to destination for a reasonable cost.	Oppose	I understand needing to increase the prices. But would suggest a stepped system over several years rather than a massive hike that nearly doubles every toll I currently use. Add 10 cents to each toll price for the next 5 years. Rather than having several tolls jump from 55 cents to 90 cents in one go. I believe you will loose a several regular drivers with the proposed increase, myself included. I very rarely used the toll road in the DC area because of the cost and unless the toll roads saved me a significant amount of time I took the longer route. I made no sense to pay ~$5 to only save 10-15 minutes. Right now the rates along I90 from South Beloit to Belvidere are reasonable and I don't think twice about using them. With the proposed rate increase I will drastically rethink my stance.
07/13/26	EDUARD ZINGER	60657	X		X		X				Oppose	
07/13/26	Donna Gerczak	61107	X				X			No tolls	Oppose	When tolls were adopted years ago, it was my understanding that it was only to be in place for a set time to finance needed growth. Perhaps Pritzker needs to put this back in his budget. Let’s face it, he is an amazing politician, just ask him! He can fix this too if he is so smart.
07/13/26	David Schmidt	60438	X				X		X		Oppose	
07/13/26	DEBORAH E KEUP	60175	X				X			Speed control/monitoring for the agressive drivers constantly changing lanes	Oppose	Those highways were supposed to be "free" decades ago!
07/13/26	Ericka	60453	X		X		X				Oppose	IL is already getting so much of my money in taxes, this has to stop.
07/13/26	Sean Jones	60452	X			X	X				Oppose	Now is not the time. We're all trying to figure out how to pay continuously increasing property taxes. Please don't hit us again right now
07/13/26	John J. O'Donnell	60103	X		X	X					Oppose	Just be honest; this is a cash grab for union votes and an automatic way to raise taxes. This despite the promise to eliminate tolls over 50 years ago. Illinois democrats have a spending problem and power grabbing mentality. Tolls are generating more money than ever, but more is never enough for our corrupt 'public servants.'
07/13/26	Gerald Allmansberger	60506	X		X		X				Oppose	Everything since the governor has gone up This is not necessary He puts everything on the middle class
07/13/26	Paul A Micek	60124	X				X		X		Oppose	I grew up in a time when a business used their profits to pay for upgrades to their facilities. Com Ed and every business seems to think the taxpayer should pay for their improvements.
07/13/26	Lewis Kitchen	61265	X					X		Higher speed limits	Support	Don't close one lane for 20 miles when you're only working on 1 mile of road at a time. Increase speed limits with tolls. Stop grinding and patching every few years. Build it right the first time.
07/13/26	Steve Stachura	60102	X	X						Closest to my house	Oppose	The tolls have been raised significantly over the past 20 years. Now there are no attendants or toll plazas that are manned. I think it’s time to open up and see how this money is being spent
07/13/26	Matt Lopardo	60525			X	X	X				Oppose	

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/13/26	Stacey DiGrazia	60123	X				X		X		Oppose	The State of Illinois has been collecting toll money since the 1970s and has great reserves that could fund improvements for years to come. I do not support this further "money grab" of taxpayer dollars and definitely am against built-in annual toll increases. Until Governor Pritzker demonstrates fiscal responsibility and produces detailed information as to how the money that has already been collected is being used, the citizens of Illinois should not be subjected to toll increases. Furthermore, the collar counties such as Kane County, where I live, do not have equal vote when it comes to funding public transit for the City of Chicago and the Chicago suburbs. The pending toll increases -- it's no secret -- are mainly designed to help backfill financial shortfalls related to financial mismanagement by Chicago Mayor Brandon Johnson and the Cook County Transit people. Budget shortfalls for the CTA, Metra, and PACE. CTA and Metra need a financial audit and overhaul, while PACE is barely making it financially. The system is horribly broken. Throwing more money at it will not fix the issues. I say, "NO, NO, NO" to the proposal to increase tolls and to tie them to a consumer index for annual increases!
07/13/26	Linda Bachelder	60510	X			X	X				Oppose	
07/13/26	jack napier	60631		X			X		X		Oppose	Why are the toll rates being keep increasing. You have gone to a cashless toll collection because of the Pandemic it hit a t right time. You have reduced personnel in toll booths maintenance people to take care of that infrastructure. You have reduced your human captial overhead no benefits no retirements that need to be paid anymore. This has reduced your costs significantly,. Why are you increasing your costs now just to bloat your budgets,and stick it to the consumer. Why are toll rate attached to the Consumer Price Index it sounds criminal to working people that use the toll road to drive to work and companies that ship goods over the tollway then pass those cost on to consumers that purchase their products. In a state that already has high cost to driving and operating a vehicle due to high insurance rates gas taxes and drivers license fees. This needs to stop. The tollway is no longer a viable transportation option for working people. Shame on you Illinois Tollway. As an average citizen the deal is already done this is just a dog and pony show to make tollway users think you are doing something for them its just a money grab.
07/13/26	John Prehn	60505	X				X		X		Oppose	You charge enough to ride the tollway. The money we all pay to use the tollway should only be used to improve the tollway. No more tollway increases.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/13/26	Joanne Gasienica	60453			X		X			No other way to go.... Convenient for the tollway	Oppose	First, I think it's misguided that you publish these meeting times and places the week they are occurring. Like you are ensuring that you don't receive tte negative feedback these proposed increases deserve. I think the cost increases are out of touch with the economy. Especially since these roads are long since paid for, the tolls should have been removed and the roads maintained by the State. Now let's get to your inaccurate comment about my getting to spend more family time due to the toll roads. Have you really spent any time on 294 in the past 5 years?!?! Commutes have increased by 50-100% since that project began. No decrease at all. In fact it's criminal that you even charge a toll at all given the extra time, congestion and damage the improvement project has caused. I am currently on windshield replacement number 5 due to the stones and debris kicked up. Get me started on the number of days that I have been late to work because of overnight construction not being picked up on time. Instead of these guys getting bonuses for finishing early, they should be fined for the delays too. seeing how my tolls go to improve and maintain the toads, let's talk snow removal. For days prior to snow storms, trucks are sitting by entrances with the workers sleeping on the inside. The snow comes and no one is out plowing cause they were sleeping for dollars for 48 hours before the first flake ever fell. Finally trucks should be charged a higher percentage of toll increases. After all they create the damage, congestion and are not policed as far as their safety and driving habits, you are not getting any benefit from them being there. Funny how the State troopers, I'm paying for with my tolls just drive past the truckers driving in tge left 2 lanes without doing their job. I guess the advantage is a trooper can use the shoulder cracking my windshield with rocks and debris left from construction on his way to get home faster to his family, whereas I cannot and just pay higher price for sitting in traffic. You should be ashamed that this proposal left your lips.
07/13/26	Steve Cerny	60126	X			X	X				Oppose	With a current $1.3 billion surplus between revenue and maintenance costs, the proposed increase is ridiculous. You are trying to double your revenue over 15 years and then keep it thereafter??!! Where is this big surplus that you have had running for the last decade and how is it being used, saved/invested??!!
07/13/26	Paul Robert Gerczak	60601	X		X		X				Oppose	To increase the tolls again will ONLY to continue to drive more citizens to Wisconsin Indiana and other states. Governor Pritzker clearly is out of touch. ADD ANOTHER TOLL INCREASE AND YOU CAN ADD ME TO THE LIST OF EX RESIDENTS WHO USE TO LIVE IN ILLINOIS.
07/13/26	Phaedra McLaughlin	60134			X	X	X				Oppose	
07/13/26	Alexander Johnson	60640			X	X	X				Oppose	We cannot afford any more till increases. Build reliable roads that don't have to be completely rebuilt every couple of years. Many people use these roads every day, going through multiple tolls to get to work. This would amount to thousands of dollars spent by a family just to use the road our taxes fund!
07/13/26	Tom	60067	X			X	X				Oppose	If I believed the funds would go back to the roads, I might consider it. However, I know that the funds will be redirected at some point to the general fund like in the past and go to other wasteful spending by the State of IL
07/13/26	Kristin Strauss	60102			X		X			No tolls	Oppose	Tolls were supposed to be over with years ago. Let's stop this please..... learn from other states without tolls.
07/13/26	Sean	60181	X		X		X				Neutral	For the love of god, stop taxing us
07/13/26	Paul DeBoo	60133	X			X	X				Oppose	Explain how the current fare is being spent. And what you are doing to control your costs.
07/13/26	ND	60096				X	X			Not going through 5 different tolls from WI to Palos Heights.	Oppose	Stop spending money on useless stuff and you might just have the money you need.
07/13/26	Douglas Jones	62951	X			X	X				Oppose	This tollway was supposed to go away when it was paid for. We know that once a Democrat find a reason to tax it never goes away or down it only goes up to hell with the people

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/13/26	Hiram Gomez	60634	X		X					No tolls!	Oppose	A 45 cent per toll increase??? This is outrageous!!! Illinois was supposed to eliminate the toll system decades ago, but instead has turned it into a slush fund. I absolutely oppose any increases whatsoever!!!
07/13/26	Brian Kelly	60463			X		X			Tolls were to be temporary	Oppose	Illinois needs to cut programs where the money is being wasted
07/13/26		60040					X	X	X		Oppose	Toll free by 73!
07/13/26	Brett Sparks	60586	X				X		X		Oppose	I am willing to pay my fair share for government services. Nonetheless, these proposed increses are way too high. A more modest amount, and/or phased in increases over several years would be a lot more managable for working stiifs like me.
07/13/26	John Obirek	60638	X			X			X		Oppose	
07/13/26	Ulices	60652	X			X	X				Oppose	We're already being nickel and dimed for everything how much more does Illinois want??? Might as well take our full paychecks while you guys are at it.
07/13/26	Hormese Vadakkekodavana	60070	X				X		X		Oppose	The proposed increase is high. An increase of 25 cents is reasonable.
07/13/26	Edwina Svita	60164		X			X		X		Oppose	Tolls were supposed to be free after so many years whats up with that? WHY should WE have to pay more tolls . Where is all that help from the lottery? Where is the help from the state? Where did all the money go from Washington? We pay more in gas taxes Where is that going? Seems like we Where blinded sided.
07/13/26	Dunn	61021					X		X	To stop paying for roads that have long been paid for!! No reason you need to take more money from the citizens! Look at other states with no toll roads, figure out how to manage the excessive money already given to this mis-run state!	Oppose	No more rate increase. Learn how to manage the excessive amount of money you already take from Illinois citizens
07/13/26	Jack Brankin	46360	X			X	X				Oppose	crazy expensive at current rates
07/13/26	Jonathan trice	60181	X				X			Proper management of funds and budget	Oppose	The highway system in illinois has been robbed of funds year after year exspense of illinois citizens. We bear the brunt of political robbery and miss management. They are no ownership just kicking the can down the road with higher fees and declining performance. This is the final spike. A huge rate increase that self adjusts with time. This was clearly a copy of the gas tax so politicians dont have risk their political reputation to continuously vote for higher tolls. This money like all the other money will be mismanaged and spent poorly and illinois residents will be left with poor roads and the government will come up with a plan for even higher taxes soon. Strongly opposed to this.
07/13/26	Corina Cirje	60516			X		X			Already maintained and repaired	Oppose	We do not need any more toll increases. The toll should not be increased. Inflation is already a problem and should not add this!
07/13/26		60453	X		X		X				Oppose	The tollway was never the long term option nor answer. Raising the rate is the lazy solution instead of getting creative
07/13/26	Hemal Purohit	60010	X				X			Per Mile toll charge should be very close to a National average.	Oppose	Toll increases do not align with yearly maintenance expenses. It looks like Union related corruption that's driving this. Can someone not challenge this in Court system?? Thank you.
07/13/26	Ryan Coates	60453	X			X	X				Oppose	Stop taking my money

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/13/26	Brian Langeland	60448	X				X			Better designed merges between major highways. It isn't 1982 anymore.	Oppose	No more road taxes! Weren't these tolls supposed to be temporary when the Tollway was first built? Yep. Did you lie about it? Yep. Will you listen to the people who are tired of being robbed just to drive to work? Probably not. Regardless, I strongly oppose this insane increase in cost.
07/13/26	Jim Olowniuk	60543				X	X			NO TOLLS	Oppose	JUST ANOTHER OF STEALING MY MONEY AND GIVING IT TO THE DUCKING ILLEGAL IMMIGRANTS AND THE COCK SUCKING, CORRUPT POLITICIANS !! FUCK YOU
07/13/26	Kathy	60031					X		X	More troopers to reduce the speeding, its getting ridiculous how bad it is	Oppose	Wasn't the tolls supposed to be temporary to pay for building of the toll? I've reduced the amount I drive on it due to people using it like a racetrack.
07/13/26	Dean Ritter	60056	X			X	X				Oppose	Too drastic of increase and indexing tolls to inflation is flat out wrong. Increases should be justified to the voters.
07/13/26	Charles Traugott	60124			X	X	X				Oppose	I'm sorry, but Illinois has become the state of taxes and fees, and it needs to stop. We just received an increase in our Toll Fees to support Mass Transit which I never use. Why we need to pay to subsidize Chicago I don't understand. Rate increases were going to be taken to offset the shortfall and now that they have taxed us and increase Tolls to pay for all their needs, they did not take the promised increase. Now the Toll authority wants to do the same thing by taking an average 45 cent increase and adjust it every 2 years based on the CPI. This must stop as the average consumer in Illinois it being taken advantage of and it must stop. Yes, I want decent roads, but other states are doing it for a lot less. Why does it cost so much in Illinois?
07/13/26	Eric D.	61115	X			X	X				Oppose	This is theft. The tollway already takes in enough money. The plan to increase tolls as a consequence of inflation is a slippery and exploitative decision most citizens are against. Also, people living far north of Chicago should not have to pay for Chicago roads. Tolls should be taken on the basis of where you live. It is the corrupt bureaucracies of this state, fiscally irresponsible, that are the causes of these increases. Look to Wisconsin and do likewise.
07/13/26	Elizabeth Jung	60514			X		X			not costing too much to drive to work	Oppose	People are leaving Illinois in droves. This will add to the cost of everything as it is almost impossible to drive around the Chicagoland area avoiding tollways. The cost to bringing in goods and services will add to the already high living costs.
07/13/26	Dave Frank	60630	X				X		X		Oppose	Start cutting back on spending and start downsizing government. Illinois is one of the most taxed states to begin with. Every year there's a new tax, when does it stop? You wonder why people are leaving Illinois.
07/13/26		60060	X				X			Reducing drive time	Oppose	The toll system is corrupt and should have been ended decades ago. I have intentionally gone out of my way to avoid driving on these roads and giving money to this corrupt system. Unpredictable drive times and poor road conditions are not worth being forced to pay. We need to tax the wealthiest/highest earners and actually use the money appropriately. The gas tax should be adequately leveled to pay for road repairs fairly. The state already disproportionately taxes EV drivers as if we are somehow the problem to this mismanaged system.
07/13/26		60467			X	X	X				Oppose	Dems have no problem raiding funds to pay for transit without a single change, frequency to match low ridership or a fare increase. Why does the tollway get an increase? What barriers are in place to prevent the dems from stealing money from this pot? Since this is getting done regardless, why not a long term increase instead of all at once? All this money isn't needed now. Again a nice piggy bank to steal from again for some other project. Funny how most states can fund their roads but IL can't even with a bloated budget. Stop balancing on the backs of the hark working middle class. Favorite talking point of you dems. I'm sure this is only being done to keep the unions happy, as that's all Springfield really cares about.
07/13/26	Cindy Renouf	60555	X		X		X				Oppose	Stop raising prices! It's fine the way it is
07/13/26	Ronald Staton	60423				X	X			Cost	Oppose	I already pay too much to drive on them as it is. Guaranteed if you raise the toll I'm finding another path.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/13/26	Amar Singhal	60173	X		X		X				Oppose	I strongly oppose the proposed Illinois Tollway rate increase. Middle-class families are already being stretched beyond their limits. The cost of groceries, utilities, insurance, childcare and other basic necessities has increased significantly because of inflation, while many workers have received little or no meaningful salary increase. For many of us, wages have simply not kept pace with the rising cost of living. Families are also facing job insecurity, higher fuel and vehicle-maintenance costs, and increasing property-tax bills. Adding another toll increase will make commuting to work, taking children to school and attending necessary appointments even more expensive. For people who must use the tollway every day, even a seemingly small increase at each toll can add up to hundreds of dollars over the course of a year. The proposed automatic inflation-based toll increases are especially concerning. Families do not receive automatic salary increases every two years, so why should toll rates automatically rise without considering whether residents can afford them? How much more financial burden can an average middle-class family bear? Illinois residents should not be treated as an unlimited source of revenue. Before increasing tolls, the Tollway should reduce unnecessary spending, improve efficiency, prioritize essential projects and explore alternatives that do not place another burden on working families. Please reject or postpone this toll increase and give greater consideration to the financial realities facing Illinois residents.
07/13/26	Steve DeVlieger	60146	X				X			Recurring increases in rates	Oppose	My opinion is that no government entity should have a built in clause to allow for automatic increases based on rates of inflation or other factor. In the future if rates need to increase then Toll Authorities need to bring back to public. Cost are already out of control and will continue to drive citizens out of our great state.
07/13/26	Lola Mann	60641	X		X	X					Oppose	Why not consider a reduced pass for employees that must commute for their jobs?
07/13/26	Jill	60016	X		X		X				Oppose	Learn to manage the funds better instead of continually gouging Illinois residents. The tolls were initially a temporary measure now they are a constant increase and burden to residents, while roads continue to decline and traffic gets worse.
07/13/26	Russ lacefield	60146					X		X	No TOLLS AS PROMISED!!!!!!!	Oppose	Every democrat in this state can kiss my ass
07/13/26	Mike	60421	X				X			Money going in every pocket instead of the roads	Oppose	Fucking thieves! Do your fucking jobs and quit making excuses
07/13/26	Nicholas Strickler	60616	X				X			Maybe somebody should go to Wisconsin and learn from them no tolls and some of the best roads in the world	Oppose	If the state would not use the toll money in the general fund there would be enough money for repairs it's just another way to tax the people of Illinois
07/13/26	Bruce Diamond	60069	X			X				.	Oppose	Perhaps a minimal increase would be appropriate but I feel the proposed 45 cent increase is excessive. What about federal funding or subsidizing?

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/13/26	Kathie	60561	X				X			Why am I being forced to choose "Well maintained roads?" Please "stop" raising tolls. Reduce spending in other areas to cover projects. Illinoisans should be getting lower tolls, not higher tolls.	Oppose	This comment website is forcing me to select "Well maintained roads." I do "not" want to select that. I want Illinois to stop raising tolls and taxes. Please "stop" raising tolls. Reduce spending in other areas to cover projects. Illinoisans should be getting lower tolls, not higher tolls. Illinois taxes and tolls are out of control and have been for decades. Please just "stop" raising everything in Illinois.
07/13/26	John Pillion	61021	X				X		X		Oppose	Raise the tolls on trucks and we just double are rates or avoid Illinois all together . The tolls are to high already . Truckers as a whole will vote for whom ever lowers the tolls or gets rid of them all together . How many business can this state afford to lose .
07/13/26	Javid Mammadov	60630	X	X	X						Oppose	The tolls are already expensive. I am 100% opposed to this proposal!
07/13/26	John Albergo	60646	X				X			Eliminate the Toll Authority	Oppose	What happened ton"Free by '73"? The toll authority should eliminated and the operation taken over by IDOT. We could save millions.
07/13/26	guy desalvo	60646	X			X	X				Oppose	every time rates go up, I use the tollway less (me & everyone else I know)
07/13/26	Glen Nielsen	60174	X		X		X				Oppose	We already have some Of the highest tolls in the country. The tolls were only suppose to be temporary and have continued to stay. I'm strongly against raising toll prices. If they continue to increase I will make it a point to avoid all toll roads even if it takes me longer. This is just a horrible idea.
07/13/26	Dustin Mateling	60103	X		X		X				Oppose	Thieves just like rest of the state of Illinois, go Darren Bailey
07/13/26	Jose Beltran	60463	X				X		X		Oppose	This state is killing us, you think that we are all made out of money everything is increase, increase, increase! Keep doing this and no one's going to afford to drive on your toll roads. Everyone in this state just has to put a gun to my side and hold my wallet hostage shame on you guys
07/13/26	Mark Parcels	60107	X		X		X				Oppose	Being a business owner that has a fleet it is simply unfeasible for me to pay more for more traffic and longer drive times. No matter how much money the state gets it never gets and better just costs more to drive and the roads are still bad and when the do get fixed it takes 5 year to get things done!
07/13/26	Toni Vollmann	60164	X		X		X				Oppose	$0.45 per toll is ridiculous. Maybe if it was .05 or .10 cents it would be fine. You would still make millions.
07/13/26	Paula Di Domenico	60532	X		X		X				Oppose	I understand that periodic toll increases may be necessary to keep pace with inflation. However, many commuters are also struggling with the rising cost of living and can no longer absorb additional expenses. This proposed increase of $0.45 per toll would raise my daily commuting cost from $2.60 to $3.40 and my weekly cost from $13.00 to $17.00. While that may seem like a modest increase in isolation, it adds up significantly over time for regular commuters. For me, the increase changes the cost-benefit calculation. I can avoid the toll road by adding only about five minutes to my commute, and if this rate increase takes effect, that is the option I plan to choose. I suspect many other drivers will make similar decisions, reducing toll road usage rather than paying the higher rates. I encourage the agency to consider the cumulative impact of these increases on working families and to evaluate whether the proposed rate hike may ultimately discourage use of the tollway instead of generating the expected revenue.
07/13/26	Anthony Steinhauer	53527	X			X	X				Oppose	The tolls are already too much. The amount of money made from tolls far exceeds the cost to the roads.
07/13/26	Vidya S Garg	60103	X		X		X				Oppose	Tolls are already too high. They are not affordable even now. If the price goes up I will be taking side roads to avoid expensive tolls.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/13/26	Frank Mowatt	55906-5437				X	X		X		Oppose	I can understand a toll crease but too much at one time. A staggered increase would be best for everyone during these times you can't afford much.
07/13/26	Kimm Sayre	60521	X		X		X				Oppose	Remember “Toll free by 73”? The tollway has not budgeted their funds wisely and can not be trusted to collect more..
07/13/26	Frank R Bauer	60047	X			X	X				Oppose	Chicago area tolls are already among the highest in the nation. They should not need to be increased continuously to fund the tollways. I have lived in the area for over 40 years and don't remember a time the tollways were not under construction. This has made traffic worse rather than better.
07/13/26		60431	X			X	X				Oppose	
07/13/26	randy cirillo	60088		X		X	X				Oppose	discusting .more money+taxes you already screwed up tri state to 90+88 +can"t get on tri state from 90 to tri state for 3 yrs.you d0n"t deserve no increase.the state owe"s me money.ALL YOUR BS IS COSTING MONEY THAT I DON"T HAVE.THE STATE IS ALWAYS STEALING.TIME TO LEAVE ILL.AFTER77YRS
07/13/26	Brad	60126			X	X	X				Oppose	Let’s keep raising tolls for law abiding citizens who don’t get in trouble and have a good driving record. But, let’s not do anything to the Scum who go on police chases through I-Pass toll roads and not discipline them, right. This state is a joke! Plus, construction takes 10-20 years to “complete”. I-294 between Elmhurst - Countryside has been under construction for 20 years. Gotta keep the Mob busy, right?!
07/13/26	Daniel Roberts	60107				X	X		X		Oppose	Please vote no to the toll road hike. The tollways are suppose to be free road ways.
07/13/26	Steve	60561	X		X		X				Oppose	Tolls were suppose to be removed. Now you want to increase toll rates and allow systematic increases to further hurt the pockets IL drivers.
07/13/26	Chris	60095	X		X	X					Oppose	The toll revenue generated from semi trucks and general trailers is far more than enough to pay for complete rebuild of any and all roads in Illlinois. Combine that with the fuel tax, registration tax, and general taxes paid on income the state of Illinois has an abundance of money. Stop wasting it. I oppose this increase!
07/13/26		52807			X	X	X				Oppose	There is way to much congestion near the IL/IN tollway on I-80. At times it is virtually impossible to drive through this stretch. A tollway should allow easy access to the area without waiting for hours. If the toll truly was supposed to end more than 50 years ago then why do we still have it?? Some of the worst roads in IL are in the tollway areas. Obviously money isn't being spent to improve these areas!! All states want money for roads but then never do anything to actually improve the roads. Eliminate the IL tollways!!!
07/13/26	Donna	60544			X	X	X				Oppose	I call bs! The toll roads already pull in millions! Come on where is the money going? Or who's pocket? This is why more and more people are moving out of illinois, tax tax tax tax!
07/13/26	Kathie Andre	60172	X			X	X				Oppose	How about budgeting the money you already collect for tolls? IL is drowning it's residents in taxes already. Enough.
07/13/26	E. Hohrmann	60085	X				X		X		Oppose	This is ridiculous to raise this much at one time. I've spent well over $9,600 in the last 19 years on tolls. I have seen from Lake Cook rd to the WI boarder improved ONCE.
07/13/26	Carol Cunningham	60543	X				X			I can’t afford to drive in Illinois. My property taxes AND tollway charges make it unmanageable!	Oppose	Ridiculous! If the money was managed well, there would not need to be a hike, much less double!
07/13/26	Robert Romano	60532	X		X		X				Oppose	Tolls are already too expensive. Don’t raise the toll rates.
07/13/26	Dave	60453			X	X				NO TOLLS As Promised Many Years Ago	Oppose	Tolls were supposed to have been STOPPED Years ago if the government would quit wasting out money they would have stopped Other note is Do ALL tolls Go to the tollway or are we funding other things LIKE ILLGALS LAZY PEOPLE PLAYING THE SYSTEM AND CHEESEBURGERS FOR PORKY PIG
07/13/26	Aatish Khindri	53221	X			X	X				Neutral	

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/13/26	Jean Miller	60068				X	X			less traffic interruptions due to constant construction and reroutings.	Oppose	It is getting too expensive to drive the tollway. With all the construction these past 5 years on the tollway. I have wasted a lot of gas money sitting in traffic jams as a result of the construction. You need to into consideration when you hike the tolls that the drivers are also paying more in gas costs when sitting in traffic and the continued wear and tear on our cars as a result of continuous braking due to traffic congetion.
07/13/26	beverly garczynski	60544	X			X				na	Oppose	I cannot afford your tolls today. My impression is that your orginization just throws away toll dollars on wasteful projects. For example: the immense tollbooth at I-355 in Lockport with the overhead walkway. It was obsolete when it opened. Please be more fiscally responsible with your toll money. Frankly I avoid the toll roads because i cannot (and will not) pay my good money to pay for silly stuff. I will take the side streets thank you before i give you any additional toll revenue.
07/13/26	Simone Garcia	60641	X				X			only answering to fill the required checks	Oppose	You don't need to spur any further economic development, the road is used as intended and should only cost what is needed to run. show line item costs and then charge fees only based on that. If you're dong more, you're outside your mandate.
07/13/26	Pete KOULOUMBAS	60707			X	X	X				Oppose	Do what you have to do.I'll stop driving the toll road!
07/13/26	Barbara Rook	60463	X				X			Connections to my family	Oppose	I am a senior on Social Security and have been paying for Illinois toll riads my whole life. These roads should have become free when they were paid off, many years ago. Your increase is stealing from the people who have already paid for it many times over. Cancel all increases!
07/13/26	John Talbot	60446				X	X			Means of bypassing slower local traffic routes.	Oppose	This proposed increase would add undue financial burden at a time when citizens' incomes are not matching increases in taxation, cost-of-living and price inflation. Higher tolls will reduce my tollway usage, and increase my time spent driving local routes, and also reducie mileage efficiency and increase vehicle wear. Based on these factors, I oppose proposals to increase tollway fares, as they would continue Illinois' trending toward untenable cost-of-living.
07/13/26	Lora Olson	60115	X			X	X				Oppose	No thanks. I'll take the back roads - cheaper and less traffic!
07/13/26	Joe jogmen	60453	X		X		X				Oppose	I pay 4 tolls daily to get to work and 4 tolls home. I shouldn't be pay almost $10 to get to work. Especially when the funding is not going to only the toll road which is what it was designed for
07/13/26	Susan Luna	60140					X	X		Lower tolls	Oppose	The rates are unaffordable for most people drivers Going to work ECT. You should be reducing the rates. Now making it inconvenient to have to avoid the tollway. That's not help. It's a crime.
07/13/26	Lillian Darowicz	60453	X		X		X				Oppose	
07/13/26	Mrs. Lewis	60652		X	X		X				Oppose	This cost increase should only apply to drivers that use the toll roads on a daily basis.
07/13/26	IgotAway	46383					X	X		I avoid your crap state with your crap governor and all your crime as much as possible so my goal is to get out alive and not be robbed by your commie leaders or your criminals. Does that help?	Oppose	see above
07/13/26	Sue Freese	60656-2214	X				X		X		Oppose	I oppose the rate hike, as it seems we already pay enough. The tollway will NEVER stop collecting tolls! It seems to me when you do repairs, such as on 294, it should be done in an organized manner. The road was just finished when it was torn up again. Better planning seems to be needed. It also should be less to drive on the roads since everything is done on I-Pass, not with humans in booths. Make long term plans to avoid drivers never being out of a construction zone. I feel a toll increase during these times is unfair and unnecessary.
07/13/26	Sharon Ausec	60436			X	X	X				Oppose	We have had enough taxes on taxes and raise in rates!!! This is crazy!
07/13/26		60559	X			X	X				Oppose	Tolls were never meant to be permanent. Find another way to fund your project!

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/13/26	Lena Turek	60516	X	X		X					Support	As a member of Local 150, I support the Driving Connections Program because it creates jobs, supports apprenticeship opportunities, and helps maintain the infrastructure that keeps Illinois moving.
07/13/26	Jen Harper	60187			X	X	X				Oppose	Try to figure out how to do this by using the current toll rate wisely instead of asking for more!!!!!!!!!!!
07/13/26	Mark Menzies	60142	X			X	X				Oppose	Stop raising the tolls. I already can't afford to get to work. We need to vote in a new governor that doesn't keep raising the tolls!!
07/13/26	Ray Brandt	61080	X			X	X				Oppose	In illinois we pay some of the highest tax rates in the country. Increasing the toll will add almost 4$ to every trip chicago to see our kids. Enough is enough
07/13/26	Timothy Mulvey	60513				X	X			Accounting for the costs	Oppose	The Tollway cost were to be temporary, we have paid so much money yet it gets diverted for other things. Another reason to leave Illinois.
07/13/26	Rachel Wilson	60107		X			X			Most direct route to work	Oppose	It is bad enough I have to pay to use the road just to get to my job. With inflation and our terrible economy you can't be serious about such a high increase. We have been told many times the tollway would be funded by other means. Keep the rate increase reasonable if you must increase it. Please consider the average American who is really struggling. People will avoid the tollway with this increase and then the tollway will end up with less money anyways.
07/13/26	Ron Smith	60510	X				X		X		Oppose	Toll increases should not be automatically increased every 2 years, especially when the tollway takes in more than it spends
07/13/26	JM	60443	X				X	X			Oppose	The Toll Roads are already outrageously expensive, there is always debris on the road and shoulder - traffic is terrible, construction projects are long and slow. Where exactly is our current money going? Salaries are currently 23-27% higher than average salaries for those roles. Per opengovpay.com and govsalaries.com
07/13/26	mark garczynski	60544	X		X		X				Oppose	We have been promised that the toll is temporary . It was suppose to disappear 35 years ago . The only thing that disappeared was affordability and toll booth employee's .
07/13/26	Kathleen Davenport	60053			X	X	X				Oppose	Are you kidding? Me Illinois is bankrupt. We are second in the state between property taxes and this kind of BS. They have been working on roads as long as I can remember and I am 62 years old. I think you're wrong. It's not billions you're taking in its trillions you guys work on the same road for years and years and years. It's BS. We are the second state in this country with the highest everything property taxes tolls vehicle stickers you name it we have it. Our governor sucks too.
07/13/26	Ken	60124	X			X	X				Oppose	This toll increase is excessive, especially during this time of increased inflation, gas prices, and significant financial distress for the majority of our residents. This will cause many people to avoid using the Toll Roads altogether. It seems to be ignoring the financial pressures of everyday Illinoisans, and makes it feel like politicians are ignoring the needs of the people.
07/13/26	Carol Skarlat	60047	X		X		X				Oppose	Illinois residents are taxed too much
07/13/26	Peter Langerock	53051	X			X	X				Oppose	Tolls are already oppressively high. Designed and implemented to be temporary!
07/13/26	Joanie Brandt	61080	X			X	X				Oppose	A 50% increase is not acceptable. You need to reduce taxes elsewhere if you want additional tolls
07/13/26	Kyle Tomasevich	60417	X		X		X				Oppose	294 has been under construction since I've been driving 27 years ago. The rest of the roads are horrible, better planning, conservative approach would be better
07/13/26	Duane	60516	X		X		X				Support	
07/13/26	Cris Johansen	60014		X			X			Affordability	Oppose	This is a terrible survey as all the factors in question one, except affordability, will be used to justify an increase. We can't even rank the factors! The Illinois Tollway System has collected more in tolls each year since 1973 than it needed to operate and maintain the system. It was supposed to be free by 1973! The Tollway System doesn't have a revenue problem, it has a spending/stewardship problem!
07/13/26	Ahmad Anbari	60527	X		X		X				Oppose	Gas prices are high, car costs are high and salaries are not increasing equivalently. We really cannot handle tollway price increase especially that we use this system a lot.
07/13/26	Eric Meschewski	60192	X			X			X		Neutral	

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/13/26	Danielle Lohrentz	60030	X				X			Hassle-free and easy online payment system	Oppose	The first thing that needs to be addressed is the online payment system. The e-mail verification that the system sends to the customer in order to complete account set-up takes too long to receive (time-consuming hassle). It's impossible for drivers to write down what tollway you are passing when you are driving (safety issue) unless you have a passenger to do so. 14 days is not long enough time-frame to allow drivers to make payments (30 days would allow more people to make on-time payments). The online payment program needs to be renovated and technology updated so when your license plate goes through the toll, it is automatically uploaded into the system accounting for every toll passed so that way a customer can type in their license plate (and maybe address for verification) and the system will automatically produce a list of every toll they owe for with an option to "pay now". Simple and easy for customers. The current level of difficulty for paying tolls online is unfair to customers and very much a scam so you can collect more money in late fees.
07/13/26	Dan Young	46307	X			X	X				Oppose	Tolls should only increase proportionally to local wage increases. Additional work is not going to stop accidents from causing several hour delays even with more lanes or better merges. Rush hour will still be horrendous due to the sheer number of commuters pulling dangerous maneuvers. Public driving education needs improved before we talk about draining more money from the working class.
07/13/26	Jeff Schenk	60403	X				X			Let's keep it affordable!!!!!!!!! B	Oppose	You are making it so we can't afford to even go to work. Stop taxing us out of this state.
07/13/26	william jurkowski	60189	X			X	X				Oppose	I favor a moderate toll increase not to exceed $.25/toll. I do not favor any additional ramps, lighted areas, rest stops or other amenities beyond what are already in place. Just maintain to roads you have. An extension into Ohare from the west would only be welcome if it integrated smoothly with existing parking and airport infrastructure.
07/13/26	Jim Borst	60185	X		X		X				Oppose	No comment on the
07/13/26	Saul Rodriguez	60031	X		X					I support the Driving Connections Program because it creates jobs,	Support	I support the Driving Connections Program because it creates jobs,
07/13/26	Cathleen Fitzsimons	60657	X			X	X				Oppose	As a retiree with limited income I feel this is too much of an increase. With higher gas prices and increased tolls it will be difficult to visit family and friends or go on short road trips. Perhaps you could institute a senior rate fee. I'm afraid this increase will only isolate older drivers who can't handle the increase.
07/13/26	Julia Ferm	60451	X			X	X				Oppose	Will there be a guarantee finish date with complete construction ? It's hard to be on board for more road construction when we are presently dealing with construction and traffic.
07/13/26	M. Peterson	60558		X	X		X				Oppose	45 cents is excessive - 10-15 cents is more reasonable. I strenuously object to automatic rate hikes every other year based on the CPI index. It should go through the normal process when a rate hike is recommended - not automatic as it that takes it away from public scrutiny.
07/13/26	Ed	60447			X		X			Less illegal people in the sanctuary state fixes traffic and affordability	Oppose	Tolls were supposed to be temporary Everything illinois does continues to cost those who live here more and we are fed up with the taxes. Democrats and Pritzker ruin everything they see. Get rid of the illegals to free up resources that we already overpay for.
07/13/26	NICOLE M KEELING	46360			X	X	X				Oppose	we're already broke and poor and you want more money from us!!?!? You're insane! Let the price go up we will avoid every single toll possible. Asinine and ridiculous.
07/13/26	STEVE BOEHME	53076	X				X	X			Oppose	Youd have to be a fool to beleive the BS youre pushing. You bring in so much money from the tollway that the streets should be paved in gold. Youre nothing but corrupt garbage politicians.
07/13/26		60540	X		X	X					Oppose	We pay enough in property taxes the state should not need more of our money
07/13/26		60137	X		X		X				Oppose	
07/13/26	Barbara	60563			X		X			Affordability again.	Oppose	Review the budget before increasing tolls on the people. We pay the highest taxes in the state. You're pushing Illinoians out of this state.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/13/26	Jordan G Blume	61073				X	X			Safer than two lane highways	Oppose	The cost to operate a commercial vehicle on the toll roads is financially ruining local trucking companies. The proposed increase will put a strain on local driving jobs and make it harder for Illinois Trucking companies to survive.
07/13/26	Greg Wood	60119				X	X			Less taxes	Oppose	Shove this proposal up your ass
07/13/26	Abraham Chae	60440			X	X	X				Oppose	The almost $2,000,000,000 in revenue you already generate isn't enough? Wasn't the toll system supposed to be temporary? This is highway robbery in the most literal sense.
07/13/26	Jennifer	60157			X		X			having more police actually enforce speed limits	Oppose	The tollway was supposed to be a temporary and the gas tax was supposed to fund maintenance. Obviously once you start feeding the machine, there is no going back, just wanting more and more and more. when will there ever be a decrease?
07/13/26	Steve Bodie	60449	X			X	X				Oppose	Tolls are too high now.
07/13/26	Melissa Faillo	60110	X		X		X				Oppose	Tolls have steadily increased exponentially and the roadways are still in terrible shape. Illinois is one of the most outrageous places in terms of the money the drivers have to spend to travel. Illinois leadership is terrible and wastes tax payer money. Enough is enough
07/13/26	Bob	60503		X	X		X				Oppose	Toll roads were supposed to be eliminated already.
07/13/26	Roger Zimmermann	60542	X		X	X					Oppose	The tollway was initially sold to Illinois residents as self sustaining after a period of time. Stop needlessly expanding the system and actually allow it to be self sustaining as it was promised.
07/13/26	Andre Lacy	60112	X				X			Cost	Oppose	
07/13/26	Dolla Dawson	60616	X		X				X		Support	I like our open toll roads concept. The increase is worth it.
07/13/26	Charles Janny	60546			X		X			No tolls	Oppose	NO! TOO MANY TOLLS ALREADY TO EXPENSIVE
07/13/26	Jim Beck	60195	X			X	X				Oppose	There appears to be duplication for some of the items, such as ITS improvements as part of the individual projects and the Programwide projects, and certain projections that include bridge reconstruction and also have a separate project for bridge reconstruction that overlaps the other project(s). For the I90 eastbound to I90/IL53 exit, change the exit lane configuration so the traffic going north on I90/IL53 is not impacted by the traffic going south, which currently has a much longer backup. A 40 cent per toll increase is a big jump. Considering COLA increases every other year will be part of the plan, set the initial increase for January 2027 lower, like 20 cents per toll. How much of the CORE initiative costs can be paid by the agency that wants the connectivity or enhancement? Have the state, county, or municipality pay more of the cost if they want it. STOP building new roadways as toll roads, like I490! Let federal and state money build the roadways as part of the interstate system.
07/13/26	Dan Burger	60139	X				X			Tolls for Travel Trailers are excessive to the point of literally highway robbery.	Oppose	I was appalled to see that pulling a travel trailer makes me a financial target in Illinois. It is shameful to punish a retired elderly person like myself trying to save money by using a Travel trailer instead of hotels only to lose those savings to the government. I'm on a fixed income. Shame on you.
07/13/26	Bruce	60560		X	X		X				Oppose	Enough with all these increases we can't afford it isn't gas tax toward roads
07/13/26	Lisa Nijm	60190	X			X	X				Oppose	Ridiculous to keep increasing what we pay for tolls. Stop taxing us!
07/13/26	Linda	60914	X			X	X				Oppose	Until the work on 294 is complete, I do not feel it's right to charge me more to sit in traffic between 290 and 55 EVERY DAY!!! Especially since this work began during COID so many years ago. Finish the work already!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!
07/13/26	Tom	60004	X				X			No more expansion	Oppose	No more expansions. Just maintenance.
07/13/26	John E Jones	46975	X		X					Reasonable toll rates	Oppose	I travel the Illinois Toll Roads frequently. I like traveling the Skyway, except, it's rather high-priced! Furthermore, it's v-e-r-y bumpy. I should be paid for traveling on the Skyway due to the poor road quality. Additionally, there always seem to be a malfunctioning gate or two. I-294 is always in a state of repairs. We shouldn't have to pay tolls when there is construction on the toll road. In other words, what am I paying for?
07/13/26	Scott	60007	X		X		X				Oppose	This state is too expensive already and roads are garbage.
07/13/26	Moutz M Slim	60607	X	X	X						Neutral	I don't have anything to add. However, the only thing I would say that usually the tollways are clean and fast which is nice. Keep up the good work.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/13/26	Sandra Hardesty	60706	X				X			Most important is Affordability which this is not!	Oppose	Illinois legislators assume every driver can afford more than someone taking public transportation. This is not the case. Raise the fares for public transportation also as drivers are already paying a high tax just put gas in their cars. Not to mention, where is the $$ that the tolls are already taking in? This is supposed to already be covering road maintenance etc. There seems to be no transparency in IL for all the taxes we ALREADY pay, now you want to raise them on a state already struggling. Kill the bloat in government, raise public trans fares and leave the drivers alone!
07/13/26	Edmund S Kulik	46311			X		X		X		Oppose	Raising rates will cut the traffic all by itself. Why bother with the repairs? LOL
07/13/26	John Patti	60631		X	X					Direction	Oppose	I am 100% against another Illinois boondoggle. This is another example of sacking the people who run the state into the ground. You will be forcing people to find another state way to get to their destination without having to pay an increased toll. This is unnecessary and wasteful.
07/13/26	Frank Balzano	60402	X		X		X				Oppose	The roads are not getting better. Still potholes are numerous and take too long to fill. We are not getting less traffic jams. More lanes don't mean less traffic jams. I am against any toll increase.
07/13/26	Sl	60445			X		X			No price increases	Oppose	
07/13/26	Brian	Lovejoy	X			X	X				Oppose	Let's look at all the efficiencies that can be gained before we go back into the pockets of the taxpayers. You've also gone to a cashless system which should be saving millions of dollars. But nobody ever talks about that. The toll system was originally intended for a specific amount of time. We have far exceeded that. Tax the WEALTHY!!!
07/13/26	August C Vivirito	60175	X		X		X				Oppose	I think to even purpose a 30% increase at this time is insane. Especially with inflation, the cost of living and gas prices on the rise the timing could not be much worse and just reflects how out of touch our State is out of touch with the people of Illinois. This will only help to accelerate the loss of businesses and population to other more affordable states. Why don't we fund by lowering our Gas or other excessive Taxes.
07/13/26	Me	61113					X	X		Less charges for drivers.	Oppose	What happened to all the money from firing all the toll workers? Can't you just do a budget switch with that earned money in the state of illinois? What's the proposal, putting in bikes lanes on the highway? It wouldn't surprise me one bit the way people are making unintelligent road decisions lately . .
07/13/26	Bill Russin	60020				X	X			Too expensive	Oppose	The tollway was supposed to be toll free after it was paid off... you jokers have turned it into a nightmare (like everything else in Illinois)
07/13/26	Erick Liban	53227			X		X			NA	Oppose	You are going to raise the tolls under the guise of needing funds to work on the tollway but once the construction is done the tolls WON'T decrease will they?
07/13/26	Danny Byrne	60630			X	X	X				Oppose	Stop gouging us for money. Take it out of the Governor and Chicago Mayor's salaries.
07/13/26	Paul Green	60181	X				X			We pay enough in taxes and tolls.number 1 in the u.s.	Oppose	We pay enough.quit spending money on slush funds
07/13/26	Daniel Skierkiewicz	60157	X	X			X				Oppose	I would like to see current revenues used to clean the debris of the roads, regulate speeding and reckless driving. $500 dollars to get a new windshield from all the rocks hits that finally broke it, kicked up from all the trucks and gravel on the highways. Driving has become a death sport. Lane splitting, passing on shoulders, speeding, and tail gating is rampant. Stop building new roads and take care of the current ones already built. My property taxes and income taxes are at horrendous levels and now you want more money to use the roads that I am already paying tolls on. Let's start taxing the businesses who are ruining the roads instead of the everyday citizen.
07/13/26	Travis Cotner	60140			X	X	X				Oppose	We already pay for roads to be fixed in Illinois from the gas tax. Since they doubled rates this past January, i take the tollway once a day instead of both ways so it doesn't cost any more. Raise the rates and ill completely stop using them.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/13/26	John	60007	X		X		X				Oppose	To Whom It May Concern, I am writing to express my opposition to the proposed Illinois Tollway toll increase. As a frequent Tollway user, I am concerned that this proposal would place an additional financial burden on working families and commuters who rely on these roads every day. Many Illinois residents are already facing rising costs for housing, groceries, fuel, and insurance. Increasing tolls would make daily travel even more expensive. I also have concerns about the proposal to implement automatic inflation-based toll increases in the future. Significant fee increases should be reviewed individually with public input rather than occurring automatically. Before asking drivers to pay more, I encourage the Illinois Tollway to continue seeking ways to improve efficiency, reduce unnecessary spending, and ensure that existing funds are being used as effectively as possible. I support maintaining safe and reliable roads, but I believe the Tollway should explore alternative funding options that minimize the impact on commuters and businesses. Thank you for considering my comments.
07/13/26	Gary Goldblatt	60060	X		X		X				Oppose	There is no evidence that these funds actually go toward the road projects
07/13/26	Joe	60048	X				X	X			Oppose	Manage your money better. Tolls are already prohibitively high. Lower Tolls. No new toll rate increase!!!!! Tax the wealthy instead.
07/13/26	Karly Gurtatowski	60439	X		X		X				Oppose	There is no reason to continue constant construction on all highways. At a time when everything is costing more, (energy, food, etc.) the American people cannot take any more. Stop all the work for now. Finish the projects you have. We can't keep financially struggling for corporations to thrive.
07/13/26	Tony Gordon	60069					X		X	Safety	Oppose	Tolls are already very expensive. I have to live within my means, so should the Illinois Tollway. Seems like there is never ending construction. So tired of it.
07/13/26	Terry Fabing	60175	X			X	X				Oppose	
07/13/26		60555	X		X		X				Oppose	Tolls are ridiculous. More cars on the roads should mean you don't need to raise rates. You have tolls that I pass that are 2 dollars each. That's a joke.
07/13/26	Toska Moore	60620				X	X			I dont use it because I can't afford to	Oppose	We are being taxed every way possible give us a break
07/13/26	Guillermo Perez	60112	X			X	X				Oppose	Hard no. The state takes too much of our money as it is and now you want to increase tolls? This will have downstream impact on goods and services that use these tollways. Prices will be passed onto the consumer in a time where things are already too expensive. Absolutely rediculous.
07/13/26	Cathy Crespo	60156	X	X			X				Oppose	
07/13/26	Olivia Schifeling	60304					X		X	I stretched to find 2.	Oppose	You already make plenty of money at the current rate. Setting a rate increase tied to inflation is just another way to take in more money.
07/13/26	ALEX GAIDAMAK	60061	X				X	X			Oppose	I oppose the toll hike. Look at the Milwaukee roads - they are in perfect shape, and they are building more. Not a single tollway! I feel that the IL Tollway collects enough money for maintenance and construction. Perhaps you need to reduce spending on your board of directors, offices, and inefficient management. Sincerely, Alex Gaidamak

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/13/26	Harry Peters	53181	X				X		X		Oppose	COLA every 2 years is not appropriate. The fees generated should be more than enough to pay for current operations and provide funding for "needed" projects. I haven't researched what Federal $'s the IL Tollway receives but I am thinking it is a lot. I lived in Oak Brook IL and now live in Wisconsin and use the Tollway regularly. WIsconsin doe NOT have tolls on our Interstate Roads and they are in great shape and projects seems to end quickly... wonder why? Also why does IL have so many miles of Interstate? CA is a much bigger and has no tolls! While 94% of the Interstate Highway System is toll-free, about 2,900 miles include tolls, mostly in the Northeast and Midwest. Major toll interstates include I-90 (NY, OH, IN, IL), I-95 (ME to MD), and I-76 (PA Turnpike). Illinois | 24 active routes | 2,203.42 mi. I-24, I-39, I-41, I-55, I-57, I-64, I-70, I-72, I-74, I-80, I-88, I-90, I-94 I-155, I-255, I-355, I-270, I-172, I-474, I-180, I-280, I-190, I-290, I-490, I-294, I-494 California | 25 active routes | 2,455.74 mi. I-5, I-8, I-10, I-15, I-40, I-80 I-105, I-205, I-305, I-405, I-505, I-605, I-805, I-905, I-110, I-210, I-710, I-215, I-238, I-280, I-380, I-480, I-580, I-680, I-780, I-880, I-980
07/13/26	Gerald Bernson	60477	X				X			road rage drivers Not enough State Police	Oppose	I am vehemently opposed to the increase you are proposing Us Senior Citizens and Veterans do not receive Social Security Increases or wage increases like some of the public does. You should be able to provide senior citizen or veterans tollway sticker that is less than your proposed tollway rate increases Since my property taxes don't seem to be going down and the economy doesn'tseem to be going down why do you want to raise rates on people that can't afford it. Quit going after people that can't afford your tollway increases Increase the out of state drivers or the Commercial Drivers The people inb Illinois already pay to much and receive to little
07/13/26	Michael Ruff	60456			X		X	X			Oppose	This request is asking to much from drivers of the tollways. The tollway authority should request as much lesser amount of a 15 cent increase for passenger vehicals.
07/13/26	Jane	60062	X		X		X				Oppose	In no way do I support raising the toll fees. Illinois continues to raise fees and taxes and it is unfair to the residents. Our toll ways are currently extremely expensive and when given the opportunity I do not drive on them for that reason. Do not raise our tolls again!!!
07/13/26		60439			X	X	X				Oppose	Provide the public with a third party audit of finances before asking us to pay more money.
07/13/26	Staci Everaert	60517	X			X	X				Oppose	I have to use the tollway to commute for my job. If the rate goes up 45 cents every toll for consumers, I will have to quit my job. I will have to look for new one due to not being able to afford to travel to and from it. In this job market that will be difficult, stressful, and put financial strain on my family.
07/13/26	daniel kocinski	60438		X			X		X		Oppose	So you are basically going to double the tolls and where would these improvements come from? You already widen it from 95th street north on 294 and has it helped?
07/13/26	Olivia Schifeling	60304					X		X	I stretched to find 2 reason.	Oppose	
07/13/26	jim	60048	X			X	X				Oppose	10% increase is ok, not 30%!
07/13/26	Daniel Nelson	61064	X		X		X				Oppose	Toll money seems to go to Chicago for updates lower is left out Understood when it was built it was to be self efficient Not bleed us with tolls
07/13/26	Lauren Lundberg	61107	X		X		X				Oppose	This is one of the many reasons people leave Illinois. All this state does is suck more and more money out of its residents through things like road tolls, property taxes, etc. Take a hint from other states that get the job done without increasing costs on its residents.
07/13/26	Kris Deyne	60119		X	X		X				Oppose	It's already very expensive, so I guess I will be taking the street and have a longer commute. It's unaffordable for my family

2026 Illinois Tollway Proposed Rate Increase

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/13/26	Ben Redding	60102	X	X		X					Support	The Illinois Tollway, like every major highway system in Illinois, requires ongoing maintenance and capacity improvements to continue providing the level of service travelers expect. At the same time, there is a desire for greater connectivity and access throughout the region. The proposed toll increase creates an opportunity to address some of these needs, but not all of them. For example, the I-90/IL 53 interchange is only identified for future study and implementation, and no new Tollway corridors or major extensions are currently planned. While significant investments are proposed to improve the existing system, funding remains insufficient to support major system expansion that could relieve congestion on non-Tollway routes. In that sense, the toll increase represents a compromise. The additional revenue is intended to support some ongoing maintenance and targeted capacity improvements, but not at a level that would fund expansion of the network. If the increase is only enough to maintain and modestly improve the existing system, it raises concerns about how little the Tollway would be able to accomplish if tolls were not increased at all.
07/13/26	Mark Benson	60192	X		X		X				Neutral	I support an increase, but would like to see more transparency around the funds being collected and future funds required to maintain (and prudently update/expand) certain sections of the tollway. The CPI proposal seems to not be in line with my above statements, so I would oppose that without further discussions and/or ability to adjust if needed.
07/13/26	Petar Milovanovic	60025					X		X	Corruption	Oppose	Just because you "communicate" something it doesn't make it more palatable. Raising prices [taxes by any other name] on us in order to keep funding what is quantifiably the most corrupt state by some margin is both contemptible and sad. Contempt for the way you waste our money through discriminatory hiring practices, opaque budget and general mismanagement of public resources. Sad in the amount of time that the democrats have been in absolute power of our state and only used it to broadcast ineptitude, corruption and hubris. All of which is only outdone by the torrent of petulant excuses like racism and thinly veiled threats against those who point it out. You have ultimate power that's why you're ultimately corrupted.
07/13/26	Gary Downing	61109-4609	X			X		X			Oppose	Pay to much already in toll, gas, and road maintenance fee that do nothing for the system but make politicians pockets fuller
07/13/26	Martin Anderson	60118	X		X					A faster route to destination	Oppose	The proposed toll increases surely seem excessive and the automatic increases are also a sneaky way to perpetuate increased funding. Funding for maintenance of facilities and operations need not be at the same level as funding for new construction. Tollway should examine where to trim operating costs, reduce consultants supervising other consultants etc.
07/13/26	Kevin	46038	X		X		X				Oppose	
07/13/26	Daniel Christus	60076					X		X	Ripping out all means of collecting tolls.	Oppose	This is bull crap. The tolls were supposed to have ended when the original bonds were paid off. That has not happened. This is just another tax on the motorist. And the irony is that half of the increased tolls collected are going to go to public transit. So that you don’t have to fire any conductors or pull out any train cars, despite the fact that train ridership is way down now that nobody wants to go into the city of Chicago. It is a scam to require motorists to subsidize those who are not motorists. But not surprising in this leftist, poorly governed state.
07/13/26	Karly Gurtatowski	60439	X		X		X				Oppose	I’m not sure if my comment went through as it didn’t complete the cycle. Adding more entrances and exits will only further congestion. Contruction needs to stop for a while. The public can’t take anymore costs right now.
07/13/26	John Schefke	60098	X		X		X				Oppose	The tolls are high enough for trucks. Start outsourcing repairs and maintenance. It is ridiculous the amount of trucks and man power they send out for little maintenance. The brand new roads still are not in the best shape. Approaches and departures from bridge decks are terrible yet we keep paying the contractors doing the work. I would love to take someone for a ride in a dump truck on our tolls and see how they still are not smooth roads. Start cutting spending and stop increasing the cost of the roads.
07/13/26	Roger Bottens	60416			X	X	X				Oppose	You're not spending all the money now to maintain roads, just like our state. Money for roads given to cta to bail out stupidity. Illinois, a terrible state to live in!

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/13/26	Nick Baldwin	60622	X		X		X				Oppose	Stop raising my taxes
07/13/26	samantha van buren	60056	X		X					Safety -there is so much speeding and dangerous driving	Oppose	I oppose anymore tax increases in IL. My community already had referendums for elementary school and park district and NOW the high school district wants more money. Some of us elementary teachers and paraprofessionals have to work IN PERSON. Driving is not a choice and we are taxed the most. How about a tax for all the people with white collar jobs who get to work from home with Amazon deliveries. My biggest concern is the safety. There is no traffic enforcement and constant car crashes and erratic driving.
07/13/26		60108	X	X			X				Oppose	I strongly oppose this new tax increase. Illinois is listed as one of the highest rated property taxes, highest overall tax burden on families, and is the one of nation's highest corporate and sales taxes within the nation. And now you want to increase taxes for driving and for tolls? We have a governor and a Mayor that get paid extremely well and yet everyone within Illinois suffers from the never-ending tax increase by politicians that don't know what the hell they're doing. We are a poorly run state and this further shows the ignorance as well as the incompetence and greediness of our governing leaders with a proposed new tax increase. Other states make fun of us by simply stating that if it was allowed, our state would try taxing the air that we breathe. I strongly strongly strongly oppose this.
07/13/26	Kayla Rodebaugh	61060				X	X	X			Oppose	I would like to see additional forms of transportation researched like the Metra or Amtrak stops that would go from Chicago to Dubuque. I realize we have an aging road and bridge infrastructure but aren't there any other alternatives that don't put the costs on the middle class in an already inflation heavy economy? People are already struggling and this is just one more thing they are losing. Soon you will lose people to other states.
07/13/26	N. Taylor	60013	X				X		X		Oppose	The tolls were supposed to be temporary....now there is yet another significant increase proposed. This will cause people to use more backroads to save money. We are taxed enough as it is.
07/13/26	Chris Clayton	61704	X			X	X				Oppose	The Illinois gas tax (near the highest in thr country) was implemented with the sole focus to reinvest in road maintenance, how is it possible over 0.50 cents per gallon that additinal tolls should be raised to pay for this work. The road fund has grown over 14% years over year, yet road spending has only grown roughly 5%. I do not support increasing another tax (tolls) when a solution was put in place with the motor tax yet IL is choosing not to use the funds. Do better IL on being fiscally responsible vs passing all the problems to consumers to pay for.
07/13/26	Kurt G Schneider	53142	X				X			more public restrooms	Oppose	I would prefer no increase in tollway fares as i am on a fixed income and affordability is my biggest concern.
07/13/26	Mike McGowan	60441			X		X			Less construction holding up traffic since the projects take years upon years as they sit with no work being done.	Oppose	How about looking at the per-pound rate for tolls. Regular vehicles are paying substantially more per pound then commercial. It looks all pretty and such that commercial vehicles are charged more but when you look at the per-pound rate they are paying pennies compared to everyday drivers. It is the commercial vehicles that cause traffic delays and excessive wear and tear on the roads. They need to pay their fair share. Also, how about bids to do overnight construction like other states. Stop these decade-long repair jobs that you just seem to restart as soon as they finish.
07/13/26	Rose Wehner	60613	X					X	X		Support	I support the increase as long as a sizable portion of the increase goes to public transportation.
07/13/26	Robert johnson	60107	X		X		X				Oppose	When will the State of Illinois stop taxing the residents to death? I can remember way back that tolls were supposed to go away not increasing.you want more money but over the years the roads in Illinois are some of the WORST!
07/13/26	Kris Kreutzmann	53051	X		X	X					Oppose	Using the "No Toll" feature I no the driving apps is looking much better! You are going to increase the traffic on surface roads!
07/13/26	Carl Spangenberg	53092	X		X		X				Oppose	I am not against maintaining the system. I just don't see how the proposed rate hikes will help anyone. What is the payback? How will the project benefit small businesses if commercial rates go up 30%? Won't that result in higher point to point trucking costs?
07/13/26	Donna OBrien	60067	X			X	X				Oppose	Sounds like a very large increase. Too big of an increase at one time. Please lower the amount of increase for each toll to .20 or .25 cents.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/13/26	Roel Esparza	60134	X		X		X				Oppose	I am concerned about the proposed Driving Connections capital program because a $26.5 billion, 15 year expansion represents a significant long term financial commitment that will ultimately be borne by Illinois drivers and taxpayers. While infrastructure improvements are important, I believe it is essential to ensure that the Tollway Authority is exercising strict fiscal discipline, fully justifying each project, and demonstrating transparent stewardship of public funds. Before supporting any increase or expansion, I want clear evidence that existing revenues are being managed responsibly, that cost efficiencies have been maximized, and that the Authority is prioritizing necessary improvements over discretionary spending. My position is not against modernization, but in favor of accountability, transparency, and prudent financial management.
07/13/26	Gerardo Mendez	60656	X	X		X					Support	I support of the Illinois Tollway's Driving Connections Capital Program. This program is about people—helping workers reach jobs safely, growing businesses, and reducing time spent in traffic. The Tollway provides a safe, reliable network that connects millions across northern Illinois, and continued investment will reduce congestion, and modernize infrastructure.
07/13/26	Randy Coppert	60178				X	X			It will never end.	Oppose	Time to move out of Illinois..
07/13/26	J Smith	60610			X	X	X				Oppose	Understood it's been awhile since there were toll increases, but to make such a significant jump now for every single toll and further gauge people in this economy is ridiculous.
07/13/26	Margaret Myalls	60192	X	X		X					Support	No one likes spending more money, but the toll roads are well maintained and efficient. More of that would be good. Building increases in tied to inflation seems reasonable. The large upfront increase to build more roads will serve Illinois drivers. I have benefitted from the I90 rebuild.
07/13/26	Kelly Stone	60181			X	X	X				Oppose	
07/13/26	Adrian Cordovi	60062	X		X		X				Oppose	The revenue keeps getting wasted and toll roads have pot holes. Why pour more money instead of having accountability. We need better leadership.
07/13/26	Lukasz Pilch	60457	X		X		X				Oppose	On the previous long term financial plan submitted before the work on tri-state 294 had begun you promised the work will be financed from collected tolls however the tolls charge would not change as a result. Now you are planning on raising the toll rates to finance your future projects. I don't see how the raise is needed unless the cost of your previous projects has been miscalculated. I don't see how this could be justified.
07/13/26	Naz	60201	X		X				X		Oppose	This seems like just another boondoggle of endless construction and cushy giveaways to construction unions. The state has spent years reconstructing the Loop interchange and the kennedy expressway with endless construction and increased delays, yet it seems to have yielded almost no tangible benefit to drivers and has made their lives worse through terrible delays and traffic. Construction must be done in a quicker manner (e.g., working continuous shifts etc) and the state needs to demonstrate that it is a better steward of taxpayer dollars.
07/13/26	John Campbell	60194	X			X	X				Oppose	The proposed increase will add $68 to my monthly expenses for the commute to work. I understand .45 per toll doesn't seem like much but multiply by 4 tolls each way, times 5 days a week and 4 weeks a month all of a sudden, it is pricey. Perhaps a discounted increase for each toll .40, .30, .10. Especially right now with the cost of fuel, additional taxes are difficult to absorb. It simply means we have less to spend at the grocery store, or other shops that reduces sales tax revenue.
07/13/26	Ken Sajeske	60068	X		X		X				Oppose	Using my experience with the 294/88 interchange mess that must be going for a few years now shows that projects appear to take way too long. We travel along that way a few times a month anyway and we rarely see work being done. Many a great weather days with nothing going on! I can only imagine what a project from '27-'42 would impose on drivers...15 years?!
07/13/26		60636	X		X	X					Oppose	Tired of everything going up on prices we as consumers are barely saying afloat trying to survive this economy!!!!!

