

ENGINEERING CO-OP PROGRAM

June 2025 through May 2026 or
June 2025 to August 2025

Application deadline:
Sunday, March 30, 2025

Apply now for an enriching experience of engineering work and career development in the transportation industry.

The Engineering Cooperative Education (Co-Op) Program is ideal for current students interested in:

- Civil Engineering
- Electrical Engineering
- Construction Management
- Industrial Engineering
- Other related fields

The Co-Op Experience

- Hands-on learning in the transportation industry
- Two paid co-op length options: summer only or year-round
- Fieldwork experience on active construction projects* and mentorship by Illinois Tollway engineers
- Professional development activities and interactive networking experiences during the summer
- Engineering work arranged in 3 phases: Planning (forecasting and project management), Design (structural drafting and 3-D modeling), and Construction (Inspections and traffic maintenance)

*Please note: Students must have reliable transportation to active construction sites which may not be easily accessible by public transportation.

For qualifications, application details, and more, scan the QR code or visit illinoistollway.com/careers

Register for the live informational webinar on Friday, March 14, 10:00AM–11:00AM CT