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/13/26	Karen Hughes	60098	X			X	X				Oppose	While understanding that there have been no toll increases in several years, this increase is going to add to the financial strain many people are already experiencing. I am not supportive of regular inflation adjustments either. I would like to have accountability for how the money is being spent rather than just regularly increasing the toll. Are the proposed improvements working? Are other changes needed? Have we cut costs were possible?
07/13/26	Thomas Knotts	60554			X		X			No increase	Oppose	I will never drive the toll roads if you increase the tolls that is 100 percent certain.
07/13/26	Arnold Hold	60068			X		X			Why are automatic increases needed, instead voting when needed?	Oppose	These proposed increases are likely going to divert some traffic off the tollway, and back onto nearby state and local roads without tolls. Moreover, the increases are not guaranteed to produce the cash the tollway is looking for if fewer drivers access the tollway by using other options including avoiding northern Illinois as much as possible. This out-sized proposed increase is just another reason for businesses and individuals to avoid Illinois altogether, and should be reconsidered or scrapped if Illinois has any chance to burnish its image as a state who's first choice isn't just another tax, which this proposed increase absolutely is.
07/13/26	Walter Wicks III	60169	X			X	X				Oppose	I remember back in the 1960s and the 1970s and maybe into the early 80s tolls never were more than $.30 and I do realize the roads are much better today and wider, but I also knew people that worked for the tollway so I know more about it than the average person and I think they are charging way too much already
07/13/26	Aravindh	60660	X		X		X				Oppose	The toll prices are pretty high considering there is literally no alternative roadway for anyone without increasing commute time by hours. Even with the tolls, the roads are pretty bad so increasing tolls will not fix anything.
07/13/26	Haugh	60631	X				X			This is insane to raise again	Oppose	We are the HIGHEST in the nation - recently pulled a small trailer and was charged $16.53 INSANE no other state in the country is as high as we are let's instread stop the corruption and fund the tollroads in our budget - the tollways were supposed to only last a few years not be a stop gap
07/13/26		60515	X			X	X				Oppose	Tolls were never meant to continue. No increases and resolve the budget. Spend within the budget constraints. Bleeding working class people so politicians can spend Willy Nilly is not the answer.
07/13/26	Martin Guzman	60431					X		X	Affordability for the small businesses specifically for the one truck owner operators. So no to the bill	Oppose	As a struggling hard worker truck driver owner operator, we cannot afford the tools to go any higher as it is. So I'll say no.
07/13/26		60143			X		X			We avoid using it whenever possible	Oppose	As one of the HIGHEST taxed states in the country, when will you begin to look inward, and learn to handle the taxpayers money efficiently? Stop coming to the people to subsidized your lack of money management. Plain and simple.
07/13/26	Sachin patel	60103				X			X	No toll	Oppose	We pay more then in Text don't wanna pay more on traveling

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/13/26	Dave Liszka	60021-1250	X				X			Less construction in general. And when you have a project get it done. Going into OHare and having it go into one lane for a long time is a joke. And and we wanna talk about less traffic equals less pollution than you would get these projects done quicker.	Oppose	I think raising the toll prices a little bit is reasonable but the cost that you're trying or proposing to do at $.45 per toll increase is like 60%. This is just another tax on the citizens of Illinois which we have some of the highest taxes in the nation, we have to do better.
07/13/26	Aravindh	60660	X		X		X				Oppose	The tolls are already high considering the amount of traffic, road conditions and lack of alternate routes.
07/13/26	Kevin G	60517			X		X			Costs are too high	Oppose	These tollway expenses are getting ridiculous. They were originally never supposed to be a permanent cost, and yet they remain a part of many people's daily commutes several decades later. Many states don't even have a tollway system in place. No matter how much you raise these tolls, Illinois continues to remain broke so clearly this isn't the answer.
07/13/26	Robert Baker	60660	X				X			Stop raising my taxes!	Oppose	These roads were supposed to be made free decades ago. Stop finding new ways to tax us.
07/13/26		60134	X			X	X				Oppose	As a daily commuter, affordability is becoming a major concern. While I understand the need to maintain and improve the tollway system, repeated toll increases place a significant burden on working Illinois residents who rely on the tollway to get to their jobs. I encourage the Illinois Tollway to carefully consider the cumulative financial impact on frequent commuters and explore ways to reduce that burden while continuing to maintain safe, reliable roads.
07/13/26	Erin Henry	60515	X		X	X					Oppose	Given the state of the unfinished project on I-294 that is several years behind schedule, it is difficult to support a rate increase to tolls or further investment. Until there is a marked improvement in project management skills with the tollway authority, I do not support paying more for poor travel conditions.
07/13/26	Roya Samarghandi	60607			X	X	X				Oppose	It is incredibly expensive already. An additional increase will further diminish my (and I suspect others') willingness to travel on the toll roads.
07/13/26	Rick Dudek	60194	X		X		X				Oppose	Doubling the toll revenue is not a way to generate revenue and is unfair to Illinois residents. This is egregious and unjustified to taxpayers. The governor is acting unfairly to Illinois residents.
07/13/26	sara	60431			X		X			STOP STEALING OUR MONEY, YOUR TAGS ARE TRASH AND DONT EVEN COMPUTE HAVE THE TIME RESULTING IN HIGHER CHARGES FOR USING THE VIDEO TO CHARGE US	Oppose	This is disgusting. You are pushing already strapped people into poverty, just for trying to get to work. Remember "Toll free in 73"? You should be ashamed of yourselves. Greedy people in power that waste OUR money. This is just another reason everyone hates living in this state and trying to leave.
07/13/26	Chris	60459	X		X		X				Oppose	Taking more money and nothing, nothing will get done. The usual

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/13/26	Randy	61052	X				X			None	Oppose	I will bet you that your car traffic may stay the same. But your commercial trucks will go down. As it is in Illinois we pay the highest fuel tax and road use tax. Try raising the auto side up to at least 75% of commercial trucks. I run the toll road system everyday with a 5 axle truck and spend way more than what it should be. If a car was to pay more there are way more cars so you could make more. Leave the trucks alone. Oh by the way. How about setting up a system to bust the clowns that don't pay. I see so many running with plates folded or covered so photos can't be taken. I personally know a trucking company that has not paid a toll in 10+ years
07/13/26	Bill Abernethy	60563	X		X		X				Neutral	Not in love with any increase in tolls beyond those absolutely necessary.
07/13/26	Nour	60107		X		X	X				Oppose	The upcharge of 45 cents per toll is too high when we already pay expensive tolls. The purpose of the original toll price was to fund these projects. An increase of that magnitude will definitely force my family members to take different routes. Especially as students who depended on using the tollway daily to get to university from the suburbs. Tollways like 390 and the Chicago Skyway are already too expensive.
07/13/26	Robert Leonard	60487					X		X	End of tolls	Oppose	We were told the tolls would end once the inital bonds were paid off. Why pick three? This is a biased survey. We are required to pick two items that are less important or unimportant to us. There is only one thing important to me and that is the cost of the tolls.
07/13/26	Erica Gonzalez	60505	X				X	X			Oppose	
07/13/26	JULIE	60404			X		X			AFFORDABILITY, AND ALSO I CHECKED LESS TRAFFIC WHEN ID ACTUALLY LIKE TO CHOOSE AFFORDABILITY FOR ALL 3	Oppose	Little did we know that 'tax free in 73' actually meant 2073. :(The state mismanages all of our tax dollars. Leave us alone, for the love of God.
07/13/26	Tim	60515	X				X			Reduced tax payer burden	Oppose	Tolls were supposed to be temporary. They now increase every few years. The roads never seem to be 'done' before the next project on the same road starts again. It feels like, looks like, and smells like a 'grift'... I oppose the increase. I oppose the project. I oppose anything that can't be funded without raising more taxes or increasing tolls. I speak on behalf of all drivers in Illinois that are sick of our rising costs, which are near or are the highest in the nation.
07/13/26		60061			X	X	X				Oppose	
07/13/26	Quinn	60630					X	X	X		Oppose	It's time to move out of IL, which is now a communist state. I remember when the tolls were supposed to end, and now there's another increase in cost.
07/13/26	April Lynch	60175	X			X	X				Oppose	While I understand the desire to increase tolls, that is too large of an increase. It is also a problem to tie in automatic increasing and adjusting starting after 2029. This will become a never ending increase of tolls. I propose to do away with the automatic increase adjustment starting in 2029. I encourage you to lower the increased amount to between 10 and 15 cents increase for ipass stickered motorists. This economy, while not IL's fault, is being dealt with by it's residents and adding what looks like incredible increases to the fees is not going to help the large amount of people struggling with paying the bills.
07/13/26	Jeffery E Tremble	61061	X			X	X				Oppose	When the Toll Roads were first implemented it was explained it was supposed to be temporary. Not only have the tolls not disappeared, now they want to increase them. Typical Illinois Democrat move, Tax, Tax, Tax.
07/13/26	Richard beck	60181			X		X			Stop charging cars with trailers truck rates is not fair.	Oppose	What is wrong with you guys ? In 2021 you got rid of all cash tolling so money saved now operating costs are less but you guys still want more it costs too much already to drive on them and all you want is more, greed on a government lvl.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/13/26	Eric	60106	X		X		X				Oppose	We spent over 350000 dollars on IPss last year, this year its already showing more then that, so with that increase this will go close to half milion. This is sick and crazy. 294 was fixed and repaired a few years ago, now we have construction that is on for more then 2 or 3 years....can someone build there roads correctly the first time.? So we may enjoy driving on the toll roads and not have to go with traffic 24h a day and never ending constructions and not paying more for tolls every year or so.
07/13/26	E Resnick	60449			X		X			Cheaper tolls !	Oppose	Traffic volume has gone way up sending revenue way up .The more they get the more they spend .Run it like a regular household . Some thing must be cut back on . Tolls keep going up .The more they have the more they spend . When were tolls ever lowered in the last @5 years ?????
07/13/26	King	60477	X		X	X					Neutral	I would support it if I knew that they would finally fix our tollways once and for all. Seems to be construction all the time and nothing is any different. Many divots in the road potholes very dangerous driving
07/13/26		60102	X		X		X				Oppose	You've already taxed us on every dime we've even looked at. Don't increase them more. We the people hate you
07/13/26	None of you business	60007					X		X	how about reducing tolls not increasing also stop stealing the toll money	Oppose	I am sick of corrupt Illinois, Tolls were suppose to end in 1984 and here we are today with massive corruption!! The tolls revenue goes up every year , currently its over a billion , plus another 3 plus billion from gas tax plus another close to a billion with the license plate sticker tax so stop stealing our money and lower tolls you corrupt evil people!
07/13/26	Jane McNiven, J.D	60133				X	X			No Tolls	Oppose	The costs associated with the building of the toll roads were to be TEMPORARY and yet, here we are decades later continuing to be gouged by prices that keep increasing every single year. Let's talk about obsolescence of paying for toll roads instead. Toll roads should be eliminated!! Instead of paying for higher commuting costs on roads that have been built and paid for over the last 5 to 7 decades, highways should have free access and the maintenance paid by gas taxes. Gas taxes are already paying for highways in Illinois and those funds have been misappropriated!! Stop toll road charges!
07/13/26	Evie	60475			X	X	X				Oppose	DO NOT RAISE THE TOLLS. THE TOLLWAY ALREADY COSTS TOO MUCH. ITS RIDICULOUS, I DRIVE LESS THAN AN HOUR AND HIT THREE TOLLS TWICE A DAY FOR WORK
07/13/26	Kariem Muhammad	60438	X		X		X				Oppose	Use the money you've made to fund this project. The tolls should be decressing. Not going up. It's gotten to expensive. I will no longer take tolls
07/13/26	Kim Stewart	61072	X				X			Cost of driving	Oppose	Tolls already high for commuters, cost of living already increased, high gas prices. This would add to the burden of economically cost of living in IL. Placing more financial strain on people living in IL not the answer as to where the money should come from. Living within the budget already set forth is being fiscally responsible. Raising the cost for the people who live here is not.
07/13/26	Debra Tragarz	60440	X		X		X				Oppose	We pay enough for tolls. Have Pritzker stop giving toll money to fix Chicago's budget problems. It isn't up to all IL to fund Chicago's mishandling of their budget. No increase.
07/13/26	Alan Grzyb	60487	X			X	X				Oppose	
07/13/26	Zach Entwistle	61301	X		X		X				Neutral	As a Local 150 member, I know firsthand the importance of investing in transportation infrastructure. The Driving Connections Program will improve mobility, create jobs, and strengthen communities throughout northern Illinois.
07/13/26	Scott V	60062		X				X		Convenience going North South (294)	Oppose	You keep raising them, you have already repaved the surfaces — I thought it was time to STOP collecting tolls. You keep raising them & we'll stop driving on them
07/13/26	Kyle Johnson	60115	X				X			Accountability for proper use of infrastructure funding.	Oppose	I can not convey how opposed to this increase I am. The state can not manage any funds correctly. There has to be accountability for the terrible spending choices being made. The amount of taxes that are taken from IL residents is too high, adding more is not going to solve the issue. For this reason along it is something I oppose.
07/13/26	Dariusz Bogdan	60076	X			X	X				Oppose	Construction rates are way too high. It takes too long to complete the project. Reorganizing the place is the way to save a lot more money than by raising tolls for everyday users.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/13/26	Kyle Entler	60517			X	X	X				Oppose	Oppose the increase. Inflation is eating up the little money left over on trying to navigate work for everyday citizens.
07/13/26	Dr. Gianna Norini	60402		X	X					ability to traverse the state in a highway fashion	Oppose	My name is Dr. Gianna Norini, and I am an Illinois resident, business owner, taxpayer, and occasional Tollway user. Let me begin by saying that I support maintaining safe, reliable infrastructure. I understand that roads, bridges, and overpasses require ongoing maintenance, and I recognize that those improvements come at a cost. My opposition is not to maintaining the Tollway system; it is to the financing strategy that has become the default solution. The Illinois Tollway was originally presented to the public as a user-funded system that would finance the construction of these highways. Once the original bonds were repaid, the expectation was that the tolls would eventually end. While the original construction debt has long since been retired, the Tollway has continued to issue new debt to finance major capital programs, including expansion and reconstruction projects, extending toll collection indefinitely. Now, Illinois drivers are once again being asked to shoulder another significant increase, followed by automatic increases every two years tied to inflation. I respectfully believe this represents a shift away from public accountability. Future toll increases should not occur automatically. If additional revenue is needed, each proposal should be justified on its own merits and presented for public review. I also ask the Tollway Authority to reconsider its priorities. Before expanding the system further, the focus should be on preserving and maintaining the infrastructure that already exists. Expansion projects may be beneficial, but they should not automatically take precedence over fiscal sustainability. Before asking Illinois families and businesses to pay more, I encourage the Tollway to demonstrate that it has exhausted every reasonable alternative, including: * Prioritizing maintenance over discretionary expansion projects. * Conducting an independent operational and financial efficiency audit. * Accelerating repayment of existing debt to reduce long-term borrowing costs. * Pursuing additional federal infrastructure grants and other funding opportunities. * Exploring alternative financing mechanisms for projects that provide broad statewide economic benefits. * Increasing transparency by clearly reporting how toll revenues are allocated among maintenance, expansion, debt service, and administrative costs. I also encourage the Tollway Authority to recognize that increasing commercial truck tolls does not insulate Illinois families from higher costs. Freight transportation is built into the price of nearly every product we purchase. Increased transportation costs inevitably work their way through the supply chain, placing additional financial pressure on businesses and consumers alike. Illinois drivers have supported this system for nearly seven decades. They deserve confidence that every available dollar
07/13/26	Henry Jakobsze	60515	X		X		X				Oppose	I've never read a strategic plan that was so full of broad and vauge statements. Lot's of political buzz words. No meat. I have no idea what the plan is going to do. The only statement remotely concrete was that tolls will be increased by approximately $0.45. As a resident of Downers Grove, I've lived through nightmare traffic delays on 294. Now you're going to start a long-term capital project? Move Illinois should be Move From Illinois as I intend to do. We're already the highest taxed state in the U.S. I'm moving from IL to NC in April, 2027.
07/13/26	Pam	60101			X	X	X				Oppose	The tollways were supposed to be temporary. We used to always hear that once they are paid for, they would be eliminated. Wisconsin has better roads and no tolls.
07/13/26	Kelly Steele	60142			X		X			Affordability... again	Oppose	Why do others states have good roads and NO TOLLS. Let’s take a look at what they’re doing as opposed to just increasing cost for us. It’s absolutely ridiculous. Everything about this state should be looked at and then look at other states performing better with less. Model our structure after theirs.
07/13/26	Paul Valenta	60192	X			X	X				Oppose	
07/13/26	Joseph	85374	X		X		X				Oppose	I've already moved out of Illinois but when i hear of these disgusting proposals i still get that feeling of absolute fraud and mismanagement. I am literally embarred to tell people where i moved from!

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/13/26	Randy Poznansky	60089	X			X	X				Oppose	I remember when the tollway was built we were told that the tolls would be temporary. Why can't the roads be in great shape and FREE like the highways in Wisconsin? For those of us that have been around for a number of decades there is very little trust with the management of the Illinois tollway system.
07/13/26	Jonathan	60139	X				X			Not stealing Toll Money to Bail out CTA then charging us more	Oppose	This is insane - Steal Toll Money and Interest to bail out CTA, then don't charge CTA riders any more money - charge those paying the tolls even more to back fill the money you stole from the fund. And then you want to codify increases tied to inflation -- how about codifying decreases in tolls? --- remember when the tools were supposed to go away and the roads would eventually be freeways?
07/13/26	James P. Crater	60418	X		X		X				Oppose	The tollways more than pay for themselves. No funding should be transfer to any other government entity.
07/13/26	Kevin Brankin	60453				X	X			Less road delays due to construction	Oppose	Increase durability to reduce construction repair delays
07/13/26	Chris	61102					X		X	Stupid to make me have to choose 3. Should be choose up to.	Oppose	Yet another tax increase. This is crap.
07/13/26	MICHAEL WOODRING	60532			X		X			Low toll charges.	Oppose	Nope. Stop stealing my money. You are bad at spending it. I simply wont use the tollway anymore.
07/13/26	Paul Goerner	60646	X		X	X					Oppose	The gas tax and the tolls should be more than enough to keep the roads in good shape. This is another way to tax the citizens of the state. Maybe you should look at cutting wasteful spending and get better pricing from the companies that you use. Enough is enough.
07/13/26		60517-1834			X	X	X				Oppose	It is absolutely ridiculous to make toll roads more expensive, traffic is going to be even worse because no one is going to want to pay for the tollways
07/13/26	Linda Burk	60527	X				X			safety	Oppose	I and my family use the tollways pretty regular because one of my sisters lives in Michigan and the other in Chicago, as well as relatives downstate. The unpredictable drive times are typically holidays, summer weekends, and due to construction. Our Illinois roads are in pretty good shape and I don't see the need at this time for all of the project improvements you are recommending. I do oppose the toll increase and think we can maintain and continue operations of the toll roads on a more reasonable budget. Thanks for listening.
07/13/26	William C North	60187	X		X		X				Oppose	
07/13/26		60505			X		X			Safe driving	Oppose	Enforce current laws more consistently. Heavy-load trucks, drivers going around others at high-speeds, etc.
07/13/26	JUDITH LYNN JOHNSON	60510-1265					X		X	Safety--speed is too high	Oppose	Please consider a way to have seniors (who don't use the tollways frequently) not have to pay more. Maybe their transponder can be coded at a lower rate. We can barely cover our basic expenses as it is now; we understand the need for construction improvements for traffic flow, but suggest raising the toll amounts for the older, occasional user should be simple with today's computer technology. Thank you for considering this approach for seniors on fixed income who are still able to drive and need to travel from time to time.
07/13/26	Doug Karmazin	60067	X		X		X				Oppose	As an Illinois resident already burdened by the nation's highest sales, property, and gas taxes, I strongly oppose this 45-cent toll hike and automatic inflation increases. With these maximum funding levels, we should easily be able to maintain our infrastructure, yet we are still left with some of the worst maintained and most congested roads in the country. The Tollway must account for how current surpluses are being managed and pursue a much more moderate path that requires direct voter approval.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/13/26	Samuel Reese	60554	X		X		X				Oppose	The senior management and board of “ipass” should consider registering for finance 101 at any of the numerous community colleges across IL. This is nothing but pure mismanagement and lack of fundamental finance/accounting knowledge. I have to save money on my own to pay for future expenses; I believe you all at ipass can do the same. You collect tolls today why haven’t you been saving. Also maybe you should consider restructuring your procurement function to allow for the highest quality and best price for all project or services needed. I ask for my taxes to be lowered every year but that has never happened. Why should you get more money?
07/13/26	Richard	61282				X		X		Direct route	Oppose	Breaking down how many tolls vs customers you have there is no reason to raise. Maybe consider removing unnecessary staff or construction
07/13/26	Margaret	60477			X		X			Safety	Oppose	The tolls were recently raised so the price for public transportation in Cook County would not increase. The burden of public transportation was placed on the people who use the tollways. The people who actually use public transportation WERE NOT INCREASED AT ALL. UNFAIR!!!!!
07/13/26		60030	X		X		X				Oppose	The tollways are always a mess, it’s expensive, they are always under construction and in terrible shape. It’s clear the money is going elsewhere, either lining Pritzker’s pockets or going straight to illegals. Help out the real people, organize your budget and do your job
07/13/26	Ken Brown	60103	X			X	X				Oppose	When will this toll madness end. Were the tolls meant to be temporary until the roads were paid off.
07/13/26	Kellie Laibl	60532	X		X		X				Oppose	In Illinois, all we have are taxes and fees and all they do is go up and up and up and up. We are tapped out. We are done.
07/13/26	Brent Simerson	60175			X	X	X				Oppose	I CANNOT AFFORD an increase. With the cost of living rising, this will severely impact me and I just simply cannot afford it.
07/13/26	Justin Wienrank	60030	X		X		X				Oppose	Illinois is the only state in the area with toll roads (North East only, and without Chicago), yet, we have the worst traffic and worst maintained roads compared to Southern Illinois and the rest of the non-toll road states in the country. Figure it out already and stop screwing the people.
07/13/26	Kelly Rokosz	60089	X		X		X				Oppose	We in Illinois already pay some of the highest taxes in the nation. We are losing residents and hurting working families with the constant price increases.
07/13/26	Andrew Schlie	60521	X			X	X				Oppose	Absolutely not. The tollway slush fund needs to end. It's financial mismanagement at it's worst today. No capital campaigns until the told decrease, not increase
07/13/26	Ashraf	60462	X				X			Lower cost	Oppose	Tolls are expensive enough. For those that travel the tollway for their daily commute it is very expensive. Take out bonds so that future toll revenue from 490 pays for 490. Seriously the affordability is getting out of hand and I am a decent earner. I couldn’t imagine the impact this takes on folks whose earnings are limited. Commuters need relief not price increases
07/13/26	Zaeem	60108	X			X	X				Oppose	
07/13/26	Ed Creagan	61103	X				X			Tolls would be tempoary.	Oppose	I thought we were told back in the 60's when the tollway was built that the tolls would be temporary, not increased.
07/13/26	Beth Latto	60564		X	X		X				Oppose	
07/13/26	Jessica Farley	53226			X	X	X				Oppose	I visit my immediate family (on both sides) very frequently in Illinois (suburbs of Chicago). This increase will impact me severely, and make it more difficult for me to see my family. I already pay so much in gas, I WILL NOT BE ABLE TO AFFORD visiting as frequently. This will severely impact my and my family's lives.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/13/26		60188	X		X		X				Oppose	I oppose the proposed toll increase because Illinois drivers already pay some of the highest transportation costs in the Midwest, yet the benefits of those payments remain unclear. Current toll rates average $0.07–$0.10 per mile, which is significantly higher than neighboring states such as Indiana and Wisconsin, where rates typically fall between $0.03–$0.05 per mile. Despite this elevated cost, construction on Chicago area tollways feels constant, but the improvements to congestion, road quality, and commuter experience have been minimal. The Illinois Tollway has spent over $14 billion through the Move Illinois capital program since 2012, yet Chicago drivers still lose 155 hours per year sitting in traffic, ranking among the worst congestion levels in the country. Major projects such as the Central Tri State reconstruction and the Elgin O'Hare Western Access have faced repeated delays, extending timelines into 2026–2027 and beyond. Illinois residents already contribute heavily through tolls and one of the nation's highest gas tax rates. Before increasing tolls again, the state should demonstrate measurable improvements in congestion, project completion, and commuter benefit. Without clear accountability for existing funds, an additional toll increase is not warranted.
07/13/26	Dale Wagner II	60008	X		X		X				Oppose	The people of Illinois are paying enough in taxes. Why put more burden on the good people of the state by raising the toll?
07/13/26	Paula Bruckner	60525	X				X		X		Oppose	This is just another way to fleece the tax payers. The proposal doesn't even state in detail what it is, how long it would take, etc. Very vague. Once again, the tax payers will be robbed while a few politicians and other people involved get rich. Another fraud scheme! My vote is Absolutely NO!
07/13/26	scott g roskuszka	60190	X				X			Stop building new tollways increasing tolls	Oppose	The charger of the tollway many many years ago was to charge tolls to fund the construction of the road. It was not intended to be a tollway indefinitely. The tollway is a monopoly that hurts citizens. The newer roads are extremely expensive, loud and unnecessary. The toll authority is loaded with political appointees with no clue how to run a business, but are protected by the monopolistic toll structure. The Illinois exodus will continue.
07/13/26	kate burton	60505	X		X		X				Oppose	
07/13/26	Dale DeJager	49636	X				X	X			Oppose	One time increase as proposed is good. But do NOT automatically increase tolls every two years. That is like a blank check. Increased tolls should be justified.
07/13/26	Helen Marheiza	60014	X				X		X		Oppose	Increase is too much.
07/13/26	Marilyn Molitor	60439			X	X	X				Oppose	Surely you jest! The toll fees are already sky high. Increase is unnecessarily burdening the very people who use the toll roads. Very greedy!
07/13/26	Karhy	46074	X		X		X				Oppose	Enough is enough with raising everything. We are not rich. Groceries, insurance, housing is crazy- when will raising the fees ever end??
07/13/26	Jenean Featherson	60201-3321	X				X			Affordability	Oppose	Find another way to pay for it. Don't increase the cost to Illinois residents.
07/13/26	Alan	60006	X				X		X		Oppose	Opposed to tolls as money has a tendency not to end up for road repair but on pet projects or pocketbooks. You are doing a "15-year, $26.5 billion investment intended to improve traffic and enhance road conditions, providing Illinoisans with a resilient, modern system built to support a dynamic region for generations to come." I strongly call BA on this. If you could do this then why have you not and why do the roads in Illinois look worse than any other state.
07/13/26	Janet Dudek	60194				X	X		X		Oppose	My daughter is a 2024 College grad and uses the IL tollway daily for her first job. I pay her tolls which is $250 each Month. If this region law is passed, this will cost me $500 each Month pt force my daughter to Move out to avoid tolls. I am furious with this change and will. Ore republicans in protest of this decision.
07/13/26	Margaret Nielsen	60631	X			X	X				Oppose	Please place some toll booths near Springfield, Il. Stop squeezing Chicagoland area folks from their hard worked cash. We have very, very high taxes and fees already. Ask other areas in southern Illinois to contribute their fair share.
07/13/26	David Brooks	61084	X		X		X				Oppose	You're pricing us off the toll roads! Enough is enough, I do enjoy uncongested/good roads, however N. Illinois and Chicago in particular are neither of these.
07/13/26	Nadine Martin	60192	X				X	X			Oppose	Tolls are too high now. Other states maintain their roads without tolls.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/13/26	Ronda Scott	61032					X		X	Tolls should be eliminated and make this an open freeway with gas stations and rest stops like other states peovide	Oppose	Tolls are an additional tax and Illinois has the highest taxes in the country. Illinois has one of the worst freeways in the country and tolls have not fixed the problem of traffic and congestion. End tolls and make repairs with the existing excessive fuel tax which is keeping g gas prices higher than Wisconsin. We refuse to buy fuel in Illinois due to excessive tax
07/13/26	Laura Martin	60187	X		X		X				Oppose	I strongly oppose this proposal. The Illinois Tollway has become addicted to asking drivers for more money instead of learning to live within its means. A 45-cent increase per toll may not sound like much on paper, but for commuters who use the Tollway every day, it adds up to hundreds of dollars a year. Businesses will also pass increased commercial tolls directly on to consumers through higher prices. Even more concerning is the proposal to automatically tie future toll increases to the Consumer Price Index. This amounts to giving yourselves permission to raise tolls indefinitely without having to justify each increase to the people paying the bills. Illinois families are already dealing with rising property taxes, insurance costs, utility bills, and inflation. Locking in automatic toll increases only adds another financial burden. Before asking motorists to pay more, the Tollway should demonstrate that every existing dollar is being spent efficiently. Where are the cost reductions? Where are the operational efficiencies? Where is the accountability for controlling expenses instead of simply passing them on to drivers? Calling this a "transformative investment" does not change the fact that it is another tax on people who often have no practical alternative but to use the Tollway. The burden of managing costs should fall on the Tollway's leadership—not on the commuters and businesses that already fund the system. I urge the Board to reject this proposal and instead focus on fiscal discipline, prioritizing projects, and finding efficiencies before reaching deeper into the pockets of Illinois drivers.
07/13/26	Jared Reardon	60031	X		X		X				Oppose	The state does not need more money but needs to learn to budget what they have.
07/13/26		60090		X				X		Most direct route to destination	Oppose	Being an IPASS user does bring some relief, however. Tolls themselves target a very specific group with limited resources. Construction projects aimed at improving travel seem never ending and never completed thus requiring more financial input from drivers with the justification of increased costs. As an Illinois resident of Cook County enough is enough. The same group of people cannot be constantly expected to pay. The number of tollways have increased as well. Perhaps the state of illinois in general should find a better way to pay for roads other than tolls, gas taxes(perhaps extra tax on electric vehicle drivers) or any other increased demand from drivers.
07/13/26	Kris Galante	60174			X	X	X				Oppose	What a joke. More expensive tolls is going to allow me to spend more time with my family and less time on the road? Does anyone really believe that? Illinois has received tens of billions of dollars from legalized gambling. Billions of dollars since it legalized marijuana. Remember 'Toll Free in '73'? Tolls that were supposed to be temporary have become an indefinite source of income for the state... And we all still suffer through miserable traffic. Nothing is ever truly improved. You've taxed us to death on everything, you take money out of hard-working people's pockets... Find some other way to get it right. This never-ending cash cow for the state of Illinois is nothing but broken promises.
07/13/26	Stephen Pobozny	60565	X			X	X				Oppose	I thought the tolls were intended to make repairs and upgrades!!!!!
07/13/26	Debbie Morris	60428	X		X		X				Oppose	Rates are high enough during this time when everything is going up, we don't need any extra fees.
07/13/26	Marvin Michelson	60548			X		X		X		Oppose	I have used the Tollway for years and from the beginning it was supposed to be a Freeway by 1973 why did that not happen? A mild increase may be fair but not what they are proposing. Thanks Marvin M.
07/13/26	T Sakala	92677	X				X			All of above	Oppose	Show us your complete financials. Where is the current money going? Especially your contributions to the local political machine, Pritzker especially.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/13/26	Caitlin Gallagher	60655			X	X	X				Oppose	Enough with the increases in taxes and fees! Cut the excessive spending and use what you have. I think well maintained roads is important but figure out a way to get there without increasing toll fees. Illinois, Chicago, the county are constantly taking money and I know full well that there is excessive overspending. Enough is enough.
07/13/26	Marvin Starzak	61074	X			X	X				Neutral	Well when I travel on the tollways, there are two seasons - Winter and construction! 294 is a good example! We have construction that hopefully will end maybe this year! But then again when we have winter the construction is still there causing all year slow downs and issues! So this would mean another 15 years of this! So to say it will make everything better is not necessarily true! The roads when there is no construction seem to move ok when I have been on them until an accident. Maybe some how to slow some people down might help that. But I know that is hard to do! Thanks! And fortunately I do not travel on them that often as I did before.
07/13/26	jodie Alexander	60411			X	X	X				Neutral	Are unpaid tolls being collected
07/13/26	Mike Acker	60010	X			X	X				Oppose	
07/13/26	Matthew Stockham	60642	X		X		X				Oppose	The tollway is a corrupt scam. Not much more to it.
07/13/26	John Jacobs	60515	X				X			better notification of accidents and traffic patterns	Oppose	In 2024 the operating revenue for the Illinois tollway was 1.7 BILLION! BILLION!! The maintenance and expenses to operate the Tollway was 421 MILLION! MILLION!! For 2024 that's a 1.4 BILLION DOLLAR SURPLUS! Additionally, the tollway authority, since 1973, has collected more in tolls EACH YEAR than it needed to operate and maintain the system. Where has all the surplus $$$ gone? So please explain to me why the Board thinks they need to increase tolls across the board. We don't need another TAX in Illinois! The Illinois Tollway Authority doesn't have a revenue problem, there is plenty of money coming in from tolls.....where it goes after that is a PROBLEM.
07/13/26	Barbara Dougan	60565-9221	X		X					Can anything be done to arrest/fine speeding, weaving, racing drivers. They can cause serious accidents!	Neutral	
07/13/26	W. MACDONALD	60194	X				X		X		Oppose	We understand roads are expensive to build. There are costs to maintain the roads. Raising the rates at each toll collection should be based on miles driven at a consistent fee. Tolls should not be based on automatic raise over a specified term. Each toll increase should be based on public meetings and input. There should be a goal and rules to reduce costs as construction is completed. This was promised when tollroad began.
07/13/26	Stev	60004		X		X	X				Oppose	
07/13/26	Jason Jenkins	60156	X			X	X				Oppose	Perhaps adding more tolls within Chicago city limits would be a better alternative than an overall increase. Let the people using the highest trafficked areas finance this if that is what the state is insisting on. The real question that Springfield should be asking is how to reduce/eliminate the tolls. The tolls were intended to pay for the highways' construction and be eliminated once the return on investment was realized. Instead they're being used as a perpetual cash grab to fund a state incapable of living within its means. The constant taxes, tolls, and fees are crushing lower and middle income families, while those who can afford to are moving away. Illinois should be focused on prioritizing/reducing spending instead of constantly demanding more money to fund services we didn't ask for. The toll roads are already poorly maintained for their cost. I'll be avoiding the toll roads and spending my disposable income locally if rates increase any more. This has gotten ridiculous.
07/13/26		60169	X			X	X				Oppose	Fix the IL pension and taxation scams. Tolls were supposed to end decades ago.
07/13/26	Aleksandar Krasich	60453	X				X			Bring back the oasis’s	Neutral	An increase is fine but not 45 cents. How about .15 and 35% for commercial vehicles

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/13/26	Nikko Juarez	60964			X		X			Reduced costs	Oppose	You clowns are going to continue to increase the cost of living in this region to a point where its no longer sustainable for the working class. I thought the toll system was only supposed to be temporary, not an indefinite toll.
07/13/26	Bruce auer	61761	X			X	X				Oppose	That's not the way to get people to come into our state of raising taxes! We are in the top three states of taxation being high and driving people and businesses out of the state, so the people that live here still have to pay more. You would think that bringing businesses into the state and families will help offset the cost, but that's not the case . They (politicians) don't care about the average family. What happened to the increase for gas ? That was supposed to go to the roads ? Looks like that didn't happen 🤬
07/13/26	RHONDA J	60501		X	X		X				Oppose	
07/13/26	David educate	53092	X		X		X				Oppose	ITW has ALWAYS added congestion with its IMPROVEMENT programs.!!! Especially during the inprogress improvements. Let's use the Benifitting road Alone that we're still paying for from the last IMPROVEMENT programs..leave the road alone!!! Best congestion help!!
07/13/26	Kelly Johnson	60504	X		X		X				Oppose	I don't support higher toll prices
07/13/26	KD	60126	X		X			X			Oppose	I'm happy to pay for a system that integrates into other transit modes (e.g. Metra, CTA, park & ride), and is well maintained. My issue is the proposed plan sounds like road maintenance that should have been budgeted for. I understand that most of the Driving Connection project highlights include redoing ramps and interchanges to improve safety and flow in local areas. And that's great! However, I'm of the opinion that adding improvements at the same time as road maintenance is not really a profound concept, and really should've been considered 20 years ago when this infrastructure was built. If/when tolls increase and the projects are eventually paid off, can riders expect tolls to reduce? I doubt so. I just don't see how any bridge widening, lane additions, and ramp reconstruction will improve the 10 miles of backed-up traffic along 294, or spillover traffic onto 90/94. Projects like these haven't resolved traffic in the past, and they alone won't resolve traffic in the future. The Tollway may not want to hear this but dollars spent on infrastructure need to go to multi-modal options, like trains connecting suburban city centers, rather than further sinking dollars into the least efficient, and most expensive, mode of transportation - cars. Thanks for reading and I wish the Tollway engineers good luck.
07/13/26	Nicole Jagielski	60008	X					X	X		Neutral	(1) I understand that you should raise rates after 10 years. However, consider asking for less upfront and enacting periodic cost increases, not asking for both at once. (2) I don't understand spending hundreds of millions of dollars on planning projects, like the I-90/I-290/IL 53 Interchange Improvements Study. That cost seems very high, and I hope you are engaging in an RFP before committing to the cost. (3) I miss the O'Hare Oasis. It was the perfect location to stop at on the way to ORD or on your way out of ORD, especially for late-night flights or early morning flights. The gas stations you left us with are shabby in comparison. Please bring back at Oasis or nice rest stop by ORD. It would make the whole area more inviting, reflect tremendously well on the whole area, and make ORD less of a stressful experience for those who don't fly often (like my parents).
07/13/26	Steve Wall	60542	X			X	X				Oppose	The road system we have now is completely adequate. Stop raising our taxes!
07/13/26	Don Franklin	47909	X		X		X				Oppose	
07/13/26	Richard L Kerr	60048	X				X			Complete projects on time and budget	Oppose	If you would reduce the bureaucracy and it's huge salaries at the top you would not need all of what you are asking for. Put penalties on over runs of time and cost. Finish one project before the next is started. No other state takes as long to-do a project. Take lesion from Wisconsen and Michigan
07/13/26	Joseph Riel	60002	X			X	X				Oppose	
07/13/26	Brett Youngsteadt	60126	X	X			X				Oppose	You just raised our taxes to fund the CTA, which does NOT help me in anyway. Take that money and use it. Don't keep raising fees. This is why I will be leaving Illinois shortly.
07/13/26	tim	60124	X	X	X						Oppose	It's all BS! We should not have tolls for using our roads. It's just another way of gouging Illinois citizens. We are already one of the highest taxed states.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/13/26	Yong Liu	60047			X	X	X				Oppose	Can you show how we use the tollway money at this moment? What is the total revenue and expense? How did those items split into itemized income and expense by project or high way? We need a clear idea of the income and expense before any action.
07/13/26		60045	X				X			Tolls are too high	Oppose	It's already too high!!!!
07/13/26	Janice Youngsteadt	60126	X			X	X				Oppose	No more taxes. You just raised our fees in 2026 to fund ANOTHER DEPARTMENT in Chicago.
07/13/26	Cheryl Erd	60012	X			X	X				Oppose	Manage the money you already have. These roads have already been paid for decades ago
07/13/26	Jean von Heimburg	60124	X		X		X				Oppose	If only this money could be trusted to go for road repairs and improvements. Until there is change in our politicians, I don't trust a thing you are saying. I don't mind paying a little more If it will make improvements to ME but this all goes back into Chicago. 45 cents is way too much of an increase PER TOLL! We are struggling to keep bills paid and food on table!
07/13/26	James Rogers	60187	X				X	X			Oppose	The proposed increase is too much. Cut back the plan to be more responsible with the public resources. The focus should be on lowering speeds and increasing safety, not making the lanes wider and adding lanes. There is already far too much speeding and racing on these roads.
07/13/26	katherine M Halstead	60050					X	X		Lack of roadways northern past where 53 ends is non existent	Oppose	This is not the appropriate way to maneuver this action. Toll increases are not they way roadways should be funded
07/13/26	Ellen Conlin	60163	X	X	X						Oppose	The increase is too high.
07/13/26	Jon Ruckman	60431	X		X		X				Oppose	You have a yearly surplus averaging $500 million a year, youre going to build more tolls on the highway and you're increasing costs of tolls? This is just greed.
07/13/26	BK	60586		X	X		X				Oppose	Stop making it more expensive to live in this state! Make do with the ample amount of funds you already receive. Maybe look into fraud and waste in IDOT before screwing the taxpayers out of more of their money!
07/13/26	Loel Martin	60076	X		X		X				Oppose	We pay enough already. When will it ever end. Probably never, sorry to say.
07/13/26	Ryan Kennepohl	60565			X	X	X				Oppose	Now is not the time to be imposing further/increased fees when gas is astronomical, property taxes continue to rise, and we already pay too much for driving on freeways that in most other states would be free!!
07/13/26	Kate	60630	X		X		X				Oppose	Completely opposed to the continuous rise it will have on tollway cost.
07/13/26	Mike Stahulak	60459		X			X		X		Oppose	Rate increase on top of the governor adding taxes where one didn't exist is not a friendly way. As long as your in our pocket you keep digging deeper and deeper, stop and make them free so now you will be getting your money from taxes like was promised years ago
07/13/26	Matthew D Anderson	60608	X			X		X			Support	As a cyclist, I support motorists paying for the roads that they use. Tax dollars paid by the general public should not go to subsidizing large-scale inter-city car infrastructure. Well-maintained roads should be paid for by those who use them whether they are from Illinois or traveling from out-of-state.
07/13/26	Harleet Washington	60628			X	X	X				Oppose	Raising the toll rates again is an insult to those of us utilizing the roads.
07/13/26	Cole	60060	X		X		X				Oppose	I strongly oppose this proposed toll increase. Illinois drivers are already paying some of the highest taxes and fees in the country, yet many continue to see road construction that drags on for years with little noticeable improvement. Before asking residents to pay even more, the Illinois Tollway should demonstrate greater accountability, transparency, and efficiency in how existing funds are spent. The financial burden should not continue to fall on hardworking Illinois drivers and families who are already struggling with the high cost of living. Instead of raising tolls again, the Tollway should focus on better managing its current budget and delivering measurable results with the money it already receives.
07/13/26	Rudolf Hebling	60134	X				X			Inclement weather services...snow plowing/sanding.	Oppose	A 45 cent per toll increase just seems outrageously high. Where's the public accounting for how much has already been collected and the collections expected at the current rate? I could support a 20 cent per toll increase, but would have to see hard facts to support more.
07/13/26	Lauree M	60454		X	X		X				Oppose	

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/13/26	Kimberly Kwasniewski	60185				X	X			Fastest route	Oppose	Twice in the last six months Illinois lawmakers have robbed the road fund. First robbery was committed by Senate Bill 2111 signed into law 12/16/25 which funded a 1.5 BILLION transit rescue package paid for by: 1. Diverting $860 MILLION from motor fuel taxes to the RTA, and which incidentally going forward the MOTOR FUEL TAX will fund public transit- Wtf? 2. The bill took $200 MILLION from the road fund. The second robbery occured with the 2027 budget signed by Pritzker on 6/16/2026, which took $150 MILLION from the road fund and transferred it into the general fund. Now Pritzker and Illinois lawmakers have the audacity to say they have "a critical need". How about you criminals stop stealing money from the fuel tax and road fund and use existing revenue to maintain our roads. Liars and theives!
07/13/26	Eileen J Michalski	60453			X	X	X				Oppose	These toll roads were supposed to be paid off a long time ago and it never happened. They were increased against what everyone felt and now its happening again? Illinois has raised so many things it has become nearly impossible to afford to live in this State. I do not agree with this raise,
07/13/26	Sandra Bailey	60477				X	X			Lowering the prices	Oppose	45 Cent increase on tolls is outrageous! 30% is absolutely ridiculous! My husband has to travel for work and he doesn't get a 30% pay raise in fact he doesn't get any pay raise so this is going to hurt our family dramatically!
07/13/26	Justin McCurdy	46385			X	X	X				Neutral	Seems like a big increase to do at once - phase it in.
07/13/26	Mike Smrz	60463-2024	X		X		X				Oppose	Tolls too expensive already
07/13/26	Rogers	60416-1814	X				X			No new taxes!	Oppose	Once again, creating projects to justify rate increases. Just like the doubling of the fuel tax, where does this money really go? Until the State of Illinois gets it's fiscal house in order I will never support any tax, user fee, on rebranded revenue increase.
07/13/26	Gregory G Gocek	60515	X		X		X				Oppose	Raising the tolls as significantly as proposed in support of the classic empire building inclinations of the Tollway authority (when exactly are the many highways to nowhere going to be free as originally sold to the public?) in a time of receding economic affordability is bad enough. Imposing a perpetual inflation indexed annual rate hike for "greater predictability" is layered "frosting on the cake" of insult onto injury. That would take an outrageous page from the same idiotic playbook that the legislature flayed voters with in adding an always annually expanding gas tax hike- if Illinois likes to point to its "leadership" as having among the highest gasoline prices in America, then it can rightly claim its holding of the national confiscation prize. And citizens can then take these ever lengthening tolls roads as the routes for permanent moves to more taxpayer friendly environs as quickly as possible!
07/13/26	Peter sirbas	60068			X	X	X				Oppose	Stop just stop it’s already too expensive. I remember it was supposedly going to be free when the bonds were paid. It’s why Illinois is losing population.
07/13/26	Michael Smith	60103			X	X	X				Oppose	Stick your toll increases up your butt
07/13/26	Guadalupe Hernandez	60123	X		X		X				Support	It is a problem when semi-trucks drive in the left lanes; they do not respect the two left lanes, which causes traffic backups and leads to accidents.
07/13/26	Craig Martin	46304	X		X		X				Neutral	I can understand the need to raise rates since they have been at the current amount for some time. However, I'd suggest 10-20 cent increases at each booth each year or every two years to achieve the 45 cent total amount to help ease the increase onto the consumers.
07/13/26	Carol Kovach	60448	X			X	X				Oppose	
07/13/26	tony	60445			X	X	X				Oppose	the problem is not the roads, the issues are the people on them that have no clue how to drive properly. instead of wasting billions of dollars on roads maybe we should put that money toward educating drivers so we dont have backups all the time.
07/13/26	Bryan Grimaldo	60543	X		X		X				Oppose	Tolls are already expensive
07/13/26	Andreas L. Stout	60193	X		X		X				Oppose	I don't believe there is a need to increase rates when there hasn't been an increase in drivers on the tollway. Every time they raise rates for a "project", those rates continue after the project is done. What happens to all that extra money afterwards?

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/13/26	Daniel	60007				X	X			Faster travels time, which will never be unless there is no construction.	Oppose	How about we stop spending money foolishly instead of continuing to raise taxes to pay for foolish spending? Pretty radical isn't it?
07/13/26	Adam	60025	X				X			Safer roadways	Oppose	The state has plenty of money from all state property tax increases that are out of control. If the toll rates are increased, I will not use the tollway and move elsewhere to a state that has better infrastructure and forward planning that does not impact driving and builds roads that will last a lifetime. The cost of living in ILL has become ridiculous and now this... Do you disagree?
07/13/26	Kit Dieterman	61008	X				X		X		Oppose	We have traveled many other states that do not have toll roads and their roads are well maintained. As a property owner of Illinois that has the highest tax rate and gas tax why we are still expected to pay tolls
07/13/26	Erick Hornberg	60142	X		X					Lower cost	Oppose	Is this some kind of a joke. It is, quite literally, highway robbery. The Illinois toll system is notoriously gridlocked and under construction with no end in sight. You want to increase the funding to a mismanaged system? No thanks.
07/13/26	Jason	60035			X	X	X				Oppose	Hell no. You are making it unaffordable to drive in this state. Not to mention, we all know that the project will go waaay over budget and you'll be hiking up those tolls every other year. Leave it alone. The public has no more money. Stop taxing the shit out of the people in this state. You may say it's not a tax, but it is. It's absolutely a tax. I reject this proposal.
07/13/26	Debbie Roller	60004				X	X			Easy access - getting on/off in Schaumburg is a nightmare.	Oppose	Everyone is getting taxed and tolled out of Illinois. I thought the tolls were a short term solution when it started. What happened to "Toll Free by 73"????
07/13/26	David Dever	60516	X				X			Roads are kept up for shit!	Oppose	This state is a joke the way they mismanage funds. I am attempting to finish my exit and stop supporting this liberal chaos of over taxation. We all feel like our tax dollars are wasted in so many ways and we should not be subsidizing illegals being here but that's exactly what's happening.
07/13/26	Keller	60630	X				X			Better enforcement of speed limits.	Oppose	How about you guys first focus on fixing the potholes and address all the needed repairs to the highway with the money already being collected? No way regarding this increase!!!!
07/13/26	Devereaux Johnson	60510	X	X		X					Support	The Illinois Tollway and Driving Connections Capital program is more than just a roadway. It is an infrastructure necessity that supports every person in Illinois and the surrounding states, regardless of personal use, which carries benefits alone. Commercial use benefits cannot be understated in their importance, across goods, public transport, public construction, and areas of business access that rely on quick access and predictable routes. The Illinois Tollway is a necessity, and supporting that necessity is paramount.
07/13/26	Rebecca	53144	X				X		X		Oppose	What happened to "Toll Free by 73'"??? The tolls are already expensive enough, for us daily drivers. Another price increase is absolutely INSANE! It shouldn't cost me HUNDREDS OF DOLLARS, just to drive I and from work every day.
07/13/26	Alex Vielma	60130	X		X		X				Oppose	Balance out the budget as is. Illinois tolls should be illegal. The state collects and collects but why are the interstates so badly maintained, and why do I have to sit in needless traffic. Do better
07/13/26	Naomi Allen	61107	X			X	X				Oppose	If the toll increases, I will take 251 to work instead of i-90 because the convenience of avoiding the stoplights will not be worth the cost of the toll.
07/13/26	Lynn Oberg	60142	X				X			Slow drivers only in right line, not 3 lanes over.	Oppose	When the tollway was started we were told that once it was paid for there would be no more tolls. Now you are wanting to increase Tolls by 45 cents or 30%. Who do you know who gets that type of increase with their pay? I am lucky if I get 2%. Why can't you live within your means like I am supposed to? I already can't believe how much we have to pay to use toll roads when other states don't have such systems. I highly oppose this increase and think you need to figure out a better way.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/13/26	Tom Simon	60453			X	X	X				Oppose	Haven't you sucked enough money out of us it never ends. Our governor SUCKS & all you people who are doing this all your excuses are bullshit
07/13/26	Dan Pacetti	60441				X	X			More transparency is where all the money for tolls and gas tax are used on	Oppose	This increase is beyond ridiculous! When will it end ?? Gas tax is out of control , tolls are ridiculous expensive and now you want to raise them 45 cents at each tool booth ! Preposterous!
07/13/26	Chris F.	60140	X			X	X				Oppose	An increase is probably warranted. For my route, it is a 62% increase from today, equating to about a $32 monthly increase. That is aggressively excessive. It must be a more incremental increase than that. If this is the only proposal, I am not supportive.
07/13/26	Harry Johnson	60656			X		X			WHERE IS THE MONEY???	Oppose	Lousy democrats and crooked unions have destroyed IL. When the hell will people wake up?? The tolls were supposed to be obsolete from1973 onward!!! Where the F has all the money gone?? Keep voting dem you morons!!!
07/13/26	Brian Freeman	60505	X				X		X		Oppose	This damn state is already to expensive to live in and now you want to raise tolls even more!!! Complete BS! Taxes are insane, same with gas and groceries and now you want to raise tolls! I hope everyone leaves this damn state!
07/13/26	Thom Kirer	60462	X		X		X				Oppose	Collection of tolls on the Illinois highway system began in 1958; the system was funded by bonds and legally promised to cease collecting tolls once the debt was retired. Question: where did all that money go? we've experienced a continuing increase of tolls over those 68 years. Now the Commission is proposing another steep increase. IMHO, the quality of the roads has NOT improved. Maybe we should consider making changes to the membership of that Commission.
07/13/26	Keith Rogers	60564				X	X			Use tax money for legal citizens.	Oppose	If you used the money we already pay to improve the roads maybe toll increases would be warranted.
07/13/26	Dennis Colton	60585			X	X	X				Oppose	I am strongly against an increase. For the last decade I have driven less on toll roads because of the last increase. I avoid when possible because our state continues to spend and raise tolls instead of decreasing spending. It just gives us more motivation to move out of Illinois. I don't know anyone that supports this!
07/13/26	Diane	53548			X	X	X				Oppose	Call illinoisans know that the money is never for the roads. It's always in the pockets of the politicians. Perhaps if illinois managed their money better, they wouldn't have tolls
07/13/26	Wayne Noska	60448	X			X	X				Oppose	They way the toll money could be spent better . Why waste millions on fiber optic line from army trail to I80 not going to make my travels faster. Landscaping done at 127th and 355 , why not spend that money on fixing road!
07/13/26	Nancy Kupka	60517	X				X			Maintenance on the sides of road	Oppose	I think the program is great, but I think the rise in fees is gonna be difficult for those of us on limited incomes
07/13/26	Jodi	60423	X		X		X				Oppose	There is NO reason to raise anymore of our taxes or tollways. We just had an increase and for people that use the tollways a lot I say NO !!!! I'm so done using all the excuses so we can pay for the illegals that the government and governor wants in our state. We the paying people are done!!!! Maybe they should get jobs and start paying for us.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/13/26	Mark Kaspar	60553	X				X		X		Oppose	The leadership of the Illinois Tollway is lost! Illinois already ranks at the top of the most overtaxed states in the nation & you seem to feel that Illinoisans have plenty remaining income to give! We don't! The Illinois Tollway is already overpriced! Many of us are old enough to remember the initial promise that was made when the toll roads were constructed - that the tollbooths would be removed once the construction bonds were paid off. That never happened, obviously. We accepted that fact somewhat easily as the tolls remained low .20,.30 & .40 before I-355 came along at .50 per toll. Here we go! The construction of the Elgin O'Hare saw dramatic increases & now we're looking at a staggering .45 added to every toll! Where does it end? For me it ends with a new commute to avoid the Illinois Tollway completely & I'm sure I'm not alone. Enough is enough. Do we really want to stoop so low as the godawful states of New York & New Jersey with their famously outrageous toll prices? No. Stop biting the hand that feeds you. Live within your means!
07/13/26	Joanna	60301			X	X	X				Oppose	This seems like a very significant increase in toll rates. For me and probably many others who drive a lot for work this may have a counterproductive effect since I and others will be more conscious of trying to avoid toll roads when possible to cut costs. I prefer the convenience of highways of course but the significance of this increase concerns me.
07/13/26	Tina Martino	60004					X	X		Lower tolls	Oppose	The tollway was set up to pay for new roads. Then stop the tolls. Next the tolls were continued for maintenance. Enough is enough. The current tolls should cover regular maintenance. You should have had a large cost reduction when you got rid of all the toll takers. What are you doing with our money? We want more transparency! No increase!
07/13/26	Robert Keding	60202-1653			X			X		Transit alternatives people can use instead	Oppose	Highway expansion will just further increase congestion (see: induced demand). We need to invest in better alternatives like rail, so that the trips that I and others do need to make by car can use the existing road infrastructure more efficiently. I would support toll increases only if they are invested in providing better alternatives for trips and as a disincentive for driving (carrot + stick). Raising tolls and building more lanes will not achieve anything for our region other than increased traffic, emissions, pollution, and death. Highways need to be part of a balanced regional transportation system, but certainly not the backbone and not as the primary way to get around.
07/13/26	Emeri Smoot	60548	X		X		X				Oppose	I don't know anyone who would support this. When is the "temporary" tollway going to end? There is no way you aren't getting enough money from all of us. Stop charging us more for everything.
07/13/26	Ruben	60446	X		X		X				Oppose	Tolls are already high and too many of them
07/13/26	Nancy Kupka	60517	X				X			Maintenance of the side of roads	Oppose	The program sounds great, but the additional toll costs are going to be difficult for those of us on limited income
07/13/26	Daniel Hammer	60084	X				X			NO MORE TOLL RAISES	Oppose	To be blunt. F-this! these toll roads were supposed become free in 1973. All you have done since then is increase rates while not providing anything in the means of improvement. On I-355 every area you have discussed already is not a problem. I-355 is already fairly congestion free north of I-88 with the exception of your construction in the far north sector. What happened to "Toll Free in '73?" All you want is more money to make the roads even worse than they already are while charging more. I strongly oppose raising the tolls to fund governor Pritzker's pet projects to help Chicago. If this passes, I along with many other people I know, will simply stop taking the toll roads.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/13/26	Kevin Dewaele	62249					X		X	Do not increase the cost of anything anymore. Governor pritzker has raised taxes 53 times in 7 years. Enough is enough, stop, stop, stop raising the to live in illinois	Oppose	Do not increase the cost of anything anymore. Governor pritzker has raised taxes 53 times in 7 years. Enough is enough, stop, stop, stop raising the cost to live in illinois
07/13/26	David Jordan	42122			X		X			No tolls	Oppose	You are greedy people.
07/13/26	Gina	60008	X				X			NO TOLLS!	Oppose	I'm totally against higher tolls. Why are we always getting squeezed? Who's managing this money and where does it go? The roads are constantly being worked on but never fixed...you spend $$ on top of $$ on top of $$. What happened to way back when tolls were first introduced and were only going to be for a short period of time? Why are Wisconsin roads in good shape and they have NO TOLLS? Where is our money going? To pay all the administrators? It's certainly not fixing the roads, potholes, etc. It's a vicious constant construction cycle with few fixes/lasting results. Construction is never ending! Stop taking more and more of our money!
07/13/26	Tyler Kiefer	60521	X		X	X					Support	
07/13/26	Joe Brasel	61550			X			X		Don't have regular highways	Oppose	The toll roads was suppose to be eliminated in 1973. Please explain in simple words why they are still needed.
07/13/26	Carly Henclewski	60048	X	X			X				Oppose	Again they have their hands in our pockets and takes away from our family budget...AGAIN! The fact that we cannot get on N/B 94 @ 176 causes our family to not use the N/B toll road to Wisconsin....
07/13/26	Edwin Solis	60629	X		X		X				Oppose	They make enough money on the tolls roads already and the highways look very bad they don't fix anything they just want to profit the money for their own personal things
07/13/26	Joe	60068	X		X	X					Oppose	Driving to Chicago is a chore and I hate it. There's always traffic. I have such little faith that any projects will bear successful fruit. The westbound Cumberland exit is a nightmare and such a headache to navigate. That's my entry point and you ruined it when you expanded it a few years ago. The signage for drivers heading westbound is a joke and explains why it's stop constantly backed up in the mornings. Who designs these exit and entry points? The eastbound Des River road toll booth is another example. Six lanes merge into two lanes; who thought that was a good idea? It's always backed up and now you want us to pay more money to lose more of our time sitting in traffic? Easy pass.
07/13/26	Steven G Ojeda Rodriguez	60428			X	X	X				Oppose	Its crazy that the working class keeps getting the short end of the straw with all these automatic hikes. I already budget my toll charges and still set some money on the ipass account but if i start paying In tolls just on my way to work, what takes me right now to go to and back to work right now I will avoid paying tolls all together
07/13/26	raig Hendrickson	60169	X		X		X				Oppose	Driving and living in the Chicagoland area is already near the most expensive in the country. You collect more than enough toll charges to fund freeway construction projects now. You need to learn to budget your money like every other household, individual, organization, and agency to balance your budget and plan for long-term costs. I am fully opposed to these price hikes to pay for services that should already be covered with existing funds.
07/13/26	Debra Lenz	53406				X	X			Flow of traffic	Oppose	The proposed benefits do not justify the increase in toll fees.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/13/26	Raymon S	53104	X						X	No or Lower fares...Limit Truck Traffic	Oppose	This proposed fare increase would more than double my fares not just a simple 45¢ increase! This expressway was built because IL did not wait for federal funding, which it now receives. Also the removal of coin collection and electronic tolling was to assist in toll removal which has not occurred twice now! The outlined “improvements” do not detail any enhancement or cost savings to me and sound more like rhetoric blah blah blah to me! The meeting notice was late coming out considering the meeting spot closest to me was tonight and in one hour! Please reconsider this fare increase and yet another taxation to IL resident and users of this roadway!
07/13/26	Julie	60430		X				X		Honestly there aren't 3 to choose from	Oppose	The tolls were supposed to be temporary. What happened? Just like the lottery was to support the CPS. Our politicians needs to stop raising tolls and taxes and get a budget.
07/13/26	john maxwell	60430					X		X	No more toll increases	Oppose	No more toll increases ! We don't need any more toll roads. The I490 project should never been a tollway. Tolls should never be used to support public transportation Thank you John Maxwell
07/13/26	James Castellano	60014	X				X			To not let project go-over budgets 100% of the time.	Oppose	It is a horrible move to keep increasing the tool way system when the tool way system makes hundreds of millions of dollars a year and is mismanaging the monies. It should only be budgeting monies for the tool way system and not other budgets outside of the system.
07/13/26	Cindy	62285	X		X		X				Oppose	People in Illinois can’t afford anything because we’re taxed to death! So, take your proposal and shove it!!
07/13/26	Thomas Manata	60178	X				X		X		Oppose	I’m 80 yrs, on a fixed income don’t need to pay more for something that I won’t be using to much longer.
07/13/26	Spencer Bunch-Hotaling	60491			X		X	X			Oppose	We know from decades of research that building additional road capacity for cars does not lead to meaningful improvements in commute times in the long run. In light of this, focus should be maintained on keeping costs affordable for families rather than wasting money on new construction
07/13/26	Brenda Rindler	60137	X			X	X				Oppose	Toll prices are high already! Enough is enough!
07/13/26	Christina Cortez	60126	X				X		X		Oppose	You cannot alleviate traffic, unless you have a magic wand so please don’t say you can
07/13/26	JEC	60523	X				X		X		Oppose	We need to manage with money we have coming from already sizeable tax increases (property, income, sales, utilities, gas), money coming in from the lottery and gambling machines, and all the others. Manage expenses like commercial enterprises. Government always pays 25-50% more for the same products and services.
07/13/26	Barney Eilers	60142	X			X	X				Oppose	A rate increase is fine. However, this is “over the top.” I will avoid the toll road as much as possible.
07/13/26	Laura	60142			X		X			How Illinois is spending my money now	Oppose	You want a .45 increase now and then the freedom to increase at your discretion every 2 years for the next 7 years - Hell no. Illinois has money - you all need to spend it wisely
07/13/26	katie Cavanaugh	60010	X		X	X					Neutral	I chose neutral as my position, I would support the increase if the tollway provided a yearly balance sheet with all the money down to the nickles and dimes and where it is being spent. If people can see where their money is going and know it is being put to much needed projects then no one would object paying.Its lining pockets that people oppose.
07/13/26	Linda Ryan	60491-8713			X		X			affordability	Oppose	A 45 cent per toll increase is outrageous for the average person especially for those who need to use the Illinois tollways for work. Going back and forth is about $1.00/day for $365.00 a year. The traffic is fine on the tollways. We don't need this. Illinois is nickle and dimeing the average person to death. I'm voting for a new governor one who respects the middle class. How does the selection of less traffic even apply to a 45 cent one way increase. Ridiculous
07/13/26		60555	X			X	X				Oppose	
07/13/26	Jason Kruger	60202	X				X			Cost	Oppose	Absolutely no increases. Illinois has time and time again failed to maintain their roads with current tolls, registration fees, and gas tax. Manage the funds you have better and stop nickel and diming residents
07/13/26	Joe Ratzek	60124	X			X	X				Oppose	Everyone is running out of money due to the economy, I use the roads and can’t afford rates going up

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/13/26	Margaret Bednarcik	60466	X				X			We the people can't afford ur price increase especially when ur paying to sit in traffic	Oppose	
07/13/26	Paul	60102			X		X			Tollway was supposed to go away over 40 years ago. Just slush fund	Oppose	Slush funds for politicians.
07/13/26	Brian Henrickson	60142	X			X	X				Oppose	My comment will not matter, but moving out of Illinois becomes more desirable!
07/13/26	Melinda Schulz	60156	X				X			Maintain toll fees	Oppose	Use current tax funds generated by Gov Pritzker!
07/13/26	Colleen Moriarty	60447	X		X	X					Oppose	We've been taxed enough. Let the next administration decide, not pritzker. He's lied about everything he said he wouldn't do.
07/13/26	Tony salkeld	60164	X				X		X		Oppose	We shouldn't have to pay to ride on the roads. Many other states don't charge any tolls.
07/13/26		60142	X				X			Speed control!	Oppose	When was the last time the public heard about expense reduction? Increased revenue is too easy to hide inept management.
07/13/26	Gregg whitebloom	32164	X				X			Greater traffic enforcement by state police. Dangerous drivers	Neutral	Not sure if this huge increase is necessary to achieve to large of an expansion and upgrade in f current today system. Everyone likes access but the huge cost seems way beyond the ability for the average tollway customer to absorb in the current economic environment
07/13/26	M.J.	60561				X	X			Congestions during construction are unacceptable	Oppose	We already pay way too much for tolls. I don't think we can trust that the money already collected are spent wisely.
07/13/26	Peter LaLonde	60025	X		X		X				Oppose	Illinois state tollways make enough money in a daily basis as it is. If more money is needed then where is the money that is made every day going? They must make millions each day. Who's pocketing the cash?
07/13/26	Janice Colombo	60481				X	X			Affordability	Oppose	HELL NO!!!!
07/13/26		60018	X			X				Stop funding the CTA with our tolls	Oppose	Ripping us off to fund the CTA the next time they run out of money
07/13/26	Imeldo Arteaga	60162	X	X	X						Oppose	You talk about improve traffic but you do the opposite by closing entrances ramp. For example I-294 north entrance from Archer Rd. It's been closed almost 2 years now. Just at our workplace hundreds of trucks per week go in and out, but we have to use alternative routes because of this closure. Think about that for a moment, is that improving traffic?
07/13/26	Michelle Kollins	60140	X				X			convenience	Oppose	I think that the IL Tollway authority needs to reach out to Governor Pritzker and get some of that 49 cent gas tax. Currently tolls costs my husband $2,158 a year to drive to work roundtrip. At your new rates, it will be $3,548.00. That is a 60% increase. Over $5K in gas(and taxes) and of that $607 goes to the new gas tax rate. Absolutely absurd!
07/13/26	Susan Hennig	60156	X			X	X				Oppose	Constant spending on roads that questions quality of repairs. Unenjoyable using roads due to constant repairs. Doing this to keep city/state workers happy? For votes?
07/13/26		60417	X		X		X				Oppose	Illinois has some of the highest taxes already toll roads already. Illinois also has some of the worst maintained roads. Where is all this money going drivers cannot afford to keep getting taxed to death.
07/13/26	John	60137	X		X		X				Oppose	Illinois taxpayers were promised that tolls would only be used to pay off the bonds for the initial construction of tollways, and that the roads would become freeways after the bonds were retired. No new tolls!
07/13/26	Mike	60565		X	X					Better on/off exits at 294 and 88	Oppose	The ramp from 88 East to 294 North and the ramp from 294 South to 88 West are the poorest designs possible. Each direction narrows to one lane, resulting in extreme congestion and long wait times. It doesn't appear that there is room for another lane to be added in either case so why would you increase tolls when the toll authority is doing such a poor job?

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/13/26	Rick Anys	60126			X		X			No construction!	Oppose	Once again Hellinois will gouge the people for more money and I'll be stuck driving in construction traffic literally for the rest of my life!
07/13/26		60563	X		X		X				Oppose	I would like to see an audit of the tollway fiscal budget for the last 5 years.
07/13/26	Delores Tanis	60423	X		X		X				Oppose	We already pay a valid toll for use without increasing the toll! The middle man is already being bombarded with increasing prices for gas, food, and, utilities, and everything else, and there is no help available!!
07/13/26	William	60451	X			X	X				Oppose	The toll roads will be under construction for 15 years, thats not helping traffic any time soon. I already pay $150 a month on tolls for my daily commute. This adds another $90. Sounds like some pockets are getting filled on this one.
07/13/26	Mark Azzi	60525	X		X	X					Support	Keep Up The Good Work and Many Blessings.
07/13/26	Craig Sadoski	60051	X			X	X				Oppose	
07/13/26	Ralph Strozza	60632			X		X			Get your construction projects done quicker than how you do now.	Oppose	What happend to toll free by ‘73? You have no credibility whatsoever.
07/13/26	Alex	61084	X		X		X				Oppose	It already costs too much to take the tollway on a regular basis for most users. Your poor management, fraud, and wasteful spending does not and should not constitute a toll increase for an already expensive way to travel. Also, most of the on ramp/off ramp tolls are too narrow.
07/13/26	Jennifer Kucera	60449			X		X		X		Oppose	Too expensive now
07/13/26	James Hanger	60142	X		X		X				Oppose	Tollway does not need any more money. This is all J B’ s money grab
07/13/26	Kevin	60515	X		X					Too expensive it's a rip off	Oppose	I vote no
07/13/26	Clifford R Grounds	60142	X		X		X				Oppose	Tollway should be kept to the tollroads, not the larger financial issue of the Chicago transit system that I never use.
07/13/26	M.Wag	61822	X					X		Maintained within State Budget	Oppose	FREEWAYS ..THESE ROADS WERE SUPPOSED TO BE FREE-WAYS, 25 Years Ago. Enough!
07/13/26	Christine Silva	60148			X	X	X				Oppose	Weren’t tolls supposed to be temporary? The squeeze on the middle class is egregious!
07/13/26		60035			X		X			Cost	Oppose	Opposed to rate increases that drive more traffic on route 41! Route 41 continues to bear the brunt of rate increases on tolls. I dont want more traffic. How long does it take to fix Ohare entrance that exists today. We are over tolled
07/13/26		60656			X	X	X				Oppose	
07/13/26	Gerard Idstein	60565-2913	X		X		X				Oppose	
07/13/26	Megan	60555	X		X		X				Oppose	The state can’t even complete the projects they’ve started years ago! The taxpayers of Illinois are taxed enough. Complete waste of money. All the governor wants to do is SPEND and line his pockets. We don’t have a budget for this project!
07/13/26	Zachary Blink	46323			X		X			I don't have a choice	Oppose	Everything is already too expensive, and charging an arm and a leg to sit in terrible traffic and raising rates with inflation while inflation is out of control is a blatant money grab.
07/13/26	Amrish Majithia	60193	X			X	X				Oppose	I think except for one or two intersections, our road ways are pretty good and do not need more improvement. Just maintain the roads and you are fine. I think the tolls are high anyway. Especially for the people living in my zipcode, we have lot of toll booths at every ramp to and from the highways.
07/13/26	ROBERT MILSTEAD	60432			X	X	X				Oppose	YOU ALREADY MAKE PLENTY OF MONEY WITH THE TOLLS
07/13/26	MARY CAROL MC AULEY	60010			X	X	X				Oppose	I thought that "TOLLS" were supposed to be a short term event.....How many years ago was that?
07/13/26	Colm Mitchell	60463			X	X	X				Oppose	Working families cannot afford this
07/13/26	Ken Osborne	60457			X	X	X				Oppose	As you know, the tollway system was instituted on a temporary basis so adding to this money pit is not an option. We pay taxes for maintenance of our roadways and the Illinois Tollway System should make public how all the current money (billions?) is being spent on projects that always take too long and end up getting redone a few years after completion.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/13/26	Nicholas Harkovich	60018	X				X		X		Oppose	I am old enough that the ILLINOIS TOLLWAY SYSTEM was supposed to pay for itself at a certain point in time and the tolls were supposed to disappear. Well I guess that went the way of the Pony Express
07/13/26	Alecia M Grounds	60142	X		X		X				Oppose	Stop using road funds to fix Chicago transportation issues. We never use it.
07/13/26	Alexis Sacche	60543	X	X			X				Oppose	It seems the construction has been prolonged for years, the amount of money going into the highway does not seem like its being used properly. The exact same construction sites have developed no improvement. I will not pay any tolls if the price increases. Id rather go on strike.
07/13/26	Meyers	60120	X	X			X				Oppose	Find ways to reduce expenditures to afford improvements without toll increase
07/13/26	Amanda	60439	X		X		X				Oppose	That is a huge price increase, don't do it. The roads should already be maintained with the billions of dollars taken in from current tolls. Enough is enough.
07/13/26	Pablo	60641	X				X		X		Oppose	No way I'm I going to allow this Tolls were supposed to end a long time ago now more money is needed I'll never stop
07/13/26	Steven Jarzombek	54234			X		X			Less tolls reduce rates.	Oppose	I'm from Illinois. Remember the first toll road the promise that it would be paid for and then the tolls eliminated. I come to Illinois all the time the tolls are to much.
07/13/26	John Smyrb	60142	X			X	X				Oppose	The Tollway Authority needs to live within or below its means and tighten its belt like everyone else. We're paying plenty now and paying more is just not acceptable. Any increase in funding should either be provided directly by the state, or should come from increased advertising rates on the numerous and unsightly billboards that line both sides of the tollways for miles on end.
07/13/26	Sue Siemek	60119	X			X	X				Oppose	TOLLS HAVE BECOME TOO MUCH MONEY!!!! Illinois has the worst roads and I don't see any of the money toll users are giving has improved roads at all. This is nuts!!
07/13/26	Shawna Stanin	60516		X		X	X				Oppose	I take the tollway often to save a few minutes. I will stop taking the tollways if this raise goes through. Forty-Five cents is an outrageous increase. Fifteen cents would be easier to get used to. The fact that some tolls are already up to $1.50 is bad enough. I only take those roads when absolutely necessary.
07/13/26	James Hoover	60462	X			X	X				Oppose	Instead of increasing tolls why not take all the toll booths down like you said you would in 1973? They were never meant to be permanent revenue generators for the state. And all the money they collect is far more than should ever be needed to keep the roads in a constant state of repair. But the money doesn't go to the roads does it...
07/13/26	Elizabeth Richter	60714	X				X			Accessability	Neutral	Hello, as a recent 294 tollway driver I am concerned that these rates will cause a $3 per day increase to my toll budget. I drive thru three tolls, two of which I take the next exit after the toll and feel that that price increase is unfair for that reason. Thanks
07/13/26	Matt Ruane	60477	X			X			X		Support	Good for traveling
07/13/26		60089	X			X	X				Neutral	Why doesn't Illinois receive any Federal Road Funds? I'd need to understand this before supporting any increases. Why can't you average the toll fees so its easy to manage costs, i.e., all passenger cars pay $1.50 or $1.75 per toll, instead of different amounts depending on where you are driving? If toll amounts will vary you need to clearly post the cost so drivers can determine what routes to take to avoid excessive tolls during daily commuting. These increases impact lower earners disproportionately as the toll is not a progressive tax.
07/13/26	Mike K	60655	X				X			Stop government waste	Oppose	Balance the budget of the state and cut waste before burdening taxpayers with more spending. Another reason to move to another state before taxes get higher. Illinois spending is out of control
07/13/26	John Smyrh	60142	X			X	X				Oppose	The toll rates are too high now! No increase!
07/13/26	Brian Palka	60142	X		X			X			Support	"I strongly support the proposed Illinois Tollway capital program. As a daily commuter, I know firsthand that time is money. Investing in this program is essential to reducing congestion, improving reliability, and modernizing our infrastructure. We cannot afford the hidden costs of aging roads—like increased delays and vehicle wear and tear. This plan is a necessary, proactive commitment to keeping our region moving efficiently and supporting long-term economic growth."

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/13/26		60406					X		X	Low toll costs	Oppose	NO NO NO. Just another excuse to raise costs now and in the future and keep unions busy to get their votes.
07/13/26	Ed Carlson	46385	X		X		X				Oppose	Improvements should include implementation of Solar Panel Roadways that can not only sell clean power to neighboring areas, but will reduce winter maintenance costs as they are self heating so no salt or snowplowing is required. They also have the ability to have variable lane markers with the push of a button for construction, accidents, and emergency vehicle access. Modular panels make replacing damaged sections easy and economical without haveing to tear out and replace large sections at a time. America's roadways are one of the largest untapped space to produce and sell power without taking up additional natural spaces
07/13/26	Thomas Barnash	60016	X				X			Why send the notice only 1 day before the meeting	Oppose	You make enough money now
07/13/26	Richard & Denise Rogers	49441	X		X	X					Neutral	Think about creating truck lanes.
07/13/26	Bobby King	60192	X				X	X			Oppose	This is not necessary.
07/13/26	Jordan Furlan	60120	X			X	X				Oppose	While I might be able to understand some moderate increases in toll rates, a 50+% jump in a time when everyone in the state is already getting squeezed by higher costs and taxes is ABSURD.
07/13/26	Minetta Wallingford	60546-2007	X				X			Eliminating backlogs when you have to sit in traffic	Oppose	Tolls seem to continually increase and tolls could triple in b your proposal. The tollway employees and execs are payed extremely well. Would like better fiscal responsibility
07/13/26	Michelle McMurray	61032-8520	X	X	X						Neutral	I want to say I oppose at this time. I am no politician, just a simple American giving pause and reflection. Why, because of the economy; these oil prices, gas at the pump, job loss, day care prices, after school care programs, cost of school itself. I could go on and on. I won't. How do you expect individual's using the highway on a daily basis to afford this increase along with everyone elses. I am not sure of the numbers but I feel more and more people travel in or near the city for work. Even Metra has it's own flaws regarding rate increases. I have heard individuals from the city are working further out. Parking costs have gone up as well. Most employees have to give a $500 in savings as a buffer for any incease the Metra or parking have. I had just watched a news special regarding, a look at why adult children are moving back home. It is difficult out there, even our own children have had to come and stay for bits at a time due to hardship. The cost of living increases have been ridiculous, a joke, especially for those on disability. I can go into so much more about this but I will not here. Wrong time and place. There are so many plays on the United States' field right now, it is difficult to think about anything else. This conflict (not a war) that keeps coming back and slapping us in the face will get in the way of peace and/or funding new projects for a while. People will buckle down even harder when it comes to indulgence, no extras. Maybe your organization can take a step back and breath. Save up some more donations over the next year and then see were the U.S. stands with this conflict. It's not the right time, let things play out and settle. As the old saying goes; Do not put the cart before the horse. The U.S. has been doing way too much of that lately. Regards, Michelle
07/13/26	Michael Bram	60126	X		X	X					Oppose	The tolls were suppose to be eliminated shortly after the tollways were built in the area. They have not only continued but there are more tolls and are also more expensive each tollbooth that you drive through. It is not the tollway users fault that tolls haven't increased over the years. This is on the tollway authority to justify the need to maintain or increase tolls from year to year. The justification to significantly increase the tolls to partially bail out the mismanagement of the public transportation system in the state of Illinois is NOT the solution. The fees to the public transportation should be increased and any mismanagement should be eliminated throughout.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/13/26	Hugo Bohrfladt	60126	X				X			Not being a cash cow for Chicago and Illinois politicians and union fucks	Oppose	Why bother to comment? The fix is in, the deal is done. Anything a user says is just pissing in the wind.
07/13/26	Not important	60007	X						X	N/A - just answered	Oppose	
07/13/26	Ryan Dean	46321	X			X	X				Oppose	If you increase the tolls to $1.20 per toll. I will have to pay an additional $702.00 a year to use the same toll road I use now. This will cause undue burden to many families and will force them to look for alternatives. Please reconsider such a large increase.
07/13/26	Brian Hagan	54016	X		X	X					Oppose	I do not want to pay more for tolls and at the same time have to deal with construction congestion from all of your proposed projects.
07/13/26	Nicole Fraser	60177	X		X	X					Oppose	Tolls go up but traffic doesn't get better. It doesn't improve travel times and it's gotten to the point where the "expressway" is often slower than the backroads. Pointless to pay more to take just as long.
07/13/26	Ambrose Laura	60491	X				X			Stop remove the tolls! That's what you promised! DO NOT RAISE cost!	Oppose	You told us when you put tolls in that they were gonna be for a short period of time to help put roads in and then you were gonna get rid of them. This is what 10 1520 years later and now you wanna raise them do what you promised, knock it off!!!
07/13/26	David Seifrid	60586			X	X	X				Oppose	We already have automatic gas tax hikes and the most expensive cost to be a commuter in the Chicagoland area, all so that other programs can be funded by money that's supposed to go to infrastructure. Show us you can actually manage the money you currently collect for what it intended before raising rates!!
07/13/26	Joe mihalec	60140	X				X	X			Oppose	You are only going to steal the most net and not use it to maintain the roads living here all my life I can tell the corruption
07/13/26	Jeanette Gonzalez	60156	X				X		X		Oppose	Tolls were supposed to be temporary, we are one of the highest taxed state and on top of that tolls.
07/13/26	Akerus Hughes	60181			X		X			nothing gets fixed so it doesn't even matter you're just stealing	Oppose	My goodness, how much more can Illinois rob its own citizens this is ridiculous, gut wrenching, and downright dirty. How about you lawmakers board members chairman's think about the people once instead of all this money that you all are stealing from us. There's no way these roads are in the same condition. They have been for years yet. I see construction people working on the same projects for instance at Wolf Road in North Avenue by 294. They've been doing construction four years. Nothing freaking wrong with that area. It's like you guys don't even care that y'all rob the people, but guess what I served a mighty just got and I pray proverbs 13:22 the wealth of the wicked is stored up for the just .I pray that Jehovah Shaphat look down on his throne and judge you all for being wicked towards us people. In Jesus mighty name.
07/13/26	Jill Dempsey	60302	X						X	No wait at toll booths	Neutral	It's maddening to pay tolls and then have big delays at the toll booths. Over the past year or two especially, we frequently have a long wait, have to back out of the toll lane when a car ahead of us can not get through, or needs to call an attendant when our EZPass sticker fails to lift the gate. This happens regularly on the Skyway.
07/13/26	Clint L Marvin	60123				X	X			Safety	Oppose	Scheduled automatic toll increases is a ridiculous proposal. This is unacceptable. Your rolls as tollway commissioner requires accountability. You need to go on the record to approve each hike. Pushing through years of toll hikes to greatly increase will be a burden upon our state. This is not doing your duty as public servants. These years of planned increase furthers, The narrative that Illinois is not a business-friendly State. Please do not scare our employers to another state. Illinois already charges more to drive than other states between gas taxes and tolls. Please reconsider this plan.
07/13/26	Jeff	60441	X				X			Stop	Oppose	Hey, you fat fuck quit fucking raising the tolls we're not even supposed to be paying tolls we were promised that we were gonna take the toll boots out just another bullshit story from Illinois government

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/13/26	Phong Nguyen	60462	X			X	X				Oppose	I don't want to raise toll fee.
07/13/26	Evan	60565	X		X		X				Oppose	Absolutely no more increases to tolls and taxes. We are taxed beyond belief. Balance the budget and use the proceeds from one of the highest taxed states to fix this without an increase to residents.
07/13/26	Sandra Reed	60950	X				X		X		Oppose	I oppose the tollway increase, because costs continue to rise on food, gas, etc. These increased costs are difficult for a senior like me and others. Please do not increase tollway costs any time soon!! Thank you!
07/13/26	Amra	60153	X		X		X				Oppose	Why do we have to always suffer and pay more when we already paying taxes??? Tools are already high, why make it even higher? I know that is not going to end on that, it's gonna get worse. We gonna end up paying $3-$5 for a Toolway in the next few years. You should ask a governement for the help, not the people who already are paying taxes so much.
07/13/26	Gail	60130	X				X		X		Neutral	Once was told in the 70s that tolls were temporary not permanent... I understand the cost associated with maintaining roads.the Illinois residents that live in these areas not every Illinoisian shares this burden. Affordability is becoming more difficult in our state especially for seniors.
07/13/26	Bill	60107			X		X			Eliminate user fees	Oppose	The pay as you go toll system was to be eliminated decades ago.
07/13/26		60074			X		X			Not paying tolls	Oppose	Stop being greedy fucks
07/13/26		60714				X	X			Temporary tolls	Oppose	Just another scam similar to the never ending “temporary” original tollway funding program that has always caused traffic jams.
07/13/26	Mark A Peterson	60465	X			X		X			Oppose	As a local 150 member, I know firsthand the importance of investing in Transportation infrastructure. The driving connections program will improve mobility, create jobs and strengthen communities throughout northern Illinois.
07/13/26	AT	60527	X		X		X				Oppose	Yet another cost of increase to the IL taxpayers. The state needs to find other ways to generate money outside of continuing to come to the well of its taxpayers to yet again increase. We already have the highest gas prices and property taxes but please increase the cost to drive on the road.To remind everyone this was supposed to be temporary way back when it was implemented my how far we have come. $150 to fill your tank and $10 a day to drive on the highway to work give me a break. Not to mention there’s always construction and never an end to it.
07/13/26	Jeffrey Wyler	60060	X			X	X				Oppose	
07/13/26	james hendricks	61801	X				X	X			Oppose	yo
07/13/26	John Cahill	60192-1836		X		X	X				Oppose	I'm a retired senior citizen and this will be a hardship for me, especially with the increased cost of gasoline and everything else.
07/13/26	Nicole Kendros	60046			X	X	X				Oppose	
07/13/26	Carole Kabel	60660	X				X		X		Support	Any discount for seniors? That would be much appreciated, thanks.
07/13/26	TANYA SIMUNIC	60440	X			X	X				Oppose	The people of Illinois cannot afford another increase in tolls. This increase that is being proposed is extremely high. I oppose this campaign. The increase in water, electric, gas, property tax, you name it it went up at a faster rate than it should have. We dont need the toll to increase as well. We just can't afford it.
07/13/26	Merlyn Robinson	60652-2422			X		X		X		Oppose	Why is Il. Always being nickel and dime. What are our politicians doing?
07/13/26	Michael O'Toole	60133			X	X	X				Oppose	OPPOSED People in Illinois are already getting destroyed by high taxes. If IL Tollways increase their rates as proposed, I will boycott the Toll roads, and also recruit all of my friends, neighbors and relatives to do the same, Working class people in IL do not have the money to pay, pay, pay for all these grandiose schemes. This has to stop.
07/13/26	Mikida	60446	X		X		X				Oppose	We are already paying too much in tolls along with all the other increases in taxes in IL. Enough already!
07/13/26	Sean zingler	53098			X		X		X		Oppose	Toll prices are getting out of control. No need to keep jacking up toll prices. Going to keep running business out of the state with toll prices.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/13/26	Jeff Gierut	60440			X	X	X				Oppose	My tolls on 355 are already 90 cents. I can't afford a $6 trip to work with these proposed increases. Keep in mind that very few of us make any cost of living and are on fixed income. I suppose I can always take side streets and avoid your roads completely. I respectfully oppose this huge rate increase.
07/13/26	Amanda Schumacher	60074	X			X	X				Neutral	I completely understand the importance of maintaining roads and updating processes but this is the WORST time to be doing that with everything going on in this country try right now. People in the US and in IL can barely put food on the table and keep a roof over their heads and you want to increase toll prices? Gas is already at an all time high and will be likely staying that way for a long time to come (if we even have any left soon, because of this whole issue with Iran). I just feel this isn't the time to be talking about doing a large project like this. I get that roads need to be maintained and updated, etc. That is very important. I guess I hope this project is explained mor throughly because all the links provided say essentially the same thing which is just that this is going to be to provide much needed updates to make it safer and more affordable to drive (which makes no sense if you're increasing prices)
07/13/26	Esteban Serrano	54956			X	X	X				Oppose	Despite all the roadwork and improvements on the tolls, especially I 294, drive times haven't improved. I can clock traffic for rush hour but now find myself in traffic jams on low end hours on weekends. Also, at a time where therehas been a significant increase people are financially challenged along with perceived fraud in primarily democratic run states, I cannot remotely support a toll increase that will make my commute to Illinois harder.
07/13/26	Frank rosa	60172			X		X			The cost is absolutely ridiculous!! From Army Trail rd to I-80 it's $7.00 that's three tolls. It's out of control wasted spending by the governor!!	Oppose	Once the open road tolling system was installed the signs informing drivers tge cost of each toll!! Total bullshit!! They cost has risen without notice to drivers!!
07/13/26	Nicholas Dillon	60447	X		X		X				Oppose	The tollway already brings in well more then is needed to operate and maintain.
07/13/26	Nicolas Bede	60103	X				X			Toll free since '73	Oppose	Toll free by '73
07/13/26	Mike	60193	X				X			Free travel	Oppose	No more tolls. No more tolls hikes. Stop taxing us relentlessly. People are already fleeing the state
07/13/26		60181				X	X			Faster drive times than stoplight-heavy roads	Oppose	I understand the need for well-maintained infrastructure and the challenges of going so long since the last increase; however, the average person CANNOT afford ANOTHER financial hit in this economic climate. I usually support public funding for public infrastructure, but not hikes this large at this time. This proposal is well-intentioned but terribly timed. Please no.
07/13/26	Concerned Citizen	60110	X				X			Accountability for Illinois Tollway management	Oppose	The Illinois Tollway has mismanaged funding since it inception. Illinois taxpayers are already among the most overtaxed people in the world. Increasing toll pricing will not fix the roads. Holding public officials accountable is the only way to improve Illinois' toll roads.
07/13/26	William Marineau	60540	X			X	X				Oppose	While I think the increase is rather steep, the automatic raising of rated is unconsionable and corwardly. I think you should have specific plans before you come asking for more money. You are all just corrupt Illinois politicians just like the rest of them.
07/13/26	Eva De Leon	60026	X		X		X				Oppose	The tolls should have been free since 1973 but continued on. Billions of toll fees has taken to have the funds to maintain it for decades.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/13/26	Mark	60174		X			X			I dont agree with three or even two. I barley agree with one.	Oppose	Where is all the money from tolls going that are paid everyday? Its not to the toll booth operators that are no longer needing pay and benefits....so how many cars and trucks pay tolls everyday in illinois and how much money is made from that and where is it.being spent? I have a hard time figuring out how citizens need to continue paying this taxation without representation. I feel the illinlis tollway needs to budget better and be transparent with nkt only how much we spend on the construction projects, but why those companies won the bid over others. STOP TAKING OUR MONEY!! Wisconsin doesn't have tolls. Their roads are waaaay better.
07/13/26	Julie Player	60189			X	X	X				Oppose	I am not in favor of increased tolls. I purposely look for ways that avoid tolls because the tolls were a temporary solution that has now become permanent and ever increasing.
07/13/26	Daniel Brinks	60089	X		X		X				Oppose	Illinois government need to manage money better and stop charging more tolls and taxes on people.
07/13/26	3	60439	X				X			Too expensive	Oppose	Tollway is supposed to be a freeway THE original bonds were retired. They lied to Il citizens.
07/13/26	Barbara Holloway	60525	X		X		X				Oppose	I am sick and tired of these outrageous toll increases. It needs to stop and tolls need to be reduced immediately.
07/13/26	Rajko Nisavic	60803	X			X			X		Oppose	Illinois people are already taxed enough.
07/13/26	Kent G	61270-2547	X				X			Nothing else	Oppose	There is so much waste ... built all those new overhead walkways and collection booths only to be closed up months later when auto-pay cameras were installed. AND... the dozens upon dozen "crash investigation" pull overs. What waste of money. New mile-markers every tenth (1/10) of a mile... again waste. I can add more to the list if you wish.
07/13/26	Steve	60016	X			X	X				Oppose	For a system that was supposed to end more than 50 years ago and has collected more than 25 billion dollars in that time, and they are already collecting more per year than their operating costs. How much more does this Administration want to keep nickel and diming the illinois residents. It's great that a billionaire keeps making decisions for people who are struggling in a state with one of the highest taxes in the country. This state doesn't care about its citizens, it only cares about the government officials lining their corrupt pockets
07/13/26	Thomas Cetera	60007	X				X			Enforcement of speed limits and detention of reckless drivers	Oppose	Since our current multi-billionaire governor first took office, state taxes and fees have greatly increased, even out pacing inflation, all in the name of providing benefits to tax payers. In reality only a modest portion of the annual revenue earmarked for infrastructure improvements has actually been spent. Where did the balance of the revenue go? Was it spent on purchasing commodes for the Pritzker residence? Or perhaps used to pay for Ozempic to allow the governor to present a healthier looking image when he runs for President in 2027? Why anyone stays in this state is a mystery.
07/13/26	Thomas Johnson	53089	X			X	X				Oppose	I don’t oppose improvements to the system but I do oppose the scale and the lack of controls on rates after 2 years without anyway to stop it. That’s an unacceptable level of accountability for me.
07/13/26	Robert Hreno	61036	X			X	X				Oppose	So the biggest contributor to damaging roadways is heavy commercial vehicles yet you decide to charge independent cars to pay the biggest portion. You sound like the horrible politicians we are currently are enduring. In case you don't understand I'm saying that you have the suggested increases backwards. Have you not heard about affordability is damaging everyone?
07/13/26	Melanie Sipiora	60540				X	X			Unjustified tax increase	Oppose	How you could propose another increase in these times is not intelligent
07/13/26	Theodore mikos	60047	X				X			Repair of suburban tollway	Oppose	From what I have read, most of the money from the increase will be going for Chicago roads. That seems unfair to the rest of the state.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/13/26	Robert Willis	54481	X		X	X					Support	I don't drive Illinois tollways often, but when I do I am impressed and pleased with how well the roads are maintained and how well snow is removed. Illinois does a great job with your tollway roads. If it takes a few more $$ to continue that level of excellence, you have my support (for what little it is worth). No one likes to pay more for what they have been receiving, but there is not a segment of our economy that has not been affected by increased costs of labor and materials. It should be clear that the Illinois Tollway is not immune to those increased costs and in order to maintain the excellent roads you have, those costs must be fairly passed on to the users of your services. Thank you for the excellent job you do. (No! I have no connection whatsoever to the Toll Authority. While I am a very first user of the iPass system years ago - again, well done! - I reside in central Wisconsin with family still in the Land Of Lincoln, which is some ways - not many - I miss. RW
07/13/26	Ken	60448			X	X	X				Oppose	As a daily commuter my daily toll fees would double the first year and then increase with a progressive increase much like the gas tax in Illinois. The money that was supposed to be used for road improvements were used to bail out the CTA. A nominal increase would be more paletteable when the working people of Illinois are getting squeezed everywhere, getting to work should not be one of them. Please stay independent of state policies. No one is getting a 100% increase in their salary it is already difficult to keep up with inflation, getting gouged at every toll is ludicrous and not responsible by the board.
07/13/26	Susan Chochola DeLorenzo	60501	X	X			X				Oppose	The Tri State Tollway was created with the promise that it would be paid in 10 years! That was 1960s Since then it has been nothing short of a money pit and I'm sure it's making BIG PROFITS! NO MORE INCREASES!
07/13/26	brian fichtel	60505-5238	X				X			Stop taxing us to death ,I have already reduced how much I use the toll after the last increase a few months	Oppose	If this happens I'm stop my I pass will never use toll way in this state again
07/13/26	Tyler Kiefer	60521	X		X	X					Support	
07/13/26	Melanie Mikulskis	60187	X				X			Maybe if the roads suck, people won't drive like jerks	Oppose	The cost of living in this state already is absurd. What is happening to all the money you already receive from tolls? You don't pay toll workers any longer, this is not acceptable. Find another way
07/13/26	Joseph Humann	60107	X		X	X					Support	
07/13/26	Brian	60156	X	X	X						Neutral	As a member of IUOE Local 150, I support the Illinois Tollway's Driving Connections Capital Program. These investments help maintain and improve the roads and bridges that millions of people rely on every day while creating opportunities for skilled construction workers.
07/13/26	Gueorgui Gueorguiev	60450	X		X		X				Oppose	Currently multiple projects are done with obvious suboptimal results requiring beeing redone. everyone can see mismanagement of resourses and working force
07/13/26	Eugene Yturralde	60060			X	X	X				Oppose	I strongly oppose the proposed toll increase. In the Chicago region, tollways are not a luxury, they are a necessity for millions of working families who rely on them every day to get to work, school, medical appointments, and childcare. Increasing tolls by another 45 cents per trip may seem insignificant to policymakers, but for commuters who travel these roads daily, it adds up to hundreds of dollars each year at a time when families are already struggling with housing, food, healthcare, and transportation costs. Tolls are inherently regressive because every driver pays the same amount regardless of income. A 45-cent increase has little impact on a high-income commuter, but it places a disproportionate burden on lower-income workers, many of whom have no practical alternative route. Illinois should not balance transportation funding on the backs of those who can least afford it. Before raising tolls again, lawmakers should explore more equitable funding solutions that do not further penalize residents simply for driving to work and supporting their families.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/13/26	K H	60202	X		X	X					Oppose	Tollway is already a scam. You guys should release public audits of all of your finances and they should be transparent to the people. I'm positive that if you did that, people would just stop paying tolls altogether.
07/13/26	Jeff Kochan	60189			X	X	X				Oppose	Stop raising toll prices and work with what you can afford and negotiate better contracts with less overpaying.
07/13/26	Kenny	53051	X		X		X				Oppose	You don't need to increase tolls you just need to get your crooked government to stop spending all your money the rest of us can't afford your total increase
07/13/26		60538	X		X		X				Oppose	Weren't the tolls supposed to be temporary in their entirety? Beyond the pale.
07/13/26	Paul Robinson	53168	X		X		X				Oppose	I grew up before the toll road system existed. We all heard what we know now was the great lie, "the toll booths will be gone when the roads are paid for". Now it's just a cash cow to fund the idiocy that forced me to leave the state I grew up in 13 years ago. We don't kid ourselves that any of these comments with keep you from taking more of our hard earned money. The only reason I come back to IL is because my father still lives there. I can't speak for others, but if time is not of the essence, I will drive back roads to get to my destination rather than pay these egregious tolls.
07/13/26	James Kohout	60560-9483	X		X		X				Oppose	How are you using all the gasoline tax money that the State is collecting ?
07/13/26	Bob Amstein	60448				X	X			Tolls are already too high	Oppose	Illinois needs to cut spending not raise tolls. Surrounding states have no tolls, lower gas taxes and better roads. How are they able to do this and Illinois can not. Two words mismanagement corruption
07/13/26	Matthew Fearnside	53511			X	X	X				Oppose	We already pay enough in tolls. Illinois needs better money management.
07/13/26	Katie Banik	60554			X		X			Safety	Oppose	This increase is too high! Taxes and gas are already astronomical and now we will have to pay even more to just drive on the road? No thank you
07/13/26	Renae	60404	X		X		X				Oppose	
07/13/26	Peter	69193	X		X		X				Oppose	Today's tols are congested and 30% increases to comercial traffic put higher prices on goods , and more truck on streets avoiding the tolls so more congested streets and lower safety!!
07/13/26	Zafar Sheriff	60169	X				X		X		Oppose	I appose this rate hike. Tollway program was supposed to be temporary, all it does is just make customers pay more. Changes don't match cost of inflation.
07/13/26	Steve W	60532	X				X			better interchanges along 355....poorly designed, constant backups	Oppose	Poorly designed interchanges should not be on our backs, you need to fix those on your dime, we're all tightening our budgets, it should not be any different for you!
07/13/26	Keith Werner	60120	X				X		X		Oppose	Since the no collection toll system the Illinois Tollway has been getting the same price for a car with a single axle trailer as charge for a large box truck with 3 axles (16,000 lbs +) from millions of vehicles. Sounds like over charging to me already. And increases with CPI, how does a senior get ahead or even keep up for that matter. Give me a break!
07/13/26		60103				X	X			commute time	Oppose	TAX THE RICH. stop increasing taxes for regular people. this is killing the middle and lower class.
07/13/26	Chad Roszkowiak	60002			X		X			Safety	Oppose	We pay enough already, and this will hurt the working class residents that live in the state.
07/13/26	Pam Schnecke	60103			X		X			The only factor is affordability-there is always high traffic	Oppose	So my tolls will go up approximately $8 per day. $40 per week. Over $2000 per year and that is just the drive to and from work! Add to that the additional taxes imposed on gasoline-wages do not go up at the same rate. Then the domino effect . . . higher prices in stores to cover this additional cost.
07/13/26	Jay Sean	60140			X	X	X				Oppose	Illinois is already sucking us dry with taxes and this is another way to steal us blind in the name of better roads and traffic, while giving us nothing in return.
07/13/26	Jay Ilg	60516	X			X	X				Oppose	Tolls are high enough and the schedule of increases is ridiculous.
07/13/26	Daniel Sheehan	60659	X		X		X				Oppose	
07/13/26		60656	X		X		X				Oppose	What happened to it becoming free Other states keep their roads in shape without tools
07/13/26	Cathy	60487	X		X		X				Oppose	A raise in tolls is unacceptable in today's economic world. The proposed 45 cent increase is higher than a 50% increase!

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/13/26	Damon Olson	60441-3360			X	X	X				Oppose	I am OK with toll increases except for those along the I-55 to I-80 corridor. These tolls are already ridiculously expensive. Just to get on that extension at 159th street going north it's already $1.45 for like a 10 mile drive. Then I have to pay AGAIN if I want to continue north. Thats just insane.
07/13/26	Khalid Ali	60465	X			X	X				Oppose	
07/13/26	Robert Brown	60525-2740			X		X			Get rid of tolls	Oppose	Post your Financials for the last ten years. Do employees get pentions?
07/13/26	Dawn Milhouse	60604-4107	X		X		X				Neutral	
07/13/26	Thomas Frixen	60411	X		X		X				Oppose	I feel money has been wasted! We cannot afford more money to run the toll rd. Fix it with what you're collecting now!
07/13/26	John Tait	60050			X		X			More lanes	Oppose	Illinois is already so dysfunctional in spending money we don't have. People and businesses are fleeing Illinois just like Gov. Pritzker proposed: If you don't like it here, leave! If we wait long enough this won't be a problem any longer. I wonder how many people have their hand in the coffers of the Tollway funds that don't make it to upkeep. (The issue of trust.) To me the tolls should not exist. I doubt if the different projects planned will make a difference, at least for the great cost. What is needed is more lanes, esp. express lanes built over existing tollway if necessary.
07/13/26	David Charles	60077	X			X	X				Oppose	I'm a democrat in a democratic state. However, our states assault on the middle is never ending and not sustainable. A perfect example of this is your own explanation of the increased tolls. A big increase and then a tie to the CPI. A tie to the CPI is a good idea. The problem I have with this fiasco is complete incompetence in planning. So now we have a "catch-up" plan which is a big unnecessary hit. You have all the data you need to make accurate predictions of future costs. The math really isn't that hard. The real problem with every government agency is you NEVER look at ways to cut spending and ALWAYS grap the tax knob and turn it up. As an example, agencies are encouraged to use their entire budget or face cuts. So spending has no correlation with need. It's related to, and encourages, spending. An increase in any tax or government spending should NEVER exceed the rate of inflation. As a last example of why this scenario is not sustainable: If your household spending exceeds inflation and/or your compensation at work would you have any expectation that you should simply request, and be granted, a raise? That is essentially what all government agencies do. The only difference is they don't have ask for a raise, they just take the money from the taxpayer.
07/13/26	Thomas	60475			X		X			be free	Oppose	The tollway should have been paid for by now and be a freeway!
07/13/26	No Way	60543	X				X			Not paying higher tolls for even shittier roads.r	Oppose	Why the hell would I want to pad the pockets of the local politicians even more than they already are?! You tried this shit before in the 'interest of public health, safety and usability.' Go fuck yourself. That's my opinion you cheating bastards!
07/13/26	Jerry	60655	X		X		X				Oppose	Question, as the tollway would like to increase the toll rates for construction to build better roads but as for the last 7 years the tollway been under construction and waiting in traffic during the construction what are we getting for our money while we are sitting in traffic. Also the tollway been under construction either one end of the tollway or the other end and sometimes in the middle. As long as I remember the tollway was always has construction and I never remembered it NOT under construction, If construction is being performed it shouldn't slow the roads as long as the public is being paid.
07/13/26	Katherine	60418			X		X			Affordable tolls	Oppose	When i run out of money in my budget, I cut from something else. I dont demand that everyone around me pay 50% more for an item. Especially in a state that is raising the taxes on everything else already

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/13/26	Susan V	60554-2016	X		X		X				Neutral	I understand the need to increase tolls one time as maintenance costs have increase. I am concerned about increasing costs every other year based on the CPI; as a senior receiving social security, the COLA does not cover overall increased costs of goods and services; this would include a biannual increase in tolls as well.
07/13/26	Eric Duray	60517	X		X		X				Oppose	The Governor signed an increase that directed tollway funds to public transportation (Train and Buses). That's already a misuse of tollway funds to subsidize non tollway projects. Now this proposed project aims to make tollway improvements. This proposal should be scaled down and it should not receive automatic increases every two years. Once the final scope is approved and costs determined it should be a fixed cost project. Once all debt is paid the tolls should be reduced. One time project funding, we should not continue to increase tolls in perpetuity.
07/13/26	Alexandra Mayo	60188	X		X		X				Oppose	Simply put, I will not use the toll roads in Illinois anymore if the rate increase is imposed. As it is I already avoid using toll roads and they are a last resort for my family, friends, and I. I can justify paying 65 cents to $1.75 per trip when it saves me 10+ minutes but I will not pay the proposed tolls. It's ridiculous and I much rather spend more time on the road taking main roads and side streets than pay the increased tolls. Especially when it takes longer to travel on the toll roads than it does on a route with no tolls. I rather keep moving than sit in traffic I paid to be in. The plan claims it will alleviate traffic but this is Illinois and traffic will never not be an issue especially when there is consistent ongoing construction that takes several years to complete.
07/13/26	Sue iverson	53546					X	X		I'm not really concerned with any of the options except if coarse affordability when I travel in Illinois	Oppose	I think it is already extremely expensive to travel on Illinois highways. We love chicago and fly out of ohare often. It is becoming cheaper to visit/shop or fly out of Milwaukee or Madison when factoring in toll expense and cost of parking.
07/13/26	Dolores Duncan	60110	X			X	X				Oppose	Those of us on fixed incomes already struggle with tollway costs. Don't add to our struggles. I would like to see transparency in money use
07/13/26		60137	X	X					X		Support	Toll roads are the best maintained roads we have. I'd rather pay slightly more for a toll than expensive repairs to my car.
07/13/26	Steve Pan	60618			X		X	X			Oppose	The illinois tollway is an overbuilt monstrosity that exists to perpetuate itself through continued capital projects of spurious value in order to continue charging tolls. Ironically, the segments of the interstate (kennedy) that are the most congested and could use tolling are not under consideration. Instead of expanding even more suburban boondoggles, get the ILGA to amend the toll highway act to shift the tolling from overbuilt surburban expressways to chronically urban city highways.
07/13/26	Mike Golightly	60118	X		X		X				Oppose	You have monopolized driving anywhere in Chicagoland. Hard to believe the current level of daily income cannot be sufficient. Maintain the roads as is and get special bonds for all huge infrastructure projects that apparently overrun in costs and require more taxation. It's as if you look for things to spend money. Maybe cooperate with the federal government and get some grant money. Illinois tax payers are broke.
07/13/26	Rich Glogovsky	60048	X			X	X				Neutral	Hi, You send this email out today received at 1:15 PM. The day of the public hearing in my area is today at 6 PM. Not a very good lead time. The Tollway should have had a better planning process in these increases. I understand that increases are necessary, but a gradual increase would be easier on the riders. Also, is it not possible to use some contractors that are non-union? I do not believe that you are a public entity that demands union contracts. Thank you.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/13/26	Donald Wolverton	60613	X		X		X				Oppose	If this state would not support illegal aliens they have plenty of money instead of taxing American citizens that work. The Governor sucks and so dos the mayor giving free thing to people that do not deserve it as they are either illegally or too dam lazy to work. The dam commie Democrat's really suck..
07/13/26	Ian Keith	60515	X				X			Less tolls	Oppose	Until the plans for this money are made explicitly clear I strongly oppose this initiative. If this is to continue to fund a failing transit system within the city of Chicago, once again asking the suburbs to bail out the city, I would again strongly oppose this proposal.
07/13/26	Dawn Flippin	60115					X		X	More direct route with roads greater than a single lane in each direction	Oppose	This is nothing more than greed. Is the state looking to provide additional reasons for people to leave?
07/13/26	Phil Bauscher	61032			X		X			Raising tolls sucks	Oppose	Why is most of the USA able to have interstates and no tolls? The tolls were only suppose to be temporary and there should not be annual increases tied to anything. This is just another reason to avoid these roads and drive business from Illinois
07/13/26	Lawrence Foote	60046			X		X		X		Oppose	why am I bailing out Chicago transit with toll money
07/13/26	Resident	60463			X		X		X		Oppose	Certainly, this your presentation is quite glossy; however, we have seen your profit margins. You do not need to raise tolls. Weren't these road supposed to be "free" over a decade ago?
07/13/26	WILLIAM SHEPHARD	60429	X		X				X		Oppose	
07/13/26	Michael ackmann	61072			X		X			Adopt other states programs. Our roads are horrible and cost too much. Cut the fat. Your " 3 choices"create a false statistical bias without an option to oppose	Oppose	Stop wasting our taxpayer and funds from a road that was going to pay itself off decades ago. Stop spying on tax payers with a camera every mile, headlights are on cars for a reason and in insurance companies lobby for "safety" maybe ask why before approving I don't agree with 3 options above, your creating a false statistic on this the "less traffic "is not my choice but in order to be heard i have to pick
07/13/26	John smith	60061	X				X			To make it affordable not increase it when you where 15 million ahead	Oppose	Stop with the pritzker new taxes or increases
07/13/26	Tony m	60157	X			X	X				Oppose	I would like to see a way for senior drivers to get a discounted toll rate. I can see the program being tied to the Ipass program. This would make driving more affordable in this state for the seniors. Other option would be for seniors to jump relocate to a more affordable state.
07/13/26	Ron Chuman	60139	X				X			Don't raise	Oppose	Make an audit available online.
07/13/26	Sheri	60123			X		X			See my comments below	Oppose	While I agree the roads need improvement, I do think the IL TOLLWAY needs to get their books in order. They need to make sure payroll is not being abused before coming to the public for more money. We too, have limited income to share with state services.
07/13/26	Dan Jenero	60192-4147	X		X		X				Oppose	How many times are you going to raise the tolls? Enough is enough !!!!
07/13/26	Deborah Armin	60540	X			X	X				Oppose	I already avoid the tollway at all cost. You need to live within your budget just as people have to do.
07/13/26	Tobin Carol	60655					X		X	Cut back tolls	Oppose	Too expensive already!!
07/13/26	Judy Greenwald	60089	X			X	X				Oppose	Why does the last toll on Il 355 spring creek cost twice as much as the other tolls. It costs me almost $8 to visit my grandkids from the northern suburbs. We are being ripped off. I have several cracks in my windshield from debris on the road. Who is going to pay to fix it? Please let me know where to send the bill!!

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/13/26	Mike	60148			X	X	X				Oppose	Most states don't even have this system and when they do they don't have that many spots that cost money. Once rate changes like this happen then it opens Pandora's box and will just always increase like an HOA which people I'm sure just love. So please no increased rates. This state has enough high taxes for things.
07/13/26	CJ	61701	X	X				X			Oppose	This is blatant theft. The revenue continues to pile in from gas taxes, tolls and everything else yet the roads are terrible. Over taxes, and under delivered!
07/13/26	Mystic	60466	X			X	X				Oppose	Illinois residents pay astronomical taxes on our income, every purchases, food sales, our homes, our cars, our medication and health services, our water, our electricity, our heating, our education; we also pay additional fees and charges for all of these services. Most residents take the toll roads multiple times a day, to charge and additional 45 cents per car has the power to cripple families and individuals barely making enough to get by. Money and funds need to be properly allocated to support these projects instead of us never being able to make enough money to survive. At some point the pros of a generous government in the dime of the people with no additional support, focres people to make decisions favoring change. It is difficult to watch our leaders thrive and live comfortably while the rest of us can never do enough.
07/13/26	Larry	60172	X				X			Too expensive	Oppose	I will be using the tollway less
07/13/26	Se l	60544	X			X	X				Oppose	I'm already rerouting local roads.....can't afford it.
07/13/26	Scott	60056		X		X	X				Oppose	You have to be clinically insane to "support" this ridiculous increase. We already pay some of the highest taxes (for nearly everything) in the entire country and now you want to squeeze hard working Illinoisans for more??? I can't OPPOSE this enough!
07/13/26	Mateusz Pankiewicz	60083	X				X			Quicker completion of construction that is never ending.	Oppose	There is more than enough money collected from the tens of thousands if not hundreds of thousands of cars that travel the toll way daily. This is just another cash grab and an unnecessary increase in costs to travelers. The construction is never ending and takes longer than it should, the amount of toll ways have increased and all we need is better use of the current funds. I am absolutely against another money grab that the state of Illinois, my home for over 16 years now, has gotten so use to.
07/13/26	Uncle sam	60048	X				X			Start enforcing keeping the semi's in the two right lanes	Oppose	I am absolutely against this rate increase! Get the money from all the crooked Democrats in Illinois. You'll have plenty left over.
07/13/26	Yolanda B	60411		X		X		X			Oppose	Not really seeing how an increase will help the economy, especially for commercial transport. The consumer pays on both ends. We pay you an increase to ride on the roads, then we pay more when shopping for goods because the commercial costs will be passed on to the consumer. So the consumer will be forced to pay more without a payroll increase, or stay off the toll road unless absolutely necessary. So, if we stay off the road, you'd charge more to make up for the funds you've lost because we chose a different route. Or, is that what you're hoping for... that we take a different route? Is so, then just say that. The amount of construction is a deterrent anyway, now this will surely make us think twice about using a "short cut."
07/13/26	Ted Yirsa	60440	X	X			X				Oppose	
07/13/26	David Latkowski	60462	X			X	X				Oppose	This tollway is always under construction . The toll price increases are getting out of hand . The toll was supposed to go away years ago. Our government again keeping the middle class down . Ridiculous.
07/13/26	Dodel	60586			X		X			No more increases and waste	Oppose	Will be leaving state as you cannot continue this to citizens.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/13/26	George Hoffman	60102	X				X		X		Oppose	IL is always looking to increase the burden on taxpayers! It's frustrating living in this state since 1992 and with energy democratic governor and a state controlled by Democrats we are at their mercy! I have always voted for the best candidate not by party affiliation but seems like "every democratic" individual elected increases tax burden on taxpayers!! I can understand why residents are fed up with taxes both state, local and school districts and now Tollway Commission wants more of taxpayers monies to pay for improvement!! Where does the money collected from tolls go and with savings realized buy automation of roads and increases in tolls there should be adequate funds to make these improvements without putting the extra burden on taxpayers!! We also need to hold many accountable for their receiving aid from the state and local entities and not really needing such!!
07/13/26	Ron Pufahl	60510	X		X	X					Oppose	This was all suppposed to be funded with earlier toll prices. We've heard it all before - maybe this is how Pritzker thinks he's balancing the budget. What a fricking joke
07/13/26	Lakeisha Starnes Muhammad	36207	X		X		X				Oppose	I don't live in Illinois 1so I feel I should have to pay for it
07/13/26	Wanda Hall	60148	X		X				X		Oppose	I remember when the Toll Authority was established. The promise was tolls would be non-existent when the original toll roads were paid for! Never happened, did it. I swear I-294 is permanently under construction.
07/13/26	Chris Szostak	60643			X		X		X		Oppose	Tolls arealready to high. It never ends. The state never has enough money. Pritzker must go.
07/13/26	Mark Belew	60047			X		X			Lower tolls	Oppose	Please cut your expenses and live within your means like your tax paying public has to.
07/13/26	Charlie Clarke	60649	X		X	X					Support	LETS GET IT DONE. GREAT IDEA
07/13/26		60490	X		X		X				Oppose	
07/13/26	Brian Staal	60473	X		X		X				Oppose	I personally avoid the tollway and then most of the time I use I 80 ramps
07/13/26	Peter Drevs	60618					X		X	Stop spending money you corrupt filth	Oppose	Our roads are fine and resurfacing does not cost 26 billion. Stop giving payouts to corrupt contractors
07/13/26	Shannon fields	60518	X				X		X		Oppose	Absolute bullshit. Charging us for roads to drive on, never ending construction as well. Pointless
07/13/26	A Stephens	60540-7919	X		X		X				Oppose	
07/13/26	Karen Karmazin	60067	X		X		X				Oppose	I strongly oppose this 45-cent toll hike and the proposed automatic inflation increases, especially given that Illinois residents already face the heaviest property, sales, and gas tax burdens in the country. It is completely unacceptable that we pay the highest transport-related taxes in the nation yet are still stuck driving on poorly maintained, highly congested roads. Rather than greenlighting continuous rate increases, the Tollway needs to maximize its existing funding surpluses and implement a moderate plan that requires direct voter approval.
07/13/26	Doug	60616	X		X		X				Oppose	Drivers pay rediculous gas taxes already. Will not drive toll ways because of high costs
07/13/26	Jackie Panko	60544	X		X		X				Oppose	The price of the tolls was just increased giving them double of what they asked for. No more money! Our tolls are too expensive now.
07/13/26	Julie Jankiewicz	60031	X		X		X				Oppose	Tolls were only supposed to be collected until the road was paid off, we should not keep raising prices on tolls since we shouldn’t be paying tolls in the first place.
07/13/26	Emily Karmazin	60067			X	X	X				Oppose	As a student who relies on I-294 to travel to school each semester, I strongly oppose this steep 45-cent toll increase and the automatic hikes that follow. Young drivers and students have no alternative highway options for these trips, meaning we are completely trapped into absorbing these escalating costs on top of the nation's highest gas taxes. It is incredibly unfair to demand even more money from us when we are already forced to sit in constant congestion through I-294 construction zones that seem like they will never actually be finished.
07/13/26	Jackie Panko	60544	X		X	X					Oppose	No! We just had an increase that gave them double of what they asked for! Our tollways are already expensive to drive. Go by your promise to not raise tolls again.
07/13/26	Ivan Salva	60103					X		X	You receive untaxed and no interest funds	Oppose	You receive untax and no interest on the money you receive from customers. Increasing the rate is a burden on the citizens and would be taxation without representation.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/13/26	Chris	52804		X			X		X		Oppose	This is all one big money grab. All you guys do is raise rates every year anyway. I'll just avoid all tolls going forward and Illinois for that matter.
07/13/26	William Adamski	60194	X				X			uniform and reasonable tolls	Oppose	The rates will be exhorbitant. It appears only the wealthy will be able to afford driving on the toll roads. That would certainly help you to achieve your goal of less traffic. Your new slogan can be "Roads for the Rich"
07/13/26	John Kremer	60177				X	X			Honor your commitment	Oppose	Illinois Tolls were supposed to be temporary— when the Illinois Tollway was created in 1953, lawmakers promised it would be a temporary revenue source to pay off the bonds used to build the state's original 187 miles of toll roads. The slogan "Toll free in '73" reflected the plan: tolls would fund construction, and once the bonds were repaid, the roads would become free freeways maintained by the gas tax. But here were are 53 years after the tolls were supposed to end and yet you are proposing an increase. I know this will be approved and it is shameful that your organization has mismanaged itself so badly that this will be justified. Furthermore, I will be labeled simply as someone who is uniformed. John Kremer
07/13/26	Patrick Grzybek	60526			X		X			All of the on going construction is an environmental nightmare and a waste of fuel because of substantial delays. Additionally I wonder who pockets are being lined.	Oppose	
07/13/26	Kay Kenny	60655	X				X		X		Oppose	How will increasing tolls help increase business in Illinois when businesses are leaving due to high taxes now?
07/13/26	Jack	60085		X	X		X				Oppose	Hell No!! How about you increase our pay 30%
07/13/26	Frank O	60160			X	X	X				Oppose	
07/13/26	Linda Kuczma	60068	X				X		X		Oppose	I find the proposed increases to be excessive. It is likely that the increases will result in an increase of traffic on the streets to avoid using the tollway. While the information provided indicates that the tolls have not increased since 2012, it neglects to mention that the personnel required for the tollways has significantly diminished inasmuch as there are little or no attendants collecting tolls. I find the proposal regarding the fare increases to be excessive and am not in favor of them.
07/13/26	KB	60048			X	X	X				Oppose	
07/13/26	Dylan	60083	X			X	X				Oppose	The roads we have aren't maintained at an acceptable pace for the money we pay already. Asking for more money to improve the roads is crazy considering this is what you said the last time you raised the rates and we've barely seen a budge in road quality. Fix the roads we have, then ask for more money.
07/13/26	Jay bender	61108	X			X	X				Oppose	These toll increases are a scam. Wisconsin roads are better without a toll system. Total fraud. Typical of Illinois.
07/13/26	Maya Popbozhikova	60714	X		X		X				Oppose	Already too expensive
07/13/26	Patrick Styx	60408		X	X	X					Oppose	We are taxed to the max, gas, property, sales,ect. We can take anymore increases in fares. Somethings got to give , why is it our pockets.
07/13/26	Tracy Cottini	60506	X		X		X				Oppose	I already pay 6 tolls daily for work. This is already too much. Can drive south to Arkansas and never pay one toll. This rate hike is ridiculous!!!!
07/13/26	Margaret	60652		X	X					18 wheelers are using ALL lanes	Oppose	

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/13/26	Carla Kemp	60190	X		X		X				Oppose	The tollway system must learn to spend within its means instead of crushing drivers with higher and higher tolls. The increase on commercial drivers will be passed on to consumers so we will be hit twice. Illinois residents are sick and tired of every governmental body bleeding us dry with taxes and fee increases.
07/13/26	Kevin Claffy	60558	X				X			Less government involvement	Oppose	Balance a budget like every home and business in America, and stop finding new ways to tax hard working citizens.
07/13/26	Steve Massey	60103-5091			X		X			No way	Oppose	NO WAY, NO WAY, NO WAY
07/13/26	Amy Rankin	61354	X		X		X				Oppose	The fucking middle class is dying with all these fucking taxes and high cost of living. Dig in the pockets of the upper class and 1% rich and get your money there.
07/13/26	Scott	60517	X			X	X				Oppose	Stop spending money you don't have
07/13/26	Shalyn Gerczak	53010			X	X	X				Oppose	The last thing we need right now is another rate increase and ongoing rate increases into the future as well.
07/13/26	K W	53182			X		X			Low prices	Oppose	The tollway needs to be affordable. Just because Prikster wants more $$$$ to fund Chicago doesn't mean you have to raise rates!!
07/13/26	Margaret	60477			X		X			No tolls	Oppose	Money should not be given to Cook County public transportation from Illinois Tollway money. Why aren't the people who rely on public transportation paying for it?
07/13/26	Martha McCarty	60448			X		X	X			Oppose	Tolls are already costly! No increases to tolls!
07/13/26	John L	61115	X			X	X				Oppose	Neighboring states,other than Indiana, dont have tolls. Their roads are good. We dont need abother tax increase in Illinois .
07/13/26	Eliza Martin	60202	X		X		X				Neutral	This increase will cost me more on my daily commute to work. Taking an alternate route may be worth it at some point, especially if tolls increase every 2 years from 2027, onward. I have already had to replace my windshield twice within 3 years from debris directly hitting my windshield while driving on the tollway. Both replacements were due to debris hitting my windshield ,specially while driving between the Spur in Northbrook and Belvidere road. I would expect improved roads and driving times should this huge increase be implemented.
07/13/26	Mike Biarnesen	60031	X			X	X				Oppose	We already pay too much in toll fees and are backed up with construction and heavy traffic. Get rid of the toll authority and make them freeways managed like the rest of the state roads.
07/13/26	MJH	60085				X	X			Keeping semi-trucks out of the left lanes	Oppose	Some of us have no choice but to use the tollways, it's already too expensive
07/13/26		60639				X	X			No tolls like they were supposed to be temporary when started	Oppose	👆▨
07/13/26		60586	X		X		X				Oppose	The tollway has not used the money from tolls appropriately in the past. If all of the money was going towards road improvements and not pensions, salaries and people with more than one state job then I would be for it. Due to past misappropriations I strongly object
07/13/26	Tom Trecker	60532			X		X			Not feeling provoked to leave this state for good !	Oppose	Absolutely disgusted to think that this Illinois gov is even considering this bullsht ! When the gov openly proclaims how crooked trump and his regime are, and still has the audacity to pull an ignorant move like this. With the absolute insanity of fuel prices, inflation of grocery costs, and everyday living expenses, you have the audacity to hit us with this ?!? While other states are suspending fuel taxes, you are RAISING ours, and piling on huge increases of tolls, when people can barely afford to get to work as it is ??? It is no wonder why the lower half of Illinois to literally wants to no longer be a part of this crooked mess of a state ! 100 % apposed !!! Even this survey is corrupt. Who DOESN'T want less traffic ? ... but they make you choose 3

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/13/26	Ken & Linda Melander	60453	X	X			X				Oppose	The monies will be used for agencies that have squandered monies in the past: fiscal irresponsibility. Example: Dorval Carter & the CTA. We don't believe in rewarding bad behavior. We are seniors who live on a budget which doesn't include this challenge. Prices are already difficult in this economy. Yet you want to up the price of tolls for trucks carrying everyday products that are already overpriced so that we consumers have to swallow the trucking toll increase?! Not logical. We have always supported the tolls because the monies were used for practical maintainance. We don't even use the RTA or CTA. In Oak Lawn we have little Metra train service on the weekends. Supporting this proposal goes against values and common sense
07/13/26	Bridget Hagspihl	60538	X		X		X				Oppose	I'm writing to oppose the proposed toll rate increases under the Driving Connections plan. As a suburban Chicago resident and regular Tollway user, a 45-cent-per-toll increase for passenger vehicles adds up quickly for daily commuters and families, especially layered on top of everything else that's gotten more expensive. I'd ask the Board to: Publish a detailed, itemized breakdown of how the $26.5 billion would be spent before any rate hike is approved. Consider a smaller or phased increase tied to demonstrated need rather than a flat hike plus automatic CPI adjustments starting in 2029. Explore efficiency and cost-cutting measures within the agency before passing costs to drivers. Please include this comment in the public record for the proposed rate adjustment.
07/13/26	Carla Dinnocenzo	60430-1710	X			X	X				Oppose	The I-80 and I-294 tolls near my house have consistently gone up each year for the last several years. If they go up substanially more I may have to find alternate routes to work.
07/13/26	Zia Khaliq	60089	X	X		X					Support	
07/13/26	Brian	60502	X		X		X				Oppose	Current tolls were meant for previous projects and some maintenance. Once those projects were completed shouldnt the current tolls have been reduced or been repurosed for these new projects rather than increasing the current toll? Seems like things just keep building and no efficiencies are found
07/13/26	Larry M	60625	X			X	X				Oppose	My current tolls already are used inefficiently, don't deliver quality roads or a driving experience and ultimately are just another tax. Why should I trust increasing the tolls will do anything different?
07/13/26	George Tommasi	60068	X		X	X					Oppose	All the toll roads are torn up and have been for years as the "rolling construction zones" move at a snail's pace. Fix the torn up roads we already have before tearing them up again! And hire planners who know what they are doing. Current planners seem to only know how to make traffic worse.
07/13/26	Jack	60152	X			X	X				Oppose	Illinois has the highest gas taxes in the midwest, yet the tollway wants to increase tolls? What happened to "Toll Free in '73"? 56 years later, another gut punch is delivered to Illinois drivers. Worse yet you wish to tie in bi-annual rate increases? Pretty soon surface roads will be the better option for most trips.
07/13/26	Jim F	61615	X			X	X				Oppose	That increase is massively disproportionate. What is involved in the $26B capital plan? How about a little more transparency!
07/13/26	Patrick Gallagher	60655	X			X	X				Oppose	Absolutely no way they should be raising tolls, these roads were supposed to be paid for years ago. Almost every other state has no tolls but Illinois just keeps talking more and more money to rebuild the same roads every God year. Who are the engineers designing this? Absolutely ridiculous you ought to be ashamed to ask for more money
07/13/26	Suzanne ward	60915	X		X		X				Oppose	
07/13/26	Victor Fuentes	60631			X	X	X				Oppose	Stop squeezing more fkin money out of pockets.
07/13/26	Arturo A Blake Sr	60056			X	X	X				Neutral	My greatest concern is that our Roads are constantly being serviced. Yet, they seem to take forever to accomplish these road repairs. Other States do the Road repairs in the night hours and finish before Rush hour and during the busiest times of the Road usage. Make this a requirement for the Work crews, this will minimize the negative impact of our travel requirements.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/13/26	Bobby King	60108			X		X			Better snow removal	Oppose	Hell no, tolls are not cheap as is, and every snowy day during winter, the tolls are never clear at pm, rush hour. That is not good, I do not want to pay $5 plus dollars per day to drive 43 miles round trip. That is $23.00 per week @ 52 weeks per year
07/13/26	Tomor Bato	60525	X		X		X				Oppose	
07/13/26	Neva Liss	60051	X				X			Maybe our governor shouldn't spend all our money We the people's money on illegals and use it where it's suppose to go. And we the people are sick of supporting Chicago and that crooked mayor in office and quit letting all these rapist and murders out of jail	Oppose	
07/13/26	Neal Jacobs	60031				X	X			NO TOLL INCREASES!!!	Oppose	The toll roads were SUPPOSED to be abolished decades ago. Now you want the largest toll increase in Illinois history? This is just another form of tax increase on hardworking Illinoisans. Governor Pritzker talks a big game about affordability but then wants to stab us in the back with another rate hike. STOP THE RATE HIKE!
07/13/26	James Mauck	53029	X		X	X					Neutral	I am an out of state regular user of the Tri-State Tollway, as that is a large portion of my route between my home in Wisconsin and my parents' house in northern Indiana. If any improvements are made, I just want things to flow better around O'Hare and on the leg as it turns east with the I-80 concurrency. I have wasted more time in those sections than on the rest of my drive combined.
07/13/26	Sue Cushing	60074	X		X	X					Oppose	
07/13/26	Michael Barcal	60133	X		X		X				Oppose	I don’t want you to change more money. Full stop.

07/13/26	Sheila Carlson	60005			X		X		X		Oppose	NO!!!!!!
07/13/26	Steve Redmon	60506			X	X	X				Oppose	Find another way to raise revenue. You are charging tax payers for tolls on roads consistently under construction. You present no proof as to where this money is going. You spent billions of dollars putting up these big beautiful oasis facilities and then billions more years later tearing them down and buying lessors out of their lease taking away the tax revenue they generated. Find another way
07/13/26	Chrissy condon	60543	X		X		X				Oppose	You people are already ripping us off enough!!!!! Taking our money to line your own pockets and give yourselves fat raises while we pay up for shitty roads that don’t even get fixed. 👎👎👎👎👎
07/13/26	Andrew	60563	X					X	X		Support	As long as work is done to help improve our roads, this is acceptable.
07/13/26	Lisa	60538	X		X		X				Neutral	I believe the toll increase should only be affected by the people that don’t have the iPass.
07/13/26	andrew	60455			X	X	X				Oppose	NO MORE BS TAXES
07/13/26	Karl Czipri	60506	X				X		X		Oppose	Have you considered senior citizen discounts? We are on fixed incomes and don’t get a raise.
07/13/26	Alex M	60538	X	X			X				Oppose	Tolls have now become more expensive than my utilities and I see little being done on tollways to improve the driving experience. Just another reason why people are moving out of this poorly run, corrupt state.
07/13/26	Greg Mikoda	60160	X		X		X				Oppose	
07/13/26	Tint	60490		X		X	X				Oppose	The current cost is already high, so I kindly request that the price not be increased. A reduction in price would be appreciated.
07/13/26	Ammar	60053			X	X	X				Oppose	

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/13/26	Keith Hamilton	60425	X				X			You're manipulating the data by requiring 3 choices. Lower the tolls	Oppose	Between property taxes, gas taxes and tolls Illinois is unaffordable. I already avoid using the toll road because of costs.
07/13/26	Amandah Lebray	61107	X	X				X			Support	
07/13/26	Alicia Verone	60007	X		X	X					Oppose	I'm over construction and paying more money in IL
07/13/26	Kevin Bernovich	61548			X	X	X				Oppose	We are already struggling enough with taxes and other raises in Illinois don't need more taxes. I use the tollway regularly for work and I don't need the extra costs
07/13/26	Jason C	60517	X		X		X				Oppose	
07/13/26	Dawn Bravo	60416	X	X	X						Oppose	It will cost significantly more to commute to work each day
07/13/26	Chester	60641	X		X		X				Oppose	There are to many tolls already, and a increase in costs will not make it any better!!!
07/13/26	David Drake	60564	X			X	X				Oppose	
07/13/26	Paul	60487				X	X			No other choice since most of the interstates here have tolls.	Oppose	
07/13/26	Jeanette	60608	X	X			X				Oppose	
07/13/26	Susan Czech	60102	X				X			Less tolls AND MORE STATE TROOPERS ON THE ROADS!	Oppose	There are way too many tolls to begin with! To get off a ramp; to get on a ramp; to drive straight. We never see State Troopers on the tollways monitoring the idiots who drive crazy and weave in and out of traffic at high speeds! We are getting hit with more toll money and high gas prices! Illinoisans cannot afford to keep paying more and more!
07/13/26	Pilotte Nick	60175	X				X			Designated commercial vehicle lanes	Oppose	It's already frustrating to pay the same as a class 8 5-axle commercial vehicle when I tow a small boat (less than 11000 lbs GCW) through the tollways when my impact to the road is substantially less than an 80k lb over the road commercial truck. Please keep this affordable for state residents.
07/13/26	Johnathan	60520	X			X	X				Oppose	If passed I will avoid taking the tollway.
07/13/26	Melissa S	60431					X		X	I disagree with tollways	Oppose	I don't think having the tolls has helped in anyway, except for taking more money from the taxpayers, and Increasing the tolls even more than they already are will just make me wanna move out of this state quicker to get away from all these increased taxes!
07/13/26	Craig Nykiel	60451	X				X		X		Oppose	Driving is already expensive with fuel and upkeep. I believe an increase will result in less drivers.
07/13/26	Virginia L. Wachsmuth	60193	X				X			Safe exits.	Oppose	The tollway department has taken in plenty of money to maintain the roads! Please oppose this ridiculous automatic increase proposal! The tollway funds originally were to be just to get things set up and temporary. Now they must be being robbed for other projects to continually have it increased. Not only are we having high gas taxes that are automatically increasing and high tollway priced...this plud now also having commercial vehicles having higher rates, it's going to affect all of our goods such as deliveries to grocery stores, etc. Stop this nonsense! Stop deceptive budget practice and oppose this proposal.
07/13/26	May	60016	X				X		X		Oppose	
07/13/26	Joann Gawczynski	60466	X			X	X				Oppose	0.45 cent increase in every toll is not fair to the residents in the state of Illinois. We are taxed on everything. Illinois has highest tax rates. This is ve coming a very unfriendly state to its constituents and lower income will have to chose from getting to work and eating. Costs are already through the roof. I can't demand an increase like this if my employer. Where goes the state get off thinking it's okay to keep taking and taking. Figure it out without such a high increase.
07/13/26	Todd	60657	X			X	X				Oppose	Tolls collected from drivers for toll road usage are misappropriated (stolen) for other line items in the IL general budget. Improve toll roads by ensuring all tolls collected are spent on toll road improvements. Shame on IL!
07/13/26	Timothy Carroll	60614	X		X	X					Oppose	It already costs over $5 to drive from O'Hare to Rockford each way. Increasing this cost is an incredibly regressive tax on working class Illinoisans

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/13/26		49120	X		X				X		Oppose	
07/13/26	Kristina	60514	X				X			Taxes	Oppose	This state is taxing the people to death. Add this- along with yoyr inability to control utility pricing, mass taxes i wipp have to leave the state after over 50 years. Im not going to be taxed to death without ONE reform from our government
07/13/26	Brian Nelson	53144	X		X		X				Oppose	
07/13/26	Brian Spoczynski	60175				X	X			Not paying to drive on the roads I paid for to build	Oppose	You are driving everyone out of and away from Illinois. Wake up! We've had enough!
07/13/26	Melissa Fako	60462	X		X		X				Oppose	It doesn't matter how much more money the illinois tollway gets. Traffic will still always be horrible and construction will still be Neverending. Cost of living is already way too high
07/13/26	Jonathan Koziel	60451	X				X			Tolls were never suppossed to be ongoing	Oppose	Toll free by 1973! You are all criminals!
07/13/26	Missy	60401			X		X		X		Oppose	I pull a camper. It cost me $60 one way just to go to Galena. You raise the rates. I'm looking for side roads.
07/13/26	Martin vasquez	60453			X		X			Not to pay more.	Oppose	We pay enough for roads that should be free and im pretty sure they make enough money with all the vehicles passin through tolls already.
07/13/26	Evan	60510	X			X		X			Oppose	Learn to be more efficient with all the money that you get from tolls. Yes, maintenance is expensive but cut down on how much you pay your highest paid board members/staff. Ridiculous for us to keep paying more expensive tolls while construction work last 10+ years on a single project.
07/13/26	Justin roelfs	60428			X		X			Affordability	Oppose	Gas is already so much. Everything is so much. This would just further tighten everyone's wallets more
07/13/26	Alisa Duda	60008	X		X		X				Oppose	Is this really the best time for it? Maybe let's sort out the global issues and wait for prices to go down? You'll have less traffic just by increasing the tolls, no need for new constructions. People can't afford to live. Government workers don't understand average citizen's reality. I try to avoid tolls as much as possible already. And what's with navigations making people take tollway, even when it makes absolutely no sense?! Alisa
07/13/26	Paul Miner	60103-1821	X				X			Laws enforced	Oppose	The Illinois Tollway will spend our fees to come up with what they believe to be a great plan only to have it go grossly over budget and finish years past the planned finish date. Then in the end, after all that planning and spending, traffic will still not be improved. Let's not forget that the toll roads eventually dump into non-toll roads, so what have gained. Spend our fees keeping the current roads in good condition.
07/13/26	Laura	60056				X	X			Eliminate tolls	Oppose	Raise fares on CTA instead of tolls. Quit putting this burden on the same people. You diverted the gas tax money away from the roads. Chicagoans need to share in the pain. Also a federal audit of Chicago is necessary. Uncover and stop fraudulent and unnecessary spending.
07/13/26	Pedro Holguin	60441		X			X	X			Oppose	
07/13/26	Kathy	60137	X		X	X					Oppose	
07/13/26	Margaret Bird Nerger	60630	X				X			Maintained roads and affordability. Stop forcing your positions on folks.	Oppose	Stop with the automatic fare hikes. You're killing us with these taxes and fees and tolls.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/13/26	Brian peterson	60805-2424					X		X	The most important factor to me is lowering the price of tolls there's no reason for it to be so expensive charging more to build roads that you just did 4 to 5 years ago makes no sense	Oppose	You're only putting new roads down because you have to spend as much money as you spent the year before you're not fixing anything you just spending more to gain more in future years on the backs of working class America
07/13/26		60626	X		X		X				Oppose	
07/13/26	theresa marie witbrod	60002	X		X			X			Support	Please do not ever sell the tollway to foreign interests, this is the most revenue generating program that Illinois has and one of the few that is paid for by the people that use it.
07/13/26	Nathan	46310			X	X	X				Oppose	Strongly oppose raising toll rates
07/13/26	peterson	60448			X		X			this is the largest % increase	Oppose	What happend to the extra revenue generated from the road use tax increase? I know everone is too young to remember "Toll-Free in '73." Just another lie. I will help to alleviate traffic by leaving this state! I just cannot take anymore.
07/13/26		60561	X		X		X				Oppose	
07/13/26	Drew Brown	60630			X		X			higher speed limit	Oppose	
07/13/26	Kristen	60586	X				X			My property taxes pay for all of these things, toll road fees were only supposed be a temporary solution, not a long term situation.	Oppose	This is another example of extorting money from the people of IL. Tollways should not even exist anymore. IL is one of the highest taxed states, our taxes should be enough to pay for any road issues. The fact that I am forced to pick 3 of the above road issues will automatically skew this data and make it seem like increasing tolls is inevitable. I am STRONGLY against it.
07/13/26	Jack Armbruster	60189	X		X	X					Oppose	Understand the need for a toll increase, but $.45 for every toll seems way too aggressive
07/13/26		60190			X		X			Price	Oppose	
07/13/26	Nagaraju Bommineni	61704	X		X		X				Oppose	Multiple tolls within short distance around Chicago is already unaffordable and rate hikes makes it even worse.
07/13/26	Pasquale	60191	X	X	X						Neutral	
07/13/26	Christopher	60107	X		X		X				Oppose	This is a typical cover story from Illinois that hides the truth. Facts are these, Illinois is trying to pad the slush fund for all the pension funds that are still paying on. Second, this proposal is not about roads, it's about having the hard working people of Illinois pay for keeping the Bears here. This is just smoke and mirrors. The toll roads already provide more than enough money to clear Illinois books. It's disheartening to see the state push more onto the tax payers.
07/13/26	MaryBeth Conte	60018			X		X			How much for a toll? I did not find anywhere in your literature how much tolls would be going up!	Oppose	How much would tolls be going up? I did not find anywhere in your proposal the cost to drivers!
07/13/26	Tom	60456			X	X	X				Oppose	Stop bleeding us dry
07/13/26		60502	X		X		X				Oppose	
07/13/26	John	60655					X		X	Affordability.	Oppose	Hit us with more fees and taxes because we are not the most taxed state already. Love seeing all my neighbors sell their homes to move to different states.
07/13/26	Gary Rozwadowski	60031	X		X				X		Neutral	I don't mind you raising rolls IF the money was used ONLY for roads under your jurisdiction. Do NOT raise tolls and give that money to IDOT, Chicago, RTA, CTA, etc. Let them figure out how to cut waste and funds their own infrastructure. And dont listen to a thing Pritzker says.
07/13/26	Victoria C.	60177			X	X	X				Oppose	Cannot be raising toll when the minimum wage hasn't been raised in a few decades. Absolutely baloney

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/13/26	Susan A Swegle	61021		X		X				Usually the faster way to travel into the suburbs and city.	Oppose	Tolls are already too expensive. I realize everything costs more nowadays, however, I do what I can to avoid the tollways when I can due to the cost. Unbelievable you want to raise it more! I completely oppose increases.
07/13/26	REED SOUTER VAN GORDEN	60521	X		X	X					Oppose	
07/13/26	thomas h jansen	60099	X	X			X				Oppose	I can't believe you would have public hearings on a proposed toll increase. I believe anyone that attends would tell t ou that they do not want an increase as everything costs more today and people are strapped for cash as it is.
07/13/26	Pamela Makis	60002	X	X			X				Oppose	Many other states can maintain and improve the highways and roads with out the use of a tollway system. The IL tollway system was suppose to be a temporary measure to begin the construction of the highways. The increases over the last 20+ years is directly affecting the average house hold when they want to travel. The increase for commercial vehicles will directly affect the average house hold as well as the trucking companies will pass on the additional cost to the consumer that is already stretched thin with inflation and taxes being put into place. So many people are looking to move out of the state because they can no longer afford to live here and raise kids here. They tollway system should be putting out a break down of how all the money is being used today and the budget for the future. The tax payers and road payers have a right to know where the money is being spent.
07/13/26	Liz Lehman	60605	X					X	X		Neutral	I think it's ok to raise the rates but that you should scale the rates for passenger vehicles based on weight. Heavier vehicles such as SUVs and trucks, as well as electric vehicles of all kinds, cause more damage and should pay more than lighter vehicles.
07/13/26	JOSE MARTIN RANGEL ROSALES	60193	X		X		X				Oppose	every single roas has tolls i do not want any more increase prize we already pat alot
07/13/26	Charles Taborn	60586	X				X		X		Oppose	
07/13/26	Ellie	60516			X	X	X				Oppose	I will not be taking the toll roads any longer...the tolls are high now...no more money from me. Horrible plan.
07/13/26	Tammy	60477			X	X	X				Oppose	Inflation is hitting hard, companies not giving pay increases, this will cause people to not take the toll road and find alternate routes. It already cost too much and will not be of any benefit
07/13/26	Elizabeth Wesemann	60140	X	X			X				Oppose	I don't think what we pay for the tolls should go to Chicago public transportation. State of Illinois said the tollway was supposed to be temporary and end in 1973 and that hasn't.
07/13/26	Linda Christensen	60462	X		X		X				Oppose	Where is the millions on dollars going that is collected on a daily basis?
07/13/26	gretchin anderson	60030-3635	X				X		X		Oppose	
07/13/26	Joshua Edwards	60004	X		X		X				Oppose	Not opposed to an increase but a 60% increase is too much at one time. If anything do a gradual increase over time 5% to 10% at a time is easier for people to adjust to.
07/13/26	Brian Sontchi	60510	X		X		X				Oppose	I want to see a full accounting of the salaries paid to all administrative staff of the Tollway. The public has a right to know all the dollars being spent on salaries and benefits in the Tollway headquarters offices and in the rank and file offices in the field.
07/13/26		60655	X			X	X				Oppose	There is no reason to raise the tolls by 45 cents per toll. This is just outrageous. 294 alone has been under construction for over 5 years now. This is typical fiscal mismanagement in Illinois along with everything else. We already pay the highest sales tax, property tax and gas tax.
07/13/26	Brian Yamamoto	60545	X	X	X						Oppose	
07/13/26	Justa Zeno	61104			X		X	X			Oppose	We as tax payers are constantly getting taxed and there is no relief in traffic, construction is always happening and no construction workers in sight.
07/13/26	Marcelino Gerena	60647	X	X			X				Oppose	Tolls were supposed to be temporary. Not anymore and going up. Tolls, fees, gas tax, bag tax, etc; etc. Where does it stop? Government can never seem to stop spending my money. It needs to end. Cut spending and eliminate waste and redundancy before any more fees or taxes.
07/13/26	Bruce	60451			X	X	X				Oppose	The price we are already paying the roads should be gold. So much corruption in this state should all go to jail.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/13/26	William A Butera	60447-9423			X		X			Less tolls. The roads suck and construction takes years . After completing the construction. The traffic remains the same	Oppose	The tolls when first introduced were supposed to be temporary. Here we are years later. The roads still suck. They remain riddled with traffic. They dont seem to do anything except create years of problems for commuters and hours of delay and traffic. GET RID OF THE SCAMMING TOLLWAYS. THEY DONT WORK
07/13/26	Valerie Rothermel-Nelson	61067				X	X	X			Oppose	The tollway was never meant to continue taxing the hard working people in Illinois who use it. You absolutely cannot pass ANY MORE INCREASES PERIOD! you shouldn't even still be taxing us with ANY tolls at all. With Pritzkers already over bloated budget the spending just has to stop. You will absolutely contribute to more bankruptcy and more tax base fleeing this state. Please stop!
07/13/26	Anthony	60404			X		X		X		Oppose	Absolutely not. This state heavily taxes its residents enough. We need relief from high taxes all around
07/13/26	Marcus	60429	X		X		X				Oppose	A $.45 increase is too much for today's world and economy. Everything is already high cost of living is high. Groceries are high now you want to up the cost of using the tollways and add more traffic to the daily commute for a project that's gonna take 20 years. stop making the people pay for a better Illinois just make it better people are leaving this state because it's cost too much to live here in every aspect financially. I use the tollway every day to and from work and I have a Ipass already. At least considering lowering cost for I pass account holders and users
07/13/26	Matthew Zippmann	60543	X		X	X					Support	Whatever it takes, as long as funds are appropriated to the intended purpose.
07/13/26	Michal Chrabaszcz	60194	X		X		X				Oppose	Absolutely no toll increase. You need to work around the budget you have.
07/13/26	Carol	60062	X		X	X					Oppose	All of the Tollways are currently under construction and a complete disaster. Maybe finish the work that is already underway before asking for more money and more headaches for drivers with even more construction.
07/13/26	Ron	60559			X	X	X				Oppose	Fuck no. Make personnel cuts. I will not use the tollways at all if this happens
07/13/26	Jim Romer	37075	X		X		X				Oppose	Illinois is just taxing and increasing rates on everything. No wonder the exit rate is so high. I left 6 years ago and NEVER LOOKED BACK!
07/13/26	Christopher Borawski	60047					X	X		Unfair tax. Stop taxing us. Enough.	Oppose	Proposed toll increase is crazy and a burden on the residents. Fee is just another tax and we are tired of all Illinois over burden on the residents. Disband the toll authority as promised. Reclassify small pickup trucks that are not used commercially as just cars. B plates on pickup trucks not used commercially is extortion. Big suvs weigh more than small pickup trucks. Stop squeezing the people of Illinois. We are already overtaxed. Where did the increases in motor fuel tax that JB forced on us go? Tax the farmers on the last 60 miles of 88. Why does Chicago have to pay for the farmers west of Dixon. Toll 88 all the way to Iowa Enough is enough. Stop.
07/13/26	Leann steffan	60638	X				X		X		Oppose	No increases. People are already struggling to make ends meet. Commercial vehicles as well as daily commuters can't be asked to pay more with an open ended plan that will grow along with gas prices. Just a big no.
07/13/26	Jason	60487		X	X					Time	Oppose	The toll roads where supposed to be free In Illinois, the original 187 miles of the tollway system were famously promised to become freeways by 1973, under the popular slogan "Toll free in '73". Lawmakers originally intended for tolls to only cover the bond debt used to build the roads.
07/13/26	Ann Howicz	60453		X		X	X				Oppose	As someone who uses the tollway every day, it would be a hardship with a toll increase. Additionally, I've a construction frustration for the past 6 years so the increase would not be welcome.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/13/26	Ken	60634	X	X			X				Oppose	From what I've read, the tollway has had record amounts of cash in the bank, it's just another way for this piece of crap governor to again stick it to regular hard working citizens of this state. When is this B S going to stop!!!!!!! Just another reason to VOTE RED !!!!!!!!!!
07/13/26	Kelly Novotney	61364	X				X			Discount for seniors	Oppose	Living in a fixed income, makes it hard to pay toll at the rate it is now. Can't even get to my b Dr. without paying b rolls!!!
07/13/26	Tom	53186	X				X		X		Oppose	Instead of raising the prices how about lowering the prices? Especially since after the removal of employees working the toll booths and no longer accepting cash as a legal tender.
07/13/26	Sharon	60087				X	X			Affordability is most important	Oppose	
07/13/26	John	60630			X	X	X				Oppose	We live in one of the highest taxed states in this country. In no way, shape, or form do I support raising any more taxes in this state.
07/13/26	Pat Whitson Kane	60007			X		X			390 is the most expensive and should not be raised and raising the amount will only deter me from traveling on the tollway.	Oppose	Everything is going up except my paycheck.
07/13/26	Rachael	60097	X				X			Not feeling ripped off	Oppose	When tolls were initially made, it was supposed to be temporary. Now we are here asking for a 15 year commitment and raising prices. One trip can be $20 in tolls. It's ridiculous. Consider raising it by a small amount. 10 cents or 25. Starting at 45 cents more a toll is just going to lead to more money down the road being added.
07/13/26	Niv Gordon	60123	X			X	X				Oppose	I oppose the increase till capital funding program. Thank you
07/13/26	Corey Blackburn	60102	X		X		X				Oppose	Illinois needs to come up with more responsible ways to fund Taos infrastructure than to increase a rolling system that was originally designed to be temporary in the first place. The state should be able to find a way to leverage the budget to better maintain the highway system in an efficient way.
07/13/26	Patricia Palmeri	60014	X	X			X				Oppose	Illinois tolls are already high enough. Upkeep of roads should have been done with funds collected on a timely basis. Wisconsin seems to manage with no tolls on one of the same highways, yet Illinois always has to have more money to do anything. Illinois definitely needs fiscal oversight!!
07/13/26	Keith	60439	X		X		X				Oppose	We are already taxed to death on the tollway that makes improvements but never stops starting a new project while the roads in Chicago are a war zone with poorly paved expressways and city streets
07/13/26	Dave	60010		X			X			Remove the tolls	Oppose	The tollway was supposed to be desolved when the roadway was paid for not to stay tollways forever
07/13/26	Breanne	60506	X			X	X				Oppose	No more price increases
07/13/26		60046	X				X			Gas is up cars are up we need to work and get penalties for actually driving to work	Oppose	All these years and no one can still put our tolls to good use yet, this is just to make up for poor management of fees we've paid already
07/13/26	Tolled to death	60608	X				X		X		Oppose	Stop making tolls more expensive. The tolls are being used for everything except the toll roads
07/13/26	Ryan Kehoe	62704	X	X			X				Oppose	Quit squeezing the life out of Illinois residents. If our state government quit wasting our money by funding abortions and other deplorable acts maybe they wouldn't need to squeeze the life out of the people they are elected to serve.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/13/26		60007	X		X		X				Oppose	Stop increasing tolls. Citizens of Illinois are suffering. The cost of living and living wages don't equate. People are struggling to make it buy. Taxes on our homes, utilities, food and necessities is already pushing us to cut back on essential items. Outrageous healthcare costs are not helping either. People will need to make the choice to leave to nearby states to avoid paying these premiums and increases.
07/13/26	Cheryl	60516	X		X		X				Oppose	Why is it that our state can't maintain our roads without tolls?! You should not have to pay a toll when construction causes even longer commute times. Another reason people will leave Illinois.
07/13/26	Jason	60503			X	X	X				Oppose	I oppose the rate increase - taxes are already high enough to fund the highways
07/13/26	Eric Smolen	60631				X	X			Toll road should have already been free decades ago	Oppose	Toll roads were a temporary measure to pay for initial construction. Clearly this is the most epic boondoggle in IL History and it's one major reason why I left the state.
07/13/26	Joseph Camacho	60459					X	X		Freedom to travel	Oppose	We pay taxes already to pay for upkeep of the road, your violating our constitutional rights to travel freely. Fuck your tolls.
07/13/26	Garrett McMahon	60031				X	X			forcing three answers to submit comment seems coercive. If we are to have tollways, there should be competition and the funds should go only to the tollways.	Oppose	I am opposed to the proposed Illinois Tollway rate increase. Illinois residents already pay some of the highest transportation-related taxes and fees in the nation through fuel taxes, vehicle registration fees, and existing tolls. Increasing tolls by approximately 45 cents per toll places an unnecessary burden on working families, commuters, and small businesses that rely on the Tollway every day. While I support maintaining safe roads and investing in infrastructure, I do not believe Illinois drivers should be asked to absorb such a large increase without first demonstrating that all existing transportation revenues are being used efficiently and for their intended purposes. Many drivers are concerned that transportation funding in Illinois is increasingly being diverted to support broader transportation initiatives while motorists continue to face higher fuel taxes, registration fees, and now proposed toll increases. If additional funding is needed for transit systems or other public transportation programs, those discussions should occur separately and transparently rather than through repeated increases on Tollway users. The Illinois Tollway was originally presented to many residents as a user-funded system that would serve those who pay into it. Today, drivers are being asked to fund one of the largest toll increases in state history despite years of toll collections and significant transportation tax revenues already being collected. Before imposing a substantial increase on Illinois motorists, the Tollway should conduct an independent review of spending, identify cost-saving measures, prioritize essential projects, and provide greater transparency regarding why existing revenues are insufficient. I respectfully urge the Tollway Board to reject the proposed increase and pursue more fiscally responsible alternatives that protect both our infrastructure and the financial interests of Illinois drivers.
07/13/26	Fernando	60638	X		X		X				Oppose	Toll fees should be used to maintain highways and fund for public safety for the roads only. Increasing toll just to cover state budget crisis is unfair for drivers. Increasing the fair will make drivers loop around to avoid the fees.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/13/26	Nanci Gasiel	60516	X				X			Mass transit options	Oppose	I am writing to inform you that I disagree with the Illinois Tollway's new strategic plan and the proposed $.45 per toll plaza increase. Most urgently, the toll increase equates to a 68% increase in tolls paid during my daily roundtrip commute through six toll plazas between Downers Grove to Hoffman Estates. This increases my annual commute budget by more than $600 per year! The naive answer is to get a new job closer to home. In our current job market that is far easier said than done, particularly when you work in a specialized field. Nonetheless, I am now faced with looking at my commute budget and determining if it is worth the cost or should I leave my current position of more than ten years to find a new job in my field with a more affordable commute. I disagree with the need or wisdom of the actions planned in the tollway's strategic plan. It may result in short-lived gains, but will increase traffic during construction, drive many commuters onto surface streets (which shifts maintenance costs to the counties), and further contributes to climate change and environmental degradation. Why are we not seriously looking at ways to use the tollway corridors to facilitate mass transportation? There are other ways to move people quickly and efficiently to their desired destination that does not involve single driver vehicles. With all of the transportation systems in use around the globe, this gives America and Illinois an opportunity to do what we do best: take a good idea that someone somewhere else had and make it even better for use here. The current strategic plan is unimaginative and uses strategies which are proven to provide short term gains but long term losses. Thank you for your time.
07/13/26	CM	60641			X	X	X				Oppose	This is insane. The Road Fund diversion is directly causing you to raise tolls by 45cents. This is a tax passed on by the Legislature to fund transit and not roads. Shame on you, this is why people lose faith in government.
07/13/26	Veronica Cardoso	60148				X	X			Less construction	Oppose	The tollway was intended to eventually not charge, since this is no longer realistic, keep prices low and DO NOT INCREASE RATES.
07/13/26	Justin Orseno	60103	X		X		X				Oppose	It is becoming difficult to live in IL with all the taxes and fees being implemented. I would be against raising the toll fee. I would like to see better spending. We are over paying these companies to do the road work.
07/13/26	Paige	60189	X				X		X		Oppose	Please do not increase toll rate
07/13/26	Anne	60302	X	X		X					Support	I support the toll increases for the economic development it will bring to our community.
07/13/26	Jennifer Lehmann	60142			X		X			Less expensive	Oppose	
07/13/26	Joshua Watkin	46304	X			X		X			Support	
07/13/26	Brooke McCarthy	60157			X	X	X				Oppose	
07/13/26	Mary Shanaha	60546	X				X	X			Oppose	I think it’s terrible that the politicians would even have the nerve to ask for a raise in toll fees. They took millions of dollars that was designated for the roads and used it elsewhere. The Democrats are out of control in Springfield I’m so disappointed
07/13/26	Janet Tichy	60543	X		X	X					Oppose	Your answer to everything is to raise the prices to the consumer. It is my experience that if you look deep in the pockets of your organization you are going to find a lot of waste that you can cut and maybe find a solution. The easy thing is always to raise the price to the consumer. What do you paying your top executives? I'm retired and more than 10% of my income goes to my property taxes. Medicare is going to go up my premiums are going up. Any kind of increase I get is being swallowed by every organization who wants to just raise the cost to solve their problems. How do I solve mine? Here's the deal, when more than 10% of your income goes to your property taxes then come to me and want to raise my tollway cost. I may agree with that then.
07/13/26	Rosie Weaver	60439	X		X		X				Oppose	The amount of tolls that I go through each day is ridiculous. In 1 mile, I pay 2 tolls- 1 to get on the highway and then I pass a second. The state should be making millions with the amount of traffic and tolls we pass through.

2026 Illinois Tollway Proposed Rate Increase

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/13/26	Amanda Bisceglie	60056	X		X					Less construction/reduced lanes/etc.	Oppose	This proposal is tone deaf. Illinois residents are already struggling with rising costs for housing, groceries, insurance, and especially gas. Asking drivers to pay more while many Tollway roads are under construction, have reduced lanes, and cause significant delays is unreasonable, and frankly, incredibly out of touch. Please reject this increase and prioritize affordability for Illinois residents.
07/13/26	Nick	60020	X		X		X				Oppose	I sincerely oppose the thought of a rate increase. It is already upsetting that tolls are collected all over the state. And now you want to increase it even more?! I can drive across the country and not hit a single toll road. But in Illinois we are riddled with them. Enough is enough.
07/13/26	Jim	60126		X	X		X				Oppose	Normal citizens are being priced out of this state NO INCREASE condense the layers of government to find the savings
07/13/26	George	60466				X	X			Alternate route	Oppose	.25 cent increase for passengers and 15% for commercial vehicles. Get rid of JB because he doesn't research anything he speaks about
07/13/26	Bill	60506				X	X			you are just causing more people to avoid the expressways	Oppose	Your just causing more people to avoid the expressways
07/13/26	Stephanie Johnson	60048					X		X	Constant construction is counter productive	Oppose	This will increase costs for everything citizens and businesses purchase. This is an unfair burden on everyone, regardless if one uses the tollway or not.
07/13/26	Irene	60803	X		X		X				Oppose	The tollway is already expensive
07/13/26	Jason Smith	61701	X				X		X		Oppose	Increase it 22 cents for cars and only 15% for commercial vehicles
07/13/26	Andreas Rink	60586	X		X		X				Oppose	An increase of 30% is going to affect everyone that needs trucks to deliver loads , we pay way to much as it is , yes i drive a truck and yes my rates will increase so everything you buy will get more expensive
07/13/26	Ricardo Mendoza	60107	X				X		X		Oppose	Don't need it.
07/13/26		60044	X				X		X		Oppose	Illinois has mismanaged its finances for decades including the tollway! After the tollway was originally built the tolls were to go away. The ever increasing taxation along increased fees is why so many people are leaving the state! 45 cent increase is just another reason to leave!!!
07/13/26	Henry Grice	60472			X		X			Pain at the tolls	Oppose	At rates of living everything is going up and the wrong way we don't need to pay more
07/13/26	Josh	60408	X	X	X						Oppose	Tolls were supposed to go away not keep increasing. The maintenance level these roads are maintained is no where near where it should be for the amount of money already brought it. You want to raise rates for what you sure dont fix the roads with it. If your not fixing roads then there should be no tolls. That money should go to roads work only nothing else!!!
07/13/26	Matt Robison	61611				X	X			The tollway is the most direct route to my destination.	Oppose	This increase targets families and drivers who simply wish to travel from point A to point B. Illinois is known for taxing everything they can and this is another example. Greedy and out of touch politicians forcing another increase and burden on people already struggling with finances. It's disgusting. I'll find alternate routes and avoid these gouging attempts. Shameful proposal.
07/13/26	Pamela Schmalzer	60056	X				X		X		Oppose	we already avoid toll roads because we pay too much. we do a lot of road-tripping and so many other states have better roads and no tolls.
07/13/26		60188	X		X		X				Oppose	You have got to be kidding me! 0.45 per toll increase....another reason why this state sucks. Take as much money away as you can and it's not going to make the traffic any faster with all the semis on it. Take away the semi trucks and then maybe I'll agree. Definitely don't believe anything you are saying it will help.
07/13/26	David Saviski	60423	X			X	X				Oppose	A hik d is ridiculous. If the tollway was managed properly (fat chance in Illinois) we wouldn't need tolls. You know like in Colorado, they did away with tolls years ago because the money was not mismanaged.
07/13/26	Robert Fleshood	60067	X	X			X				Oppose	Do not raise tolls on those of us who pay illinois excessive gasoline taxes in addition to tolls that were not supposed to be permanent. Instead, double or triple tolls on those driving EVs who do not pay any gasoline taxes.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/13/26	Nicole Hall	60518			X	X	X				Oppose	The tollway was supposed to be temporary and now you want to increase it more? People can't afford this and this is ridiculous!
07/13/26	Don schultz	60083	X		X		X				Oppose	Stop increase. Use existing funds! STOP using existing to send to Chicago pension and other this instead of roads. FACT, existing funding is NOT used for it's intended. It IS being STOLEN by pritzger to fund ILLEGALs!!!!!!!!
07/13/26	Tina	60124	X	X			X				Oppose	
07/13/26	AP	60510	X			X	X				Oppose	This toll rate increase causes problems with affordability. Highways must be accessible to everyone, not just those who can afford it. This is critical and I oppose this toll increase.
07/13/26	Darius Moss	60651	X	X			X				Oppose	
07/13/26	Hugo van Nispen	60185					X		X	Stop charging tolls, less corruption	Oppose	Tolls are an embarrassment to the state of Illinois. Stops gouging drivers and do better with the resources already allocated to you.
07/13/26	Natalia	60707	X		X		X				Oppose	At a time when everything: food, gas, medical is increasing, the last thing we need is yet another increase. Not only are you intending to increase the tolls by almost .50 cents, you're also looking to potentially increase them every other year. The average American's salary for not increase with inflation, so you're going to put Americans in a position where they need to decide if they're better off taking toll-less routes.
07/13/26	Andrew	60565	X			X	X				Oppose	Tolls have risen over the years, but this is absurd. This state taxes its residents like no other. Please stop.
07/13/26	Mm	60605	X	X			X				Oppose	
07/13/26	Ali Hussain	60084			X	X	X				Oppose	
07/13/26	Nancy Swims	60441			X	X	X				Oppose	The tollways increased their rates in 2012 and quite frankly I have not seen any improvements since the rate hike. 294 has been a mess at one point or another since I was a teenager 40 years ago! It's 2026 and there is still construction, come on get it together. No rate increases, show some fiscal responsibility!
07/13/26	Fred Butalla	60431	X		X		X				Oppose	The revenue already significantly exceeds the operating costs. Automatic increases removes all accountability. People's paychecks don't get automatic increases. Why should the tolls be any different? In addition, roadwork is currently done very inefficiently. Other states are able to do similar work much quicker. That should also be addressed rather than simply driving up huge increases in our tolls that should have been paid off decades ago. There has been no accountability and this proposal simply means there will be even less accountability while taking more funds from residents.
07/13/26	Chris Kappes	60048			X		X			No automatic increases like gas tax !	Oppose	Illinois cannot afford the endless price increases. What happened with the gas tax money? We do not support this.
07/13/26	Jim Koklas	60067			X	X	X				Oppose	No more taxes!
07/13/26		60169	X			X	X				Oppose	Our costs on everything are sky high right now. Increased tolls now when people are struggling to pay all bills seems cruel. There are so many projects along the toll roads making driving them a nightmare right now as well.
07/13/26	Kk kasprzak	60156			X		X			Free in 1973... remove all tolls, that'll ease up bottlenecks	Neutral	Tollway makes millions of dollars daily, removed workers from toll booths, no more money should be needed, remove the tolls. Absolutely ridiculous. I stopped using it because i was being charged non i pass rate because your equipment malfunctioned reading the transponder. Just thiefs, stealing money.
07/13/26	April Doner	60623			X		X	X			Oppose	Everyday folks are already struggling with massive increases in price of gas, groceries, housing and other services. This will place a serious burden on many of us.
07/13/26	Derek Randall	61341	X				X		X		Oppose	I understand that costs rise but, a increase of that size is ridiculous! To many people that rely on the tollway are already having financial issues because of the price of gas in IL.
07/13/26	Monica Torres	60181	X		X		X				Oppose	
07/13/26	charlotte sorci	60193	X		X		X				Oppose	Tolls are already too high

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/13/26	Bonnie Arrington	61103-4542			X		X			Decrease in tolls, not increase	Oppose	We cannot afford everyday life as it is & now you want to propose another long term project to pay for this? Absolutely not! I do not support this in the least! Remember when the 1st Toll road went in? Tolls were supposed to stop after it was paid for but they didnt, they kept going, right??
07/13/26	Maeve	60048	X		X		X				Oppose	PLEASE vote no for the toll increases. The cost of living has gone up so much and I commute one hour each way and have to pay $10 in tolls PER WAY. For a one hour drive I go through 4 tolls EACH WAY. It is $20 just for me to go to work everyday because of how many tolls are on Illinois roads. An increase would significantly affect my price. The increase proposed is increasing my significant when it already costs so much for something many states have for free. This is why so many people are leaving Illinois! I know I am looking at relocating to a toll free state such as other Midwest states like Wisconsin and Tennessee. You keep driving people out of their home states. I've been here 30 years!!
07/13/26	John Budnyk	60118					X		X	Robbery. You are all thieves	Oppose	Do any of you assholes remember these tolls were temporary. You all need to be fired
07/13/26	Dave	60510			X		X	X			Oppose	You have already misspent the money collected you have raised the prices and no way to stop your wasting money and stealing money. The roads should all be paid for already the promises of taking the tolls away from the building of 355 gone. No remorse I can afford gas and now this. Stop the lies and the wasteful spending. Stop the stealing and greed. I have no way to get anywhere with out paying you over charging tolls now and you want more. No No No.
07/13/26		60060			X	X	X				Oppose	
07/13/26	Bruce sufranski	60189	X		X		X				Oppose	There is no transparency regarding rates. I294 has been under construction for 5+ years with no end in sight. A stretch of 294 near Ohare is deteriorating. We were promised no more tolls in the 1970s yet tolls continue to go up. You've not demonstrated the ability to manage resources effective so I say no more toll increases.
07/13/26	Julie	60462			X		X			Safety	Oppose	Mostly used by Illinoisans and we are already overburdened in this state and taxed to death. The tollways were supposed to be temporary to begin with. Working class families cannot afford an increase which adds up to paying hundreds more each year and thousands more over many years. STOP THE INSANITY ILLINOIS!! You're losing residents to neighboring states by the thousands! And the trucking companies will have to raise prices which will increase prices on EVERYTHING! GOD HELP US!
07/13/26	Triuna Taylor	60651			X	X	X				Oppose	Please, for the love of God, don't increase the tolls. There is already a fee every single time I get an invoice sent to my house because I can't afford the passes. We are in a recession or borderline. Have a heart. If you can't find that, please use your conscience.
07/13/26	Chris	60062	X		X		X				Oppose	
07/13/26	Derek Gau	60062	X		X		X				Oppose	This is a terrible time to burden citizens with additional tolls, which are effectively a regressive tax. While larger fleet operators can bear the burden more easily, I suspect they will pass the increased cost of freight to end consumers. That's a double-whammy for many of us.
07/13/26	David Gutierrez	60542	X			X	X				Oppose	Illinois should be working to eliminate tolls, not increase them.
07/13/26	Jon Macleod	60172	X				X			No Tolls	Oppose	The tollway as it currently sits is illegal based on what the tolls were originally for and what is currently being done with the money collected. Just maintain the roads stop charging to use them and making them more confusing to use which causes more accidents
07/13/26	Kathy Lillig	60046	X	X		X					Oppose	
07/13/26	Margene P Gilbert	60448	X				X			More police presence on the roads and crack down on those drivers who put everyone else's safety at risk.	Oppose	Tolls are already too expensive, especially for people already struggling to live here. I strongly oppose another increase on the people of Illinois. 07/13/26		60502	X		X	X					Oppose	

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/13/26	James K	60655	X		X		X				Oppose	There is a surplus of funds. The excessive spending needs to stop. Who oversees the checks and balances of these IL Toll staff and Contractors?
07/13/26	Angelical	60618				X	X	X			Oppose	With gas price soaring now this idea how are we supposed to drive.
07/13/26	Carol Brown	60455					X		X	Fastest route to my destination	Oppose	I believe the original purpose for tolls which was to pay for the road. It has now become a revenue source for other means which is not right.
07/13/26	Maria Hill	60002		X	X	X					Oppose	Please no! We can't afford to live in this state
07/13/26	Rosalyn Howard	60605	X				X		X		Oppose	I know things need to be maintained. A $.045 increase is a lot. Presently everything is high gas, groceries, utilities medical etc. This would be another increase that people can't afford. But, $0.45 at one time is too high. I could see maybe $0.20. But $0.45 is to0 high.
07/13/26	Jon	60543	X			X	X				Oppose	Please stop taxing regular people out of being able to live here. It is impossible to travel the Chicago area efficiently without using the tollway. Tollways bonds were paid off in the 80s, we should even have tolls. Regular people wont be able to afford living here.
07/13/26	Anthony	60106	X		X	X					Oppose	
07/13/26	Judy Kosky	60510				X	X			In the past several years, I have yet to drive 294 north without considerable delays and still pay full toll rates	Oppose	The increase is far too much during the economic constraints we are currently experiencing. I would definitely look for alternative routes.
07/13/26	Bob Johnson	60020	X		X		X				Oppose	Fuck you assholes. Learn how to budget and fix the roads properly, then you don't need to rape the people who drive on these roads.
07/13/26	c gorney	60463					X	X	X		Oppose	when the toll road was built promises were made the it would be paid for and tolls would be ended. now years later it is prohibitively expensive to use regularly. sadly i now spend part of my year in chicago and fly out of Midway, rarely using the toll road only when there is no viable alternative.
07/13/26	Rachel Sever	60452	X				X			Discounted rates for ipass users.	Oppose	It's already expensive to pay tolls, an increase would lead me to using more alternative routes in order to save money even if my drive time increases. I can't afford such a steep increase.
07/13/26		60540	X			X		X			Oppose	
07/13/26	Michael Comet	61820			X		X			Affordability	Oppose	Start by spending the money you collect now more responsibly. We pay enough already for safe, clean, roads.
07/13/26		60543			X	X	X				Oppose	A 45 cent increase is ridiculous. That's a massive increase. I'm not against an increase, but how about starting at a nickel.
07/13/26		60062	X			X	X				Oppose	This is not the time to raise the tolls or have increases tied to inflation. The gas tax is already out of control. The residents of Illinois cannot take more unnecessary "taxes" like this will be.
07/13/26	Michael Jopes	60555	X			X	X				Oppose	This is a fraudulent state with a fraudulent governor. Revenue from This proposed increase won't go towards the roads. The slob of a governor will embezzle and illegally spend. Prickster for Prison
07/13/26	Kabindra Shrestha	60563			X		X		X		Oppose	
07/13/26		60517				X	X	X			Oppose	Stop the wasteful spending first and then you'll have all the money you need. You built massive oasis only to tear them down and break the lease agreements with the businesses inside. 294 has been under construction since I started a job in the northern part of the state nearly 20 years ago and it doesn't look any better then when it started. And how much money did it cost us citizens just to get Blagovich's name off the tollway signs? The problem isn't that the Tollway doesn't have enough money, the problem is it doesn't know how to responsibly spend the money it does have. And giving the tollway more money isn't going to fix the problem, it's just going to make it worse. The citizens of Illinois are being asked to stretch their dollars more than ever, it shouldn't be any different for the Tollway or any other taxing body in Illinois. Learn how to stretch the dollars you have more, just like the rest of us.
07/13/26	Jason Bohrer	60657	X		X		X				Oppose	We will never see this money being put to any use, no matter what the toll cost. This state is a laughing stock

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/13/26	Richard Kane	60089	X			X	X				Oppose	
07/13/26	Nick	60140			X	X	X				Oppose	Stop taxing us to hell for fucks sake
07/13/26	Samantha C	60103			X	X	X				Oppose	
07/13/26	Jeewan	60503			X		X		X		Oppose	Oppose proposal
07/13/26	Judi Travilla	60108	X			X	X				Oppose	Get in line with all the other money grabs! Where will it all end?! Companies and utilities continue to improve their bottom lines while the rest of us have no bottom line.
07/13/26	Tim Lee	60477	X			X	X				Oppose	Further toll increases are simply government pocket picking, Illinois is the nation's worst offender. One of the most corrupt state governments in USA, if not THE worst. The offenders know who they are, as do the voters of Illinois.
07/13/26	John Babirak	60525	X		X		X				Oppose	You guys are really out of your FUCKING MINDS. Seriously, you make drivers bail out public transportation by this sneaky crap? Make users pay their fair share. Do not impose it on users who do not even use public transportation. Stop this nonsense. Until someone on this state cuts expenses, these types of increases are a hard and emphatic “NO!”
07/13/26	Joan Carrigsn	60093	X				X	X			Oppose	Illinois consistently shows how it cannot manage expenses - a 30 percent increase is unacceptable - for a state run by democrats that claim they are for the working citizen consistently shows the exact opposite - learn how to better manage other peoples money
07/13/26	Amanda Slobodecki	60148	X			X	X				Oppose	The tollway was supposed to have been paid off YEARS ago. With all the inflation and economic hardships, increasing tolls on passenger vehicles isn’t the answer. Other states have freeways. Find a funding model from another state, maybe Minnesota, that Illinois can follow to fund a freeway.
07/13/26	Dan	60004					X		X	Lack of state police to stop super speeders	Oppose	The roads are fine and the economy is collapsing. The construction companies can replace city roads.
07/13/26	Consuelo Harris	60438	X		X		X				Oppose	We should not have to continue to pay tolls - it’s constant lies and changes - we can’t afford to use the roads
07/13/26	Sushil Tuladhar	60490	X		X	X					Oppose	
07/13/26	Georgia Gilbert	60425			X	X	X				Oppose	
07/13/26	Ranadheer	60563	X		X		X				Oppose	Try to maintain the roads but no need of new projects. Already paying so much tolls. Each project taking so much time and causing for months and months closure.
07/13/26	Harrison	60559	X				X			tolls were mean to be temporary!	Oppose	tolls were mean to be temporary!
07/13/26	Mike Lork	60441	X		X		X				Oppose	It’s getting too expensive to use the Tollway. Before there’s a rate increase, the Tollway should look at how it can reduce its operating costs. We never hear government entities cutting anything, only how they need more funding by the taxpayer.
07/13/26	Rizzie Calderon	60707		X	X		X				Oppose	
07/13/26	Jocelinev	60018			X	X	X				Oppose	Too expensive for toll.
07/13/26	Jenny Frantzen	60563	X			X	X				Oppose	
07/13/26	Amanda Campbell	60103	X		X		X				Oppose	There are many areas in the USA that have NO tolls and beautiful roads. I am tired of pushing the cost and increases for everything on the citizens of Illinois. First the Lotto was going to be used for education and fixing the roads, then the tolls themselves were to be used for fixing the roads. Blah, blah, blah. Figure it out without forcing the citizens of Illinois to pick up the tab on yet another issue.
07/13/26	Georgiana Iova	60634	X		X		X				Oppose	
07/13/26	Diane Soltwisch	60559	X				X			Quicker projects....rip everything to pieces and it sits	Oppose	The Tollway was temporary....if we could see transparancy on where the money goes. So many roads under construction for years!!!!!!!! 294 sucks!
07/13/26	Sabrina eckhorn	60631	X		X		X				Oppose	Anyone who does not have IL plates should pay double or at least the proposed increase
07/13/26	Stop raising our cost of living	60010			X	X	X				Oppose	Strongly opposed. Reduce spending elsewhere and be fiscally responsible.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/13/26	Ericson Masini	60004					X		X	Affordability	Oppose	Commuting on Illinois tolls is already an expensive necessity. Adding a premium onto daily travel forces working-class drivers to choose between longer, heavily congested backroads or watching their paychecks bleed away into I-PASS accounts. The tollway claims this plan will "save time and money," but for regular people trying to budget in an already expensive economy, this is a massive step backward for affordability.
07/13/26	Deborah Labuda	60152	X			X	X				Oppose	Tolls are too high now. I drive them every day and doubling them will really impact my budget.
07/13/26	Caryl Clement	60120			X	X	X				Oppose	Nothing you've done this far, including the multiple changes at Cumberland have helped. I do not want to spend more money on failures
07/13/26	Joe	60031	X		X		X				Oppose	
07/13/26	Dan Amaro	60074	X		X		X				Oppose	This was supposed to be only to pay for the initial construction back when tolls were first implemented. This state mismanages every cent they get their hands on.
07/13/26	Christopher Smith	60093					X	X		No toll increases!	Oppose	
07/13/26	Kyle	60504				X	X			Affordability	Oppose	You guys say you want to help drivers but want to keep increasing tolls which is NOT helping! Wages haven't kept up for many and this would be another blow to those struggling to keep going.
07/13/26	Michael Dyra	60707	X				X			Wisconsin doesn't have tolls hello,..and the Roads are no better or worse????	Oppose	Hello Pritzker,..a 30 percent on commercial Trucking,...will cost the average consumers more,.,that's why Our State will always be in a financial deficit and the tax taxpayers have to have to pick up the Bill!....Clown Show,...
07/13/26	Shaher Aboor	46342	X				X		X		Oppose	You are already making enough money from tolls Don't get greedy the tolls are already too high and the tollway iis in bad shape
07/13/26	Raymond Cebulski	60533					X		X	Enforcement of speed limits	Oppose	Why not just issue speeding tickets with increase finds. If you are doing the speed limit speeders are running you over me
07/13/26	John Olvera	60458		X	X	X					Oppose	No need to improve ment there already done.
07/13/26	David Lopez	60120			X		X		X		Oppose	Hello I oppose the proposed new rate increases. We are being impacted by increased food, gas, utilities, taxes and if this passes than we would have to worry about the tollway.
07/13/26	Deyli	60110			X	X	X				Oppose	
07/13/26	Elizabeth Rodriguez	60523			X	X	X				Oppose	I will avoid driving on tollway if fees increase
07/13/26	Sabreena Mulconrey	60403	X		X		X				Neutral	Price isn't too much of a problem, but the tollway roads are almost essential for a lot of citizens especially traveling to the city for work, so over time it does get costly.
07/13/26	Miachel Ochsner	61265	X			X	X				Oppose	I have no issue with seeing a slight rate increase in 2027, however I strongly oppose the inflation rate increase on the tollway starting in 2029, the state did the same thing on gas tax and now our state has the worst gas tax rate.
07/13/26	Laqueishia	60430				X	X			Less money out paycheck	Oppose	I take the tollways to and from work, this will increase my weekly budget by $4.5 and monthly budget by $18. I strongly oppose this.
07/13/26	M Cooper	60014				X	X			LEAVE IT ALONE Pritzget	Oppose	LEAVE IT ALONE PRITZGER!!!!!!!!! STOP DEFRAUDING OUR STATE
07/13/26	Ace Collins	60123			X	X	X				Oppose	I avoid the express way because tolls are to much
07/13/26	Jose Solis	60103		X	X		X				Oppose	Tolls are already extremely expensive
07/13/26	Alana	60018	X		X		X				Oppose	Yall don't fix shit anyways so stop charging us an arm and a leg for FREE LAND
07/13/26	Tania Gastelum	60031	X			X	X				Oppose	I will have to change work route
07/13/26	Evan Laskaris	60004					X		X	No tolls	Oppose	Call a special session to address involving the state in the tollway to find other sources. Time for pork to go - need to make tough choices. Cannot keep asking for people to pay more.
07/13/26	Ashley Chavez	60440	X		X		X				Oppose	The current economic climate, characterized by escalating costs, presents significant challenges for many individuals. There is a perception that leadership may not be adequately addressing these difficulties. The rising price of fuel, coupled with potential increases in toll charges, could soon render commuting financially unfeasible for a substantial portion of the workforce. Plus, all the expressways I take are not being kept up with anyway.
07/13/26	valentina	60110			X	X	X				Oppose	

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/13/26	Josh Hensley	61265	X				X	X			Oppose	Should not be indexed to inflation. People are hurting on affordability and increases are hurting everyday drivers in the state.
07/13/26	Brandy Thompson	60645	X		X		X				Oppose	Absolutely not. The tolls in IL are already some of the highest in the country and were never supposed to be permanent. This is also saying that the tolls are paying for the roads when our taxes should be and adding it to adjust for inflation puts the stress of the economy on our shoulders rather then our elected officals where it rightfully should be.
07/13/26	MJ	60490			X	X	X				Oppose	Stop robbing Illinois citizens.
07/13/26	Gary Wright	61244	X				X			Lower tolls	Oppose	This is just like the leadership in Illinois from the top (Gov.Prickster) on down. Tax, spend, repeat... And they wonder why people and businesses are leaving the state in droves. You take more than enough in taxes, eliminate tolls all together and tighten the belt.
07/13/26		60607	X	X	X						Support	I truly believe you should be increasing it to match what other toll roads cost around the U.S. At only 7 to 11 cents per mile in Illinois, the toll road is losing money. The national average is 16 cents per mile. Given how well maintained the Illinois toll roads are compared to others you really should be raising the price by at least 50% instead of the 30% proposed. Do we want to pay more money? No, of course not. Is it necessary, especially with the growing technological demands and increased traffic? Absolutely. Raising the tolls 50% isn't going to send people away from the toll road as the alternative routes are not ideal. A 50% increase will help boost revenue significantly and allow for more timely upgrades.
07/13/26	Tom M	46814	X		X		X				Oppose	Already too expensive--I will avoid toll road if price increases.
07/13/26	Nathan Miller	60123			X	X	X				Oppose	I am a college student that uses the toll to commute to work each day. I already spend a large amount of money on tolls every day. I know improvements are good, but for me personally, I need to save as much money as I can for school bills, fuel, and for saving for my future.
07/13/26	Nelson Reyes	60632	X		X		X				Oppose	Although $0.45 doesn't seem like a lot it actually is compared to what drivers are already paying. The tollway generates enough funds throughout the year. There is no need for an increase.
07/13/26	Kristen	60647	X		X		X				Oppose	I am writing to express my opposition to the proposed toll increase on the Illinois Tollway. While I recognize that recent construction has addressed long standing issues with bridges, ramps, and roadway safety, the pace and quality of these projects raise serious concerns about how effectively current funds are being used. Construction seems to take far longer than projected, and too often the work does not appear to be done correctly the first time—leading to repeated closures, extended delays, and additional repairs. When residents are asked to pay more year after year, we should be able to trust that the work is efficient, durable, and responsibly managed. Right now, that confidence simply isn't there. Tolls were originally intended to be a temporary funding mechanism, yet they have become a permanent and ever increasing burden on the people who live and work here. I am not willing to pay more for a system that has already exceeded its original purpose and continues to rely on residents as its primary revenue source. I urge you to explore alternative funding strategies that do not place additional financial pressure on Illinois drivers. Options such as improved budget oversight, cost efficiency audits, public private partnerships, or restructuring existing revenue streams should be prioritized before turning again to toll increases. Illinois residents deserve infrastructure that is well managed, cost effective, and funded through balanced, sustainable methods—not continual rate hikes.
07/13/26	Mario Butler-Del Rio	60462	X		X		X				Oppose	I've been driving on these roads since I was a child with my family, and now as an adult, I've never seen well-maintained roads and good traffic without paying tolls. We've been promised a lot over the years with toll money, and it's never happened, so I oppose this toll increase and ask for other options like increasing taxes on the top 1% or businesses that use trucks to carry cargo in and out of our state to shoulder the burden. Thank you.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/13/26	Chris Bowers	60504	X		X		X				Oppose	I am not opposed to an increase but the steep nature of this toll increase is too much. We pay A LOT for tolls as it is and while I understand that they are needed to fund roadwork and repairs, there needs to be some accountability and sound reasoning for how much the tolls increase. There should be a step-wise increase in rates rather than the one-time big increase. If that won't fund everything you want to do then 1) prioritize what you can do, and 2) find ways to do it for less. Us taxpayers are already paying so much for everything else in our lives and have to make sound fiscal decisions every day and so must you!
07/13/26	Martin Gonzalez	60142	X		X		X				Oppose	
07/13/26	Balaji R	60490	X				X		X		Oppose	Illinois is already very expensive and yet the roads are poor in comparison to other states. We cannot afford more increases. Please do not increase.
07/13/26	Keith Szafran	60453	X		X	X					Oppose	Give me a break. You've rates so many times already. Try cutting bloated do nothing government jobs or get rid of the pension system. That's a crock. I can't retire from my job and make the same salary as I did my whole career. And you wonder why you're always in a shortfall!!!!
07/13/26	Fred Jones	60477	X				X		X		Oppose	The tollway already has enough money and cannot even finish the projects that are already started or underway. 294 has been torn up from I-55 to past Oakbrook for over 2 years. Maybe if you fixed what you started in a reasonable amount of time. Things might get better. Also, you should put signs prominently displayed on I-294 in both directions from Indiana to the Wisconsin border stating that trucks must use the two right lanes or face huge fines. There are places where the road is five lanes. And trucks are driving all the way into the left lane. You need those signs both posted on the roads and on the overhead message boards to get the Messenger across.
07/13/26		60453			X		X		X		Oppose	What about teachers who take the toll road to work? Their salary will be depleted more.
07/13/26	Latonia Bridges	60458	X		X		X				Oppose	Why is the people’s have to help fund this project every thing around us have sky rocket and now this we are in some sad times and a lot of people’s are taking advantage of the people’s
07/13/26	Maureen Lefebvre	60431	X				X		X		Oppose	With gas prices so high and may go higher I think it’s not the time or lower the raise
07/13/26	J Fern	60457	X		X		X				Oppose	
07/13/26	Char	60476	X		X		X				Oppose	I have to use the tollway to drive to work 5 days/week and this increase would take away an hour’s pay from my paycheck just to drive to work. It’s too much.
07/13/26	Jason	60560	X				X			The roads need to be maintained. That is all	Oppose	I think we e paid enough for these roads over the years. Quit pretending this is a functional way to pay for roads that have been paid off for years.
07/13/26	stanley F kedzior	60126			X		X			Maintenance -- NOT ANNUAL CONSTRUCTION!	Oppose	I'm totally opposed to any increase of tolls for whatever reason. The Tollway Authority has a mandate from your initial creation which has never been realized for many reasons. The perception, however, is that the toll-free premise was never intended to be fulfilled regardless of the number of years originally forecast. If, as expected, the hike will go through, it just means that I will only travel the tollway in emergent circumstances.
07/13/26	E White	60491			X		X			affordability again	Oppose	you all have lost your minds proposing this humongous increase and then automatically increasing rates every other year.....socialism

07/13/26	Derrick Barnes	60643	X		X		X				Oppose	Toll rates have to stay affordable. With Illinois gas tax and toll fee it makes it extremely expensive to commute. Toll fee should not increase automatically, then should always be vote to determine the appropriate increase.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/13/26	Ryan munoz	60123	X				X		X		Oppose	Illinois needs to stop nickel and diming us to death. We are the highest taxed state in the country when taking all taxes into account. We have the highest property taxes in the nation and are top 5 for gas tax. This is ridiculous and the tolls were supposed to be TEMPORARY! Whatever happened to that? Rate hikes are disgusting and should not be passed or encouraged. Illinois gets enough money from its residents. Its time our politicians start being responsible with the tax dollars, toll revenue, etc that they're already collecting.
07/13/26	Ian Acosta-Norwood	60172	X		X		X				Oppose	We pay enough taxes and enough tolls, roads should be free.
07/13/26	Teresa Lopez	60107	X			X	X				Oppose	Figure out how to make it work with what you have. People fond alternate routes every time you increase tolls. The higher the tolls the less vehicles will use the system.
07/13/26	Erteza Abdullah	60048	X				X			Manage your current budget better. When was the last time the average resident of Illinois got a 20% raise?	Oppose	Manage your current budget better. When was the last time the average resident of Illinois got a 20% raise?
07/13/26	Sarah	60510	X		X		X				Oppose	It already costs too much to commute to work everyday, this added increase is to alot all at once. Increase it more gradually over time! Thanks for the consideration.
07/13/26	Fred	60068	X		X		X				Oppose	We are taxed to hell in Illinois. Enough is enough
07/13/26	Ed Earley	60453	X	X		X					Oppose	294 near 95th street is a joke ALL the TIME!!, you have Harlem Ave and 294 meeting there at once it takes 25-30mins just to get on and now you want to raise tolls, plus the pot holes are ridiculous I popped 2 tires there and got into 1 fender benders. Forget it, its been like that for 30 years and its never been fixed
07/13/26	Ibad siddiqui	60108	X			X	X				Oppose	
07/13/26		60089	X				X	X			Oppose	
07/13/26	Ashley	60463	X			X	X				Oppose	
07/13/26		60106		X		X				No stop lights	Oppose	Tolls were supposed to go away many years ago.
07/13/26	Samuel Lee	60025	X				X			ok	Oppose	I am writing to express my opposition to the proposed toll increases. Illinois drivers are already facing rising costs for housing, groceries, insurance, utilities, and other everyday expenses. Increasing tolls places an additional financial burden on commuters, families, and businesses that rely on the tollway system every day. For many people, using the tollway is not a luxury but a necessity to get to work, school, medical appointments, and other essential destinations. Higher tolls also increase transportation costs for businesses, which can ultimately lead to higher prices for consumers. At a time when many Illinois residents are already struggling with affordability, this proposal moves in the wrong direction. I encourage the Illinois Tollway to explore opportunities to improve operational efficiency, reduce unnecessary expenditures, and prioritize existing resources before implementing additional toll increases. If additional funding is truly necessary, it should be justified with specific project plans, measurable outcomes, and strong fiscal oversight. For these reasons, I respectfully urge the Illinois Tollway Board to reject or postpone the proposed toll increases until a compelling and transparent case has been made that they are both necessary and in the best interest of Illinois motorists. Thank you for considering my comments.

07/13/26	Jon	60402	X			X				pick 3	Oppose	5 years of construction for no discernable benefit and now you ask we fund making our lives miserable for another half decade. Learn how to resurface a road in less then 2 years and maybe I'll reconsider.
07/13/26	Sara carney	61068				X	X			Affordability to get to work	Oppose	Daily commuters are going to struggle with this hike. Help out the working men and woman! Do not increase this for daily commuters.
07/13/26	Ethan	60565	X		X		X				Oppose	Why aren’t there toll booths on I290, I55, I94, I57? You just want to place a fee on white people with money, that’s why

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/13/26	Laurie	60192	X		X		X				Oppose	Just one more reason to leave Illinois
07/13/26	Parthiv Shah	61107	X		X		X				Oppose	Why does Illinois need more and more money? Cut unnecessary over spending and spend on roads and bridges without increasing TOLLS and TAXES (this is highway robbery). Illinois just want to tax people who work and keep supporting who do not work. Just take a peak at Wisconsin, our neighbor state, No TOLLS and better roads.
07/13/26	Robert Kelly	60477	X	X	X						Oppose	We pay enough tolls already, the tollway needs to manage it's money better.
07/13/26	Stephen Depiro	60187				X	X			years long traffic jams CAUSED by road construction is not acceptable	Oppose	This is just another ploy by Illinois to empty it's citizens pockets of their hard earned money. They have to constantly create new ways to pay for their overspending, instead of reining in their spending. How would it be if "ALL" Illinois citizens were fiscally irresponsible and bought overpriced cars, bought luxury houses they never could afford, sent their children to Universities that were nowhere inline with their current budgets, put Premium fuel in their cars when they only required 87 octane, ate filet mignon 5 days a week, and decided they wanted all these things but were only willing to work 3 days a week? That's just a poor example of overspending, but none the less, everyone would be running an insurmountable and unsustainable deficit. Then, because they could not pay their bills, everyone banded together and quit paying their property taxes, waltzed right into stores and stole whatever they needed, and robbed people on the street to help make ends meet. Would that be an acceptable way of life? Of course not, & either is constantly raising our taxes no matter how they present it. At the current rate of taxation, within a hundred plus years there will be a revolt against the government because people won't be able to live with 85% of their income being taxed.
07/13/26	Emily Westel	60195	X				X	X			Oppose	I'm not opposed to increasing prices by a little bit but $0.45 PER TOLL, with prices set to increase every 2 years after 2029 is too steep. Some people need to take the tollway daily and this adds up very quickly. A lower increase would be better tolerated
07/13/26	J Tavares	60449			X		X			Political corruption	Oppose	The tollways shouldn't have any tolls. The politicians promised the tolls were temporary when originally built. The corruption in the state of Illinois is out of control.
07/13/26	Marjorie Rice	60618	X		X		X				Oppose	Illinois constantly raises taxes and fees for Illinoisans but has never cut spending. We pay for roads with our taxes and then we have to pay to drive on them. Let's just stop spending.
07/13/26	Fermin	60706			X		X			Affordability to get to my job	Oppose	How about we stop raising fees and taxes in this state. You want to increase not only how much it cost me now to get to work busy also increase the goods that I purchase at stores! You all scream Trump is increasing costs and yet here we are with you all increasing our cost of living because you can't have fiscal responsibility. I firmly oppose!
07/13/26	Megan Droy	61107	X			X	X				Oppose	Tolls are only going to be added and increased and tolls will never be taken away, ultimately causing increased cost for drivers. This is another way to upset Illinoisans when the overall morale of our state is already low. As well as a deterrent for people considering moving to Illinois. If they cannot afford to drive on the highways, they will not want to live here.
07/13/26	Haz	60016	X						X	Safety, cleanliness, ecological restoration/mitigation, roadside beautification (native landscaping/art)	Support	Speeding enforcement is woefully lacking and should be significantly upgraded. Dangerous driving is rampant on the tollways. IL State Police are not visibly present. This is a significant disadvantage compared to driving on Wisconsin and Indiana interstates. They seem to care more about highway safety than our authorities do.
07/13/26	David Peters	60062	X			X			X		Support	We live in Northbrook and visit my mother in Bloomington IN every 2 months as she will be 95 years old.Also have frequently gone north on 294 as I am physician with medical license in Wisconsin as well as Illinois

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/13/26	Gwen Bockman	60554	X				X			policing the reckless drivers	Oppose	This cannot come at a worse time. Gas prices already prohibit many of us from traveling. Illinois is one of the highest taxed states in the country. Democrats have got to stop this spending! Please, look for other ways to fund this project. Chicago is a city of illegals. What if we stopped paying for them to live here and use the money to pay for future projects. Better yet, let's cut some other programs that are not benefiting those that were intended to fund. I am totally against higher tolls for this project.
07/13/26	Adam	60005	X		X		X				Oppose	The government should use the money we already pay in taxes (without raising the tax rate) on road maintenance, access points, roadside services, public transit connection. We have the highest property tax rate in the country, very high sales and income tax rates AND you are increasing tolls BY 30%?!? The budget should be managed better, stop unchecked government handouts, stop being crooked and robbing your citizens. We were promised the tolls would go away, but now they're going up. How will we know the money is actually going to fund road maintenance? What metrics can I point to in my daily life to say "oh nice that's where my money went!" The roads are shit and always will be. It takes you all decades to complete projects because of all the regulations in this state.
07/13/26	Annie Pham	60517				X			X	Main route to work	Oppose	And what happened to when you guys first proposed the toll charges? Saying that it was going to be a temporary thing? Liars!
07/13/26	Elizabeth McCormack	60188	X				X			Bridge and Road Surface Safety	Oppose	While maintaining the tollway is important and I understand that tolls are the funding mechanism that pays for the construction, maintenance and other costs associated with the tollway, these proposed increases seem excessive. Not only are drivers experiencing increasingly high costs of living and costs of fuel, but a 45 cent increase per booth across the board is extreme. Even if an increase is warranted, phasing in a more gradual increase over several years would be less dramatic and would allow drivers to better adjust to the increase over time. Furthermore, the proposed lane increases to "alleviate traffic" are based on a faulty premise. The tollway is interconnected with multiple other interstate systems, which also have limited capacity for traffic. All of these interstate/tollway systems are not being increased to accommodate additional traffic, so increasing the capacity of one will just move the pinch point to another spot. Additionally, years of widening and adding capacity to interstates across the country have demonstrated that increasing the capacity of the highway system does not eliminate all rush hour traffic congestion, no matter how wide and big the highways become. The bigger you build it, the more cars and trucks will flow in to fill it up. We need to work to find other solutions to solve our traffic problems that work better than the same thing that we have been trying to do for the last 60 plus years. Building bigger, wider and more lanes on highways or tollways is not the solution to traffic in our region. We need to be innovative to solve problems, not keep doing the same expensive things that increasingly tie us to an ecologically damaging model that is reliant of fossil fuels both in the maintenance of the infrastructure and to use.
07/13/26		60048	X		X		X				Oppose	
07/13/26		60047	X		X		X				Oppose	
07/13/26	Justin lutker	60142	X		X		X				Support	
07/13/26	Bob Brown	60190				X	X			Less expensive	Oppose	Expensive enough already. Can't afford increases.
07/13/26	Addison Heffron	60563	X		X		X				Oppose	The amount currently collected is enough to keep the tollway running. Stop increasing travel costs on our commuters and transporters of goods
07/13/26	Joe DiCiaula	60646	X			X	X				Oppose	
07/13/26	Paul Satula	60622				X	X			Tollway should be free from 1972 as promissed.	Oppose	Another money grab.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/13/26	Elissa Ricchetti	60143	X			X	X				Oppose	Because of where I live and where I work, I have to drive the toll road as it would add 30 min or more to my already hour commute, I am spending over 4 dollars a day breaking down to almost 90-100 dollars a month to just get to work as many of the tolls I co through are already 75 cents to $1.50. I work two jobs and can barely afford to support myself , I can't afford another rising cost. Not only are the roads already expensive they aren't being maintained well either.
07/14/26	Benjamin Belick	60014	X			X	X				Oppose	I vehemently oppose raising toll rates. Illinois collects enough taxes from its citizens to support and maintain safe roads. Spend responsibly, fix the roads with the money you already collect.
07/14/26	Christian	60016	X		X		X				Oppose	Strongly oppose
07/14/26	Mariah	60563	X				X			Construction times need to decrease	Oppose	I oppose the toll increase as there have been many in the past and cost of living has increased exponentially. We are already taxed too much and another increase is not warranted. Illinois needs to allocate the toll money we already pay correctly.
07/14/26	Lucas Smith	60565			X		X			Affordable	Oppose	No more increases! I will find an alternative route. How dare you even consider this with gas prices and the old lie that toll roads would have a sunset. You already get enough!
07/14/26	Rick Melendez	53235	X		X		X				Oppose	
07/14/26	John wayne	61350	X		X		X				Oppose	
07/14/26	joshua Hribar	60442	X				X			proper lighting	Oppose	I DO NOT SUPPORT THE TOLL INCREASE

07/14/26	John W Treiber	60108	X		X		X				Oppose	This is one of the reasons that I am leaving Illinois. The taxes are ridiculous and the tolls have done nothing to improve the roads, which are some of the worst in the country. Back when the tollway started almost 70 years ago, we were supposed to be toll free back in the 70's. Now we are not only toll free but increasing them. The tollway generates over two million dollars per day and the roads are horrible!
07/14/26	Ranit Pierson	60015	X		X		X				Oppose	I believe our roads are already more expensive than most states and in worse condition. More money will simply hasten our exit from this state. We have to fix the handling of our finances. Rather than continually going into taxpayers pockets.
07/14/26	William B Coleman	60645	X				X			I will do almost anything to AVOID the tollway	Oppose	The tolls should have been lifted fifty years ago
07/14/26	Nedra Phillips	60155			X	X	X				Oppose	Nobody got no extra money to be giving out. Y'all need to figure out AN ALTERNATIVE PLAN to meet your financial constraints.....DO NOT PLACE THE ADDED FINANCIAL BURDEN ON ILLINOIANS - WE OPPOSE THE PROPOSED TOLL RATE INCREASE
07/14/26	Obed Velazquez	60645	X		X				X		Oppose	Originally, The Illinois Tollway started as a TEMPORARY solution to fund public infrastructure, yet we still have it, why is that ? I won't have to worry about this scam, I relocated to Florida. Bye 👋
07/14/26	Krystal	60652	X		X		X				Oppose	There won't be any drastic changes that would account for the increase. Current travel cost one way is 15 increasing cost would make it harder financial to get to work on top of the current cost
07/14/26	Ryan Brutt	60076	X		X		X				Oppose	If this goes up, I will use public roads and alternative routes.
07/14/26	Mark Grigsby	60625	X			X	X				Oppose	For many years tollways were supposed to be temporary and all we see are toll increases enough is enough stop shoving your money grabbing ideas down our throats.
07/14/26	John Burns	60521			X		X			Lower tolls	Oppose	Toll roads are a stealth tax. Get a transponder and you automatically get taxed but never know the rate. I live 12 miles from O'Hara Airport and a round trip on the toll road cost $5.50. That is excessive. That is 23 cents a mile on top of the second highest gas tax in the country. The gas tax is supposed to pay for road maintenance. The toll road is a scheme to funnel money to labor unions who financially support the politicians. Toll road fees and gas tax are driving IL citizens to move out of IL

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/14/26	Adam Frank Trombino	60406	X			X	X				Oppose	There is no evidence the toll $ is going to where it is supposed to be allocated for. It needs an independent audit. If the governor can empty the reserve $ for roadway services the way he did on 10/31/25 to bail out the RTS in Chicago, what are we paying for as our roads and bridges continue to crumble? If our tolls are supposed to be able to pay for road infrastructure, why is this state so dependant on fed funds? The more you raise rates, the fewer people will be willing to do business here, use our roads, or want to live here.
07/14/26	ILMakingMeBroke	60148	X		X		X				Oppose	I strongly oppose the proposed toll increase for passenger vehicles. Illinois residents are already paying more for nearly every aspect of daily life, including groceries, utilities, insurance, fuel, and property taxes. Now the Tollway is proposing to increase I-PASS tolls by approximately 45 cents per toll while also establishing automatic inflation-based toll increases every two years thereafter. This creates a system in which we will pay more indefinitely. We are being asked to shoulder higher costs in the name of projects that never seem to get done. Our roads remain subpar and even unsafe and congestion is horrible. Where is all the money from our tolls going if the roads remain in such disastrous conditions? For commuters who rely on the Tollway every day, this proposal will amount to hundreds of dollars in additional annual expenses simply to get to and from work. I already pay more than $2000 in tolls annually and $3000 in gas just to get to work; this figure will obviously increase if this proposal passes and many people, including myself, will be unable to afford traveling to work. The Tollway must first demonstrate that it has exhausted opportunities to reduce administrative costs, improve operational efficiencies, and prioritize existing revenues before asking hardworking Illinoisans to pay more. Furthermore, automatic future increases remove meaningful public accountability and should not become standard practice. Illinois commuters deserve fiscal responsibility—not another recurring increase in the cost of getting to work. I respectfully urge the Board to reject this proposal.
07/14/26	V. Riley	60419	X			X	X				Neutral	What type of help will be gotten rather than consumers. Also .45 is to pricey the purpose of the pass is to help with cost your increase Will place a burden on many people who really need the tollway rethink the increase I suggest no more than .10 cents. This number will bring in millions while allowing people to stay committed to the tollway. If you can't help don't hurt.
07/14/26	Thomas Nelson	60586	X			X	X				Oppose	Guys, it's not a shock you keep driving residents and businesses out of the state with these asinine ideas. You've chased out 5 Fortune 50 companies. Yet you liberals claim to defend the middle class, how is this anything but a straight tax to the middle class trying to commute and pay the bills? Gov Pritzker could privately fund this but then we run the risk of knowing big government doesn't work. Unreal you guys think this in acceptable to do to the residents who live here. Perhaps we could not give illegal migrants free EBT, housing and medical care? Save us $3 billion right there? I don't know seems logical to actual want to take care of American citizens and stop wasting our tax payer dollars?
07/14/26	Steven Schmidt	60516	X				X			Freeways instead of tollways	Oppose	I oppose increasing tolls in Illinois because they have become another burden on residents rather than a temporary way to fund roads. Many suburban commuters have little choice but to use tollways, and with Illinois already having high taxes and fees, residents should not be asked to keep paying more. The state should focus on using existing revenue more efficiently instead of continually increasing costs for taxpayers.
07/14/26		60640	X			X		X			Support

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/14/26	TaxedToDeath	60106	X		X		X				Oppose	I am strongly opposed to the proposed increase in passenger vehicle tolls. Illinois families continue to face rising costs across the board, from housing and insurance to groceries and fuel. Adding another financial burden on those who depend on the Tollway every day is simply unreasonable. Even more concerning is the proposal to tie future toll increases to inflation, creating an endless cycle of higher costs with limited public oversight. As someone who commutes daily, I already spend more than $2,000 each year on tolls and approximately $3,000 on gasoline just to travel to and from work. This proposal would increase those expenses even further, making an already costly commute even less affordable. Many working Illinoisans are in the same position. Drivers are repeatedly asked to pay more, yet many Tollway roads continue to suffer from congestion, deteriorating pavement, and work zones that seem to persist for years without noticeable progress. Before imposing additional costs on commuters, the Tollway should provide greater transparency about how existing toll revenue is being spent and demonstrate measurable improvements in road conditions and project completion. The focus should be on improving efficiency, reducing unnecessary expenditures, and maximizing the value of current revenues—not placing a greater financial burden on the people who rely on these roads every day. I urge the Tollway Board to reject this proposal and instead prioritize accountability, responsible fiscal management, and tangible improvements for Illinois drivers.
07/14/26	Jeff Camiliere	60169	X	X			X				Oppose	
07/14/26	Alicia Sears	60443	X				X			N/a	Oppose	Illinoisians are already dealing with record high costs. Continuing to impose more fees on us will drive more people out of the state.
07/14/26	Charles Szymanski	60649			X		X			Cost of toll	Oppose	The impact this will have on seniors and the disabled is massive. I am AGAINST any change in the cost of tolls. This will add a greater burden to people already struggling. Why would you think NOW is a good time to ask for MORE money from struggling people?
07/14/26		61115	X		X		X				Oppose	Chicago doesn't need the money
07/14/26	Kris Kalinowski	60081	X				X			You already charge a lot,	Oppose	It’s already expensive, many other states don’t charge tolls and the highways/roads there are better than Illinois, firstly you should fix your computer system, I was overcharged a lot of money by YOU
07/14/26	N Stoffer	61604	X	X		X					Neutral	If the Tollway can justify increasing tolls for better maintenance, then it seems reasonable.
07/14/26	Barry Szurgot	60448	X			X	X				Oppose	These constant increases in all phases of life, including food and other living expenses is making it very difficult for retired seniors living on a fixed income.
07/14/26	Michael Drew	60189	X		X	X					Support	Maintaining and upgrading the system are important factors to drive the economy in the greater Chicagoland area. Since it’s a use tax Illinoisians in the central and southern regions of the state are not affected by any increases in tolls
07/14/26	Angel Vargas	60123		X	X		X				Oppose	It’s hard enough spending 100 dollars a month to get to work. Increasing in an economy that is already expensive would destroy lower/middle class workers just trying to get back and forth to work to provide for their families. An increase would cause massive struggles across an already taxed state
07/14/26	Jennifee	60110	X				X		X		Oppose	Do NIT pass this!! Thus will be too much taxes-besides the gas tax, increasing property taxes-thus would also drive up costs for business--consumers would pay more!!! No more taxes!!!!!!!
07/14/26	Courtney	60031	X			X	X				Oppose	Tolls were supposed to be temporary to begin with. People cant afford basic life essentials and you want to take more money from them, its ridiculous. The state needs to learn how to manage money vs keep taxing and charging its residents more and more. Tax non residents traveling through at the most, not YOUR people who you are supposed to support. You are going to continue screwing us financially and its not ok. Figure out how to get the money from where you are already taking it from us elsewhere
07/14/26	Larry Dickman	60004	X		X		X				Oppose	Taxation is theft

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/14/26	Chip T	60188	X		X	X					Oppose	I oppose the proposed toll increase because Illinois drivers already pay some of the highest transportation costs in the Midwest, yet the benefits of those payments remain unclear. Current toll rates average $0.07–$0.10 per mile, which is significantly higher than neighboring states such as Indiana and Wisconsin, where rates typically fall between $0.03–$0.05 per mile. Despite this elevated cost, construction on Chicago area tollways feels constant, but the improvements to congestion, road quality, and commuter experience have been minimal. The Illinois Tollway has spent over $14 billion through the Move Illinois capital program since 2012, yet Chicago drivers still lose 155 hours per year sitting in traffic, ranking among the worst congestion levels in the country. Major projects such as the Central Tri State reconstruction and the Elgin O'Hare Western Access have faced repeated delays, extending timelines into 2026–2027 and beyond. Illinois residents already contribute heavily through tolls and one of the nation's highest gas tax rates. Before increasing tolls again, the state should demonstrate measurable improvements in congestion, project completion, and commuter benefit. Without clear accountability for existing funds, an additional toll increase is not warranted.
07/14/26	Paul Hackerson	61054			X		X	X			Neutral	The Government of Illinois has zero credibility with the People. Decades of One Party Rule has severely damaged the State I grew up In and returned to post military service. Paul Hackerson
07/14/26	James Edison	60030	X		X		X				Oppose	Take it out of your own pocket Prickzker. Where does all the tollway funds go now? What do you do with our taxes?
07/14/26	Kiernan Mack	60004	X				X			With gas prices on the rise, don't increase tolls	Oppose	I worked for 20 years in a location that required commuting to a location that involved paying a toll or going out of my way to avoid the toll. I avoided the $1 per day, 2x per day toll. As a private school teacher that saved me over $7000. Don't make us pay even more.
07/14/26	Anthony Salerno	60506	X				X			We don't have have half of this now.	Oppose	Why don't you give back to the citizens of the state instead of keep taking and taking. What happen to all the money that's generated. This is highway robbery literally!
07/14/26	Nathan Sendra	60450	X			X	X				Oppose	I spend anywhere from 25-40 on tolls already per week and I know a whole lot of other people paying more. Yet nothing gets done and the city of Chicago doesn't even own the toll road rights anymore so that money isn't going to bail us out or help the citizens in anyway.
07/14/26	Tony	60067	X		X		X				Oppose	https://x.com/illinijen/status/2076679424548675667?s=46&t=TwF_Yp0tC5TczkRQUgOWcw
07/14/26	Shanika Shepard	60099	X		X		X				Oppose	I've been a long time customer and oppose the rate hikes. If rates increase, I will use alternative methods or move out of the state.
07/14/26	Michael A Glaviano	60102	X			X	X				Oppose	We the people of Illinois have had enough, manage the money the state has and stop the waste.
07/14/26		60631				X	X			Direct routes between the north and south suburbs	Oppose	The tollway when originally built was supposed to be a temporary fee for drivers. The tolls have never been eliminated. Instead the state now wants to take more money from hard working drivers who need this route to get to/from work. This increase would mean I'm spending an approximate $500 extra each year in tolls. I'm already on a tight budget. I will need to seek different routes and potentially cost me more time in my vehicle to save in my pocketbook. A smaller, one time increase would be more favorable.
07/14/26	Jacob Trom	60097	X				X			No more tolls	Oppose	Toll free by 73 ... This is nothing more than a pathetic grab for money. Stop with the bull shit!
07/14/26	Greg O	60189	X		X		X				Oppose	Too much. Fancy words but too vague. Kingdom building. Too worried about aesthetics over functionality.
07/14/26	Timothy B Welch	60441	X			X	X				Oppose	Are you insane. 45cent increase for ipass holders. It will force me to not take tollroads. I'm 76 year old on fixed income.
07/14/26	Robert Mundo jr	60646	X	X	X						Support	As a member of IUOE Local 150, I support the Illinois Tollway's Driving Connections Capital Program. These investments help maintain and improve the roads and bridges that millions of people rely on every day while creating opportunities for skilled construction workers.
07/14/26	Jarett Chorzempa	60177	X		X		X				Oppose	Ridiculous! Always under construction and once done, under construction again. Figure it out and try again.
07/14/26	KC	60016	X				X			Just those 2.	Oppose	Already expensive. Manage your budget.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/14/26	Bradly	60440				X	X			You guys are communist and I should be able to travel freely.	Oppose	Go fuck your self raising tolls you fucking commies.
07/14/26	Patrick Kane	60403	X		X		X				Oppose	To Whom It May Concern, I am writing to express my strong opposition to the proposed toll increase. Illinois drivers have been promised for decades that tolls were intended as a temporary funding mechanism to pay for the construction of major highways and infrastructure projects. The public accepted these costs under the understanding that once the debt was paid and the roads were built, the need for continually increasing tolls would diminish. Instead, tolls have become a permanent and ever-growing financial burden on the people who depend on these roads every day. What is especially frustrating is that despite years of toll collections and repeated increases, many of the highways funded by those tolls continue to appear neglected, unfinished, or perpetually under construction. Drivers on I-80, I-294, I-55, and I-88 regularly encounter construction zones that seem to last for years with little visible progress. Lane closures, traffic delays, rough pavement, deteriorating shoulders, and ongoing maintenance projects have become the norm rather than the exception. It is difficult to justify asking residents and businesses to pay even more when many motorists do not see corresponding improvements in the quality, safety, or efficiency of these roads. For countless commuters, the daily experience is paying higher tolls while sitting in construction-related traffic, navigating uneven pavement, and watching projects stretch on indefinitely. Before any toll increase is considered, the Illinois Tollway should provide a clear and transparent accounting of how existing toll revenues have been spent, what measurable improvements have been achieved, and why current funding levels are insufficient. Taxpayers and toll-paying motorists deserve answers. They deserve to know why projects take so long, why construction zones remain in place for extended periods with little visible activity, and why roads that have generated billions of dollars in toll revenue still require constant repair and reconstruction. The public's frustration is not simply about paying more. It is about accountability. It is about being asked to shoulder an ever-increasing financial burden without seeing evidence that the system is being managed efficiently. Families are already struggling with rising costs for housing, food, fuel, insurance, and everyday necessities. Increasing tolls yet again places another unnecessary strain on working people who often have no practical alternative route available. The Illinois Tollway should focus on improving project management, increasing transparency, and delivering visible results before asking drivers for additional money. Continuing to raise tolls while roads remain under constant construction and maintenance sends the message that motorists are expected to pay more while receiving the same level of service—or in some cases less. For these reasons, I strongly urge
07/14/26	Albert	60453			X		X			The toll sucks, stop bleeding us dry	Oppose	The toll should be dismantled. Nobody wants the tolls.
07/14/26	K Levins	60532	X				X			Better managed transportation system. Wasn't it supposed to be for the kids education?	Oppose	Do you all benchmark other major metropolitan cities that only toll the HOT lanes?

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/14/26	Amber layoa	60403	X	X	X						Oppose	I strongly oppose the proposed toll increase and find it outrageous that Illinois drivers are once again being asked to pay more for a system that has repeatedly failed to deliver on its promises. The Illinois Tollway was originally sold to the public as a way to finance the construction of highways and major infrastructure projects. The understanding was simple: motorists would pay tolls to help build these roads, and once those obligations were met, the burden on drivers would be reduced. Instead, what was presented as a temporary solution has evolved into a permanent revenue stream that grows larger year after year, with no end in sight and little accountability to the people funding it. Illinois residents have spent decades paying tolls, yet we continue to hear the same excuses, see the same construction barrels, and endure the same delays. How many more years are drivers expected to fund projects that never seem to reach completion? How many more toll increases will be demanded before the public is allowed to question where all of this money is actually going? Anyone who regularly travels I-80, I-294, I-55, or I-88 knows exactly what I am talking about. Entire stretches of these highways have looked like construction zones for years. Lanes are closed, traffic is backed up, pavement is rough, and orange barrels have become a permanent fixture of the landscape. Yet visible progress is often minimal. Projects seem to drag on indefinitely while motorists continue paying higher and higher tolls for the privilege of sitting in congestion and navigating roads that frequently feel unfinished. What makes this proposal even more insulting is the timing. Families across Illinois are already dealing with rising property taxes, higher insurance costs, increased utility bills, more expensive groceries, and record inflation over the past several years. Instead of recognizing the financial pressures facing working people, the response appears to be another request for taxpayers and commuters to open their wallets and hand over even more money. The public deserves transparency before a single additional dollar is taken from Illinois drivers. Where has the existing toll revenue gone? How much has been spent on administrative costs, consultants, and bureaucracy? Why do so many projects continue for years without clear evidence of meaningful progress? Why are motorists being asked to pay more when they are still driving through work zones that seem to exist year after year? At some point, taxpayers have a right to conclude that the problem is not a lack of funding but a lack of accountability. Government agencies should not be rewarded with larger revenue streams simply because they have exhausted the current ones. If decades of toll collections have not produced roads that are consistently maintained, efficiently managed, and free from
07/14/26	Dale Jones	60635	X			X	X				Oppose	Too large of increase and indexing to inflation is totally wrong. Increases should be voted on as needed Funds should not be taken to support CTA
07/14/26	Judith King	60430	X				X			Less potholes	Oppose	This increase is too extreme for both families that work/commute five days a week and commercial truck drivers. The last six years have been very financially draining for all in Illinois. This is not a time for huge increases in tolls. Secondly, I strongly oppose automatic increases in future years. Our state gas taxes and property taxes have overwhelmingly destroyed families and businesses. Please trim the list of highway projects and focus on road repair where necessary. We dont need more ramps and lanes. If commuters don't like driving, they can take one of our trains. Much more efficient. Thus, I support rate increase to .80 cents per tolls and no automatic future increases. Thank you.
07/14/26	Tom	60467				X	X			Being left alone by idiot political hacks.Nice selection of options to point things in your favor	Oppose	Are you out of your mind? Every time we turn around the State is sticking it to us over and over. I can only surmise that either you don’t drive the tollways or the taxpayers are paying your tolls. How about telling that crap governor to take some of the $2 BILLION he spent for our new residents and new voters and instead start giving our money to repair our roads. Whoa what a crazy idea that is
07/14/26	Stanley S Budzinski	60184			X		X			Less toll booths	Oppose	What started many years ago as a temporary fix for the state roads is now a major cost factor for all of us. You barley keep the roads going now and overspend on current construction and do not hold your contractors accountable for shody work when their roads fail after just a few months.
07/14/26	B Behl	61103					X		X	Not being expensive	Oppose	

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/14/26	Spiro Houmpavlis	60015			X	X	X				Oppose	Stop taxing us to death!!!
07/14/26	Jose Caballero	60635	X			X	X				Oppose	Oppose toll increase with future automatic increase.
07/14/26	Jeremy M	60453				X	X			Why would I have to pick 3?	Oppose	Totally opposed to this. Hurts working class people getting to and from their jobs
07/14/26	Rodrigo	60440	X		X		X				Oppose	
07/14/26	Patrick R	60120	X		X	X					Oppose	The tollway has failed to keep roads maintained even with previous rate hikes. Asking tacs payers is a complete slap in the faces considering the tollways failures and the fact that tolls were supposed to have gone away over 40 years ago. Act responsibly with your budgets. Being a homeowner, if I mismanage funds, I can't just ask someone else to pay my bills.
07/14/26		60448	X				X			Money back for the last 20yrs.	Oppose	You said this was only going to be for 1 yr and you lied, you also keep making increases to are freedom to move about our country which is illegal.
07/14/26	Kim Scott	60030	X		X		X				Oppose	
07/14/26	Angela	60178			X	X	X				Oppose	The tollway system was never supposed to be a permanent thing, and yet you kept it. You want to now increase the tolls and charge people more money just to get back and forth from work. The tolls are supposedly for the roads yet the roads are worse than in states that don't charge tolls. WI doesn't charge tolls yet their roads are better. Those funds obviously come from somewhere.
07/14/26	Sue Meegan	60463			X	X	X				Oppose	Not only am I sick of paying for the use of the tollway but I am very, very tired of the construction. I use 294 all the time and it has been under construction for at least 7 years!! The Tollway could cut some of the waste in its administration instead of raising prices. Everything including gasoline is just too expensive right now. I use the tollway to see most of my doctors and I am a senior citizen.
07/14/26	Jason Cicillian	46368	X			X	X				Oppose	The toll road system was originally to become freeways. The fact that tolls are still collected is ridiculous. I drive on 80/94 from Indiana. My exit for work is LaGrange road. I am FORCED onto 294 (tollway) in order to stay on 80, which is a freeway. I must pay 0.55 one way in order to stay on my freeway route because a toll road route was laid over it. Unbelievable!
07/14/26		60123			X	X	X				Oppose	Stop charging more for everything. Manage your money better
07/14/26	Arthur Fung	60101	X			X	X				Oppose	High tolls puts an unfair burden on commuters who relies on the tollway to get to work. Commuters are already suffering from high fuel cost and inflation. I feel that tolls are already hign and an .45 increase per toll would put an unfair burden on the working public.
07/14/26		60448	X			X	X				Oppose	This is a tax on middle class and working people. CUT SPENDING
07/14/26	Karlynn Dodds	60056	X	X			X				Oppose	
07/14/26	Lynn Cook	47906	X		X				X		Support	If anything can be done to create safer less traffic roads..... then great
07/14/26	John zavitz	60044	X		X	X					Oppose	You are already killing us with taxes in Illinois. Stop the madness. Lower our costs. Don't make driving more expensive. We already have the highest gas taxes. Use that money.
07/14/26	Thomas Fabianski	60544	X		X		X				Oppose	Toll Free by '73? Maybe you should not have let the State take all of your money to bail out Chicago!
07/14/26	Cynthia Wotapka	53144	X			X	X				Neutral	Please consider a smaller rate increase, especially if adjusting every 2 years moving forward. We want IL tollway to still be known as safe and affordable and accessible. We dont want to get a bad reputation like the PA turnpike for being too expensive. People actually avoid the PA turnpike due to price and it makes all other traffic worse. Let's avoid that in IL. Thank you.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/14/26	Blair	60586	X				X			I do not want to pick 3 because I feel the answers will just be used as reasons the tolls need to increase. My only answer is affordability. I would say well maintained but in my 42 years I have never driven on a tollway and thought "this is well maintained, I am happy my toll money is out to good use." In fact I have thought "how can these tollways be either be so bumpy, have such pot holes, or be under construction given the millions of cars paying tolls every single day."	Oppose	Absolutely do not support a toll increase. To say the toll price has not increased since 2012 is a complete lie. Please provide written proof. It does not matter the reason for increases since 2012. They have increased. I already avoid the tollways whenever possible even if it adds time to my commute because I don't want to give IL leadership more money to mishandled. Please discuss with other states how they are able to avoid tolls or such expensive tolls.
07/14/26	Rene Melendez	60634	X			X			X		Support	I understand the need for improvement and the funding needed for them. However I don't agree with an automatic increase everyother year.
07/14/26	Bridget Kamal	60630	X			X	X				Oppose	Raising the rate after 14 years is ok, but raising it every year after is a terrible and unfair idea! Raising it substantially on commercial traffic will end up in higher prices for consumers. Do not give people more reasons to leave Illinois!! We need our state to be affordable to live and to do business in!!
07/14/26	Jeff	60540	X		X				X		Oppose	Constantly always looking for revenue why not fix the roads that are being worked on now always our roads seem to be worked on constant traffic delays and lane reductions work with the money you have and try to do it right the first time instead of constantly fixing the same problem just taxing the hell out of people in Illinois
07/14/26	Bryan	60134					X		X	Stop raising tolls	Oppose	STOP RAISING TOLLS. IT WAS SUPPOSED TO BE TEMPORARY. THIS IS TAXATION WITHOUT REPRESENTATION AND IS AGAINST THE CONSTITUTION
07/14/26	Bryan	60107					X		X	Just getting to my destination	Oppose	I strongly oppose this toll increase. Illinois families and commuters are already facing high living costs, and higher tolls will place an unnecessary financial burden on working people. Please reject this proposal.
07/14/26	Phyllis Reed	61073	X		X		X				Oppose	Cannot afford an increase

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/14/26		60538			X	X	X				Oppose	When the original 187 miles of the Illinois tollway system were introduced in the 1950s, lawmakers explicitly campaigned on the slogan "Toll-Free in '73". The plan was for tolls to only pay off the construction bonds, after which the roads would become free and maintained by gas taxes.THEY LIED. Instead of going away, the system has expanded to 186 miles across 12 counties and is more permanent than ever. The timeline of how this unfolded highlights why the tolls stuck around:The 1973 Broken Promise: State politicians realized the tollway system brought in valuable revenue, jobs, and POLITICAL LEVERAGE. The General Assembly chose to maintain them as a permanent revenue stream.Billions Paid: Since 1973, Illinois drivers have paid nearly $27 billion in tolls.Rising Fares: What initially cost just a quarter at main plazas and 10 cents at exits has spiked to higher standard I-PASS rates, with multiple rate hikes since 2009.Proposed Record Increases: Officials proposed a $26.5 billion, 15-year capital program that would raise passenger rates by roughly 45 cents and commercial rates by 30%. The proposal also includes a mechanism for automatic hikes every two years tied to inflation. THE LIES CONTINUE...
07/14/26	Steve Elliott	60140			X	X	X				Oppose	You guys work for us. We have the power to fire you and your boss come November. Remember this when making your decisions. Raising the tolls just to bail out Chicago is a bad idea during this hard time. The current governor has his relection slogan as working for the people, and affordability. I dont think this plan is affordability in it at all.
07/14/26	Ivette Manjarrez	60104			X	X	X				Oppose	The economy is already terrible the last thing people who NEED to drive the tollway to get to work is for rate increases again and again
07/14/26	Nicolas	60087	X				X			na	Oppose	
07/14/26	michael yunker	60175	X		X		X				Oppose	I oppose the toll increase for several reasons. 1. The cost of living in Illinois is already very expensive. I drive I-90 Monday thru Friday for work and pay $11.00 each week. The new rate would cost me $24.00 each week. 2. Why do many other states with interstate roads not have tolls? Why can't Illinois do the same? Seems they can budget for their state just fine but Illinois can't. I've lived in Illinois my whole life and each year the cost of living here keeps going up. If things don't change by the time I retire, I'm moving out of Illinois. I refuse to give this state a single dollar of my hard earned retirement income.
07/14/26	Bernard Eden	60606	X		X		X				Oppose	We need open road tolling on the Skyway...backups are awful...do not increase tolls if we have to keep contending with this...I would support increasing half of your proposed amount if we get open road tolling instead
07/14/26	Staci	60048			X		X		X		Oppose	
07/14/26	Dana	60456	X		X		X				Oppose	You profit way to much already. Should lower cost. I shouldn’t have to pay to get to work
07/14/26	Ashly	60505			X		X	X			Oppose	Too many tolls.
07/14/26	Dietrich Harmon	60419	X			X	X				Oppose	You make millions off of the toll roads everyday roads that are also funded by the government
07/14/26	Alicia K	60477					X		X	Government waste	Oppose	More Illinois abuse of toll funds and lining the pockets of contractors and government employees- ENOUGH!
07/14/26	David Domek	60564	X		X		X				Oppose	This increase is excessive and demonstrates an attitude of expansionism for the Tollway Authority. I would prefer that the Tollway Authority stick to the basics of affordable, well maintained roads and minimizing traffic congestion.
07/14/26	Jessica Rubino	60004		X		X				No stoplights	Oppose	Illinois is taxed enough! Pritzker was on the news explaining how the Illinois roadways have been improved and he has saved us money, yet you propose this increase? Is the comeback that this is not related to that budget the governor had and the tollway is not associated..... Do you understand the working middle class are leaving Illinois? I was born and raised in Chicago and used to be proud of the city and state. What a disgrace it has become. I have 2 daughters and I’m scared for them to grow up here. Wait! They will have ugly tollroads you want to build and charge us and waste our money we could be using to invest into our children who are our future!

			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/14/26	Terry Rees	60194	X		X		X				Oppose	Tolls were originally to help maintain our roads. While this may be correct-it is also to line our politicians pockets. I oppose this rate hike and expect Illinois lawmakers to work within the budget they have to achieve this, just like us working people have to. I am SO tired of being financially squeezed from every angle!!
07/14/26	Susan G.	60646	X				X		X		Oppose	The cost of living has increased tremendously and traveling the tollway is already costly. This increase is adding a burden. I'm considering moving out of the county soon to help with expenses.
07/14/26		60025	X		X		X				Oppose	The state of IL needs to stop charging the residents!!!! Manage your budgets and figure it out! People and businesses are LEAVING our state because our budget is out of control (or non-existent)...and our leaders aren't taking responsibility and doing what needs to be done. Stop making the good people of Illinois pay for your mis-management!!!!
07/14/26	Frank C.	60098	X				X			More highway patrol enforcement.	Support	Exclude retired SeniorCitizens.
07/14/26	Debbi Schumacher	60451-1953	X				X		X		Oppose	Enough is enough!!!!!
07/14/26	Mark Christensen	60048	X			X	X				Oppose	Stop the money grab. These tolls when initially instated were supposed to be temporary. Spend our tax dollars properly and we won't have a toll issue!
07/14/26	Diana Pihos	60615	X		X	X					Oppose	I only oppose because I'm assuming that people traveling highways like 290 and 55 will continue to pay nothing while those of us that travel 90, etc. pay for all road maintenance. This has long been unfair. Also, there needs to be a serious look at expanding the roads to lessen traffic gridlock, and we need to use better materials like they do in Europe.
07/14/26	Mark S Schumacher	60451-1953	X				X		X		Oppose	This is a no brainer I am absolutely opposed to a toll increase especially in perpetuity!!!!!
07/14/26	Veronica	60610	X				X	X			Oppose	Hell no. You were supposed to end tolls in 1973. Roads are in pretty much worst conditions in the country (both highway and city roads). Road constructions are happening every year and potholes appear literally next day after construction is done. Obviously money g Has been stolen. You need to learn from 5he states that don't impose tolls and have perfect roads. Shame on you.
07/14/26	Ryan Rapenport	60012			X	X	X				Oppose	We as taxpayers are burdened enough by the horrid policies in this state. There needs to be a line in the sand. Enough is enough.
07/14/26	Kristina Stankevi	60463			X	X	X				Oppose	
07/14/26	Joe	60108	X		X		X				Oppose	I have been driving the toll roads for years and except for 355 the rest are horrible especially the skyway. For the amount charged.. there needs to be an audit of dollars spent because the is something amiss! There is a large amount of money collected and spent but no improvement.
07/14/26		60452	X		X		X				Oppose	
07/14/26	Joe Reschke	60004			X	X	X				Oppose	There is absolutely no reason to raise tolls. How many hundreds of thousands of cars pass the River Road toll booth every day? And that's just one toll. If all the current tolls don't cover costs, then there's a problem other than the tolls themselves.
07/14/26	Tristan fanning	60031	X		X		X				Oppose	You are charging for what most places in the country provide for free, there is a reason it's called the freeway. You should be decreasing or eliminating tolls not increasing them.
07/14/26	Anthony N price	46375	X		X		X				Oppose	Increase is unnecessary and bi-annual increases are even worse
07/14/26	JAMES ELIZALDE	60477	X				X		X		Oppose	While I don't oppose rate hike in general, they have done with justification and transparency. It appears that this increase is to appease others for the reassignment of some billion dollars of funds to the RTA, which was not the original intended use of tolls collected. The proposed inflation increase is also very concerning as there should only be increases when there is a demonstration need/purpose.
07/14/26		60554	X		X		X				Oppose	A huge increase of 45 cents will hurt many people who do not have public transportation in their area. 45 cents is harmful. That's an extra $1.80 per day back and forth to work. Why not a gradual raise, maybe 10 cents at a time?

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/14/26	David hinrichs	60014	X		X		X				Oppose	Enough is enough do not raise tolls
07/14/26	Nicole Rodriguez	60477			X	X	X				Oppose	The tolls were supposed to be a temporary solution yet we continue to raise prices. Everything is expensive. Stop gauging people.
07/14/26	LS	60016	X		X		X				Oppose	How is it possible to relieve congestion by generating more Money for a state that can not control its spending
07/14/26	Dan	60007			X	X	X				Oppose	You're going to do it anyway regardless of what I'll assume is overwhelming negative feedback because Illinois politicians won't be happy until everything is taxed into the ground. This will drive more people off the toll roads and on to local roads which will create massive traffic and increased wear for local communities. If you don't increase it you'll just tax the state in other ways. Living in Illinois is becoming impossible unless you're rich.
07/14/26	Richard Koren	60447				X	X			Safe speeds	Oppose	The problem is when the state of Illinois raises a tax it ends up in some politicians pocket. You already know this is going to pay for someone's pet project. Here's a novel idea. Instead of raising taxes, how about seeing where you can cut some fat out of the budget. I believe the people of Illinois might appreciate it.
07/14/26	Concerned Citizen	60515	X		X		X				Oppose	You all are insane. The tollways were supposed to be temporary, and you just keep taxing and taxing. Between sales tax property tax, parking, tolls, income tax, junk fees like stickers and business registrations, I'm paying over $20,000 year just to live in Illinois. I'm about ready to leave after 40 years. CUT SPENDING, LOWER TAXES.
07/14/26	Alejandro Caffarelli	60618			X	X				Ipass makes it easy except when people without I pass get in the lanes and slow everyone down	Neutral	I honestly don't care about the increase, but what you need is open road tolling. Even with Ipass on the skyway people get into the lanes and pay with the credit card and slow everything down. It is ridiculous bottleneck that does not exist in other states. It defeats the point of taking the tollway and sometimes I don't take the tollway because I know that this bottleneck exists. If you want to generate more revenue, you need to switch to open road tolling.
07/14/26		61064	X				X		X		Oppose	The increase is too large and the scheduled increased should be removed. Use the tax dollars you already get more responsibly.
07/14/26	Jason Mccullum	60409	X	X			X				Oppose	
07/14/26	Robert D Vitek	60440			X		X			Smarter use of current money.	Oppose	I pay over $1000.00 a year in tolls. Plus high taxes on the gasoline. Where does all that money go ??? We need 10 guys standing around while 1 picks up trash? try using the money wisely instead of it's like free to use for what ever you want.
07/14/26		60048	X			X	X				Oppose	Increasing the toll charge will push traffic onto smaller local roads which may not be able to handle the traffic increase. In addition, commercial traffic should be subject to at least the same percentage increase as personal traffic, but they're not as currently proposed because personal traffic will see over a 50% increase, especially at certain toll booths. Additionally, at the moment there are times when I pay a toll to barely keep crawling forward due to traffic jams on the tollway. I think in times of traffic jams like that, the toll cameras should register slow moving traffic and not charge a toll. If I had known there would be such slow moving traffic I would have taken an alternate route. Lastly, before considering toll increases, I'd like the tollway to look at better enforcement of the no trucks in the left two lanes rule. There are always trucks in the second lane from the left, and they're not just quickly passing, either - they're camping out there. The left lane is better, but trucks will still sometimes pull out unexpectedly. This blocks visibility, slows traffic, and can honestly be dangerous at times due to how slowly the truck is moving. Additionally, trucks in the two left lanes seems to lead to poor driving behavior of personal vehicles as they try to get around the trucks that are blocking their view and moving slowly relative to cars.
07/14/26	Algonquin resident	60102			X		X		X		Oppose	Tolls were pit for some time only and they were supposed to go away but didn't and now they are taking an advantage of is citizens and they charge and tax us in Illinois for everything!!! When is all this going to stop? Strongly disagree for the raise in tolls!!!!
07/14/26	Cathy Rapenport	60012	X			X	X				Oppose	Stop rate increases. Driving should be affordable for everyone.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/14/26	Jimmy Patlyek	60103	X		X		X				Oppose	Instead of constantly taking more from commuters the tollway needs to budget better and use the resources that are currently available. I will find other ways to travel to my destination if these toll increases happen.
07/14/26	John Maas	61071					X		X	There should be no tolls or if you must, no increase!!	Oppose	I remember when the tolls were going to be temporay. No you just keep increasing the cot to use the toll roads. I will just have to take non toll roiads if this keeps up!
07/14/26	Michael Tinerella	61008	X		X		X				Oppose	This money will not be used for road improvements it will be used for political purposes like pension, undocumented imagination this is a scam and the people get stuck paying for it the governor is raising every tax in Illinois and people are sick of it I say not on this proposal
07/14/26	Richard Nieves	60156	X		X		X				Oppose	I strongly oppose the proposed Illinois Tollway fee increase. In previous years, my family paid more than $600 annually in tolls while commuting to work. The cost became so burdensome that we intentionally changed our driving habits and significantly reduced our Tollway use to save money. We shouldn't have to alter our daily lives simply because tolls continue to become less affordable. For many Illinois residents, the Tollway isn't a convenience—it's the most practical or only realistic way to get to work. Increasing tolls places an even greater financial burden on working families who are already facing rising costs for housing, groceries, insurance, and other necessities. Before asking drivers to pay more, the Illinois Tollway should demonstrate that it has maximized operational efficiency, reduced unnecessary spending, and made the best use of existing revenues. I respectfully urge the Board to reject this proposed fee increase and keep Illinois Tollways affordable for the people who depend on them every day.
07/14/26	Anthony Tutaj	60657	X				X			Please stop raising the prices of everything! Tolls were supposed to be temporary	Oppose	I strongly oppose these toll hikes and if they proceed, I promise I will never vote Democrat in this state again.
07/14/26	Kathryn Kunetka	69714		X			X			Lower costs for tolls!!!!	Oppose	We will continue to find alternative routes to avoid paying these high-cost tolls. We do NOT support a higher cost to travel on roadway systems that we supposed to be "FREE BY '73".
07/14/26	Dave t	60634	X		X		X				Oppose	
07/14/26	Margaret Dietz	60510			X	X	X				Oppose	Prices of everything in Illinois continue to skyrocket with very little increased benefit to match them.
07/14/26	Joanna Zielinska	60103	X		X		X				Oppose	NO to the increass!
07/14/26	Robert H Stasch	60656	X		X		X				Oppose	With open road tolling the cost for staffing has dropped dramatically. With a reduction in staff costs, why are tolls always going up? And why can't the roads be maintained for less? Other states do it. The Tollway budget is extremely bloated I will bet and there should be dramatic cuts in budget before new tolls. More more more is not always the answer. Better, but cheaper, works best.
07/14/26	Tamara Borowiec	60656	X				X		X		Oppose	I oppose the Illinois Tollway rate increase because it places an additional financial burden on drivers and working families who already face rising everyday costs.
07/14/26	Larry Strobel	60803				X	X		X		Oppose	Tolls are already too high. You don't deserve any more money.
07/14/26	Kathy dallmann	60050	X	X					X		Support	It does not come out of my taxes. So those who use should pay to use it to. maintain it through toll fees. If tolls do not cover it the roads will crumble. Then watch them complain.
07/14/26	Diane McConn	61103	X		X		X				Oppose	The tolls are too close together, plus with the entance and exit ramp tolls it's quite costly to travel even short distances.
07/14/26	Richard D Tupper	60120	X				X			Seeing published budgets	Oppose	Can we see the published budgets and ledgers online please. Not sure why all the information is not made public. Like an HOA with year over year reviews of expenditures. Should include salary's and all expenses as well as capital.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/14/26	Lindsey Idle	60102	X		X		X				Oppose	This state is notorious for wanting more money and delivering nothing for it. A capital investment program????? Is this a joke? Absolutely not. No! Figure out your own money issues but don't you DARE put it on tollway users! This is a disgusting proposal and you should be ashamed!
07/14/26	Cynthia Spalla	60451	X		X		X				Oppose	A $.45 increase is extremely high for an initial increase. Illinois is already out of control with property taxes. If you have to raise tolls by $.45 that reflects bad planning. I don't know anyone who wants to retire in Chicago anymore. It's a shame how the state keeps punishing hardworking people. Give people a break for once.
07/14/26	Brian	60143	X		X	X					Neutral

07/14/26	Barb Schultz	46034				X	X		X		Oppose	.45/toll is excessive! We travel back to Illinois for my husband's doctors appointments. We are senior citizens and this raise in tolls will hurt us financially. Find fraud and waste in the state & stop putting the burden on the tax payers! No wonder companies are leaving the state!
07/14/26	Linda Marcano	60101				X	X			Affordability no other states have tolls	Oppose	I basically just wrote I oppose this toll rate increase because it is not affordable for everyone.
07/14/26	Brandon Tomlin	60628	X		X	X					Neutral	
07/14/26	Jake	53405				X	X			Well built roads dont constantly need to be under construction.	Oppose	These tolls were supposed to be temporary.
07/14/26	Rachel A	61008	X			X	X				Oppose	Stop taxing us drivers, white elephant projects are nothing but a way to allow more corruptions. When the government removed toilets to save on taxes, you have no right to impose a tax on us in every single aspect. Make tollway affordable to all no matter how much they make.
07/14/26	Lindsey Idle	60102	X		X		X				Oppose	It's Shay's something with this state where they pin money management issues on residents. Absolutely not. Don't you dare put this on tollway users. Every expressway is under construction and has been for the last ten years. We're tired of construction and we don't need anymore work done. Especially if you think you're going to make us for the bill. Figure out your own problems and leave us out of it!
07/14/26	John Deneen	60423			X				X	No more fees / taxes	Oppose	All this state does is tax people, enough tax, work on getting rid of the high taxes in this state along with all those stealing from it !
07/14/26	Dylan F	60435	X		X	X					Support	
07/14/26	Peter Bellert	60656	X				X		X		Oppose	I oppose the proposed Illinois Tollway rate increase because it is simply too large and would place an unnecessary financial burden on the people who depend on these roads.
07/14/26	Jan Heyn-Cubacub	60618	X	X			X				Neutral	These are hard times financially, everything has skyrocketed. So, I understand the need for an increase. If it is possible to lower the increase a bit, that would be great. As far as entrances and exits, Illinois is weird that in some places you can get off but you cannot get back on. That is horrible. All exits and entrances should be available at the same location. (Look at the exit at Roselle Rd and 90, you can get off but you cannot get back on.)
07/14/26	Kelsey Warren	60404	X		X		X				Oppose	Can barely afford to live here already

07/14/26	Alliyah drake	60476	X		X		X				Oppose	The expressway is always crowded the point of taking toll way is to help the traffic traffic jams and the roads are still sloppy and messed up always construction going on its ridiculous but we're paying more for over crowded toll way routes

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/14/26	Matt Emde	60060	X		X					Safety	Support	I fully support this increase in order to keep up with the demand that is placed on the tollway system. It supports union jobs, ensures commerce can move freely through the Chicagoland area to the nation, and also supports communities. Recently I have switched jobs and have to take the tollway to and from work every day for the past 3 weeks. It is well maintained and has reliable times to and from Ohare from the northern burbs. Regarding the poll above on the top 3 most important factors while traveling the tollway, I was surprised to not see safety as one of canned answers. I fully support this increase and investment in critical infrastructure.
07/14/26	Jennifer	46303				X	X			Better system	Oppose	The cost to use the toll road round trip for my daily commute is $10 a day already for a 50mile commute each way. An increase is excessive for what is already expensive. I think you should revisit a way to charge for how much road is actually being used versus for each toll you go through like some other states. You scan getting on and you scan getting off.
07/14/26	Bonnie Gerrits	60068	X				X			NO INCREASE IN TOLLS!!!	Oppose	We cannot afford to pay ANY increase in tolls! SLOW DOWN YOUR IMPROVEMENTS AND YOU WON"T HAVE TO INCREASE TOLLS AT ALL!!!
07/14/26		46375			X	X	X				Oppose	There is already too much construction in and around Chicago that is not done in a timely, efficient manner and you are proposing more years of construction. I oppose this toll increase.
07/14/26	Tony	60455	X			X	X				Oppose	No more increases!!! Tollway was to be paid off years ago. Spending too much. Cut back on members of tollway commission & other non essential jobs to free up some money! Be efficient!
07/14/26	Kevin	60441	X		X		X				Oppose	You are killing us on tolls. Be more responsible. Stop charging more for your lack of management
07/14/26	Eric	60048				X	X			Tolls should only be used for the road that it is built on and tolls need to stop when the roads are paid for.	Oppose	This increase is ridiculous and should not be automatically increased after a couple of years. Where is all the money going? It's just not to pay for the stretch of road where the tolls are. Illinois politicians need to do a much better job with managing finances. The state is broke. Stop squeezing money out of Illinois residents
07/14/26	FuckYaGuyz	60623			X		X			STOP INCREASING THE PRICES YOU FUCKING DEMOCRATS LEACHES	Oppose	STOP RAISING PRICES TO FUND STUPID PROJECTS YOU DEMOCRATIC THIEVES!!!!!
07/14/26	tim	60004	X				X			lower tolls	Oppose	I am dead set opposed to higher toll costs. Illinois keeps saying that our tolls are lower than other states. Why doesn't Illinois compare themselves to the 16 other states that do not have tolls at all like our neighbors Wisconsin and Iowa?
07/14/26	Jacob Cooke	60563	X	X			X				Oppose	Tolls are already expensive enough. IL keeps raising all taxes to now we have the highest in the country especially. We do not need to be tolled like crazy too when we already have a crazy high state gas tax.
07/14/26	Heather Gallagher	61008	X				X			even newly laid sections over last 10 years have been inferior and horrible	Oppose	you should fund this with your taxes from lottery, gambling, and alcohol... it is ridiculous we still have tolls in IL - they were supposed to be temporary!!!
07/14/26		60402		X	X	X					Oppose	It is time for this agency, along with the rest of the state, to be fiscally responsible. We are tired of you just shaking the piggy bank every time more money is needed. We all have to live with the money that comes in and figure out how to manage it, now it's your turn. Enough is enough.
07/14/26	Sergio ochoa	60101			X	X	X				Oppose	

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/14/26	Elizabeth Jacek	60013	X				X			Higher cost of living	Oppose	In a state that has such insanely high property taxes, the fact that the there is a charge to drive on the roads beyond taxes seems exploitative to me. After living all over the country and driving in so many states that have great roads that do not charge a service fee for using them, I'm boggled by why Illinois drivers are paying so much more money for infrastructure that way lower taxes in other states sustain just fine. The cost to live in Illinois is so very high already, increasing tolls will make things even harder for so many who are already struggling. When getting to work becomes inaccessible or take so much longer to avoid tolls, bringing costs up will lead to even more issues in the economy. Toll roads already feel exploitative with already high taxes. Now you guys want to raise the price!
07/14/26	Joe Blow	60410				X	X		X		Oppose	Yet another money grab for the politicians. Illinois is becoming to expensive to live in and the reason thousands of people are leaving this state every year. These tolls were supposed to be temporary and disappear years ago. The tax payers are fed up!
07/14/26	gary luechtefeld	60126	X				X			police the drivers who go faster than 75 mph	Oppose	When will the Criminal Organization called Illinois Tollway STOP hijacking Public Roads and converting them to Communistic pay for Roads??? There was a Mandate 30 years ago that said there would be no more Tolls ... But where Money Lives Corruption follows ... Nwe Projects = Continued Theft of Taxpayer Funds who have ALREADY Funded Roads through Property Tax .... Criminals conducting Criminal Behavior
07/14/26	Hope	60538			X		X		X		Oppose	
07/14/26	Former Illinois Resident	60061	X				X			Lower gas tax	Oppose	I am looking forward to avoiding traveling through Illinois. The tolls are ridiculous. The taxes are ridiculous. The fuel prices (again, taxes,) are ridiculous. I left Illinois years ago, and encourage anyone else who can do so, to do so. The leadership in the state can't or won't balance a budget. Without trying to fleece its constituents for more cash they will waste.
07/14/26	Joe Austin	60637			X	X	X				Oppose	I completed oppose the toll increase - the toll roads were supposed to be free after paying them off but of course that never happened. NO TOLL INCREASES!!!!!
07/14/26		60560	X		X		X				Oppose	Gas is already over $4 a gallon, cost of living is high, wages are horrible too and now we want to raise tolls on the tollway to fund "improvements" that's just crazy, The tollway is ALWAYS under construction nothing ever gets done, roads are a mess, traffic is HORRIBLE. DONT RAISE TOLLS IF YOU ARENT GOING TO BE DOING ANYTING
07/14/26	Cynthia bulow	60451			X	X	X				Oppose	We take this everyday for work and can't afford the hike please don't
07/14/26	Donna Chapman	60014-8238	X		X					Limiting my driving to local because of age. Used to take 355 to Lemont	Support	Filled out form asking for a refund on what is left in my account. I'm 88 yrs old and Kids will drive me if I need to go out of town. Thought this email might have been a response to when I would get the refund??? Waiting, Donna
07/14/26	Bradley Judd	60554	X				X			Safety	Oppose	You have already saved money by getting rid of toll collectors durring COVID-19. Instead of increasing tolls to increase your salaries, put up speed cameras and give out tickets. You will have more money then you know what to do with and maybe less accidents from the people who think they are in a Nascar race.
07/14/26	Lynn Dudley	60107			X	X	X				Oppose	Traffic is a mess...wages are stagnant....find another means for your funding. You now have to be rich to drive tollways??

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/14/26	Sarah Van Dyke	60515	X				X			ability to get to work without tolls.	Oppose	Strongly oppose, in fact, I am very mad that the state doesn't pay for all roads! Why should certain citizens pay gas taxes and tolls while most of the state pays ONLY gas taxes. No more money for the tolls, they are high enough. Double the fees for non-residents as I pay triple what a resident pays in Pennslyvania. No more for IL residents. Work within your current budget. Other states like TX, have feeder roads which run along side tolls so you don't have to take tolls. In IL, we do not have a lot of options to avoid them. If everyone takes the side roads, the local roads to avoid an increase, will become grid lock. IE. 83, 22nd/Butterfield, Ogden Ave, North Ave, Manheim etc. This increase proposal is ridiculous! We already pay a VERY HIGH amount daily for my husband to go to work. He is a tech and doesn't make a lot but pays over $3 a day PLUS GAS where we pay taxes for roads already!!! And the congestion on 294 to 88 is TERRIBLE and you just spent years 'fixing' it?? NO MORE!!!
07/14/26	Dale Schuring	61913			X	X	X				Oppose	This is just another scam by Pritzker and his buddies to enrich themselves and their friends. As I recall the tollway was only supposed to be a "tollway" for a few years approximately 50 years ago.
07/14/26	Jack Prager	60185	X				X			free since you fleece us on gas taxes	Oppose	You just never stop spedning poorly other peoples money! What happened to the lie that the tolls will end when the road is paid for?? You Illinois politicians are nothing but liars and theives.
07/14/26	H Edwards	60565	X		X	X					Neutral	
07/14/26	Peter Kania	60148	X				X			Stop making me pick three so you have something to point to as a reason for the tolls. The main issue here is cost.	Oppose	I strongly oppose the proposal to increase the price of the tolls. Years ago when the first tolls were put in, Illinois residents were told they would be removed after the road was paid for. That was decades ago, and they were never removed. Since then toll rates have only increased, more tolls have been put in and billions of dollars have been taken out of residents' pockets. At one point in my career it cost me over $8 in tolls each day to travel to and from work. That number would increase to over $10 under the new proposal. When will the state of Illinois figure out how to fund one of its main functions (infrastructure) with the large amounts of money it already collects from its residents without having to add more fees for the simple act of driving. We already pay some of the highest gas taxes, income taxes, vehicle registration fees, property taxes, and sales taxes (I know property and sales taxes are not entirely state level taxes) out of all the states in our country. People are leaving Illinois because of this, and the response of the state has just been to place more burden on those who stay. The state needs to use the funds it has by reallocating funds within its budget, not by increasing revenue with the flick of a switch at the expense of its residents. The problem is not that we don't charge people enough money to drive on the roads in their own state, the problem is that Springfield doesn't know how to do basic budgeting that every household is the state is required to do in order to pay its bills, including all of our taxes.
07/14/26	David W Dawson	60565	X		X		X				Oppose	Highly opposed to automatic increases. Also opposed to increases for new capital spending plans that should be funded by a fuel tax that is already too high.
07/14/26	Kristen LaManna	60099					X		X	Cost	Oppose	I am a woman owned small business owner of a small trucking company. Last year I paid $152,482.00 in tolls; with a 30% increase I cannot afford to do business if I now have to pay an additional nearly $50,000 in tolls. I cannot push the cost on the customer as I'll be rating myself right out of business. My company is safe and we do all the right things yet keep getting penalized with increase after increase between fuel and toll costs. When will it end?! I cannot stay afloat if you do this increase.
07/14/26	Mike S.	60030			X	X	X				Oppose	Tolls TOO HIGH ALREADY!!
07/14/26	Ronald Warren	60516	X				X			Less backups at I88 to I355 interchange	Oppose	I think the proposed increase is excessive. Pick the highest priority projects and move forward. Performing large constructions jobs all at once will be a nightmare for the traveling customers.
07/14/26	Elliot	60115	X			X	X				Oppose	Please stop taking more of my money
07/14/26	Robert Jackson	60643	X			X	X				Oppose	It's already to expensive to live in Illinois and this will make it even worse

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/14/26	Ayoka Mitchell	60490	X				X			safety	Neutral	I understand the ongoing cost to maintain roads require revenue and I agree with a increase in 2027. But the proposed increase of $0.45 is a bit excessive especially with an intent for subsequent bi-annual increases. There are people like me who's livelihoods requires them to travel the toll roads & pay multiple tolls per one-way route, not to mention the total amount for round-trip travel. Our dollars are already being stretched thin in other areas. Please consider a reduced increase in 2027 ($0.15), with similar reduced bi-annual increases. Please be gracious in your consideration of those of us struggling to make ends meet. Thank you
07/14/26	Jon Smith	61073	X			X	X				Oppose	According to some sources, IL ranks 6th in the nation for the highest overall tax burden by state. IL was also ranked 49th in the nation for net domestic migration with 40K plus leaving the state in 2025. Do you guys think increasing taxes (i.e. raising tolls) is a good idea? Maybe if we didn't have so much legislation that needed to be governed, we could create a budget that wouldn't require all these taxes to fund it. I'm definitely opposed to the toll increase!
07/14/26	Jorie	60137	X				X			Not being taxed repeatedly on money that's already being taxed and then using that facade of being taxed for the roadway only to line politicians pockets. My commute has never been more interrupted by fake construction that never gets finished due to government contracts and potholes lining the roads of every Illinois Street. This is another money grab and Illinois ought to be ashamed of itself I can't tell you how furious I am at the state wanting to reach even deeper into the pockets of families when they could just get their hands out of their own pockets and pay their damn bills in Illinois and get things done with a budget	Oppose	I don't know what kind of comments you thought you were going to get in this survey. I don't know if you thought people were going to say "I support toll increases. I can tell that you're investing all of this revenue into the roads and my commute has never been smoother traffic's never been better and all road repairs get finished in a timely manner so I am in support of this." That is the biggest joke of the century. What happened to "toll free and 73?" I'm sick of Illinois politicians digging deeper into the pockets of illinoisans so they can line their pockets in return. There's been enough money coming out of our taxes without tolls that our streets should be smooth and pothole free. But instead the commute has been nothing but a nightmare. Potholes everywhere uneven concrete, road work that never ever seems to get done. You just leave the cones up and leave the equipment up to give the facade that you guys are doing anything at all but you're not because that's how government contracts work. This money is not going to go towards the roads if it ever went to the roads then we would have beautiful roads and we wouldn't have some of the worst infrastructure in the United States. How dare you ask for another dime when you haven't even fixed the problem in the first place with the money you already have. You're going to have to make your budget work. Stop spending and get it together!! This is absolutely ridiculous. We are one of the most taxed states in the country and this is an appalling increase. I can't tell you how livid I am to hear of another tax on the roadway that already drives miserably. What a joke!! You will all be voted out I'm telling you that now. There are plenty of organizations spreading the message of transparency and integrity and I'm sorry to say Illinois politicians do not fit that bill. People are catching on to the facade and you will be voted out. All of the politicians that supported this decision.
07/14/26	Jamie Gomez	60134		X	X		X				Oppose	Sometimes you need to go through multiple tolls in a trip and that adds up. The tolls make it so you have to go through them. And 40 cents is a lot! There are sometimes where in order to make a trip shorter like going to Wisconsin, you have to take tolls.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/14/26	Joey D	60435			X		X			AFFORDABILITY	Oppose	ABSOLUTELY NOT. I am a middle class husband and father of 2 little kids. I drive 1.5 hrs each way every day to work and I am ALREADY paying almost $200 a month just to get TO AND FROM WORK! It is ridiculous. I am already struggling between my bills, gas and tolls every single month and you want to raise the tolls? For better roads, yet the construction you do in the highway spots there for YEARS before being finished, if ever. Terribly ran state. Are you guys just trying drive out/squash the middle/lower class of hard working people who just want to support their families? Tolls need to be lowered if anything. How about you stop the greed, balance your budget, and get people who actually know what they're doing in office instead of hiking up taxes, tolls, and others even more than you already have. You are absolutely destroying families and affordability. Me paying $200 a month JUAT TO GET TO AND FROM WORK is insane.
07/14/26	James Borca	60097			X	X	X				Oppose	
07/14/26	BEN BRUCE	60527-7540	X		X		X				Oppose	The toll road raises money through subscription fees which are increased frequently, on top of tolls, for a system that is overloaded, frequently longer drive times than using side streets, and roads in disrepair within the city, before an increase should be allowed the toll road needs to free up the roads to allow consistent driving at the speed limit, with predictable arrival times. There is no benefit to using the toll road, as drive times are often quicker on side streets, the toll road is intended to move traffic quickly at a charge for doing so, which it fails to do during peak times.
07/14/26	Tony Manderschied	60540	X			X	X				Oppose	The illinois tollway already collects more than it uses to maintain the roadway system. It has been this way for more than 50 years. What happened to the excess funds and how do you justify such a large increase when this is the case?
07/14/26	Judy Gawczynski	60466	X			X	X				Oppose	I'm not opposed to an increase but this increase is too severe and will make it unaffordable for some people traveling to and from work.
07/14/26	Dan	60510	X				X			Appropriate traffic flow + enforce speed limits for > 10 MPH over.	Oppose	Extremely thankful that I am no longer an Illinois resident. Ask Tennessee how they manage to have good roads, low taxes, and no tolls.
07/14/26		60110			X	X	X				Oppose	Stop making it more expensive. How much are we having to pay just simply to drive on a road that should be acceso for everyone?! What about the people that HAVE to take that road to get to work and back home everyday? We're already paying like $40 in tolls a month! That's INSANE
07/14/26	Benigno Ortiz	60073			X		X			Stop fucking the people of Illinois.	Oppose	This state keeps using toll ways. We don't own to try to fix shit and nothing's getting done.. why should we keep giving our heart earn money for this shit.
07/14/26	Rick Rodriguez	60515	X				X			State paid roads with gas taxes for all	Oppose	Absolutely not. Already pay over $3/day to go 10 miles each way to work...now you want you want me to pay $5/day. WHAT? I don't even get raises myself most years. No, budget within what you get. Add a rate for out of state users like other states have. You charge the same. No increase and no yearly increase.
07/14/26	Jose Perez	60639					X		X	Financial problems high gas and food prices	Oppose	Lots of people hurting due to financial problems with the economy food gas increase
07/14/26	Robert Schwandt	60656			X	X	X				Oppose	
07/14/26	Krista Fassola	60586			X	X	X				Oppose	
07/14/26	Paulina	60110	X		X		X				Oppose	The tolls were initially intended to be "temporary" and they have become permanent. 07/14/26	Mark Robertson	60103	X	X			X				Oppose	No toll increase! Tolls are already too high. Illinois is the most expensive state for vehicle travel in the United States.
07/14/26	KMC	60448	X			X	X				Oppose	

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/14/26	Peter Rodriguez	60515	X				X			Roads without a toll administration adding cost and politics	Oppose	OPPOSE. The state took toll money to pay for non-toll roads and you say...all money goes to the toll roads...incorrect on your website. No more money for tolls, budget with what you collect.
07/14/26	Sofia kovacs	60641	X				X			Cost of tolls	Oppose	I will stop using tollway and use the the streets
07/14/26	Manny	60048	X			X	X				Oppose	We already get taxed enough in this state, maybe try raising taxes on businesses instead of the middle class.
07/14/26	Loren Doppelt	60067		X			X		X		Oppose	I am so tired of all the price increases. I am a senior citizen and only have social security for income. Between the gas tax increase a tollway increase will definitely take a bite out of my budget. There are routes that my only options are the tollways. To have an increase like this is totally unacceptable. What happened to the original plan that tolls would go away???
07/14/26	Eva Rodriguez	60515	X				X			Why would I need connections to buses and trains if I take toll roads?	Oppose	If you raise them, I will take back roads. Too expensive already and avoid them all the time although, if I jumped on tollroads, it would save time and local congestion....but I avoid whenever possible because they are too much now. Especially 355.
07/14/26	Joe momma	60446			X		X	X			Oppose	Fuck you bitch ass niggas for increasing toll road fares
07/14/26	Edward Palenik	60482	X			X	X				Oppose	There is no need for a toll increase, considering that hundreds of jobs were eliminated with the introduction of the I-PASS system. We pay too much now, and I understand that there is a huge surplus in money that the Tollway Authority is sitting on. It also shouldn't be the fault of the users of the toll system that the state decided to give the CTA/RTA bailout money. Also, if you want to keep the unions working, there are thousands of miles of roads and hundreds of bridges in the central and southern parts of the state that are in desperate need of repair. The governor's gas tax takes care of that. Illinois residents (the legal ones) should NOT be paying more because our politicians are greedy. This is all the fault of our majority state party and our governor. I wonder how much tax and toll money is landing in THEIR pockets. No more taxes or toll increases, especially no vote toll and tax increases.
07/14/26	Zakir Hussain	60148		X			X		X		Oppose	Hello, Please change the tolls based on entry and exit, which will give distance and charge based on distance. You can see this example on NJ GSP, NJ Turnpike. Currently tolls does not make sense, randomly charged.
07/14/26	Vince Cannistra	60148	X		X	X					Oppose	Find another way to pay for your infrastructure rather than increasing the literal theft of your citizens with this lousy toll system. You raise our taxes, tolls and bill us for anything you can meanwhile we still have one of the lowest credit ratings in the entire country. No idea where all the money is going. Now I have to pay more because the state can't figure out how to use the millions and millions of dollars they make each year on the tolls and they want MORE? This attitude is the reason citizens and businesses are fleeing this godforsaken place. You cannot just continue to bill your constituents for your mess - figure out how to do this stuff without raising taxes and tolls! Inflation is up, we have a housing crisis and now you want to throw this on the pile? $.30 more per toll costs me $20 more per month or hours more avoiding them all together. How does that help me or anyone?
07/14/26	Amanda	60585			X	X	X				Oppose	There is not one way to work for me that is not under construction. I have very litttle choice about which route I can take. And now the one route I can take will cost me more, it's unfair and unnecessary. This is not a rate hike we need and Illinois once again is being greedy. Why not give Illinoisans a break and not raise the tolls.
07/14/26	Laura M Fearn	60119			X	X	X				Oppose	The roads are a disaster. Congestion is worse than ever. Open road toll is a joke. Unfortunately, I need to utilize these roads to pay all of the taxes this state charges for those of us working. I am over the spending spree. Cut spending and find the money elsewhere!!!

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/14/26	Michael Sinacore	38573			X	X	X				Oppose	When will the state start charging electric vehicle owners a road usage tax seeing as they don't contribute to the road tax charged in the price of a gallon of gas but still use the same roads as gasoline powered vehicles, that may help to reduce the toll increase.
07/14/26	Rebecca vitucci	60030	X				X			Not being taxed to death	Oppose	We pay enough in tolls and taxes and fees!!! Stop gauging us because Springfield can't control its spending! The tolls were only supposed to be temporary and now here we are years later paying more and more !!! This isn't fair!
07/14/26	Bill kenny	60031	X	X					X		Support	
07/14/26	Maisie S	60110	X		X		X				Oppose	.45 is a major increase just out of no where! They should not be increased this much especially when there are tolls with all different costs. It is ridiculous especially when tolls were supposed to be temporary
07/14/26	Iris Davis	60440	X		X		X				Oppose	I already avoid the tollway as much as I can. The fees are getting out of hand.
07/14/26	dennis mckay	60098				X	X	X			Oppose	Toll free in 73 is what was promised. Not all states have toll roads. Lets give our management of the roads to Iowa or Wisconsin as they seem to do fine without tolls. What am I missing ? We are among one of the most taxed states in the nation. That's why people are leaving.....If your are smart, you can fix it or find someone who can.
07/14/26	William M Dubner	60655	X		X		X				Neutral	Smaller increase rate than proposed is OK with me
07/14/26	John Scanlon	60515			X		X		X		Oppose	
07/14/26	Tony Blanco	60164	X		X		X				Oppose	There's already so much money taking from us hard working citizens and you guys want to increase it even more.
07/14/26	Brian Meyers	60542	X				X		X		Oppose	Before I support a toll increase, I would like to see a comparison of the costs of maintaining the Illinois Tollway and Federal Highways.
07/14/26	Lisa	60440			X	X	X				Oppose	
07/14/26	Irina Dudar	60657	X		X		X				Oppose	
07/14/26	Steven McCready	60516	X		X		X				Oppose	Too much of an increase!
07/14/26	Bob Zieman	60565	X		X	X					Neutral	
07/14/26	David Thele	60432-2510			X	X	X				Neutral	What are the current tollway funds being used for since the last decade? The 10 years of tollway funds are not enough money to repair the tollway. Just because there has not been an increase, is not a reason to increase. What has been done with the tollway funds for the last 10 years?
07/14/26	Angel Campoverde	60191				X	X			Less cost	Oppose	Tollway fees are already too high. No need to keep increasing. This is already a scam from this state.
07/14/26	Mark Frailey	61008	X		X	X					Support	Yes. Get up to date.
07/14/26	Ryan Anderson	60119			X	X	X				Oppose	I find the increase absolutely ridiculous. Its costs me $20 a week just to drive on the expressway. These Toll roads were originally supposed to become freeways! Now you want the largest increase ever? Come on! I ask that you review this deeply as we are already taxed so much in this state and we cant keep up with the rate if increases.
07/14/26		60506	X	X	X						Oppose	
07/14/26	Dave Goldwater	60194	X		X		X				Oppose	A 45crnt increase gor each toll is a hit to the working class. Plus automatic increases every 2 years is insane. I don't trust that you won't redirect funds like you've done in the past. The gas tax is killing us and now even higher tolls. This doesn't impact casual drivers, but hits workers who commute daily, hard..and will increase cost of goods snd services. My pay isn't going up, I have to reduce my expenses. The state should too!
07/14/26	Dianna Hain	60634	X		X				X		Oppose	do not approve increase
07/14/26	Carrie Didier-Mackey	60462	X			X	X				Oppose	These toll increases will actually keep me OFF the tollway and I will use local, side streets. Those increases are ridiculous. If other states can have an interstate system without tolls, IL can keep the prices low.
07/14/26	Ken Netzley	60148	X			X	X				Oppose	I think the tolls now are too high!! This is getting ridiculous! You're killing us in this state with fees and taxes.
07/14/26	Ronnie Kokkines	60061	X		X		X				Oppose	
07/14/26	Paul Daniliauskas	60445			X	X	X				Oppose	This state is becoming too expensive to live in as it is, please don't make it worse.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/14/26	Rev. William E. Zimmer	60126	X		X		X				Support	"You never spend someone else's money as carefully as you spend your own." Milton Friedman, Nobel Laurette in Economics. Like all government agencies, the Illinois Tollway Authority needs to constantly keep in mind that they are spending someone else's money. Therefore they should spend the money from the toll increases as if they were spending their own money.
07/14/26	Adam	60453				X	X	X			Oppose	I'm taxed in every aspect of my life, sometimes tax on top of tax, living in illinois. Sales tax on the car, registration annually, gas tax, tires sales tax. Please give me some reprieve.
07/14/26	Dane Eimer	60074	X				X			Nothing	Oppose	I oppose the toll increase. The tollway already makes over 1.5 billion dollars in revenue from the current toll structure. A toll increase will hurt people financially that drive the tollway daily. I appreciate that tollway has well maintained roads but this increase does not appear to be necessary.
07/14/26	Joseph Ruffolo	60010			X	X	X				Oppose	When the toll way system began in Illinois it was introduce as a temporary funding method to create the infrastructure. The "promise" was that it would be sunsetted once the roads were completed. What happened instead is a series of technology upgrades that make it easier to collect money while minimizing awareness. The amount proposed is a ridiculous single time jump and to add insult to injury the proposal includes increases biannually for an indefinite timeframe. Not really sure if ANYONE who lives near these roadways would have anything positive to say.
07/14/26	Danielle Wiles	60517		X		X	X				Oppose	As someone who uses toll roads almost daily for work it isn't in the best interest. Why cannot we not charge out of state drivers higher tolls.
07/14/26	Antonio Sammarco	60190			X	X				Easier route and faster to get places. It sure as hell not for maintained roads or affordability considering I just drove to South Caroline and didn't pay one toll when I left Illinois and the roads are just as good if not better	Oppose	On top of everything else we pay for just to go about our daily lives, and now the increase in fuel tax. It's going to way to much just to travel anywhere . We pay enough and at what point is enough enough? Other states seem to get by just fine with out tolls . If this passes I will not be taking the toll way unless 100% no other option. I travel weekly to motocross tracks and take the toll way every time . But if it means I gotta leave 10-15 minutes earlier to not get shafted by another hike in this state , then I guess I'm leaving 10-15 minutes earlier to get where I gotta go.
07/14/26		60613	X		X		X				Oppose	
07/14/26	Patricia Gonzales	60515	X			X	X				Oppose	I oppose the proposed toll increases for several reasons. First, all tolls collected should be used for the tollways only and not moved around to cover budget shortfalls in other places. Second, the tolls were supposed to be temporary until the roads were paid for. Somehow Illinois never understands the meaning of the word temporary. Third, other major roads like I55 are not tollroads. So only a section of Illinois commuters are taxed extra for their way to work. I pay taxes that fund I55 but I don't use it to commute. So I pay for my commute and someone else's. Illinois needs to start figuring out what Illinois families have had to do. That is, start spending less! Our wallets are not bottomless. Don't force me out of Illinois. I love this state and want it to remain a good place to live. Unfortunately our top government has no idea how to stick to a smaller budget. I have to prioritize my spending. So does Illinois.
07/14/26	Paul Coleman	60007	X				X			removal of debries	Oppose	too much government waste of my hard earned dollars. live within your means first like the rest of us. I oppose any new increases. what happened to "affordability" efforts for the people. this is the exact opposite of that.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/14/26	Ronald Peco	60513				X	X			The roads just have to be maintained, not well maintained. Get a clue, people can't afford this stuff you're planning.	Oppose	Some of the proposal is for work already being done at the 290, 88 and 294 Interlock. It is a total mess around there right now. So I don't understand how they plan to fix it in the future. Just going to tear up all the work that is getting done right now? I think this is a bunch of crap and I will start voting in Republican people into office to get this stuff under control. People can't afford what you're planning.
07/14/26	J Novy	60014	X				X			Don't have a 3rd important factor.	Oppose	Tolls already expensive in an expensive county in an expensive state. Now add NIIT increase to toll system and tollway project increase to toll system?! And index to inflation? Unaffordable! Another idea to fund tollway projects...cut waste and balance to existing budget. Like the rest of us have to!
07/14/26	Eric	60185	X		X	X					Neutral	Fix 290 It sucks getting to the city from the western suburbs. I would pay $5 if it was faster.
07/14/26	Corey Laine	60083	X				X			Cost of tolls for semis	Oppose	I have 4 semi dump trucks that although we strive to not have to take the tollway, sometimes, for time availability we must. In 2025 I paid $27,255 in tolls. 1/2 of my work is in WI where there a no tolls and yet their freeway is much better than IL. I think the ISTHA is mismanaging funds.
07/14/26	Lori Wilson	53704				X		X	X		Oppose	The roads are fine and do not need such expensive upgrades. Please maintain them for safety but otherwise don't spend money on them. Tolls are expensive enough, and they certainly don't need to increase every other year, especially since you don't need to staff or maintain toll booths anymore.
07/14/26	Pamela Lane	60449			X		X		X		Oppose	With the economy the way it is now we do not need to be worrying about toll increase there are more other important things to worry about
07/14/26	Chris Rojek	60448				X	X		X		Oppose	It is amazing that you thieves propose a toll hike after the thieves in Springfield just stole money for NITA. The gall of the political class in this state amazes me. How people can vote the same every election mystifies me!
07/14/26		60134	X	X				X			Support	Very Good Initiative from IL Tollway
07/14/26	Sutton Wescott	60642	X		X	X					Oppose	I will never be in favor of this state increase fees and taxes. It's always more, more, more and yet the services RARELY seem to improve. We also have the worst traffic congestion here in the city of Chicago so before you focus on taking more money from your citizens, how about we focus on improving the driving experience and making it not a complete kick in the balls everytime you need to travel a few miles.
07/14/26	Tom Stiers	60448	X			X	X				Oppose	A 45 cent increase is too much. Why is it increases have to be so steep each time. The tollways are already in constant construction mode making large portions a 45 mph maximum. 294 is a traffic nightmare all the time. 355 & 88 are in good shape now. Who's making all the money on these increases? They are always over budget and take longer than projected. And the tollways rates never go down when completed
07/14/26		60124	X			X	X				Neutral	Cost of living is a huge factor in many Illinoisan lives right now. Despite not previously raising tolls for the past 14 years, it seems somewhat tone deaf to start initiating it right now. Why is the commercial vehicle price raising less than the personal? An extra way to stick it to families? With the added pressure already from gas costs, there seems no good reason to keep relying on the tollways to fund ambitious roadway projects at the expense of Illinois families

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/14/26	Daniel Meier	53950	X			X	X				Oppose	Dear Sirs, Ever hear of fiscal restraint? This appears to be nothing more than a money grab so you can do what the Major Road contractors and union labor want you to do. You mention nothing in your talking points on what toll road sections are in poor condition and need this money. You never complete projects on time or within budget. Why don't projects like the I-294 rebuild be on a 24-hour construction cycle? I lived in Illinois the most of my life and recently retired to Wisconsin because of poor leadership in state and local governments and boards that want to control very aspect of your life. Additional questions - How will this monies be spent? What projects are currently waiting for this funding? What projects will be delayed without this funding? Will there be a cap on profits that the major contractors can make out of each project? How are the penalized if they do not meet deadlines? Will this money only be for the tollway system? As a less frequent user of the tollway system I have no faith in the tollway board to effectively use this money or manage it in the future and am in opposition to this proposal.
07/14/26	Alonzo Day	46323					X	X	X		Neutral	Needs to be done for economic growth
07/14/26	PAUL SCHMIDT	60103	X	X			X				Oppose	Cut your paychecks first. Stop continuous never ending road construction- will I88 ever be complete- or just a never ending contractor oops and let the cash register ring.
07/14/26	John	60641			X	X	X				Oppose	IDOT hasnt finished a single project on-time, more money isn't going to fix that. With the number of cars jamming up the tollways around here, there is plenty of money as is
07/14/26	Anna Dwyer	60175	X		X		X				Oppose	
07/14/26	Harsha Ramakrishna	60611	X			X		X			Oppose	While a reasonable hike is definitely justified, such a steep increase in a difficult financial environment for everyone is very unfair.
07/14/26	Dan	60169	X		X		X				Oppose	You already leeched billions in tolls, make drivers pay increased rates for car maintenance and basic driver services (licenses and renewals) put the money towards roads and not into pockets of nepotism owned businesses, fake positions, and unnecessary programs. Crazy thought, use driver / road taxes to fix the roads.
07/14/26	Liam Mickus	60056	X					X		Safety	Support	
07/14/26	Adrian Nieves	60440	X			X	X				Neutral	
07/14/26	B	60119		X	X		X				Oppose	Most expensive state adding more taxes. Cut spending and waste in other areas before looking at any more taxes. Absolutely no.
07/14/26	Brent Carver	38930	X		X	X					Support	
07/14/26	Jacob Olsen	60187					X	X		that's it	Oppose	Everytime we drive by contruction there's just cones and half the time they're replacing perfectly good curbs yet when theres a pot hole it doesn't get filled you already get TONS of taxes. JB pritzker is a billionaire why doens't he just pay the tax? toll was originally supposed to be temporary now you're going to raise it every two years!!!!
07/14/26	Ramon Manglano	60464-1824				X	X		X		Oppose	The toll roads were to be free after 1973 and the department has more money than it needs. Please stop toll increases.
07/14/26	Pat Kirschhoffer	60083	X		X		X				Oppose	The tolls are way too high! Especially for semis. Between Illinois fuel tax and tolls it costs much more for shipping.
07/14/26	Chad Davis	60586	X		X	X					Support	Build it. Build it now.
07/14/26	Christian Muro	60555	X			X			X		Neutral	
07/14/26	Carlos Ruiz	60099	X					X	X		Neutral	
07/14/26	Brandon Osterhues	60074	X		X		X				Support	Always support union work
07/14/26	David Grossklaus	60431	X	X			X				Support	
07/14/26	Brendan Puracchio	60450			X	X	X				Neutral	
07/14/26	Tony Torres	60435	X		X	X					Oppose	Many highway projects including on I 90/94 and I294 have been taking far too long to complete and now you want to increase toll rates? I much rather see the state and funding used to complete the projects that were created with the previous allotted budget rather than expecting tax payers and Illinois citizens to cover more of these costs before we move on to other projects and more expenses.
07/14/26	Daniel Martell	61068	X				X		X		Support	

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/14/26	Arturo Rodriguez	60629		X	X			X			Support	Quiero trabajar, es mi comentario
07/14/26	Andre Zuniga	60402	X		X		X				Support	I support the Illinois Tollway's proposed capital program. Investing in our roads creates good union jobs, improves safety, reduces traffic, and benefits communities across Illinois. I encourage moving this program forward.
07/14/26	Larry DiGiannantonio	60016	X		X		X				Oppose	The state of Illinois has enough money to properly maintain road improvements and infrastructure.
07/14/26	Alejandro Hurtado	60085	X		X	X					Support	
07/14/26	Eugene Heath	60432	X				X		X		Support	
07/14/26	David Bishop	60411	X		X		X				Support	
07/14/26	Anthony Caiafa	60458	X	X	X						Support	
07/14/26	Alejandro Olivarez	60087	X				X		X		Neutral	
07/14/26	Andrew Raphael	60602	X	X	X						Oppose	Thought the tolls where suppose to not be permanent. That's what was told when the tollway was built. Totally against this proposal.
07/14/26	Pete M	60123	X				X			No rate hike	Oppose	You guys are money hungry definitely a big no on the increase
07/14/26	Megan Clark	60545	X			X	X				Oppose	Understanding the current economic climate, now may be the time to be in more of a maintenance mindset instead of a building/expansion mindset.
07/14/26	Andres Hernandez	60542	X		X		X				Support	
07/14/26	Erin Frazier	60010	X		X	X					Oppose	You should not be blanket increasing every 2 years based on inflation; also this current increase is horrible with the condition of the toll roads and amount of traffic alone. I strongly oppose this blanket increase
07/14/26	Arnoldo Chaidez	60455-1112	X		X				X		Support	
07/14/26	Francisco Rodriguez	60629	X	X	X						Support	
07/14/26	Anthony Vitali	60707	X		X		X				Support	
07/14/26		60538	X	X	X						Oppose	Take a pay cut and STOP TAKING MY MONEY
07/14/26	Antwion Powell	60651	X	X	X						Support	Increase funds to help commuter's have a more smoother and more satisfying commute is always a welcoming situation in my opinion and also while introducing more jobs for union laborers workers is a huge step in the right direction.
07/14/26	James Gaza	60618	X		X			X			Support	I do a lot of tollway work. It provides good paying union jobs while improving the areas infrastructure
07/14/26	Andre Holland	60110	X		X		X				Neutral	
07/14/26	Diego Flores	46323	X		X		X				Neutral	
07/14/26	Evan Mata	60513	X		X				X		Support	
07/14/26	Christian Alsbury	60404	X		X	X					Support	
07/14/26	Karen Richards	60050	X		X					Pay off the pension debt plaguing Illinois.	Oppose	
07/14/26	John Muellner	60002	X				X			Affordability	Oppose	Please stop increasing tolls. Literally stop. Every time I turn around, the IL government is reaching into my pocket for more. When is enough enough? Be better stewards of the funds you currently have.
07/14/26	Beth Gricus	60051	X	X			X				Oppose	Illinois residents are getting taxed out of their state.Although this increase is from the tollway since it is driven by many from out of state,THEY should be charged the increased toll.This could be easily done with the lack of IPass numbers that Illinois drivers use. Commercial trucks should be charged the 30 %, as the large semis are hard on out roads Thank You, Beth Gricus
07/14/26	Alan Simek	60172			X		X			I answered this Q, why do I need 3?	Oppose	Always some excuse to raise tolls. What happened to stopping tolls when it was paid off? Just another line of BS from government officials. Whats next? Blood? You dont care about people, just keep taking more money out of our pockets, never cut any expenses, just like Brandon creating another comitee to explore violence.....LoL

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/14/26	wehrheim	60051	X			X	X				Oppose	The madness of sending all money to bail out Chicago Transit systems is out of hand. The IL government had no business re-purposing the transit money that belongs to the entire state's transit ecosystem and dump it all into Chicago so "higher rates" in their transmit systems is not necessary - If more money is needed in Chicago to support their transit system then the hikes should be made in their transit rates. To literally state the rest of the state is going to suffer unless we now raise rates on ourselves to have decent roads is ludicrous. I would love to see comparisons of our toll rates compared to other states. No doubt IL would be near the top for that tax too! Stop the money madness! I have to balance my budget within the amount of money I make. It is time to Illinois to do the same! Quit asking for a new raise evrey other day of the week!
07/14/26	Mark Rawski	60185	X		X		X				Oppose	Why cant Illinois live within their means instead of raping every taxpayer and travelers wallet? Its disgusting to see what our once great state has become
07/14/26	John Romano	60020	X			X	X				Oppose	I am opposed to any tax increase, as opposed to spending cuts and managing budgets. As a business leader, I often did not have the opportunity to raise prices, but always had to find ways to reduce costs. This state government is taxing people and businesses out of the state. With all the tolls they are collecting daily, they should be able to maintain the roads effectively and economically. Remember that the tolls were implemented with the proviso that they would go away once the roads were completed. Like all government programs, it never ended and I cannot imagine the revenue generated cannot maintain the roads. And I do not mind paying tolls; it is a use tax and I am in favor of that. I am even in favor of tolls keeping up with inflation. But I cannot imagine that an extra $26BB above the current tolls is necessary. We are struggling with inflation out here; how about some relief?
07/14/26	M	60503	X		X		X				Oppose	It is already too costly and the newer ipass stickers are not work as well as the old fobs. I am disappointed in how much construction continues in the same areas each year. It makes travel difficult.
07/14/26	Daniel	60559	X		X		X				Oppose	you fucking greedy bastards. we neighboring states with FREE highways, no tolls, yet having better roads in better condition than we do. why do the taxpayers always have to front the bill in Illinois? STOP THIS MADNESS. IT IS NEVER ENDING. WE ARE SICK OF GETTING ROBBED.
07/14/26	Michael Kuhn	60618			X	X				lights	Support	Introduce congestion pricing
07/14/26	Brian Myszka	54930-9065	X	X	X						Support	Raise it 5.00 per toll. I no longer live in Shitcago or Illinois.
07/14/26	Jessica Zeffery	61008	X		X		X				Oppose	It's getting harder to afford the tollway as is and I'm just going to work and home. If tolls get any higher maybe come up with a discount somehow for those that drive a certain mileage or depending on what you do for a job. I work with adults that have disabilities and the pay isn't good but I love my job.
07/14/26	Dan	49423	X			X	X				Oppose	I don't live in Illinois, but I regularly pay tolls as I travel there. At the end of the day, until the majority IL residents in Chicago area understand that democrats have never met a tax or toll they didn't like, this will pass no matter how many comments you get. Each time I travel, I consider the tolls. As they go up, I'll now consider my time vs. the cost. I liked the stability of the tolls, now I fear they will keep going up because that is what happens in IL. Once the taste for increased $$ is met, the politicians, bureaucrats and appointed gov't hacks keep coming back to the well. Fortunately, I don't live in IL, so I'm pretty immune from the dysfunctional gov't practices. I'm happy to welcome the Bears to Indiana. One less IL toll I'll pay.
07/14/26	Angie Williams	60137	X			X	X				Oppose	You are robbing your constituents blind. Even worse, you think we are dumb enough to believe that these price increases will actually minimize traffic. You are literally pricing people out of affordability to go to work. You should be ashamed.
07/14/26	Daniel Alvarez	60455	X		X		X				Neutral	How much of an increase are we talking. Every till I pass is either 75 or 1 dollar and change. If we go up to 1.25 and 2. That's reasonable for the hundred's of thousands of drivers that use the IL TOLL WAY.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/14/26	Arturo Herrera	60629	X		X			X			Support	Good luck
07/14/26	Patricia A McKenna	60452					X		X	Nothing	Oppose	The tolls were originally supposed to be short term. We should not have to pay for illinois IDOT to improve roads. We already get taxed for that. An increase in tolls would to nothing to ease traffic. Are you proposing you limit card on road? As far as roadside assistance , that also does not come from a toll increase. That comes from insurance. Nothing that is being proposed should be funded by tolls increase. If you want you hire more people, then pay them with the money you already get.
07/14/26	Brian Gabehart	60416	X		X	X					Support	
07/14/26	Dan Hallquist	60172	X		X	X					Support	
07/14/26	Ahmad Smith	60651	X	X		X					Neutral	
07/14/26	Jorge Gomez	60164	X	X	X						Neutral	
07/14/26	Javier Nunez	60420	X		X		X				Support	
07/14/26	Johanna Cleaveland	60630			X	X	X				Oppose	Illinois is already one of the highest tax states in the US. Property taxes, fuel taxes, sales taxes and then you have the county and city taxes and now they’re proposing a tollway cost increase. You can’t even get through a toll these days without traffic backups and congestion. What else cost wise is this state government going to impose on its residents? Really??? We are already stretched with rising costs.
07/14/26	Timothy McCurry	60068				X	X			above	Oppose	Tollway is already too expensive. Tolls were supposed to end many years ago (government promise take back). Personal and commercial proposed rates will be a burden to me and our society. Now we are funding the CTA with Road money (Stop)
07/14/26	anony mouse	60025	X		X		X				Oppose	For most products and services, quality is provided before a charge is put on the customer. Illinois tollways seems to have it backwards, they want to charge and then give us something supposedly better years from now by making the argument that the service they have been giving us so far is bad. what happened to all the money we gave them all these years for bad service, and what is the guarantee that by charging us more they won't continue to take users for granted as they have done so far?
07/14/26	Jesse Cox	60152	X		X	X					Support	
07/14/26	Jon Shoemaker	60139	X	X			X				Support	
07/14/26	Gina Pope	60490	X		X		X				Oppose	Literal “ highway robbery”. Why not dig into the deep pockets of the rich politicians who make six figure salaries to pay for this while they sit back and do nothing. In fact, get fat pocketsPritzker to pay! The state of Illinois is a continuous shit show that Rob’s at citizens on a daily basis!
07/14/26	Steve	60423	X		X		X				Oppose	
07/14/26	Cody	60073			X		X			I refuse to drive on the tollway	Oppose	Toll roads are only in and around major cities. What I have noticed is the condition of the Toll roads are poor vs the roads without. A road that collects money is in worse shape than a road that does not. That’s why I refuse to pay into that failed system. Il take more time to drive slower roads to avoid tolls.
07/14/26	Bryan Sill	60540	X		X		X				Neutral	I strongly oppose adjusting rates automatically every two years based on rate of inflation. This will lead to escalating driver costs not necessarily tied to system needs. As is common knowledge, average wages have not kept pace with inflation. Which means that tolls will continue to escalate disproportionally to driver income, creating an unfair burden on motorists and particularly retirees. Such automatic increases exceeding income growth are an insidious form of constant tax or fee increases which should never be allowed at any level or agency of government. Toll increases should only be permitted based on an analysis of system needs and costs and input from the public based on the public's evaluation of proposed benefits versus costs of tollway maintenance needs or proposed capital improvements. There should never be automatic increases in tolls.

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/14/26	Elizabeth Cory	60142	X			X				Safety	Oppose	I have been a commuter on the Jane Addams between Rockford and later Huntley to O'Hare for work for the past 27 years, and I have spent thousands with you already. While I suffered through the last construction, I commend you on the road improvements. But, now is the time to stop. The road is good enough NOW. Before you do anything else, please crack down on the unsafe drivers who speed and abuse the laws on the tollway. It has become one of the most dangerous roads in America because of the speed and the disregard for safety with the 100+ mph speeds and the lane surfing that began after the Jane Addams rebuild. It has to stop. Innocent people are getting killed and maimed by this behavior. We rarely see law enforcement. We don't see any type of crackdown. If you want to improve the tollway further, don't nickel and dime us further. Please demonstrate that you care about the safety of the people who are using the tollway today. The tollway goes fast enough now. Preserve your taxpayers' lives and show us you care about our safety.
07/14/26	Sarah Joern	60169	X		X		X				Oppose	Stop increasing tolls that should have been removed. They only exist because they weren't correctly appropriated to the roads ONLY to begin with m
07/14/26	Rick Korjenek	60002				X	X			Moving out of Illinois	Oppose	My commute back and forth to work cost 1.5 mortgage payments per year. With this increase, it will be 2 full mortgage payment donated to the most corrupt state in the union. Whom will control the fund? A nonbinary Pritzker or a unicorn. Probably a teacher union crony
07/14/26	Edward	61010	X			X	X				Oppose	Illinois has no issue with infrastructure funding. Please learn how to budget instead 🙏🏻
07/14/26	Amanda Peck	60178	X			X	X				Oppose	There is always increase the state wants more and more for improvements. Illinois residents are bleeding taxes and fees everywhere to the state. The state needs to do more to allocate funds correctly so Illinois residents are not taxed more! I say NO to an increase of Ipass fees. Figure it out with what you have.
07/14/26	doug	60423	X				X			Accountability of funds.... i want an audit.	Oppose	i want an audit of where the money is going. toll collections average about $4.7 million per day, where is the waist in this system..
07/14/26	Jim	60441	X				X			Less tolls	Oppose	I already spend a ridiculous amount of money to go to work, (building our infrastructure), how about public visibility of all raod revenues collected and where the money is lost. Will you not be happy until you have taken 70% of my paycheck in taxes!
07/14/26	Stephen	60655	X	X			X				Oppose	
07/14/26	Chris Santore	60191	X			X	X				Oppose	DON'T YOU FUCKING DARE RAISE TOLLS! WE'RE ALREADY GETTING FUCKED BY THE COST OF EVERYTHING ELSE GOING UP. FUCK YOU CLUELESS SHITBAGS FOR EVEN PROPOSING THIS!! YOU KEEP BUILDING ROADS OUT SHITTY MATERIALS THAT DON'T LAST.
07/14/26	David Vargas	60169	X	X	X						Support	
07/14/26	Marianne Stranich	60527	X				X			Price	Oppose	We are over taxed in this state already. The state needs to budget it's money better instead of overburdening the people with more taxes. Illinois pays some of the highest taxes in the country. This is going to cause more people to flee the state.
07/14/26	Fernando Huerta	60087	X		X				X		Support	Nothing comment
07/14/26	Erik Grotness	46803			X	X	X				Oppose	The skyway already jumped up, without warning - this encouraged me to use the toll-free I-94 on the way back to Indiana - jacking up the rates further will just force me to go around the toll roads altogether, to be frank.
07/14/26	Aiden	60452	X		X		X				Oppose	No reason to hike up tolls because the same construction has been going on for years
07/14/26	Angel Khamis	60622	X				X		X		Neutral	I would love it
07/14/26	Jim R McIntyre	60490	X			X	X				Oppose	Given the $0.45 passenger IPASS increase, that equates from a 30% to 62% increase. Outrageous. Your organization needs to work within a reasonable budget just as I am. My opinion and circumstance are from a retired, fixed income senior. I'll be resetting my GPS equipment to "avoid toll roads" in future travels.
07/14/26	Frank Risky	60517			X	X			X		Oppose	Traffic on I-294 near the I-88 exit is so horrible already that I cannot bear the thought of more construction!! No one should have to pay to sit in that absolute parking lot of traffic. Drivers are so construction weary already.

07/14/26	Julee Mortensen	60007	X			X			X		Support	I have a son who's a teacher and it's gonna cost him an extra $600 a year to go to and from school. So this affects me because now my son who has three children in a house and dogs to make things nice for his children since the divorce. To get to his place of employment at 600 hours more a year. On the other hand, my husband has cancer and he can't take the expressway. Otherwise he'll run up late for his radiation appointment so he has to take all the side streets. But I also remember one time when we were supposed to not be charged for tolls anymore because it would go away. Then we also have to take him into consideration because of this crazy person in the White House. We're not getting federal funding. I want my Rhoades to be nice when I drive them so I guess I'd like to see better toads But then on the other hand like in our village where I'm sure that money is coming from the state and tax dollars they repave a road last year and now there's cleaning up some of the mess because of the way they did it so how do we stop that? How do we stop poor construction?

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/14/26	Jay Rowell	60616	X	X						Employment opportunities through Tollway improvement projects	Support	The Driving Connections Capital Program will provide substantial benefits to HIRE360's workforce training efforts. A capital program of this magnitude creates sustained demand for skilled construction workers over many years, expanding career opportunities for the individuals we train and support. The proposed investments will help create pathways into family-sustaining union careers while strengthening workforce diversity and supporting economic mobility in communities across the Tollway region. HIRE360 is an industry-led workforce development nonprofit that works to connect Illinois residents with sustainable careers in the union construction trades through pre-apprenticeship training, paid stipends, case management, direct pathways into apprenticeship and employment, and small business contractor/supplier development. We partner with labor unions, contractors, developers, and community organizations to prepare a skilled and diverse workforce capable of meeting the needs of Illinois' growing construction industry. As major infrastructure projects advance, HIRE360 stands ready to continue preparing qualified candidates and businesses to help meet industry workforce needs and contribute to the successful delivery of these critical improvements. We commend the Illinois Tollway for its vision and leadership in developing a comprehensive capital program that addresses transportation needs while fostering economic opportunity. We urge the Tollway Board to advance the Driving Connections Capital Program and the investments necessary to deliver its long-term benefits to the region. Jay Rowell Executive Director HIRE360
07/14/26	Jan Schwenk	61761	X			X	X				Oppose

07/14/26	Chloey Myers	60542			X	X	X				Neutral	
07/14/26	Keith Hoard	60560	X	X					X		Support	
07/14/26	David Martin	60476	X		X	X					Neutral	
07/14/26	Frank Zabloudil	60477	X		X	X					Support	
07/14/26	Jan Mulligan	46311					X	X		High speed rail	Oppose	Too expensive for seniors to pay
07/14/26	Jose Sanchez	60411	X		X				X		Neutral	
07/14/26	James Jones	61016-9447	X		X		X				Oppose	I feel that a 45cent increase is excessive. Maybe 25cents. Then revisit the price every 5 years.
07/14/26	Erik Guadarrama	60087	X		X	X					Support	
07/14/26	Michael Harrington	60544				X	X			The tollway stops trying to grow itself	Oppose	The tollway is an organization continually seeking to grow itself at the expense of the taxpayers and the public. The proposed increases are unreasonable and not needed.
07/14/26	Curtis Fenton	60636	X		X			X			Support	
07/14/26	Anthony Serpico	60455	X		X			X			Support	I completely support an increase so long as it reduces traffic, especially during rush-hour, and the roads will be maintained very well when it comes to potholes.
07/14/26	Ibrahim Aly	60176					X	X	X		Neutral	
07/14/26	Patricia Madden	60053	X			X	X				Oppose	The amount of the proposed increase is too high. Especially at a time when the price of everything else is so much higher and so many people have lost healthcare/Medicaid/SNAP benefits. There are a lot of people driving the toll roads who cannot afford such a big jump in cost when gas/oil prices are high. Those who make a living driving cannot easily escape what could be a substantial added cost. Stagger it over a few years. $0.15 per year over 3 years is more manageable. I understand this is a plan for major tollway projects but projects are done in increments. Every dollar needed to complete the projects does not have to be collected up front. Tying it to the CPI does not make amounts predictable. CPI has averaged anywhere from almost flat to 8% over the last 10 years. That is a pretty substantial swing and not predictable for the average person. Will you reduce tolls in a year that CPI is negative?
07/14/26	Edward Bulow	60467	X		X	X					Support	
07/14/26	Patricia A Pipkin	60050-2652	X		X		X				Oppose	Stop wasting money. You're the only state that doesn't use money correctly
07/14/26	Matthew King	46368	X		X		X				Neutral	

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/14/26	A Baltazar	60173			X	X	X				Oppose	Many years ago when tolls were first imposed, it was said to only be a 'temporary' toll to raise many for improvements. Not only have the tolls been ongoing and many more added (driving 7-minutes on 390 and paying THREE tolls is ridiculous!) but rates have steadily increased. Please stop - it's hard to afford to drive around the Chicagoland area.
07/14/26	Tom Harseim	60450	X		X				X		Support	
07/14/26	Jaime Mejia	60634	X		X		X				Neutral	
07/14/26	Francisco Arreguin	60103	X		X				X		Neutral	
07/14/26	Carol Lee Hall	60637	X		X		X				Neutral	
07/14/26	Eleazar Eleazar Vargas	60013-6708	X				X		X		Support	
07/14/26	Mike	60142	X		X		X				Oppose	Keep increasing and you'll lose business from everyone heading into the city for work. You need more money then get it from the state. We're already taxes heavily on so many other things. Stop!
07/14/26	Evan Harwood	60124			X		X			Clean of garbage on roadways and ditches	Neutral	
07/14/26	Cheri Schmitt	61370	X		X		X				Oppose	My business would be better off to travel off the toll roads and take more time than to pay the higher tolls. My customers cannot absorb any higher rates and I cannot afford to absorb that cost. My drivers want to make a decent living and they need to. So we just avoid the toll roads. If the tolls we cheaper, we would travel them a lot more. My routes are local, so I can get around the toll roads, although it would be faster to take them. But in the long run I make more money avoiding the tolls, let alone if they raise them.
07/14/26	Laura Palella	60451	X		X	X					Support	
07/14/26	Tim S.	60565	X		X		X				Oppose	We don't need any more rate increases. We have road projects happening constantly and none seem to ever complete or provide value versus the cost as it is today. Keep the grift and just maintain the roads with your current budgets versus trying to extract even more of household income to offset your margins.
07/14/26	Jennifer Dennis	60177				X	X			Go to Indiana and they have nice roads ?!? Why	Oppose	Cost of gas and living making impossible to travel . Where is the gambling and weed taxes going ? The state is crippling the citizens financially . Do better
07/14/26	Patrick Perkins	60618			X	X	X				Neutral	
07/14/26	Hugo Alvarez	60632	X			X	X				Neutral	
07/14/26	Scott Hofstra	60477			X	X	X				Oppose	The governor has waisted hard earned tax dollars on issues that don't pay taxes. This is new proposal is not needed. It will be wasted again. ENOUGH !!!
07/14/26	Nicholas Palella	60451	X	X	X						Support	
07/14/26	Erik Bosque	60123	X			X			X		Support	I support the Tollway's proposed Driving Connections capital program and the toll rate adjustment needed to fund it. As a member of LiUNA Local 2 working in underground infrastructure, I've seen how investments like this create good union jobs, keep apprentices and journeymen working steadily, and strengthen the communities along every corridor. A 15-year, $26.5 billion commitment also means safer, less congested roads for everyone.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/14/26	Rose	60441	X				X		X		Oppose	I drive the toll way every single day, so much that my ipass replenishes every day per my bank statement. I think the toll prices rising is greedy of the state especially for the drivers that are of the middle class, already struggling to keep up with the cost of living and being forced to take the toll way for work/etcetera. I don't think raising the price of tolls to start another highway project that people will not be able to drive for years because it will likely be a long-term project like all of the other highway construction in Illinois. Illinois is the most over taxed state of the US and we the people are just trying to keep up with toll rates now. Please reconsider, I believe alot of people, including myself, are going to be angry and it will possibly reroute many tollway drivers to find other means to avoid the increased toll price. The price has already risen (obviously) with inflation, and now the state is getting greedy to find more ways to tax the people. Thank you for your time and interest in hearing the people's opinions. Most of the time the state does not take consideration of the opinions of the he people that will utilize such.
07/14/26	Cynthia Cruz	60153	X	X	X						Support	
07/14/26	Jody Keulman-Ress	53179		X	X	X					Support	
07/14/26	James Welling	60477	X		X	X					Neutral	
07/14/26	Jose Montoya	60099	X		X	X					Support	
07/14/26	Jaime Colon	60707	X		X				X		Support	
07/14/26	Art Bacon	60148	X		X		X				Oppose	Everything points to this toll increase being instituted to bail out Chicago's transit system. Chicago should have to pay for it's own issues and not be bailed out by everyone else.
07/14/26	Michael Schulz	60156	X		X	X					Support	
07/14/26	Robert Thomson	60503	X		X		X				Support	Keep America working
07/14/26	Raymundo Jeronimo	46307	X	X		X					Support	
07/14/26	Dave Novak	46324					X		X	lower tolls / remove tolls	Oppose	Tolls are high enough now. Wasn't the goal to pay off the loans / bonds taken to build the roads and turn them into expressways?
07/14/26	Jamie Kaczor	60532		X	X		X				Oppose	I'm not opposed to a rate increase, but I'm opposed to a 45 cent increase. This is too large of an increase for the proposed changes that have been suggested. It should not be a one size fits all approach. I-355 is already very expensive and is a very nice tollway. I rarely ever catch any traffic on I-355 - it is worth it's current toll cost, but it does not need additional improvements. Whereas, I understand why other toll roads may need improvements. For example, the improvements recently made to I-294 are very nice and have helped to decrease traffic. My trip cost would double with what you have proposed. I primarily utilize I-355. A larger increase in tolls should be applied to tollways that need more repairs than others. I do not feel like that's what is reflected in this plan.
07/14/26	Brenyer Rivas	60629	X	X	X						Support	

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/14/26	Alek Gasiel	60516					X	X		Affordable tolls	Oppose	I am opposed to the proposed Illinois Tollway toll increase because it places a disproportionate burden on commuters who have little or no ability to change their travel patterns. My spouse uses the Tollway to commute to work and passes through six toll plazas each workday. Under the proposed increase, our household would pay approximately $650 more per year. This is not a discretionary expense. Changing jobs or relocating closer to work is not a realistic option for us and also for many Illinois families, and the proposal does not appear to recognize that many commuters have no practical alternative to using the Tollway. I also question the justification that "left unrepaired, poor road conditions can cost drivers approximately $725 per year." This appears to be based on national estimates of vehicle operating costs associated with poor road conditions rather than data specific to the Illinois Tollway. Because Tollway users already pay tolls specifically to fund roadway maintenance, this statement requires additional context. If toll revenues have been collected for decades to maintain the system, the Tollway should explain: •What is the current condition of Tollway roads and bridges? •How much of the existing toll revenue is spent on maintenance versus debt service, expansion projects, administration, and other costs? •What evidence shows that Tollway users are currently experiencing these additional vehicle costs due to the condition of Tollway roads? •Why are existing toll revenues insufficient to maintain the system without this increase? Before approving a significant toll increase, the public deserves greater transparency about how current toll revenues are being spent and why additional revenue is necessary. A national statistic about poor road conditions should not be used to justify higher tolls without demonstrating that it accurately reflects the condition of the Illinois Tollway system itself. In addition, the Illinois Tollway should consider a commuter discount or frequent-user program for individuals who rely on the Tollway to travel to and from work every day. Many workers have no practical alternative route, cannot work remotely, and cannot simply change jobs or move closer to their workplace. These commuters already contribute significantly through daily toll payments and would be disproportionately affected by the proposed increase. A commuter discount for regular work-related travel would help reduce the financial burden on Illinois families while still allowing the Tollway to generate revenue for necessary maintenance and infrastructure improvements. If the Tollway believes additional revenue is necessary, it should also explore ways to protect those who depend on the system every day rather than applying the same increase to all users regardless of how essential their travel is.
07/14/26	Josh Pozulp	60441	X				X			Money Management	Oppose	Manage your money like a household
07/14/26	Theodore Arnold	60586		X	X	X					Support	
07/14/26	Fred Abbott	60455		X			X			Illinois tollway is greedy. We can’t even afford it now.	Oppose	What is that I told has to be so greedy. You can’t afford to pay the tolls now but you’re gonna make us pay more. That’s insane. For any reason.
07/14/26	Mary Weibler	60185	X				X			Just give us accessible roads with LESS construction	Oppose	The toll roads are costly to drivers as it is, and seem to be CONSTANTLY under construction. Please finish the projects that have been ongoing for years without increasing our costs to use roads that are already in less than ideal condition for the level of traffic in the Chicagoland area. My first reaction when I saw this, was "they can't be serious!"
07/14/26	Fernando Almanza	61065	X	X	X						Neutral	
07/14/26	Yusuf B	60016				X	X		X		Oppose	One of the worst tollway in USA. Shame on you. Spent billions of dollars, and 25 years (!) construction. Chinese built their roads overnight.
07/14/26	Mirko Bolotin	60148-1558	X		X		X				Neutral	
07/14/26	Joaquin Pereda	60402		X			X		X		Neutral	
07/14/26	Joe D	60142	X		X		X				Oppose	Absolutely ridiculous. No faith in the people making these decisions. State is a complete failure. Highways are dangerous, no enforcement and now you want to charge more. We’ve had enough
07/14/26	Jose Lopez	60085	X	X	X						Neutral	
07/14/26	Jessica G	60515			X	X	X				Oppose	

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/14/26	Michael Thompson	60115	X				X		X		Oppose	The current Administration has made it very difficult to absorb any additional costs burdens relative to this proposed initiative. Higer prices on food, gas and your basic day-to-day living necessities are at an all-time high, which makes extremely difficult to even support such an action at this present moment. Now is not the time to exercise this initiative. You need to think about the community first, prior to proposing any such improvement to Illinois highways.
07/14/26		60643			X	X	X				Oppose	
07/14/26	Alejandro Urzua	60133		X	X			X			Support	And jobs created for next generations
07/14/26	JOHN DORAN	60452	X			X	X				Neutral	Tolls are already out of control. This is a huge tax on people just trying to commute to their jobs every day.
07/14/26	Jackie Radwan	60901	X				X			police presence to stop speeding vehicles.	Oppose	I am opposed to any type of rate increase. Use the money you already have and the money saved on doing away with human toll money takers to fix our roads.
07/14/26	Ramon Vega Galvan	60804			X	X	X				Neutral	
07/14/26	Eric Benson	60133	X		X				X		Support	
07/14/26	Ivan Aguero	60629	X		X		X				Support	
07/14/26	Reyes Marin	60645	X		X		X				Neutral	
07/14/26	Letitia Patmon	60620	X	X			X				Support	
07/14/26	T A Rodriguez	60432	X				X		X		Oppose	Recently, I drove from Joliet to a hospital in Elk Grove Village every day for 6 weeks.The cost was $6 every day. Fortunately, I could afford it. I can't imagine other residents affording this cost. I remember a law a few years ago providing money for road services. More accountability and transparency is needed before another increase is approved, especially at the amount proposed. Thank you.
07/14/26	Chris	60020	X		X		X				Oppose	How about making wiser investments with the money that's taken in everyday, then rooting out fraud and waste. Every time something needs improving the solution is to raise rates instead of fixing your broken ways of managing our money.
07/14/26	Logan Kraber	60560	X		X	X					Support	
07/14/26	Mary Triplett	60641	X			X	X				Oppose	Waste of money. This multi billion dollar project is not needed.
07/14/26	Tim Kallas	60416	X	X		X					Support	We must continue to improve our infrastructure to maintain the needs of now and for the future
07/14/26	Francisco Nunez	60164	X		X		X				Support	We need more work for our union members
07/14/26	Juan Pena	60031	X		X		X				Support	I feel this is a good idea because it opens more opportunities for people in the construction industry.and puts food on the table for many in Illinois
07/14/26	Paul Price	60130	X		X	X					Support	
07/14/26	Thomas Brown	60447	X		X	X					Support	
07/14/26	JJ	60026	X		X		X				Oppose	You people are thieves!! We have the worst roads and its not for lack of revenue. Use the current income more wisely! An absolute abomination and dereliction of representation.
07/14/26	Omar Segura	60804		X				X	X		Neutral	
07/14/26	Dale Collman	60112	X		X				X		Support	
07/14/26	Lemont Jackson	60621			X		X		X		Support	
07/14/26	Javier Garcia	60433	X		X		X				Neutral	It is natural to understand that the number of people are outgrowing the land meaning more drivers on the road... eventually we would have to expand making roads wider. I am all for it if it means safety and space to drive amongst others.
07/14/26	Bob	60143	X		X		X				Oppose	The cost of everything nowadays is ridiculous and this to me seems like a money grab. Especially when you tie it to inflation Most if not all incomes aren't tied to inflation but it seems like all government entities in Illinois are doing that.
07/14/26	Wilson Ovalle	60106	X	X	X						Neutral	
07/14/26	Amy Masini	60016	X			X	X				Oppose	
07/14/26	James Cook	60423	X	X	X						Support	
07/14/26	Tommie Lott	60649	X				X		X		Neutral	
07/14/26	Ricardo Esparza	60402	X		X		X				Support	

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/14/26	Kasira Potts	60901	X		X		X				Neutral	
07/14/26	Matthew Fisher	60118	X		X		X				Support	
07/14/26	Gilberto Magana	60609	X		X	X					Support	
07/14/26	Mark Anderson	60560	X		X	X					Support	Let’s keep the tollways great!
07/14/26	Mark Krueger	60041	X	X					X		Support	It needs to be better
07/14/26	James Powers	60638	X		X		X				Support	
07/14/26	Steve Lazzari	28673			X	X	X				Oppose	
07/14/26	Will Bartos	60174			X	X	X				Oppose	Although I am not 100% opposed, .45 cents across the board seems way too high. In an already struggling economy, this will only make it more difficult for us financially. Commercial vehicles are mainly the ones that cause damage with their weight and congestion they create.
07/14/26	Daniel Levin	60015	X				X	X			Support	The goals of this program should NOT be job creation, preferential hiring or contracting practices, featherbedding, or any other priority that isn't one of the factors listed above.
07/14/26	Michael Houston	60097	X	X	X						Neutral	
07/14/26	Aimee Cousins	60136	X		X		X				Oppose	Illinois continues to get a bad rap for charging for every single thing; taxes increasing, tolls increasing … super expensive to live in IL and the roads are congested and always under construction. I don't think raising prices is going to improve anything as you've tried that in the past.
07/14/26	Juan Lopez	60002	X		X				X		Support	Definitely roads need attention..
07/14/26	Treasure Allen	60629		X	X	X					Neutral	
07/14/26	Scott Crawford	60115	X		X	X					Neutral	
07/14/26	Brock Marshall	60441	X		X	X					Support	
07/14/26	Aram Aliev	60156	X		X		X				Oppose	We already get taxed and charged for so much in Illinois I take 3-4 tolls to get to my school in Chicago in one way but from the suburbs this would increase the charge to wayy more please don’t do it
07/14/26	Bill Gellert	60548			X	X	X				Oppose	The cost of our basic necessities has gotten so high that we can hardly make ends meet now. We are on Social Security and the yearly increase does not even come close to the rising cost of living and now you want to raise tolls.
07/14/26	Jose Angulo	60652			X		X		X		Support	
07/14/26	Cirilo Garcia	60638	X		X	X					Neutral	High-speed trains are needed.
07/14/26	Mario Godfrey	60608	X	X					X		Support	
07/14/26	Miguel Cedillo	60120	X		X		X				Neutral	
07/14/26	oziel vela	60629	X		X				X		Support	
07/14/26	Lee Rud	60640	X		X	X					Support	
07/14/26	S Davis	46404	X		X		X				Oppose	Increasing drivers costs to use a tollway that wasn’t meant to charge drivers long term in the first place is ridiculous. While we pay more - the conditions are still poor and the eagerness to get it done swiftly is non existent when you’ve already financially benefited.
07/14/26	Donnie Keys	60656	X		X		X				Support	
07/14/26	Bruce Monaco	60707	X	X				X			Support	The tollway system needs to be improved.
07/14/26	Muamet Isovski	60634	X		X	X					Support	
07/14/26	Merced Lopez	60629			X		X		X		Support	.
07/14/26	Jose Floriano	60473	X		X		X				Support	
07/14/26	JOSEPH WALKER	60401	X		X	X					Support	
07/14/26	John Ide	60610			X	X	X				Oppose	45 cent increase per toll seems too high and arbitrary. I would not support such an excessive increase. Perhaps half of that increase I could support.
07/14/26	Santiago San Roman	60073	X		X		X				Neutral	
07/14/26	Ryan	60140	X		X		X				Oppose	We are already taxed to death by this corrupt state. Automatic toll rate increases every two years based on inflation is just another way to take our money.
07/14/26	Billie Cannady	60657	X	X				X			Support	I'm Really Excited About The Project For Illinois Tollway! I'm In 100% Support Of Our Union!
07/14/26	Luis Madrigal	60469	X		X	X					Neutral	

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/14/26	Marcos Hernandez	60607		X	X	X					Neutral	
07/14/26	Tahari Wall	60645		X	X	X					Neutral	
07/14/26	Darius Williams	60649	X		X		X				Neutral	
07/14/26		60056	X				X			progressive taxing	Oppose	This is an unfair burden that will primarily affect low-income and working class citizens at the expense of the rich. Perhaps we could tax billionaires, including our fat cat, tax-dodging "laws are for thee, not for me" governor and his friends to pay for the needed maintenance.
07/14/26	Miguel Arellano Jr	60031	X				X		X		Support	The repairs that are done to our tollways help support my family with all the union work that is done on a yearly basis.
07/14/26	Shawn Money	60140	X			X	X				Oppose	A budget increase may not be necessary if funds weren't diverted to regional transit authorities.
07/14/26	Thomas W Hacker	60467	X		X		X				Oppose	Being old enough to remember that the initial implementation of tolls was supposed to be "temporary", I oppose any increase, especially in a State when resident-imposed taxes are near the highest in the nation, having very little to show for it. Proper management and utilization of current funds and revenue sources should be more than sufficient to maintain the roadway.
07/14/26	Rodolfo Salas	60085	X		X		X				Neutral	
07/14/26	Christopher Juchcinski	60452	X			X	X				Oppose	I'd like to see exactly where our money's been going for years...ridiculous!
07/14/26	Marthesha James	60644	X		X				X		Support	
07/14/26	Raul Mentado	60609	X		X				X		Support	
07/14/26	Shawn Fitzgerald	60030	X		X	X					Support	It would really be helpful to have the tollway 355 extended into Lake County
07/14/26		60048	X	X		X					Oppose	Every time I hear an Illinois politician say they are supporting the working families or middle class of this state, I laugh. Why? Because of things like this!! Tax us more into oblivion please. Tell our wonderful leaders to fix our state and stop their reckless spending on everything else. It's enough we pay the highest taxes ever known for gas right now.....this is absolutely unreal Illinois now wants to force us into more to use roadways...that are free in every surrounding state. Unbelievable.
07/14/26	concerned citizens	60090	X		X		X				Oppose	the government already collects exorbitant road taxes and gasoline taxes that are supposed to be used for maintaining roads. What is that collection being spent on, considering that by its own admission llinois tollways says the roads it offers are in very bad shape. How much are illinoisians to be nickeled and dimed?
07/14/26	Martin Vanegas	60706	X		X		X				Support	
07/14/26		60019	X		X	X					Oppose	Nothing says "mismanagement of funds" like another increase in tolls. Keep drying to bleed people dry and fund ridiculous agendas and watch more people leave.
07/14/26	Michael Bieganski	60453	X			X			X		Oppose	With high gas prices and fuel taxes, driving is becoming prohibitively expensive. A 45¢/toll increase seems much too aggressive. Maybe halve that at a minimum? Thanks for the opportunity to opine.
07/14/26	Maria Tibu	60025	X		X		X				Oppose	
07/14/26	Justin Shouse	60463	X		X		X				Support	
07/14/26	Bobby Walton	60643	X	X		X					Support	
07/14/26	Jennifer A Slotowski	53139	X			X	X				Oppose	When does it end?The tollway program was supposed to be temporary to help maintain them.They aren't being maintained well, and you're ten years behind on infrastructure updates to them. Always putting the cost of it on the hard-working taxpayers When taxes toll rates are all some of the highest in the country
07/14/26	Steven Gray	60140	X	X	X						Neutral	
07/14/26	Stephen Gonzalez	60651	X				X	X			Support	I trust in our union values
07/14/26	Parrish Cole	46410	X		X		X				Support	As long ascthe rates stay fare I support this
07/14/26	Kyle kraber	60552	X		X				X		Support	
07/14/26	Kathryn Phillips	60644	X	X					X		Neutral

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/14/26	Jorge Jorge Rodriguez	60443		X	X		X				Neutral	
07/14/26	Quinton J Brooks	60608				X	X	X			Oppose	
07/14/26	Darell Banks	60473	X		X		X				Neutral	I am for union workers, having work to keep them employed to take care of their families
07/14/26	JEREMY BER	60193			X		X	X			Oppose	
07/14/26	Jorge Medina	60085	X	X	X						Support	
07/14/26	Victor Aceves Espadas	60073		X	X		X				Support	
07/14/26	Michael Gonzalez	60459	X		X		X				Support	
07/14/26	JAMES C CUPEC	60060-1259	X		X				X		Support	If the toll increase is meant to fund the investment, it should not increase every year by the CPI. The investment is a one time, fixed cost.
07/14/26	Reggie Mcduffy	60064	X		X				X		Neutral	
07/14/26	Matthew Gonzalez	60441	X		X	X					Support	
07/14/26	Doug Hamelberg	60126	X			X	X				Oppose	I support a moderate increase, but concerned with the plan to adjust rates every other year going forward. The state of Illinois has proven time and time again they are poor managers of money and the constant effort to find more tax revenue is becoming increasingly burdensome and clearly driving people to leave the state which is only adding to the cycle.
07/14/26	Ryan	61065	X				X			Less tolls	Oppose	Illinois and the corrupt government steals enough of our hard earned money through these tolls and other taxes while having nothing to show for it. Any type of work takes forever and the road conditions never seem to improve. A better use of the time would be a proper budget and focus on smart spending over taxing IL residents into poverty
07/14/26	Elvis Balderas	60411	X		X				X		Support	If they looking for any more workers I'm in
07/14/26	John Retondo	60101	X	X				X			Support	I am in favor of the driving connection capital program ! And I will not vote for anyone that is against Driving Connections capital program!!! It is extremely important for commerce the economy and public services and public safety and needs to be well funded!!! Respectively John Retondo
07/14/26	Preston Reed	60514			X	X	X				Oppose	This toll increase will be super harmful to the many drivers who use the tollway every day. I have to use it many times a week to drive to Indiana to take care of my grandparents and this toll increase will hurt my budget. The extra 45 cents will add up really fast. In addition the tollway already makes insane amounts of money from larger vehicles and trucks every day. There is still terrible traffic on 294/80. Not sure where my money is going, that's the worst bottleneck in the state. The tollway doesn't need more money than it is making every day.
07/14/26	Richard Oehme	60655	X		X		X				Support	
07/14/26	Jazmine Johnson	60409	X		X		X				Neutral	
07/14/26	Rigoberto Heredia	60804	X		X	X					Neutral	
07/14/26	Adrian Vazquez	60085	X		X				X		Support	
07/14/26	Meliton Diaz	60641	X	X	X						Neutral	
07/14/26	James Hayden	60655	X		X				X		Support	If you are paying a Toll , then roads need to be properly maintained and flowing to its intended usage. If not then they need to rebuild them to current usages and demand of a larger population. Rest stops are needed as well and at times additional entry and exit points.
07/14/26	Isaac Avila	60411	X	X	X						Support	
07/14/26	Yahir Cuahuizo	60636	X			X			X		Support	

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/14/26	Wayne Bennett	60051	X				X		X		Oppose	Seldom do I use the tollway, however, I already pay enough in “fees” & tolls. I travel a half mile to and from work. The tone of the governor in his comment about this proposal was not reassuring. He said “many of the people that use the tollway are traveling through Illinois”. He failed to mention that many more are commuters to and from work that are residents of the state. 1. How many “travelers” use the tollway on average each year & how much money do “travelers” generate? 2. How many residence of the state of Illinois(which ranks in the top 10 most taxed residence in the U.S.) use the tollway system each year? Please stop being vague. If you want my support, be honest about who carries the biggest financial burden along with who is getting paid. This broad brush of “creating jobs” doesn’t convince me in the least that this is more than a money grab that burdens the tax payers of this state more than we already are.
07/14/26	Thomas D	60546	X	X	X						Support	
07/14/26	Colleen OBrien	60106	X				X			Stop the Formula 1 racing on the existing system.	Oppose	A 45 cent increase is not affordable. Maybe 5 or 10 cents. You will force me off the tollway onto side streets. This will make traffic worse in the suburbs.
07/14/26	Timothy Jackson	60628	X				X		X		Support	N/A
07/14/26	Walter Wiszowaty	60184	X		X	X					Oppose	Roads need maintenance, but raising tolls by $.45 is a big jump. Illinois Tollway could have planned better by raising tolls by a few pennies each year after the tollway was in use a few years!!! Don't you think that would have been planning!!!! Also you sure didn't make it easy to find where to make a comment.
07/14/26	Victor Rodriguez	60629	X	X	X						Support	
07/14/26	Freddy Morales	60609	X	X			X				Support	
07/14/26	Robert Weigel	61065	X				X		X		Support	I fully support meaningful and consistent work for union workers.
07/14/26	Dan Dycus	60097	X			X	X				Oppose	
07/14/26	Philip Atkinson	60448			X	X	X				Neutral	
07/14/26	Brian Bahena	60639	X		X				X		Support	
07/14/26	Kenneth Earley	60430	X			X		X			Support	
07/14/26	K Kelly	60004	X		X		X				Oppose	IL Toll needs to do a better job managing a budget they already collect from taxpayers.
07/14/26	Richard Kuczkowski	60439	X	X		X					Support	By building and maintaining these highway and infrastructure we are able to create good job opportunites support the movement of goods and services and shorten overall travel times both now and in the future. This type of investment pays back 10 fold to residents and non residents who travel these roadways. This type of investment will also support commercial and industrial commerce and protect property and its value. Illinois drivers depend on good roads and infrastructure and this type of project deserves all the support and funding as we should always work to make things better than how we found them.
07/14/26	Erika	60423			X	X	X				Oppose	Tolls are expensive enough as it is. 294 has been under atrocious construction for the god knows how long at this point. Enough with the price hikes!
07/14/26	Orestes Garcia	60143	X				X		X		Oppose	Our tollway fees are one of the highest in the entire country. This has to stop these fees get that continue to go up. It is extremely unfair and not right.
07/14/26	Robert G Nowak	60634			X		X			Contractors and Tollway liable for debris they leave on the roadway.	Oppose	They were promised to be free in 1973, after the initial bonds used to construct the original 187-mile system were paid off. Instead, the state kept the tolls to fund expansions and maintenance, and drivers have paid nearly $27 billion in tolls since that deadline. The amount of taxes and tolls collected in Illinois is ridiculous. The Governor chased all the big companies out of Illinois, so now he wants tolls increased to keep tollway jobs at the cost of hard working commuters. I'm setting my navigation to avoid tolls. The tollway didn't even take liability for blowing out two of my tires and damaging a rim due to construction debris. The proposed hike is all about politics with no real benefits to tollway users. The toll collectors are gone, but that budget keeps going into the billions.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/14/26	Robert Fitzgerald	60056	X			X	X				Oppose	With the turmoil in the middle east impacting the global economy, gas prices rising, inflation eroding buying power, perhaps now is not the time for a significant toll increase. I would suggest a gradual implementation of increased tolls to match a prioritization of capital projects. Obviously address the 'must do' projects first and the 'would be nice to do' projects last if at all. Match the funding from tolls and other sources accordingly.
07/14/26	Jose Ramos	60538	X		X		X				Neutral	
07/14/26	Alexander Milovancevic	60016	X					X	X		Support	I support the Illinois Tollway's proposed Driving Connections capital program and the associated toll increase because it represents a long-term investment in Illinois' infrastructure, economy, and workforce. As someone who works in the construction and facilities management field, I understand the importance of maintaining and improving transportation infrastructure before small problems become much larger and more expensive. Investing in roads, bridges, and transportation systems improves safety, reduces congestion, and benefits businesses, commuters, and emergency services throughout the region. This program will also provide years of stable, high-quality union employment, allowing skilled tradespeople to continue building and maintaining infrastructure to the highest standards while supporting their families and strengthening local communities. While no one enjoys paying higher tolls, I believe that when funds are invested responsibly into critical infrastructure improvements and workforce development, the long-term benefits to the state, its economy, and future generations make this a worthwhile investment.
07/14/26	Jesus Torres	60623	X		X	X					Support	
07/14/26	Jerome Phillips	60193	X	X			X				Oppose	45 cents in an exorbitant amount. I also believe some of this money is not just for the toll roads...it's also going to Metra. That's not what tolls should be used for...
07/14/26	Jo Jean Morris	60516				X	X			Enforcement	Oppose	I avoid the tollways whenever possible. Too much traffic, no visible presence for apprehending speeders and reckless driving. Way too much construction and outrageous costs. The original intent was for these tolls to pay off the cost. We need a break from fees and construction.
07/14/26	James Thurman	60181	X		X		X				Neutral	
07/14/26	Ella House	60651	X		X		X				Oppose	I am so sick and tired of everyone trying to get rich off everyday working people. Every day I see someone increasing their prices which directly effect poor and working class. They have and are taxing everything we need to survive, thrive and make a living for ourselves and family. Instead of increasing the tolls which is easy for them to do they should find other options. I am sick and tired of being sick and tired of this crap
07/14/26	Christian Solsol	60140	X				X		X		Oppose	I pass should provide a fixed discounted rate for daily commuters that use the same route to and from work.
07/14/26	Santiago Murillo	60120	X		X		X				Neutral	
07/14/26	Elvira M Molnar	60002			X	X	X				Oppose	I am very much opposed to an increase in the fees. These tolls were supposed to be paid off a LONG time ago, and the constant rate increases are getting rediculous. Find the money elsewhere. Illinois is overtaxed, as it is. I'm sure the funds that are misappropriated can be used for this use.
07/14/26	Michael Durkowski	60126	X		X		X				Oppose	1) who would support rate increases? 2) stop using inferior cement. They make a far more durable product that lasts a lot longer than products you use. stop using old antiquated technology. The roads are damaged day one of opening. Yet you keep doing same over and over. 3) the toll road is the Illinois version of taxing the residents and drivers. Learn to budget!
07/14/26		61108	X			X	X				Oppose	I do not support any increase in tolls.
07/14/26	Traci Stover	60416		X	X			X			Neutral	
07/14/26	John Becker	60101	X			X	X				Oppose	No toll increase! Toll roads were supposed to be temporary, yet it's turned into one of the biggest lies by any politician ever. I understand we'll probably never see the end of toll roads in Illinois, but we don't need an increase as the Tollway operating costs are well beyond covered by the current toll structure. I further oppose any rules that would automatically raise tolls every two or three years based on any factor including inflation.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/14/26	Austin	60193			X		X			Avoiding regressive tax, double taxation, and broken promises.	Oppose	I strongly oppose the Illinois Tollway's latest toll hike proposal. This increase doubles down on decades of broken promises, dating back to the original "Toll-Free in '73" pledge that politicians quietly erased to fund a permanent bureaucracy. Illinois drivers are already facing a severe cost of living crunch, and this hike acts as a deeply regressive tax that disproportionally hurts low income commuters who have no choice but to use these roads. Forcing motorists to pay soaring toll fees on top of the state's already high gas taxes is blatant double taxation. We are being forced to pay twice for the exact same transportation network. The Toll Highway Authority needs to live within its means, honor its historical commitments, and stop treating Illinois drivers like a bottomless piggy bank. I will commit to taking tollways significantly less and will persuade all of those within my network to do the same if this goes through.
07/14/26	Scott Thompson	60649	X		X	X					Support	I hate to see the increase in price of tolls, but I would imagine that that helps pay for the work.
07/14/26	Mark Brachmanski	60441			X	X	X				Oppose	These tolls are already exorbitant and increase every year on I-355. No need to add insult to injury we pay more than enough! With our property taxes there should be no tolls! Way to keep the Illinois exodus going strong
07/14/26	Ryan Jackson	60441	X		X	X					Neutral	
07/14/26	Christian Solsol	60140	X				X		X		Oppose	Ipass users should recieve a discounted fixed rate for daily commute to and from work especially the ones that use the same route every day. Thank you
07/14/26	Angelo Romano	60447	X		X		X				Support	I strongly support the driving connection capital program and the toll rate adjustment. This funding is critical to repairing our roads, keeping Bridges safe and creating good paying Union jobs for LIUNA members that support working families across Illinois.
07/14/26	Joanie Lulich	53002-9747				X	X		X		Oppose	It doesn't even pay for me to have a Ipass anymore. I only use the tollway to get to Kentucky.
07/14/26		60409	X		X		X				Oppose	Increase should be lower
07/14/26	Brian McNally	60018			X		X		X		Support	Positive for the reasoning of creating jobs in a hard market currently, but the toll increase itself will create hardship for some family's.
07/14/26	Nate	60656	X		X		X				Oppose	Enough toll increases. Inflation is killing me and people I know.
07/14/26	Matthew Leuze	60135	X		X	X					Support	
07/14/26	Krisane fulayter	60435	X		X	X					Support	Raising price of anything will hurt millions but anything that will help fellow union members support their families and have jobsite to go to for long time and a paycheck to collect is something I will support all day long
07/14/26	Marco Marco Herrera	60190	X		X		X				Neutral	
07/14/26	Heliodoro Renteria	60546	X		X		X				Support	
07/14/26	TK	60035	X				X			Being able to completely ignore speed limits	Oppose	You've operated at a significant surplus every single year since the inception of the Illinois tollway. That's 70 years of consistent surplus. We already know you can't spend the money fast enough or build fast enough. In reality this is just going to be 15 years of traffic that we will pay to sit in. To that effect, whoever decided that following the CPI is a good way to go about it needs a reality check. Reduce your overhead and revise salaries of your employees. Find the money within instead of our pockets.
07/14/26	Yeltsin Rivera Mendez	60085	X	X	X						Support	
07/14/26	Anthony Panczak	60641	X		X	X					Support	
07/14/26	UBALDO ESPINOZA	60544	X		X				X		Support	
07/14/26	Adam Klos	60056			X	X	X				Oppose	You have no shame. Where did you get that 45 percent figure? Wages are rising roughly in line with inflation. You've lost your minds.
07/14/26	Donald Wolak	60948	X		X	X					Neutral	
07/14/26	Charles R Hain	60193				X	X			Sticking to promises to phase out tolls.	Oppose	Just because you can doesn't mean you should.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/14/26	Ramon Salamanca	60585	X			X	X				Support	This type of projects are good for the state and for the working community along with the travelers that use the Illinois tollway.
07/14/26	Michelle Whitton	60620	X		X		X				Oppose	Citizens shouldn't pay for increases. Only those that aren't a citizen should pay an increase
07/14/26		60516	X			X	X				Oppose	Tolls have continued to increase and it is not affordable to use the tollways on some occasions. The roads in WI are great and have no tolls, how come IL has to continually increase everything and roads haven't improved.
07/14/26		61115	X			X	X				Oppose	The state of IL continues to gash its residents by suffocating us further with more taxes, tolls, and fees just to live here. It's unbelievable how this state treats its citizens like a personal piggy bank to take more and more from. We give so much already in taxes, tolls, and fees and you cannot find the money in your already inflated budget? Sounds like a budget and expense problem more than an income problem. Inflation already has families struggling and the state responds by saying give me more. Great job, Illinois.....
07/14/26	Dwayne Matthiesen	60115					X	X	X		Oppose	I am very frustrated by the thought of a 0.30+ increase. I am a disabled veteran and father from Dekalb. I frequently have to drive to Chicago (and destinations between) not only for my own appointments but also my children's. For example, I have been driving my daughter to an activity in the city over the summer 6 days a week, at approximately 65miles away, 90-120 minutes each way WITH I-Pass. Assuming I don't have to make any stops, that is $2.55 in tolls one way, $5.10 per day round trip, 6 days a week is $30.60, and $122.40 a month. I also have to pay for gas 2.5x a week, plus parking ($40-$50 on average if I can't find free parking). If I drive home that is another 90-120 minutes twice a day plus another $122.40 a month ($244.8). That is a significant amount of money for our family already. On top of that gas prices (and taxes on them) have increased, car insurance (and home owners) has also shot up. Lastly, we already went through a massive toll hike in 2012. Perhaps paying an additional 0.30 per toll does not seem like a big deal to people with money and a vested interest, but it is a big deal for people like my family that have seen their grocery bills and utilities climb rapidly. During a time when many people have been squeezed hard the last 5 years with price hikes, this is a very poorly timed initiative. This may create jobs for many, but it is doing so on the backs of people already just trying to survive. Also, if you want to improve traffic during commuting. Have our troopers pull people over violating minimum speed requirements who sit on cruise control at 35mph so they can scroll through videos on their phones (including the truckers and box trucks who are doing it IN THE LEFT LANES). Meanwhile there are 20-50 car lengths (minimum) between them and the next person. It only takes a small percentage of drivers doing that every day to cause havoc on the entire commute. It's not a problem of numbers, it is a change in driving culture. As much as I am against people driving on the shoulder, if troopers concentrated on the "cruise control at 35mph" drivers a lot of issues would be resolved. Thanks for listening.
07/14/26	Joey Cullen	60101	X				X			.	Oppose	The cost of tolls in Illinois are already high. The State needs to find a way to share taxes/income its getting from fuel, license plates, fines, etc. to support the upkeep of the roadways in Illinois, including the tollroads. There does not need to be a separate "taxing" body in Illinois. I do not support an increase of this magnitude and would suggest better planning and budgeting of the money the Illinois Tollway is already collecting.
07/14/26	Acervantes	60615					X		X	Stop raising tolls	Oppose	We pay enough money already
07/14/26	Duane Eckard	61111	X			X	X				Oppose	Our governor will just transfer the money into the general fund, like he did with the gas tax to pretend he has balanced the budget.
07/14/26	Rick Balint	60139	X	X		X					Neutral	Extend I-355 Westbound to connect to the Indiana I-65 to avoid the congestion between Chicago Illinois and Gary Indiana.
07/14/26	Rawly Lantz	60558	X			X	X				Oppose	You've got to be kidding me with more increased costs/taxes. When and where does it ever stop?

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/14/26	Robert Elfering	60046	X		X		X				Oppose	I avoid the tollway as much as possible. The toll authority is rife with inefficiency and corruption.
07/14/26	Freddy	60050	X				X			drive time vs cost when driving	Oppose	I strongly oppose the proposed toll increase. Illinois drivers already contribute significantly to transportation funding through state and federal income taxes, some of the highest fuel taxes in the nation, vehicle registration fees, license plate renewal fees, and other taxes and fees associated with owning and operating a vehicle. Raising tolls yet again places another financial burden on hardworking families who are already dealing with the rising cost of housing, groceries, insurance, and everyday necessities. Tolls were originally intended to help fund and maintain the tollway system, but drivers have been paying them for decades while continuing to pay increasing taxes and fees elsewhere. Before asking motorists to pay even more, the Tollway should demonstrate that existing revenues are being used as efficiently as possible and identify cost-saving measures. For many commuters, using the tollway is not a luxury—it is a necessity to get to work, school, and medical appointments. Increasing tolls is effectively another tax on working families and small businesses, many of whom have no practical alternative route. I urge the Tollway Board to reject this proposed increase and focus instead on responsible budgeting, greater transparency, and better stewardship of the funds that Illinois drivers already provide.
07/14/26	Christine Canchola-Guzman	60172				X	X			Trusting IL to manage our money properly, wisely, and efficiently .	Oppose	The IL toll was initially a temporary agreement years ago. I was told as a child that it was soon to be paid for and no longer would require a fee. Fast forward 40 yrs, and IL Toll not only didn't stay true to its word, but now wants to increase the toll fee. After years of wild news and corruption of the IL tollway, I find it very hard to digest the increase proposal-- the increased toll of $0.45. I already think the toll is overpriced. People like me, will instead choose to not take the toll. I already avoid it on most days to save money, and will only pay to take it on days when I leave late or have a longer distance to travel. It's a shame that IL cannot work within an affordable budget. It's a shame that the governor proposed to turn IL into a trucking hub/data center nightmare and now wants the tollways to be upgraded for these warehouses and hub center traffic to be paid for by those of us who didn't want those hubs to destroy this land in the first place. I understand the jobs that come from trucking, but the trucks themselves cause increased damage to roads and higher risk to other drivers on the same roads. It is oversight that has led to this, and I'm sorry, but I will not support errors in judgement and agree to reward those that make such judgements. We should not be going broke and having to pay more in tolls, which will trickle down and be another added cost when we buy products. The tolls add up and we will be the ones to not only pay for the toll for our own cars, but also for the trucks that need to pay to cross into IL. Proposing this as if it's a philanthropic donation to a good cause, is disingenuous. I opposed the destruction of this state, and I oppose the gross increase of IL tolls. NO, I do NOT agree to the terms.
07/14/26	Ken Dunlap	48312	X		X		X				Oppose	You are being disingenuous saying in your notice that you are "proposing to adjust rates in accordance with the Consumer Price Index every other year to provide cost predictability for customers." That is an enormous LIE. It reads like a child begging for money for candy. You just eliminated 90% of toll taker jobs and probably gave management big raises. MANAGE YOUR FUNDS BETTER!!
07/14/26	James Kedrow	53158	X		X		X				Neutral	I believe most commercial vehicles, especially heavy load semi's, do not pay their fair share of tolls compared to passenger cars and light trucks. I have read articles that semi's cause about a hundred times more wear and damage to the roads.
07/14/26	ANDREW THOMAS BERLIN	60022	X		X	X					Neutral	I see you're raising more money by increasing the cost of the tolls. However, I do NOT see where in the State budget are you reducing expenses to help pay for this project? There is a lot of waste and unnecessary spending in Illinois government programs. Where will that waste by cut to help fund this highway initiative?

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/14/26	Brian Sievers	60418	X				X			Finish the project you're already working on on the tollway	Oppose	We do not need another tollway road built just finished the project you're working on and they'll be less congestion
07/14/26	Rich Kinder	53511	X	X	X						Support	You folks do a great job and we thank you.
07/14/26	Lucy Kloss	60031	X				X		X		Neutral	As seniors, my husband and I can't afford getting increases from every direction. I'm also very concerned about the increase and hardship on the trucking industry which will trickle down for higher prices on everything for consumers.
07/14/26		60586			X	X	X				Oppose	With the increase my cost to go to work will now double and I get to pay even more to sit in traffic jams because the tollways are constantly under constuction. Wonderful.
07/14/26	arlo sloan	61274			X		X	X			Oppose	rate increase is totally unnecessary!!!
07/14/26	Sheila Fong	60540	X				X		X		Oppose	Tolls for roads were implemented to initially build the roads, however, once built, the toll purpose has been abused for other uses. Taxpayer dollars should be used for the maintenance and servicing of the existing roads. Road tolls have become like the USPS postage; abused and no longer affordable.
07/14/26	Cynthia Castillo	60616	X		X		X				Oppose	
07/14/26	ray brynjelsen	60004	X			X	X				Oppose	Between gasoline taxes and toll road fees, there is more than enough money to maintain roads. Before raising rates explain how current finances are inadequate
07/14/26	Foster	60430	X			X	X				Oppose	It is already outrageous, and the roads are not maintained needo quit taking people's money
07/14/26	Joe Z	60516			X		X			No tolls, like promised	Oppose	Tolls will be too costly and should not support the CTA. Better money management should be emplamented to curb expenses.
07/14/26	Kevin Larkin	60142			X	X	X				Oppose	Too big of increase. What does current tolls fund? Adjust requested increase, make more reasonable.
07/14/26	Kisha Hall	60560	X		X		X				Oppose	
07/14/26	Yvette Hernandez	60402	X		X		X				Neutral	
07/14/26	Gary Wayne Eisenhower	61032	X		X		X				Oppose	Screw Chicago! Stop charging to use roads that been paid for 100 times over! Where does all the legalized pot tax money go you collect! Maybe get that fat bastard Prickster to learn how to run a State without paying for every Illegal Alien and actually work for us!
07/14/26	Donald Wilmot	60451	X		X		X				Oppose	Residents who travel frequently on the tollway system and who live on fixed income, will have a problem on any increase to cost of living!
07/14/26	William H Anderson	60511	X				X			All money goes to roads Only and not Public transportation in Chicago.	Oppose	How much money can this state take from the citizens of Illinois before enough is enough? Your tolls keep flowing to Chicago and Cook county while the rest of the state suffers. This is why all your upper and middle class citizens are leaving. You are going to be left alone with all your illegal aliens and welfare recipients.
07/14/26	Thomas J. Erato	53186	X		X					Safety patrol to control idiot drivers who either drive 20mph under the speed limit or 30mph over the speed limit	Oppose	I've been driving these roads for 45 years. Never once has there been a time when there wasn't construction going on. Never once has there been a time when the roads were in good repair. Never once has there been a time when the tollway wasn't trying to figure out how to screw me out of more money. The I-Pass was developed, with it's ridiculous "replenish" rates to figure out how to steal more money from me. You shouldn't have access to my money and make interest off of it. You only need to take the tolls when I use the roads. Actually, that's not even right. YOU GET FEDERAL MONEY TO MAINTAIN THE FEDERAL HIGHWAYS!!! TAKING TOLLS IS ILLEGAL AND YOU SHOULD BE PROSECUTED FOR STEALING MORE MONEY FROM THE PUBLIC!!!! ENOUGH IS ENOUGH!!!!
07/14/26	Sandra McTernan	61104				X	X	X			Oppose	Has usage gone down over the years or has usage increased? Usage equals money generated. Show me the volume of increase or decrease of usage and the revenue generated
07/14/26	Rich Hoster	60118	X				X			reasonable increases in toll rates	Oppose	The percentage increase is way out of line. This will hurt the average commuter and will not improve traffic flow in the Northwest Suburbs or any place else in the collar counties. The Jane Adams, Tristate and Reagan roads are all in good shape and traffic flows well. No additional improvements are needed and not at the costs projected.
07/14/26	Ed	60510	X		X		X				Oppose	

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/14/26	Kim	60448				X	X			No toll hike increases	Oppose	Maybe they can be raised for people who do not have an IPass but not for ones that do. I take 355 daily and it's the most expensive tollway and shouldn't see it go higher
07/14/26	James Wieser	60102	X	X		X					Support	
07/14/26	John f hough	60020	X				X			No more hikes Pritzker...toll roads were supposed to be paid for years ago and toll booths shut down but NO the typical Illinois slusyfund continues to pay for illegals and private Democrat specialty groups...this state is in disarray by the very people running it you Politicians are crooked and incompetent	Oppose	Just say no to Pritzker and his unlawful demarcates and other politicians that keep putting their hands in our pockets to pay for their slush funds and illegals.....get rid of ALL illegals and especially JB Prickster...
07/14/26	Jorge Flores	60453	X		X		X				Oppose	I am already paying a lot for roads that are constantly congested and under construction. Why is the passenger vehicle increase higher than the commercial vehicle? The everyday citizens bear the brudnt of higher costs already. At the very least the increase should be equal! What are you doing with the $1.7 billion you are already collecting annually? I recently was getting onto I-294 and on the ramp there was a massive pothole that damaged a wheel bearing and cost $600 to fix. You want more money but there isn't enough being done with the money you already have. and who pays me for my damage? Nobody! So why should we pay more!?
07/14/26	TJ	61115			X	X	X				Oppose	Simply enough we are taxed and pay enough in this state.. if this ends up passing.. I would do everything in my power to avoid the tollway.. even if it means a little longer drive time. I simply don't care. I pay the state enough money.. I will simply avoid what I can to not have to pay it anymore..
07/14/26	Michelle	60107	X			X	X				Oppose	I commute on the toll roads for work, and the roads are getting worse. However the government is not using the money properly. We bailed out CTA, why when we drive on the toll roads. Use the money for what it is for and there will not be a problem. Stop wasting our money on your poor management skills.
07/14/26	Anonymous	60631	X		X		X				Oppose	Illinois tolls are corrupt and get rid of all the tools. We already pay for the roads. 💯 oppose this increase. More corruption in Illinois.
07/14/26	Adriana Hurtado	60142	X		X			X			Oppose	
07/14/26	Kathie	60102	X		X				X		Support	I do support; however, maybe the amount/percentage and be negotiated/compromised downwards? The amount is a wee bit much during the current economic state. Thanks.
07/14/26	ANDRE JONES	60643	X						X	Disagree	Oppose	Increase is ok but connecting it to index every year no budget better
07/14/26	Conrad	60172			X		X			There should be no tolls	Oppose	There is should be no tolls at all. I completely oppose the hikes. Drivers already pay too much.
07/14/26	Luiggy Cadenas	60046	X				X			Less tollways to pay for	Oppose	Everything is so expensive in Illinois and trying to increase is going to hurt many people
07/14/26	Sri Talpallikar	60010	X		X		X				Neutral	
07/14/26	Samuel Muniz	60707	X		X		X				Oppose	Try controlling spending and providing better services within your budget. Adding increases based on costs indexes for futures years sounds like an opportunity for going over budget and corruption.
07/14/26	Darius	60015	X		X		X				Oppose	

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/14/26	Keith Nisenson	60014				X	X			Nothing additional. Do your job and manage a budget versus a pipedream.	Oppose	Increasing tolls when funneling Illinois Tollway funds to bail out failed Chicago-area transit agencies is fraud! Illinois taxpayers that fund the Illinois Tollway are being ripped off. We pay more than our fair share of tolls to support the 15-year capital program. We did not approve or sign up for Chicago bail outs. This borders on criminal. This proposed toll increase is shameful and it is more of Pritzker's and the Democrats failed policies and inability to control spending.
07/14/26	Rosalynn Ross	60632				X	X		X		Oppose	
07/14/26	Rajiv Iyangar	60172	X	X		X					Support	I strongly support this investment initiative to improve the Infrastructure in the Illinois region. Infrastructure investment = Economic Development
07/14/26	John Feldman	60552	X		X		X				Oppose	
07/14/26	Leobardo Cornejo	60639	X		X		X				Neutral	
07/14/26	Gerardo Luna	60638	X		X		X				Support	This is good labors work
07/14/26	Ron	60076	X		X	X					Oppose	I am not against a small increase. The proposed increase seems too steep. An increase of .20-.25 would be more reasonable.
07/14/26	Sarah Force	60538	X			X	X				Oppose	Illinois already has high tolls and for some drivers, the tool roads are the only or fastest option to work, activities, etc. The tolls increase what seems yearly and the roads never improve, traffic increases and so I'm not confident this increase in fees is going to be beneficial. I also believe in the new year, Illinois will raise fees again. It's already unaffordable to live in Illinois for most residents with inflation and cost of living, don't make it worse and offer empty promises.
07/14/26	James Savoree	61360	X		X				X		Support	
07/14/26	Paul Becvar	60560	X		X		X				Oppose	It's frustrating that toll costs always go up, and the "toll-free by 73" never went into effect. With all the news of corruption from Chicago and IL politicians, I can't help but feel these toll costs only go to line the crooks pockets. I worked as a civil engineer in road construction, so I know roads are expensive and need maintenance and reconstruction, but these costs seem too high.
07/14/26	Gint	60714	X		X		X				Oppose	Need to be better stewards of the funds that you do have. If the state should be contributing, then contact Pritzker to get him to adjust the budget and to fund what is important!
07/14/26	Jessica Isaacson	60554	X			X	X				Oppose	I understand the need for revenue, but tolls disproportionately effect the already marginalized. In addition, there should be no tolls past Aurora going west. Those roads are not busy enough to demand tolls.
07/14/26	Richard Moore	60620	X		X		X				Neutral	
07/14/26	Chrissy	60451	X		X	X					Oppose	My family spends a lot of money monthly on tolls. It is getting close to a point where we will consider taking the longer route rather than paying higher toll prices
07/14/26	Taveras Randee	60649	X		X		X				Neutral	
07/14/26	Debbie M	60469	X		X		X				Oppose	The only people that gain from this BS is the Clown Horses Arse useless Governor JB Pritzker & his cronies this rate hikes never help anybody I am sick of theBS lies if Ii could moved out of this POS state I would if I was an Illegal everythin would be handed to me the regular people always get screwed!
07/14/26	Franco Hurtado	60641	X		X				X		Neutral	
07/14/26	Darryl Leach	60636-3822	X		X				X		Support	
07/14/26	Jim Kwasiborski	60067-6923	X		X	X					Oppose	Start using better quality materials. Demand warranties from the people doing the work. In all my time in Illinois, I have never heard of a single issue with the work performed by the road crews. Do I believe it is because the above reproach? No, it's because they are never held accountable if they do a poor job.
07/14/26	Kevin Itson	60637	X		X		X				Support	
07/14/26	Sharon Foster	60619	X		X		X				Support	
07/14/26	Marco Gonzalez	60060		X	X	X					Support	
07/14/26	Edward Rodek	62707	X		X		X				Oppose	The proposed increase is way too much. If this increase goes through, I will make every attempt to avoid as many tolls as I can to avoid this additional expense.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/14/26	Joyce Edwards	60634			X		X	X			Neutral	Keeping the amount of toll fees affordable for consumers is most beneficial or else it will defeat the purpose of entire project.
07/14/26	William Simon	34135	X	X			X				Support	This is progress! Highway construction is needed especially in and around the Chicagoland and northern Indiana area just to keep up with demand.
07/14/26	Samuel Favela	60630	X	X	X						Support	
07/14/26	Princess Williams	60644	X		X		X				Support	
07/14/26	Nina Cutro	60438	X		X	X					Support	Illinois roads have been congested for years, even with Illinois being so populated, the highways have never been able to keep up w the never-ending climb in traffic and more cars pouring onto the highways everyday. We need bigger and better roads. Spending 3 to 4 hours a day in travel time to get to and from work takes these hours away from family. Im sick of spending more hours in traffic than I do w my children.
07/14/26	Jeffrey Otte	60123	X		X		X				Oppose	Find another way. Tax all roadways in the state and make it fair. Or take money from other programs and put it towards the roads like some of our neighbors.
07/14/26	Kevin Klein	60622					X	X		Trains and transit	Neutral	We do not need more lanes or roads, we need transit options. When we know adding lanes does not reduce traffic why do you insist on wasting taxpayer money on causing more traffic? No more lanes, no more highways.
07/14/26	Kerri Williams	60083			X		X			Discount for senior citizens	Oppose	The notification for Lake County was received after the meeting was over
07/14/26	William Wilemon	60096	X				X		X		Support	
07/14/26	Dan McCarthy	60558	X		X		X				Support	
07/14/26	Benny Gallegos	60402			X			X	X		Neutral	
07/14/26	eric kaminski	60435	X		X	X					Support	
07/14/26	Dorian Hill	60612	X	X					X		Neutral	
07/14/26	Jose Ruiz	60804	X		X		X				Neutral	
07/14/26	Julie	60103	X		X		X				Oppose	I would have to stop using the toll road. Can't afford it. I pass users should not have to pay such a high increase. Heavy vehicles are the one's destroying the roads.
07/14/26	Robert A Klock	60119					X		X	Less construction zones	Oppose	I rely on the tollway to get to work. The understanding was that the tolls would be done away with decades ago. A fortune has been spent on technology to collect tolls (yet another tax). The tolls take a major portion of my take home pay, on top of taxes on fuel, taxes on tires, taxes on the purchase of a vehicle, and additional taxes in the form of license plates. When will the citizens get a break?
07/14/26	Edgar Delgado	60417	X		X		X				Neutral	
07/14/26	Adrian Pulido	60142	X			X	X				Oppose	
07/14/26	John ko	60098					X	X	X		Oppose	Budget so tight can not handling anymore cost increase
07/14/26	Luis Moreno	60629	X		X		X				Neutral	
07/14/26	Mahmoud metwally	60453		X	X	X					Support	Keeps me working
07/14/26	Eileen Berna	60081	X			X			X		Oppose	I don’t support the toll rate increase. The 45 cents per toll for passenger vehicles should be 30 cents and the 45 percent should be for commercial vehicles. The businesses can pass on their toll costs and make the money back. The consumer or average driver cannot. Also the part about the Tollway adjusting their rates in accordance with the Consumer Price Index every two years automatically is not fair. This should be voted on each time to keep Chicago as honest as possible.
07/14/26	Jon Plautz	60452	X			X				Increased traffic enforcement	Support	I think tolls should be substantially increased for drivers that speed, as measured from tolling spot to tolling spot. I also support a modest toll increase for the general maintenance and building of new roads relating to the tollways.
07/14/26	Victor Davila	60617	X		X		X				Neutral	
07/14/26	Luis Cruz	60651		X	X		X				Support	It just makes sense in every aspect. Thank you!

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/14/26	Raymond Pearson	60614				X	X			Fiscal responsibility of our state, where lower taxes, lower fees, investment in new corporate firms moving to Illinois and Chicago because the business climate is for the people not by taxation to provide city, county and state officials with benefits the public does not receive	Oppose	Tolls are another tax, they will not make Illinois whole as evidenced by the regressive need to continue to raise the fee going forward
07/14/26	Paolo Dandrea	60523	X	X			X				Neutral	
07/14/26	Crystal Liddell	60609	X	X	X						Support	
07/14/26	Ruben Vazquez	60160	X		X	X					Support	Yo pienso que si hay beneficios vale la pena un aumento
07/14/26	Josh Opferman	60187	X		X		X				Oppose	The roads are not being fixed now. The current regime is not holding up their end of the deal. Prove to the people that you are keeping up the roads. FIX THE ROADS!!!!
07/14/26	Lance Ratcliff	60643		X	X	X					Support	I think it will bring jobs and we like to work!
07/14/26	Gregory Hanna	60133	X				X		X		Neutral	Compromise on the proposal to reduce the initial shock factor. I am willing to support toll increases that occur in a manner similar to this: In each of the first five years annually: adjust $0.45 cent tolls by 5 cents, $0.75 cent tolls by 10 cents and any $ 1.20 tolls by 20 cents. Then adjust the rates in accordance with the Consumer Price Index every year to provide cost predictability for customers.
07/14/26	Hanna	60506			X	X	X				Oppose	All this will do is make it more expensive to drive on the tollway, more traffic due to never ending 10+ year long construction projects and overall nothing but an easy way to take more money out of peoples pockets. Illinois is already over spending. This is not going to be received well. Strong opposition, and almost a dollar more for tolls? For what? To see the benefits in a couple of decades AND “raise tolls every two years depending on inflation”? Come on you guys.
07/14/26	Jose Muniz	60402	X	X	X						Support	
07/14/26	Maggie Fischer	81147	X			X	X				Oppose	My understanding is that the Illinois tollway has collected record setting tolls/revenue with increased revenue every single year. Perhaps instead of such a BIG increase in rates, you could go to flex pricing- where you pay more for rush hour. You have to know that it is increasingly hard to get anywhere in Chicagoland without using a toll road. With the increasing cost of gas, along with Illinois continually increasing the gas tax, driving is becoming more and more unaffordable. Passing along big rate increases to the truckers means that the personal consumer will be hit twice with the large proposed increase as trucking companies will be forced to pass along their increase to the consumer, who will already be paying for your huge increase. Again, record setting revenue, over $1 billion dollars a year should be plenty to maintain your roads.
07/14/26	Fred W Kanwischer	60156	X		X		X				Oppose	You idiots can't manage the $ you get now and now you want more. No way! Incompetence at every level from the top down. When will you ever learn that building a road is no different than building a runway. Make the toll roads a runway that lasts nore than a couple of years, then we'll talK about more $

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/14/26	richard norris	61571	X		X		X				Oppose	I strongly oppose the notion of raising the yearly rates according to the CPI. It's a veiled attempt. It does not promote fiscal responsibility, Its an open ended mechanism to keep bringing in more money without public oversight. It supports bad management and poor decision making. It does not lend itself for any kind of accountability for the Toll system.
07/14/26	Milan Netisingha	60643-4365		X	X				X		Neutral	
07/14/26	Shawn Klingberg	60502	X		X		X				Neutral	
07/14/26	Kristin Gallagher	60151	X	X					X		Support	
07/14/26	Jose Negrete	60101	X	X				X			Support	
07/14/26	Steven Scott	60619	X		X		X				Support	
07/14/26	Robert Bruno	60156	X		X		X				Neutral	
07/14/26	Francisco Perez	60099	X		X				X		Support	
07/14/26	Ricardo Brown	60608	X	X	X						Support	
07/14/26	Salvador Sandoval	60417	X		X				X		Support	Need work to support my 2 boys please help
07/14/26	John Doe Gaylord	60201		X	X	X					Oppose	Tolls were never meant to be used this way .... Open the books we need to see where all the money is going
07/14/26	DJ Santoro	60047	X	X		X					Support	I fully support a toll increase
07/14/26	Dave Leja	60435			X	X				higher speed limits	Oppose	If the Illinois citizens oppose the toll increase, would it matter? Citizen's opinions haven't mattered with any other increases or decisions the state chooses to make.
07/14/26	Adrian Delacerda	60162	X		X	X					Support	
07/14/26	Rolando Ramirez	60632		X	X				X		Support	Higher people from Local 225
07/14/26	Rogelio Tapia	33638	X		X		X				Support	
07/14/26		60056	X				X			None of those are why I use tollway. The only reason is because it's the only option. The tollway never has less traffic and the services are useless.	Oppose	I avoid tolllways as much as possible already. Increase means even less usage.
07/14/26	Myron Johnson	60629		X	X				X		Neutral	
07/14/26	Charles Brown	60431	X			X			X		Support	
07/14/26	Belgium Hall	46410	X		X		X				Oppose	It's terrible that you charge what you charge for skyway now your going up 45 cents more..OUTRAGEOUS
07/14/26	Earl Coleman	60620	X		X		X				Support	
07/14/26	Manuel Cortes	60609	X	X	X						Support	As long as the money stays in Illinois, I support this
07/14/26	anthony corolla	60656	X						X	Safe roads I ride a motorcycle and hit a pothole almost thrown off my motorcycle. Got two bent rims.	Neutral	Only comment I have is if it's to better the people I'm all for It. If it's to put money in the pockets of others and nothing gets accomplished why would I be for that. I like to travel on safe roads
07/14/26	Michelle Hooper	60187-3994	X			X				Law enforcement cracking down on cell phone use, speeders and people driving too slow in the left lane	Oppose	One of the highest fuel taxes and property taxes in the nation and Il wants to charge drivers MORE? Where are these outrageous fuel taxes going - what are they being used for? STOP taxing the citizens who live here every which way!
07/14/26	David Diciolla	60152	X		X	X					Neutral	We definitely need to work on our bridges and roads constantly to keep up with the times

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/14/26	M Magruder	60660	X		X		X				Oppose	Seems excessive. I am old enough remember that the tollways were supposed to be temporary!
07/14/26	Yassir Ochoa	60609	X		X	X					Neutral	
07/14/26	Rajendra Shrivastav	61764	X			X			X		Support	GO FOR IT, MAKE OUR ROADS GREAT !
07/14/26	KC	46375	X		X	X					Support	Wonderful news. Keep the Jane Addams and Tri-State two of the BEST highways in the country!!!
07/14/26	Kymberlie Stefanski	60181	X		X		X				Oppose	Future increases based upon inflation? All the costs in life go up while income (raises) are minimal. No. We need to know how much the future increases will be. It's crazy to want to raise tolls now and then again every 2 years by an unknown amount.
07/14/26	George Torres	60153			X	X	X				Support	
07/14/26	Amy Pavlik	60158	X		X				X		Support	I need a union job that could give me health benefits
07/14/26	Larry Burns	60617	X		X	X					Neutral	I'm for creating jobs and making travel more enjoyable and easier for everyone and making roads safer.
07/14/26	Tamara Bozin	60120	X				X			Highly Increased Highway Patrol - Speeding & Reckless Driving Is Out of Control	Oppose	I have lived in this state for over 60 years, watched tolls increase, the maintenance of roads decrease, downtime during new construction as well as heavy congestion during these times increase, highway patrol decreases and high speeding and reckless driving become way out of control. Having traveled throughout the U.S., I often wonder what other states are doing so that they don't have to charge tolls and pass the exorbitant amount of infrastructure for roadways, tollways, etc. on to drivers. I know that the toll system has been inherent in Illinois, but taking the easy way and just proposing an increase, given all the civil engineers, planners, researchers, etc. Illinois has on their payroll, certainly one of those professionals can delve into the systems other states have to circumvent the toll system and not continue to keep putting the monkey on the drivers' backs, so to speak. Where else does all the money go? I cannot fathom it just goes to the roads, before seeing the actual increase, I would like to see an audit conducted by and outside, impartial firm, written in laymen's terms, for the public to view, so everyone has an opportunity to see where the money is actually spent. As a voter, driver, and citizen of Illinois, I believe that is my right.
07/14/26	Tina Norman	60201	X			X	X				Neutral	If The Project Will A. Mean Jobs For Us that's a Good Thing. But, More Importantly..Lessen Congestion on the Highways. That's An Major Plus!
07/14/26	Jomy Vadakumpadam	60532	X		X		X				Oppose	IL tollway is is over polluted with number of collection points. While the cost per point is reasonable, the average commuter is being tolled way too frequently and adding the cost per point even more creates such an increased burden on the commuter. I oppose this, also the fact that future increases won't even be subject to vote is not right.
07/14/26	Brian Mahoney	60634	X		X		X				Support	
07/14/26		60103	X		X		X				Oppose	We pay enough as it is. Life is expensive and driving anywhere in Illinois is now just costing me more money. I am heavily opposed to this
07/14/26	David Galovich	60172	X				X		X		Oppose	
07/14/26	William Woods	60609	X		X				X		Support	
07/14/26	Eulises Serriteno	60550	X		X		X				Support	
07/14/26	Nate	60603			X	X	X				Oppose	Illinois already taxes us into oblivion. We don't have a funding problem in the state, we have a spending problem
07/14/26	Clemente Estrada	60044		X	X				X		Support	
07/14/26	Barbara Kling	60540-4132	X				X			Affordability	Oppose	The increase in fees is TOO much.
07/14/26	Denny Pretzer	60016	X		X			X			Support	

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/14/26	Lisa Blackman	60464	X		X	X					Oppose	Raising the tolls by 45 cents per passenger vehicle is too much at one time. With all the tax hikes in Cook County, and the high gas prices, and everything else going up constantly, people are not making enough money to afford to live in this state. I understand that things have to increase, but do it gradually over the course of a couple of years. My measly annual increases at work are not enough to cover everything else that goes up in this county/state. I'm actually making less every year.
07/14/26	Helen Leopold	60103			X		X			In times where people are struggling, you are seriously thinking about raising tolls?	Oppose	Already the highest in the nation. No wonder why people are moving out if this state.
07/14/26		60543	X		X		X				Oppose	The last thing this state need is another increase. When the tollway was originally introduced, it was supposed to phase out. Drivers are being taken advantage of, and the state thinks they can continue to do so. It's disgusting how Illinois treats its residents and they should come up with incentives to KEEP residents not push them out.
07/14/26		60631	X		X				X		Oppose	You suck.
07/14/26	Demetreus Boykin	60653	X		X		X				Neutral	More jobs for working families , better infrastructure for the transportation of the city , also more revenue for the city.
07/14/26	Jeffrey W Popp	53511	X			X	X				Oppose	While the road system needs significant improvement overall, the majority of the toll roads lead to and from Chicago. Instead of raising tolls, perhaps supplementing the highway system with increased property taxes in the greater Chicago metro area would be more beneficial. A flat 2% tax for property ownership would provide a large amount of revenue while also obtaining funds from those most likely to be able to pay it.
07/14/26	Nicole Riley	60653	X		X			X			Support	PLEASE LET ME KNOW WHEN THIS PROJECT START SO I CAN WORK AND KEEP ME POSTED WHEN JOBS COMES AVAILABLE
07/14/26	Tabatha Miles	60651	X			X	X				Support	
07/14/26	Heath McGrew	61063	X		X		X				Neutral	
07/14/26	Katie	60655			X	X				Safety	Oppose	The people of Illinois pay enough in taxes and fees. This will just be another scheme to increase tolls on the working people of Illinois with long construction that takes 20 plus years to finish while going over budget. Until you can figure out a way not to extend commute times and provide safe driving to those who actually work for a living maybe this should be rethought.
07/14/26	Paulette Knor	60803			X	X	X				Oppose	We are always paying more for everything but our paychecks never go up. Bad idea to raise the tolls. I'm sure you could figure out a way to cut some of the employees especially those making $$$.
07/14/26	Jose Gonzalez	60099		X	X		X				Neutral	
07/14/26	Margaret Hodgkins	60074				X	X			Eliminate tolls	Oppose	Illinois should be working towards eliminating tolls that were scheduled to be free in 1973.
07/14/26	Dennis	61024	X				X			Na	Oppose	Another money grab for Illinois politicians!
07/14/26	Arlona	60151	X			X	X				Oppose	Illinois needs to manage the money they have much better. They cannot continue to increase tolls and taxes. Learn how to budget and spend conservatively.
07/14/26	Richard Pieruccini	60103	X		X	X					Support	
07/14/26	Barbara Kling	60540	X				X		X		Oppose	The increased rate is too high.
07/14/26	Amanda Smith	60803			X		X			Cheaper. Stop scamming the residents	Oppose	Do not increase. Stop stealing money for dei bullshit and start putting money back where it belongs then maybe you won't need to keep scamming the residents
07/14/26	Anton Turchin	60089			X	X	X				Oppose	Illinois has the second highest gasoline excise tax in the country, plus a state sales tax on top of it. Raising tolls in addition to that is essentially one more way of robbing taxpayers who already live in one of the most expensive states. It is a shame.
07/14/26	Hector Diaz	60804	X		X				X		Support	
07/14/26	Ameil Abdallah	60487				X	X			If tolls go up it will kill the economy	Oppose	Tolls are to expensive as it is and they were meant to be temporary. Why does Illinois have tolls and other states do not. Clearly tolls are not working.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/14/26	GLEN EVANS	61727	X				X			Concentrate on the areas already constantly congested.	Oppose	I don't live in the Chicago area nor do I use the toll ways often. However, I am a hard NO on such a large increase and a big hard NO on the automatic increase idea. You've done that with the gas tax and we are now paying some of the highest gas prices in the nation. A 10% increase in tolls is reasonable. Ditch the automatic increase and repeal the auto increase on the already too high gas tax.
07/14/26	Tim Lisanby	61849	X		X	X					Neutral	
07/14/26	Tim Mackelfresh	60008	X				X			High quality road improvements without stealing taxpayer dollars.	Oppose	This state received 54 billion in federal funds for road improvements and you claim that the tollways in Illinois are exempt from these funds. You pieces of shit. Lying, lying lying! Use the federal funds instead of my pass money to build your roads
07/14/26	Mykhailo Parobok	60169	X	X	X						Oppose	As a limo driver: I used toll every single day! And can tell you: for the last 10 years: I NEVER seen any major improvements on your tolls! But traffic and tons debris on the road, potholes - I see every day almost. Even had some damages from the tool debris on my cars! Also: some tolls wasn't work properly and did not charge 50% of the price instead fuel amount with properly mounted transponder! So, I am against any toll price rising! Thank you!
07/14/26	john schafer	49015	X			X	X				Neutral	fix the roads right the first time rather than construction every year for the same locations
07/14/26	Walter Koseck	60544				X	X			Cheaper tolls	Oppose	According to the criminal governor JB Prickster he has saved illinois taxpayers money. Had 10 credit upgrades and governor the fact that did and cats can now live together in peace. He touts fake facts regarding the president and ignores his criminal actions by taking his toilets out of his multi million dollar Manson so he didn't have to pay taxes on it. He hides money in offshore accounts so he doesn't pay taxes on that either. So if the fat man can avoid taxes why should we be curved to pay more money to support any projects within this state. Sorry but we don't need to give money to democrat supporters so they can benefit off of hard working taxpayers. In fact let's reduce taxes, eliminate the automatic pay raise that the part time politicians receive, eliminate and reduce the automatic hat tax increase every July, start putting tax money back in taxpayer pockets. The tool authority can take pay cuts, reduce the size of their departments and live pdf of what they get from us. The don't need any Additional funds.
07/14/26	Isaiah Degenhart	60181	X		X	X					Support	
07/14/26	Penny White	60178	X		X		X				Oppose	
07/14/26	Arlena Cooper	60565		X			X		X		Oppose	This could not come at a worse time. People are already struggling to afford food and gas. Now they will have even more construction to deal with, and pay more just to get to work. The tolls are chipping away at the little people have to enjoy life. Personally, I'll have to negotiate between saving money by not taking the toll road and spending less time with my family or taking the tolls and having less money to feed my family. Please don't crush poor/middle class families for this plan.
07/14/26	Tanya Keating	60625	X			X	X				Oppose	It would have been nice to get more notice about this project and the proposed increases rather than receiving a notification after the public hearing in my county has already started. The information shared online is very generic and high level. While I do agree than the infrastructure needs to be upgraded, I don't have enough detail to support such a high increase to the tolls. Wha materials are being used? How long are these improvements meant to last before they will need repair and upgrades again? A 30% increase is already extremely high for consumers that are being stretched too thin in this economy. Personally, if tolls are too extreme I would rather avoid them, which puts more traffic/congestion and stress on the roads around the expressways. Adding the increase to commercial vehicles and businesses will also ultimately be passed onto consumers, making it more and more difficult to afford goods being shipped.
07/14/26	Joseph Cortese	60631	X		X		X				Support	I support anything that's gonna keep the laborers working and continued salary increases for the workforce!

2026 Illinois Tollway Proposed Rate Increase

			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/14/26	Jaroslaw Grojec	60565				X	X			Affordability	Oppose	I live in Naperville and work in Schaumburg. There is no easy way to get there without using a tollway, but with the proposed increase, that will totally kill my monthly budget. I will have to switch jobs. Meanwhile, my wife is a nurse at Loyola and also uses the tollway daily. This will be a total disaster for our family.
07/14/26	Jay Cruz	60651	X		X	X					Support	
07/14/26	Jocelyn Gomez	60623	X	X					X		Support	
07/14/26	Kevin	60451	X				X			Equitable cost per mile	Oppose	Mostly oppose the inequitable cost per mile which has been a problem for many years. The toll plaza 101 at US 6 for southbound and vehicles coming from I-80 will be about 6 times the average per mile.
07/14/26	Jose Villanueva	60651			X	X	X				Support	
07/14/26	Jason Koteski	60440	X			X	X				Oppose	The current cost for tolls is already to great and is a burden to our economy
07/14/26	Tim	60638					X		X	We're taxed the most in the State of Illinois out of all of the continuous states of America. Just STOP the wasteful spending! You're just adding to the misery of living in the State of Illinois. Here's an idea to attract more residents to illinois, lower taxes, tolls and fees. Cut the taxes out of illinois. We're barely making ends meet, as it is.	Oppose	We're taxed the most in the State of Illinois out of all of the continuous states of America. Just STOP the wasteful spending! You're just adding to the misery of living in the State of Illinois. Here's an idea to attract more residents to illinois, lower taxes, tolls and fees. Cut the taxes out of illinois. We're barely making ends meet, as it is.
07/14/26	William Lopez Jr.	60630	X	X				X			Support	
07/14/26	Fernando Ramirez	60139	X		X		X				Neutral	Mre work for brothers
07/14/26	Richard Gruner	60169	X			X	X				Oppose	Strongly opposed to any increased travel costs. Gas taxes too high. User fees too high. Typical of Illinois Policy makers digging into the pockets of those living here.
07/14/26		60625			X		X			NOT PAYING MORE FOR TOLLS	Oppose	What are we doing, how are you guys raising the prices, it’s already expensive and people are having a hard time affording basic necessities. Why don’t you guys tax extremely high income individuals at higher rates instead of putting to onus on regular people who already struggle to afford things in daily life.
07/14/26	Carlos Berrout	60402	X	X				X			Support	Great tollway s belongs to big Cities- & Chicago s need s lots of improvements- our Roads sucks ????
07/14/26	Brian Hawkins	60137	X		X		X				Oppose	
07/14/26	John Hickey	60638	X		X		X				Support	Maintaining and keeping our roads and highways safe and orderly is always very important.
07/14/26	Joe Mcdonagh	60618	X		X		X				Support	Get me a job
07/14/26	Jennifer	60586			X	X	X				Oppose	The tollways were meant to be temporary. However, mismanagement of funds by public officials are now pushing for more money from the hard working middle class through tollways. This is wrong. The state of Illinois makes enough revenue from taxes. What needs to be done is to defund all money and tax breaks for illegal aliens. Also, stop all fraud payments and money laundring from the government. Stop stealing middle class money to fund your friends and pet projects.
07/14/26	Anibal Rivas	60546	X	X	X						Support	Creating safer and more efficient highways is an absolute must

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/14/26	Anthony Palermo	60010-9565					X	X		construction projects working better and more efficiently to reduce construction blockages and reductions in lane capacity	Oppose	This increase is way too high. You folks are not caring about the financial impact and burden on the people. Also way way to high on trucking! The tollway was suppose to be paid for already twice. Show the people where the money goes and that there is no corruption. your promise of reduced traffic is a lie. You promised that last time and you have not reduced traffic. Of course you cannot, more people and more cars in the future. there is no room to expand.
07/14/26		60174	X		X		X				Oppose	IL tollways are expensive and increasing another $0.45 is burden to so many hard working families. Tollways are only in Chicago area and rest of the state is toll free but Chicagoan is funding for rest of the state's highways and its maintenance. Why do Chicagoan have to take rest of the state's burden??
07/14/26	Luis Hernandez	60629	X	X			X				Support	
07/14/26	James A Mihalek	56301-9477	X		X	X					Support	As long as the tolls are put back into the roads I support this. I am not a local resident so this would not impact me on a daily basis. I am from out of state, and pass through the area 4-6 times per year. I am OK paying a bit more as long as the road are being maintained and improved.
07/14/26	Michael Grangent	60433	X	X		X					Support	Every other state I go to has better roads than Chicagoland area. We need to fix that as soon as possible, no matter the cost.
07/14/26	Rudy Torres	60629	X		X	X					Support	
07/14/26	JOSE ARMANDO RANGEL SALGADO	60087	X		X	X					Neutral	
07/14/26	Robert Tate	61341	X		X	X					Support	Better roads, larger expressway and well maintained routes helps everything run smoothly and efficiently, putting more union members to work
07/14/26	Gwendolyn Boyle	60646			X		X			AFFORDABILITY	Oppose	I drive the tollway almost daily. With the cost of living UP in every category I will not drive the tollway. This is just another company cashing in on the prices that are increasing across the board. LIFE IS ALREADY UNAFFORDABLE!!!!! Remember when the tollway was first built and wasn't supposed to be tolled forever???
07/14/26	Jill Dollinger	60660-1625		X			X	X			Oppose	In a world that gas and oil prices weren't at their all-time highest, I would support this more. I understand that the toll rate increase would help pay for better roads but people are having a hard enough time getting food on the table and putting gas in their tanks. So Illinois is going to add to that right now? We all know that if truck drivers that transport food have to pay more to get the food to and from locations, that will drive up other prices. Especially food. The timing just isn't right.
07/14/26	Ademir Espino	60484		X	X		X				Support	
07/14/26	Bryan E	60173	X				X		X		Oppose	Illinois IPass users already pay some of the highest toll use rates maybe except California. Enough is enough. Repair the holes in the spring and clear the roads in the winter months. Reduce the toll rates if thats ever possible.
07/14/26	Chuck B	60431			X	X	X				Oppose	I spend $1.90 a day or almost $500 a year to drive to drive 12 miles daily on the toll road.
07/14/26	Evelyn Morens	68609	X				X		X		Support	
07/14/26	Marcos Garcia	60632	X	X	X						Support	
07/14/26	Anthony Swantek	60631-2928	X				X			Less money	Oppose	The tollway was supposed to be free after a few years. There has been money savings due to the fact there are no more workers manning the toll booths. Where did the money go?
07/14/26	Russell Scardigli	60561	X				X			Less cost to drive	Oppose	Originally tolls were to maintain roads. Slowly they keep increasing. Surprise, surprise. Be sure to express my families thanks to the Governor???
07/14/26	Dan Pearson	60187		X			X			Roads built with quality materials that don't need replacing so often	Oppose	Colossal increases like this add to the many reasons that so many people are forever leaving Illinois.
07/14/26	Victor Roa	60439	X	X		X					Support	

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/14/26		60803	X		X		X				Oppose	Absolutely ridiculous. Increasing it for a capital investment? How about politicians have term limits and pension limits, that will free up plenty of money! Illinois has the highest taxes for everything. Illinois is always over budget every year because politicians care more about their own pockets than everyone else who is struggling right now.
07/14/26	Cordarro Rabb	60805	X		X	X					Neutral	
07/14/26	Mark Apgar	60433	X				X			Enough is Enough. The toll roads originally when originally built were paid off years ago and they were supposed to be then toll free after being paid off but you greedy politicians saw saw a cash cow of how to screw the people out of more money. This administration has already raised taxes and fees of everything thru the roof. Live within your means like the rest of us	Oppose	Enough is Enough. No more of these outrageous fees and taxes
07/14/26	Guadalupe Robledo	60629		X	X		X				Neutral	
07/14/26	citizen	60010					X		X	must pick 3 choices forces me to answer by spending more.	Oppose	Pritzker sucks. this passes I vote against every incumbent next two election cycles.
07/14/26	Scott Kelley	53147	X	X	X						Support	Lived in Chicago suburbs until retirement & now live in Lake Geneva, so I use Illinois tollways a lot coming back to Illinois & use the tollways a lot.
07/14/26	Larry Burch	60473	X				X		X		Support	
07/14/26	Fred Schroeder	60048	X	X					X		Support	We frequently use the toll roads. Although construction can be a pain we really appreciate the efforts to keep the system up-to-date and moving well. Thanks for the good job!
07/14/26	sarah nolimal	60618-5309			X			X		PLEASE ENTER A COMMENT	Oppose	390 is brand new how can you do more projects on it, if ohare needs expansion that sounds like an ohare problem not an IL driver problem
07/14/26	Mario LoVerde	60642	X					X	X		Support	
07/14/26	Gerhard mundinger	46360				X	X			No tolls	Oppose	Lying democrats. Tolls were initially limited in time, and Illinois has far exceeded the time when they were to be removed. Poor government management, fraud and abuse , union limitation on road depth with built in obsolescence. Wasteful spending, wasteful expensive sanctuary city policies. Poor stewards of peoples resources. Self aggrandizing politicians. The mafia has never left illinois politics
07/14/26	James Kollias	60143	X		X		X				Support	
07/14/26	Mark Beatovic	60630				X	X			Keep everything the same	Oppose	

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/14/26	Randall Knoebel	60642				X	X	X			Oppose	I oppose the proposed toll-rate increases. The Illinois Tollway's own financial reports raise serious questions about whether increases of this magnitude are necessary. In 2024, the Tollway reported approximately $1.70 billion in total revenue and only $421 million in maintenance and operating expenses, producing nearly $1.28 billion in net revenue before debt service. Even after approximately $490 million in debt-service transfers, nearly $788 million remained. The Tollway's preliminary 2025 financial report similarly shows $1.65 billion in toll and evasion-recovery revenue, along with approximately $100 million in investment, concession and miscellaneous income. Of the revenue collected, $441 million was allocated to maintenance and operations, $517 million to debt service, and $795 million to renewal, replacement and improvement accounts. Before asking drivers to pay approximately 45 cents more at every passenger toll—and imposing a 30 percent increase on commercial vehicles—the Tollway should provide a clear, project-level explanation of: Why existing revenue, reserves and borrowing capacity are insufficient; How much of the proposed increase will fund essential maintenance versus system expansion, debt service, administrative costs and reserve balances; What cost-containment measures and alternative funding options were considered; and Why permanent inflation-based increases beginning in 2029 are justified before the new program's costs and results can be evaluated. The proposed increase also raises serious socioeconomic-equity concerns. A flat increase at every toll would consume a much larger share of a lower-income worker's earnings than those of a higher-income commuter. Many lower-wage workers cannot work remotely, adjust their schedules, relocate closer to their jobs or simply absorb a longer commute on congested local roads. For workers traveling to employment centers that are not adequately served by public transportation, using the Tollway may be a practical necessity rather than a discretionary convenience. The Tollway itself acknowledges that transportation costs can have a disparate impact on lower-income households. However, I-PASS Assist primarily reduces the upfront costs of opening and maintaining an account; it does not appear to provide income-qualified drivers with a reduced toll rate. Before imposing this increase, the Tollway should complete and publicly release an equity-impact analysis examining the cumulative annual cost by household income, geography and commuting frequency. At minimum, the proposal should include meaningful income-based toll discounts or credits, protections for workers who must commute during peak periods, and investments in realistic public-transit alternatives. The Tollway must also analyze the regional
07/14/26	Scott Mcfedries	60403	X		X	X					Support	As long as the toll money goes to fixing the roads and not the pet projects I'm OK with the increase
07/14/26	Jake	60187	X		X		X				Oppose	IL residents are taxed enough, now are subject to change every year, time to rid the toll way system. These roads should be perfect at all times and they are not.
07/14/26	David Currier	60007	X					X	X		Support	
07/14/26	Victor Brown	60438	X		X		X				Support	
07/14/26	Theresa Miller	54914	X		X	X					Oppose	The tollway was supposed to be paid off and no longer charging. Over 30 years ago. Now an increase. Ridiculous
07/14/26	Dylan Strand	60548	X		X	X					Neutral	
07/14/26	Danny Cicale	60475	X			X		X			Neutral	
07/14/26	Paul Dancu	60147		X	X		X				Oppose	the tollway service was designed to be short term. now that will never be the case with all increases over the last 10 years. they cant even finish a project on time or within budget. due to this there are still many roads that they have not improved the traffic flow. Includes all of the interchanges like 294 and 290, 90 and 290, 90 and 294, 88 and 355.. for these reason along with the cost of living in Illinois I oppose the increase. I have lived in this state for 53 years and will be moving out at first chance.
07/14/26	Fred Hall	60657	X		X		X				Oppose	

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/14/26	Gail K	60174	X			X	X				Neutral	I have two concerns. 1. Smart road technology should be used only to ensure that the roads are safe and drivable for all travelers. We should ensure that any cameras or monitoring devices are not capturing facial or other biometric data to be used for any uses other than ensuring safe driving conditions. The safety of those on the road is the first and only need for these devices. The money being collected to install these devices if used for other purposes is a violation of everyone on the road and the money that they have contributed. 2. This increase is significant, especially given the current economy. The majority of individuals on the road today are traveling to and from work and/or needed family commitments. The additional cost is a variable that many will not be able to cover with variable additional income. I speak for many of us when I say that we have a high expectation that you will be using these funds with the upmost care and responsibility, so stretch them as far as possible, and make them last so that we do not have another increase in the short term. The people of Chicagoland and Illinois cannot carry another increase of this magnitude for quite some time. Please use these dollars responsibly. We will hold you to a high standard.
07/14/26	Pam	53590	X	X			X				Oppose	I am a frequent traveler through Illinois and I feel that I pay enough for the tolls.
07/14/26	William A Biagi	60463-3159	X			X	X				Oppose	There roads were supposed to be free by now, increasing the consumer cost will keep me from using them when I can.
07/14/26	Timothy Bartlett	60188	X		X		X				Oppose	Any increase in tolls MUST, MUST be used only to improve the toll roads. Any increase in my tolls that is then siphoned off to help bail out Chicago's CTA is a non-starter. I have paid about $5,000 this year to repair my car's suspension damage caused by I-390 pot holes!
07/14/26	Brian O'Donnell	60077	X			X	X				Oppose	I don't see how a $.45 per toll Increase makes "... the Tollway system... more affordable", especially since it was Supposed to be "toll free" decades ago. :-/
07/14/26	Stacy Ballon	60513			X	X	X				Oppose	I’m going to leave the state if we get any more taxes I cannot afford to live here you guys are killing us plain and simple no more fucking taxes no more re-increases no more nothing. We can’t keep paying. I’m literally living paycheck to paycheck and I shouldn’t be. I will be leaving the state within the next two years. I just have to sell my condo and go. Because I can’t afford to keep that either because on my condo that I paid $129,000 for you guys are charging me six grand a year and fucking property to Texas. No one can keep that up bye-bye Illinois.
07/14/26	Frey Joey	61021	X			X	X				Oppose	Absolutely NO!!! The tolls are to high already and the state has misused them . No toll increases
07/14/26	Tom	60609				X	X			Cheap tolls	Oppose	How can you say the tolls haven't raised in 12 years they used to be 40 cents now they are 75 cents
07/14/26		60560	X		X		X				Oppose	
07/14/26	Juan Ruiz	60411	X	X	X						Support	
07/14/26	Roberto Barraza	46323	X				X	X			Support	Best condition rod
07/14/26	Sue	60173			X		X			Lower rates! This is literally highway robbery.	Oppose	Thieves! Stop driving us into debt!! Toll free in 73, assholes. Fuck this state, seriously
07/14/26	Jim Ahern	60634	X		X		X				Oppose	Stop gouging the Illinois taxpayers on yet another unfulfilled project or policy. Hire individuals who know how to manage resources efficiently. Cut WASTEFUL spending on the multitude of social/welfare programs, that'd be a good place to start.. Attempting to pass ridiculous rate hikes like the toll increase is just another reason why many Illinoisans have left the state and will continue to leave the state. Might want to ponder that one long and hard...

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/14/26	Ned Grabavoy	60451	X				X			Spending the money you already get responsibly	Oppose	So much for "caring for Illinois residents!" At a time where because of unbelievable inflation where a ton on Illinois residents have a extreme had time of paying their monthly bills...mortgage, federal/state taxes (what are Illinois currently...11% on every dollar spent commercially), Utilities (ie. electric, gas, water bills)house and auto insurance, groceries, etc. Sure just what we need. And Illinois has the 2nd highest taxes in the country...thank you, J.D. Prizker! So much for caring about the people? What about the road quality in Illinois - answer...patch...patch...patch - terrible! I live near Joliet where the I-80 bridge built in the 1960s is ready to fall in the canal. Government demands "the people's money" but seems to do a horrific job of using it appropriately. And once again, government "DEMANDS MOVE MONEY!" Shame on you!
07/14/26	Joseph Narducy	60609	X		X				X		Support	
07/14/26	Gerlando Barone	60714	X		X				X		Support	
07/14/26	Jose Garcia	60638	X	X			X				Neutral	
07/14/26	Tyrone McDaniel	60649	X		X		X				Support	
07/14/26	Alejandra	60544	X		X		X				Oppose	
07/14/26	Dave Jackson	60617	X		X	X					Support	
07/14/26	Jeff Carr	61108	X			X	X				Oppose	The tollway needs to be better managed with taxpayer dollars There is no justification for the major increases that are requested Example - everything for the travler is all automated How much money was saved by removing the toll booth collectors???
07/14/26	robert mcqueen	60090	X		X				X		Support	
07/14/26	Cheryl Jirkovsky	60018			X	X	X				Oppose	Illinois residents are already paying to much for EVERYTHING! I would rather take side roads and support local businesses than pay Illinois any more money.
07/14/26	Terrence O'Rourke	60068	X		X		X				Oppose	Too much waste, fraud, and abuse as it is. Illinois residents are endowed with the highest effective tax rate in the US....and now this? This is, in part, why we are leaving Illinois.
07/14/26	Miguel Gutierrez	60804	X		X		X				Support	Keep a maintenance the road
07/14/26	Ashish Sethi	60585	X			X	X				Oppose	Please do not burden the commuters with additonal cost amongst already high gas and grocery prices.
07/14/26	Eloise Davis	60202	X		X		X				Oppose	Everything has gone up and people are having a hard time already financially making ends meet
07/14/26	Julio Herrera	60467	X		X				X		Support	
07/14/26	Jorge Castro Rico	60139	X		X		X				Support	
07/14/26	Kenneth Cruz	60630	X	X		X					Support	
07/14/26	John LaBuda	60453	X				X			Need to stop charging people with small boat trailers the same rate as commercial vehicles.	Oppose	I have a small boat that I pull up to Wisconsin. I am getting charged the same rate as commercial vehicles. This is absolutely ridiculous. A single toll cost me over $9.00. A trip to Wisconsin and back is costing me over $55.00. Something needs to be done about this. Now you want to raise it 30% more! No wonder people are leaving this state. They can't afford to live here. I am very dissatisfied with the Tollway and how it is managed.
07/14/26	Jane Mason	60714	X				X		X		Support	I support road improvements and I'm glad it will be funding jobs and career opportunities for construction workers. But 30% seems like a huge jump. Obviously I don't have access to the underlying cost components, but I would suggest you reconsider that spike and phase it in more gradually. I drive on the Tollway all the time for work and leisure, and that vault in cost will have an impact on me, especially with gas prices being so high.
07/14/26	Miguel Lorenzana	60051	X	X			X				Neutral	
07/14/26	Gerardo Abarca	60453			X	X	X				Support

07/14/26	Michael Klepek	60007	X		X	X					Support	

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/14/26	Joe Halama	60563			X		X			remove the tolls & stop taxing us to death!	Oppose	No, no, no!!! Politicians need to do their jobs and vote to not only reject any toll increases, but remove all existing tollways as originally intended.
07/14/26	Jose Martinez Jr	60436	X		X		X				Neutral	
07/14/26	Brian Vogt	53128	X		X	X					Support	
07/14/26	Matthew Stanio	60191	X			X	X				Oppose	The constant increase of tolls is inconsistent with the quality of the roads in this state. I strongly oppose any additional increases to the tolls.
07/14/26	Jaime Gaytan	60638	X		X	X					Support	
07/14/26	Jonathan Whiteside	60119	X				X			Fewer illegals without insurance on the roads	Oppose	Illinois wastes too much tax money. Reduce the fraud to fund improvements. Over a billion on illegal healthcare for starters.
07/14/26	Elvis Perry	60623	X		X	X					Support	
07/14/26	Adrian Mitchell	60637	X		X	X					Support	
07/14/26	Geoffrey Greiner	60451	X				X			Fairness for those currently being taxed by using the toll roads.	Oppose	The toll roads are a tax for those who live and use expressways in specific suburban areas of Chicago. The concept of toll roads is no longer valid, where the tolls would stop after the road was paid off. Consequently, it is really just an expressway tax for those who live in certain areas of the state and use specific roads. If you want to get more money for the expressway system in the state of Illinois, tax EVERYONE who uses expressways across the entire state, including those Chicagoland expressways that are not currently taxed (I57, Dan Ryan, I55, I80, 290, etc.) and all the expressways throughout the rest of the state. Don't continue to ask the same people to pay more money on the existing toll roads. The original promise was to discontinue toll road fees, instead they just continue to go up. That's not right or fair. Let everyone help maintain our Illinois expressway system, including ALL Chicagoland suburbs and down state. Install IPASS lanes on ALL OUR EXPRESSWAYS and LOWER the rates. That's the right way to do it. Stop asking the same stressed taxpayers to continue to pay more just because they have other good options to travel in their areas. Stop taxing people out of the state. We already have the highest property taxes. I am guessing that we probably have the highest road taxes (tollways, gas taxes) too, and they continue to go up, and up, and up. Let's reduce the costs and spread the burden to everyone in the state. Everyone should pay for the privilege to drive on well-designed, well-built, and well-maintained expressways. Also, let's reduce the rates for seniors and those on fixed incomes.
07/14/26	Aaron Fair	39532	X		X	X					Support	I'm always gonna go with my union, but I think about the cost that some people may have a hard time paying a bigger toll
07/14/26	Annette Larson	60062			X	X				Less traffic less bumper to bumper.	Oppose	As a lifelong Illinoisan I am tired of you tearing up 294 all the time. I need a break from this. You want us to pay more and all we will get is more annoying construction and then when that project is done you will wanna tear it up again. So frustrating and people don’t trust you. When is the current project gonna be done.
07/14/26	Michelle White	60050	X			X	X				Neutral	
07/14/26	Matthew Roque	60014	X	X		X					Support	
07/14/26	Lara	60491			X	X	X				Oppose	Absolutely not. The tolls are already expensive.
07/14/26	Mo	60564			X		X	X			Oppose	You continue to charge for tolls when this should have ended 20 years ago. There is not end date for this hike either and you continue to have constructions over and over on the same roads by hiring incompetent contractors for the work. Why are we responsible for your failures? There should be a resident vote on vendors and work authorization so we can hold you accountable.
07/14/26	Saxena	60188	X		X		X				Oppose	
07/14/26	Richard Dahms	60527	X	X	X						Neutral	
07/14/26	Darren Gilbert	60619	X				X		X		Neutral

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/14/26	Joy Eckrich	60477	X		X		X				Oppose	Are you kidding me? Increase the tollway so I can spend another $100 a month to get to/from work. Ludacris. Talk about bad timing alert. Right now I think it would be in our best interest to find ways to reduce costs NOW.
07/14/26	Ivan	60120			X	X				Cheaper tolls	Oppose	This is ridiculous, tolls are already so expensive
07/14/26	Kevin Mitcheff	60447	X		X	X					Neutral	No coment
07/14/26	Victor Hyles	60620	X		X				X		Neutral	
07/14/26	Wayne Frisbie	53181	X		X		X				Oppose	It is my understanding that the once the tollway was completed the tolls were to be abolished. Instead here we are still paying all these years later. The tolls were intended to be used to build and maintain toll roads, instead the money goes where? To raise tolls is simple another Illinois money grab. Ticket truckers violating the laws, that money will cover most expenses you propose.
07/14/26	Alfonzo Sacramento	60633	X	X	X						Support	Let's do what we have to do for safe effective highways. And bridges. There falling apart.
07/14/26	Luis Rivera	60634	X				X		X		Support	
07/14/26	Alonso Villegas	60652	X		X	X					Neutral	
07/14/26	Daniel Estrada	60629		X		X			X		Support	If people on the tollway could be more compliant to the regulations and accept pass, cash, and other toll fee without making excuses would be greatly appreciated
07/14/26	David Mark Gielbaga	60638-3512	X				X		X		Oppose	I believe $0.45 is too high. More like $0.20 would be perfect every time the state fails to make their budget, they raise from the citizens
07/14/26	Todd Waddy	60619			X		X		X		Neutral	Everything is more money for less
07/14/26	Nathan Hanson	60150	X			X	X				Support	
07/14/26	Gail Anderson Thomas	60107		X			X		X		Oppose	Why is there continuous roadwork after completed then the project is torn down to start over rebuilding the same area? The I-294 for example has been rebuilt three times causing more congestion, decreased travel times and profit for the builders only. These same roads don't need to be constantly torn up when I-94 north/south bound could use the repairs with monies used from tollway reconstruction after the reconstruction. Just my opinion.
07/14/26	Ruth Madden	61101	X			X	X				Neutral	
07/14/26	David Renteria	60433		X	X		X				Support	
07/14/26	Andrew Harms	60178	X		X	X					Support	
07/14/26	Brett Mitchell	60085	X		X		X				Oppose	The cost is too much already. Additionally, the steps outlined mirror previous changes that made no meaningful impact on driving time. The proposals are not evidence based. Finally, the email soliciting comments came after the hearing in my area already occurred.
07/14/26	Darrold Hilliard	60471-1892	X	X			X				Support	
07/14/26	Patrick G Sullivan	60652	X			X	X				Oppose	This is a joke. It feels like price gouging along with everything else Illinois, Cook County and Chicago do
07/14/26	Michelle Deutsch	60076	X	X	X						Support	Such a small increase in toll cost is something any Illinoisan that is able to afford a car and gas can afford. We should always support improving our infrastructure. People complain when traffic is bad, roads are busted up, traffic flow and exits are congested and confusing. But then also complain about paying a handful of cents more to make the repairs. We need to invest in our state and cities if we want to stop complaining about the problems. I absolutely support this and look forward to the end result!
07/14/26	Paul Connolly	60464	X			X		X			Support	Illinois, please keep Illinois toll-roads safe, efficient and modernized for the convienence and accessibility for all Illinoians and toll-road users.
07/14/26	Ivan Padilla Murillo	60133			X	X	X				Neutral	I think it's great that it'll provide more jobs and opportunities for laborers but the tolls are expensive as they are at the moment. Specially since there's so many! As soon as I update my balance for money on tolls, it seems like it all just spends right away.
07/14/26	Dominic Faustino	60448	X	X			X				Support	It will create more union jobs
07/14/26	Alberto MENDEZ	60632	X		X	X					Support	More work for our fellow union members I just hope they stop discrimination for seniors like me
07/14/26	Vickie Christensen	60048			X		X		X		Oppose	

2026 Illinois Tollway Proposed Rate Increase

07/14/26	Arturo Partida	60120	X		X	X					Support	great opportunity to support infrastructure and advance growth
07/14/26	Abraham Mendoza	60411	X		X	X					Neutral	
07/14/26	Irvin Barcenas	60632-2042	X		X	X					Support	
07/14/26	Joe	60491	X			X	X				Oppose	The state or Illinois and all of its counties take enough of our hard earned tax money. Manage the money you currently get, manage the waste and fraud in our system. Please stop..
07/14/26	Robert Chianelli	60641	X		X	X					Support	
07/14/26	Karen Carlson	20906	X				X		X		Oppose	Illinois already pays the highest amount of taxes on gasoline. We want people in charge who can find the best price for what they already have coming in. This is not what we want to spend more money on. People have budgets so should the tollway.
07/14/26	Hueman Abundez Cardenas	60609	X	X	X						Support	It's better for everyone have more and good tollways
07/14/26	manuel alanis	60073	X		X		X				Support	
07/14/26	Amy McCollum	60103			X	X	X				Oppose	Please DO NOT pass this toll increase. The tolls are already so expensive. It already costs me approximately $50 a month to drive to work when I drive on interstate 390. Thank you for your consideration!
07/14/26	Marshall Hughes	60409	X		X				X		Support	Safe travels ??
07/14/26	Kyle Chwaszczewski	60481	X		X	X					Neutral	
07/14/26	MARY LOU WILLIAMSON	60067					X	X	X		Oppose	This system was never intended to be a forever toll system. This rate increase will severely impact the residents of Illinois, not just those using the toll road. The increased cost to transport goods, specifically groceries, will negatively impact all residents, most severely our poorest neighbors. This is a consumer affordability issue.
07/14/26	Juan Calvillo	46319			X	X	X				Neutral	
07/14/26		60169				X	X			Effective routes	Oppose	This is a huge rate increase at once. This should be a staged increase instead of immediately affecting every toll spot at the same rate. This lacks a strategic rollout plan and only demonstrates as a money grab for an already over taxed state.
07/14/26	Michael Ray Taylor	61360	X			X		X			Support	
07/14/26	Don Knauf	53181			X		X			I have to use your shitty road, unfortunately.....	Oppose	You all SUCK ASS!!!! You should not even exist! You were supposed to stop taking tolls decades ago you Fuckers! On top of that you charge me full rates because your shitty stupid transponder readers dont read my motorcycle! So despite having a transponder for over 25 years, you fucks charge me full rates! Hope the Illinois tollway dies a welldeserved death !!
07/14/26	Joey Coletta	60607	X	X	X						Neutral

07/14/26	Andrew Munoz	60165	X	X	X						Support	
07/14/26	Garney Lester	60050-4403	X		X	X					Support	If the driving connection program reduces traffic I Care less about the toll increase.
07/14/26	Gayle Wagner	60053			X	X	X				Oppose	
07/14/26	Sam Garg	60004	X				X			Cost	Oppose	Reduce Tolls. Remove Tolls. Refrain from adding additional tolls!!!
07/14/26	Randy Leach	60172	X	X	X						Support	
07/14/26	Anais Zambrano	60544	X	X			X				Support	Continued investment in transportation infrastructure helps improve safety, reduce congestion, and maintain reliable roadways for the public. Investing in these projects also supports long term economic growth and helps ensure the transportation network can meet future needs.
07/14/26	Roman Arias	60120	X		X		X				Support	
07/14/26	Robert Wagner	60053			X	X	X				Oppose	
07/14/26	Miroslaw Kolasa	60453	X		X			X			Support	Let's go
07/14/26	Juan Quiroga	60804	X		X		X				Neutral	
07/14/26	Frank Pentimone	60188	X	X	X						Support	
07/14/26	Zamira Kotan	60515	X		X		X				Support	
07/14/26	Saul Gutierrez silva	60446	X		X	X					Neutral	
07/14/26	Antonio Walker	60652	X		X		X				Support	
07/14/26	William VanRamshorst	60473	X			X	X				Oppose	Everything else already costs more, including using the toll road. There are times I already avoid it to not pay the increased cost.
07/14/26	George Liska	53190	X		X	X					Neutral	
07/14/26	Gary Wilson	60408	X			X		X			Support	
07/14/26	Yolanda	60153			X	X	X				Oppose	I plan to find alternative routes without tolls. It is becoming too expensive for me, the toll roads are no longer a convenience. I am often stuck in traffic on the toll road. I mainly travel short distances. Those unposted, high toll charges on different tollways on my ipass account is becoming ridiculous. I recently went the wrong way, got off at the next exit and back on the toll and had to pay twice for a short distance. What a rip off. No thank you, I rather take the streets. I do not see the added value.
07/14/26	Paul Vilimas	60608	X		X	X					Support	
07/14/26	Diaz Mauricio	60545		X	X			X			Support	
07/14/26	Jeff	60451	X		X		X				Oppose	I already pay $1.90 each way at the I355 and Rt 6 toll. The increase in tolls makes it even more expensive for me to get to and from work every day. This toll booth should not increase due to it already being the most costly on I355.
07/14/26	Darneice Strozier	60620	X	X					X		Neutral	Interested In Post Cost Cleaning N&M DiVine Services nmdivineservicesllc@gmail.com
07/14/26	Tommy Rau	46322	X		X	X					Neutral	As a union laborer in Illinois, I strongly support the Driving Connections capital program and the proposed toll rate increase that will help make it possible. These projects mean more than just improving roads—they provide stable, family-supporting jobs for skilled union workers like me while making our transportation system safer and more reliable for everyone. Investing in infrastructure is an investment in our communities, our economy, and the future of Illinois. I encourage the Illinois Tollway to move forward with this program.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/14/26	Kelvin Robinson Sr	60620	X	X					X		Support	
07/14/26	Joshua ergle	61115					X		X	Less tax	Oppose	Absolutely not. Illinois already ranks top 5 in nation for tolls, top 5 in tax alone. Including fuel tax. Leadership needs to learn how to spend funds properly instead of thinking another tax will fix “issues”. We already pay tolls and the roads are shit. Get rid of all tolls in general. States like Wisconsin have no toll roads, experience harsher winters, yet still have better roads. The difference? Illinois failed leadership and reckless spending. Another tax won’t fix a problem.
07/14/26	AARON RANDALL	60644	X	X	X						Support	
07/14/26	Steven Lugo	60631	X		X		X				Oppose	Tolls are already too expensive. Stop the bureaucratic bloat and stop the increases.
07/14/26	Michael Gabehart	60416	X		X	X					Support	
07/14/26	Jorge P Munoz	60545	X		X	X					Support	
07/14/26	Valerie L Hunt	54937	X		X		X				Oppose	I expect a reasonable increase in order to maintain the roads but not an increase every other year.
07/14/26	John Wilson	60620	X	X			X				Support	
07/14/26	James Parker	60417	X		X	X					Support	Keep up the fine work
07/14/26	PARIS JUDKINS	60621	X			X				It's faster in some cases.	Oppose	No it's already to expensive.
07/14/26	David Szigeti	60446			X		X			Avoidance	Oppose	Making Illinois unliveable
07/14/26	Juan Victoria	60123			X	X	X				Neutral	
07/14/26	Robert Chavez	60632	X				X		X		Oppose	No tollway has money already. They claim the toll was to be paid for and then become free. The tollway lied.
07/14/26	Rhonda Servant	60643	X		X		X				Support	
07/14/26	Kimberly	53144	X				X			FREE ACCESS	Oppose	Born and raised and living half my adult life in Illinois, they have Continuously raised the toll rates for years when this was supposed to be a TEMPORARY program... no our family does not support this.
07/14/26	Hugh Jass	60462	X		X		X				Oppose	Where has all the money been going the last 20+ years of toll roads? Sounds like there is corrupution that needs to be investigated first before asking people for more toll money. Secondly, the cost for the project is outrageous. People are building multiple skyscrapers for less money than that. Do better. Start with an unbiased audit of the tolling authority to see where the current money is going.
07/14/26	Robert Oborski	60030	X			X	X				Oppose	The reason I oppose this is I believe JB Pritzker is going to take this money and use it to balance his budget.
07/14/26	Debra Kreml	60188	X		X		X				Oppose	
07/14/26	Rameez Saeed	60053	X				X		X		Oppose	Govt is constantly making our lives difficult. We already avoid tolls whenever we can and by increasing tolls wont help the govt. Its better to keep the tolls low to encourage more people to use it
07/14/26	Jesus Montero	60411	X		X		X				Oppose	Don't need it. Roads take years to get done and said "construction" projects cause more traffic than just leaving it alone. IL is expensive enough. Why not cut our IL leaders pay and use those funds to continue projects if desired.
07/14/26	Jenni Krzyzowski	60516	X		X		X				Oppose	We already pay too much. We also pay to GET OFF a tollway we paid too much get on to. It’s ridiculous and hits hard on families especially when multiple drivers in a household.
07/14/26	Sean	60616			X		X	X			Oppose	No new fees
07/14/26	Matt W	60189	X		X		X				Oppose	Stop trying to rob Illinois residents of more money. Find other ways to come up with money to “fund road repairs”. Stop sliding the bill across the table to us and take ownership for your lack of responsible spending!
07/14/26	Joanna Tyszko	60133			X	X	X				Oppose	
07/14/26	John	60544	X			X	X				Oppose	I think it's time Illinois stops passing the buck to the consumer by raising taxes and costs
07/14/26	Nick Gottschalk	60156	X			X	X				Oppose	I thought the toll roads were supposed to be paid off and tolls ended. What happened to that idea that was originally sold to the public. Work within a budget and prioritize projects, stop the increases

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/14/26	Tom Wroblewski	60448		X			X			I love wasting money	Oppose	The tollways were presented to the people of Illinois that once they were paid for a tolls would go away. That was what 40 or 50 years ago. The reality is, they'll never be paid for because you keep spending the money and working on them for no reason at all look at 294. You're widen it. How long has that been going on? I am tired of paying through my butt to drive on expressways that are supposed to be free not counting the excessive amount that is charged to drive on them for as little as 10 miles I go to Florida and their tolls aren't this expensive also, we don't need to subsidize the RTACTA with our tollway money so it's time to abolish the tollway system and let the state and federal government maintain the roads on I 90 I pay tolls in Illinois but nowhere else all the way to South Dakota same Expressway what's wrong with that picture problem is you gotta quit stealing all the money
07/14/26	Jennifer	60630	X			X	X				Oppose	This is ridiculous. We already pay so much in tolls, and the money goes to never ending projects (88/294, 494). Increasing tolls will put pressure on surface streets, create more traffic, congestion and noise. Leave the tolls alone. It's not like the roads are any better now. Still full of potholes.
07/14/26	Markian O Diakiw	48152			X	X	X				Oppose	No more taxes. The roads are permanently under construction and you loot the residents of your state and those around you for billions already. Do better with what you have and stop charging people more.
07/14/26	Kevin	60148			X		X			Just cost. Decrease the amount Illinoians pay for daily usage.	Oppose	The cost of using the tollway is already too high and will make it even higher. Reducing tollway usage and increasing congestion on already stressed non toll roads.
07/14/26		60506	X		X		X				Oppose	How about we complete the current projects to see what future traffic flow will be prior to adding additional projects that will just slow traffic again? I don't support future projects just to add monetary funds into union jobs that will take several years to complete.
07/14/26	James Andersen	49807			X	X	X				Oppose	The tollway system is another boondoggle government cash cow. I remember when the tollway was just to pay for the roadway, then it was supposed to go away. Fund the existing tollway like any other roadway in the state, registration fees and gas taxes. Wean yourself off this teat!
07/14/26	Paul Lee	53209		X	X	X					Oppose	We are already facing increases in other transportation costs (vehicles, gas, etc.). I would have to consider using allternate routes if the proposed toll increases take effect.
07/14/26	Brad Bauer	60126	X				X			iPass policies that respect users of vehicles other than cars. Motorcycles are discriminated against.	Support	
07/14/26	AK	60525		X		X				Nothing	Oppose	There is nothing positive about the Illinois Tollway system. It is constantly under construction yet they keep asking for more funding for a never-ending project. Driving thru other states is so much better and affordable and the streets are better maintained. The traffic, construction, and cost for Illinois tollways actually keeps me OFF the tollway.
07/14/26	David Gould	60047	X		X		X				Oppose	Please do not increase taxes. We pay more than any of our surrounding states and have worse roads, as it is. Get funding from somewhere else, or scale back.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/14/26	Ryan B Cullen	60563	X				X			Nothing else to add	Oppose	I oppose the proposed toll increase, particularly the 30% increase on commercial vehicles. While I support maintaining safe and reliable infrastructure, this increase will significantly raise transportation costs for businesses, especially construction contractors, trucking companies, and suppliers. Those costs will ultimately be passed on to Illinois residents through higher prices for goods, services, and public infrastructure projects. Before increasing tolls, I ask the Tollway to demonstrate that all available efficiencies and cost-saving measures have been implemented and to provide clear accountability for how the additional revenue will improve service. I also oppose automatic inflation-based increases without future public review.
07/14/26	Samantha finn	60103	X			X	X				Oppose	The people who take these routes as commuters are the ones paying taking the brunt of it. Illinois is already having residents leave over cost of living and yet we continue to hike the prices of things that people don't have the option to opt in and out of. People need to have the right to budget and spend their paychecks how they see fit. I'm by no means opposed to taxation, I understand these things don't fund themselves but tax liquor more heavily and people can choose to imbibe or not
07/14/26	Chris	62656		X			X			Excess Fees!!!	Oppose	More access points WITHOUT EXTRA FEE!! Opposed since your user fees, application fees and late fees are automatic and equal to 3 to 5 times cost of the actual toll!!! And... there is not a notice to pay, because you cannot read all the Dot Com address while you driving down the interstate!! Which FORCES the driver to incurred more fees!!! Your toll road are scams and screw every driver on the road.
07/14/26		60542			X	X	X				Oppose	Let's finish a project before predicting how traffic will be. I do not support jobs that will only fund union jobs and not everyone capable of doing said work.
07/14/26	Al Maggi	60463	X				X			I said no more tolls	Oppose	We were told a long time ago that these tolls wee temporary! This needs to be abolished! I DO NOT APPROVE any hikes in tolls - I want them removed like you said! Pritzer's gotta go!
07/14/26	Matt McCollum	60103	X		X		X				Oppose	
07/14/26	Paul Tokarz	60482			X	X	X				Oppose	
07/14/26	Andrew Richter	53179			X		X		X		Oppose	I oppose the proposed toll rate increase for the Driving Connections capital program. Tolls were originally presented to the public as a way to pay for building and improving the highways, not as a permanent, ever increasing source of revenue. The Tollway already collects significant money from drivers, and a further increase of about 45 cents per toll for passenger vehicles and 30% for commercial vehicles, followed by regular inflation-based increases, is an unreasonable burden. I am concerned that the system is operating more like a privatized business than public infrastructure serving the people who pay for it. Before any rate increase is approved, there should be clear, transparent proof that existing funds are being managed efficiently and that alternatives to raising tolls have been fully considered. For these reasons, I urge you not to approve the proposed toll rate increase
07/14/26	Your mom's asshole	60606					X		X	Tax someone else dick	Oppose	Stop bleeding us dry and take it from the rich fucks.
07/14/26	Steven Klabacha	60641					X	X		No more taxes	Oppose	The governor has taxed the people of this state enough best bet is to clean house on state employees
07/14/26	Jessica Bis	60081	X				X			Freeways	Oppose	IL has a spending problem and is always raising fees and taxes on its citizens. They should be cutting spending in other places to pay for this. Stop asking tax payers to foot the bill!
07/14/26	Volodymyr Kartashov	60189	X				X			I am happy with it as it is. The questions in this survey are one sided.	Oppose	NO to any expenditure increases!

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/14/26		61726	X				X			Multiple areas of construction are stupid. Work on one section then move down the road.	Oppose	Government should be finding expenses to cut to get our roads taken care of. We pay enough to be asked to pay more.
07/14/26	Anita Flores	60617	X		X		X				Oppose	We already pay one of the highest rates in the country and repairs have not been made, which was the reason for the last hike in rates.
07/14/26	Will	60462	X		X					NO MORE CONSTRUCTION. FINISH 1 JOB 1ST THEN MOVE ON.	Oppose	WTF. More toll and tax money going to the corrupt politicians and State of Illinois employees on the ghost payroll. MAYBE BALANCE THE BUDGET THE CORRECT WAY AND STOP GIVING MY MONEY TO FN ILLEGALS!!!!!!!!!!
07/14/26	Janszen Schneider	60525	X				X			You are straight up Marxist fags. Any increase in tolls is a crime against freedom. You should be tarred and feathered.	Oppose	JB Pritzker and every Democrat politician is a Marxist pig that steals from their constituents. Democrats politicians slogan, " keep them dumb down and dependent." When the save act passes, you will all be put out to pasture and it can't happen fast enough enough. Cheating fucks.
07/14/26	James Hoffman	62858				X	X		X		Oppose	The tollway was originally supposed to be only temporary. With the constant fuel tax going up and the economy how much do you want from us? It's hard enough to go on vacation because of rising costs, how about for once lower the budget or freezing it instead of always rising it.This makes me want to move to another state
07/14/26	Peter P Molitor	60506	X			X	X				Oppose	$.45 per toll os and i sane amount of increase to drive er who depend on it for travel. In Addition, people like me are already paying comersial semi rates just to pull my 900 pound single axle boat. Also, already too much and now you proposed 30% increase?????
07/14/26	Todd Spencer	60560			X		X			faster speeds	Oppose	I need to talk to you about something, and I need you to actually read this instead of skimming it, because I think most people are about to miss what's happening right in front of them. The Illinois Tollway just told you they're raising your I-PASS rate by 45 cents, jacking commercial rates by 30%, and then tying future hikes to the Consumer Price Index every two years, automatically, forever. And they're calling this "cost predictability for customers." I want you to sit with that phrase for a second, because I don't think it means what they want you to think it means. This isn't predictability. Predictability would be the price staying the same. What they've actually built is a machine that guarantees the number only ever moves in one direction, on a fixed schedule, indefinitely, and then pre-loaded the justification so nobody in a Board meeting ever has to say the word "increase" out loud again. That's not a customer benefit. That's a system quietly optimizing for the one thing it was built to optimize for: extracting more money from you with less friction each time.
07/14/26	Terry Mack	60544			X		X			Reassign what we have to where it was ATTENDING to be spent!	Oppose	Please stop with the Tax and the Tax increase - cut the damn pensions , stop funding CPS - I do NOT want another increase !!!!!!! Get rid of WASTE!

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/14/26	Connie Vanni	60517			X		X			fiscal responsibility of the state	Oppose	This additional cost to move around my local area is unacceptable. Toll costs are already high. I'm still frustrated that the new booths no longer have a light that shows you that your toll was paid.... with the increased cost of gas, and now this?? I will be avoiding using toll roads every chance I can if this increase goes through..... the convenience of shaving a few minutes off of a trip is not worth it now--raising the tolls is only going to make it even less of a value proposition to save a few minutes of time. This is ridiculous: the consumer price index is out of control due to the economy, so claiming that you are tying to that like it is some kind of justification is ridiculous. Increasing commercial tolls will do nothing more than drive up prices we pay on goods that have to be transported over road. This makes me want to move out of Illinois. How about the Board of Governors openly shares the budget and maybe makes an effort to look for efficiencies before raking the residents over the coals financially? I can barely afford groceries, and now I am not even able to get to the grocery store without outlandish toll expenses. Illinois should be ashamed. There has to be a better way.
07/14/26	Anonomous	60026	X		X		X				Oppose	The amount of the increase is excessive. The adjustment every other year should not be part of the proposal . Do with what you have.
07/14/26	Monica Weber	60618	X		X		X				Oppose	I oppose the proposed toll increase. Drivers already pay tolls with the expectation that those funds are used to build, maintain, and improve our roads and bridges. Before asking the public to pay more, there should be greater transparency about how the current toll revenue is being spent. If existing tolls are not enough, taxpayers deserve a clear explanation of where the money is going and why additional increases are necessary.
07/14/26	Dave Gorzka	60559	X				X			How about stop using the tollway as a cash cow	Oppose	This is just another reason to get the hell out of Illinois as soon as possible before the government grifters steal any more of my property. The irresponsible spending by these commie politicians is stellar.
07/14/26	Tom Manning	60106	X	X	X						Oppose	Can you honestly say that no Federal money has ever been used on the tollways? I find it hard to believe
07/14/26	Suzanne Kawakami	60659	X		X		X				Oppose	We are taxed enough in this state and never see much improvement for our tax dollars. A one-time increase would be acceptable, but not a continues one. This agency needs to be held more accountable for its use of money as well.
07/14/26		60005			X		X		X		Oppose	Tolls have summarily increased for decades under the claim that it will improve road conditions and decrease traffic, yet nothing ever changes. Why should I have to spend more to fund corruption and pensions in this state? My taxes are high enough. This is ridiculous.
07/14/26	Isaiah T.	60540			X	X	X				Oppose	This is going to make commuting to work, outings, further suburbs more unaffordable. This has been going on since I was a kid and my mom had to get “IOU’” it’s not okay anymore.
07/14/26	Daniel wagner	60439				X	X			Lessconsruction	Oppose	Another increase will cause more traffic to avoid the tollway system and add more congestion to local roadways as it did during the last increase.
07/14/26	alice	60534	X		X		X				Oppose	I believe the folks in Illinois pay more than their fair share in taxes, to the point of being ridiculous.
07/14/26	Dale Gawlak	60012					X		X	Elimination of the toll system.	Oppose	There is no need for the toll system to exist anymore. The intent was the system would be in place until the last bond was paid, and of course, commissioners keep voting for more bonds, and who wouldn’t if it meant the elimination of your job eliminate the toll system as intended.
07/14/26	Christine	60030	X		X	X					Support	I'm sure I'm in the minority but I drive very frequently between Illinois and other Midwestern states like Iowa and Wisconsin, and I see their road conditions, and then I come back and see the new I-294 and have a renewed sense of appreciation for what's going on in illinois. If noticeable, measurable improvements are done with this increase, I am all for it. The Illinois government has already done this with 294 other roads I use constantly.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/14/26	Isaac wegerson	60423			X		X			THE FUCKING TOLLS ARE ALREADY EXPENSIVE ENOUGH	Oppose	The budget is already enough there's no amount of money that will fix the idiots on the road which cause most of the traffic in the first place . Agencies can keep pushing for funding but at some point people have had enough. A .45 cent increase per toll is COMPLETE insanity I already pay over 3k in tolls per year ?!!!!
07/14/26	Allison Hill	60626				X	X			less construction	Oppose	Illinois tollways are constantly under construction and cause incredibly long delays as it is, we don't need another 15 years of construction at a cost of 26.5 billion dollars. Illinois needs to stop ripping off their residents and stop all the corruption in this state. I have no doubt whoever gets the contracts will be connected to a political appointee somehow and they will inevitably go over budget and not finish on time with zero consequences and more money in their pocket than originally expected.
07/14/26	Kevin	61021	X	X			X				Oppose	The tollway was supposed to be made free decades ago. It's not surprising that the state wants more money to "improve the experience" but for some reason I have a feeling this money will somehow not end up being enough. I keep hearing the state has many different ideas for how to tax us more and I don't know why elected officials think the citizens are fine with it, we're already heavily taxed in every place we can be and still you want more.
07/14/26	MILTON FLANAGAN	60172	X		X		X				Oppose	The governor has increased the gas tax from nineteen cents to almost .50 cents per gallon since 2019. This state steals enough money from taxpayers! What happened to once the bonds are paid off we can get rid of the tolls?
07/14/26	Joel Peck	60178	X		X		X				Oppose	No more increased fees. Its already a scam. Tolls were proposed as a way to TEMPORARILY incur funds to make improvements and it never went away. The tolls are a scam that other states dont have, DRIVING residents out of the state. I do not support this plan, and I will be moving out of Illinois too because its an overly expensive state to live in and ITS GETTING WORSE!
07/14/26	Sharon Langlotz Johnson	60074	X	X			X				Oppose	The legislature passed a law to divert tollway funds for purposes other than the tollway. I do not mind paying for the road I am using; however, this is just another sneaky way to tax our residents more. I have always been supportive of the tollway until now. If all of the money is not going to stay within the tollway, then they do not need an increase. Besides, there are a lot of savings from eliminating staff to collect fees; why would they not utilize that extra, or have they already?
07/14/26	Ken	60056			X		X		X		Oppose	Tolls are high enough already, Use the money from the revenue collected from Marauna Sales!
07/14/26	Marlene Vos	60487	X				X			Safety	Oppose	Tolls were originally there to pay for the road and maintain it, not keep it indefinitely.
07/14/26	Jim Davy	60004	X		X	X					Neutral	Hello, I know you need money to keep the highways maintained. However, 45 cents is a rather large increase for passenger cars. That is about a 50% increase-------too much. Why are commercial vehicles only getting a 30% increase? As a Civil Engineer I know that heavy commercial vehicles cause many thousands of times as much wear on the highways as my passenger car. Also, the expense of sound walls should be studied. That cost should be borne by the homeowner if the highway was there first. Or be mostly borne by the commercial sector because they are the ones that make all the noise.
07/14/26	David C	61073	X		X		X				Oppose	This toll increase will hurt the individuals who live within Illinois that rely on the toll roads to get to work. My family cannot continue to live in a state that has the highest property taxes in the country, more new taxes coming, and now an increase in the tolls. These leadership choices hurt the residents of Illinois, and will drive families to a different state, just as mine is looking to move.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/14/26	John S. Brennan	60660	X				X			Safety	Oppose	Given the increase in tolls necessary to support the scope of this capital project, the project should be scaled down and focus primarily on maintenance and less on expansion. Expansion projects that are crucial to safety should be put on a timeline that can be supported by existing toll rates or more gradual increases in tolls in line with inflation. The proposed toll increases can only be described as "massive" and are more likely to direct divers away from the tollways and onto freeways and surface streets resulting in more congestion and wear and tear on those roads and likely fail to produce the anticipated revenues necessary for this overly-ambitious project. This proposal is "head-scratchingly" bad.
07/14/26	Joseph Bonomo	60440	X		X	X					Oppose	I oppose the proposed toll increase. This is a money grab, not a road funding necessity. The Tollway has run a surplus over maintenance and operations every year since 1973, roughly $20.7 billion cumulatively, including about $1.28 billion in surplus revenue in 2024 alone. 2024 was the highest toll revenue year in the agency's history at nearly $1.44 billion, and the Tollway already proposed a balanced budget that did not depend on a toll hike. An agency collecting record revenue, sitting on reserves, and balancing its books without new money has not demonstrated need. Meanwhile the state's Road Fund holds over $3.3 billion unused, with road fund revenues outpacing roadway spending every year from 2020 through 2025. The money exists. The justification does not. See: https://www.illinoispolicy.org/toll-free-in-73-illinois-tolls-cost-drivers-27-billion-since-then/ The timing tells the real story. House Speaker Chris Welch acknowledged the toll hike was the price of labor union support for the transit package that redirects roughly $1 billion a year away from the Road Fund, meaning drivers are being asked to backfill a political deal rather than fix pavement. Worse, the plan bolts on an automatic CPI escalator every other year beginning in 2029, so an unelected board votes once and raises costs indefinitely, with tolls more than tripling by 2055 and no further accountability. A commuter passing two tolls each workday pays about $225 more per year, and a 30 percent commercial increase lands on trucks that move nearly everything purchased in this state, making it a hidden tax on every household. Nothing in this proposal guarantees a single mile of reduced congestion. Move Illinois has run 14 plus years and $15 billion and my commute is no faster. Reject the increase, spend the surplus you already have, and come back when you can show drivers what the last $15 billion actually bought them.
07/14/26	Terence Michael Butz	60193-1750	X				X		X		Oppose	I am retired, with increases in my income. This toll was supposed to STOP in 1964, yet it keeps going up. I have nothing left to pay for your mismanagement. I do NOT SUPPORT YOUR INCREASES, ESPECIALLY FOR PEOPLE OVER 65. WE'VE PAID INTO THESE ROADS LONG ENOUGH TO EARN A BREAK FROM YOUR INCREASES! NO! NO! NO!
07/14/26		60455	X			X	X				Oppose	A hike of almost 50% January 1 and set increases every two years is outrageous. All on site employees have been eliminated which is saved revenue by the tollway. Oasis ramps have been eliminated which is another savings by the tollway and a loss for drivers. The income from current tolls is a number I would like to see audited and shared. Traffic, in particular commercial traffic is at an all time high. The Illinois tollway needs to have their current employees work on a solution without gouging the drivers. Small increases that rise with inflation are one thing, but no one gets a 50% increase in salary. Why should the tollway?
07/14/26	Roger Speicher	60004	X			X	X				Oppose	The proposed increase will shift a considerable amount of traffic to other "surface roads" to avoid particular toll points....etc. Too much of an increase at once.
07/14/26	Bb	60626					X	X		Not being constantly scammed by the tollway, you have an improved traffic yet you just use it as an excuse to keep gouging people	Oppose	Another example of the Illinois tollway gouging drivers. You have an improved traffic yet you just use it for an excuse. It’s absurd the amount of money you’ve taken in and none of these great changes have already been done or even close. Where’s the current money going to? Where’s all the past money gone to?

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/14/26	Rosemary Luther	60148	X				X			Fewer months of roadway construction	Oppose	To raise the tolls by 'about' 45 cents and then raise them again every two years will negatively affect every driver using the tollways. Your reasoning is full of empty platitudes and only promises many more YEARS of highway construction. Put yourselves to the test. Daily drive through miles of construction (realizing that you soon will be paying MORE to do this) and see how that affects you. Additionally, raising truck toll rates, will end up increasing retail prices to their end customers. In other words, consumers will experience a double hit to their financial bottom line. I am strongly opposed to the toll increase!
07/14/26	Michele Barnett	61764	X				X			Affordability	Oppose	The State of Illinois already sucks residents dry in taxes and fees, now you want to do the same. You and the state are the ones controlling the purse strings and need to start cutting expenses, which is what residents of the state have to do. If you're dead set on raising the tollway fees, show us the money. How much do you have in the bank and exactly where is it being allocated? If the toll fees are raised, I'll avoid using toll roads at every opportunity.
07/14/26	Bob Rutkowski	60441	X		X		X				Oppose	Get the money from the Illinois politician's slush funds.
07/14/26	Mark Spiotta	60189	X				X			MUCH less construction. Construction slows all traffic down.	Oppose	The toll rates in Illinois are WAY TOO HIGH relative to the benefit that drivers get from the toll roads. It seems that the tollways are always under construction -- one might use that fact to justify additional funding. However, I see it differently: my travel times have been negatively impacted more than positively impact, due to this seemingly never-ending tollway construction season. Thus I absolutely do not support increasing the toll costs another ~50%. I am also old enough to remember that the tollway authority originally sold the tollway system in IL as a temporary toll system that would cease to collect tolls once the construction was paid off. So much for telling the truth...
07/14/26	KJ Mulligan	61021					X		X	Cost	Support	I'm tired of being an Illinois resident and paying high taxes and tolls. The people up top keep making decisions for all of us. quit wasting our tax dollars
07/14/26	James Hazlett	61065				X	X			Equity and social justice	Oppose	Highway tolls are a regressive form of tax, which adversely affect lower wage working families to a greater degree than those with higher discretionary income. This increase runs counter to the values and interests of the people of Illinois.
07/14/26	orin crumrine	60525	X		X		X				Oppose	Dear Illinois Tollway Board Members, I am writing to express my opposition to the proposed Illinois Tollway passenger-vehicle rate increase. I regularly use the Tollway to commute from Lake Street to Townline Road and return from Townline Road to Ogden Avenue. Based on my normal work schedule, the proposed increase could raise my annual toll expenses from approximately $1,250 to more than $1,800 per year. That is an increase of roughly $560 per year, or about 45%. A 45% increase is excessive and places an unfair burden on commuters who rely on the Tollway to travel to and from work. Many drivers do not have a practical alternative route that would not significantly increase travel time, fuel use, congestion, and vehicle wear. Wages and household incomes are not increasing by 45%, yet commuters are being asked to absorb an increase of this size for the same daily route. Illinois residents are already facing higher costs for food, insurance, utilities, property taxes, fuel, and vehicle ownership. I understand that the Tollway must maintain and improve its roads, but such a large increase should not be imposed all at once. I ask the Board to reject the proposed increase or substantially reduce it. Any necessary adjustment should be gradual, limited, and accompanied by a clear public accounting of why the additional revenue is needed and how it will be spent. The Tollway should also consider commuter discounts, monthly caps, or reduced rates for drivers who use the same route frequently for work. Please consider the financial effect this proposal will have on working Illinois residents before approving it. Sincerely, Orin Crumrine
07/14/26	Adam	60124			X	X	X				Oppose	It's funny that were told the increases will help us spend more time with family, but that's at the expense of the drivers. If we're driving less we have less access to go places. Getting more time with family because we can't afford to drive where we want isn't a step forward

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/14/26	The Russo Family	60048	X			X	X				Oppose	This 26.5 billion dollar project should not be passed at this time. Where is the accountability of all the revenue/funds that is collected each and every year? 1. What was the revenue for each of the last five years? 2. What specifically was it spent on? Maintenance of the roads, administration costs, “arbitrary projects” like the sound-bearing walls where many have suggested were not needed or asked for, but put up to justify higher expenses, therefore higher tolls? 3. Why is the same Interstate a Tollway in Illinois and a Freeway, in far better shape in Wisconsin, with even lower gas taxes than Illinois to support it? 4. While unions have stressed that this huge toll increase would fund more jobs, it is NOT the purpose or the responsibility of this Tollway system to do so. It was meant to help people go safely and as quickly as possible to go from point A to point B. 5. The public demands that until every dollar asked for here is justified, these record increases should not be passed. It is also OUTRAGOUS that part of this plan includes a raise every two years, without the justification of any evidence of any need for the increase. Only a corrupt system would suggest this as our state as done with the gas taxes that increase automatically each year, that no longer have to justify to the public. For example, the money from these taxes this year did not only go for roads, but it was also used to balance the State Budget! We will see if this was all just a waste of time and decision has already been made.
07/14/26	Kathleen Guerrero	60463		X			X			Should be clear roads but they never are!	Oppose	What a rape of all drivers using the tollway, a tollway that was supposed to become FREE a few decades ago! You already get enough money. If you want more then get it from the commercial drivers, not the everyday people going to and from work or going to see Grandma! You should be ashamed of yourselves for even requesting more and oh by the way, let's not forget that automatic increase you want too. Shame on all of you.
07/14/26	Nikola	61021	X				X		X		Oppose	Where our toll exit is, traffic is not an issue. Our community just built so many businesses just off the ramp in order to bring more business to our city, and this increase does not help us at all. Drivers may get off in Rochelle instead or drive past us to Rock Falls. 30% for truckers is a huge increase. Families are strapped as it is and this just doesn’t seem like the right thing at the right time. Maybe it’s necessary closer to the city but by us, surely not.
07/14/26	Don Solloway	60565				X			X	I avoid the tollway system because I don’t want to line the pockets of corrupt politicians.	Oppose	Raising the price for using the tollway only solidifies my use of other roads to travel. I don’t have three most important factors in using the tollway because I try to avoid it like the plague. I don’t
07/14/26	Daniel Thompson	60452	X		X		X				Neutral	Toll roads were supposed to stop but they get sold to other countries and we just keep paying more and more… An unapportioned tax. The work is awesome but we are working so everyone will have to pay more.
07/14/26	Joe D	60449			X		X			Lower costs	Oppose	I will avoid the toll roads if they raise it and so will many others.
07/14/26	Paul Mills	60188	X		X		X				Oppose	A 60% toll increase is unjustifiable. Several of the proposed projects are for resurfacing, which should be included in the tolls we are currently paying for maintaining the system and should not require raising tolls. Some of the resurfacing projects are for areas that already have some of the best surfaces in the Chicago area and are unnecessary.

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/14/26	Veronica gill	60115	X				X			I can't wait till the Republicans take over because we are the highest paid to in the United States. I think in the whole world we pay enough taxes and y'all keep raising a toll where we can't even drive back-and-forth the fucking work to pay the fucking tolls.	Neutral	I hate Illinois born and raised here. The Democrat is dragging a city in the ground. They verse it in the Republicans. I don't understand why we are the highest paid toll role in the world and yeah it still you go certain places, discreet I still Ragley you guys are going to pay for this when it comes down with God and y'all can't take the money with y'all. That's my opinion. Don't raise The toll road no more It's all about money hungry going into the fucking politicians pocket.
07/14/26	Toni	60046					X		X	ISP	Oppose	I cannot afford another increase on a single mom budget.
07/14/26	Mark Kovach	62521	X			X	X				Neutral	
07/14/26	Chris Chika	60555	X		X		X				Oppose	The fact that a toll is charged for a service that is so messed up is astounding. If you want work to do I would suggest looking in to the lobbying, corruption and inefficiency of the construction companies.
07/14/26	Roberto Luna gil	60433	X	X					X		Neutral	
07/14/26	Rommele Brown	60473	X		X		X				Neutral	Employment opportunities would be great for all interested.
07/14/26	Tony Gonzales	60087	X	X	X						Support	
07/14/26	Steve MacMillan	60020	X			X	X				Oppose	I believe if you want to improve the Toll Roads more than you already do, you will have to do like the rest of us. Save your income until you have enough to get what you want. The people of the Illinois are not a piggy bank that the politicians can bust open any time they want some new pork project. This goes for all of the "programs" that Illinois forces us to pay for.
07/14/26	David	60123			X	X	X				Oppose	The tollway was supposed to be temporary. I wholeheartedly oppose ANY increase in tolls. Fund it through the millions you pull in every month, that's plenty.
07/14/26	Julian Rivera	46324		X	X	X					Neutral	
07/14/26	Andres Akins	46324	X		X		X				Support	
07/14/26	Megan Farley	60174		X		X			X		Oppose	We are already paying substantially more for gas and all other increased taxes within the state in the last two years. I think the this proposal should be put on pause until the state can come back a little bit and make more moves towards affordability for its citizens first.
07/14/26	Miguel Fabela Marquez	60505	X		X		X				Support	
07/14/26	Cheryl Murphy	60510	X			X	X				Oppose	Most people rely on the tollway system to commute to work. Gas, vehicle prices, and taxes are already so outrageous. A major toll increase will make getting to work even more challenging and put many workers in a terrible financial situation.
07/14/26	Renae Zammuto	60007	X	X		X					Oppose	absolutely not for this. stop supporting people's pensions.
07/14/26	Joe Riley	60404	X		X	X					Support	
07/14/26	Jon Vana	60172	X		X	X					Support	The Illinois Tollway is the backbone of the Chicago region's transportation system providing swift access and interstate connectivity. The agency has a successful history of commitment to long term planning and implementation of improvements. We should continue to support the agency's great work and invest in the future of Illinois to reduce congestion, improve safety and connectivity, and realize the associated economic and quality of life benefits. With the Tollway being a user based system, those that are critical can continue to use the "free" state and local roads and in no time will recognize the benefits that come with the Tollway system that are more than worth the cost.
07/14/26	Jennifer Finnegan	61072	X		X		X				Oppose	Unnecessary price hike when tolls already pay for tollway and there is money to spare!
07/14/26	Phyllis Buford	60649-4343	X				X		X		Support	

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/14/26	Amando Ruiz	60623	X			X			X		Support	
07/14/26	Dave Austin	60030			X		X		X		Oppose	Don't need other states you don't even pay gas is high enough without charging to use the roads
07/14/26	Raul Garcia	60475	X		X		X				Neutral	
07/14/26	CB Pender-Bey	60652	X	X	X						Support	
07/14/26	Jesus Pintor	60406			X	X	X				Support	
07/14/26	Donna Orozco Orozco Granados	60641	X				X		X		Oppose	I think 45 cents extra is too much. Perple like me will take alternative routes, if it's such a big increase!
07/14/26	Scott N Ambrose	60491	X			X	X				Oppose	The rates for tolls are already very high, so we avoid the tollway whenever we can. Tolls were supposed to be removed once the tollways were paid for, but the government got greedy and did not want to give up a source of compelling, after the tollways were paid off.
07/14/26	Carl Vanna	60586	X		X	X					Neutral	
07/14/26	Carin Jelinek	60188	X				X	X			Oppose	Already too expensive. The governor needs to find a better way to support improvements to our tollways.
07/14/26	John O'Sullivan	60074	X	X					X		Support	
07/14/26	Sunil P	60089	X		X		X				Oppose	It take a lot of time to travel due to construction that does not finish on time and is not of great quality.
07/14/26	Bernie Bockstahler	60007	X	X		X					Oppose	
07/14/26	Kevin	60106	X		X		X				Oppose	This money will just be diverted to pay for pension costs in Illinois
07/14/26	Earl Parker	60619	X		X		X				Neutral	
07/14/26	Giovanni Rodriguez	60707	X		X	X					Support	
07/14/26	Kelly	60126	X			X	X				Oppose	The tollway projects were supposed to be paid off years ago. Our outrageous taxes should be more than enough to fund road work. The state of Illinois needs to control spending in other areas instead of constantly raising our taxes and rates.
07/14/26	Jose Gomez	60632	X				X	X			Support	
07/14/26	Patrick King	60137	X			X	X				Oppose	The proposed legislation is an abdication of your fiduciary duty to the citizens. The toll and highway system cannot be used as a device to avoid the lack of fiscal management by the state of its overall budget. Automatic increases serve only the political class by seeking to avoid responsibility for inevitable future increases.
07/14/26	Adan Frieders	60548		X	X	X					Support	
07/14/26	Thomas Walsh	60423	X					X		Safety	Support	
07/14/26	Armando Lopez	60449	X		X	X					Neutral	
07/14/26	Harshbhai Jiyani	60561			X	X	X				Oppose	IL shouldn't increase the toll rates. Regulating bodies should be looking at how to cut down the costs for road maintenance.
07/14/26	Stephanie Hudson	60619		X			X	X			Neutral	
07/14/26	Robert Milam	60187					X	X	X		Oppose	Do not trust tollway officials.
07/14/26	Joshua Krull	46410	X		X		X				Neutral	
07/14/26	Jose Monroy	53179	X		X	X					Neutral	
07/14/26	Arturo Arreguin	60107	X	X					X		Support	Union Strong
07/14/26	ziauddin sarfaraz khaja	60540	X		X		X				Oppose	
07/14/26	Stacey	60120	X		X		X				Oppose	Tolls haven't been raised since 2012 however you neglect to say how many additional toll booths have been opened since 2012 which offset the raise in tolls. In addition, the gas tax continues to rise every year as well. Where is that money???
07/14/26	steve lewis	60446				X	X			no more taxes	Oppose	when is enough enough increases in tolls, property taxes,gas taxes, tell the govenor to stop raising taxes every year
07/14/26	Victor Esquivel	60634	X		X		X				Support	
07/14/26	Enrique Robles	60629	X		X		X				Neutral	
07/14/26	Adan Ramos Hernandez	60505-4816	X	X	X						Neutral	
07/14/26	jorge casimiro	60629	X	X	X						Support	

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/14/26	Miracle Thomas	61109	X	X				X			Neutral	
07/14/26	B pistorio	60646	X	X			X				Oppose	He raised it up less people will use it. I know I won't be using it as much. I'll take the Other roads
07/14/26	Ryan Schroeder	60178	X		X	X					Neutral	
07/14/26	Armando Guillen Garcia	60609	X			X	X				Support	I hope I get hired to work then if this provides more jobs.
07/14/26	Ismael Rios	60629	X		X		X				Neutral	
07/14/26	Susan Leiterman	60410	X	X			X				Neutral	I've reviewed the materials provided, and it is very glossy marketing. Where can I find the data that supports the rate increase? How much do tolls bring in today? Where is that money spent? What portion of tolls goes to administrative expense and salaries?Are trucks paying their fair share? They are tough on the roads. I294 has been under construction for years, and now you're going to start over? I don't specifically disagree with a toll hike if it is warranted, and you show that data that supports this.
07/14/26	Ladislao Juarez	46323	X		X	X					Support	In support of the driving connections capital program. It will create good paying jobs for LiUNA members.
07/14/26	Gardell Branch	60643	X				X	X			Neutral	
07/14/26	Larry Lewandowski	60638	X		X	X					Support	KEEP EVERYONE HAPPY & SAFE WORKING ON THE ROADS - (MRBEAR) UNION TILL I DIE !
07/14/26	DanD K	48232	X			X	X				Oppose	As is, it is not cheap. If this proposal gets passed, I would do everything I can to avoid toll road.
07/14/26	Brenda Bonomo	60440	X		X	X					Oppose	This is a slush fund. You state "improve congestion" but no congestion metrics have been provided. Everyone would agree with this proposal if it wasn't a slush fund/blank check. The plan should be detailed with rough cost estimates and no hidden "programwide" lines that essentially mean we send more money into a bucket that is determined how to be used by unelected individuals with hidden agendas.
07/14/26	Brian Sajuan	60085	X	X	X						Neutral	
07/14/26	Brian Urso	61008	X	X	X						Support	
07/14/26	Jose Lopez	60104	X	X	X						Neutral	
07/14/26	Brandon Sheahan	60180	X	X	X						Support	
07/14/26	Gregory Krettler	60013	X		X	X					Support	Only real question is why isn't this project bigger!
07/14/26	Rene Rodriguez	60446	X		X		X				Support	
07/14/26		60074	X		X		X				Oppose	Stop squeezing the turnip... it's dry!!
07/14/26	Mohamed	60630	X		X		X				Oppose	Weren't tolls made to be temporary and only to recoup construction expenses? Wasn't it promised to be over by 1973? There is a debatable reason to keep them let alone increase the rates!
07/14/26	Ed Kulchar	60527	X		X	X					Support	The proposed plan is not only vital to the State's infrastructure, but also the stability of a growing middle class in Illinois.
07/14/26	Jack Connolly	60464	X		X	X					Support	
07/14/26	Mike Calabro	60660			X	X	X				Oppose	
07/14/26	Allyson	60172	X		X		X				Oppose	
07/14/26	Martin F Cusack	60452	X				X		X		Oppose	First and foremost gas taxes have put a heavy burden on drivers. Yet EV drivers pay none. EV's are heavier and cause more road damage . 2nd why are we funding public transportation? Why not open the books to an independent auditor to see how the toll and tax money is distributed.
07/14/26		60657			X	X	X				Oppose	
07/14/26	James Woods	60143	X			X				motorist safety	Support	
07/14/26	Denise Blank	37934			X	X	X				Neutral	Could there be other fees levied on I-Pass holders? I no longer live in IL, but have kept I-pass for travel in other states, instead of switching my account. I do not wish to pay for IL infrastructure, so am considering closing my IL account to avoid potential of being made to pay.
07/14/26	Linda S Ruggero	60101		X			X			less construction traffic jams	Oppose	That increase is way too high and then you plan annual increases? I just received this message and at least 1 of the meetings date has passed. All that construction will also mean more traffic jams for more money People need to get to work in an affordable manor

2026 Illinois Tollway Proposed Rate Increase

ONLINE PUBLIC COMMENT FORM REPONSES *(June 18, 2026 - August 3, 2026)*

Date	Name *(optional)*	Zip Code	Which of these factors is most important to you when traveling on the Tollway? (choose 3)								Which best summarizes your position on the proposed toll increase?	Comments *(optional)*
			Well maintained roads	More access points (entrance and exit ramps)	Less traffic	Predictable drive times	Affordability	Connections to buses, trains and airports	Driver services (roadside help, rest stops)	Other (please specify)		
07/14/26	Cathy Sirvatka	60563	X	X			X				Neutral	The price would be worth it to me for sure if I didn't think we were going to be in construction hell for the rest of our lives. That sounds like hyperbole but seriously, look at I-294. That has been going on for years making traffic (and figuring out the latest configuration) a nightmare. Those of us who use all the highways in some way will be dealing with worse traffic for several years with all this work. Yes the outcome sounds great, but what I want to hear is how QUICKLY and DILIGANTLY this will all get done. I want to know that the work progresses every day, regardless of season or hour. Please make it so we don't live DOWN to our reputation of 24/7/365 construction in the Chicagoland.
07/14/26	Andrew celentano	60098		X				X		Incorporate light rail onto median or replace lanes	Neutral	Add parking lots that allow access by busses and corporate employee transit sponsored by large companies or attractions like amusement or cultural attractions linking to a last mile plan. Consider golf carts and pv as part of plan for maximizing use
07/14/26	Mary Ziarko	60451	X		X		X				Oppose	They already charge too much. I think they should look elsewhere for funds All those workers that lost jobs because they went with everything online Hard to reach workers if you need help with something. SAD
07/14/26	Debbie Schaffer	60188			X		X		X		Oppose	IL keeps getting worse and worse on taxes and increases. Tired of it and that's why everyone is moving from IL
07/14/26	JEANNA TENUTA	60446	X		X		X				Oppose	Tolls and taxes are expensive enough
07/14/26	Steve Campbell	61802	X			X	X				Oppose	Automatic increases are NOT right!
07/14/26	Darina Lichner	60016	X		X		X				Oppose	This raise in rates is outrageous
07/14/26	Fedjur	60192	X		X		X				Oppose	Proposal coming from politicians ..... all lies. What features are being put into place regarding accountability? How does the public know that all the funds are going to infrastructure and not to all the freebies that the State gives to illegal immigrants! I will make sure to avoid all tollways as it relates to any commutes that I do. I will not give one more cent to Illinois.
07/14/26	Antonia Moore	60440	X		X		X				Oppose	The toll system was supposed to be temporary as it was supposed to pay for itself in a short term. Several years and I'm sure billions of dollars in revenue later, you're asking strapped Illinois residents already suffering from inflation and other rising costs to foot the bill for another project. Use the overhead saved from eliminating the manned toll collectors or the money taken in from fees and fines and violations. Do not increase toll rates!
07/14/26	Sandy Christensen	60014	X	X			X				Neutral	Since the Illinois Tollway Division is a separate part of the Illinois government and not accountable to the Governor or State Legislature, I feel it is important for them to be fully transparent in their financial status on how much of the existing funds they have on hand will help pay for this proposal. The system takes in a lot of money every day so a lot of this proposal funding should come out of their own accounts on hand. They need to make this very clear in the public townhalls they plan to hold. We as Illinois residents deserve this!
07/14/26	Cathie Holmgaard	61111	X			X	X				Oppose	Tolls are so incredibly high now, it adds $10.00 or more to go visit my son and his family. People cannot afford a 25% increase. The State of IL needs to manage it's financial resources better - the state is receiving plenty of money to build/maintain roads. Initially, these I-90 tolls were supposed to be TEMPORARY. But they have only increased and before more prevalent (I-55, I-290, etc.)
07/14/26	Paul	60706		X			X		X		Oppose	The cost is already high.
07/14/26	Kirsten Pehl	60554	X		X		X				Oppose	Already pay way too much- I drive daily to get to work and with gas prices- this is insane.
07/14/26	Tommy Ricker	60560		X				X		Quicker	Oppose	Tolls are expensive enough, and we don't even get the money you sold the tolls, so NO raise in toll prices!!!!!
07/14/26	Michael Barnes	38843	X		X				X		Support	
07/14/26	william kolenda	60563			X				X	Roads are always under construction.Nothing seems to change.Do not raise the toll rates	Oppose	The tollway already cost me way too much. Please don't raise it.
